CHAIRMAN'S STATEMENT

Dear Shareholders,

I am very encouraged to see our strategic transformation gaining momentum as reflected in the operating results for the first half of 2006. On executing our strategic transformation, we proactively developed the Internet, value-added and integrated information services. Through effective leverage of multi-services packaging, we have not only abated the serious challenge and the decline in traditional voice services brought by intensifying market competition, but also expanded new revenue sources, leading to continuous growth in our revenue and profit for the first half of the year. More importantly, through our vigorous initiatives on enhancing network's integrated services capabilities, providing innovative services and businesses, expanding integrated information services and cultivating financial strength and talents pool, we have proactively laid a solid foundation for the Company's future comprehensive services convergence offering (triple-play). We firmly believe, once the regulatory policies on the Company's comprehensive services operations become clear, we could promptly ride on our unique competitive edge of multi- services convergence offering to achieve business breakthrough and delight our customers, creating value for them and for you as shareholders.

Table of Contents**FINANCIAL PERFORMANCE**

We achieved solid financial results in the first half of 2006. Our operating revenue reached RMB86,936 million, of which RMB2,494 million was from upfront connection fees. Excluding upfront connection fees, our operating revenue was RMB84,442 million, an increase of 4.7% from the same period of last year. We have optimized revenue structure, with revenue from non-voice services¹ increased to RMB23,244 million in the first half of 2006 from RMB19,046 million in the first half of 2005, accounting for 27.5% of our operating revenue, an increase of 3.9 percentage points against the last corresponding period. EBITDA² was RMB44,217 million, representing a year-on-year increase of 4.0%. EBITDA margin² was 52.4%, staying at a healthy level. Operating expenses was RMB65,704 million, up by 5.5% against the corresponding period last year. The growth in operating expenses was mainly attributable to higher marketing cost for the enhancement of our competitiveness, and therefore selling, general and administrative expenses increased by 14.7% over the same period last year. We had effectively controlled personnel expenses, network operations and support expenses. Profit attributable to equity holders of the Company² reached RMB11,590 million, with net profit margin of 13.7%. Basic earnings per share² was RMB0.143. We reduced capital expenditure to RMB20,773 million, 9.1% less than that in the same period of 2005, capital expenditure on PAS was 66.2% lower than that in the same period of last year. Our free cash flow³ amounted to RMB18,934 million, RMB3,833 million more than that in the first half of 2005.

Taking into consideration the Company's needs for sustainable business development, its cash flow position, and the need to maintain flexibility in funding, the Board of Directors has resolved not to pay any interim dividend for the year. The Board of Directors will proactively review the final dividend proposal at the time of reviewing the full year results and propose to the shareholders' general meeting accordingly.

BUSINESS PERFORMANCE

In the first half of 2006, all subsidiaries performed well in implementing the Company's business development strategy and recorded stable business growth. Signs of success in implementing strategic transformation are emerging.

According to the anticipated decline in the traditional voice services as a result of mobile substitution, we have been proactively transforming the operation model and implementing a strategy which focuses on the profit-oriented development of voice services. Instead of direct price competition and solely pursuing subscriber base expansion to boost revenue growth, we fully utilized the competitive edge of our multi-services operation and strengthened the convergence of voice, Internet and information services. The above initiatives enhanced our non-voice services¹ to become the major revenue growth driver, successfully compensated the declining voice services and thus maintained sustainable revenue growth and consolidated the Company's fundamentals. The total number of access lines in service was 219 million, a net addition of 8.62 million. In the first half of the year, revenue from voice services was RMB61,198 million, similar to that in the same period of last year.

Internet access services and VAS grew rapidly and generated a total revenue of RMB17,734 million, an increase of 35.0% against the same period last year, driving the Company's revenue growth by 5.7%. Broadband access and VAS have become more important in driving the overall revenue growth of the Company. The net addition of broadband subscribers surged to a record high of 4.24 million, bringing the total to 25.26 million. The full deployment of BizNavigator, an enterprise customer brand, not only satisfied the needs of enterprise informationalization but also facilitated the widespread use of Internet applications, thereby driving the rapid expansion of broadband subscribers. At the same time, broadband ARPU was kept at the same level of the second half of 2005 providing the Company with good effectiveness.

¹ Non-voice services include Internet access services, value-added services, managed data services, leased line services and others.

² Including the amortisation of upfront connection fees, EBITDA was RMB46,711 million, EBITDA margin was 53.7%, profits attributable to equity holders of the Company amounted to RMB14,084 million, and basic earnings per share was RMB0.174.

³ Free cash flow is calculated from EBITDA (excluding the amortisation of upfront connection fees) minus capital expenditure and income tax.

CHAIRMAN'S STATEMENT (Continued)

Our VAS demonstrated robust development trend. SMS usage reached 11,166 million messages. Colour Ring Tone subscribers and registered subscribers for Vnet were 27.72 million and 15.87 million respectively. Caller ID service has 143 million users, with penetration rate reaching 65.4%. Integrated information services including Best Tone and BizNavigator were launched with favorable development trend. In about a half-year period, over 0.16 million companies had signed on for Best Tone and recorded usage was over 500 million calls, while BizNavigator attracted 0.27 million enterprise customers. The Company's new image as an integrated information service provider is taking root in the industries and customers' minds.

In the first half of 2006, we proactively implemented branding strategy on three customer segments, namely enterprises, households and individuals, to progressively build up a customer-centric branding structure. We will continue to enrich the content of BizNavigator and establish the brand awareness among customers, closely link telecommunications services to the business of enterprise customers through information applications, with a view to realizing the value enhancement of the Company and our customers simultaneously. We will strengthen the convergence of marketing efforts, terminals and networks of PAS and fixed line telephony to maintain the users' habit of using fixed line telephony. By reinforcing the packaged marketing of broadband, VAS, integrated information service and traditional voice services, we would be able to increase customers' stickiness and value, and thus lay a solid foundation for the Company's long term sustainable growth.

On the service front, leveraging our existing advantages on direct sales channels, we implemented targeted marketing by identifying different customer segments and sales channels. We also rationalized our sales distribution networks to continuously improve our responsiveness of on-site services and business processing. In addition, we standardized and extended various community channels, such as partnership and agency service. We actively promoted our customer service hotline 10000, self-served hotline 10001, and fully deployed our online customer service center. Our core competence of a seamless, three-dimensional, all-rounded sales and marketing channel network is further enhanced.

In addition to tightening control on capital expenditure, we have also been continuously optimizing our capital expenditure structure. Aiming to give customers improved services and reinforce our competitive edges, we accelerated the upgrading of our intelligent fixed line network and optimized the IP-based Metropolitan Area Network (MAN), access network and wireless local access network. Meanwhile, we increased our investment in broadband and VAS and speeded up the development of our IT systems such as Business Supporting Systems (BSS). Such initiatives could strengthen the overall capability of our network and IT systems for supporting the provision of integrated information services, and make ourselves well-prepared for providing comprehensive services in the future.

Through the innovative human resources mechanism on recruitment, training and usage, we proactively optimize the allocation of human resources and cultivate talents in management, technology, sales and maintenance for providing comprehensive services in the future. The Company is determined to consolidate its human resources advantages in the long run.

CORPORATE GOVERNANCE

Improving corporate governance and the transparency of our operations commands our continuous effort. This year, we began to disclose monthly subscriber data and further enriched the quarterly disclosure of key business and financial indicators to allow investors to gain more timely and thorough understanding of our operations. The Company continued to hold its annual general meeting in Hong Kong and fully utilized its website for a more effective communication with shareholders. Following international best practices and regulatory requirements like Sarbanes-Oxley Act of 2002 (Section 404), and basing on the continuously improved internal control system in the past three years, we undertook measures such as authority limits setting and grade assessment to strengthen our internal control responsibility system, perfect corporate governance, reduce corporate risks and enhance operational efficiency.

FUTURE PROSPECTS

In the past year or so, we have gained precious experience and achieved encouraging results in our strategic transformation. Our new core competitive strengths are promptly developed and information services including Best Tone and BizNavigator are posing bright prospects. We strongly believe that information services will bring a vast potential in value creation to the Company in the near future and further enhance our ability to create sustainable value to shareholders.

We will continue to advance our strategic transformation. We will follow diligently our pre-set strategies to consolidate the fundamentals of our voice services, elaborate our edges of multi-services, strengthen the convergence of businesses and terminals, persist in product packaging, improve effective differentiation in our products and services, with a view to enhancing value for our customers. The Company will increase effort to raise customer awareness of the branding on BizNavigator and gradually launch new individual and household service brands to boost the competitiveness of our branding. We will lead and satisfy customers' communications and information application needs and work towards elevating our position on the value chain to establish our leadership position in the integrated information service sector.

Looking ahead, we believe that the successful implementation of strategic transformation will significantly enhance our core competitive capabilities. Through transforming the enterprise value growth model, further enhancing precision management, optimizing resources allocation, strengthening the cost and investment controls, we are committed to improve our profitability and maximize shareholders' value.

Finally, on behalf of the Board of Directors, I would like to express my gratitude to our shareholders and customers for their support over the years. I would also like to thank Mr. Wei Leping for his outstanding contribution to the Company as Executive Director. Last but not least, I would like to express my heartfelt appreciation to our employees for their hard work and especially their willingness to take on the challenges and pressure in the Company's business transformation process.

INDEPENDENT REVIEW REPORT OF THE INTERNATIONAL AUDITORS

To the Board of Directors of

China Telecom Corporation Limited

INTRODUCTION

We have been instructed by the Company to review the interim financial statements of the Company and its subsidiaries (the Group) set out on pages 7 to 25.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS

The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of interim financial statements to be in compliance with the relevant provisions thereof and International Accounting Standard 34 Interim Financial Reporting promulgated by the International Accounting Standards Board. The interim financial statements are the responsibility of, and have been approved by, the directors.

It is our responsibility to form an independent conclusion, based on our review, on the interim financial statements and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

REVIEW WORK PERFORMED

We conducted our review in accordance with Statement of Auditing Standards 700 Engagement to review interim financial reports issued by the Hong Kong Institute of Certified Public Accountants. A review consists principally of making enquiries of Group management and applying analytical procedures to the interim financial statements and based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the interim financial statements.

REVIEW CONCLUSION

On the basis of our review which does not constitute an audit, we are not aware of any material modifications that should be made to the interim financial statements for the six-month period ended 30 June 2006.

for the six-month period ended 30 June 2006

1. PRINCIPAL ACTIVITIES

China Telecom Corporation Limited (the Company) and its subsidiaries (hereinafter, collectively referred to as the Group) are engaged in the provision of wireline telecommunications and related services in Shanghai Municipality, Guangdong Province, Jiangsu Province, Zhejiang Province, Anhui Province, Fujian Province, Jiangxi Province, Guangxi Zhuang Autonomous Region, Chongqing Municipality, Sichuan Province, Hubei Province, Hunan Province, Hainan Province, Guizhou Province, Yunnan Province, Shaanxi Province, Gansu Province, Qinghai Province, Ningxia Hui Autonomous Region and Xinjiang Uygur Autonomous Region of the People's Republic of China (the PRC). The Group offers a comprehensive range of wireline telecommunications services to residential and business customers, including local, domestic long distance (DLD) and international long distance (ILD) telephone services, Internet and managed data, leased line, and other related services.

The operations of the Group are subject to the supervision and regulation by the PRC government. The Ministry of Information Industry, pursuant to the authority delegated to it by the PRC's State Council, is responsible for formulating the telecommunications industry policies and regulations, including the regulation and setting of tariff levels for basic telecommunications services, such as local and long distance telephone services, managed data services, leased line and interconnection arrangements.

2. BASIS OF PREPARATION

These interim financial statements have been prepared in accordance with International Accounting Standard

34 Interim Financial Reporting promulgated by the International Accounting Standards Board (IASB) and the applicable disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. These interim financial statements, which were authorised for issuance by the Board of Directors on 30 August 2006, reflect the unaudited financial position of the Group as at 30 June 2006 and the unaudited results of operations and cash flows of the Group for the six-month period then ended, which are not necessarily indicative of the results of operations and cash flows expected for the year ending 31 December 2006.

The interim financial statements have been prepared in accordance with the same accounting policies adopted in the 2005 annual financial statements.

The preparation of interim financial statements in conformity with IAS 34 Interim Financial Reporting requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

These interim financial statements contain condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2005 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with International Financial Reporting Standards (IFRSs).

These interim financial statements are unaudited, but have been reviewed by the Audit Committee of the Company. These interim financial statements have also been reviewed by the Company's international auditors, KPMG, in accordance with Statement of Auditing Standards 700 Engagements to review interim financial reports issued by the Hong Kong Institute of Certified Public Accountants.

The financial information relating to the financial year ended 31 December 2005 that is included in these interim financial statements as being previously reported information does not constitute the Group's statutory financial statements for that financial year but is derived from those financial statements. The statutory financial statements for the year ended 31 December 2005 are available from the Company's registered office. The Company's international auditors have expressed an unqualified opinion on those financial statements in their report dated 22 March 2006.

Table of Contents**3. SEGMENTAL REPORTING**

A business segment is a distinguishable component of the Group that is engaged in providing products or services and is subject to risks and rewards that are different from those of other segments. For the periods presented, the Group has one operating segment which is the provision of wireline telecommunications services. All the Group's operating activities are carried out in the PRC.

Table of Contents**16. RELATED PARTY TRANSACTIONS (Continued)****(d) Transactions with other state-controlled entities in the PRC**

The Group is a state-controlled public utilities enterprise and operates in an economic regime currently dominated by entities directly or indirectly controlled by the State through government authorities, agencies, affiliations and other organisations (collectively referred to as state-controlled entities).

Apart from transactions with parent company and its affiliates, the Group have transactions with other state-controlled entities which include but not limited to the following:

sales and purchases of goods, properties and other assets

rendering and receiving services

lease of assets

depositing and borrowing money

use of public utilities

These transactions are conducted in the ordinary course of the Group's business on terms comparable to those with other entities that are not state-controlled. The Group prices its telecommunication services and products based on government-regulated tariff rates, where applicable, or based on commercial negotiations. The Group has also established its procurement policies and approval processes for purchases of products and services, which do not depend on whether the counterparties are state-controlled entities or not.

Having considered the transactions potentially affected by related party relationships, the entity's pricing strategy, procurement policies and approval processes, and the information that would be necessary for an understanding of the potential effect of the related party relationships on the financial statements, the directors are of the opinion that the following related party transactions require disclosure of numeric details:

(i) Transactions with other state-controlled telecommunications operators in the PRC

The Group's wireline telecommunications networks interconnect with the networks of other state-controlled telecommunications operators. The Group also leases wireline telecommunications networks to these operators in the normal course of business. The interconnection and leased line charges are regulated by the Ministry of Information Industry. The extent of the Group's interconnection and leased line transactions with other state-controlled telecommunications operators in the PRC is as follows:

17. TRANSFER FROM STATUTORY COMMON WELFARE FUND TO SURPLUS RESERVES

Pursuant to the revision of the PRC Company Law, companies with limited liabilities and companies limited by shares are no longer required to make annual profit appropriation to the statutory common welfare fund commencing on 1 January 2006. The opening balance of the Group's statutory common welfare fund as at 1 January 2006 was transferred to the surplus reserves in accordance with Notice on accounting issue relating to the implementation of the Company Law of the PRC issued by the Ministry of Finance.

18. CHANGE IN PRESENTATION OF PERSONNEL EXPENSES

In the prior year financial statements, the amount of personnel expenses was not separately presented on the face of the consolidated income statement but was included as part of network operations and support expenses and selling, general and administrative expenses with the total amount of personnel expenses disclosed in the notes to the financial statements.

With effect from 1 January 2006, the Group has presented the amount of personnel expenses on the face of the consolidated income statement as a separate caption and disclosed the respective amounts attributable to the network operations and support, and selling, general and administrative functions in the notes to the financial statements. The related comparative figures have been reclassified to conform with the current period's presentation.

SUPPLEMENTARY INFORMATION FOR AMERICAN DEPOSITARY SHAREHOLDERS

The Group's accounting policies conform with IFRS which differ in certain significant respects from accounting principles generally accepted in the United States of America (US GAAP). The differences, as they apply to the Group's financial statements, primarily relate to the US GAAP requirement that property, plant and equipment be carried at historical cost and depreciated, whereas under IFRS, property, plant and equipment can be carried in the financial statements at the revalued amount and depreciated. The details of such differences are set out in the Group's annual report for the year ended 31 December 2005. The US GAAP reconciliation presented below is included as supplemental information and is not required as part of the basic interim financial statements and has not been subject to independent audit or review.

AUDIT COMMITTEE

The audit committee has reviewed with management and the Company's international auditors, KPMG, the accounting principles and practices adopted by the Group and discussed internal control and financial reporting matters including the review of this Interim Report.

COMPLIANCE WITH THE CODE ON CORPORATE GOVERNANCE PRACTICES

The Company has always attached great importance to corporate governance and we continued to make efforts in perfecting the Company's internal control in accordance with the relevant regulatory requirements and international best practices. By doing so, the Company's operations become more systematic and efficient so that the shareholders' best interests were ensured.

The roles of Chairman and Chief Executive Officer of the Company were performed by the same individual. The Board considers that this could enhance the Company's decision-making and operational efficiency, and enable the Company to grasp business opportunities effectively. Further, such arrangement is being adopted by many international leading enterprises. At the same time, the number of independent non-executive directors accounted for more than one-third of the total number of Directors to make sure the independence and objectivity of the decisions made by the Board and provide full and impartial supervision over the Company's management, with a view to ensuring shareholders' best interests.

Save as stated above, the Company is in compliance with all the code provisions as set out in the Code on Corporate Governance Practices in Appendix 14 of the Listing Rules throughout the six months period ended 30 June 2006.

COMPLIANCE WITH MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 of the Listing Rules to govern securities transactions by Directors. Having made specific enquiry to all Directors of the Company, they have confirmed their compliance with the Model Code for Securities Transactions by Directors of Listed Issuers throughout the period from 1 January 2006 to 30 June 2006.

FORWARD-LOOKING STATEMENTS

The Company would also like to caution readers about the forward-looking nature of certain of the above statements. These forward-looking statements are subject to risks and uncertainties and assumptions, some of which are beyond our control. Potential risks and uncertainties include those concerning the continued growth of the telecommunications industry in China, the development of the regulatory environment and our ability to successfully execute our business strategies. In addition, these forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. We do not intend to update these forward-looking statements. Actual results may differ materially from the information contained in the forward-looking statements as a result of a number of factors.
