INDIA GLOBALIZATION CAPITAL, INC.

Background of India Globalization Capital, Inc.
(IGC)

IGC, a Maryland corporation, was organized on April 29, 2005 as a blank check company formed for the purpose of acquiring one or more businesses with operations primarily in India through a merger, capital stock exchange, asset acquisition or other similar business combination or acquisition. On March 8, 2006, we completed an initial public offering. On February 19, 2007, we incorporated India Globalization Capital, Mauritius, Limited (IGC-M), a wholly owned subsidiary, under the laws of Mauritius. On March 7, 2008, we consummated the acquisition of 63% of the equity of Sricon Infrastructure Private Limited (Sricon) and 77% of the equity of Techni Bharathi Limited (TBL). The shares of the two Indian companies, Sricon and TBL, are held by IGC-M. On February 19, 2009 IGC-M beneficially purchased 100% of IGC Mining and Trading, Limited (IGC-IMT based in Chennai, India). IGC-IMT was formed on December 16, 2008 as a privately held start-up company engaged in the business of mining and trading. Its current activity is to operate a shipping hub and export iron ore to China. On July 4, 2009, IGC-M beneficially purchased 100% of IGC Materials, Private Limited (IGC-MPL based in Nagpur, India), which will conduct IGC's quarrying business, and 100% of IGC Logistics, Private Limited (IGC-LPL based in Nagpur, India), which will be involved in the transport and delivery of ore, cement, aggregate and other material. Each of IGC-IMT, IGC-MPL and IGC-LPL were formed by third parties at the behest of IGC-M to facilitate the creation of the subsidiaries, and the purchase price paid for each of IGC-IMT, IGC-MPL and IGC-LPL was equal to the expenses incurred in incorporating the respective entities with no premium paid. No officer or director of IGC had a financial interest in the subsidiaries at the time of their acquisition by IGC-M. India Globalization Capital, Inc. (the Registrant, the Company, or we) and its subsidiaries are significantly engaged in one segment, infrastructure construction.

IGC's organizational structure is as follows:

Most of the shares of Sricon and TBL acquired by IGC were purchased directly from the companies. IGC purchased a portion of the shares from the existing owners of the companies. The founders and management of Sricon own 37% of Sricon and the founders and management of TBL own 23% of TBL.

The acquisitions were accounted for under the purchase method of accounting. Under this method of accounting, for accounting and financial purposes, IGC-M, Limited was treated as the acquiring entity and Sricon and TBL as the acquired entities. The financial statements provided here and going forward are the consolidated statements of IGC, which include IGC-M, Sricon, TBL and their subsidiaries. However, historical description of our business for periods and dates prior to March 7, 2008 include information on Sricon and TBL.

Unless the context requires otherwise, all references in this report to the "Company", "IGC", "we", "our", and "us" refer to India Globalization Capital, Inc, together with its wholly owned subsidiary IGC-M, and its direct and indirect subsidiaries (Sricon, TBL, IGC-IMT, IGC-MPL and IGC-LPL).

Overview

Sricon Infrastructure Private Limited (“Sricon”) was incorporated as a private limited company on March 3, 1997 in Nagpur, India. Sricon is an engineering and construction company that is engaged in three business areas: 1) civil construction of highways and other heavy construction, 2) mining and quarrying and 3) the construction and maintenance of high temperature cement and steel plants. Sricon’s present and past clients include various Indian government organizations. It has the prior experience to bid on contracts that are priced at a maximum of about \$116 million. As indicated in previous press releases and quarterly reports, in October 2008 lack of available credit drove Sricon to curtail much of its construction activity, as it was unable to provide Bank Guarantees for construction contracts, and to focus on long term recurring contracts such as maintenance of high temperature cement factories. This led to a sharp decline in overall revenue. Sricon took several steps to curtail its expenses including lay offs. Sricon also turned its attention to pursuing claims against the contracting agencies for delays it had suffered on some of its contracts. Due to arbitration requirements in our contract agreements, we expect our claims to be resolved in arbitration. Sricon claims losses from having to maintain equipment and personnel during the delay period, as well as opportunity costs. There can be no assurance that Sricon will be successful in its claims. While the cost associated with delays is accounted in the relevant period, any revenue from claims is not accounted until and unless they are paid.

Techni Bharathi Limited (“TBL”) was incorporated as a public (but not listed on the stock market) limited company on June 19, 1982 in Cochin, India. TBL is an engineering and construction company engaged in the execution of civil construction and structural engineering projects. TBL has a focus in the Indian states of Andhra Pradesh, Karnataka, Assam and Tamil Nadu. Its present and past clients include various Indian government organizations. The overall lack of liquidity led TBL to curtail its construction contracts and cut its costs through layoffs. TBL is re-focused on smaller construction contracts and the settlement of claims.

IGC-Mauritius (IGC-M), through its wholly owned subsidiaries (IGC India Mining and Trading (IGC-IMT), IGC Materials, Private Limited (IGC-MPL) and IGC Logistics, Private Limited (IGC-LPL) in India, is also involved in the building of rock quarries, the export of iron ore and the transport of materials. IGC-M operates a shipping hub in the Krishnapatnam port on the west coast of India. We aggregate ore from smaller mines before shipping to China. We are also engaged in the production of rock aggregate and the development of rock quarries. Rock aggregate is used in the construction of roads, railways, dams, and other infrastructure development. We are in the process of developing several quarries through partnerships with landowners. Iron ore is rock and minerals from which metallic iron can be extracted. The primary form used in industry today is hematite and is often the principle raw material used to make “pig iron”, a material critical to the production of industrial steel.

Core Business Areas

Our core business areas include the following:

Highway and heavy construction:

The Indian government has articulated a plan to build and modernize Indian infrastructure. The government’s plan, calls for spending over \$475 billion over the next five years for the expansion and construction of rural roads, major highways, airports, seaports, freight corridors, railroads and townships. We build roads, highways, bridges and other heavy construction build outs.

Mining and Quarrying

As Indian infrastructure modernizes, the demand for raw materials like stone aggregate, coal, ore and similar resources is projected to increase. In 2006, according to the Freedonia Group, India was the fourth largest stone aggregate market in the world with demand of up to 1.1 billion metric tons. Our primary goal is to build as many as ten rock quarries, operate them and sell rock aggregate to the infrastructure industry. We are teaming with landowners to build and operate rock quarries. In addition we have licenses for the operation of rock aggregate quarries. Our mining and trading activity centers on the export of Iron ore to China. India is the fourth largest producer of ore, exporting about 100 million tons of iron ore annually to Chinese interests around the world.

Construction and maintenance of high temperature plants

We have an expertise in the civil engineering, construction and maintenance of high temperature plants. This requires specialized skills to build and maintain high temperature chimneys and kilns.

Customers

We are qualified in all states in India and we have worked in several, including Maharashtra, Gujarat, Orissa and Madhya Pradesh. The National Highway Authority of India (NHAI) awards interstate highway contracts on a national level, while intra-state contracts are awarded by state agencies. The National Thermal Power Corporation (NTPC) awards contracts for civil work associated with power plants. The National Coal Limited (NCL) awards large mining contracts. Our customers include, or have included, NHAI, NTPC, and various state public works departments. Sricon is registered across India and is qualified to bid on contracts anywhere in India. For the export of iron ore from India, we are developing steel factories in China as customers.

Table of Contents

Contract bidding process

In order to create transparency, the Indian government has centralized the contract awarding process for building inter-state roads. The new process is as follows: At the “federal” level, as an example, NHAI publishes a Statement of Work for an interstate highway construction project. The Statement of Work has a detailed description of the work to be performed as well as the completion time frame. The bidder prepares two proposals in response to the Statement of Work. The first proposal demonstrates technical capabilities, prior work experience, specialized machinery, and manpower required, and other criteria required to complete the project. The second proposal includes a financial bid. NHAI evaluates the technical bids and short lists technically qualified companies. Next, the short list of technically qualified companies are invited to place a detailed financial bid and show adequate financial strength in terms of revenue, net worth, credit lines, and balance sheets. Typically, the lowest bid wins the contract. Also, contract bidders must demonstrate an adequate level of capital reserves such as the following: 1) An earnest money deposit between 2% to 10% of project costs, 2) performance guarantee of between 5% and 10%, 3) adequate working capital and 4) additional capital for plant and machinery. Bidding qualifications for larger NHAI projects are set by NHAI which are imposed on each contractor. As the contractor executes larger highway projects, the ceiling is increased by NHAI.

Our Growth Strategy and Business Model

Our business model for the construction business is simple. We bid on construction, over burden removal at mining sites and or maintenance contracts. Successful bids increase our backlog of orders, which favorably impacts our revenues and margins. The contracting process typically takes approximately four months. Over the years, we have been successful in winning one out of every seven bids on average. We currently have one bid team. In the next year we will focus on the following: 1) build out between two and five rock quarries, begin production and obtain long term contracts for the sale of rock aggregate, 2) leverage our shipping hub, develop a second shipping hub, develop customers for the delivery and sale of iron ore, 3) execute and expand recurring contracts for infrastructure build out, 4) aggressively pursue the collection of accounts receivables and delay claims.

Competition

We operate in an industry that is fairly competitive. However, there is a large gap in the supply of well qualified and financed contractors and the demand for contractors. Large domestic and international firms compete for jumbo contracts over \$250 million in size, while locally based contractors vie for contracts less than \$5 million. The recent capital markets crisis has made it more difficult for smaller companies to mature into mid-sized companies, as their access to capital has been restrained. Therefore, we would like to be positioned in the \$5 million to \$50 million contract range, above locally based contractors and below the large firms, creating a distinct technical and financial advantage in this market niche. Rock aggregate is supplied to the industry through small crushing units, which supply low quality material. Frequently, high quality rock aggregate is unavailable, or is transported over large distances. We fill this gap by providing high quality material in large quantities. We compete on price, quantity and quality. Iron ore is produced in India and exported to China. While this is a fairly established industry, we compete by aggregating ore from smaller suppliers who do not have access to customers in China. Further, at our second shipping hub we expect to install a crusher that can grind ore pebbles into dust, again providing a value added service to the smaller mine owners.

Market Size

The Indian government estimates that it will require \$475 billion over the next four to five years to address India’s infrastructure needs. According to Freedonia Group, in 2006, India was the fourth largest stone aggregate market in the world with demand of up to 1.1 billion metric tons. With the infrastructure industry expected to grow rapidly, the

demand for aggregate is expected to increase over the next five years. According to the New York Times iron ore ranks among the most important commodities in the world, the main ingredient in steel that goes into construction, bridges and ships. China imports about half the world's supply of ore. In 2008 the market totaled between \$75 billion and \$80 billion.

Seasonality

The construction industry (road building) typically experiences recurring and natural seasonal patterns throughout India. The North East Monsoons, historically, arrive on June 1, followed by the South West Monsoons, which usually lasts intermittently until September. Historically, the monsoon months are slower than the other months because of the rains. Activity such as engineering, maintenance of high temperature plants, and export of iron ore are less susceptible to the rains. The reduced paced in construction activity has historically been used to bid and win contracts. The contract bidding activity is typically very high during the monsoon season in preparation for work activity when the rains abate. During the monsoon season the rock quarries operate to build up and distribute reserves to the various construction sites.

Table of Contents

Employees and Consultants

As of March 31, 2009, we employed a work force of approximately 400 employees and contract workers worldwide. Employees are typically skilled workers including executives, welders, drivers, and other specialized experts. Contract workers require less specialized skills. We make diligent efforts to comply with all employment and labor regulations, including immigration laws in the many jurisdictions in which we operate. In order to attract and retain skilled employees, we have implemented a performance based incentive program, offered career development programs, improved working conditions, and provided United States work assignments, technology training, and other fringe benefits. We are hoping that our efforts will make our companies more attractive. While we have not done so yet, we are exploring adopting best practices for creating and providing vastly improved labor camps for our labor force. We are hoping that our efforts will make our companies “employers of choice” and best of breed. As of March 31, 2009 our Executive Chairman and Chief Executive Officer is Ram Mukunda and our Chairman is Ranga Krishna. Our Managing Director for Construction is Ravindra Lal Srivastava, our Managing Director for Materials, Mining and Trading is P. M. Shivaraman. Our Treasurer and Principal Accounting officer is John Selvaraj. Our General Manager of Accounting based in India is Santhosh Kumar. We also utilize the services of several consultants who provide USGAAP systems expertise and SOX expertise, among others.

Environmental Regulations

India has very strict environmental, occupational, health and safety regulations. In most instances, the contracting agency regulates and enforces all regulatory requirements. We internally monitor and manage regulatory issues on a continuous basis, and we believe that we are in compliance in all material respects with the regulatory requirements of the jurisdictions in which we operate. Furthermore, we do not believe that compliance will have a material adverse effect on our business activities.

Information and timely reporting

Our operations are located in India where the accepted accounting standards is Indian GAAP, which in many cases, is not congruent to USGAAP. Indian accounting standards are evolving towards adopting IFRS (International Financial Reporting Standards). We annually conduct PCAOB (USGAAP) audits for the company. We acknowledge that the process of quarterly reporting and annual audits are at times cumbersome and places significant constraints on our existing staff. We believe we are still 12 to 18 months away from having processes in place to meet the reporting timetables set out by the U.S. reporting requirements. Until then we expect to file, from time to time, automatic extensions to meet the reporting timetables. We will make available on our website, www.indiaglobalcap.com, our annual reports, quarterly reports, proxy statements as well as up to- date investor presentations. Our SEC filings are also available at www.sec.gov.

DESCRIPTION OF CAPITAL STOCK

This section describes the general terms and provisions of the shares of our common stock, par value \$0.001 per share, and preferred stock, par value \$0.001 per share. The summary is not complete and is qualified in its entirety by reference to the description of our common stock incorporated by reference in this prospectus. We have also filed our amended and restated articles of incorporation and our bylaws as exhibits to the registration statement, of which this prospectus is a part. You should read our amended and restated articles of incorporation and our bylaws for additional information before you buy any of our capital stock. See “Where You Can Find More Information.”

We are authorized to issue 75,000,000 shares of common stock, par value \$.0001, and 1,000,000 shares of preferred stock, par value \$.0001. As of June 30, 2009 there were 10,091,971 shares of common stock outstanding and no shares of preferred stock outstanding.

Units

Each unit consists of one share of common stock and two warrants. Each warrant entitles the holder to purchase one share of common stock. Each of the common stock and warrants can be traded separately.

Table of Contents

Common Stock

Our stockholders are entitled to one vote for each share held of record on all matters to be voted on by stockholders.

Our board of directors is divided into three classes (Class A, Class B and Class C), each of which will generally serve for a term of three years with only one class of directors being elected in each year. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares voted for the election of directors can elect all of the directors.

Our stockholders have no conversion, preemptive or other subscription rights and there are no sinking fund or redemption provisions applicable to the common stock.

Preferred stock

Our certificate of incorporation authorizes the issuance of 1,000,000 shares of blank check preferred stock with such designation, rights and preferences as may be determined from time to time by our board of directors. No shares of preferred stock are being issued or registered in this offering. Accordingly, our board of directors is empowered, without stockholder approval, to issue preferred stock with dividend, liquidation, conversion, voting or other rights which could adversely affect the voting power or other rights of the holders of common stock. We may issue some or all of the preferred stock to effect a business combination. In addition, the preferred stock could be utilized as a method of discouraging, delaying or preventing a change in control of us. Although we do not currently intend to issue any shares of preferred stock, we cannot assure you that we will not do so in the future.

Maryland Anti-Takeover Provisions and Certain Anti-Takeover Effects of our Charter and Bylaws

Business Combinations

Under the Maryland General Corporation Law, some business combinations, including a merger, consolidation, share exchange or, in some circumstances, an asset transfer or issuance or reclassification of equity securities, are prohibited for a period of time and require an extraordinary vote. These transactions include those between a Maryland corporation and the following persons (a "Specified Person"):

- an interested stockholder, which is defined as any person (other than a subsidiary) who beneficially owns 10% or more of the corporation's voting stock, or who is an affiliate or an associate of the corporation who, at any time within a two-year period prior to the transaction, was the beneficial owner of 10% or more of the voting power of the corporation's voting stock or
- an affiliate of an interested stockholder.

A person is not an interested stockholder if the board of directors approved in advance the transaction by which the person otherwise would have become an interested stockholder. The board of directors of a Maryland corporation also may exempt a person from these business combination restrictions prior to the time the person becomes a Specified Person and may provide that its exemption is subject to compliance with any terms and conditions determined by the board of directors. Transactions between a corporation and a Specified Person are prohibited for five years after the most recent date on which such stockholder becomes a Specified Person. After five years, any business combination must be recommended by the board of directors of the corporation and approved by at least 80% of the votes entitled to be cast by holders of voting stock of the corporation and two-thirds of the votes entitled to be cast by holders of shares other than voting stock held by the Specified Person with whom the business combination is to be effected, unless the corporation's stockholders receive a minimum price as defined by Maryland law and other conditions under

Maryland law are satisfied.

A Maryland corporation may elect not to be governed by these provisions by having its board of directors exempt various Specified Persons, by including a provision in its charter expressly electing not to be governed by the applicable provision of Maryland law or by amending its existing charter with the approval of at least 80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation and two-thirds of the votes entitled to be cast by holders of shares other than those held by any Specified Person. Our Charter does not include any provision opting out of these business combination provisions.

Control Share Acquisitions

The Maryland General Corporation Law also prevents, subject to exceptions, an acquiror who acquires sufficient shares to exercise specified percentages of voting power of a corporation from having any voting rights except to the extent approved by two-thirds of the votes entitled to be cast on the matter not including shares of stock owned by the acquiring person, any directors who are employees of the corporation and any officers of the corporation. These provisions are referred to as the control share acquisition statute.

Table of Contents

The control share acquisition statute does not apply to shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction, or to acquisitions approved or exempted prior to the acquisition by a provision contained in the corporation's charter or bylaws. Our Bylaws include a provision exempting IGC from the restrictions of the control share acquisition statute, but this provision could be amended or rescinded either before or after a person acquired control shares. As a result, the control share acquisition statute could discourage offers to acquire IGC stock and could increase the difficulty of completing an offer.

Board of Directors

The Maryland General Corporation Law provides that a Maryland corporation which is subject to the Exchange Act and has at least three outside directors (who are not affiliated with an acquirer of the company) under certain circumstances may elect by resolution of the board of directors or by amendment of its charter or bylaws to be subject to statutory corporate governance provisions that may be inconsistent with the corporation's charter and bylaws. Under these provisions, a board of directors may divide itself into three separate classes without the vote of stockholders such that only one-third of the directors are elected each year. A board of directors classified in this manner cannot be altered by amendment to the charter of the corporation. Further, the board of directors may, by electing to be covered by the applicable statutory provisions and notwithstanding the corporation's charter or bylaws:

- provide that a special meeting of stockholders will be called only at the request of stockholders entitled to cast at least a majority of the votes entitled to be cast at the meeting,
- reserve for itself the right to fix the number of directors,
- provide that a director may be removed only by the vote of at least two-thirds of the votes entitled to be cast generally in the election of directors and
- retain for itself sole authority to fill vacancies created by an increase in the size of the board or the death, removal or resignation of a director.

In addition, a director elected to fill a vacancy under these provisions serves for the balance of the unexpired term instead of until the next annual meeting of stockholders. A board of directors may implement all or any of these provisions without amending the charter or bylaws and without stockholder approval. Although a corporation may be prohibited by its charter or by resolution of its board of directors from electing any of the provisions of the statute, we have not adopted such a prohibition. We have adopted a staggered board of directors with 3 separate classes in our charter and given the board the right to fix the number of directors, but we have not prohibited the amendment of these provisions. The adoption of the staggered board may discourage offers to acquire IGC stock and may increase the difficulty of completing an offer to acquire our stock. If our board chose to implement the statutory provisions, it could further discourage offers to acquire IGC stock and could further increase the difficulty of completing an offer to acquire our stock.

Effect of Certain Provisions of our Charter and Bylaws

In addition to the Charter and Bylaws provisions discussed above, certain other provisions of our Bylaws may have the effect of impeding the acquisition of control of IGC by means of a tender offer, proxy fight, open market purchases or otherwise in a transaction not approved by our board of directors. These provisions of Bylaws are intended to reduce our vulnerability to an unsolicited proposal for the restructuring or sale of all or substantially all of our assets or an unsolicited takeover attempt which our board believes is otherwise unfair to our stockholders. These provisions, however, also could have the effect of delaying, deterring or preventing a change in control of IGC.

Stockholder Meetings; Advance Notice of Director Nominations and New Business . Our Bylaws provide that with respect to annual meetings of stockholders, (i) nominations of individuals for election to our board of directors and (ii) the proposal of business to be considered by stockholders may be made only:

- pursuant to IGC's notice of the meeting,
- by or at the direction of our board of directors or
- by a stockholder who is entitled to vote at the meeting and has complied with the advance notice procedures set forth in our Bylaws.

Special meetings of stockholders may be called only by the chief executive officer, the board of directors or the secretary of IGC (upon the written request of the holders of a majority of the shares entitled to vote). At a special meeting of stockholders, the only business that may be conducted is the business specified in IGC's notice of meeting. With respect to nominations of persons for election to our board of directors, nominations may be made at a special meeting of stockholders only:

- pursuant to IGC's notice of meeting,
- by or at the direction of our board of directors or
- if our board of directors has determined that directors will be elected at the special meeting, by a stockholder who is entitled to vote at the meeting and has complied with the advance notice procedures set forth in our Bylaws.

These procedures may limit the ability of stockholders to bring business before a stockholders meeting, including the nomination of directors and the consideration of any transaction that could result in a change in control and that may result in a premium to our stockholders.

Each warrant will entitle the holder to purchase the securities that we specify in the applicable prospectus supplement at the exercise price that we describe in the applicable prospectus supplement. Holders of the warrants may exercise the warrants at any time up to the specified time on the expiration date that we set forth in the applicable prospectus supplement. After such time on the expiration date, unexercised warrants will become void.

Holders of the warrants may exercise the warrants by delivering the warrant certificate representing the warrants to be exercised together with specified information, and paying the required amount to the warrant agent in immediately available funds, as provided in the applicable prospectus supplement. We will set forth on the reverse side of the warrant certificate and in the applicable prospectus supplement the information that the holder of the warrant will be required to deliver to the warrant agent.

Upon receipt of the required payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will issue and deliver the securities purchasable upon such exercise. If fewer than all of the warrants represented by the warrant certificate are exercised, then we will issue a new warrant certificate for the remaining amount of warrants. If we so indicate in the applicable prospectus supplement, holders of the warrants may surrender securities as all or part of the exercise price for warrants.

Unless we provide otherwise in the applicable prospectus supplement, the warrants and warrant agreements will be governed by and construed in accordance with the laws of the State of Maryland.

A unit agent will have no duty or responsibility in case of any default by us under the applicable unit agreement or unit, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a unit may, without the consent of the related unit agent or the holder of any other unit, enforce by appropriate legal action its rights as holder under any security included in the unit.

No assurance can be given as to the liquidity of, or the trading market for, any offered securities.

In connection with an offering, the underwriters may purchase and sell securities in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of securities than they are required to purchase in an offering. Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market price of the securities while an offering is in progress. The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriters have repurchased securities sold by or for the account of that underwriter in stabilizing or short-covering transactions. These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the securities. As a result, the price of the securities may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. Underwriters may engage in over-allotment. If any underwriters create a short position in the securities in an offering in which they sell more securities than are set forth on the cover page of the applicable prospectus supplement, the underwriters may reduce that short position by purchasing the securities in the open market.

Underwriters, dealers or agents that participate in the offer of securities, or their affiliates or associates, may have engaged or engage in transactions with and perform services for, us or our affiliates in the ordinary course of business for which they may have received or receive customary fees and reimbursement of expenses.

In compliance with the guidelines of the Financial Industry Regulatory Authority, Inc. ("FINRA"), the maximum discount or commission to be received by any FINRA member or independent broker-dealer may not exceed 8% of the aggregate offering price of the shares offered hereby.

(h) Reimbursement of director's expenses incurred while appearing as witness. — This section does not limit the corporation's power to pay or reimburse expenses incurred by a director in connection with an appearance as a witness in a proceeding at a time when the director has not been made a named defendant or respondent in the proceeding.

- (1) An officer of the corporation shall be indemnified as and to the extent provided in subsection (d) of this section for a director and shall be entitled, to the same extent as a director, to seek indemnification pursuant to the provisions of subsection (d);
 - (2) A corporation may indemnify and advance expenses to an officer, employee, or agent of the corporation to the same extent that it may indemnify directors under this section; and
 - (3) A corporation, in addition, may indemnify and advance expenses to an officer, employee, or agent who is not a director to such further extent, consistent with law, as may be provided by its charter, bylaws, general or specific action of its board of directors, or contract.
- (k) Insurance or similar protection. — (1) A corporation may purchase and maintain insurance on behalf of any person who is or was a director, officer, employee, or agent of the corporation, or who, while a director, officer, employee, or agent of the corporation, is or was serving at the request of the corporation as a director, officer, partner, trustee, employee, or agent of another foreign or domestic corporation, partnership, joint venture, trust, other enterprise, or employee benefit plan against any liability asserted against and incurred by such person in any such capacity or arising out of such person's position, whether or not the corporation would have the power to indemnify against liability under the provisions of this section.

 - (3) The insurance or similar protection may be provided by a subsidiary or an affiliate of the corporation.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of

the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in a successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to the court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Paragraph B. of Article Tenth of our amended and restated certificate of incorporation provides:

“The Corporation, to the full extent permitted by Section 2-418 of the MGCL, as amended from time to time, shall indemnify all persons whom it may indemnify pursuant thereto. Expenses (including attorneys’ fees) incurred by an officer or director in defending any civil, criminal, administrative, or investigative action, suit or proceeding or which such officer or director may be entitled to indemnification hereunder shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined that he or she is not entitled to be indemnified by the Corporation as authorized hereby.”

Article XI of our Bylaws provides for indemnification of any of our directors, officers, employees or agents for certain matters in accordance with Section 2-418 of the Maryland General Corporation Law.

(3) to remove from registration by means of a post-effective amendment any of the securities being registered hereby which remain unsold at the termination of the offering; and

(4) that, for the purpose of determining liability under the Securities Act to any purchaser:

Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.
