Report of Independent Registered Public Accounting Firm

United Bankshares, Inc. Plan Sponsor

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of the United Bankshares, Inc. Savings and Stock Investment Plan (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1, the financial statements and supplemental schedules have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits (modified cash basis) of the Plan as of December 31, 2011 and 2010, and the changes in its net assets available for benefits (modified cash basis) for the year ended December 31, 2011, on the basis of accounting described in Note 1.

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedules (modified cash basis) of assets (held at end of year) as of December 31, 2011, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Savings and Stock Investment Plan

Notes to Financial Statements

Modified Cash Basis

December 31, 2011

**1. Significant Accounting Policies**

**Accounting Method**

The accounting records of the United Bankshares, Inc. (United) Savings and Stock Investment Plan (the Plan) are maintained on a modified cash basis of accounting, a basis of accounting permitted by the Department of Labor. Such accounting method includes recording investments at fair value and the recording of contributions receivable. Interest income on investments is recorded as it is earned while all other additions and deductions are recognized as received or paid rather than as earned or incurred. Accordingly, the accompanying financial statements are not intended to be presented in accordance with U.S. generally accepted accounting principles.

The preparation of financial statements requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Cash Equivalents**

Cash equivalents are primarily investments in the Federated Prime Obligations Fund, the underlying assets of which are highly liquid United States government obligations. The fair value of cash equivalents approximates cost.

**Investments**

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price) (see Note 5 for further discussion of fair value measurements).

**1. Significant Accounting Policies (continued)**

The Federated Capital Preservation Fund is a common collective fund that has underlying investments in fully benefit-responsive guaranteed investment contracts (GICs) and synthetic investment contracts (synthetic GICs). These investment contracts are recorded at fair value (see Note 5). However, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Loans to Participants**

The participant loans are measured at their principal balance, plus any accrued but unpaid interest.

**New Accounting Pronouncements**

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, to substantially converge the guidance in U.S. GAAP and IFRS on fair value measurements and disclosures. The amended guidance changes several aspects of the fair value measurement guidance Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, and includes several new fair value disclosure requirements. ASU 2011-04 is effective for fiscal years beginning after December 15, 2011. The adoption of ASU 2011-04 is not expected to have a material impact on the Plan's financial statements.

**1. Significant Accounting Policies (continued)**

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The requirement to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

**2. Description of the Plan**

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a complete description of the Plan's provisions.

**General**

The Plan is a contributory defined contribution plan, which is available to all employees of United or any of its subsidiaries who have completed 90 days of continuous service for employee deferral and one year and 1,000 hours of service for employer match. The UBSI Pension Committee (the Committee) is responsible for the general administration of the Plan. United Bank, Inc. is the trustee of the Plan. FASCore, LLC is the recordkeeper of the Plan. The Plan was established December 29, 1989, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Section 14 of the Plan Description was amended by adding subsection 14.3 to include details of the merger of Centra Bank, Inc.'s (Centra) 401(k) Plan into the Plan, effective July 8, 2011. In addition, on July 8, 2011, Employee Deferrals discussed in the first full paragraph of Section 4.1 of the Plan was amended and restated in its entirety, effective on the first business day of the month immediately following or coinciding with the effective date of the Plan merger. The merger of Centra's plan added \$5.01 million which was 11% of the beginning year balance. In late 2010, Section 2.7, defining Compensation, was amended to include additional provisions and Section 18.7(b), Divestment and Diversification of Employer Securities, was amended and restated in its entirety, effective January 1, 2011. Other than the merger of the Centra Plan, these amendments did not have a material impact on the Plan's financial statements.

**2. Description of the Plan (continued)**

**Contributions**

Active participants may defer up to 100% of their annual pretax compensation subject to the Internal Revenue Code's limitations. United matches 100% of the first 3% of the participant's deferral and 25% of the next 1% of the participant's deferral. These matching contributions are made by United on a semimonthly basis and consist of cash, which is used by the Plan to purchase shares of United common stock.

Participants may choose to have their deferral contributions directed to any of 23 investment options including United Bankshares, Inc. Common Stock, U.S. Government Securities Funds, various common stock funds, and an international equity fund. Investment elections must be made in multiples of 1%.

**Participant Accounts**

Plan earnings are allocated to each participant's account based upon the respective account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

**Vesting**

Participating employees are immediately fully vested as to employee and employer contributions to the Plan.

**Payment of Benefits**

On termination of service, a participant may receive a lump-sum or installment amount or keep funds invested in the Plan until reaching the age of 70<sup>1/2</sup>.

**Plan Merger**

Effective July 8, 2011, Centra Financial Holdings, Inc. (Centra) was acquired by United Bankshares, Inc. and Centra's 401(k) Plan was merged into the Plan. Former employees of Centra began participating in the Plan effective September 1, 2011. The net assets transferred to

the Plan are reflected on the statement of changes in net assets available for benefits as a transfer from other qualified plan.

**Plan Termination**

Although it has not expressed any intent to do so, United has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, partial termination, or complete discontinuance of contributions to the Plan, the assets of the Plan will remain in trust and will be distributed in accordance with the Plan Agreement.

**3. Investments**

Each investment is subject to market risk. The degree of market risk varies by investment type based upon the nature of the applicable underlying net assets. The Plan's maximum exposure to accounting loss from such investments is represented by the amounts appearing in the statements of net assets available for benefits.

The estimated fair value of individual investments representing 5% or more of the Plan's net assets is as follows:

**5. Fair Value Measurements**

The Plan determines the fair values of its financial instruments based on the fair value hierarchy established in ASC Topic 820, which also clarifies that fair value of certain assets and liabilities is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

The Fair Value Measurements and Disclosures topic in ASC Topic 820 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The three levels of the fair value hierarchy based on these two types of inputs, are as follows:

Level 1 Valuation is based on quoted prices in active markets for identical assets and liabilities.

Level 2 Valuation is based on observable inputs including quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets and liabilities in less active markets, and model-based valuation techniques for which significant assumptions can be derived primarily from or corroborated by observable data in the market.

Level 3 Valuation is based on model-based techniques that use one or more significant inputs or assumptions that are unobservable in the market.

The level in the fair value hierarchy within which the fair value measurement is classified is based on the lowest level of input that is significant in the fair value measurement.

The following describes the valuation techniques used by plan management to measure financial assets recorded at fair value on a recurring basis in the financial statements.

**5. Fair Value Measurements (continued)**

Investments held by the Plan are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted market prices, when available (Level 1). Mutual funds and common stock are valued at Level 1. Some of the Plan's investment choices represent funds of funds and are valued at Level 2 because quoted market prices are not available. The value of this type of investment is calculated daily by the fund administrator. Its initial pricing input is the quoted share prices obtained for the underlying mutual funds, which is then adjusted to apply any applicable expense factor.

The following table presents the balances of financial assets measured at fair value on a recurring basis as of December 31, 2011:

|                                  | Balance       | Fair Value Measurements Using:                                 |   |   |

- (a) This category is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund. The fair value of this fund has been estimated based on the fair value of the underlying investment contracts in the fund as reported by the issuer of the fund. The fair value differs from the contract value. As previously discussed in Note 1, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

**6. Benefits Payable**

Participants elected to withdraw \$9 and \$50 as of December 31, 2011 and 2010, respectively. These amounts were approved and processed for payment but were not paid as of the respective period-end.

**7. Reconciliation of Financial Statements to Form 5500**

For purposes of Form 5500, interest-bearing cash equivalents are classified as plan investments. The amount of interest-bearing cash equivalents classified as investments on the Form 5500 was \$47 and \$6 as of December 31, 2011 and 2010, respectively. No cash was held by the Plan as of December 31, 2011 and 2010, which was classified as non-interest-bearing cash on the Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010, to the Form 5500:

|  | <b>December 31</b>   |               |
|--|----------------------|---------------|
|  | <b>2011</b>          | <b>2010</b>   |
| Net assets available for benefits per the financial statements                           | <b>\$ 53,071,613</b> | \$ 46,627,250 |
| Add: Adjustment from fair value to contract value for fully benefit-responsive contracts | <b>166,529</b>       | 211,402       |
| <b>Net assets available for benefits per the Form 5500</b>                               | <b>\$ 53,238,142</b> | \$ 46,838,652 |

**8. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**9. Income Tax Status**

The Plan has received a determination letter from the Internal Revenue Service dated July 31, 2003, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

**10. Transactions With Parties-in-Interest**

The Plan holds units of common/collective trust funds managed by Federated Investors Trust Company, the sub-custodian of the Plan. The Plan also invests in the common stock of the Company. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. During 2011, the Plan received approximately \$895,000 in common stock dividends from the Company. The Plan also holds 767,854 shares of United common stock, which had a fair value of \$28.27 per share at December 31, 2011.

United pays certain administrative expenses on behalf of the Plan and provides certain services at no cost to the Plan.

United Bank, Inc., a wholly owned subsidiary of United, acts as Trustee for the Plan.

Participants may choose to have their contributions directed to various mutual funds made available by FASCore, LLC, record-keeper for the Plan.
