**Item 2.02 Results of Operations and Financial Condition**

This Current Report on Form 8-K is being filed by Jazz Pharmaceuticals (the Company) to provide the following update on its business. The Company estimates that Xyrem® (sodium oxybate) sales for the fourth quarter of 2008 were in excess of \$15.5 million. This reflects a continuing increase in product sales and, to a small extent, a 29% price increase effective December 15, 2008. The Company estimates that ex-factory sales of Luvox CR® (fluvoxamine maleate) for the fourth quarter of 2008 were in excess of \$3.0 million. Cash and cash equivalents at December 31, 2008 were approximately \$27.0 million. The Company and Solvay Pharmaceuticals, Inc. are discussing a possible restructuring of the payments due to Solvay with respect to Luvox CR, and in connection with those discussions, the parties agreed to delay the payment that would otherwise have been due on December 15, 2008 until January 15, 2009; and there is a 15 day cure period for making that payment. As a result of the continuing increase in product sales, cost cutting measures that the Company implemented in 2008, and the previously disclosed reductions in force in June, November and December 2008, the Company's cash burn for 2009, beginning with the first quarter, is expected to be significantly lower than its 2008 cash burn.
