Explanatory Note:

This Current Report on Form 8-K amends the Current Report on Form 8-K that The Colonial BancGroup, Inc. filed on January 27, 2009.

Item 8.01. Other Events.

The Colonial BancGroup, Inc. today filed its Annual Report on Form 10-K for the year ended December 31, 2008. The 10-K reflects a change in the unrealized gain or loss on available for sale securities at December 31, 2008, previously reported in BancGroup's Current Report on Form 8-K filed January 27, 2009. The fair market value of these securities is measured using Level 3 inputs under SFAS 157, and as a result of a revised view of liquidity discounts in the marketplace, the fair value of the securities and the resulting unrealized loss were adjusted. The non-cash revision does not result in a change to Colonial's liquidity position or results of operations. In addition, the Company finalized the December 31, 2008 regulatory reports for Colonial Bank and BancGroup and updated the Tier I leverage, Tier I risk-based capital and total risk-based capital ratios. The primary changes to the regulatory ratios arose from the exclusion of a portion of deferred tax assets for regulatory capital purposes and the risk weighting of certain securities that are rated below investment grade.

Descriptions of Colonial's fair value methods and regulatory capital ratios as of December 31, 2008 are included in the Annual Report on Form 10-K filed today with the Securities and Exchange Commission.

This report includes forward-looking statements within the meaning of the federal securities laws. Words such as believes, estimates, plans, expects, should, may, might, could, outlook, potential, would and anticipates, the negative of these terms and similar expressions to The Colonial BancGroup, Inc. (BancGroup) (including its subsidiaries or its management), are intended to identify forward-looking statements. The forward-looking statements in this report are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in or implied by such statements. In addition to factors mentioned elsewhere in this report or previously disclosed in BancGroup's SEC reports (accessible on the SEC's website at www.sec.gov or on BancGroup's website at www.colonialbank.com), the following factors, among others, could cause actual results to differ materially from forward-looking statements, and future results could differ materially from historical performance. These factors are not exclusive:

losses to our loan portfolio are greater than estimated or expected;

an inability to raise additional capital on terms and conditions that are satisfactory;

failure to receive final approval for the U.S. Treasury Department's Capital Purchase Program;

the impact of current economic conditions on our ability to borrow additional funds to meet our liquidity needs;

economic conditions affecting real estate values and transactions in BancGroup's market and/or general economic conditions, either nationally or regionally, that are less favorable than expected;

changes in the interest rate environment which expand or reduce margins or adversely affect critical estimates as applied, projected returns on investments, and fair values of assets;

continued or sustained deterioration of market and economic conditions or business performance could increase the likelihood that we would have an additional goodwill impairment charge;

deposit attrition, customer loss, or revenue loss in the ordinary course of business;

increases in competitive pressure in the banking industry and from non-banks;

costs or difficulties related to the integration of the businesses of BancGroup and institutions it acquires are greater than expected;

the inability of BancGroup to realize elements of its strategic plans for 2009 and beyond;

natural disasters in BancGroup's primary market areas result in prolonged business disruption or materially impair the value of collateral securing loans;

management's assumptions and estimates underlying critical accounting policies prove to be inadequate or materially incorrect or are not borne out by subsequent events;

the impact of recent and future federal and state regulatory changes;

current and future litigation, regulatory investigations, proceedings or inquiries;

strategies to manage interest rate risk may yield results other than those anticipated;

changes which may occur in the regulatory environment;

a significant rate of inflation (deflation);

unanticipated litigation or claims;

changes in the securities markets;

acts of terrorism or war; and

details of the recently enacted Emergency Economic Stabilization Act of 2008, and various announced and unannounced programs implemented by the U.S. Treasury Department and bank regulators to address capital and liquidity concerns in the banking system, are still being finalized and may have a significant effect on the financial services industry and BancGroup.

Many of these factors are beyond BancGroup's control. The reader is cautioned not to place undue reliance on any forward looking statements made by or on behalf of BancGroup. Any such statement speaks only as of the date the statement was made or as of such date that may be referenced within the statement. BancGroup does not undertake any obligation to update or revise any forward-looking statements.
