*Item 2.05 Costs Associated with Exit or Disposal Activities*

On February 9, 2006, Oracle Corporation, a Delaware corporation ( Oracle ), announced that as part of its integration plan (the Plan ) for Siebel Systems, Inc. ( Siebel ), it will be reducing the size of its combined workforce by approximately 2000 employees. The objectives of the Plan are to eliminate redundant costs resulting from the acquisition of Siebel and improve efficiencies in operations. A majority of notifications to employees is expected to be completed by February 28, 2006 and the reductions are expected to be completed by December 31, 2006. Oracle anticipates its combined workforce will be approximately 55,000 employees once the Plan is completed.

Oracle estimates total costs related to the Plan will be between \$725 million and \$800 million, the substantial majority of which will require the outlay of cash. Oracle expects that \$100 million to \$125 million of this total will be Oracle restructuring charges related principally to severance costs. Oracle expects that \$625 million to \$675 million of this total will relate to the restructuring of Siebel operations. The restructuring of Siebel s operations includes \$540 million to \$565 million for real estate related costs and \$60 million to \$85 million for severance costs.
