Ericsson announces repurchase of bonds

Ericsson has repurchased EUR 410 million, face value, of its 6.375% Euro Medium Term Notes maturing May 31, 2006 (ISIN XS0130182784).

The bonds were repurchased in order to reduce gross debt and annual interest expense.

The transaction is further evidence of Ericsson's strategy to manage its balance sheet prudently when appropriate opportunities arise, says Vidar Mohammar, Group Treasurer. We are very pleased to have been able to achieve a significant debt reduction in an efficient manner.

Remaining outstanding bonds due May 2006 amount to EUR 1 156 million (approximately SEK 10.7 billion).

Ericsson is shaping the future of Mobile and Broadband Internet communications through its continuous technology leadership. Providing innovative solutions in more than 140 countries, Ericsson is helping to create the most powerful communication companies in the world.
