On January 14, 2008, the Company issued a press release announcing its intention to conduct an underwritten public offering. A copy of the press release is attached as Exhibit 99.1 to this report.

In addition, the Company reported that it expects net cash used in operating activities in 2008 to range from \$55 million to \$65 million. This statement reflects the Company's current views about future events and is subject to significant risks and uncertainties, including those discussed below and those described more fully in other reports filed by the Company with the SEC. Because this statement reflects its current expectations concerning future events, the Company's actual results could differ materially. The factors that could cause actual results to differ from its expectations include, but are not limited to, the timing of manufacturing campaigns, accrual of patients to clinical trials, collaborative activities, the cost of filing and enforcing patent claims and other intellectual property rights, competing technological and market developments and the progress of its collaborators.

The information in this Current Report on Form 8-K under the heading Item 7.01, Regulation FD Disclosure, including Exhibit 99.1, shall not be deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liability of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference to such filing.
