Safe Harbor Statement

Statements in this release contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 27A of the Securities Exchange Act of 1934, as amended, and as defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, will, expects, anticipates, future, intends, plans, believes, estimates and similar statements and among other things, anticipated benefits as a result of our Win@Giant incubation program, our continued efforts to successfully operate and adjust our adjusted monetization structure for *ZT Online* and launch of *ZT Online* in Vietnam, our ability to successfully commercialize our products, our ability to represent only our belief regarding future events, many of which, by their nature, are inherently uncertain and outside of our control. Other circumstances may differ, possibly materially, from the anticipated results and financial condition indicated in these forward-looking statements because our actual results to differ from what we currently anticipate may include failure by *ZT Online* gamers to resume in-game purchases, our ability to develop, purchase and retain our players, our ability to develop and successfully launch expansion packs for our online games, our ability to adjust and enhance our revenues, our dependence on one online game, which currently accounts for the majority of our historical net revenues, our ability to navigate the current world economic crisis, our need to implement and maintain effective internal control over financial reporting, our limited history of our online game business model, our uncertainties with respect to the PRC legal and regulatory environments and volatility in the PRC market. The information contained in this slide presentation should be read in conjunction with the consolidated financial statements and notes thereto included in our annual report for fiscal year 2007, as filed with the Securities and Exchange Commission on June 18, 2008, and is available on the Securities and Exchange Commission's website. For additional information on these and other important factors that could adversely affect our business, financial condition, results of operations and future performance, beginning on page 7 of our annual report for fiscal year 2007. Our actual results of operations for the third quarter of 2008 are not necessarily indicative of future periods. Any projections in this slide presentation are based on limited information currently available to us, which is subject to change. Factors influencing them will likely change, we undertake no obligation to update or revise these forward-looking statements, whether written or oral, otherwise, after the date of this slide presentation. Such information speaks only as of the date of this slide presentation.

Currency Convenience Translation

This slide presentation contains translations of certain Renminbi (RMB) amounts into US dollars (US\$) at the rate of US\$1.00 per RMB as of December 31, 2008 in the City of New York for cable transfers in Renminbi per US dollar as certified for customs purposes by the US Customs and Border Protection. The representation that the Renminbi or US dollar amounts referred to in this slide presentation could have been, or could be, converted into US dollars in the Empire of Sports

and our ability to continue to grow our business and build long-term shareholder value. These forward-looking statements are
