**Table of Contents****RYERSON HOLDING CORPORATION AND SUBSIDIARY COMPANIES****Notes to Condensed Consolidated Financial Statements (Unaudited)****NOTE 1: FINANCIAL STATEMENTS**

Ryerson Holding Corporation ( Ryerson Holding ), a Delaware corporation, is the parent company of Ryerson Inc. ( Ryerson ). Ryerson Holding is 99% owned by affiliates of Platinum Equity, LLC ( Platinum ).

Ryerson conducts materials distribution operations in the United States through its wholly-owned direct subsidiary Joseph T. Ryerson & Son, Inc. ( JT Ryerson ), in Canada through its indirect wholly-owned subsidiary Ryerson Canada, Inc., a Canadian corporation ( Ryerson Canada ) and in Mexico through its indirect wholly-owned subsidiary Ryerson Metals de Mexico, S. de R.L. de C.V., a Mexican corporation ( Ryerson Mexico ). In addition to our North American operations, we conduct materials distribution operations in China through Ryerson China Limited ( Ryerson China ), a company in which we have a 100% ownership percentage and in Brazil through Açofran Aços e Metais Ltda ( Açofran ), a company in which we have a 50% direct ownership percentage as of February 17, 2012. Unless the context indicates otherwise, Ryerson Holding, Ryerson, JT Ryerson, Ryerson Canada, Ryerson China and Ryerson Mexico together with their subsidiaries, are collectively referred to herein as we, us, our, or the Company.

The following table shows our percentage of sales by major product lines for the three months ended March 31, 2012 and 2011, respectively:

Product Line	Three Months Ended March 31,	
	2012	2011
Carbon Steel Flat	24%	26%
Carbon Steel Plate	13	10
Carbon Steel Long	15	10
Stainless Steel Flat	15	21
Stainless Steel Plate	4	5
Stainless Steel Long	4	4
Aluminum Flat	15	14
Aluminum Plate	4	3
Aluminum Long	3	3
Other	3	4
Total	100%	100%

Results of operations for any interim period are not necessarily indicative of results of any other periods or for the year. The financial statements as of March 31, 2012 and for the three-month period ended March 31, 2012 and 2011 are unaudited, but in the opinion of management include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of results for such periods. The year-end condensed consolidated balance sheet data contained in this report was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. These financial statements should be read in conjunction with the financial statements and related notes contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

**NOTE 2: RECENT ACCOUNTING PRONOUNCEMENTS**

In May 2011, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* ( ASU 2011-04 ). ASU 2011-04 amends Accounting Standards Codification ( ASC ) 820, *Fair Value Measurements* ( ASC 820 ), providing a consistent definition and measurement of fair value, as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles, clarifies the application of existing fair value measurement and expands the ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. The revised guidance is effective for interim and annual periods beginning after December 15, 2011 and early application by public entities is prohibited. We adopted this guidance on January 1, 2012. The adoption did not have a material impact on our financial statements.

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income* ( ASU 2011-05 ). Under ASU 2011-05, entities are required to present total comprehensive income either in a single, continuous statement of comprehensive income or in two separate but consecutive statements. Under the single-statement approach, entities must include the components of net income, a total for net income, the components of other comprehensive income and a total for comprehensive income. Under the two-statement approach, entities must report an income statement and, immediately following, a statement of other comprehensive income. The amendments in ASU 2011-05 do not change the items that must be reported in other

**Table of Contents**

comprehensive income or when an item of other comprehensive income must be reclassified to net income. ASU 2011-05 should be applied retrospectively. The provisions for this pronouncement are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. We have adopted this pronouncement for our fiscal year beginning January 1, 2012. In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-5* which deferred the requirement from the June 2011 guidance that related to the presentation of reclassification adjustments. The amendment will allow the FASB time to redeliberate whether to present on the face of the financial statements the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income for all periods presented. The adoption of ASU 2011-05 did not have a material effect on the Company's consolidated financial statements.

In September 2011, the FASB issued ASU 2011-08, *Intangibles—Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (ASU 2011-08). ASU 2011-08 allows an entity to make an initial qualitative evaluation, based on the entity's events and circumstances, to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. The results of this qualitative assessment determine whether it is necessary to perform the currently required two-step impairment test. The new guidance also expands upon the examples of events and circumstances that an entity should consider between annual impairment tests in determining whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. The new guidance is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011 with early adoption permitted. We adopted this guidance prospectively on January 1, 2012. The adoption did not have a material impact on our financial statements.

**NOTE 3: INVENTORIES**

The Company uses the last-in, first-out (LIFO) method of valuing inventory. Interim LIFO calculations are based on actual inventory levels.

Inventories, at stated LIFO value, were classified at March 31, 2012 and December 31, 2011 as follows:

	March 31, 2012	December 31, 2011
	(In millions)	
In process and finished products	\$ 785.0	\$ 732.4

If current cost had been used to value inventories, such inventories would have been \$21 million and \$29 million higher than reported at March 31, 2012 and December 31, 2011, respectively. Approximately 87% and 88% of inventories are accounted for under the LIFO method at March 31, 2012 and December 31, 2011, respectively. Non-LIFO inventories consist primarily of inventory at our foreign facilities using the weighted-average cost and the specific cost methods. Substantially all of our inventories consist of finished products.

**NOTE 4: GOODWILL AND OTHER INTANGIBLE ASSETS**

Goodwill, which represents the excess of cost over the fair value of net assets acquired, amounted to \$97.1 million at March 31, 2012. Pursuant to ASC 350, *Intangibles—Goodwill and Other*, we review the recoverability of goodwill and other intangible assets deemed to have indefinite lives annually as of October 1 or whenever significant events or changes occur which might impair the recovery of recorded amounts. The most recently completed impairment test of goodwill was performed as of October 1, 2011. Other intangible assets with finite useful lives continue to be amortized over their useful lives. We review the recoverability of our long-lived assets whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable.

**Table of Contents****NOTE 5: ACQUISITIONS****Singer Steel Company**

On March 14, 2011, the Company acquired all the issued and outstanding capital stock of Singer Steel Company (Singer). Singer is a full-service steel value-added processor with state-of-the-art processing equipment. We believe that Singer's capabilities strongly enhance Ryerson's offering in the Midwest and Northeast United States.

The fair value of the consideration totaled \$23.6 million on the acquisition date, which consisted of the following:

	<b>Consideration (In millions)</b>
Cash	\$ 20.0
Holdback (1)	3.6
<b>Total</b>	<b>\$ 23.6</b>

(1) Any remaining holdback amount not used for undisclosed obligations is payable to the seller within 18 months from the acquisition date. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date. The Company used a third-party valuation firm to estimate the fair values of the property, plant and equipment and intangible assets. Inventory was valued by the Company using acquisition date fair values of the metals.

	<b>At March 14, 2011 (In millions)</b>
Cash	\$ 0.3
Restricted cash	6.5
Accounts receivable	7.3
Inventory	16.3
Property, plant, and equipment	8.2
Intangible assets	4.3
Other assets	0.2
<b>Total identifiable assets acquired</b>	<b>43.1</b>
<b>Current liabilities</b>	<b>11.4</b>
Deferred tax liabilities	2.3
<b>Total liabilities assumed</b>	<b>13.7</b>
<b>Net identifiable assets acquired</b>	<b>29.4</b>
Bargain purchase	(5.8)
<b>Net assets acquired</b>	<b>\$ 23.6</b>

The fair value of accounts receivables acquired was \$7.3 million, with a gross amount of \$7.8 million. The Company expects \$0.5 million to be uncollectible.

Of the \$4.3 million of acquired intangible assets, \$2.2 million was assigned to customer relationships with a useful life of 7 years, \$1.7 million was assigned to trademarks with a useful life of 5 years and \$0.4 million was assigned to a license agreement with a useful life of 7 years.

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

The transaction resulted in a bargain purchase primarily due to the fair value of acquired intangible assets and higher inventory valuation related to rising metals prices. The gain is included in other income and (expense), net in the Statement of Comprehensive Income. The Company has recognized \$0.4 million in acquisition-related fees, which is included in warehousing, delivery, selling, general and administrative expenses.

Included in the three months ended March 31, 2011 financial results is \$2.5 million of revenue and \$6.4 million (includes the \$5.8 million bargain purchase gain) of net income from Singer since the acquisition date.

**Table of Contents****Turret Steel**

On December 9, 2011, the Company acquired all the issued and outstanding capital stock of Turret Steel Industries, Inc., Sunbelt-Turret Steel, Inc., Wilcox-Turret Cold Drawn, Inc., and Imperial Trucking Company, LLC (collectively, "Turret"). Turret is a premier distributor of Special Bar Quality Carbon and Alloy bar products. We believe that Turret's product offerings strongly enhance Ryerson's strategy of increasing its presence in long and fabricated products.

Ryerson acquired Turret for a cash purchase price of \$79.0 million, plus assumption of approximately \$6.5 million of debt on the acquisition date. A total of \$1.7 million of the \$79.0 million cash purchase price has been held back and will be paid to the seller within 150 days of the acquisition date. The terms of the agreement also include deferred cash consideration payouts, totaling a maximum of \$36.0 million over a period of 5 years, which are contingent on the seller's continued employment with Ryerson as well as the financial performance of Turret. The deferred cash consideration will be recognized as compensation expense and recorded as it is incurred over the five year period.

The following table summarizes the preliminary estimated fair values of the assets acquired and liabilities assumed at the acquisition date. The Company used a third-party valuation firm to estimate the fair values of the property, plant and equipment and intangible assets. Inventory was valued by the Company using acquisition date fair values of the metals.

	<b>At December 9, 2011 (In millions)</b>
Cash	\$ 1.8
Accounts receivable	12.0
Inventory	26.7
Property, plant, and equipment	2.9
Intangible assets	45.1
Goodwill	24.8
Other assets	0.9
 Total identifiable assets acquired	 114.2
 Current liabilities	 16.8
Deferred tax liabilities	18.4
 Total liabilities assumed	 35.2
 Net assets acquired	 \$ 79.0

The fair value of accounts receivables acquired was \$12.0 million, with a gross amount of \$12.3 million. The Company expects \$0.3 million to be uncollectible.

Of the \$45.1 million of acquired intangible assets, \$27.8 million was assigned to customer relationships with useful lives between 7 and 11 years, \$17.0 million was assigned to trademarks with a useful life of 20 years and \$0.3 million was assigned to a covenant not to compete with a useful life of 7 years. The Company recognized \$24.8 million of goodwill, reflecting management's expected synergies.

The Company has recognized \$0.4 million in acquisition-related fees, which is included in warehousing, delivery, selling, general and administrative expenses.

The following unaudited pro forma information presents consolidated results of operations for the three months ended March 31, 2012 and 2011 as if the acquisitions of Singer and Turret on March 14, 2011 and December 9, 2011, respectively, had occurred on January 1, 2011:

**Pro Forma**

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

	Three Months Ended March 31,	
	2012	2011
Net sales	\$ 1,121.6	\$ 1,232.1
Net income (loss) attributable to Ryerson Holding Corporation	25.0	(5.6)

The 2011 supplemental pro forma net income (loss) was adjusted to exclude the \$5.8 million bargain purchase gain realized in 2011 as it is a nonrecurring item.

**Table of Contents****Açofran**

On February 17, 2012, the Company acquired 50% of the issued and outstanding capital stock of Açofran, a long products distributor located in São Paulo, Brazil. The Company is party to a put option arrangement with respect to the securities that represent the noncontrolling interest of Açofran. The put is exercisable by the minority shareholders outside of the Company's control by requiring the Company to redeem the minority shareholders' equity stake in the subsidiary at a put price based on earnings before interest, income tax, depreciation and amortization expense and net debt. The redeemable noncontrolling interest is classified as mezzanine equity and measured at the greater of estimated redemption value at the end of each reporting period or the historical cost basis of the noncontrolling interest adjusted for earnings and foreign currency allocations. The resulting increase or decrease in the estimated redemption amount is adjusted with a corresponding charge against retained earnings, or in the absence of retained earnings, additional paid-in-capital. The acquisition is not material to our consolidated financial statements.

**NOTE 6: LONG-TERM DEBT**

Long-term debt consisted of the following at March 31, 2012 and December 31, 2011:

	March 31, 2012	December 31, 2011
	(In millions)	
Ryerson Secured Credit Facility	\$ 503.8	\$ 520.0
12% Senior Secured Notes due 2015	368.7	368.7
Floating Rate Senior Secured Notes due 2014	102.9	102.9
14 1/2% Senior Discount Notes due 2015	483.0	483.0
Foreign debt	26.4	32.0
Total debt	1,484.8	1,506.6
Less:		
Unamortized discount on Ryerson Holding Notes	178.4	190.4
Short-term credit facility borrowings	12.6	20.0
Short-term foreign debt	25.7	32.0
Total long-term debt	1,268.1	1,264.2

**Ryerson Credit Facility**

On March 14, 2011, Ryerson amended and restated its \$1.35 billion revolving credit facility agreement (as amended, the Ryerson Credit Facility) to, among other things, extend the maturity date to the earliest of (a) March 14, 2016, (b) the date that occurs 90 days prior to the scheduled maturity date of the Floating Rate Senior Secured Notes due November 1, 2014 (2014 Notes), if the 2014 Notes are then outstanding and (c) the date that occurs 90 days prior to the scheduled maturity date of the 12% Senior Secured Notes due November 1, 2015 (2015 Notes) (together, with the 2014 Notes, the Ryerson Notes), if the 2015 Notes are then outstanding. At March 31, 2012, Ryerson had \$503.8 million of outstanding borrowings, \$22 million of letters of credit issued and \$292 million available under the \$1.35 billion Ryerson Credit Facility compared to \$520.0 million of outstanding borrowings, \$22 million of letters of credit issued and \$274 million available at December 31, 2011. Total credit availability is limited by the amount of eligible accounts receivable and inventory pledged as collateral under the agreement insofar as Ryerson is subject to a borrowing base comprised of the aggregate of these two amounts, less applicable reserves. Eligible accounts receivable, at any date of determination, are comprised of the aggregate value of all accounts directly created by a borrower in the ordinary course of business arising out of the sale of goods or the rendition of services, each of which has been invoiced, with such receivables adjusted to exclude various ineligible accounts, including, among other things, those to which a borrower does not have sole and absolute title and accounts arising out of a sale to an employee, officer, director, or affiliate of the borrower. The weighted-average interest rate on the borrowings under the Ryerson Credit Facility was 2.4 percent at March 31, 2012 and December 31, 2011.

Amounts outstanding under the Ryerson Credit Facility bear interest at a rate determined by reference to the base rate (Bank of America's prime rate) or a LIBOR rate or, for Ryerson's Canadian subsidiary which is a borrower, a rate determined by reference to the Canadian base rate (Bank of America-Canada Branch's Base Rate for loans in U.S. Dollars in Canada) or the BA rate (average annual rate applicable to Canadian Dollar bankers' acceptances) or a LIBOR rate and the Canadian prime rate (Bank of America-Canada Branch's Prime Rate). The spread over the base

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

rate and Canadian prime rate is between 0.75% and 1.50% and the spread over the LIBOR and for the bankers' acceptances is between 1.75% and 2.50%, depending on the amount available to be borrowed. Overdue amounts and all amounts owed during the existence of a default bear interest at 2% above the rate otherwise applicable thereto. Ryerson also pays commitment fees on amounts not borrowed at a rate between 0.375% and 0.50% depending on the average borrowings as a percentage of the total \$1.35 billion agreement during a rolling three month period.

---

## **Table of Contents**

Borrowings under the Ryerson Credit Facility are secured by first-priority liens on all of the inventory, accounts receivable, lockbox accounts and related assets of Ryerson, subsidiary borrowers and certain other U.S. subsidiaries of Ryerson that act as guarantors.

The Ryerson Credit Facility contains covenants that, among other things, restrict Ryerson with respect to the incurrence of debt, the creation of liens, transactions with affiliates, mergers and consolidations, sales of assets and acquisitions. The Ryerson Credit Facility also requires that, if availability under such facility declines to a certain level, Ryerson maintain a minimum fixed charge coverage ratio as of the end of each fiscal quarter.

The Ryerson Credit Facility contains events of default with respect to, among other things, default in the payment of principal when due or the payment of interest, fees and other amounts after a specified grace period, material misrepresentations, failure to perform certain specified covenants, certain bankruptcy events, the invalidity of certain security agreements or guarantees, material judgments and the occurrence of a change of control of Ryerson. If such an event of default occurs, the lenders under the Ryerson Credit Facility will be entitled to various remedies, including acceleration of amounts outstanding under the Ryerson Credit Facility and all other actions permitted to be taken by secured creditors.

The lenders under the Ryerson Credit Facility have the ability to reject a borrowing request if any event, circumstance or development has occurred that has had or could reasonably be expected to have a material adverse effect on Ryerson. If Ryerson or any significant subsidiaries of the other borrowers becomes insolvent or commences bankruptcy proceedings, all amounts borrowed under the Ryerson Credit Facility will become immediately due and payable.

Proceeds from borrowings under the Ryerson Credit Facility and repayments of borrowings thereunder that are reflected in the Consolidated Statements of Cash Flows represent borrowings under the Company's revolving credit agreement with original maturities greater than three months. Net proceeds (repayments) under the Ryerson Credit Facility represent borrowings under the Ryerson Credit Facility with original maturities less than three months.

## **Ryerson Holding Notes**

On January 29, 2010, Ryerson Holding issued \$483 million aggregate principal amount at maturity of 14 1/2% Senior Discount Notes due 2015 (the "Ryerson Holding Notes"). No cash interest accrues on the Ryerson Holding Notes. The Ryerson Holding Notes had an initial accreted value of \$455.98 per \$1,000 principal amount and will accrete from the date of issuance until maturity on a semi-annual basis. The accreted value of each Ryerson Holding Note increased from the date of issuance until October 31, 2010 at a rate of 14.50%. Thereafter the interest rate increased by 1% (to 15.50%) until July 31, 2011, an additional 1.00% (to 16.50%) on August 1, 2011 until April 30, 2012, and increases by an additional 0.50% (to 17.00%) on May 1, 2012 until the maturity date. Interest compounds semi-annually such that the accreted value will equal the principal amount at maturity of each note on that date. At March 31, 2012, the accreted value of the Ryerson Holding Notes was \$304.6 million. The Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries and are secured by a first-priority security interest in the capital stock of Ryerson. The Ryerson Holding Notes rank equally in right of payment with all of Ryerson Holding's senior debt and senior in right of payment to all of Ryerson Holding's subordinated debt. The Ryerson Holding Notes are effectively junior to Ryerson Holding's other secured debt to the extent of the collateral securing such debt (other than the capital stock of Ryerson). Because the Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries, the notes are structurally subordinated to all indebtedness and other liabilities (including trade payables) of Ryerson Holding's subsidiaries, including Ryerson.

The Ryerson Holding Notes contain customary covenants that, among other things, limit, subject to certain exceptions, Ryerson Holding's ability to incur additional indebtedness, pay dividends on its capital stock or repurchase its capital stock, make certain investments or other restricted payments, create liens or use assets as security in other transactions, enter into sale and leaseback transactions, merge, consolidate or transfer or dispose of substantially all of Ryerson Holding's assets, and engage in certain transactions with affiliates.

The Ryerson Holding Notes are redeemable, at our option, in whole or in part, at any time at specified redemption prices. We are required to redeem the Ryerson Holding Notes upon the receipt of net proceeds of certain qualified equity issuances, specified change of controls and/or specified receipt of dividends.

The terms of the Ryerson Notes (discussed below) restrict Ryerson from paying dividends to Ryerson Holding. Subject to certain exceptions, Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset. In the event Ryerson is restricted from providing Ryerson Holding with sufficient distributions to fund the retirement of the Ryerson Holding Notes at maturity, Ryerson Holding may default on the Ryerson Holding Notes unless other sources of funding are available.

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

Pursuant to a registration rights agreement, Ryerson Holding agreed to file with the SEC by October 26, 2010, a registration statement with respect to an offer to exchange each of the Ryerson Holding Notes for a new issue of Ryerson Holding's debt securities registered under the Securities Act, with terms substantially identical to those of the Ryerson Holding Notes and to consummate an exchange offer no later than February 23, 2011. Ryerson Holding completed the exchange offer on December 7, 2010. As a result of completing the exchange offer, Ryerson Holding satisfied its obligations under the registration rights agreement covering the Ryerson Holding Notes.

## **Table of Contents**

### **Ryerson Notes**

On October 19, 2007, Ryerson issued the Ryerson Notes. The 2014 Notes bear interest at a rate, reset quarterly, of LIBOR plus 7.375% per annum. The 2015 Notes bear interest at a rate of 12% per annum. The Ryerson Notes are fully and unconditionally guaranteed on a senior secured basis by certain of Ryerson's existing and future subsidiaries (including those existing and future domestic subsidiaries that are co-borrowers or guarantee obligations under the Ryerson Credit Facility). At March 31, 2012, \$368.7 million of the 2015 Notes and \$102.9 million of the 2014 Notes remain outstanding.

The Ryerson Notes and guarantees are secured by a first-priority lien on substantially all of Ryerson and its guarantors' present and future assets located in the United States (other than receivables, inventory, related general intangibles, certain other assets and proceeds thereof) including equipment, owned real property interests valued at \$1 million or more, and all present and future shares of capital stock or other equity interests of each of Ryerson and its guarantors' directly owned domestic subsidiaries and 65% of the present and future shares of capital stock or other equity interests, of each of Ryerson and its guarantors' directly owned foreign restricted subsidiaries, in each case subject to certain exceptions and customary permitted liens. The Ryerson Notes and guarantees are secured on a second-priority basis by a lien on the assets that secure Ryerson's obligations under the Ryerson Credit Facility. The Ryerson Notes contain customary covenants that, among other things, limit, subject to certain exceptions, Ryerson's ability, and the ability of its restricted subsidiaries, to incur additional indebtedness, pay dividends on its capital stock or repurchase its capital stock, make investments, sell assets, engage in acquisitions, mergers or consolidations or create liens or use assets as security in other transactions. Subject to certain exceptions, Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset.

The Ryerson Notes became redeemable by Ryerson, in whole or in part, at any time on or after November 1, 2011, at specified redemption prices. If a change of control occurs, Ryerson must offer to purchase the Ryerson Notes at 101% of their principal amount, plus accrued and unpaid interest.

Pursuant to a registration rights agreement, Ryerson agreed to file with the SEC by July 15, 2008 a registration statement with respect to an offer to exchange each of the notes for a new issue of our debt securities registered under the Securities Act, with terms substantially identical to those of the Ryerson Notes and to consummate an exchange offer no later than November 12, 2008. Ryerson did not consummate an exchange offer by November 12, 2008 and therefore, was required to pay additional interest to the holders of the Ryerson Notes. As a result, Ryerson paid an additional approximately \$0.6 million in interest to the holders of the Ryerson Notes with the interest payment on May 1, 2009. Ryerson completed the exchange offer on April 9, 2009. Upon completion of the exchange offer, Ryerson's obligation to pay additional interest ceased.

### **Foreign Debt**

At March 31, 2012, Ryerson China's total foreign borrowings were \$24.3 million, which was owed to banks in Asia at a weighted average interest rate of 5.6% secured by inventory and property, plant and equipment. At December 31, 2011, Ryerson China's total foreign borrowings were \$32.0 million, of which \$30.1 million was owed to banks in Asia at a weighted average interest rate of 6.2% secured by inventory and property, plant and equipment. Ryerson China also owed \$1.9 million at December 31, 2011 to other parties at a weighted average interest rate of 0.9%. At March 31, 2012, Açofran's total foreign borrowings were \$2.1 million, of which \$2.0 million was owed to foreign banks at a weighted average interest rate of 13.3% and \$0.1 million was owed to other parties at a weighted average interest rate of zero percent.

Availability under the foreign credit lines was \$18 million and \$22 million at March 31, 2012 and December 31, 2011, respectively. Letters of credit issued by our foreign subsidiaries totaled \$10 million and \$6 million at March 31, 2012 and December 31, 2011, respectively.

**Table of Contents****NOTE 7: EMPLOYEE BENEFITS**

The following table summarizes the components of net periodic benefit cost for the three-month period ended March 31, 2012 and 2011 for the Ryerson pension plans and postretirement benefits other than pension:

	Three Months Ended March 31,			
	Pension Benefits		Other Benefits	
	2012	2011	2012	2011
	(In millions)			
<b>Components of net periodic benefit cost</b>				
Service cost	\$ 1	\$ 1	\$	\$
Interest cost	10	11	2	2
Expected return on assets	(11)	(12)		
Recognized actuarial net (gain) loss	2	1	(2)	(1)
Net periodic benefit cost	\$ 2	\$ 1	\$	\$ 1

*Contributions*

The Company has contributed \$10.1 million to the pension plan fund through the three months ended March 31, 2012 and anticipates that it will have a minimum required pension contribution funding of approximately \$41 million for the remaining nine months of 2012.

**NOTE 8: COMMITMENTS AND CONTINGENCIES**

From time to time, we are named as a defendant in legal actions incidental to our ordinary course of business. We do not believe that the resolution of these claims will have a material adverse effect on our financial position, results of operations or cash flows. We maintain liability insurance coverage to assist in protecting our assets from losses arising from or related to activities associated with business operations.

In October 2011, the United States Environmental Protection Agency named us as one of more than 100 businesses that may be a potentially responsible party for the Portland Harbor Superfund Site ( Portland Harbor ). We do not currently have sufficient information available to us to determine the total cost of any required investigation or remediation of the Portland Harbor site. Management cannot predict the ultimate outcome of this matter or estimate a range of potential loss at this time.

**NOTE 9: DERIVATIVES AND FAIR VALUE MEASUREMENTS****Derivatives**

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed by using derivative instruments are interest rate risk, foreign currency risk, and commodity price risk. Interest rate swaps are entered into to manage interest rate risk associated with the Company's floating-rate borrowings. We use foreign currency exchange contracts to hedge our Canadian subsidiaries' variability in cash flows from the forecasted payment of currencies other than the functional currency. From time to time, we may enter into fixed price sales contracts with our customers for certain of our inventory components. We may enter into metal commodity futures and options contracts periodically to reduce volatility in the price of metals. We may also enter into natural gas price swaps to manage the price risk of forecasted purchases of natural gas. The Company currently does not account for its derivative contracts as hedges but rather marks them to market with a corresponding offset to current earnings. The Company regularly reviews the creditworthiness of its derivative counterparties and does not expect to incur a significant loss from the failure of any counterparties to perform under any agreements.

## Table of Contents

The following table summarizes the location and fair value amount of our derivative instruments reported in our consolidated balance sheet as of March 31, 2012 and December 31, 2011:

	Asset Derivatives				Liability Derivatives			
	March 31, 2012		December 31, 2011		March 31, 2012		December 31, 2011	
	Balance Sheet	Fair Value	Balance Sheet	Fair Value	Balance Sheet	Fair Value	Balance Sheet	Fair Value
	Location		Location		Location		Location	
(In millions)								
<b>Derivatives not designated as hedging instruments under ASC 815</b>								
Foreign exchange contracts					Other accrued liabilities	\$ 0.1	Other accrued liabilities	\$ 0.1
Commodity contracts	Prepaid expenses and other current assets	\$	Prepaid expenses and other current assets	\$ 0.1	Other accrued liabilities	0.9	Other accrued liabilities	1.0
Total derivatives		\$		\$ 0.1		\$ 1.0		\$ 1.1

As of March 31, 2012 and December 31, 2011, the Company's foreign currency exchange contracts had a U.S. dollar notional amount of \$6.7 million and \$4.9 million, respectively. As of March 31, 2012 and December 31, 2011, the Company had 207 tons and 276 tons, respectively, of nickel futures or option contracts related to forecasted purchases. The Company had 5,780 of hot roll steel coil option contracts related to forecasted purchases as of March 31, 2012 and December 31, 2011. The Company has aluminum price swaps related to forecasted purchases, which had a notional amount of 1,167 tons and 1,210 tons as of March 31, 2012 and December 31, 2011, respectively.

The following table summarizes the location and amount of gains and losses reported in our consolidated statement of operations for the three months ended March 31, 2012 and 2011:

		Amount of Gain/(Loss) Recognized in Income on Derivatives Three Months Ended March 31,	
Derivatives not designated as hedging instruments under ASC 815	Location of Gain/(Loss) Recognized in Income on Derivatives	2012	2011
		(In millions)	
Foreign exchange contracts	Other income and (expense), net	\$	\$ (0.1)
Metal commodity contracts	Cost of materials sold	0.1	(0.1)
Natural gas commodity contracts	Warehousing, delivery, selling, general and administrative		(0.1)
Total		\$ 0.1	\$ (0.3)

## Fair Value Measurements

As permitted by ASC 820-10-65-1, the Company adopted the nonrecurring fair value measurement disclosures for nonfinancial assets and liabilities. To increase consistency and comparability in fair value measurements, ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

1. Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date.
2. Level 2 inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.
3. Level 3 unobservable inputs, such as internally-developed pricing models for the asset or liability due to little or no market activity for the asset or liability.

**Table of Contents**

The following table presents assets and liabilities measured and recorded at fair value on our Consolidated Balance Sheets on a recurring basis and their level within the fair value hierarchy as of March 31, 2012:

	At March 31, 2012		
	Level 1	Level 2 (In millions)	Level 3
<b>Assets</b>			
Cash equivalents:			
Commercial paper	\$ 13.1	\$	\$
Prepaid and other current assets:			
Common stock available-for-sale investment	\$ 13.9	\$	\$
<b>Liabilities</b>			
Mark-to-market derivatives:			
Foreign exchange contracts	\$	\$ 0.1	\$
Commodity contracts		0.9	
Total liability derivatives	\$	\$ 1.0	\$

The following table presents assets and liabilities measured and recorded at fair value on our Consolidated Balance Sheets on a recurring basis and their level within the fair value hierarchy as of December 31, 2011:

	At December 31, 2011		
	Level 1	Level 2 (In millions)	Level 3
<b>Assets</b>			
Cash equivalents:			
Commercial paper	\$ 13.1	\$	\$
Money market mutual fund	2.8		
Total cash equivalents	\$ 15.9	\$	\$
Prepaid and other current assets:			
Common stock available-for-sale investment	\$ 10.4	\$	\$
Mark-to-market derivatives:			
Commodity contracts	\$	\$ 0.1	\$
<b>Liabilities</b>			
Mark-to-market derivatives:			
Foreign exchange contracts	\$	\$ 0.1	\$
Commodity contracts		1.0	
Total liability derivatives	\$	\$ 1.1	\$

The fair value of each derivative contract is determined using Level 2 inputs and the market approach valuation technique, as described in ASC 820. The Company has various commodity derivatives to lock in nickel prices for varying time periods. The fair value of these derivatives is determined based on the spot price each individual contract was purchased at and compared with the one-month daily average actual spot price on the London Metals Exchange for nickel on the valuation date. The Company also has commodity derivatives to lock in hot roll coil and aluminum prices for varying time periods. The fair value of these derivatives is determined based on the spot price each individual contract was purchased at and compared with the one-month daily average actual spot price on the New York Mercantile Exchange for the commodity on the

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

valuation date. In addition, the Company has numerous foreign exchange contracts to hedge our Canadian subsidiaries' variability in cash flows from the forecasted payment of currencies other than the functional currency, the Canadian dollar. The Company defines the fair value of foreign exchange contracts as the amount of the difference between the contracted and current market value at the end of the period. The Company estimates the current market value of foreign exchange contracts by obtaining month-end market quotes of foreign exchange rates and forward rates for contracts with similar terms. The Company uses the exchange rates provided by Reuters. Each contract term varies in the number of months, but on average is between 3 to 12 months in length.

**Table of Contents**

The carrying and estimated fair values of the Company's financial instruments at March 31, 2012 and December 31, 2011 were as follows:

	At March 31, 2012		At December 31, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
(In millions)				
Cash and cash equivalents	\$ 42.3	\$ 42.3	\$ 61.7	\$ 61.7
Receivables less provision for allowances, claims and doubtful accounts	559.1	559.1	513.9	513.9
Accounts payable	329.6	329.6	245.1	245.1
Long-term debt, including current portion	1,306.4	1,227.3	1,316.2	1,225.7

The estimated fair value of the Company's cash and cash equivalents, receivables less provision for allowances, claims and doubtful accounts and accounts payable approximate their carrying amounts due to the short-term nature of these financial instruments. The estimated fair value of the Company's long-term debt and the current portions thereof is determined by using quoted market prices of Company debt securities, where available, and from analyses performed using current interest rates considering credit ratings and the remaining terms of maturity.

**Assets Held for Sale**

The Company had \$10.0 million of assets held for sale, classified within other current assets, as of March 31, 2012 and December 31, 2011.

**Available-For-Sale Investments**

The Company has classified investments made during 2010 as available-for-sale at the time of their purchase. Investments classified as available-for-sale are recorded at fair value with the related unrealized gains and losses included in accumulated other comprehensive income. Management evaluates investments in an unrealized loss position on whether an other-than-temporary impairment has occurred on a periodic basis. Factors considered by management in assessing whether an other-than-temporary impairment has occurred include: the nature of the investment; whether the decline in fair value is attributable to specific adverse conditions affecting the investment; the financial condition of the investee; the severity and the duration of the impairment; and whether we intend to sell the investment or will be required to sell the investment before recovery of its amortized cost basis. When it is determined that an other-than-temporary impairment has occurred, the investment is written down to its market value at the end of the period in which it is determined that an other-than-temporary decline has occurred. The investment has been in a gross unrealized loss position for less than twelve months. Management does not intend to sell the investment before recovery of its amortized cost basis. Realized gains and losses are recorded within the statement of operations upon sale of the security and are based on specific identification.

The Company's available-for-sale securities as of March 31, 2012 can be summarized as follows:

		At March 31, 2012		
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
		(In millions)		
Common stock	\$ 14.8	\$	(0.9)	\$ 13.9

There is no maturity date for these investments and there have been no sales during the three months ended March 31, 2012.

## Table of Contents

The Company's available-for-sale securities as of December 31, 2011 can be summarized as follows:

	Cost	Gross Unrealized Gains	At December 31, 2011 Gross Unrealized Losses	Fair Value
	(In millions)			
Common stock	\$ 14.8	\$	\$ (4.4)	\$ 10.4

### NOTE 10: STOCKHOLDERS' EQUITY (DEFICIT), OTHER COMPREHENSIVE INCOME AND REDEEMABLE NONCONTROLLING INTEREST

Balance at March 31, 2012	5,000	\$ 224.9	\$ (256.5)	\$ (4.5)	\$ (201.5)	\$ (0.9)	\$ 3.6	\$ (234.9)	\$	2.9

### NOTE 11: RELATED PARTIES

JT Ryerson pays an affiliate of Platinum an annual monitoring fee of up to \$5.0 million pursuant to a corporate advisory services agreement. The monitoring fee recorded in the first three months of 2012 and 2011 was \$1.3 million.

### NOTE 12: INCOME TAXES

For the three months ended March 31, 2012, the Company recorded an income tax expense from operations of \$2.6 million compared to an income tax benefit of \$1.2 million in the prior year. The \$2.6 million tax expense in the first quarter of 2012 primarily represents foreign and U.S. state income tax expense for the period plus an increase in the valuation allowance related to the closing of an income tax examination. Due to existing U.S. federal tax loss carry forwards and a valuation allowance on related deferred tax assets, no U.S. federal income tax expense on earnings was recorded in the quarter.

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

In accordance with FASB ASC 740, *Income Taxes*, the Company assesses the realizability of its deferred tax assets. The Company records a valuation allowance when, based upon the evaluation of all available evidence, it is more-likely-than-not that all or a portion of the deferred tax assets will not be realized. In making this determination, we analyze, among other things, our recent history of earnings, the nature and timing of reversing book-tax temporary differences, tax planning strategies and future income. After considering both the positive and negative evidence available, in the second quarter of 2009, the Company determined that it

**Table of Contents**

was more-likely-than-not that it would not realize a portion of its U.S. deferred tax assets. As a result, the Company established a valuation allowance against a portion of its U.S. deferred tax assets. The Company has maintained a valuation allowance against a portion of its U.S. deferred tax assets since that time. The valuation allowance is reviewed quarterly and will be maintained until sufficient positive evidence exists to support the reversal of some or all of the valuation allowance. The valuation allowance was \$141.8 million and \$151.7 million at March 31, 2012 and December 31, 2011, respectively.

## **Table of Contents**

### **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

This Quarterly Report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements can be identified by the use of forward-looking terminology such as believes, expects, may, estimates, will, should, plans, anticipates or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy. Readers are cautioned that any such forward-looking statements are not guarantees of future performance and may involve significant risks and uncertainties, and that actual results may vary materially from those in the forward-looking statements as a result of various factors. These forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. Forward-looking statements should, therefore, be considered in light of various factors, including those set forth under Special Note Regarding Forward-Looking Statements and Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2011 and the caption Industry and Operating Trends included herein Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this Quarterly Report. Moreover, we caution you not to place undue reliance on these forward-looking statements, which speak only as of the date they were made. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this Quarterly Report or to reflect the occurrence of unanticipated events.

The following discussion should be read in conjunction with the Company's Condensed Consolidated Financial Statements and related Notes thereto in Item 1, FINANCIAL STATEMENTS in this Quarterly Report on Form 10-Q and the Company's Consolidated Financial Statements and related Notes thereto in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

### **Industry and Operating Trends**

We purchase large quantities of metal products from primary producers and sell these materials in smaller quantities to a wide variety of metals-consuming industries. More than one-half of the metals products sold are processed by us by burning, sawing, slitting, blanking, cutting to length or other techniques. We sell our products and services to many industries, including machinery manufacturers, metals fabricators, electrical machinery, transportation equipment, construction, wholesale distributors, and metals mills and foundries. Revenue is recognized upon delivery of product to customers. The timing of shipment is substantially the same as the timing of delivery to customers given the proximity of our distribution sites to our customers.

Sales, cost of materials sold, gross profit and operating expense control are the principal factors that impact our profitability:

*Net sales.* Our sales volume and pricing is driven by market demand, which is largely determined by overall industrial production and conditions in specific industries in which our customers operate. Sales prices are also primarily driven by market factors such as overall demand and availability of product. Our net sales include revenue from product sales, net of returns, allowances, customer discounts and incentives.

*Cost of materials sold.* Cost of materials sold includes metal purchase and in-bound freight costs, third-party processing costs and direct and indirect internal processing costs. The cost of materials sold fluctuates with our sales volume and our ability to purchase metals at competitive prices. Increases in sales volume generally enable us both to improve purchasing leverage with suppliers, as we buy larger quantities of metals inventories, and to reduce operating expenses per ton sold.

*Gross profit.* Gross profit is the difference between net sales and the cost of materials sold. Our sales prices to our customers are subject to market competition. Achieving acceptable levels of gross profit is dependent on our acquiring metals at competitive prices, our ability to manage the impact of changing prices and efficiently managing our internal and external processing costs.

*Operating expenses.* Optimizing business processes and asset utilization to lower fixed expenses such as employee, facility and truck fleet costs which cannot be rapidly reduced in times of declining volume, and maintaining low fixed cost structure in times of increasing sales volume, have a significant impact on our profitability. Operating expenses include costs related to warehousing and distributing our products as well as selling, general and administrative expenses.

The metals service center industry is generally considered cyclical with periods of strong demand and higher prices followed by periods of weaker demand and lower prices due to the cyclical nature of the industries in which the largest consumers of metals operate. However, domestic metals prices are volatile and remain difficult to predict due to its commodity nature and the extent which prices are affected by interest rates, foreign exchange rates, energy prices, international supply/demand imbalances, surcharges and other factors.

**Table of Contents****Results of Operations Comparison of First Quarter 2012 to First Quarter 2011**

	Three months ended March 31, 2012	% of Net Sales	Three months ended March 31, 2011 (\$ in millions)	% of Net Sales
Net sales	\$ 1,121.6	100.0%	\$ 1,187.0	100.0%
Cost of materials sold	930.8	83.0	1,030.3	86.8
Gross profit	190.8	17.0	156.7	13.2
Warehousing, delivery, selling, general and administrative expenses	131.5	11.7	135.2	11.4
Restructuring and other charges			0.3	
Operating profit	59.3	5.3	21.2	1.8
Other expenses	(31.8)	(2.9)	(24.0)	(2.0)
Income (loss) before income taxes	27.5	2.4	(2.8)	(0.2)
Provision (benefit) for income taxes	2.6	0.2	(1.2)	(0.1)
Net income (loss)	24.9	2.2	(1.6)	(0.1)
Less: Net income (loss) attributable to noncontrolling interest	(0.1)		0.1	
Net income (loss) attributable to Ryerson Holding Corporation	\$ 25.0	2.2%	\$ (1.7)	(0.1)%

The following table shows the Company's percentage of sales revenue by major product lines for the first quarter of 2012 and 2011:

Product Line	Three Months Ended March 31,	
	2012	2011
Carbon Steel Flat	24%	26%
Carbon Steel Plate	13	10
Carbon Steel Long	15	10
Stainless Steel Flat	15	21
Stainless Steel Plate	4	5
Stainless Steel Long	4	4
Aluminum Flat	15	14
Aluminum Plate	4	3
Aluminum Long	3	3
Other	3	4
Total	100%	100%

*Net sales.* Revenue for the first quarter of 2012 decreased 5.5% from the same period a year ago to \$1,121.6 million. Tons sold for the first quarter of 2012 decreased 10.7% from the first quarter of 2011 reflecting our efforts to improve margins by focusing on less price sensitive transactional customers instead of large volume program buyers. Tons sold in the first quarter of 2012 decreased across most of our products compared to the year-ago quarter with the largest decreases in shipments of carbon steel flat, stainless steel flat and stainless steel plate products partially offset by increases in shipments of carbon steel long and aluminum flat products. Average selling price increased 5.8% against the price levels in the first quarter of 2011, as metals prices increased across most of our products with the largest increases in our carbon steel product lines partially offset by decreases in price levels in our stainless steel product lines.

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

*Cost of materials sold.* Cost of materials sold decreased 9.7% to \$930.8 million in the first quarter of 2012 compared to \$1,030.3 million in the first quarter of 2011. The decrease in cost of materials sold in 2012 compared to 2011 is due to the decrease in tons sold partially offset by an increase in the average cost of materials sold per ton. The average cost of materials sold per ton increased to \$1,616 in 2012 from \$1,597 in 2011. The average cost of materials sold for our carbon steel product lines increased more than our other products, in line with the change in average selling price per ton. During the first quarter of 2012, LIFO income was \$8.1 million compared to LIFO expense of \$33.3 million in the first quarter of 2011.

*Gross profit.* Gross profit increased by \$34.1 million to \$190.8 million in the first quarter of 2012. Gross profit as a percent of sales in the first quarter of 2012 increased to 17.0% from 13.2% in the first quarter of 2011. While our cost of material sold per ton increased in the first quarter of 2012 as compared to the first quarter of 2011, revenue per ton increased at a faster pace resulting in higher gross margins.

**Table of Contents**

*Operating expenses.* Total operating expenses decreased by \$4.0 million to \$131.5 million in the first quarter of 2012 from \$135.5 million in the first quarter of 2011. The decrease was primarily due to lower bonus and commission expenses of \$3.0 million, lower salary expense of \$2.3 million and lower bad debt expense of \$1.7 million partially offset by higher reorganization costs, primarily employee termination and facility closure expenses, of \$2.1 million and higher outside technical services expenses of \$1.2 million. On a per ton basis, first quarter of 2012 operating expenses increased to \$228 per ton from \$210 per ton in the first quarter of 2011.

*Operating profit.* For the first quarter of 2012, the Company reported an operating profit of \$59.3 million, or \$103 per ton, compared to \$21.2 million, or \$33 per ton, in the first quarter of 2011, as a result of the factors discussed above.

*Other expenses.* Interest and other expense on debt increased to \$31.5 million in the first quarter of 2012 from \$29.7 million in the first quarter of 2011, primarily due to increased interest expense associated with our Ryerson Holding Notes as the interest rate and the principal balance outstanding have increased since the issuance of the Notes. In addition, the first quarter of 2012 had higher amortization expense related to our revolving credit facility, which was amended in 2011, partially offset by recording a charge of \$1.1 million in the first quarter of 2011 to write off debt issuance costs associated with our prior credit facility upon entering into the amended revolving credit facility. Other income and (expense), net was a charge of \$0.3 million in the first quarter of 2012 as compared to income of \$5.7 million in the same period a year ago. The first quarter of 2011 income included a \$5.8 million gain on the bargain purchase of our Singer Steel acquisition.

*Provision for income taxes.* In the first quarter of 2012, the Company recorded an income tax expense of \$2.6 million compared to an income tax benefit of \$1.2 million in the first quarter of 2011. The \$2.6 million income tax expense in the first three months of 2012 primarily represents foreign and U.S. state income tax expense plus an increase in the valuation allowance related to the closing of an income tax examination. Due to existing U.S. federal tax loss carry forwards and a valuation allowance on related deferred tax assets, no U.S. federal income tax expense on earnings was recorded in the quarter. During the first three months of 2011, the \$1.2 million of tax benefit primarily related to a release of the valuation allowance partially offset by foreign and U.S. state income tax expense.

**Liquidity and Capital Resources**

The Company's primary sources of liquidity are cash and cash equivalents, cash flows from operations and borrowing availability under the \$1.35 billion revolving credit facility agreement (as amended, the "Ryerson Credit Facility") which matures on the earliest of (a) March 14, 2016, (b) the date that occurs 90 days prior to the scheduled maturity date of the Floating Rate Senior Secured Notes due November 1, 2014 ("2014 Notes"), if the 2014 Notes are then outstanding and (c) the date that occurs 90 days prior to the scheduled maturity date of the 12% Senior Secured Notes due November 1, 2015 ("2015 Notes") (together, with the 2014 Notes, the "Ryerson Notes"), if the 2015 Notes are then outstanding. The Company's principal source of operating cash is from the sale of metals and other materials. The Company's principal uses of cash are for payments associated with the procurement and processing of metals and other materials inventories, costs incurred for the warehousing and delivery of inventories and the selling and administrative costs of the business, capital expenditures, and for interest payments on debt.

The following table summarizes the Company's cash flows:

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In millions)</b>	
Net cash provided by (used in) operating activities	\$ 33.3	\$ (103.8)
Net cash used in investing activities	(14.6)	(15.7)
Net cash provided by (used in) financing activities	(39.5)	98.4
Effect of exchange rates on cash and cash equivalents	1.4	0.4
Net decrease in cash and cash equivalents	\$ (19.4)	\$ (20.7)

The Company had cash and cash equivalents at March 31, 2012 of \$42.3 million, compared to \$61.7 million at December 31, 2011. The Company had \$1,306 million and \$1,316 million of total debt outstanding and a debt-to-capitalization ratio of 121% and 125% at March 31, 2012 and December 31, 2011, respectively. The Company had total liquidity (defined as cash and cash equivalents plus availability under the Ryerson Credit Facility and foreign debt facilities) of \$352 million at March 31, 2012 versus \$358 million at December 31, 2011. Total liquidity is a non-GAAP financial measure. We believe that total liquidity provides additional information for measuring our ability to fund our operations. Total liquidity does not represent, and should not be used as a substitute for, net income or cash flows from operations as determined

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

in accordance with generally accepted accounting principles and total liquidity is not necessarily an indication of whether cash flow will be sufficient to fund our cash requirements.

**Table of Contents**

Below is a reconciliation of cash and cash equivalents to total liquidity:

	March 31, 2012	December 31, 2011
	(In millions)	
Cash and cash equivalents	\$ 42	\$ 62
Availability on Ryerson Credit Facility and foreign debt facilities	310	296
<b>Total liquidity</b>	<b>\$ 352</b>	<b>\$ 358</b>

Of the total cash and cash equivalents, as of March 31, 2012, \$26.1 million was held in subsidiaries outside the United States which is deemed to be permanently reinvested. Ryerson does not currently foresee a need to repatriate funds from its non-U.S. subsidiaries. Although Ryerson has historically satisfied needs for more capital in the U.S. through debt or equity issuances, Ryerson could elect to repatriate funds held in foreign jurisdictions. This alternative could result in higher effective tax rates.

Net cash provided by operating activities of \$33.3 million in the first three months of 2012 was primarily due to net income of \$24.9 million for the quarter and an increase in accounts payable of \$98.7 million resulting from higher inventory purchases to support increased sales levels in the first three months of 2012, offset by increases in inventory of \$49.5 million and in accounts receivable of \$42.7 million. Net cash used by operating activities of \$103.8 million in the first three months of 2011 was primarily due to an increase in inventories of \$55.1 million resulting from higher inventory purchases to support increased sales levels in the first three months of 2011 and an increase in accounts receivable of \$132.1 million reflecting higher net sales in the first three months of 2011, partially offset by an increase in accounts payable of \$71.7 million.

Capital expenditures during the first three months of 2012 totaled \$14.5 million compared to \$6.4 million in the first three months of 2011. The Company sold property, plant and equipment and assets held for sale generating cash proceeds of \$2.9 million and \$3.4 million during the first three months of 2012 and 2011, respectively.

Net cash used by financing activities in the first three months of 2012 was \$39.5 million compared to \$98.4 million provided by financing activities in the first three months of 2011. Net cash used by financing activities in the first three months of 2012 was primarily related to repayments on credit facility borrowings as a result of the net income for the quarter. Net cash provided by financing activities in the first three months of 2011 was primarily related to increased credit facility borrowings to finance accounts receivable related to higher sales in 2011.

We believe that cash flow from operations and proceeds from the Ryerson Credit Facility will provide sufficient funds to meet our contractual obligations and operating requirements in the normal course of business.

**Total Debt**

As a result of net cash provided by operating activities, total debt, less unamortized discount in the Condensed Consolidated Balance Sheet decreased to \$1,306.4 million at March 31, 2012 from \$1,316.2 million at December 31, 2011.

Total debt outstanding as of March 31, 2012 consisted of the following amounts: \$503.8 million borrowing under the Ryerson Credit Facility, \$102.9 million under the 2014 Notes, \$368.7 million under the 2015 Notes, \$304.6 million under the Ryerson Holding Notes, and \$26.4 million of foreign debt. Discussion of each of these borrowings follows.

**Ryerson Credit Facility**

On March 14, 2011, Ryerson amended and restated its \$1.35 billion revolving credit facility agreement (as amended, the Ryerson Credit Facility ) to, among other things, extend the maturity date to the earliest of (a) March 14, 2016, (b) the date that occurs 90 days prior to the scheduled maturity date of the Floating Rate Senior Secured Notes due November 1, 2014 ( 2014 Notes ), if the 2014 Notes are then outstanding and (c) the date that occurs 90 days prior to the scheduled maturity date of the 12% Senior Secured Notes due November 1, 2015 ( 2015 Notes ) (together, with the 2014 Notes, the Ryerson Notes ), if the 2015 Notes are then outstanding. At March 31, 2012, Ryerson had \$503.8 million of outstanding borrowings, \$22 million of letters of credit issued and \$292 million available under the \$1.35 billion Ryerson Credit Facility compared to \$520.0 million of outstanding borrowings, \$22 million of letters of credit issued and \$274 million available at December 31, 2011. Total credit availability is limited by the amount of eligible accounts receivable and inventory pledged as collateral under the agreement insofar as Ryerson is subject to a borrowing base comprised of the aggregate of these two amounts, less applicable reserves. Eligible accounts

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

receivable, at any date of determination, are comprised of the aggregate value of all accounts directly created by a borrower in the ordinary course of business arising out of the sale of goods or the rendition of services, each of which has been invoiced, with such receivables adjusted to exclude various ineligible accounts, including, among other things, those to which a borrower does not have sole and absolute title and accounts arising out of a sale to an employee, officer, director, or affiliate of the borrower. The weighted-average interest rate on the borrowings under the Ryerson Credit Facility was 2.4 percent at March 31, 2012 and December 31, 2011.

## **Table of Contents**

Amounts outstanding under the Ryerson Credit Facility bear interest at a rate determined by reference to the base rate (Bank of America's prime rate) or a LIBOR rate or, for Ryerson's Canadian subsidiary which is a borrower, a rate determined by reference to the Canadian base rate (Bank of America-Canada Branch's Base Rate for loans in U.S. Dollars in Canada) or the BA rate (average annual rate applicable to Canadian Dollar bankers' acceptances) or a LIBOR rate and the Canadian prime rate (Bank of America-Canada Branch's Prime Rate). The spread over the base rate and Canadian prime rate is between 0.75% and 1.50% and the spread over the LIBOR and for the bankers' acceptances is between 1.75% and 2.50%, depending on the amount available to be borrowed. Overdue amounts and all amounts owed during the existence of a default bear interest at 2% above the rate otherwise applicable thereto. Ryerson also pays commitment fees on amounts not borrowed at a rate between 0.375% and 0.50% depending on the average borrowings as a percentage of the total \$1.35 billion agreement during a rolling three month period.

Borrowings under the Ryerson Credit Facility are secured by first-priority liens on all of the inventory, accounts receivable, lockbox accounts and related assets of Ryerson, subsidiary borrowers and certain other U.S. subsidiaries of Ryerson that act as guarantors.

The Ryerson Credit Facility contains covenants that, among other things, restrict Ryerson with respect to the incurrence of debt, the creation of liens, transactions with affiliates, mergers and consolidations, sales of assets and acquisitions. The Ryerson Credit Facility also requires that, if availability under such facility declines to a certain level, Ryerson maintain a minimum fixed charge coverage ratio as of the end of each fiscal quarter.

The Ryerson Credit Facility contains events of default with respect to, among other things, default in the payment of principal when due or the payment of interest, fees and other amounts after a specified grace period, material misrepresentations, failure to perform certain specified covenants, certain bankruptcy events, the invalidity of certain security agreements or guarantees, material judgments and the occurrence of a change of control of Ryerson. If such an event of default occurs, the lenders under the Ryerson Credit Facility will be entitled to various remedies, including acceleration of amounts outstanding under the Ryerson Credit Facility and all other actions permitted to be taken by secured creditors.

The lenders under the Ryerson Credit Facility have the ability to reject a borrowing request if any event, circumstance or development has occurred that has had or could reasonably be expected to have a material adverse effect on Ryerson. If Ryerson or any significant subsidiaries of the other borrowers becomes insolvent or commences bankruptcy proceedings, all amounts borrowed under the Ryerson Credit Facility will become immediately due and payable.

Proceeds from borrowings under the Ryerson Credit Facility and repayments of borrowings thereunder that are reflected in the Consolidated Statements of Cash Flows represent borrowings under the Company's revolving credit agreement with original maturities greater than three months. Net proceeds (repayments) under the Ryerson Credit Facility represent borrowings under the Ryerson Credit Facility with original maturities less than three months.

## **Ryerson Holding Notes**

On January 29, 2010, Ryerson Holding issued \$483 million aggregate principal amount at maturity of 14 1/2% Senior Discount Notes due 2015 (the Ryerson Holding Notes). No cash interest accrues on the Ryerson Holding Notes. The Ryerson Holding Notes had an initial accreted value of \$455.98 per \$1,000 principal amount and will accrete from the date of issuance until maturity on a semi-annual basis. The accreted value of each Ryerson Holding Note increased from the date of issuance until October 31, 2010 at a rate of 14.50%. Thereafter the interest rate increased by 1% (to 15.50%) until July 31, 2011, an additional 1.00% (to 16.50%) on August 1, 2011 until April 30, 2012, and increases by an additional 0.50% (to 17.00%) on May 1, 2012 until the maturity date. Interest compounds semi-annually such that the accreted value will equal the principal amount at maturity of each note on that date. At March 31, 2012, the accreted value of the Ryerson Holding Notes was \$304.6 million. The Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries and are secured by a first-priority security interest in the capital stock of Ryerson. The Ryerson Holding Notes rank equally in right of payment with all of Ryerson Holding's senior debt and senior in right of payment to all of Ryerson Holding's subordinated debt. The Ryerson Holding Notes are effectively junior to Ryerson Holding's other secured debt to the extent of the collateral securing such debt (other than the capital stock of Ryerson). Because the Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries, the notes are structurally subordinated to all indebtedness and other liabilities (including trade payables) of Ryerson Holding's subsidiaries, including Ryerson.

The Ryerson Holding Notes contain customary covenants that, among other things, limit, subject to certain exceptions, Ryerson Holding's ability to incur additional indebtedness, pay dividends on its capital stock or repurchase its capital stock, make certain investments or other restricted payments, create liens or use assets as security in other transactions, enter into sale and leaseback transactions, merge, consolidate or transfer or dispose of substantially all of Ryerson Holding's assets, and engage in certain transactions with affiliates.

## **Table of Contents**

The Ryerson Holding Notes are redeemable, at our option, in whole or in part, at any time at specified redemption prices. We are required to redeem the Ryerson Holding Notes upon the receipt of net proceeds of certain qualified equity issuances, specified change of controls and/or specified receipt of dividends.

The terms of the Ryerson Notes (discussed below) restrict Ryerson from paying dividends to Ryerson Holding. Subject to certain exceptions, Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset. In the event Ryerson is restricted from providing Ryerson Holding with sufficient distributions to fund the retirement of the Ryerson Holding Notes at maturity, Ryerson Holding may default on the Ryerson Holding Notes unless other sources of funding are available.

Pursuant to a registration rights agreement, Ryerson Holding agreed to file with the SEC by October 26, 2010, a registration statement with respect to an offer to exchange each of the Ryerson Holding Notes for a new issue of Ryerson Holding's debt securities registered under the Securities Act, with terms substantially identical to those of the Ryerson Holding Notes and to consummate an exchange offer no later than February 23, 2011. Ryerson Holding completed the exchange offer on December 7, 2010. As a result of completing the exchange offer, Ryerson Holding satisfied its obligations under the registration rights agreement covering the Ryerson Holding Notes.

### **Ryerson Notes**

On October 19, 2007, Ryerson issued the Ryerson Notes. The 2014 Notes bear interest at a rate, reset quarterly, of LIBOR plus 7.375% per annum. The 2015 Notes bear interest at a rate of 12% per annum. The Ryerson Notes are fully and unconditionally guaranteed on a senior secured basis by certain of Ryerson's existing and future subsidiaries (including those existing and future domestic subsidiaries that are co-borrowers or guarantee obligations under the Ryerson Credit Facility). At March 31, 2012, \$368.7 million of the 2015 Notes and \$102.9 million of the 2014 Notes remain outstanding.

The Ryerson Notes and guarantees are secured by a first-priority lien on substantially all of Ryerson and its guarantors' present and future assets located in the United States (other than receivables, inventory, related general intangibles, certain other assets and proceeds thereof) including equipment, owned real property interests valued at \$1 million or more, and all present and future shares of capital stock or other equity interests of each of Ryerson and its guarantors' directly owned domestic subsidiaries and 65% of the present and future shares of capital stock or other equity interests, of each of Ryerson and its guarantors' directly owned foreign restricted subsidiaries, in each case subject to certain exceptions and customary permitted liens. The Ryerson Notes and guarantees are secured on a second-priority basis by a lien on the assets that secure Ryerson's obligations under the Ryerson Credit Facility. The Ryerson Notes contain customary covenants that, among other things, limit, subject to certain exceptions, Ryerson's ability, and the ability of its restricted subsidiaries, to incur additional indebtedness, pay dividends on its capital stock or repurchase its capital stock, make investments, sell assets, engage in acquisitions, mergers or consolidations or create liens or use assets as security in other transactions. Subject to certain exceptions, Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset.

The Ryerson Notes became redeemable by Ryerson, in whole or in part, at any time on or after November 1, 2011, at specified redemption prices. If a change of control occurs, Ryerson must offer to purchase the Ryerson Notes at 101% of their principal amount, plus accrued and unpaid interest.

Pursuant to a registration rights agreement, Ryerson agreed to file with the SEC by July 15, 2008 a registration statement with respect to an offer to exchange each of the notes for a new issue of our debt securities registered under the Securities Act, with terms substantially identical to those of the Ryerson Notes and to consummate an exchange offer no later than November 12, 2008. Ryerson did not consummate an exchange offer by November 12, 2008 and therefore, was required to pay additional interest to the holders of the Ryerson Notes. As a result, Ryerson paid an additional approximately \$0.6 million in interest to the holders of the Ryerson Notes with the interest payment on May 1, 2009. Ryerson completed the exchange offer on April 9, 2009. Upon completion of the exchange offer, Ryerson's obligation to pay additional interest ceased.

### **Foreign Debt**

At March 31, 2012, Ryerson China's total foreign borrowings were \$24.3 million, which was owed to banks in Asia at a weighted average interest rate of 5.6% secured by inventory and property, plant and equipment. At December 31, 2011, Ryerson China's total foreign borrowings were \$32.0 million, of which \$30.1 million was owed to banks in Asia at a weighted average interest rate of 6.2% secured by inventory and property, plant and equipment. Ryerson China also owed \$1.9 million at December 31, 2011 to other parties at a weighted average interest rate of 0.9%. At March 31, 2012, Açofran's total foreign borrowings were \$2.1 million, of which \$2.0 million was owed to foreign banks at a weighted average interest rate of 13.3% and \$0.1 million was owed to other parties at a weighted average interest rate of zero percent.

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

Availability under the foreign credit lines was \$18 million and \$22 million at March 31, 2012 and December 31, 2011, respectively. Letters of credit issued by our foreign subsidiaries totaled \$10 million and \$6 million at March 31, 2012 and December 31, 2011, respectively.

**Table of Contents****Pension Funding**

At December 31, 2011, pension liabilities exceeded plan assets by \$359 million. The Company anticipates that it will have a minimum required pension contribution of approximately \$51 million in 2012 under the Employee Retirement Income Security Act of 1974 ( ERISA ) and Pension Protection Act ( PPA ) in the U.S and the Ontario Pension Benefits Act in Canada. Through the three months ended March 31, 2012, the Company has made \$10 million in pension contributions, and anticipates an additional \$41 million contribution in the remaining nine months of 2012. Future contribution requirements depend on the investment returns on plan assets, the impact of discount rates on pension liabilities, and changes in regulatory requirements. The Company is unable to determine the amount or timing of any such contributions required by ERISA or whether any such contributions would have a material adverse effect on the Company's financial position or cash flows. The Company believes that cash flow from operations and the Ryerson Credit Facility described above will provide sufficient funds to make the minimum required contribution in 2012.

**Contractual Obligations**

The following table presents contractual obligations at March 31, 2012:

Contractual Obligations(1)	Total	Payments Due by Period			
		Less than 1 year	1 3 years	4 5 years	After 5 years
		(In millions)			
Floating Rate Notes	\$ 103	\$	\$ 103	\$	\$
Fixed Rate Long Term Notes	369			369	
Senior Discount Notes	483		483		
Ryerson Credit Facility	504			504	
Foreign Debt	26	25	1		
Interest on Floating Rate Notes, Fixed Rate Notes, Other Long Term Notes, Ryerson Credit Facility and Foreign Debt (2)	221	65	126	30	
Purchase Obligations (3)	59	59			
Capital leases	1		1		
Operating leases	133	25	39	29	40
Total	\$ 1,899	\$ 174	\$ 753	\$ 932	\$ 40

- (1) The contractual obligations disclosed above do not include the Company's potential future pension funding obligations (see discussion above).
- (2) Interest payments related to the variable rate debt were estimated using the weighted average interest rate for the Ryerson Credit Facility and the 2014 Notes.
- (3) The purchase obligations with suppliers are entered into when we receive firm sales commitments with certain of our customers.

**Deferred Taxes**

Recent legislative proposals in the U.S. would repeal the use of the last-in-first-out method of accounting ( LIFO method ) for inventory for U.S. tax purposes. Currently, the Company carries a deferred tax liability associated with its use of the LIFO method that does not offset the Company's deferred tax assets, with the effect that the Company carries a valuation allowance against most of its U.S. deferred tax assets. If legislation repealing the use of the LIFO method for tax purposes becomes law, we would expect to release a substantial portion of our valuation allowance during the quarter of that event. In addition, given the current trend in our U.S. operating profit, it is possible that we may release a portion of our valuation allowance during the next twelve months.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk***Interest rate risk*

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

We are exposed to market risk related to our fixed-rate and variable-rate long-term debt. Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates. Changes in interest rates may affect the market value of our fixed-rate debt. The estimated fair value of our long-term debt and the current portions thereof using quoted market prices of Company debt securities recently traded and market-based prices of similar securities for those securities not recently traded was \$1,227 million at March 31, 2012 and \$1,226 million at December 31, 2011 as compared with the carrying value of \$1,306 million and \$1,316 million at March 31, 2012 and December 31, 2011, respectively.

## **Table of Contents**

A hypothetical 1% increase in interest rates on variable rate debt would have increased interest expense for the first three months of 2012 by approximately \$1.5 million.

### *Foreign exchange rate risk*

We are subject to exposure from fluctuations in foreign currencies. We use foreign currency exchange contracts to hedge our Canadian subsidiaries variability in cash flows from the forecasted payment of currencies other than the functional currency. The Canadian subsidiaries foreign currency contracts were principally used to purchase U.S. dollars. We had foreign currency contracts with a U.S. dollar notional amount of \$6.7 million outstanding at March 31, 2012 and a liability value of \$0.1 million. We do not currently account for these contracts as hedges but rather mark these contracts to market with a corresponding offset to current earnings.

### *Commodity price risk*

Metal prices can fluctuate significantly due to several factors including changes in foreign and domestic production capacity, raw material availability, metals consumption and foreign currency rates. Declining metal prices could reduce our revenues, gross profit and net income. From time to time, we may enter into fixed price sales contracts with our customers for certain of our inventory components. We may enter into metal commodity futures and options contracts to reduce volatility in the price of these metals. We do not currently account for these contracts as hedges, but rather mark these contracts to market with a corresponding offset to current earnings. As of March 31, 2012, we had 207 tons of nickel futures or option contracts, 5,780 tons of hot roll coil swaps, and 1,167 tons of aluminum price swaps outstanding with liability values of \$0.7 million, \$0.1 million, and a value of zero, respectively.

## **Item 4. Controls and Procedures**

### **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Interim Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 15d-15(b), we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and Interim Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Interim Chief Financial Officer concluded that our disclosure controls and procedures were effective as of March 31, 2012.

### **Changes in Internal Controls Over Financial Reporting**

There have been no changes in the Company's internal controls over financial reporting that has materially affected or is reasonably likely to materially affect the Company's controls over financial reporting during the quarter ended March 31, 2012.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

From time to time, we are named as a defendant in legal actions incidental to our ordinary course of business. We do not believe that the resolution of these claims will have a material adverse effect on our financial position, results of operations or cash flows. We maintain liability insurance coverage to assist in protecting our assets from losses arising from or related to activities associated with business operations.

In October 2011, the United States Environmental Protection Agency named us as one of more than 100 businesses that may be a potentially responsible party for the Portland Harbor Superfund Site ( Portland Harbor ). We do not currently have sufficient information available to us to

## Edgar Filing: Ryerson Holding Corp - Form 10-Q

determine the total cost of any required investigation or remediation of the Portland Harbor site. Management cannot predict the ultimate outcome of this matter or estimate a range of potential loss at this time.
