Item 5.1

Full Description of Material Change

On February 5, 2009, the Corporation entered into a letter agreement with Robert R. McEwen, a director and existing shareholder of the Corporation, pursuant to which Mr. McEwen or an affiliate of Mr. McEwen will purchase, on a private placement basis, 121,212,121 common shares of the Corporation (the Offered Shares) at a price of C\$0.33 per share, for proceeds of C\$40.0 million. The subscription price is equal to the closing price of the Corporation's common shares on the Toronto Stock Exchange (the TSX) on February 4, 2009. The Corporation and Mr. McEwen entered into a formal subscription agreement on February 9, 2009 regarding the private placement. A copy of the formal subscription agreement is available under the Corporation's profile on www.sedar.com.

Of the proceeds, approximately US\$11.3 million will be applied to fund the Corporation's share of the cash call in respect of its 49% interest in the San José Project and US\$17.5 million will be applied to repay the Corporation's outstanding indebtedness to Macquarie Bank Limited. The balance of the proceeds will be used for general corporate purposes and exploration. Closing of the offering is anticipated to occur on February 16, 2009 to allow sufficient time for the portion of the proceeds that will be applied to fund the cash call to be transferred to Argentina in light of applicable restrictions on foreign currency transactions under Argentinean law.

The completion of the offering is subject to a number of conditions including obtaining approval of the TSX. Mr. McEwen presently owns, or exercises control or direction over, 46,057,143 common shares, or 24.3% of the issued and outstanding common shares. The issuance of the 121,212,121 common shares to Mr. McEwen pursuant to the proposed private placement (which represents 63.7% of the currently issued and outstanding 190,158,851 common shares) will result in Mr. McEwen exercising control or direction over 167,269,264 common shares, or approximately 53.7% of the then issued and outstanding 311,370,972 common shares. Mr. McEwen will also have the right to appoint two additional directors to the board of Minera Andes, bringing the total directors appointed by Mr. McEwen to three.

The Corporation's joint venture partner in the San José Project, Hochschild Mining plc, has offered the Corporation an extension to March 3, 2009 of the February 17, 2009 deadline for payment of the cash call, to allow for the complexities of transferring funds to Argentina. The Corporation has accepted this offer, with gratitude to Hochschild Mining plc.

Under the TSX Company Manual, shareholder approval would be required as a result of the fact that (i) the number of common shares issued pursuant to the private placement will be in excess of 25% of the currently issued and outstanding common shares of the Company at an issue price below the volume weighted average price of the common shares on the TSX during the five trading days up to and including February 4, 2009, the day preceding the date of the letter agreement made between the Corporation and Mr. McEwen, and (ii) the private placement will result in greater than 10% of the outstanding common shares of the Corporation being issued to an insider of the Corporation.

The Corporation has applied to the TSX under the provisions of Section 604(e) of the TSX Company Manual for an exemption from securityholder approval requirements. The members of the Special Committee of the Corporation's Board of Directors, Allan Marter, Donald Quick and Victor Lazarovici (each of whom is free from any interest in the offering), have authorized such application and have concluded that the Corporation is in serious financial difficulty as a result of the cash call for the San José Project and the outstanding bank indebtedness, the private placement is intended to improve the Corporation's financial situation, and the private placement is reasonable for the Corporation under the circumstances.

The TSX has advised that it has not yet granted its approval of the Corporation's reliance on Section 604(e) pending the provision of additional information regarding the Corporation's financial condition, its obligations with respect to the funding of the San José Project, and Mr. McEwen's involvement with the Corporation and the availability of alternative transactions. The TSX has advised that the Corporation will automatically be subject, in the ordinary

course, to a de-listing review as a result of relying on the financial hardship exemption under Section 604(e). The Corporation believes that, upon completion of the private placement, it will be in compliance with all of the TSX listing requirements.

The private placement will also be a related party transaction for the purposes of Multilateral Instrument 61-101 *Protection of Minority Shareholders in Special Transactions* (MI-61-101). It is the intention of the Corporation to avail itself of the exemptions set forth in sections 5.5(g) and 5.7(1)(e) of MI 61-101 from provisions that would otherwise require the Corporation to obtain a formal valuation and the approval of its minority shareholders, respectively, in connection with the private placement, on the basis that the Special Committee (being all of the independent directors of the Corporation for this purpose) and the board of directors having determined that the Corporation is in serious financial difficulty and the private placement is designed to improve the financial position of the Corporation, and that the terms of the private placement are reasonable in the circumstances to the Corporation, all as described above.

As the letter agreement and formal subscription agreement were not entered into until February 5, 2009 and February 9, 2009 respectively, and because of the time and procedural steps required under applicable restrictions on foreign currency transactions under Argentinean law to cause the portion of the proceeds that will applied to fund the cash call to be transferred to Argentina, completion of the private placement must occur on or before February 16, 2009. Accordingly the Corporation is unable to file this material change report more than 21 days before the expected date of the completion of the private placement.

A copy of this material change report will be sent without charge to any shareholder of the Corporation upon request to Art Johnson (Spokane Office) at 111 East Magnesium Road, Ste. A, Spokane, WA 99208 USA, or Krister A. Kottmeier, investor relations Canada (Vancouver Office), at 911-470 Granville Street, Vancouver, B.C. V6C 1V5.
