Prospectus

VALASSIS COMMUNICATIONS, INC.

Offer To Exchange

\$540,000,000 aggregate principal amount of 8 1/4% Senior Notes due 2015,

which have been registered under the Securities Act,

for any and all

outstanding, unregistered 8 1/4% Senior Notes due 2015

We are offering to exchange our currently outstanding, unregistered 8 1/4% Senior Notes due 2015, or the original notes, for our registered 8 1/4% Senior Notes due 2015, or the exchange notes. We sometimes refer to the original notes and the exchange notes in this prospectus collectively as the notes. The exchange notes are substantially identical to the original notes, except that the exchange notes have been registered under the Securities Act of 1933, as amended, or the Securities Act, and, therefore, will not have any transfer restrictions, will bear a different CUSIP number from the original notes and will not entitle their holders to registration rights or rights to additional interest. The exchange notes will represent the same debt as the original notes, and we will issue the exchange notes pursuant to, and they will be entitled to the benefits of, the same indenture. We are making this exchange offer in order to satisfy certain contractual obligations.

The exchange notes will be fully and unconditionally guaranteed, jointly and severally, by substantially all of our existing and future domestic restricted subsidiaries. The exchange notes and the subsidiary guarantees will be unsecured senior obligations that will rank senior in right of payment to all of our and our subsidiary guarantors future subordinated indebtedness and will rank equal in right of payment to our and our subsidiary guarantors existing and future unsecured senior indebtedness. The exchange notes and the subsidiary guarantees will effectively rank junior in right of payment to all of our and our subsidiary guarantors existing and future secured indebtedness.

The principal terms of the exchange offer are as follows:

The exchange offer expires at 5:00 p.m., New York City time, on August 10, 2007, unless extended.

We will exchange all original notes that are validly tendered and not validly withdrawn prior to the expiration of the exchange offer.

You may withdraw tendered original notes at any time prior to the expiration of the exchange offer.

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 424B3

The exchange of original notes for exchange notes pursuant to the exchange offer will not be a taxable event for United States federal income tax purposes.

We will not receive any proceeds from the exchange offer.

No public market exists for the notes. We do not intend to apply for listing of the exchange notes on any securities exchange. Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. The letter of transmittal accompanying this prospectus states that, by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for original notes where the original notes were acquired by the broker-dealer as a result of market-making or other trading activities. We have agreed that, for a period of up to 180 days after the date of expiration of the exchange offer, we will make this prospectus available to any broker-dealer for use in connection with any such resale. See Plan of Distribution.

See **Risk Factors** beginning on page 13 for a discussion of certain factors you should consider in connection with the exchange offer.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the exchange notes or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is July 13, 2007

INDUSTRY AND MARKET DATA

In this prospectus, we rely on and refer to information regarding the marketing services industry and the various markets in which we compete. We obtained this information from various industry publications, other publicly available information, market research and our own internal surveys and estimates. Industry publications generally state that the information therein has been obtained from sources believed to be reliable, but that the accuracy and completeness of the information has not been independently verified and is not guaranteed. Similarly, other publicly available information, market research and our own internal surveys and estimates, while believed to be reliable, have not been independently verified. As a result, you should be aware that market share, ranking and other similar data set forth herein, and estimates and beliefs based on such data, may not be accurate.

WHERE YOU CAN FIND MORE INFORMATION

We file annually, quarterly and special reports, proxy statements and other information with the United States Securities and Exchange Commission, or the SEC. You may read and copy any document we file with the SEC at the SEC's public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room and its copy charges. Our SEC

PROSPECTUS SUMMARY

This summary highlights only selected information from, or incorporated by reference in, this prospectus and may not contain all the information that is important to you. To better understand the exchange offer and the merger described below under The ADVO Acquisition, you should carefully read this entire prospectus, including the documents incorporated by reference. See also Where You Can Find More Information. Except as otherwise indicated or as the content otherwise indicates, when used in this prospectus, the terms Valassis, the Company, we, us, our and similar terms refer to Valassis Communications, Inc. and its direct and indirect subsidiaries on a consolidated basis. Our consolidated subsidiaries include ADVO, Inc. and its subsidiaries as of March 2, 2007. Unless otherwise indicated, references to fiscal year refer to the fiscal year of Valassis, which ends on December 31. Prior to the consummation of our acquisition of ADVO, which occurred on March 2, 2007, ADVO's fiscal year ended on the last Saturday in September; ADVO's fiscal year 2006 ended on September 30, 2006 and included operations for a 53-week period and ADVO's fiscal year 2005 and fiscal year 2004 ended on September 24, 2005 and September 25, 2004, respectively, each of which included operations for a 52-week period.

Valassis

We are a leading provider of integrated advertising and marketing products and services in the United States. Our strong distribution network and comprehensive range of advertising and promotional marketing solutions allow our customers to reach millions of desired consumers in a cost effective and timely manner. We provide our customers the ability to target consumers with value-oriented promotions and advertisements at the market, neighborhood and household levels based on demographic and lifestyle criteria. We can combine all three levels of geographic targeting into a single campaign. Our targeting, media buying and printing capabilities, along with our ability to provide measurable results, enable our customers to maximize the effectiveness of their promotional campaigns. We believe advertisers are increasingly linking their marketing expenditures to solutions like ours that provide a measurable, positive return on investment. We provide our products and services to 96 of Advertising Age's top 100 United States advertisers, including leading consumer packaged goods manufacturers, telecommunications providers, direct marketers, retailers and franchisees.

During fiscal year 2006, we generated revenue of \$1,043.5 million and net earnings of \$51.3 million. During the three-months ended March 31, 2007, we generated revenue of \$361.3 million and net earnings of \$11.2 million.

Prior to our acquisition of ADVO, we operated our business in five reportable segments: Free-standing Inserts, Run of Press, Neighborhood Targeted, Household Targeted and International & Services. Following our acquisition of ADVO, we combined our Run of Press and Neighborhood Targeted segments and operate ADVO as our fifth operating segment, although we may later integrate some of ADVO's operations into our existing operating segments.

The ADVO Acquisition

On March 2, 2007, our wholly-owned subsidiary, Michigan Acquisition Corporation, a Delaware Corporation, or Michigan, merged with and into ADVO, pursuant to an Agreement and Plan of Merger, dated as of July 5, 2006, as amended by Amendment No. 1 to the Agreement and Plan of Merger, dated as of December 18, 2006, by and among us, Michigan and ADVO, which we refer to, as so amended, the merger agreement. As a result of the merger, Michigan's separate corporate existence terminated and ADVO continued as the surviving corporation in the merger and as our wholly-owned subsidiary.

Table of Contents

The combination of Valassis and ADVO provides the delivery of value-oriented consumer promotions by blending home newspaper delivery with shared direct mail. We offer products and services including newspaper-delivered promotions such as inserts, sampling, polybags and on-page advertisements; shared mail; direct mail; in-store marketing; direct-to-door advertising and sampling; Internet-delivered marketing; loyalty marketing software; coupon and promotion clearing; promotion planning; and analytic services. We can reach over 60 million households through weekly newspaper distribution and 90% of United States homes through shared mail distribution, as a result of our acquisition of ADVO.

We believe that ADVO is one of the country's leading direct mail companies, distributing direct advertising products to approximately 79 million households on a weekly basis primarily through the United States Postal Service. In addition, we believe that ADVO maintains one of the most comprehensive and up-to-date residential address lists in the United States and has a total reach of over 114 million United States households. As of March 31, 2007, ADVO had over 13,000 customers, including many of the nation's top retailers. ADVO's client base consists principally of national and local grocers, restaurants, direct marketers, drug stores, discount and department stores, telecommunications companies, home furnishings and other retailers.

During ADVO's fiscal year ended September 30, 2006, ADVO generated revenue of \$1,443.5 million and net income of \$20.8 million. During the three-months ended December 30, 2006, ADVO generated revenue of \$384.3 million and net income of \$0.7 million.

Pursuant to the merger agreement, at the effective time of the merger, each outstanding share of ADVO's common stock, par value \$0.01 per share, was converted into the right to receive an amount in cash equal to \$33.02, or the merger consideration. Pursuant to the merger agreement, each ADVO stock option outstanding immediately prior to the effective time of the merger fully vested and each holder thereof became entitled to receive an amount of cash for each share of ADVO common stock underlying such option equal to the excess, if any, of the merger consideration over the per share exercise price of such option (minus any withholding of taxes required by law). Each outstanding and unvested share of ADVO restricted stock, including those held by ADVO's directors and executive officers, also fully vested, and the holders thereof became entitled to receive the merger consideration (minus any withholding of taxes required by law).

A copy of the original merger agreement is included as an exhibit to our Form 8-K filed with the SEC on July 10, 2006 and a copy of the amendment to our merger agreement is included as an exhibit to our Form 8-K filed with the SEC on December 20, 2006, both of which are incorporated herein by reference. The foregoing description of the merger agreement is qualified in its entirety by reference to the full text of the merger agreement.

The Transactions

The aggregate merger consideration we paid in the ADVO acquisition was approximately \$1.2 billion, including the ADVO debt that we refinanced upon consummation of the acquisition. We financed the ADVO acquisition with the net proceeds of the offering of the original notes as well as initial borrowings under our senior secured credit facility and existing cash on hand. See Unaudited Pro Forma Condensed Combined Financial Information and Use of Proceeds. In this prospectus, the Transactions refers to: (i) our acquisition of ADVO; (ii) our sale of \$540.0 million of original notes; (iii) our entering into a new \$870.0 million senior secured credit facility and the initial borrowings thereunder; (iv) the repayment of all existing ADVO debt; and (v) the payment of related fees and expenses.

Additional Information

Valassis Communications, Inc. is a Delaware corporation. Our principal executive offices are located at 19975 Victor Parkway, Livonia, Michigan 48152 and our telephone number is (734) 591-3000.

The Exchange Offer

On March 2, 2007, we completed an offering of \$540,000,000 aggregate principal amount of the original notes in a transaction exempt from the registration requirements of the Securities Act. The original notes are fully and unconditionally guaranteed as to payment of principal and interest by the subsidiary guarantors. The exchange notes will be our obligations and will be entitled to the benefits of the indenture relating to the original notes. The exchange notes will also be fully and unconditionally guaranteed as to payment of principal and interest by the subsidiary guarantors. The form and terms of the exchange notes are substantially identical in all material respects to the form and terms of the original notes, except that the exchange notes:

have been registered under the Securities Act and, therefore, will contain no restrictive legends;

will bear a different CUSIP number from the original notes;

will not have registration rights; and

will not have the right to additional interest.

The following is a brief summary of the terms of the exchange offer. It likely does not contain all the information that is important to you. For a more complete description of the exchange offer, see [The Exchange Offer](#).

The Exchange Offer	We are offering to exchange our exchange notes, which have been registered under the Securities Act, for a like principal amount of our currently outstanding, unregistered original notes. \$540.0 million aggregate principal amount of our original notes are outstanding. Original notes may only be exchanged in integral multiples of \$1,000 in principal amount. See The Exchange Offer Terms of the Exchange Offer .
Expiration of the Exchange Offer	The exchange offer will expire at 5:00 p.m., New York City time, on August 10, 2007, unless we decide to extend the expiration date.
Withdrawal Rights	You may withdraw your tender of original notes at any time before the exchange offer expires by following the withdrawal procedures that are described under The Exchange Offer Withdrawal of Tenders .
Registration Rights Agreement	The exchange offer is intended to satisfy your registration rights under the registration rights agreement we and the subsidiary guarantors entered into with the initial purchasers of the original notes. After the exchange offer is closed, we will no longer have an obligation to register the original notes, except under limited circumstances. Under the registration rights agreement, we are required to pay liquidated damages in the form of additional interest on the original notes in certain circumstances, including if the exchange offer registration statement is not declared effective by the SEC on or before 180 days after issuance of the original notes or the exchange offer is not consummated within 30 days after the effective date of the exchange offer registration statement. See The Exchange Offer Purpose and Effect of the Exchange Offer .

Resale of Exchange Notes

Based on an interpretation by the staff of the SEC set forth in no-action letters issued to other parties unrelated to us, we believe that the exchange notes issued pursuant to the exchange offer in exchange for original notes may be offered for resale, resold and otherwise transferred by you without compliance with the registration and prospectus delivery provisions of the Securities Act, provided that:

you are acquiring the exchange notes in the ordinary course of your business;

you have not engaged in, and do not intend to engage in, the distribution of the exchange notes (within the meaning of the Securities Act);

you have no arrangement or understanding with any person to participate in the distribution of the exchange notes;

you are not our affiliate, as defined in Rule 405 under the Securities Act.

We do not intend to apply for listing of the exchange notes on any securities exchange or to seek approval for quotation through an automated quotation system. Accordingly, there can be no assurance that an active market will develop upon completion of the exchange offer or, if developed, that such market will be sustained or as to the liquidity of any market.

Each broker-dealer that receives exchange notes for its own account in exchange for original notes that were acquired by that broker-dealer as a result of market-making or other trading activities must acknowledge that it will deliver a prospectus in connection with any resale of the exchange notes. See Plan of Distribution.

Conditions to the Exchange Offer

The exchange offer is subject to certain customary conditions which we may amend or waive. The exchange offer is not conditioned upon any minimum principal amount of original notes being tendered. See The Exchange Offer Conditions to the Exchange Offer.

Procedures for Tendering Original Notes

If you wish to accept the exchange offer, you must transmit a properly completed and signed letter of transmittal, together with all other documents required by the letter of transmittal, including the certificate or certificates representing your original notes to be exchanged, to the exchange agent at the address set forth on the cover page of the letter of transmittal. These materials must be received by the exchange agent before 5:00 p.m., New York City time, on August 10, 2007, the expiration date of the exchange offer. In the alternative, you can tender your original notes by following the procedures for book-entry transfer, as described in this prospectus, prior to the expiration of the exchange offer. For more information on accepting the exchange offer and tendering your original notes, see The Exchange Offer Procedures for Tendering.

Table of Contents

Special Procedures for Beneficial Owners	If you are a beneficial owner of original notes that are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and you wish to tender your original notes in the exchange offer, you should contact the registered holder of the original notes promptly and instruct the registered holder to tender your notes on your behalf. If you wish to tender in the exchange offer on your own behalf, you must, prior to completing and executing the letter of transmittal and delivering your original notes, either arrange to have the original notes registered in your name or obtain a properly completed bond power from the registered holder. The transfer of registered ownership may take a considerable amount of time and may not be able to be completed prior to the expiration date. See The Exchange Offer Procedures for Tendering.
Guaranteed Delivery Procedures	If you cannot deliver your original notes, the letter of transmittal or any other required documentation, or if you cannot comply with The Depository Trust Company's, or DTC's, Automated Tender Offer Program for transfer of book-entry interests, prior to the expiration date, you may tender your original notes according to the guaranteed delivery procedures set forth under The Exchange Offer Guaranteed Delivery Procedures.
Acceptance of the Original Notes and Delivery of the Exchange Notes	We will accept for exchange any and all original notes that you properly tender in the exchange offer prior to the expiration date of the exchange offer. We will issue and deliver the exchange notes promptly following the expiration date of the exchange offer. See The Exchange Offer Terms of the Exchange Offer.
Use of Proceeds	We will not receive any proceeds from the issuance of exchange notes pursuant to the exchange offer.
Material United States Federal Income Tax Consequences	We believe that the exchange of original notes for exchange notes pursuant to the exchange offer will not be a taxable event for United States federal income tax purposes, but you should consult your tax adviser about the tax consequences of the exchange offer. See Material United States Federal Income Tax Considerations.
Consequences of Failure to Exchange	All untendered original notes will continue to be subject to the restrictions on transfer set forth in the original notes and in the indenture governing the notes. In general, you may not offer or sell your original notes unless they are registered under the federal securities laws or sold in a transaction exempt from, or not subject to, the registration requirements of federal and applicable state securities laws. As a result of the restrictions on transfer and the availability of exchange notes, any remaining original notes are likely to be much less liquid than before the exchange offer. After the exchange offer is closed, we will no longer have an obligation to register the original

notes, except in limited circumstances. See The Exchange Offer Consequences to Holders of Original Notes Not Tendering in the Exchange Offer.

Exchange Agent

Wells Fargo Bank, National Association, the trustee under the indenture for the notes, is serving as the exchange agent in connection with the exchange offer. The address, telephone number and facsimile number of the exchange agent are listed in The Exchange Offer Exchange Agent and in the letter of transmittal.

The Exchange Notes

The following is a brief summary of the principal terms of the exchange notes. For a more complete description of the terms of the exchange notes, see Description of the Notes. The exchange notes will have terms identical in all material respects to the form and terms of the original notes, except that the exchange notes have been registered under the Securities Act and, therefore, will not be subject to certain transfer restrictions, will bear a different CUSIP number from the original notes and will not entitle their holders to registration rights or rights to additional interest.

Issuer	Valassis Communications, Inc.
Notes Offered	\$540,000,000 aggregate principal amount of 8 1/4% Senior Notes due 2015.
Maturity Date	March 1, 2015.
Interest	Interest on the exchange notes will accrue from the last interest payment date on which interest was paid on the original notes surrendered in exchange for the exchange notes or, if no interest has been paid on the original notes, from March 2, 2007. Interest on the exchange notes will be payable at a rate of 8 1/4% per annum semi-annually in arrears on March 1 and September 1 of each year. No additional interest will be paid on original notes tendered and accepted for exchange.
Ranking	<p>The exchange notes and the related subsidiary guarantees will be our and our subsidiary guarantors' respective senior unsecured obligations and will rank:</p> <p style="padding-left: 40px;">senior to any of our and our subsidiary guarantors' future indebtedness expressly subordinated to the exchange notes and the subsidiary guarantees;</p> <p style="padding-left: 40px;">equally with any of our and our subsidiary guarantors' existing and future unsecured senior indebtedness;</p> <p style="padding-left: 40px;">effectively junior to all of our and our subsidiary guarantors' existing and future secured indebtedness, including our outstanding 6 5/8% Senior Secured Notes due 2009, or the 2009 Secured Notes, our 1 5/8% Senior Secured Convertible Notes due 2033, or the 2033 Secured Notes, and the indebtedness and subsidiary guarantees under our senior secured credit facility, to the extent of the value of the assets securing such indebtedness; and</p> <p style="padding-left: 40px;">structurally subordinated to all of the obligations of any of our (or our subsidiary guarantors') subsidiaries that do not guarantee the exchange notes.</p>

Table of Contents

As of March 31, 2007, the original notes and related subsidiary guarantees ranked effectively junior to approximately \$850.0 million of senior secured indebtedness, and we had an additional \$108.6 million available under the revolving line of credit portion of our senior secured credit facility, after giving effect to the issuance of \$11.4 million of letters of credit, and \$160.0 million available under the delayed draw term loan portion of our senior secured credit facility.

Our non-guarantor subsidiaries would have represented less than 3.0% of our consolidated revenues during fiscal year 2006, and less than 3.0% of our consolidated revenues during the three-months ended March 31, 2007, in each case on a pro forma basis after giving effect to the Transactions as of January 1, 2006, and represented less than 5.0% of our consolidated assets as of March 31, 2007, and had operating losses during fiscal 2006 and the first three months of fiscal 2007.

Optional Redemption

Prior to March 1, 2011, we may, at our option, redeem all or a portion of the exchange notes at a redemption price equal to 100% of the principal amount of exchange notes to be redeemed plus a make-whole premium, as described in Description of the Notes Optional Redemption, plus accrued and unpaid interest and liquidated damages, if any, to the date of redemption.

At any time on or after March 1, 2011, we may, at our option, redeem all or a portion of the exchange notes at the redemption prices set forth under Description of the Notes Optional Redemption, plus accrued and unpaid interest and liquidated damages, if any, to the date of redemption.

In addition, on or prior to March 1, 2010, we may, at our option, redeem up to 35% of the principal amount of the outstanding exchange notes with the proceeds of certain sales of our equity at the redemption price set forth under Description of the Notes Optional Redemption. We may make the redemption only if (i) the redemption occurs within 120 days of the closing of the applicable equity offering and (ii) after the redemption, at least 65% of the aggregate principal amount of the exchange notes originally issued remains outstanding. See Description of the Notes Optional Redemption.

Asset Sales

If we or any of our restricted subsidiaries sell certain assets and do not apply the proceeds as required by the indenture governing the notes, we must, subject to the prepayment requirements of our senior secured credit facility, offer to repurchase the exchange notes at a price equal to 100% of the aggregate principal amount of the exchange notes, plus accrued and unpaid interest and liquidated damages, if any, to the date of purchase.

Risk Factors

You should carefully consider the information set forth in the section entitled "Risk Factors" and the other information included and incorporated by reference in this prospectus in deciding whether to participate in the exchange offer.

Table of Contents**Summary Pro Forma Condensed Combined Financial Information of Valassis**

The following summary pro forma condensed combined financial information is based upon the historical consolidated financial information of Valassis and ADVO incorporated by reference in this prospectus. The pro forma condensed combined financial information has been prepared to reflect the acquisition of ADVO based on the purchase method of accounting, with Valassis treated as the acquirer. The historical consolidated financial information has been adjusted to give pro forma effect to events that are directly attributable to the acquisition of ADVO and factually supportable and, in the case of statement of income information, that are expected to have a continuing impact. The summary pro forma condensed combined financial information is derived from the unaudited pro forma condensed combined financial information contained in this prospectus. See Unaudited Pro Forma Condensed Combined Financial Information. No pro forma condensed balance sheet is presented because the Transactions are already reflected in the historical unaudited consolidated balance sheet of Valassis as of March 31, 2007 incorporated by reference in this prospectus because the Transactions were completed before such date. The unaudited pro forma condensed combined statement of income information has been prepared for the three-months ended March 31, 2007 and the year ended December 31, 2006 and gives effect to the Transactions as if they had occurred on January 1, 2006.

The unaudited pro forma condensed combined financial statement information is presented for illustrative purposes only and is not necessarily indicative of the financial position or operating results that actually would have been achieved had the Transactions occurred on the dates indicated, or of the financial position or results of operations that may be attained by the combined company in the future. The pro forma adjustments related to the ADVO acquisition are preliminary and are based on an analysis of intercompany revenues and associated costs, estimated interest expense and income taxes. In addition, Valassis performed an assessment of the purchase price allocation by identifying intangible assets and estimating the fair market value of intangible and tangible assets and Valassis also made adjustments to certain tax assets and liabilities and accrued expenses. Differences between the preliminary and final purchase price allocations could have a material impact on the accompanying unaudited pro forma condensed combined financial statement information and Valassis future results of operations and financial position.

You should read the summary pro forma condensed combined financial information in conjunction with Summary, Capitalization, Unaudited Pro Forma Condensed Combined Financial Information, Selected Historical Consolidated Financial Data of Valassis, Selected Historical Consolidated Financial Data of ADVO and the consolidated financial statements and the related notes thereto incorporated by reference in this prospectus.

- (1) The ratio of earnings to fixed charges was computed by dividing (a) earnings before fixed charges, income taxes and extraordinary items by (b) fixed charges, which consist of interest expense, amortization of debt issuance costs and the interest portion of rent expense. On a pro forma basis, giving effect to the Transactions, our ratio of earnings to fixed charges for the fiscal year ended December 31, 2006 was 1.05x. Pro forma earnings for the three-months ended March 31, 2007 would have been inadequate to cover fixed charges by \$27.9 million.

RISK FACTORS

You should carefully consider the risks described below and the risks described in the documents incorporated by reference, along with the information provided elsewhere in this prospectus, before deciding whether to participate in the exchange offer. These risks and other risks and uncertainties not currently known to us or those that we currently deem immaterial may materially and adversely affect our business, results of operations and financial condition. In such event, the trading price of the exchange notes could decline or we may not be able to make payments of interest and principal on the exchange notes, and you may lose all or part of your investment.

Risks Related to the Exchange Offer

If you fail to exchange your original notes, they will continue to be restricted securities and may become less liquid.

Original notes which you do not tender or we do not accept will, following the exchange offer, continue to be restricted securities, and you may not offer to sell them except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities law. Other than in connection with the exchange offer, we do not plan to register the original notes under the Securities Act. If you hold any original notes after the exchange offer is completed, you may have trouble selling them because of these restrictions on transfer.

Because we anticipate that most holders of original notes will elect to participate in the exchange offer, we expect that the liquidity of the market for any original notes remaining after the completion of the exchange offer will be substantially limited. Any original notes tendered and exchanged in the exchange offer will reduce the aggregate principal amount of the original notes outstanding. Following the exchange offer, if you did not tender your original notes you will not have any further registration rights, except in limited circumstances, and your original notes will continue to be subject to certain transfer restrictions.

You must comply with the exchange offer procedures in order to receive the exchange notes.

We will only issue exchange notes in exchange for original notes that you timely and properly tender. Therefore, you should allow sufficient time to ensure timely delivery of the original notes, and you should carefully follow the instructions on how to tender your original notes set forth under The Exchange Offer Procedures for Tendering and in the letter of transmittal that accompanies this prospectus. Neither we nor the exchange agent are required to notify you of any defects or irregularities relating to your tender of original notes.

Some holders who exchange their original notes may be deemed to be underwriters and these holders will be required to comply with the registration and prospectus delivery requirements in connection with any resale transaction.

If you exchange your original notes in the exchange offer for the purpose of participating in a distribution of the exchange notes, you may be deemed to have received restricted securities and, if so, will be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Risks Related to the Notes and Our Other Indebtedness

Our substantial indebtedness could adversely affect our financial health and make it more difficult for us to service our debt or obtain additional financing, if necessary.

We incurred a substantial level of debt in connection with our acquisition of ADV0. This high degree of leverage could have a material adverse effect on our business and make it more difficult for us to satisfy our obligations under our outstanding indebtedness. For example, our substantial indebtedness may:

limit our ability to borrow additional amounts in the future for working capital, capital expenditures, acquisitions, debt service requirements, execution of our growth strategy or other purposes or make such financing more costly;

Table of Contents

require us to dedicate a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for working capital, capital expenditures, acquisitions and other general corporate purposes;

increase our vulnerability to competitive pressures and to general adverse economic or industry conditions, including fluctuations in market interest rates or a downturn in our business;

limit our flexibility in implementing our existing or any new business strategy or planning for, or reacting to, changes in our business, the industry or general economic conditions;

place us at a competitive disadvantage relative to our competitors that have greater financial resources than us, including News Corporation; and

make it more difficult for us to satisfy our financial obligations.

In addition, the indentures governing the notes, our 2033 Secured Notes and our 2009 Secured Notes and our senior secured credit facility contain financial and other restrictive covenants that limit our ability to engage in activities that may be in our long-term best interest. Our failure to comply with those covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all of our debt. We cannot assure you that our assets or cash flow would be sufficient to fully repay such debt, if accelerated, or that we would be able to repay, refinance or restructure the payments on such debt. See The restrictive covenants in our senior secured credit facility and the indenture governing the notes and any of the agreements governing our future indebtedness could adversely restrict our financial and operating flexibility and subject us to other risks.

Despite our current indebtedness levels and the restrictive covenants set forth in the agreements governing our indebtedness, we and our subsidiaries may be able to incur substantially more indebtedness. This could increase the risks associated with our substantial indebtedness.

The terms of our senior secured credit facility and the indentures governing the notes, our 2033 Secured Notes and our 2009 Secured Notes permit us and certain of our subsidiaries to incur certain additional indebtedness, including additional secured indebtedness. If we or our subsidiaries are in compliance with the financial covenants set forth in these agreements, we and our subsidiaries may be able to incur substantial additional indebtedness. In addition, under certain circumstances we will have the right to increase the size of our senior secured credit facility. If new debt is added to our and our subsidiaries' current debt levels, the related risks that we and they now face could intensify. See Description of Certain Other Indebtedness.

We may not be able to generate a sufficient amount of cash flow to meet our debt obligations, including our obligations under the notes.

Our ability to make scheduled payments or to refinance our obligations with respect to the notes and our other indebtedness will depend on our financial and operating performance, which, in turn, will be subject to prevailing economic conditions and certain financial, business and other factors beyond our control. If we cannot make scheduled payments on our debt, we will be in default and, as a result, holders of our debt could declare all outstanding principal and interest on our debt to be due and payable and we could be forced into bankruptcy or liquidation. In addition, certain of our subsidiaries may become unrestricted subsidiaries under the indenture governing the notes, in which case we may not have access to the cash flows of these subsidiaries and such subsidiaries will not be subject to the restrictive covenants under the indenture. Furthermore, if our cash flow and capital resources are insufficient to fund our debt obligations, we could face substantial liquidity problems and may be forced to reduce or delay scheduled expansions and capital expenditures, sell material assets or operations, obtain additional capital, restructure our debt or revise or delay our strategic plans. We cannot assure you that our operating performance, cash flow and capital resources will be sufficient for payment of our debt in the future. If we are required to take any of the actions referred to above, it would have a material adverse effect on our business, financial condition and results of operations. We cannot assure you that we would be able to

Table of Contents

take any of these actions on terms acceptable to us, or at all, that these actions would enable us to continue to satisfy our capital requirements or that these actions would be permitted under the terms of our various debt instruments, including the indenture governing the notes.

Your right to receive payments on the notes is effectively subordinated to the rights of our existing and future secured creditors.

The notes and the related subsidiary guarantees are unsecured. Holders of our and our subsidiary guarantors' existing and future secured indebtedness will have claims that are effectively senior to your claims as holders of the notes to the extent of the value of the assets securing our secured indebtedness. Our senior secured credit facility as well as our 2009 Secured Notes and 2033 Secured Notes are secured by liens on substantially all of our and our subsidiaries' assets and the notes will be effectively subordinated to such secured indebtedness. In the event of any distribution or payment of our or our subsidiaries' assets in any foreclosure, dissolution, winding-up, liquidation, reorganization or other bankruptcy proceeding, holders of secured indebtedness will have prior claim to those assets that constitute their collateral. Holders of the notes will participate ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes, and potentially with all of our other general creditors, based upon the respective amounts owed to each holder or creditor, in our remaining assets. In any of the foregoing events, we may not have sufficient assets to pay amounts due on the notes. As a result, holders of notes may receive less, ratably, than holders of our secured indebtedness.

As of March 31, 2007, the aggregate amount of our secured indebtedness was approximately \$850.0 million, and an additional \$108.6 million was available under the revolving line of credit portion of our senior secured credit facility, after giving effect to the issuance of \$11.4 million of letters of credit, and \$160.0 million was available under the delayed draw term loan portion of our senior secured credit facility. In addition, under certain circumstances we will have the right to increase the size of our senior secured credit facility. We will be permitted to borrow additional indebtedness, including secured debt, in the future under the terms of the indenture governing the notes. See [Description of the Notes](#). Despite our current indebtedness levels and the restrictive covenants set forth in the agreements governing our indebtedness, we and our subsidiaries may be able to incur substantially more indebtedness. This could increase the risks associated with our substantial indebtedness.

Your right to receive payments on the notes could be adversely affected if any of our non-guarantor subsidiaries declare bankruptcy, liquidate or reorganize.

Certain of our subsidiaries do not guarantee the notes. Our non-guarantor subsidiaries would have represented less than 3.0% of our consolidated revenues during fiscal year 2006, and less than 3.0% of our consolidated revenues during the three-months ended March 31, 2007, in each case on a pro forma basis after giving effect to the Transactions as of January 1, 2006, and represented less than 5.0% of our consolidated assets as of March 31, 2007. Because the creditors of our non-guarantor subsidiaries have direct claims on such subsidiaries and their assets, your claims as holders of the notes are structurally subordinated to any existing and future liabilities of our non-guarantor subsidiaries. This means that the creditors of the non-guarantor subsidiaries have priority in their claims on the assets of such non-guarantor subsidiaries over our creditors. Accordingly, if a bankruptcy, liquidation or reorganization of any non-guarantor subsidiary occurs, holders of its indebtedness and its trade creditors will generally be entitled to payment of their claims from the assets of that subsidiary before any assets are made available for distribution to us. See [Description of the Notes](#).

Table of Contents

The restrictive covenants in our senior secured credit facility and the indenture governing the notes and any of the agreements governing our future indebtedness could adversely restrict our financial and operating flexibility and subject us to other risks.

Our senior secured credit facility and the indenture governing the notes contain affirmative and negative covenants that limit our and our subsidiaries' ability to take certain actions. Our senior secured credit facility requires us to maintain specified financial ratios and satisfy other financial conditions. Our senior secured credit facility and the indenture governing our notes also restricts, among other things, our and our subsidiaries' ability to:

incur additional debt;

pay dividends and make other restricted payments;

make certain investments, loans and advances;

create or permit certain liens;

issue or sell capital stock of restricted subsidiaries;

use the proceeds from sales of assets and subsidiary stock;

enter into certain types of transactions with affiliates;

create or permit restrictions on the ability of our restricted subsidiaries to pay dividends or make other distributions to us;

enter into sale and leaseback transactions; and

sell all or substantially all of our assets or consolidate or merge with or into other companies.

These restrictions may limit our ability to operate our business and may prohibit or limit our ability to enhance our operations, take advantage of potential business opportunities as they arise or meet our capital needs. In addition, the indentures governing our 2009 Secured Notes and our 2033 Secured Notes contain certain covenants that limit our and our subsidiaries' ability to take certain actions. Furthermore, future debt instruments or other contracts could contain financial or other covenants more restrictive than those applicable to our senior secured credit facility, our 2009 Secured Notes, our 2033 Secured Notes or the notes.

The breach of any of these covenants by us or the failure by us to meet any of these conditions or requirements could result in a default under any or all of such indebtedness. Our ability to continue to comply with these covenants and requirements may be affected by events beyond our control, including prevailing economic, financial and industry conditions. An event of default under our debt agreements could trigger events of default under our other debt agreements and the holders of the defaulted debt could declare all of the amounts outstanding thereunder, together with accrued interest, to become immediately due and payable. If such acceleration occurs, we would not be able to repay our debt and we may not be able to borrow sufficient funds to refinance our debt. Even if new financing is made available to us, it may not be on terms acceptable to us.

Some of our debt, including borrowings under our senior secured credit facility, is based on variable rates of interest, which could result in higher interest expense in the event of an increase in interest rates.

As of March 31, 2007, \$590.0 million of our indebtedness was subject to variable interest rates. We have entered into an interest rate swap agreement which fixed the interest rate for an aggregate of \$300.0 million of our variable rate debt. Our swap agreement has a notional value of \$300.0 million and, effectively, fixes our interest rate at 6.6365% and expires in December 2010. Our remaining variable rate debt of \$290.0 million is subject to market rate risk, as our interest payments will fluctuate as the underlying interest rates change as a result of market changes. During the period when our interest rate swap agreement is effective, a 1% change in interest rates would result in a change in interest expense of approximately \$2.9 million per year. If there is a rise in interest rates, our debt service obligations on our variable rate indebtedness would increase even though the amount borrowed remained the same, which would affect our cash flows and results of operations. If we borrow additional amounts under the revolving portion of our senior secured credit facility, our market rate risk may increase.

Table of Contents

We may not have sufficient funds or be permitted by our senior secured credit facility to purchase the notes upon a change of control.

Upon a change of control, as defined in the indenture governing the notes, we will be required to make an offer to purchase all outstanding notes. The terms of the indenture governing the 2033 Secured Notes also require us to offer to purchase all outstanding 2033 Secured Notes upon a change of control. A change of control is defined differently under the indenture governing the notes and our senior secured credit facility. A transaction that constitutes a change of control under our senior secured credit facility would not necessarily constitute a change of control under the indenture. Further, we cannot assure you that we will have or will be able to borrow sufficient funds at the time of any change of control to pay the change of control purchase price or that restrictions in our senior secured credit facility or other indebtedness we may incur in the future would permit us to make the required repurchases. Accordingly, the holders of the notes may not receive the change of control purchase price for their notes in the event of a sale or other change of control, which will give the trustee under the indenture governing the notes and the holders of the notes the right to declare an event of default and accelerate the repayment of the notes. In addition, a change of control may constitute an event of default under our senior secured credit facility, which could result in a default under the indenture governing the notes if the lenders accelerate the debt under our senior secured credit facility.

The change of control provisions in the indenture governing the notes may not protect you in the event we consummate a highly leveraged transaction, reorganization, restructuring, merger or other similar transaction, unless such transaction constitutes a change of control under the indenture. Such a transaction may not involve a change in voting power or beneficial ownership or, even if it does, may not involve a change in the magnitude required under the definition of change of control in the indenture to trigger our obligation to repurchase the notes. Except as otherwise described above, the indenture does not contain provisions that permit the holders of the notes to require us to repurchase or redeem the notes in the event of a takeover, recapitalization or similar transaction.

We may not have sufficient funds to purchase our 2033 Secured Notes in the event the holders of our 2033 Secured Notes exercise their put option and require us to purchase such notes before their maturity date.

The holders of our 2033 Secured Notes may require us to purchase all or a portion of our 2033 Secured Notes on May 22, 2008 and May 22, 2013 at a price of \$667.24 and \$723.48 per \$1,000 principal amount at maturity, respectively, payable in cash. Any such payment may have a material adverse effect on our cash position at such time. Furthermore, we cannot assure you that we will have or be able to borrow sufficient funds to repurchase our 2033 Secured Notes if the holders of such notes exercise their put option. Although our senior secured credit facility contains a \$160.0 million delayed draw term loan that is available until June 2008 to refinance our 2033 Secured Notes, including in the event the holders of our 2033 Secured Notes exercise their put rights in May 2008, we cannot assure you that we will be able to obtain sufficient financing under the delayed draw term loan during such time. If the holders of our 2033 Secured Notes exercise their put option and we are unable to repurchase our 2033 Secured Notes, an event of default would result under the indenture governing the 2033 Secured Notes, which could also constitute an event of default under the agreements governing our other debt. As a result, holders of our debt could declare all outstanding principal and interest to be due and payable and we could be forced into bankruptcy or liquidation.

Federal and state statutes allow courts, under specific circumstances, to void guarantees and require noteholders to return payments received from subsidiary guarantors.

Under the federal bankruptcy laws and comparable provisions of state fraudulent transfer laws, a subsidiary guarantee could be voided, or claims in respect of a subsidiary guarantee could be subordinated to all other debts of that subsidiary guarantor if, among other things, the subsidiary guarantor, at the time it incurred the indebtedness evidenced by its subsidiary guarantee, (a) issued the guarantee with the intent of hindering, delaying or defrauding any current or future creditor or contemplated insolvency with a design to favor one or

Table of Contents

more creditors to the total or partial exclusion of other creditors or (b) received less than reasonably equivalent value or fair consideration for the incurrence of such guarantee, and if the subsidiary guarantor:

was insolvent or rendered insolvent by reason of such incurrence;

was engaged in a business or transaction for which the subsidiary guarantor's remaining assets constituted unreasonably small capital;
or

intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

If the subsidiary guarantee issued by that subsidiary guarantor were avoided or limited under fraudulent transfer or conveyance or other laws, any claim you make against such subsidiary guarantor for amounts payable on the notes would be effectively subordinated to all of the indebtedness and other obligations of such subsidiary guarantor, including trade payables and any subordinated indebtedness.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a subsidiary guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;

if the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts, including contingent liabilities, as they become due.

We cannot be sure what standard a court would apply in making these determinations or, regardless of the standard, that a court would not avoid the subsidiary guarantees issued by our subsidiary guarantors or that such subsidiary guarantees would not be subordinated to the other indebtedness of our subsidiary guarantors.

If an active trading market does not develop for the exchange notes, you may be unable to sell the exchange notes or sell them at a price you deem sufficient.

The exchange notes are a new issue of securities, and there is no established trading market for the exchange notes. If a trading market does not develop, or, if developed, does not continue, purchasers of the exchange notes may not be able to sell them. Even if a trading market develops, the exchange notes may trade at a discount from their principal amount or purchase price, depending upon:

the number of holders of such exchange notes;

prevailing interest rates;

the interest of securities dealers in making a market in the exchange notes;

the market for similar securities; and

other factors, including general economic conditions and our financial condition, credit rating, performance and prospects and prospects for companies in our industry generally.

We do not intend to list the exchange notes on any national securities exchange or to seek their quotation on any automated dealer quotation system. In addition, the market for non-investment-grade debt securities has historically been subject to disruptions that have caused substantial price volatility independent of the operating and financial performance of the issuers of these securities. It is possible that the market for the exchange notes will be subject to these kinds of disruptions. Accordingly, declines in the liquidity and market price of the

Table of Contents

exchange notes, if any are issued, may occur independent of our operating and financial performance and could have an adverse effect on holders of the exchange notes. We cannot assure you that any liquid market for the exchange notes, if any are issued, will develop.

The initial purchasers of the original notes have advised us that they may make a market in the exchange notes. However, they are not obligated to do so and may discontinue market making activities at any time, in their sole discretion, which could further negatively impact your ability to sell the exchange notes, or the prevailing market price at the time you choose to sell.

Risks Related to the Business

The acquisition of ADVO was significantly larger than any other acquisition we have made to date and could disrupt our business and harm our financial condition if we are not able to successfully integrate the acquired business or if the expected benefits of the combination do not materialize.

The ADVO acquisition is our largest and most significant acquisition to date. Due to, among other things, the size of the acquisition and the litigation history between us and ADVO related to the acquisition, we may be unable to integrate ADVO into our operations in an efficient, timely and effective manner, which would result in our not realizing some or all of the contemplated benefits of the acquisition, as well as increased costs. Successful integration has and continues to require, among other things, combining the two companies' business development efforts, key personnel, information technology development, geographically separate facilities and business and executive cultures. Realization of the expected benefits of the acquisition, including certain cost synergies, also requires implementation of appropriate operations, management and financial reporting systems and controls. We may experience difficulties in effectively implementing these systems and integrating ADVO's systems and operations. Integrating ADVO has been and continues to be a complex and time consuming process and requires significant attention from management and other personnel, which may distract their attention from the day-to-day business of the combined company.

The success of the acquisition will also depend, in part, on our ability to realize the anticipated revenue and expense opportunities from combining the business of ADVO with our business and there is no assurance that our financial results will meet or exceed the financial results that would have been achieved absent the acquisition. If our integration of ADVO is not successful or if ADVO's operations are less profitable than we currently anticipate, our business, financial condition and results of operations could be materially adversely affected.

Increased competition could reduce the demand for our products and services, which could have a material adverse effect on our business, financial condition, results of operations and business prospects.

Our products that reach a large area at low cost, which we refer as to our Market Delivered products, compete in the cooperative FSI business principally with News America Marketing FSI, a company owned by The News Corporation. We compete for business primarily on the basis of the following:

price;

category availability;

targeting ability;

ability to integrate with other products;

program development consulting;

customer services and sales relationships; and

lead times.

Table of Contents

In the past, new competitors have tried to establish themselves in the FSI market resulting in an increase in the number of FSI programs. This caused periods of intense price competition and higher costs due to a decrease in pages per FSI program. However, we believe that currently there are substantial barriers to entry for a new competitor to enter the FSI market due to what we believe are the monopolistic and anti-competitive practices of News America Marketing FSI and News America Marketing In-Store Services. Specifically, we believe News America Marketing FSI illegally ties its FSI sales to products in the in-store promotions market, a market that we believe News America Marketing In-Store Services has effectively monopolized.

News America Marketing FSI has been competing aggressively for FSI business. As a consequence, FSI prices trended downward in 2006 compared to 2005, and we expect FSI prices to continue to trend downward in 2007 similar to the decline experienced in 2006 of approximately 10%. We cannot predict when, or if, FSI prices will stabilize or increase. While the cooperative FSI industry grew 1% in 2006, our FSI market share decreased. The combination of these factors has resulted in decreasing revenues and profitability for our FSI segment. During the fourth quarter of 2005, and again in 2006, we renegotiated a contract with a major customer to extend FSI pricing similar to what had been provided by our competitor. Our renegotiation of existing contracts during 2006 with certain FSI customers as a result of the FSI pricing environment will also contribute to the pricing decline. When FSI contracts come up for renewal, we may not be able to renew them on favorable terms or at all. In addition, some of our competitors, particularly News America, have substantially greater financial resources than we do. Accordingly, these competitors may be better able to withstand changes in conditions within the industries in which we operate and may have significantly greater operating and financial flexibility than we do. These competitors could take a greater market share and cause us to lose business from our customers.

In addition, it is possible that alternative media or changes in promotional strategies could make our products less attractive to our customers and could cause a loss of demand for our products and services.

Our ADVO segment's direct mail media business faces intense competition based primarily on the ability to target selected potential customers on a cost-effective basis and provide a satisfactory return on advertising investment. Although newspaper subscribers and non-subscriber advertising programs represent our ADVO segment's most significant and direct competition, ADVO's products also compete for advertising dollars against other forms of print and electronic media and other advertising in general. ADVO's principal direct marketing competitors are other companies with residential lists and similar cooperative mailing advertising programs. These companies have a significant presence in many of ADVO's markets and represent competition to ADVO's ShopW@re shared mail program. Competition for market share advertising also comes from magazines, radio, broadcast and cable television, shoppers, the Internet, other communications media and other advertising printers that operate in ADVO's markets. The extent and nature of such competition are, in large part, determined by the location and demographics of the markets targeted by a particular advertiser and the number of media alternatives in those markets. ADVO's customers and prospective customers are operating with lower advertising budgets, while trying to allocate their spending across a growing number of media channels. They are increasingly faced with the challenge of doing more with less. The failure to improve ADVO's current processes or to develop new products and services could result in the loss of clients to current or future competitors. In addition, failure to gain market acceptance of new products and services could adversely affect growth.

Our Neighborhood Targeted segment competes against commercial printers and media placement agencies for solo specialized promotional programs for single advertisers. While both types of competitors have a history of competing on the basis of price to increase volume and improve economies of scale, commercial printers tend to be particularly aggressive during periods when they have unused capacity. In addition, we compete with Sunflower Marketing with respect to our polybag advertising and sampling products. To the extent our competitors in these businesses decide to compete more aggressively on price due to excess capacity or for other reasons it could materially negatively affect our revenue and profit margins.

Our Neighborhood Targeted products also compete with several newspaper network groups in the ROP market. While entering the ROP market does not require a significant investment in machinery and equipment, it

Table of Contents

does require a significant investment in systems and human resources in order to compete effectively. An increase in the number of ROP competitors could result in a loss of market share.

In our International & Services segment, our subsidiary, NCH Marketing Services, Inc., competes against Carolina Manufacturing Services and Carolina Services, both owned by Inmar, Inc., and International Outsourcing Services, LLC for coupon clearing and redemption services in the United States. To the extent that our competitors in this business decide to compete more aggressively on price, it could lower our market share and negatively affect our revenue and profit margin.

If ADVO is unable to stabilize and achieve efficiencies with its Service Delivery Redesign project, or SDR, and improve the availability of data for management decision making, our business and financial condition may be adversely affected. Additionally, further difficulty with SDR could result in problems relating to our operations and obligation to publish accurate financial statements.

Prior to our acquisition of ADVO in April 2006, ADVO launched SDR, ADVO's enterprise-wide order-to-cash system. This system replaced several older legacy systems, consolidating processes into one system with upgraded software applications and new technology and work processes. SDR was designed to streamline information flow and integrate business processes throughout the organization. The SDR implementation affected, either directly or peripherally, virtually all of ADVO's functions, requiring a significant effort by all ADVO employees. SDR directly impacted the following functions: contracting, order management, graphics print, operations, sales, accounts receivable, billing, collections, finance and information technology. ADVO encountered transitional issues during the SDR implementation, including problems with entering and processing customer orders, temporary inefficiencies in production, shipping disruptions and delayed customer invoicing. As a result, ADVO experienced delays in its collection of accounts receivable and incurred additional costs that ADVO believes contributed to the lower profit margins it realized in the quarters ended July 1, 2006 and September 30, 2006. We believe ADVO has identified and corrected many of the issues associated with the SDR implementation; however certain issues still exist in processing customer orders and billing. Many of the compensating controls implemented in connection with the launch of SDR were predominantly manual. While these controls are and have been effective, they are subject to human error and require additional time and effort and have previously resulted in delays in ADVO's accounting closing process. Furthermore, ADVO may experience unforeseen issues related to SDR in the future. The resulting disruption could adversely affect our business, sales, results of operations and financial condition. We believe ADVO is adequately managing the transition to the new processes. If needed, we will continue to devote additional resources, including continued user training, implementation of additional compensating controls and system enhancements, to work on the normalization of SDR. Such reallocation of resources could divert our resources away from other business activities. In addition, our ability to maintain adequate internal controls may be negatively affected by ADVO's implementation of SDR. See **Failure to maintain adequate internal controls may affect our ability to prepare timely and accurate financial statements and adversely affect our business and stock price.**

Failure to maintain adequate internal controls may affect our ability to report timely and accurate financial statements and adversely affect our business and stock price.

Section 404 of the Sarbanes-Oxley Act of 2002 requires that companies design and maintain an adequate system of internal control over financial reporting and assess and report on such internal control structure annually. Such a system of controls, however well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the system are met. In addition, the design of any internal control system is based in part upon certain assumptions regarding the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Table of Contents

Although prior to the completion of our acquisition of ADVO each of our and ADVO's management determined, and each of our respective independent registered public accounting firms attested, that our respective internal controls were effective as of the end of our respective most recent fiscal years, there can be no assurance that our integration of ADVO, and our respective internal control systems and procedures, will not result in or lead to a future material weakness in the combined company's internal controls, or that we or our independent registered public accounting firm will not identify a material weakness in our internal controls in the future. A material weakness in internal control over financial reporting would require our management and independent public accounting firm to evaluate our internal controls as ineffective. Furthermore, if we fail to maintain proper and effective internal controls, our ability to report our financial results on a timely and accurate basis may be impaired. If our internal control over financial reporting is not considered adequate, or if as a result we are unable to report our financial results on a timely and accurate basis, we may, among other things, experience a loss of public confidence, which could have an adverse effect on our business and stock price.

ADVO is currently faced with a number of class action lawsuits, the litigation and outcome of which may be detrimental to our financial condition, and there is potential that subsequent lawsuits will be filed.

In September 2006, three securities class action lawsuits were filed against ADVO in the United States District Court for the District of Connecticut by certain stockholders seeking to certify a class of all persons who purchased shares of ADVO's common stock between July 6, 2006 and August 30, 2006. These complaints generally allege that ADVO violated federal securities law by issuing a series of materially false and misleading statements concerning its business and financial results in connection with its proposed merger with us and, as a result, plaintiffs allege that ADVO's stock traded at artificially inflated prices. On December 12, 2006, one of the three plaintiffs filed a Motion to Partially Lift Discovery Stay, in response to which ADVO filed a response on January 16, 2007. The presiding judge denied the plaintiff's motion to lift the stay on discovery. In addition, the court ordered the matters consolidated under a single action and, as a result, a revised, consolidated complaint was filed by the plaintiffs on June 8, 2007. ADVO, its directors and certain of its officers were sued in a derivative action filed in September 2006, raising essentially the same factual allegations as the securities class actions. The derivative action was dismissed by Notice of Voluntary Dismissal without prejudice on January 24, 2007. There can be no assurance that this derivative action will not be filed again at a later date.

ADVO is generally obligated, to the extent permitted by law, to indemnify its directors and officers who are named defendants in some of these lawsuits. We are obligated under the amended merger agreement to maintain directors' and officers' liability insurance, for a period of six years following the ADVO acquisition, in respect of acts or omissions occurring at or prior to the acquisition for each person covered by the directors and officers' liability insurance policy of ADVO and its subsidiaries at the time of the merger agreement. The claims brought against ADVO, with or without merit, could increase the insurance rates in the future. As a result of these lawsuits, we could incur significant legal expenses and management's time and attention may be distracted from the day-to-day operations, which could have a material adverse effect on our business, financial condition and results of operations. There is no assurance that ADVO's insurance coverage will ultimately be available or, if available, sufficient to provide complete protection with respect to these claims.

The possibility of consolidation in our customer base, the loss of customers to alternative advertising methods or decreases in the frequency or amount of customers' mailings could impact our revenue growth and profitability.

In recent years there has been a growing trend toward retailer consolidation. As a result of this consolidation, the number of retailers to which we sell our products and services may decline and lead to a decrease in our revenues. In addition, we may lose customers due to the acquisition of such customers by companies that are not interested in using our products and services or that eliminate retail locations of our existing customers, including, for example, ADVO's loss of customers that resulted from the sale, prior to our acquisition of ADVO, of Albertson's to several companies. Also, a customer may decide to decrease its mailing

Table of Contents

frequency or modify the amount, pages and weight, and kind of advertising pieces it purchases from us. Our customers may be impacted by the items detailed above and by other general economic and business conditions that could affect their demand for our products and services and in turn choose other alternative advertising methods. Any of the foregoing could have a material adverse effect on us and our financial condition.

Significant increases in the cost of paper, which are beyond our control, could adversely affect our financial health.

We are dependent upon the availability of paper to print our customers' advertising circulars. Paper costs have historically experienced significant fluctuations. We have a limited ability to protect ourselves from these fluctuations or to pass increased costs along to our customers. A significant portion of our paper requirements is purchased from three paper companies under long-term contracts. These contracts limit the amount of any increase or decrease (to approximately 10% in any twelve-month period) in our cost of paper purchased from these suppliers, which cost can be adjusted quarterly. As of March 31, 2007, approximately 85% of our FSI paper requirements were purchased pursuant to certain long-term paper contracts which limit our exposure with respect to the price of paper during the terms of those contracts. However, when these contracts expire at the end of 2008, we may not be able to replace them with favorable terms or at all. Significant increases in the cost of paper could have a material adverse effect on our financial performance.

Continued Zone Product weakness may negatively impact our financial performance.

Our ADVO segment's zone products, which consist of the ShopWise® wrap and Zone Insert Card (formerly known as our Missing Child Card or Detached Address Card), have a significant effect on the ADVO segment's profitability and its overall financial performance. Over the past several quarters, ADVO experienced zone product weakness, particularly in the telecommunications/satellite advertising category, resulting in a year-over-year decrease in zone products revenues. ADVO formed a cross-functional zone products team that developed strategies focused on driving zone products revenue growth by increasing sales focus and reducing cancellations for calendar 2007. The zone products team is also focused on diversifying the customer base of zone products. Our execution of this strategy may take longer to implement than anticipated or may be unsuccessful. Such failures would lead to a continued weakness in revenue and profitability negatively impacting our financial performance. Furthermore, zone products, in particular the ShopWise® wrap product, is dependant on bookings from the quick serve restaurant category. Unexpected and significant decreases in this advertising category could negatively affect our revenues and profitability.

Our ADVO segment depends on third parties for delivery of its products and on third party information technology systems and services. If such third parties do not fulfill their obligations, our ADVO segment may lose customers and experience reduced revenue and profitability.

Our ADVO segment's products are primarily delivered through the United States mail. Postage expense is our ADVO segment's largest expense. The inability of the United States mail to deliver our ADVO segment's products on a timely basis could disrupt our ADVO segment's business and, in turn, adversely affect our business, sales, results of operation and financial condition. Furthermore, United States Postal Service rates increase periodically and we have no control over increases that may occur in the future. An increase in the cost of postage combined with our ADVO segment's inability to successfully pass through such postage rate increase directly to its customers could negatively affect our earnings.

Our ADVO segment also depends on third party information technology systems and services for its operations most of which are provided by a single third party. Such third party's performance is outside of ADVO's control. This third party provides computer processing, systems development and other various systems support to ADVO. ADVO's regional production sites, sales offices and corporate headquarters are on-line with this computer center, enabling the day-to-day processing functions to be performed and providing ADVO's corporate headquarters with management information. The systems include: order processing and production

Table of Contents

control, transportation/distribution, address list maintenance, market analysis, label printing and distribution, billing and financial systems, human resources and payroll processing, carrier routing of addresses received from customer files and demographic analyses as well as other systems. ADVO also has agreements with this third party to provide a customer support center (help desk) and client server (server farm) management services. Any failures or interruptions in the availability of these systems or services could disrupt our ADVO segment's business and adversely affect our sales, results of operations and financial condition.

Because we self-insure a number of our benefit plans, unexpected changes in claim trends may negatively impact our financial condition.

We self-insure a significant portion of expected losses under our workers' compensation program and medical benefits claims. Unexpected changes in claim trends, including the severity and frequency of claims, actuarial estimates and medical cost inflation could result in costs that are significantly different than initially reported. If future claims-related liabilities increase due to unforeseen circumstances, our self-insurance costs could increase significantly.

The uncertainty of current economic and political conditions make budgeting and forecasting difficult and may reduce sales promotion spending.

The future direction of the overall domestic and global economies could have a significant impact on our business. The potential for future terrorist attacks, increased global conflicts and the escalation of existing conflicts has created worldwide uncertainties that may have a negative impact on demand for our products. In addition, an economic downturn may decrease the advertising budgets of our customer base, which could have a material impact on our business, results of operation and financial condition. Because all components of our budgeting and forecasting, as well as that of our customers, are dependent upon estimates of growth in the markets served and demand for our products and services, the prevailing economic uncertainties may render estimates of future income and expenditures even more difficult to make than usual. Future events that may not have been anticipated could adversely affect our business, results of operations and financial condition.

FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements which involve risks and uncertainties. You can identify forward-looking statements because they contain words such as believes, expects, may, will, should, seeks, approximately, intends, plans, estimates, or expressions that concern our strategy, plans or intentions. All statements we make relating to estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. All of these forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those we expected. We derive most of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations (cautionary statements) are disclosed under Risk Factors and elsewhere in this prospectus, including, without limitation, in conjunction with the forward-looking statements included or incorporated by reference in this prospectus. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include:

the challenges and costs of achieving synergies and cost savings in connection with the ADVO acquisition and integrating ADVO s operations may be greater than expected;

our substantial indebtedness, and our ability to incur additional indebtedness, may affect our financial health;

certain covenants in our debt documents;

price competition from our existing competitors;

the presence of new competitors in any of our businesses;

an unforeseen increase in our paper or postal costs;

fluctuations in the amount, timing, pages and weight, and kinds of advertising pieces from period to period, due to a change in our customer s promotional needs, inventories and other factors;

changes which affect the businesses of our customers may lead to reduced sales promotion spending;

a shift in customer preference for different promotional materials, strategies or coupon delivery methods;

our failure to attract and retain qualified personnel may affect our business and results of operations;

a rise in interest rates could increase our borrowing costs;

the outcome of our pending shareholder lawsuits;

possible governmental regulation or litigation affecting aspects of our business;

general economic conditions, whether nationally or in the market areas in which we conduct business, may be less favorable than expected; and

the other factors set forth under Risk Factors.

We caution you that the foregoing list of important factors may not contain all of the material factors that are important to you. In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained or incorporated by reference in this prospectus may not in fact occur. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

USE OF PROCEEDS

The exchange offer is intended to satisfy our obligations under the registration rights agreement entered into in connection with the issuance of the original notes. We will not receive any cash proceeds from the issuance of the exchange notes in the exchange offer. In consideration for issuing the exchange notes as contemplated by this prospectus, we will receive the original notes in like principal amount. The original notes surrendered and exchanged for the exchange notes will be retired and canceled and cannot be reissued. Accordingly, the issuance of the exchange notes will not result in any increase in our indebtedness or capital stock.

The net proceeds of the offering of the original notes were \$527.8 million, after deducting \$12.2 million in discounts and fees to the initial purchasers and offering expenses. We used the net proceeds of the offering of the original notes, together with initial borrowings under our senior secured credit facility and existing cash on hand, to finance our acquisition of ADVQ, refinance approximately \$125.0 million of outstanding ADVQ debt and pay related fees and expenses.

Table of Contents**CAPITALIZATION**

The following table sets forth our consolidated cash and cash equivalents, debt, stockholders' equity and total capitalization as of March 31, 2007. The table below is unaudited and should be read in conjunction with Selected Historical Consolidated Financial Data of Valassis,

Unaudited Pro Forma Condensed Combined Financial Information and our consolidated financial statements and the related notes thereto incorporated by reference in this prospectus.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

The unaudited pro forma condensed combined financial statement information set forth below is presented to reflect the pro forma effects of the Transactions as if they occurred on the dates indicated.

The unaudited pro forma condensed combined statement of income for the three-months ended March 31, 2007 gives effect to the Transactions as if they occurred on January 1, 2006. The unaudited pro forma condensed combined statement of income for the three-months ended March 31, 2007 was derived by adding (i) our historical unaudited consolidated statement of income for the three-months ended March 31, 2007, which is included in our Quarterly Report on Form 10-Q filed with the SEC on May 10, 2007, but excluding ADVO's financial results for the period from March 2, 2007 (the closing date of our acquisition of ADVO) through March 31, 2007, which are not included in this prospectus, and (ii) ADVO's historical unaudited consolidated statement of operations for the three-months ended March 31, 2007, which is not included in this prospectus, and gives effect to the unaudited pro forma adjustments necessary to account for the Transactions.

The unaudited pro forma condensed combined statement of income for the year ended December 31, 2006 was derived by (A) adding financial results from (i) our historical audited consolidated statement of income for the year ended December 31, 2006, which is incorporated by reference in this prospectus, (ii) ADVO's historical audited consolidated statement of operations for the year ended September 30, 2006, which is incorporated by reference in this prospectus; and (iii) ADVO's unaudited consolidated statement of operations for the three-months ended December 30, 2006, which is incorporated by reference in this prospectus, and (B) subtracting financial results from ADVO's unaudited consolidated statement of operations for the three-months ended December 24, 2005, which is incorporated by reference in this prospectus, and gives effect to the unaudited pro forma adjustments necessary to account for the Transactions.

No pro forma condensed balance sheet is presented because the Transactions are already reflected in the historical unaudited consolidated balance sheet of Valassis as of March 31, 2007, incorporated by reference in this prospectus, because the Transactions were completed before such date.

The ADVO acquisition is being accounted for under the purchase method of accounting in accordance with accounting principles generally accepted in the United States. Accordingly, ADVO's operating results have been included in our operating results since the closing of the transaction on March 2, 2007.

The pro forma adjustments related to the ADVO acquisition are based on an analysis of intercompany revenues and associated costs, estimated interest expense and income taxes. In addition, Valassis performed an assessment of the purchase price allocation by identifying intangible assets and estimating the fair market value of intangible and tangible assets, including mailing lists, customer contracts, customer relationships, trademarks/tradenames, property and equipment. Valassis also made adjustments to certain tax assets and liabilities and accrued expenses. Differences between the preliminary and final purchase price allocations could have a material impact on the accompanying unaudited pro forma condensed combined financial statement information and Valassis' future results of operations and financial position. A final determination of the purchase price allocation, which is still in progress, will be based on actual, tangible and identifiable intangible assets of ADVO that existed on the date of completion of the merger.

The unaudited pro forma condensed combined financial statement information is based on, and should be read together with the consolidated financial statements incorporated by reference in this prospectus.

The unaudited pro forma condensed combined financial statement information is presented for illustrative purposes only and is not necessarily indicative of the financial position or operating results that actually would have been achieved had the Transactions occurred on the dates indicated, or of the financial position or results of operations that may be attained by the combined company in the future.

3. The pro forma adjustment reflects the elimination of intercompany sales between Valassis and ADVO.
4. Represents amortization of \$200.0 million of intangible assets with an average life of 20 years and depreciation related to the fair valuation of fixed assets. However these valuations are preliminary and subject to change based upon completion of Valassis final valuation analysis. A preliminary allocation of purchase price is provided in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2007, which is incorporated by reference in this prospectus.
5. The pro forma adjustment reflects amortization of deferred financing fees related to the new issuance of debt in connection with completion of the merger and assumes financing fees will be deferred over the life of the related debt. Valassis used the effective interest rate method to calculate amortization expense. The pro forma adjustment also eliminates the impact of interest expense associated with the ADVO debt.

THE EXCHANGE OFFER

Purpose and Effect of the Exchange Offer

The exchange notes to be issued in the exchange offer will be exchanged for our original notes that we issued on March 2, 2007. On that date, we issued \$540.0 million aggregate principal amount of 8¹/₄% Senior Notes due 2015. We issued the original notes in reliance upon an exemption from the registration requirements of the Securities Act. Concurrently, the initial purchasers of the original notes resold the original notes to investors believed to be qualified institutional buyers in reliance upon the exemption from registration provided by Rule 144A under the Securities Act and to non-U.S. persons in offshore transactions in reliance upon the exemption provided by Rule 903 or 904 of Regulation S of the Securities Act. In connection with the sale of the original notes, we entered into a registration rights agreement with the initial purchasers of the original notes pursuant to which we agreed to:

file with the SEC a registration statement under the Securities Act with respect to the issuance of the exchange notes in an exchange offer within 120 days after the date of issuance of the original notes;

use commercially reasonable efforts to cause that registration statement to become effective under the Securities Act within 180 days after the date of issuance of the original notes; and

use commercially reasonable efforts to consummate the exchange offer within 30 business days after the effective date of the registration statement.

The foregoing description of the registration rights agreement is qualified in its entirety by reference to the registration rights agreement, a copy of which has been filed as an exhibit to our Current Report on Form 8-K filed with the SEC on March 8, 2007 and is incorporated by reference herein.

We are making the exchange offer in reliance on the position of the SEC as set forth in certain no-action letters. However, we have not sought our own no-action letter. Based upon these interpretations by the SEC, we believe that a holder of original notes, but not a holder who is our affiliate within the meaning of Rule 405 of the Securities Act, who exchanges original notes for exchange notes in the exchange offer generally may offer the exchange notes for resale, sell the exchange notes and otherwise transfer the exchange notes without further registration under the Securities Act and without delivery of a prospectus that satisfies the requirements of Section 10 of the Securities Act. This does not apply, however, to a holder who is our affiliate within the meaning of Rule 405 of the Securities Act. We also believe that a holder may offer, sell or transfer the exchange notes only if the holder acquires the exchange notes in the ordinary course of its business and is not participating, does not intend to participate and has no arrangement or understanding with any person to participate in a distribution of the exchange notes.

Any holder of the original notes using the exchange offer to participate in a distribution of exchange notes cannot rely on the no-action letters referred to above. In the event that our belief regarding resale is inaccurate, if you transfer exchange notes in violation of the prospectus delivery provisions of the Securities Act and without an exemption from registration under the federal securities laws, you may incur liability under these laws. We do not assume or indemnify you against this liability. Any broker-dealer who holds original notes acquired for its own account as a result of market-making activities or other trading activities and who receives exchange notes in exchange for such original notes pursuant to the exchange offer may be a statutory underwriter and must deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of such exchange notes. See Plan of Distribution.

Each broker-dealer that receives exchange notes for its own account in exchange for original notes, where such original notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for original notes where such original notes

Table of Contents

were acquired by such broker-dealer as a result of market-making activities or other trading activities. The letter of transmittal states that by acknowledging and delivering a prospectus, a broker-dealer will not be considered to admit that it is an underwriter within the meaning of the Securities Act. We have agreed that, starting on the expiration date and ending on the close of business 180 days after the expiration date, we will make this prospectus available to any broker-dealer for use in connection with any such resale. See Plan of Distribution.

Except as described above, this prospectus may not be used for an offer to resell, resale or other transfer of exchange notes.

The exchange offer is not being made to, nor will we accept tenders for exchange from, holders of original notes in any jurisdiction in which the exchange offer or the acceptance of it would not be in compliance with the securities or blue sky laws of such jurisdiction.

If we do not comply with the provisions described above, or if, in certain circumstances, we do not file a shelf registration statement within certain specified time periods, and in certain other circumstances, additional cash interest, or Liquidated Damages, will accrue on the affected notes. The rate of Liquidated Damages will be 0.25% per annum on the principal amount of the original notes for the first 90-day period immediately following the occurrence of the event requiring payment of Liquidated Damages, or the Registration Default, increasing by an additional 0.25% per annum, with respect to each subsequent 90-day period, up to a maximum amount of additional interest of 1.00% per annum on the principal amount of the original notes, until the earlier of (1) the date on which all Registration Defaults have been cured or (2) the date on which all the notes otherwise become freely transferable by holders other than our affiliates without further registration under the Securities Act.

Terms of the Exchange Offer

Upon the terms and subject to the conditions of the exchange offer, we will accept any and all original notes validly tendered prior to 5:00 p.m., New York City time, on the expiration date for the exchange offer. Promptly after the expiration date (unless extended as described in this prospectus), we will issue an aggregate principal amount of up to \$540.0 million of exchange notes for a like principal amount of outstanding original notes tendered and accepted in connection with the exchange offer. The exchange notes issued in connection with the exchange offer will be delivered on the earliest practicable date following the expiration date. Holders may tender some or all of their original notes in connection with the exchange offer, but only in \$1,000 increments of principal amount.

The terms of the exchange notes will be identical in all material respects to the terms of the original notes, except that the exchange notes will have been registered under the Securities Act and will be issued free from any covenant regarding registration, including the payment of additional interest upon a failure to file or have declared effective an exchange offer registration statement or to complete the exchange offer by certain dates. The exchange notes will evidence the same debt as the original notes and will be issued under the same indenture and entitled to the same benefits under that indenture as the original notes being exchanged. As of the date of this prospectus, \$540.0 million in aggregate principal amount of the original notes are outstanding.

In connection with the issuance of the original notes, we arranged for the original notes purchased by qualified institutional buyers and those sold in reliance on Regulation S under the Securities Act to be issued and transferable in book-entry form through the facilities of The Depository Trust Company, or DTC, acting as depository. Except as described under Description of the Notes Book-entry, delivery and form, exchange notes will be issued in the form of a global note registered in the name of DTC or its nominee and each beneficial owner's interest in it will be transferable in book-entry form through DTC. See Description of the Notes Book-entry, delivery and form.

Holders of original notes do not have any appraisal or dissenters' rights in connection with the exchange offer. Original notes which are not tendered for exchange or are tendered but not accepted in connection with the

Table of Contents

exchange offer will remain outstanding and be entitled to the benefits of the indenture under which such original notes were issued, but certain registration and other rights under the registration rights agreement relating to the original notes will terminate and holders of the original notes will generally not be entitled to any registration rights under the registration rights agreement. See **Consequences to Holders of Original Notes Not Tendering in the Exchange Offer**.

We shall be considered to have accepted validly tendered original notes if and when we have given oral (to be followed by prompt written communication) or written notice to the exchange agent. The exchange agent will act as agent for the tendering holders for the purposes of receiving the exchange notes from us.

If any tendered original notes are not accepted for exchange because of an invalid tender, the occurrence of certain other events described in this prospectus or otherwise, we will return the original notes, without expense, to the tendering holder promptly after the expiration date for the exchange offer.

Holders who tender original notes will not be required to pay brokerage commissions or fees or, subject to the instructions in the letter of transmittal, transfer taxes on exchange of original notes in connection with the exchange offer. We will pay all charges and expenses, other than certain applicable taxes described below, in connection with the exchange offer. See **Fees and Expenses**.

Consequences to Holders of Original Notes Not Tendering in the Exchange Offer

Issuance of the exchange notes in exchange for the original notes under the exchange offer will be made only after timely receipt by the exchange agent of a properly completed and duly executed letter of transmittal (or an agent's message from DTC) and the certificate(s) representing such original notes (or confirmation of book-entry transfer), and all other required documents. Therefore, holders of the original notes desiring to tender such original notes in exchange for exchange notes should allow sufficient time to ensure timely delivery. We are under no duty to give notification of defects or irregularities of tenders of original notes for exchange. Original notes that are not tendered or that are tendered but not accepted by us will, following completion of the exchange offer, continue to be subject to the existing restrictions upon transfer thereof under the Securities Act, and, upon completion of the exchange offer, certain registration rights under the registration rights agreement will terminate.

In the event the exchange offer is completed, we generally will not be required to register the remaining original notes, subject to limited exceptions. Remaining original notes will continue to be subject to the following restrictions on transfer:

the remaining original notes may be resold only if registered pursuant to the Securities Act, if any exemption from registration is available, or if neither such registration nor such exemption is required by law; and

the remaining original notes will bear a legend restricting transfer in the absence of registration or an exemption.

We do not currently anticipate that we will register the remaining original notes under the Securities Act. To the extent that original notes are tendered and accepted in connection with the exchange offer, any trading market for remaining original notes could be adversely affected. See **Risk Factors - Risks Related to the Notes and the Exchange Offer**. If you fail to exchange your original notes, they will continue to be restricted securities and may become less liquid.

Expiration Date; Extensions; Amendments

The expiration date for the exchange offer is 5:00 p.m., New York City time, on August 10, 2007, unless extended by us in our sole discretion, in which case the term "expiration date" shall mean the latest date and time to which the exchange offer is extended.

Table of Contents

We reserve the right, in our sole discretion:

to delay accepting any original notes, to extend the exchange offer or to terminate the exchange offer if, in our reasonable judgment, any of the conditions described below shall not have been satisfied, by giving oral (to be followed by prompt written communication) or written notice of the delay, extension or termination to the exchange agent; or

to amend the terms of the exchange offer in any manner.

If we amend the exchange offer in a manner that we consider constitutes a material change, we will promptly disclose the amendment by means of a prospectus supplement that will be distributed to the registered holders of the original notes, and we will extend the exchange offer for a period of five to ten business days, depending upon the significance of the amendment and the manner of disclosure to the registered holders of the original notes, if the exchange offer would otherwise expire during this period.

Without limiting the manner in which we may choose to make a public announcement of any delay, extension, amendment, or termination of the exchange offer, we will have no obligation to publish, advertise, or otherwise communicate that public announcement, other than by making a timely release to an appropriate news agency.

Upon satisfaction or waiver of all the conditions to the exchange offer, we will accept, promptly after the expiration date of the exchange offer, all original notes properly tendered and will issue the exchange notes promptly after acceptance of the original notes. See **Conditions to the Exchange Offer** below. For purposes of the exchange offer, we will be deemed to have accepted properly tendered original notes for exchange when, as and if we will have given oral or written notice of our acceptance to the exchange agent.

Interest on the Exchange Notes

The exchange notes will bear interest at the rate of 8 1/4% per annum from the most recent date to which interest on the original notes has been paid or, if no interest has been paid on such original notes, from March 2, 2007. Interest will be payable semiannually in arrears on March 1 and September 1 of each year.

Conditions to the Exchange Offer

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or to exchange any exchange notes for, any original notes and may terminate the exchange offer as provided in this prospectus before the acceptance of the original notes, if prior to the expiration date:

any action or proceeding is instituted or threatened in any court or by or before any governmental agency relating to the exchange offer which, in our reasonable judgment, might materially impair the contemplated benefits of the exchange offer to us, or any material adverse development has occurred in any existing action or proceeding relating to us or any of our subsidiaries;

any change, or any development involving a prospective change, in our business or financial affairs or any of our subsidiaries has occurred which, in our reasonable judgment, might materially impair our ability to proceed with the exchange offer or materially impair the contemplated benefits of the exchange offer to us;

any law, statute, rule or regulation is proposed, adopted or enacted which in our reasonable judgment might materially impair our ability to proceed with the exchange offer; or

any governmental approval has not been obtained, which approval we, in our reasonable discretion, consider necessary for the completion of the exchange offer as contemplated by this prospectus.

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 424B3

If we determine in our reasonable discretion that any of the above conditions are not satisfied, we may (i) refuse to accept any original notes and return all tendered original notes to the tendering holders, (ii) extend

Table of Contents

the exchange offer and retain all original notes tendered prior to the expiration of the exchange offer, subject, however, to the rights of holders to withdraw those original notes (see Withdrawal of Tenders) or (iii) waive the unsatisfied conditions with respect to the exchange offer and accept all properly tendered original notes which have not been withdrawn.

Procedures for Tendering

Unless the tender is being made in book-entry form, to tender in the exchange offer, a holder must:

complete, sign and date the letter of transmittal, or a facsimile of it, in accordance with its instructions;

have the signatures guaranteed if required by the letter of transmittal; and

mail or otherwise deliver the signed letter of transmittal or the signed facsimile, the original notes and any other required documents to the exchange agent prior to 5:00 p.m., New York City time, on the expiration date.

Any financial institution that is a participant in DTC's Book-Entry Transfer Facility system may make book-entry delivery of the original notes by causing DTC to transfer the original notes into the exchange agent's account. To validly tender original notes through DTC, the financial institution that is a participant in DTC will electronically transmit its acceptance through the Automatic Transfer Offer Program. DTC will then edit and verify the acceptance, execute a book-entry transfer of the tendered original notes into the applicable account of the exchange agent at DTC and then send to the exchange agent confirmation of such book-entry transfer. The confirmation of such book-entry transfer will include an agent's message stating that DTC has received an express acknowledgment from the participant in DTC tendering the original notes that the participant has received and agrees to be bound by the terms of the letter of transmittal and that we may enforce the terms of the letter of transmittal against the participant. A tender of original notes through a book-entry transfer into the exchange agent's account will only be effective if an agent's message or the letter of transmittal (or facsimile) with any required signature guarantees and any other required documents are transmitted to and received or confirmed by the exchange agent at the address set forth below under the caption Exchange Agent, prior to 5:00 p.m., New York City time, on the expiration date unless the guaranteed delivery procedures described below under Guaranteed Delivery Procedures are complied with. Delivery of documents to DTC in accordance with its procedures does not constitute delivery to the exchange agent.

The tender by a holder of original notes will constitute an agreement between us and the holder in accordance with the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal.

The method of delivery of original notes and the letter of transmittal and all other required documents to the exchange agent is at the election and risk of the holders. Instead of delivery by mail, we recommend that holders use an overnight or hand delivery service. In all cases, holders should allow sufficient time to assure delivery to the exchange agent before the expiration date. No letter of transmittal or original notes should be sent to us. Holders may request their respective brokers, dealers, commercial banks, trust companies or nominees to effect the tenders for such holders.

Any beneficial owner whose original notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and who wishes to tender should contact the registered holder promptly and instruct such registered holder to tender on behalf of the beneficial owner. If the beneficial owner wishes to tender on that owner's own behalf, the owner must, prior to completing and executing the letter of transmittal and delivery of such owner's original notes, either make appropriate arrangements to register ownership of the original notes in the owner's name or obtain a properly completed bond power from the registered holder. The transfer of registered ownership may take considerable time.

Table of Contents

Signature on a letter of transmittal or a notice of withdrawal must be guaranteed by an eligible guarantor institution within the meaning of Rule 17Ad-15 under the Exchange Act, unless the original notes tendered pursuant thereto are tendered:

by a registered holder who has not completed the box entitled Special Issuance Instructions or Special Delivery Instructions on the letter of transmittal; or

for the account of an eligible guarantor institution.

In the event that signatures on a letter or transmittal or a notice of withdrawal are required to be guaranteed, such guarantee must be by:

a member firm of a registered national securities exchange or of the National Association of Securities Dealers, Inc.;

a commercial bank or trust company having an office or correspondent in the United States; or

an eligible guarantor institution.

If the letter of transmittal is signed by a person other than the registered holder of any original notes, the original notes must be endorsed by the registered holder or accompanied by a properly completed bond power, in each case signed or endorsed in blank by the registered holder.

If the letter of transmittal or any original notes or bond powers are signed or endorsed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such persons should so indicate when signing and, unless waived by us, submit evidence satisfactory to us of their authority to act in that capacity with the letter of transmittal.

We will determine all questions as to the validity, form, eligibility (including time of receipt) and acceptance and withdrawal of tendered original notes in our sole discretion. We reserve the absolute right to reject any and all original notes not properly tendered or any original notes whose acceptance by us would, in the opinion of our counsel, be unlawful. We also reserve the right to waive any defects, irregularities or conditions of tender as to any particular original notes either before or after the expiration date. Our interpretation of the terms and conditions of the exchange offer (including the instructions in the letter of transmittal) will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of original notes must be cured within a time period we will determine. Although we intend to request the exchange agent to notify holders of defects or irregularities relating to tenders of original notes, neither we, the exchange agent nor any other person will have any duty or incur any liability for failure to give such notification. Tenderees of original notes will not be considered to have been made until such defects or irregularities have been cured or waived. Any original notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned by the exchange agent to the tendering holders, unless otherwise provided in the letter of transmittal, promptly following the expiration date.

In addition, we reserve the right, as set forth above under the caption Conditions to the Exchange Offer, to terminate the exchange offer.

Effect of Tendering Original Notes

By tendering original notes pursuant to the exchange offer, you will be representing to us that, among other things:

you have full power and authority to tender, sell, assign and transfer the original notes you are tendering and that we will acquire good and unencumbered title thereto, free and clear of all liens, restrictions, charges and encumbrances and not subject to any adverse claim when the same are accepted by us;

Table of Contents

you are acquiring the exchange notes in the ordinary course of your business;

if you are a broker-dealer, that you will receive exchange notes for your own account in exchange for original notes that were acquired as a result of market-making or other trading activities, and that you will deliver a prospectus in connection with any resale of such exchange notes (see Plan of Distribution);

you do not have an arrangement or understanding with anyone to participate in a distribution of the exchange notes; and

you are not our affiliate or an affiliate of any subsidiary guarantor within the meaning of Rule 405 under the Securities Act. The tender of original notes by a holder and our acceptance thereof will constitute an agreement between the holder and us in accordance with the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal or exchange agent's message.

Guaranteed Delivery Procedures

If you wish to tender your original notes and (i) your original notes are not immediately available, (ii) you cannot deliver your original notes, the letter of transmittal or any other required documents to the exchange agent prior to the expiration date or (iii) you cannot complete the procedures for book-entry transfer prior to the expiration date, you may effect a tender if:

the tender is made through an eligible guarantor institution;

prior to the expiration date, the exchange agent receives from the eligible guarantor institution a properly completed and duly executed notice of guaranteed delivery, in substantially the same form as the notice of guaranteed delivery accompanying this prospectus, by facsimile transmission, mail or hand delivery setting forth the name and address of the holder, the certificate number(s) of the original notes, if any, and the principal amount of original notes tendered, stating that the tender is being made thereby and guaranteeing that, within three New York Stock Exchange trading days after the expiration date, the letter of transmittal or facsimile thereof properly completed and duly executed, with any required signature guarantee, or, in lieu thereof, an agent's message from DTC, together with the certificate(s) representing the original notes or a confirmation of book-entry transfer of the original notes into the exchange agent's account at DTC, and any other documents required by the letter of transmittal will be deposited by the eligible guarantor institution with the exchange agent; and

the properly completed and duly executed letter of transmittal or facsimile thereof with any required signature guarantee, or in lieu thereof, an agent's message from DTC, as well as the certificate(s) representing all tendered original notes in proper form for transfer or a confirmation of book-entry transfer of the original notes into the exchange agent's account at DTC, and all other documents required by the letter of transmittal are received by the exchange agent within three New York Stock Exchange trading days after the expiration date.

Withdrawal of Tenders

Except as otherwise provided herein, tenders of original notes may be withdrawn at any time prior to 5:00 p.m., New York City time, on the expiration date.

To withdraw a tender of original notes in connection with the exchange offer, a written or facsimile transmission notice of withdrawal, in substantially the same form as the notice of withdrawal accompanying this prospectus, must be received by the exchange agent at its address set forth herein prior to 5:00 p.m., New York City time, on the expiration date. Any such notice of withdrawal must:

specify the name of the person who deposited the original notes to be withdrawn;

Table of Contents

identify the original notes to be withdrawn (including the certificate number(s), if any, and principal amount of such original notes);

be signed by the depositor in the same manner as the original signature on the letter of transmittal by which such original notes were tendered (including any required signature guarantees) or be accompanied by documents of transfer sufficient to have the trustee register the transfer of such original notes into the name of the person withdrawing the tender; and

specify the name in which any such original notes are to be registered, if different from that of the depositor.

If original notes have been tendered pursuant to the procedure for book-entry transfer, any notice of withdrawal must specify the name and number of the account at DTC to be credited with the withdrawn original notes or otherwise comply with DTC's procedures. We will determine all questions as to the validity, form and eligibility (including time of receipt) of such withdrawal notices. Any original notes so withdrawn will be considered not to have been validly tendered for purposes of the exchange offer, and no exchange notes will be issued unless the original notes withdrawn are validly re-tendered. Any original notes which have been tendered but which are not accepted for exchange or which are withdrawn will be returned to the holder without cost to such holder promptly after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn original notes may be re-tendered by following one of the procedures described above under "Procedures for Tendering" at any time prior to the expiration date.

Exchange Agent

Wells Fargo Bank, National Association has been appointed as exchange agent in connection with the exchange offer. Questions and requests for assistance, as well as requests for additional copies of this prospectus or of the letter of transmittal, should be directed to the exchange agent addressed as follows:

Delivery of the letter of transmittal to an address other than as listed above or transmission via facsimile other than as listed above will not constitute a valid delivery of the letter of transmittal. Originals of all documents sent by facsimile should be sent promptly by registered or certified mail, by hand or overnight delivery service.

Fees and Expenses

We will not make any payment to brokers, dealers or others soliciting acceptances of the exchange offer. We will pay certain other expenses to be incurred in connection with the exchange offer, including the fees and expenses of the exchange agent and certain accounting and legal fees.

Holders who tender their original notes for exchange will not be obligated to pay transfer taxes. If, however:

exchange notes are to be delivered to, or issued in the name of, any person other than the registered holder of the original notes tendered;

Table of Contents

tendered original notes are registered in the name of any person other than the person signing the letter of transmittal; or

a transfer tax is imposed for any reason other than the exchange of original notes in connection with the exchange offer; then the amount of any such transfer taxes (whether imposed on the registered holder or any other persons) will be payable by the tendering holder. If satisfactory evidence of payment of such taxes or exemption from them is not submitted with the letter of transmittal, the amount of such transfer taxes will be billed directly to the tendering holder.

Accounting Treatment

The exchange notes will be recorded at the same carrying value as the original notes as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes upon the completion of the exchange offer. The expenses of the exchange offer that we pay will increase our deferred financing costs in accordance with generally accepted accounting principles.

DESCRIPTION OF OTHER INDEBTEDNESS

The following is a summary of certain of our outstanding indebtedness. To the extent this summary contains descriptions of our senior secured credit facility, and the notes, our 2009 Secured Notes and our 2033 Secured Notes and the respective indentures governing them, the descriptions do not purport to be complete and are qualified in their entirety by reference to those and related documents, copies of which we will provide to you upon request.

Our Senior Secured Credit Facility

General

On March 2, 2007, we entered into a senior secured credit facility with Bear Stearns Corporate Lending Inc., as Administrative Agent, and a syndicate of lenders jointly arranged by Bear, Stearns & Co. Inc. and Banc of America Securities LLC. Our senior secured credit facility consists of the following:

a five-year revolving line of credit in an aggregate principal amount of \$120.0 million, including \$35.0 million available in Euros, British Pounds Sterling, Mexican Pesos or Canadian Dollars, \$40.0 million available for letters of credit and a \$20 million swingline loan subfacility, or the revolving line of credit;

a seven-year term loan B in an aggregate principal amount equal to \$590.0 million, with principal repayable in quarterly installments, at a rate of 1.0% per year until the seventh anniversary of the closing date of the term loan B, or the term loan B;

a seven-year amortizing delayed draw term loan in an aggregate principal amount equal to \$160.0 million, with principal repayable in quarterly installments at a rate of 1.0% per year during the first six years of the delayed draw term loan, with the remaining balance thereafter to be repaid in full on the seventh anniversary of the closing date of the delayed draw term loan at which time the remaining balance will be payable in full, or the delayed draw term loan; and

an incremental facility pursuant to which, prior to the maturity of the senior secured credit facility, we may incur additional indebtedness under our senior secured credit facility in an additional amount up to \$150.0 million under either the revolving line of credit or the term loan B or a combination thereof, or the incremental facility. The obligations under the incremental facility will constitute secured obligations under our senior secured credit facility.

All borrowings under our senior secured credit facility are subject to the satisfaction of customary conditions, including absence of a default and accuracy of representations and warranties. As of March 31, 2007, we had \$590.0 million outstanding under the term loan B portion of our senior secured credit facility and no borrowings under the revolving line of credit portion of our senior secured credit facility. In addition, \$108.6 million was available to be drawn under the revolving line of credit after giving effect to certain outstanding letters of credit. The delayed draw term loan is available until June 2008 to refinance all of our 2033 Secured Notes, including in the event the holders of our 2033 Secured Notes exercise their put rights in May 2008. Drawings under the delayed draw term loan are subject to the requirement that the proceeds of such drawings be used to repay certain of our existing indebtedness. The terms of the incremental facility will be substantially similar to the terms of our senior secured credit facility, except with respect to the pricing of the incremental facility, which could be higher than that for the revolving line of credit and the term loan B. The proceeds of the incremental facility may be used for general corporate purposes.

Interest and Fees

Borrowings under our senior secured credit facility bear interest, at our option, at either the base rate (defined as the higher of the prime rate announced by the commercial bank selected by the administrative agent

Table of Contents

to the facility or the federal funds effective rate plus 0.5%), or at a Eurodollar rate (as defined in the credit agreement), in each case, plus an applicable margin. After the delivery of financial statements and compliance certificates for two consecutive fiscal quarters following the closing of the ADVOC acquisition, the applicable margins for the revolving line of credit may be subject to adjustment based upon the ratio of our secured debt to our consolidated adjusted EBITDA (as defined in the credit agreement) being within certain defined ranges.

Guarantees and Security

Our senior secured credit facility is guaranteed by substantially all of our existing and future domestic restricted subsidiaries pursuant to a Guarantee, Security and Collateral Agency Agreement, dated as of March 2, 2007. In addition, our obligations under our senior secured credit facility and the guarantee obligations of the subsidiary guarantors are secured by first priority liens on substantially all of our and our subsidiary guarantors' present and future assets and by a pledge of all of the equity interests in our subsidiary guarantors and 65% of the capital stock of our existing and future restricted foreign subsidiaries. Our obligations under our senior secured credit facility will be senior to the notes to the extent of the assets securing our senior secured credit facility obligations.

Prepayments

Subject to customary notice and minimum amount conditions, we are permitted to make voluntary prepayments without payment of premium or penalty. With certain exceptions, we are required to make mandatory prepayments on the term loans in certain circumstances, including, without limitation, 100% of the aggregate net cash proceeds from any debt offering, asset sale or insurance and/or condemnation recovery (to the extent not otherwise used for reinvestment in our business or related business) and up to 50% (with the exact percentage to be determined based upon our consolidated secured leverage ratio as defined in our credit agreement) of our excess cash flow. Such mandatory prepayments will first be applied ratably to the principal installments of the term loans and second, to the prepayment of any outstanding revolving or swing-line loans, without an automatic reduction of the amount of the revolving line of credit.

Covenants

Subject to customary and otherwise agreed upon exceptions, our senior secured credit facility contains affirmative and negative covenants, including, but not limited to,

the payment of other obligations;

the maintenance of organizational existences, including, but not limited to, maintaining our property and insurance;

compliance with all material contractual obligations and requirements of law;

limitations on the incurrence of indebtedness;

limitations on creation and existence of liens;

limitations on certain fundamental changes to our corporate structure and nature of our business, including mergers;

limitations on asset sales;

limitations on restricted payments;

limitations on capital expenditures;

limitations on any investments, provided that certain permitted acquisitions and strategic investments are allowed;

limitations on optional prepayments and modifications of certain debt instruments;

Table of Contents

limitations on modifications to material agreements;

limitations on transactions with affiliates;

limitations on entering into certain swap agreements;

limitations on negative pledge clauses or clauses restricting subsidiary distributions;

limitations on sale-leaseback and other lease transactions; and

limitations on changes to our fiscal year.

Our senior secured credit facility also requires us to comply with a maximum senior secured leverage ratio, as defined in the credit agreement (generally, the ratio of our consolidated senior secured indebtedness to consolidated EBITDA for the most recent four quarters) ranging from 4.25 to 1.00 to 3.50 to 1.00 (depending on the applicable period), and a minimum consolidated interest coverage ratio, as defined in the credit agreement (generally, the ratio of our consolidated EBITDA for such period to consolidated interest expense for such period) ranging from 1.60 to 1.00 to 2.00 to 1.00 (depending on the applicable period).

In addition, we are required to give notice to the administrative agent and the lenders under the credit agreement of defaults under our senior secured credit facility documentation and other material events, make any new wholly-owned restricted domestic subsidiary a subsidiary guarantor and pledge substantially all after-acquired property as collateral to secure our and our subsidiary guarantors' obligations in respect of our senior secured credit facility.

Events of Default

Our senior secured credit facility contains customary events of default, including upon a change of control, which change of control may be more restrictive than the change of control provision of the notes. If such an event of default occurs, the lenders under our senior secured credit facility would be entitled to take various actions, including in certain circumstances increasing the effective interest rate and the acceleration of amounts due under our senior secured credit facility.

6 5/8% Senior Notes due 2009

In January 1999, we issued \$100.0 million aggregate principal amount of our 2009 Secured Notes in a private placement transaction. We pay interest on our 2009 Secured Notes on January 15 and July 15 of each year until maturity of the notes.

Upon consummation of the Transactions, our 2009 Secured Notes became secured on an equal and ratable basis with the indebtedness under our senior secured credit facility to the extent required by the indenture governing our 2009 Secured Notes. Our 2009 Secured Notes are effectively senior to the notes to the extent of the value of the assets that secure our 2009 Secured Notes.

We may redeem all or any of our 2009 Secured Notes at any time at a price equal to the greater of (i) 100% of the principal amount of the 2009 Secured Notes to be redeemed or (ii) the sum of the present values of the remaining scheduled payments discounted to the redemption date on a semiannual basis at the Treasury Rate plus 50 basis points, plus any accrued and unpaid interest to the applicable redemption date. There are no mandatory redemption provisions.

1 5/8% Senior Convertible Notes due 2033

In May 2003, we issued \$239,794,000 aggregate principal amount of our 2033 Secured Notes in a private placement transaction at an issue price of \$667.24 per note, resulting in gross proceeds to us of \$160.0 million. The holders of our 2033 Secured Notes receive cash interest payments of 1 5/8% per year on the original discounted amount, payable on November 22 and May 22 of each year through May 2008. Original issue

Table of Contents

discount accrues on each 2033 Note, so long as it remains outstanding, at ⁵/₈% per annum beginning May 22, 2008, on a semi-annual bond equivalent basis.

Upon consummation of the Transactions, our 2033 Secured Notes became secured on an equal and ratable basis with the indebtedness under our senior secured credit facility to the extent required by the indenture governing our 2033 Secured Notes. Our 2033 Secured Notes are effectively senior to the notes to the extent of the value of the assets that secure our 2033 Secured Notes.

The holders of our 2033 Secured Notes may require us to purchase all or a portion of their notes with cash on May 22, 2008, May 22, 2013, May 22, 2018, May 22, 2023 and May 22, 2028 at a price of \$667.24, \$723.48, \$784.46, \$850.58 and \$922.27 per \$1,000 principal amount at maturity, respectively.

If a change of control occurs, each holder of our 2033 Secured Notes may require us to repurchase all or a portion of such holder's notes at their accreted value plus accrued and unpaid interest. We may redeem for cash all or a portion of our 2033 Secured Notes at their accreted value plus accrued and unpaid interest at any time on or after May 22, 2008.

Our 2033 Secured Notes are convertible by their holders when (i) a market price trigger (as defined below) occurs, (ii) there is a credit rating assigned to the Notes by Moody's Investor Service, Inc. of Ba3 or lower or BB- or lower by Standard & Poor's Rating Group, or (iii) in respect of a 2033 senior convertible note, we or the holder of that note has exercised redemption rights related to that note. A market price trigger occurs (a) the first time that the closing sales price per share of our common stock for at least 20 trading days in any period of 30 consecutive trading days exceeds 120% of the accreted conversion price per share of common stock or (b) the first time that the average trading prices for the 2033 Secured Notes over a 10 consecutive trading day period is less than 105% of the product of the closing per share sale price of our common stock times the number of shares of our common stock issuable per 2033 Note upon conversion during such 10 day period. The accreted conversion price as of any day is equal to the issue price of a 2033 Note plus the accrued original issue discount to that day divided by the number of shares issuable upon conversion of that note. Our 2033 Secured Notes are convertible at a base rate of 15.1627 shares plus an incremental share factor of up to 9.8556. The incremental shares begin to accrue when the stock price at the time of the conversion is greater than the base conversion price and the number of incremental shares is based upon the incremental share factor and our common stock price at the time of the conversion. On May 22, 2008, the total conversion rate (base rate plus incremental shares) is fixed based upon our common stock price as of that date.

On February 14, 2007, in contemplation of financing in connection with the proposed acquisition of ADVO, Moody's lowered the rating of our 2033 Secured Notes to Ba2 with a stable outlook. Similarly, S&P lowered the rating on our 2033 Secured Notes to BB- with negative implications on CreditWatch pending the closing of the financing. Both rating agencies rated the 2033 Secured Notes slightly higher than our general rating to reflect the anticipated security interest that holders of our 2033 Secured Notes received upon the closing of the ADVO acquisition. Pursuant to the indenture covering the 2033 Secured Notes, the rating by S&P triggered the right of the holders of the 2033 Secured Notes to convert these notes. However, the conversion price is out-of-the-money. Lower debt ratings may increase our cost of borrowing as well as adversely affect our access to the capital markets.

All of our indentures governing our 2009 Secured Notes, 2033 Secured Notes and the notes contain cross-default provisions which become applicable if we default under any mortgage, indebtedness or instrument for money borrowed by us and the default results in the acceleration of such indebtedness in excess of \$25.0 million. Our credit agreement contains a cross-default provision which becomes applicable if we default under any mortgage, indebtedness or instrument for money borrowed by us in excess of \$25.0 million.

Other Indebtedness

On April 4, 2007, we entered into a forward dated \$300 million LIBOR swap contract. The swap contract serves to convert a portion of our senior secured credit facility term loan B variable rate of interest to a fixed rate of interest.

DESCRIPTION OF THE NOTES

You can find the definitions of certain terms used in this description under the subheading **Certain Definitions**. In this description, the word **Company** refers only to Valassis Communications, Inc. and not to any of its subsidiaries.

The Company issued the original notes, and will issue the exchange notes, as a single series of securities under an Indenture (the **Indenture**), dated as of March 2, 2007, by and among the Company, the subsidiary guarantors named therein and Wells Fargo Bank, National Association, as Trustee. The form and terms of the exchange notes are substantially identical in all material respects to the form and terms of the original notes, except that the exchange notes have been registered under the Securities Act and, therefore, will not be subject to certain transfer restrictions, will bear a different CUSIP number from the original notes and will not entitle their holders to registration rights or rights to additional interest. Unless specifically stated to the contrary, the following description applies equally to the exchange notes and the original notes. The terms of the notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939.

The following description is a summary of the material provisions of the Indenture, but does not purport to be complete and is qualified by reference to the Indenture. We urge you to read the Indenture because it, and not this description, defines your rights as holders of the notes (the **Holders**). The Indenture has been filed as an exhibit to the Company's Current Report on Form 8-K filed with the SEC on March 8, 2007 and is available as described under **Where You Can Find More Information**.

Brief Description of the Notes and the Guarantees

The notes are:

general, unsecured senior obligations of the Company;

equal in right of payment with all existing and future unsecured senior indebtedness of the Company;

senior in right of payment to all existing and future indebtedness of the Company that is, by its terms, expressly subordinated in right of payment to the notes;

effectively subordinated to all existing and future secured indebtedness of the Company to the extent of the value of the assets securing such Indebtedness; and

structurally subordinated to all liabilities, including trade payables and preferred stock, of each Subsidiary of the Company that is not a Guarantor of the notes.

The notes are guaranteed by substantially all of the Company's existing and future domestic Restricted Subsidiaries. Each Guarantee of the notes by a Guarantor is:

a general, unsecured senior obligation of such Guarantor;

equal in right of payment with all existing and future senior indebtedness of such Guarantor;

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 424B3

senior in right of payment to all existing and future indebtedness of such Guarantor that is, by its terms, expressly subordinated in right of payment to such Guarantee; and

effectively subordinated to all existing and future secured indebtedness of such Guarantor to the extent of the value of the assets securing such indebtedness.

As of March 31, 2007, the Company and the Guarantors had total indebtedness of approximately \$1,389.9 million, of which approximately \$850.0 million was secured indebtedness, and we had approximately \$268.6 million of additional borrowings available as additional secured indebtedness under the New Credit Agreement (including \$160.0 million that may be drawn until June 2008 to refinance certain of the Existing

Table of Contents

Valassis Notes). In addition, under certain circumstances, we have the ability to increase the borrowings available under the New Credit Agreement by up to \$150.0 million. As indicated above, payments on the notes and under the Guarantees are effectively subordinated to the payment of all existing and future secured indebtedness of the Company and the Guarantors to the extent of the value of the assets securing such indebtedness.

As of March 31, 2007, all of our Subsidiaries are Restricted Subsidiaries. Subject to certain limitations, we are permitted to designate certain of our Subsidiaries as Unrestricted Subsidiaries. Our Unrestricted Subsidiaries are not subject to many of the restrictive covenants in the Indenture and are not required to guarantee the notes. The notes are structurally subordinated to all indebtedness and other liabilities and commitments (including trade payables and lease obligations) of the Company's current and future Subsidiaries that are not Guarantors.

Principal, Maturity and Interest

The notes are unlimited in aggregate principal amount. On March 2, 2007, the Company issued \$540.0 million in aggregate principal amount of the original notes. The Company may issue Additional Notes under the Indenture from time to time, subject to all of the covenants in the Indenture, including the limitations set forth under Certain Covenants Limitation on Incurrence of Additional Indebtedness. The notes and any Additional Notes subsequently issued under the Indenture will, except as otherwise provided in the Indenture, be treated as a single class for all purposes under the Indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase. Any original notes that remain outstanding after the completion of the exchange offer, together with the exchange notes issued in connection with the exchange offer, will be treated as a single class of securities under the Indenture.

The notes will mature on March 1, 2015. Interest on the notes will accrue at a rate of 8¹/₄% per annum and will be payable semi-annually in arrears in cash on March 1 and September 1 of each year, commencing on September 1, 2007, to the Holders of record of the notes at the close of business on the February 15 and August 15 immediately preceding the applicable interest payment date.

The Company will issue the notes in fully registered form in denominations of \$1,000 and integral multiples thereof. Interest on overdue principal will accrue at a rate that is 1% per annum higher than the then applicable interest rate on the notes. The Company will pay interest on overdue installments of interest and Liquidated Damages, if any, at such higher rate to the extent lawful. Interest on the notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from and including the date of issuance. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

The Company or any of its Subsidiaries may at any time and from time to time purchase notes in the open market or otherwise.

Paying Agent and Registrar for the Notes

The Trustee will initially act as Paying Agent and Registrar for the notes. The notes may be presented for registration or transfer and exchange at the offices of the Registrar. The Company may change any Paying Agent and Registrar without notice to Holders of the notes. The Company or any of its Subsidiaries may act as Paying Agent or Registrar.

Methods of Receiving Payments on the Notes

The Company will pay principal, interest, premium, if any, and Liquidated Damages, if any, on the notes at the Trustee's corporate office. At the Company's option, interest and Liquidated Damages may be paid at the Trustee's corporate trust office or by check mailed to the registered addresses of Holders.

Table of Contents

Guarantees

The Guarantors fully and unconditionally guarantee, jointly and severally, the Company's obligations under the Indenture and the notes on a senior unsecured basis. The obligations of each Guarantor under its Guarantee are limited as necessary to prevent the Guarantee from constituting a fraudulent conveyance or fraudulent transfer under applicable law. See Risk Factors Federal and state statutes allow courts, under specific circumstances, to void guarantees and require noteholders to return payments received from subsidiary guarantors.

Each Guarantor may consolidate with or merge into or sell its assets to the Company or another Restricted Subsidiary of the Company that is a Guarantor without limitation, or with other Persons upon the terms and conditions set forth in the Indenture. See Certain Covenants Merger, Consolidation and Sale of Assets. In the event all of the Capital Stock of a Guarantor is sold by the Company and the sale complies with the provisions set forth in Repurchase at the Option of Holders Asset Sales, such Guarantor's Guarantee will be released. In addition, if the Company designates any Restricted Subsidiary that is a Guarantor as an Unrestricted Subsidiary in accordance with the provisions of the Indenture, the Guarantee of such Guarantor will be released.

Optional Redemption

At any time, or from time to time, prior to March 1, 2011, the Company may, at its option, redeem the notes, in whole or in part, at a redemption price equal to 100% of the principal amount of the notes to be redeemed plus the Applicable Premium as of, and accrued and unpaid interest and Liquidated Damages, if any, to, but not including, the redemption date (subject to the rights of Holders on the relevant record date to receive interest due on the relevant interest payment date). Notice of such redemption shall be delivered to each Holder's registered address, not less than 30 nor more than 60 days prior to the redemption date.

At any time, or from time to time, on or prior to March 1, 2010, the Company may, at its option, use the net cash proceeds of one or more Equity Offerings to redeem up to 35% of the principal amount of the notes issued under the Indenture (including any Additional Notes issued under the Indenture) at a redemption price equal to 108.25% of the principal amount thereof, plus accrued and unpaid interest thereon and Liquidated Damages, if any, to, but not including, the date of redemption; *provided* that:

- (1) at least 65% of the principal amount of notes issued under the Indenture on the Issue Date (other than notes held, directly or indirectly, by the Company or its Subsidiaries) remains outstanding immediately after any such redemption; and
- (2) the Company makes such redemption not more than 120 days after the consummation of any such Equity Offering.

Equity Offering means any public or private sale of Qualified Capital Stock of the Company, other than (i) public offerings with respect to common stock of the Company registered on Form S-4 or Form S-8 or (ii) an issuance to any Subsidiary of the Company.

Notice of any redemption using the proceeds of an Equity Offering may, at the Company's discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the related Equity Offering.

At any time, or from time to time, on or after March 1, 2011, the Company may redeem the notes at its option, in whole or in part, upon not less than 30 nor more than 60 days' notice, at the following redemption prices (expressed as percentages of the principal amount thereof) if redeemed during the twelve-month period commencing on March 1 of the years set forth below:

Year	Percentage
2011	104.125%
2012	102.063%
2013 and thereafter	100.000%

Table of Contents

In addition, the Company must pay accrued and unpaid interest and Liquidated Damages, if any, on the notes redeemed to, but not including, the applicable redemption date, subject to the rights of Holders on the relevant record date to receive interest on the relevant interest payment date.

Mandatory Redemption

The Company is not required to make any mandatory redemption or sinking fund payments with respect to the notes.

Repurchase at the Option of Holders

Change of Control

Upon the occurrence of a Change of Control, each Holder will have the right to require that the Company purchase all or a portion of such Holder's notes pursuant to the offer described below (the "Change of Control Offer"), at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest and Liquidated Damages, if any, to the date of purchase.

Within 30 days following the date upon which the Change of Control occurred, the Company must deliver a notice to each Holder, with a copy to the Trustee, which notice shall govern the terms of the Change of Control Offer. Such notice shall state, among other things, the purchase date, which must be no earlier than 30 days nor later than 60 days from the date such notice is delivered, other than as may be required by law (the "Change of Control Payment Date"). Holders electing to have a note purchased pursuant to a Change of Control Offer will be required to surrender the note, with the form entitled "Option of Holder to Elect Purchase" on the reverse of the note completed, to the Paying Agent at the address specified in the notice prior to the close of business on the third business day prior to the Change of Control Payment Date.

The Company will not be required to make a Change of Control Offer upon a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all notes validly tendered and not withdrawn under such Change of Control Offer or (2) a notice of redemption with respect to all of the notes has been given pursuant to the Indenture as described under "Optional Redemption."

If a Change of Control Offer is made, there can be no assurance that the Company will have available funds sufficient to pay the Change of Control purchase price for all the notes that might be delivered by Holders seeking to accept the Change of Control Offer. In the event the Company is required to purchase outstanding notes pursuant to a Change of Control Offer, the Company expects that it would seek third party financing to the extent it does not have available funds to meet its purchase obligations. However, there can be no assurance that the Company would be able to obtain such financing.

The New Credit Agreement provides that certain change of control events with respect to the Company would constitute a default thereunder. A default under the New Credit Agreement would result in a default under the Indenture if the lenders accelerate the indebtedness under the New Credit Agreement. Any future credit agreements or other agreements relating to senior indebtedness to which the Company becomes a party may contain similar restrictions and provisions. If a Change of Control occurs at a time when the Company is prohibited from purchasing the notes under the New Credit Agreement, the Company will be obligated to seek the consent of the lenders under the New Credit Agreement to make and consummate a Change of Control Offer or refinance the indebtedness under the New Credit Agreement. If the Company does not obtain such consent or refinance such indebtedness, the Company will remain prohibited from making and consummating a Change of Control Offer. In such case, the Company's failure to make and consummate a Change of Control Offer would constitute an event of default under the Indenture, which would, in turn, constitute a default under the New Credit Agreement.

Table of Contents

The definition of "Change of Control" includes a phrase relating to the sale, lease, transfer, conveyance or other disposition of all or substantially all of the assets of the Company and its Subsidiaries taken as a whole. The term "all or substantially all" as used in the definition of "Change of Control" has not been interpreted under New York law (which is the governing law of the Indenture) to represent a specific quantitative test. Accordingly, the obligation of the Company to make the Change of Control Offer and the ability of the Holders to require the Company to make and consummate a Change of Control Offer as a result of a sale, lease transfer, conveyance or other disposition of less than all of the assets of the Company and its Subsidiaries to another Person or group may be uncertain.

Change of control is defined differently under the Indenture and the New Credit Agreement. A transaction that constitutes a change of control under the New Credit Agreement would not necessarily constitute a Change of Control under the Indenture.

Neither the Board of Directors of the Company nor the Trustee may waive the covenant relating to a Holder's right to redemption upon a Change of Control. The Change of Control provisions of the Indenture and restrictions in the Indenture described herein regarding the ability of the Company and its Restricted Subsidiaries to incur additional indebtedness, to grant liens on its property, to make Restricted Payments and to make Asset Sales may also make more difficult or discourage a takeover of the Company, whether favored or opposed by the management or Board of Directors of the Company. Consummation of any such transaction in certain circumstances may require redemption or repurchase of the notes, and there can be no assurance that the Company or the acquiring party will have sufficient financial resources to effect such redemption or repurchase. In addition, such provisions and restrictions may, in certain circumstances, make more difficult or discourage any leveraged buyout of the Company or any of its Subsidiaries by the management or Board of Directors of the Company. While such restrictions cover a wide variety of arrangements which have traditionally been used to effect highly leveraged transactions, the Indenture may not afford the Holders protection in all circumstances from the adverse aspects of a highly leveraged transaction, reorganization, restructuring, merger or similar transaction.

The Company will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the "Change of Control" provisions of the Indenture, the Company shall comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations under the "Change of Control" provisions of the Indenture by virtue thereof.

The indenture governing the Company's Senior Convertible Notes due May 2033 also requires the Company to offer to repurchase such notes upon a change of control.

Asset Sales

The Company will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless

(1) the Company or the applicable Restricted Subsidiary, as the case may be, receives consideration at the time of such Asset Sale at least equal to the Fair Market Value of the assets sold or otherwise disposed of;

(2) at least 75% of the consideration received by the Company or the Restricted Subsidiary, as the case may be, from such Asset Sale shall be in the form of cash, Cash Equivalents and/or Replacement Assets and is received at the time of such disposition; *provided* that for purposes of this provision, each of the following shall be deemed to be cash: (a) the amount of any liabilities (as shown on the Company's or such Restricted Subsidiary's most recent balance sheet) of the Company or any such Restricted Subsidiary (other than liabilities that are by their terms subordinated to the notes or any Guarantee of a Guarantor) that are assumed

Table of Contents

by the transferee of any such assets and (b) any securities, notes or other obligations received by the Company or any such Restricted Subsidiary from such transferee that are converted by the Company or such Restricted Subsidiary within 120 days into cash or Cash Equivalents, to the extent of the cash received in that conversion; and

(3) upon the consummation of an Asset Sale, the Company shall apply, or cause such Restricted Subsidiary to apply, the Net Cash Proceeds relating to such Asset Sale within 365 days of receipt thereof (*provided* that if the Company or such Restricted Subsidiary, as the case may be, has entered into a binding commitment to so apply such Net Cash Proceeds, the transaction contemplated by such binding commitment must be consummated within the later of such 365 day period and 90 days from the date of the execution of such agreement) either

(a) to repay the Existing Valassis Notes or to permanently reduce Indebtedness under one or more of the Credit Facilities, and if such Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto (*provided* that such commitments shall not be required to be reduced below \$100.0 million);

(b) to make an investment in properties or assets (including an acquisition of Capital Stock of another Person that as a result of such investment becomes a Restricted Subsidiary of the Company and executes a supplemental indenture in which such Person agrees to be bound by the terms of the Indenture) that replace the properties and assets that were the subject of such Asset Sale or in properties, assets or capital expenditures (including an acquisition of Capital Stock of another Person that as a result of such investment becomes a Restricted Subsidiary of the Company and executes a supplemental indenture in which such Person agrees to be bound by the terms of the Indenture) that will be used in a Permitted Business (Replacement Assets); and/or

(c) a combination of prepayment and investment permitted by the foregoing clauses (3)(a) and (3)(b).

Pending the final application of such Net Cash Proceeds, the Company may temporarily reduce borrowings under one or more of the Credit Facilities. On the 366th day after an Asset Sale or such earlier date, if any, as the Board of Directors of the Company or of such Restricted Subsidiary determines not to apply the Net Cash Proceeds relating to such Asset Sale as set forth in clauses (3)(a), (3)(b) and/or (3)(c) of the preceding paragraph (each, a Net Proceeds Offer Trigger Date), such aggregate amount of Net Cash Proceeds which have not been applied on or before such Net Proceeds Offer Trigger Date as permitted in clauses (3)(a), (3)(b) and/or (3)(c) of the preceding paragraph (each a Net Proceeds Offer Amount) shall be applied by the Company or such Restricted Subsidiary to make an offer to purchase (the Net Proceeds Offer) to all Holders and, to the extent required by the terms of any Pari Passu Indebtedness, to all holders of such Pari Passu Indebtedness, on a date (the Net Proceeds Offer Payment Date) not less than 30 nor more than 60 days following the applicable Net Proceeds Offer Trigger Date, from all Holders (and holders of any such Pari Passu Indebtedness) on a pro rata basis, that amount of notes (and Pari Passu Indebtedness) equal to the Net Proceeds Offer Amount at a price equal to 100% of the principal amount of the notes (and Pari Passu Indebtedness) to be purchased, plus accrued and unpaid interest thereon and Liquidated Damages, if any, to the date of purchase; *provided, however*, that if at any time any non-cash consideration received by the Company or any Restricted Subsidiary of the Company, as the case may be, in connection with any Asset Sale is converted into or sold or otherwise disposed of for cash (other than interest received with respect to any such non cash consideration), then such conversion or disposition shall be deemed to constitute an Asset Sale hereunder and the Net Cash Proceeds thereof shall be applied in accordance with this covenant.

The Company may defer the Net Proceeds Offer until there is an aggregate unutilized Net Proceeds Offer Amount equal to or in excess of \$30.0 million resulting from one or more Asset Sales (at which time, the entire unutilized Net Proceeds Offer Amount, and not just the amount in excess of \$30.0 million, shall be applied as required pursuant to this paragraph).

Table of Contents

Each Net Proceeds Offer will be delivered to the record Holders as shown on the register of Holders within 25 days following the Net Proceeds Offer Trigger Date, with a copy to the Trustee, and shall comply with the procedures set forth in the Indenture. Upon receiving notice of the Net Proceeds Offer, Holders may elect to tender their notes in whole or in part in integral multiples of \$1,000 in exchange for cash. To the extent Holders properly tender notes and holders of Pari Passu Indebtedness properly tender such Pari Passu Indebtedness in an amount exceeding the Net Proceeds Offer Amount, the tendered notes and Pari Passu Indebtedness will be purchased on a pro rata basis based on the aggregate amounts of notes and Pari Passu Indebtedness tendered (and the Trustee shall select the tendered notes of tendering Holders on a pro rata basis based on the amount of notes tendered). A Net Proceeds Offer shall remain open for a period of 20 business days or such longer period as may be required by law. If any Net Cash Proceeds remain after the consummation of any Net Proceeds Offer, the Company may use those Net Cash Proceeds for any purpose not otherwise prohibited by the Indenture. Upon completion of each Net Proceeds Offer, the amount of Net Cash Proceeds will be reset at zero.

The Company will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of notes pursuant to a Net Proceeds Offer. To the extent that the provisions of any securities laws or regulations conflict with the Asset Sale provisions of the Indenture, the Company shall comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations under the Asset Sale provisions of the Indenture by virtue thereof.

Selection and Notice

In the event that the Company chooses to redeem less than all of the notes, selection of the notes for redemption will be made by the Trustee either:

- (1) in compliance with the requirements of the principal national securities exchange, if any, on which the notes are listed; or
- (2) on a pro rata basis, by lot or by such method as the Trustee shall deem fair and appropriate.

No notes of a principal amount of \$1,000 or less shall be redeemed in part. If a partial redemption is made with the proceeds of an Equity Offering, the Trustee will select the notes only on a pro rata basis or on as nearly a pro rata basis as is practicable (subject to DTC procedures). Notice of redemption will be delivered at least 30 but not more than 60 days before the redemption date to each Holder of notes to be redeemed at its registered address. If any note is to be redeemed in part only, then the notice of redemption that relates to such note must state the portion of the principal amount thereof to be redeemed. A new note in a principal amount equal to the unredeemed portion thereof will be issued in the name of the Holder thereof upon cancellation of the original note. On and after the redemption date, interest will cease to accrue on notes or portions thereof called for redemption as long as the Company has deposited with the Paying Agent funds in satisfaction of the applicable redemption price.

Certain Covenants

Set forth below are summaries of certain covenants contained in the Indenture:

Limitation on Incurrence of Additional Indebtedness

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, assume, guarantee, acquire, become liable, contingently or otherwise, with respect to, or otherwise become responsible for payment of (collectively, *incur*) any Indebtedness (other than Permitted Indebtedness); *provided, however*, that if no Default or Event of Default shall have occurred and be continuing at the time of or as a consequence of the incurrence of any such Indebtedness, the Company or any of its Restricted Subsidiaries that is or, upon such incurrence, becomes a Guarantor may incur Indebtedness (including, without limitation, Acquired Indebtedness) and any Restricted Subsidiary of the Company that is not or will not, upon such incurrence, become a Guarantor may incur Acquired Indebtedness, in each case if on the date of the incurrence of

Table of Contents

such Indebtedness, after giving pro forma effect to the incurrence thereof and the application of the proceeds therefrom, the Debt to Cash Flow Ratio of the Company for the most recently ended four full fiscal quarters for which internal financial statements are available would have been no greater than (i) 5.5 to 1.0 for Indebtedness incurred on or before March 1, 2009 or (ii) 5.0 to 1.0 for Indebtedness incurred thereafter.

The Company will not, and will not permit any Guarantor to, directly or indirectly, incur any Indebtedness which by its terms (or by the terms of any agreement governing such Indebtedness) is expressly subordinated in right of payment to any other Indebtedness of the Company or such Guarantor, as the case may be, unless such Indebtedness is also by its terms (or by the terms of any agreement governing such Indebtedness) made expressly subordinate to the notes or the applicable Guarantee, as the case may be, to the same or greater extent and in the same or greater manner as such Indebtedness is subordinated to other Indebtedness of the Company or such Guarantor, as the case may be. For purposes of the foregoing, no Indebtedness will be deemed to be subordinated in right of payment to any other Indebtedness of the Company or any Guarantor solely by virtue of such Indebtedness being unsecured or by virtue of the fact that the holders of such Indebtedness have entered into one or more intercreditor agreements giving one or more of such holders priority over the other holders in the collateral held by them.

Limitation on Restricted Payments

The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly:

- (1) declare or pay any dividend or make any distribution (other than dividends or distributions payable in Qualified Capital Stock of the Company) on or in respect of shares of the Company's Capital Stock to holders of such Capital Stock;
- (2) purchase, redeem or otherwise acquire or retire for value any Capital Stock of the Company;
- (3) make any principal payment on, purchase, defease, redeem, prepay, decrease or otherwise acquire or retire for value, prior to any scheduled final maturity, scheduled repayment or scheduled sinking fund payment, any Subordinated Indebtedness, except a payment, purchase, defeasance, redemption, prepayment or decrease within one year of final maturity thereof; or
- (4) make any Investment (other than Permitted Investments) (each of the foregoing actions set forth in clauses (1), (2), (3) and (4) being referred to as a Restricted Payment);

if at the time of such Restricted Payment or immediately after giving effect thereto,

- (i) a Default or an Event of Default shall have occurred and be continuing; or
- (ii) the Company is not able to incur at least \$1.00 of additional Indebtedness (other than Permitted Indebtedness) in compliance with the Limitation on Incurrence of Additional Indebtedness covenant; or
- (iii) the aggregate amount of Restricted Payments (including such proposed Restricted Payment) made subsequent to the Issue Date (the amount expended for such purposes, if other than in cash, being the Fair Market Value of such property as determined in good faith by the Board of Directors of the Company) shall exceed the sum of
- (w) 100% of the Consolidated Cash Flow of the Company from the beginning of the fiscal quarter in which the Issue Date occurs to the end of the Company's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment (the Reference Date) less the product of 1.4 times the Company's Consolidated Interest Expense for the same period (treating such period as a single accounting period); plus
- (x) 100% of the aggregate net cash proceeds received by the Company from any Person (other than a Subsidiary of the Company) from the issuance and sale subsequent to the Issue Date

Table of Contents

and on or prior to the Reference Date of Qualified Capital Stock of the Company or warrants, options or other rights to acquire Qualified Capital Stock of the Company (but excluding any debt security that is convertible into, or exchangeable for, Qualified Capital Stock); plus

(y) without duplication of any amounts included in clause (iii)(x) above, 100% of the aggregate net cash proceeds of any equity contribution received by the Company from a holder of the Company's Capital Stock subsequent to the Issue Date and on or prior to the Reference Date (excluding, in the case of clauses (iii)(x) and (y), any net cash proceeds from an Equity Offering to the extent used to redeem the notes in compliance with the provisions set forth under Optional Redemption); plus

(z) without duplication, the sum of:

(1) the aggregate amount returned in cash on or with respect to Investments (other than Permitted Investments) made subsequent to the Issue Date whether through interest payments, principal payments, dividends or other distributions or payments;

(2) the net cash proceeds received by the Company or any of its Restricted Subsidiaries from the disposition of all or any portion of such Investments (other than to a Subsidiary of the Company); and

(3) upon redesignation of an Unrestricted Subsidiary as a Restricted Subsidiary, the Fair Market Value of such Subsidiary;

provided, however, that the sum of clauses (1), (2) and (3) above shall not exceed the aggregate amount of all such Investments made subsequent to the Issue Date.

Notwithstanding the foregoing, the provisions set forth in the immediately preceding paragraph do not prohibit:

(1) the payment of any dividend within 90 days after the date of declaration of such dividend if the dividend would have been permitted on the date of declaration;

(2) if no Default or Event of Default shall have occurred and be continuing, the purchase, redemption, acquisition or retirement of any shares of Capital Stock of the Company, either (i) solely in exchange for shares of Qualified Capital Stock of the Company or (ii) through the application of net proceeds of a substantially concurrent sale for cash (other than to a Subsidiary of the Company) of shares of Qualified Capital Stock of the Company;

(3) if no Default or Event of Default shall have occurred and be continuing, the purchase, defeasance, redemption, prepayment, decrease, acquisition or retirement of any Subordinated Indebtedness either (i) solely in exchange for shares of Qualified Capital Stock of the Company, or (ii) through the application of net proceeds of a substantially concurrent sale for cash (other than to a Subsidiary of the Company) of (a) shares of Qualified Capital Stock of the Company or (b) Refinancing Indebtedness;

(4) so long as no Default or Event of Default shall have occurred and be continuing, repurchases by the Company of Common Stock of the Company from officers, directors and employees of the Company or any of its Subsidiaries or their authorized representatives upon the death, disability or termination of employment of such employees or termination of their seat on the Board of Directors of the Company in an aggregate amount not to exceed \$2.0 million in any calendar year;

(5) repurchases of Capital Stock of the Company deemed to occur upon (i) the exercise of stock options or warrants or (ii) the grant, award, vesting or distribution to employees of Capital Stock, in each case, if such Capital Stock represents all or a portion of the exercise price thereof or payroll tax payment with respect thereto;

(6) payments or distributions to stockholders of the Company pursuant to appraisal rights required under applicable law in connection with any consolidation, merger or transfer of assets that complies with the covenant described under Merger, Consolidation and Sale of Assets;

Table of Contents

(7) the purchase, redemption, defeasance or other acquisition or retirement for value of any Subordinated Indebtedness pursuant to provisions requiring the Company or any Restricted Subsidiary to offer to purchase, redeem, defease or otherwise acquire or retire for value such Subordinated Indebtedness upon the occurrence of a change of control as defined in the agreements or instruments governing such Subordinated Indebtedness; *provided, however*, that the Company shall have made a Change of Control Offer and have purchased all notes tendered in connection with such Change of Control Offer;

(8) cash payments in lieu of the issuance of fractional shares in connection with the exercise of warrants, options or other securities convertible into or exchangeable for Capital Stock of the Company; and

(9) other Restricted Payments in an aggregate amount not to exceed \$50.0 million after the Issue Date.

In determining the aggregate amount of Restricted Payments made subsequent to the Issue Date in accordance with clause (iii) of the first paragraph of this covenant, amounts expended pursuant to clauses (2), (3), (4), (5), (6), (8) and (9) above shall be excluded in such calculation. The amount of all Restricted Payments (other than cash) will be the Fair Market Value on the date of the Restricted Payment of the assets or securities proposed to be transferred or issued by the Company or such Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment.

Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create or otherwise cause or permit to exist or become effective any encumbrance or restriction on the ability of any Restricted Subsidiary of the Company to:

- (1) pay dividends or make any other distributions on or in respect of its Capital Stock;
- (2) make loans or advances to the Company or any other Restricted Subsidiary or to pay any Indebtedness or other obligation owed to the Company or any other Restricted Subsidiary of the Company; or
- (3) transfer any of its property or assets to the Company or any other Restricted Subsidiary of the Company, except in each case of clauses (1), (2) and (3), for such encumbrances or restrictions existing under or by reason of
 - (a) applicable law;
 - (b) the Indenture;
 - (c) customary non assignment provisions of any contract or any lease governing a leasehold interest of any Restricted Subsidiary of the Company;
 - (d) restrictions on cash or other deposits imposed by customers under contracts entered into in the ordinary course of business;
 - (e) encumbrances on property that exist at the time the property was acquired by the Company or a Restricted Subsidiary;
 - (f) any instrument governing Acquired Indebtedness, which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person or the properties or assets of the Person so acquired;
 - (g) agreements existing on the Issue Date to the extent and in the manner such agreements are in effect on the Issue Date;
 - (h) any Credit Facility; *provided* that the dividend and other repayment restrictions contained therein are not materially more restrictive, taken as a whole, than those contained in the New Credit Agreement, as determined by the Board of Directors of the Company in its reasonable good faith judgment;

Table of Contents

- (i) restrictions on the transfer of assets subject to any Lien permitted under the Indenture imposed by the holder of such Lien;
 - (j) restrictions imposed by any agreement to sell assets or Capital Stock permitted under the Indenture to any Person pending the closing of such sale;
 - (k) customary provisions in joint venture agreements and other similar agreements (in each case relating solely to the respective joint venture or similar entity or the equity interests therein) entered into in the ordinary course of business; and
- (l) an agreement governing Indebtedness incurred to Refinance the Indebtedness issued, assumed or incurred pursuant to an agreement referred to in clauses (b), (e), (f), (g) and (i) above; *provided, however*, that the provisions relating to such encumbrance or restriction contained in any such Indebtedness are, on the whole, no less favorable to the Company in any material respect as determined by the Board of Directors of the Company in their reasonable and good faith judgment than the provisions relating to such encumbrance or restriction contained in agreements referred to in such clauses (b), (e), (f), (g) and (i).

Limitation on Preferred Stock of Restricted Subsidiaries

The Company will not permit any of its Restricted Subsidiaries that are not Guarantors to issue any Preferred Stock (other than to the Company or to a Wholly Owned Restricted Subsidiary of the Company) or permit any Person (other than the Company or a Wholly Owned Restricted Subsidiary of the Company) to own any Preferred Stock of any Restricted Subsidiary of the Company that is not a Guarantor.

Limitation on Liens

The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, assume or permit or suffer to exist any Liens of any kind against or upon any property or assets of the Company or any of its Restricted Subsidiaries whether owned on the Issue Date or acquired after the Issue Date, or any proceeds therefrom, or assign or otherwise convey any right to receive income or profits therefrom unless:

(1) in the case of Liens securing Subordinated Indebtedness, the notes or the Guarantee of such Guarantor, as the case may be, are secured by a Lien on such property, assets or proceeds that is senior in priority to such Liens; and

(2) in all other cases, the notes or the Guarantee of such Guarantor, as the case may be, are equally and ratably secured,

except for:

(a) Liens existing as of the Issue Date to the extent and in the manner such Liens are in effect on the Issue Date;

(b) Liens securing borrowings under one or more of the Credit Facilities incurred pursuant to clause (2) of the definition of Permitted Indebtedness ;

(c) Liens securing the notes and the Guarantees;

(d) Liens in favor of the Company or a Restricted Subsidiary of the Company that is a Guarantor on assets of any Restricted Subsidiary of the Company;

(e) Liens securing Refinancing Indebtedness which is incurred to Refinance any Indebtedness which has been secured by a Lien permitted under the Indenture and which has been incurred in accordance with the provisions of the Indenture; *provided, however*, that such Liens: (i) are no less favorable to the Holders in any material respect and are not more favorable to the lienholders in any

Table of Contents

material respect with respect to such Liens than the Liens in respect of the Indebtedness being Refinanced; and (ii) do not extend to or cover any property or assets of the Company or any of its Restricted Subsidiaries not securing the Indebtedness so Refinanced;

(f) Liens required to be granted pursuant to the indentures governing the Existing Valassis Notes, which Liens are granted within the time periods provided in the New Credit Agreement or agreements related thereto;

(g) Liens on assets transferred to a Securitization Entity or an asset of a Securitization Entity, in either case, incurred in connection with a Permitted Securitization Transaction; and

(h) Permitted Liens.

Merger, Consolidation and Sale of Assets

The Company will not, in a single transaction or series of related transactions, consolidate or merge with or into any Person, or sell, assign, transfer, lease, convey or otherwise dispose of (or cause or permit any Restricted Subsidiary of the Company to sell, assign, transfer, lease, convey or otherwise dispose of) all or substantially all of the Company's assets (determined on a consolidated basis for the Company and the Company's Restricted Subsidiaries) whether as an entirety or substantially as an entirety to any Person unless:

(1) either:

(a) the Company shall be the surviving or continuing corporation; or

(b) the Person (if other than the Company) formed by such consolidation or into which the Company is merged or the Person which acquires by sale, assignment, transfer, lease, conveyance or other disposition the properties and assets of the Company and of the Company's Restricted Subsidiaries substantially as an entirety (the Surviving Entity);

(x) shall be a corporation organized and validly existing under the laws of the United States or any State thereof or the District of Columbia; and

(y) shall expressly assume, by supplemental indenture (in form and substance satisfactory to the Trustee), executed and delivered to the Trustee, the due and punctual payment of the principal of, and premium, if any, interest and Liquidated Damages, if any, on all of the notes and the performance of every covenant of the notes, the Indenture and the Registration Rights Agreement on the part of the Company to be performed or observed;

(2) immediately after giving effect to such transaction and the assumption contemplated by clause (1)(b)(y) above (including giving effect to any Indebtedness and Acquired Indebtedness incurred or anticipated to be incurred in connection with or in respect of such transaction), the Company or such Surviving Entity, as the case may be, shall be able to incur at least \$1.00 of additional Indebtedness (other than Permitted Indebtedness) pursuant to the Limitation on Incurrence of Additional Indebtedness covenant;

(3) immediately before and immediately after giving effect to such transaction and the assumption contemplated by clause (1)(b)(y) above (including, without limitation, giving effect to any Indebtedness and Acquired Indebtedness incurred or anticipated to be incurred and any Lien granted in connection with or in respect of the transaction), no Default or Event of Default shall have occurred or be continuing; and

(4) the Company or the Surviving Entity shall have delivered to the Trustee an Officers' Certificate and an opinion of counsel, each stating that such consolidation, merger, sale, assignment, transfer, lease, conveyance or other disposition and, if a supplemental indenture is required in connection with such transaction, such supplemental indenture comply with the applicable provisions of the Indenture and that all conditions precedent in the Indenture relating to such transaction have been satisfied.

Table of Contents

For purposes of the foregoing, the transfer (by lease, assignment, sale or otherwise, in a single transaction or series of transactions) of all or substantially all of the properties or assets of one or more Restricted Subsidiaries of the Company, the Capital Stock of which constitutes all or substantially all of the properties and assets of the Company, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Company.

Notwithstanding the foregoing clauses (1), (2) and (3), the Company may merge with an Affiliate that is a Person that has no material assets or liabilities and which was organized solely for the purpose of reorganizing the Company in another jurisdiction.

The Indenture will provide that upon any consolidation, combination or merger or any transfer of all or substantially all of the assets of the Company in accordance with the foregoing in which the Company is not the continuing corporation, the successor Person formed by such consolidation or into which the Company is merged or to which such conveyance, lease or transfer is made shall succeed to, and be substituted for, and may exercise every right and power of, the Company under the Indenture and the notes with the same effect as if such surviving entity had been named as such.

Each Guarantor (other than any Guarantor whose Guarantee is to be released in accordance with the terms of the Guarantee and the Indenture in connection with any transaction complying with the provisions of Repurchase at the Option of Holders Asset Sales) will not, and the Company will not cause or permit any Guarantor to, consolidate with or merge with or into any Person other than the Company or any other Guarantor unless:

- (1) the entity formed by or surviving any such consolidation or merger (if other than the Guarantor) or to which such sale, lease, conveyance or other disposition shall have been made is a corporation organized and existing under the laws of the United States or any State thereof or the District of Columbia;
- (2) such entity assumes by supplemental indenture all of the obligations of the Guarantor on the Guarantee;
- (3) immediately after giving effect to such transaction, no Default or Event of Default shall have occurred and be continuing; and
- (4) immediately after giving effect to such transaction and the use of any net proceeds therefrom on a pro forma basis, the Company could satisfy the provisions of clause (2) of the first paragraph of this covenant.

Any merger or consolidation of a Guarantor with and into the Company (with the Company being the surviving entity) or another Restricted Subsidiary of the Company that is a Guarantor need only comply with clause (4) of the first paragraph of this covenant.

This Merger, Consolidation and Sale of Assets covenant will not apply to the Company's acquisition of ADV0, Inc. on the Issue Date.

Limitations on Transactions with Affiliates

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, enter into or permit to exist any transaction or series of related transactions (including, without limitation, the purchase, sale, lease or exchange of any property or the rendering of any service) with, or for the benefit of, any of its Affiliates (each an Affiliate Transaction), other than Affiliate Transactions on terms that are no less favorable than those that might reasonably have been obtained in a comparable transaction at such time on an arm's length basis from a Person that is not an Affiliate of the Company or such Restricted Subsidiary.

All Affiliate Transactions (and each series of related Affiliate Transactions which are similar or part of a common plan) involving aggregate payments or other property with a Fair Market Value in excess of

Table of Contents

\$10.0 million shall be approved by the Board of Directors of the Company or such Restricted Subsidiary, as the case may be, such approval to be evidenced by a Board Resolution stating that such Board of Directors has determined that such transaction complies with the foregoing provisions. If the Company or any Restricted Subsidiary of the Company enters into an Affiliate Transaction (or a series of related Affiliate Transactions related to a common plan) that involves an aggregate Fair Market Value of more than \$35.0 million, the Company or such Restricted Subsidiary, as the case may be, shall, prior to the consummation thereof, obtain a favorable opinion as to the fairness of such transaction or series of related transactions to the Company or the relevant Restricted Subsidiary, as the case may be, from a financial point of view, from an Independent Financial Advisor and file the same with the Trustee.

The restrictions set forth in this covenant shall not apply to:

- (1) reasonable fees and compensation paid to and indemnity provided on behalf of, officers, directors, employees or consultants of the Company or any Restricted Subsidiary of the Company as determined in good faith by the Company's Board of Directors or senior management;
- (2) transactions exclusively between or among the Company and any of its Wholly Owned Restricted Subsidiaries or exclusively between or among such Wholly Owned Restricted Subsidiaries; *provided* that such transactions are not otherwise prohibited by the Indenture;
- (3) any agreement as in effect as of the Issue Date or any amendment thereto or any transaction contemplated thereby (including pursuant to any amendment thereto) in any replacement agreement thereto so long as any such amendment or replacement agreement is not more disadvantageous to the Holders in any material respect than the original agreement as in effect on the Issue Date;
- (4) transactions effected as part of a Permitted Securitization Transaction; and
- (5) Restricted Payments permitted by the Indenture.

Additional Subsidiary Guarantees

If the Company or any of its Restricted Subsidiaries transfers or causes to be transferred, in one transaction or a series of related transactions, any property to any Domestic Restricted Subsidiary (other than an Immaterial Subsidiary) that is not a Guarantor, or if the Company or any of its Restricted Subsidiaries shall organize, acquire or otherwise invest in another Domestic Restricted Subsidiary (other than an Immaterial Subsidiary), then such Domestic Restricted Subsidiary shall:

- (1) execute and deliver to the Trustee a supplemental indenture in form reasonably satisfactory to the Trustee pursuant to which such Domestic Restricted Subsidiary shall unconditionally guarantee all of the Company's obligations under the notes and the Indenture on the terms set forth in the Indenture; and
- (2) deliver to the Trustee an opinion of counsel that such supplemental indenture has been duly authorized, executed and delivered by such Domestic Restricted Subsidiary and constitutes a legal, valid, binding and enforceable obligation of such Domestic Restricted Subsidiary. Thereafter, such Domestic Restricted Subsidiary shall be a Guarantor for all purposes of the Indenture.

Conduct of Business

The Company and its Restricted Subsidiaries will not engage in any businesses other than a Permitted Business.

Payments for Consent

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Holder for or as an inducement to any consent,

Table of Contents

waiver or amendment of any of the terms or provisions of the Indenture or the notes unless such consideration is offered to be paid and is paid to all Holders that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement.

Reports to Holders

The Indenture will provide that, whether or not required by the rules and regulations of the Commission, so long as any notes are outstanding, the Company will furnish to the Holders (including by posting on the Company's website within one business day) or cause the Trustee to furnish to the Holders:

(1) all quarterly and annual financial information that would be required to be contained in a filing with the Commission on Forms 10-Q and 10-K if the Company were required to file such Forms, including a Management's Discussion and Analysis of Financial Condition and Results of Operations that describes the financial condition and results of operations of the Company and its consolidated Subsidiaries and, with respect to the annual information only, a report thereon by the Company's certified independent accounts; and

(2) all current reports that would be required to be filed with the Commission on Form 8-K if the Company were required to file such reports, in each case within the time periods specified in the Commission's rules and regulations (including any grace periods or extensions permitted by the Commission).

If the Company has designated any of its Subsidiaries as Unrestricted Subsidiaries and such Unrestricted Subsidiaries account for more than 5% of the total assets of the Company and its Subsidiaries on a consolidated basis, then the quarterly and annual financial information required by the preceding paragraph will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, and in Management's Discussion and Analysis of Financial Condition and Results of Operations, of the financial condition and results of operations of the Company and its Restricted Subsidiaries separate from the financial condition and results of operations of such Unrestricted Subsidiaries.

In addition, whether or not required by the rules and regulations of the Commission, the Company will file a copy of all such information and reports with the Commission for public availability within the time periods specified in the Commission's rules and regulations (unless the Commission will not accept such a filing) and make such information available to securities analysts and prospective investors upon request. In addition, the Company will, for so long as any notes remain outstanding, at any time it is not required to file such information and reports with the Commission, furnish to the Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Notwithstanding anything herein to the contrary, the Company will not be deemed to have failed to comply with any of its obligations hereunder for purposes of clause (3) under Events of Defaults until 120 days after the date any report hereunder is due.

Termination of Certain Covenants if the Notes are Rated Investment Grade

If on any date following the Issue Date (i) the notes issued under the Indenture are rated Investment Grade and (ii) no Default or Event of Default has occurred and is continuing under the Indenture, then, commencing on such date and at all times thereafter regardless of any subsequent change in the rating of the notes, the Company and its Restricted Subsidiaries will no longer be subject to the following provisions of the Indenture (and the Company shall provide notice to the Trustee thereof):

- (1) Repurchase at the Option of Holders Asset Sales;
- (2) Certain Covenants Limitation on Incurrence of Additional Indebtedness;
- (3) Certain Covenants Limitation on Restricted Payments;

Table of Contents

- (4) Certain Covenants Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries;
- (5) Certain Covenants Limitation on Preferred Stock of Restricted Subsidiaries;
- (6) clause (2) of the first paragraph of Certain Covenants Merger, Consolidation and Sale of Assets; and
- (7) Certain Covenants Limitations on Transactions with Affiliates.

There can be no assurance that the notes will ever be rated Investment Grade or that any such rating will be maintained.

Events of Default

The following events are defined in the Indenture as Events of Default :

- (1) the failure to pay interest on, or Liquidated Damages with respect to, any notes when the same becomes due and payable and the default continues for a period of 30 days;
- (2) the failure to pay the principal or premium, if any, on any notes, when such principal or premium becomes due and payable, at maturity, upon redemption or otherwise (including the failure to make a payment to purchase notes tendered pursuant to a Change of Control Offer or a Net Proceeds Offer);
- (3) a default in the observance or performance of any other covenant or agreement contained in the Indenture which default continues for a period of 30 days after the Company receives written notice specifying the default (and demanding that such default be remedied) from the Trustee or the Holders of at least 25% of the outstanding principal amount of the notes (except in the case of a default with respect to the Merger, Consolidation and Sale of Assets covenant, which will constitute an Event of Default with such notice requirement but without such passage of time requirement);
- (4) the failure to pay at final maturity (giving effect to any applicable grace periods and any extensions thereof) the stated principal amount of any Indebtedness of the Company or any Restricted Subsidiary of the Company, or the acceleration of the final stated maturity of any such Indebtedness (which acceleration is not rescinded, annulled or otherwise cured within 30 days of receipt by the Company or such Restricted Subsidiary of notice of any such acceleration) if the aggregate principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at final stated maturity or which has been accelerated (in each case with respect to which the 30-day period described above has elapsed), aggregates \$25.0 million or more at any time; *provided* that any default or event of default with respect to the ADVO Notes during the period from the Issue Date until the 45th day after the Issue Date shall not give rise to an Event of Default pursuant to this clause (4);
- (5) one or more judgments (to the extent not covered by independent third party insurance as to which the insurer does not dispute coverage) in an aggregate amount in excess of \$25.0 million shall have been rendered against the Company or any of its Restricted Subsidiaries and such judgments remain undischarged, unpaid or unstayed for a period of 60 days after such judgment or judgments become final and nonappealable;
- (6) certain events of bankruptcy described in the Indenture affecting the Company or any of its Significant Subsidiaries;
- (7) any Guarantee of a Significant Subsidiary ceases to be in full force and effect or any Guarantee of a Significant Subsidiary is declared to be null and void and unenforceable or any Guarantee of a Significant Subsidiary is found to be invalid or any Guarantor that is a Significant Subsidiary denies its liability under its Guarantee (other than by reason of release of a Guarantor in accordance with the terms of the Indenture); or
- (8) any of the ADVO Notes are outstanding on the 45th day after the Issue Date or at any time thereafter.

Table of Contents

If an Event of Default (other than an Event of Default specified in clause (6) above with respect to the Company) shall occur and be continuing, the Trustee or the Holders of at least 25% in principal amount of outstanding notes may declare the principal of, and accrued and unpaid interest and Liquidated Damages, if any, on all the notes to be due and payable by notice in writing to the Company and the Trustee specifying the respective Event of Default and that it is a notice of acceleration, and the same shall become immediately due and payable.

If an Event of Default specified in clause (6) above with respect to the Company occurs and is continuing, then all unpaid principal of and accrued and unpaid interest and Liquidated Damages, if any, on all of the outstanding notes shall ipso facto become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

The Indenture will provide that, at any time after a declaration of acceleration with respect to the notes as described in the preceding paragraph, the Holders of a majority in principal amount of the notes may rescind and cancel such declaration and its consequences

(1) if the rescission would not conflict with any judgment or decree;

(2) if all existing Events of Default have been cured or waived except nonpayment of principal or interest or Liquidated Damages, if any, that has become due solely because of the acceleration;

(3) to the extent the payment of such interest is lawful, interest on overdue installments of interest, overdue principal and Liquidated Damages, if any, which has become due otherwise than by such declaration of acceleration, has been paid;

(4) if the Company has paid the Trustee its reasonable compensation and reimbursed the Trustee for its expenses, disbursements and advances; and

(5) in the event of the cure or waiver of an Event of Default of the type described in clause (6) of the description above of Events of Default, the Trustee shall have received an officers' certificate and an opinion of counsel that such Event of Default has been cured or waived. No such rescission shall affect any subsequent Default or impair any right consequent thereto.

The Holders of a majority in principal amount of the notes may waive any existing Default or Event of Default under the Indenture, and its consequences, except a default in the payment of the principal of or interest or Liquidated Damages on any notes.

Holders of the notes may not enforce the Indenture or the notes except as provided in the Indenture and under the TIA. Subject to the provisions of the Indenture relating to the duties of the Trustee, the Trustee is under no obligation to exercise any of its rights or powers under the Indenture at the request, order or direction of any of the Holders, unless such Holders have offered to the Trustee reasonable indemnity. Subject to all provisions of the Indenture and applicable law, the Holders of a majority in aggregate principal amount of the then outstanding notes have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee.

Under the Indenture, the Company is required to provide an officers' certificate to the Trustee within five (5) business days upon any such officer obtaining knowledge of any Default or Event of Default (provided that such officers shall provide such certification at least annually whether or not they know of any Default or Event of Default) that has occurred and, if applicable, describe such Default or Event of Default and the status thereof.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, member, incorporator or stockholder of the Company or any Subsidiary of the Company (other than the Company or a Guarantor in its capacity as a stockholder of a Subsidiary of the Company), as such, will have any liability for any obligations of the Company or the Guarantors under the notes,

Table of Contents

the Indenture, the Subsidiary Guarantees or for any claim based on, in respect of, or any reason of, such obligations or their creation. Each Holder by accepting a note waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the notes. The waiver may not be effective to waive liabilities under the federal securities laws.

Legal Defeasance and Covenant Defeasance

The Company may, at its option and at any time, elect to have its obligations and the obligations of the Guarantors discharged with respect to the outstanding notes (Legal Defeasance). Such Legal Defeasance means that the Company shall be deemed to have paid and discharged the entire indebtedness represented by the outstanding notes, except for

- (1) the rights of Holders to receive payments in respect of the principal of, premium, if any, interest and Liquidated Damages, if any, on the notes when such payments are due;
- (2) the Company's obligations with respect to the notes concerning issuing temporary notes, registration of notes, mutilated, destroyed, lost or stolen notes and the maintenance of an office or agency for payments;
- (3) the rights, powers, trust, duties and immunities of the Trustee and the Company's obligations in connection therewith; and
- (4) the Legal Defeasance provisions of the Indenture.

In addition, the Company may, at its option and at any time, elect to have the obligations of the Company released with respect to certain covenants that are described in the Indenture (Covenant Defeasance) and thereafter any omission to comply with such obligations shall not constitute a Default or Event of Default with respect to the notes. In the event Covenant Defeasance occurs, certain events (not including non payment, bankruptcy, receivership, reorganization and insolvency events) described under Events of Default will no longer constitute an Event of Default with respect to the notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

- (1) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders cash in United States dollars, non callable United States government obligations, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of, premium, if any, interest and Liquidated Damages, if any, on the notes on the stated date for payment thereof or on the applicable redemption date, as the case may be;
- (2) in the case of Legal Defeasance, the Company shall have delivered to the Trustee an opinion of counsel in the United States reasonably acceptable to the Trustee confirming that:
 - (a) the Company has received from, or there has been published by, the Internal Revenue Service a ruling; or
 - (b) since the date of the Indenture, there has been a change in the applicable federal income tax law,

in either case to the effect that, and based thereon such opinion of counsel shall confirm that, the Holders will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

- (3) in the case of Covenant Defeasance, the Company shall have delivered to the Trustee an opinion of counsel in the United States reasonably acceptable to the Trustee confirming that the Holders will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

Table of Contents

(4) no Event of Default pursuant to paragraph (6) under Events of Default shall have occurred and be continuing on the date of such deposit or during the 91-day period thereafter;

(5) such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under any material agreement or instrument to which the Company or any of its Restricted Subsidiaries is a party or by which the Company or any of its Restricted Subsidiaries is bound;

(6) the Company shall have delivered to the Trustee an officers certificate stating that the deposit was not made by the Company with the intent of preferring the Holders over any other creditors of the Company or with the intent of defeating, hindering, delaying or defrauding any other creditors of the Company or others;

(7) the Company shall have delivered to the Trustee an officers certificate and an opinion of counsel, each stating that all conditions precedent provided for or relating to the Legal Defeasance or the Covenant Defeasance have been complied with; and

(8) the Company shall have delivered to the Trustee an opinion of counsel to the effect that assuming no intervening bankruptcy of the Company between the date of deposit and the 91st day following the date of deposit and that no Holder is an insider of the Company, after the 91st day following the date of deposit, the trust funds will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors rights generally.

Notwithstanding the foregoing, the opinion of counsel required by clause (2) above with respect to a Legal Defeasance need not be delivered if all notes not theretofore delivered to the Trustee for cancellation (1) have become due and payable or (2) will become due and payable on the maturity date within one year under arrangements reasonably satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect (except as to surviving rights or registration of transfer or exchange of the notes, as expressly provided for in the Indenture) as to all outstanding notes when

(1) either:

(a) all the notes theretofore authenticated and delivered (except lost, stolen or destroyed notes which have been replaced or paid and notes for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Company and thereafter repaid to the Company or discharged from such trust) have been delivered to the Trustee for cancellation; or

(b) all notes not theretofore delivered to the Trustee for cancellation (1) have become due and payable or (2) will become due and payable within one year, or are to be called for redemption within one year, under arrangements reasonably satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company, and the Company has irrevocably deposited or caused to be deposited with the Trustee funds in an amount sufficient to pay and discharge the entire Indebtedness on the notes not theretofore delivered to the Trustee for cancellation, for principal of, premium, if any, interest and Liquidated Damages, if any, on the notes to the date of maturity or redemption, as the case may be, together with irrevocable instructions from the Company directing the Trustee to apply such funds to the payment thereof at maturity or redemption, as the case may be;

(2) the Company has paid all other sums payable under the Indenture by the Company; and

(3) the Company has delivered to the Trustee an officers certificate and an opinion of counsel stating that all conditions precedent under the Indenture relating to the satisfaction and discharge of the Indenture have been complied with.

Modification of the Indenture

From time to time, the Company, the Guarantors and the Trustee, without the consent of the Holders, may amend the Indenture for certain specified purposes, including curing ambiguities, defects or inconsistencies, so long as such change does not adversely affect the rights of any of the Holders in any material respect. Other modifications and amendments of the Indenture may be made with the consent of the Holders of a majority in principal amount of the then outstanding notes issued under the Indenture, except that, without the consent of each Holder affected thereby, no amendment may

- (1) reduce the amount of notes whose Holders must consent to an amendment;
- (2) reduce the rate of or change or have the effect of changing the time for payment of interest, including defaulted interest and Liquidated Damages, on any notes;
- (3) reduce the principal of or change or have the effect of changing the fixed maturity of any notes, or change the date on which any notes may be subject to redemption or reduce the redemption price therefor;
- (4) make any notes payable in money other than that stated in the notes;
- (5) make any change in provisions of the Indenture protecting the right of each Holder to receive payment of principal of, interest and Liquidated Damages, if any, on such note on or after the due date thereof or to bring suit to enforce such payment, or permitting Holders of a majority in principal amount of notes to waive Defaults or Events of Default;
- (6) after the Company's obligation to purchase notes arises thereunder, amend, change or modify in any material respect the obligation of the Company to make and consummate a Change of Control Offer in the event of a Change of Control or make and consummate a Net Proceeds Offer with respect to any Asset Sale that has been consummated or, after such Change of Control has occurred or such Asset Sale has been consummated, modify any of the provisions or definitions with respect thereto;
- (7) modify or change any provision of the Indenture or the related definitions affecting the ranking of the notes or any Guarantee in a manner which adversely affects the Holders; or
- (8) release any Guarantor that is a Significant Subsidiary from any of its obligations under its Guarantee or the Indenture otherwise than in accordance with the terms of the Indenture.

Governing Law

The Indenture provides that it, the notes and the Guarantees will be governed by, and construed in accordance with, the laws of the State of New York but without giving effect to applicable principles of conflicts of law to the extent that the application of the law of another jurisdiction would be required thereby.

The Trustee

The Indenture provides that, except during the continuance of an Event of Default, the Trustee will perform only such duties as are specifically set forth in the Indenture. During the existence of an Event of Default, the Trustee will exercise such rights and powers vested in it by the Indenture, and use the same degree of care and skill in its exercise as a prudent man would exercise or use under the circumstances in the conduct of his own affairs.

The Indenture and the provisions of the TIA contain certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payments of claims in certain cases or to realize on certain property received in respect of any such claim as security or otherwise. Subject to the TIA, the Trustee will be permitted to engage in other transactions; *provided* that if the Trustee acquires any conflicting interest as described in the TIA, it must eliminate such conflict or resign.

Book-Entry, Delivery and Form

Except as set forth below, the exchange notes will be issued in the form of one global certificate (the *Global Notes*). The global exchange note will be deposited upon issuance with the Trustee as custodian for The Depository Trust Company (*DTC*), in New York, New York, and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant in DTC as described below.

Except as set forth below, the *Global Notes* may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the *Global Notes* may not be exchanged for definitive notes in registered certificated form (*Certificated Notes*) except in the limited circumstances described below. See *Exchange of Global Notes for Certificated Notes*. Except in the limited circumstances described below, owners of beneficial interests in the *Global Notes* will not be entitled to receive physical delivery of notes in certificated form.

Depository Procedures

The following description of the operations and procedures of DTC, Euroclear System (*Euroclear*) and Clearstream Banking, S.A. (*Clearstream*) are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. The Company takes no responsibility for these operations and procedures and urges investors to contact the system or their participants directly to discuss these matters.

DTC has advised the Company that DTC is a limited-purpose trust company organized under New York Banking Law, a banking organization within the meaning of New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC also has advised the Company that it was created to hold securities for its participating organizations (collectively, the *Participants*) and to facilitate the clearance and settlement of transactions in those securities between the Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the initial purchasers), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the *Indirect Participants*). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised the Company that, pursuant to procedures established by it:

- (1) upon deposit of the *Global Notes*, DTC will credit the accounts of the Participants designated by the initial purchasers with portions of the principal amount of the *Global Notes*; and
- (2) ownership of these interests in the *Global Notes* will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interest in the *Global Notes*).

Investors in the *Global Notes* who are Participants may hold their interests therein directly through DTC. Investors in the *Global Notes* who are not Participants may hold their interests therein indirectly through

Table of Contents

organizations (including Euroclear and Clearstream) which are Participants. All interests in a Global Note, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of such systems. The laws of some states require that certain Persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such Persons will be limited to that extent. Because DTC can act only on behalf of the Participants, which in turn act on behalf of the Indirect Participants, the ability of a Person having beneficial interests in a Global Note to pledge such interests to Persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

To facilitate subsequent transfers, all Global Notes representing the notes which are deposited with, or on behalf of, DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Global Notes with, or on behalf of, DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the Global Notes representing the notes. DTC's records reflect only the identity of the Participants to whose accounts such notes are credited, which may or may not be the beneficial owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Except as described below, owners of interests in the Global Notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or Holders thereof under the Indenture for any purpose.

Payments in respect of the principal of, and interest and premium, if any, and Liquidated Damages, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the Indenture. Under the terms of the Indenture, the Company and the Trustee will treat the Persons in whose names the notes, including the Global Notes, are registered as the owners of the notes for the purpose of receiving payments and for all other purposes. Consequently, neither the Company, the Trustee nor any agent of the Company or the Trustee has or will have any responsibility or liability for:

- (1) any aspect of DTC's records or any Participant's or Indirect Participant's records relating to or payments made on account of beneficial ownership interest in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes; or
- (2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised the Company that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the Trustee or the Company. Neither the Company nor the Trustee will be liable for any delay by DTC or any of the Participants or the Indirect Participants in identifying the beneficial owners of the notes, and the Company and the Trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between the Participants will be effected in accordance with DTC's procedures, and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Table of Contents

Subject to compliance with the transfer restrictions applicable to the notes described herein, cross-market transfers between the Participants, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by their respective depositaries; *however*, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

DTC has advised the Company that it will take any action permitted to be taken by a Holder of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the notes as to which such Participant or Participants has or have given such direction. However, if there is an Event of Default under the notes, DTC reserves the right to exchange the Global Notes for legended notes in certificated form, and to distribute such notes to its Participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the Rule 144A Global Notes and the Regulation S Global Notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. Neither the Company nor the Trustee nor any of their respective agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable (including DTC), but we take no responsibility for its accuracy. Neither we nor the Trustee will have any responsibility or obligation to participants, or the persons for whom they act as nominees, with respect to:

- (1) the accuracy of the records of DTC, its nominee or any participant, any ownership interest in the notes, or
- (2) any payments to, or the providing of notice, to participants or beneficial owners.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for Certificated Notes if:

- (1) DTC (a) notifies the Company that it is unwilling or unable to continue as depository for the Global Notes or (b) has ceased to be a clearing agency registered under the Exchange Act and, in either case, the Company fails to appoint a successor depository within 120 days after the date of such notice; or
- (2) the Company, at its option, notifies the Trustee in writing that it elects to cause the issuance of the Certificated Notes; or
- (3) there has occurred and is continuing a Default or Event of Default with respect to the notes.

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes upon prior written notice given to the Trustee by or on behalf of DTC in accordance with the Indenture. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures) and any original notes not exchanged pursuant to the exchange offer will bear the applicable Securities Act restrictive legend, unless that legend is not required by applicable law.

Same Day Settlement and Payment

The Company will make payments in respect of the notes represented by the Global Notes (including principal, premium, if any, interest and Liquidated Damages, if any) by wire transfer of immediately available funds to the accounts specified by DTC or its nominee. The Company will make all payments of principal, interest and premium, if any, and Liquidated Damages, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such Holder's registered address. The notes represented by the Global Notes are expected to be eligible to trade in The PORTALSM Market and to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. The Company expects that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a Participant will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised the Company that cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a Participant will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

- (1) after tax gains or losses from Asset Sales (without regard to the \$5.0 million limitation set forth in the definition thereof) or abandonments or reserves relating thereto;
- (2) after tax items classified as extraordinary or nonrecurring gains or losses;
- (3) the net income of any Person accrued prior to the date it becomes a Restricted Subsidiary of the referent Person or is merged or consolidated with the referent Person or any Restricted Subsidiary of the referent Person;
- (4) the net income (but not loss) of any Restricted Subsidiary of the referent Person to the extent that the declaration of dividends or similar distributions by that Restricted Subsidiary of that income is restricted by a contract, operation of law or otherwise;
- (5) the net income of any Person, other than a Restricted Subsidiary of the referent Person, except to the extent of cash dividends or distributions paid to the referent Person or to a Wholly Owned Restricted Subsidiary of the referent Person by such Person;
- (6) any restoration to income of any contingency reserve, except to the extent that provision for such reserve was made out of Consolidated Net Income accrued at any time following the Issue Date;

Table of Contents

(7) income or loss attributable to discontinued operations (including, without limitation, operations disposed of during such period whether or not such operations were classified as discontinued); and

(8) in the case of a successor to the referent Person by consolidation or merger or as a transferee of the referent Person's assets, any earnings of the successor corporation prior to such consolidation, merger or transfer of assets.

Consolidated Non-cash Charges means, with respect to any Person, for any period, the aggregate depreciation, amortization and other non-cash expenses of such Person and its Restricted Subsidiaries reducing Consolidated Net Income of such Person and its Restricted Subsidiaries for such period, determined on a consolidated basis in accordance with GAAP (excluding any such charges constituting an extraordinary item or loss or any such charge which requires an accrual of or a reserve for cash charges for any future period).

Credit Facilities means one or more debt facilities or commercial paper facilities, in each case with banks, other institutional lenders, financial institutions or debt investors providing for revolving credit loans, term loans, bridge loans, debt securities or one or more indentures or similar agreements, including any related bonds, notes, debentures, guarantees, collateral documents, instruments and agreements executed in connection therewith (including, without limitation, the New Credit Agreement), in each case, as amended, restated, modified, renewed, refunded, replaced or refinanced, whether or not with the same party (including, without limitation, by means of sales of debt securities to institutional investors) in whole or in part from time to time; *provided* that Credit Facilities shall not include any Indebtedness existing on the Issue Date other than Indebtedness under the New Credit Agreement.

Currency Agreement means any foreign exchange contract, currency swap agreement or other similar agreement or arrangement designed to protect the Company or any Restricted Subsidiary of the Company against fluctuations in currency values.

Debt to Cash Flow Ratio means, with respect to any Person as any date of determination, the ratio of (a) the consolidated Indebtedness of such Person and its Restricted Subsidiaries as of such date to (b) the Consolidated Cash Flow of such Person during the four most recent full fiscal quarters (the *Four Quarter Period*) ending prior to the date of the transaction giving rise to the need to calculate the Debt to Cash Flow Ratio for which internal financial statements are available (the *Transaction Date*). In addition to and without limitation of the foregoing, for purposes of this definition, Consolidated Cash Flow and Indebtedness shall be calculated after giving effect on a pro forma basis for the period of such calculation to:

(1) the incurrence or repayment of any Indebtedness of such Person or any of its Restricted Subsidiaries (and the application of the proceeds thereof) giving rise to the need to make such calculation and any incurrence or repayment of other Indebtedness (and the application of the proceeds thereof), other than the incurrence or repayment of Indebtedness in the ordinary course of business for working capital purposes pursuant to working capital facilities, occurring during the Four Quarter Period or at any time subsequent to the last day of the Four Quarter Period and on or prior to the Transaction Date, as if such incurrence or repayment, as the case may be (and the application of the proceeds thereof), occurred on the first day of the Four Quarter Period; and

(2) any asset sales or other dispositions or Asset Acquisitions (including, without limitation, any Asset Acquisition giving rise to the need to make such calculation as a result of such Person or one of its Restricted Subsidiaries (including any Person who becomes a Restricted Subsidiary as a result of the Asset Acquisition) incurring, assuming or otherwise being liable for Acquired Indebtedness and also including any Consolidated Cash Flow attributable to the assets which are the subject of the Asset Acquisition or asset sale or other disposition during the Four Quarter Period) occurring during the Four Quarter Period or at any time subsequent to the last day of the Four Quarter Period and on or prior to the Transaction Date, as if such asset sale or other disposition or Asset Acquisition (including the incurrence, assumption or liability for any such Acquired Indebtedness) occurred on the first day of the Four Quarter Period. If such Person or any of its

Table of Contents

Restricted Subsidiaries directly or indirectly guarantees Indebtedness of a third Person, the preceding sentence shall give effect to the incurrence of such guaranteed Indebtedness as if such Person or any Restricted Subsidiary of such Person had directly incurred or otherwise assumed such guaranteed Indebtedness.

For purposes of this definition, whenever pro forma effect is to be given to an Asset Acquisition and the amount of income or earnings relating thereto, the pro forma calculations shall be determined in good faith by a responsible financial or accounting Officer of the Company and shall comply with the requirements of Rule 11-02 of Regulation S-X promulgated by the SEC, except that such pro forma calculations may include operating expense reductions for such period resulting from the Asset Acquisition which is being given pro forma effect that have been realized or for which the steps necessary for realization have been taken or are reasonably expected to be taken within twelve months following any such Asset Acquisition, including, but not limited to, the execution or termination of any contracts, the termination of any personnel or the closing (or approval by the Board of Directors of the Company of any closing) of any facility, as applicable; *provided* that, in either case, such adjustments are set forth in an Officers Certificate signed by the Company's chief financial officer and another Officer which states (i) the amount of such adjustment or adjustments, (ii) that such adjustment or adjustments are based on the reasonable good faith beliefs of the Officers executing such Officers Certificate at the time of such execution and (iii) that any related incurrence of Indebtedness is permitted pursuant to the Indenture.

Default means an event or condition the occurrence of which is, or with the lapse of time or the giving of notice or both would be, an Event of Default.

pronouncements of the Financial Accounting Standards Board or in such other statements by such other entity as may be approved by a significant segment of the accounting profession of the United States, which are in effect as of the Issue Date.

Guarantee means a guarantee of the notes by a Guarantor.

Guarantor means (1) each of the Company's Subsidiaries that is a Domestic Restricted Subsidiary and a guarantor under the New Credit Agreement as of the Issue Date and (2) each of the Company's Restricted Subsidiaries that in the future executes a supplemental indenture in which such Restricted Subsidiary agrees to be bound by the terms of the Indenture as a Guarantor; *provided* that any Person constituting a Guarantor as described above shall cease to constitute a Guarantor when its respective Guarantee is released in accordance with the terms of the Indenture.

Immaterial Subsidiary means, as of any date of determination, any Domestic Restricted Subsidiary that (a) together with its Subsidiaries on a consolidated basis during the twelve (12) months preceding such date of determination accounts for (or which may be attributed) \$1,250,000 or less of the Consolidated Cash Flow or assets (determined on a consolidated basis) of the Company and its Subsidiaries or (b) is otherwise not necessary for the ongoing business operations of the Company and its Subsidiaries taken as a whole; *provided* that at no time should all of the Domestic Restricted Subsidiaries that qualify as Immaterial Subsidiaries based on the foregoing parameters account (on a consolidated basis) for more than \$10,000,000 of the Consolidated Cash Flow or assets (determined on a consolidated basis) of the Company and its Subsidiaries.

Indebtedness means with respect to any Person, without duplication,

- (1) all Obligations of such Person for borrowed money;
- (2) all Obligations of such Person evidenced by bonds, debentures, notes or other similar instruments;
- (3) all Capitalized Lease Obligations of such Person;
- (4) all Obligations of such Person issued or assumed as the deferred purchase price of property, all conditional sale obligations and all Obligations under any title retention agreement (but excluding trade accounts payable and other accrued liabilities arising in the ordinary course of business that are not overdue by 90 days or more or are being contested in good faith by appropriate proceedings promptly instituted and diligently conducted);
- (5) all Obligations for the reimbursement of any obligor on any letter of credit, banker's acceptance or similar credit transaction;
- (6) guarantees and other contingent obligations in respect of Indebtedness referred to in clauses (1) through (5) above and clause (8) below;
- (7) all Obligations of any other Person of the type referred to in clauses (1) through (6) which are secured by any lien on any property or asset of such Person, the amount of such Obligation being deemed to be the lesser of the Fair Market Value of such property or asset or the amount of the Obligation so secured;
- (8) all Obligations under currency agreements and interest swap agreements of such Person; and
- (9) all Disqualified Capital Stock issued by such Person with the amount of Indebtedness represented by such Disqualified Capital Stock being equal to the greater of its voluntary or involuntary liquidation preference and its maximum fixed repurchase price, but excluding accrued dividends, if any.

For purposes hereof, the maximum fixed repurchase price of any Disqualified Capital Stock which does not have a fixed repurchase price shall be calculated in accordance with the terms of such Disqualified Capital Stock as if such Disqualified Capital Stock were purchased on any date on which Indebtedness shall be required to be determined pursuant to the Indenture, and if such price is based upon, or measured by, the Fair Market Value of such Disqualified Capital Stock, such Fair Market Value shall be determined reasonably and in good faith by the Board of Directors of the issuer of such Disqualified Capital Stock.

(16) Indebtedness of Foreign Restricted Subsidiaries in an aggregate principal amount not to exceed \$10.0 million at any one time outstanding;

(17) Indebtedness owed to any Person providing property, casualty or liability insurance to the Company or any of its Restricted Subsidiaries (including any state insurance guarantee funds relating to any such insurance policy), so long as such Indebtedness shall not be in excess of the amount of the unpaid cost of, and shall be incurred only to defer the cost of, such insurance for the year in which such Indebtedness is incurred and such Indebtedness shall be outstanding only during such year; and

(18) additional Indebtedness of the Company and its Restricted Subsidiaries in an aggregate principal amount not to exceed \$25.0 million at any one time outstanding (which amount may, but need not, be incurred in whole or in part under the Credit Facilities).

For purposes of determining compliance with the Limitation on Incurrence of Additional Indebtedness covenant, in the event that an item of Indebtedness meets the criteria of more than one of the categories of Permitted Indebtedness described in clauses (3) through (18) above or is entitled to be incurred pursuant to the Debt to Cash Flow Ratio provisions of such covenant, the Company shall, in its sole discretion, classify such item of Indebtedness in any manner that complies with such covenant; *provided* that all Indebtedness outstanding under the Credit Facilities up to the maximum amount permitted under clause (2) above shall be deemed to have been incurred pursuant to such clause (2). Accrual of interest, accretion or amortization of original issue discount, the payment of interest on any Indebtedness in the form of additional Indebtedness with the same terms, and the payment of dividends on Disqualified Capital Stock in the form of additional shares of the same class of Disqualified Capital Stock will not be deemed to be an incurrence of Indebtedness for purposes of the Limitations on Incurrence of Additional Indebtedness covenant.

Permitted Investments means

(1) Investments by the Company or any Restricted Subsidiary of the Company in any Person that is or will become immediately after such Investment a Restricted Subsidiary of the Company or that will merge or consolidate into the Company or a Restricted Subsidiary of the Company;

(2) Investments in the Company by any Restricted Subsidiary of the Company; *provided* that any Indebtedness evidencing such Investment and held by a Restricted Subsidiary that is not a Guarantor is unsecured and subordinated, pursuant to a written agreement, to the Company's obligations under the notes and the Indenture;

(3) investments in cash and Cash Equivalents;

(4) loans and advances to employees, directors and officers of the Company and its Restricted Subsidiaries in the ordinary course of business for bona fide business purposes not in excess of (a) \$5.0 million at any one time outstanding during the period from the Issue Date through the first anniversary of the Issue Date and (b) \$2.5 million at any one time outstanding after the first anniversary of the Issue Date;

(5) Currency Agreements and Interest Swap Obligations entered into in the ordinary course of the Company's or its Restricted Subsidiaries' businesses and otherwise in compliance with the Indenture;

(6) Investments in securities of trade creditors or customers received pursuant to any plan of reorganization or similar arrangement upon the bankruptcy or insolvency of such trade creditors or customers or in good faith settlement of delinquent obligations of such trade creditors or customers;

(7) Investments made by the Company or its Restricted Subsidiaries as a result of consideration received in connection with an Asset Sale made in compliance with the provisions set forth under Repurchase at the Option of Holders Asset Sales ;

(8) Investments in existence on the Issue Date;

(9) Investments in prepaid expenses, negotiable instruments held for collection and lease, utility and workers' compensation, performance and other similar deposits provided to third parties in the ordinary course of business;

(10) payroll, travel and similar advances that are expected at the time of such advances ultimately to be treated as expenses for accounting purposes;

(11) Investments represented by guarantees that are otherwise permitted under the Indenture;

(12) Investments the payment for which is Qualified Capital Stock of the Company;

(13) Investments by the Company or any Restricted Subsidiary of the Company in a Securitization Entity or any Investment by a Securitization Entity in any other Person, in each case, in connection with a Permitted Securitization Transaction; *provided, however*, that the foregoing Investment is in the form of a Purchase Money Note or Capital Stock;

(14) Investments in any Securitization Facility to the extent reasonably necessary to consummate any Permitted Securitization Transaction; and

(15) additional Investments (other than any Investments in any direct or indirect parent company of the Company) not to exceed \$75.0 million at any one time outstanding, provided that the original amount of any such Investment will be deemed reduced by any permanent return of principal or equity thereon up to, but not exceeding, the original amount of such Investment.

Permitted Liens means the following types of Liens:

(1) Liens for taxes, assessments or governmental charges or claims either (a) not delinquent or (b) contested in good faith by appropriate proceedings and as to which the Company or its Restricted Subsidiaries shall have set aside on its books such reserves as may be required pursuant to GAAP;

(2) statutory Liens of landlords and Liens of carriers, warehousemen, mechanics, suppliers, materialmen, repairmen and other Liens imposed by law incurred in the ordinary course of business for sums not yet delinquent or being contested in good faith, if such reserve or other appropriate provision, if any, as shall be required by GAAP shall have been made in respect thereof;

(3) Liens incurred or deposits made in the ordinary course of business in connection with workers' compensation, unemployment insurance and other types of social security, including any Lien securing letters of credit issued in the ordinary course of business consistent with past practice in connection therewith, or to secure the performance of tenders, statutory obligations, surety and appeal bonds, bids, leases, government contracts, performance and return-of-money bonds and other similar obligations (exclusive of obligations for the payment of borrowed money);

(4) judgment Liens not giving rise to an Event of Default so long as such Lien is adequately bonded and any appropriate legal proceedings which may have been duly initiated for the review of such judgment shall not have been finally terminated or the period within which such proceedings may be initiated shall not have expired;

(5) easements, rights-of-way, zoning restrictions and other similar charges or encumbrances in respect of real property not interfering in any material respect with the ordinary conduct of the business of the Company or any of its Restricted Subsidiaries;

(6) any interest or title of a lessor under any Capitalized Lease Obligation; *provided* that such Liens do not extend to any property or assets which is not leased property subject to such Capitalized Lease Obligation;

(7) Liens securing Purchase Money Indebtedness incurred in the ordinary course of business; *provided, however*, that (a) such Purchase Money Indebtedness shall not exceed the purchase price or other cost of such property or equipment and shall not be secured by any property or equipment of the Company or any Restricted Subsidiary of the Company other than the property and equipment so acquired and (b) the Lien securing such Purchase Money Indebtedness shall be created within 90 days of such acquisition;

- (8) Liens upon specific items of inventory or other goods and proceeds of any Person securing such Person's obligations in respect of bankers acceptances issued or created for the account of such Person to facilitate the purchase, shipment or storage of such inventory or other goods;
- (9) Liens securing reimbursement obligations with respect to commercial letters of credit which encumber documents and other property relating to such letters of credit and products and proceeds thereof;
- (10) Liens encumbering deposits made to secure obligations arising from statutory, regulatory, contractual, or warranty requirements of the Company or any of its Restricted Subsidiaries, including rights of offset and set off;
- (11) Liens securing Interest Swap Obligations which Interest Swap Obligations relate to Indebtedness that is otherwise permitted under the Indenture;
- (12) Liens securing Indebtedness under Currency Agreements;
- (13) Liens securing Acquired Indebtedness incurred in accordance with the Limitation on Incurrence of Additional Indebtedness covenant; *provided that*
- (a) such Liens secured such Acquired Indebtedness at the time of and prior to the incurrence of such Acquired Indebtedness by the Company or a Restricted Subsidiary of the Company and were not granted in connection with, or in anticipation of, the incurrence of such Acquired Indebtedness by the Company or a Restricted Subsidiary of the Company; and
- (b) such Liens do not extend to or cover any property or assets of the Company or of any of its Restricted Subsidiaries other than the property or assets that secured the Acquired Indebtedness prior to the time such Indebtedness became Acquired Indebtedness of the Company or a Restricted Subsidiary of the Company and are no more favorable to the lienholders than those securing the Acquired Indebtedness prior to the incurrence of such Acquired Indebtedness by the Company or a Restricted Subsidiary of the Company.
- (14) Liens on assets of a Restricted Subsidiary of the Company that is not a Guarantor to secure Indebtedness of such Restricted Subsidiary that is otherwise permitted under the Indenture;
- (15) leases, subleases, licenses and sublicenses granted to others that do not materially interfere with the ordinary course of business of the Company and its Restricted Subsidiaries;
- (16) banker's Liens, rights of setoff and similar Liens with respect to cash and Cash Equivalents on deposit in one or more bank accounts in the ordinary course of business;
- (17) Liens arising from filing Uniform Commercial Code financing statements regarding leases;
- (18) Liens in favor of customs and revenue authorities arising as a matter of law to secure payments of custom duties in connection with the importation of goods;
- (19) Liens securing Indebtedness incurred pursuant to clause (17) of the definition of Permitted Indebtedness; *provided that* such Liens extend only to the insurance policy and proceeds thereof financed by such Indebtedness; and
- (20) Liens with respect to obligations (including Indebtedness) of the Company or any of its Restricted Subsidiaries that do not exceed \$10.0 million at any one time outstanding.

Permitted Securitization Transaction means any transaction or series of transactions that qualify for off-balance sheet treatment in accordance with SFAS 140 or other applicable accounting pronouncements, pursuant to which the Company or any of its Restricted Subsidiaries may sell, contribute, convey or otherwise transfer to (i) a Securitization Entity (in the case of a transfer by the Company or any of its Restricted Subsidiaries) and (ii) any other Person (in the case of a transfer by a Securitization Entity), or may grant a security interest in, any accounts receivable or chattel paper (whether now existing or arising in the future) of the Company or any of its Restricted Subsidiaries, and any assets directly related thereto, including, without

limitation, all collateral securing such accounts receivable, and other assets (including contract rights and all guarantees or other obligations in respect of such accounts receivable or chattel paper, proceeds of such accounts receivable or chattel paper and other assets which are customarily transferred or in respect of which security interests are customarily granted in connection with asset securitization transactions involving accounts receivable or chattel paper).

Person means an individual, partnership, corporation, unincorporated organization, trust or joint venture, or a governmental agency or political subdivision thereof.

Preferred Stock of any Person means any Capital Stock of such Person that has preferential rights to any other Capital Stock of such Person with respect to dividends or redemptions or upon liquidation.

Purchase Money Indebtedness means Indebtedness of the Company and its Restricted Subsidiaries incurred in the normal course of business for the purpose of financing all or any part of the purchase price, or the cost of installation, construction or improvement, of property or equipment.

Purchase Money Note means a promissory note of a Securitization Entity evidencing a line of credit, which may be irrevocable, from the Company or any Restricted Subsidiary of the Company in connection with a Permitted Securitization Transaction to a Securitization Entity, which note is repayable from cash available to such Securitization Entity, other than amounts required to be established as reserves pursuant to contractual arrangements with entities that are not Affiliates of such Securitization Entity entered into as part of such Permitted Securitization Transaction, amounts paid to investors in respect of interest, principal and other amounts owing to such investors and amounts paid in connection with the purchase of newly generated accounts receivable.

Qualified Capital Stock means any Capital Stock that is not Disqualified Capital Stock.

Rating Agency means a statistical rating agency or agencies, as the case may be, nationally recognized in the United States and selected by the Company (as certified by a resolution of the Board of Directors of the Company) which shall be substituted for S&P or Moody's, or both, as the case may be.

Refinance means, in respect of any security or Indebtedness, to refinance, extend, renew, refund, repay, prepay, redeem, defease or retire, or to issue a security or Indebtedness in exchange or replacement for, such security or Indebtedness in whole or in part. *Refinanced* and *Refinancing* shall have correlative meanings.

Refinancing Indebtedness means any Refinancing by the Company or any Restricted Subsidiary of the Company of Indebtedness incurred in accordance with the *Limitation on Incurrence of Additional Indebtedness* covenant (other than pursuant to clauses (2), (4), (5), (6), (7), (8), (9), (10), (12), (13), (14), (15), (16), (17) or (18) of the definition of Permitted Indebtedness), in each case that does not:

(1) result in an increase in the aggregate principal amount of Indebtedness of such Person as of the date of such proposed Refinancing (plus the amount of any premium required to be paid under the terms of the instrument governing such Indebtedness and plus the amount of reasonable expenses incurred by the Company in connection with such Refinancing); or

(2) create Indebtedness with: (a) a Weighted Average Life to Maturity that is less than the Weighted Average Life to Maturity of the Indebtedness being Refinanced; or (b) a final maturity earlier than the final maturity of the Indebtedness being Refinanced; *provided* that (x) if such Indebtedness being Refinanced is Indebtedness solely of the Company (and is not otherwise guaranteed by a Restricted Subsidiary of the Company), then such Refinancing Indebtedness shall be Indebtedness solely of the Company and (y) if such Indebtedness being Refinanced is subordinate or junior to the notes or any Guarantee, then such Refinancing Indebtedness shall be subordinate to the notes or such Guarantee, as the case may be, at least to the same extent and in the same manner as the Indebtedness being Refinanced.

Restricted Subsidiary of any Person means any Subsidiary of such Person which at the time of determination is not an Unrestricted Subsidiary.

Sale and Leaseback Transaction means any direct or indirect arrangement with any Person or to which any such Person is a party, providing for the leasing to the Company or a Restricted Subsidiary of any property, whether owned by the Company or any Restricted Subsidiary at the Issue Date or later acquired, which has been or is to be sold or transferred by the Company or such Restricted Subsidiary to such Person or to any other Person from whom funds have been or are to be advanced by such Person on the security of such Property.

Securitization Entity means a Wholly Owned Unrestricted Subsidiary of the Company that engages in no activities other than in connection with the financing of accounts receivable, chattel paper and related assets and that is designated by the Board of Directors of the Company (as provided below) as a Securitization Entity (a) no portion of the Indebtedness or any other obligations (contingent or otherwise) of which (i) is guaranteed by the Company or any other Restricted Subsidiary of the Company (excluding guarantees of Obligations (other than the principal of, and interest on, Indebtedness) pursuant to Standard Securitization Undertakings), (ii) is recourse to or obligates the Company or any other Restricted Subsidiary of the Company in any way other than pursuant to Standard Securitization Undertakings or (iii) subjects any property or assets of the Company or any other Restricted Subsidiary of the Company, directly or indirectly, contingently or otherwise, to the satisfaction thereof, other than pursuant to Standard Securitization Undertakings, (b) with which neither the Company nor any other Restricted Subsidiary of the Company has any material contract, agreement, arrangement or understanding other than on terms no less favorable to the Company or such Restricted Subsidiary than those that might be obtained at the time from Persons that are not Affiliates of the Company, and (c) to which neither the Company nor any Restricted Subsidiary of the Company (other than such entity) has any obligation to maintain or preserve such entity's financial condition or cause such entity to achieve certain levels of operating results. Any such designation by the Board of Directors of the Company shall be evidenced to the Trustee by filing with the Trustee a copy of the Board Resolution giving effect to such designation and an officers' certificate certifying that such designation complied with the foregoing provisions.

Significant Subsidiary, with respect to any Person, means any Restricted Subsidiary of such Person that satisfies the criteria for a significant subsidiary set forth in Rule 1.02(w) of Regulation S-X under the Exchange Act.

Standard Securitization Undertakings means representations, warranties, guarantees, covenants and indemnities entered into by the Company or any Restricted Subsidiary of the Company that are reasonably customary in securitization transactions relating to accounts receivable, chattel paper and related assets in connection with a Permitted Securitization Transaction.

Subordinated Indebtedness means Indebtedness of the Company or any Guarantor that is subordinated or junior in right of payment to the notes or the Guarantee of such Guarantor, as the case may be.

Subsidiary, with respect to any Person, means:

(1) any corporation of which the outstanding Capital Stock having at least a majority of the votes entitled to be cast in the election of directors under ordinary circumstances shall at the time be owned, directly or indirectly, by such Person; or

(2) any other Person of which at least a majority of the voting interest under ordinary circumstances is at the time, directly or indirectly, owned by such Person.

Total Consolidated Tangible Assets means, with respect to any Person, the aggregate amount of consolidated assets of such Person and its consolidated subsidiaries (less applicable reserves and other properly deductible items) after deducting therefrom (to the extent otherwise included therein) all assets that would be classified as intangible assets under GAAP (including, without limitation, goodwill, trade names, trademarks,

Table of Contents

patents and unamortized debt discount and expense), all as set forth on the books and records of such Person and its consolidated Subsidiaries as of the end of the most recently ended fiscal quarter and computed in accordance with GAAP.

Treasury Rate means, as of any redemption date, the yield to maturity as of such redemption date of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15(519) that has become publicly available at least two business days prior to the redemption date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from the redemption date to March 1, 2011; *provided, however*, that if the period from the redemption date to March 1, 2011 is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year will be used. The Company will (1) calculate the Treasury Rate on the third business day preceding the applicable redemption date and (2) prior to such redemption date file with the Trustee an Officers' Certificate setting forth the Applicable Premium and the Treasury Rate and showing the calculation of each in reasonable detail.

Unrestricted Subsidiary of any Person means:

(1) any Subsidiary of such Person that at the time of determination shall be or continue to be designated an Unrestricted Subsidiary by the Board of Directors of such Person in the manner provided below; and

(2) any Subsidiary of an Unrestricted Subsidiary.

The Board of Directors of the Company may designate any Subsidiary (including any newly acquired or newly formed Subsidiary) to be an Unrestricted Subsidiary unless such Subsidiary owns any Capital Stock of, or owns or holds any Lien on any property of, the Company or any other Subsidiary of the Company that is not a Subsidiary of the Subsidiary to be so designated; provided that:

(1) the Company certifies to the Trustee that such designation complies with the *Limitation on Restricted Payments* covenant; and

(2) each Subsidiary to be so designated and each of its Subsidiaries has not at the time of designation, and does not thereafter, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable with respect to any Indebtedness pursuant to which the lender has recourse to any of the assets of the Company or any of its Restricted Subsidiaries.

For purposes of making the determination of whether any such designation of a Subsidiary as an Unrestricted Subsidiary complies with the *Limitation on Restricted Payments* covenant, the portion of the Fair Market Value of the net assets of such Subsidiary of the Company at the time that such Subsidiary is designated as an Unrestricted Subsidiary that is represented by the interest of the Company and its Restricted Subsidiaries in such Subsidiary, in each case as determined in good faith by the Board of Directors of the Company, shall be deemed to be an Investment. Such designation will be permitted only if such Investment would be permitted at such time under the *Limitation on Restricted Payments* covenant.

The Board of Directors of the Company may designate any Unrestricted Subsidiary to be a Restricted Subsidiary only if:

(1) immediately after giving effect to such designation, the Company is able to incur at least \$1.00 of additional Indebtedness (other than Permitted Indebtedness) in compliance with the *Limitation on Incurrence of Additional Indebtedness* covenant; and

(2) immediately before and immediately after giving effect to such designation, no Default or Event of Default shall have occurred and be continuing. Any such designation by the Board of Directors of the Company shall be evidenced to the Trustee by promptly filing with the Trustee a copy of the Board Resolution giving effect to such designation and an Officers' Certificate certifying that such designation complied with the foregoing provisions.

Table of Contents

Weighted Average Life to Maturity means, when applied to any Indebtedness at any date, the number of years obtained by dividing (a) the then outstanding aggregate principal amount of such Indebtedness into (b) the sum of the total of the products obtained by multiplying (i) the amount of each then remaining installment, sinking fund, serial maturity or other required payment of principal, including payment at final maturity, in respect thereof, by (ii) the number of years (calculated to the nearest one-twelfth) which will elapse between such date and the making of such payment.

Wholly Owned Restricted Subsidiary of any Person means any Wholly Owned Subsidiary of such Person which at the time of determination is a Restricted Subsidiary of such Person.

Wholly Owned Unrestricted Subsidiary of any Person means any Wholly Owned Subsidiary of such Person which at the time of determination is an Unrestricted Subsidiary of such Person.

Wholly Owned Subsidiary of any Person means any Subsidiary of such Person of which all the outstanding voting securities (other than in the case of a foreign Subsidiary, directors' qualifying shares or an immaterial amount of shares required to be owned by other Persons pursuant to applicable law) are owned by such Person or any Wholly Owned Subsidiary of such Person.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of material United States federal income tax consequences relevant to the exchange of original notes for the exchange notes and the ownership and disposition of the exchange notes by the beneficial owners thereof, or the holders. This discussion is limited to the tax consequences to the holders of exchange notes who acquire the exchange notes in exchange for original notes that were acquired at the issue price within the meaning of Section 1273 of the Internal Revenue Code of 1986, as amended, or the Code, and does not address the tax consequences to holders who acquire their exchange notes in exchange for subsequently purchased original notes or to subsequent purchasers of exchange notes. This summary does not purport to be a complete analysis of all of the potential United States federal income tax consequences relating to the exchange of original notes for the exchange notes and the ownership and disposition of the exchange notes, nor does this summary describe any federal estate tax consequences. There can be no assurance that the Internal Revenue Service, or the IRS, will take a similar view of the tax consequences described herein. Furthermore, this discussion does not address all aspects of taxation that might be relevant to particular holders in light of their individual circumstances. For instance, this discussion does not address the alternative minimum tax provisions of the Code or special rules applicable to certain categories of holders (including dealers in securities or foreign currencies, insurance companies, real estate investment trusts, regulated investment companies, financial institutions, tax-exempt entities, holders whose functional currency is not the United States dollar and, except, to the extent discussed below, foreign holders (as defined below)) or to holders who hold the exchange notes as part of a hedge, conversion or constructive sale transaction or other risk reduction transaction.

This discussion is based on the provisions of the Code, the Treasury Regulations promulgated thereunder, and administrative and judicial interpretations thereof, all as in effect as of the date hereof and all of which are subject to change (possibly with retroactive effect). The discussion below assumes that holders hold the exchange notes as capital assets within the meaning of Section 1221 of the Code.

If a partnership, or an entity treated as a partnership for United States federal income tax purposes, holds any exchange notes, the tax treatment of such entity and each partner will generally depend on the status of the partner and the activities of the partnership. Partnerships and their partners should consult their tax advisors regarding the tax consequences of owning exchange notes.

EACH PROSPECTIVE INVESTOR IS URGED TO CONSULT SUCH INVESTOR'S TAX ADVISOR AS TO THE SPECIFIC TAX CONSEQUENCES OF AN ACQUISITION OF EXCHANGE NOTES IN LIGHT OF SUCH INVESTOR'S PARTICULAR TAX SITUATION, INCLUDING THE APPLICATION AND EFFECT OF THE CODE, AS WELL AS STATE, LOCAL AND FOREIGN INCOME AND OTHER TAX LAWS.

Treatment of the exchange notes as indebtedness

We intend to take the position that, under current law and interpretations thereof, the exchange notes will be classified for United States federal income tax purposes as indebtedness. No assurance can be given, however, that the IRS will not challenge such position or, if challenged, that such a challenge will not be successful. If the IRS were to assert successfully that the exchange notes should be treated as equity for United States federal income tax purposes, the tax treatment of the exchange notes would be different than the treatment described below. The remainder of this discussion assumes that the exchange notes will be classified as indebtedness for United States federal income tax purposes.

Tax Consequences to United States Holders

The following summary is a general description of material United States federal income tax consequences applicable to a United States holder. For the purpose of this discussion, United States holder means a holder of an exchange note, which holder is for United States federal income tax purposes (i) a citizen or resident of the

Table of Contents

United States, (ii) a corporation, or other entity treated as a corporation for United States federal income tax purposes, created or organized in or under the laws of the United States or of any political subdivision thereof (including the District of Columbia), (iii) an estate, the income of which is subject to United States federal income taxation regardless of its source, or (iv) a trust, if (A) the administration of the trust is subject to the primary supervision of a court within the United States and one or more United States persons has the authority to control all substantial decisions of the trust, or (B) it was in existence on August 20, 1996, and has a valid election in place to be a United States person.

Payments of Interest

Interest paid on an exchange note will generally be taxable to a United States holder as ordinary interest income at the time the interest accrues or is received in accordance with the United States holder's method of accounting for United States federal income tax purposes.

Sale, Exchange, Redemption or Retirement of the Notes: General

In general, upon the sale, exchange, redemption or retirement of an exchange note, a United States holder will recognize capital gain or loss equal to the difference between the amount realized on such sale, exchange, redemption or retirement (not including any amount attributable to accrued but unpaid interest that the United States holder has not already included in gross income) and such holder's adjusted tax basis in the exchange note. To the extent attributable to accrued but unpaid interest that the United States holder has not already included in gross income, the amount recognized by the United States holder will be treated as a payment of interest. See Tax Consequences to United States Holders Payments of Interest above.

The excess of net long-term capital gains over net short-term capital losses is subject to tax at a lower rate for noncorporate taxpayers. Noncorporate taxpayers are generally subject to a maximum tax rate of 15% (for all taxable years ending on or before December 31, 2010) on capital gain realized on the disposition of a capital asset (including an exchange note) held for more than one year. The distinction between capital gain or loss and ordinary income or loss is also relevant for purposes of, among other things, limitations on the deductibility of capital losses.

Exchange Offer

The exchange of an original note for an exchange note pursuant to the exchange offer will not be taxable to the exchanging holder for United States federal income tax purposes. As a result, an exchanging holder:

will not recognize any gain or loss on the exchange;

will have a holding period for the exchange note that includes the holding period for the original note exchanged therefor;

will have an adjusted tax basis in the exchange note equal to its adjusted tax basis in the original note exchanged therefor; and

will experience tax consequences upon a subsequent sale, exchange, redemption or retirement of an exchange note as described above.

The exchange offer is not expected to result in any material United States federal income tax consequences to a nonexchanging holder.

Tax Consequences to Foreign Holders

The following summary is a general description of material United States federal income tax consequences to a foreign holder. A foreign holder means, for purposes of this discussion, a holder (other than a

Table of Contents

partnership, or other entity treated as a partnership for United States federal income tax purposes) that is not a United States holder. Special rules may apply to certain foreign holders such as controlled foreign corporations, passive foreign investment companies and certain United States individuals that are expatriates and such foreign holders should consult their tax advisors.

Interest

Assuming that a foreign holder's interest income on an exchange note is not effectively connected with the conduct by such holder of a trade or business in the United States, payments of interest on such exchange note by us or any paying agent to a foreign holder will not be subject to United States federal income tax or withholding tax, *provided* that:

such holder does not own, actually or constructively, 10% or more of the total combined voting power of all classes of our stock entitled to vote;

such holder is not, for United States federal income tax purposes, a controlled foreign corporation related, directly or indirectly, to us through stock ownership;

such holder is not a bank receiving interest on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business within the meaning of Section 881(c)(3)(A) of the Code; and

the certification requirements under Code Section 871(h) or 881(c) and Treasury Regulations thereunder (summarized below) are met.

Payments of interest on an exchange note that do not satisfy all of the foregoing requirements are generally subject to United States federal income tax and withholding tax at a flat rate of 30% (or a lower applicable treaty rate, provided certain certification requirements are met).

Except to the extent otherwise provided under an applicable tax treaty, a foreign holder generally will be subject to United States federal income tax in the same manner as a United States holder with respect to interest that is effectively connected with a United States trade or business conducted by the foreign holder. Effectively connected interest income received by a corporate foreign holder may also, under certain circumstances be subject to an additional branch profits tax at a 30% rate, or, if applicable, a lower treaty rate. Such effectively connected interest income will not be subject to withholding tax if the foreign holder delivers an IRS Form W-8ECI to the payor.

Repayment of Principal and Realized Gain

In general, a foreign holder of an exchange note will not be subject to United States federal withholding tax on the receipt of payments of principal on the exchange note, and a foreign holder will not be subject to United States federal income tax on any gain realized on the sale, exchange, redemption, retirement or other disposition of such exchange note, or receipt of principal, unless:

such foreign holder is a nonresident alien individual who is present in the United States for 183 or more days in the taxable year of disposition and certain other conditions are met;

the foreign holder is required to pay tax pursuant to the provisions of United States tax law applicable to certain United States expatriates; or

the gain is effectively connected with the conduct of a United States trade or business of or, if a tax treaty applies, is attributable to a United States permanent establishment of, the foreign holder.

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 424B3

Under Code Sections 871(h) and 881(c) and the underlying Treasury Regulations, in order to obtain the exemption from withholding tax described in Tax Consequences to Foreign Holders Interest and Repayment of Principal and Realized Gain above, either (i) the holder of an exchange note must provide its

Table of Contents

name and address, and certify, under penalties of perjury, to us or the paying agent, as the case may be, that such holder is a foreign holder or (ii) the holder holds the exchange notes through certain intermediaries and such holder satisfies the certification requirements of applicable Treasury Regulations. Special certification rules apply to holders that are pass-through entities for United States federal income tax purposes. In general, a certificate described in this paragraph is effective only with respect to payments of interest made to the certifying foreign holder after issuance of the certificate in the calendar year of its issuance and the two immediately succeeding calendar years. Under Treasury Regulations, the foregoing certification may be provided by the holder of an exchange note on IRS Form W-8BEN, W-8IMY or W-8EXP, as applicable.

Federal withholding tax is not an additional tax. Rather, any amounts withheld from a payment to a holder are generally allowed as a credit against the affected foreign holder's United States federal income tax liability.

Backup Withholding and Information Reporting

Under current United States federal income tax law, backup withholding at specified rates (currently 28%) and information reporting requirements apply to certain payments of principal and interest made to, and to the proceeds of sale before maturity by, certain holders.

In the case of a noncorporate United States holder, information reporting requirements will apply to payments of principal or interest made by us or any paying agent thereof on an exchange note. The payor will be required to withhold backup withholding tax if:

a holder fails to furnish its Taxpayer Identification Number, or TIN (which, for an individual, is his Social Security number) to the payor in the manner required;

a holder furnishes an incorrect TIN and the payor is so notified by the IRS;

the payor is notified by the IRS that such holder has failed to properly report payments of interest or dividends; or

under certain circumstances, a holder fails to certify, under penalties of perjury, that it has furnished a correct TIN, is a United States person, and has not been notified by the IRS that it is subject to backup withholding for failure to report interest or dividend payments.

Backup withholding and information reporting does not apply with respect to payments made to certain exempt recipients, including entities treated as corporations for United States federal income tax purposes. United States holders should consult their tax advisors regarding their qualification for exemption from backup withholding and information reporting, and the procedure for obtaining such an exemption if applicable.

In the case of a foreign holder, under currently applicable Treasury Regulations, backup withholding and information reporting will not apply to payments of principal or interest made by us or any paying agent thereof on an exchange note (absent actual knowledge or reason to know that the holder is actually a United States holder) if such holder has provided the required certification under penalties of perjury that it is not a United States holder or has otherwise established an exemption. If such holder provides the required certification, such holder may nevertheless be subject to withholding of United States federal income tax as described above under Tax Consequences to Foreign Holders. The rules regarding withholding, backup withholding and information reporting for foreign holders are complex, may vary depending on a foreign holder's particular situation and are subject to change. In addition, special rules apply to certain types of foreign holders, including partnerships, trusts and other entities treated as pass-through entities for United States federal income tax purposes. Accordingly, foreign holders should consult their tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom, and the procedure for obtaining such an exemption if applicable.

Backup withholding is not an additional tax. Any amounts withheld from a payment to a holder under the backup withholding rules will be allowed as a credit against such holder's United States federal income tax liability and may entitle such holder to a refund, *provided* that certain required information is furnished to the IRS.

PLAN OF DISTRIBUTION

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for original notes where such original notes were acquired as a result of market-making or other trading activities. We have agreed that, for a period of up to 180 days after the expiration of the exchange offer, we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any such resale. In addition, all dealers effecting transactions in the exchange notes may be required to deliver a prospectus in accordance with applicable law.

We will not receive any proceeds from any sale of exchange notes by broker-dealers. Exchange notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the exchange notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer or the purchasers of any such exchange notes. Any broker-dealer that resells exchange notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such exchange notes may be deemed to be an underwriter within the meaning of the Securities Act and any profit on any such resale of exchange notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

For a period of up to 180 days after the expiration of the exchange offer, we will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in the letter of transmittal. We have agreed to pay all expenses incident to the exchange offer (including the expenses of one counsel for the holders of the original notes) other than commissions or concessions of any brokers or dealers and will indemnify the holders of the exchange notes (including any broker-dealers) against certain liabilities, including liabilities under the Securities Act.
