KILROY REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Three Months Ended September 30, 2007 and 2006

(unaudited)

1. Organization and Basis of Presentation

Organization

Kilroy Realty Corporation (the Company) owns, operates and develops office and industrial real estate, primarily in Southern California. The Company operates as a self-administered real estate investment trust (REIT). As of September 30, 2007, the Company's stabilized portfolio of operating properties consisted of 89 office buildings (the Office Properties) and 43 industrial buildings (the Industrial Properties), which encompassed an aggregate of approximately 8.6 million and 3.9 million rentable square feet, respectively, and was 92.6% occupied. The Company's stabilized portfolio of operating properties consists of all of the Office Properties and the Industrial Properties and excludes development and redevelopment properties currently under construction and lease-up properties.

The Company defines lease-up properties as properties recently developed or redeveloped by the Company that have not yet reached 95% occupancy and are within one year following substantial completion. Lease-up properties are reclassified to land and improvements and buildings and improvements from construction in progress on the consolidated balance sheets upon building shell completion. As of September 30, 2007, the Company had two redevelopment projects comprised of three buildings, which encompass an aggregate of approximately 212,000 rentable square feet. One of the redevelopment projects, encompassing approximately 107,000 rentable square feet, was in the lease-up phase and is located in Los Angeles County. The other redevelopment property, encompassing approximately 105,000 rentable square feet, was under construction and is located in San Diego County. As of September 30, 2007, the Company had three development projects, comprised of three buildings under construction, which are expected to encompass an aggregate of approximately 344,000 rentable square feet when completed. These development projects are all located in San Diego County.

The Company owns its interests in all of the Office Properties and the Industrial Properties through Kilroy Realty, L.P. (the Operating Partnership) and Kilroy Realty Finance Partnership, L.P. (the Finance Partnership) and conducts substantially all of its operations through the Operating Partnership. The Company owned a 93.5% general partnership interest in the Operating Partnership as of September 30, 2007. Kilroy Realty Finance, Inc., a wholly-owned subsidiary of the Company, is the sole general partner of the Finance Partnership and owns a 1.0% general partnership interest in the Finance Partnership. The Operating Partnership owns the remaining 99.0% limited partnership interest in the Finance Partnership. The Company conducts substantially all of its development activities through Kilroy Services, LLC (KSLLC), which is a wholly-owned subsidiary of the Operating Partnership. Unless otherwise indicated, all references to the Company include the Operating Partnership, the Finance Partnership, KSLLC and all wholly-owned subsidiaries of the Company. With the exception of the Operating Partnership, all of the Company's subsidiaries are wholly owned.

Basis of Presentation

The consolidated financial statements of the Company include the consolidated financial position and results of operations of the Company, the Operating Partnership, the Finance Partnership, KSLLC and all wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in the consolidated financial statements. The Company also consolidates all variable interest entities (VIEs) in which it is deemed to be the primary beneficiary in accordance with Financial Accounting Standards Board (FASB) Interpretation No. 46R, *Consolidation of Variable Interest Entities*. The Company had no VIEs at September 30, 2007 or December 31, 2006.

Table of Contents

KILROY REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Net income after preferred distributions and preferred dividends is allocated to the common limited partnership units not held by the Company (Minority Interest of the Operating Partnership) based on their ownership percentage of the Operating Partnership. The common limited partner ownership percentage is determined by dividing the number of common units held by the Minority Interest of the Operating Partnership by the total common units outstanding. The issuance or redemption of additional shares of common stock or common units results in changes to the Minority Interest of the Operating Partnership percentage as well as the total net assets of the Company. As a result, all equity transactions result in an allocation between stockholders' equity and the minority interest held by common unitholders of the Operating Partnership in the accompanying consolidated balance sheets to account for the change in the Minority Interest of the Operating Partnership ownership percentage as well as the change in total net assets of the Company.

The accompanying interim financial statements have been prepared by the Company's management in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conjunction with the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures required for annual financial statements have been condensed or excluded pursuant to SEC rules and regulations. Accordingly, the interim financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the accompanying interim financial statements reflect all adjustments of a normal and recurring nature that are considered necessary for a fair presentation of the results for the interim periods presented. However, the results of operations for the interim periods are not necessarily indicative of the results that may be expected for the year ending December 31, 2007. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2006.

Recent Accounting Pronouncements

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes-An Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 increases the relevancy and comparability of financial reporting by clarifying the way companies account for uncertainty in measuring income taxes. FIN 48 prescribes a comprehensive model for how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. FIN 48 only allows a favorable tax position to be included in the calculation of tax liabilities and expenses if a company concludes that it is more likely than not that its adopted tax position will prevail if challenged by tax authorities. FIN 48 also provides guidance on the accounting for, and recording of, interest and penalties on uncertain tax positions. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 on January 1, 2007, and the adoption of FIN 48 did not have a material impact on the Company's consolidated financial statements. (See Note 14 for further information on the Company's adoption of FIN 48.)

In October 2006, the FASB issued FASB Staff Position No. FAS 123(R)-5, *Amendment of FASB Staff Position FAS 123(R)-1*, (FSP FAS 123(R)-5) to address whether a change to an equity instrument in connection with an equity restructuring should be considered a modification for the purpose of applying FASB Staff Position No. FAS 123(R)-1, *Classification and Measurement of Freestanding Financial Instruments Originally Issued in Exchange for Employee Services under FAS Statement No. 123(R)* (FSP FAS 123(R)-1). FSP FAS 123(R)-1 states that financial instruments issued to employees in exchange for past or future services are subject to the provisions of Statement of Financial Accounting Standards 123(R) unless the terms of the award are modified when the holder is no longer an employee. In FSP FAS 123(R)-5, the FASB staff concluded that changes to the terms of an award that are made solely due to an equity restructuring are not considered modifications as described in FSP FAS 123(R)-1 unless the fair value of the award increases, anti-dilution provisions are added or holders of the same class of equity instruments are treated unequally. FSP FAS 123(R)-5

Table of Contents**KILROY REALTY CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

is effective for the first reporting period beginning after October 10, 2006. The adoption of FSP FAS 123(R)-5 did not have a material impact on the Company's consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurement* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and provides for expanded disclosure about fair value measurements. This statement applies under other accounting pronouncements that require or permit fair value measurements. This guidance was issued to increase consistency and comparability in fair value measurements and to expand disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company believes that the adoption of SFAS 157 will not have a material impact on the Company's consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the guidance is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 is effective as of the beginning of the first fiscal year after November 15, 2007. The Company believes that the adoption of SFAS 159 will not have a material impact on the Company's consolidated financial statements.

2. Acquisitions*Acquisition of Properties*

During the nine months ended September 30, 2007, the Company acquired the following property, which is currently being redeveloped and is included in construction in progress on the consolidated balance sheet as of September 30, 2007:

Property Name/Submarket/City	Property Type	Month of Acquisition	Number of Buildings	Rentable Square Feet	Purchase Price (in millions)
Sabre Springs Corporate Center					
I-15 Corridor					
San Diego, CA ⁽¹⁾	Office	January	2	104,500	\$ 24.7

(1) Acquisition includes approximately 5.6 acres of land.

Acquisitions of Undeveloped Land

During the nine months ended September 30, 2007, the Company acquired the following parcels of undeveloped land:

Property Name /Submarket/ City	Month of Acquisition	Gross Acreage	Purchase Price (in millions)
Santa Fe Summit Phase III	January	10.5	\$ 28.0
56 Corridor

Table of Contents**KILROY REALTY CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Each of the acquisitions was purchased from an unaffiliated third party and was funded with borrowings under the Company's Credit Facility (defined in Note 5) and/or the funds held at qualified intermediary for Section 1031 exchange.

3. Disposition

During the nine months ended September 30, 2007, the Company sold the following properties, which were classified as held for sale as of December 31, 2006, to an unaffiliated third party:

Location	Property Type	Month of Disposition	Number of Buildings	Rentable Square Feet	Sales Price ⁽¹⁾ (in millions)
181/185 S. Douglas Street El Segundo, CA	Office	January	1	61,545	
2270 El Segundo Boulevard El Segundo, CA	Industrial	January	1	6,362	
Total			2	67,907	\$ 14.8

(1) The Company sold these properties for cash in a portfolio transaction in January 2007. The sales price shown represents the sales price for the entire transaction.

For the nine months ended September 30, 2007, the Company recorded a net gain of approximately \$8.6 million in connection with the disposition noted above. The income and net gain on disposition of these properties have been included in discontinued operations (see Note 13).

4. Development and Redevelopment Properties*Stabilized Development Properties*

During the three months ended September 30, 2007, the Company added the following development properties to the Company's stabilized portfolio and reclassified related construction in progress balances of approximately \$18.5 million and \$179.8 million to land and improvements and buildings and improvements, respectively, on the Company's consolidated balance sheet:

Property Name / Submarket / City	Property Type	Completion Date	Stabilization Date	Number of Buildings	Rentable Square Feet	Percentage Leased at September 30, 2007

Table of Contents**KILROY REALTY CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Lease-Up Redevelopment Properties*

During the three months ended September 30, 2007, the Company moved the following redevelopment property from under construction to the lease-up phase. Related construction in progress balances of approximately \$0.5 million and \$12.2 million were reclassified to land and improvements and buildings and improvements, respectively, on the Company's consolidated balance sheet:

Property Name / City	Pre and Post Redevelopment		Completion Date	Estimated Stabilization Date ⁽¹⁾	Number of Buildings	Rentable Square Feet	Percentage
	Property Type						Leased at September 30, 2007

(1) Based on management's estimation of the earlier of stabilized occupancy (95%) or one year from the date of substantial completion.

5. Unsecured and Secured Debt*Exchangeable Senior Notes*

In April 2007, the Operating Partnership issued \$460 million in aggregate principal amount of 3.25% Exchangeable Senior Notes due 2012 (the Notes). Interest is payable on the Notes semi-annually in arrears on April 15th and October 15th of each year, and began on October 15, 2007. The Notes will mature on April 15, 2012. The initial discount at issuance of \$4.6 million is being amortized into interest expense over the term of the Notes in a manner that approximates the effective interest method. The carrying value of the Notes at September 30, 2007 reflects an unamortized discount of \$4.1 million.

The Notes are exchangeable for shares of the Company's common stock prior to maturity only upon the occurrence of certain events as follows: (i) during any calendar quarter beginning after June 30, 2007 if the closing sale price per share of the common stock of the Company is more than 130% of the exchange price per share of Company common stock for at least 20 trading days in a specified period, (ii) during the five consecutive trading-day period following any five consecutive trading days in which the trading price per \$1,000 principal amount of the Notes was less than 98% of the product of the closing sale price per share of Company common stock multiplied by the applicable exchange rate, (iii) if the Notes have been called for redemption, (iv) upon the occurrence of specified corporate transactions, (v) if the Company common stock ceases to be listed or approved for quotation for 30 consecutive trading days, or (vi) on or after November 15, 2011.

The Notes have an initial exchange rate of 11.3580 common shares per \$1,000 principal amount of the Notes, which is equivalent to an exchange price of \$88.04 per common share and a conversion premium of approximately 20.0% based on a price of \$73.37 per share of the Company's common stock on March 27, 2007. The initial exchange rate is subject to adjustment under certain circumstances including increases in our common dividends. Upon exchange, the holders of the Notes will receive (i) cash up to the principal amount of the Notes and (ii) to the extent the exchange value exceeds the principal amount of the Notes, shares of our common stock. At any time prior to November 15, 2011, the Operating Partnership may irrevocably elect, in its sole discretion without the consent of the holders of the Notes, to settle all of the future exchange obligations of the Notes in shares of common stock. Any shares of common stock delivered for settlement will be based on a daily exchange value calculated on a proportionate basis for each day of a 50 trading-day observation period.

Edgar Filing: KILROY REALTY CORP - Form 10-Q

The Notes are unsecured obligations that rank equally with all other unsecured indebtedness and are effectively subordinated in right of payment to all of our secured indebtedness (to the extent of the collateral

Table of Contents

KILROY REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

securing such indebtedness). The terms of the Notes are governed by an indenture, dated as of April 2, 2007, by and among the Operating Partnership, as issuer, the Company, as guarantor, and U.S. Bank National Association, as trustee. The indenture does not contain any financial or operating covenants.

In connection with the offering of the Notes, the Operating Partnership entered into capped call option transactions with JPMorgan Chase Bank, National Association, Bank of America, N.A. and Lehman Brothers Inc. The capped call option transactions are separate transactions entered into by the Company with the relevant financial institutions, are not part of the terms of the Notes and will not affect the holders' rights under the Notes. Holders of the Notes will not have any rights with respect to the capped call option transactions. The capped call option transactions will cover, subject to customary anti-dilution adjustments, 5,224,708 shares of the Company's common stock at a strike price of \$88.04, which corresponds to the initial exchange price of the Notes. The economic impact of these capped call option transactions is to mitigate the dilutive impact on the Company as if the conversion price were increased from \$88.04 to \$102.72 per common share, which represents an increase from the 20% premium to a 40% premium based on the March 27, 2007 closing price of \$73.37 per common share. If, however, the market value per share of the Company's common stock exceeds \$102.72 per common share then the dilution mitigation under the capped call option transactions will be capped, which means there would be dilution from exchange of the Notes to the extent that the market value per share of our common stock exceeds \$102.72. The capped call option transactions will terminate upon the earlier of the maturity date of the related Notes or the first day all the related Notes are no longer outstanding due to exchange. The cost of the capped call option transactions was approximately \$29.1 million and was recorded as a reduction of additional paid-in-capital in stockholders equity on the Company's consolidated balance sheet.

Unsecured Line of Credit and Secured Debt

In April 2007, the Operating Partnership used \$397.5 million of the \$421.8 million net proceeds received from the Notes, after the effect of underwriters fees, discounts and payment for the capped call option transactions, to repay the \$331.0 million principal balance then outstanding on the unsecured line of credit (the Credit Facility), to repay the principal balance on one fixed-rate secured loan of \$35.5 million contractually scheduled to mature in July 2008 and to repay the principal balance on one variable-rate secured loan of \$31.0 million that was contractually scheduled to mature in January 2009. The \$35.5 million loan that was repaid was subsequently amended into a \$35.5 million secured line of credit that bears interest at an annual rate of LIBOR plus 0.75% (6.34% at September 30, 2007) and matures in April 2010. As of September 30, 2007, the Company had borrowings of \$35.5 million outstanding under this line of credit.

As of September 30, 2007, the Company had borrowings of \$52.0 million outstanding under the Credit Facility and availability of approximately \$498.0 million. The Credit Facility bears interest at an annual rate between LIBOR plus 0.85% and LIBOR plus 1.35% depending upon the Company's leverage ratio at the time of borrowing (6.35% at September 30, 2007). The Credit Facility matures in April 2010 with an option to extend the maturity for one year. The fee for unused funds under the Credit Facility ranges from an annual rate of 0.15% to 0.20% depending on the Company's leverage ratio. The Company expects to use the Credit Facility to finance development and redevelopment expenditures, to fund potential acquisitions and for other general corporate uses.

Debt Covenants and Restrictions

The Credit Facility, the unsecured senior notes and certain other secured debt arrangements contain covenants and restrictions requiring the Company to meet certain financial ratios and reporting requirements. Some of the more restrictive financial covenants include a maximum ratio of total debt to total assets, a maximum ratio of total secured debt to total assets, a fixed-charge coverage ratio, a minimum consolidated tangible net worth and a limit of development activities to total assets. Noncompliance with one or more of the

Table of Contents**KILROY REALTY CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

covenants and restrictions could result in the full or partial principal balance of the associated debt becoming immediately due and payable. The Company was in compliance with all of its debt covenants at September 30, 2007.

Capitalized Interest and Loan Fees

The following table sets forth the Company's gross interest expense and loan cost amortization from continuing operations net of capitalized interest and loan cost amortization for the three and nine months ended September 30, 2007 and 2006. The interest and loan costs are capitalized as a cost of development and increase the carrying value of undeveloped land and construction in progress.

	Three Months Ended		Nine Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006
	(in thousands)			
Gross interest expense and loan cost amortization	\$ 13,590	\$ 13,296	\$ 41,169	\$ 40,934
Less: capitalized interest and loan cost amortization	(4,581)	(2,984)	(14,432)	(7,443)
Net interest expense	\$ 9,009	\$ 10,312	\$ 26,737	\$ 33,491

6. Deferred Revenue and Acquisition-Related Liabilities

Deferred revenue and acquisition-related liabilities consisted of the following at September 30, 2007 and December 31, 2006:

	September 30, 2007	December 31, 2006
	(in thousands)	
Deferred revenue related to tenant-funded tenant improvements	\$ 52,068	\$ 19,125
Acquisition-related liabilities below-market leases	2,719	3,871
Other deferred revenue	1,851	2,357
Total	\$ 56,638	\$ 25,353

The Company records the cost of certain tenant improvements paid for or reimbursed by tenants as capital assets when management concludes that the Company is the owner of such tenant improvements for accounting purposes. For these tenant improvements, the Company records the amount funded or reimbursed by tenants as deferred revenue, which is amortized as additional rental income over the term of the related lease.

During the nine months ended September 30, 2007, the Company recorded an additional \$35.7 million of deferred revenue related to tenant-funded tenant improvements. This amount primarily represents the cost of the tenant improvements paid for or reimbursed by the tenant at certain of the Company's in-process development and redevelopment projects. The deferred revenue related to these tenant-funded tenant improvements will be amortized as additional rental income over the term of the related lease beginning upon the substantial completion of the respective development and redevelopment projects.

During the three months ended September 30, 2007 and 2006, \$1.3 million and \$0.6 million, respectively, of deferred revenue related to tenant-funded tenant improvements was amortized and recognized as rental income. During the nine months ended September 30, 2007 and 2006, \$2.8 million and \$1.7 million, respectively, of deferred revenue related to tenant-funded tenant improvements was amortized and

recognized as rental income.

Table of Contents**KILROY REALTY CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following is the estimated amortization of deferred revenue related to tenant-funded tenant improvements at September 30, 2007 for the remainder of 2007 and the next five years and thereafter:

Year	(in thousands)
Remaining 2007	\$ 1,587
2008	6,026
2009	5,759
2010	5,469
2011	5,096
2012	4,803
Thereafter	23,328
Total	\$ 52,068

7. Minority Interests

Minority interests represent the common and preferred limited partnership interests in the Operating Partnership. The Company owned a 93.5%, 93.3% and 93.3% common general partnership interest in the Operating Partnership as of September 30, 2007, December 31, 2006 and September 30, 2006, respectively. The remaining 6.5%, 6.7% and 6.7% common limited partnership interest as of September 30, 2007, December 31, 2006 and September 30, 2006, respectively, was owned by certain of the Company's executive officers and directors, certain of their affiliates and other outside investors in the form of common limited partnership units. The common limited partnership units are redeemable at the option of the unitholders. Upon receipt of a notice of redemption, the Company may elect, subject to certain limitations, to exchange the common limited partnership units for shares of the Company's common stock on a one-for-one basis or to have the Operating Partnership redeem the units for cash in an amount equal to the fair market value at the time of redemption, as provided in the partnership agreement.

The decrease in the common limited partnership interests was primarily due to the number of common limited partnership units of the Operating Partnership that were redeemed for shares of the Company's common stock since September 30, 2006. From September 30, 2006 to September 30, 2007, 80,755 common limited partnership units of the Operating Partnership were redeemed for shares of the Company's common stock on a one-for-one basis, which included 70,755 common limited partnership units redeemed for shares of the Company's common stock on a one-for-one basis during the nine months ended September 30, 2007. Neither the Company nor the Operating Partnership received any proceeds from the issuance of the common stock in exchange for common limited partnership units.

8. Stockholders' Equity and Employee Share-Based Incentive Plans*Share-Based Incentive Plan*

The Company establishes incentive award plans for the purpose of attracting and retaining officers, key employees and non-employee board members. The Company's Board of Directors adopted the Kilroy Realty 2006 Incentive Award Plan (the "2006 Plan"), which became effective upon approval by the Company's stockholders at the May 18, 2006 annual meeting of stockholders. The 2006 Plan provides for the grant of incentive stock options, nonqualified stock options, restricted shares (nonvested shares), stock appreciation rights, performance shares, performance stock units, dividend equivalents, stock payments, deferred stock, restricted stock units, profits interest units, performance bonus awards, performance-based awards and other incentive awards to eligible individuals. Share awards issuable under the plan are registered under a Registration Statement filed with the SEC on Form S-8. At September 30, 2007, there were 1,266,677 shares and share-based awards available to be granted under the 2006 Plan.

Table of Contents

KILROY REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Executive Compensation Committee, which is currently comprised of four independent directors, historically has granted nonvested shares of common stock to employees and non-employee board members on an annual basis under different programs. The share awards are valued based on the quoted closing share price of the Company's common stock on the New York Stock Exchange (NYSE) on the grant date. Dividends are paid on all outstanding shares whether vested or nonvested and are not returnable to the Company if the underlying shares ultimately do not vest.

Total compensation expense recognized for all share-based compensation programs was \$3.7 million and \$1.1 million for the three months ended September 30, 2007 and 2006, respectively, and \$11.1 million and \$2.7 million for the nine months ended September 30, 2007 and 2006, respectively. Share-based compensation cost capitalized as part of real estate assets was \$0.2 million and \$0.1 million for the three months ended September 30, 2007 and 2006, respectively, and \$0.6 million and \$0.4 million for the nine months ended September 30, 2007 and 2006, respectively.

Executive Officer Share-Based Compensation Programs

In February 2007, the Executive Compensation Committee awarded to the Company's Chief Executive Officer, Chief Operating Officer and Chief Financial Officer (the Executive Officers) the following nonvested shares: 165,730 nonvested shares of common stock under the 2006 Annual Incentive Award Program and 38,629 nonvested shares of common stock under the 2006 Annual Long-Term Incentive Program. The total compensation cost to be recorded over the requisite service periods for the nonvested shares was calculated based on the quoted closing share price of the Company's common stock on the NYSE of \$88.28 on the grant date of February 7, 2007. Of the 165,730 shares awarded during 2007 under the 2006 Annual Incentive Award Program, 65,464 vest on December 31, 2007, 50,133 vest on December 31, 2008 and 50,133 vest on December 31, 2009. Of the 38,629 shares awarded during 2007 under the 2006 Annual Long-Term Incentive Program, 19,315 vest on December 31, 2007 and 19,314 vest on December 31, 2008. Compensation expense recognized for these programs was \$2.4 million and \$0.4 million for the three months ended September 30, 2007 and 2006, respectively, and \$7.3 million and \$0.5 million for the nine months ended September 30, 2007 and 2006, respectively.

In February 2007, the Executive Compensation Committee approved the 2007 Annual Long-Term Incentive Program, which allows the Executive Officers to receive bonus compensation in the event certain specified corporate performance measures are achieved. Individual awards under this program will be made under the 2006 Plan, and it is anticipated that such awards will be paid in nonvested shares or, if available and at the employee's option, in other equity-based instruments that, subject to vesting and other conditions, may become exchangeable on a one-for-one basis for shares of the Company's common stock or cash, at the election of the Company. The Company anticipates that any nonvested shares or other equity-based instruments earned under this program would be issued during the first quarter of 2008. The Company recognizes compensation cost for this program over the requisite service period, which began in February 2007 upon authorization of the program and will end at the completion of the respective service vesting periods. Compensation cost is recorded using the accelerated expense attribution method over the requisite service period. During the program performance period, the Company estimates the total value of the potential future award based on management's estimate of the probable achievement of the pre-established target levels for specific corporate performance measures for the year ending December 31, 2007 and then records the associated compensation cost for the period based on the portion of the requisite service period that has elapsed through the end of the reporting period. Individual awards earned under the 2007 Annual Long-Term Incentive Program would vest in two equal installments on December 31, 2008 and December 31, 2009. Vesting is based on continued employment through the applicable vesting dates. For the three and nine months ended September 30, 2007, the Company recognized approximately \$0.6 million and \$1.6 million, respectively, of estimated compensation expense for this program.

Table of Contents

KILROY REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In February 2007, the Executive Compensation Committee approved the 2007 Long-Term Targeted Performance Incentive Program, which is comprised of two separate programs: the Development Performance Program (the DPP) and the Total Annual Shareholder Return Program (the TASRP). Performance is measured independently for each of these programs. With respect to the DPP, the incentive award that may be earned will be based on the achievement of certain specified development completion and leasing targets. Performance is measured independently for the development completion and development leasing targets. If the development completion and leasing targets are individually not achieved, no award would be earned under that component of the DPP. Individual awards earned under the DPP would be made under the 2006 Plan and would be paid in shares of vested and unrestricted common stock of the Company or, if available and at the employee's option, other equity-based instruments, as there is no additional service vesting period under this program. During the performance period, the Company records compensation expense for the DPP at the end of each reporting period by evaluating the likelihood of achieving the specified targets and estimating the timeframe in which the targets could potentially be achieved and then recording compensation expense based upon the applicable portion of the estimated performance period that has elapsed through the end of the period. As a result, there may be volatility in the Company's recorded compensation expense for the DPP based on changes in the likelihood of the specified targets being achieved and/or based on changes in the timeframe in which the targets may be achieved. For the three and nine months ended September 30, 2007, the Company recognized approximately \$0.4 million and \$1.0 million, respectively, of estimated compensation expense for the DPP.

The incentive award that may be earned for the TASRP is based on absolute total shareholder return and relative total shareholder return targets for the year ending December 31, 2007. Performance is measured independently for the absolute and relative total shareholder return targets. If the absolute and relative shareholder return targets are individually not achieved, no award would be earned under that component of the TASRP. Individual awards earned under the TASRP would be made under the 2006 Plan, and such awards would be paid in nonvested shares or, if available and at the employee's option, in other equity-based instruments. During the performance period, compensation expense recorded for the TASRP is based on the estimated fair value of the TASRP at the end of each period. As a result, there has been volatility in the Company's recorded compensation expense for the TASRP during the performance period due to volatility in the Company's common stock and the related impact on the fair value calculation at the end of each reporting period. There was no value attributable to the TASRP at September 30, 2007. Therefore, for the three months ended September 30, 2007, the Company reversed approximately \$0.1 million of compensation expense that was previously recognized in 2007, resulting in no compensation expense being recognized for the TASRP for the nine months ended September 30, 2007.

Key Employee Share-Based Compensation Program

In February 2007, the Executive Compensation Committee granted an aggregate of 56,074 nonvested shares of common stock to certain key employees for the 2006 performance period. The total compensation cost for the nonvested share grants was calculated based on the quoted closing share price of the Company's common stock on the NYSE of \$88.28 on the grant date of February 7, 2007. These shares will vest in five equal annual installments over a five-year period. The Company recognizes compensation cost for these awards over the service vesting periods, which represent the requisite service periods, using the straight-line attribution expense method. For the three and nine months ended September 30, 2007, the Company recognized approximately \$0.3 million and \$0.7 million, respectively, of compensation cost for these awards.

Non-employee Board Member Share-Based Compensation Program

The Executive Compensation Committee awards nonvested shares of common stock to non-employee board members on an annual basis as part of the board members' annual compensation in accordance with the

Table of Contents**KILROY REALTY CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Company's Board of Directors compensation program, as approved by the Board of Directors in March 2007. The Company recognizes compensation cost for these fixed awards over the service vesting period, which represents the requisite service periods, using the straight-line attribution expense method.

In May 2007, the Executive Compensation Committee granted an aggregate of 6,890 nonvested shares of common stock to non-employee board members under this program. The total compensation cost for the nonvested share grants was calculated based on the quoted closing share price of the Company's common stock on the NYSE of \$72.60 on the grant date of May 15, 2007. These shares will vest in equal annual installments over a two-year period.

In June 2007, the Executive Compensation Committee granted 1,000 nonvested shares of common stock to each of the Company's two newly-elected board members, representing their initial equity awards. The nonvested shares were granted in accordance with the Company's Board of Directors compensation program. The compensation cost for the nonvested share grants was calculated based on the quoted closing share price of the Company's common stock on the NYSE of \$71.11 on the grant date of June 21, 2007 and \$69.96 on the grant date of June 25, 2007. The grant date for each new board member was the date such board member was elected to the Board of Directors. These shares will vest in equal annual installments over a four-year period. In July 2007, one of the newly-elected board members resigned from the Board of Directors. In connection with the forfeiture of his initial equity award of 1,000 nonvested shares of common stock, the Company repurchased the shares at the par value of \$0.01 per share.

Nonvested Share Summary

A summary of the Company's nonvested shares as of January 1, 2007 and changes during the nine months ended September 30, 2007 is presented below. All nonvested shares are subject only to service vesting conditions:

	Shares	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2007	146,952	\$ 56.49
Granted	269,323	87.75
Vested	(81,437)	53.35
Forfeited	(1,000)	69.96
Nonvested at September 30, 2007	333,838	\$ 82.43

As of September 30, 2007, there was \$14.8 million of total unrecognized compensation cost related to nonvested shares granted under share-based compensation arrangements. This cost is expected to be recognized over a weighted-average period of 1.6 years. The \$14.8 million of unrecognized compensation cost does not reflect the potential future compensation cost related to the share-based incentive compensation programs approved in February 2007 for the Executive Officers since any share-based awards earned under these programs would not be granted until 2008 or later. The compensation cost that would be recorded in future periods related to any share-based awards granted under these programs would be based on the Company's ultimate achievement of the pre-established target levels for specific corporate performance measures outlined in each of the programs. During the nine months ended September 30, 2007 and 2006, 269,323 nonvested shares were granted at a weighted-average grant-date fair value of \$87.75 per share, and 87,067 nonvested shares were granted at a weighted average grant date fair value of \$67.69 per share, respectively. The total fair value of shares that vested

Table of Contents**KILROY REALTY CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

during the nine months ended September 30, 2007 and 2006 was \$6.8 million and \$6.7 million, respectively, which was calculated based on the quoted closing share price of the Company's common stock on the NYSE on the applicable date of vesting.

During the nine months ended September 30, 2007, the Company accepted the return, at the then-applicable current per-share quoted market price on the NYSE, of 31,515 shares of its common stock in accordance with the provisions of its incentive stock plan to satisfy minimum statutory tax-withholding requirements related to shares that vested during the period. These shares are included in the vested shares line item in the table above.

Stock Options Summary

A summary of the Company's stock options as of January 1, 2007 and changes during the nine months ended September 30, 2007 is presented below. The Company has not issued stock options since 2002, and all stock options were fully vested as of December 31, 2005.

The Company's stock option activity for the nine months ended September 30, 2007 is summarized as follows:

	Number of Options	Weighted Average Exercise Price
Outstanding at January 1, 2007	47,000	\$ 24.33
Granted		
Exercised	(1,000)	28.56
Cancelled	(20,000)	23.00
Outstanding at September 30, 2007	26,000	\$ 25.20

At September 30, 2007, the outstanding options had a weighted average remaining contractual life of 3.5 years. The stock options vested in three equal annual installments beginning on the first anniversary date of the grant and have an exercise price equal to the market value on the date of the grant. The term of each option is ten years from the date of the grant. The Company has a policy of issuing new shares to satisfy share option exercises.

9. Commitments and Contingencies

In October 2005, one of the Company's Industrial Properties sustained damage due to a fire sprinkler rupture. As a result of the damage, the Company recorded a casualty loss of approximately \$0.4 million during the fourth quarter of 2005 to write off the carrying value of the damaged components. At December 31, 2005, the Company had received approximately \$0.2 million of reimbursements from the Company's insurance carrier and accrued an additional \$0.2 million receivable from the insurance carrier since the Company expected to be fully reimbursed for this loss. In December 2006, the Company received a progress payment of approximately \$0.8 million from the insurance carrier. Approximately \$0.5 million, representing the portion of the proceeds that exceed the carrying value of the damaged components, has been deferred since the final settlement has not been reached and contingencies still existed as of September 30, 2007. The Company expects to record this amount as a gain when the final insurance settlement is received from the insurance carrier and all contingencies have been resolved in accordance with FASB Interpretation No. 30, *Accounting for Involuntary Conversions of Nonmonetary Assets to Monetary Assets*. The Company currently anticipates the contingencies to be resolved in the fourth quarter of 2007.

KILROY REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Company ground leases the land at Kilroy Airport Center, Phase IV in Long Beach, California for future development opportunities. This land is adjacent to the Company's office properties at Kilroy Airport Center, Long Beach. The ground lease term is through July 2084, subject to the Company's right to terminate this lease upon written notice to the landlord, which right previously expired in October 2007. In October 2007, the Company and the landlord agreed to a nine month extension, which extended the Company's right to terminate this lease and the fair market rental adjustment until July 2008. Should the Company elect not to terminate the lease, the ground lease obligation will be subject to a fair market rental adjustment in July 2008 and at scheduled dates thereafter.

10. Deferred Compensation Plan

In June 2007, the Company adopted the Kilroy Realty Corporation 2007 Deferred Compensation Plan (the Plan), under which directors and certain management employees may defer receipt of their compensation, including up to 70% of their salaries and up to 100% of their director fees and bonuses, as applicable. Eligible management employees (Participants) will receive mandatory Company contributions to their Plan accounts equal to 10% of their respective gross monthly salaries, without regard to whether such employees elect to defer salary or bonus compensation under the Plan. The Company's Board of Directors may, but has no obligation to, approve additional discretionary contributions by the Company to Participant accounts. For the three and nine months ended September 30, 2007, the Company recorded contributions of approximately \$0.1 million and \$0.3 million, respectively.

The Company holds the Plan assets in a limited rabbi trust, which is subject to the claims of the Company's creditors in the event of the Company's bankruptcy or insolvency. Assets held by the rabbi trust are reported in marketable securities on the Company's consolidated balance sheet and treated as trading securities for accounting purposes. These marketable securities are adjusted to fair value at the end of each accounting period, with the corresponding gains and losses recorded in interest and other investment income. For both the three and nine months ended September 30, 2007, the Company recorded a net gain of approximately \$2,000 related to the increase in fair value of the marketable securities held at September 30, 2007.

At the time Participants defer compensation or earn mandatory Company contributions, or at the time the Company obligates itself to make a discretionary contribution to the Plan, the Company records compensation cost and a corresponding liability, which is included in accounts payable, accrued expenses and other liabilities on the Company's consolidated balance sheet. This liability is adjusted to fair value at the end of each accounting period based on the performance of the benchmark funds selected by each Participant, and the impact of adjusting the liability to fair value is recorded as an increase or decrease to compensation cost. For both the three and nine months ended September 30, 2007, the Company recorded additional compensation cost of approximately \$4,000 related to adjusting the liability to fair value.

11. Other Property Income

In January 2007, the Company recognized \$1.1 million of other property income related to the early termination of a lease at an Office Property in San Diego, California, which encompassed approximately 40,200 rentable square feet.

In April 2007, the Company recognized \$1.7 million of other property income related to the early termination of a lease at an Office Property in San Diego, California, which encompassed approximately 49,000 rentable square feet.

Table of Contents**KILROY REALTY CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****12. Segment Disclosure**

The Company's reportable segments consist of the two types of commercial real estate properties for which the Company's chief operating decision-makers internally evaluate operating performance and financial results: the Office Properties and the Industrial Properties. The Company also has certain corporate-level activities including legal, accounting, finance and management information systems, which are not considered separate operating segments.

The Company evaluates the performance of its segments based upon operating revenues (rental income, tenant reimbursements and other property income) less property and related expenses (property expenses, real estate taxes, ground leases and provisions for bad debts) and excludes other non-property income and expenses, interest expense, depreciation and amortization and corporate general and administrative expenses (Net Operating Income). There is no intersegment activity.

In accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long Lived Assets* (SFAS 144), the income and the net gain on dispositions of operating properties are reflected in the consolidated statements of operations as discontinued operations for all periods presented. The following table summarizes the components that comprise income from discontinued operations for the three and nine months ended September 30, 2007 and 2006:

	Three Months Ended		Nine Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006

Total income from discontinued operations	\$ 61	\$ 23,362	\$ 12,752	\$ 38,342

(1) In connection with the disposition of the building sold in 2006, the Company repaid approximately \$1.3 million in principal of a mortgage loan secured by the property. The related interest was allocated to discontinued operations.

Revenues from discontinued operations for the three and nine months ended September 30, 2007 include \$0.3 million related to a lease termination payment from a previous tenant at a property the Company disposed in 2005. Under the terms of the tenant's amended plan of reorganization, the Company received shares of common stock in the reorganized company in satisfaction of the Company's creditor's claim under the lease with the tenant. The tenant had previously defaulted on its lease in 2001 and filed for bankruptcy in 2002. The \$0.3 million represents the fair value of the common stock on the date of receipt, which was recorded as a lease termination fee. The Company sold all of the shares during the three months ended September 30, 2007 at a loss of approximately \$6,000.

Expenses from discontinued operations for the three and nine months ended September 30, 2007 include approximately \$0.2 million of property taxes assessed in 2007 at the property discussed above. These assessments relate to the period during which the Company owned the property.

Edgar Filing: KILROY REALTY CORP - Form 10-Q

Net gain on dispositions of discontinued operations for the nine months ended September 30, 2007 includes a \$4.8 million payment received to terminate a profit participation agreement that was entered into in connection with the property disposition discussed above. When the property disposition occurred in 2005, the Company entered into an agreement with the buyer under which the Company had the right to participate in certain future operating and sale profits of the property above specified thresholds without any risk of loss or continuing

KILROY REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

involvement to the Company. The Company recorded the initial gain on the disposition of this property in 2005 at the time of sale.

14. Uncertain Tax Positions

The Company adopted FIN 48 effective January 1, 2007. In accordance with the requirements of FIN 48, the Company evaluated all tax years still subject to potential audit under state and federal income tax law in reaching its accounting conclusions.

Since the Company's initial public offering in 1997, the Company has qualified and intends to continue to qualify as a REIT under federal income tax law. As a result of its REIT status, the Company is able to claim a dividends-paid deduction on its tax return to deduct the full amount of common and preferred dividends paid to stockholders when computing its annual taxable income, which results in the Company's taxable income being passed through to its stockholders. Since this dividends-paid deduction has historically far exceeded the Company's taxable income, the Company has historically had significant return of capital to its stockholders. In order for the Company to be required to record any unrecognized tax benefits or additional tax liabilities in accordance with FIN 48, any adjustment for potential uncertain tax positions would need to exceed the return of capital.

The Company evaluated the potential impact of identified uncertain tax positions and concluded that its return of capital would not be materially affected for any of the years still subject to potential audit under state and federal income tax law. As a result, the Company concluded it did not have any unrecognized tax benefits or any additional tax liabilities after applying FIN 48 as of the January 1, 2007 adoption date or as of September 30, 2007. The adoption of FIN 48 therefore had no impact on the Company's consolidated financial statements.

Table of Contents**KILROY REALTY CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****15. Earnings Per Share**

Basic earnings per share is computed by dividing net income available for common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share is computed by dividing net income available for common stockholders by the sum of the weighted-average number of common shares outstanding for the period plus the assumed exercise of all dilutive securities. The Company does not consider common limited partnership units of the Operating Partnership to be dilutive securities since the exchange of common limited partnership units into common stock is on a one-for-one basis and would not have any effect on diluted earnings per share. The following table reconciles the numerator and denominator of the basic and diluted per-share computations for net income available for common stockholders for the three and nine months ended September 30, 2007 and 2006:

	Three Months Ended		Nine Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006
(in thousands, except share and per share amounts)

Table of Contents

KILROY REALTY CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

At September 30, 2007, there were 57,074 nonvested shares excluded from the computation of diluted earnings per share because they were antidilutive. At September 30, 2007, there were no shares included in the computation of diluted earnings per share for the potential issuance of future shares in connection with the Notes since the effect was antidilutive. The potential issuance of future shares in connection with the Notes will not have a dilutive effect on diluted earnings per share until such time that the weighted average share price of the Company's common stock for a given reporting period exceeds the \$88.04 exchange price of the Notes. (See Note 5 for further discussion of the Notes). At September 30, 2006, Company employees and directors held no nonvested shares that were antidilutive to the diluted earnings per share computation. At both September 30, 2006 and 2007, Company employees and directors held no options to purchase shares of the Company's common stock that were antidilutive to the diluted earnings per share computation.

16. Subsequent Events

On October 18, 2007, aggregate dividends and distributions of \$19.4 million were made to common stockholders and common unitholders of record on September 28, 2007.

During October 2007, an aggregate 58,449 common limited partnership units of the Operating Partnership were exchanged into shares of the Company's common stock. Neither the Company nor the Operating Partnership received any proceeds from the issuance of the common stock to the common limited partnership unitholders.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion relates to our consolidated financial statements and should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. Statements contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations that are not historical facts may be forward-looking statements. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected. Some of the information presented is forward-looking in nature, including information concerning projected future occupancy rates, rental rate increases, property development timing and investment amounts. Although the information is based on our current expectations, actual results could vary from expectations stated in this report. Numerous factors will affect our actual results, some of which are beyond our control. These include the timing and strength of regional economic growth, the strength of commercial and industrial real estate markets, market conditions affecting tenants, competitive market conditions, fluctuations in availability and cost of construction materials resulting from the effects of increased worldwide demand, increased labor costs, future interest rate levels, the volatility in our stock price and capital market conditions. You are cautioned not to place undue reliance on this information, which speaks only as of the date of this report. We assume no obligation to update publicly any forward-looking information, whether as a result of new information, future events or otherwise, except to the extent we are required to do so in connection with our ongoing requirements under federal securities laws to disclose material information. For a discussion of important risks related to our business and an investment in our securities, including risks that could cause actual results and events to differ materially from results and events referred to in the forward-looking information, see Item 1A Risk Factors in our annual report on Form 10-K for the fiscal year ended December 31, 2006 and the discussion under the captions Factors That May Influence Future Results of Operations and Liquidity and Capital Resources Factors That May Influence Future Sources of Capital and Liquidity below. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this report might not occur.

Overview and Background

We own, operate and develop office and industrial real estate, primarily in Southern California. We operate as a self-administered REIT. We own our interests in all of our properties through the Operating Partnership and the Finance Partnership, and we conduct substantially all of our operations through the Operating Partnership. We owned a 93.5%, 93.3% and 93.3% general partnership interest in the Operating Partnership as of September 30, 2007, December 31, 2006 and September 30, 2006, respectively. We conduct substantially all of our development activities through KSLLC.

Factors That May Influence Future Results of Operations

Rental income. The amount of net rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space and to lease currently available space, newly developed or redeveloped properties and space available from unscheduled lease terminations. The amount of rental income we generate also depends on our ability to maintain or increase rental rates in our submarkets. Negative trends in one or more of these factors could adversely affect our rental income in future periods.

Rental rates. On a GAAP basis, rental rates increased 7.1% and 15.1% for leases commencing during the three and nine months ended September 30, 2007, respectively. On a cash basis, rental rates decreased 0.7% and increased 3.5% for leases commencing during the three and nine months ended September 30, 2007, respectively. The change in rental rate on a cash basis is calculated as the change between the initial stated rent for a new or renewed lease and the ending stated rent for the expiring lease for the same space, whereas the change in rental rate on a GAAP basis compares the average rents over the term of the lease for each lease. Both calculations exclude leases for which the space was vacant longer than one year, month-to-month leases and leases at

Table of Contents

development and redevelopment buildings. We believe that at September 30, 2007, the average cash rental rates for our properties were approximately 15% below the current average quoted market rates, although individual properties within any particular submarket presently may be leased either above, below or at the current quoted market rates within that submarket. We cannot guarantee that leases will be renewed or that available space will be re-leased at rental rates equal to or above the current quoted market rates.

Scheduled lease expirations. In addition to the 919,400 square feet, or 7.4%, of currently available space in our stabilized portfolio, leases representing approximately 0.9% and 12.5% of the leased square footage of our stabilized portfolio are scheduled to expire during the remainder of 2007 and in 2008, respectively. The leases scheduled to expire during the remainder of 2007 and the leases scheduled to expire in 2008 represent approximately 535,500 square feet of office space, or 5.0% of our total annualized base rent, and 987,000 square feet of industrial space, or 3.0% of our total annualized base rent, respectively. We believe that the average cash rental rates for leases scheduled to expire during the remainder of 2007 and in 2008 are approximately 10% below the current average quoted market rates, although individual properties within any particular submarket presently may be leased either above, below or at the current quoted market rates within that submarket. Our ability to re-lease available space depends upon the market conditions in the specific submarkets in which our properties are located.

Submarket Information

Los Angeles County. Market conditions continued to improve in the overall Los Angeles County region in 2007 based on third-party reports of positive net absorption and decreased levels of direct vacancy. Our Los Angeles stabilized office portfolio of 2.9 million rentable square feet was 96.0% occupied with approximately 115,700 vacant rentable square feet as of September 30, 2007 as compared to 92.8% occupied with approximately 209,600 vacant rentable square feet as of December 31, 2006. As of September 30, 2007, leases representing an aggregate of approximately 12,900 and 132,600 rentable square feet are scheduled to expire during the remainder of 2007 and in 2008, respectively, in this region. The aggregate rentable square feet scheduled to expire during the remainder of 2007 and in 2008 represents approximately 5.0% of the total occupied rentable square feet in this region at September 30, 2007 and 1.7% of our annualized base rental revenues.

San Diego County. Our San Diego stabilized office portfolio was 91.4% occupied with approximately 392,700 vacant rentable square feet as of September 30, 2007, compared to 98.6% occupied with approximately 53,700 vacant rentable square feet as of December 31, 2006. The decrease in occupancy primarily relates to three properties at which leases for 310,000 rentable square feet expired during the third quarter of 2007. Leases representing approximately 90,000 vacant rentable square feet in this region have been executed as of the date of this report and are expected to commence during the first quarter of 2008. As of September 30, 2007, leases representing an aggregate of approximately 2,500 and 252,000 rentable square feet are scheduled to expire during the remainder of 2007 and in 2008, respectively, in this region. The aggregate rentable square feet scheduled to expire during the remainder of 2007 and in 2008 represents approximately 6.2% of the total occupied rentable square feet in this region at September 30, 2007 and 2.4% of our annualized base rental revenues. We continue our development and redevelopment of office properties in San Diego County and seek economically attractive development opportunities in this region. See additional information regarding our development properties under the caption **Development and redevelopment programs.**

Given the geographic concentration of our development program in San Diego County, our operating results may be affected by (i) the city of San Diego's current financial difficulties and ongoing investigations with respect to the city's finances, (ii) the city of San Diego's General Plan and Land Use update, (iii) the city of San Diego's zoning ordinance updates and (iv) recent storm water runoff regulations and other pending ordinances currently under consideration by the city, county and state water agencies and other agencies. Any of these

Table of Contents

factors may affect San Diego County's ability to finance capital projects and may impact real estate development, entitlements, costs of development and market conditions in this important submarket. As of the date of this report, we have not experienced any material adverse effects arising from these factors.

Orange County. As of September 30, 2007, our Orange County stabilized industrial portfolio was 90.5% occupied with approximately 349,000 vacant rentable square feet as compared to 95.6% occupied with approximately 163,500 vacant rentable square feet as of December 31, 2006. The decrease in occupancy is primarily due to two buildings, encompassing approximately 191,600 rentable square feet, that were each leased to single tenants. These leases expired during the first quarter of 2007. One of these buildings, encompassing approximately 144,000 rentable square feet, was re-leased in October 2007, and we are currently in active negotiations with a prospective tenant for the other building. Also included in our Orange County industrial portfolio is one vacant building encompassing approximately 157,500 rentable square feet. We are in the process of re-entitling this property for residential use. We expect the re-entitlement to be completed in 2008 and, if successful, will evaluate the strategic options for the property, including the potential disposition of the asset. As of September 30, 2007, leases representing an aggregate of approximately 61,100 and 1,008,700 rentable square feet were scheduled to expire during the remainder of 2007 and in 2008, respectively, in this region. The aggregate rentable square feet scheduled to expire during the remainder of 2007 and in 2008 represents approximately 30.2% of the total occupied rentable square feet in this region at September 30, 2007 and 3.6% of our annualized base rental revenues.

Sublease space. Of our leased space at September 30, 2007, approximately 626,700 rentable square feet, or 5.0% of the square footage in our stabilized portfolio, was available for sublease as compared to 516,700 rentable square feet, or 4.4%, at December 31, 2006. Of the 5.0% of available sublease space in our stabilized portfolio at September 30, 2007, approximately 1.4% was vacant space, and the remaining 3.6% was still occupied by the tenant. Approximately 43%, 38% and 17% of the available sublease space as of September 30, 2007 is located in the San Diego County, Orange County and Los Angeles County submarkets, respectively. Of the approximately 626,700 rentable square feet available for sublease at September 30, 2007, there are no scheduled lease expirations during the remainder of 2007. Three leases representing approximately 73,100 rentable square feet are scheduled to expire in 2008.

Negative trends or other unforeseeable events that impair our ability to renew or re-lease space and our ability to maintain or increase rental rates in our submarkets could have an adverse effect on our future financial condition, results of operations and cash flows.

Recent information regarding significant tenants

Intuit Inc. During the third quarter of 2007, we completed construction on a four-building office complex, which encompasses approximately 465,800 rentable square feet, in the 56 Corridor submarket in San Diego County (the 56 Corridor). The complex was pre-leased to Intuit Inc. (Intuit) under a ten-year lease agreement. Intuit began occupying the four buildings during the third quarter of 2007, at which time Intuit became our largest tenant based on its percentage of our total annualized base rental revenues.

At September 30, 2007, Intuit leased an aggregate of approximately 627,100 rentable square feet of office space under five separate leases, representing approximately 7.3% of our total annualized base rental revenues. Of the space currently occupied by Intuit, one lease encompasses the 465,800 rentable square foot complex described above, one lease encompasses approximately 71,000 rentable square feet and is scheduled to expire in August 2009 and the remaining three leases encompass an aggregate of approximately 90,300 rentable square feet and are scheduled to expire in July 2014.

Cardinal Health, Inc. As of September 30, 2007, Cardinal Health, Inc. (Cardinal Health) leased an aggregate of approximately 411,000 rentable square feet of office space under a ten-year lease agreement, representing 3.8% of our total annualized base rental revenues as of September 30, 2007. The lease commenced in September 2007 and includes a three-story office development project, encompassing approximately 318,000 rentable square feet, which we completed during the third quarter of 2007, and an existing office building

Table of Contents

encompassing 93,000 rentable square feet located adjacent to the development site. Cardinal Health began occupying the 318,000 square foot building in July 2007 and moved into the remaining 93,000 rentable square foot building in October 2007, at which time Cardinal Health became our second largest tenant based on its percentage of our total annualized base rental revenues.

The following table sets forth certain information as to our ten largest office and industrial tenants, based on annualized base rental revenues at September 30, 2007.

Tenant Name	Annual Base Rental Revenues ⁽¹⁾ (in thousands)	Percentage of Total Base Rental Revenues	Initial Lease Date ⁽²⁾	Lease Expiration Date
Office Properties:				
Intuit Inc.	\$ 17,828	7.3%	November 1997	Various ⁽³⁾
Cardinal Health, Inc. ⁽⁴⁾	9,256	3.8	September 2007	August 2017

Total Industrial Properties	\$ 12,985	5.2%		

(1) Determined on a straight-line basis over the term of the related lease in accordance with GAAP.

(2) Represents date of first relationship between tenant and the Company or the Company's predecessor.

(3) The Intuit leases of 71,000, 90,238 and 465,812 rentable square feet expire August 2009, July 2014 and August 2017, respectively.

(4) At September 30, 2007, revenue recognition for the 6055 Lusk building encompassing 93,000 rentable square feet was deferred for financial reporting purposes since the tenant improvements were not substantially complete until October 2007. The \$10.6 million in annual base rental revenues includes the projected rental revenue for the 6055 Lusk building.

(5) The Boeing Company leases of 113,242, 286,151, 65,447 and 211,139 rentable square feet expire March 2009, July 2010, October 2010 and December 2010, respectively.

(6) The Verenium Corporation leases of 76,246 and 60,662 rentable square feet expire November 2015 and March 2017, respectively.

(7) The Extron Electronics leases of 100,000 and 57,730 rentable square feet expire in April 2015 and February 2015, respectively.

Development and redevelopment programs.

We believe that a significant portion of our potential growth over the next several years will continue to come from our development pipeline. We have continued to aggressively seek and obtain development opportunities throughout Southern California and specifically in our core markets, such as the San Diego County region. We have made significant progress in expanding our development program through targeted

acquisitions of properties and undeveloped land and new lease transactions.

Table of Contents

In the first quarter of 2007, we acquired two parcels of undeveloped land encompassing approximately 42.5 gross acres in two separate transactions. These parcels are located in San Diego County in the 56 Corridor and Carlsbad submarkets (See Note 2 to our consolidated financial statements for additional information regarding these acquisitions). These strategic acquisitions increase the total gross site acreage of our future development pipeline to 97.9 acres, with which we believe we will have the potential to develop over two million rentable square feet of office space at a total investment of between \$700 million and \$1 billion over the next three to five years.

As of September 30, 2007, we had three development properties under construction, consisting of three office buildings, which when complete are expected to encompass an aggregate of approximately 344,000 rentable square feet. The following table sets forth certain information regarding these office development properties as of September 30, 2007.

Development Properties

Property Name / Submarket / City	Estimated Completion Date	Estimated Stabilization Date ⁽¹⁾	Square Feet Upon Completion	Total Estimated Investment ⁽²⁾⁽³⁾ (in millions)	Total	Percent
					Costs as of September 30, 2007 ⁽³⁾⁽⁴⁾	Leased as of September 30, 2007

(1) Based on management's estimation of the earlier of stabilized occupancy (95.0%) or one year from the date of substantial completion.

(2) Represents total projected development costs at September 30, 2007.

(3) Amounts exclude tenant-funded tenant improvements.

(4) Represents cash paid and costs incurred as of September 30, 2007.

We believe that another source of potential growth over the next several years is redevelopment opportunities within our existing portfolio. Redevelopment efforts can achieve similar returns to new development with reduced entitlement risk and shorter construction periods. Depending on market conditions, we will continue to pursue future redevelopment opportunities in our strategic submarkets where there is limited land available for development.

At September 30, 2007, we had one office redevelopment property encompassing approximately 107,000 rentable square feet in El Segundo, California in the lease-up phase. Seventy-seven percent of this building had been pre-leased to DIRECTV Group, Inc., and the lease commenced in July 2007. Prior to redevelopment, this property had been occupied by The Boeing Company and its predecessors for highly specialized use for over 20 years.

Table of Contents

In the first quarter of 2007, we acquired an office property located in the I-15 Corridor comprised of 5.6 acres of land and two existing office buildings encompassing an aggregate of approximately 104,500 rentable square feet. We acquired this property as a current redevelopment and potential future development opportunity. Upon acquisition in the first quarter of 2007, we began redevelopment of the vacant buildings, which were previously occupied by the owner. (See Note 2 to our consolidated financial statements for additional information regarding this acquisition.)

The following table sets forth certain information regarding these office redevelopment properties as of September 30, 2007.

Redevelopment Properties

(1) Based on management's estimation of the earlier of stabilized occupancy (95.0%) or one year from the date of substantial completion.

(2) Represents the depreciated carrying value at the commencement of redevelopment for the space being redeveloped.

(3) Represents total projected redevelopment costs at September 30, 2007.

(4) Amounts exclude tenant-funded tenant improvements.

(5) Represents cash paid and costs incurred as of September 30, 2007, including the existing investment at commencement of redevelopment. See footnote (2) above.

We have a proactive planning process by which we continually evaluate the size, timing, costs and scope of our development and redevelopment programs and, as necessary, scale activity to reflect the economic conditions and the real estate fundamentals that exist in our strategic submarkets. However, we may be unable to lease committed development or redevelopment properties at expected rental rates or within projected timeframes or complete projects on schedule or within budgeted amounts, which could adversely affect our financial condition, results of operations and cash flows.

Rising Construction Costs. As a result of increased worldwide demand, the availability of construction materials has become more limited, and the cost of such materials has increased significantly. The cost of skilled labor has also increased. A continued increase in the cost of construction materials, driven primarily by the volatility of the prices of underlying raw materials such as oil, cement and steel, and labor costs could adversely affect our expenditures for development and redevelopment costs and, consequently, our financial condition, results of operations and cash flows.

Edgar Filing: KILROY REALTY CORP - Form 10-Q

Incentive Compensation. Our Executive Compensation Committee, which is comprised of four independent directors of the Company, determines compensation, including equity and cash incentive programs, for our Executive Officers. The programs approved by the Executive Compensation Committee have historically provided for equity and cash compensation to be earned by our Executive Officers based on certain performance measures, including financial, operating and development targets. In the first quarter of 2007, our Executive

Table of Contents

Compensation Committee approved the 2007 Annual Bonus Program, the 2007 Annual Long-Term Incentive Program and the 2007 Long-Term Targeted Performance Incentive Program for executive management that will allow for executive management to receive bonus compensation for achieving certain specified corporate performance measures that are based on annualized shareholder returns on an absolute and a relative basis as well as certain other financial, operating and development targets. The provisions of these programs were previously reported on Form 8-K filed with the SEC on February 8, 2007. (See Note 8 to our consolidated financial statements for further information regarding these programs). As a result of the structure of these programs and other programs that the Executive Compensation Committee may adopt in the future, accrued incentive compensation and compensation expense for these programs will be affected by our operating and development performance, financial results, the performance of our common stock and market conditions. Consequently, we cannot predict the amounts that will be recorded in future periods related to compensation programs.

Share-Based Compensation. Historically, the Executive Compensation Committee has made annual grants of nonvested stock to employees and non-employee board members under our stock-based employee incentive compensation programs. As of September 30, 2007, there was \$14.8 million of total unrecognized compensation cost related to nonvested shares granted under these programs. This cost is expected to be recognized over a weighted-average period of 1.6 years. The \$14.8 million of unrecognized compensation cost does not reflect the potential future compensation cost related to the share-based incentive compensation programs discussed above, which were approved in February 2007 for the Executive Officers, since any nonvested shares earned under these programs would not be granted until 2008 or later. (See Note 8 to our consolidated financial statements for further information regarding these programs).

Table of Contents

Results of Operations

As of September 30, 2007, our stabilized portfolio was comprised of 89 Office Properties, encompassing an aggregate of approximately 8.6 million rentable square feet, and 43 Industrial Properties, encompassing an aggregate of approximately 3.9 million rentable square feet. Our stabilized portfolio of operating properties consists of all our properties and excludes properties recently developed or redeveloped by us that have not yet reached 95% occupancy and are within one year following substantial completion, or lease-up properties, and properties currently under construction.

As of September 30, 2007, Office Properties and Industrial Properties represented approximately 88.9% and 11.1%, respectively, of our annualized base rent. For the three months ended September 30, 2007, average occupancy in our stabilized portfolio was 92.9% compared to 94.8% for the three months ended September 30, 2006. For the nine months ended September 30, 2007, average occupancy in our stabilized portfolio was 93.3% compared to 95.2% for the nine months ended September 30, 2006. As of September 30, 2007, we had approximately 919,400 square feet of vacant space in our stabilized portfolio compared to approximately 460,500 square feet as of September 30, 2006.

The following table reconciles the changes in the rentable square feet in our stabilized portfolio of operating properties from September 30, 2006 to September 30, 2007. Rentable square footage in our portfolio of stabilized properties increased by an aggregate of approximately 0.5 million rentable square feet, or 4.1%, to 12.5 million rentable square feet at September 30, 2007 as a result of the following activity.

	Office Properties		Industrial Properties		Total	
	Number of	Rentable	Number of	Rentable	Number of	Rentable
	Buildings	Square Feet	Buildings	Square Feet	Buildings	Square Feet
Total at September 30, 2006	84	7,823,361	45	4,179,331	129	12,002,692
Properties added from the Development Portfolio	6	860,827			6	860,827

Ground leases	511	514	(3)	(0.6)	511	514	(3)	(0.6)
Total	16,581	15,102	1,479	9.8	15,783	14,985	798	5.3
Net Operating Income	\$ 43,501	\$ 39,386	\$ 4,115	10.4%	\$ 38,260	\$ 39,395	\$ (1,135)	(2.9)%

(1) Office Properties owned and stabilized at January 1, 2006 and still owned and stabilized at September 30, 2007.

Total revenues from Office Properties increased \$5.6 million, or 10.3%, to \$60.1 million for the three months ended September 30, 2007 compared to \$54.5 million for the three months ended September 30, 2006. Rental income from Office Properties increased \$4.8 million, or 9.9%, to \$53.9 million for the three months ended September 30, 2007 compared to \$49.1 million for the three months ended September 30, 2006. Rental income generated by the Core Office Portfolio decreased \$0.5 million, or 1.0%, for the three months ended September 30, 2007 compared to the three months ended September 30, 2006. The decrease in rental income from the Core Office Portfolio was due to a decrease in occupancy in our San Diego office portfolio partially offset by an increase in occupancy at two buildings in our Los Angeles office portfolio. The decrease in rental income from the Core Office Portfolio was offset by a \$5.3 million increase due to an increase of \$4.9 million generated by the five office development properties that were added to the stabilized portfolio in the third quarter 2007 and the office development property that was added to the stabilized portfolio in the fourth quarter of 2006 (the 2006 and 2007 Office Development Properties), and a \$0.4 million increase in rental income generated by a property which was taken out of service in June 2006 and placed into lease-up in the third quarter of 2007 (the 2006 Office Redevelopment Property).

Tenant reimbursements from Office Properties increased \$1.1 million, or 23.2%, to \$6.0 million for the three months ended September 30, 2007 compared to \$4.9 million for the three months ended September 30, 2006. A \$0.5 million increase was generated by the Core Office Portfolio due to an increase in reimbursable operating expenses. The remaining \$0.6 million increase in total office portfolio tenant reimbursements was due to a \$0.5 million increase generated by the 2006 and 2007 Office Development Properties and a \$0.1 million increase generated by the 2006 Office Redevelopment Property.

Other property income from Office Properties decreased \$0.4 million, or 75.7%, to \$0.1 million for the three months ended September 30, 2007 compared to \$0.5 million for the three months ended September 30, 2006. Other property income for both periods consisted of lease termination fees and other miscellaneous income within the Core Office Portfolio.

Table of Contents

Total expenses from Office Properties increased \$1.5 million, or 9.8%, to \$16.6 million for the three months ended September 30, 2007 compared to \$15.1 million for the three months ended September 30, 2006. Property expenses from Office Properties increased \$0.9 million, or 8.4%, to \$11.5 million for the three months ended September 30, 2007 compared to \$10.6 million for the three months ended September 30, 2006. An increase of \$0.8 million, or 7.4%, was generated by the Core Office Portfolio. This increase was primarily attributable to an increase in repairs and maintenance expenditures, an increase in property management, janitorial and other service-related costs. The remaining increase of \$0.1 million in property expenses was attributable to the 2006 and 2007 Office Development Properties.

Real estate taxes from Office Properties increased \$0.7 million, or 17.7%, for the three months ended September 30, 2007 compared to the same period in 2006, which was attributable to a \$0.6 million and \$0.1 million increase in real estate taxes for the 2006 and 2007 Development Properties and the Core Office Portfolio, respectively. The provision for bad debts from Office Properties decreased \$0.1 million for the three months ended September 30, 2007 compared to the three months ended September 30, 2006. This decrease was due to an overall improvement in collections and our accounts receivable aging. We evaluate our reserve levels on a quarterly basis. Ground lease expense from Office Properties remained consistent for the three months ended September 30, 2007 compared to the three months ended September 30, 2006.

Net Operating Income from Office Properties increased \$4.1 million, or 10.4%, to \$43.5 million for the three months ended September 30, 2007 compared to \$39.4 million for the three months ended September 30, 2006. Of this increase, \$4.7 million was generated by the 2006 and 2007 Office Development Properties and \$0.5 million was generated by the 2006 Office Redevelopment Property, offset by a \$1.1 million decrease attributable to the Core Office Portfolio.

Industrial Properties

	Total Industrial Portfolio				Core Industrial Portfolio ⁽¹⁾

(1) Industrial Properties owned and stabilized at January 1, 2006 and still owned and stabilized at September 30, 2007.

Total revenues from Industrial Properties decreased \$0.6 million, or 7.5%, to \$7.6 million for the three months ended September 30, 2007 compared to \$8.2 million for the three months ended September 30, 2006. Rental income from Industrial Properties decreased \$0.6 million, or 7.6%, to \$6.6 million for the three months ended September 30, 2007 compared to \$7.2 million for the three months ended September 30, 2006. Rental income generated by the Core Industrial Portfolio decreased \$0.2 million, or 2.8%, for the three months ended September 30, 2007 compared to the same period in 2006. This decrease was primarily due to a decrease in occupancy. Average occupancy in the Core Industrial Portfolio decreased 4.8% to 91.0% for the three months ended September 30, 2007 compared to 95.8% for the three months ended September 30, 2006. The decrease in

Table of Contents

occupancy is primarily due to two single tenant buildings in Orange County that were vacant at September 30, 2007. One of these buildings, encompassing approximately 144,000 rentable square feet, was re-leased in October 2007, and we are currently in active negotiations with a prospective tenant for the other building. See additional information regarding the decrease in occupancy under the caption Submarket Information. The remaining decrease in rental income of \$0.4 million was attributable to one industrial building that was moved from our stabilized portfolio to the redevelopment portfolio during 2006 (the 2006 Industrial Redevelopment Property).

Tenant reimbursements from Industrial Properties decreased \$0.1 million, or 7.5%, to \$0.9 million for the three months ended September 30, 2007 compared to \$1.0 million for the three months ended September 30, 2006. The decrease in tenant reimbursements was primarily attributable to the 2006 Industrial Redevelopment Property that was moved from our stabilized portfolio to the redevelopment portfolio in 2006.

Total expenses from Industrial Properties decreased less than \$0.1 million during the three months ended September 30, 2007 compared to the three months ended September 30, 2006. Property expenses from Industrial Properties increased \$0.1 million, or 7.4%, to \$0.8 million for the three months ended September 30, 2007 compared to \$0.7 million for the three months ended September 30, 2006, which was attributable to fixed operating costs for the two vacant buildings in the Core Industrial Portfolio discussed above. Real estate taxes decreased \$0.1 million, or 8.2%, for the three months ended September 30, 2007 compared to the three months ended September 30, 2006 due to the 2006 Industrial Redevelopment Property that was moved from our stabilized portfolio to the redevelopment portfolio in 2006.

Net Operating Income from Industrial Properties decreased \$0.6 million, or 8.4%, to \$6.0 million for the three months ended September 30, 2007 compared to \$6.6 million for the three months ended September 30, 2006. Of this decrease, \$0.2 million was attributable to the Core Industrial Portfolio primarily due to a decrease in occupancy in this portfolio discussed above. The remaining decrease of \$0.4 million was attributable to the 2006 Industrial Redevelopment Property.

Non-Property Related Income and Expenses

General and administrative expenses increased \$3.0 million, or 53.7%, to \$8.7 million for the three months ended September 30, 2007 compared to \$5.7 million for the three months ended September 30, 2006. The \$3.0 million increase was due to an increase in accrued incentive compensation, largely as a result of the timing of the approval of the 2006 executive compensation programs. We began to accrue compensation expense associated with the 2006 Annual Long-Term Incentive Program and 2006 Annual Bonus Exceptional Performance Program in September 2006. Therefore, general and administrative expenses for the three months ended September 30, 2006 includes only one month of amortization, whereas the three months ended September 30, 2007 includes three months of amortization for these 2006 programs. The increase in accrued compensation expense was also attributable to the 2007 executive compensation programs, which were approved in February 2007. (See Note 8 to our consolidated financial statements for further information regarding incentive compensation programs).

Interest expense decreased \$1.3 million, or 12.6%, to \$9.0 million for the three months ended September 30, 2007 compared to \$10.3 million for the three months ended September 30, 2006. Gross interest and loan fee expense before the effect of capitalized interest and loan fees increased \$0.3 million, or 2.2%, to \$13.6 million for the three months ended September 30, 2007 compared to \$13.3 million for the three months ended September 30, 2006. This increase was mainly attributable to an increase in our average debt balance associated with our development activities during the three months ended September 30, 2007 as compared to the three months ended September 30, 2006. This increase was largely offset by a decrease in our weighted-average interest rate during the three months ended September 30, 2007 as compared to the same period in 2006. Our weighted average interest rate including loan fees was 5.2% for the three months ended September 30, 2007 compared to 6.4% for the three months ended September 30, 2006. Total capitalized interest and loan fees

Table of Contents

increased \$1.6 million, or 53.5%, to \$4.6 million for the three months ended September 30, 2007 compared to \$3.0 million for the three months ended September 30, 2006 primarily due to higher average qualifying development expenditures during the three months ended September 30, 2007 compared to the three months ended September 30, 2006.

Depreciation and amortization expense increased \$1.0 million, or 5.7%, to \$18.8 million for the three months ended September 30, 2007 compared to \$17.8 million for the three months ended September 30, 2006. A \$1.6 million increase was attributable to the 2006 and 2007 Office Development Properties. This increase was partially offset by a \$0.4 million decrease attributable to the transfer of both the 2006 Office Redevelopment Property and the 2006 Industrial Redevelopment Property from our stabilized portfolio to our redevelopment portfolio during 2006 and a \$0.2 million decrease attributable to the Core Office Portfolio.

Comparison of the Nine Months Ended September 30, 2007 Compared to the Nine Months Ended September 30, 2006

The following table reconciles our Net Operating Income by segment to our net income available for common stockholders for the nine months ended September 30, 2007 and 2006.

	Nine Months Ended		Dollar Change (in thousands)	Percentage Change
	September 30, 2007	2006		
Net Operating Income:				
Office Properties	\$ 126,914	\$ 117,952	\$ 8,962	7.6%
Industrial Properties	18,561	20,937	(2,376)	(11.3)
Total portfolio	145,475	138,889	6,586	4.7
Reconciliation to Net Income Available for Common Stockholders:				
Net Operating Income for reportable segments	145,475	138,889	6,586	4.7
Other expenses:				
General and administrative expenses	27,227	15,322	11,905	77.7
Interest expense	26,737	33,491	(6,754)	(20.2)

Net Operating Income	\$ 126,914	\$ 117,952	\$ 8,962	7.6%	\$ 120,418	\$ 117,411	\$ 3,007	2.6%

(1) Office Properties owned and stabilized at January 1, 2006 and still owned and stabilized at September 30, 2007.

Total revenues from Office Properties increased \$11.4 million, or 7.0%, to \$173.4 million for the nine months ended September 30, 2007 compared to \$162.0 million for the nine months ended September 30, 2006. Rental income from Office Properties increased \$7.5 million, or 5.1%, to \$153.2 million for the nine months ended September 30, 2007 compared to \$145.7 million for the nine months ended September 30, 2006. Rental income generated by the Core Office Portfolio increased \$1.7 million, or 1.2%, for the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006. The increase in rental income from the Core Office Portfolio was due to an increase in occupancy at two buildings in our Los Angeles portfolio and an increase in rental rates within our total office portfolio. The remaining \$5.8 million increase in total office portfolio rental income was attributable to a \$6.0 million increase in rental income generated by the 2006 and 2007 Office Development Properties offset by a \$0.2 million decrease due to the 2006 Office Redevelopment Property taken out of service in June 2006.

Tenant reimbursements from Office Properties increased \$2.4 million, or 16.6%, to \$17.1 million for the nine months ended September 30, 2007 compared to \$14.7 million for the nine months ended September 30, 2006. A \$2.0 million increase was generated by the Core Office Portfolio due to an increase in reimbursable operating expenses. The remaining \$0.4 million increase was due to \$0.7 million increase generated by the 2006 and 2007 Development Properties, partially offset by a \$0.3 million decrease attributable to the 2006 Office Redevelopment Property taken out of service.

Other property income from Office Properties increased \$1.5 million, or 91.3%, to \$3.1 million for the nine months ended September 30, 2007 compared to \$1.6 million for the nine months ended September 30, 2006. Other property income for the nine months ended September 30, 2007 included \$2.8 million in lease termination fees from two early lease terminations at two of our Office Properties in San Diego (See Note 11 to our consolidated financial statements for additional information). Other property income for the nine months ended September 30, 2006 included \$1.2 million in lease termination fees from two early lease terminations at two of our Office Properties in San Diego.

Table of Contents

Total expenses from Office Properties increased \$2.4 million, or 5.5%, to \$46.5 million for the nine months ended September 30, 2007 compared to \$44.1 million for the nine months ended September 30, 2006. Property expenses from Office Properties increased \$2.2 million, or 7.3%, to \$32.4 million for the nine months ended September 30, 2007 compared to \$30.2 million for the nine months ended September 30, 2006. An increase of \$2.6 million, or 8.7%, was generated by the Core Office Portfolio. This increase was primarily attributable to an increase in property management, janitorial and other service-related costs and also to an increase in electricity expense due to an increase in rates, partially offset by a decrease attributable to the 2006 Office Redevelopment Property, which was taken out of service in 2006.

Real estate taxes from Office Properties increased \$1.0 million, or 8.5%, for the nine months ended September 30, 2007 compared to the same period in 2006. An increase of \$0.6 million was attributable to the 2006 and 2007 Development Properties. The remaining \$0.4 million increase was attributable to the Core Office Portfolio and includes supplemental property taxes for capital improvements within the Core Office Portfolio in 2006 and 2007.

The provision for bad debts from Office Properties decreased \$0.8 million, or 165.1%, for the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006. The decrease is primarily due to a general improvement in our accounts receivable aging and our historical loss experience. We evaluate our reserve levels on a quarterly basis. Ground lease expenses from Office Properties remained consistent for the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006.

Net Operating Income from Office Properties increased \$9.0 million, or 7.6%, to \$126.9 million for the nine months ended September 30, 2007 compared to \$117.9 million for the nine months ended September 30, 2006. Of this increase, \$3.0 million was generated by the Core Office Portfolio. The remaining increase of \$6.0 million was attributable to an increase of \$5.9 million generated by the 2006 and 2007 Office Development Properties and an increase of \$0.1 million attributable to the 2006 Office Redevelopment Property.

(1) Industrial Properties owned and stabilized at January 1, 2006 and still owned and stabilized at September 30, 2007.

Total revenues from Industrial Properties decreased \$2.4 million, or 9.6%, to \$22.8 million for the nine months ended September 30, 2007 compared to \$25.2 million for the nine months ended September 30, 2006. Rental income from Industrial Properties decreased \$2.2 million, or 9.7%, to \$20.1 million for the nine months ended September 30, 2007 compared to \$22.3 million for the nine months ended September 30, 2006. Rental income generated by the Core Industrial Portfolio decreased \$1.1 million, or 5.1%, for the nine months ended

Table of Contents

September 30, 2007 compared to the nine months ended September 30, 2006. The decrease was primarily the result of decreased occupancy in the Orange County industrial portfolio due to three buildings encompassing approximately 349,100 rentable square feet that were vacant at September 30, 2007. See additional information regarding the decrease in occupancy under the caption Submarket Information. Average occupancy in the Core Industrial Portfolio decreased 6.9% to 91.3% for the nine months ended September 30, 2007 compared to 98.2% for the nine months ended September 30, 2006. The remaining \$1.1 million decrease in rental income from Industrial Properties was attributable to the 2006 Industrial Redevelopment Property, which was taken out of service in 2006.

Tenant reimbursements from Industrial Properties decreased \$0.3 million, or 10.6%, to \$2.6 million for the nine months ended September 30, 2007 compared to \$2.9 million for the nine months ended September 30, 2006. The decrease in tenant reimbursements was primarily attributable to the 2006 Industrial Redevelopment Property, which was reclassified from our stabilized portfolio to the redevelopment portfolio during 2006.

Total expenses from Industrial Properties remained consistent at approximately \$4.3 million during the nine months ended September 30, 2007, compared to the same period in 2006. Property expenses from Industrial Properties increased \$0.3 million, or 14.5%, to \$2.2 million for the nine months ended September 30, 2007 compared to the \$1.9 million for the nine months ended September 30, 2006, which was attributable to fixed operating costs for the three vacant buildings in the Core Industrial Portfolio discussed above. Real estate taxes decreased \$0.2 million, or 9.2%, for the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006 due to the 2006 Industrial Redevelopment Property, which was taken out of service in 2006. The provision for bad debts decreased by \$0.1 million for the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006. We evaluate our reserve levels on a quarterly basis.

Net Operating Income from Industrial Properties decreased \$2.4 million, or 11.3%, to \$18.5 million for the nine months ended September 30, 2007 compared to \$20.9 million for the nine months ended September 30, 2006. Of this decrease, \$1.2 million was attributable to the Core Industrial Portfolio primarily due to a decrease in occupancy in this portfolio discussed above. The remaining decrease of \$1.2 million was attributable to the 2006 Industrial Redevelopment Property.

Non-Property Related Income and Expenses

General and administrative expenses increased \$11.9 million, or 77.7%, to \$27.2 million for the nine months ended September 30, 2007 compared to \$15.3 million for the nine months ended September 30, 2006. The increase was mainly attributable to a \$10.4 million increase in accrued incentive compensation expense, largely as a result of the timing of the approval of the 2006 executive compensation programs. We began to accrue compensation expense associated with the 2006 Annual Long-Term Incentive Program and 2006 Annual Bonus Exceptional Performance Program in September 2006. Therefore, general and administrative expenses for the nine months ended September 30, 2006 includes only one month of amortization for these 2006 programs, whereas the nine months ended September 30, 2006 includes nine months of amortization. The increase in accrued compensation expense was also attributable to the 2007 executive compensation programs, which were approved in February 2007. (See Note 8 to our consolidated financial statements for further information regarding incentive compensation programs.) The remaining increase in general and administrative expenses was due primarily to an increase in other compensation-related expenses.

Interest expense decreased \$6.8 million, or 20.2%, to \$26.7 million for the nine months ended September 30, 2007 compared to \$33.5 million for the nine months ended September 30, 2006. Gross interest and loan fee expense before the effect of capitalized interest and loan fees increased \$0.3 million, or 0.6%, to \$41.2 million for the nine months ended September 30, 2007 compared to \$40.9 million for the nine months ended September 30, 2006. This increase was mainly attributable to an increase in our average debt balance associated with our development activities during the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006. This increase was largely offset by a decrease in our weighted-average

Table of Contents

interest rate during the nine months ended September 30, 2007 as compared to the same period in 2006. Our weighted average interest rate including loan fees was 5.6% for the nine months ended September 30, 2007 compared to 6.2% for the nine months ended September 30, 2006. Total capitalized interest and loan fees increased \$7.0 million, or 93.9%, to \$14.4 million for the nine months ended September 30, 2007 compared to \$7.4 million for the nine months ended September 30, 2006 primarily due to higher average qualifying development expenditures during the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006.

Depreciation and amortization expense increased \$0.9 million, or 1.8%, to \$53.7 million for the nine months ended September 30, 2007 compared to \$52.8 million for the nine months ended September 30, 2006. This increase was primarily attributable to depreciation for the 2006 and 2007 Office Development Properties of \$1.9 million and a \$0.3 million increase related to the Core Office Portfolio. These increases were partially offset by a \$1.3 million decrease in depreciation resulting from reclassifying the 2006 Office Redevelopment Property and the 2006 Industrial Redevelopment Property from the stabilized portfolio to the redevelopment portfolio.

Total other income and expense increased approximately \$0.3 million, or 28.5%, to \$1.3 million for the nine months ended September 30, 2007 compared to \$1.0 million for the nine months ended September 30, 2006. The increase was due to a \$0.5 million increase in interest income, which was primarily attributable to interest earned on the funds held at a qualified intermediary for a Section 1031 exchange in the first quarter of 2007, partially offset by a \$0.2 million decrease in other income from our derivative instruments that expired in December 2006.

Building and Lease Information

The following tables set forth certain information regarding our Office Properties and Industrial Properties at September 30, 2007:

Occupancy by Segment Type

Region	Number of	Total	Occupancy
	Buildings	Square Feet	
Office Properties:			
Los Angeles County	24	2,899,075	96.0%
Orange County	5	277,340	99.1

-
- (1) Represents leasing activity for leases commencing during the period shown, including first and second generation space, net of month-to-month leases. Excludes leasing on new construction.
- (2) Calculated as the change between GAAP rents for new/renewed leases and the expiring GAAP rents for the same space. Excludes leases for which the space was vacant longer than one year.
- (3) Calculated as the change between stated rents for new/renewed leases and the expiring stated rents for the same space. Excludes leases for which the space was vacant longer than one year.
- (4) Calculated as the percentage of space either renewed or expanded into by existing tenants at lease expiration.

Table of Contents

Liquidity and Capital Resources

Current Sources of Capital and Liquidity

We seek to create and maintain a capital structure that allows for financial flexibility and diversification of capital resources. Our primary source of liquidity to fund distributions, debt service, leasing costs and capital expenditures is net cash from operations. We believe that we will have sufficient capital resources to satisfy our liquidity needs over the next twelve-month period. Our primary sources of liquidity to fund development and redevelopment costs, potential undeveloped land and property acquisitions, temporary working capital and unanticipated cash needs are our \$550 million Credit Facility, proceeds received from our disposition program, construction loans and the public or private issuance of debt or equity securities. As of September 30, 2007, our total debt as a percentage of total market capitalization was 31.2%, and our total debt plus preferred equity as a percentage of total market capitalization was 37.2%.

In April 2007, we issued \$460 million in aggregate principal amount of Notes (See Note 5 to our consolidated financial statements for a complete discussion of the Notes). We used a portion of the net proceeds received from the Notes to repay the \$331 million balance then outstanding on the Credit Facility and to repay one variable-rate secured loan of \$31 million that was originally scheduled to mature in January 2009. Additionally, we repaid two fixed-rate secured loans totaling \$21 million that were contractually scheduled to mature in August 2007. As a result of these transactions, availability under the Credit Facility increased (\$498 million at September 30, 2007), and our total weighted average interest rate decreased (5.2% at September 30, 2007).

As of September 30, 2007, we had borrowings of \$52 million outstanding under the Credit Facility. The Credit Facility bears interest at an annual rate between LIBOR plus 0.85% and LIBOR plus 1.35%, depending upon our leverage ratio at the time of borrowing (6.35% at September 30, 2007). We expect to use the Credit Facility to finance development and redevelopment expenditures, to fund potential acquisitions and for other general corporate uses.

Factors That May Influence Future Sources of Capital and Liquidity

Our Credit Facility, unsecured senior notes and certain other secured debt agreements contain covenants and restrictions requiring us to meet certain financial ratios and reporting requirements. Some of the more restrictive covenants include a maximum ratio of total debt to total assets, a maximum ratio of total secured debt to total assets, a fixed charge coverage ratio, a minimum consolidated tangible net worth and a limit of development activities to total assets. Non-compliance with one or more of the covenants or restrictions could result in the full or partial principal balance of the associated debt becoming immediately due and payable. We were in compliance with all our debt covenants at September 30, 2007.

Table of Contents

The composition of our aggregate debt balances at September 30, 2007 and December 31, 2006 was as follows:

	Percentage of Total Debt		Weighted Average Interest Rate	
	September 30, 2007	December 31, 2006	September 30, 2007	December 31, 2006
Secured vs. unsecured:				
Secured	37.8%	52.2%	5.9%	6.0%
Unsecured	62.2	47.8	4.1	6.2
Fixed rate vs. variable rate:				
Fixed rate	91.7	61.0	4.7	6.0
Variable rate	8.3%	39.0%	6.4	6.2
Total debt			4.8	6.1
Total debt including loan fees			5.2%	6.3%

Following is our total market capitalization at September 30, 2007:

	Shares/Units at September 30, 2007	Aggregate	% of Total Market Capitalization
		Principal Amount or \$ Value Equivalent (in thousands)	
Debt:			
Secured debt		\$ 398,283	11.8%
Notes ⁽¹⁾		460,000	13.6
Unsecured senior notes		144,000	4.3
Credit Facility		52,000	1.5
Total debt		1,054,283	31.2
Equity:			
7.450% Series A cumulative redeemable preferred units ⁽²⁾	1,500,000	75,000	2.2
7.800% Series E cumulative redeemable preferred stock ⁽³⁾	1,610,000	40,250	1.2
7.500% Series F cumulative redeemable preferred stock ⁽³⁾	3,450,000	86,250	2.6
Common units outstanding ⁽⁴⁾	2,247,774	136,283	4.0
Common shares outstanding ⁽⁴⁾	32,707,444	1,983,052	58.8
Total equity		2,320,835	68.8
Total Market Capitalization		\$ 3,375,118	100.0%

(1) Represents gross aggregate principal amount before the effect of the unamortized discount of approximately \$4.1 million at September 30, 2007.

(2) Value based on \$50.00 per share liquidation preference.

(3) Value based on \$25.00 per share liquidation preference.

(4) Value based on the closing price per share of our common stock of \$60.63 at September 28, 2007.

Table of Contents**Contractual Obligations**

The following table provides information with respect to the maturities and scheduled principal repayments of our secured debt, unsecured senior notes, Notes and Credit Facility and scheduled interest payments of our fixed-rate debt at September 30, 2007 and provides information about the minimum commitments due in connection with our ground lease obligations and capital, development and purchase commitments at September 30, 2007. The table does not reflect available maturity extension options.

	Payment Due by Period				Total
	Remainder	Fiscal Years			
		of 2007	2008-2009	2010-2011 (in thousands)	
Principal payments secured debt	\$ 2,275	\$ 162,700	\$ 116,720	\$ 116,588	\$ 398,283
Principal payments Notes				460,000	460,000
Principal payments unsecured senior notes			61,000	83,000	144,000
Principal payments Credit Facility ⁽¹⁾			52,000		52,000
Interest payments fixed-rate debt ⁽²⁾	9,094	81,340	66,825	27,195	184,454
Ground lease obligations ⁽³⁾	423	3,332	3,131	72,402	79,288
Development and redevelopment commitments ⁽⁴⁾	24,391	19,314			43,705
Capital commitments ⁽⁵⁾	15,821				15,821
Total	\$ 52,004	\$ 266,686	\$ 299,676	\$ 759,185	\$ 1,377,551

(1) Our Credit Facility has a one-year extension option.

(2) As of September 30, 2007, 91.7% of our debt was contractually fixed. The information in the table above reflects our projected interest rate obligations for these fixed-rate payments based on the contractual interest rates, interest payment dates and scheduled maturity dates. The remaining 8.3% debt bears interest at variable rates, and the variable interest rate payments are based on LIBOR plus a spread that ranges from 0.75% to 0.95%. The interest payments on our variable-rate debt have not been reported in the table above because management cannot reasonably determine the future interest obligations on our variable-rate debt as management cannot predict what LIBOR rates will be in the future. As of September 30, 2007, one-month LIBOR was 5.13%. See additional information regarding our debt under Item 3: Quantitative and Qualitative Disclosures About Market Risk and Note 5 to our consolidated financial statements.

(3) We have non-cancelable ground lease obligations for the SeaTac Office Center in Seattle, Washington expiring in December 2032, with an option to extend the lease for an additional 30 years, and Kilroy Airport Center in Long Beach, California with a lease period for Phases I, II, III and IV expiring in July 2084 (See Note 9 to our consolidated financial statements).

(4) Amounts represent contractual commitments for development and redevelopment contracts and executed leases for development and redevelopment properties under construction at September 30, 2007. Costs include the remaining total estimated investment, excluding capitalized interest and development overhead for pre-leased properties, and excluding capitalized interest, development overhead and potential future leasing costs and tenant improvements for properties not yet pre-leased at September 30, 2007. The timing of these expenditures may fluctuate based on the ultimate progress of construction.

(5) Amounts represent commitments under signed leases and contracts for operating properties, excluding tenant-funded tenant improvements.

Capital Commitments

As of September 30, 2007, we had three development properties under construction and two redevelopment properties, one of which was under construction and one of which was in the lease-up phase. Our total estimated investment for these properties is approximately \$193 million, including capitalized interest. We had incurred costs of approximately \$126 million on these properties as of September 30, 2007 and currently project we could spend approximately \$37 million of the remaining \$67 million of presently budgeted development costs during the remainder of 2007. We are currently contractually obligated to pay approximately \$24 million during the remainder of 2007.

As of September 30, 2007, we had executed leases that contractually committed us to pay approximately \$13 million in unpaid leasing costs and tenant improvements, and we had executed contracts outstanding that contractually committed us to pay approximately \$3 million in capital improvements at September 30, 2007.

Table of Contents

During the remainder of 2007, we plan to spend approximately \$5 million to \$6 million in capital improvements, tenant improvements and leasing costs for properties within our stabilized portfolio, depending on leasing activity. Capital expenditures may fluctuate in any given period subject to the nature, extent and timing of improvements required to maintain our properties. Tenant improvements and leasing costs may also fluctuate in any given period depending upon factors such as the type of property, the term of the lease, the type of lease, the involvement of external leasing agents and overall market conditions.

Off-Balance Sheet Arrangements

As of September 30, 2007 and the date this report was filed, we do not have any off-balance sheet transactions, arrangements or obligations, including contingent obligations.

Historical Cash Flows

The principal sources of funding for development, redevelopment, acquisitions and capital expenditures are cash flow from operating activities, the Credit Facility, secured and unsecured debt financing and proceeds from our dispositions. Our net cash provided by operating activities increased by \$84.7 million, or 264.4%, to \$116.7 million for the nine months ended September 30, 2007 compared to \$32.0 million used in operating activities for the nine months ended September 30, 2006. The change was primarily attributable to a \$71.7 million cash payment made to our Executive Officers in January 2006, which represented the total amount earned under a special long-term compensation program. The remaining change is primarily due to a decrease in cash paid for interest compared to the same period in 2006.

Net cash used in investing activities increased \$98.8 million, or 108.7%, to \$189.7 million for the nine months ended September 30, 2007 compared to \$90.9 million for the nine months ended September 30, 2006. The increase was primarily attributable to expenditures for the acquisition and development of development properties and undeveloped land during the nine months ended September 30, 2007. There were no acquisitions during the same period in 2006. These increases were partially offset by an increase in net proceeds received from dispositions compared to the same period in 2006 and proceeds received from the termination of a profit participation agreement (See Note 13 to our consolidated financial statements).

Net cash provided by financing activities increased \$1.9 million, or 3.1%, to \$64.6 million cash provided by financing activities for the nine months ended September 30, 2007 compared to \$62.7 million for the nine months ended September 30, 2006. During the nine months ended September 30, 2006, we received approximately \$136.1 million in net proceeds from the May 2006 share issuance. We did not raise any equity capital during the nine months ended September 30, 2007. However, there was an increase of approximately \$172.3 million in net proceeds received from debt financings during the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006, partially offset by \$29.1 million in cash paid for capped call options on common stock in 2007 (See Note 5 to our consolidated financial statements for information about the issuance of the Notes).

Table of Contents**Non-GAAP Supplemental Financial Measure: Funds From Operations**

Management believes that funds from operations (FFO) is a useful supplemental measure of our operating performance. We compute FFO in accordance with the White Paper on FFO approved by the Board of Governors of NAREIT. The White Paper defines FFO as net income or loss computed in accordance with GAAP, excluding extraordinary items, as defined by GAAP, and gains and losses from sales of depreciable operating property, plus real estate related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets), and after adjustment for unconsolidated partnerships and joint ventures. Other REITs may use different methodologies for calculating FFO, and, accordingly, our FFO may not be comparable to other REITs.

Because FFO excludes depreciation and amortization, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities, general and administrative expenses and interest costs, providing a perspective not immediately apparent from net income. In addition, management believes that FFO provides useful information to the investment community about our financial performance when compared to other REITs since FFO is generally recognized as the industry standard for reporting the operations of REITs.

However, FFO should not be viewed as an alternative measure of our operating performance since it does not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which are significant economic costs and could materially impact our results from operations.

The following table presents our FFO for the three months and nine months ended September 30, 2007 and 2006:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
	(in thousands)			
Net income available for common stockholders	\$ 9,028	\$ 31,574	\$ 38,601	\$ 63,073
Adjustments:				
Minority interest in earnings of Operating Partnership	624	2,512	2,673	5,475
Depreciation and amortization of real estate assets	18,560	17,979	53,111	53,585
Net gain on dispositions of operating properties		(25,603)	(13,474)	(31,259)
Funds From Operations ⁽¹⁾	\$ 28,212	\$ 26,462	\$ 80,911	\$ 90,874

(1) Reported amounts are attributable to our common stockholders and common unitholders of the Operating Partnership.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The primary market risk we face is interest rate risk. We mitigate this risk by maintaining prudent amounts of leverage, minimizing interest expense while continuously evaluating all available debt and equity resources and following established risk management policies and procedures that include the periodic use of derivative instruments. Our primary strategy when entering into derivative contracts is to minimize the variability that changes in interest rates could have on our future cash flows. When we have derivative instruments, we generally employ such derivative instruments to effectively convert a portion of our variable-rate debt to fixed-rate debt. We do not enter into derivative instruments for speculative purposes. As of September 30, 2007 and December 31, 2006, we did not have any derivative instruments.

Information about our changes in interest rate risk exposures from December 31, 2006 to September 30, 2007 is incorporated herein by reference from Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources.

Tabular Presentation of Market Risk

The tabular presentation below provides information about our interest rate sensitive financial instruments at September 30, 2007 and December 31, 2006. All of our interest rate sensitive financial instruments are held for purposes other than trading purposes. The table below presents principal cash flows and related weighted average interest rates by contractual maturity dates at September 30, 2007. The table also presents comparative summarized information for financial instruments held at December 31, 2006. The interest rates on our variable-rate debt are indexed to LIBOR plus spreads of 0.75% to 0.95% at September 30, 2007 and LIBOR plus spreads of 0.85% to 1.10% at December 31, 2006.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended) that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, is processed, recorded, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), we carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures as of September 30, 2007, the end of the period covered by this report.

Based on the foregoing, the Chief Executive Officer and Chief Financial Officer concluded, as of that time, that our disclosure controls and procedures were effective at the reasonable assurance level.

There have been no significant changes that occurred during the quarter covered by this report in our internal control over financial reporting identified in connection with the evaluation referenced above that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

Other than ordinary routine litigation incidental to the business, we are not a party to, and our properties are not subject to, any legal proceedings that, if determined adversely to us, would have a material adverse effect upon our financial condition, results of operations or cash flows.
