**CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS**

Certain statements contained in this Form 10-Q and other written or oral statements made by or on behalf of Piedmont Office Realty Trust, Inc. ( Piedmont ) may constitute forward-looking statements within the meaning of the federal securities laws. In addition, Piedmont, or its executive officers on Piedmont s behalf, may from time to time make forward-looking statements in reports and other documents Piedmont files with the Securities and Exchange Commission or in connection with oral statements made to the press, potential investors, or others. Statements regarding future events and developments and Piedmont s future performance, as well as management s expectations, beliefs, plans, estimates, or projections relating to the future, are forward-looking statements within the meaning of these laws. Forward-looking statements include statements preceded by, followed by, or that include the words may, will, expect, intend, anticipate, estimate, believe, continue, or similar words. Examples of such statements in this report include descriptions of our real estate, financing, and operating objectives; discussions regarding future dividends; and discussions regarding the potential impact of economic conditions on our portfolio.

These statements are based on beliefs and assumptions of Piedmont s management, which in turn are based on currently available information. Important assumptions relating to the forward-looking statements include, among others, assumptions regarding the demand for office space in the sectors in which Piedmont operates, competitive conditions, and general economic conditions. These assumptions could prove inaccurate. The forward-looking statements also involve risks and uncertainties, which could cause actual results to differ materially from those contained in any forward-looking statement. Many of these factors are beyond Piedmont s ability to control or predict. Such factors include, but are not limited to, the following:

Our ability to successfully identify and consummate suitable acquisitions;

If current market and economic conditions do not improve, our business, results of operations, cash flows, financial condition and access to capital may be adversely affected;

Lease terminations or lease defaults, particularly by one of Piedmont s larger tenants;

The impact of competition on Piedmont s efforts to renew existing leases or re-lease space on terms similar to existing leases;

Changes in the economies and other conditions of the office market in general and of the specific markets in which Piedmont operates, particularly in Chicago, Washington, D.C., and the New York metropolitan area;

Economic and regulatory changes, including accounting standards, that impact the real estate market generally;

Additional risks and costs associated with directly managing properties occupied by government tenants;

Adverse market and economic conditions and related impairments to Piedmont s real estate assets and other intangible assets;

The success of our real estate strategies and investment objectives;

Availability of financing and banks ability to honor existing line of credit commitments;

## Edgar Filing: Piedmont Office Realty Trust, Inc. - Form 10-Q

Costs of complying with governmental laws and regulations;

Uncertainties associated with environmental and other regulatory matters;

Piedmont's ability to continue to qualify as a REIT under the Internal Revenue Code of 1986, as amended; and

Other factors, including the risk factors discussed under Item 1A. of Piedmont's Annual Report on Form 10-K for the year ended December 31, 2009, and Item 1A. of this Quarterly Report on Form 10-Q.

Management believes these forward-looking statements are reasonable; however, undue reliance should not be placed on any forward-looking statements, which are based on current expectations. Further, forward-looking statements speak only as of the date they are made, and management undertakes no obligation to update publicly any of them in light of new information or future events.

**PART I. FINANCIAL STATEMENTS**

**ITEM 1. CONSOLIDATED FINANCIAL STATEMENTS**

The information furnished in the accompanying consolidated balance sheets and related consolidated statements of operations, stockholders equity, and cash flows reflects all adjustments that are, in management's opinion, necessary for a fair and consistent presentation of financial position, results of operations, and cash flows in accordance with U.S. generally accepted accounting principles.

The accompanying financial statements should be read in conjunction with the notes to Piedmont's financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in this report on Form 10-Q and with Piedmont's Annual Report on Form 10-K for the year ended December 31, 2009. Piedmont's results of operations for the three months and nine months ended September 30, 2010 are not necessarily indicative of the operating results expected for the full year.

**SCHEDULE OF INVESTMENTS (Continued)  
MARCH 31, 2014**

- (5) The CLO secured notes generally bear interest at a rate determined by reference to LIBOR which resets quarterly. For each CLO debt investment, the rate provided is as of March 31, 2014. The CLO subordinated notes and income notes are considered equity positions in the CLO funds. Equity investments are entitled to recurring distributions which are generally equal to the remaining cash flow of the payments made by the underlying fund's securities less contractual payments to debt holders and fund expenses.
- (6) The estimated yield indicated is based upon a current projection of the amount and timing of these recurring distributions and the estimated amount of repayment of principal upon termination. Such projections are periodically reviewed and adjusted, and the estimated yield may not ultimately be realized.
- (7) The Class B preference shares represent an investment in a warehouse facility, which is a financing structure intended to aggregate loans that may be used to form the basis of a CLO vehicle.

**OXFORD LANE CAPITAL CORP.**

**NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 2014**

**NOTE 1. ORGANIZATION**

Oxford Lane Capital Corp. ( OXLC, we or the Fund ) was incorporated under the General Corporation Laws of the State of Maryland on June 9, 2010 as a non-diversified closed-end management investment company that has registered as an investment company under the Investment Company Act of 1940, as amended (the 1940 Act ). In addition, the Fund has elected to be treated for tax purposes as a regulated investment company, or RIC, under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code ). The Fund s investment objective is to maximize its portfolio s risk adjusted total return and seeks to achieve its investment objective by investing in structured finance investments, specifically collateralized loan obligation ( CLO ) vehicles which primarily own senior corporate debt securities.

OXLC s investment activities are managed by Oxford Lane Management LLC, ( OXLC Management ), a registered investment adviser under the Investment Advisors Act of 1940, as amended. BDC Partners LLC ( BDC Partners ) is the managing member of OXLC Management and serves as the administrator of OXLC.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**USE OF ESTIMATES**

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations and provide indemnifications. The Fund s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based upon experience, the Fund expects the risk of loss to be remote.

**CASH AND CASH EQUIVALENTS**

The Fund considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents. At March 31, 2014, cash and cash equivalents consisted solely of demand deposits maintained at well-capitalized financial institutions.

## INVESTMENT VALUATION

The most significant estimates made in the preparation of the Fund's financial statements are the valuation of investments and the effective yield calculations, as well as the related amounts of unrealized appreciation and depreciation of investments recorded. OXLC believes that there is no single definitive method for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments that OXLC makes. The Fund is required to specifically fair value each individual investment on a quarterly basis.

The Fund complies with ASC 820-10, *Fair Value Measurements and Disclosure*, which establishes a three-level valuation hierarchy for disclosure of fair value measurements. ASC 820-10 clarified the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820-10 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities in markets that are not active; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity

to develop its own assumptions. The Fund has determined that due to the general illiquidity of the market for the Fund's investment portfolio, whereby little or no market data exists, all of the Fund's investments are valued based upon Level 3 inputs as of March 31, 2014. The Fund's Board of Directors determines the value of OXLC's investment portfolio each quarter. The prices used by the Fund to value securities may differ from the value that would be realized if the securities were sold, and these differences could be material to the Fund's financial statements.

OXLC has acquired a number of debt and equity positions in CLO investment vehicles, which are special purpose financing vehicles. In valuing such investments, OXLC considers indicative prices provided by a recognized industry pricing service as well as the indicative prices provided by the broker who arranges transactions in such investment vehicles, to the extent available, as well as any available information on other relevant transactions including trades, if any, and firm bids and offers in the market. In addition, OXLC considers the range of yields for such investments across the market, the operating metrics of the specific investment vehicle, including, but not limited to, net asset value, projected cash flows, compliance with collateralization tests, and defaulted and CCC-rated securities, if any.

Using the pricing service's indicative price as a starting point, if the implied yield is outside the market range, the valuation may be adjusted to a point within the market range. However, the impact of other market information, such as broker prices, actual trades and firm bids and offers as well as operating metrics of such investment, may also affect the valuation. On occasion, an indicative price that results in an implied yield that is within the market range may also be adjusted, depending upon the reliability and volume of other market information. OXLC Management or the Valuation Committee may request an additional analysis by a third-party firm to assist in the valuation process of CLO investment vehicles. This information is presented to the Board for its determination of fair value of these investments.

The Fund may also invest directly in senior secured loans (either in the primary or secondary markets). In valuing such investments, OXLC Management will prepare an analysis of each loan, including a financial summary, covenant compliance review, recent trading activity in the security, if known, and other business developments related to the portfolio company. Any available information, including non-binding indicative bids obtained from a recognized industry pricing service and agent banks which may not be considered reliable, will be presented to the Valuation Committee of the Board to consider in its determination of fair value. In some instances, there may be limited trading activity in a security even though the market for the security is considered not active. In such cases the Board will consider the number of trades, the size and timing of each trade and other circumstances around such trades, to the extent such information is available, in its determination of fair value. At March 31, 2014, the Fund did not have any direct investments in senior secured loans.

*ASC 820-10-35, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly,* provides guidance on factors that should

be considered in determining when a previously active market becomes inactive and whether a transaction is orderly. In accordance with ASC 820-10-35, the Fund's valuation procedures specifically provide for the review of indicative quotes supplied by the brokers or agent banks that make a market for each security.

TABLE OF CONTENTS**OXFORD LANE CAPITAL CORP.****NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 2014****NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(continued)**

The Fund's assets measured at fair value on a recurring basis subject to the disclosure requirements of ASC 820-10-35 at March 31, 2014, were as follows:

Assets	Fair Value Measurements at Reporting Date			Total
	Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	(\$ in millions)	(\$ in millions)	(\$ in millions)	(\$ in millions)
CLO debt	\$	\$	\$ 22.5	\$ 22.5
CLO equity			214.2	214.2
Total	\$	\$	\$ 236.7	\$ 236.7

**Significant Unobservable Inputs for Level 3 Investments**

In accordance with ASC 820-10, the following table provides quantitative information about the Fund's Level 3 fair value measurements as of March 31, 2014. The Fund's valuation policy, as described above, establishes parameters for the sources and types of valuation analysis, as well as the methodologies and inputs that the Fund uses in determining fair value. If the Valuation Committee or OXLC Management determines that additional techniques, sources or inputs are appropriate or necessary in a given situation, such additional work may be undertaken. The table, therefore, is not all-inclusive, but provides information on the significant Level 3 inputs that are pertinent to the Fund's fair value measurements. The weighted average calculations in the table below are based on principal balances for all CLO debt and equity investments.

Assets	Quantitative Information about Level 3 Fair Value Measurements		
	Fair Valuation	Unobservable	Range/Weighted Average

Edgar Filing: Piedmont Office Realty Trust, Inc. - Form 10-Q

	Value as of March 31, 2014 (\$ in millions)	Techniques/ Methodologies	Input			
CLO debt	\$22.5	market quotes	NBIB	(1)	86.54%	97.57%/91.28%
CLO equity	155.3	market quotes	NBIB	(1)	43.5%	119.15%/85.52%
	58.9	recent transactions	recent transactions		n/a	
Total Fair Value for Level 3 Investments	\$236.7					

The Fund generally uses prices provided by an independent pricing service or broker or agent bank non-binding indicative bid prices ( NBIB ) on or near the valuation date as the primary basis for the fair value determinations for CLO debt and equity investments. These bid prices are non-binding, and may not be determinative of fair value. (1)Each bid price is evaluated by the Valuation Committee in conjunction with additional information compiled by OXLC Management, including actual trades and firm bids and offers, if any, financial performance, recent business developments, and, in the case of CLO debt and equity investments, performance and covenant compliance information as provided by the independent trustee. Significant increases or decreases in any of the unobservable inputs in isolation may result in a significantly lower or higher fair value measurement.

(1) Includes rounding adjustment to reconcile ending period balances.

The Fund's policy is to recognize transfers in and transfers out of valuation levels as of the beginning of the reporting period. There were no transfers between Level 1, Level 2 and Level 3 during the year ended March 31, 2014.

**PREFERRED STOCK**

The Fund carries its mandatorily redeemable preferred stock at accreted cost on the statement of assets and liabilities, and not fair value. For disclosure purposes, the fair value of the 8.50% Series 2017 Term Preferred Shares (the Series 2017 Shares ) and 7.50% Series 2023 Term Preferred Shares (the Series 2023 Shares ) are approximately \$16.5 and \$63.0 million, respectively, at March 31, 2014. The fair value of the Series 2017 Shares and Series 2023 Shares is

based upon a closing price per share of \$26.02 and \$23.97, respectively, at March 31, 2014. The Fund considers its preferred stock to be a level 3 liability within the fair value hierarchy.

## **PREPAID EXPENSES**

Prepaid expenses consist primarily of insurance costs.

## **INVESTMENT INCOME RECOGNITION**

Interest income from debt positions in CLO investment vehicles is recorded on the accrual basis to the extent that such amounts are expected to be collected. Amortization of premium or accretion of discount is recognized on the effective yield method.

Interest income from investments in the equity class securities of CLO investment vehicles (typically income notes or subordinated notes) is recorded based upon an estimation of an effective yield to maturity utilizing assumed cash flows. The Fund monitors the expected cash flows from its CLO equity investments, including the expected residual payments, and effective yield is determined and updated periodically, as needed.

(continued)**

**FEDERAL INCOME TAXES**

The Fund intends to operate so as to qualify to be taxed as a RIC under Subchapter M of the Internal Revenue Code and, as such, to not be subject to federal income tax on the portion of its taxable income and gains distributed to stockholders. To qualify for RIC tax treatment, OXLC is required to distribute at least 90% of its investment company taxable income, as defined by the Code.

Because federal income tax regulations differ from accounting principles generally accepted in the United States, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified among capital accounts in the financial statement to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. Differences in classification may also result from the treatment of short-term gains as ordinary income for tax purposes.

For the year ended March 31, 2014, the Fund declared and paid dividends on common stock of \$2.35 per share or approximately \$23.2 million. The Fund declared and paid dividends on common stock of \$2.20 per share or approximately \$12.4 million for the year ended March 31, 2013. The tax character of distributions paid on common stock in 2014 represents approximately \$20,202,000 of ordinary income and approximately \$3,019,000 of capital gains, with no return of capital. The tax character of distributions paid on common stock in 2013 represents approximately \$12,067,000 of ordinary income and approximately \$349,000 of capital gains, with no return of capital.

For the years ended March 31, 2014 and March 31, 2013 the Fund also declared and paid dividends on preferred stock of approximately \$3,982,000 and \$459,000, respectively. The tax character of distributions paid on preferred stock represents ordinary income.

As of March 31, 2014, the estimated components of distributable earnings, on a tax basis, were as follows:

Distributable ordinary income	\$ 1,253,007
Distributable long-term capital gains	\$ 2,794,578
Unrealized appreciation on investments	\$ 7,081,555

The tax basis components of distributable earnings differ from the amounts reflected in the Statement of Assets and Liabilities due to temporary book/tax differences primarily arising from investments in equity CLOs and permanent book/tax differences attributable to non-deductible excise taxes. These amounts will be finalized before filing the federal tax return.

Aggregate gross unrealized appreciation for tax purposes is \$14,175,985; and aggregate gross unrealized depreciation of \$7,094,430. For tax purposes, the cost basis of the portfolio investments at March 31, 2014 was \$229,602,762.

## **DIVIDENDS AND DISTRIBUTIONS**

Dividends from net investment income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which differ from GAAP. Dividends from net investment income, if any, are expected to be declared and paid quarterly. Net realized capital gains, unless offset by any available capital loss carry-forward, are typically distributed to shareholders annually. Dividends and distributions to shareholders are recorded on the ex-dividend date and are automatically reinvested in full and fractional shares of the Fund in accordance with the Fund's dividend reinvestment plan unless the shareholder has elected to have them paid in cash.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(continued)**

Amounts required to be distributed reflect estimates made by the Fund. Dividends paid by the Fund are subject to re-characterization for tax purposes.

**CONCENTRATION OF CREDIT RISK**

At March 31, 2014, the Fund maintained a cash balance with State Street Bank and Trust Co. The Fund is subject to credit risk arising should State Street Bank and Trust Co. be unable to fulfill its obligations. In addition, the Fund's portfolio may be concentrated in a limited number of investments in CLO vehicles, which will subject the Fund to a risk of significant loss if that sector experiences a market downturn.

**SECURITIES TRANSACTIONS**

Securities transactions are recorded on trade date. Realized gains and losses on investments sold are recorded on the basis of specific identification.

**DEFERRED OFFERING COSTS**

Deferred offering costs consist principally of legal, accounting, filing and underwriting fees incurred that are related to an offering proposed by the Fund. The deferred offering costs will be charged to capital upon the completion of an offering or charged to expense if the offering is unsuccessful. Expenses related to shelf offerings are charged to capital as securities registered are issued.

**DEFERRED ISSUANCE COSTS**

Deferred issuance costs represent underwriting fees and other direct costs incurred that are related to the Fund's preferred stock offerings. The deferred issuance costs are being amortized and included in interest expense on mandatorily redeemable preferred stock in the statement of operations over the term of the Series 2017 and 2023 Shares.

**NOTE 3. RELATED PARTY TRANSACTIONS**

Effective September 9, 2010, the Fund entered into an Investment Advisory Agreement with OXLC Management, a registered investment adviser under the Investment Advisers Act of 1940, as amended. BDC Partners is the managing

member of OXLC Management and serves as the administrator of OXLC. Pursuant to the Investment Advisory Agreement, the Fund has agreed to pay OXLC Management a fee for advisory and management services consisting of two components – a base management fee and an incentive fee. The base-management fee is calculated at an annual rate of 2.00% of the Fund's gross assets. For services rendered under the Investment Advisory Agreement, the base management fee is payable quarterly in arrears.

The base management fee is calculated based on the average value of the Fund's gross assets, which means all assets of any type, at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter will be appropriately pro-rated.

The incentive fee is calculated and payable quarterly in arrears based on the pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees, such as commitment, origination, structuring, diligence and consulting fees or other fees that are received from an investment) accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement to BDC Partners, and any interest expense and dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes accrued income that the Fund has not yet received in cash. Pre-incentive fee net investment income does not include any realized or unrealized capital gains or losses, and the Fund could incur incentive fees in periods when there is a net decrease in net assets from operations. Pre-incentive fee net investment income, expressed as a rate of return on the value of the

Fund's net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle of 1.75% per quarter (7.00% annualized). Our undistributed net investment income used to calculate the incentive fee is also included in the amount of the Fund's gross assets used to calculate the 2.00% base management fee. The incentive fee with respect to the Fund's pre-incentive fee net investment income in each calendar quarter is calculated as follows:

no incentive fee in any calendar quarter in which the Fund's pre-incentive fee net investment income does not exceed the hurdle of 1.75%;

100% of pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle but is less than 2.1875% in any calendar quarter (8.75% annualized). The Fund refers to this portion of the pre-incentive fee net investment income (which exceeds the hurdle but is less than 2.1875%) as the catch-up. The catch-up is meant to provide the investment adviser with 20% of the pre-incentive fee net investment income as if a hurdle did not apply if the net investment income exceeds 2.1875% in any calendar quarter; and

20% of the amount of pre-incentive fee net investment income, if any, that exceeds 2.1875% in any calendar quarter (8.75% annualized) is payable to OXLC Management (once the hurdle is reached and the catch-up is achieved, 20% of all pre-incentive fee net investment income thereafter is allocated to OXLC Management).

There is no offset in subsequent quarters for any quarter in which an incentive fee is not earned. For the year ended March 31, 2014, the Fund accrued incentive fee expenses of approximately \$2.2 million. At March 31, 2014, the Fund has an incentive fee payable of approximately \$705,000.

Effective September 9, 2010, the Fund entered into an administration agreement with BDC Partners to serve as its administrator. Under the administration agreement, BDC Partners performs, or oversees the performance of, the Fund's required administrative services, which include, among other things, being responsible for the financial records which the Fund is required to maintain and preparing reports to the Fund's stockholders.

In addition, BDC Partners assists the Fund in determining and publishing the Fund's net asset value, oversees the preparation and filing of the Fund's tax returns and the printing and dissemination of reports to the Fund's stockholders, and generally oversees the payment of the Fund's expenses and the performance of administrative and professional services rendered to the Fund by others. Payments under the administration agreement are equal to an amount based upon the Fund's allocable portion of BDC Partners' overhead in performing its obligations under the administration agreement, including rent, the fees and expenses associated with performing compliance functions and the Fund's allocable portion of the compensation of the Fund's chief financial officer, chief compliance officer, controller and treasurer, and any administrative support staff. The administration agreement may be terminated by either party without penalty upon 60 days' written notice to the other party.

The independent directors receive an annual fee of \$35,000. In addition, the independent directors receive \$2,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Board meeting,

\$1,500 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Valuation Committee meeting and \$1,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Audit Committee meeting. The Chairman of the Audit Committee also receives an additional annual fee of \$5,000. No compensation will be paid to directors who are interested persons of the Fund as defined in the 1940 Act.

Certain directors, officers and other related parties, including members of OXLC Management, own 4.2% of the common stock of the Fund at March 31, 2014.

**NOTE 4. OTHER INCOME**

Other income includes closing fees, or origination fees, associated with investments in portfolio companies. Such fees are normally paid at closing of the Fund's investments, are fully earned and non-refundable, and are generally non-recurring. The Fund had no such income for the year ended March 31, 2014.

**NOTE 5. SERIES 2017 TERM PREFERRED SHARES**

The Fund has authorized five million preferred shares at a par value of \$0.01 per share. On November 28, 2012, the Fund completed an underwritten public offering of 600,000 shares of its newly designated 8.50% Series 2017 Term Preferred Shares (the Series 2017 Shares) at a public offering price of \$25 per share, less underwriting fees and offering costs. The Fund also granted the underwriters a 30-day option to purchase additional shares of Series 2017 Shares on the same terms and conditions to cover over-allotments. On December 10, 2012, the underwriters purchased an additional 32,450 shares of Series 2017 Shares. The total net proceeds to the Fund from the issuance of the Series 2017 Shares were approximately \$14.8 million.

The Fund is required to redeem all of the outstanding Series 2017 Shares on December 31, 2017 at a redemption price equal to \$25 per share plus an amount equal to accumulated but unpaid dividends, if any, to the date of the redemption. OXLC cannot effect any amendment, alteration, or repeal of the Fund's obligation to redeem all of the Series 2017 Shares on December 31, 2017 without the prior unanimous vote or consent of the holders of Series 2017 Shares. If the Fund fails to maintain an asset coverage ratio of at least 200%, the Fund will redeem a portion of the outstanding Series 2017 Shares in an amount at least equal to the lesser of (1) the minimum number of shares of Series 2017 Shares necessary to cause OXLC to meet our required asset coverage ratio, and (2) the maximum number of Series 2017 Shares that OXLC can redeem out of cash legally available for such redemption. At any time on or after December 31, 2014, at the Fund's sole option, the Fund may redeem the Series 2017 Shares at a redemption price per share equal to the sum of the \$25 liquidation preference per share plus an amount equal to accumulated but unpaid dividends, if any, on the Series 2017 Shares.

Deferred issuance costs represent underwriting fees and other direct costs incurred that are related to the Fund's preferred stock offering. As of March 31, 2014, the Fund had deferred issuance costs of approximately \$0.7 million. In addition, the Fund pays monthly dividends on the preferred shares at an annual rate of 8.50% of the \$25 liquidation preference per share, or \$2.125 per year, on the last business day of each month. The deferred issuance costs are being amortized and included, along with the monthly dividend payment, in interest expense on mandatorily redeemable preferred stock in the statement of operations over the term of the Series 2017 Shares. Amortization expense for the year ended March 31, 2014 was approximately \$0.2 million. The Fund also paid dividends for the year ended March 31, 2014 on Series 2017 Shares of approximately \$1.3 million.

## **NOTE 6. SERIES 2023 TERM PREFERRED SHARES**

The Fund has authorized five million preferred shares at a par value of \$0.01 per share. On June 21, 2013, the Fund completed an underwritten public offering of 800,000 shares of its newly designated 7.50% Series 2023 Term Preferred Shares (the Series 2023 Shares ); at a public offering price of \$25 per share, less underwriting fees and offering costs. The Fund also granted the underwriters a 30-day option to purchase additional shares of Series 2023 Shares on the same terms and conditions to cover over-allotments. On July 10, 2013, the underwriters purchased an additional 62,000 shares of Series 2023 Shares. The total net proceeds to the Fund from the issuance of the Series 2023 Shares were approximately \$20.5 million. On November 18, 2013, the Fund completed an offering of additional shares of its Series 2023 Shares in an underwritten public offering. The Fund sold 1,767,770 shares, including 142,770 shares sold pursuant to a

partial exercise of a 30-day option granted to the underwriters at a purchase price of \$22.50 per share. The total net proceeds to the Fund from the additional issuance of the Series 2023 Shares were approximately \$38.1 million.

The Fund is required to redeem all of the outstanding Series 2023 Shares on June 30, 2023 at a redemption price equal to \$25 per share plus an amount equal to accumulated but unpaid dividends, if any, to the date of the redemption.

OXLC cannot effect any amendment, alteration, or repeal of the Fund's obligation to redeem all of the Series 2023 Shares on June 30, 2023 without the prior unanimous vote or consent of the holders of Series 2023 Shares. If the Fund fails to maintain an asset coverage ratio of at least 200%, the Fund will redeem a portion of the outstanding Series 2023 Shares in an amount at least equal to the lesser of (1) the minimum number of shares of Series 2023 Shares necessary to cause OXLC to meet our required asset coverage ratio, and (2) the maximum number of Series 2023 Shares that OXLC can redeem out of cash legally available for such redemption. At any time on or after June 30, 2016, at the Fund's sole option, the Fund may redeem the Series 2023 Shares at a redemption price per share equal to the sum of the \$25 liquidation preference per share plus an amount equal to accumulated but unpaid dividends, if any, on the Series 2023 Shares.

Deferred issuance costs represent underwriting fees and other direct costs that are related to the Fund's preferred stock offering. As of March 31, 2014, the Fund had a deferred issuance balance of approximately \$2.7 million. Discount on the preferred shares at the time of issuance totaled approximately \$4.4 million. In addition, the Fund pays monthly dividends on the preferred shares at an annual rate of 7.50% of the \$25 liquidation preference per share, or \$1.875 per year, on the last business day of each month. The deferred issuance costs and discount on the preferred shares are being amortized and included, along with the monthly dividend payment, in interest expense on mandatorily redeemable preferred stock in the statement of operations over the term of the Series 2023 Shares. The accretion of discount for the year ended March 31, 2014 was approximately \$0.2 million. The amortization expense for the year ended March 31, 2014 was approximately \$0.2 million and the Fund paid dividends for the year ended March 31, 2014 on Series 2023 Shares of approximately \$2.6 million.

**NOTE 7. PURCHASES AND SALES AND REPAYMENTS OF  
SECURITIES**

Purchases of securities totaled approximately \$159.2 million, and sales and repayments of securities totaled approximately \$44.4 million, excluding short-term investments, for the year ended March 31, 2014.

**NOTE 8. COMMITMENTS AND CONTINGENCIES**

In the normal course of business, the Fund enters into a variety of undertakings containing warranties and indemnifications that may expose the Fund to some risk of loss. The risk of future loss arising from such undertakings, while not quantifiable, is expected to be remote.

As of March 31, 2014, the Fund had issued a commitment to purchase \$5.6 million of B&M CLO 2014-1, Ltd. Junior Notes and a commitment to purchase an additional \$25 million of Venture XVII CLO, Limited Class B Preference Shares.

The Fund is not currently subject to any material legal proceedings. From time to time, the Fund may be a party to certain legal proceedings in the ordinary course of business, including proceedings related to the enforcement of the Fund's rights under contracts with its portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, the Fund does not expect that these proceedings will have a material impact upon its financial condition or results of operations.

(3) Net realized and unrealized capital gains and losses include rounding adjustments to reconcile change in net asset value per share.

Management monitors available taxable earnings, including net investment income and realized capital gains, to determine if a tax return of capital may occur for the year. To the extent the Fund's taxable earnings fall below the (4) total amount of the Fund's distributions for that fiscal year, a portion of those distributions may be deemed a tax return of capital to the Fund's stockholders. The final determination of the nature of our distributions can only be made upon the filing of our tax return.

(5) Based upon actual shares outstanding upon share issuance.

Total return based on market value is calculated assuming that shares of the Fund's common stock were purchased at the market price as of the beginning of the period, and that dividends, capital gains and other distributions were (6) reinvested as provided for in the Fund's dividend reinvestment plan, excluding any discounts, and that the total number of shares were sold at the closing market price per share on the last day of the period. The computation does not reflect any sales commission investors may incur in purchasing or selling shares of the Fund.

**NOTE 11. RISK DISCLOSURES**

The U.S. capital markets have experienced periods of extreme volatility and disruption over the past five years. Disruptions in the capital markets tend to increase the spread between the yields realized on risk-free and higher risk securities, resulting in illiquidity in parts of the capital markets. The Fund believes these conditions may reoccur in the future. A prolonged period of market illiquidity may have an adverse effect on the Fund's business, financial condition and results of operations. Adverse economic conditions could also limit the Fund's access to the capital markets or result in a decision by lenders not to extend credit to the Fund. These events could limit the Fund's investment purchases, limit the Fund's ability to grow and negatively impact the Fund's operating results.

OXLC Management's investment team also presently manages the portfolios of TICC Capital Corp., a publicly-traded business development company that invests principally in the debt of U.S.-based companies, TICC CLO LLC, a subsidiary of TICC Capital Corp. 2011-1 Holdings, LLC, a direct subsidiary of TICC Capital Corp., the assets of which are included in the gross assets of TICC Capital Corp., TICC CLO 2012-1 LLC, a direct subsidiary of TICC Capital Corp., the assets of which are included in the gross assets of TICC Capital Corp., and T2 Income Fund CLO I Ltd., a CLO structured finance vehicle that invests in a diversified portfolio of Senior Loans. In certain instances, the

Fund may co-invest on a concurrent basis with affiliates of its investment adviser, subject to compliance with applicable regulations and regulatory guidance and our written allocation procedures. Such co-investment may require exemptive relief from the SEC. If relief is sought, there can be no assurance when, or if, such relief may be obtained. No co-investments that would require exemptive relief have been made. The affiliated entities of the Fund are subject

to a written policy with respect to the allocation of investment opportunities.

Given the structure of the Fund's Investment Advisory Agreement with OXLC Management, any general increase in interest rates will likely have the effect of making it easier for OXLC Management to meet the quarterly hurdle rate for payment of income incentive fees under the Investment Advisory Agreement without any additional increase in relative performance on the part of the Fund's investment adviser. In addition, in view of the catch-up provision applicable to income incentive fees under the Investment Advisory Agreement, the investment adviser could potentially receive a significant portion of the increase in the Fund's investment income attributable to such a general increase in interest rates. If that were to occur, the Fund's increase in net earnings, if any, would likely be significantly smaller than the relative increase in the investment adviser's income incentive fee resulting from such a general increase in interest rates.

**NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 2014**

**NOTE 11. RISK DISCLOSURES (continued)**

The Fund's portfolio consists of equity and junior debt investments in CLO vehicles, which involve a number of significant risks. CLO vehicles are typically very highly levered (10–14 times), and therefore the junior debt and equity tranches that the Fund invests in are subject to a higher degree of risk of total loss. In particular, investors in CLO vehicles indirectly bear risks of the underlying debt investments held by such CLO vehicles. The Fund generally has the right to receive payments only from the CLO vehicles, and generally does not have direct rights against the underlying borrowers or the entity that sponsored the CLO vehicle. While the CLO vehicles the Fund targets generally enable the investor to acquire interests in a pool of Senior Loans without the expenses associated with directly holding the same investments, the Fund generally pays a proportionate share of the CLO vehicles' administrative and other expenses. Although it is difficult to predict whether the prices of indices and securities underlying CLO vehicles will rise or fall, these prices (and, therefore, the prices of the CLO vehicles) will be influenced by the same types of political and economic events that affect issuers of securities and capital markets generally. The failure by a CLO vehicle in which we invest to satisfy financial covenants, including with respect to adequate collateralization and/or interest coverage tests, could lead to a reduction in its payments to us. In the event that a CLO vehicle fails certain tests, holders of debt senior to us may be entitled to additional payments that would, in turn, reduce the payments we would otherwise be entitled to receive. Separately, we may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms with a defaulting CLO vehicle or any other investment we may make. If any of these occur, it could materially and adversely affect our operating results and cash flows.

The interests the Fund has acquired in CLO vehicles are generally thinly traded or have only a limited trading market. CLO vehicles are typically privately offered and sold, even in the secondary market. As a result, investments in CLO vehicles may be characterized as illiquid securities. In addition to the general risks associated with investing in debt securities, CLO vehicles carry additional risks, including, but not limited to: (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments; (ii) the quality of the collateral may decline in value or default; (iii) the fact that the Fund's investments in CLO tranches will likely be subordinate to other senior classes of note tranches thereof; and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the CLO vehicle or unexpected investment results. The Fund's net asset value may also decline over time if the Fund's principal recovery with respect to CLO equity investments is less than the price that the Fund paid for those investments. Further, to the extent income from the Fund's CLO equity investments (which the Fund expects to decline as those vehicles deleverage after the end of their respective reinvestment periods) declines or if the Fund transitions its portfolio into lower yielding investments, the Fund's ability to pay future dividends may be harmed.

An increase in LIBOR would materially increase the CLO vehicles' financing costs. Since most of the collateral positions within the CLO investments have LIBOR floors, there may not be corresponding increases in investment income (if LIBOR increases but stays below the LIBOR floor rate of such investments) resulting in materially smaller distribution payments to the equity investors.

To illustrate the potential impact of a change in the underlying interest rate on our total estimated taxable income as it pertains to our CLO investments, we have assumed a 1% increase in the underlying three-month LIBOR, and no other change in our CLO portfolio, or to any of the credit, spread, default rate or other factors, as of March 31, 2014. Under this analysis, we currently estimate the effect on total estimated taxable income to equal a decrease of approximately \$14.0 million on an annualized basis, reflecting the portfolio assets held within these CLO vehicles which have implied floors that would be unaffected by a 1% change in the underlying interest rate, compared to the debt carried by those CLO vehicles which are at variable rates and which would be affected by a change in three-month LIBOR. Although management believes that this analysis is broadly indicative of our existing LIBOR sensitivity, it does not adjust for changes in any of the other assumptions that could effect the return on CLO equity investments, both positively and negatively (and

which could accompany changes to the three-month LIBOR rate), such as default rates, recovery rates, prepayment rates, reinvestment rates, and other factors that could affect the net increase (or decrease) in net assets resulting from operations. Accordingly, it is highly probable that actual results would differ materially from the results under this hypothetical analysis.

OXLC Management anticipates that the CLO vehicles in which the Fund invests may constitute passive foreign investment companies ( PFICs ). If the Fund acquires shares in a PFIC (including equity tranche investments in CLO vehicles that are PFICs), the Fund may be subject to federal income tax on a portion of any excess distribution or gain from the disposition of such shares even if such income is distributed as a taxable dividend by the Fund to its stockholders. Certain elections may be available to mitigate or eliminate such tax on excess distributions, but such elections (if available) will generally require the Fund to recognize its share of the PFICs income for each year regardless of whether the Fund receives any distributions from such PFICs. The Fund must nonetheless distribute such income to maintain its status as a RIC.

If the Fund holds more than 10% of the shares in a foreign corporation that is treated as a controlled foreign corporation ( CFC ) (including equity tranche investments in a CLO vehicle treated as a CFC), the Fund may be treated as receiving a deemed distribution (taxable as ordinary income) each year from such foreign corporation in an amount equal to the Fund's pro rata share of the corporation's income for the tax year (including both ordinary earnings and capital gains). If the Fund is required to include such deemed distributions from a CFC in the Fund's income, it will be required to distribute such income to maintain its RIC status regardless of whether or not the CFC makes an actual distribution during such year.

Legislation enacted in 2010 imposes a withholding tax of 30% on payments of U.S. source interest and dividends paid after December 31, 2013, or gross proceeds from the disposition of an instrument that produces U.S. source interest or dividends paid after December 31, 2016, to certain non-U.S. entities, including certain non-U.S. financial institutions and investment funds, unless such non-U.S. entity complies with certain reporting requirements regarding its United States account holders and its United States owners. Most CLO vehicles in which we invest will be treated as non-U.S. financial entities for this purpose, and therefore will be required to comply with these reporting requirements to avoid the 30% withholding. If a CLO vehicle in which we invest fails to properly comply with these reporting requirements, it could reduce the amounts available to distribute to equity and junior debt holders in such CLO vehicle, which could materially and adversely affect our operating results and cash flows.

If the Fund is required to include amounts in income prior to receiving distributions representing such income, the Fund may have to sell some of its investments at times and/or at prices management would not consider advantageous, raise additional debt or equity capital or forgo new investment opportunities for this purpose. If the Fund is not able to obtain cash from other sources, it may fail to qualify for RIC tax treatment and thus become subject to corporate-level income tax. For additional discussion regarding the tax implications of a RIC, see Note 2. Summary of Significant

Accounting Policies Federal Income Taxes.

The Fund's Series 2017 Shares and Series 2023 Shares pay dividends at a fixed dividend rate. Prices of fixed income investments vary inversely with changes in market yields. The market yields on securities comparable to the Series 2017 Shares and Series 2023 Shares may increase, which would likely result in a decline in the secondary market price of the Series 2017 Shares and Series 2023 Shares prior to the term redemption date. The Fund may be unable to pay dividends on the Series 2017 Shares and Series 2023 Shares under some circumstances. The terms of any future indebtedness OXLC may incur could preclude the payment of dividends in respect of equity securities, including the Series 2017 Shares and Series 2023 Shares, under certain conditions.

Given the seven-year and ten-year term and potential for early redemption of the Series 2017 Shares and Series 2023 Shares, respectively, see Note 5. Series 2017 Term Preferred Shares and Note 6. Series 2023 Term Preferred Shares, holders of such shares may face an increased reinvestment risk, which is the risk that

the return on an investment purchased with proceeds from the sale or redemption of the Series 2017 Shares and Series 2023 Shares may be lower than the return previously obtained from the investment in such shares.

The Fund does not intend to have the Series 2017 Shares and Series 2023 Shares rated by any rating agency. Unrated securities usually trade at a discount to similar, rated securities. As a result, there is a risk that the Series 2017 Shares and Series 2023 Shares may trade at a price that is lower than they might otherwise trade if rated by a rating agency.

**NOTE 12. RECENT ACCOUNTING PRONOUNCEMENTS**

In June 2013, the FASB issued ASU 2013-08, *Financial Services Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements*, which amends the criteria that define an investment company and clarifies the measurement guidance and requires new disclosures for investment companies.

Under ASU 2013-08, an entity already regulated under the 1940 Act will be automatically deemed an investment company under the new GAAP definition. As such, the Fund anticipates no impact from adopting this standard on the Fund's financial results. The Fund is currently assessing the additional disclosure requirements. ASU 2013-08 will be effective for interim and annual reporting periods in fiscal years that begin after December 15, 2013.

**NOTE 13. SUBSEQUENT EVENTS**

On May 19, 2014, the Board of Directors declared a distribution of \$0.60 per share of common stock for the fiscal first quarter, payable on June 30, 2014 to shareholders of record as of June 16, 2014.

The Fund has evaluated events and transactions that occurred after March 31, 2014 and through the date that the financial statements were issued.

## **DIVIDEND REINVESTMENT PLAN**

We have adopted a dividend reinvestment plan that provides for reinvestment of our dividends and other distributions on behalf of our stockholders, unless a stockholder elects to receive cash as provided below. As a result, if our Board of Directors authorizes, and we declare, a cash distribution, our stockholders who have not opted out of our dividend reinvestment plan will have their cash distributions automatically reinvested in additional shares of our common stock, rather than receiving the cash distributions.

No action will be required on the part of a registered stockholder to have his cash distribution reinvested in shares of our common stock. A registered stockholder may elect to receive an entire distribution in cash by notifying Computershare Trust Company, N.A., the plan administrator and our transfer agent and registrar, in writing so that such notice is received by the plan administrator no later than the record date for distributions to stockholders. The plan administrator will set up an account for shares acquired through the plan for each stockholder who has not elected to receive distributions in cash and hold such shares in non-certificated form. Upon request by a stockholder participating in the plan, received in writing not less than 10 days prior to the record date, the plan administrator will, instead of crediting shares to the participant's account, issue a certificate registered in the participant's name for the number of whole shares of our common stock and a check for any fractional share.

Those stockholders whose shares are held by a broker or other financial intermediary may receive distributions in cash by notifying their broker or other financial intermediary of their election.

We intend to use primarily newly issued shares to implement the plan, whether our shares are trading at a premium or at a discount to net asset value. However, we reserve the right to purchase shares in the open market in connection with our implementation of the plan. If we declare a distribution to stockholders, the plan administrator may be instructed not to credit accounts with newly-issued shares and instead to buy shares in the market if (i) the price at which newly-issued shares are to be credited does not exceed 110% of the last determined net asset value of the shares; or (ii) we have advised the plan administrator that since such net asset value was last determined, we have become aware of events that indicate the possibility of a material change in per share net asset value as a result of which the net asset value of the shares on the payment date might be higher than the price at which the plan administrator would credit newly-issued shares to stockholders. The number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by an amount equal to ninety-five (95%) percent of the market price per share of our common stock at the close of regular trading on the valuation date for such distribution. Market price per share on that date will be the closing price for such shares on the national securities exchange on which our shares are then listed or, if no sale is reported for such day, at the average of their reported bid and asked prices. The number of shares of our common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of our stockholders have been tabulated.

There will be no brokerage charges or other charges to stockholders who participate in the plan. The plan administrator's fees under the plan will be paid by us. If a participant elects by written notice to the plan administrator to have the plan administrator sell part or all of the shares held by the plan administrator in the participant's account and remit the proceeds to the participant, the plan administrator is authorized to deduct a transaction fee of \$2.50 plus a per share brokerage commissions from the proceeds.

Stockholders who receive distributions in the form of stock are subject to the same federal, state and local tax consequences as are stockholders who elect to receive their distributions in cash. A stockholder's basis for determining gain or loss upon the sale of stock received in a distribution from us will be equal to the total dollar amount of the

distribution payable to the stockholder. Any stock received in a distribution will have a new holding period for tax purposes commencing on the day following the day on which the shares are credited to the stockholder's account.

The plan may be terminated by us upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any distribution by us. All correspondence concerning the plan should be directed to the plan administrator by mail at 250 Royall Street, Canton, MA 02021 or by phone at (781) 575-2973.

## BOARD APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT

At an in-person meeting of our Board of Directors held on July 24, 2013, our Board of Directors unanimously voted to continue the investment advisory agreement (the *Advisory Agreement*) by and between the Fund and Oxford Lane Management, LLC ( *Oxford Lane Management* ). In reaching a decision to continue the investment advisory agreement, the Board of Directors reviewed a significant amount of information and considered, among other things:

the nature, quality and extent of the advisory and other services to be provided to the Fund by Oxford Lane Management;

the investment performance of the Fund and Oxford Lane Management;  
comparative data with respect to advisory fees or similar expenses paid by other registered management investment companies with similar investment objectives;  
the Fund's projected operating expenses and expense ratio compared to registered management investment companies with similar investment objectives;  
any existing and potential sources of indirect income to Oxford Lane Management or BDC Partners, LLC from their relationships with the Fund and the profitability of those relationships;  
information about the services to be performed and the personnel performing such services under the *Advisory Agreement*;

the organizational capability and financial condition of Oxford Lane Management and its affiliates;  
Oxford Lane Management's practices regarding the selection and compensation of brokers that may execute portfolio transactions for the Fund and the brokers' provision of brokerage and research services to Oxford Lane Management;  
and  
the possibility of obtaining similar services from other third party service providers or through an internally managed structure.

Based on the information reviewed and the discussions detailed above, the Board of Directors, including all of the directors who are not interested persons as defined in the 1940 Act, concluded that fees payable to Oxford Lane Management pursuant to the *Advisory Agreement* were reasonable in relation to the services to be provided. The Board of Directors did not assign relative weights to the above factors or the other factors considered by it. In addition, the Board of Directors did not reach any specific conclusion on each factor considered, but conducted an overall analysis of these factors. Individual members of the Board of Directors may have given different weights to different factors.

### **Introduction**

An investment adviser registered under the Advisers Act has a fiduciary duty to act solely in the best interests of its clients. As part of this duty, we recognize that we must vote client securities in a timely manner free of conflicts of interest and in the best interests of our clients. These policies and procedures for voting proxies for our investment advisory clients are intended to comply with Section 206 of, and Rule 206(4)-6 under, the Advisers Act.

## Proxy Policies

We will vote proxies relating to our portfolio securities in what we perceive to be the best interest of our clients stockholders. We will review on a case-by-case basis each proposal submitted to a stockholder vote to determine its impact on the portfolio securities held by our clients. Although we will generally vote against proposals that may have a negative impact on our clients portfolio securities, we may vote for such a proposal if there exist compelling long-term reasons to do so. Our proxy voting decisions will be made by the senior officers who are responsible for monitoring each of our clients investments. To ensure that our vote is not the product of a conflict of interest, we will require that: (1) anyone involved in the decision making process disclose to our managing members any potential conflict that he or she is aware of and any contact that he or she has had with any interested party regarding a proxy vote; and (2) employees involved in the decision making process or vote administration are prohibited from revealing how we intend to vote on a proposal in order to reduce any attempted influence from interested parties.
