PROXY STATEMENT

ABOUT THE ANNUAL MEETING

This proxy statement is furnished in connection with the solicitation on behalf of the board of directors of HMN Financial, Inc. of proxies to be used at the annual meeting of stockholders, which will be held at the Rochester Golf and Country Club, located at 3100 W. Country Club Road, Rochester, Minnesota, on April 24, 2012, at 10:00 a.m., local time, and any adjournments or postponements of the meeting. The accompanying notice of annual meeting and this proxy statement are first being mailed to stockholders on or about March 22, 2012.

Certain information provided herein relates to Home Federal Savings Bank, a wholly owned subsidiary of our company referred to as the bank.

The board of directors requests that you vote on the proposals described in this proxy statement. You are invited to attend the meeting, but you do not need to attend the meeting to cast your vote.

What is the purpose of the annual meeting?

At the annual meeting we will ask our stockholders to vote on three matters:

1. to elect three members of our board of directors, to serve until the conclusion of the third succeeding annual meeting of stockholders or until their successors have been duly elected and qualified;
2. to approve, in an advisory (non-binding) vote, the compensation of executives, as disclosed in this proxy statement; and
3. to ratify the appointment of KPMG LLP as our independent registered public accounting firm for 2012;

as well as to transact other business that may properly be brought before the meeting. Following the formal portion of the meeting, our management will report on our performance and answer questions from our stockholders.

Who is entitled to vote at the meeting?

Common stock is our only authorized and outstanding security entitled to vote at the annual meeting. Holders of record of our common stock as of the close of business on February 28, 2012, the record date, will be entitled to one vote for each share of common stock then held. As of February 28, 2012, we had 4,423,981 shares of common stock issued and outstanding. The number of issued and outstanding shares excludes shares held in our treasury.

Who is entitled to attend the meeting?

Subject to space availability, all stockholders as of the record date, or their duly appointed proxies, may attend the meeting. Since seating is limited, admission to the meeting will be on a first-come, first-served basis. Registration will begin at 9:30 a.m. If you plan to attend the meeting, please note that you will be asked to present valid picture identification, such as a driver's license or passport. Cameras, recording devices and other electronic devices are not permitted at the meeting.

Please also note that if you hold your shares in street name (that is, through a broker or other nominee), you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the record date.

What constitutes a quorum?

Edgar Filing: HMN FINANCIAL INC - Form DEF 14A

One third of the outstanding shares of common stock entitled to vote constitutes a quorum for purposes of the meeting. Abstentions, votes withheld and broker-non votes will be counted for the purpose of determining the presence of a quorum.

How do I vote?

If you are a registered stockholder, proxies in the accompanying form that are properly signed and duly returned to us, voted by telephone or through the Internet in accordance with the voting instructions set forth below, and not revoked, will be voted in the manner specified. We encourage you to vote by telephone or on the Internet, if possible, to reduce the costs of tabulating the vote.

To vote by Internet:

- a. Go to the web site at <http://www.eproxy.com/hmnf>.
- b. Please have your proxy card and the last four digits of your social security number or tax identification number and create an electronic ballot.
- c. Follow the simple instructions provided.

To vote by telephone:

- a. Call toll-free 1-800-560-1965.
- b. Please have your proxy card and the last four digits of your social security number or tax identification number.
- c. Follow the simple instructions provided.

To vote by mail:

- a. Mark, sign and date your proxy card.
- b. Return it in the enclosed postage-paid envelope.

If you are a registered stockholder and attend the annual meeting, you may deliver your proxy in person.

If you hold your shares in street name, meaning you hold them through an account with a bank or broker, your ability to vote over the Internet or by telephone depends on your bank's or broker's voting procedures. Please follow the directions that your bank or broker provides.

All shares of our common stock represented at the meeting by properly executed proxies, duly delivered to our corporate secretary prior to or at the meeting, and not revoked, will be voted at the meeting in accordance with the instructions specified on the proxies.

What happens if no instructions are indicated on my proxy?

If no instructions are indicated, properly executed proxies will be voted *for* the nominees for director listed below, *for* the approval of the compensation of executives, as disclosed in this proxy statement, and *for* the ratification of the appointment of our independent registered public accounting firm. As of the date of this proxy statement, the board does not know of any matters, other than those described in the notice of annual meeting and this proxy statement, that are to come before the meeting. If any other matters are properly presented at the meeting for action, the persons named in the enclosed form of proxy and acting thereunder will have, to the extent permitted by law, the discretion to vote on these matters in accordance with their best judgment.

May I revoke my proxy or change my vote?

Edgar Filing: HMN FINANCIAL INC - Form DEF 14A

A proxy given pursuant to this solicitation may be revoked at any time before it is voted. Proxies may be revoked by filing with our corporate secretary, at or before the meeting, a written notice of revocation bearing a later date than the date on the proxy. A vote may be changed by duly executing a proxy dated a later date than the earlier proxy and relating to the same shares and delivering it to our corporate secretary at or before the meeting. Attendance at the meeting will not by itself revoke a previously granted proxy.

What is the recommendation of the board of directors on voting my shares?

Our board of directors recommends a vote **for** the election of the three nominated directors, **for** the approval of the compensation of executives, as disclosed in this proxy statement, and **for** the ratification of KPMG LLP as our independent registered public accounting firm. If any other matters come up for a vote at the meeting, the proxy holders will vote in line with the recommendations of the board of directors or, if there is no recommendation, at their own discretion.

What vote is required to approve each item?

Election of Directors. Directors are elected by a plurality of the voting power of the shares of common stock entitled to vote and present in person or represented by proxy at the meeting. For this purpose, a properly executed proxy marked ***withheld*** with respect to the election of director nominees will be counted for purposes of determining whether there is a quorum, but will have no effect on the outcome of the vote on the election of directors.

Other Items. For all other items that properly come before the meeting, the affirmative vote of a majority of the outstanding shares of common stock entitled to vote and present in person or represented by proxy at the meeting is required for approval. A properly executed proxy marked ***abstain*** with respect to any matter will be counted for purposes of determining whether there is a quorum and will be considered present in person or by proxy and entitled to vote.

What is the effect of abstentions and broker non-votes?

If stockholders indicate on their proxy that they wish to abstain from voting on a particular proposal, including brokers holding their customers shares of record who cause abstentions to be recorded, these shares are considered present and entitled to vote at the meeting. These shares will count toward determining whether or not a quorum is present. A proxy marked ***abstain*** on any of the proposals has the same effect as a vote ***against***.

Although our shares of common stock are traded on the Nasdaq Global Market, we are subject to certain rules and regulations of the New York Stock Exchange, including those relating to the ability of brokers to vote on certain matters. If a stockholder does not give a broker holding the stockholder's shares instructions as to how to vote the shares, the broker has authority under New York Stock Exchange rules to vote those shares for or against routine matters that are not contested, such as the ratification of KPMG LLP as our independent registered public accounting firm. Brokers cannot vote on their customers' behalf on non-routine proposals. The rules of the New York Stock Exchange define the election of directors and actions on executive compensation as non-routine matters. If a broker votes shares that are unvoted by its customers for or against a routine proposal, these shares are counted for the purpose of establishing a quorum and also will be counted for the purpose of determining the outcome of the routine proposals on which they cast. Shares held by a broker on behalf of a stockholder will not be considered cast with respect to any non-routine proposals and will not be taken into account in determining the outcome of any of non-routine proposals.

May the meeting be adjourned?

If a quorum is not present at the meeting, the chairman of the meeting, or the stockholders present, by vote of a majority of the votes cast by stockholders present in person or represented by proxy and entitled to vote, may adjourn the meeting. At any adjourned meeting at which a quorum is present, any business may be transacted which might have been transacted at the meeting as originally called.

Who pays the expenses incurred in connection with the solicitation of proxies?

We will bear the cost of solicitation of proxies. We will reimburse brokerage firms and other custodians, nominees and fiduciaries for reasonable expenses incurred by them in sending proxy materials to the beneficial owners of common stock. In addition to solicitation by mail, our directors, officers and regular employees, as well as employees of the bank, may solicit proxies personally or by telephone without additional compensation.

How may I obtain additional copies of the annual report?

Our 2011 annual report, including financial statements, is enclosed. The annual report is also available online at www.hmnf.com or www.proxydocs.com/hmnf. For additional printed copies, which are available without charge, please request copies in writing to 1016 Civic Center Drive N.W., Rochester, Minnesota 55901-6057, Attention: Corporate Secretary.

What is the deadline for submitting a stockholder proposal for the 2013 annual meeting?

We must receive stockholder proposals intended to be presented at the 2013 annual meeting of stockholders that are requested to be included in the proxy statement for that meeting at our principal executive

office no later than November 22, 2012. The inclusion of any stockholder proposals in the proxy materials will be subject to the requirements of the proxy rules adopted under the Securities Exchange Act of 1934, including Rule 14a-8. We must receive any other stockholder proposals intended to be presented at the 2013 annual meeting of stockholders in writing at our principal executive office no later than 90 days in advance of the meeting (or if we do not publicly announce our annual meeting date 100 days in advance of the meeting date, by the close of business on the 10th day following the day on which notice of the meeting is mailed to stockholders or publicly made). We currently anticipate that our 2013 annual meeting of stockholders will be held on or about April 23, 2013; therefore, we must receive notice of any business to be brought before that meeting by January 23, 2013. Written copies of all stockholder proposals should be sent to our principal executive offices at 1016 Civic Center Drive N.W., Rochester, Minnesota 55901-6057, Attention: Corporate Secretary.

What does it mean if I receive more than one proxy card or instruction form?

This means that your shares are registered differently and are held in more than one account. To ensure that all shares are voted, please either vote each account over the Internet or by telephone, or sign and return by mail all proxy cards. We encourage you to register all of your shares in the same name and address by contacting our transfer agent, Wells Fargo Shareowner Services, at 1-800-401-1957. If you hold your shares through an account with a bank or broker, you should contact your bank or broker and request consolidation.

I share an address with another stockholder, how can I change the number of copies of the proxy statement that we receive?

Generally, we are sending only one copy of the proxy materials to eligible stockholders who share a single address unless we received instructions to the contrary from any stockholder at that address. This practice, known as *householding*, is designed to reduce our printing and postage costs. We will promptly deliver a separate copy of proxy materials to any stockholder who requests one by contacting our corporate secretary by telephone at (507) 535-1205, or by mail to our principal executive offices at 1016 Civic Center Drive N.W., Rochester, Minnesota 55901-6057, Attention: Corporate Secretary. If you are a registered stockholder residing at an address with another registered stockholder and you wish to receive a separate proxy in the future, or if the registered stockholders at that address currently are receiving multiple copies of the proxy materials and you wish to receive a single copy, you may contact our corporate secretary at the telephone number or address set forth above. If you are a stockholder whose shares are held by a bank, broker or other nominee, you can request information about householding from your bank, broker or other nominee.

PROPOSAL I - ELECTION OF DIRECTORS

Background

Our certificate of incorporation provides that the board of directors shall fix the number of directors from time to time. On January 28, 2004, the size of the board was fixed at nine members, subject to the power of the board to increase the size of the board at any time. Our board is also subject to an automatic increase in its size in the event the holders of our outstanding preferred stock are entitled to elect two directors as provided below. The board is divided into three classes. The terms of three members of the board, Mr. Krehbiel, Dr. Smith, and Mr. Schneider, will expire at the conclusion of the meeting. Mr. Schneider will have completed his fourth three year term and reached board term limits as defined in the bylaws. The board has nominated Bradley C. Krehbiel and Hugh C. Smith, both current members of the board of directors, whose current terms will expire at the conclusion of the meeting, and Mark E. Utz, for election as directors to serve terms to expire at the conclusion of the third succeeding annual meeting of stockholders after their election, with each to hold office following each nominee's election and qualification until his or her successor has duly been elected and qualified. It is intended that the proxies solicited on behalf of the board (other than proxies in which the vote is withheld as to one or more nominees) will be voted at the meeting for the election of the nominees identified in the preceding paragraph. If any nominee is unable to serve, the shares of common stock represented by all of these proxies will be voted for the election of a substitute as the board may recommend.

Effective February 22, 2011, we and our banking subsidiary each entered into written supervisory agreements (each a Supervisory Agreement, and collectively, the Supervisory Agreements) with the Office of Thrift Supervision (the OTS). On July 21, 2011 the OTS was integrated into the Office of the Comptroller of the Currency (the OCC). Pursuant to this integration, the Office of the Comptroller of the Currency (the OCC) became the bank's primary regulator and the Federal Reserve Board (the FRB) became our primary regulator. Under our Supervisory Agreement, we must obtain FRB approval for Mr. Utz to serve on our board of directors, which approval may be withheld in the sole discretion of the FRB. We are currently in the process of obtaining this FRB approval. If FRB approval of Mr. Utz is not obtained prior to our annual meeting of stockholders, Mr. Schneider, as our current director whose term expires at the annual meeting of stockholders, will continue to serve as a director until Mr. Utz is approved, or otherwise authorized to serve as a director, by the FRB. If the FRB does not provide its approval or authorization for Mr. Utz to serve on our board of directors, Mr. Schneider will continue to serve as a director until his successor is duly elected and qualified or his earlier resignation.

Other than the foregoing regulatory approval, the board knows of no reason why any of the nominees, if elected, might be unable to serve. Except as described herein, there are no arrangements or understandings between any director or nominee and any other person pursuant to which the director or nominee was selected.

Selection of Director Nominees

Director Qualifications. The board, acting through the governance and nominating committee, is responsible for selecting director nominees. The board and the governance and nominating committee believe that the board as a whole and its members individually should possess a combination of skills, professional experience, and business judgment necessary to oversee our company's current and future operations and represent stockholders' interests. The attributes that the board believes every director nominee should possess include:

notable or significant business or public service achievement and experience;

familiarity with, knowledge of, or experience in, the commercial banking industry;

familiarity with, knowledge of, or experience in, managing risk;

the highest character and integrity;

knowledge and understanding of the business and social environment in the primary geographical areas in which we operate;

an understanding of their obligation to represent the interests of all shareholders;

freedom from conflicts of interest that would interfere with their ability to discharge their duties or that would violate any applicable laws or regulations;

capability of working in a collegial manner with persons of diverse educational, business and cultural backgrounds; and

ability to devote the necessary time to discharge their duties, taking into account memberships on other boards and other responsibilities.

Procedures Regarding Director Candidates Recommended by Stockholders. As set forth in its charter, the governance and nominating committee will consider director candidates recommended by stockholders if the recommended director candidate would be eligible to serve as a director under our by-laws. Our by-laws require that directors have their primary domicile in a county where the bank has a full service branch. This requirement may be waived by a majority of the board so long as a majority of the directors currently serving on the board have their primary domicile in a county where the bank has a full service branch. Our by-laws also require that each director must receive (or have been deemed to receive) any approval, waiver or non-objection required by the company's and the bank's federal regulators. This qualification requirement may be waived by a majority of the board in its sole discretion.

In order to be considered by the governance and nominating committee, a stockholder recommendation of a director candidate must set forth all information relating to the candidate that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or is otherwise required, pursuant to Regulation 14A under the Exchange Act (including the potential director's written consent to being named in the proxy statement as a nominee and to serving as a director if elected).

The governance and nominating committee will consider director candidates recommended by stockholders in the same manner that it considers all director candidates. This consideration will include an assessment of each candidate's experience, integrity, competence, diversity, skills and dedication in the context of the needs of the board. Each candidate will be evaluated in the context of the board as a whole, with the objective of recommending a group of nominees that can best perpetuate the success of the business and represent stockholder interest through the exercise of sound judgment based on a diversity of experience.

Rather than recommending director candidates to the governance and nominating committee, stockholders may directly nominate a person for election to the board by complying with the procedures set forth in our by-laws, any applicable rules and regulations of the Securities and Exchange Commission and any applicable laws. For more information regarding the submission of stockholder nominations of director candidates, please refer to the section entitled "Stockholder Proposals," as well as the Q&A appearing at the beginning of this proxy statement.

Candidates Elected by the Holders of Preferred Stock Upon Failure to Pay Dividends. As discussed in more detail in our Annual Report on Form 10-K filed for the year ended December 31, 2011, we issued our Fixed Rate Cumulative Perpetual Preferred Stock, Series A, to the United States Treasury Department (the "Treasury") as part of the TARP Capital Purchase Program (the "CPP"). Treasury remains the sole holder of the preferred stock. Pursuant to the terms of the preferred stock, if the accumulated dividends on the preferred stock have not been paid for an aggregate of six quarterly dividend periods or more, whether or not consecutive, the number of our directors will automatically be increased by two and the holders of the preferred stock (currently the Treasury) will have the right to elect two directors to fill the newly created directorships.

Pursuant to the Supervisory Agreements, we and our banking subsidiary may not declare or pay any cash dividends, or purchase or redeem any capital stock, without prior notice to, and consent of, the applicable regulator. We do not anticipate requesting consent from such regulator to make any payments of dividends on, or purchase of, its common or preferred stock in 2012.

As of February 15, 2012, we have failed to pay dividends to the Treasury for five quarters. If we fail to make one more dividend payment, including the payment that is due on May 15, 2012, the Treasury will have the right to elect two directors. Therefore, if we fail to make the May 15, 2012 dividend payment, the Treasury, as

the sole holder of preferred stock voting separately as a class, will then be entitled to elect two additional persons to our board at the Company's next annual meeting of stockholders (or at a special meeting called for that purpose prior to such annual meeting) and at each subsequent annual meeting of stockholders until all accrued and unpaid dividends for all past dividend periods on all outstanding preferred stock have been declared and paid in full.

Any director elected by the holders of preferred stock may be removed at any time, with or without cause, and any vacancy created thereby may be filled, only by affirmative vote of the holders of a majority of the shares of preferred stock, voting separately as a class. Any vacancy in the office of any preferred director for any reason other than removal, may be filled by the remaining preferred director for an unexpired term in respect of which such vacancy occurred.

Board Diversity. Neither the governance and nominating committee nor the board has a formal policy with regard to the consideration of diversity in identifying director nominees. However, the governance and nominating committee considers diversity on the board in evaluating potential director nominees and believes that diverse perspectives are represented on the board, within the constraints of our by-law requirement that generally directors must have their primary domicile in a county where the bank has a full service branch.

PROPOSAL II - ADVISORY (NON-BINDING) VOTE ON EXECUTIVE COMPENSATION

In December 2008, we participated in the Capital Purchase Program, or CPP, under the Troubled Asset Relief Program of the United States Treasury. The American Recovery and Reinvestment Act of 2009, signed into law on February 17, 2009, includes a provision requiring CPP participants, during the period in which any obligation arising from assistance provided under the CPP remains outstanding, to permit a separate stockholder vote to approve the compensation of executives, as disclosed pursuant to the compensation rules of the Securities and Exchange Commission. This requirement applies to any proxy, consent, or authorization for an annual meeting of the participant's stockholders for which proxies will be solicited for the election of directors or a special meeting in lieu of such an annual meeting. Under this legislation, the stockholder vote is not binding on the board of directors of the CPP participant, and may not be construed as overruling any decision by the participant's board of directors.

In accordance with the American Recovery and Reinvestment Act of 2009, stockholders are being given the opportunity to vote to approve the compensation of our executives, as disclosed in this proxy statement, including the information presented under "Compensation Discussion and Analysis" and in the compensation tables and related material under the heading "2011 Executive Compensation."

This is an advisory vote only, and neither the company nor our board of directors will be bound to take action based upon the outcome. The compensation committee will consider the vote of the stockholders when considering future executive compensation arrangements.

The board recommends that stockholders vote *for* the approval of

the compensation awarded to the executives, as disclosed in this proxy statement, by approving the following non-binding resolution:

RESOLVED, that the stockholders approve the compensation awarded to the executives, as described in the Compensation Discussion and Analysis, compensation tables and related material under the heading "2011 Executive Compensation" in this proxy statement.

PROPOSAL III - RATIFICATION OF APPOINTMENT OF

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Upon the recommendation of the audit committee, the board of directors has appointed KPMG LLP, an independent registered public accounting firm, to be our independent registered public accounting firm for 2012, subject to ratification by the stockholders. KPMG LLP has audited the financial statements of our company or the bank since 1966. Representatives of KPMG LLP are expected to attend the meeting to respond to appropriate questions and to make a statement, if they so desire.

In connection with the engagement of KPMG LLP, we entered into an engagement agreement with KPMG LLP that sets forth the terms pursuant to which KPMG LLP will perform its audit services. That agreement is subject to alternative dispute resolution procedures and an exclusion of punitive damages.

While it is not required to do so, the audit committee is submitting the appointment of that firm for ratification in order to ascertain the view of the stockholders. If the stockholders do not ratify the appointment, the audit committee will review the appointment.

The board recommends that stockholders vote *for* the ratification of

the appointment of KPMG LLP as our 2012 independent registered public accounting firm.

CORPORATE GOVERNANCE

Board Leadership Structure and Role in Risk Oversight

The board of directors is committed to its role in providing objective risk oversight of the company. The structure and responsibilities of the board's membership, leadership and committees is a critical aspect of our corporate governance to fulfill this role.

The company's corporate governance guidelines require that a substantial majority of the board shall be independent directors and the board believes its process of selecting and nominating a diverse membership with a combination of skills, professional experience and business judgment is an important element in accomplishing its risk oversight responsibility. The board does not have a policy on separating the offices of Chairman of the Board and Principal Executive Officer since it believes it should be free to make the choice from time to time that is in the best interests of the company and its stockholders. While there is no policy, it is the current practice of the board to have the Chairman be an independent board member. Currently, Dr. Smith serves as the Chairman of the Board and Mr. Krehbiel serves as President of the company and the bank, as our Principal Executive Officer, and as a Director. The board believes this is the most appropriate structure for the company at this time and contributes to objective risk oversight because it makes use of Dr. Smith's experience on our board and his extensive understanding of corporate governance and risk oversight that he developed from his service on public company and non-profit boards of directors, while freeing Mr. Krehbiel to focus his energies on the operations of the bank. The chairs of board committees are selected by the full board based on their experience and expertise, including consideration of their understanding of the risk oversight associated with their respective committee.

The board of directors and the audit, compensation and nominating and governance committees of the board coordinate with each other, through the leadership of Dr. Smith and the committee chairs, to provide enterprise-wide risk oversight of management and the company's operations. In addition, our board formed an ad hoc oversight committee to provide oversight as it relates to the implementation of and compliance with the Supervisory Agreements and predecessor informal regulatory actions. These committees address risk-related matters during their meetings and the committee chairs regularly report to the full board on risk-related matters, providing the full board with integrated insight about our management of strategic, credit, interest rate, financial reporting, technology, liquidity, compliance, operational and reputational risks. In addition, our banking subsidiary has its own board of directors and audit, loan, information technology, compliance and asset/liability management committees whose responsibilities include risk management for the bank. The management and committees of our banking subsidiary also provide reports to our board of directors regarding activities related to risk management.

At meetings of the board of directors and its committees, directors receive regular updates from management regarding risk management. The chief financial officer, chief credit officer and other senior management of our banking subsidiary, who are responsible for instituting risk management practices that are consistent with our overall business strategy and risk tolerance, report directly to Mr. Krehbiel, the President of our company, our banking subsidiary and a member of the board, and lead management's risk discussions at board and committee meetings. Outside of formal meetings, the board, its committees and individual board members have full access to senior executives and management for, among other purposes, discussions of risks facing our company and the management of those risks.

Committees of the Board of Directors

The board of directors has standing audit, compensation, executive and governance and nominating committees. The directors' current committee memberships are indicated in the following table:

Director	Audit	Compensation	Executive	Nominating and
	Committee	Committee	Committee	Governance Committee
Allen J. Berning	-	Member	Alternate	Member
Michael J. Fogarty	Alternate	Member	Alternate	Member
Karen L. Himle	Alternate	Chair	Alternate	-

Audit Committee. The audit committee oversees our financial reporting process by, among other things, recommending and taking action to oversee the independence of the independent registered public accounting firm and selecting and appointing the independent registered public accounting firm. The board has determined that all members of the audit committee are independent as that term is defined in the applicable Nasdaq listing standards and regulations of the Securities and Exchange Commission and that all members are financially literate as required by the applicable Nasdaq listing standards. In addition, the board has determined that Mr. Nigon has the financial experience required by the applicable Nasdaq listing standards and is an audit committee financial expert as defined by applicable regulations of the Securities and Exchange Commission. The responsibilities of the audit committee are set forth in the audit committee charter, which was amended and restated on February 28, 2012, and is available on our website at www.hmnf.com. The audit committee reviews and reassesses its charter annually.

Compensation Committee. The compensation committee reviews and reports to the board on matters concerning compensation plans and the compensation of certain executives, as well as administering our 2001 Omnibus Stock Plan and our 2009 Equity Incentive Plan. The board has determined that all members of the compensation committee are independent as that term is defined in the applicable Nasdaq listing standards. The responsibilities of the compensation committee are set forth in the compensation committee charter, which was readopted by the board on March 15, 2011. The compensation committee charter is available on our website at www.hmnf.com. The compensation committee reviews and reassesses its charter annually.

Executive Committee. The executive committee acts on issues arising between regular board meetings. The executive committee possesses the powers of the full board between meetings of the board.

Governance and Nominating Committee. The governance and nominating committee selects candidates as nominees for election as directors and advises and makes recommendations to the board on other matters concerning directorship and corporate governance practices, including succession plans for our executive officers. The board has determined that all members of the governance and nominating committee are independent as that term is defined in the applicable Nasdaq listing standards. The responsibilities of the governance and nominating committee are set forth in the governance and nominating committee charter, which was readopted by the board on January 24, 2012, and is available on our website at www.hmnf.com. The governance and nominating committee reviews and reassesses their charter annually.

Board and Committee Meetings

The board held 14 meetings during 2011. The audit committee held 7 meetings during 2011. The compensation committee held 8 meetings during 2011. The executive committee held no meetings during 2011. The governance and nominating committee held 7 meetings during 2011. Each of our directors attended at least 75% of the meetings of the board and all committees on which the director served.

Director Independence

The board has determined that none of our directors except for Mr. Krehbiel and Ms. Kolling, who are employees of the bank, have a material relationship with our company other than service as a director (either directly or as a partner, stockholder or officer of an organization that has a material relationship with our company). Mr. Utz, a current nominee, is the president and a shareholder of Wendland Utz, which provided certain legal services to the company over the past few years. We concluded that the services provided by Mr. Utz did not impact his independence under the applicable Nasdaq listing standards due to the total amount of fees paid by the company to Wendland Utz. Therefore, all of our directors, except for Mr. Krehbiel and Ms. Kolling, are independent within the meaning of applicable Nasdaq listing standards.

Code of Business Conduct and Ethics

We adopted a Code of Business Conduct and Ethics applicable to all of our directors and employees, including our senior management and financial reporting employees. This code is available on our website at www.hmnf.com.

Stockholder Communication with the Board

The board of directors provides a process for stockholders to send communications to the board or any of the directors. Stockholders may send written communications to the board or any of the directors c/o Chief Financial Officer, HMN Financial, Inc., 1016 Civic Center Drive N.W., Rochester, Minnesota 55901-6057. All communications will be compiled by the Chief Financial Officer and submitted to the board or the individual directors on a periodic basis. Communications directed to the board in general will be forwarded to the appropriate director(s) to address the matter.

Director Attendance at Annual Meetings

Directors are expected to attend the annual meeting of stockholders. In 2011, eight directors attended the annual meeting of stockholders.

Stockholder Proposals

Under our by-laws, certain procedures are provided that a stockholder must follow to introduce an item of business at an annual meeting of stockholders or to nominate persons for election as directors. These procedures provide, generally, that stockholders desiring to bring a proper subject of business before the meeting, or to make nominations for directors, must do so by a written notice received not later than 90 days in advance of the meeting (or if we do not publicly announce our annual meeting date 100 days in advance of the meeting date, by the close of business on the 10th day following the day on which notice of the meeting is mailed to stockholders or publicly made) by our corporate secretary containing the name and address of the stockholder as they appear on our books and the class and number of shares owned by the stockholder. If the notice relates to an item of business it also must include a representation that the stockholder intends to appear in person or by proxy at the meeting. Notice of an item of business shall include a brief description of the proposed business and a description of all arrangements or understandings between the stockholder and any other person or persons (including their names) in connection with the proposal of business by the stockholder and any material interest of the stockholder in the business. If the notice relates to a nomination for director, it must set forth the name and address of any nominee(s), any other information regarding each nominee as would have been required to be included in a proxy statement filed pursuant to the proxy rules of the Securities and Exchange Commission had each nominee been nominated by the board, and the consent of each nominee to be named in the proxy statement and to serve on the board.

The chairman of the meeting may refuse to allow the transaction of any business not presented, or to acknowledge the nomination of any person not made, in compliance with the foregoing procedures. Copies of our by-laws are available from our corporate secretary.

Compensation Committee Interlocks and Insider Participation

During 2011, the compensation committee was comprised of Ms. Himle and Messrs. Berning, Fogarty, and Dr. Smith. None of the members is an executive officer, employee or former employee of our company, and

no interlocking relationship exists between the board or compensation committee and the board of directors or compensation committee of any other company.

Related Person Transaction Approval Policy

On February 28, 2012, our board of directors readopted a written policy for related person transactions, which sets forth our policies and procedures for the review, approval or ratification of transactions subject to the policy with related persons who are subject to the policy. Our policy applies to any transaction, arrangement or relationship or any series of similar transactions, arrangements or relationships that have a financial aspect and in which we are a participant and a related person has a direct or indirect interest. Our policy, however, exempts the following:

our payment of compensation to a related person for that person's service to us in the capacities that give rise to the person's status as a related person;

transactions available to all of our employees or all of our stockholders on the same terms;

any extension of credit by our banking subsidiary in which a related person has a direct or indirect interest and which complies with the requirements of Regulation O under Title 12 of the Code of Federal Regulations and has been approved by either the board of directors of our banking subsidiary or its loan committee; and

transactions, which when aggregated with the amount of all other transactions between the related person and our company, involve less than \$120,000 in a fiscal year.

We consider the following people to be related persons under the policy:

all of our executive officers and directors;

any nominee for director;

any immediate family member of any of our directors, nominees for director or executive officers; and

any holder of more than 5% of our common stock, or an immediate family member of the holder.

The audit committee of our board of directors must approve any related person transaction subject to this policy before commencement of the related party transaction. The committee will analyze the following factors, in addition to any other factors the committee deems appropriate, in determining whether to approve a related party transaction:

whether the terms are fair to our company;

whether the transaction is material to our company;

the role the related person has played in arranging the related person transaction;

the structure of the related person transaction; and

the interests of all related persons in the related person transaction.

The committee may, in its sole discretion, approve or deny any related person transaction. Approval of a related party transaction may be conditioned upon our company and the related person taking any actions that the committees deems appropriate.

If one of our executive officers becomes aware of a related person transaction that has not previously been approved under the policy:

if the transaction is pending or ongoing, it will be submitted to the audit committee promptly and the committee will consider the transaction in light of the standards of approval listed above. Based on this evaluation, the committee will consider all options, including approval, ratification, amendment, denial or termination of the related person transaction; and

if the transaction is completed, the committee will evaluate the transaction in accordance with the same standards to determine whether rescission of the transaction is appropriate and feasible.

There were no related person transactions in 2011 required to be reported in this proxy statement.

Certain Transactions

The bank follows a policy of granting loans to eligible directors, officers, employees and members of their immediate families for the financing of their personal residences and for consumer purposes. As of December 31, 2011, the aggregate amount of the bank's loans to directors, executive officers, affiliates of directors or executive officers, and employees was approximately \$4.0 million or 7.10% of our stockholders equity. All of these loans were current as of December 31, 2011. For the period beginning January 1, 2011, all of the loans to directors and executive officers (a) were made in the ordinary course of business, (b) were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons not related to us or the bank, and (c) did not involve more than the normal risk of collectability or other unfavorable features.

Independent Registered Public Accounting Firm Fees

The following table presents fees for professional audit services rendered by KPMG LLP for the audit of our annual financial statements for 2011 and 2010, and fees for other services rendered by KPMG LLP relating to these fiscal years.

Description of Fees	2011	2010
Audit Fees ⁽¹⁾⁽²⁾	\$ 181,000	\$ 207,000
Audit-Related Fees ⁽³⁾	43,000	45,000
Total Audit and Audit-Related Fees	\$ 224,000	\$ 252,000

(1) Audit fees consisted of the annual audit and quarterly reviews of our consolidated financial statements, statutory audit, audit of internal controls over financial reporting and assistance with and review of documents filed with the Securities and Exchange Commission.

(2) The audit of internal control over financial reporting was not performed in 2011, as it is no longer required due to the decrease in asset size of the bank below \$1 billion and market capitalization of the company being below \$75 million.

(3) Audit-related fees consisted of employee benefit plan audits and audit of compliance with HUD-assisted programs.

Approval of Independent Registered Public Accounting Firm Services and Fees

The audit committee pre-approved 100% of the services provided by KPMG LLP, our independent registered public accounting firm. KPMG provided no other services to the company, other than those noted above.

The audit committee's current practice on pre-approval of services performed by the independent registered public accounting firm is to approve annually all audit services and, on a case-by-case basis, recurring permissible non-audit services to be provided by the independent registered public accounting firm during the fiscal year. The audit committee reviews each non-audit service to be provided and assesses the impact of the service on the registered public accounting firm's independence. In addition, the audit committee may pre-approve other non-audit services during the year on a case-by-case basis. Pursuant to a policy adopted by the audit committee, the chair of the audit committee is authorized to pre-approve certain limited non-audit services described in Section 10A(i)(1)(B) of the Exchange Act. Mr. Nigon, as the chair of the audit committee, did not pre-approve any non-audit services pursuant to this authority in 2011.

Report of the Audit Committee

The audit committee has (i) reviewed and discussed our audited financial statements for 2011 with our management; (ii) discussed with our independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T, as currently in effect; (iii) received the written disclosures and the letter from our independent registered public accounting firm required by the applicable requirements of the

PCAOB regarding the independent accountant's communications with the audit committee concerning independence; and (iv) has discussed with our independent registered public accounting firm its independence. Based on the review and discussions with management and our independent registered public accounting firm referred to above, the audit committee recommended to the board that the audited financial statements be included in our annual report on Form 10-K for the fiscal year ended December 31, 2011, and filed with the Securities and Exchange Commission.

We pay deferred fees over a yearly period of ten years or less. Deferred fees earn interest at a rate equal to our bank subsidiary's cost of funds on November 30 of each year in which the fees are deferred. A director who is one of our employees receives no separate compensation for services as a director. As of December 31, 2011, Mr. DeBoer had a deferred fee balance of \$210,920, and Mr. Schneider had a deferred fee balance of \$133,372.
- (2) The amount reported is the aggregate grant-date fair market value computed in accordance with FASB Accounting Standards Codification, or ASC, Topic 718. See footnote 13 in the notes to consolidated financial statements included in our annual report for the assumptions made in determining the fair value of option awards in accordance with ASC Topic 718. Prior to 2010, we granted 15,000 options to each director when they became a member of the board. Options outstanding as of December 31, 2011, totaled 15,000 for each of Mr. Fogarty, Mr. McDonald, Ms. Himle and Mr. Smith. The exercise prices of the outstanding options range from \$4.77 to \$30.00.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

This Compensation Discussion and Analysis provides information about the 2011 compensation program for our named executive officers, who are:

Bradley C. Krehbiel, President of the company and bank,

Jon J. Eberle, Chief Financial Officer, Senior Vice President and Treasurer of the company and bank,

Lawrence D. McGraw, Chief Credit Officer and Senior Vice President of the bank,

Dwain C. Jorgensen, Senior Vice President of Facilities and Compliance of the company and bank, and

Susan K. Kolling, Senior Vice President of the company and bank.

Compensation to our executive officers is provided by our banking subsidiary, whose primary regulator is the OCC. We have not separately provided compensation to our executive officers since our formation, and do not anticipate paying any compensation to these officers until we become actively involved in the operation or acquisition of businesses other than our banking subsidiary. As of December 31, 2011, we had no executive officers other than our five named executive officers.

The compensation committee of our board of directors establishes and administers the compensation and benefits program for executive officers and directors. The compensation committee has designed our executive compensation program to achieve the following primary goals:

to attract and retain a highly qualified and coordinated workforce of executives who have the skills, experience and work ethic required to effectively achieve our goals and objectives; and

to align executives' interests with the creation and maintenance of long-term stockholder value.

Beginning in 2009, our compensation program for named executive officers has been significantly affected by our participation in the CPP. Under the CPP, we are limited in the types of compensation that we may offer to named executive officers and other highly compensated employees, as described below. Due largely to the CPP compensation limitations, the total direct compensation (salary plus incentive compensation) for our named executive officers in 2011 consisted of their base salaries, supplemented by restricted stock awards that ranged from 26% to 34% of their respective base salaries. In addition, as discussed in more detail below, our compensation actions are also limited by the Supervisory Agreements.

With the assistance of an independent compensation consulting firm retained, the compensation committee had also developed a performance-based compensation program for Mr. Krehbiel in 2011, payments under which would be made in the form of additional shares of restricted stock. No payments under this program were earned based on our 2011 performance, and the program was not extended to other named executive officers during the year. A similar program has not been adopted for Mr. Krehbiel in 2012.

Restrictions on Compensation Based on Participation in the Capital Purchase Program

On December 23, 2008, we sold preferred stock to the United States Treasury under the CPP. As a participant in the CPP, we must comply with certain limitations on executive compensation and compensation practices that affect our named executive officers and certain other highly compensated employees throughout the time the Treasury holds our preferred stock. These executive compensation requirements:

prohibit any bonus, retention award or incentive compensation to our five most highly compensated employees (who are not necessarily our five named executive officers) unless it is in the form of long-term restricted common stock that does not vest in the first two years after it is issued and that cannot be transferred except as permitted under a schedule based on the redemption of the preferred stock;

prohibit payment of severance for any reason to our named executive officers and our next five most highly compensated employees;

require us to recover from our named executive officers and the next 20 most highly compensated employees any bonus, retention award or incentive compensation when based on materially inaccurate earnings, revenues, gains or other criteria;

prohibit incentive compensation to named executive officers that encourages unnecessary and excessive risks that threaten the value of our company;

prohibit any compensation plan that would encourage manipulation of our reported earnings to enhance the compensation of any of our employees;

prohibit tax gross ups to any named executive officer or the next 20 most highly compensated employees;

preclude us from claiming a deduction in an applicable tax year for federal income tax purposes for remuneration in excess of \$500,000 to a named executive officer, as calculated in accordance with Section 162(m)(5) of the Internal Revenue Code; and

require the compensation committee to review incentive compensation arrangements for our named executive officers with our senior risk officer to assess and limit arrangements which encourage unnecessary or excessive risks that could threaten the value of our company, to meet semiannually with the senior risk officer to review the relationship between our company's risk management policies and practices and the named executive officers' incentive compensation arrangements, and to certify to the foregoing in our proxy statement.

Each of the requirements listed above still impacts the design of our compensation program and arrangements for our executive officers so long as the Treasury holds our preferred stock. We have structured our bonus and incentive compensation arrangements with our named executive officers to provide for the recovery of any payments based on materially inaccurate financial statements or any other materially inaccurate performance metrics, in accordance with these CPP requirements. The right to recover these payments is not dependent upon the occurrence of a restatement of our financial results or of any misconduct.

While most of these requirements apply to our named executive officers, and in many cases to some number of additional highly compensated employees, the limitation on bonuses, retention awards and incentive compensation applies to our five most highly compensated employees. Even though Mr. Jorgensen and Ms. Kolling are named executive officers, they are not among our five most highly compensated employees; therefore, they are eligible for bonus, retention, and other incentive compensation awards.

Restrictions on Compensation Based on Entry into Supervisory Agreements.

Under the Supervisory Agreements, we and our banking subsidiary are not permitted, without the prior written consent of the applicable regulator, to enter into any new contractual arrangement or to renew or revise any existing contractual arrangement related to compensation or benefits with any director or certain executive officers. The Supervisory Agreements also prohibits any golden parachute payment unless such payment complies with the applicable rules and regulations of the Federal Deposit Insurance Corporation.

Compensation Program Design and Operation

Program Design. Within the constraints of the requirements related to the CPP, the compensation committee seeks to achieve the goals of our executive compensation program by providing for a competitive base salary and long-term equity incentive awards. Under the CPP requirements, base salaries generally cannot represent less than two-thirds of our named executive officers' annual total direct compensation (which consists of base salary and the grant date value of equity compensation awards granted in a particular year). The compensation committee's philosophy is that over the long term, base salaries should be competitive with those of similarly-sized publicly held financial institutions that operate in the upper-Midwest and against whom we may compete for executive talent.

Subject to the restrictions imposed on compensation under the CPP, the compensation committee considers many factors in determining our compensation program for executive officers, including data on competitive compensation practices and amounts, our overall performance compared to expected results and the contributions of the executive officer to achieving our strategic goals. Although we do not have formal stock ownership guidelines, the compensation committee does consider the value and vesting timetable of outstanding equity awards held by executive officers in determining the timing and amount of new equity awards. While the compensation committee may from time to time establish specific performance objectives for the receipt of incentive compensation, our compensation program is essentially a discretionary system in which the compensation committee uses competitive compensation data and draws upon the business experience, business judgment and general knowledge of its members to evaluate compensation matters collaboratively and subjectively.

In designing our compensation program, we have also considered the accounting treatment in our financial statements and the tax impact on us and on our executive officers of various potential elements of compensation. In the past, we have modified the mix of our compensation elements based on changes in financial accounting treatment (such as changing the nature of equity compensation awards partially in response to changes in accounting for equity compensation) and included compensation elements with favorable tax treatment for our employees (such as employer 401(k) contributions), and we may do so again in the future, subject to the constraints of the requirements related to the CPP. However, we do not consider accounting and tax matters as primary factors in managing our compensation program.

At our last annual meeting of stockholders, as required by our participation in the CPP, we asked our stockholders to approve, by advisory vote, the compensation of our named executive officers, as disclosed in the Compensation Discussion and Analysis, the compensation tables, and the related disclosures contained in our proxy statement for that annual meeting. The proposal was approved by our stockholders. In light of the approval by our stockholders of our named executive officers' compensation and the other limitations mentioned previously, the compensation committee did not make changes in our compensation policies and practices.

Roles of Committee and Management. The compensation committee consists exclusively of independent non-employee directors, and has the full authority to determine all elements of the compensation for Mr. Krehbiel and to approve all elements of the compensation of our other executive officers. In approving compensation actions for the other executive officers, the compensation committee receives regular input and recommendations from Mr. Krehbiel, and ascribes significant weight to his recommendations. Our chief financial officer and his staff, together with outside professionals, assist the compensation committee in evaluating the financial accounting and tax treatment of existing and potential elements of our executive compensation program.

Compensation Consultant. The compensation committee has the authority to retain independent compensation consultants to assist in the evaluation of executive officer compensation. In late 2010, the compensation committee engaged Blanchard Chase as its independent compensation consultant. Blanchard Chase is engaged to assist the compensation committee in refining the committee's compensation philosophy, defining characteristics of peer financial institutions and identifying particular peer group entities, compiling peer group compensation data, analyzing the elements of compensation, developing incentive compensation systems and ensuring compliance with the compensation restrictions under the CPP and other regulatory requirements. Prior to engaging Blanchard Chase, the compensation committee engaged Amalfi Consulting, LLC (Amalfi) to perform similar functions.

Determining Market Competitive Compensation. With Amalfi's assistance, in the fourth quarter of 2009, the compensation committee identified the following twenty-one publicly traded financial institutions in the Upper Midwest that are comparable to us in asset size and performance and with whom we may compete for executive talent for purposes of obtaining data on competitive compensation practices (the 2009 Peer Group):

QCR Holdings, Inc.	Princeton National Bancorp, Inc.	Ames National Corporation
Reliance Bancshares, Inc.	HF Financial Corp.	OAK Financial Corporation
Bank Financial Corporation	Baylake Corp.	United Bancorp, Inc.
West Bancorporation, Inc.	First Mid-Illinois Bancshares, Inc.	Meta Financial Group, Inc.
MidWestOne Financial Group, Inc.	Northern States Financial Corp.	First Clover Leaf Financial Corp.
Centrue Financial Corporation	Indiana Community Bancorp	BNCCORP, Inc.
Hawthorn Bancshares, Inc.	First Business Financial Services, Inc.	

At the time the 2009 Peer Group was identified, our total assets were at the 36th percentile within the 2009 Peer Group, and our number of branches was at the 37th percentile. Eleven members of the 2009 Peer Group were then participants in the CPP.

The compensation committee's philosophy is to generally target base salaries and total direct compensation for our named executive officers at or below the median for comparable positions at companies within the 2009 Peer Group, reserving to itself the discretion to position an individual's base salary or total direct compensation above or below the 2009 Peer Group's median based on the individual's experience, performance and level of responsibilities. The 2009 Peer Group compensation data was not updated during 2011, as the compensation committee determined, with the concurrence of its consultant, that the competitive data was not likely to have changed significantly.

Since the compensation committee tries to obtain updated competitive compensation data every two to three years, in the first quarter of 2012, the compensation committee engaged Blanchard Chase to review the 2009 Peer Group. Based on this review, the following twenty-one publicly traded financial institutions in the Upper Midwest that are comparable to us in asset size and with whom we may compete for executive talent for purposes of obtaining data on competitive compensation practice were identified and now comprise a revised peer group (the 2012 Peer Group):

Meta Financial Group, Inc.	First Business Financial Services, Inc.*	Community Bank Shares of Indiana, Inc.*
NASB Financial, Inc.*	Reliance Bancshares, Inc.	Southern Missouri Bancorp, Inc.*
MBT Financial Corp.*	Tri City Bankshares Corporation*	Blue Valley Ban Corp.*
West Bancorporation, Inc.	Baylake Corp.	Guaranty Federal Bancshares*
HF Financial Corp.	Ames National Corporation	Tower Financial Corporation*
Hawthorn Bancshares, Inc.	Indiana Community Bancorp	NorthWest Indiana Bancorp*
CFS Bancorp, Inc.*	United Bancorp, Inc.	PSB Holdings, Inc.*

*Companies that are new additions for the 2012 Peer Group.

Ten companies were removed from the 2009 Peer Group, therefore, ten new companies were added to the 2012 Peer Group. The primary reason these companies were removed is because such financial institutions are no longer in existence or no longer meet the asset size criteria that was established for the 2012 Peer Group. At the time the 2012 Peer Group was identified, our total assets were at the 36th percentile within the 2012 Peer Group, and our number of branches was at the 47th percentile. Six members of the 2012 Peer Group were participants in the CPP at the time of their selection for the 2012 Peer Group. The compensation committee will use the 2012 Peer Group as one of its tools for benchmarking the compensation paid to our executive officers and for purposes of making its compensation decisions in 2012.

Elements of Compensation and Compensation Actions

Executive officer compensation includes the following elements:

Base Salary. The base salary amount is the fixed portion of each executive's annual compensation and, under requirements related to the CPP, must represent 66%-100% of an executive's total annual potential compensation. Salary levels are based primarily on the executive's responsibilities and experience, and the

market compensation paid by similar sized financial institutions for similar positions. Ordinarily, base salaries are reviewed annually, and adjusted from time to time to realign salaries with market levels and individual responsibilities, performance and experience.

Based on our consultations with our compensation consultant and the 2009 Peer Group data received, the compensation limitations applicable to us due to our participation in the CPP and the Supervisory Agreements, and on general economic uncertainty, the compensation committee decided to make no changes to Mr. Krehbiel's base salary during 2011. For 2011, Mr. Krehbiel's base salary was approximately 75% of his total compensation. Mr. Krehbiel's base salary for 2012 is \$290,185.

All of our other named executive officers received raises in 2011. Mr. Jorgensen's and Ms. Kolling's raises are consistent with our 2011 salary guidelines for employees generally. Mr. McGraw's increase reflects the compensation committee's review of market compensation levels for comparable positions. Mr. Eberle's increase reflects both the compensation committee's considerations of internal pay equity among its named executive officers and general salary guidelines. For 2011, the percentage of base salary for these named executive officers as compared to total compensation ranged from 73% to 85%. For 2012, Messrs. Jorgensen, McGraw and Eberle and Ms. Kolling's base salaries have been set at \$117,053, \$190,000, \$190,000, and \$129,114, respectively. Mr. Jorgensen's and Ms. Kolling's raises are consistent with our 2012 salary guidelines for employees generally. Mr. McGraw and Mr. Eberle received increases reflecting increasing management duties.

Bonus, Retention Awards, and Incentive Compensation. Long-term restricted stock grants are granted under our 2009 Equity Incentive Plan and are the only form of bonus, retention award or incentive compensation that we are permitted to provide to our five most highly compensated employees, including three of our named executive officers, under requirements related to the CPP. In accordance with CPP requirements, restricted stock awards generally may not vest prior to the second anniversary of the applicable grant date. Even after a restricted stock award has vested, the shares of stock subject to the award may not be transferred any time earlier than is proportional, in 25% increments, to our repayment to the Treasury of the financial assistance we received under the CPP. We have not yet repaid any of the financial assistance that we received under the CPP.

The issuance of restricted stock is designed to provide a long-term retention incentive for executive officers, align their interests with the creation and maintenance of long-term stockholder value and reward them for managing our performance to increase stockholder value. The compensation committee's philosophy is that restricted stock grants also may encourage executive officers to balance the risk of losses in stockholder value against the potential for gains in stockholder values when evaluating business decisions. As a result, the executive officers may adopt strategies that strike a better balance between the potential for stock price appreciation and the risk that a failed strategy will lead to a stock price decline.

The compensation committee began using restricted stock grants as an element of the overall compensation program in 2004, when the accounting requirements for expensing stock options changed and the difference in the financial statement impact between granting awards of restricted stock and granting option awards was reduced. At that time, the compensation committee began issuing restricted stock grants instead of stock options due to the change in accounting treatment of stock options, the relatively long remaining vesting and exercise periods of the then outstanding stock options, and the committee's belief that grants of restricted stock awards provide a stronger retention incentive than stock options because executives are assured of realizing value as the stock vests over time. No stock options have been issued to executive officers since 2004.

On January 27, 2011, in order to retain the services of our executive officers and to provide them with long-term incentive compensation within the limitations of the CPP, the compensation committee authorized a grant to Messrs. Krehbiel, Eberle, and McGraw of restricted stock of 25,000 shares, 15,000 shares, and 20,000 shares, respectively. The grant date value of each restricted stock award to these named executive officers is limited under the CPP requirements and may not exceed one-half of the executive officer's base salary for the calendar year. Based on competitive data and analyses provided by our compensation consultant and other considerations involved with the named executive officer's respective position, the compensation committee decided to provide 2011 restricted stock awards with a grant date value of 28% of base salary to Mr. Krehbiel, 26% of base salary to Mr. Eberle, and 34% of base salary to Mr. McGraw. For 2012, our compensation

committee made restricted stock grants to our named executive officers equal to 10% of their base salary on similar terms. The OCC has stated it has no objections to the grant of these awards for 2012. The compensation committee generally approves equity-based awards at a meeting early in the first quarter of each fiscal year, after our year-end financial results have been released.

Historically, we have also awarded nominal cash bonuses based on years of service and annual holiday bonuses to all employees, including our executives. Holiday bonuses were discontinued in 2011. We also reserve the right to pay bonus compensation under other circumstances.

In 2011, the compensation committee approved a grant of discretionary cash retention awards to Mr. Jorgensen and Ms. Kolling, neither of whom are subject to the CPP limitation on bonus, retention and incentive awards because, while they are named executive officers, they are not among our five most highly paid employees. The compensation committee approved a total award for Mr. Jorgensen of \$16,800 and a total award for Ms. Kolling of \$24,720. These cash-based awards, which are payable in three equal annual installments, are provided for retention purposes and to lessen the usage of shares under our equity-based compensation plan. An installment will vest and be paid if the officer remains employed on December 31 of each year and has been continuously employed throughout the year, subject to accelerated vesting of an installment in the event of death or disability during the calendar year. The vested portion of the cash retention award will be paid on January 31 in the year following the year in which vesting occurs. On January 23, 2012, the compensation committee approved a grant of discretionary cash retention awards of \$5,738 and \$9,494 to Mr. Jorgensen and Ms. Kolling, respectively. The OCC has stated it has no objections to the grant of these awards for 2012. These cash-based awards are payable and vest on the same terms as the cash awards granted to these individuals in 2011.

The compensation committee worked with its compensation consultant to develop, within the limitations imposed by the CPP, an incentive compensation plan for Mr. Krehbiel in 2011 to more closely link his compensation with individual and bank performance. The plan is based on the achievement of annual financial and non-financial objectives, which were established by the compensation committee at the beginning of 2011. The allocation of incentives between financial and non-financial objectives for the 2011 incentive compensation plan was split 20% for attainment of certain percentages of budgeted earnings per share, which was \$0.64, and 80% for attainment of certain percentages of budgeted non-performing assets of \$42.1 million, certain percentages of budgeted provision for loan losses of \$10.2 million, and meeting other strategic objectives. For 2011, our actual earnings per share was (\$3.47), our non-performing assets balance was \$50.6 million, and our provision for loan losses was \$17.3 million. Because the performance objectives were not achieved, Mr. Krehbiel did not receive an additional award of performance-based restricted stock in 2011.

Benefits. The compensation committee's philosophy is that a competitive benefits package contributes to executive retention. Our executive officers participate on an equal, nondiscriminatory basis with all other employees in our medical insurance plan, medical reimbursement plan, childcare plan, long-term disability plan and group life insurance plan. If an executive officer retires after 15 years of service, we will continue to pay the employer portion of his or her health insurance coverage until he or she reaches the age of 65.

Our executive officers also participate along with other employees, on a nondiscriminatory basis, in a 401(k) plan with a 25% match on employee contributions up to 8% of the employee's salary.

Our executive officers also participate on a nondiscriminatory basis in our Employee Stock Ownership Plan (ESOP). All of our employees are eligible to participate in the ESOP after they complete one year of service as defined by the plan. The ESOP holds shares of our common stock that secure a loan for the funds that were used to acquire the ESOP shares. Each year the security interest is released from a fixed number of shares as a fixed amount of the loan is amortized. The shares that are released from the security interest are allocated to eligible participant accounts based on the percentage of the participant's compensation (subject to limits) to the entire compensation of all plan participants. The value of the ESOP contributions vary based on the price of our common stock and represents less than 1% of each executive's base salary amount.

The compensation committee considers the benefits granted to executive officers when determining executive officer compensation amounts and comparing compensation amounts to other executives at similar companies, and considers the value of the ESOP contributions when it considers the mix between cash and equity compensation.

Change in Control Compensation. We also have entered into change-in-control agreements with each of our named executive officers, other than Mr. McGraw, that, subject to CPP requirements, provide for a cash payment equal to 200% of the employee's prior year base salary and bonus if, following a change in control, his or her employment is involuntarily terminated or the employee terminates his or her employment for good reason. The compensation committee's philosophy is that change-in-control agreements are appropriate to induce executives to remain with our company in the event of a proposed or anticipated change in control or through a change in control to facilitate an orderly transition to new ownership. The change-in-control agreements also assist us in recruiting and retaining executives by providing executives with appropriate economic security, given the relatively limited number of alternative employers in our industry and geographic area, against loss of employment following a change in control. However, until we have repaid all of the financial assistance we received under the CPP, we may not make any payment to our named executive officers in connection with a change in control, except for payments for services performed or benefits accrued.

Recovery of Performance-Based Compensation

The Sarbanes-Oxley Act requires recovery of certain incentive and equity compensation from our principal executive officer and principal financial officer in the event of restatement of financial results due to misconduct. The audit committee is responsible for determining if bonus or stock compensation paid to the principal executive officer or principal financial officer should be recovered in the event of a restatement.

COMPENSATION COMMITTEE REPORT

The compensation committee certifies that at least every six months, it has

discussed, evaluated and reviewed with the senior risk officer the named executive officer compensation plans in an effort to ensure that such plans do not encourage the named executive officers to take unnecessary and excessive risks that threaten the value of our company;

discussed, evaluated and reviewed with the senior risk officer the employee compensation plans in light of the risks posed to our company by such plans and how to limit such risks; and

discussed, evaluated and reviewed employee compensation plans in an effort to ensure that these plans do not encourage the manipulation of reported earnings of our company to enhance the compensation of any of our company's employees.

In addition, the compensation committee certifies that it has made reasonable efforts to identify and limit any features of the named executive officer compensation plans that could lead named executive officers to take unnecessary and excessive risks that could threaten the value of our company and has made reasonable efforts to identify and limit any features of the employee compensation plans that pose risks to our company in an effort to ensure that our company is not unnecessarily exposed to risks.

Based on, among other factors, the committee's assessment of the principal risks to which our company is subject, its evaluation of the existing compensation arrangements for our named executive officers in accordance with the limitations imposed under the CPP and the Supervisory Agreements, the relatively significant portion of total compensation represented by base salary and the CPP limitation on the use of variable forms of compensation, the discretion to award incentive compensation exercisable by the company, the customary use of non-financial objectives in determining a significant portion of any incentive compensation, the use of restricted stock as a significant component of equity incentive compensation and the sole component in recent years, the required vesting periods included in equity awards, the holding period required after vesting for restricted stock grants subject to the requirements related to the CPP, and the clawback requirements to which incentive compensation is now subject, the compensation committee concluded that our compensation plans for our named executive officers are not reasonably likely to encourage unnecessary or excessive risk, including behavior focused on short-term results rather than long-term value creation, that would threaten the value of our company.

Based on, among other factors, the elements of our employees' compensation, the relatively significant portion of total compensation represented by base salary for our employees, the discretion to award incentive compensation exercisable by the company, the use of non-financial objectives in determining a significant portion of any incentive compensation, the use of restricted stock as a significant component of equity incentive compensation and the sole component in recent years, the required vesting periods included in equity awards, executive and management oversight of our operations and our systems of internal controls over financial reporting, the compensation committee concluded that our employee compensation plans are not reasonably likely to encourage behavior focused on short-term results rather than long-term value creation or encourage the manipulation of our reported earnings to enhance the compensation of any of our employees.

The compensation committee has discussed and reviewed the compensation discussion and analysis with management. Based upon this review and discussion, the compensation committee recommended to the board of directors that the compensation discussion and analysis be included in this proxy statement.

Change-In-Control Agreements

Under regulations related to the CPP, until we have repaid all of the financial assistance we received under the CPP, we may not make any payment to our named executive officers upon a change in control, except for payments for services performed or benefits accrued. Prior to our receipt of funds under the CPP, our banking subsidiary entered into a change-in-control agreement with each of Messrs. Krehbiel, Eberle and Jorgensen and Ms. Kolling as of May 27, 2008. These original agreements expired on May 30, 2010, but they provide for an automatic extension for one year and from year to year thereafter unless either applicable party gives contrary written notice 180 days prior to the expiration date each year. No such notice was given as of December 31, 2011. Therefore, by their terms, these agreements were extended to May 30, 2013. These agreements were designed to assist us in maintaining a stable and competent management team.

If permitted, the agreements provide for a cash payment equal to 200% of the employee's prior year base salary and bonus prior to termination in the event that their employment is terminated in connection with a change of control. A change of control occurs under the agreements if any person other than the executive, us, or one of our benefit plans acquires or becomes the beneficial owner of 35% or more of our outstanding stock entitled to vote in a general election of directors; a majority of the members of our board are replaced as a result of an actual or threatened election contest; a reorganization, merger or consolidation of us is consummated that changes our ownership by 35% or more; or our stockholders approve a complete liquidation or dissolution of us or disposition of substantially all of our assets. If permitted, these named executive officers would also be eligible for the cash payment if they voluntarily terminate employment within one year after a change in control has occurred if their duties, responsibilities, base salary, or benefits are reduced or if their principal place of employment is relocated more than 35 miles from its current location. These agreements also provide that these named executive officers, if permitted, would participate in the health, disability and life insurance plans and programs that they were entitled to immediately prior to termination for one year after termination. If payment under these agreements were permitted, the amounts payable pursuant to these agreements would be reduced by the amount of any severance pay that the employees receive from the bank, its subsidiaries or its successors. Based on their prior year base salary and bonus amounts, if their employment had been terminated as of December 31, 2011, under circumstances giving rise to the salary payment described above and the payments were permitted, Mr. Krehbiel would have been entitled to receive approximately \$529,000, Mr. Eberle would have been entitled to receive approximately \$350,000, Mr. Jorgensen would have been entitled to receive approximately \$240,716 and Ms. Kolling would have been entitled to receive approximately \$269,644. The agreements provide that if the cash payments under the agreements together with any other compensation payments triggered by the change in control would constitute a parachute payment under Section 280G of the internal revenue code, the cash payments under the agreements would be reduced to the largest amount as would result in no portion of the payment being subject to an excise tax under the code. Pursuant to the Supervisory Agreements, any payment made under the change-in-control agreements must comply with the applicable rules and regulations of the Federal Deposit Insurance Corporation.

Our employees are included in the Financial Institutions Retirement Fund (FIRF), a multi-employer comprehensive pension plan. This non-contributory defined benefit retirement plan covers all employees who have met minimum service requirements. Employees become 100% vested in the pension plan after five years of eligible service. Our policy is to fund the minimum amounts required by the plan, and for 2011, we made a contribution of \$291,000 to the plan. On September 1, 2002, benefits for all of the existing participants under the plan were frozen, and as a result, no additional benefits have been earned and no new employees have been enrolled in the plan after that date. At age 65, Mr. Krehbiel will be entitled to annual payments of \$2,567, Mr. Eberle will be entitled to annual payments of \$4,141, Mr. Jorgensen will be entitled to annual payments of \$28,247, and Ms. Kolling will be entitled to annual payments of \$23,779. The annual benefit amount is calculated based on the employees' base salary for the five years prior to the plan being frozen.
