All statements other than statements of historical fact included in this press release regarding anticipated benefits for the Company in terms of reduced network operating costs and accelerated improvements in its cellular network infrastructure quality and capacity as a result of entering into the network sharing agreement with Hot Mobile and any statements regarding other future events or our future prospects, are forward-looking statements. These forward-looking statements are based on management's current beliefs and expectations, and are not guarantees of future performance. Future results may differ materially from those anticipated by these forward-looking statements in the event that, among other potential risks, credit or payment difficulties which will make it difficult for any of the parties to contribute effectively to the financing of the JV; the elimination of network sites results in lower operational savings than expected; other Israeli authorities do not approve the network sharing agreement or require changes which would render the agreement unattractive from the Company's perspective; the JV experiences management deadlock; or the parties' existing agreements with other Israeli telecommunications companies limit the parties' ability to realize their objectives. If such risks materialize, it may not be possible to establish the JV as the parties intend or at all, the benefits from the JV may be less than anticipated, and the Company may experience unexpected costs for technical, legal or other matters which may arise in connection with its efforts to implement the network sharing agreement. For a description of other risks potentially impacting the Company's business and strategic development, see the Company's Annual Report on Form 20-F filed with the SEC and published on the Company's website (<http://www.orange.co.il>).
