Gilat's Spacenet Selected by Cumberland Farms to Provide
Managed Network Services Solution

- Spacenet to Upgrade and Manage Cumberland Farms' Network at Retail Locations -

Petah Tikva, Israel, October 25, 2011 -- Gilat Satellite Networks Ltd. (NASDAQ: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that its wholly owned subsidiary, Spacenet Inc., was selected by Cumberland Farms Inc. to upgrade and manage its communications infrastructure for over 600 stores across 11 states. The upgraded network solution will utilize DSL service to deliver higher network performance and a VSAT satellite overlay to maintain business continuity at each site. Spacenet will install the award winning Pysm Pro network management device at each location to monitor and manage this hybrid network.

“Cumberland Farms constantly assesses and revamps its strategies to improve each customer’s experience and make it an enjoyable one” said Cumberland Farms’ CIO, Dave Banks. “Specific enhancements this time around required an optimization of our network performance and improved support of our in-store applications. The enhancements also allow us to have a separate network at the stores for non-PCI compliant devices and partners, which is very important as we bring in new technologies. We knew that we would not achieve our goals without the right communications partner, one that understood our business and values when providing our customers with the tremendous service level that we always strive for. Spacenet’s expertise in managed network services made it the ideal choice, giving us the flexibility we need while boosting network efficiency and reducing our overall costs. The upgraded network and services from Spacenet will help us keep our position as the premier convenience brand and fulfill our promise to make every day easier for the communities we serve.”

Because of its unique vendor agnostic approach, Spacenet will be able to upgrade Cumberland Farms’ existing broadband services to higher speed broadband services while providing VSAT based business continuity and multicast capabilities. This upgraded network will provide Cumberland Farms locations with a cost-effective, redundant communication network which will support their advanced retail application needs from PCI compliance to POS and inventory tracking as well as back-office applications.

“Spacenet and Cumberland Farms share a similar vision, to deliver unparalleled service and tremendous value to their customers through innovation and support,” said Spacenet President and COO, Glenn Katz. “Together, we will be able to help Cumberland Farms continue providing superb customer service and innovative products to its clients while reducing cost and ensuring network availability. This contract represents more than an extension of our relationship; it’s a partnership for success.”

About Cumberland Farms

Cumberland Farms makes life easier for busy people every day. Its network of convenience stores across 11 states reflect the values of three generations of providing customers with value, convenience and unparalleled service - whether you're buying a cold Chill Zone drink, a cup of Farmhouse Blend Coffee or filling the gas tank. Rooted in a family-farm heritage today's Cumberland Farms also has a long heritage of giving back to the communities where it operates. About Spacenet®

Since 1981, Spacenet Inc. has designed, implemented and managed some of the largest communications networks for US based business, industrial and government customers. Spacenet has a longstanding tradition of industry leadership and innovation, and today manages communications at more than 130,000 locations for customers including many Fortune 500 companies and major government agencies. The company offers a complete product and services portfolio for converged voice and data applications ranging from primary communications and secure data transfer, to hot stand-by solutions for continuity of operations and network backup, or field deployable solutions for disaster recovery and emergency management. Spacenet is based in McLean, Virginia, and operates its own end-to-end services infrastructure including network management, field services and teleport facilities in McLean, VA; Atlanta, Georgia; and Chicago, Illinois. Spacenet is a wholly owned subsidiary of Gilat Satellite Networks Ltd. (NASDAQ: GILT). Visit Spacenet at <http://www.spacenet.com>

About Gilat

Gilat Satellite Networks Ltd. is a leading provider of products and professional services for satellite-based broadband communications networks worldwide. Gilat was founded in 1987 and has shipped over 1 million Very Small Aperture Terminals (VSATs) to more than 85 countries across six continents. Gilat's headquarters is located in Petah Tikva, Israel. The Company has 22 sales and service offices worldwide. Gilat develops and markets an expansive range of broadband satellite solutions including high-performance VSATs under the SkyEdge™ and SkyEdge II brands, low-profile antennas for satcom-on-the-move, under the RaySat Antenna Systems and the StealthRay™ brands and next generation solid-state power amplifiers for mission-critical defense and broadcast satellite communications systems under the Wavestream brand. Gilat's wholly-owned subsidiary, Spacenet Inc., is a leading provider of managed services in North America to the business and government segments. Visit Gilat at www.gilat.com.
