FOR IMMEDIATE RELEASE

EARNINGS RELEASE

SILICOM ANNOUNCES FINANCIAL RESULTS
FOR Q2 & H1 2008

Q2 Revenues Decrease to \$5.2M Yielding \$0.05 EPS; H1 Revenues Up 2% to \$12.9M With \$0.30 EPS

KFAR SAVA, Israel July 28, 2008 Silicom Ltd. (NASDAQ and TASE: **SILC**) today reported its financial results for the second quarter and six months ended June 30, 2008.

Revenues for the second quarter of 2008 were \$5.2 million, a decrease of 22% compared with \$6.6 million in the second quarter of 2007, reflecting the difficult market environment and a significant reduction in the purchases of the Company's largest customer. Net income for the period was \$0.3 million, or \$0.05 per share (basic and diluted), compared with \$1.6 million, or \$0.25 per diluted share (\$0.26 per basic share), for the second quarter of 2007.

Revenues for the first half of 2008 were \$12.9 million, compared with \$12.7 million for the first half of 2007. Net income for the six-month period was \$2.1 million, or \$0.30 per basic share (\$0.31 per diluted share), compared with \$2.8 million, or \$0.47 per diluted share (\$0.49 per basic share), for the first six months of 2007.

The Company's profitability for both the quarter and the first half were impacted by the period's sharp decline in the shekel/dollar exchange rate, which has significantly increased the Company's shekel-based expenses as expressed in dollar terms.

As of the end of the second quarter, the Company's cash, cash equivalents and marketable securities totaled \$37.5 million, an increase of \$2.4 million compared with the end of the first quarter of 2008, and an increase of \$4.6 million compared with the end of 2007.

Commenting on the results, Shaiké Orbach, President and CEO, said, "Although we have reported our first down quarter after 17 quarters of growth, we are encouraged by demonstrated indications that point towards continuous growth for our Company over the long term.

On the one hand, our revenues for the quarter suffered from both the difficult market environment, which has affected the revenues of many players in the network appliance value chain, and from a significant reduction in orders from our largest customer. We have been impacted by the customer's new appliance configurations, which reflect its decision to begin offering our copper BYPASS cards as an optional add-on rather than as a standard component, as well as by its low quarterly volume of orders for fiber cards.

Mr. Orbach continued, "On the other hand, during the quarter we were encouraged by news of an opposite nature: the fact that our Fortune 100 WAN Optimization customer intends to make our BYPASS cards a standard rather than an optional feature in one of its new WAN Optimization appliances.

The fact that this customer's appliance product line has such a significant future sales potential makes this an exciting long-term opportunity for us. This, together with the fact that we have nearly concluded discussions with several new accounts that will be deploying our cards in their appliances, gives us confidence regarding our ability to deliver continuous growth over the long term.
