NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note A: Accounting Policies

A. In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments, of a normal recurring nature, necessary to present fairly its financial position as at June 30, 2012 and the results of operations for the three months and six months ended June 30, 2012 and 2011 and cash flows for the six months ended June 30, 2012 and 2011. The condensed consolidated balance sheet at December 31, 2011 was derived from audited financial statements.

Certain prior-year amounts have been reclassified to conform to the 2012 presentation in the condensed consolidated financial statements. The results of operations related to the 2011 discontinued operations have been separately stated in the accompanying condensed consolidated statements of income for the three months and six months ended June 30, 2012 and 2011. In the Company's condensed consolidated statements of cash flows for the six months ended June 30, 2012 and 2011, cash flows from discontinued operations are not separately classified.

Recently Issued Accounting Pronouncements. On January 1, 2012, the Company adopted new accounting guidance requiring more prominent presentation of other comprehensive income items in the Company's consolidated financial statements. The adoption of this new guidance did not have an impact on the Company's financial position or its results of operations.

Note B: Discontinued Operations

B. Selected financial information for the discontinued operations, during the period owned by the Company, was as follows, in millions:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Net Sales	\$ 21	\$ 24	\$ 41	\$ 43
Loss from discontinued operations	\$ (3)	\$ (6)	\$ (7)	\$ (11)
Loss on disposal of discontinued operations, net	(2)		(3)	
Loss before income tax	(5)	(6)	(10)	(11)
Income taxes	13		13	
Loss from discontinued operations, net	\$ (18)	\$ (6)	\$ (23)	\$ (11)

The unusual relationship between income taxes and loss before income tax in 2012 results primarily from the increase in the deferred tax liability associated with the abandonment of tax basis in indefinite-lived intangibles due to the disposition of certain discontinued operations. The unusual relationship between income taxes and loss before income tax in 2011 resulted primarily from certain losses providing no current tax benefit.

(A) Other principally includes the effect of foreign currency translation.

Other indefinite-lived intangible assets were \$174 million at both June 30, 2012 and December 31, 2011, and principally included registered trademarks. The carrying value of the Company's definite-lived intangible assets was \$20 million (net of accumulated amortization of \$54 million) at June 30, 2012 and \$22 million (net of accumulated amortization of \$54 million) at December 31, 2011, and principally included customer relationships and non-compete agreements.

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)****Note D: Depreciation and Amortization Expense Disclosure**

- D. Depreciation and amortization expense was \$104 million and \$137 million, including accelerated depreciation (relating to business rationalization initiatives) of \$9 million and \$26 million for the six months ended June 30, 2012 and 2011, respectively.

Note E: Fair Value of Financial Investments and Liabilities

- E. The Company has maintained investments in available-for-sale securities and a number of private equity funds, principally as part of its tax planning strategies, as any gains enhance the utilization of any current and future tax capital losses. Financial investments included in other assets were as follows, in millions:

	June 30, 2012	December 31, 2011
Auction rate securities	\$ 22	\$ 22
Total recurring investments	22	22
Private equity funds	74	86
Other investments	4	4
Total non-recurring investments	78	90
Total	\$ 100	\$ 112

The Company's investments in available-for-sale securities at June 30, 2012 and December 31, 2011 were as follows, in millions:

	Cost Basis	Unrealized Gains	Pre-tax Unrealized Losses	Recorded Basis
June 30, 2012	\$ 19	\$ 3	\$	\$ 22
December 31, 2011	\$ 19	\$ 3	\$	\$ 22

Recurring Fair Value Measurements. Financial investments measured at fair value on a recurring basis at each reporting period and the amounts for each level within the fair value hierarchy were as follows, in millions:

	June 30, 2012	Quoted Market Prices (Level 1)	Fair Value Measurements Using Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note E continued:

The fair value of the auction rate securities held by the Company have been estimated, on a recurring basis, using a discounted cash flow model (Level 3 input). The significant inputs in the discounted cash flow model used to value the auction rate securities include: expected maturity of auction rate securities, discount rate used to determine the present value of expected cash flows and the assumptions for credit defaults, since the auction rate securities are backed by credit default swap agreements.

The following table summarizes the changes in Level 3 financial assets measured at fair value on a recurring basis for the six months ended June 30, 2012 and the year ended December 31, 2011, in millions:

	June 30, 2012	December 31, 2011
	Auction	Auction Rate
	Rate	Securities
	Securities	Securities
Fair value at beginning of period	\$ 22	\$ 22
Total losses included in earnings		
Unrealized (losses)		
Purchases		
Settlements		
Transfer from Level 3 to Level 2		
Fair value at period end	\$ 22	\$ 22

Non-Recurring Fair Value Measurements. During the period ended June 30, 2011, the Company did not measure any financial investments on a non-recurring basis, as there was no other-than-temporary decline in the estimated value of private equity funds. Financial investments measured at fair value on a non-recurring basis during the period June 30, 2012 and the amounts for each level within the fair value hierarchy were as follows, in millions:

	Fair Value Measurements Using				Gains (Losses)
	June 30, 2012	Quoted Market Prices (Level 1)	Other Observable Inputs (Level 2)	Significant Total Inputs (Level 3)	
Private equity funds	\$ 2			\$ 2	\$ (2)
Total	\$ 2	\$	\$	\$ 2	\$ (2)

The remaining private equity investments at June 30, 2012, with an aggregate carrying value of \$72 million, were not reviewed for impairment, as there were no indicators of impairment or identified events or changes in circumstances that would have a significant adverse effect on the fair value of the investment.

The Company did not have any transfers between Level 1 and Level 2 financial assets in the second quarter or in the first six months of 2012 or 2011.

Note E concluded:

Realized Gains (Losses). Income (loss) from financial investments, net, included in other, net, within other income (expense), net, was as follows, in millions:

	Three Months Ended June 30,		Six Months Ended June 30,

Total income from financial investments	\$ 2	\$ 33	\$ 18	\$ 50
Impairment charges private equity funds	\$ (2)	\$	\$ (2)	\$

The fair value of the Company's short-term and long-term fixed-rate debt instruments is based principally upon quoted market prices for the same or similar issues or the current rates available to the Company for debt with similar terms and remaining maturities. The aggregate estimated market value of short-term and long-term debt at June 30, 2012 was approximately \$4.6 billion, compared with the aggregate carrying value of \$4.4 billion. The aggregate estimated market value of short-term and long-term debt at December 31, 2011 was approximately \$4.0 billion, compared with the aggregate carrying value of \$4.0 billion.

Note F: Derivative Instruments and Hedging Activities

F. The Company is exposed to global market risk as part of its normal daily business activities. To manage these risks, the Company enters into various derivative contracts. These contracts include interest rate swap agreements, foreign currency exchange contracts and contracts intended to hedge the Company's exposure to copper and zinc. The Company reviews its hedging program, derivative positions and overall risk management on a regular basis.

Interest Rate Swap Agreements. In March 2012, in connection with the issuance of \$400 million of debt, the Company terminated the interest rate swap hedge relationships that it entered into in August 2011. These interest rate swaps were designated as cash flow hedges and effectively fixed interest rates on the forecasted debt issuance to variable rates based on 3-month LIBOR. Upon termination, the ineffective portion of the cash flow hedges of approximately \$2 million was recognized in the Company's consolidated statement of income in other, net. The remaining loss of approximately \$23 million from the termination of these swaps is being amortized as an increase to interest expense over the remaining term of the debt, through March 2022. At June 30, 2012, the balance remaining was \$23 million.

At December 31, 2011, the interest rate swaps were considered 100 percent effective; therefore, the market valuation loss of \$23 million was recorded in other comprehensive income in the Company's statement of shareholders' equity with a corresponding increase to accrued liabilities in the Company's condensed consolidated balance sheet at December 31, 2011.

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note F continued:

For both the six months ended June 30, 2012 and 2011, the Company recognized a net decrease in interest expense of \$5 million (including additional expense of approximately \$500,000 related to the cash flow hedge terminated in March 2012) related to the amortization of gains resulting from the terminations (in 2012, 2008 and 2004) of the interest rate swap agreements.

Foreign Currency Contracts. The Company's net cash inflows and outflows exposed to the risk of changes in foreign currency exchange rates arise from the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, and investments in subsidiaries. To mitigate this risk during 2012 and 2011, the Company, including certain European operations, entered into foreign currency forward contracts and foreign currency exchange contracts.

Gains (losses) related to foreign currency forward and exchange contracts are recorded in the Company's consolidated statements of income in other income (expense), net. In the event that the counterparties fail to meet the terms of the foreign currency forward contracts, the Company's exposure is limited to the aggregate foreign currency rate differential with such institutions.

Metal Contracts. During 2012 and 2011, the Company entered into several contracts to manage its exposure to increases in the price of copper and zinc. Gains (losses) related to these contracts are recorded in the Company's consolidated statements of income in cost of goods sold.

The pre-tax gain (loss) included in the Company's consolidated statements of income is as follows, in millions:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011

Other, net	(3)	(3)
Balance at end of period	\$ 101	\$ 102

Note H: Deb

H. On March 5, 2012, the Company issued \$400 million of 5.95% Notes due March 15, 2022 (Notes). Including the interest rate swap amortization, the effective interest rate for the Notes is approximately 6.5%. The Notes are senior indebtedness and are redeemable at the Company's option. In January 2012, the Company repurchased \$46 million of 5.875% Notes due July 15, 2012 in open-market transactions; the Company paid a premium of \$1 million for the repurchase.

Based on the limitations of the debt to total capitalization covenant in the Company's credit agreement with a bank group (the Credit Agreement), at June 30, 2012, the Company had additional borrowing capacity, subject to availability, of up to \$561 million. Additionally, at June 30, 2012, the Company could absorb a reduction to shareholders' equity of approximately \$302 million and remain in compliance with the debt to total capitalization covenant.

In order for the Company to borrow under the Credit Agreement, there must not be any default in the Company's covenants in the Credit Agreement (i.e., in addition to the two financial covenants, principally limitations on subsidiary debt, negative pledge restrictions, legal compliance requirements and maintenance of properties and insurance) and the Company's representations and warranties in the Credit Agreement must be true in all material respects on the date of borrowing (i.e., principally no material adverse change or litigation likely to result in a material adverse change, since December 31, 2009, in each case, no material ERISA or environmental non-compliance and no material tax deficiency). The Company was in compliance with all covenants and no borrowings have been made at June 30, 2012.

Subsequent Event. On July 16, 2012, the Company retired all of the \$745 million of 5.875% Notes on the scheduled retirement date. After the retirement of the Notes, the Company had additional borrowing capacity, subject to availability, of approximately \$900 million and the Company could absorb a reduction to shareholders' equity of approximately \$487 million.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)

Note I: Stock-Based Compensation

- I. The Company's 2005 Long Term Stock Incentive Plan (the "2005 Plan") provides for the issuance of stock-based incentives in various forms to employees and non-employee Directors of the Company. At June 30, 2012, outstanding stock-based incentives were in the form of long-term stock awards, stock options, phantom stock awards and stock appreciation rights. Pre-tax compensation expense and the related income tax benefit for these stock-based incentives were as follows, in millions:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Long-term stock awards	\$ 11	\$ 9	\$ 19	\$ 19

Total	\$ 16	\$ 14	\$ 34	\$ 32
Income tax benefit (before valuation allowance)	\$ 6	\$ 5	\$ 13	\$ 12

Long-Term Stock Awards. Long-term stock awards are granted to key employees and non-employee Directors of the Company and do not cause net share dilution inasmuch as the Company continues the practice of repurchasing and retiring an equal number of shares in the open market. The Company granted 761,720 shares of long-term stock awards in the six months ended June 30, 2012.

The Company's long-term stock award activity was as follows, shares in millions:

	Six Months Ended June 30,	
	2012	2011
Unvested stock award shares at January 1	10	10
Weighted average grant date fair value	\$ 17	\$ 19

Unvested stock award shares at June 30	9	11
Weighted average grant date fair value	\$ 16	\$ 17

At June 30, 2012 and 2011, there was \$92 million and \$134 million, respectively, of total unrecognized compensation expense related to unvested stock awards; such awards had a weighted average remaining vesting period of four years and five years, respectively.

The total market value (at the vesting date) of stock award shares which vested during the six months ended June 30, 2012 and 2011 was \$23 million at both dates.

Note I continued:

Stock Options. Stock options are granted to key employees of the Company. The exercise price equals the market price of the Company's common stock at the grant date. These options generally become exercisable (vest ratably) over five years beginning on the first anniversary from the date of grant and expire no later than 10 years after the grant date.

The Company granted 1,050,750 of stock option shares in the six months ended June 30, 2012 with a grant date exercise price approximating \$12 per share. In the first six months of 2012, 2,641,980 stock option shares were forfeited (including options that expired unexercised).

The Company's stock option activity was as follows, shares in millions:

	Six Months Ended June 30,	
	2012	2011
Option shares outstanding, January 1	36	37
Weighted average exercise price	\$ 21	\$ 21

Weighted average exercise price	\$ 24	\$ 24
Aggregate intrinsic value (A)	\$ 15 million	\$ 8 million
Weighted average remaining option term (in years)	4	5

(A) Aggregate intrinsic value is calculated using the Company's stock price at each respective date, less the exercise price (grant date price) multiplied by the number of shares.

At June 30, 2012 and 2011, there was \$24 million and \$45 million, respectively, of unrecognized compensation expense (using the Black-Scholes option pricing model) related to unvested stock options; such options had a weighted average vesting period of three years in both 2012 and 2011.

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note I concluded:

The weighted average grant date fair value of option shares granted and the assumptions used to estimate those values using a Black-Scholes option pricing model were as follows:

	Six Months Ended June 30,

Note J: Employee Retirement Plans

J. The Company sponsors qualified defined-benefit or defined-contribution retirement plans for most of its employees. In addition to the Company's qualified defined-benefit pension plans, the Company has unfunded non-qualified defined-benefit pension plans covering certain employees, which provide for benefits in addition to those provided by the qualified pension plans. Substantially all salaried employees participate in non-contributory defined-contribution retirement plans, to which payments are determined annually by the Organization and Compensation Committee of the Board of Directors. The Company participates in 20 regional multi-employer pension plans, principally related to building trades; none of the plans are considered significant to the Company.

Effective January 1, 2010, the Company froze all future benefit accruals under substantially all of the Company's domestic qualified and non-qualified defined-benefit pension plans. Future benefit accruals related to the Company's foreign non-qualified plans were frozen several years ago.

Net periodic pension cost for the Company's defined-benefit pension plans was as follows, in millions:

For the three months and six months ended June 30, 2012 and 2011, the Company allocated dividends to the unvested restricted stock awards (participating securities).

At June 30, 2011, the Company did not include any common shares related to the Zero Coupon Convertible Senior Notes (Zero Coupon Notes) in the calculation of diluted earnings per common share, as the price of the Company s common stock at June 30, 2011 did not exceed the equivalent accreted value of the Zero Coupon Notes.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)

Note M concluded:

Additionally, 34 million common shares for both the three months and six months ended June 30, 2012 and 36 million common shares and 37 million common shares, respectively, for the three months and six months ended June 30, 2011 related to stock options were excluded from the computation of diluted earnings per common share due to their antidilutive effect.

In the first six months of 2012, the Company granted 761,720 shares of long-term stock awards; to offset the dilutive impact of these awards, the Company also repurchased and retired 675,110 shares of Company common stock, for cash aggregating approximately \$8 million. At June 30, 2012, the Company had 24 million shares of its common stock remaining under the July 2007 Board of Directors' repurchase authorization.

On the basis of amounts paid (declared), cash dividends per common share were \$.075 (\$.075) and \$.15 (\$.15), respectively for the three months and six months ended June 30, 2012 and \$.075 (\$.075) and \$.15 (\$.15), respectively, for the three months and six months ended June 30, 2011.

Note N: Other Commitments and Contingencies

N. The Company is subject to lawsuits and pending or asserted claims with respect to matters generally arising in the ordinary course of business.

As previously disclosed, a lawsuit was brought against the Company and a number of its insulation installation companies alleging that certain of their practices violated provisions of the federal antitrust laws during the period 1999 through 2004. The case was filed in October 2004 in the United States District Court for the Northern District of Georgia by Columbus Drywall & Insulation, Inc., Leo Jones Insulation, Inc., Southland Insulators, Inc., Southland Insulators of Maryland, Inc. d/b/a Devere Insulation, Southland Insulators of Delaware LLC d/b/a Delmarva Insulation, and Whitson Insulation Company of Grand Rapids, Inc. against the Company, its subsidiaries Masco Contractors Services Group Corp., Masco Contractor Services Central, Inc. (MCS Central) and Masco Contractor Services East, Inc., and several insulation manufacturers (the Columbus Drywall case). In February 2009, the court certified a class of 377 insulation contractors. A trial date in this case had been scheduled in July 2012. The parties in this case reached a settlement in principle in July 2012, in which the Company and its insulation installation companies named in the suit agreed to pay \$75 million in return for dismissal with prejudice and full release of all claims, which was recorded by the Company in the second quarter of 2012. The Company and its insulation installation companies continue to deny that the challenged conduct was unlawful and admit no wrongdoing as part of the settlement. A settlement was reached to eliminate the considerable expense and uncertainty of this suit. The settlement is subject to court approval.

Another suit was filed in March 2003 in the United States District Court for the Northern District of Georgia by Wilson Insulation Company, Wilson Insulation of Augusta, Inc. and The Wilson Insulation Group, Inc. (Wilson) against the Company, Masco Contractor Services, Inc., and MCS Central that alleged anticompetitive conduct (the Wilson Case). Wilson (who is an individual contractor) alleges that certain practices of the Company and its named insulation installation companies relating to the installation of insulation during the early 2000s in Atlanta and Augusta, Georgia violated the federal antitrust and/or state laws. The Wilson case has been removed from the court's active docket. In March 2007, Albert Von Der Werth and Valerie Good filed suit in the United States District Court for the Northern District of California against the Company, its subsidiary Masco Contractor Services, and several insulation manufacturers seeking class action status and alleging anticompetitive conduct (the Von Der Werth case). In the Von Der Werth case, plaintiffs allege that the alleged conspiracy in the Columbus Drywall case indirectly resulted in an increase in the retail price of fiberglass insulation they purchased from retailers from 1999 to 2004. The Von Der Werth case was subsequently transferred to the United States District Court for the Northern District of Georgia and was administratively stayed by the court in February 2010. An additional suit, which was filed in September 2005 and alleged anticompetitive conduct, was dismissed with prejudice in December 2006.

MASCO CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (concluded)

Note N concluded:

The Company will vigorously defend the Wilson and Von Der Werth cases when they are re-opened by the court. Based upon the advice of its outside counsel, the Company believes that the conduct of the Company and its insulation installation companies, which is the subject of the Wilson and Von Der Werth lawsuits, has not violated any antitrust laws. The Company is unable at this time to reliably estimate any potential liability which might occur from an adverse judgment in either lawsuit. There cannot be any assurance that the Company will ultimately prevail in these lawsuits, or, if unsuccessful, that the ultimate liability would not be material.

Note O: Income Taxes

O. In the second quarter of 2012, the Company incurred income tax expense of \$30 million on a pre-tax loss from continuing operations of \$19 million and for the first half of 2012 the effective tax rate was 100 percent. The unusual 2012 tax rate is primarily due to losses in certain jurisdictions providing no tax benefit, including the charge for the settlement of the Columbus Drywall case, and an increase in the valuation allowance related to net operating losses. The effective tax rate for the first half of 2012 includes a \$21 million state income tax benefit resulting from the decrease in the liability for uncertain tax positions primarily from the expiration of applicable statutes of limitations in various jurisdictions and certain audit closings.

As a result of tax audit closings, settlements and expiration of applicable statutes of limitations in various jurisdictions within the next 12 months, the Company anticipates that it is reasonably possible that the liability for uncertain tax positions could be reduced by approximately \$6 million.

We report our financial results in accordance with generally accepted accounting principles (GAAP) in the United States. However, we believe that certain non-GAAP performance measures and ratios used in managing the business may provide users of this financial information with additional meaningful comparisons between current results and results in prior periods. Non-GAAP performance measures and ratios should be viewed in addition to, and not as an alternative for, our reported results.

NET SALES

Net sales were flat and increased three percent for the three-month and six-month periods ended June 30, 2012, respectively, from the comparable periods of 2011. Excluding the negative effect of currency translation and the sales related to the acquisition of a small hot tub manufacturer, net sales increased two percent and five percent for the three-month and six-month periods ended June 30, 2012, respectively, compared to 2011. The following table reconciles reported net sales to net sales, excluding acquisitions and the effect of currency translation, in millions:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011

Currency translation	45		63	
Net sales, excluding acquisitions and the effect of currency translation	\$ 2,045	\$ 1,998	\$ 3,936	\$ 3,751

North American net sales were positively impacted by increased sales volume of installation and other services, plumbing products and builders hardware, which, in the aggregate, increased sales by three percent and four percent for the three-month and six-month periods ended June 30, 2012, respectively, from the comparable periods of 2011. Net sales in both periods were also positively affected by selling price increases, which increased sales by two percent and three percent for the three-month and six-month periods ended June 30, 2012, respectively, from the comparable periods of 2011. Such increases were partially offset by lower sales volume of cabinets and paints and stains for the three-month period ended June 30, 2012 and lower sales volume of cabinets, including the exit of certain product lines for the three-month period ended June 30, 2012.

A stronger U.S. dollar decreased International net sales by nine percent and seven percent in the three-month and six-month periods ended June 30, 2012, respectively, compared to the same periods of 2011. In local currencies, net sales from International operations were flat and increased three percent for the three-month and six-month periods ended June 30, 2012, respectively, primarily due to increased selling prices of International plumbing products, cabinets and windows.

Table of Contents

MASCO CORPORATION

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Net sales of Cabinets and Related Products decreased due to lower sales volume of both North American and International cabinets, which reduced sales in this segment by six percent and two percent in the three-month and six-month periods ended June 30, 2012, respectively, from the comparable periods of 2011. Compared to the same period of 2011, net sales in this segment were also negatively affected by the planned exit of ready-to-assemble and other non-core in-stock assembled cabinet product lines (completed in the second quarter of 2011), which decreased net sales in this segment by two percent in the six-month period ended June 30, 2012 from the comparable period of 2011. A stronger U.S. dollar decreased sales by two percent in both the three-month and six-month periods ended June 30, 2012, compared to 2011. Such declines were partially offset by selling price increases.

Net sales of Plumbing Products increased due to increased sales volume in North America and increased selling prices primarily related to International operations, which, on a combined basis, increased sales by four percent and nine percent, respectively, for the three-month and six-month periods ended June 30, 2012, from the comparable periods of 2011. Net sales in this segment decreased due to lower sales volume of International operations, which decreased sales by three percent and one percent, respectively, for the three-month and six-month periods ended June 30, 2012, from the comparable periods of 2011. A stronger U.S. dollar decreased sales by five percent and three percent in the three-month and six-month periods ended June 30, 2012, respectively, compared to 2011.

Net sales of Installation and Other Services increased for the three-month and six-month periods ended June 30, 2012, primarily due to increased sales volume related to a higher level of activity in the new home construction market, as well as increased sales volume of retrofit and commercial sales.

Net sales of Decorative Architectural Products increased for the three-month and six-month periods ended June 30, 2012, due to increased selling prices of paints and stains and builders' hardware and increased sales volume of builders' hardware.

Net sales of Other Specialty Products decreased for the three-month and six-month periods ended June 30, 2012, compared with the same period in 2011, due to lower sales volume of North American windows resulting from the exit of certain markets, which more than offset increased sales volume of windows in Western markets in the U.S. and increased selling prices. A stronger U.S. dollar decreased sales by one percent in both the three-month and six-month periods ended June 30, 2012 compared to 2011.

OPERATING MARGINS

Our gross profit margins were 26.2 percent and 26.0 percent for the three-month and six-month periods ended June 30, 2012, respectively, compared with 26.6 percent and 25.5 percent, respectively, for the comparable periods of 2011. Selling, general and administrative expenses, as a percentage of sales, were 20.1 percent and 20.3 percent, respectively, for the three-month and six-month periods ended June 30, 2012, compared to 21.6 percent and 22.1 percent, respectively, for the comparable periods of 2011.

Gross profit margins and selling, general and administrative expenses for both the second quarter and six months ended June 30, 2012 were positively affected by increased sales volume and lower business rationalization costs. Gross profit for the six-month period ended June 30, 2012 was also positively affected by a more favorable relationship between selling prices and commodity costs. The further decrease in selling, general and administrative expenses is principally due to lower advertising and growth initiative expenses.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We have been focused on the strategic rationalization of our businesses, including business consolidations, plant closures, headcount reductions, system implementations and other initiatives. The majority of such activities related to the Cabinets and Related Products and the Installation and Other Services segments, and were completed in 2011. Operating profit for the three-month and six-month periods ended June 30, 2012 includes \$7 million and \$19 million, respectively, of costs and charges related to our business rationalizations and other initiatives. For the three-month and six-month periods ended June 30, 2011, we incurred costs and charges of \$15 million and \$47 million, respectively, related to these initiatives.

We anticipate that full-year 2012 rationalization charges for the entire Company will aggregate approximately \$30 million. We continue to evaluate our businesses and the impact of market conditions on our businesses, which may result in additional rationalization charges including severance, plant closure costs and asset impairments.

Operating margins in the Cabinets and Related Products segment for the three-month and six-month periods ended June 30, 2012 reflect decreased business rationalization expenses and the benefits associated with business rationalization activities and other cost savings initiatives.

Operating margins in the Plumbing Products segment for the three-month and six-month periods ended June 30, 2012 were negatively impacted by lower international sales volume and a less favorable product mix related to international sales growth. Such declines more than offset increased North American sales volume, a more favorable relationship between selling prices and commodity costs (including the negative impact of the metal hedge contracts) and the benefits associated with business rationalizations and other cost savings initiatives.

Operating margins in the Installation and Other Services segment were positively impacted by increased sales volume and the related absorption of fixed costs, as well as the benefits associated with business rationalizations and other cost savings initiatives.

Operating margins in the Decorative Architectural Products segment for the three-month and six-month periods ended June 30, 2012 reflect an unfavorable relationship between selling prices and material costs. This segment was favorably affected by lower advertising expenses due to the timing of such expenses in 2012 compared to 2011.

Operating margins in the Other Specialty Products segment for the three-month and six-month periods ended June 30, 2012 reflect the benefits associated with business rationalizations and other cost savings initiatives as well as a more favorable relationship between selling prices and commodity costs.

OTHER INCOME (EXPENSE), NET

Interest expense for the three-month and six-month periods ended June 30, 2012 increased \$5 million and \$6 million, respectively, from the comparable periods of 2011 primarily due to the issuance of \$400 million of notes in the first quarter of 2012.

Other items, net, for the three-month and six-month periods ended June 30, 2012 included \$ million and \$1 million, respectively, of currency transaction losses. Other items, net, for the three-month and six-month periods ended June 30, 2011 included \$3 million and \$1 million, respectively, of currency transaction losses.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Other, net, for the three-month and six-month periods ended June 30, 2012 included gains of \$2 million and \$18 million, respectively, related to distributions from private equity funds. Other, net for the three-month and six-month periods ended June 30, 2012 included impairment of \$2 million related to a private equity fund. Other, net, for the three-month and six-month periods ended June 30, 2011 included gains of \$33 million and \$50 million, respectively, related to the sale of TriMas common stock (\$27 million and \$41 million, respectively) and distributions from private equity funds (\$6 million and \$9 million, respectively).

(LOSS) INCOME PER COMMON SHARE FROM CONTINUING OPERATIONS Attributable to

Masco Corporation

(Loss) income for the three-month and six-month periods ended June 30, 2012 was \$(57) million and \$(19) million compared with \$14 million and \$(27) million for the comparable periods of 2011. Diluted (loss) earnings per common share for the three-month and six-month periods ended June 30, 2012 was \$(.17) per common share and \$(.06) per common share, respectively, compared with \$.04 per common share and \$(.08) per common share, respectively, for the comparable periods of 2011. (Loss) income for both the three-month and six-month periods ended June 30, 2012 included a charge for litigation settlement of \$75 million.

In the second quarter of 2012, we incurred income tax expense of \$30 million on a pre-tax loss from continuing operations of \$19 million and for the first half of 2012 the effective tax rate was 100 percent. The 2012 tax rate is higher than our normalized tax rate of 36 percent primarily due to losses in certain jurisdictions providing no tax benefit, including the charge for the settlement of the Columbus Drywall case, and an increase in the valuation allowance related to net operating losses. The effective tax rate for the first half of 2012 includes a \$21 million state income tax benefit resulting from the decrease in the liability for uncertain tax positions primarily from the expiration of applicable statutes of limitations in various jurisdictions and certain audit closings.

The effective tax rate was 59 percent and 106 percent for the three-month and six-month periods ending June 30, 2011, respectively. The tax rate in 2011 was higher than our normalized tax rate of 36 percent primarily due to an increase in the valuation allowance related to net operating losses and losses in certain jurisdictions providing no tax benefit.

OTHER FINANCIAL INFORMATION

Our current ratio was 1.6 to 1 and 1.5 to 1, respectively, at June 30, 2012 and December 31, 2011.

For the six months ended June 30, 2012, cash of \$4 million was used for operating activities. First half 2012 cash from operations was affected by an expected and annually recurring seasonal first half increase in accounts receivable and inventories compared with December 31, 2011.

Net cash provided by financing activities was \$223 million, primarily due to the issuance of Notes of \$396 million, net of issuance costs. Financing activities include \$46 million for the repurchase of debt, \$53 million for the payment of cash dividends, \$25 million for the settlement of interest rate swaps and \$8 million for the acquisition of Company common stock in open-market transactions to offset the dilutive impact of long-term stock awards granted in 2012. Net cash used for investing activities was \$15 million and included \$52 million for capital expenditures and net proceeds from financial investments of \$28 million and net proceeds from the sale of fixed assets of \$24 million.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

On March 5, 2012, we issued \$400 million of 5.95% Notes due March 15, 2022 (Notes). The Notes are senior indebtedness and are redeemable at our option. In January 2012, we repurchased \$46 million of 5.875% Notes due July 2012 in open-market transactions; we paid a premium of \$1 million for the repurchase. The issuance of the Notes and the repurchase of debt were done in anticipation of the retirement of \$745 million of 5.875% Notes due July 2012. We repurchased the 5.875% Notes on July 16, 2012.

Our cash and cash investments were \$1.9 billion and \$1.7 billion at June 30, 2012 and December 31, 2011, respectively. Our cash and cash investments consist of overnight interest bearing money market demand and time deposit accounts, money market mutual funds and government securities.

Of the \$1.9 billion and the \$1.7 billion of cash and cash investments held at June 30, 2012 and December 31, 2011, respectively, \$454 million and \$551 million, respectively, is held in foreign subsidiaries. If these funds were needed for our operations in the U.S., their repatriation into the U.S. may result in additional U.S. income taxes or foreign withholding taxes. The amount of such taxes is dependent on the income tax laws and circumstances at the time of distribution.

We were in compliance with all covenants and had no borrowings under our credit agreement at June 30, 2012.

We are subject to lawsuits and claims pending or asserted with respect to matters generally arising in the ordinary course of business. Note N to the condensed consolidated financial statements discusses certain specific claims pending against us.

We believe that our present cash balance, cash flows from operations and, to the extent necessary, bank borrowings and future financial market activities, are sufficient to fund our working capital and other investment needs.

OUTLOOK FOR THE COMPANY

We expect the second half of 2012 to be less robust than previously anticipated. We believe the major restructuring activities in our Installation and Other Services segment and in our North American cabinet operations have been completed.

We are focused on achieving our 2012 strategic initiatives, which include leveraging our brands, reducing our costs, improving our Installation and Cabinet segments and strengthening our balance sheet. We believe these initiatives, coupled with the actions we have taken over the past several years, should position us for improved results in 2012 even in a flat housing market, and continue to believe that we will outperform as the housing market recovers.

We believe and are confident that the long-term fundamentals for the new home construction and home improvement markets continue to be positive. We believe that our strong financial position, together with our current strategy of investing in leadership brands, including KRAFTMAID and MERILLAT cabinets, DELTA and HANSGROHE faucets, BEHR paint and MILGARD windows, our continued focus on innovation and our commitment to lean principles, will allow us to drive long-term growth and create value for our shareholders.
