About the Annual Meeting

Who is soliciting my vote?

The board of directors of Gulfport Energy Corporation, which we refer to as Gulfport, the Company and we in this proxy statement, is soliciting your vote at the 2008 Annual Meeting of Stockholders.

What am I voting on?

You are voting on:

The election of directors (*see page 5*);

The ratification of Grant Thornton LLP as our independent auditors for 2008 (*see page 29*); and

Any other business properly coming before the meeting.

How does the board of directors recommend that I vote my shares?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of our board of directors. The Board's recommendation can be found with the description of each item in this proxy statement. In summary, the board of directors recommends a vote:

FOR the proposal to elect nominated directors; and

FOR the proposal to ratify Grant Thornton LLP as the Company's independent auditors for 2008.

Who is entitled to vote?

You may vote if you were the record owner of our common stock as of the close of business on April 23, 2008. Each share of common stock is entitled to one vote. As of April 23, 2008, we had 42,571,419 shares of common stock outstanding and entitled to vote, excluding 82,488 shares of our restricted common stock granted under our Amended and Restated 2005 Stock Incentive Plan. There is no cumulative voting.

How many votes must be present to hold the meeting?

Your shares are counted as present at the Annual Meeting if you attend the meeting and vote in person or if you properly return a proxy by mail. In order for us to hold our meeting, holders of a majority of the voting power of our outstanding shares of common stock as of the close of business on April 23, 2008, must be present in person or by proxy at the meeting. This is referred to as a quorum. Abstentions and broker non-votes will be counted for purposes of establishing a quorum at the meeting.

What is a broker non-vote?

If a broker does not have discretion to vote shares held in street name on a particular proposal and does not receive instructions from the beneficial owner on how to vote those shares, the broker may return the proxy card without voting on that proposal. This is known as a *broker non-vote*.

How many votes are needed to approve each of the proposals?

The five nominees for election as directors at the Annual Meeting who receive the highest number of FOR votes will be elected as directors. This is called plurality voting. Unless you indicate otherwise on your proxy

Table of Contents

card, the persons named as your proxies will vote your shares FOR all the nominees for director named in this proxy statement.

All other proposals require the affirmative FOR vote of a majority of the votes cast. Only votes for or against such other proposals will be counted as votes cast. Abstentions and broker non-votes will not be counted for voting purposes and will have no effect on the result of the vote on such other proposals.

How do I vote?

You can vote either *in person* at the meeting or *by proxy* without attending the meeting.

To vote by proxy, you must fill out the enclosed *proxy card*, date and sign it, and return it in the enclosed postage-paid envelope.

Even if you plan to attend the meeting, we encourage you to vote your shares by proxy. If you plan to vote in person at the Annual Meeting, and you hold your stock in street name, you must obtain a proxy from your broker and bring that proxy to the meeting.

Can I change my vote?

Yes. You can change or revoke your vote at any time before the polls close at the Annual Meeting. You can do this by:

Signing another proxy card with a later date and returning it to us prior to the meeting,

Sending our Corporate Secretary a written document revoking your earlier proxy, or

Voting again at the meeting.

Who counts the votes?

We have hired Computershare Trust Company, N.A., our transfer agent, to count the votes represented by proxies cast by mail or ballot. Employees of Computershare Trust Company, N.A. will act as inspectors of election.

Will my vote be confidential?

Yes. As a matter of Company policy, proxies, ballots and voting tabulations that identify individual stockholders are treated as confidential. Only the tabulation agent and the inspectors of election have access to your vote. Directors and employees of the Company may see your vote only if there is a contested proxy solicitation, as required by law or in certain other special circumstances.

Will my shares be voted if I don't provide my proxy and don't attend the Annual Meeting?

If you do not provide a proxy or vote your shares held in your name, your shares will not be voted.

If you hold your shares in street name, your broker may be able to vote your shares for certain routine matters even if you do not provide the broker with voting instructions. The election of directors and the ratification of Grant Thornton LLP as our independent auditors for 2008 are considered routine matters.

Table of Contents

How are votes counted?

In the election of directors, you may vote FOR all of the nominees or your vote may be WITHHELD with respect to one or more of the nominees. For any other proposal, you may vote FOR, AGAINST or ABSTAIN.

What if I return my proxy but don't vote for some of the matters listed on my proxy card?

If you return a signed proxy card without indicating your vote, your shares will be voted FOR the director nominees listed on the card and FOR the ratification of Grant Thornton LLP as our independent auditors for 2008.

Could other matters be decided at the Annual Meeting?

We are not aware of any other matters that will be considered at the Annual Meeting. If any other matters arise at the Annual Meeting, the persons named in your proxies will vote in accordance with their best judgment.

Who can attend the meeting?

The Annual Meeting is open to all holders of our common stock.

What do I need to bring to attend the Annual Meeting?

You will need proof of ownership of our common stock to enter the meeting. If your shares are in the name of your broker or bank or other nominee, you will need to bring evidence of your stock ownership, such as your most recent brokerage statement. All stockholders will be required to present valid picture identification. IF YOU DO NOT HAVE VALID PICTURE IDENTIFICATION AND PROOF THAT YOU OWN SHARES OF OUR STOCK, YOU MAY NOT BE ADMITTED INTO THE MEETING.

How can I access the Company's proxy materials and annual report electronically?

This proxy statement and our 2007 Annual Report on Form 10-K are available on our website at www.gulfportenergy.com.

Board of Directors Information

What is the makeup of the board of directors and how often are the members elected?

Our board of directors consists of five members who are elected annually. The majority of these directors are independent under the Nasdaq listing standards.

What if a nominee is unable or unwilling to serve?

That is not expected to occur. If it does, shares represented by proxies will be voted for a substitute nominated by the board of directors.

How are directors compensated?

Our policy adopted in the second quarter of 2007 is that members of our board of directors who are also our officers or employees do not receive compensation for their services as directors. Prior to the adoption of such policy, James D. Palm, our Chief Executive Officer and one of our directors, received \$3,000 in director fees in the first quarter of 2007.

Equity Compensation

We provide our non-employee directors with equity compensation under our Amended and Restated 2005 Stock Incentive Plan. Our current non-employee directors are Donald L. Dillingham, Scott E. Streller and David L. Houston. In March 2008, we granted 6,666 shares of our restricted common stock to Mr. Dillingham in connection with his appointment to our board of directors in November 2007, of which 740 shares vested on April 1, 2008 and the remaining shares will vest in 36 equal monthly installments beginning on May 1, 2008. In August 2006, we granted 6,666 shares of our restricted common stock to Mr. Streller in connection with his appointment to our board of directors, which shares vest in 36 substantially equal monthly installments beginning on the date of grant. Mr. Houston holds options to purchase an aggregate of 40,000 shares of our common stock granted to him for his service as a director, of which options to purchase 32,000 shares of our common stock are fully vested. Unvested options to purchase 8,000 shares of our common stock held by Mr. Houston vest in two remaining equal installments on January 24, 2009 and 2010, respectively, and have ten-year terms from the date of grant. No equity grants were made to any of our non-employee directors in 2007. Further details regarding our director compensation in 2007 are set forth under the heading **Director Compensation** below.

Cash Compensation

In 2007, we paid our non-employee directors a monthly retainer of \$1,000 and a per meeting attendance fee of \$500 and reimburse all ordinary and necessary expenses incurred by non-employee directors in the conduct of our business. In March 2008, the compensation committee of our board of directors, following its review of the compensation survey prepared by an outside consultant, determined that committee members and chairpersons commit substantially more time than other board members. As a result, the compensation committee has determined that for 2008, in addition to the fees described above, each committee member of our board of directors will receive \$3,000 per year for his service on each committee. However, if a director serves as the committee chairman, he will receive \$4,500 per year per committee.

Insurance and Indemnification Contracts

We provide liability insurance for our directors and officers at a current annual cost of approximately \$321,330 and have contractual indemnification arrangements with our directors and certain of our officers under which we agree, in certain circumstances, to compensate them for costs and liabilities incurred in actions brought against them while acting as directors or officers of the Company.

How often did the board of directors meet in 2007?

The board of directors met four times in 2007. In addition to these meetings, the board of directors adopted resolutions by unanimous written consent. Each director attended at least 75% of the aggregate meetings of the board of directors and the meetings of the committees on which he served.

Corporate Governance Matters and Communications with the Board

Who are our independent directors?

The board of directors has determined that Donald L. Dillingham, David L. Houston and Scott E. Streller meet the standards regarding independence set forth in the Nasdaq listing standards and are free of any material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company).

Our board of directors has determined that each member of the Audit Committee is independent for purposes of serving on such committee under the Nasdaq listing standards and applicable federal law. In addition, our board of directors has determined that each current member of the Audit Committee is financially literate under the Nasdaq listing standards and that each of Mr. Houston, who serves as the Chairman of the Audit Committee, and Mr. Dillingham qualifies as the audit committee financial expert, as such term is defined in Item 407(d) of Regulation S-K.

Our board of directors have also determined that each member of the Compensation Committee and the Nominating Committee meets the independence requirements applicable to those committees under the Nasdaq rules. In addition, our board of directors determined that each member of our compensation committee is an outside director in accordance with Section 162(m) of the Internal Revenue Code and a non-employee director in accordance with Rule 16b-3 under the Securities Exchange Act of 1934, as amended.

Do our non-management directors meet separately without management?

Our non-management directors have the opportunity to meet in an executive session following each regularly scheduled meeting of the board of directors. During 2007, our non-management directors met in an executive session on August 14, 2007.

How can I communicate with the board of directors?

Individuals may communicate with our board of directors or individual directors by writing to our Corporate Secretary, Michael G. Moore, at Gulfport Energy Corporation, 14313 N. May Avenue, Suite 100, Oklahoma City, Oklahoma 73134. Our Corporate Secretary will review all such correspondence and forward to our board of directors a summary of all such correspondence and copies of all correspondence that, in the opinion of our Corporate Secretary, relates to the functions of our board of directors or the compensation committee thereof or that he otherwise determines requires their attention. Directors may review a log of all such correspondence received by us and request copies. Concerns relating to accounting, internal control over financial reporting or auditing matters will be immediately brought to the attention of the chairman of the audit committee and handled in accordance with the audit committee procedures established with respect to such matters.

Do directors attend the Annual Meeting?

Recognizing that director attendance at our Annual Meeting can provide our stockholders with an opportunity to communicate with directors about issues affecting the Company, we actively encourage our directors to attend the Annual Meeting of Stockholders. Directors Mike Liddell, James D. Palm and Scott E. Streller attended the 2007 Annual Meeting of Stockholders. Directors Robert Brooks, who subsequently resigned as a director on October 29, 2007 and was replaced by Donald L. Dillingham on November 9, 2007, and David L. Houston were unable to attend.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics designed to help directors and employees resolve ethical issues. Our Code of Business Conduct and Ethics applies to all directors and employees, including the Chief Executive Officer, the Chief Financial Officer and all senior financial officers. Our Code of Business Conduct and Ethics is posted on our website under the Investor Relations Corporate Governance caption.

Nominating Process For Directors

The Nominating Committee is comprised of three non-employee directors, all of whom are independent under Nasdaq listing standards. The Committee identifies, investigates and recommends to our board of directors candidates with the goal of creating a balance of knowledge, experience and diversity. Generally, the committee identifies candidates through the personal, business and organizational contacts of the directors and management.

Potential directors should possess the highest personal and professional ethics, integrity and values, and be committed to representing the interests of our stockholders. In addition to reviewing a candidate's background and accomplishments, candidates for director nominees are reviewed in the context of the current composition of our board of directors and the evolving needs of our stockholders' businesses. It is the policy of our board of directors that at all times at least a majority of its members meets the standards of independence promulgated by Nasdaq and the Securities and Exchange Commission, or the SEC, and that all members reflect a range of talents, ages, skills, diversity and expertise, particularly in the areas of accounting and finance, management, leadership and oil and gas related industries sufficient to provide sound and prudent guidance with respect to our stockholders' operations and interests. We also require that the members of our board of directors be able to dedicate the time and resources sufficient to ensure the diligent performance of their duties on our behalf, including attending all meetings of the board of directors and applicable committee meetings.

Our board of directors will consider stockholder nominations for director candidates upon written submission of such recommendation to our Corporate Secretary along with, among other things, the nominee's qualifications and certain biographical information regarding the nominee, such as the nominee's written consent to serving as a director if elected and being named in the proxy or information statement and certain information regarding the status of the stockholder submitting the recommendation, all in the manner required by our amended and restated bylaws and the applicable rules and regulations promulgated under the Securities Exchange Act of 1934, as amended. Following verification of the stockholder status of persons proposing candidates, recommendations will be aggregated and considered by our board of directors at a regularly scheduled or special meeting. If any materials are provided by a stockholder in connection with the nomination of a director candidate, such materials will be forwarded to our board of directors.

Our board of directors may also review materials provided by professional search firms or other parties in connection with a nominee who is not proposed by a stockholder. In evaluating such nominations, our board of directors will seek to achieve a balance of knowledge, experience and capability on the board. Our board of directors uses the same criteria for evaluating candidates nominated by stockholders as it does for those proposed by current board members, professional search firms and other persons. After completing its evaluation, our board of directors approves the final slate of director nominees.

Our Nominating Committee approved the director nominees submitted for election at this Annual Meeting. Prior to the formation of our Nominating Committee in April 2007, these functions were performed by our full board of directors.

The Audit Committee has reviewed and discussed with management and Grant Thornton LLP, an independent registered public accounting firm, the audited consolidated financial statements of the Company for the year ended December 31, 2007.

Controls and Procedures. Management has established and maintains a system of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by our Company in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and includes controls and procedures designed to provide reasonable assurance that information required to be disclosed by us in those reports is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. As of December 31, 2007, management conducted an evaluation of our disclosure controls and procedures. Management has also established and maintains a system of internal controls over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. These internal controls are designed to provide reasonable assurance that the reported financial information is presented fairly, that disclosures are adequate and that the judgments inherent in the preparation of financial statements are reasonable. Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on management's evaluation under the framework in *Internal Control Integrated Framework*, management concluded that our internal control over financial reporting was effective as of December 31, 2007, as discussed in more detail in Management's Report on Internal Control Over Financial Reporting, which was included in our Annual Report on Form 10-K for the year ended December 31, 2007, filed with the SEC on March 17, 2008. The effectiveness of our internal control over financial reporting as of December 31, 2007, has been audited by Grant Thornton LLP, as stated in its attestation report, which was included in our Annual Report on Form 10-K for the year ended December 31, 2007, filed with the SEC on March 17, 2008. Executive Compensation

Compensation Discussion And Analysis

Compensation Practices

To date, all compensation decisions for our Chief Executive Officer and our Chief Financial Officer have been made by our Chairman of the Board. Our Chairman of the Board has been compensated as provided in his employment agreement with our company, which was effective as of June 1, 1999. Although our board of directors established a compensation committee, effective as of February 14, 2006, until recently the role of the compensation committee was limited, as we relied on the controlled company exemption and applicable transition rules provided by the Nasdaq listing standards. The compensation committee is currently composed entirely of independent directors. In the future, the compensation committee is expected to be responsible for establishing, implementing and monitoring our compensation programs, including those applicable to our executive officers. In particular, the compensation committee's role will be to oversee, on behalf of our board of directors, our compensation and benefit plans and policies, administer our stock plans (including reviewing and approving equity grants to directors and executive officers) and review and approve annually all compensation decisions relating to our Chief Executive Officer and make recommendations to our board of directors with respect to other executive officer compensation. The compensation committee is expected to meet at least annually to review executive compensation programs, approve compensation levels and performance targets, review management performance and administer our equity-based compensation plans. The compensation committee will operate in accordance with its charter, adopted effective as of February 14, 2006, which sets forth its powers and responsibilities described in more detail under the Corporate Governance Compensation Committee.

Compensation Philosophy and Objectives

The objectives of our compensation program are to:

attract and retain key executives;

align the interests of our executives with those of our stockholders; and

motivate and reward individual performance and contributions.

Compensation Benchmarking

In the fall of 2007, the compensation committee engaged Equilar, an outside consultant, to perform a compensation survey, based on the available compensation data for fiscal 2006, which survey included the following industry peer companies: Arena Resources Inc., Brigham Exploration Company, Carrizo Oil & Gas, Inc., Chesapeake Energy Corporation, Continental Resources Inc., Devon Energy Corporation, Edge Petroleum Corporation, Energy Partners LTD, Goodrich Petroleum Corporation, Quest Resources Corporation, Ram Energy Resources Inc., Stone Energy Corporation and Swift Energy Company. Following its review of the survey and taking into account (i) the adjustments made with respect to 2007 compensation of our named executive officers and (ii) the difference in duties performed by our named executive officers as compared to duties performed by their counterparts at the peer group companies, the compensation committee determined that compensation of our Chairman of the Board and our Chief Executive Officer is reasonable as compared to similarly situated executives at peer group companies. The compensation committee further recommended that our Chairman of the Board and our Chief Executive Officer review other executive compensation for reasonableness and competitiveness.

Table of Contents

Compensation Policy

The key elements of our compensation program are salary, annual bonus and long-term incentive compensation. We use these elements to meet our compensation objectives as follows:

Attract and retain key executives. We believe that to attract and retain talented executives, we must offer compensation that is competitive. We also believe that our Chairman of the Board, Mike Liddell, our Chief Executive Officer, James D. Palm, and our Chief Financial Officer, Michael G. Moore, are critical to the long-term success of our company. To facilitate the retention of our Chairman of the Board and our Chief Executive Officer, we entered an employment agreement with Mr. Liddell in May of 1999 and into an oral agreement with Mr. Palm with respect to their respective compensations and benefits. We believe that the terms of these agreements are reasonable as compared to similarly situated executives at peer group companies.

Align the interests of our executives with those of our stockholders. In the past, we used both options and restricted stock awards to provide long-term incentive compensation and to align the financial interests of our executives with those of our stockholders. In 2007, the compensation committee did not grant any awards to our executive officers. It is anticipated that in the future the compensation committee will structure our long-term incentive compensation in the form of restricted stock awards. For a discussion of the Company's long-term incentive policy, see Long Term Incentive Compensation below.

Stock options represent the right of an option holder to buy shares of our common stock at an exercise price equal to the market value of our common stock on the date of grant. Under our outstanding stock options, the right to buy underlying shares generally vests in 36 substantially equal monthly installments from the date of grant, except that certain options vest in five substantially equal annual installments beginning on the first anniversary of the date of grant. We awarded these stock options in order to align compensation with company performance as the options become valuable to the executive only if the stock price increases from the date of grant. Also, stock options require a long-term commitment by executives to realize the appreciation potential of the options.

Restricted stock generally vests in 36 substantially equal monthly installments. Restricted stock awards thereby ensure that our executives have a continuing stake in the long-term success of our company as the value of the award will depend on the stock price of the time of vesting.

Motivate and reward individual performance and contributions. The Company's evaluation of the individual performance of each executive officer affects most aspects of the executive's compensation. Individual performance and level of responsibility are considered in determining an executive's annual salary, and are important factors in deciding discretionary bonuses and equity awards.

Compensation Components

Base Salary

Salaries for our Chairman of the Board and our Chief Executive Officer are provided in their respective agreements described in more detail under the heading Employment Agreements below. The annual base salary for our Chairman of the Board is increased annually in an amount equal to any increase in the cost of living as determined in accordance with his employment agreement. The salary for our Chief Financial Officer in 2007 was determined by our Chairman of the Board. In the future, we anticipate that the base salaries of our named executive officers will be reviewed by the compensation committee on an annual basis, subject to the terms of any employment agreements that we may have with our named executive officers. With respect to the 2007 salaries of our Chief Executive Officer and our Chief Financial Officer, our Chairman of the Board has considered various factors, including the compensation of executive officers of comparable companies within the oil and natural gas industry, the performance of such executive officer and increases in responsibilities. In the

Table of Contents

future, the compensation committee is expected to consider similar factors in reviewing salaries of our named executive officers, as well as the recommendation of our Chairman of the Board with respect to base salaries of other named executive officers.

In 2007, the annual base salaries for our Chairman of the Board, our Chief Executive Officer and our Chief Financial Officer were \$243,503, \$211,749 and \$225,000, respectively.

Discretionary Bonus

Our Chairman of the Board determined the bonuses that were paid to our named executive officers for 2007 based on their respective performances in 2007 and other factors, including our profitability, growth and market share achieved in 2007. Our Chairman of the Board, Chief Executive Officer and Chief Financial Officer received bonuses of \$40,000, \$25,410 and \$400,000, respectively, for fiscal 2007. Further details regarding 2007 bonuses for our Chief Executive Officer and other named executive officers are set forth in the Summary Compensation Table below.

Long-Term Incentive Compensation

2007 Awards. No awards were granted by the compensation committee in 2007.

Long-Term Incentive Policy. Although in the past, we awarded both options and restricted stock as part of our long-term incentive compensation program, our board of directors and the compensation committee believe that restricted stock awards are an essential component of our compensation strategy, and we intend to continue offering such awards in the future. Further, we anticipate that any equity awards granted to our executive officers during the remainder of 2008 will be in the form of restricted stock. The Committee may also determine to issue other forms of stock-based awards to our named executive officers or other eligible participants under our Amended and Restated 2005 Stock Incentive Plan or other equity incentive plans in effect at that time. Our current equity incentive plan is described below under the heading Amended and Restated 2005 Stock Incentive Plan.

Perquisites and Other Personal Benefits

Our company provides certain of our named executive officers with a limited number of perquisites or other personal benefits, primarily consisting of life insurance premiums for our Chairman of the Board and a company vehicle for our Chief Financial Officer, that we believe help provide a competitive package of compensation and benefits. The value of these benefits is disclosed in the Summary Compensation Table.

Broad-Based Employee Benefits

401(k) Plan. We have retirement savings plan in which our named executive officers currently participate. The retirement plan is a tax qualified 401(k) plan that covers all eligible employees including the named executive officers. Under the plan, we make a safe harbor contribution equal to 3% of each eligible employee gross annual compensation for the prior calendar year. We also have the ability to make an additional, discretionary contribution based on each eligible employee's gross annual compensation for the prior calendar year. Both contributions are made regardless of employee's deferrals into the plan. For 2007, we made a safe harbor and discretionary contribution totaling 6% for eligible employees, subject to certain limitations provided by our 401(k) plan and Internal Revenue Services regulations. All contributions made by us on behalf of an employee are 100% vested when contributed. For more details regarding our 401(k) plan, see Retirement Plans 401(k) Plan below.

Table of Contents

Our named executive officers are eligible to participate in all of our other employee benefit plans which include medical, dental, group life, disability and accidental death and dismemberment insurance, in each case on the same basis as all other employees.

Employment Agreements

In May 1999, we entered into an employment agreement with Mike Liddell, our Chairman of the Board. The agreement had an initial five-year term and automatically renews for successive one-year terms thereafter. The agreement provides for an annual base salary of \$200,000, adjusted for cost of living increases. As a result of these increases, Mr. Liddell's base salary had risen to \$243,505 in 2007. Upon termination of Mr. Liddell's employment by us without cause, Mr. Liddell is entitled to receive twelve months of his then current base salary, and all of his then unexercisable options will become exercisable. The agreement also restricts Mr. Liddell's use or disclosure of any of our confidential information during the term of the agreement and for a period of five years thereafter.

We also entered into an oral agreement with James D. Palm, our Chief Executive Officer, with respect to his compensation and benefits, pursuant to which Mr. Palm is entitled to an annual salary of \$200,000 and, at the discretion of our board of directors, an annual cash incentive bonus. In 2007, Mr. Palm's annual salary was increased to \$225,000. Mr. Palm is also eligible to participate in all insurance, retirement and benefits plans available to our other employees.

Change in Control Arrangements

Our named executive officers do not currently have any change in control arrangements, except that Mr. Liddell's employment agreement provides that upon termination of Mr. Liddell's employment by us without cause, Mr. Liddell is entitled to receive twelve months of his then current base salary, and all of his then unexercisable options will become exercisable. See Employment Agreements above. In addition, our Amended and Restated 2005 Stock Incentive Plan provides that in the event of significant corporate transaction involving a change in control (as defined under the plan) of our company, such as a dissolution or liquidation of us, or any corporate separation or division, including, but not limited to, a split-up, a split-off or a spin-off, or a sale in one or a series of related transactions, of all or substantially all of our assets or a merger, consolidation, or reverse merger in which we are not the surviving entity, then all outstanding stock awards under the Amended and Restated 2005 Stock Incentive Plan may, in the sole discretion of the plan administrator, be assumed, continued or substituted for by any surviving or acquiring entity (or its parent company), or may be cancelled either with or without consideration for the vested portion of the awards. In the event an award would be cancelled without consideration paid to the extent vested, the award recipient may exercise the award in full or in part for a period of ten days. The plan administrator may also exercise its discretionary authority to accelerate the vesting of an award under the Amended and Restated 2005 Stock Incentive Plan in the event of a change in control.

Potential payments to our Chief Executive Officer and our other named executive officers upon termination or following a change in control event are set forth under the heading Potential Payments upon Termination or Change-in-Control.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits the deductibility for federal income tax purposes of executive compensation paid to the Chief Executive Officer and the four other most highly compensated officers of a public company to \$1,000,000 per year, but contains an exception for certain performance-based compensation. Our policy is to periodically review and consider whether particular compensation and incentive payments to our executives will be deductible for federal income tax purposes. We intend, to the extent feasible and when we believe it is in the best interests of our company and our stockholders, to attempt to qualify executive compensation as tax deductible where it does not adversely affect the development and execution of our compensation plans.

Table of Contents**Accounting Implications of Executive Compensation Policy**

We are required to recognize compensation expense of all stock-based awards pursuant to the principals set forth in Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*. Non-vested shares are deemed issued and outstanding from legal perspective; however, under U.S. generally accepted accounting principles, or GAAP, only vested shares are included in basic shares outstanding. Also, under GAAP, non-vested shares are included in diluted shares outstanding when the effect is dilutive.

Report of the Compensation Committee on Executive Compensation

The compensation committee has reviewed and discussed the foregoing Compensation Discussion and Analysis with management. Based on its review and discussion with management, the compensation committee recommended that the Compensation Discussion and Analysis be included in this proxy statement.

Retirement Plans

401(k) Plan

We maintain a retirement savings plan, or a 401(k) Plan, for the benefit of our eligible employees who have attained the age of 18. Currently, employees may elect to defer their compensation up to the statutorily prescribed limit. During the following year, we make a safe harbor contribution equal to 3% of each eligible employee's gross annual compensation for the prior calendar year. We also have the ability to make an additional, discretionary contribution based on each eligible employee's gross annual compensation for the prior calendar year. Both contributions are made, regardless of employee's deferrals into the plan. For 2007, we made a safe harbor and discretionary contribution totaling six percent for eligible employees, subject to certain limitations provided by our 401(k) plan and Internal Revenue Services regulations. All contributions made by us on behalf of an employee are 100% vested when contributed. The 401(k) Plan is intended to qualify under Sections 401(a) and 501(a) of the Internal Revenue Code. As such, contributions to the 401(k) Plan and earnings on those contributions are not taxable to the employees until distributed from the 401(k) Plan, and all contributions are deductible by us when made.

Amended and Restated 2005 Stock Incentive Plan

Our Amended and Restated 2005 Stock Incentive Plan was adopted to enable us, and any of our affiliates, to attract and retain the services of the types of employees, consultants and directors who will contribute to our long range success and to provide incentives which are linked directly to increases in share value which will inure to the benefit of our stockholders. The plan provides a means by which eligible recipients of awards may be given an opportunity to benefit from increases in value of our common stock through the granting of incentive stock options, nonstatutory stock options, restricted awards, performance awards and stock appreciation rights. Our board of directors, or a committee of the board of directors, serves as the plan administrator.

Eligible award recipients are employees, consultants and directors of ours and our affiliates. Incentive stock options may be granted only to our employees. Awards other than incentive stock options may be granted to employees, consultants and directors. The shares that may be issued pursuant to awards consist of our authorized but unissued common stock, and the maximum aggregate amount of such common stock which may be issued upon exercise of all awards in the plan, including incentive stock options, may not exceed 3,000,000 shares, subject to adjustment to reflect certain corporate transactions or changes in our capital structure. In 2007, we did not grant any awards to officers or directors. As of April 23, 2008, 527,380 shares were issuable upon exercise of outstanding options and 119,110 shares of restricted common stock had been granted under this plan. There were 1,238,007 shares available for future grants under this plan.

In the event of significant corporate transaction involving a change in control (as defined in the plan) of our company, such as a dissolution or liquidation of us, or any corporate separation or division, including, but not limited to, a split-up, a split-off or a spin-off, or a sale in one or a series of related transactions, of all or substantially all of our assets or a merger, consolidation, or reverse merger in which we are not the surviving entity, then all outstanding stock awards under the Amended and Restated 2005 Stock Incentive Plan may, in the sole discretion of the plan administrator, be assumed, continued, or substituted for by any surviving or acquiring entity (or its parent company), or may be cancelled either with or without consideration for the vested portion of the awards. In the event an award would be cancelled without consideration paid to the extent vested, the award recipient may exercise the award in full or in part for a period of ten days. The plan administrator may also exercise its discretionary authority to accelerate the vesting of an award under the Amended and Restated 2005 Stock Incentive Plan in the event of a change in control.

In May 1999, we entered into an employment agreement with Mike Liddell, our Chairman of the Board. The agreement had an initial five-year term and automatically renews for successive one-year terms thereafter. The agreement provides for an annual base salary of \$200,000, adjusted for cost of living increases. As a result of these increases, Mr. Liddell's base salary had risen to \$243,505 in 2007. Upon termination of Mr. Liddell's employment by us without cause, Mr. Liddell is entitled to receive twelve months of his then current base salary, and all of his then unexercisable options will become exercisable. The agreement also restricts Mr. Liddell's use or disclosure of any of our confidential information during the term of the agreement and for a period of five years thereafter.

We also entered into an oral agreement with James D. Palm, our Chief Executive Officer, with respect to his compensation and benefits, pursuant to which Mr. Palm is entitled to an annual salary of \$200,000 and, at the discretion of our board of directors, an annual cash incentive bonus. In 2007, Mr. Palm's annual salary was increased to \$225,000. Mr. Palm is also eligible to participate in all insurance, retirement and benefits plans available to our other employees.

Change in Control Arrangements

Our named executive officers do not currently have any change in control arrangements, except that Mr. Liddell's employment agreement provides that upon termination of Mr. Liddell's employment by us without cause, Mr. Liddell is entitled to receive twelve months of his then current base salary, and all of his then unexercisable options will become exercisable. See Employment Agreements above. In addition, our Amended and Restated 2005 Stock Incentive Plan provides that in the event of significant corporate transaction involving a change in control of our company, such as a dissolution or liquidation of us, or any corporate separation or division, including, but not limited to, a split-up, a split-off or a spin-off, or a sale in one or a series of related transactions, of all or substantially all of our assets or a merger, consolidation, or reverse merger in which we are not the surviving entity, then all outstanding stock awards under the Amended and Restated 2005 Stock Incentive Plan may, in the sole discretion of the plan administrator, be assumed, continued, or substituted for by any surviving or acquiring entity (or its parent company), or may be cancelled either with or without consideration for the vested portion of the awards. In the event an award would be cancelled without consideration paid to the extent vested, the award recipient may exercise the award in full or in part for a period of ten days. The plan

administrator may also exercise its discretionary authority to accelerate the vesting of an award under the Amended and Restated 2005 Stock Incentive Plan in the event of a change in control.

Potential payments to our Chief Executive Officer and our other named executive officers upon termination or following a change in control event are set forth under the heading Potential Payments upon Termination or Change-in-Control below.

Potential Payments Upon Termination or Change-in-Control

If Mr. Liddell had been terminated at December 31, 2007 without cause, he would have been entitled to \$250,162 in cash severance payments. The value of his unexercisable stock options would have been \$0. If Messrs. Palm and Moore had been terminated at December 31, 2007 for any reason, they would have been entitled to no cash severance payments.

The increase in audit fees from 2006 to 2007 primarily relates to our being subject to internal control audit requirements of Section 404 of the Sarbanes-Oxley Act of 2002 for the first time.

Audit-Related Fees aggregate fees for audit-related services, consisting of audits in connection with proposed or consummated dispositions, benefit plan audits, other subsidiary audits, special reports, and accounting consultations, were \$569 in 2006 and \$11,766 in 2007.

Tax and All Other Fees there were no tax or other fees for products or services provided by Grant Thornton in addition to the services described above in 2006 and 2007.

Does the Audit Committee approve the services provided by Grant Thornton?

It is our audit committee's policy to pre-approve all audit, audit related and permissible non-audit services rendered to us by our independent auditor. Consistent with such policy, all of the fees listed above that we incurred for services rendered by Grant Thornton LLP in fiscal 2006 and 2007 were pre-approved by our audit committee. No non-audit services were provided to us by Grant Thornton in 2006 or 2007.

Will a representative of Grant Thornton LLP be present at the meeting?

Yes, one or more representatives of Grant Thornton will be present at the meeting. The representatives will have an opportunity to make a statement if they desire and will be available to respond to appropriate questions from the stockholders.

However, we are submitting this proposal to the stockholders as a matter of good corporate practice. Approval of this proposal requires the affirmative vote of a majority of the votes cast on the proposal. If the appointment of Grant Thornton is not ratified, the Audit Committee will reconsider the appointment. Even if the appointment is ratified, the Audit Committee in its discretion may direct the appointment of a different independent

audit firm at any time during the year if it is determined that such change would be in best interests of the Company and its stockholders.

Stockholders who wish to propose a matter for action at the 2009 Annual Meeting, including the nomination of directors, but who do not wish to have the proposal or nomination included in the proxy statement, must notify the Company in writing of the information required by the provisions of our by-laws dealing with stockholder proposals. The notice must be delivered to our Corporate Secretary between February 13, 2009 and March 14, 2009. You can obtain a copy of our by-laws by writing the Corporate Secretary at the address below, or via the Internet at www.gulfportenergy.com under our Corporate Governance caption.

The board of directors is responsible for selecting and recommending director candidates and will consider nominees recommended by stockholders. If you wish to have the board of directors consider a nominee for director, you must send a written notice to our Corporate Secretary at the address provided above and include the information required by our by-laws and discussed on page 10 of this proxy statement.

Availability of Form 10-K and Annual Report to Stockholders

SEC rules require us to provide an Annual Report to stockholders who receive this proxy statement. Additional copies of the Annual Report, along with copies of our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, including the financial statements and the financial statement schedules, are available without charge to stockholders upon written request to Director of Investor Relations, Gulfport Energy Corporation, 14313 North May Avenue, Suite 100, Oklahoma City, Oklahoma 73134 or via the Internet at www.gulfportenergy.com. We will furnish the exhibits to our Annual Report on Form 10-K upon payment of our copying and mailing expenses.

Householding

The SEC permits a single set of annual reports and proxy statements to be sent to any household at which two or more stockholders reside if they appear to be members of the same family. Each stockholder continues to receive a separate proxy card. This procedure, referred to as householding, reduces the volume of duplicate information stockholders receive and reduces our mailing and printing expenses.
