Among the main highlights for the first quarter of fiscal year 2012, we can mention the following:

During this period we have observed very good soil humidity conditions in most of the areas where the coarse crop planting process is set (including soybean, corn and sunflower). In addition, we have started planting activities in most of the areas allocated to wheat production.

On September 21, we acquired under a private transaction an additional 5.1% equity interest in IRSA, for a total amount of USD 30.1 million. In this way, we increased our interest in IRSA to 63.2%.

The Agribusiness production segment grew due to the consolidation of our subsidiary BrasilAgro and the late harvesting of corn crops in our Argentine farms, together with a higher Feed Lot beef cattle production.

Operating income totalize ARS 191.7 million, which results into a 4.4% increase as compared to the same quarter of the previous year.

Net Income amounted to ARS 1.0 million compared to ARS 51.9 million in the first quarter of 2011. This was due to higher financial charges, which totalized ARS 167.3 million compared to ARS 74.3 million in the same quarter of the previous fiscal year. This decrease was caused by a loss from differences in exchange rates, resulting from the depreciation of the exchange rate that affects our liabilities denominated in dollars, which amounts to ARS 49.0 million (vs. ARS 2.4 million in the first quarter of fiscal year 2011) and a loss from other financial assets which totalized ARS 62.4 million (vs. ARS 18.2 million) mainly due to revaluation of certain assets held of by our subsidiary IRSA, at market value.

On October 31, 2011, our General Shareholders Meeting approved a cash dividend payment of ARS 63.8 million, equivalent to an amount of ARS 0.138 per share.
