⁴ Equivalent to 39.3% of service revenues in Q2 2008, compared with 39.7% of service revenues in Q2 2007

Rosh Ha ayin, Israel, July 31, 2008 Partner Communications Company Ltd. (Partner or the Company) (NASDAQ and TASE: PTNR), a leading Israeli mobile communications operator, today announced its results for the second quarter of 2008. Partner reported total revenues of NIS 1.5 billion (US\$ 461 million) in Q2 2008, EBITDA of NIS 541 million (US\$ 161 million), and net income of NIS 247 million (US\$ 74 million).

Commenting on the quarter's results, Partner's CEO, Mr. David Avner, said: I am pleased with Partner's second quarter performance, which was in line with our expectations. Excluding the effect of the one-time credit of NIS 24 million in Q2 2007, Partner's EBITDA increased by 9.3% this quarter compared with Q2 2007, and net income increased by 17.2%.

In this quarter, we have managed to recruit 33,000 high quality subscribers, 80% of whom are post-paid subscribers. This level of net additions, coupled with the decrease in churn rate in the quarter compared with Q1 2008, is consistent with our previous assessments regarding the long-term impact of number portability, and is the most concrete proof of our subscribers' loyalty and the Company's success in focusing on our customers and their needs. As stated in a survey run by The Marker in July 2008, Partner's subscribers are indeed the most satisfied and the most loyal customers to their cellular provider.

Mr. Avner added: Our outstanding cash flow this quarter reflects Partner's ability to continue and deliver value to our shareholders as well as to support new initiatives. We are making steady advancements in our plan to become a player in the broadband residential market, and we intend to launch our new platform of services at the beginning of 2009. I am certain that Partner, based on its successful track record, will once again set new industry standards which will be reflected in a high level of service and a rich range of content services.

Mr. Avner concluded: I am also very proud of Partner's recent marketing achievements. This quarter orangeTM was again re-elected the leading telecom brand in Israel for the sixth consecutive year by Globes, the Israeli daily business newspaper. Partner also won the Effie Award in the communication category, for the Precisely for You marketing campaign. These successes are further recognitions of Partner's brand and position strengths, assets that we will further leverage to enter new communications areas and broaden our portfolio of services for the benefit of both our customers and shareholders. On a more personal note, the award that excited me most was winning the best workplace award in the telecom industry which was granted to us by BDI. Of all the assets we have built through the years our employees are the most valuable.

Financial Review

Partner's net revenues in Q2 2008 totaled NIS 1,544.1 million (US\$ 460.7 million), an increase of 5.2% from NIS 1,467.5 million in Q2 2007.

The increase in net revenues primarily reflects growth in service revenues which increased by 5.2% from NIS 1,307.6 million in Q2 2007 to NIS 1,375.9 million (US\$ 410.5 million) in Q2 2008. The increase in service revenues primarily reflects the 4.5% growth in the subscriber base, an increase in the weight of post-paid subscribers in our subscriber base, higher average minutes of use, as well as an increase in content and data revenues. The higher revenues that resulted were partially offset by a decrease in average revenue per minute resulting from competitive pressures and regulatory intervention including the approximate 14% reduction in interconnect tariffs which went into effect on March 1, 2008, the final reduction in the Ministry of Communications' program of mandated gradual reductions from 2005 to 2008.

Revenues from content and data excluding SMS in Q2 2008 amounted to NIS 121.4 million (US\$ 36.2 million), increasing by 30.1% from Q2 2007, the equivalent of 8.8% of service revenues in Q2 2008, compared with 7.1% of service revenues in Q2 2007. The marginal decrease compared with Q1 2008 is explained mainly by special promotions that were offered during the quarter.

In Q2 2008 revenues from SMS were NIS 77.5 million (US\$ 23.1 million), an increase of 24.8% compared with Q2 2007, the equivalent of 5.6% of service revenues in Q2 2008, compared with 4.7% in Q2 2007.

Gross profit from services was NIS 568.1 million (US\$ 169.5 million) in Q2 2008, representing an increase of 1.8% compared with NIS 558.2 million in Q2 2007. The increase reflects the growth in service revenues, offset by a 7.8% increase in the cost of service revenues, primarily reflecting the recording of a one-time credit of approximately NIS 24 million in Q2 2007, and additional depreciation expenses of approximately NIS 20 million resulting from the accelerated depreciation of the equipment to be replaced under an agreement with LM Ericsson Israel Ltd. The full year depreciation expenses resulting from the agreement are estimated at approximately NIS 74 million in 2008, of which NIS 56 million has been recorded to date. Most of the remaining NIS 18 million will be depreciated in Q3 2008.

Equipment revenues in Q2 2008 totaled NIS 168.2 million (US\$ 50.2 million), an increase of 5.2% from NIS 159.9 million in Q2 2007. The increase is primarily attributable to the higher proportion of 3G handsets sold compared with 2G handsets, partially offset by a lower number of transactions. **Gross loss on equipment** was NIS 24.5 million (US\$ 7.3 million), representing a decrease of 56.4% from NIS 56.3 million in Q2 2007. This mainly reflects the decrease in the cost per handset sold, as well as an increase in the use of more competitive airtime rate plan tariffs that offer lower subsidies.

5

Overall, gross profit increased by 8.3%, from NIS 502.0 million in Q2 2007 to NIS 543.6 million (US\$ 162.2 million) in Q2 2008.

In Q2 2008 **selling, marketing, general and administration expenses** were NIS 165.7 million (US\$ 49.4 million), increasing by 23.0% from NIS 134.7 million in Q2 2007. The increase largely reflects the lower marketing activity that took place in Q2 2007, as well as an increase in provisions for doubtful accounts from receivables on handset sales and service revenues.

Overall, **operating profit** totaled NIS 377.9 million (US\$ 112.7 million) in Q2 2008, representing a 2.9% increase from NIS 367.2 million in Q2 2007.

Quarterly **EBITDA** in Q2 2008 was NIS 541.0 million (US\$ 161.4 million), the equivalent of 39.3% of service revenues or 35.0% of total revenues, up by 4.2% compared with NIS 519.1 million in Q2 2007, the equivalent of 39.7% of service revenues or 35.4% of total revenues. The increase is broadly explained by the rise in revenues being partially offset by the increase in cost of service revenues which was due to the recording of a one-time credit of approximately NIS 24 million in Q2 2007.

In Q2 2008 **financial expenses** totaled NIS 32.4 million (US\$ 9.7 million), a decrease of 17.9% from NIS 39.5 million in Q2 2007. The decrease is primarily due to an increase in gains from currency movements and financial income from handset payments in installments, partially offset by higher linkage expenses due to the higher CPI level.

Quarterly **net income** for Q2 2008 was NIS 247.3 million (US\$ 73.8 million), compared with NIS 228.1 million in Q2 2007, an increase of 8.4%.

Basic earnings per share or ADS, based on the average number of shares outstanding during Q2 2008, was NIS 1.58 (US\$ 0.47), an increase of 8.2% from NIS 1.46 in Q2 2007.

Funding and Investing Review

Cash flows generated from operating activities, net of cash flows from investing activities in Q2 2008 totaled NIS 601.0 million (US\$ 179.3 million), representing an increase of NIS 366.8 million or 156.6% compared with NIS 234.3 million in Q2 2007, and an increase of NIS 621 million compared with NIS 20.0 million in Q1 2008. The increase largely reflects the one-time effects of the introduction of the factoring of handset revenues which increased quarterly operating cash flow in the amount of approximately NIS 194 million, and initiatives that were taken to reduce the working capital and cash flow volatility. The increase was partially offset by an increase in cash flows used for investing activities which totaled NIS 120.7 million (US\$ 36.0 million), compared with NIS 110.4 million in Q2 2007, an increase of 9.3%.

In February 2008, the Board approved a **share buy-back plan** for 2008 in an amount of up to NIS 600 million, subject to appropriate market conditions. As of June 30, 2008, the Company had repurchased approximately 2.5 million of its shares at an average price per share of NIS 79.02, for a total consideration of approximately NIS 198 million.

The Board has approved the distribution of a **dividend for Q2 2008** of NIS 1.26 (US\$ 0.38) per share (in total approximately NIS 200 million or US\$ 60 million) to shareholders and ADS holders of record on September 1, 2008. The dividend will be paid on September 18, 2008.

Operational Review

In Q2 2008 approximately 33,000 **net active subscribers** joined the Company, consisting of approximately 27,000 new net active postpaid subscribers and 6,000 new net active prepaid subscribers. The Company's **active subscriber base** at the end of Q2 2008 was approximately 2,856,000, including approximately 750,000 business subscribers (26.3% of the base), 1,385,000 postpaid private subscribers (48.5% of the base) and 721,000 prepaid subscribers (25.2% of the base).

Approximately 834,000 subscribers were subscribed to the **3G network** by the end of Q2 2008. Total **market share** at the end of the quarter is estimated to be approximately 32%.

The quarterly **churn rate** in Q2 2008 was 4.0%, an increase from 3.5% in Q2 2007 but a decrease from 5.1% in Q1 2008. The increase compared with Q2 2007 is generally explained by the tail effect of number portability.

Average monthly usage per subscriber (**MOU**) in Q2 2008 was 368 minutes, increasing by 11.2% from 331 in Q2 2007. Average revenue per user (**ARPU**) in Q2 2008 was approximately NIS 158 (US\$ 47), an increase of 0.6% from NIS 157 in Q2 2007.

Other

In July 2008 Partner signed a five-year agreement with Bezeq, effective from December 2007, for the supply of transmission services for use in Partner's mobile backhauling and backbone network. The Company believes that the transmission services purchased from Bezeq, together with the use of its own transmission network, will allow the Company to meet all its transmission requirements, at an improved cost, during the next five years. The minimum annual commitment of Partner is expected to be approximately NIS 60 million.

Outlook and Guidance

Commenting on the Company's results, Mr. Emanuel Avner, Partner's Chief Financial Officer said: I am encouraged by the underlying improvements in all the key margins this quarter, and in particular the increase in the net income margin. I am also very pleased that free cash flow bounced back this quarter to a record level of NIS 601 million. This is a direct result of our continuous efforts to further improve the cash flow of the Company also through the lowering of working capital, and reflects the Company's robust financial structure and ability to increase shareholder value.

Including the effect of dividends and the share buy-back, Partner has returned to shareholders approximately NIS 713 million in H1 2008 (NIS 198 million resulting from the share buy-back plan as of June 30, 2008 and NIS 515 million distributed as cash dividend during the first half of 2008), providing an impressive shareholders' yield.

Mr. Avner added: The half-year results for 2008 and future prospects remain in line with the annual guidance we provided in the press release of February 6, 2008.

Conference Call Details

Partner Communications will hold a conference call to discuss the company's first quarter results on Thursday, July 31, 2008, at 17:00 Israel local time (10AM EST). This conference call will be broadcast live over the Internet and can be accessed by all interested parties through our investor relations web site at http://www.orange.co.il/investor_site/.

For those unable to listen to the live broadcast, an archive of the call will be available via the Internet (at the same location as the live broadcast) shortly after the call ends, and until midnight of August 7, 2008.

Forward-Looking Statements

This press release includes forward-looking statements within the meaning of Section 27A of the US Securities Act of 1933, as amended, Section 21E of the US Securities Exchange Act of 1934, as amended, and the safe harbor provisions of the US Private Securities Litigation Reform Act of 1995. Words such as believe, anticipate, expect, intend, seek, will, plan, could, may, project, goal, target often identify forward-looking statements but are not the only way we identify these statements. All statements other than statements of historical fact included in this press release regarding our future performance, plans to increase revenues or margins or preserve or expand market share in existing or new markets, reduce expenses and any statements regarding other future events or our future prospects, are forward-looking statements.

We have based these forward-looking statements on our current knowledge and our present beliefs and expectations regarding possible future events. These forward-looking statements are subject to risks, uncertainties and assumptions about Partner, consumer habits and preferences in cellular telephone usage, trends in the Israeli telecommunications industry in general and possible regulatory and legal developments. For a description of some of the risks we face, see Item 3D. Key Information Risk Factors , Item 4. Information on the Company , Item 5. Operating and Financial Review and Prospects and Item 8A. Consolidated Financial Statements and Other Financial Information Legal and Administrative Proceedings in the form 20-F filed with the SEC on May 6, 2008. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this press release might not occur, and actual results may differ materially from the results anticipated. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The financial results presented in this press release are preliminary un-audited financial results.

The results were prepared in accordance with U.S. GAAP, other than EBITDA which is a non-GAAP financial measure.

The convenience translations of the nominal New Israeli Shekel (NIS) figures into US Dollars were made at the rate of exchange prevailing at June 30, 2008: US \$1.00 equals NIS 3.352. The translations were made purely for the convenience of the reader.

Use of Non-GAAP Financial Measure:

Earnings before interest, taxes, depreciation, amortization, exceptional items and capitalization of intangible assets (EBITDA) is presented because it is a measure commonly used in the telecommunications industry and is presented solely to enhance the understanding of our operating results. EBITDA, however, should not be considered as an alternative to operating income or income for the year as an indicator of our operating performance. Similarly, EBITDA should not be considered as an alternative to cash flow from operating activities as a measure of liquidity. EBITDA is not a measure of financial performance under generally accepted accounting principles and may not be comparable to other similarly titled measures for other companies. EBITDA may not be indicative of our historic operating results nor is it meant to be predictive of potential future results.

Reconciliation between our net cash flow from operating activities and EBIDTA is presented in the attached summary financial results.
