MERGER PROPOSAL YOUR VOTE IS VERY IMPORTANT

Dear fellow shareholders of Fidelity Bancorp, Inc.:

The board of directors of WesBanco, Inc., or WesBanco, and the board of directors of Fidelity Bancorp, Inc., or Fidelity, have agreed to a strategic combination of the two companies under the terms of the Agreement and Plan of Merger, dated July 19, 2012, and referred to in this document as the merger agreement by and among WesBanco, WesBanco Bank, Inc., Fidelity and Fidelity Savings Bank. At the effective time of the merger, Fidelity will merge with and into WesBanco and Fidelity Savings Bank will become a direct, wholly owned subsidiary of WesBanco. You are cordially invited to attend a special meeting of Fidelity shareholders to be held at the Perrysville Branch of Fidelity Savings Bank, 1009 Perry Highway, Pittsburgh, Pennsylvania, on November 27, 2012, at 5:00 p.m., Eastern Time.

At the Fidelity special meeting, you will be asked to consider and vote upon a proposal to adopt the merger agreement, pursuant to which Fidelity would be acquired through a merger with WesBanco. If the merger contemplated by the merger agreement is completed, each outstanding share of common stock of Fidelity outstanding immediately prior to the effective time of the merger, will be converted into the right to receive (1) \$4.50 in cash, without interest, and (2) 0.8275 shares of common stock of WesBanco. This is referred to as the merger consideration. The implied value of the stock portion of the merger consideration will fluctuate as the market price of WesBanco common stock fluctuates. You should obtain current stock price quotations for WesBanco common stock and Fidelity common stock before deciding how to vote with respect to the adoption of the merger agreement. WesBanco common stock is listed for trading on the Nasdaq Global Select Market under the symbol WSBC. Fidelity common stock is listed for trading on the Nasdaq Global Market under the symbol FSBI.

At the Fidelity special meeting, you also will be asked to consider and vote upon a proposal to approve, on a non-binding, advisory basis, the compensation payable to the named executive officers of Fidelity in connection with the merger and a proposal to adjourn the Fidelity special meeting, if necessary, to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the Fidelity special meeting.

After careful consideration, the Fidelity board of directors unanimously approved the merger agreement, the merger and the other transactions contemplated by the merger agreement and declared that the merger agreement, the merger and the other transactions contemplated by the merger agreement are advisable to and in the best interests of Fidelity and its shareholders. **The Fidelity board of directors unanimously recommends that you vote: FOR adoption of the merger agreement; FOR approval, in a non-binding, advisory vote, of the compensation payable to the named executive officers of Fidelity in connection with the merger; and FOR the adjournment of the Fidelity special meeting if necessary to solicit additional proxies in favor of the adoption of the merger agreement.**

The accompanying document is a proxy statement of Fidelity and a prospectus of WesBanco, and provides you with information about Fidelity, WesBanco, the proposed merger and the special meeting of Fidelity shareholders. **Fidelity encourages you to read the entire proxy statement/prospectus carefully.**

You may also obtain more information about Fidelity and WesBanco from documents Fidelity and WesBanco have filed with the Securities and Exchange Commission.

For a discussion of risk factors you should consider in evaluating the merger agreement you are being asked to adopt, see Risk Factors beginning on page 30 of the accompanying proxy statement/prospectus.

Your vote is important. Adoption of the merger agreement requires the approval of the holders of a majority of the votes cast by Fidelity shareholders entitled to vote thereon at the Fidelity special meeting. Accordingly, whether or not you plan to attend the Fidelity special meeting, you are requested to promptly vote your shares by proxy electronically via the Internet, by telephone or by sending in the appropriate paper proxy card as instructed in these materials. If you sign, date and mail your proxy card without indicating how you wish to vote, your vote will be counted as a vote FOR each of the proposals described in the accompanying proxy statement/prospectus.

Granting a proxy will not prevent you from voting your shares in person if you choose to attend the Fidelity special meeting.

We thank you for your continued support of Fidelity.

Sincerely,

Christopher S. Green

Chairman of the Board

QUESTIONS AND ANSWERS

The following are some questions that you, as a shareholder of Fidelity, may have regarding the merger and the other matters being considered at the Fidelity shareholders meeting and the answers to those questions. WesBanco and Fidelity strongly recommend that you read carefully the remainder of this document because the information in this section does not provide all the information that might be important to you with respect to the merger and the other matters being considered at the Fidelity special meeting of shareholders. Additional important information is also contained in the annexes to, and the documents incorporated by reference into, this document.

Q: Why have I received this proxy statement/prospectus?

A: The boards of directors of Fidelity and WesBanco have each approved a merger agreement, entered into on July 19, 2012, providing for Fidelity to be acquired by WesBanco. A copy of the merger agreement is attached to this proxy statement/prospectus as *Annex A*, which we encourage you to review.

In order to complete the merger Fidelity common shareholders must vote to adopt the merger agreement.

This document is being delivered to you as both a proxy statement of Fidelity and a prospectus of WesBanco. It is a proxy statement because the Fidelity board of directors is soliciting proxies from its shareholders to vote on the adoption of the merger agreement at a special meeting of Fidelity shareholders as well as the other matters set forth in the notice of the meeting and described in this proxy statement/prospectus, and your proxy will be used at the meeting or at any adjournment or postponement of the meeting. It is a prospectus because WesBanco will issue WesBanco common stock to Fidelity shareholders in the merger. On or about October 23, 2012, Fidelity intends to begin to deliver to its shareholders of record as of the close of business on October 15, 2012 printed versions of these materials.

Your vote is very important. The Fidelity board of directors encourages you to vote as soon as possible.

Q: What matters are to be voted on at the Fidelity special meeting?

A: At the Fidelity special meeting, holders of Fidelity common stock as of the close of business on October 15, 2012 (the record date) will be asked to:

1. Adopt the merger agreement;
2. Approve, in a non-binding advisory vote, the compensation payable to the named executive officers of Fidelity in connection with the merger; and
3. Approve of the adjournment of the Fidelity special meeting, if necessary, to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the Fidelity special meeting.

Q: What is the merger transaction upon which I am being asked to vote?

Edgar Filing: WESBANCO INC - Form 424B3

- A: Holders of Fidelity common stock as of the record date are being asked to vote to adopt the merger agreement, pursuant to which Fidelity will merge with and into WesBanco, with WesBanco surviving.

IF FIDELITY SHAREHOLDERS FAIL TO ADOPT THE MERGER AGREEMENT, THE MERGER CANNOT BE COMPLETED.

Table of Contents

Q: What will I receive for my shares of Fidelity common stock in the merger?

A: Fidelity shareholders will receive the following, referred to as the merger consideration, in exchange for each share of Fidelity common stock upon completion of the merger:

0.8275 shares of WesBanco common stock; and

\$4.50 in cash, without interest.

The implied value of the stock portion of the merger consideration will fluctuate as the market price of WesBanco common stock fluctuates. You should obtain current stock price quotations for WesBanco common stock and Fidelity common stock before deciding how to vote with respect to the adoption of the merger agreement. WesBanco common stock is listed for trading on the Nasdaq Global Select Market under the symbol WSBC. Fidelity common stock is listed for trading on the Nasdaq Global Market under the symbol FSBI.

Q: What does our board of directors recommend?

A: Our board of directors has unanimously determined that the merger is in your and our best interests and unanimously recommends that you vote **FOR** adoption of the merger agreement, **FOR** approval, on an advisory (non-binding) basis, of the golden parachute proposal and **FOR** approval of the adjournment proposal.

In making this determination, our board of directors considered the opinion of Mufson Howe Hunter & Company LLC, (MHH), our independent financial advisor, as to the fairness, from a financial point of view, of the merger consideration you will receive pursuant to the merger agreement. Our board of directors also reviewed and evaluated the terms and conditions of the merger agreement and the merger with the assistance of our independent legal counsel.

Q: What was the opinion of our financial advisor?

A: MHH presented an opinion to our board of directors to the effect that, as of July 19, 2012, and based upon the assumptions MHH made, the matters it considered and the limitations on its review as set forth in its opinion, the merger consideration provided for in the merger agreement is fair to you from a financial point of view.

Q: When and where will the special meeting of Fidelity shareholders be held?

A: The Fidelity special meeting will be held at the Perrysville Branch of Fidelity Savings Bank, 1009 Perry Highway, Pittsburgh, Pennsylvania, on November 27, 2012, at 5:00 p.m., Eastern Time.

Q: Who can vote at the Fidelity special meeting?

Edgar Filing: WESBANCO INC - Form 424B3

- A: Holders of record at the close of business as of the record date of Fidelity common stock will be entitled to notice of and to vote at the Fidelity special meeting. Each of the shares of Fidelity common stock issued and outstanding on the record date is entitled to one vote at the Fidelity special meeting with regard to each of the proposals described above. Holders of Fidelity's Fixed Rate Cumulative Perpetual Preferred Stock, Series B, (the Fidelity TARP Preferred Stock), which was issued to the U.S. Department of the Treasury (the U.S. Treasury), under the Capital Purchase Program of the Troubled Asset Relief Program (the TARP), will not have the right to vote on any of the proposals to be voted on at the Fidelity special meeting.

Table of Contents

Q: How do I vote my shares in the Fidelity Bancorp, Inc. Employee Stock Ownership Plan?

A: If you are a participant in the Fidelity Bancorp, Inc. Employee Stock Ownership Plan (the ESOP), you will receive a voting instruction form that reflects all shares you may vote under the ESOP. Under the terms of the ESOP, all shares held by the ESOP are voted by the ESOP trustees, but each participant in the ESOP may direct the trustees on how to vote the shares of Fidelity common stock allocated to his or her account. Unallocated shares and allocated shares for which no timely voting instructions are received will be voted by the ESOP trustees as directed by the ESOP Committee. The deadline for returning your voting instruction form to the ESOP trustees is November 16, 2012.

Q: When do you expect to complete the merger?

A: We anticipate that it is more probable than not we will obtain all necessary regulatory approvals, and be able to consummate the merger, in November or December 2012. However, we cannot assure you when or if the merger will occur. We must first obtain the requisite approval of Fidelity common shareholders at our special meeting and we and WesBanco must obtain the requisite regulatory approvals to complete the merger.

Q: What happens if the merger is not completed?

A: If the merger is not completed, holders of Fidelity common stock will not receive any consideration for their shares in connection with the merger. Instead, Fidelity will remain an independent public company and its common stock will continue to be listed and traded on the Nasdaq Global Market.

Q: Why am I being asked to consider and vote upon a proposal to approve, in a non-binding advisory vote, the compensation payable to the named executive officers of Fidelity in connection with the merger?

A: Under Securities and Exchange Commission rules, Fidelity is required to seek a non-binding, advisory vote with respect to the compensation payable to Fidelity s named executive officers in connection with the merger, or golden parachute compensation.

Q: What will happen if Fidelity shareholders do not approve the golden parachute compensation?

A: Approval of the compensation payable to Fidelity s named executive officers in connection with the merger is not a condition to completion of the merger. The vote is an advisory vote and will not be binding on Fidelity. Therefore, if the merger agreement is adopted by Fidelity shareholders and the merger is completed, this compensation, including amounts that Fidelity is contractually obligated to pay, could still be payable regardless of the outcome of the advisory vote, subject to the conditions applicable thereto.

Q: What shareholder approvals are needed?

A: To be approved, proposals 1, 2 and 3 require the affirmative vote of a majority of the votes cast by the holders of Fidelity common stock entitled to vote thereon at a shareholders meeting at which a quorum is present.

Edgar Filing: WESBANCO INC - Form 424B3

As of the record date, there were 3,070,774 shares of Fidelity common stock outstanding and entitled to vote at the Fidelity special meeting, held by approximately 357 holders of record. As of the record date, the directors and executive officers of Fidelity controlled approximately 10.85% of the outstanding shares of Fidelity common stock entitled to vote at the special meeting. In addition, certain officers and directors of Fidelity have entered into voting agreements with WesBanco wherein the officer or director has agreed to vote their Fidelity shares in favor of adoption of the merger agreement.

Table of Contents

Q: Are WesBanco shareholders voting on the merger?

A: No. No vote of WesBanco shareholders is required to complete the merger.

Q: How do I vote?

A: If you are a shareholder of record of Fidelity as of the record date, you may vote in person by attending the Fidelity shareholders meeting or, to ensure your shares are represented at the meeting, you may vote by:

accessing the Internet website specified on your proxy card;

calling the toll-free number specified on your proxy card; or

signing and returning the enclosed proxy card in the postage-paid envelope provided.

If you hold your Fidelity shares in the name of a bank or broker, please see the discussion below.

Q: What is a quorum?

A: In order for business to be conducted at the Fidelity special meeting, a quorum must be present. The quorum requirement for holding the Fidelity special meeting and transacting business at the Fidelity special meeting is a majority of the outstanding shares of Fidelity common stock as of the record date that are present or represented at the Fidelity special meeting. The shares may be present in person or represented by proxy at the Fidelity special meeting. Proxies received but marked as abstentions and broker non-votes are considered to be present and entitled to vote at the meeting and will be counted for the purposes of determining a quorum.

Q: Your shares are held in your broker's name (also known as street name). How do you vote those shares?

A: Copies of this proxy statement/prospectus were sent to you by your broker. The broker will request instructions from you as to how you want your shares to be voted, and the broker will vote your shares according to your instructions.

Q: If your shares are held in street name by a broker, won't your broker vote those shares for you?

A: Not unless you provide your broker with instructions on how to vote your street name shares. Broker non-votes may occur because certain beneficial holders of shares of Fidelity common stock hold their shares in street name through a broker, bank or other nominee. Under the rules of the New York Stock Exchange which governs brokers, banks and other nominees are not permitted to exercise voting discretion on any of the proposals to be voted upon at the Fidelity special meeting other than the adjournment proposal (Proposal 3). Therefore, if a beneficial holder of shares of Fidelity common stock does not give the broker, bank or other nominee specific voting instructions on Proposals 1, 2 or 3, the holder's shares of Fidelity common stock will not be voted on those proposals and a broker non-vote will occur. You should therefore be sure to provide your broker with instructions on how to vote your shares.

Edgar Filing: WESBANCO INC - Form 424B3

Abstentions, if any, and broker non-votes, if any, are counted as present for the purpose of determining whether a quorum is present. Once a quorum for a meeting is established, abstentions and broker non-votes will not be counted in the voting results and will have no effect on the outcome of Proposals 1, 2 or 3.

Please check the voting form used by your broker to see if it offers telephone or Internet submission of proxies.

Table of Contents

Q: What happens if you return your proxy card without indicating how to vote?

A: If you return your signed proxy card without indicating how to vote on any particular proposal, the Fidelity stock represented by your proxy will be voted on each proposal presented at the Fidelity shareholders meeting in accordance with the board's recommendation on that proposal. In that case, your shares of Fidelity common stock will be voted **FOR** adoption of the merger agreement; **FOR** approval, in a non-binding advisory vote, of the compensation payable to the named executive officers of Fidelity in connection with the merger; and **FOR** the adjournment of the Fidelity special meeting if necessary to solicit additional proxies in favor of the adoption of the merger agreement.

Q: Can you change your vote after you have delivered your proxy card?

A: Yes. You may change your vote at any time before your proxy is voted at your meeting. You can do this in any of the three following ways:

by sending a written notice to the corporate secretary of Fidelity in time to be received before the Fidelity shareholders meeting stating that you would like to revoke your proxy;

by completing, signing and dating another proxy card bearing a later date and returning it by mail in time to be received before the Fidelity special meeting or, if you submitted your proxy through the Internet or by telephone, you can change your vote by submitting a new, valid proxy by proxy card, Internet or telephone, with a later date, in which case your later submitted proxy will be recorded and your earlier proxy revoked; or

if you are a holder of record, by attending the Fidelity special meeting and voting in person.

If your shares are held in an account at a broker or bank, you should contact your broker or bank to change your vote.

Q: Will shareholders have dissenters' or appraisal rights?

A: If you are a common shareholder who objects to the merger, you may vote against adoption of the merger agreement. However, under Pennsylvania law, holders of Fidelity common stock will not be entitled to dissenters' appraisal rights. Conversely, while the holders of Fidelity TARP Preferred Stock will not be entitled to vote at the Fidelity special meeting with respect to Fidelity TARP Preferred Stock, those holders will have dissenters' rights with respect to those shares.

Q: What do you need to do now?

A: After you carefully read and consider the information contained in and incorporated by reference into this document, please respond as soon as possible by completing, signing and dating your proxy card and returning it in the enclosed postage-paid return envelope, or, by submitting your proxy or voting instructions by telephone or through the Internet so that your shares will be represented and voted at the Fidelity special meeting. This will not prevent you from attending and voting in person; however in order to assist us in tabulating the votes at the Fidelity shareholders meeting, we encourage you to vote by proxy even if you do plan to attend the meeting in person.

Q: Should you send in your Fidelity stock certificates now?

A: No. You should not send in your Fidelity stock certificates until you receive transmittal materials.

Q: Who can help answer any other questions that you might have?

A: If you want additional copies of this document, or if you want to ask any questions about the merger, you should contact Fidelity Bancorp, Inc., 1009 Perry Highway, Pittsburgh, Pennsylvania 15237, Attention: Richard L. Barron, Secretary (412) 367-3300.

The merger agreement is attached to this proxy statement/prospectus as Annex A. To fully understand the merger and for a more complete description of the terms of the merger, you should carefully read this entire document, including the exhibits, and the documents we refer you to under the caption "Where You Can Find More Information About WesBanco and Fidelity" beginning on page 138. This proxy statement/prospectus, including information included or incorporated by reference in this proxy statement/prospectus, contains a number of forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 regarding the financial condition, results of operations, earnings outlook, business and prospects of WesBanco and Fidelity, and the potential combined company, as well as statements applicable to the period following the completion of the merger. You can find some of these statements by looking for words such as "plan," "believe," "expect," "intend," "anticipate," "estimate," "project," "potential," "possible" or other similar expressions. These forward-looking statements involve certain risks and uncertainties. The ability of either WesBanco or Fidelity to predict results or the actual effects of our plans and strategies, particularly after the merger, is inherently uncertain. Because these forward-looking statements are subject to assumptions and uncertainties, actual results may differ materially from those expressed in or implied by these forward-looking statements. See "Cautionary Statement Regarding Forward-Looking Statements" on page 139.

The Merger (See page 37)

The articles of incorporation and bylaws of WesBanco will continue as the articles of incorporation and bylaws of the surviving corporation until amended or repealed in accordance with applicable law. The officers and directors of WesBanco will continue as the officers and directors of the surviving corporation, except that Richard G. Spencer, President and Chief Executive Officer of Fidelity, will be appointed to the board of directors of WesBanco.

Through Fidelity Savings Bank, Fidelity is engaged in the business of commercial banking and other permissible activities closely related to banking. What Fidelity Shareholders Will Receive in the Merger (See page 38)

If the merger is completed, for each share of Fidelity common stock that you own you will receive, (i) 0.8275 shares of WesBanco common stock and (ii) \$4.50 in cash, without interest, subject to possible adjustment in accordance with the terms of the merger agreement as discussed below. Collectively, we refer to the \$4.50 in cash and 0.8275 shares of WesBanco common stock to be received as the merger consideration. Instead of fractional shares of WesBanco, you will receive a check for any fractional shares based on a value of \$18.00 per whole share of WesBanco common stock. You will not receive separate consideration for the preferred stock purchase rights associated with the Fidelity common stock issued pursuant to the Fidelity Rights Agreement, dated as of March 31, 2003, as amended by amendment No. 1 to Rights Agreement, dated as of March 15, 2005, and Amendment No. 2 to Rights Agreement, dated as of July 19, 2012 (the Rights Agreement), as such purchase rights will expire immediately prior to the effective time of the merger.

The 0.8275 exchange ratio is subject to adjustment if certain termination provisions, based on the market price of WesBanco's common stock, have been triggered and the Fidelity board of directors elects to terminate the merger agreement. Fidelity will have a right to terminate the merger agreement if the average closing price of WesBanco common stock during a specified period before the effective time of the merger is less than \$18.85 per share and WesBanco common stock underperforms an index of financial institution stocks by more than 15%. However, Fidelity would not have the right to terminate the merger agreement if WesBanco were to elect to make a compensating adjustment in the exchange ratio. See Proposal No. 1 Proposal to Adopt the Merger Agreement Termination of the Merger Agreement beginning on page 77. The exchange ratio is also subject to adjustment if WesBanco completes certain corporate transactions, such as a reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split or other like changes in WesBanco's capitalization.

Fidelity's Reasons for the Merger and Recommendation to Shareholders (See page 46)

The Fidelity board of directors has unanimously determined that the merger agreement and the merger are in the best interests of Fidelity and its shareholders, **and accordingly unanimously approved the merger agreement and recommends that Fidelity shareholders vote FOR the adoption of the merger agreement.**

In determining whether to approve the merger agreement and recommend adoption of the merger agreement to the Fidelity shareholders, Fidelity's board considered the factors described under Proposal No. 1 Proposal to Adopt the Merger Agreement Fidelity's Reasons for the Merger.

Opinions of Financial Advisors (See page 49)

Fidelity. Mufson Howe Hunter & Company LLC (MHH) delivered its opinion to the board of directors of Fidelity on July 19, 2012 that, based upon and subject to the factors and assumptions set forth in the opinion, the merger consideration to be received by the holders of shares of Fidelity's common stock in the merger pursuant to the merger agreement was fair to such holders, from a financial point of view as of that date.

The full text of the written opinion of MHH, dated July 19, 2012, which sets forth the assumptions made, procedures followed, matters considered and limitations on the review undertaken in connection with the

Table of Contents

opinion, is attached as *Annex B* to this proxy statement/prospectus. Fidelity's shareholders should read the opinion in its entirety. MHH provided its opinion for the information and assistance of the board of Fidelity in connection with the board's consideration of the merger. MHH's opinion is not a recommendation as to how any Fidelity shareholder should vote with respect to the merger. See Proposal No. 1 Proposal to Adopt the Merger Agreement Opinion of Fidelity's Financial Advisor beginning on page 49 for a description of MHH's fairness opinion and a summary of the analyses performed by MHH in connection with its opinion.

WesBanco. WesBanco asked its financial advisor, Macquarie Capital (USA) Inc. (Macquarie), for advice on the fairness to WesBanco of the merger consideration that WesBanco is offering in the merger. Macquarie rendered a written opinion to the WesBanco board of directors that, as of July 19, 2012, and based upon and subject to the factors and assumptions set forth therein, the merger consideration to be paid by WesBanco pursuant to the merger agreement was fair from a financial point of view to WesBanco. See Proposal No. 1 Proposal to Adopt the Merger Agreement Opinion of WesBanco's Financial Advisor beginning on page 55. This opinion, which is attached to this document as *Annex C*, sets forth the procedures followed, assumptions made and limitations on the review undertaken by Macquarie in providing its opinion.

Treatment of Fidelity Stock Options (See page 41)

Upon completion of the merger, each outstanding option to purchase shares of Fidelity common stock, whether or not then exercisable, will be cancelled in exchange for the right to receive an amount in cash, without interest, equal to the product of (i) the aggregate number of shares of Fidelity common stock subject to such stock option, multiplied by (ii) the excess, if any, of \$22.50 over the per share exercise price of such Fidelity stock option. The cash payment will be subject to applicable tax withholding.

Treatment of Fidelity Restricted Stock (See page 41)

Upon completion of the merger, each outstanding share of Fidelity restricted stock that is outstanding immediately prior to the completion of the merger, will vest in full immediately and will be converted into the right to receive \$22.50 per share, without interest, subject to applicable tax withholding. Notwithstanding the previous sentence, if any shares of Fidelity TARP Preferred Stock are held by the U.S. Treasury at the time of completion of the merger, then the 5,647 shares of Fidelity restricted stock held by Richard G. Spencer (the Converted Restricted Stock) shall not become entitled to receive the consideration set forth in the preceding sentence. Instead, each share of Converted Restricted Stock shall be converted into the right to acquire the number of shares of WesBanco common stock, determined by multiplying the number of shares of Converted Restricted Stock immediately prior to completion of the merger by the sum of (i) the exchange ratio and (ii) 0.2033 (rounded down, if necessary, to a whole share of WesBanco common stock).

Treatment of Fidelity TARP Preferred Stock and Fidelity TARP Warrant (See page 41)

The merger agreement provides that upon completion of the merger, each outstanding share of Fidelity TARP Preferred Stock, will be converted into the right to receive one share of WesBanco Fixed Rate Cumulative Perpetual Preferred Stock, Series B (WesBanco Preferred Stock) with substantially the same rights, powers and preferences as the Fidelity TARP Preferred Stock, unless purchased or redeemed prior to the effective time of the merger. The outstanding warrant, (the Fidelity TARP Warrant), to purchase Fidelity common stock, which was issued on December 12, 2008 to the U.S. Treasury, will be converted into a warrant to purchase WesBanco common stock, subject to appropriate adjustments to reflect the exchange ratio. Subject to the receipt of requisite regulatory approvals, WesBanco and Fidelity have agreed to use their reasonable best efforts to have the Fidelity TARP Preferred Stock either purchased by WesBanco or one of its subsidiaries, in which case it is expected to be extinguished upon consummation of the merger, or redeemed by Fidelity. WesBanco also may elect to have the Fidelity TARP Warrant purchased or redeemed, but has no obligation to do so. There can be no certainty or guarantee as to the timing or occurrence of the redemption or repurchase of either the Fidelity TARP Preferred Stock or the Fidelity TARP Warrant.

Special Meeting (See page 34)

A special meeting of Fidelity's shareholders will be held at the Perrysville Branch of Fidelity Savings Bank, 1009 Perry Highway, Pittsburgh, Pennsylvania, on November 27, 2012, at 5:00 p.m., Eastern Time. At the special meeting, Fidelity shareholders will be asked to: (i) adopt the merger agreement; (ii) approve, in a non-binding advisory vote, the compensation payable to the named executive officers of Fidelity in connection with the merger; and (iii) approve an adjournment of the Fidelity special meeting, if necessary, to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the Fidelity special meeting.

Record Date; Voting Power (See page 34)

You may vote at the special meeting only if you owned shares of Fidelity common stock at the close of business on October 15, 2012, referred to as the record date. On the record date, there were 3,070,774 shares of Fidelity common stock outstanding. You may cast one vote for each share of Fidelity common stock owned by you on the record date. You can vote your shares by telephone, the Internet or by returning the enclosed proxy by mail, or you may vote in person by appearing at the special meeting. You can change your vote as late as the date of the special meeting either by submitting a later-dated proxy by telephone, the Internet or by mail, that is received prior to the special meeting or by attending the special meeting and voting in person. Holders of Fidelity TARP Preferred Stock will not have the right to vote on any of the proposals at the Fidelity special meeting.

Vote Required (See page 35)

The affirmative vote of a majority of the votes cast at the Fidelity special meeting at which a quorum is present by holders of Fidelity common stock entitled to vote is required to (i) adopt the merger agreement; (ii) approve, in a non-binding advisory vote, the compensation payable to the named executive officers of Fidelity in connection with the merger; and (iii) approve the adjournment of the Fidelity special meeting, if necessary, to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the Fidelity special meeting. As of the record date, the directors and executive officers of Fidelity controlled approximately 10.85% of the outstanding shares of Fidelity common stock entitled to vote at the special meeting. In addition, certain officers and directors of Fidelity have entered into voting agreements with WesBanco wherein the officer or director has agreed to vote their Fidelity shares in favor of adoption of the merger agreement. A vote by the holders of the Fidelity TARP Preferred Stock is not required to approve any of the proposals to be voted on at the Fidelity special meeting.

Voting Agreements (See page 80)

In connection with the merger agreement, WesBanco entered into voting agreements with certain Fidelity directors and officers, consisting of Richard G. Spencer, Christopher S. Green, Robert F. Kastelic, Oliver D. Keefer, Donald J. Huber, J. Robert Gales, Michael A. Mooney, Lisa L. Griffith, Sandra L. Lee, Anthony F. Rocco and Richard L. Barron. In the voting agreements, each of these shareholders has generally agreed to vote all of his or her shares of Fidelity common stock in favor of adoption of the merger agreement. As of the record date, there were 333,099 shares of Fidelity common stock subject to the voting agreements, which represent approximately 10.85% of the outstanding shares of Fidelity common stock as of that date.

Quorum; Abstentions and Broker Non-Votes (See page 34)

A quorum must be present to transact business at the Fidelity special meeting. If you submit a properly executed proxy card, even if you abstain from voting, your shares will be counted for purposes of calculating whether a quorum is present at the Fidelity special meeting. A quorum at the Fidelity special meeting requires the presence, whether in person or by proxy, of a majority of the outstanding shares of Fidelity common stock as of the record date.

Table of Contents

Shares held in street name by brokers and other record holders but not voted at the special meeting because such brokers have not received voting instructions from the underlying owners are called broker non-votes. An abstention occurs when a shareholder attends a meeting, either in person or by proxy, but abstains from voting. If no instruction as to how to vote is given (including an instruction to abstain) in an executed, duly returned and not revoked proxy, the proxy will be voted for (i) adoption of the merger agreement, (ii) approval, in a non-binding advisory vote, of the compensation payable to the named executive officers of Fidelity in connection with the merger; and (iii) approval of the adjournment of the Fidelity special meeting, if necessary, to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the Fidelity special meeting.

At the Fidelity special meeting, abstentions and broker non-votes will be counted in determining whether a quorum is present. However, abstentions, broker non-votes and a complete failure to vote will have no effect on the outcome of any of the proposals being voted on by Fidelity shareholders.

Dissenter s Rights for Fidelity TARP Preferred Stock Holders Only (See page 68)

Under Pennsylvania law, holders of Fidelity common stock will not be entitled to dissenters appraisal rights. Therefore, if you own shares of Fidelity common stock on the record date but you are against the merger, you may vote against adoption of the merger agreement but you may not exercise dissenter s rights for your shares. The holders of the Fidelity TARP Preferred Stock will not be entitled to vote on any of the proposals at the special meeting. However, under Pennsylvania law, because the holders of the Fidelity TARP Preferred Stock are not entitled to vote with respect to shares of the Fidelity TARP Preferred Stock, those holders will be given dissenter s rights with respect to those shares of Fidelity TARP Preferred Stock.

Ownership of WesBanco after the Merger (See page 38)

WesBanco will issue a maximum of approximately 2,837,381 shares of its common stock to Fidelity shareholders in connection with the merger, based on the number of shares of Fidelity common stock and options outstanding on the record date and the number of shares of Fidelity common stock underlying the Fidelity TARP Warrant and assuming no adjustment to the exchange ratio is made, which, assuming that WesBanco issues that maximum number of shares, would constitute approximately 9.62% of the outstanding stock of WesBanco after the merger, based on the number of shares of WesBanco common stock outstanding on October 15, 2012. The shares will be listed for trading on the Nasdaq Global Select Market. WesBanco common stock is traded on the Nasdaq Global Select Market under the symbol WSBC.

Material U.S. Federal Income Tax Consequences (See page 69)

It is a condition to the completion of the merger, unless waived by the parties in writing, that each of WesBanco and Fidelity receives a legal opinion from their respective tax counsel to the effect that the merger will be treated as a reorganization for United States federal income tax purposes within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the Code). Accordingly, we expect the merger generally to be tax-free to Fidelity shareholders for United States federal income tax purposes to the extent that they receive WesBanco common stock pursuant to the merger. If the merger does not qualify as a reorganization, the holders of Fidelity common stock generally will be required to recognize gain or loss measured by the difference between the fair market value of the WesBanco common stock plus cash received by such holders in the transaction and the adjusted tax basis in their Fidelity common stock surrendered in the transaction. If the merger qualifies as a reorganization, Fidelity shareholders will not recognize gain or loss for United States federal income tax purposes with respect to the exchange of Fidelity common stock for WesBanco common stock. Fidelity shareholders may recognize gain, but not loss, with respect to Fidelity common stock exchanged for cash. In addition, Fidelity shareholders will recognize gain or loss with respect to the receipt of cash in lieu of fractional shares.

You should read the summary under the caption **Proposal No. 1 Proposal to Adopt the Merger Agreement **Material U.S. Federal Income Tax Consequences of the Merger** beginning on page 69 for a more complete discussion of the federal income tax consequences of the merger. You should also consult your own tax advisor concerning all federal, state, local and foreign tax consequences of the merger that may apply to you.**

Certain Differences in the Rights of Shareholders (See page 127)

Fidelity is a Pennsylvania corporation governed by Pennsylvania law and WesBanco is a West Virginia corporation governed by West Virginia law. Once the merger occurs, Fidelity shareholders will become shareholders of WesBanco and their rights will be governed by West Virginia law and WesBanco's corporate governing documents rather than Pennsylvania law and Fidelity's governing documents. Because of the differences between the laws of the Commonwealth of Pennsylvania and the State of West Virginia and the respective corporate governing documents of Fidelity and WesBanco, Fidelity's shareholders' rights as shareholders will change as a result of the merger. These include, among others, differences in shareholders' rights related to notice and adjournment of shareholder meetings, the calling of special meetings of shareholders, dissenters' rights, the number and term of directors, nomination of directors, removal of directors and filling vacancies on the board of directors, cumulative voting, indemnification of officers and directors, amendment of articles of incorporation and bylaws, required voting for extraordinary corporate transactions, Fidelity's shareholder rights agreement, and statutory provisions affecting control share acquisitions and business combinations.

Conditions to the Merger (See page 76)

Completion of the merger is subject to the satisfaction or waiver of the conditions specified in the merger agreement, including, among others, those listed below:

the adoption of the merger agreement by the shareholders of Fidelity;

the absence of a law or injunction prohibiting the merger;

receipt by Fidelity and WesBanco of all necessary approvals of governmental and regulatory authorities;

the receipt of an opinion from each party's tax counsel, dated as of the closing date of the merger, to the effect that for federal income tax purposes the merger will be treated as a reorganization within the meaning of Section 368(a) of the Code; and

the shares of WesBanco common stock to be issued in exchange for the shares of Fidelity common stock shall have been approved for listing on the Nasdaq Global Select Market.

Termination of the Merger Agreement (See page 77)

The parties can agree to terminate the merger agreement at any time prior to completion of the merger, and either Fidelity or WesBanco can terminate the merger agreement if, among other reasons, any of the following occurs:

the merger agreement is not adopted by the Fidelity shareholders;

the merger is not completed by March 31, 2013;

Edgar Filing: WESBANCO INC - Form 424B3

a court or other governmental authority permanently prohibits the merger; or

the other party breaches or materially fails to comply with any of its representations or warranties or obligations under the merger agreement.

Table of Contents

Fidelity will also have the right to terminate the merger agreement if the average closing price of WesBanco common stock during a specified period before the effective time of the merger is less than \$18.85 and WesBanco common stock underperforms an index of financial institutions by more than 15%, unless WesBanco were to elect to make a compensating adjustment to the exchange ratio. Subject to certain conditions, Fidelity may also terminate the merger agreement in order to enter into an agreement with respect to an unsolicited proposal that if consummated would be reasonably likely to result in a transaction more favorable to Fidelity's shareholders from a financial point of view, provided that Fidelity pays the termination fee described below upon entering into such agreement.

Termination Fee (See page 79)

The merger agreement provides that in certain circumstances, described more fully beginning on page 79, Fidelity will be required to pay a termination fee of \$3.2 million to WesBanco.

We May Amend the Terms of the Merger and Waive Rights Under the Merger Agreement (See page 80)

We may jointly amend the terms of the merger agreement, and either party may waive its right to require the other party to adhere to any of those terms, to the extent legally permissible. However, after the approval of the merger agreement by the Fidelity shareholders, there may not be, without further approval of Fidelity's shareholders, any amendment of the merger agreement that requires such further approval under applicable law or would alter the amount or kind of the WesBanco common stock portion of the merger consideration to be received by Fidelity shareholders.

Effective Date of the Merger (See page 66)

We expect the merger to be completed as soon as practicable after all regulatory approvals and shareholder approval have been received. We expect this to occur by December 31, 2012.

Regulatory Approvals (See page 66)

In addition to your approval, the merger is subject to the approval of the Federal Deposit Insurance Corporation, Board of Governors of the Federal Reserve System (unless a waiver is granted), the West Virginia Division of Financial Institutions and the Pennsylvania Department of Banking. These governmental authorities may impose conditions for granting approval of the merger.

Fidelity and WesBanco have filed all required applications for regulatory review and approval and notices in connection with the merger. Neither Fidelity nor WesBanco can offer any assurance that all necessary approvals will be obtained or the date when any such approvals will be obtained.

Interests of Certain Persons in the Merger (See page 61)

Some of the directors and officers of Fidelity have financial and other interests in the merger that differ from, or are in addition to, their interests as shareholders of Fidelity. These interests include, but are not limited to:

the continued indemnification of current and former directors and executive officers under the merger agreement and providing these individuals with directors' and officers' insurance for six years after the merger;

the potential receipt of payments by certain executive officers of Fidelity pursuant to employment or change in control severance agreements with us;

Table of Contents

the continuation of certain benefits for certain executive officers and directors of Fidelity;

the provision in the merger agreement that requires that either WesBanco or one of its subsidiaries agrees to use commercially reasonable efforts to offer employment on an at-will basis to at least a majority of Fidelity employees following the effective time of the merger;

the appointment of Richard G. Spencer, Fidelity's President and Chief Executive Officer, to the board of directors of WesBanco upon completion of the merger;

Mr. Spencer and certain other executive officers of Fidelity will enter into non-competition agreements with WesBanco and Mr. Spencer will also enter into a three-year consulting agreement with WesBanco; and

the appointment of each member of Fidelity's board of directors to a newly-created advisory board for WesBanco Bank for the Pittsburgh, Pennsylvania market upon completion of the merger.

The Fidelity and WesBanco boards of directors knew about these additional interests, and considered them, when each board adopted the merger agreement. See Proposal No. 1 Proposal to Adopt the Merger Agreement Interests of Certain Persons in the Merger beginning on page 61 for more detailed information about these interests.

Ownership of Common Stock by Fidelity Directors, Executive Officers and Affiliates (See page 35)

As of the record date, the directors, executive officers and affiliates of Fidelity owned or controlled the vote of 333,099 shares of Fidelity common stock constituting approximately 10.85% of the outstanding shares of Fidelity common stock. In addition, certain officers and directors of Fidelity have entered into voting agreements with WesBanco wherein the officer or director has agreed to vote their Fidelity shares in favor of adoption of the merger. See Other Material Agreements Relating to the Merger Voting Agreements.

Advisory (Non-binding) Vote on Golden Parachute Compensation (See page 134)

In accordance with Securities and Exchange Commission (SEC) rules, Fidelity is providing shareholders with the opportunity to vote to approve on an advisory (non-binding) basis, certain payments that will or may be made to Fidelity's named executive officers in connection with the merger, as reported in the Summary of Golden Parachute Arrangements table on page 64 and the associated narrative discussion.

Adjournment Proposal (See page 135)

You are being asked to approve a proposal to grant our board of directors discretionary authority to adjourn our special meeting, if necessary, to solicit additional proxies from our shareholders for the merger proposal in the event a quorum is present at our special meeting but there are insufficient votes to adopt the merger agreement.

Our Recommendations (See page 37)

The Fidelity board of directors determined that the merger is in the best interests of Fidelity shareholders. Accordingly, it has unanimously recommended that Fidelity shareholders vote **FOR** the proposal to adopt the merger agreement. See Proposal No. 1 Proposal to Adopt the Merger Agreement Background of the Merger at page 42. In addition the Fidelity board of directors unanimously recommends that you vote **FOR** the proposal to approve, in a non-binding, advisory vote, the compensation payable to the named executive officers of Fidelity in connection with the merger and **FOR** the proposal to adjourn the Fidelity special meeting if necessary to solicit additional proxies in favor of the adoption of the merger agreement.

Table of Contents

quarterly cash dividends on its common stock, and its board of directors presently intends to continue to pay regular quarterly cash dividends. WesBanco's ability to pay dividends to its shareholders in the future will depend on its earnings and financial condition, liquidity and capital requirements, the general economic and regulatory climate, its ability to service any equity or debt obligations senior to its common stock, including its outstanding trust preferred securities and accompanying junior subordinated debentures, and other factors deemed relevant by its board of directors. In order to pay dividends to shareholders, WesBanco must receive cash dividends from WesBanco Bank. As a result, WesBanco's ability to pay future dividends will depend upon the earnings of WesBanco Bank, its financial condition and its need for funds. A discussion of the restrictions on WesBanco's dividend payments is included in WesBanco's Annual Report on Form 10-K for the fiscal year ended December 31, 2011. See [Where You Can Find More Information About WesBanco and Fidelity](#).

As of October 15, 2012, Fidelity had approximately 357 shareholders of record. Holders of Fidelity common stock are entitled to receive dividends when, as and if declared by the Fidelity board of directors out of funds legally available for dividends. Fidelity has informally committed to the Federal Reserve Bank of Cleveland that it will not declare or pay any dividends on its outstanding shares without the prior written approval of the Reserve Bank. No dividends may be paid on the Fidelity common stock if Fidelity is not current on the dividends on the Fidelity TARP Preferred Stock or on the interest payments on its trust preferred securities.

**RETROSPECTIVELY REVISED FINANCIAL INFORMATION FOR ADOPTION OF
A NEW ACCOUNTING STANDARD**

Effective for the quarter ended March 31, 2012, WesBanco and Fidelity adopted the Financial Accounting Standards Board's Accounting Standards Update (ASU) No. 2011-05, Comprehensive Income (Topic 220): *Presentation of Comprehensive Income*, as amended by ASU 2011-12, Comprehensive Income (Topic 220): *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05*. These pronouncements require, among other things, the retrospective reporting on the face of the financial statements of the components of other comprehensive income, total other comprehensive income and total comprehensive income, either with net income in a single continuous statement of comprehensive income or in two separate but consecutive statements. The following table discloses the impact of the adoption of these new accounting pronouncements on the historical financial statements of WesBanco and Fidelity. The table presents selected components of the Consolidated Statements of Comprehensive Income for WesBanco and Fidelity for each of the last three fiscal years ended in 2011, 2010 and 2009 and should be read in conjunction with the information in WesBanco's 2011 Annual Report on Form 10-K and the Fidelity information in this proxy statement/prospectus under the heading "Information About Fidelity" beginning on page 83. Table of Contents**Notes to the Unaudited Pro Forma Condensed Combined Financial Information****Note A Basis of Pro Forma Presentation**

On July 19, 2012, WesBanco entered into the Agreement and Plan of Merger with Fidelity. Under the terms of the merger agreement, WesBanco will exchange 0.8275 shares of its common stock and \$4.50 in cash for each share of Fidelity common stock. The receipt by Fidelity shareholders of shares of WesBanco common stock in exchange for their shares of Fidelity common stock is anticipated to qualify as a tax-free exchange. The transaction, approved by the directors of both companies, currently is valued at \$68.7 million. This value is based on WesBanco's closing stock price on October 12, 2012 of \$20.90. Considering the range of WesBanco stock prices since the announcement of the merger, the value of the transaction at close is not anticipated to be materially different from the transaction value included in these pro formas.

The unaudited pro forma condensed combined financial information of WesBanco's financial condition and results of operations, including per share data, are presented after giving effect to the merger. The pro forma financial information assumes that the merger with Fidelity was consummated on January 1, 2011 for purposes of the unaudited pro forma condensed combined statement of income and on June 30, 2012 for purposes of the pro forma balance sheet and gives effect to the merger, for purposes of the unaudited pro forma condensed combined statement of income, as if it had been effective during the entire period presented.

The merger will be accounted for using the acquisition method of accounting; accordingly, the difference between the purchase price over the estimated fair value of the assets acquired (including identifiable intangible assets) and liabilities assumed will be recorded as goodwill.

The pro forma financial information includes estimated adjustments to record the assets and liabilities of Fidelity at their respective fair values and represents management's estimates based on available information. The pro forma adjustments included herein may be revised as additional information becomes available and as additional analysis is performed. The final allocation of the purchase price will be determined after the merger is completed and after completion of a final analysis to determine the fair values of Fidelity's tangible, and identifiable intangible, assets and liabilities as of the closing date.

Funding for the merger transaction is included in the pro forma adjustments as follows (*in thousands*):

Issuance of common stock	\$ 53,072
Cash on hand	15,603
Total purchase price	\$ 68,675

Note B Repurchase of TARP Preferred Stock and Warrant

WesBanco intends to repurchase, or fund Fidelity's repurchase of, the Fidelity TARP Preferred Stock held by the U.S. Treasury prior to or concurrently with the completion of the merger, in which case the Fidelity TARP Preferred Stock will be extinguished upon consummation of the merger. This transaction will result in the payment of \$7.0 million to repurchase the preferred stock and approximately \$1.6 million to repurchase the related warrant resulting in a pre-acquisition charge to retained earnings of \$0.1 million relating to the unamortized discount on the Fidelity TARP Preferred Stock and a \$1.6 million charge to capital surplus for the repurchase of the warrant (estimated by multiplying 121,387 shares subject to the warrant by the sum of \$21.79 less the \$8.65 strike price for the warrant). The transaction is assumed to be funded with available cash.

Note C Purchase Accounting Adjustments

The pro forma adjustments include the purchase accounting entries to record the merger transaction. The excess of the purchase price over the fair value of the net assets acquired, net of deferred taxes, is allocated to

Table of Contents

goodwill. Estimated fair value adjustments included in the pro forma financial statements are based upon available information, and certain assumptions considered reasonable, and may be revised as additional information becomes available. For purposes of this pro forma analysis, fair value adjustments, other than goodwill, are amortized/accreted on a straight-line basis over their estimated average remaining lives. Estimated accretion and amortization on borrowings are based on estimated maturity by type of borrowing. When the actual amortization/accretion is recorded for periods following the merger closing, the effective yield method will be used where appropriate. Tax expense related to the net fair value adjustments is calculated at the statutory 35% tax rate.

Included in the pro forma adjustments are core deposit intangibles of \$3.8 million. The core deposit intangibles are separate from goodwill and amortized on a straight-line basis over its estimated average remaining life. When the actual amortization is recorded for periods following the merger closing, the sum-of-the-years digits method will be used. Goodwill totaling \$35.0 million is included in the pro forma adjustments, and is not subject to amortization.

The allocation of the purchase price is as follows (*in thousands*):

<u>Purchase Price:</u>	
Fair value of WesBanco shares to be issued	\$ 53,072
Cash consideration for outstanding Fidelity shares	13,809
Cash consideration for outstanding Fidelity stock options	1,794
Total purchase price	68,675
<u>Net tangible assets acquired:</u>	
Fidelity's shareholders' equity	52,742
Effect of repurchase of TARP preferred stock and warrant	(8,595)
Fidelity's pre-merger goodwill and other intangibles	(2,654)
Total net tangible assets acquired	41,493
Excess of net purchase price over carrying value of net tangible assets acquired	27,182
<u>Estimated adjustments to reflect fair values of acquired assets and liabilities:</u>	
Reduction of loans, net of elimination of Fidelity allowance for loan losses	7,912
Reduction of investments	2,300
Estimated core deposit intangible	(3,800)
Increase in certificates of deposit	2,900
Increase in other borrowings	7,400
Decrease in junior subordinated debt	(4,700)
Deferred taxes related to fair value adjustments	(4,204)
Goodwill resulting from the merger	\$ 34,990

Table of Contents**Note D Projected amortization/accretion of purchase accounting adjustments**

The following table sets forth an estimate of the expected effects of the projected aggregate purchase accounting adjustments reflected in the pro forma combined financial statements on the future pre-tax net income of WesBanco after the merger with Fidelity:

	Discount Accretion (Premium Amortization) for the Years Ended December 31,				
	2013	2014	2015	2016	2017
<i>(Unaudited, dollars in thousands)</i>

Customer/deposit base	(380)	(380)	(380)	(380)	(380)
Time deposits	967	967	967		
Borrowings (1)	3,465	3,465	(235)	(235)	(235)
Increase (decrease) in pre-tax net income	\$ 4,602	\$ 4,602	\$ 902	\$ (65)	\$ (65)

(1) Estimated accretion and amortization are based on estimated maturity by type of borrowing.

The actual effect of purchase accounting adjustments on the future pre-tax income of WesBanco will differ from these estimates based on the closing date estimates of fair values and the use of different amortization methods than assumed above.

Note E Cost Savings and Merger-Related Costs

Estimated cost savings, expected to approximate 35% of Fidelity's annualized pre-tax operating expenses, are excluded from this pro forma analysis. Cost savings are estimated to be realized at 75% in the first year after the acquisition and 100% in subsequent years. In addition, estimated merger-related costs are not included in the pro forma combined statements of income since they will be recorded in the combined results of income as they are incurred prior to or after completion of the merger and are not indicative of what the historical results of the combined company would have been had the companies been actually combined during the periods presented. Merger-related costs are estimated to be \$7.8 million.

COMPARATIVE PER SHARE DATA**(Unaudited)**

The following tables set forth the basic earnings, diluted earnings, cash dividends and book value per common share data for Fidelity and WesBanco on a historical basis, on a pro forma combined basis, and on a per equivalent Fidelity share basis, as of or for the six month period ending June 30, 2012, and as of or for the twelve months ended December 31, 2011 (in the case of WesBanco) and the twelve months ended September 30, 2011 (in the case of Fidelity).

The pro forma data was derived by combining the historical consolidated financial information of WesBanco and Fidelity using the acquisition method of accounting for business combinations and assumes the transaction is completed as contemplated. The pro forma and pro forma-equivalent per share information gives effect to the merger as if the transactions had been effective on the dates presented, in the case of the book value data, and as if the transactions had become effective on January 1, 2011, in the case of the earnings per share and dividends

The unaudited pro forma data in the tables assume that the merger is accounted for using the acquisition method of accounting and represent a current estimate based on available information of the combined company's results of operations. The pro forma financial adjustments record the assets and liabilities of Fidelity at their estimated fair values and are subject to adjustment as additional information becomes available and as additional analyses are performed. This information is presented for illustrative purposes only. You should not rely on the pro forma combined or pro forma equivalent amounts as they are not necessarily indicative of the operating results or financial position that would have occurred if the merger had been completed as of the dates indicated, nor are they necessarily indicative of the future operating results or financial position of the combined company. The pro forma information, although helpful in illustrating the financial characteristics of the combined company under one set of assumptions, does not reflect the benefits of expected cost savings, opportunities to earn additional revenue, the impact of restructuring and merger-related costs, or other factors that may result as a consequence of the merger and, accordingly, does not attempt to predict or suggest future results.

Table of Contents**RISK FACTORS**

In addition to the other information included in and incorporated by reference into this proxy statement/prospectus, including the matters addressed in Cautionary Statement Regarding Forward-Looking Statements, and the risk factors included in WesBanco's Annual Report on Form 10-K for the fiscal year ended December 31, 2011, you should carefully consider the following risk factors before deciding whether to vote to adopt the merger agreement. For further discussion of these and other risk factors, please see WesBanco's and Fidelity's periodic reports and other documents incorporated by reference into this proxy statement/prospectus. See Where You Can Find More Information About WesBanco and Fidelity beginning on page 138.

Because the market price of WesBanco common stock may fluctuate, Fidelity shareholders cannot be certain of the market value of the WesBanco common stock that they will receive in the merger.

Upon completion of the merger, each share of Fidelity common stock will become the right to receive (i) 0.8275 shares of WesBanco common stock and (ii) \$4.50 in cash, without interest. Accordingly, upon completion of the merger, you will have the right to receive WesBanco common stock at an exchange ratio of 0.8275 shares of WesBanco common stock for each share of Fidelity common stock you own. Any change in the price of WesBanco common stock prior to completion of the merger will affect the market value of the stock that you will receive on the date of the merger. Stock price changes may result from a variety of factors, including general market and economic conditions, changes in WesBanco's businesses, operations and prospects, and regulatory considerations. Fidelity shareholders are urged to obtain current market quotations for WesBanco and Fidelity common stock when they consider whether to approve the proposal to adopt the merger agreement at the Fidelity special meeting.

If the price of WesBanco common stock declines, Fidelity shareholders may receive less value for their shares upon completion of the merger than the value calculated pursuant to the exchange ratio on the date the merger agreement was executed, on the date of this proxy statement/prospectus or on the date of the Fidelity shareholder meeting. For example, based on the range of closing prices of WesBanco common stock during the period from July 19, 2012, the last trading day before public announcement of the merger, through October 15, 2012, the last practicable full trading day prior to the date of this proxy statement/prospectus, the exchange ratio represented a value ranging from a high of \$22.56 on July 19, 2012 to a low of \$20.06 on August 27, 2012 for each share of Fidelity common stock. Because the date the merger is completed will be later than the date of the Fidelity special meeting, you will not know what the market value of WesBanco common stock will be upon completion of the merger when you vote on the merger agreement at the Fidelity special meeting.

The combined company will incur significant transaction and merger-related costs in connection with the merger.

WesBanco and Fidelity expect to incur costs associated with combining the operations of the two companies. WesBanco and Fidelity have just recently begun collecting information in order to formulate detailed integration plans to deliver planned synergies. Additional unanticipated costs may be incurred in the integration of the businesses of WesBanco and Fidelity. Whether or not the merger is consummated, WesBanco and Fidelity will incur substantial expenses, such as legal, accounting, printing and financial advisory fees, in pursuing the merger. Although WesBanco and Fidelity expect that the elimination of duplicative costs, as well as the realization of other efficiencies related to the integration of the businesses may offset incremental transaction and merger-related costs over time, this net benefit may not be achieved in the near term, or at all.

If the merger is not completed, Fidelity will have incurred substantial expenses without its shareholders realizing the expected benefits of the merger.

Fidelity has incurred substantial expenses in connection with the transactions described in this proxy statement/prospectus, which are charged to earnings as incurred. If the merger is not completed, these expenses

Table of Contents

will still be charged to earnings even though Fidelity would not have realized the expected benefits of the merger. There can be no assurance that the merger will be completed.

WesBanco may not be able to successfully integrate Fidelity or to realize the anticipated benefits of the merger.

The merger involves the combination of two bank holding companies that previously have operated independently. A successful combination of the operations of the two entities will depend substantially on WesBanco's ability to consolidate operations, systems and procedures and to eliminate redundancies and costs. WesBanco may not be able to combine the operations of Fidelity and WesBanco without encountering difficulties, such as:

the loss of key employees and customers;

the disruption of operations and business;

the inability to maintain and increase competitive presence;

deposit attrition, customer loss and revenue loss;

possible inconsistencies in standards, control procedures and policies;

unexpected problems with costs, operations, personnel, technology and credit; and/or

problems with the assimilation of new operations, sites or personnel, which could divert resources from regular banking operations. Additionally, general market and economic conditions or governmental actions affecting the financial industry generally may inhibit the successful integration of Fidelity and WesBanco.

Further, WesBanco and Fidelity entered into the merger agreement with the expectation that the merger will result in various benefits including, among other things, benefits relating to enhanced revenues, a strengthened market position for the combined company, cross selling opportunities, technology, cost savings and operating efficiencies. Achieving the anticipated benefits of the merger is subject to a number of uncertainties, including whether WesBanco integrates Fidelity in an efficient and effective manner, and general competitive factors in the marketplace. Failure to achieve these anticipated benefits could result in increased costs, decreases in the amount of expected revenues and diversion of management's time and energy and could materially impact WesBanco's business, financial condition and operating results. Finally, any cost savings that are realized may be offset by losses in revenues or other charges to earnings.

The merger agreement may be terminated in accordance with its terms and the merger may not be completed.

The merger agreement is subject to a number of conditions which must be fulfilled in order to complete the merger. Those conditions include, among others: approval of the merger agreement by Fidelity shareholders, regulatory approvals, absence of orders prohibiting the completion of the merger, effectiveness of the registration statement of which this proxy statement/prospectus is a part, approval of the shares of WesBanco common stock to be issued to Fidelity shareholders for listing on the Nasdaq Global Select Market, the continued accuracy of the representations and warranties by both parties and the performance by both parties of their covenants and agreements, and the receipt by both parties of legal opinions from their respective tax counsels. See Proposal No. 1 Proposal to Adopt the Merger Agreement Termination of the Merger Agreement beginning on page 77 for a more complete discussion of the circumstances under which the merger agreement could be terminated. Therefore, the conditions to closing of the merger may not be fulfilled and the merger may not be completed.

Termination of the merger agreement could negatively affect Fidelity.

If the merger agreement is terminated, there may be various consequences, including:

Fidelity's businesses may have been adversely impacted by the failure to pursue other beneficial opportunities due to the focus of management on the merger, without realizing any of the anticipated benefits of completing the merger; and

Table of Contents

the market price of Fidelity common stock might decline to the extent that the current market price reflects a market assumption that the merger will be completed.

If the merger agreement is terminated and Fidelity's board of directors seeks another merger or business combination, Fidelity shareholders cannot be certain that Fidelity will be able to find a party willing to offer equivalent or more attractive consideration than the consideration WesBanco has agreed to provide in the merger.

If the merger agreement is terminated and different business combination is pursued, Fidelity may be required to pay a break-up fee of \$3.2 million to WesBanco under certain circumstances. See Proposal No. 1 Proposal to Adopt the Merger Agreement Termination Fee beginning on page 79.

The merger agreement limits Fidelity's ability to pursue alternatives to the merger.

The merger agreement contains provisions that, subject to very narrow exceptions, limit Fidelity's ability to discuss, facilitate or enter into agreements with third parties to acquire it. If Fidelity avails itself of those limited exceptions, it could be obligated to pay WesBanco a break-up fee of \$3.2 million under certain specified circumstances. These provisions could discourage a potential competing acquiror that might have an interest in acquiring Fidelity from proposing or considering an acquisition of it even if that potential acquiror were prepared to pay a higher price to shareholders than the merger consideration.

Fidelity will be subject to business uncertainties and contractual restrictions while the merger is pending.

Uncertainties about the effect of the merger on employees and customers may have an adverse effect on Fidelity and consequently on WesBanco. These uncertainties may impair Fidelity's ability to attract, retain and motivate key personnel until the merger is completed, and could cause customers and others that deal with Fidelity to seek to change existing business relationships with Fidelity. Retention of certain employees may be challenging during the pendency of the merger, as certain employees may experience uncertainty about their future roles. If key employees depart because of issues relating to the uncertainty and difficulty of integration or a desire not to remain with the business, Fidelity's business prior to the merger and the combined company's business following the merger could be negatively impacted. In addition, the merger agreement restricts Fidelity from making certain acquisitions and taking other specified actions until the merger occurs without the consent of WesBanco. These restrictions may prevent Fidelity from pursuing business opportunities that may arise prior to the completion of the merger. See Proposal No. 1 Proposal to Adopt the Merger Agreement Conduct of Business Prior to the Merger beginning on page 72 for a description of certain of the restrictive covenants applicable to Fidelity.

The need for regulatory approvals may delay the date of completion of the merger or may diminish the benefits of the merger.

WesBanco is required to obtain the approvals of certain bank regulatory agencies prior to completing the merger. Satisfying any requirements of these regulatory agencies may delay the date of completion of the merger. In addition, you should be aware that, as in any transaction, it is possible that, among other things, restrictions on the combined operations of the two companies, including divestitures, may be sought by governmental agencies as a condition to obtaining the required regulatory approvals. This may diminish the benefits of the merger to the combined company or have an adverse effect on the combined company following the merger. See Proposal No. 1 Proposal to Adopt the Merger Agreement Regulatory Approvals on page 66.

Future results of the combined companies may materially differ from the pro forma financial information presented in this proxy statement/prospectus.

WesBanco and Fidelity may not be able to integrate their operations without encountering difficulties including, without limitation, the loss of key employees and customers, the disruption of their respective ongoing

Table of Contents

businesses or possible inconsistencies in standards, controls, procedures and policies. Future results of the combined company may be materially different from those shown in the pro forma financial statements that only show a combination of the historical results of WesBanco and Fidelity. We have estimated that the combined company will record approximately \$7.8 million of merger-related costs. The costs may be higher or lower than we have estimated, depending upon how costly or difficult it is to integrate the two companies. Furthermore, these costs may decrease the capital of the combined company that could be used for profitable, income-earning investments in the future.

Additionally, in determining that the merger is in the best interests of Fidelity and its shareholders, Fidelity's board of directors considered that enhanced earnings may result from the consummation of the merger, including from reduction of duplicate costs, improved efficiency and cross-marketing opportunities. However, there can be no assurance that any enhanced earnings will result from the merger.

Fidelity shareholders will have less influence as a shareholder of WesBanco than as a shareholder of Fidelity.

Fidelity shareholders currently have the right to vote in the election of the board of directors of Fidelity and on other matters affecting Fidelity. Based upon the maximum number of shares of WesBanco common stock to be received by Fidelity shareholders in the merger, the current shareholders of Fidelity as a group would own approximately 9.62% of the voting power of the combined organization immediately after the merger. When the merger occurs, each Fidelity shareholder will become a shareholder of WesBanco with a percentage ownership of the combined organization much smaller than such shareholder's percentage ownership of Fidelity. Because of this, Fidelity shareholders will have less influence on the management and policies of WesBanco than they now have on the management and policies of Fidelity.

Directors and officers of Fidelity have interests in the merger that differ from the interests of non-management shareholders.

The executive officers of Fidelity and WesBanco negotiated the terms of the merger agreement, the Fidelity and WesBanco boards of directors approved the merger agreement and the Fidelity board of directors recommends that you vote to adopt the merger agreement. In considering these facts and the other information included in this proxy statement/prospectus or incorporated by reference in this proxy statement/prospectus, you should be aware that certain of Fidelity's directors and executive officers have economic interests in the merger other than their interests as shareholders. For example, Fidelity is party to employment agreements or change in control severance agreements with some of its executive officers (one of whom, Richard G. Spencer, is also a director), which provide for, among other things, cash payments following a change of control that is coupled with a termination of employment without cause. In addition, upon completion of the merger, Richard G. Spencer, President and Chief Executive Officer, will be appointed to the board of directors of WesBanco. Similarly, all of our current directors will be appointed to a newly-created advisory board for WesBanco Bank for the greater Pittsburgh, Pennsylvania area. Mr. Spencer will be offered a one year non-competition and non-solicitation and a three-year consulting agreement by WesBanco for which he will be compensated. Other executive officers may be offered similar non-competition and non-solicitation agreements. In addition, WesBanco also intends to retain certain executive officers of Fidelity to be determined on an at-will basis after completion of the merger for purposes of assisting with a smooth transition of the operations of Fidelity and its subsidiaries. WesBanco also anticipates issuing restricted stock and entering into retention agreements with key employees to ensure continuity through the transition of the operations of Fidelity. The merger agreement also provides that for six years after completion of the merger WesBanco will continue indemnification of our current and former directors and executive officers and provide certain directors' and officers' insurance for these individuals. See Proposal No. 1 Proposal to Adopt the Merger Agreement Interests of Certain Persons in the Merger beginning on page 61.

Table of Contents

Holders of Fidelity common stock do not have dissenters' appraisal rights in the merger.

Dissenters' rights are statutory rights that, if applicable under law, enable shareholders to dissent from an extraordinary transaction, such as a merger, and to demand that the corporation pay the fair value for their shares as determined by a court in a judicial proceeding instead of receiving the merger consideration offered to shareholders in connection with the extraordinary transaction. Under Pennsylvania law, shareholders do not have dissenters' rights with respect to shares of any class of stock which, at the record date fixed to determine shareholders entitled to receive notice of and to vote at the meeting of shareholders at which a merger or consolidation was acted on, were listed on a national securities exchange. Because Fidelity's common stock is listed on the Nasdaq Global Market, a national securities exchange, holders of Fidelity common stock will not be entitled to dissenters' appraisal rights in the merger with respect to their shares of Fidelity common stock.

The fairness opinion obtained by Fidelity from its financial advisor will not reflect changes in circumstances subsequent to the date of the fairness opinion.

Mufson Howe Hunter & Company LLC (MHH), Fidelity's financial advisor in connection with the proposed merger, has delivered to the board of directors of Fidelity its opinion dated as of July 19, 2012. The opinion of MHH stated that as of such date, and based upon and subject to the factors and assumptions set forth therein, the merger consideration was fair to the Fidelity common shareholders from a financial point of view. The opinion does not reflect changes that may occur or may have occurred after the date of the opinion, including changes to the operations and prospects of WesBanco or Fidelity, changes in general market and economic conditions or regulatory or other factors. Any such changes, or changes in other factors on which the opinion is based, may materially alter or affect the relative values of WesBanco and Fidelity.

THE SPECIAL MEETING OF FIDELITY SHAREHOLDERS

General

This section contains information about the special shareholder meeting Fidelity has called to consider and vote on the (i) adoption of the merger agreement, (ii) approval, in a non-binding advisory vote, of the compensation payable to the named executive officers of Fidelity in connection with the merger; and (iii) approval of the adjournment of the Fidelity special meeting, if necessary, to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the Fidelity special meeting. Fidelity is mailing this proxy statement/prospectus to you on or about October 23, 2012. Together with this proxy statement/prospectus, Fidelity is also sending to its shareholders a notice of the Fidelity special meeting and a form of proxy that Fidelity's board of directors is soliciting for use at the Fidelity special meeting and at any adjournments or postponements of the meeting.

A copy of the merger agreement is attached to this proxy statement/prospectus as *Annex A* and is incorporated by reference into this document in its entirety. You should read the entire merger agreement carefully.

Date, Time and Place of the Special Meeting

The Fidelity special meeting will be held at the Perrysville Branch of Fidelity Savings Bank, 1009 Perry Highway, Pittsburgh, Pennsylvania, on November 27, 2012, at 5:00 p.m., Eastern Time.

Record Date; Stock Entitled to Vote; Quorum

Only holders of record of Fidelity common stock on October 15, 2012, which we refer to as the record date, will be entitled to notice of and to vote at the special meeting and any adjournments or postponements of the special meeting. On the record date, there were 3,070,774 shares of Fidelity common stock outstanding and entitled to vote at the special meeting. Owners of record of Fidelity common stock on the record date are entitled

to one vote per share at the special meeting. Holders of the Fidelity TARP Preferred Stock, which was issued to the U.S. Department of the Treasury, (the U.S. Treasury), under the Capital Purchase Program of the Troubled Asset Relief Program, which we refer to as TARP, will not have the right to vote on any of the proposals to be voted on at the Fidelity special meeting. According to the terms of the Fidelity TARP Preferred Stock, the holder of such stock does not have the right to vote on the merger and the merger agreement as long as the shares of Fidelity TARP Preferred Stock are converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and such preference securities have rights, preferences, privileges and voting powers, and limitations and restrictions thereof, which, taken as a whole, are not materially less favorable than the rights, preferences, privileges and voting powers, and limitations and restrictions thereof, of the Fidelity TARP Preferred Stock immediately prior to the completion of the merger, taken as a whole.

A quorum of Fidelity shareholders is necessary to have a valid meeting of shareholders. The presence, in person or by proxy, of the holders of at least a majority of the shares of Fidelity common stock outstanding as of the record date and entitled to vote is necessary to constitute a quorum at the special meeting. Both abstentions and broker non-votes count as present for establishing a quorum. An abstention occurs when a shareholder attends a meeting, either in person or by proxy, but abstains from voting. A broker non-vote occurs on an item when a broker is not permitted to vote on that item without instructions from the beneficial owner of the shares and no instructions are given.

Required Vote

Adopt the Merger Agreement. Adoption of the merger agreement requires the affirmative vote of a majority of the votes cast by the holders of Fidelity common stock entitled to vote thereon at a shareholders meeting at which a quorum is present. Accordingly, we urge you to complete, date and sign the accompanying proxy card and return it promptly in the enclosed postage-paid envelope.

When considering our board of directors recommendation that you vote in favor of adoption of the merger agreement, you should be aware that certain of our executive officers and directors have interests in the merger that may be different from, or in addition to, your and their interests as shareholders. See Proposal No. 1 Proposal to Adopt the Merger Agreement Interests of Certain Persons in the Merger beginning on page 61.

Advisory (Non-binding) Vote Regarding Golden Parachute Compensation. The affirmative vote of a majority of the votes cast by the holders of Fidelity common stock entitled to vote thereon at a shareholders meeting at which a quorum is present is required to approve on an advisory (non-binding) basis, Fidelity's golden parachute compensation payable to the named executive officers of Fidelity in connection with the merger.

Discretionary Authority to Adjourn Our Special Meeting. The affirmative vote of the holders of a majority of the votes cast by the holders of Fidelity common stock entitled to vote thereon at a shareholders meeting at which a quorum is present is required to approve the proposal to grant discretionary authority to adjourn our special meeting if necessary to solicit additional proxies from our shareholders for the merger proposal.

A vote by the holders of shares of the Fidelity TARP Preferred Stock is not required to approve any of the proposals to be voted on at the Fidelity special meeting.

Ownership of Fidelity Officers, Directors and Affiliates

On the record date, the directors, executive officers and affiliates of Fidelity owned or controlled the vote of 333,099 shares of Fidelity common stock, constituting approximately 10.85% of the outstanding shares of Fidelity common stock. In addition, certain officers and directors of Fidelity have entered into voting agreements with WesBanco wherein the officer or director has agreed to vote their Fidelity shares in favor of adoption of the merger agreement. See Other Material Agreements Relating to the Merger Voting Agreements.

Voting of Proxies

You may submit the accompanying proxy by telephone, the Internet or by returning the proxy by mail if you are unable to attend the special meeting in person or wish to have your shares voted by proxy even if you attend the meeting. All shares of Fidelity common stock represented at the special meeting by properly executed proxies received prior to or at the special meeting, and not revoked, will be voted at the special meeting in accordance with the instructions on the proxies. If you properly execute a proxy but include no voting instructions, your shares will be voted

FOR (i) adoption of the merger agreement, (ii) approval, in a non-binding advisory vote, of the compensation payable to the named executive officers of Fidelity in connection with the merger; and (iii) approval of the adjournment of the Fidelity special meeting, if necessary, to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the Fidelity special meeting.

If your shares are held in street name (i.e., in the name of a broker, bank or other record holder), you must direct the record holder how to vote your shares in connection with the merger. Your broker will send you directions explaining how you can direct your broker to vote.

The Fidelity board of directors does not know of any matters, other than as described in the notice of special meeting, which are to come before the special meeting. If any other matters are properly presented at the special meeting for action, the persons named in the enclosed form of proxy will have the authority to vote on those matters in their discretion.

Revocation of Proxies

If you give a proxy, you have the right to revoke it at any time before it is voted. You may revoke your proxy by (i) filing with the Secretary of Fidelity a written notice of revocation that is received prior to the vote at the special meeting and that bears a later date than the proxy, (ii) duly executing a later dated proxy relating to the same shares and delivering it to the Secretary of Fidelity before the vote at the special meeting, (iii) submitting a later dated proxy by telephone or the Internet, before the vote at the special meeting, or (iv) attending the special meeting and voting in person. Your attendance at the special meeting will not, in and of itself, revoke your proxy. Any written notice of revocation or subsequent dated proxy should be sent so as to be delivered to Fidelity Bancorp, Inc., 1009 Perry Highway, Pittsburgh, Pennsylvania 15237, Attention: Corporate Secretary, or hand delivered to the foregoing representative of Fidelity. For a notice of revocation or later proxy to be valid, it must actually be received by Fidelity prior to the vote of the shareholders.

If your shares are held by a broker in street name and you wish to change the instructions you have given your broker about how to vote your shares, or you wish to attend the special meeting and vote in person, you must follow the instructions provided by your broker.

Expenses of Solicitation of Proxies

Fidelity will bear the entire cost of soliciting proxies from Fidelity shareholders. In addition to solicitation by use of the mail, proxies may be solicited by directors, officers and employees of Fidelity in person or by telephone, telegram or other means of communication. These directors, officers and employees will not be additionally compensated but may be reimbursed for out-of-pocket expenses they incur in connection with the solicitation. Arrangements will also be made with brokerage houses, custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of Fidelity common stock held of record by such persons. Fidelity may reimburse these custodians, nominees and fiduciaries for reasonable out-of-pocket expenses they incur. **Do not send your stock certificates with your proxy card.**

Recommendation of Fidelity Board of Directors

The Fidelity board of directors believes that the merger is in the best interests of Fidelity and its shareholders, and unanimously recommends that the shareholders of Fidelity vote FOR adoption of the merger agreement; FOR approval, in a non-binding, advisory vote, of the compensation payable to the named executive officers of Fidelity in connection with the merger; and FOR the adjournment of the Fidelity special meeting if necessary to solicit additional proxies in favor of the adoption of the merger agreement.

In the course of reaching its decision to adopt the merger agreement and the transactions contemplated thereby, the Fidelity board of directors, among other things, consulted with its legal advisors regarding the legal terms of the merger agreement and with its financial advisor as to the fairness, from a financial point of view, of the consideration to be paid to Fidelity shareholders. For a discussion of the factors considered by the Fidelity board of directors in reaching its conclusion, see Proposal No. 1 Proposal to Adopt the Merger Agreement Fidelity s Reasons for the Merger.

PROPOSAL NO. 1 PROPOSAL TO ADOPT THE MERGER AGREEMENT

The following summarizes material provisions of the merger agreement, a copy of which is attached to this proxy statement/prospectus as Annex A and which we incorporate by reference into this document. This summary does not purport to be complete and may not contain all of the information about the merger agreement that is important to you. We encourage you to read carefully the merger agreement in its entirety, as the rights and obligations of the parties are governed by the express terms of the merger agreement and not by this summary or any other information contained in this proxy statement. Factual disclosures about WesBanco and Fidelity contained in this proxy statement/prospectus or in the companies public reports filed with the SEC may supplement, update or modify the factual disclosures about the companies contained in the merger agreement.

The description of the merger agreement in this proxy statement/prospectus has been included to provide you with information regarding its terms. The merger agreement contains representations, warranties, covenants and agreements made by WesBanco and Fidelity as of specific dates that were made for purposes of that contract between the parties and are subject to qualifications and limitations, including by information in disclosure schedules that the parties exchanged in connection with the execution of the merger agreement. In addition, certain representations and warranties may be subject to contractual standards of materiality different from those generally applicable to shareholders, or may have been used for the purpose of allocating risk between the parties rather than establishing matters as facts. Moreover, information concerning the subject matter of the representations and warranties, which do not purport to be accurate as of the date of this proxy statement/prospectus, may have changed since the date of the merger agreement. Shareholders are not third-party beneficiaries under the merger agreement and should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of WesBanco or Fidelity.

General

WesBanco s and Fidelity s boards of directors have approved the merger agreement. The merger agreement provides that Fidelity will merge with and into WesBanco, with WesBanco being the surviving corporation. Following the merger, Fidelity Savings Bank, a Pennsylvania chartered stock savings bank which is Fidelity s main operating subsidiary, will merge with and into WesBanco Bank, a West Virginia banking corporation which is WesBanco s main operating subsidiary (the bank merger). The Articles of Incorporation and Bylaws of WesBanco and WesBanco Bank immediately prior to the merger will constitute the Articles of Incorporation and Bylaws of WesBanco and WesBanco Bank following the merger.

What Fidelity Shareholders Will Receive in the Merger

If the merger is completed, for each share of Fidelity common stock that you own you will receive (i) 0.8275 shares of WesBanco common stock and (ii) \$4.50 in cash, without interest, subject to possible adjustment in accordance with the terms of the merger agreement as discussed below. You will not receive separate consideration for the preferred stock purchase rights associated with the Fidelity common stock issued pursuant to the Fidelity Rights Agreement dated as of March 31, 2003, as amended by amendment No. 1 to Rights Agreement, dated as of March 15, 2005, and Amendment No. 2 to Rights Agreement, dated as of July 19, 2012 (the "Rights Agreement"), as such purchase rights will expire immediately prior to the effective time of the merger.

Possible Exchange Ratio Adjustments. The 0.8275 exchange ratio is subject to adjustment in the event that certain termination provisions, based on the market price of WesBanco's common stock and the value of the Nasdaq Bank Index, are triggered and the Fidelity board of directors elects to terminate the merger agreement. Fidelity's right to terminate the merger agreement would arise if the average closing price of WesBanco common stock during the 20 consecutive trading days ending on the Determination Date (as defined below on page 78) is less than \$18.85 per share and WesBanco common stock underperforms an index of financial institution stocks, the Nasdaq Bank Index, by more than 15%. However, Fidelity would not have the right to terminate the merger agreement if WesBanco elects to make a compensating adjustment in the exchange ratio. See Proposal No. 1 "Proposal to Adopt the Merger Agreement - Termination of the Merger Agreement" beginning on page 77 for a description of the possible exchange ratio adjustments that may result from this termination provision. In addition, the merger agreement provides that the exchange ratio will be adjusted in the event WesBanco changes the number of shares of WesBanco common stock issued and outstanding prior to the effective time of the merger as a result of a reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split or other like changes in WesBanco's capitalization.

Effects of the Merger

The merger shall become effective as set forth in the articles of merger that shall be filed with the West Virginia Secretary of State and Department of State of the Commonwealth of Pennsylvania. At that time, the separate existence of Fidelity will cease and WesBanco will be the surviving corporation. The assets, liabilities and capital of Fidelity will be merged with those of WesBanco and those assets, liabilities and capital will then constitute part of the assets, liabilities and capital of WesBanco. WesBanco will continue to operate under its articles of incorporation and bylaws effective as of immediately prior to the merger, and the officers and directors of WesBanco will continue as the officers and directors of the surviving corporation, except that Richard G. Spencer, Fidelity's President and Chief Executive Officer, will be appointed to the board of directors of WesBanco after the merger. See Proposal No. 1 "Proposal to Adopt the Merger Agreement - Interests of Certain Persons in the Merger" beginning on page 61. The Articles of Incorporation and Bylaws of WesBanco will be unaffected by the merger. The tenure of the directors and officers of WesBanco immediately prior to the merger will be unaffected by the merger.

At the effective time of the merger, each share of Fidelity common stock issued and outstanding immediately prior to the time the merger becomes effective will be converted automatically into the right to receive the merger consideration. Shares of Fidelity common stock held by Fidelity in its treasury or beneficially owned by WesBanco (other than in a fiduciary capacity by them for others) will not be exchanged for the merger consideration in the merger. Instead, these shares will be canceled and retired. In addition, restricted shares of Fidelity common stock will not be exchanged for the merger consideration but will instead be converted into the right to receive a cash payment of \$22.50 per share. Fidelity shareholders will not receive separate consideration for the preferred stock purchase rights associated with the Fidelity common stock issued pursuant to the Rights Agreement, as such purchase rights will expire immediately prior to the effective time of the merger.

After the merger becomes effective, each certificate evidencing shares of Fidelity common stock will be deemed to evidence only the right to receive the merger consideration and, under certain circumstances,

dividends on shares of Fidelity common stock with a record date prior to the completion of the merger and dividends on shares of WesBanco common stock with a record date after the completion of the merger. The holder of an unexchanged certificate will not receive any dividend or other distribution payable by WesBanco until the certificate has been exchanged.

Exchange and Payment Procedures

Immediately prior to the effective time of the merger, WesBanco will deposit with Computershare Investor Services, LLC, the Exchange Agent, (i) book entry shares representing the aggregate number of shares of WesBanco common stock issuable pursuant to the merger agreement in exchange for all of the shares of Fidelity common stock outstanding immediately prior to the effective time of the merger, (ii) immediately available funds equal to the aggregate amount of cash, without interest, payable by WesBanco pursuant to the merger agreement in exchange for all of the shares of Fidelity common stock outstanding immediately prior to the effective time of the merger and (iii) cash to be paid to Fidelity shareholders in lieu of fractional shares of WesBanco common stock.

As soon as practicable after the effective time of the merger, the Exchange Agent will mail each holder of record of Fidelity common stock a letter of transmittal containing instructions for use in effecting the surrender of certificates representing shares of Fidelity common stock in exchange for the merger consideration or cash in lieu of fractional shares. After the effective time of the merger, each holder of a Fidelity stock certificate, other than certificates representing treasury shares (as defined in the merger agreement), who has surrendered such certificate or who has provided customary affidavits and indemnification regarding the loss or destruction of such certificate, together with duly executed transmittal materials, to the Exchange Agent, will be entitled to receive, for each share of Fidelity common stock, (i) 0.8275 shares of WesBanco common stock, (ii) \$4.50 in cash, without interest, and (iii) cash in lieu of any fractional shares of WesBanco common stock to which such holder is otherwise entitled. WesBanco will have no obligation to deliver the merger consideration or cash in lieu of fractional shares to any Fidelity shareholder until the Fidelity shareholder surrenders his certificates representing his shares of Fidelity common stock.

If a Fidelity stock certificate has been lost, stolen or destroyed, the Exchange Agent will issue the consideration properly payable under the merger agreement upon receipt of an affidavit of that fact by the claimant. WesBanco may require the claimant to post a bond in a reasonable amount as an indemnity against any claim that may be made against WesBanco with respect to the claimant's lost, stolen or destroyed Fidelity stock certificate.

The Exchange Agent or, following the first anniversary of the effective time of the merger, WesBanco, may be entitled to deduct and withhold from any cash amounts payable to any holder of shares of our common stock such amounts as the Exchange Agent or WesBanco is required to deduct and withhold under the Code, or any state, local or foreign tax law or regulation. Any amounts that WesBanco or the Exchange Agent withhold will be treated as having been paid to such holder of Fidelity common stock.

Fidelity common stock certificates may be exchanged for merger consideration and cash in lieu of fractional shares of WesBanco common stock through the Exchange Agent for up to 12 months after the completion of the merger. At the end of that period, the Exchange Agent will return any WesBanco shares and cash to WesBanco. Any holders of Fidelity common stock certificates who have not exchanged their certificates for the merger consideration before that date will then be entitled to look only to WesBanco to seek payment of the merger consideration, any cash in lieu of fractional shares of WesBanco common stock and any unpaid dividends or distributions payable to such holder pursuant to the merger agreement. Neither Fidelity nor WesBanco will be liable to any former holder of Fidelity common stock for any merger consideration that is paid to a public official pursuant to any applicable abandoned property, escheat or similar laws.

Following the effective time of the merger, there shall be no transfers on the stock transfer books of Fidelity other than to settle transfers of Fidelity common stock that occurred prior to the effective time of the merger.

Benefit Agreements

Employee Stock Ownership Plan. The Fidelity Employee Stock Ownership Plan (the "ESOP") will be terminated as of the effective time of the merger by Fidelity in accordance with its terms. Until the ESOP is terminated, Fidelity will continue to make contributions to the ESOP in accordance with applicable accruals and in the ordinary course of business. The accounts of all participants and beneficiaries in the ESOP will become fully vested as of the effective time of the merger. Any shares of Fidelity common stock held in the ESOP shall be converted into the right to receive 0.8275 shares of WesBanco common stock plus \$4.50 in cash, without interest, for each share of Fidelity common stock, which shall be allocated to the accounts of ESOP participants who have account balances in the ESOP in accordance with the applicable provisions of the ESOP. The merger agreement also requires Fidelity to file all necessary documents with the IRS for a determination letter for termination of the ESOP as soon as practicable. As soon as practicable following the effective time or the receipt of a favorable determination letter from the IRS regarding the qualified status of the ESOP upon its termination, the account balances in the ESOP shall be either distributed to participants and beneficiaries or transferred to an eligible tax-qualified retirement plan or individual retirement account as a participant or beneficiary may direct. WesBanco has agreed to permit Fidelity employees who become WesBanco employees following completion of the merger to roll over their account balances in the ESOP to the WesBanco Employee Stock Ownership and 401(k) Plan (the "KSOP").

401(k) Plan. Pursuant to the terms of the merger agreement, Fidelity is required to terminate its 401(k) Plan, immediately prior to or as of the effective time of the merger. Until the 401(k) Plan is terminated, Fidelity will continue to make contributions to the 401(k) Plan in accordance with applicable accruals and in the ordinary course of business. The accounts of all participants and beneficiaries in the 401(k) Plan as of the effective time will become fully vested upon termination of the 401(k) Plan. Upon the later of the effective time of the merger or the receipt of a favorable determination letter from the IRS regarding the qualified status of the 401(k) Plan upon its termination, Fidelity will, at each employee's option, either distribute the account balances to participants or transfer the balances to an eligible tax-qualified retirement plan or individual retirement account as a participant or beneficiary may direct. WesBanco has agreed to permit Fidelity employees who become WesBanco employees following completion of the merger to rollover their account balances to WesBanco's KSOP.

Dividend Reinvestment Plan. Pursuant to the terms of the merger agreement, Fidelity has suspended the acceptance of dividends and other contributions of participants in its Dividend Reinvestment Plan ("DRIP"). In addition, prior to the effective time of the merger, Fidelity is required to terminate its DRIP and distribute all shares of Fidelity common stock and the value of all cash held in a participant's account in accordance with the terms of the DRIP.

Severance and Benefits for Terminated Fidelity Employees. Employees of Fidelity (other than employees who are otherwise parties to employment, severance or change in control agreements) (i) who are not offered the opportunity to continue as employees of WesBanco or WesBanco Bank after the merger or (ii) who are terminated without cause within one year after the merger, will be entitled to receive (A) severance compensation based on the number of years of service with Fidelity and the employee's weekly rate of pay, (B) accrued benefits, including vacation pay, through the date of separation, and (C) any rights to continuation of medical coverage to the extent such rights are required under applicable federal or state law and subject to the employee's compliance with all applicable requirements for such continuation coverage, including payment of all premiums or other expenses related to such coverage.

Outplacement Services for Fidelity Employees. After the effective time of the merger, employees of Fidelity and its subsidiaries who are part of any reduction in force during the ninety (90) calendar days following the merger will be eligible to receive outplacement services with a cost of up to \$1,500 for each such employee.

Other Benefit Arrangements. As of the effective time of the merger, WesBanco will honor and assume the employment agreements, severance agreements, salary continuation agreements and officer group term life insurance agreements in effect between Fidelity and its senior officers.

Treatment of Fidelity Stock Options

Options issued by Fidelity to employees and directors to purchase an aggregate of 229,513 shares of Fidelity common stock were outstanding as of the record date. Upon completion of the merger, each outstanding option to purchase shares of Fidelity common stock, whether or not then exercisable, will be cancelled in exchange for the right to receive an amount in cash, without interest, equal to the product of (i) the aggregate number of shares of Fidelity common stock subject to such stock option, multiplied by (ii) the excess, if any, of \$22.50 over the per share exercise price of such Fidelity stock option. The cash payment will be subject to applicable tax withholding.

Treatment of Fidelity Restricted Stock

Upon completion of the merger, each outstanding share of Fidelity restricted stock that is outstanding immediately prior to the completion of the merger, will vest in full immediately and will be converted into the right to receive \$22.50 per share, without interest, subject to applicable tax withholding. Notwithstanding the previous sentence, if any shares of Fidelity TARP Preferred Stock are held by the U.S. Treasury at the time of completion of the merger, then 5,647 shares of Fidelity restricted stock held by Richard G. Spencer (the *Converted Restricted Stock*) shall not become entitled to receive \$22.50 in cash for each share. Instead, each share of *Converted Restricted Stock* shall be converted into the right to acquire the number of shares of WesBanco common stock, determined by multiplying the number of shares of *Converted Restricted Stock* immediately prior to completion of the merger by the sum of (i) the exchange ratio and (ii) 0.2033 (the quotient determined by dividing \$4.50 by \$22.13, which was the average closing sales price of WesBanco common stock for the 10 consecutive trading days ending on July 19, 2012, the date the merger agreement was signed) (rounded down, if necessary, to a whole share of WesBanco common stock). Each such share of *Converted Restricted Stock* shall otherwise be subject to the same terms and conditions as were applicable to the shares of Fidelity restricted stock immediately prior to the completion of the merger; *provided, however*, that after the completion of the merger, no *Converted Restricted Stock* shall vest and become unrestricted shares of WesBanco common stock at any time during which any shares of WesBanco Preferred Stock (as defined below) are held by the U.S. Treasury.

Treatment of Fidelity TARP Preferred Stock and Fidelity TARP Warrant

The merger agreement provides that upon completion of the merger, each outstanding share of Fidelity TARP Preferred Stock, will be converted into the right to receive one share of WesBanco Fixed Rate Cumulative Perpetual Preferred Stock, Series B (*WesBanco Preferred Stock*) with substantially the same rights, powers and preferences as the Fidelity TARP Preferred Stock, unless purchased or redeemed prior to the effective time of the merger. The outstanding warrant, (the *Fidelity TARP Warrant*), to purchase Fidelity common stock, which was issued on December 12, 2008 to the U.S. Treasury, will be converted into a warrant to purchase WesBanco common stock, subject to appropriate adjustments to reflect the exchange ratio. Subject to the receipt of requisite regulatory approvals, WesBanco and Fidelity have agreed to use their reasonable best efforts to have the Fidelity TARP Preferred Stock either purchased by WesBanco or one of its subsidiaries, in which case it is expected to be extinguished upon consummation of the merger, or redeemed by Fidelity. WesBanco also may elect to have the Fidelity TARP Warrant purchased or redeemed, but has no obligation to do so. There can be no certainty or guarantee as to the timing or occurrence of the redemption or repurchase of either the Fidelity TARP Preferred Stock or the Fidelity TARP Warrant.

Possible Short-Term Retention of Fidelity Management Employees

If the Fidelity TARP Preferred Stock has not been repurchased or redeemed from the U.S. Treasury by Fidelity or WesBanco at least one calendar day prior to the effective time of the merger, WesBanco will continue the employment of certain Fidelity management employees under the terms of their Fidelity employment agreements and change in control agreements as employees of WesBanco or WesBanco Bank for a period of at least 30 calendar days following the effective time of the merger.

Background of the Merger

Fidelity's board of directors has regularly reviewed and evaluated strategic options available to it with the goals of strengthening Fidelity's capital and financial position, identifying opportunities for growth consistent with safe and sound banking operations, and enhancing long-term shareholder value.

From time to time, representatives of various area financial institutions (but not including WesBanco) expressed their interest in Fidelity to Richard G. Spencer, Fidelity's President and CEO, regarding the possibility of Fidelity engaging in a business combination with their institutions. No deal terms were ever proposed or discussed in connection with any of these communications, nor did Fidelity actively evaluate or pursue any of these expressions of interest. In addition, Mr. Spencer regularly met with various investment advisory firms with significant experience providing financial advisory services to banks and thrifts, to discuss the current state of the Pittsburgh banking market, Fidelity's prospects as an independent institution, and the mergers and acquisition landscape.

In August 2011, members of the Board of Directors serving as the Shareholder Value Committee met with representatives of an investment advisory firm with significant experience providing financial advisory services to banks and thrifts, to review recent mergers and acquisition (M&A) activity and to gain a better understanding of the M&A process. The investment advisor firm presented an overview of the financial industry, market analysis, peer group analysis, and a review of the current mergers and acquisitions landscape, including recent transactions. As part of this presentation, the investment advisor presented illustrations of the potential financial effects of a business combination with several area financial institutions, including those that had previously expressed on an informal basis an interest in Fidelity. It was discussed that the increasing regulatory burdens on community banks would soon require Fidelity to make additional major investments in technology and compliance that would increase Fidelity's cost structure and negatively impact its profitability. In addition, the current low-margin operating environment, the potential dilutive impact of redeeming the Fidelity TARP Preferred Stock Fidelity had issued in December 2008 to the U.S. Department of the Treasury and the escalating cost of such investment with the dividend rate increasing to 9% in 2013 were reviewed considering their potential impact on the future profitability of Fidelity. The discussions also included the issues associated with future prospects of raising additional capital necessary to redeem the outstanding shares of Fidelity TARP Preferred Stock. The Board of Directors was briefed on these discussions during September 2011. The Board also discussed succession planning matters associated with the future retirement of Mr. Spencer as Fidelity's President and CEO. The Board determined that it should continue to educate itself on the process of exploring various strategic alternatives.

During December 2011, President Spencer met the CEO of a Pittsburgh-area financial institution to discuss approaches to the merger process and general interest in exploring a potential transaction as partners. Mr. Spencer reported on these discussions to Fidelity's board of directors. In February 2012, Chairman Green and President Spencer met with the Chairman and CEO of the same financial institution to further discuss approaches to the merger process and general interest in exploring a potential transaction as partners. In addition, following such meeting, President Spencer received an unsolicited general expression of interest from this party related to exploring a potential transaction with Fidelity. Chairman Green and President Spencer reported on these discussions to Fidelity's board of directors.

In early March 2012, Chairman Green and President Spencer met with representatives of Spidi & Fisch, PC, which we refer to as Spidi & Fisch, a law firm with significant experience advising financial institutions. The meeting included a discussion of the process of exploring strategic alternatives, the fiduciary duties and responsibilities of Fidelity's board of directors in the context of exploring a business combination transaction, matters associated with an unsolicited expression of interest, and discussion of the timing, general process and regulatory and shareholder approval requirements for a merger transaction.

On March 6, 2012, representatives of Spidi & Fisch participated in a Fidelity Board of Directors meeting to discuss the process of exploring strategic alternatives, the fiduciary duties and responsibilities of Fidelity's board

of directors in the context of exploring a business combination transaction, matters associated with responding to an unsolicited expression of interest, and discussed the timing, general process and regulatory and shareholder approval requirements for a merger transaction. Also during March 2012, President Spencer met with the CEO of another Pittsburgh-area financial institution to discuss approaches to the merger process and general interest in exploring a potential transaction as partners. Mr. Spencer reported on these discussions to Fidelity's board of directors.

In April 2012, the Board reviewed and discussed proposals from various investment advisory firms to assist Fidelity in the process of exploring its strategic alternatives and the preparation and distribution of a confidential offering memorandum. The Board authorized management to negotiate and sign an engagement letter with the selected investment advisory firm. On May 1, 2012, Fidelity entered into an agreement with MHH for such investment advisory services. Fidelity and MHH began the preparation of a confidential offering memorandum and the process of exploring strategic alternatives.

During May 2012, representatives of MHH met with President Spencer to discuss preparation of the confidential offering memorandum, discuss the Pittsburgh Pennsylvania banking market and the mergers and acquisition landscape. At a meeting of Fidelity's Board on May 15, 2012, MHH presented a draft of a confidential information memorandum to be distributed to interested parties following execution of a confidentiality agreement. Such memorandum included non-public information regarding Fidelity's business and recent operating performance. MHH discussed the goals of the process, with the primary objective being to seek to obtain the highest per share consideration for Fidelity's shareholders, and the terms that interested parties would be asked to address as part of their proposals. In addition to price per share, these included, among other things, the structure of the proposed transaction, price protection, treatment of stock options, personnel issues, treatment of Fidelity benefit plans, the treatment of the Fidelity TARP Preferred Stock, due diligence procedures, and the existence of financing or other contingencies.

MHH presented a list of twelve financial institutions that could potentially be interested in a merger with Fidelity and provided some background information on the likelihood of their interest in a business combination with Fidelity. The list of potential transaction partners was developed by MHH based on consultation with Fidelity's management, analysis of publicly available information about other financial institutions and their acquisition histories, and MHH's knowledge and expertise concerning Fidelity's market area and the current market for transactions involving financial institutions. The proposed list included the two institutions that had previously expressed an interest in Fidelity. The directors discussed whether there were any other reasonably likely potential merger partners who had been omitted from the list and concluded that there were not. It was the consensus of the Board that the list presented by MHH was appropriate and that all of the institutions on the list should be contacted to determine their interest in a potential business combination with Fidelity.

In mid-May, MHH, with the assistance of management of Fidelity, finalized the confidential information memorandum and on May 18, 2012 began contacting the financial institutions on the list presented to the directors to ascertain their interest in a possible business combination. Nine of the institutions contacted executed confidentiality agreements, and thereafter MHH provided these interested parties with a copy of the confidential information memorandum. All of the interested parties that executed confidentiality agreements were also given access to an electronic data room containing additional information regarding Fidelity's operations beginning on May 24, 2012. The interested parties were given until June 5, 2012 to submit a written expression of interest.

WesBanco contacted Macquarie Capital (USA) Inc. (Macquarie) on May 29, 2012 about engaging their services as an investment banker on behalf of WesBanco and after some discussion engaged Macquarie on May 30, 2012 to assist them in the potential transaction with Fidelity (with the formal engagement letter being executed on June 22, 2012).

On June 5, 2012, six of the institutions, including WesBanco and the two institutions that earlier in the year had expressed an interest in Fidelity, had submitted a proposal for a possible business combination. Three of the

Table of Contents

proposals, including the proposal from WesBanco, contemplated that Fidelity stock would be exchanged for a combination of cash and common stock of the acquirer, and three of the proposals contemplated a 100% stock-for-stock merger. Each proposal was subject to further due diligence and other customary conditions.

Fidelity's board of directors met on June 7, 2012. MHH presented information on the current market for mergers and acquisitions, including transaction pricing multiples for comparable transactions. MHH then reviewed the process undertaken to that point and discussed the proposals received by Fidelity. MHH informed the board of directors that Fidelity had received six proposals for a business combination transaction. MHH reviewed the key terms and characteristics of each proposal, including the amount and type of consideration offered. MHH also provided a comparison of the financial performance of each of the six potential partners, as well as an analysis of their branch networks, their acquisition histories and their independent research analysts' consensus estimates for their respective stocks. Of the six proposals, WesBanco's proposal was among the top three proposals offering potentially the highest value to shareholders.

MHH also reviewed the next steps in the transaction process. The board of directors selected the three highest proposals, including WesBanco, to conduct a full due diligence investigation of Fidelity in order to provide further clarification regarding their proposals. During a conference call on Friday, June 8, 2012, WesBanco was advised by Macquarie that it had been invited to do due diligence and it was one of three finalists in the bidding process.

Between June 8, 2012 and June 22, 2012, representatives of WesBanco and two other financial institutions conducted thorough due diligence investigations of Fidelity. The due diligence investigation included, among other things, discussions with Fidelity's senior management and review of Fidelity's loan portfolio, securities portfolio and other assets, legal documents and obligations. During the due diligence period, representatives of MHH and the financial advisors for the three interested parties discussed the results of their due diligence investigations. During this time period Fidelity also provided significant additional information to the three interested parties through the electronic data room and responded to many requests for additional information. In addition, on June 12, 2012 and June 13, 2012 Fidelity's board of directors, members of senior management and representatives of MHH met with members of each of the three potential partners' management teams, board members and their respective investment bankers to learn more about each of the potential partners' operating styles, cultures, financial prospects for the future and their integration plans for Fidelity. On June 20, 2012, at a regularly scheduled meeting of the executive committee of the WesBanco board of directors, the financial parameters of a potential deal were discussed and considered in further detail and the executive committee authorized WesBanco's executive officers and chairman to proceed with negotiations.

Revised expressions of interest were submitted by WesBanco and two other parties on June 25, 2012. Several discussions were held on June 26th and June 27th with representatives of Macquarie and MHH to clarify terms and conditions of the proposal. WesBanco proposed to acquire Fidelity in a merger in which the holders of Fidelity common stock would receive shares of WesBanco stock and \$4.50 in cash, which at the time represented a combined value of \$22.50 for each share of Fidelity common stock. The stock portion of the offer was to be a fixed exchange ratio based on the 10 day average closing price of WesBanco common stock immediately prior to signing a definitive merger agreement. WesBanco's offer was the highest value of the three proposals considered. The other two proposals were all stock transactions.

The Fidelity board met again on June 28, 2012 with MHH and representatives of Spidi & Fisch to review the updated expressions of interest received and the Board's fiduciary duties associated with the process being undertaken. Immediately prior to the start of the Fidelity board meeting the second highest bidder contacted MHH and orally increased their offer. It was, however, still not the highest proposal. MHH informed the board of the increased offer and the board considered it.

Based upon these considerations, the board of directors determined to negotiate exclusively with WesBanco, with the understanding that if WesBanco substantially modified its proposal during subsequent negotiations,

Fidelity could resume discussions with the next highest bidder. The board of directors then authorized management to commence negotiations of the terms of a merger between Fidelity and WesBanco. The board of directors discussed the use of a fixed exchange ratio for the stock portion of the merger consideration versus a floating exchange ratio, and WesBanco's strong preference for a fixed exchange ratio. Fidelity's Board concluded that a fixed exchange ratio for the stock portion along with the cash portion of the consideration and the other price protection involving a walkaway right prior to the transaction closing offered an acceptable form of consideration for Fidelity's shareholders. The next highest proposal also included a fixed exchange ratio and was a 100% stock-for-stock transaction.

The proposed transaction was considered, on a preliminary basis, by the board of directors of WesBanco at its meeting held on June 28, 2012, which meeting was attended by representatives of Macquarie. A substantive presentation on the proposed transaction was made by members of the due diligence team and representatives of Macquarie. At the conclusion of the meeting, the executive officers of WesBanco were authorized by the board of directors to proceed with the negotiation of a definitive merger agreement based on the terms of the non-binding letter proposal.

On July 3, 2012, Spidi & Fisch received a draft of the merger agreement from WesBanco's counsel, and the parties began negotiating the terms of the merger agreement and related ancillary documents. Over the ensuing three weeks, representatives of Fidelity and WesBanco management and outside legal advisors and financial advisors worked to finalize the merger agreement and related documents. Among other things, the parties continued to work to finalize provisions of the merger agreement regarding the determination of the exchange ratio, certain covenants of the parties, the conditions to the parties' obligations to complete the transaction, certain employee compensation arrangements, and the contents of Fidelity's disclosure schedules. During this negotiation period, the Fidelity board recommended to WesBanco that President Spencer be considered for the WesBanco board. WesBanco indicated it was agreeable to the recommendation. WesBanco ultimately agreed to fix the exchange ratio at 0.8275, plus \$4.50 in cash which resulted in an aggregate value of common equity of approximately \$72.9 million as of July 19, 2012, based on a value of WesBanco common stock equal to \$21.95 per share, which approximated the average trading price of WesBanco common stock over recent weeks preceding that date.

On July 10, 2012, members of management of Fidelity, together with representatives of MHH and Spidi & Fisch, conducted a due diligence investigation of WesBanco. The due diligence investigation included, among other things, discussions with WesBanco's senior management and review of WesBanco's loan portfolio, securities portfolio and other assets, legal documents and obligations.

At its regular monthly meeting held on July 17, 2012, Fidelity's Board received an update on the status of negotiations between the parties and notice of a special meeting of the board called to be held on July 19, 2012 to review and consider the merger agreement and related ancillary documents. On July 18, 2012, the Fidelity Board received a near-final draft of the merger agreement, the voting agreement, a summary of the merger transaction and its terms and conditions prepared by Spidi & Fisch and related documents.

The merger agreement was considered by the board of directors of WesBanco at a special meeting of the board held on July 18, 2012. A substantive presentation on the proposed transaction was made by members of management and Mr. James C. Gardill, as general counsel for WesBanco. The proposed merger agreement, which had been posted to the director website in advance of the meeting, was approved by the WesBanco board of directors by unanimous vote.

Fidelity's board of directors met on July 19, 2012. Spidi & Fisch presented a summary of the legal terms of the merger agreement that had been negotiated with WesBanco and the shareholder and regulatory approvals that would be required to complete the transaction, including the possible timeframe for obtaining such approvals. Fidelity's board of directors also considered the WesBanco proposal in the light of the constituency provisions of

the Pennsylvania Business Corporation Law, including the impact a merger would have on Fidelity's employees

and the communities in which Fidelity or its subsidiaries operate or are located, and WesBanco's offer to have a member of Fidelity's board of directors become a director of WesBanco.

MHH presented an analysis of the financial terms of the WesBanco proposal, including the transaction value, form of consideration, and dividend impact for Fidelity's shareholders as well as the historical performance of WesBanco's stock, potential effects of the proposed merger on WesBanco, WesBanco's business and financial information, WesBanco's asset and deposit mixes and retail profile, WesBanco's branch network and overlap with Fidelity's branches. MHH's presentation included discussion of the matters described under Proposal No. 1 Proposal to Adopt the Merger Agreement Opinion of Fidelity's Financial Advisor beginning on page 49 of this proxy statement/prospectus. MHH noted that WesBanco's proposal of stock and cash had a value as of July 18, 2012 of \$23.13 per share of Fidelity common stock representing approximately an 83% premium over Fidelity's stock price as of July 18, 2012. MHH further noted that WesBanco's proposal would be significantly accretive to Fidelity's dividends per share.

MHH then delivered to Fidelity's board of directors its oral opinion, subsequently confirmed in writing, that based upon and subject to the factors and assumptions stated in that opinion, as of such date, the merger consideration to be received in respect of each share of Fidelity common stock in the transaction was fair to Fidelity's common shareholders from a financial point of view.

Following these discussions, and extensive review and discussion among Fidelity's directors, including consideration of the factors described below under Proposal No. 1 Proposal to Adopt the Merger Agreement Fidelity's Reasons for the Merger and consideration of MHH's presentation, including MHH's analyses of transaction ratios, the trading history of Fidelity common stock and WesBanco common stock, financial results of comparable companies, selected merger transactions, discounted dividends analysis on a stand-alone basis, and the pro forma impact of the proposed merger, Fidelity's board of directors unanimously approved the WesBanco merger agreement and the transactions contemplated thereby. See Proposal No. 1 Proposal to Adopt the Merger Agreement Opinion of Fidelity's Financial Advisor beginning on page 49 of this proxy statement/prospectus.

Later in the afternoon on July 19, 2012, the parties executed the merger agreement. The transaction was announced by a press release during the evening of July 19, 2012.

Fidelity's Reasons for the Merger

After careful consideration, Fidelity's board of directors determined that the merger is in the best interests of Fidelity and its shareholders. Fidelity's board of directors therefore unanimously recommends that the Fidelity shareholders vote **FOR** the adoption of the merger agreement and approval of the merger.

In reaching the determination to approve the merger, Fidelity's board of directors consulted with Fidelity's senior management, financial advisor and legal advisor, and drew on its knowledge of the business, operations, properties, assets, financial condition, operating results, historical market prices and prospects of Fidelity and WesBanco, as well as current economic and market conditions. In connection with its review and approval of the merger, and in the course of its deliberations, Fidelity's board of directors considered numerous factors that weighed in favor of the merger, including the following:

Merger Consideration. Fidelity's board of directors considered the value of the consideration offered by WesBanco. The consideration, at the time of their decision, represented an approximate 83% premium over the market price of Fidelity's common stock on July 18, 2012. Fidelity's board of directors also considered the adequacy of the merger consideration, not only in relation to the market price of Fidelity's common stock, but also in relation to the historical, present and anticipated future operating results and financial position of Fidelity as an independent entity.

Table of Contents

Fidelity's board of directors considered the price level of WesBanco's common stock in relation to its price level in recent years and in relation to its peers and the possibility that Fidelity shareholders who receive WesBanco common stock in the merger would have the opportunity to participate in future stock price growth of WesBanco.

Fidelity's board of directors also considered the risks and uncertainties in evaluating the merger consideration in view of the potential fluctuation of WesBanco's common stock price given the fixed exchange ratio for the stock portion of the merger consideration, and the period of time between the execution of the merger agreement and the closing.

Strategic Alternatives. Fidelity's board of directors carefully considered the strategic alternatives available to Fidelity, including pursuing a business combination with a third party and maintaining the status quo. In this context, Fidelity's board of directors considered the economic and competitive pressures facing smaller financial institutions, increasing regulatory burdens, the need to make major investments in technology and compliance, and the issues associated with future prospects of raising additional capital necessary to redeem the outstanding shares of Preferred Stock. Fidelity's board of directors discussed these alternatives in its deliberations and received advice from senior management, MHH as its financial advisor and Spidi & Fisch as its special legal counsel. Fidelity's board of directors concluded that the execution of Fidelity's business plan under the best case scenarios was not likely to create greater present value for Fidelity shareholders compared to the value to be paid by WesBanco.

The Sale Process. Fidelity's board of directors considered the extent and breadth of the sale process conducted by Fidelity, with the assistance of MHH and its legal advisors, in soliciting, evaluating and responding to potential bidders likely to be interested in acquiring Fidelity.

MHH's Fairness Opinion and Analysis. Fidelity's board of directors considered the opinion, analyses and presentations of MHH described under the heading "Proposal No. 1 Proposal to Adopt the Merger Agreement Opinion of Fidelity's Financial Advisor." MHH's opinion concluded that the merger consideration offered to Fidelity's common shareholders in the merger was fair from a financial point of view to the holders of such stock.

Future Prospects. Fidelity's board of directors evaluated the business, operations, financial conditions, earnings, management and future prospects of WesBanco and Fidelity and believed that a business combination with WesBanco would enable Fidelity's shareholders to participate in a combined company that would have enhanced future prospects compared to those that Fidelity is likely to achieve on a stand-alone basis. In reaching its conclusion, Fidelity's board of directors took into consideration, among other things, the following benefits of a merger with WesBanco: enhanced revenue, increased market capitalization, a lower cost of capital, stronger capital position, funding capabilities and liquidity position, cost savings through integration and synergies and, as a result, improved capabilities to cope with potential challenges and risks.

Likelihood of Prompt Regulatory Approval. Fidelity's board of directors considered the likelihood that WesBanco and Fidelity would receive the necessary regulatory approvals to complete the transactions contemplated in the merger agreement, including the merger and the bank merger, in a timely fashion.

Terms and Conditions of the Merger Agreement Relating to Closing. Fidelity's board of directors believed the terms and conditions of the merger agreement, including the parties' respective representations and warranties, the conditions to closing and termination provisions, provided adequate assurances as to WesBanco's obligation and ability to consummate the merger in a timely manner, without any extraordinary conditions.

WesBanco's Desire to Appoint a Fidelity Director to WesBanco's Board of Directors. Fidelity's board of directors considered the ability of Fidelity shareholders to retain a voice in management oversight by appointing one of Fidelity's directors to WesBanco's board of directors.

Table of Contents

Merger Consideration. Fidelity's board of directors considered that shareholders of Fidelity would receive both 0.8275 shares of WesBanco stock and \$4.50 in cash in exchange for their shares of Fidelity common stock.

Tax. Fidelity's board of directors expected that the merger will constitute a reorganization under Section 368(a) of the Internal Revenue Code and Fidelity shareholders generally will not recognize any gain or loss for federal income tax purposes on the exchange of shares of Fidelity common stock for shares of WesBanco common stock in the merger, except with respect to any cash received as part of the merger consideration and cash received instead of fractional shares of WesBanco common stock.

Impact on Constituencies. As permitted by the Pennsylvania Business Corporation Law, Fidelity's board of directors considered the effect of the merger on the employees, depositors and customers of Fidelity and on the communities in which Fidelity operates or is located. Fidelity's board of directors believed that WesBanco and Fidelity share a commitment to their customers, employees, shareholders, and the communities both companies serve. Fidelity's board of directors considered that the branch networks of the two banks do not overlap, which is expected to help minimize the job loss resulting from the merger, and that as part of a larger organization Fidelity's employees would have greater career opportunities. Fidelity's board of directors also considered WesBanco's ability to provide a wider array of products, including wealth management, trust and investment services, treasury management and mobile banking, as well as larger lending limits as being beneficial to Fidelity's customers.

In the course of its deliberation regarding the merger, Fidelity's board of directors also considered the following factors, which it determined did not outweigh the expected benefits to Fidelity and its shareholders:

Provisions and Covenants Contained in the Merger Agreement. Fidelity's board of directors considered the restrictions on the operation of Fidelity's business during the period between signing of the merger agreement and completion of the merger, as well as other covenants and agreements of Fidelity contained in the merger agreement. Fidelity's board of directors also considered the provisions of the merger agreement relating to payment of the termination fee upon certain events, and the limitations on Fidelity's ability to discuss alternative transactions during the pendency of the merger. Fidelity's board of directors further considered the requirement that Fidelity must convene a special meeting of common shareholders to vote on the transaction with WesBanco regardless of whether it changes its recommendation unless the merger agreement is terminated.

Completion Risks. Fidelity's board of directors considered the risks and costs associated with the merger not being completed in a timely manner or at all, including as a result of any failure to obtain requisite regulatory approvals. Fidelity's board of directors considered that these risks and costs included the diversion of management and employee attention, potential employee attrition, the potential effect on business and customer relationships and potential litigation brought by shareholders of Fidelity arising from the merger agreement or the transactions contemplated thereby.

Integration Risks. Fidelity's board of directors considered the challenges of combining the businesses, assets and workforces of Fidelity and WesBanco, which could affect the post-merger success and the ability to achieve anticipated cost savings and other potential synergies. Fidelity's board of directors considered the prior experience of WesBanco in integrating its acquisitions.

Insider Interests. Fidelity's board of directors considered the fact that the interests of Fidelity directors and executive officers with respect to the merger may be different from those of other Fidelity shareholders in certain limited circumstances. See Proposal No. 1 Proposal to Adopt the Merger Agreement Interests of Certain Persons in the Merger on page 61.

The reasons set forth above are not intended to be exhaustive, but include the material considerations of Fidelity's board of directors in approving the merger agreement. In reaching its determination to approve and recommend the transaction, Fidelity's board of directors looked at the totality of the information presented to it

Table of Contents

and did not assign any relative or specific weights to the factors considered, and individual directors may have given different weights to different factors. AFTER CONSIDERING, AMONG OTHER THINGS, THE MATTERS DISCUSSED ABOVE AND THE OPINION OF MHH REFERRED TO ABOVE, FIDELITY'S BOARD OF DIRECTORS BELIEVED THAT THE MERGER WAS IN THE BEST INTERESTS OF FIDELITY AND ITS SHAREHOLDERS, AND THEREFORE, UNANIMOUSLY APPROVED AND RECOMMENDS THAT THE FIDELITY SHAREHOLDERS VOTE FOR THE ADOPTION OF THE MERGER AGREEMENT.

It should be noted that this explanation of the reasoning of Fidelity's board of directors (and some other information presented in this section) is forward-looking in nature and, therefore, should be read in light of the factors discussed under the section of this proxy statement/prospectus entitled "Cautionary Statement Regarding Forward-Looking Statements" commencing on page 139.

Opinion of Fidelity's Financial Advisor

In May 2012, Fidelity engaged MHH to render financial advisory and investment banking services to Fidelity. MHH agreed to assist Fidelity in assessing the fairness, from a financial point of view, of the \$4.50 in cash and 0.8275 shares of WesBanco common stock to be paid as consideration for each share of common stock of Fidelity to the holders (subject to certain exceptions) of such Fidelity common stock pursuant to the merger agreement (the "merger consideration"). Fidelity selected MHH on the basis of MHH's experience and expertise in representing community banks in similar transactions.

As part of its engagement, representatives of MHH attended the meeting of the Fidelity Board of Directors held on July 19, 2012, at which the Fidelity Board of Directors evaluated the proposed merger with WesBanco. At this meeting, MHH reviewed the financial aspects of the proposed merger and rendered an opinion that, as of such date, the merger consideration offered to Fidelity common shareholders in the merger was fair, from a financial point of view. The Fidelity Board approved the merger agreement at this meeting.

The full text of MHH's written opinion is attached as *Annex B* to this document and is incorporated herein by reference. Fidelity shareholders are urged to read the opinion in its entirety for a description of the procedures followed, assumptions made, matters considered, and qualifications and limitations on the review undertaken by MHH. The description of the opinion set forth herein is qualified in its entirety by reference to the full text of such opinion.

MHH's opinion speaks only as of the date of the opinion. The opinion is directed to the Fidelity Board and addresses only the fairness, from a financial point of view, to the Fidelity common shareholders of the merger consideration in the proposed merger. It does not address the underlying business decision to proceed with the merger and does not constitute a recommendation to any Fidelity shareholder as to how the shareholder should vote at the Fidelity special meeting on the merger or any related matter.

In rendering its opinion, MHH reviewed, among other things:

the merger agreement;

certain publicly available financial statements and other historical financial information of Fidelity that was deemed relevant;

certain publicly available financial statements and other historical financial information of WesBanco that was deemed relevant;

internal financial projections for Fidelity prepared by and reviewed with management of Fidelity;

publicly available median earnings estimates for WesBanco for 2012, 2013 and 2014;

Table of Contents

the pro forma financial impact of the merger on WesBanco, based on assumptions related to transaction expenses, accounting adjustments, and cost savings determined by and discussed with senior management of WesBanco;

publicly reported historical price and trading activity for Fidelity and WesBanco common stock, including a comparison of certain financial and stock market information for Fidelity and WesBanco with similar publicly traded companies;

the financial terms of certain recent business combinations in the banking industry, to the extent publicly available;

the current market environment generally and the banking environment in particular; and

such other information, financial studies, analyses and investigations and financial, economic and market criteria as we considered relevant.

MHH also held discussions with members of senior management of Fidelity and WesBanco regarding their past and current business operations, regulatory relations, financial conditions, future prospects of their respective companies; and such other matters as they deemed relevant to their opinion.

In conducting its review and arriving at its opinion, MHH relied upon the accuracy and completeness of all financial and other information provided to them or otherwise publicly available. MHH did not independently verify the accuracy or completeness of any such information or assume any responsibility for such verification or accuracy. MHH relied upon the management of Fidelity and WesBanco as to the reasonableness and achievability of the financial and operating forecasts and projections (and the assumptions and bases therefore) provided to MHH, and MHH assumed that such forecasts and projections reflected the best currently available estimates and judgments of such management and that such forecasts and projections will be realized in the amounts and in the time periods estimated by such managements.

MHH assumed, without independent verification, that the aggregate allowance for loan and lease losses for Fidelity and WesBanco are adequate to cover those losses. MHH did not make or obtain any evaluation or appraisals of the property, assets and liabilities of Fidelity and WesBanco, nor did it examine any individual credit files.

The projections furnished to MHH and used by it in certain of its analyses were prepared by Fidelity and WesBanco's senior management teams. Fidelity and WesBanco do not publicly disclose internal management projections of the type provided to MHH in connection with its review of the merger. As a result, such projections were not prepared with a view towards public disclosure. The projections were based on numerous variables and assumptions, which are inherently uncertain, including factors related to general economic and competitive conditions. Accordingly, actual results could vary significantly from those set forth in the projections.

For purposes of rendering its opinion, MHH assumed that, in all respects material to its analyses:

the merger will be completed substantially in accordance with the terms set forth in the merger agreement;

the representations and warranties of each party in the merger agreement and in all related documents and instruments related to the merger agreement are true and correct;

each party to the merger agreement and all related documents will perform all of the covenants and agreements required to be performed by such party under such documents;

all conditions to the completion of the merger will be satisfied without any waivers and modifications; and

Table of Contents

in the course of obtaining the necessary regulatory, contractual, or other consents or approvals for the merger, no restrictions, including any divestiture requirements, termination or other payments or amendments or modifications, will be imposed that will have a material adverse effect on the future results of operations or financial condition of the combined entity or the contemplated benefits of the merger, including the cost savings, revenue enhancements and related expenses expected to result from the merger.

MHH further assumed that the merger will be accounted for using the acquisition method under generally accepted accounting principles, and that the merger will qualify as a tax-free reorganization for United States federal income tax purposes. MHH's opinion is not an expression of an opinion as to the prices at which shares of Fidelity common stock or shares of WesBanco common stock will trade following the announcement of the merger or actual value of the shares of common stock of the combined company when issued pursuant to the merger, or the prices at which the shares of common stock of the combined company will trade following the completion of the merger.

In performing its analyses, MHH made numerous assumptions with respect to industry performance, general business, economic, market and financial condition and other matters, which are beyond the control of MHH, Fidelity and WesBanco. Any estimates contained in the analyses performed by MHH are not necessarily indicative of actual values or future results, which may be significantly more or less favorable than suggested by these analyses. Additionally, estimates of the value of businesses or securities do not purport to be appraisals or to reflect the prices at which such businesses or securities might actually be sold. Accordingly, these analyses and estimates are inherently subject to substantial uncertainty. In addition, the MHH opinion was among several factors taken into consideration by the Fidelity board in making its determination to approve the merger agreement and the merger. Consequently, the analyses described below should not be viewed as determinative of the decision of the Fidelity board with respect to the fairness of the consideration.

The following is a summary of the material analyses presented by MHH to the Fidelity board on July 19, 2012, in connection with its fairness opinion. The summary is not a complete description of the analyses underlying the MHH opinion or the presentation made by MHH to the Fidelity board, but summarizes the material analyses performed and presented in connection with such opinion. The preparation of a fairness opinion is a complex analytic process involving various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances. Therefore, a fairness opinion is not readily susceptible to partial analysis or summary description. In arriving at its opinion, MHH did not attribute any particular weight to any analysis or factor that it considered, but rather made qualitative judgments as to the significance and relevance of each analysis and factor. The financial analyses summarized below include information presented in tabular format. Accordingly, MHH believes that its analyses and the summary of its analyses must be considered as a whole and selecting portions of its analyses and factors or focusing on the information presented below in tabular format, without considering all analyses and factors or the full narrative description of the financial analyses, including the methodologies and assumptions underlying the analyses, could create a misleading or incomplete view of the process underlying its analyses and opinion. The tables alone do not constitute a complete description of the financial analyses.

Summary of Proposal. Pursuant to the terms of the merger agreement, each outstanding share of Fidelity common stock will be converted into the right to receive 0.8275 shares of common stock, par value \$2.0833 per share, of WesBanco and \$4.50 in cash. Based on WesBanco's 15 day average price at the close on July 17, 2012, two days before the announcement of the transaction, of \$22.32, the merger consideration represented a price of \$22.50 per share to Fidelity's common shareholders.

Selected Comparable Companies Analyses. Using publicly available information, MHH compared the financial condition and market performance of Fidelity to selected publicly traded thrifts headquartered in Maryland, New Jersey, Ohio and Pennsylvania with assets between \$300 million and \$2 billion. Additionally, using publicly available information, MHH compared the financial condition and market performance of

WesBanco to selected publicly traded banks headquartered in Maryland, New Jersey, New York, Ohio, Pennsylvania and West Virginia with assets between \$2 and \$10 billion. To perform this analysis, MHH used financial information as of and for the three months ended March 31, 2012, if available. Market price information was as of July 17, 2012. Earnings estimates for 2012 and 2013 were taken from a nationally recognized earnings estimate consolidator for comparable companies. Certain financial data prepared by MHH, and as referenced in the tables presented below may not correspond to the data presented in Fidelity's and WesBanco's historical financial statements, as a result of the different periods, assumptions and methods used by MHH to compute the financial data presented.

Transaction multiples for the merger were evaluated two ways based on the exchange ratio of 0.8275 and \$4.50 cash consideration per share: 1) using the 15 day average closing price of WesBanco's common stock as of July 17, 2012 to arrive at an aggregate offer price of \$22.50 per common share for Fidelity and 2) using the

July 18, 2012 closing price (one day prior to announcement) of WesBanco's common stock to arrive at an aggregate offer price of \$23.13 per common share for Fidelity. For each transaction referred to above, MHH derived and compared, among other things, the implied ratio of price per common share paid for the acquired company to:

the latest closing price one day prior to the announcement of the acquisition (Premium to Market Value);

book value per share of the acquired company based on the latest publicly available financial statements of the company available prior to the announcement of the acquisition;

tangible book value per share of the acquired company based on the latest publicly available financial statements of the company available prior to the announcement of the acquisition;

last-twelve-months earnings per share of the acquired company based on the latest publicly available financial statements of the company available prior to the announcement of the acquisition; and

assets of the acquired company based on the latest publicly available financial statements of the company available prior to the announcement of the acquisition.

The results of the analysis are set forth in the following table:

	WesBanco/ Fidelity Merger (15 day value)	WesBanco/ Fidelity Merger (1 day value):	PA, MD, OH & WV transactions since 6/30/10, assets between \$250mm & \$1bn median:	Pennsylvania transactions since 6/30/10 median:	Western Pennsylvania transactions since 6/30/10 median:

No company or transaction used as a comparison in the above analysis is identical to Fidelity, WesBanco or the merger. Accordingly, an analysis of these results is not mathematical. Instead, it involves complex considerations and judgments concerning differences in financial and operating characteristics of the companies.

Financial Impact Analysis. MHH performed pro forma merger analysis on the combined projected income statement and balance sheet information of Fidelity and WesBanco. Assumptions regarding the accounting treatment, acquisition adjustments and cost savings were used to calculate the financial impact the merger would have on certain projected financial results of WesBanco. In the course of this analysis, MHH used earnings estimates for WesBanco for 2013, 2014 and 2015 from WesBanco's management and used earnings estimates for Fidelity for 2013, 2014 and 2015 from Fidelity's management. This analysis indicated that the merger is expected to be accretive to WesBanco's estimated earnings per share in 2013, 2014 and 2015. The analysis also indicated that the merger is expected to be dilutive to book value per share and tangible book value per share for WesBanco and that WesBanco is expected to maintain well capitalized capital ratios. For all of the above analyses, the actual results achieved by WesBanco following the merger may vary from the projected results, and the variations may be material.

Discounted Dividends Analysis. MHH performed a discounted dividends analysis to estimate a range of the present values of after-tax cash flows that Fidelity could theoretically produce for dividends to equity holders through 2016 on a standalone basis. In performing this analysis, MHH used management's earnings estimates for Fidelity for 2012 through 2015 and applied an earnings growth rate of 5.0% thereafter, and

Edgar Filing: WESBANCO INC - Form 424B3

assumed discount rates ranging from 10.0% to 14.0%. The range of values was determined by adding the present value of projected cash flows to Fidelity shareholders from 2012 through 2016 and the present value of the terminal value of

Table of Contents

Fidelity's common stock. In determining the cash flows available to shareholders, MHH assumed that Fidelity would maintain a tangible common equity to tangible asset ratio of 7.0% and would retain sufficient earnings to maintain that level. Any earnings in excess of what would need to be retained represented dividendable cash flows for Fidelity. In calculating the terminal value of Fidelity, MHH applied multiples ranging from 10.0 to 14.0 times 2016 projected earnings. This resulted in a range of values for Fidelity from \$7.33 to \$11.76 per share. In addition, MHH applied premiums ranging from 100% to 140% of 2016 projected tangible book value. This resulted in a range of values for Fidelity from \$8.97 to \$14.60 per share. The discounted dividends present value analysis is a widely used valuation methodology that relies on numerous assumptions, including growth rates, terminal values and discount rates. The analysis did not purport to be indicative of the actual values or expected values of Fidelity.

MHH, as part of its investment banking services, is regularly engaged in the independent valuation of businesses and securities in connection with mergers, acquisitions, private placements and valuations for corporate and other purposes. Fidelity and MHH have entered into an agreement whereby MHH has acted as financial advisor to Fidelity in connection with the merger. Fidelity has paid MHH a fee of \$50,000 upon the execution of the engagement agreement and a fee of approximately \$250,000 upon the execution of the definitive agreement and plan of merger. Additionally, Fidelity has agreed to pay MHH a Contingent Fee at the time of closing which is estimated to be approximately \$998,850, against which both fees previously paid will be credited. In addition, Fidelity has agreed to reimburse MHH for reasonable out-of-pocket expenses and disbursements incurred in connection with its retention and to indemnify MHH for certain liabilities arising out of its engagement. During the two years preceding the date of its opinion to Fidelity MHH has not received compensation (other than the \$50,000 engagement retainer fee from Fidelity in connection with the merger) for investment banking services from either Fidelity or WesBanco.

Opinion of WesBanco's Financial Advisor

Macquarie rendered its opinion to WesBanco's Board of Directors that, as of July 19, 2012, and based upon and subject to the factors and assumptions set forth therein, the merger consideration was fair, from a financial point of view, to WesBanco.

The text of Macquarie's written opinion, dated July 19, 2012, is attached as *Annex C* to this document and is incorporated herein by reference.

Macquarie's opinion speaks only as of the date of the opinion. Macquarie's opinion is directed to WesBanco and addresses only the fairness, from a financial point of view, to WesBanco of the consideration to be paid in the merger. Macquarie's written opinion does not, in any way, address the fairness of the merger consideration to the Fidelity shareholders and accordingly, should not in any way be relied upon by the shareholders of Fidelity for any purpose in their consideration of the advisability of the merger.

In rendering its opinion, Macquarie reviewed, among other things:

a draft of the merger agreement dated July 19, 2012, which Macquarie assumed was in substantially final form and would not vary in any respect material to its analysis;

certain publicly available business and financial information relating to Fidelity, WesBanco and their respective subsidiaries that Macquarie deemed to be relevant;

certain non-public internal financial statements and other non-public financial and operating data relating to Fidelity, WesBanco and their respective subsidiaries that were prepared and provided to Macquarie by the management of Fidelity and/ or WesBanco; and

certain financial projections relating to Fidelity, WesBanco and their respective subsidiaries that were provided to or discussed with Macquarie by the management of Fidelity and/ or WesBanco;

discussed the past and current operations, financial projections, current financial condition and prospects of Fidelity and WesBanco with the respective management teams of Fidelity and WesBanco;

reviewed the financial terms of certain publicly available transactions in the industry in which Fidelity operates that Macquarie deemed relevant; and

performed such other analyses and examinations and considered such other factors that Macquarie deemed appropriate.

For purposes of its analysis and opinion, Macquarie assumed and relied upon, without undertaking responsibility for independently verifying, the accuracy and completeness of the information reviewed by Macquarie or reviewed for Macquarie, as well as the due authorization, execution and enforceability of the merger agreement. With respect to the financial projections which were furnished to or discussed with Macquarie, Macquarie assumed that such financial projections were reasonably prepared on bases reflecting the best then currently available estimates and good faith judgments of the future competitive, operating and regulatory environments and related financial performance of Fidelity or WesBanco, as applicable. Macquarie expressed no view as to any such financial projections or the assumptions on which they are based.

For purposes of rendering its opinion, Macquarie assumed, with WesBanco's consent, that:

the representations and warranties of each party contained in the merger agreement are true and correct;

each party will perform all of the covenants and agreements required to be performed by it under the merger agreement and that all conditions to the consummation of the merger will be satisfied without waiver or modification thereof;

the draft of the merger agreement dated July 19, 2012 was in substantially final form and that the final execution version of the merger agreement would not vary from this draft in any respect material to Macquarie's analysis; and

all governmental, regulatory or other consents, approvals or releases necessary for the consummation of the merger will be obtained without any delay, limitation, restriction or condition that would have an adverse effect on Fidelity, WesBanco or the consummation of the merger.

Macquarie did not make, nor assume any responsibility for making, any independent valuation or appraisal of the assets or liabilities (contingent or otherwise) of Fidelity, WesBanco or any of their respective subsidiaries, nor was Macquarie furnished with any such appraisals. In addition, Macquarie did not evaluate the solvency or fair value of Fidelity, WesBanco or any of their respective subsidiaries under any state or federal laws relating to bankruptcy, insolvency or similar matters. Macquarie's opinion is necessarily based on economic, market and other conditions as in effect on, and the information made available to Macquarie as of, July 19, 2012. Subsequent developments may affect Macquarie's opinion and Macquarie does not have any obligation to update, revise or reaffirm its opinion.

Macquarie was not asked to pass upon, and expressed no opinion with respect to, any matter other than whether, as of July 19, 2012, the merger consideration to be paid by WesBanco is fair, from a financial point of view, to WesBanco. Macquarie did not express any view on, and Macquarie's opinion does not address (i) the advisability of any other transaction that WesBanco may be considering at the time the opinion was rendered or the effect of any such transaction on WesBanco's current or future financial condition or results of operations or (ii) any other term or aspect of the merger agreement or the merger, or any agreement or instrument contemplated by the merger agreement or entered into or amended in connection with the merger. In addition, Macquarie did not express any view on, and its opinion does not address, the fairness of the merger to the holders of any class of securities of Fidelity, creditors of WesBanco or Fidelity or other constituencies of WesBanco or the fairness of the amount or nature of any compensation to be paid or payable to any of the officers, directors or employees of WesBanco or Fidelity, or class of such persons, in connection with the merger, whether relative to

the merger consideration or otherwise. Macquarie's opinion does not address the relative merits of the merger as compared to other business or financial strategies that might be available to WesBanco or any other party to the merger, nor does it address the underlying business decision of WesBanco, or any other party to the merger, to engage in the merger. Macquarie is not a legal, regulatory, accounting or tax expert and has assumed the accuracy and completeness of assessments by WesBanco, any other party to the merger, their respective affiliates and their respective advisors with respect to legal, regulatory, accounting and tax matters. Macquarie's opinion was approved and authorized for issuance by a fairness opinion review committee of Macquarie.

Summary of Analyses by Macquarie

The following is a summary of the material financial analyses delivered by Macquarie to WesBanco's board of directors in connection with rendering the opinion described above. The following summary, however, does not purport to be a complete description of the financial analyses performed by Macquarie, nor does the order of the analyses described represent relative importance or weight given to those analyses by Macquarie. Some of the summaries of the financial analyses include information presented in tabular format. The tables must be read together with the full text of each summary and are alone not a complete description of Macquarie's financial analyses. Considering the data in the tables below without considering the full narrative description of the financial analyses, including the methodologies and assumptions underlying the analyses, could create a misleading or incomplete view of the financial analyses of Macquarie. Except as otherwise noted, the following quantitative information, to the extent that it is based on market data, is based on market data as it existed on or before July 18, 2012 (the last practicable trading day prior to the date that Macquarie delivered its opinion to WesBanco's board of directors) and is not necessarily indicative of current market conditions.

Selected Peer Group Analysis: Using publicly available information, Macquarie compared the financial performance, financial condition, and market performance of Fidelity to the following depository institutions that Macquarie considered comparable to Fidelity (the Fidelity Peer Group):

Selected Transaction Analysis: Macquarie reviewed publicly available information related to (i) transactions involving banks in Pennsylvania, West Virginia and Ohio greater than \$20 million in transaction value since 2010 where the Texas Ratio was less than 100% and (ii) all transactions since 2010 where the transaction value was between \$50 million and \$1.5 billion and the target was in the Midatlantic or Northeast regions with a Texas Ratio less than 100%. The Texas Ratio is a commonly accepted methodology for analyzing the strength of the bank and is calculated by taking a bank's non-performing assets and loans, as well as loans delinquent for more than 90 days, and dividing this number by the bank's tangible capital equity plus its loan loss reserves. The transactions included in this analysis were:

For each precedent transaction, Macquarie derived and compared, among other things, the implied ratio of price per common share paid for by the acquired company to tangible book value per share of the acquired company based on the latest financial statements of the company publicly available prior to the announcement of the acquisition and book value per share of the acquired company based on the latest financial statements of the company publicly available prior to the announcement of the merger. Additionally, for each precedent transaction, Macquarie derived and compared the premium paid in aggregate consideration over tangible book value to core deposits which were defined as total deposits less jumbo CDs.

Table of Contents

Transaction multiples for the merger were derived from the \$22.50 per share transaction value based on (i) WesBanco's average price of \$21.75 for the 15 days prior to the signing of the merger agreement and (ii) financial data as of March 31, 2012 for Fidelity. Macquarie then compared these results with announced multiples for the selected transactions. The selected transaction analysis was also highly influenced by S&T Bancorp's acquisition of Gateway Bank of Pennsylvania and F.N.B Corporation's acquisition of Parkvale Financial Corporation, the two most recent transactions involving a target that competes in Fidelity Bancorp's deposit markets. The results of this analysis are set forth in the following table:

	WesBanco / Fidelity (1)	Selected Multiple High (2)	Selected Multiple Low (3)	S&T Bancorp/ Gateway Bank of PA	F.N.B Corp/ Parkvale Financial Corp
Price/Tangible Book Value	1.62x	2.0x	1.4x	1.4x	2.0x

Core Deposit Premium	6.60%	10.2%	6.1%	10.2%	5.2%

(1) Calculated for the three month period ended March 31, 2012.

(2) Represents the higher value of either S&T Bancorp, Inc.'s acquisition of Gateway Bank of Pennsylvania or F.N.B. Corporation's acquisition of Parkvale Financial Corporation.

(3) Calculated by taking the median of the selected precedent transactions.

No company or transaction used as a comparison in the above analysis is identical to WesBanco, Fidelity, or the proposed merger. Accordingly, an analysis of these results is not mathematical. Rather, it involves complex considerations and judgments concerning differences in financial and operating characteristics of the companies.

Discounted Cash Flow Analysis: Macquarie performed a discounted cash flow analysis to estimate a range for the implied equity value per share of Fidelity common stock. In this analysis, Macquarie assumed discount rates ranging from 11.0% to 13.0% to derive (i) the present value of the estimated free cash flows that Fidelity could generate over the period beginning December 2012 and ending in December 2017 and (ii) the present value of Fidelity's terminal value at the end of 2017. Terminal values for Fidelity were calculated based on a range of 11.0x to 13.0x estimated 2018 earnings per share. Macquarie analyzed three discounted cash flow scenarios based on three different forecasts for Fidelity provided by Fidelity management and adjusted based on guidance from WesBanco management, both with and without synergies and earnings adjustments from the merger:

Standalone Projections: In the first scenario, Macquarie computed the net present value of Fidelity using standalone projections based on the budget provided by Fidelity management and adjusted based on guidance from WesBanco management. Based on this analysis, Macquarie derived a range of implied equity values per share of Fidelity common stock of \$12.91 to \$14.80.

Pro Forma Projections Without Synergies: In the second scenario, Macquarie computed the net present value of Fidelity by adjusting the Standalone Projections to include certain restructuring charges anticipated by WesBanco to result from the merger. The adjustments also included certain purchase adjustments to fair value to Fidelity's assets and liabilities and their accretion and amortization based on guidance from WesBanco. Based on this analysis, Macquarie derived a range of implied equity values per share of Fidelity common stock of \$10.69 to \$12.57.

Pro Forma Projections With Synergies: In the third scenario, Macquarie computed the net present value of Fidelity by adjusting the Pro Forma Projections discussed in the second scenario to include certain expenses and cost savings forecasted as a result of the merger and other synergies based on guidance from WesBanco. Based on this analysis, Macquarie derived a range of implied equity values per share of Fidelity common stock of \$22.99 to \$26.31.

Table of Contents

Implied Fidelity Equity Value per Share Range

	Standalone Projections	Pro Forma Projections Without Synergies	Pro Forma Projections With Synergies
Low	\$ 12.91	\$ 10.69	\$ 22.99
High	\$ 14.80	\$ 12.57	\$ 26.31

The discounted cash flow analysis is a widely used valuation methodology, but the results of such methodology are highly dependent on the assumptions that must be made, including asset and earnings growth rates, terminal values, dividend payout rates, and discount rates. The analysis did not purport to be indicative of the actual values or expected values of Fidelity common stock.

Forecasted Pro Forma Financial Analysis: Macquarie analyzed the estimated financial impact of the merger on WesBanco's 2013, 2014, and 2015 estimated earnings per share. For both WesBanco and Fidelity, Macquarie used earnings estimates based on projections provided by management of each company, respectively. In addition, Macquarie assumed that the merger will result in cost savings equal to management's estimates. Based on its analysis, Macquarie determined that the merger would be accretive to WesBanco's earnings per share in 2013, excluding restructuring charges and merger-related expenses.

Furthermore, the analysis indicated that WesBanco's Leverage Ratio, Tier 1 Risk-Based Capital Ratio, and Total Risk-Based Capital Ratio would all remain above regulatory minimums for well capitalized institutions. This analysis was based on internal projections provided by WesBanco's and Fidelity's senior management teams. For all of the above analysis, the actual results achieved by WesBanco following the merger may vary from the projected results, and the variations may be material.

WesBanco's Board of Directors selected Macquarie as its financial advisor because Macquarie is an internationally recognized investment banking firm that has substantial experience in transactions similar to the transactions contemplated by the merger agreement. Pursuant to a letter agreement dated as of June 22, 2012, WesBanco engaged Macquarie to act as its financial advisor in connection with the contemplated transaction. Pursuant to the terms of this engagement letter, WesBanco has agreed to pay Macquarie a transaction fee of \$750,000, a significant portion of which is contingent upon the consummation of the merger. In addition, WesBanco has agreed to reimburse certain of Macquarie's expenses and to indemnify Macquarie against certain liabilities arising out of its engagement. In the ordinary course of business, Macquarie or its affiliates may actively trade in the debt and equity securities, or options on securities, of WesBanco or any other company that may be involved in the merger, for its own account and for the accounts of its customers and, accordingly, may at any time hold a long or short position in such securities. In addition, Macquarie and its affiliates may have in the past provided, may be currently providing and in the future may provide, financial advisory services to WesBanco, Fidelity or their respective affiliates, for which Macquarie or such affiliates have received, and would expect to receive, compensation. Specifically, in the past two years, Macquarie served as a financial advisor to WesBanco in relation to its bid to acquire another financial institution, receiving an aggregate amount of \$59,295.64 from WesBanco for such services.

Interests of Certain Persons in the Merger

In considering the recommendation of the Fidelity board of directors with respect to the merger agreement, Fidelity shareholders should be aware that certain persons, including some of the directors and executive officers of Fidelity, have interests in the merger that are in addition to their interests as shareholders of Fidelity generally. The Fidelity board of directors was aware of these interests as well as others and considered them in adopting the merger agreement and the transactions contemplated thereby. As described in more detail below, these interests include certain payments and benefits that may be provided to the executive officers upon completion of the merger, including enhanced cash severance and continued medical, life and disability insurance benefits. The

Table of Contents

dates and share prices used below to quantify these interests have been selected for illustrative purposes only. They do not necessarily reflect the dates on which certain events will occur and do not represent a projection about the future value of Fidelity common stock.

Cash Payment for Outstanding Options. Under the terms of the merger agreement, all Fidelity stock options that are outstanding and unexercised at the time of the merger, whether or not vested, will be cancelled, and in lieu thereof the holders of such options will be paid in cash an amount equal to the product of (i) the number of shares of Fidelity common stock subject to such option at the closing and (ii) an amount equal to the excess, if any, of \$22.50 over the exercise price per share of such option, net of any cash which must be withheld under federal and state income and employment tax requirements.

Acceleration of Vesting of Restricted Stock Awards. Under the terms of the merger agreement, unless any shares of Fidelity TARP Preferred Stock are held by the U.S. Treasury at the time of completion of the merger, each outstanding share of Fidelity restricted stock that is outstanding immediately prior to the completion of the merger, will vest in full immediately upon completion of the merger and will be converted into the right to receive \$22.50 per share, without interest, subject to applicable tax withholding. Mr. Spencer holds 5,647 restricted stock shares as of the date of this proxy statement/prospectus which will become vested as a result of the merger. For information on the alternative treatment of Mr. Spencer's restricted stock in the event the U.S. Treasury holds Fidelity TARP Preferred Stock at the completion of the merger, please see Proposal No. 1 Proposal to Adopt the Merger Agreement Treatment of Fidelity Restricted Stock beginning on page 41.

Existing Employment Agreements. Fidelity and Fidelity Savings Bank previously entered into employment agreements with President and Chief Executive Officer Richard G. Spencer and Executive Vice President and Chief Lending Officer Michael A. Mooney. The employment agreements have a term of 36 months. Prior to the date that is 45 days prior to the annual anniversary of the date of the agreements, the board of the directors of Fidelity shall consider all relevant factors, including the executive's performance, and if appropriate approve an extension of the term of the agreements for an additional twelve months, so that the remaining term shall be 36 months. If an agreement is not renewed, the agreement will expire two years following the anniversary date. The agreements provide for a minimum base salary of \$225,000 per year for Mr. Spencer and \$165,000 per year for Mr. Mooney, which may be increased from time to time in such amounts as may be determined by the board of directors of Fidelity. For the fiscal year ended September 30, 2011, the base salaries for Mr. Spencer and Mr. Mooney were \$239,130 and \$176,093, respectively. In addition, the executive may receive bonus payments as determined by the board of directors of Fidelity, subject to compliance with applicable law. In addition to base salaries and bonuses, the agreements provide for, among other things, insurance benefits and participation in other employee and fringe benefits applicable to executive personnel. The agreements provide for termination of the employment of the executive by Fidelity for cause at any time.

The employment agreements also provide for certain payments to the executives in the event Fidelity terminates the executive's employment during the term of the agreement for reasons other than cause, disability, retirement or death, each as defined in the agreements, or if the executive terminates his employment due to a material breach of the agreement by Fidelity and as of the date of termination no change in control of Fidelity has occurred, no written agreement which contemplates a change in control of Fidelity and which still is in effect has been entered into by Fidelity and no discussions and/or negotiations are being conducted which relate to the same. In such event, Fidelity will maintain and provide to the executive or, in the event of death, his beneficiary, severance pay in an amount equal to his base salary as of his date of termination and also, for a period of twelve months or the date of the executive's full-time employment by another employer, continued participation in all group insurance, life insurance, health and accident, disability and other employee benefit plans, programs and arrangements at no cost to the executive.

Upon a change in control of Fidelity, the executive will be entitled to an aggregate cash severance amount in a lump sum equal to 2.99 times the executive's average annual compensation included in the executive's gross income for the five taxable years ending before the date on which the date of termination occurs. In addition, the

Table of Contents

executive will also, for a period ending at the earlier of thirty-six months or the date of the executive's full-time employment by another employer, be entitled to continued participation in all group insurance, life insurance, health and accident, disability and other employee benefit plans, programs and arrangements at no cost to the executive. The agreements provide that the executives will have any payments reduced by the amount necessary to avoid having an excess parachute payment under Section 280G of the Code. At September 30, 2012, Messrs. Spencer and Mooney would have been entitled to payments of approximately \$706,998 and \$519,148, respectively, in the event of their termination in connection with a change in control. Fidelity, however, is prohibited from making severance payments to Messrs. Spencer and Mooney during the period in which it has received an investment under the TARP Capital Purchase Program.

Existing Change in Control Agreements. Fidelity Savings Bank entered into change in control agreements with Senior Vice Presidents Lisa L. Griffith, Sandra L. Lee, Anthony F. Rocco and Richard L. Barron effective January 2009. The change in control agreements provide for a term of 36 months, and may be extended by the board of directors of Fidelity Savings Bank annually on the anniversary date for an additional twelve months, so that the remaining term shall be 36 months, upon a determination and resolution of the board of directors of Fidelity Savings Bank that the performance of the employee has met the requirements and standards of the board of directors. If an agreement is not renewed, the agreement will expire two years following the anniversary date.

The change of control agreements provide for severance payments and other benefits in the event employment with Fidelity Savings Bank is (A) involuntarily terminated upon a change in control of Fidelity Savings Bank or Fidelity, absent just cause, as defined in the agreement, in connection with, or within twenty-four months after, a change in control, or (B) terminated voluntarily by the employee, for any reason, within twelve months following a change in control. A change in control is defined to include any of the following: (i) the sale of all, or a material portion, of the assets of the Fidelity Savings Bank or Fidelity, (ii) the merger or recapitalization of Fidelity Savings Bank or Fidelity, whereby Fidelity Savings Bank or Fidelity is not the surviving entity, (iii) a change in control of Fidelity Savings Bank or Fidelity, as otherwise defined or determined by the Pennsylvania Department of Banking or the Federal Reserve Board or regulations promulgated by such agencies, or (iv) the acquisition, directly or indirectly, of the beneficial ownership of 25% or more of the outstanding voting securities of Fidelity Savings Bank or Fidelity by any person, trust, entity or group. Just cause is defined to include termination because of the employee's personal dishonesty, incompetence, willful misconduct, breach of fiduciary duty involving personal profit, intentional failure to perform stated duties, willful violation of any law, rule or regulation (other than traffic violations or similar offenses) or final cease-and-desist order of an applicable banking regulator, or material breach of the agreement.

In the event of termination as described above, the employee will be paid an amount equal to two hundred percent of the taxable compensation paid to the employee by Fidelity Savings Bank during the most recently completed calendar year prior to such termination of employment or the date of change in control, whichever is greater, and be provided continued participation in Fidelity Savings Bank's medical and dental insurance plans for a period of one year. The agreements provide that the employees will have any payments reduced by the amount necessary to avoid having an excess parachute payment under Section 280G of the Code. At September 30, 2012, Ms. Griffith, Ms. Lee, Mr. Rocco and Mr. Barron would have been entitled to payments of approximately \$279,280, \$220,828, \$217,908 and \$210,774, respectively, in the event of a termination in connection with a change in control. Fidelity, however, is prohibited from making severance payments to the employees during the period in which it has received an investment under the TARP Capital Purchase Program.

Pension Benefits. We maintain a Supplemental Executive Retirement Plan (SERP) for selected officers, including Messrs. Spencer and Mooney and Ms. Griffith. The SERP provides the participants with a target retirement benefit at age 65 of 70% of the final projected base salary in effect at that time, reduced by estimated Social Security payments to be received and the value of the other Fidelity-sponsored retirement plans, the 401(k) Savings Plan and the ESOP. Benefits are payable for a 15-year period. The executive becomes vested and eligible for an early retirement benefit after completing 15 years of service. Mr. Spencer is currently vested in a

Table of Contents

normal retirement benefit of \$72,090 per annum and Mr. Mooney is currently vested and eligible for an early retirement benefit of \$41,431 per annum payable in the form of 180 monthly payments. Annual benefits payable to Messrs. Spencer and Mooney and Ms. Griffith upon their normal retirement at age 65 are \$70,000, \$84,000 and \$60,000, respectively. The SERP also provides for a lump sum payment to Ms. Griffith upon a change in control. As of September 30, 2012, the amount payable under the occurrence of a change in control to Ms. Griffith is approximately \$71,006.

Non-Competition and Consulting Agreements. WesBanco has offered to enter into a one-year non-competition agreement and a three-year consulting agreement with Mr. Spencer. The non-competition agreement provides that for a period of at least one year following the effective date of the merger, Mr. Spencer will not engage in any activities which compete with WesBanco. The consulting agreement provides that Mr. Spencer will provide certain consulting services to WesBanco in connection with the integration of Fidelity with WesBanco and aspects of the greater Pittsburgh, Pennsylvania market. Mr. Spencer will be paid an aggregate of \$200,000 for entering into these agreements. A similar non-compete agreement will be offered to Mr. Mooney in exchange for a payment of \$100,000.

Summary of Golden Parachute Arrangements

The following table sets forth the aggregate dollar value of the various elements of compensation that each named executive officer of Fidelity would receive that is based on or otherwise relates to the merger, assuming the following:

the merger closed on September 30, 2012, the last practicable date prior to the date of this proxy statement/prospectus;

the employment of Messrs. Spencer and Mooney and Ms. Griffith had been terminated without cause immediately following the closing of the merger on September 30, 2012;

the projected costs of providing continued life, health, and accident insurance coverage is based on current premiums;

WesBanco and Messrs. Spencer and Mooney and Ms. Griffith take actions to avoid any non-deductibility of payments and penalties that would be imposed by Section 280G. Pursuant to the employment agreements of Messrs. Spencer and Mooney and the change in control severance agreement of Ms. Griffith, absent these actions to avoid Section 280G implications the payments they would otherwise be entitled to would be reduced to below the Section 280G limits pursuant to the terms of those agreements; and

WesBanco and Mr. Spencer take actions to avoid non-deductibility of payments pursuant to Section 162(m) of the Code, as modified by the Emergency Economic Stabilization Act of 2008 and the American Recovery and Reinvestment Act of 2009.

Any changes in these assumptions or estimates would affect the amounts shown in the following table.

Golden Parachute Compensation

Name	Cash ⁽¹⁾	Equity ⁽²⁾	Pension/ NQDC ⁽³⁾	Perquisites/ Benefits ⁽⁴⁾	Other ⁽⁵⁾	Total ⁽⁶⁾
Richard G. Spencer	\$ 706,998	\$ 303,140	\$ 43,346	\$ 93,698	\$ 200,000	\$ 1,347,182
Michael A. Mooney	\$ 519,148	\$ 128,303	\$ 30,264	\$ 67,770	\$ 100,000	\$ 845,485
Lisa L. Griffith	\$ 279,280	\$ 96,257	\$ 71,006	\$ 8,804	\$ 0	\$ 455,347

- (1) For Mr. Spencer and Mr. Mooney, in the event of his involuntary termination of employment or voluntary termination for good reason within 24 months following a change in control transaction, each will receive a

Table of Contents

cash payout equal to 2.99 times his five year average taxable compensation. For Ms. Griffith, the severance amount is equal to 2 times her taxable compensation for the most recently-completed calendar year. If the merger closes during 2012, such cash payout is estimated as set forth in this column, subject to adjustment based upon certain restrictions and limitations in accordance with Section 280G of the Code.

- (2) Includes Restricted Stock awards which will accelerate vesting upon a change in control: Spencer 5,647 shares. This column assumes that such shares will be cashed out at \$22.50 per share at the merger closing. This column also includes payments in cancellation of stock options equal to the difference of \$22.50 and the option exercise price for total option cancellation payments of: Spencer \$176,083, Mooney \$128,303 and Griffith \$96,257.
- (3) Mr. Spencer and Mr. Mooney are eligible to receive retirement benefits under the Fidelity Salary Continuation Plan upon termination of employment at any time. There is no acceleration of vesting with respect to the merger transaction. Retirement benefits will be paid in the form of 180 monthly payments at the rate of \$72,090 per annum for Mr. Spencer and \$41,431 per annum for Mr. Mooney following termination of employment assumed to be at December 31, 2012.

For Ms. Griffith, assuming a termination of employment related to a change in control transaction as of December 31, 2012, the accelerated vesting of the retirement benefit is equal to a one-time lump-sum payment of \$71,006.

In addition, for Mr. Spencer and Mr. Mooney, retirement income enhancements in accordance with the terms of their employment agreements will be three years of continued benefits under the ESOP and 401(k) Plan as follows:

	ESOP	401(k)
Richard G. Spencer	\$ 22,417	\$ 20,929
Michael A. Mooney	16,667	13,597

- (4) For Ms. Griffith, represents the cost of continuation of medical and dental benefits for 18 months. For Mr. Spencer and Mr. Mooney, both are eligible to receive continued participation in all group insurance, life insurance, health and accident, disability and other employee plans, programs and arrangements (other than stock options and restricted stock plans) for a period of thirty-six months following termination of employment following a change in control. The 36 month cost for such benefit plan continuations are as follows.

	Club Dues	Health	Dental	Vision	LTD	Group Life	Supplemental Medical
Richard G. Spencer	\$ 17,685	\$ 46,871	\$ 2,031	\$ 570	\$ 1,584	\$ 1,944	\$ 23,013
Michael A. Mooney		46,871	2,031	570	1,584	1,944	14,770

- (5) Includes payments to Mr. Spencer of \$200,000 from WesBanco related to entering into a three-year consulting agreement with WesBanco and a non-competition agreement for the period of one year following the completion of the merger and a payment to Mr. Mooney of \$100,000 for a similar non-competition agreement. In addition, Mr. Spencer and Mr. Mooney are each vested in a post-retirement life insurance benefit of \$400,000 and \$300,000, respectively, plus they each shall receive payment annually equal to the taxes due by them attributable to such insurance benefit. This benefit is not related to a change in control transaction.
- (6) The total amount payable to each listed individual is subject to reduction in the event that such amount detailed as payable as cash in accordance with the respective employment agreement or change in control severance agreement is reduced based upon certain restrictions and limitations in accordance with Section 280G of the Internal Revenue Code.

Employee Severance Benefits. Pursuant to the merger agreement, WesBanco has agreed to use commercially reasonable efforts to continue the employment of at least a majority of the employees of Fidelity and its subsidiaries after the merger. Any employees who are not offered the opportunity to continue as employees after

the merger or who are terminated without cause within one year after the effective time of the merger, in the case

Table of Contents

of (1) and (3) below, or who are terminated without cause within ninety (90) calendar days after the effective time of the merger, in the case of (2) below, will be entitled to receive:

- (1) severance payments based on the number of years worked and the employee's weekly rate of pay;
- (2) certain outplacement consultation services at a cost not to exceed \$1,500 per employee; and/or
- (3) accrued benefits, including vacation pay, through the date of termination of employment.

Board of Directors Appointments. Pursuant to the merger agreement, Richard G. Spencer, Fidelity's President and Chief Executive Officer, will be appointed to the board of directors of WesBanco. Mr. Spencer will serve until the next meeting of WesBanco's shareholders and will be nominated for election to the WesBanco board at that shareholder meeting and subsequent shareholder meetings until he has served a three-year term. In addition, each member of the Fidelity board of directors at the effective time of the merger, will be appointed to a newly-created advisory board for WesBanco Bank for the greater Pittsburgh, Pennsylvania market. Each advisory board member will serve for at least one year and, except for Mr. Spencer, will receive the same annual compensation they received for service on the Fidelity board of directors for the fiscal year ended September 30, 2011. In the event a vacancy should arise on the WesBanco board of directors within one year after the effective time of the merger, WesBanco will consider for nomination, but not be obligated to nominate, a member of the greater Pittsburgh advisory board.

Indemnification. WesBanco has agreed that it will, following the effective time of the merger for a period of six years, indemnify, defend, and hold harmless the current and former directors and officers of Fidelity against all costs, expenses, claims, damages, or liabilities arising out of actions or omissions occurring at or prior to the effective time of the merger to the fullest extent permitted by applicable law, including provisions relating to advances of expenses. The merger agreement further provides that WesBanco will obtain six years of extended liability insurance to provide for continued coverage of Fidelity's directors and officers with respect to matters occurring prior to the effective time of the merger, subject to a cap that limits the amount that WesBanco must expend for such liability insurance to no more than an aggregate of \$100,000.

Ownership by Fidelity Officers and Directors. As of the record date, directors and officers of Fidelity beneficially owned, in the aggregate, 520,820 shares of Fidelity common stock, including options, representing approximately 16.01% of the outstanding shares of Fidelity common stock. Directors and officers of Fidelity will be treated the same as other Fidelity shareholders.

Regulatory Approvals

Completion of the merger and the bank merger are each subject to certain federal and state bank regulatory agency filings and approvals. WesBanco and Fidelity cannot complete the merger and the bank merger unless and until WesBanco and Fidelity receive all necessary prior approvals from the applicable bank regulatory authorities. WesBanco and Fidelity have agreed to use their best efforts to obtain all such necessary prior approvals required to consummate the transactions contemplated by the merger agreement. Neither WesBanco nor Fidelity can predict whether or when WesBanco and Fidelity will obtain the required regulatory approvals, waivers or exemptions necessary for the merger of WesBanco with Fidelity and the merger of WesBanco Bank with Fidelity Savings Bank.

Federal Deposit Insurance Corporation. The bank merger is subject to the approval by the Federal Deposit Insurance Corporation (FDIC) under the Bank Merger Act. In granting its approval under the Bank Merger Act, the FDIC must consider, among other factors, the competitive effect of the merger, the managerial and financial resources and future prospects of the merging banks, the effect of the merger on the convenience and needs of the communities to be served, including the records of performance of the merging banks in meeting the credit needs of the communities under the Community Reinvestment Act, the effectiveness of the merging banks

Table of Contents

in combating money laundering activities, and the risk that would be posed by the merger to the stability of the United States banking or financial system. Applicable regulations require publication of notice of the application and an opportunity for the public to comment on the application in writing. WesBanco filed the requisite bank merger application with the FDIC on August 17, 2012.

The bank merger (the completion of which is not a condition to the merger) may not be consummated until 30 days after the approval of the FDIC (or such shorter period as the FDIC may prescribe with the concurrence of the United States Department of Justice, but not less than 15 days), during which time the Department of Justice may challenge the bank merger on antitrust grounds.

Federal Reserve Board. The merger requires the approval of the Federal Reserve Board pursuant to the Bank Holding Company Act of 1956, as amended, unless the Federal Reserve Board is willing to grant a waiver pursuant to its regulations allowing for such waivers. WesBanco intends to file a request for such waiver and believes that the transaction qualifies for such a waiver procedure. If a waiver is not received, the Federal Reserve Board will also consider factors such as financial and managerial resources, future prospects, the convenience and needs of the community and competitive factors. In such case, the merger may not be consummated until 30 days after the approval of the Federal Reserve Board (or such shorter period as the Federal Reserve Board may prescribe with the concurrence of the United States Department of Justice, but not less than 15 days), during which time the Department of Justice may challenge the merger on antitrust grounds.

The commencement of an antitrust action by the Department of Justice would stay the effectiveness of the Federal Reserve Board or FDIC approval, as the case may be, unless a court specifically orders otherwise. In reviewing the merger and the bank merger, the Department of Justice could analyze the merger's effect on competition differently than the Federal Reserve Board and the FDIC, and it is possible that the Department of Justice could reach a different conclusion than the applicable banking regulator regarding the merger's (or the bank merger's) competitive effects.

West Virginia Division of Financial Institutions. Both the merger and the bank merger require the approval of the West Virginia Division of Financial Institutions. WesBanco filed the requisite application for approval of the merger and the bank merger with the West Virginia Division of Financial Institutions and received such approval by an Order dated October 1, 2012.

Pennsylvania Department of Banking. The merger also requires the approval of the Pennsylvania Department of Banking under the Pennsylvania Banking Code of 1965. WesBanco filed the requisite application for approval of the merger with the Pennsylvania Department of Banking and received such approval by a letter dated October 4, 2012.

Other Requisite Approvals, Notices and Consents. The prior written approval of the Pennsylvania Department of Banking is not required for the bank merger because the resulting institution will be a West Virginia banking corporation. Pennsylvania law does require WesBanco to provide certain notice and documents to the Pennsylvania Department of Banking regarding the proposed bank merger. WesBanco provided this notice and documentation to the Pennsylvania Department of Banking on August 17, 2012.

Neither Fidelity nor WesBanco is aware of any other regulatory approvals required for completion of the merger other than approvals we describe above. Should WesBanco or Fidelity require any other approvals, Fidelity and WesBanco presently contemplate both of us would seek to obtain such approvals. There can be no assurance, however, that WesBanco and Fidelity can obtain any other approvals, if required.

There can be no assurance that the regulatory authorities described above will approve the merger or the bank merger, and if such mergers are approved, there can be no assurance as to the date on which WesBanco and Fidelity will receive such approvals. The mergers cannot proceed in the absence of the receipt of all requisite regulatory approvals.

The approval of any application merely implies the satisfaction of regulatory criteria for approval. Any such approval does not include review of the merger from the standpoint of the adequacy of the merger consideration

Table of Contents

our shareholders will receive upon the merger. Further, regulatory approvals do not constitute an endorsement or recommendation of the merger.

No Dissenter's Rights for Holders of Shares of Fidelity Common Stock

Under Pennsylvania law, holders of a corporation's common stock are not entitled to exercise dissenters' rights if shares of the corporation are registered on a national securities exchange, designated as a national market system security on an interdealer quotation system by the Financial Industry Regulatory Authority or held beneficially or of record by more than 2,000 persons. Consequently, because Fidelity's common stock is currently listed on Nasdaq Global Market, Fidelity shareholders will not have the right to exercise dissenters' rights. If the merger agreement is adopted and the merger is completed, shareholders who voted against the adoption of the merger agreement will be treated the same as shareholders who voted for the adoption of the merger agreement and their shares will automatically be converted into the right to receive the merger consideration. Therefore, if you own shares of Fidelity common stock on the record date but you are against the merger, you may vote against adoption of the merger agreement but you may not exercise dissenter's rights for your shares.

The holders of the Fidelity TARP Preferred Stock will not be entitled to vote on any of the proposals at the special meeting. However, under Pennsylvania law, because the holders of the Fidelity TARP Preferred Stock are not entitled to vote those shares, those holders will be given dissenter's rights with respect to their shares of Fidelity TARP Preferred Stock.

Delisting and Deregistration of Fidelity Common Stock Following the Merger

If the merger is completed, Fidelity common stock will be delisted from the Nasdaq Global Market and will be deregistered under the Securities Exchange Act of 1934, as amended.

Management Following the Merger

Each of the current directors and executive officers of WesBanco will continue to serve in those capacities following the merger. For information as to their identities, backgrounds, compensation and certain other matters relating to WesBanco's directors and executive officers, please refer to WesBanco's proxy statement for its 2012 annual meeting of shareholders, which is incorporated by reference herein. See [Where You Can Find More Information about WesBanco and Fidelity](#). In addition, Richard G. Spencer, the President and Chief Executive Officer of Fidelity will join the WesBanco board of directors. Mr. Spencer was appointed Chief Executive Officer of Fidelity and Fidelity Savings Bank on January 1, 2003. Since January 1, 2001, he had served as President and Chief Operating Officer. Prior to January 1, 2001, Mr. Spencer served as Chief Financial Officer and Treasurer of Fidelity and Fidelity Savings Bank.

Litigation Related to the Merger

On October 18, 2012, Mordechai Nagel, a purported shareholder of Fidelity, filed a purported shareholder class and derivative action in the Court of Common Pleas of Allegheny County, Pennsylvania, Civil Action Case No. 12-019908. The lawsuit names as defendants each of the current members of Fidelity's board of directors (the Director Defendants), WesBanco and Fidelity. The complaint alleges, among other things, that the Director Defendants breached their fiduciary duties as a result of the price and certain other terms of the merger agreed to by Fidelity. The lawsuit also claims that the Director Defendants breached their fiduciary duties because the registration statement on Form S-4 filed by WesBanco with the SEC on September 14, 2012, allegedly contained misstatements and omitted information material to the merger and to a decision by Fidelity's shareholders on the merger. The lawsuit also alleges that WesBanco aided and abetted the Director Defendants' alleged breaches of fiduciary duties. The lawsuit seeks, among other things, an injunction against WesBanco's acquisition of Fidelity, as well as the payment of the fees and expenses of the plaintiffs' attorneys. WesBanco and Fidelity each believe that all of the allegations are without merit and intend to vigorously defend themselves against the allegations in this complaint.

Accounting Treatment

WesBanco will account for the merger as an acquisition, as that term is used under U.S. generally accepted accounting principles (GAAP), for accounting and financial reporting purposes. Under acquisition accounting, our assets, including identifiable intangible assets, and liabilities, including executory contracts and other commitments, as of the effective time of the merger will be recorded at their respective fair values and added to the balance sheet of WesBanco. Any excess of the purchase price over the fair values will be recorded as goodwill. Financial statements of WesBanco issued after the merger will include these fair values and our results of operations from the effective time of the merger.

Material U.S. Federal Income Tax Consequences of the Merger

The following discussion addresses the material United States federal income tax consequences of the merger to holders of Fidelity common stock. The discussion is based on the Code, Treasury regulations promulgated thereunder, administrative rulings and practice, and judicial decisions, all as currently in effect and all of which are subject to change (possibly with retroactive effect) and to differing interpretations. This discussion applies only to Fidelity shareholders that hold their Fidelity common stock as a capital asset within the meaning of Section 1221 of the Code. This discussion does not address all aspects of United States federal taxation that may be relevant to a particular shareholder in light of its personal circumstances or to shareholders subject to special treatment under the United States federal income tax laws, including:

banks, financial institutions or trusts,

tax-exempt organizations,

insurance companies,

dealers in securities or foreign currency,

traders in securities who elect to apply a mark-to-market method of accounting,

pass-through entities and investors in such entities,

foreign persons,

shareholders who received their Fidelity common stock through the exercise of employee stock options or holders of options to acquire Fidelity common stock who receive such options, in each case, through a tax-qualified retirement plan or otherwise as compensation, and

shareholders who hold Fidelity common stock as part of a hedge, straddle, constructive sale, conversion transaction or other integrated investment.

In addition, the discussion does not address any alternative minimum tax or any state, local or foreign tax consequences of the merger.

Each holder of Fidelity common stock should consult its tax advisor with respect to the particular tax consequences of the merger to such holder.

Edgar Filing: WESBANCO INC - Form 424B3

The merger is conditioned upon receipt at closing by Fidelity of a legal opinion from Spidi & Fisch, PC, tax counsel to Fidelity, and upon receipt at closing by WesBanco of a legal opinion from K&L Gates LLP, tax counsel to WesBanco, in each case, to the effect that the merger will be treated as a reorganization within the meaning of Section 368(a) of the Code. Neither of these opinions is binding on the Internal Revenue Service or the courts, and neither Fidelity nor WesBanco intends to request a ruling from the Internal Revenue Service regarding the United States federal income tax consequences of the merger. Consequently, no assurance can be given that the Internal Revenue Service will not assert, or that a court would not sustain, a position contrary to any of those set forth below.

The opinions of K&L Gates LLP and Spidi & Fisch, PC will rely on certain assumptions that customarily are made with respect to transactions of this kind. The opinions also will rely on certain factual representations

Table of Contents

contained in officers' certificates of Fidelity and WesBanco. K&L Gates LLP and Spidi & Fisch, PC will assume such representations to be true, correct and complete. If any such representation cannot be made on the effective date of the merger, or any such representation or assumption is incorrect, then K&L Gates LLP and Spidi & Fisch, PC may be unable to render the opinions upon which the closing is conditioned.

The remainder of this discussion assumes that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Code, in which case neither WesBanco nor Fidelity will recognize any gain or loss as a result of the merger.

Receipt of WesBanco Common Stock and Cash

Gain But No Loss. A Fidelity shareholder will recognize gain, but not loss, in an amount equal to the lesser of:

the amount of gain realized with respect to the Fidelity common stock surrendered in the exchange; and

the amount of cash received (other than cash received in lieu of a fractional share of WesBanco common stock, which will be taxed as discussed below under *Cash Received in Lieu of a Fractional Share of WesBanco Common Stock*).

The amount of gain realized with respect to the Fidelity common stock exchanged will equal the excess, if any, of:

the sum of the cash received plus the fair market value of WesBanco common stock received over

the Fidelity shareholder's adjusted tax basis in such Fidelity common stock.

For this purpose, gain or loss must be calculated separately for each identifiable block of shares of Fidelity common stock surrendered in the merger, and a loss realized on one block of shares may not be used to offset a gain realized on another block of shares. Holders should consult their tax advisors regarding the manner in which cash and shares of WesBanco common stock should be allocated among different blocks of their Fidelity common stock surrendered in the merger.

For purposes of determining the character of this gain, such Fidelity shareholder will be treated as having received only WesBanco common stock in exchange for such shareholder's Fidelity common stock, and as having immediately redeemed a portion of such WesBanco common stock for the cash received. Unless this deemed redemption is treated as a dividend (as described below in *Possible Treatment of Cash as a Dividend*) to the extent of such shareholder's ratable share of accumulated earnings and profits of Fidelity, the gain will be capital gain if the Fidelity common stock is held by such shareholder as a capital asset at the time of the merger. Any capital gain will be long-term capital gain if, as of the date of the exchange, the holding period for such Fidelity common stock is more than one year.

Tax Basis. The aggregate adjusted tax basis of WesBanco common stock received in the merger generally will be equal to the aggregate adjusted tax basis of the shares of Fidelity common stock surrendered in the merger, reduced by the amount of cash received by the holder in the merger (excluding any cash received instead of a fractional share), and increased by the amount of gain recognized by the holder in the merger (including any portion of the gain that is treated as a dividend, as described below under *Possible Treatment of Cash as a Dividend*, but excluding any gain or loss resulting from the deemed issuance and redemption of fractional shares as described below under *Cash Received in Lieu of a Fractional Share of WesBanco Common Stock*).

Holding Period. The holding period of WesBanco common stock received in the merger will include the holding period of the Fidelity common stock exchanged therefor.

Possible Treatment of Cash as a Dividend. For purposes of this determination, the holder of Fidelity common stock is treated as if it first exchanged all of its shares of Fidelity common stock solely for WesBanco

Table of Contents

common stock and then WesBanco immediately redeemed a portion of the WesBanco common stock in exchange for the cash the holder actually received. The gain recognized in this deemed redemption will be treated as capital gain, and not as a dividend equivalent if the deemed redemption is (1) substantially disproportionate with respect to the holder or, (2) not essentially equivalent to a dividend (*i.e.*, the deemed redemption results in a meaningful reduction in the Fidelity shareholder's interest in WesBanco common stock). The exchange would be substantially disproportionate with respect to the holder if the holder's percentage interest in WesBanco common stock (including stock constructively owned by the holder) immediately after the merger is less than 80% of what the percentage interest would have been if, hypothetically, the holder had received solely WesBanco common stock in exchange for all Fidelity common stock owned or constructively owned by the holder before the merger. Whether an exchange would result in a meaningful reduction depends on the particular Fidelity shareholder's facts and circumstances. The Internal Revenue Service has ruled that a shareholder in a publicly-held corporation whose stock interest is minimal (*e.g.*, less than 1%) and who exercises no control with respect to corporate affairs can be considered to have a meaningful reduction if that shareholder has a minor reduction in its percentage stock ownership in the deemed redemption. Accordingly, the gain recognized in the deemed exchange by such a shareholder would be treated as capital gain. In determining a Fidelity shareholder's interest in WesBanco common stock, the Fidelity shareholder may be deemed to own any shares of WesBanco common stock owned, or constructively owned, by certain persons related to such Fidelity shareholder or that are subject to an option held by the Fidelity shareholder or a related person.

These rules are complex and dependent upon the specific factual circumstances particular to each Fidelity shareholder. Consequently, each holder should consult its tax advisor as to the application of these rules to the particular facts relevant to such holder. Fidelity shareholders that are corporations should consult their tax advisors regarding their eligibility for a dividends received deduction and the treatment of the dividend as an extraordinary dividend under section 1059 of the Code.

Cash Received in Lieu of a Fractional Share of WesBanco Common Stock

A Fidelity shareholder who receives cash instead of a fractional share of WesBanco common stock will generally be treated as having received such fractional share and then as having received such cash in redemption of that fractional share by WesBanco. Unless the receipt of such cash is treated as a dividend under the principles discussed above under Possible Treatment of Cash as a Dividend, a Fidelity shareholder generally will recognize gain or loss equal to the difference between the amount of cash received and the Fidelity shareholder's portion of such shareholder's aggregate adjusted tax basis of the shares of Fidelity common stock exchanged in the merger which is allocable to the fractional share. Such gain or loss will be long-term capital gain or loss if, as of the effective date of the merger, the holding period for such shares is more than one year.

Backup Withholding

Backup withholding at a 28% rate will generally apply to merger consideration that includes cash if the exchanging Fidelity shareholder fails to properly certify that it is not subject to backup withholding, generally on Internal Revenue Service Form W-9. Certain holders, including, among others, United States corporations, are not subject to backup withholding, but they may still need to furnish a Form W-9 or otherwise establish an exemption. Any amounts withheld from payments to a Fidelity shareholder under the backup withholding rules are not additional taxes and will be allowed as a refund or credit against the shareholder's United States federal income tax liability, provided that the required information is timely furnished to the Internal Revenue Service.

The foregoing discussion is intended only as a summary and does not purport to be a complete analysis or listing of all potential United States federal income tax consequences of the merger. You are urged to consult your tax advisors concerning the United States federal, state, local and foreign tax consequences of the merger to you.

except as excluded in the merger agreement, it will, and it will cause each of its subsidiaries to, make available to WesBanco on a prompt basis (A) a copy of each report, schedule, form, statement and other document filed or received by it, until the merger becomes effective or the merger agreement is terminated, whichever comes first, pursuant to the requirements of domestic or foreign laws and (B) all other information concerning its business, properties and personnel as WesBanco may reasonably request; *provided, however*, that WesBanco shall not unreasonably interfere with Fidelity's business operations;

In addition, WesBanco has further agreed that:

it will use commercially reasonable efforts to cause the shares of WesBanco common stock to be issued in the merger to be approved for listing on Nasdaq;

it will provide certain indemnification and related insurance for the directors and officers of Fidelity and its subsidiaries for a period of six years after the effective time of the merger;

it will cause Richard G. Spencer, President and Chief Executive Officer of Fidelity to be appointed to the board of directors of WesBanco until the next meeting of WesBanco shareholders and shall nominate Mr. Spencer for election at such meeting and until Mr. Spencer has served a full three year term on the WesBanco board of directors;

Edgar Filing: WESBANCO INC - Form 424B3

if the Fidelity TARP Preferred Stock has not been repurchased or redeemed from the U.S. Treasury by Fidelity or WesBanco at least one calendar day prior to the effective time of the merger, WesBanco will continue the employment of certain former Fidelity management employees under the terms of their existing employment agreements and change in control agreements for a period of not less than 30 calendar days following the effective time of the merger.

Conditions to the Merger

The respective obligations of Fidelity and WesBanco to effect the merger are subject to the following conditions, among others:

the adoption of the merger agreement by the shareholders of Fidelity;

the absence of any order to restrain, enjoin, or otherwise prevent the consummation of the merger entered by any court or administrative body which remains in effect on the date the merger closes;

the effectiveness of the Registration Statement on the date the merger closes;

Table of Contents

the absence of a pending or threatened stop order or proceedings seeking a stop order suspending the effectiveness of the Registration Statement or any amendments thereto;

the receipt of all material governmental or other consents, approvals, and permissions;

the merger will not violate any non-appealable final order, decree or judgment of any court or governmental body having competent jurisdiction;

on or before the date the merger closes, the receipt of an opinion from each party's tax counsel to the effect that for federal income tax purposes the merger will be treated as a tax-free reorganization within the meaning of Section 368(a) of the Code, and regarding certain other tax matters;

the accuracy in all material respects of the representations and warranties of the parties and the performance by the parties in all material respects of all of their obligations set forth in the merger agreement, and the receipt of a certificate from an appropriate officer certifying the foregoing; and

the shares of WesBanco common stock to be issued in the merger shall have been approved for listing on Nasdaq.

In addition to the conditions discussed above, WesBanco's obligation to consummate the merger is conditioned upon the receipt of all consents and approvals required to be obtained by WesBanco. In addition to the conditions discussed above, Fidelity's obligation to consummate the merger is conditioned upon the receipt of a certificate from the exchange agent acknowledging that the exchange agent is in possession of the aggregate merger consideration.

Termination of the Merger Agreement

The merger agreement may be terminated at any time prior to the closing of the merger, either before or after the special meeting of the Fidelity shareholders:

by mutual written consent of Fidelity and WesBanco;

by either Fidelity or WesBanco if the other party shall have breached any of its representations or warranties or if the other party shall have materially failed to comply with any of its covenants or agreements under the merger agreement and which breach or non-compliance is not cured within thirty calendar days of notice thereof;

by either Fidelity or WesBanco if the merger has not closed by March 31, 2013, and such failure to close is not caused by a breach of the merger agreement by the terminating party;

by either Fidelity or WesBanco if the Fidelity shareholders do not adopt the merger agreement at the Fidelity special meeting, or any adjournment thereof;

by either Fidelity or WesBanco if the governmental approvals required to consummate the merger are denied by a final non-appealable action; or

WesBanco may terminate the merger agreement:

if Fidelity's board of directors (A) modifies, qualifies, withholds or withdraws its recommendation, to its shareholders, that they should approve the merger agreement, or makes any statement, filing or release, in connection with the special meeting of the Fidelity shareholders or otherwise which is inconsistent with the Seller Recommendation, (B) breaches its obligations to call, give notice of and commence the special meeting of Fidelity shareholders, (C) approves or recommends an Acquisition Proposal (as defined below on page 80), (D) fails to publicly recommend against a publicly announced Acquisition Proposal within ten (10) business days of being requested to do so by WesBanco, (E) fails to publicly reconfirm its recommendation, to the Fidelity shareholders, that they adopt the merger agreement, within ten (10) business days of being requested to do so by WesBanco, or (F) resolves or otherwise determines to take, or announces an intention to take, any of the foregoing actions; or

if there shall have been a material breach of Fidelity's covenant not to solicit competing offers.

Table of Contents

In addition, Fidelity may terminate the merger agreement:

in order to enter into an agreement with respect to an unsolicited proposal that if consummated would be reasonably likely to result in a transaction more favorable to Fidelity's shareholders from a financial point of view, provided that certain other terms and conditions contained in the merger agreement are also complied with, and Fidelity pays the termination fee described below; or

if there is a substantial decline in WesBanco's stock price that is not generally experienced by comparable banks, as described in detail below.

The operation of the conditions permitting Fidelity to terminate the merger agreement based on a decrease in the market price of the WesBanco common stock reflects the parties' agreement that Fidelity shareholders will assume the risk of a decline in value of the WesBanco common stock to \$18.85 per share under any circumstances and that Fidelity shareholders will assume the risk of a more significant decline in value of WesBanco common stock unless the percentage decline from \$22.17 to the average value of WesBanco common stock during the twenty trading day period ending on the Determination Date is more than 15% greater than the percentage decrease, if any, in the closing value of the Nasdaq Bank Index from July 19, 2012 to the Determination Date. The purpose of this agreement is that a decline in the value of WesBanco's common stock which is comparable to the decline in the value of an index of comparable publicly-traded stocks is indicative of a broad-based change in market and economic conditions affecting the financial services industry generally rather than factors which affect the value of the WesBanco common stock in particular.

Specifically, Fidelity may terminate the merger agreement during the five-day period (Election Period) beginning on the date that is the first to occur of (A) the first date on which all required bank regulatory approvals have been received or (B) the date on which Fidelity's shareholders adopt the merger agreement (such first occurring date being the Determination Date) if all of the following occur:

- (i) the average daily closing price of a share of WesBanco common stock during the twenty trading days ending on the Determination Date (the WesBanco Ending Price) is less than \$18.85;
- (ii) the quotient obtained by dividing the WesBanco Ending Price by \$22.17 (the WesBanco Starting Price) is less than the difference obtained by subtracting 0.15 from the quotient obtained by dividing the closing value of the Nasdaq Bank Index on the Determination Date by 1,797.89, which was the closing value of the Nasdaq Bank Index on July 19, 2012 (the Index Ratio);
- (iii) Fidelity notifies WesBanco in writing of Fidelity's intention to terminate the merger agreement during the Election Period; and
- (iv) WesBanco elects not to increase the exchange ratio in accordance with the formula described below within the five-day period following its receipt of notice that Fidelity intends to so terminate the merger agreement.

Even if the first two conditions described above are met, the Fidelity board of directors may elect not to terminate the merger agreement. Any decision to terminate the merger agreement will be made by the Fidelity board of directors in light of all of the circumstances existing at the time. Prior to making any decision to terminate the merger agreement, the Fidelity board of directors would consult with its financial and other advisors and would consider all financial and other information it deemed relevant to its decision, including whether the then current consideration to be received in the merger would deliver more value to Fidelity shareholders than the value that could be expected in the event Fidelity were to continue as an independent company (which would occur if the Fidelity board of directors were to elect to abandon the merger and WesBanco determined not to increase the exchange ratio). In addition, the Fidelity board of directors would consider whether, in light of market and other industry conditions at the time of such decision, the exchange ratio continued to be fair from a financial point of view to Fidelity's shareholders. If Fidelity elected not to terminate the merger agreement, which it could do without any action on the part of Fidelity shareholders, the exchange ratio of WesBanco common stock would remain 0.8275.

If each of the first two conditions set forth above were satisfied and the Fidelity board of directors elected to terminate the merger agreement, WesBanco would have the option of increasing the consideration payable to Fidelity shareholders by adjusting the exchange ratio as described below. WesBanco is under no obligation to

Table of Contents

adjust the exchange ratio and there can be no assurance that WesBanco would elect to adjust the exchange ratio to prevent the termination of the merger agreement. Any decision would be made by WesBanco in light of the circumstances existing at the time. If WesBanco elected to adjust the exchange ratio, Fidelity could not terminate the merger agreement as a result of the above-described circumstances.

The operation and effect of the provisions of the merger agreement dealing with a decline in the market price of WesBanco's common stock may be illustrated by the following three scenarios:

(1) One scenario is that the WesBanco Ending Price is above \$18.85. In this event, Fidelity would not have the right to terminate the merger agreement.

(2) A second scenario is that the WesBanco Ending Price is less than \$18.85 but that the percentage decline in the price of the WesBanco common stock from the initial measurement price of \$22.17 is not more than 15% greater than the percentage decline, if any, in the closing value of the Nasdaq Bank Index. Under this scenario, Fidelity would not have the right to terminate the merger agreement.

(3) A third scenario is that the WesBanco Ending Price is less than \$18.85 and the percentage decline in the price of WesBanco common stock from the initial measurement price is more than 15% greater than the decline in the closing value of the Nasdaq Bank Index. Under this scenario, Fidelity would have the right, but not the obligation, to terminate the merger agreement unless WesBanco elected to increase the exchange ratio to equal the number obtained by dividing \$18.00 by the greater of (A) \$18.85 or (B) the product obtained by multiplying \$18.85 by the Index Ratio.

If, between July 19, 2012 and the Determination Date, WesBanco declares or effects a stock dividend, reclassification, recapitalization, split-up, combination, exchange of shares or similar transaction, the prices for the common stock of WesBanco shall be appropriately adjusted for purposes of the above-discussed termination provision.

In the event of any termination of the merger agreement by either Fidelity or WesBanco as provided above, all further obligations of Fidelity and WesBanco under the merger agreement, except with respect to specified matters, will terminate.

Expenses

Whether or not the merger is completed, all legal and accounting fees, and other costs and expenses incurred in connection with the merger agreement and the transactions contemplated in the merger agreement, will be paid by the party incurring such expenses. WesBanco will pay all governmental and regulatory authority fees incurred in connection with the transactions contemplated by the merger agreement.

Termination Fee

The merger agreement provides that Fidelity may be required to pay a termination fee to WesBanco of \$3.2 million in the following circumstances:

If (A) WesBanco terminated the merger agreement because Fidelity's board of directors (1) has modified, qualified, withheld or withdrawn its recommendation to the Fidelity shareholders that they vote to approve the merger, or made any statement, filing or release, in connection with the special meeting of Fidelity shareholders or otherwise, that was inconsistent with such recommendation, (2) breached its obligations to call, give notice of and commence the special meeting of Fidelity shareholders, (3) approved or recommended an Acquisition Proposal, (4) failed to publicly recommend against a publicly announced Acquisition Proposal within ten business days of being requested to do so by WesBanco, (5) failed to publicly reconfirm its recommendation to the Fidelity shareholders that they vote to approve the merger within ten business days of being requested to do so by WesBanco, or (6) resolved or otherwise determined to take, or announced an intention to take, any of the foregoing actions, and (B) Fidelity consummates an Acquisition Transaction or enters into any definitive agreement with respect to an Acquisition Transaction within 12 months of such termination;

If (A) the merger agreement is terminated by Fidelity because the Fidelity board of directors has approved or recommended to the Fidelity shareholders an Acquisition Transaction between Fidelity

Table of Contents

and a third party and (B) within 12 months of such termination, Fidelity consummates an Acquisition Transaction or enters into any definitive agreement with respect to an Acquisition Transaction;

If (A) the merger agreement is terminated by either party because the merger has not been completed by March 31, 2013 or because the Fidelity shareholders failed to adopt the merger agreement at the special meeting of Fidelity's shareholders, (B) an Acquisition Proposal with respect to Fidelity was publicly announced, disclosed or communicated to Fidelity's board of directors prior to March 31, 2013 and the special meeting of Fidelity shareholders, and (C) within 12 months of such termination, Fidelity consummates an Acquisition Transaction or enters into any definitive agreement with respect to an Acquisition Transaction; or

If (A) prior to the effective date of the merger Fidelity had committed a material breach of any of its representations, warranties, covenants or agreements, (B) an Acquisition Proposal with respect to Fidelity was publicly announced, disclosed or communicated to Fidelity's board of directors prior to such breach by Fidelity or during the 30-day cure period resulting in termination of the merger agreement by WesBanco, and (C) within 12 months of such termination, Fidelity consummates an Acquisition Transaction or enters into any definitive agreement with respect to an Acquisition Transaction.

As defined in the merger agreement, Acquisition Proposal means any inquiry, offer or proposal (other than an inquiry offer or proposal from WesBanco), whether or not in writing, contemplating, relating to, or that could reasonably be expected to lead to, an Acquisition Transaction.

An Acquisition Transaction means:

any transaction or series of transactions involving any merger, consolidation, recapitalization, share exchange, liquidation, dissolution or similar transaction involving Fidelity or any of its subsidiaries;

any transaction pursuant to which any third party or group acquires or would acquire (whether through sale, lease or other disposition), directly or indirectly, any assets of Fidelity or any of its subsidiaries representing, in the aggregate, twenty percent (20%) or more of the assets of Fidelity and its subsidiaries on a consolidated basis;

any issuance, sale or other disposition of (including by way of merger, consolidation, share exchange or any similar transaction) securities (or options, rights or warrants to purchase or securities convertible into, such securities) representing twenty percent (20%) or more of the votes attached to the outstanding securities of Fidelity or any of its subsidiaries;

any tender offer or exchange offer that, if consummated, would result in any third party or group beneficially owning twenty percent (20%) or more of any class of equity securities of Fidelity or any of its subsidiaries; or

any transaction which is similar in form, substance or purpose to any of the foregoing transactions, or any combination of the foregoing.

Amendment or Waiver

The provisions of the merger agreement may be waived at any time by the party that is entitled to the benefit of those provisions, by action taken by the board of directors of that party. Any of the terms of the merger agreement may be amended or modified in writing before the special meeting of the Fidelity shareholders. The merger agreement may be amended after the special meeting and prior to the closing of the merger only to the extent permitted by applicable laws and to the extent the amendment does not alter or change the amount or kind of WesBanco common stock to be received by Fidelity shareholders in the merger.

The lending philosophy of WesBanco is to minimize credit losses by underwriting loans to uniform credit standards (which includes independent analysis of the repayment capacity of each borrower; adequacy of collateral, if any, to secure each loan; and other factors unique to each loan that may increase or mitigate their risk), diversifying its loan portfolio to avoid concentrations of credit to any single borrower, group of related borrowers, industry, or collateral type, and conducting ongoing reviews and monitoring of the loan portfolio. WesBanco makes commercial, commercial real estate, residential real estate (including home equity), and direct and indirect consumer loans to individuals and businesses that are primarily located within its market areas.

No material portion of the deposits of WesBanco Bank has been obtained from a single or small group of customers, and the loss of any customer's deposits or a small group of customers' deposits would not have a material adverse effect on the business of WesBanco.

As part of its operations, WesBanco regularly evaluates the potential acquisition of, and holds discussions with, various financial institutions and other businesses of a type eligible for financial holding company investment. In addition, WesBanco regularly analyzes the values of, and submits bids for, the acquisition of customer-based funds and other liabilities and assets of such financial institutions and other businesses. As a general rule, WesBanco publicly announces such material acquisitions when a definitive agreement has been reached.

The competition for deposit products and loan originations comes from other depository institutions such as commercial banks, thrift institutions, and credit unions in Fidelity Savings Bank's market area. Competition for deposits also includes insurance products sold by local agents and investment products such as mutual funds and other securities sold by local and regional brokers. Fidelity Savings Bank competes for loans with a variety of non-depository institutions such as mortgage brokers, finance companies, and insurance companies. Based on data compiled by the FDIC, Fidelity Savings Bank had a 0.56% share of all FDIC-insured deposits in the Pittsburgh Metropolitan Statistical Area as of June 30, 2011, the latest date for which such data was available, ranking it 18th among 59 FDIC-insured institutions. This data does not reflect deposits held by credit unions with which Fidelity Savings Bank also competes.

Lending Activities

Fidelity Savings Bank's principal lending activity is the origination of loans secured primarily by first mortgage liens on existing single-family residences in Fidelity Savings Bank's market area. At June 30, 2012, Fidelity Savings Bank's loan portfolio included \$112.0 million of residential loans, \$2.7 million of residential construction loans, \$84.4 million of commercial and multi-family real estate loans, and \$14.0 million of commercial construction loans. At June 30, 2012, Fidelity Savings Bank had \$61.8 million in home equity loans in the portfolio. Substantially all of Fidelity Savings Bank's borrowers are located in Fidelity Savings Bank's market area and would be expected to be affected by economic and other conditions in this area. Fidelity does not believe that there are any other concentrations of loans or borrowers exceeding 10% of total loans.

Contractual principal repayments of loans do not necessarily reflect the actual term of Fidelity Savings Bank's loan portfolio. The average lives of mortgage loans are substantially less than their contractual maturities because of loan payments and prepayments and because of enforcement of due-on-sale clauses, which generally give Fidelity Savings Bank the right to declare a loan immediately due and payable in the event, among other things, that the borrower sells the real property subject to the mortgage and the loan is not repaid. The average lives of mortgage loans, however, tend to increase when current mortgage loan rates are substantially higher than rates on existing mortgage loans and, conversely, decrease when current mortgage loan rates are substantially lower than rates on existing mortgage loans.

Residential Real Estate Lending. Fidelity Savings Bank originates single-family residential loans and residential construction loans which provide for periodic interest rate adjustments. The adjustable-rate residential mortgage loans offered by Fidelity Savings Bank in recent years have 10, 15, 20, or 30-year terms and interest rates which adjust every one, three, or five years generally in accordance with the index of average yield on U.S. Treasury Securities adjusted to a constant maturity of the applicable time period. In addition, Fidelity Savings Bank offers adjustable-rate mortgages that adjust according to the rates on one-year U.S. Treasury Securities after an initial fixed-rate period of three or five years. There is generally a two percentage point cap or limit on any increase or decrease in the interest rate per year with a five or six percentage point limit on the amount by which the interest rate can increase over the life of the loan. Fidelity Savings Bank has not engaged in the practice of using a cap on the payments that could allow the loan balance to increase rather than decrease, resulting in negative amortization. At June 30, 2012 approximately \$28.8 million or 25.1% of the residential mortgage loans in Fidelity Savings Bank's loan portfolio consisted of loans with adjustable rates of interest.

Fidelity Savings Bank also originates fixed rate, single-family residential loans with terms of 10, 15, 20 or 30 years in order to provide a full range of products to its customers, but generally only under terms, conditions and documentation which permit the sale of these loans in the secondary market. Additionally, Fidelity Savings Bank also offers a 10 year balloon loan with payments based on 30 year amortization. At June 30, 2012, approximately \$85.6 million or 74.9% of the residential mortgage loans in Fidelity Savings Bank's loan portfolio consisted of loans which provide for fixed rates of interest. Although these loans provide for repayments of principal over a fixed period of up to 30 years, it is Fidelity Savings Bank's experience that such loans have remained outstanding for a substantially shorter period of time. Fidelity Savings Bank's policy is to enforce the due on sale clauses contained in most of its fixed rate, adjustable-rate, and conventional mortgage loans which generally permit Fidelity Savings Bank to require payment of the outstanding loan balance if the mortgaged property is sold or transferred and thus contributes to shortening the average lives of such loans.

Fidelity Savings Bank will lend generally up to 80% of the appraised value of the property securing the loan (referred to as the loan-to-value ratio) up to a maximum amount equal to the FNMA conforming loan limit of \$417,000 but will lend up to 95% of the appraised value up to the same amount if the borrower obtains private mortgage insurance on the portion of the principal amount of the loan that exceeds 80% of the appraised value of the property securing the loan. Fidelity Savings Bank also originates residential mortgage loans in amounts over

Table of Contents

\$417,000. Fidelity Savings Bank will generally lend up to 80% of the appraised value of the property securing such loans. These loans may have terms of up to 30 years, but frequently have terms of 10 or 15 years or are 10-year balloon loans with payments based on 15-year to 30-year amortization. Generally, such loans will not exceed a maximum loan amount of \$1.0 million, although Fidelity Savings Bank may consider loans above that limit on a case-by-case basis. Fidelity Savings Bank principally lends on owner-occupied residential properties with only \$7.8 million in residential mortgages secured by non-owner-occupied properties.

Fidelity Savings Bank requires the properties securing mortgage loans it originates and purchases to be appraised by independent appraisers who are approved by or who meet certain prescribed standards established by the Board of Directors. Fidelity Savings Bank also requires title, hazard, and (where applicable) flood insurance in order to protect the properties securing its residential and other mortgage loans. Borrowers are subject to employment verification, credit evaluation reports, and must meet established underwriting criteria with respect to their ability to make monthly mortgage payments.

Commercial and Multi-family Real Estate Lending. In addition to loans secured by single-family residential real estate, Fidelity Savings Bank also originates, to a lesser extent, loans secured by commercial real estate and multi-family real estate properties. Fidelity Savings Bank's commercial real estate loans are secured by retail stores, suburban office buildings, self-storage centers, and a variety of other commercial properties. Over 95% of this type of lending is done within Fidelity Savings Bank's primary market area. At June 30, 2012, Fidelity Savings Bank's portfolio included \$84.4 million of commercial real estate loans, which includes \$14.2 million of multi-family real estate loans.

Although terms vary, commercial and multi-family residential real estate loans are generally made for terms of up to 10 years with a longer period for amortization and in amounts of up to 75% of the lesser of appraised value or sales price. These loans may be made with adjustable rates of interest, but Fidelity Savings Bank also will make fixed-rate commercial or multi-family real estate loans on a 10 or 7-year payment basis, with the period of amortization negotiated on a case-by-case basis.

Commercial and multi-family mortgage loans generally are larger and are considered to entail significantly greater risk than one-to-four family real estate lending. The repayment of these loans typically is dependent on the successful operations and income stream of the borrower and the real estate securing the loan as collateral. These risks can be significantly affected by economic conditions. In addition, non-residential real estate lending generally requires substantially greater evaluation and oversight efforts compared to residential real estate lending.

Construction Lending. Fidelity Savings Bank also engages in loans to finance the construction of one-to-four family dwellings. This activity is generally limited to individual units and may, to a limited degree, include speculative construction by developers. Fidelity Savings Bank also engages in loans to finance the construction of commercial real estate properties. The inspections, for approval of payment vouchers, are performed by third parties and are based on stages of completion. Applications for construction loans primarily are received from former borrowers and builders who have worked with Fidelity Savings Bank in the past. Construction loans are originated with permanent financing terms consistent with Fidelity Savings Bank's residential and commercial real estate loan products; however, construction loans require only interest payments for the first six months for residential and twelve months for commercial construction loans. On the month following the construction period, and thereafter, payment of both principal and interest is required. The construction loan payment is calculated to amortize the loan in the approved term less the construction period.

Construction lending is generally considered to involve a higher degree of credit risk than long-term permanent financing of residential and commercial real estate properties. If the estimate of construction cost proves to be inaccurate, Fidelity Savings Bank may be compelled to advance additional funds to complete the construction with repayment dependent, in part, on the success of the ultimate project rather than the ability of a borrower or guarantor to repay the loan. If Fidelity Savings Bank is forced to foreclose on a project prior to completion, there is no assurance that it will be able to recover all of the unpaid portion of the loan. In addition, Fidelity Savings Bank may be required to fund additional amounts to complete a project acquired through foreclosure and may have to hold the property for an indeterminate period of time.

Table of Contents

Installment Lending. Fidelity Savings Bank offers a wide variety of installment loans, including home equity loans and consumer loans. At June 30, 2012, home equity loans amounted to \$61.8 million or 96.2% of Fidelity Savings Bank's total installment loan portfolio. These loans are made on the security of the unencumbered equity in the borrower's residence. Home equity loans are made at fixed and adjustable rates for terms of up to 20 years and home equity lines of credit are made at variable rates. Home equity loans generally may not exceed 80% of the value of the secured property when aggregated with all other liens, although a limited number of loans up to 100% value may be made at increased rates.

Consumer loans consist of motor vehicle loans, other types of secured consumer loans, and unsecured personal loans. At June 30, 2012, these loans amounted to \$362,000, which represented 0.56% of Fidelity Savings Bank's total installment loan portfolio. At June 30, 2012, motor vehicle loans amounted to \$22,000 and unsecured loans and loans secured by property other than real estate amounted to \$340,000.

Fidelity Savings Bank also makes other types of installment loans such as savings account loans, personal lines of credit, and overdraft loans. At June 30, 2012, these loans amounted to \$2.1 million or 3.2% of the total installment loan portfolio. That total consisted of \$339,000 of savings account loans, \$1.2 million of personal lines of credit, and \$52,000 of overdraft loans.

Consumer and overdraft loans and, to a lesser extent, home equity loans may involve a greater risk of nonpayment than traditional first mortgage loans on single-family residential dwellings. Consumer loans may be unsecured or secured by depreciating collateral which may not provide an adequate source for repayment in the event of default. However, such loans generally provide a greater rate of return and Fidelity Savings Bank underwrites the loans in conformity to underwriting standards adopted by its Board of Directors to mitigate such risk.

Commercial Business Loans and Leases. Commercial business loans of both a secured and unsecured nature are made by Fidelity Savings Bank for business purposes to incorporated and unincorporated businesses. Typically, these are loans made for the purchase of equipment, to finance accounts receivable, and to finance inventory as well as other business purposes. Commercial business loans and leases are considered to have a higher degree of credit risk than secured real estate lending. The repayment of unsecured commercial business loans is wholly dependent of the success of the borrower's business, while secured commercial business loans may be secured by collateral that may not be readily marketable in the event of default. At June 30, 2012, commercial business loans amounted to \$61.5 million or 18.2% of the total loan portfolio. In addition, Fidelity Savings Bank makes commercial leases to businesses, typically for the purchase of equipment. All leases are funded as capital leases and Fidelity Savings Bank does not assume any residual risk at the end of the lease term. At June 30, 2012, commercial leases amounted to \$85,000 or 0.03% of the total loan portfolio.

Loan Servicing and Sales. In addition to interest earned on loans, Fidelity Savings Bank receives income through the servicing of loans and loan fees charged in connection with loan originations and modifications, late payments, changes of property ownership, and for miscellaneous services related to its loans. Income from these activities varies from period to period with the volume and type of loans made. Fidelity Savings Bank did not recognize any loan servicing fee income for the nine months ended June 30, 2012 or for the year ended September 30, 2011. As of June 30, 2012, there were no outstanding loans serviced for others.

Fidelity Savings Bank charges loan origination fees which are calculated as a percentage of the amount loaned. The fees received in connection with the origination of conventional single-family residential real estate loans have generally amounted to one to three points (one point being equivalent to 1% of the principal amount of the loan). In addition, Fidelity Savings Bank typically receives fees of one half to one point in connection with the origination of conventional, multi-family residential loans, and commercial real estate loans. Loan fees and certain direct costs are deferred and the net fee or cost is amortized into income using the interest method over the expected life of the loan.

Fidelity Savings Bank sells fixed-rate residential mortgage loans in the secondary market through an arrangement with several investors. This program allows Fidelity Savings Bank to offer more attractive rates in

Table of Contents

its highly competitive market. Fidelity Savings Bank does not service those loans sold in the secondary market. Customers may choose to have their loan serviced by Fidelity Savings Bank; however, the loan is priced slightly higher and retained in Fidelity Savings Bank's loan portfolio. For the nine months ended June 30, 2012 and the year ended September 30, 2011, Fidelity Savings Bank sold \$31.3 million and \$15.7 million, respectively, of fixed-rate residential mortgage loans.

Loan Approval Authority and Underwriting. Applications for all types of loans are taken at Fidelity Savings Bank's home office and branch offices by branch managers and loan originators and forwarded to the administrative office for processing. In most cases, a branch manager conducts an interview with the applicant at the branch office. Residential and commercial real estate loan originations are primarily attributable to walk-in and existing customers, real estate brokers, and mortgage loan brokers. Installment loans are primarily obtained through existing and walk-in customers. The Board of Directors has delegated authority to the Loan Committee consisting of the Chairman, President, Chief Lending Officer, and Chief Financial Officer, to approve first mortgages on single-family residences of up to \$750,000, commercial first mortgages of up to \$750,000, home equity loans of up to \$300,000, secured consumer loans of up to \$75,000, unsecured consumer loans of up to \$50,000, and commercial business loans up to \$500,000. Any loan in excess of those amounts must be approved by the Board of Directors. The Board of Directors has further delegated authority to Fidelity Savings Bank's President to approve first mortgages on single-family residences, commercial first mortgages, home equity, secured consumer, unsecured consumer, and commercial loans up to the FNMA conforming loan limit (currently \$417,000), \$200,000, \$200,000, \$75,000, \$50,000, and \$200,000, respectively. The terms of the delegation also permit the President to delegate authority to any other Bank officer under the same or more limited terms. Pursuant to this authority, the President has delegated to the Chief Lending Officer, subject to certain conditions, the authority to approve motor vehicle loans, secured personal loans, and unsecured personal loans up to \$75,000, \$75,000, and \$50,000, respectively; to approve one-to-four family first mortgage loans up to the FNMA conforming loan limit (currently \$417,000); to approve home equity loans up to \$200,000 if the amount of the loan plus prior indebtedness is not in excess of an 80% loan-to-value ratio; to approve home equity loans up to \$100,000 if the amount of the loan plus prior indebtedness is in excess of 80%; to approve commercial loans up to \$200,000; and to approve checking account overdraft protection loans that conform to the parameters of the program.

Classified Assets. Federal bank examiners require insured depository institutions to use a classification system for monitoring their problem assets. Under this classification system, problem assets are classified as substandard, doubtful, or loss. An asset is considered substandard if it is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Substandard assets include those characterized by the distinct possibility that the insured institution will sustain some loss if the deficiencies are not corrected. Assets classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses present make collection of principal in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable. Assets classified as loss are those considered uncollectible and of such little value that their continuance as assets without the establishment of a specific loss reserve is not warranted. Assets that do not expose Fidelity to risk sufficient to warrant classification in one of the above categories, but which possess some weakness, are required to be designated as special mention by management.

When an insured depository institution classifies problem assets as either substandard or doubtful, it may establish allowances for loan losses in an amount deemed prudent by management. When an insured institution classifies problem assets as loss, it is required either to establish an allowance for losses equal to 100% of that portion of the assets so classified or to charge off such amount. An institution's determination as to the classification of its assets and the amount of its allowances is subject to review by the FDIC which may order the establishment of additional loss allowances.

Included in classified assets were the following non-accrual loans at June 30, 2012: 15 single-family residential real estate loans totaling \$1.1 million, four commercial real estate loans totaling \$4.1 million, 16 home equity and installment loans totaling \$345,000, and seven commercial business loans totaling \$783,000. While these loans are currently performing, they have been classified for one of the following reasons: the loan is ninety days past due, however, interest is less than ninety days past due; the borrower has filed for bankruptcy; other loans to the borrower are non-performing; internal loan review has identified a deterioration of the borrower's financial capacity or a collateral shortfall; the loan was previously nonperforming but will retain its classification status until the loan continues to perform for at least a six-month period; or the loan was previously nonperforming but will retain its classification status because the loan is now thirty to ninety days past due. For the same reasons performing loans have been classified, there are performing loans that have been designated impaired. Impaired loans were \$17.5 million at June 30, 2012. At June 30, 2012, performing loans designated as impaired included nine commercial real estate loans totaling \$11.1 million, two commercial construction loans totaling \$2.4 million and 14 commercial business loans totaling \$2.2 million. Conversely, there are approximately \$1.8 million of residential mortgage, home equity and installment loans that are non-performing, however are collectively evaluated for impairment for which no impairment was noted at June 30, 2012. See Nonperforming Loans and Foreclosed Real Estate.

Certain other loans, while performing as of September 30, 2011, were classified as special mention, substandard, doubtful, or loss. Performing loans, which were classified as of September 30, 2011, included three single-family residential real estate loans totaling \$315,000, fifteen commercial real estate loans totaling \$16.0 million, one commercial construction loan totaling \$1.5 million, twenty three home equity and installment loans totaling \$638,000, and eighteen commercial business loans totaling \$2.2 million. While these loans are currently performing, they have been classified for one of the following reasons: the loan is ninety days past due, however, interest is less than ninety days past due; the borrower has filed for bankruptcy; other loans to the borrower are non-performing; internal loan review has identified a deterioration of the borrower's financial capacity or a collateral shortfall; the loan was previously nonperforming but will retain its classification status until the loan continues to perform for at least a six-month period; or the loan was previously nonperforming but will retain its classification status because the loan is now thirty to ninety days past due. For the same reasons performing loans have been classified, there are performing loans that have been designated impaired. Impaired loans were \$21.9 million at September 30, 2011. At September 30, 2011, performing loans designated as impaired included eleven commercial real estate loans totaling \$12.3 million, one commercial construction loan totaling \$1.5 million and fifteen commercial business loans totaling \$1.7 million. Conversely, there are approximately \$2.5 million of residential mortgage, home equity and installment loans that are non-performing, however are collectively evaluated for impairment for which no impairment was noted at September 30, 2011. Classified assets decreased during the nine months ended June 30, 2012 as compared to fiscal 2011 primarily due to one commercial real estate loan relationship totaling \$4.0 million being transferred from substandard to other real estate owned. Also another commercial real estate loan classified as substandard totaling \$2.7 million paid off during the nine month period ending June 30, 2012. Classified assets increased during fiscal 2011 as compared to fiscal 2010 primarily due to one commercial real estate loan totaling \$3.3 million and two commercial business loans totaling \$458,000 that were classified as special mention as of September 30, 2011 and not classified as of September 30, 2010. The increase in classified assets during fiscal 2011 was partially offset by substandard loans that were subsequently cured after September 30, 2010. Classified assets increased during fiscal 2010 as compared to fiscal 2009 primarily due to eleven residential real estate loans totaling \$1.1 million and thirteen commercial real estate loans totaling \$15.0 million that were classified as of September 30, 2010 and not classified as of September 30, 2009. The increase in classified assets during fiscal 2010 was partially offset by loans that were subsequently cured after September 30, 2009.

Nonperforming Loans and Foreclosed Real Estate. When a borrower fails to make a required payment on a loan, Fidelity Savings Bank attempts to cause the default to be cured by contacting the borrower. In general, contacts are made after a payment is more than 15 days past due, and a late charge is assessed at that time. In most cases, defaults are cured promptly. If the delinquency on a mortgage loan exceeds 90 days and is not cured through Fidelity Savings Bank's normal collection procedures or an acceptable repayment arrangement is not worked out with the borrower, Fidelity Savings Bank will normally institute measures to remedy the default, including commencing a foreclosure action or, in special circumstances, accepting from the mortgagor a voluntary deed of the secured property in lieu of foreclosure.

The remedies available to a lender in the event of a default or delinquency with respect to residential mortgage loans and the procedures by which such remedies may be exercised are subject to Pennsylvania laws

Table of Contents

and regulations. Under Pennsylvania law, a lender is prohibited from accelerating the maturity of a residential mortgage loan, commencing any legal action (including foreclosure proceedings) to collect on such loan, or taking possession of any loan collateral until the lender has first provided the delinquent borrower with at least 30 days prior written notice specifying the nature of the delinquency and the borrower's right to correct such delinquency. Additionally, a lender is restricted in exercising any remedies it may have with respect to loans for one and two-family principal residences located in Pennsylvania (including the lender's right to foreclose on such property) until the lender has provided the delinquent borrower with written notice detailing the borrower's rights to seek consumer credit counseling and state financial assistance.

Loans are placed on non-accrual status when, in the judgment of management, the probability of collection of interest is deemed to be insufficient to warrant further accrual, generally when a loan is ninety days or more delinquent. When a loan is placed on non-accrual status, previously accrued but unpaid interest is deducted from interest income. The President, Chief Lending Officer, Chief Financial Officer, Vice President of Commercial Loan Credit and Administration, Collection Manager, and Loan Counselor meet monthly to review non-performing assets and any other assets that may require classification or special consideration. Adjustments to the carrying values of such assets are made as needed and a detailed report is submitted to the Board of Directors on a monthly basis.

Foreclosed real estate is recorded at fair value less estimated cost to sell. Costs relating to development and improvement of the property are capitalized whereas costs of holding such real estate are expensed as incurred. Additional write downs are charged to income and the carrying value of the property reduced when the carrying value exceeds fair value less estimated cost to sell.

The following table sets forth information regarding Fidelity's non-accrual loans and foreclosed real estate at the dates indicated. Fidelity had accruing loans past due 90 days or more of \$6.3 million, \$5.5 million, \$4.8 million, \$2.4 million, at June 30, 2012, September 30, 2011, 2010, and 2009, respectively. Such loans consisted of commercial real estate loans, commercial business loans, and commercial lines of credit which were outstanding past their contractual maturity dates. In each case, such loans were otherwise current in accordance with their terms and Fidelity does not consider them nonperforming. The recorded investment in loans that are considered to be impaired under U.S. generally accepted accounting principles was \$17.5 million at June 30, 2012, for which the related allowance for credit losses was \$887,000. Interest income that would have been recorded and collected on loans accounted for on a non-accrual basis under the original terms of such loans was \$343,000 and \$437,000, respectively, for the nine months ended June 30, 2012 and year ended September 30, 2011. During the nine months ended June 30, 2012 and year ended September 30, 2011, \$98,000 and \$229,000 in interest income were recorded on such loans.

Nonperforming loans decreased to \$6.3 million (1.88% of net loans receivable) at June 30, 2012 compared to \$6.9 million (1.99% of net loans receivable) at September 30, 2011. At June 30, 2012, non-accrual loans consisted of fifteen 1-4 family residential real estate loans totaling \$1.1 million, four commercial real estate loans totaling \$4.1 million, sixteen installment loans totaling \$345,000, and seven commercial business loans totaling \$783,000.

Nonperforming loans decreased to \$6.9 million (1.99% of net loans receivable) at September 30, 2011 compared to \$10.4 million (2.78% of net loans receivable) at September 30, 2010. At September 30, 2011, non-accrual loans consisted of seventeen 1-4 family residential real estate loans totaling \$1.8 million, two commercial real estate loans totaling \$4.4 million, eighteen installment loans totaling \$726,000, and one commercial business loan totaling \$9,000.

The decrease in non-performing loans during fiscal 2011 as compared to fiscal 2010 is primarily attributed to a \$2.1 million commercial real estate loan and a \$225,000 installment loan that were transferred to foreclosed real estate during fiscal 2011.

The decrease in non-performing loans during fiscal 2010 as compared to fiscal 2009 is primarily attributed to a \$3.5 million commercial participation loan to a borrower in the restaurant industry that was non-performing during fiscal 2009 but was not considered non-performing at September 30, 2010. Fidelity originally agreed to a restructure of this loan at its maturity by entering into a forbearance agreement with the borrower to make reduced payments over a six-month period in an effort to give the borrower greater flexibility to restructure its operations and to improve its cash flows.

At June 30, 2012, Fidelity did not have any potential problem loans that were not reflected in the above table where known information about possible credit problems of borrowers caused management to have serious doubts about the ability of such borrowers to comply with present repayment terms.

Allowance for Loan Losses

Management establishes reserves for estimated losses on loans based upon its evaluation of the inherent risks in the loan portfolio. The adequacy of the allowance is determined by management through the evaluation of such pertinent factors as the growth and composition of the loan portfolio, historical loss experience, the level and trend of past due and non-performing loans, the general economic conditions affecting the collectability of loans in the portfolio, and other relevant factors. Large groups of smaller balance homogenous loans, such as residential real estate, small commercial real estate, home equity, and consumer loans are evaluated in the aggregate using historical loss factors and other data. Large balance and/or more complex loans, such as multi-family and commercial real estate loans may be evaluated on an individual basis and are also evaluated in the aggregate to determine adequate reserves. As individually significant loans become impaired, specific reserves are assigned to the extent of impairment. Fidelity analyzes its loan portfolio each quarter to determine the appropriateness of its allowance for loan losses. Management believes that Fidelity's allowance for losses of \$4.3 million as of June 30, 2012 is adequate to absorb probable loan losses in the portfolio.

Investment Activities

Fidelity Savings Bank is required to maintain a sufficient level of liquid assets (including specified short-term securities and certain other investments) as determined by management and defined and reviewed for adequacy by the FDIC during its regular examinations. The FDIC, however, does not prescribe by regulation a minimum amount or percentage of liquid assets. The level of liquid assets varies depending upon several factors, including (i) the yields on investment alternatives, (ii) management's judgment as to the attractiveness of the

Table of Contents

yields then available in relation to other opportunities, (iii) expectation of future yield levels, and (iv) management's projections as to the short-term demand for funds to be used in loan origination and other activities. Securities, including mortgage-backed securities, are classified at the time of purchase, based upon management's intentions and abilities, as securities held-to-maturity or securities available-for-sale. Securities acquired with the intent and ability to hold to maturity are classified as held-to-maturity and are stated at cost and adjusted for amortization of premium and accretion of discount which are computed using the level yield method and recognized as adjustments of interest income. All other securities are classified as available-for-sale to serve principally as a source of liquidity.

Current regulatory and accounting guidelines regarding securities (including mortgage-backed securities) require us to categorize securities as held-to-maturity, available-for-sale, or trading. At June 30, 2012, Fidelity Savings Bank had securities classified as held-to-maturity and available-for-sale in the amount of \$69.7 million and \$173.5 million, respectively and had no securities classified as trading. Securities classified as available-for-sale are reported for financial reporting purposes at fair value with net changes in the market value from period to period included as a separate component of stockholders' equity net of income taxes. At June 30, 2012, Fidelity's securities available-for-sale had an amortized cost of \$174.2 million and fair value of \$173.5 million. The changes in fair value in the available-for-sale portfolio reflect normal market conditions and vary, either positively or negatively, based primarily on changes in general levels of market interest rates relative to the yields of the portfolio. Additionally, changes in the fair value of securities available-for-sale do not affect the loans-to-one borrower limit.

Fidelity conducts periodic reviews to identify and evaluate each investment that has an unrealized loss in accordance with U.S. generally accepted accounting principles. An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis. Unrealized losses that are determined to be temporary in nature are recorded net of tax in *Accumulated Other Comprehensive Income* (AOCI) for available-for-sale securities while such losses related to held-to-maturity securities are not recorded as these investments are carried at their amortized cost.

Regardless of the classification of the securities as available-for-sale or held-to-maturity, Fidelity has assessed each position for credit impairment.

Factors considered in determining whether a loss is temporary include:

the length of time and the extent to which fair value has been below cost;

the severity of the impairment;

the cause of the impairment and the financial condition and near-term prospects of the issuer;

activity in the market of the issuer which may indicate adverse credit conditions;

if Fidelity intends to sell the investment;

if it is more-likely-than-not Fidelity will be required to sell the investment before recovering its amortized cost basis; and

if Fidelity does not expect to recover the investment's entire amortized cost basis (even if Fidelity does not intend to sell the security).

Table of Contents

Fidelity's review for impairment generally entails:

identification and evaluation of investments that have indications of possible impairment;

analysis of individual investments that have fair values less than amortized cost, including consideration of the length of time the investment has been in an unrealized loss position and the expected recovery period;

discussion of evidential matter, including an evaluation of factors or triggers that could cause individual investments to qualify as having other-than-temporary impairment and those that would not support other-than-temporary impairment; and

documentation of the results of these analyses, as required under business policies

For debt securities that are not deemed to be credit impaired, management performs additional analysis to assess whether it intends to sell or would more-likely-than-not be required to sell the investment before the expected recovery of the amortized cost basis. Management has asserted that it has no intent to sell and that it believes it is more-likely-than-not that it will not be required to sell the investment before recovery of its amortized cost basis.

Similarly, for equity securities, management considers the various factors described above including its intent and ability to hold the equity security for a period of time sufficient for recovery to amortized cost. Where management lacks that intent or ability, the security's decline in fair value is deemed to be other-than-temporary and is recorded in earnings.

For debt securities, a critical component of the evaluation for other-than-temporary impairment is the identification of credit-impaired securities where management does not receive cash flows sufficient to recover the entire amortized cost basis of the security. The extent of Fidelity's analysis regarding credit quality and the stress on assumptions used in the analysis had been refined for securities where the current fair value or other characteristics of the security warrant.

Fidelity recorded impairment charges on securities of \$951,000 during the nine months ended June 30, 2012 compared to \$1.5 million during fiscal 2011. During the fiscal year ended September 30, 2011, \$1.1 million of impairment charges were recorded on six investments in pooled trust preferred securities resulting from several factors, including a downgrade on their credit ratings, failure to pass their principal coverage tests, indications of a break in yield, and the decline in the net present value of their projected cash flows. Management of Fidelity has deemed the impairment on these six trust preferred securities to be other-than-temporary based upon these factors and the duration and extent to which the market value has been less than cost, the inability to forecast a recovery in market value, and other factors concerning the issuers in the pooled security. Fidelity also recorded \$135,000 of impairment charges on a single-issuer trust preferred security. The impairment charges were a result of the financial institution issuer being put on regulatory order after several quarters of losses and it started deferring interest payments on both its trust preferred and its TARP preferred shares outstanding. During the fiscal year ended September 30, 2010, \$3.5 million of impairment charges were recorded on six investments in pooled trust preferred securities resulting from several factors, including a downgrade on their credit ratings, failure to pass their principal coverage tests, indications of a break in yield, and the decline in the net present value of their projected cash flows. Management of Fidelity has deemed the impairment on these six trust preferred securities to be other-than-temporary based upon these factors and the duration and extent to which the market value has been less than cost, the inability to forecast a recovery in market value, and other factors concerning the issuers in the pooled security. For the fiscal year ended September 30, 2011, Fidelity recognized in earnings impairment charges of \$204,000 and in other comprehensive income non-credit impairment charges of \$17,000 relating to one private label mortgage-backed security. The impairment charges resulted from a downgrade in its credit rating, as well as independent third-party analysis of the underlying collateral of the bond. For the fiscal year ended September 30, 2010, Fidelity recognized in earnings impairment charges of \$57,000 and in other comprehensive income non-credit impairment charges of \$294,000 relating to one private label mortgage-backed security. The impairment charges resulted from a downgrade in its credit rating, as well as

independent third-party analysis of the underlying collateral of the bond. Based on the factors concerning the issuer, management of Fidelity deemed the impairment on this security to be other-than-temporary. During the fiscal year ended September 30, 2011, Fidelity recognized in earnings impairment charges of \$87,000 on one investment in common stock of a local financial institution resulting from the duration and extent to which the market value has been less than the cost and the performance of the financial institution over the past two years. There were no impairment charges taken on these securities for the fiscal year ended September 30, 2010.

At June, 2012, Fidelity Savings Bank's investment portfolio policy allowed investments in instruments such as: (i) U.S. Treasury obligations; (ii) U.S. federal agency or federally sponsored agency obligations; (iii) municipal obligations; (iv) mortgage-backed securities and collateralized mortgage obligations; (v) certificates of deposit; (vi) investment grade corporate bonds; and (vii) equity securities and mutual funds. The Board of Directors may authorize additional investments.

As a source of liquidity and to supplement its lending activities, Fidelity Savings Bank has invested in residential mortgage-backed securities. Mortgage-backed securities can serve as collateral for borrowings and, through repayments, as a source of liquidity. Mortgage-backed securities represent a participation interest in a pool of single-family or other types of mortgages. Principal and interest payments are passed from the mortgage originators, through intermediaries (generally quasi-governmental agencies) that pool and repackage the participation interests in the form of securities, to investors, like us. The quasi-governmental agencies, which include GinnieMae, FreddieMac, and FannieMae, guarantee the payment of principal and interest to investors.

Mortgage-backed securities typically are issued with stated principal amounts. The securities are backed by pools of mortgages that have loans with interest rates that are within a set range and have varying maturities. The underlying pool of mortgages can be composed of either fixed-rate or adjustable-rate mortgage loans. Mortgage-backed securities are generally referred to as mortgage participation certificates or pass-through certificates. The interest rate risk characteristics of the underlying pool of mortgages (*i.e.*, fixed-rate or adjustable-rate) and the prepayment risk are passed on to the certificate holder. The life of a mortgage-backed pass-through security is equal to the life of the underlying mortgages. Expected maturities will differ from contractual maturities due to scheduled repayments and because borrowers may have the right to call or prepay obligations with or without prepayment penalties. Mortgage-backed securities issued by GinnieMae, FreddieMac, and FannieMae make up a majority of the pass-through certificates market.

Fidelity Savings Bank also invests in mortgage-related securities, primarily collateralized mortgage obligations issued or sponsored by GinnieMae, FreddieMac, and FannieMae as well as private issuers. Investments in private issuer collateralized mortgage obligations are made because these issues generally are higher yielding than agency sponsored collateralized mortgage obligations with similar average life and payment characteristics. All such investments are rated AAA by a nationally recognized credit rating agency. Collateralized mortgage obligations are a type of debt security that aggregates pools of mortgages and mortgage-backed securities and creates different classes of collateralized mortgage obligations securities with varying maturities and amortization schedules as well as a residual interest with each class having different risk characteristics. The cash flows from the underlying collateral are usually divided into tranches or classes whereby tranches have descending priorities with respect to the distribution of principal and interest repayment of the underlying mortgages and mortgage backed securities as opposed to pass through mortgage backed securities where cash flows are distributed pro rata to all security holders. Unlike mortgage backed-securities from which cash flow is received and prepayment risk is shared pro rata by all securities holders, cash flows from the mortgages and mortgage-backed securities underlying collateralized mortgage obligations are paid in accordance with a predetermined priority to investors holding various tranches of such securities or obligations. A particular tranche or class may carry prepayment risk which may be different from that of the underlying collateral and other tranches. Collateralized mortgage obligations attempt to moderate reinvestment risk associated with conventional mortgage-backed securities resulting from unexpected prepayment activity.

Under FDIC regulations, Fidelity Savings Bank may only invest in listed equity securities or mutual funds.

Sources of Funds

General. Savings deposits obtained through the home office and branch offices have traditionally been the principal source of Fidelity Savings Bank's funds for use in lending and for other general business purposes. Fidelity Savings Bank also derives funds from scheduled amortizations and prepayments of outstanding loans and mortgage-backed securities and sales of securities available-for-sale. Fidelity Savings Bank also may borrow funds from the FHLB of Pittsburgh and other sources. Borrowings generally may be used on a short-term basis to compensate for seasonal or other reductions in savings deposits or other inflows at less than projected levels, as well as on a longer-term basis to support expanded lending activities.

Deposits. Fidelity Savings Bank's current deposit products include savings accounts, demand deposit accounts, NOW accounts, money market deposit accounts, and certificates of deposit. Terms on interest-bearing deposit accounts range from three months to ten years. Included among these deposit products are Individual Retirement Account (IRA) certificates.

Fidelity Savings Bank's deposits are obtained primarily from residents of Allegheny and Butler Counties. The principal methods used by Fidelity Savings Bank to attract deposit accounts include the offering of a wide variety of services and accounts, competitive interest rates, on-line account opening, and convenient office locations and service hours. Also, during fiscal 2008, Fidelity Savings Bank joined the Certificate of Deposit Account Registry Service (CDARS). This service enables Fidelity Savings Bank to provide customers with

Table of Contents

access to up to \$50 million in FDIC insurance on CD investments. If a customer places a deposit using the CDARS service the deposit is divided into amounts under \$250,000 and spread out among other banks that use CDARS making the full amount eligible for FDIC insurance. It is a deposit-gathering tool that Fidelity Savings Bank is using to build more profitable relationships without having to pledge collateral. As of September 30, 2011 Fidelity Savings Bank had \$2.0 million of CDARS deposits.

The following table shows the distribution of, and certain other information relating to Fidelity Savings Bank's deposits by type as for the periods indicated.

In recent years, Fidelity Savings Bank has been required by market conditions to rely increasingly on short term certificate accounts and other deposit alternatives that are more responsive to market interest rates than fixed rate, fixed term certificates that were historically Fidelity Savings Bank's primary source of deposits. As a result of consumer preference for shorter term, market rate sensitive accounts, Fidelity Savings Bank has, like most financial institutions, experienced a significant shift in deposits towards relatively short term, market rate accounts. In recent years, Fidelity Savings Bank has been successful in attracting retirement accounts which have provided Fidelity Savings Bank with a relatively stable source of funds. As of June 30, 2012, Fidelity Savings Bank's total retirement funds were \$47.6 million or 10.2% of its total deposits.

Fidelity Savings Bank attempts to control the flow of deposits by pricing its accounts to remain generally competitive with other financial institutions in its market area, but does not necessarily seek to match the highest rates paid by competing institutions. In this regard, the senior officers of Fidelity Savings Bank meet weekly to determine the interest rates which Fidelity Savings Bank will offer to the general public.

Rates established by Fidelity Savings Bank are also affected by the amount of funds needed by Fidelity Savings Bank on both a short-term and long-term basis, alternative sources of funds, and the projected level of interest rates in the future. The ability of Fidelity Savings Bank to attract and maintain deposits and Fidelity Savings Bank's cost of funds have been, and will continue to be, significantly affected by economic and competitive conditions.

Certificates of Deposits. Maturities of certificates of deposit of \$100,000 or more that were outstanding as of June 30, 2012 are summarized as follows:

Maturity (Dollar amounts in thousands)	Amount
3 months or less	\$ 7,833
Over 3 months through 6 months	9,425
Over 6 months through 12 months	8,083
Over 12 months	15,783

Borrowings. Fidelity Savings Bank is eligible to obtain advances from the FHLB of Pittsburgh upon the security of the common stock it owns in that bank, securities owned by Fidelity Savings Bank and held in safekeeping by the FHLB, and certain of its residential mortgages, provided certain standards related to credit worthiness have been met. As of October 2, 2009, specific collateral is required to be pledged for borrowings with the FHLB of Pittsburgh. Such advances are made pursuant to several different credit programs, each of which has its own interest rate and range of maturities. FHLB advances are generally available to meet seasonal and other withdrawals of deposit accounts, to expand lending, and to aid the effort of members to establish better asset and liability management through the extension of maturities of liabilities. At June 30, 2012, Fidelity Savings Bank had \$65.0 million of long-term advances outstanding. Original maturities of long-term debt range from four to ten years.

Fidelity Savings Bank also, from time to time, enters into sales of securities under agreements to repurchase (repurchase agreements). Such repurchase agreements are treated as financings and the obligations to repurchase securities sold are reflected as liabilities in the statement of financial condition. At June 30, 2012, Fidelity Savings Bank had \$64.0 million in repurchase agreements outstanding, including \$55.0 million in retail repurchase agreements and \$9.0 million in wholesale structured repurchase agreements.

Fidelity Savings Bank has five separate repurchase agreements with PNC Bank, N.A. (PNC) and Citigroup Global Markets, Inc. (CGMI). Each agreement is structured as the sale of a specified amount of identified securities to the counterparty which Fidelity Savings Bank has agreed to repurchase five to seven years after the initial sale. The underlying securities consist of various U.S. Government and agency obligations, municipal obligations, and mortgage-backed securities which continue to be carried as assets of Fidelity Savings Bank and Fidelity Savings Bank is entitled to receive interest and principal payments on the underlying securities. Fidelity Savings Bank is required to post additional collateral if the market value of the securities subject to repurchase falls below 105% of principal amount. While the repurchase agreements are in effect, Fidelity Savings Bank is required to pay interest quarterly at the rate specified in the agreement. Four of the agreements provide an initial fixed or floating interest rate that converts to a floating or fixed rate at the end of six months to one year. The counterparty has the option of terminating the five repurchase agreements at the conversion date and quarterly thereafter. Fidelity Savings Bank also has one fixed rate agreement that does not convert. The counterparty may terminate this agreement at the end of six months. The counterparty may also terminate any of the repurchase agreements upon certain events of default including Fidelity Savings Bank's failure to maintain well-capitalized status. Upon termination, Fidelity Savings Bank would be required to repurchase the securities. At June 30, 2012, Fidelity Savings Bank had \$25.0 million outstanding with PNC and \$30.0 million outstanding with CGMI. At June 30, 2012, Fidelity Savings Bank had \$10.0 million in structured repurchase agreements scheduled to mature in 2012, \$30.0 million scheduled to mature in 2013 and \$15.0 million scheduled to mature in 2014.

At June 30, 2012, Fidelity had outstanding subordinated debt in the amount of \$7.7 million. The debentures were issued on September 20, 2007 and initially bore an interest rate of 7.05% per annum through December 15, 2007. The rate adjusts quarterly thereafter to three-month LIBOR plus a margin of 136 basis points. The debentures mature on December 15, 2037 and are callable in whole or in part at par on or after December 15, 2012. Fidelity has the right to defer payments of interest on the debentures for up to five years. During any period of deferral, however, Fidelity will be prohibited from paying dividends on any class of its capital stock. The debt was issued to a Delaware statutory business trust, FB Capital Statutory Trust III, established by Fidelity for this purpose. The trust purchased the debentures using funds from the sale of trust preferred securities on substantially the same terms as the subordinated debt. During the second quarter of fiscal 2008, Fidelity entered into an interest rate swap to manage its exposure to interest rate risk. This interest rate swap transaction involved the exchange of Fidelity's floating rate interest rate payment on its \$7.5 million in floating rate preferred securities for a fixed rate interest payment without the exchange of the underlying principal amount (see Note 18 Derivative Instruments).

Fidelity is not involved in any legal proceedings other than legal proceedings occurring in the ordinary course of business, of which none are expected to have a material adverse effect on Fidelity. **FIDELITY MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS**

Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 contains safe harbor provisions regarding forward-looking statements. When used in this discussion, the words believes, anticipates, contemplates, expects, and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties which could cause actual results to differ materially from those projected. Those risks and uncertainties include changes in interest rates, risks associated with the effect of integrating newly acquired businesses, the ability to control costs and expenses, and general economic conditions. Fidelity does not undertake to, and specifically disclaims any obligation to, update any such forward-looking statements.

Fidelity's business is conducted principally through its wholly-owned subsidiary, Fidelity Savings Bank. All references to Fidelity refer collectively to Fidelity and Fidelity Savings Bank, unless the context indicates otherwise.

Critical Accounting Policies, Judgments, and Estimates

Certain critical accounting policies affect the more significant judgments and estimates used in the preparation of the consolidated financial statements. These policies are contained in Note 1 to the consolidated financial statements.

Our accounting and reporting policies conform with U.S. generally accepted accounting principles and general practices within the financial services industry. Recent accounting pronouncements are contained in Note 1 to the consolidated financial statements. The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. There can be no assurances that actual results will not differ from those estimates. If actual results are different than management's judgments and estimates, Fidelity's financial results could change, and such change could be material.

Allowance for Loan Losses. Fidelity considers that the determination of the allowance for loan losses involves a higher degree of judgment and complexity than its other significant accounting policies. The balance in the allowance for loan losses is determined based on management's review and evaluation of the loan portfolio in relation to past loss experience, the size and composition of the portfolio, current economic events and conditions, and other pertinent factors, including management's assumptions as to future delinquencies, recoveries, and losses. All of these factors may be susceptible to significant change. To the extent actual outcomes differ from management's estimates, additional provisions for loan losses may be required that would adversely impact earnings in future periods.

Valuation of Goodwill. Fidelity assesses the impairment of goodwill at least annually and whenever events or significant changes in circumstances indicate that the carrying value may not be recoverable. Factors that Fidelity considers important in determining whether to perform an impairment review include significant underperformance relative to forecasted operating results and significant negative industry or economic trends. If Fidelity determines that the carrying value of goodwill may not be recoverable, then Fidelity will assess impairment based on a projection of discounted future cash flows and measure the amount of impairment based on fair value.

Table of Contents

Accounting for Stock Options. Stock based compensation expense is reported in net income utilizing the fair-value-based method in accordance with U.S. generally accepted accounting principles. The fair value of each option award is estimated at the date of grant using a Black-Scholes option-pricing model that uses the assumptions noted in Note 13. Expected volatilities are based on the historical volatility of Fidelity's stock. Fidelity uses historical data to estimate option exercise and employee and director terminations within the model, as well as the expected term of options granted, which represents the period of time that options granted are expected to be outstanding. Separate groups of employees and directors that have similar historical exercise behavior are considered separately for valuation purposes. Ranges result from certain groups of employees and directors exhibiting different behavior. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. All of these assumptions may be susceptible to change and would impact earnings in future periods.

Securities. Securities for which Fidelity has the positive intent and ability to hold to maturity are reported at cost adjusted for premiums and discounts that are recognized in interest income using the interest method over the period to maturity. Declines in the fair value of individual securities below their amortized cost that are other-than-temporary result in writedowns of the individual securities to their estimated fair value. For a discussion on the determination of an other-than-temporary decline, please refer to Note 1 of the consolidated financial statements. Fidelity recognized other-than-temporary writedowns of \$1.5 million and \$3.6 million in fiscal 2011 and 2010, respectively.

Impaired Loans. A loan is considered impaired when, based on current information and events, it is probable that Fidelity Savings Bank will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan by loan basis for commercial and construction loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent.

Large groups of smaller balance homogeneous loans are collectively evaluated for impairment. Accordingly, Fidelity Savings Bank does not separately identify individual consumer and residential loans for impairment disclosures, unless such loans are the subject of a restructuring agreement.

Income Taxes. Deferred income taxes are provided on the liability method whereby deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets and liabilities are adjusted through the provision for income taxes for the effects of changes in tax laws and rates on the date of enactment. Fidelity establishes a valuation allowance for deferred tax assets in accordance with U.S. generally accepted accounting principles when it is more-likely-than-not that the deferred tax asset will not be realized through carry-back to taxable income in prior years, future reversals of existing taxable temporary differences and, to a lesser extent, future taxable income.

Fidelity did not record any unrecognized tax benefits as of September 30, 2011 and 2010. Fidelity recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses. During the years ended September 30, 2011 and 2010, Fidelity recognized neither interest nor penalties. Fidelity has not recorded an accrual for the payment of interest and penalties at September 30, 2011 and 2010.

Table of Contents**Comparison of Financial Condition at June 30, 2012 and September 30, 2011**

Total assets of Fidelity decreased \$1.3 million, or 0.2%, to \$665.6 million at June 30, 2012 from \$666.9 million at September 30, 2011. Significant changes in individual categories include decreases in securities held-to-maturity of \$10.7 million and net loans outstanding of \$11.8 million, offset by increases in cash and cash equivalents of \$16.5 million and foreclosed real estate of \$3.8 million. The decrease in securities held-to-maturity is a result of maturities and repayments. The decrease in net loans reflects \$74.4 million of repayments, partially offset by \$59.0 million in loan originations. The increase in cash and cash equivalents is a result of an increase in maturities and repayments of loans and securities. The increase in foreclosed real estate is a result of one large commercial real estate property that was acquired.

Total liabilities of Fidelity decreased \$3.6 million, or 0.6%, to \$612.9 million at June 30, 2012 from \$616.4 million at September 30, 2011. The decrease is primarily due to a decrease in long-term debt of \$15.0 million, and a decrease in securities sold under agreement to repurchase of \$12.4 million, partially offset by an increase in deposits of \$23.2 million. The decrease in long-term debt and securities sold under agreement to repurchase are a result of maturities. The increase in deposits reflects management's ongoing efforts to attract and retain deposits.

Stockholders' equity increased to \$52.7 million at June 30, 2012, compared to \$50.5 million at September 30, 2011. This result reflects total comprehensive income for the nine-month period ended June 30, 2012 of \$2.7 million; stock issued under the Dividend Reinvestment Plan of \$18,000; stock-based compensation expense of \$14,000; and stock options exercised of \$7,000. Offsetting these increases were common and preferred stock cash dividends paid of \$446,000. Approximately \$3.4 million of the balances in retained earnings as of June 30, 2012 and September 30, 2011 represent base year bad debt deductions for tax purposes only, as they are considered restricted accumulated earnings.

Non-Performing Assets

The following table sets forth information regarding non-accrual loans and foreclosed real estate held by Fidelity at the dates indicated. The table does not include \$6.6 million and \$5.5 million of accruing loans at June 30, 2012 and September 30, 2011, respectively, that were more than 90 days past due but were otherwise performing in accordance with their terms. Included in the \$6.6 million of accruing loans at June 30, 2012 are \$3.8 million of commercial construction loans, \$1.6 million of commercial business loans, and \$930,000 of home equity loans that have reached their maturity dates and are in the process of renewing or payoff.

	June 30, 2012	September 30, 2011
	(Dollars in thousands)	
Non-accrual residential real estate loans (one-to-four family)	\$ 1,067	\$ 1,764
Non-accrual construction, multi-family residential and commercial real estate loans	4,106	4,398
Non-accrual installment loans	345	726
Non-accrual commercial business loans	783	9
Total nonperforming loans	\$ 6,301	\$ 6,897
Total nonperforming loans as a percent of net loans receivable	1.88%	1.99%
Total foreclosed real estate	\$ 6,906	\$ 3,125
Total nonperforming loans and foreclosed real estate as a percent of total assets	1.98%	1.50%

Table of Contents

Included in non-performing loans at June 30, 2012 are fifteen single-family residential real estate loans totaling \$1.1 million, four commercial real estate loans totaling \$4.1 million, sixteen installment loans totaling \$345,000, and seven commercial business loans totaling \$783,000. Non-performing loans decreased \$596,000 to \$6.3 million at June 30, 2012 from \$6.9 million at September 30, 2011. The decrease was primarily attributed to non-accrual residential real estate loans and non-accrual installment loans, which was offset by increases in non-accrual commercial business loans added during the current fiscal year.

At June 30, 2012, Fidelity had an allowance for loan losses of \$4.3 million or 1.3% of gross loans receivable, as compared to an allowance of \$5.8 million or 1.7% of gross loans receivable at September 30, 2011. The allowance for loan losses equals 68.1% of non-performing loans at June 30, 2012 compared to 83.6% at September 30, 2011. The level of the allowance for loan losses as a percentage of non-performing loans reflects the concentration of non-performing loans in the commercial real estate category, most of which are collateral-dependent loans that do not have a related allowance for loan losses as a result of applying impairment tests prescribed under U.S. generally accepted accounting principles (see Footnote 7). Management believes the balance in the allowance for loan losses is adequate based on its analysis of quantitative and qualitative factors as of June 30, 2012. Management has evaluated its entire loan portfolio, including these non-performing loans, and the overall allowance for loan losses and believes that the allowance for losses on loans at June 30, 2012 is reasonable. See also Provision for Loan Losses on page 111. However, there can be no assurance that the allowance for loan losses is sufficient to cover possible future loan losses.

Fidelity recognizes that it must maintain an Allowance for Loan and Lease Losses (ALLL) at a level that is adequate to absorb estimated credit losses associated with the loan and lease portfolio. Fidelity's Board of Directors has adopted an ALLL policy designed to provide management with a systematic methodology for determining and documenting the ALLL each reporting period. This methodology was developed to provide a consistent process and review procedure to ensure that the ALLL is in conformity with Fidelity's policies and procedures and other supervisory and regulatory guidelines.

Fidelity's ALLL methodology incorporates management's current judgments about the credit quality of the loan portfolio. The following factors are considered when analyzing the adequacy of the allowance: historical loss experience; volume; type of lending conducted by Fidelity Savings Bank; industry standards; the level and status of past due and non-performing loans; the general economic conditions in Fidelity Savings Bank's lending area; and other factors affecting the collectability of the loans in its portfolio. The primary elements of Fidelity Savings Bank's methodology include portfolio segmentation and impairment measurement. Management acknowledges that this is a dynamic process and consists of factors, many of which are external and out of

management's control, that can change often, rapidly and substantially. The adequacy of the ALLL is based upon estimates considering all the aforementioned factors as well as current and known circumstances and events. There is no assurance that actual portfolio losses will not be substantially different than those that were estimated.

Comparison of Results of Operations for the Nine Months Ended June 30, 2012 and 2011**Net Income**

Fidelity recorded net income for the nine months ended June 30, 2012 of \$856,000 and net income available to common stockholders of \$548,000 or \$0.17 per diluted common share compared to net income of \$938,000 and net income available to common stockholders of \$630,000 or \$0.21 per diluted common share for the same period in fiscal 2011. The \$82,000 decrease in net income primarily reflects a decrease in OTTI charges of \$460,000, an increase in income tax benefit of \$173,000, and an increase in non-interest income (excluding OTTI charges) of \$446,000, partially offset by a decrease in net interest income of \$491,000, an increase in provision for loan losses of \$375,000, and an increase in noninterest expense of \$295,000. OTTI charges were \$951,000 for the nine months ended June 30, 2012 compared to \$1.4 million for the prior year period.

Table of Contents

Fidelity's net income available to common stockholders and diluted earnings per common share for the nine months ended June 30, 2012 and 2011 reflects the impact of \$308,000 of preferred stock dividends and discount accretion in each period.

Interest Rate Spread

Fidelity's tax-equivalent interest rate spread was 2.12% (annualized) in the nine months ended June 30, 2012 and 2011. Between the nine-month periods, average yields and cost of funds both declined by 29 basis points. The following table shows the average yields earned on Fidelity's interest-earning assets and the average rates paid on its interest-bearing liabilities for the periods indicated, the resulting interest rate spreads, and the net yields on interest-earning assets.

- (1) Interest income on tax-exempt investments has been adjusted for federal income tax purposes using a rate of 34%. Interest income on tax-exempt investment securities was \$896,000 and \$1.1 million and the yield was 3.81% and 4.08%, prior to adjusting for federal income tax for the nine months ended June 30, 2012 and 2011, respectively.

Interest Income

Interest on loans decreased \$1.4 million or 9.5% to \$13.3 million for the nine months ended June 30, 2012, compared to \$14.7 million in the same period in 2011. The decrease reflects a decrease in the average size of the loan portfolio and a decrease in the average yield earned on the loan portfolio. For the nine-month period ended June 30, 2012, the average outstanding loan balances decreased \$10.1 million or 2.8% and the average yield decreased by 37 basis points from 5.44% in the prior period to 5.07% in the current period. The average loan balances continued to decrease primarily due to increases in principal repayments mainly caused by customers refinancing their mortgage loans. Also, due to the current low interest rate environment, for asset/liability purposes, Fidelity Savings Bank continues to sell a portion of the fixed rate, single-family mortgage loans that it originates.

Interest on mortgage-backed securities decreased \$224,000 or 9.2% to \$2.2 million for the nine-month periods ended June 30, 2012, as compared to \$2.4 million in the same period in 2011. The decrease reflects an

Table of Contents

increase in the average balance of mortgage-backed securities owned, offset by a decrease in the average yield earned on the portfolio. For the nine-month period ended June 30, 2012, the average balance of mortgage-backed securities increased \$12.8 million or 11.2% and the average yield decreased by 52 basis points from 2.83% in the prior period to 2.31% in the current period. The yield earned on mortgage-backed securities is affected, to some degree, by the repayment rate of loans underlying the securities. Premiums or discounts on the securities, if any, are amortized to interest income over the life of the securities using the level yield method. During periods of falling interest rates, repayments of the loans underlying the securities generally increase, which shortens the average life of the securities and accelerates the amortization of the premium or discount. Falling rates, however, also tend to increase the market value of the securities.

Interest on interest-bearing demand deposits with other institutions and investment securities (non-tax equivalent) decreased \$560,000 or 17.9% to \$2.6 million for the nine months ended June 30, 2012, as compared to \$3.1 million in the same period in 2011. The decrease reflects a decrease in the average balance of investment securities in the portfolio and a decrease in the yield earned on these investments. For the nine-month period ended June 30, 2012, the average balance of interest-bearing demand deposits with other institutions and investment securities decreased \$30.8 million or 17.1% and the average tax-equivalent yield decreased by 3 basis points from 2.71% in the prior period to 2.68% in the current period. The lower average balances were primarily related to repayments, calls and maturities of investment securities. The decreases in the yields are a result of the current lower interest rate environment.

Interest Expense

Interest on deposits decreased \$340,000 or 10.1% to \$3.0 million for the nine-month period ended June 30, 2012, as compared to \$3.4 million during the same period in 2011. The decrease reflects both an increase in the average balance of deposits and a decrease in the average cost of the deposits. For the nine-month period ended June 30, 2012, the average balance of deposits increased \$6.7 million or 1.7% and the average yield decreased by 13 basis points from 1.14% in the prior period to 1.01% in the current period. Fidelity manages its cost of interest-bearing deposit accounts by diligently monitoring the interest rates on its products as well as the rates being offered by its competition through bi-weekly interest rate committee meetings and utilizing rate surveys and subsequently adjusting rates accordingly.

Interest on securities sold under agreement to repurchase, including retail, term, and wholesale structured borrowings, decreased \$960,000 or 27.7% to \$2.5 million for the nine-month period ended June 30, 2012, as compared to \$3.5 million during the same period in 2011. The decrease for the nine-month period ended June 30, 2012 reflects both a decrease in the cost of these funds and a lower level of average securities sold under agreement to repurchase. For the nine-month period ended June 30, 2012, the average balance of securities sold under agreement to repurchase decreased \$26.0 million or 26.8% and the average yield decreased by 6 basis points from 4.78% in the prior period to 4.72% in the current period. Fidelity Savings Bank had \$55.0 million and \$65.0 million of wholesale structured borrowings outstanding at June 30, 2012 and 2011, respectively.

Interest on long-term debt, including FHLB fixed rate advances and Convertible Select advances, decreased \$386,000 or 19.1% to \$1.6 million for the nine-month period ended June 30, 2012, as compared to \$2.0 million in the same period in 2011. The decrease reflects both a decrease in the average balance of the debt and a decrease in the average cost of the debt. For the nine-month period ended June 30, 2012, the average balance of long-term debt decreased \$11.1 million or 13.8% and the average cost decreased by 20 basis points from 3.38% in the prior period to 3.18% in the current period. The decrease in the average balance and average cost reflects Fidelity's decision to de-leverage the balance sheet and was accomplished by using its excess cash to pay off higher rate long-term debt that has matured between the periods.

Net Interest Income

Fidelity's net interest income decreased \$491,000 or 4.4% to \$10.6 million, for the nine-month period ended June 30, 2012, as compared to \$11.1 million in the same period in 2011. The decrease in net interest income for

Table of Contents

the nine-month period ended June 30, 2012 reflects interest income decreasing more than interest expense. Interest income decreased \$2.2 million or 10.8% to \$18.0 million as compared to \$20.2 million in the same period in 2011. The decrease reflects both a decrease in the average balance of interest-earning assets and a decrease in the yields earned on these assets. Interest expense decreased \$1.7 million or 18.4% to \$7.5 million as compared to \$9.1 million in the same period in 2011. The decrease reflects both a decrease in the average balance of interest-bearing liabilities and a decrease in the interest rates paid on interest-bearing liabilities. For the nine months ended June 30, 2012 and 2011 the ratio of average interest-earning assets to average interest-bearing liabilities was 113.7% and 112.6%, respectively.

Provision for Loan Losses

The provision for loan losses was \$1.3 million and \$900,000 for the nine-month periods ended June 30, 2012 and 2011. At June 30, 2012, the allowance for loan losses decreased to \$4.3 million from \$5.8 million at September 30, 2011. Net loan charge-offs were \$2.8 million for the nine months ended June 30, 2012 as compared to net loan charge-offs of \$1.1 million for the nine months ended June 30, 2011.

The provision for loan losses is charged to operations to bring the total allowance for loan losses to a level that represents management's best estimates of the losses inherent in the portfolio based on a quarterly review by management of factors such as historical loss experience, volume, type of lending conducted by Fidelity Savings Bank, industry standards, the level and status of past due and non-performing loans, the general economic conditions in Fidelity Savings Bank's lending area, and other factors affecting the collectability of the loans in its portfolio. However, there can be no assurance that the allowance for loan losses will be adequate to cover losses which may be realized in the future and that additional provisions for losses will not be required.

Non-interest Income

Excluding OTTI charges recognized in earnings of \$951,000 for the nine months ended June 30, 2012, and \$1.4 million for the nine months ended June 30, 2011, respectively, total non-interest income increased \$446,000 or 12.7% to \$4.0 million for the nine-month period ended June 30, 2012 as compared to \$3.5 million during the same period in 2011. The increase for the nine month period ended June 30, 2012 is primarily attributed to an increase in loan service charges and fees, an increase in the gain on sales of loans, and an increase in other operating income, partially offset by a decrease in the gains on the sale of securities.

Impairment charges on securities were \$951,000 and \$1.4 million for the nine months ended June 30, 2012 and 2011, respectively. The impairment charges for the current nine-month period relate to Fidelity's holdings of a private label mortgage-backed security, a pooled trust preferred security, and common stock holdings of three local financial institutions. The impairment charges for the prior nine-month period related to Fidelity's holdings of a private label mortgage-backed security, five pooled trust preferred securities, a single issuer trust preferred security, and common stock of a local financial institution.

Loan service charges and fees increased \$91,000 or 18.5% to \$582,000 for the nine months ended June 30, 2012 as compared to \$491,000 during the same period in 2011. The increase for the nine month period ended June 30, 2012 is primarily attributed to an increase in non-deferred loan fees and title insurance fees.

Fidelity recognized \$381,000 in net realized gains on the sales of securities for the nine months ended June 30, 2012, as compared to \$586,000 during the same period in 2011. Sales were made from the available-for-sale portfolio as part of management's asset/liability management strategies.

Gains on the sales of loans were \$558,000 for the nine months ended June 30, 2012, as compared to \$249,000 during the same period in 2011. The nine-month period ended June 30, 2012 results reflect the sale of approximately \$31.3 million of fixed-rate, single-family mortgage loans, compared to \$12.8 million of similar loan sales during the prior year period. Due to the low interest rate environment, Fidelity Savings Bank continues to sell a portion of the fixed rate, single-family mortgage loans it originates.

Table of Contents

Deposit service charges and fees were \$875,000 for the nine months ended June 30, 2012 as compared to \$909,000 during the same period in 2011. The decrease is attributed to a decrease in the net volume of fees collected for returned checks.

Automated teller machine (ATM) fees were \$786,000 for the nine months ended June 30, 2012 as compared to \$733,000 during the same period in 2011. The increase for the nine months ended June 30, 2012 is attributed to an increase in the interchange fees earned on debit card transactions due to an increase in the volume of these transactions.

Non-insured investment product income was \$167,000 for the nine months ended June 30, 2012 as compared to \$152,000 for the same period in 2011. The increase is primarily attributed to an increase in the commissions earned on the sales of these products due to higher volumes of sales.

Other income was \$426,000 for the nine months ended June 30, 2012 as compared to \$193,000 for the same period in 2011. The increase is primarily attributable to an increase in the rents received from certain foreclosed real estate properties held by Fidelity.

Non-interest Expense

Total non-interest expense for the nine-month period ended June 30, 2012 increased \$295,000, or 2.6%, to \$11.6 million, as compared to \$11.3 million for the same period in 2011. The increase for the nine months ended June 30, 2012 is primarily attributed to an increase in real estate owned expense and an increase in other operating expense, partially offset by a decrease in FDIC insurance premiums and a decrease in advertising expense.

Compensation and benefits expense was \$6.6 million for the nine-month period ended June 30, 2012, as compared to \$6.5 million for the same period in 2011. Variances for the nine months ended June 30, 2012 include an increase in salaries expense and a decrease in retirement fund expense. The decrease in retirement fund expense is attributed to an accrual adjustment posted in the prior period to fulfill the contributions made to the Employee Stock Ownership Plan in December 2010; there were no similar adjustments made in the current period.

Office occupancy and equipment expense was \$800,000 for the nine months ended June 30, 2012, respectively, as compared to \$786,000 for the same period in 2011. The increase for the nine months ended June 30, 2012 is primarily attributed to an increase in rent expense, as a full period was recognized for the McCandless Crossing branch for the current period as opposed to a partial amount for the prior year period.

Depreciation and amortization expense was \$403,000 for the nine months ended June 30, 2012 as compared to \$429,000 for the same period in 2011. The decrease is attributed to depreciation on furniture and fixtures, as items depreciating in the prior period were fully depreciated in the current period.

Advertising expense was \$200,000 for the nine months ended June 30, 2012, as compared to \$300,000 for the same period in 2011. The decrease is attributed to a reduction in the advertising accrual.

Professional fees were \$328,000 for the nine months ended June 30, 2012 as compared to \$336,000 for the same period in 2011. The decrease for the nine months ended June 30, 2012 is primarily attributed to a decrease in legal fees, partially offset by an increase in audit expense.

Federal deposit insurance premiums were \$665,000 for the nine months ended June 30, 2012, as compared to \$820,000 for the same period in 2011. The decrease for the nine months ended June 30, 2012 is primarily due to a change in how deposit assessments are calculated. Assessments are now based on average consolidated total assets less tangible equity capital of a financial institution as opposed to its domestic deposit base used previously.

Table of Contents

Other operating expenses were \$2.2 million for the nine months ended June 30, 2012, as compared to \$1.7 million for the same periods in 2011. The increase is primarily attributed to an increase in consulting fees and foreclosed real estate expense and write-downs.

Income Taxes

An income tax benefit of \$182,000 was recorded for the nine months ended June 30, 2012 as compared to a benefit of \$9,000 for the same period in 2011. The tax benefits in the current period were significantly impacted by the OTTI charges during the periods. The OTTI charges recorded in the current periods caused pre-tax income to be lower than tax-exempt income; therefore a tax benefit was recorded. Tax-exempt income includes: income earned on certain municipal investments that qualify for state and/or federal income tax exemption; income earned by Fidelity Savings Bank's Delaware subsidiary, which is not subject to state income tax; and

earnings on Bank-owned life insurance policies, which are exempt from federal taxation. State and federal tax-exempt income for the nine-month period ended June 30, 2012 was \$4.2 million and \$874,000, respectively, compared to \$4.7 million and \$1.1 million, respectively, for the nine-month period ended June 30, 2011.

Capital Requirements

The Federal Reserve Board measures capital adequacy for bank holding companies on the basis of a risk-based capital framework and a leverage ratio. The guidelines include the concept of Tier 1 capital and total capital. Tier 1 capital is essentially common equity, excluding net unrealized gains (losses) on securities available-for-sale, goodwill, and cash flow hedges, plus certain types of preferred stock, including the Fidelity TARP Preferred Stock, and a portion of the Preferred Securities issued by FB Statutory Trust III in 2007. The Preferred Securities may comprise up to 25% of Fidelity's Tier 1 capital. The Series B Preferred Stock constitutes Tier 1 Capital for both the risk-weighted and leverage capital requirements. Total capital includes Tier 1 capital and other forms of capital such as the allowance for loan losses, subject to limitations, and subordinated debt. The guidelines establish a minimum standard risk-based target ratio of 8%, of which at least 4% must be in the form of Tier 1 capital. At June 30, 2012, Fidelity had Tier 1 capital as a percentage of risk-weighted assets of 13.17% and total risk-based capital as a percentage of risk-weighted assets of 14.23%.

In addition, the Federal Reserve Board has established minimum leverage ratio guidelines for bank holding companies. These guidelines currently provide for a minimum ratio of Tier 1 capital as a percentage of average total assets (the Leverage Ratio) of 3% for bank holding companies that meet certain criteria, including that they maintain the highest regulatory rating. All other bank holding companies are required to maintain a Leverage Ratio of at least 4% or be subject to prompt corrective action by the Federal Reserve. At June 30, 2012, Fidelity had a leverage ratio of 8.10%.

The FDIC has issued regulations that require insured institutions, such as Fidelity Savings Bank, to maintain minimum levels of capital. In general, current regulations require a leverage ratio of Tier 1 capital to average total assets of not less than 3% for the most highly rated institutions and an additional 1% to 2% for all other institutions. At June 30, 2012, Fidelity Savings Bank complied with the minimum leverage ratio having Tier 1 capital of 7.79% of average total assets, as defined.

Fidelity Savings Bank is also required to maintain a ratio of qualifying total capital to risk-weighted assets and off-balance sheet items of a minimum of 8%. At June 30, 2012, Fidelity Savings Bank's total capital to risk-weighted assets ratio calculated under the FDIC capital requirement was 13.76%.

stress due to unanticipated funding or market limitations. Fidelity's primary sources of funds have historically consisted of deposits, repurchase agreements, amortization and prepayments of outstanding loans, borrowings from the FHLB of Pittsburgh and other sources, including sales of securities and, to a limited extent, loans. At June 30, 2012, the total of approved loan commitments amounted to \$4.5 million. In addition, Fidelity had \$6.5 million of undisbursed loan funds at that date. The amount of savings certificates, which mature during the next twelve months totals approximately \$105.3 million, a substantial portion of which management believes, on the basis of prior experience as well as its competitive pricing strategy, will remain in Fidelity. At June 30, 2012, Fidelity Savings Bank's maximum borrowing capacity at the FHLB was \$98.5 million and \$5 million was available on a fed funds facility with a correspondent bank. At June 30, 2012, the market value of investment securities available for pledging purposes was approximately \$117.9 million.

Off Balance Sheet Commitments

Fidelity Savings Bank is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheet.

Fidelity Savings Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual amount of those instruments. Fidelity Savings Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments. A summary of the contractual amount of Fidelity's financial instrument commitments is as follows:

	June 30, 2012	September 30, 2011
	(in thousands)	
Commitments to grant loans	\$ 4,521	\$ 15,375
Unfunded commitments under lines of credit	83,626	80,270
Financial and performance standby letters of credit	1,941	592

Fidelity does not issue any guarantees that would require liability recognition or disclosure, other than its standby letters of credit. Standby letters of credit written are conditional commitments issued by Fidelity to guarantee the performance of a customer to a third party. Generally, all letters of credit, when issued have expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending other loan commitments. Fidelity Savings Bank requires collateral supporting these letters of credit as deemed necessary. Management believes that the proceeds obtained through a liquidation of such collateral would be sufficient to cover the maximum potential amount of future payments required under the corresponding guarantees. The current amount of liability as of June 30, 2012 for guarantees under standby letters of credit issued is not material.

Comparison of Results of Operations and Financial Condition for the Years Ended September 30, 2011 and 2010**Overview**

Fidelity reported net income of \$1.5 million and net income available to common stockholders of \$1.1 million or \$0.37 per diluted common share compared to net income of \$678,000 and net income available to common stockholders of \$268,000 or \$0.09 per diluted common share for fiscal 2010. The \$857,000 increase in earnings for fiscal 2011 primarily reflects a decrease in the provision for loan losses of \$400,000 and a decrease of \$2.1 million in other-than-temporary impairment (OTTI) charges on certain investment securities, partially offset by a decrease in gains on sales of investment securities of \$309,000, an increase in operating expenses of \$346,000, and an increase in the provision for income taxes of \$721,000.

Table of Contents

Return on average equity was 3.06% and 1.41% for fiscal years 2011 and 2010, respectively. Return on average assets was 0.22% and 0.09% for fiscal 2011 and 2010, respectively. The ratio of other expenses to average assets for fiscal 2011 was 2.21% compared to 2.06% in fiscal 2010.

Total assets of Fidelity were \$666.9 million at September 30, 2011, compared to \$696.7 million at September 30, 2010. Decreases were noted in cash and cash equivalents, securities available for sale, FHLB stock, loans receivable, and other assets, partially offset by increases in securities held-to-maturity, and foreclosed real estate.

The operating results of Fidelity depend primarily upon its net interest income, which is the difference between the yield earned on its interest earning assets and the rates paid on its interest bearing liabilities (interest-rate spread) and also the relative amounts of its interest earning assets and interest bearing liabilities. For the fiscal year ended September 30, 2011, the tax-equivalent interest-rate spread increased to 2.15%, as compared to 2.07% in fiscal 2010. The ratio of average interest earning assets to average interest bearing liabilities increased to 112.84% in fiscal 2011, from 110.74% in fiscal 2010. The increase in the spread for fiscal 2011 is attributed to the average rate paid on interest-bearing liabilities decreasing more than the average yield on interest-earning assets. Fidelity's operating results are also affected to varying degrees by, among other things, service charges and fees, gains and losses on sales of securities and loans, impairment charges on securities, provision for loan losses, other operating income, operating expenses, and income taxes.

Liquidity and Capital Resources

Fidelity has no operating business other than that of Fidelity Savings Bank. Fidelity's principal liquidity needs are for the payment of dividends and the payment of interest on its outstanding subordinated debt. Fidelity's principal sources of liquidity are earnings on its investment securities portfolio and dividends received from Fidelity Savings Bank. As a liquidity measure, Fidelity reduced its quarterly cash dividend from \$0.14 per share at March 31, 2009 to \$0.07 per share at June 30, 2009 and to \$0.02 per share at September 30, 2009, where it currently remains. Fidelity Savings Bank is subject to various regulatory restrictions on the payment of dividends. Furthermore, on November 17, 2009, Fidelity made informal commitments to the Federal Reserve Bank of Cleveland (Reserve Bank). Fidelity has agreed that, without the prior written approval of the Reserve Bank it will not declare or pay any dividends on outstanding shares and, also without prior written approval, that neither Fidelity nor its nonbank subsidiary will make any distributions of interest, principal or other sums on outstanding trust preferred securities. In addition, without the prior written approval of the Reserve Bank, Fidelity will not redeem or repurchase any shares of its stock and neither Fidelity nor any nonbank subsidiary will incur or guarantee any debt.

The Reserve Bank approved Fidelity's request to pay approximately \$87,500 in dividends on its outstanding series of Fidelity TARP Preferred Stock held by the U.S. Department of Treasury payable November 15, 2011 and the payment of interest in the amount of \$101,859 on its issue of trust preferred securities that was payable December 15, 2011.

Fidelity Savings Bank's primary sources of funds have historically consisted of deposits, amortization and prepayments of outstanding loans and mortgage-backed securities, borrowings from the FHLB of Pittsburgh, and other sources, including repurchase agreements and sales of investments. During fiscal 2011, Fidelity Savings Bank used its capital resources primarily to meet its ongoing commitments to fund maturing savings certificates and savings withdrawals, repay structured repurchase agreements at maturity, fund existing and continuing loan commitments, and to maintain its liquidity. At September 30, 2011 the total of approved loan commitments amounted to \$15.4 million and Fidelity had \$8.8 million of undisbursed loan funds. Unfunded commitments under lines and letters of credit amounted to \$80.9 million at September 30, 2011. The amount of savings certificates which are scheduled to mature in the twelve-month period ended September 30, 2011 is \$85.5 million. Management believes that, by evaluation of competitive instruments and pricing in its market area, it can, in most circumstances, manage and control maturing deposits so that a substantial amount of such deposits are redeposited in Fidelity.

Table of Contents

In order to increase the funds available to the Deposit Insurance Fund, the FDIC required all insured depository institutions to prepay their federal deposit insurance assessments through 2012. The prepayment was due December 30, 2009 and was based on the institution's assessment base and assessment rate as of September 30, 2009 assuming 5% annual growth in deposits and a three basis point increase in the assessment rate during years 2011 and 2012. The prepayment was recorded on the balance sheet as a prepaid expense against which future quarterly assessments will be charged. We made the prepayment from available cash on hand.

Off-Balance Sheet Arrangements

Fidelity is also party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Fidelity is not party to any off-balance sheet arrangements that are reasonably likely to have a material current or future effect on Fidelity's financial condition, revenues or expenses, results of operations, liquidity or capital expenditures, or resources.

Capital

At September 30, 2011, Fidelity had capital in excess of all applicable regulatory capital requirements. At September 30, 2011, the ratio of Fidelity's Tier 1 capital to average assets was 7.82%. Fidelity's ratio of Tier 1 capital to risk-weighted assets was 12.92% and its ratio of total capital to risk-weighted assets was 14.18%.

Fidelity Savings Bank currently exceeds all regulatory capital requirements, having a leverage ratio of Tier 1 capital to total average assets of 7.59%, a ratio of Tier 1 capital to risk-weighted assets of 12.24%, and a ratio of qualifying total capital to risk-weighted assets and off-balance sheet items of 13.49% at September 30, 2011.

Financial Condition

Fidelity's assets were \$666.9 million at September 30, 2011, a decrease of \$29.8 million or 4.3% from assets at September 30, 2010. Decreases were noted in cash and cash equivalents, securities available for sale, FHLB stock, loans receivable, and other assets, partially offset by increases in securities held-to-maturity, and foreclosed real estate. Fidelity's asset size decreased in fiscal 2011 after decreasing in fiscal 2010 and remaining relatively flat in fiscal 2009. These results reflect Fidelity's decision to manage growth to increase capital ratios in light of the current regulatory, economic, and interest rate environment. While this deleveraging strategy has resulted in a reduction in asset size, some amount of leverage remains.

Loan Portfolio

Net loans receivable decreased \$26.8 million or 7.2% to \$346.3 million at September 30, 2011 from \$373.1 million at September 30, 2010. Loans originated totaled \$108.0 million in fiscal 2011, including amounts disbursed under lines of credit, versus \$86.7 million in fiscal 2010. Mortgage loans originated amounted to \$68.5 million, including \$15.4 million originated for sale, compared to \$58.6 million, including \$31.1 million originated for sale, in fiscal 2011 and 2010, respectively. Fidelity Savings Bank did not purchase any mortgage loans in fiscal 2011 or fiscal 2010. The increase in the level of mortgage loan originations in fiscal 2011 primarily reflects an increase in customer refinancing as compared to fiscal 2010 as rates remained at historically low levels. The origination of adjustable rate mortgages (ARMs) increased to \$29.9 million in fiscal 2011 from \$19.7 million in fiscal 2010. During fiscal 2011, Fidelity Savings Bank continued to emphasize ARMs, since they would perform better in a rising rate environment. Due to the low interest rate environment during fiscal 2011, for asset/liability purposes, Fidelity Savings Bank continued to sell a portion of the fixed rate, single-family mortgage loans that were originated, rather than retaining them in Fidelity Savings Bank's portfolio. Gains of \$300,000 were realized on these sales in fiscal 2011. Principal repayments on outstanding mortgage loans increased to \$73.5 million in fiscal 2011 as compared to \$65.3 million in fiscal 2010. The combination of

Table of Contents

the above factors resulted in an overall decrease in mortgage loans receivable to \$232.4 million at September 30, 2011 from \$252.7 million at September 30, 2010.

Other loan originations, including installment loans, commercial business loans, and disbursements under lines of credit totaled \$39.5 million in fiscal 2011 versus \$28.1 million in fiscal 2010. During fiscal 2011, Fidelity Savings Bank continued to emphasize other loans, particularly home equity loans, home equity lines of credit, and commercial business loans, since they generally have shorter terms than mortgage loans and would reduce Fidelity Savings Bank's exposure in a rising rate environment. The increase in originations was due to the state of the economy and interest rates. While the recession ended in June 2009, the economic recovery has been slow and rates remain at historically low levels. Installment loan originations and consumer lines of credit disbursements were \$13.8 million in fiscal 2011 compared to \$9.8 million in fiscal 2010. Commercial business loan originations and business line of credit disbursements were \$25.8 million in fiscal 2011 compared to \$18.3 million in fiscal 2010. Principal repayments on other loans were \$46.9 million in fiscal 2011 compared to \$31.0 million in 2010. The net result of the above factors caused the balance of installment loans to decrease to \$69.2 million at September 30, 2011, as compared to \$75.8 million at September 30, 2010. Commercial business loans and leases were \$59.5 million at September 30, 2011 versus \$60.2 million at September 30, 2010.

Non-Performing Assets

The following table sets forth information regarding non-accrual loans and foreclosed real estate at the dates indicated. The table does not include \$5.5 million and \$1.4 million in loans at September 30, 2011 and 2010, respectively, that were more than 90 days past maturity but were otherwise performing in accordance with their terms. These loans represent commercial real estate loans, commercial business loans, and commercial business lines of credit, which were outstanding past their contractual maturity dates. In each case, such loans were otherwise current in accordance with their terms and Fidelity does not consider them nonperforming.

	September 30,	
	2011	2010
	(Dollar amounts in thousands)	
Non-accrual residential real estate loans (one-to-four family)	\$ 1,764	\$ 1,939
Non-accrual construction, multi-family residential and commercial real estate loans	4,398	7,151
Non-accrual installment loans	726	1,212
Non-accrual commercial business and lease loans	9	70
Total non-performing loans	\$ 6,897	\$ 10,372
Total non-performing loans as a percent of net loans receivable	1.99%	2.78%
Total foreclosed real estate, net of related reserves	\$ 3,125	\$ 398
Total non-performing loans and foreclosed real estate as a percent of total assets	1.50%	1.55%

Nonperforming loans decreased to \$6.9 million (1.99% of net loans receivable) at September 30, 2011 compared to \$10.4 million (2.78% of net loans receivable) at September 30, 2010. The decrease in non-performing loans during fiscal 2011 as compared to fiscal 2010 is primarily attributed to a \$2.1 million commercial real estate loan and a \$225,000 installment loan that were transferred to foreclosed real estate during fiscal 2011.

At September 30, 2011, non-accrual loans consisted of seventeen 1-4 family residential real estate loans totaling \$1.8 million, two commercial real estate loans totaling \$4.4 million, eighteen installment loans totaling

Table of Contents

\$726,000, and one commercial business loan totaling \$9,000. Management has evaluated these loans and believes that the allowance for loan losses at September 30, 2011 is adequate. The allowance for loan losses was \$5.8 million at September 30, 2011 and September 30, 2010. The balance at September 30, 2011, at 1.7% of net loans receivable, and 83.6% of non-performing loans, is considered reasonable by management.

Foreclosed real estate at September 30, 2011 consists of four single-family residential properties, one land development property, and four non-farm non-residential property, all of which are located in Fidelity Savings Bank's market area. Management believes that the carrying values of the properties at September 30, 2011 approximate their fair values less estimated costs to sell. However, while management uses the best information available to make such determinations, future adjustments may become necessary.

Cash and Cash Equivalents

Cash and cash equivalents decreased \$4.5 million, or 15.3%, to \$24.9 million at September 30, 2011 from \$29.3 million at September 30, 2010. The decrease in cash and cash equivalents reflects a decrease in cash of \$1.4 million and a decrease in interest-bearing deposits in other banks of \$3.1 million. The net decrease in cash and cash equivalents is a result of Fidelity repaying \$30.0 million in wholesale repurchase agreements that matured during the current year, partially offset by an increase in cash flows from loan repayments and increased deposits.

Securities Available-for-Sale

Securities available-for-sale decreased \$3.9 million or 2.2% to \$170.8 million at September 30, 2011 from \$174.7 million at September 30, 2010. These securities may be held for indefinite periods of time and are generally used as part of Fidelity Savings Bank's asset/liability management strategy. These securities may be sold in response to changes in interest rates, prepayment rates, or to meet liquidity needs. These securities consist of mortgage-backed securities, collateralized mortgage obligations, U.S. Government and Agency securities, municipal obligations, mutual funds, corporate obligations, trust preferred securities, and other equity securities. During fiscal 2011, Fidelity purchased \$69.1 million of these securities and sold \$33.7 million. Sales of these securities in fiscal 2011 resulted in a net pretax gain of \$809,000.

Securities Held-to-Maturity

Securities held-to-maturity increased \$5.6 million or 7.5% to \$80.4 million at September 30, 2011, compared to \$74.8 million at September 30, 2010. These investments are comprised of mortgage-backed securities, collateralized mortgage obligations, U.S. Government and Agency securities, and municipal securities. During fiscal 2011, Fidelity Savings Bank purchased \$51.9 million of these securities.

Other Assets

Other assets decreased \$1.8 million or 34.4% to \$3.4 million at September 30, 2011, compared to \$5.3 million at September 30, 2010. The decrease in other assets is primarily due to the decrease in prepaid FDIC insurance premiums. In December 2009, the FDIC required all insured depository institutions to prepay their federal deposit insurance assessment through 2012. The prepayment was based on the institution's assessment base and assessment rate as of September 30, 2009 assuming a 5% annual growth in deposits and a three basis point increase in the assessment rate during years 2011 and 2012.

Deposits

Deposits increased \$1.7 million during fiscal 2011 to \$446.1 million at September 30, 2011 compared to \$444.4 million at September 30, 2010. Deposit growth was generated in checking accounts and savings accounts, partially offset by decreases in money market accounts and time deposits. The increase reflects management's ongoing efforts to attract and retain deposits.

Table of Contents**Securities Sold Under Agreements to Repurchase**

Securities sold under agreements to repurchase represents retail agreements and wholesale structured borrowings. Securities sold under agreement to repurchase decreased \$32.0 million or 29.5% to \$76.4 million at September 30, 2011, from \$108.3 million at September 30, 2010. The decrease is the result of a decrease in both wholesale structured repurchase agreements and retail agreements. During fiscal 2011 and 2010 Fidelity had \$11.4 million and \$13.3 million of retail agreements outstanding, respectively. During fiscal 2011 and 2010 Fidelity had \$65.0 million and \$95.0 million of wholesale structured borrowings outstanding, respectively. Fidelity repaid \$30.0 million in wholesale borrowings that matured during fiscal 2011.

Short-Term Borrowings

Short-term borrowings currently include treasury, tax, and loan notes. These borrowings increased \$172,000 to \$302,000 at September 30, 2011, from \$130,000 at September 30, 2010. Fidelity Savings Bank did not have any other short-term borrowings outstanding as of September 30, 2011.

Long-Term Debt

Long-term debt represents FHLB advances including fixed-rate advances and Convertible Select advances. Long-term debt decreased \$401,000 or .5% to \$80.0 million at September 30, 2011, from \$80.4 million at September 30, 2010. The decrease was a result of Fidelity repaying a \$400,000 Federal Home Loan Bank advance that matured during the current year.

Subordinated Debt

Subordinated debt represents debt issued by Fidelity to FB Capital Statutory Trust III in conjunction with the issuance of trust preferred securities by the Trust. The debt is unsecured and ranks subordinated and junior in right of payment to all indebtedness, liabilities, and obligations of Fidelity. The debt is due concurrently with the trust preferred securities. Subordinated debt was \$7.7 million at September 30, 2011 and 2010.

Stockholders Equity

Stockholders equity increased \$905,000 or 1.8% to \$50.5 million at September 30, 2011 compared to \$49.6 million at September 30, 2010. This result reflects net income of \$1.5 million; stock options exercised of \$1,000; stock issued under the Dividend Reinvestment Plan of \$16,000; stock-based compensation expense of \$37,000; and a contribution of treasury stock to the Employee Stock Ownership Plan of \$250,000. Offsetting these increases were common and preferred stock cash dividends paid of \$595,000 and an increase in the accumulated other comprehensive loss of \$339,000, which is a result of changes in the net unrealized losses on the available-for-sale securities, changes in non-credit losses on available-for-sale and held-to-maturity securities, and by the unrealized loss recognized on the cash flow hedge as discussed in Note 18, Derivative Instrument. On December 12, 2008, Fidelity sold \$7.0 million in preferred stock to the U.S. Department of Treasury as a participant in the federal government's TARP Capital Purchase Program. In connection with the investment, Fidelity also issued a ten-year warrant to the Treasury which permits the Treasury to purchase up to 121,387 shares of its common stock at an exercise price of \$8.65 per share. The Series B Preferred Stock will pay dividends at the rate of 5% per annum until the fifth anniversary of issuance and, unless earlier redeemed, at the rate of 9% thereafter. Until the third anniversary of the issuance of the Series B Preferred Stock or its earlier redemption or transfer by the Treasury Department to an unaffiliated holder, Fidelity may not increase the dividend on the common stock or repurchase any shares of common stock. Approximately \$3.4 million of the balances in retained earnings as of September 30, 2011 and 2010 represent base year bad debt deductions for tax purposes only, as they are considered restricted accumulated earnings.

Results of Operations**Comparison of Fiscal Years Ended September 30, 2011 and 2010**

Fidelity recorded net income of \$1.5 million and net income available to common stockholders of \$1.1 million or \$0.37 per diluted common share for the year ended September 30, 2011 compared to net income of \$678,000 and net income available to common stockholders of \$268,000 or \$0.09 per diluted common share for fiscal 2010. The \$857,000 increase in earnings for fiscal 2011 primarily reflects a decrease in the provision for loan losses of \$400,000 and a decrease of \$2.1 million in other-than-temporary impairment (OTTI) charges on certain investment securities, partially offset by a decrease in gains on sales of investment securities of \$309,000, an increase in operating expenses of \$346,000, and an increase in the provision for income taxes of \$721,000. The net income available to common stockholders and diluted earnings per common share also reflects \$410,000 in preferred stock dividends and discount accretion during the fiscal period ended September 30, 2011 and 2010.

Average Balance Sheet and Analysis of Net Interest Income

The following table presents for the periods indicated the total dollar amount of interest from average interest-earning assets and the resultant yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars, rates, and the net interest margin. The average balance of loans receivable includes non-accrual loans. Average balances are based on month-end balances. Fidelity does not believe that the use of month-end balances has a material impact on the information presented. Interest income on tax-exempt investments has been adjusted for federal income tax purposes using an assumed rate of 34%.

(1) Interest income on tax-exempt investment securities was \$1.5 million, \$1.7 million and \$1.8 million and the yields were 4.05%, 4.18%, and 4.46%, prior to adjusting for federal income tax for the years ended September 30, 2011, 2010, and 2009, respectively.

(2) Interest rate spread is the difference between the average yield on total interest-earning assets and the average cost of total interest-bearing liabilities.

(3) Net interest margin is net interest income divided by average interest-earning assets.

Rate/Volume Analysis

The following table presents certain information regarding changes in interest income and interest expense of Fidelity Savings Bank for the periods indicated. For each category of interest-earning assets and interest-bearing liabilities, information is provided with respect to changes attributable to (1) changes in volume (change in volume multiplied by old rate), and (2) changes in rate (change in rate multiplied by old volume). Changes in rate/volume (change in rate multiplied by change in volume) have been allocated between changes in

Interest Income on Loans

Interest income on loans decreased by \$2.6 million or 11.9% to \$19.3 million in fiscal 2011 from \$22.0 million in fiscal 2010. The decrease reflects both a decrease in the average size of the loan portfolio and a decrease in the average yield earned on the loan portfolio. The average size of the loan portfolio decreased from an average balance of \$397.8 million in fiscal 2010 to \$357.0 million in fiscal 2011. The average yield decreased by 10 basis points from 5.52% in fiscal 2010 to 5.42% in fiscal 2011. The average loan balance decreased primarily due to principal repayments that were higher than loan originations for the current year. Also, due to the continued low interest rate environment, for asset/liability purposes, Fidelity Savings Bank continues to sell a portion of the fixed rate, single-family mortgage loans that it originates.

Interest Income on Mortgage-Backed Securities

Interest income on mortgage-backed securities increased by \$244,000 or 7.9% to \$3.3 million in fiscal 2011 from \$3.1 million in fiscal 2010. The increase reflects an increase in the average balance of mortgage-backed securities held partially offset by a decrease in the yield earned on these securities. The average balance of mortgage-backed securities held, including mortgage-backed securities available-for-sale, increased from \$98.4 million in fiscal 2010 to \$119.0 million in fiscal 2011. The average yield decreased by 34 basis points from 3.13% in fiscal 2010 to 2.79% in fiscal 2011. The yield earned on mortgage-backed securities is affected, to some degree, by the repayment rate of loans underlying the securities. Premiums or discounts on the securities, if any, are amortized to interest income over the life of the securities using the level yield method. During periods of falling interest rates, repayments of the loans underlying the securities generally increase, which shortens the average life of the securities and accelerates the amortization of the premium or discount. Falling rates, however, also tend to increase the market value of the securities. A rising rate environment generally causes a reduced level of loan repayments and a corresponding decrease in premium/discount amortization rates. Rising rates generally decrease the market value of the securities.

Table of Contents**Interest Income on Investments**

Interest income on investments (including those available-for-sale), which includes interest earning deposits with other institutions and FHLB stock, decreased by \$785,000 or 16.2% to \$4.0 million in fiscal 2011, from \$4.8 million in fiscal 2010. The decrease reflects both a decrease in the average balance of such investments and a decrease in the average tax-equivalent yield earned on these investments. The average balance of these investments decreased from \$185.7 million in fiscal 2010 to \$172.5 million in fiscal 2011. The average tax-equivalent yield decreased by 29 basis points from 3.02% in fiscal 2010 to 2.74% in fiscal 2011. The lower average balance was primarily attributed to a shift in a portion of the investment portfolio from investment securities to mortgage backed securities whose payment characteristics allow for better reinvestment opportunities in a rising rate environment. The decrease in tax-equivalent yield is a result of the current lower interest rate environment.

Interest Expense on Deposits

Interest on deposits decreased \$1.1 million or 19.9% to \$4.4 million in fiscal 2011 from \$5.5 million in fiscal 2010. The decrease reflects both a decrease in the average balance of interest-bearing deposits and a decrease in the average rate paid on deposits. The average balance of interest-bearing deposits decreased from \$397.3 million in fiscal 2010 to \$392.8 million in fiscal 2011. The average yield decreased by 27 basis points from 1.39% in fiscal 2010 to 1.12% in fiscal 2011. The increase reflects management's ongoing efforts to attract and retain deposits. Fidelity manages its cost of interest bearing deposit accounts by diligently monitoring the interest rates on its products as well as the rates being offered by its competition through bi-weekly interest rate committee meetings and utilizing rate surveys and hence subsequently adjusting rates accordingly.

Interest Expense on Securities Sold Under Agreement to Repurchase

Interest expense on securities sold under agreement to repurchase (including retail and structured borrowings) decreased \$706,000 or 14.0% to \$4.4 million in fiscal 2011 from \$5.1 million in fiscal 2010. The decrease reflects a decrease in the average securities sold under agreement to repurchase as well as a slight decrease in the cost of these funds. The average balance of securities sold under agreement to repurchase decreased from \$106.1 million in fiscal 2010 to \$91.8 million in fiscal 2011. The average yield decreased by 3 basis points from 4.77% in fiscal 2010 to 4.74% in fiscal 2011.

Interest Expense on Short-Term Borrowings

Interest expense on short-term borrowings was \$5,000 in fiscal 2011 compared to \$6,000 in fiscal 2010. The average balance of short-term borrowings was relatively unchanged at approximately \$2.4 million in fiscal 2011 and fiscal 2010. The average cost decreased slightly from 0.23% in fiscal 2010 to 0.21% in fiscal 2011.

Interest Expense on Long-Term Debt

Interest expense on long-term debt (including FHLB fixed rate advances, and Convertible Select advances) decreased \$1.3 million or 32.2% to \$2.7 million in fiscal 2011, compared to \$4.0 million in fiscal 2010. The decrease reflects both a decrease in the average balance of long-term debt and a decrease in the cost of these borrowings. The average balance of long-term debt decreased from \$102.2 million in fiscal 2010 to \$80.0 million in fiscal 2011. The average yield decreased by 53 basis points from 3.91% in fiscal 2010 to 3.38% in fiscal 2011. The decrease in average balance was attributed to Fidelity using its excess cash to pay off \$38.1 million in Federal Home Loan Bank advances that matured during fiscal 2010, with the majority of the maturities in the latter part of the fiscal year. Approximately \$400,000 in advances matured and paid off during fiscal 2011. As a result, average balances were higher in fiscal 2010 as compared to fiscal 2011.

Table of Contents

Interest Expense on Subordinated Debt

Interest on subordinated debt was relatively unchanged at \$408,000 in fiscal 2011 compared to \$409,000 in fiscal 2010. The average balance and cost of these floating-rate debentures remained unchanged. The average cost was 5.28% in fiscal 2011 and in fiscal 2010. For fiscal 2011 and 2010, interest expense on subordinated debt was net of \$279,000 and \$276,000, respectively, in interest expense on an interest rate swap contract to hedge its interest rate exposure from the subordinated debt.

Provision for Loan Losses

The provision for loan losses is charged to operations to bring the total allowance for loan losses to a level that represents management's best estimates of the losses inherent in the portfolio, based on a quarterly review by management of the following factors:

historical experience

volume

type of lending conducted by Fidelity Savings Bank

industry standard

the level and status of past due and non-performing loans

the general economic conditions in Fidelity Savings Bank's lending area

other factors affecting the collectability of the loans in its portfolio

Large groups of smaller balance homogenous loans, such as residential real estate, small commercial real estate, and home equity and consumer loans are evaluated in the aggregate using historical loss factors and other data. Large balance and/or more complex loans, such as multi-family and commercial real estate loans may be evaluated on an individual basis and are also evaluated in the aggregate to determine adequate reserves. As individually significant loans become impaired, specific reserves are assigned to the extent of the impairment.

The provision for loan losses was \$1.2 million for the fiscal year ended September 30, 2011. The provision for loan losses was \$1.6 million for the fiscal year ended September 30, 2010. The provisions reflect management's evaluation of the loan portfolio, current economic conditions, and other factors as described above. The allowance was relatively unchanged at \$5.8 million at September 30, 2011 and 2010. Loan charge-offs, net of recoveries, were \$1.3 million in fiscal 2011 compared to \$1.5 million in fiscal 2010. The balance of non-performing loans has decreased to \$6.9 million at September 30, 2011 compared to \$10.4 million at September 30, 2010. Please refer to discussion of non-performing assets on page 117.

The allowance for loan losses is maintained at a level that represents management's best estimate of losses in the loan portfolio at the balance sheet date. However, there can be no assurance that the allowance for losses will be adequate to cover losses, which may be realized in the future, and that additional provisions for losses will not be required.

Other Income

Excluding OTTI charges recognized in earnings of \$1.5 million and \$3.6 million for the fiscal years ended September 30, 2011 and 2010, respectively, non-interest or total other income decreased \$498,000 or 9.6% to \$4.7 million for the year ended September 30, 2011 compared to \$5.2 million for the prior year. The decrease is primarily due to a decrease in the realized gains on the sales of securities, a decrease in the gains

on sales of loans, and a decrease in deposit service charges and fees, partially offset by an increase in ATM fees, an increase in non-insured investment product income, an increase in earnings on cash surrender value of life insurance and an increase in other operating income.

Table of Contents

Included in non-interest income is service fee income on loans and late charges of \$658,000, which decreased by \$14,000 in fiscal 2011. These fees were \$672,000 in fiscal 2010. Fiscal 2011 results include a decrease in late fees collected on mortgage loans and a decrease in loans, partially offset by an increase in miscellaneous fees collected on commercial loans.

Fidelity recorded net gains on sales of securities of \$809,000 in fiscal 2011. Fidelity recorded net gains on sales of securities of \$1.1 million in fiscal 2010. Sales during fiscal 2011 were made from the available-for-sale category. The sales reflected normal efforts to reposition portions of the portfolio at various times during the year to reflect changing economic conditions, changing market conditions, and to carry out asset/liability management strategies.

Fidelity recognized in earnings impairment charges on securities of \$1.5 million during fiscal 2011 compared to \$3.6 million in fiscal 2010. During the fiscal year ended September 30, 2011, \$1.1 million of impairment charges were recorded on six investments in pooled trust preferred securities resulting from several factors, including a downgrade on their credit ratings, failure to pass their principal coverage tests, indications of a break in yield, and the decline in the net present value of their projected cash flows. Management has deemed the impairment on these six trust preferred securities to be other-than-temporary based upon these factors and the duration and extent to which the market value has been less than cost, the inability to forecast a recovery in market value, and other factors concerning the issuers in the pooled security. Fidelity also recorded \$135,000 of impairment charges on a single-issuer trust preferred security. These impairment charges were a result of the financial institution issuer being put on regulatory order after several quarters of losses and it started deferring interest payments on both its trust preferred and its TARP preferred shares outstanding. During the fiscal year ended September 30, 2010, \$3.5 million of impairment charges were recorded on six investments in pooled trust preferred securities resulting from several factors, including a downgrade on their credit ratings, failure to pass their principal coverage tests, indications of a break in yield, and the decline in the net present value of their projected cash flows. Management has deemed the impairment on these six trust preferred securities to be other-than-temporary based upon these factors and the duration and extent to which the market value has been less than cost, the inability to forecast a recovery in market value, and other factors concerning the issuers in the pooled security. For the fiscal year ended September 30, 2011, Fidelity recognized in earnings impairment charges of \$204,000 and in other comprehensive income non-credit impairment charges of \$17,000 relating to one private label mortgage-backed security. The impairment charges resulted from a downgrade in its credit rating, as well as independent third-party analysis of the underlying collateral for the bond. For the fiscal year ended September 30, 2010, Fidelity recognized in earnings impairment charges of \$57,000 and in other comprehensive income non-credit impairment charges of \$294,000 relating to one private label mortgage-backed security. The impairment charges resulted from a downgrade in its credit rating, as well as independent third-party analysis of the underlying collateral for the bond. Based on the factors concerning the issuer, management of Fidelity deemed the impairment on this security to be other-than-temporary. During the fiscal year ended September 30, 2011, Fidelity recognized in earnings impairment charges of \$87,000 on one investment in common stock of a local financial institution resulting from the duration and extent to which the market value has been less than cost and the performance of the financial institution over the past two years. There were no impairment charges taken on these equity securities for the fiscal year ended September 30, 2010.

Gain on sale of loans was \$300,000 and \$472,000 in fiscal years 2011 and 2010, respectively. Fidelity sells, servicing released, a portion of the fixed-rate, first mortgage residential loans it originates. This strategy allows Fidelity to offer competitive market rates on loans, while not retaining in its portfolio some loans that may not fit the current asset/liability strategy. In addition, such loans can generally be sold at a profit when a commitment to sell is locked in when the application is taken. The decrease in the gain on sale of loans was due to Fidelity Savings Bank selling \$15.3 million of loans during fiscal 2011 as compared to \$31.1 million in fiscal 2010. Due to the low interest rate environment during fiscal years 2011 and 2010, Fidelity Savings Bank decided to sell most of the fixed rate, single-family mortgage loans that were originated.

Table of Contents

Deposit service charges and fees were \$1.2 million and \$1.4 million in fiscal years 2011 and 2010, respectively. The decrease in fiscal 2011 is attributed to a decrease in the net volume of fees collected for returned checks.

Automated teller machine (ATM) fees were \$985,000 and \$931,000 in fiscal years 2011 and 2010, respectively. The increase in fiscal 2011 is attributed to an increase in the interchange fees earned on debit card transactions, partially offset by a decrease in monthly ATM card fees.

Non-insured investment product income was \$218,000 and \$167,000 in fiscal years 2011 and 2010, respectively. The increase in fiscal 2011 is primarily attributed to an increase in the commissions earned on the sales of these products due to higher volumes of sales.

Cash surrender value of life insurance income was \$255,000 and \$235,000 in fiscal years 2011 and 2010, respectively. The increase in fiscal 2011 is primarily attributed to a new life insurance policy that was added during fiscal 2011.

Other Expenses

Other expenses increased \$346,000 or 2.3% to \$15.1 million in fiscal 2011 compared to \$14.8 million in fiscal 2010 primarily due to an increase in compensation and benefits expense, an increase in office occupancy and equipment expense, an increase in depreciation and amortization, an increase in net foreclosed real estate expense, and an increase in other operating expenses, partially offset by a decrease in FDIC deposit insurance premiums, a decrease in advertising expense, and a decrease in professional fees.

Compensation, payroll taxes, and fringe benefits, the largest component of operating expenses, increased \$466,000 or 5.7% to \$8.7 million in fiscal 2011 compared to \$8.2 million in fiscal 2010. Factors contributing to the increase in fiscal 2011 were an increase in commissions and bonus expense, health insurance expense, and retirement fund expense, partially offset by a decrease in stock option expense. The increase in commissions expense is primarily attributable to Fidelity Savings Bank putting a larger percentage of its residential loan originations into the portfolio during fiscal 2011 as compared to fiscal 2010 for which the residential loan officers get paid a higher commission as compared to loans sold in the secondary market.

Office occupancy and equipment expense increased \$31,000 or 3.0% to \$1.1 million in fiscal 2011 compared to \$1.0 million in fiscal 2010. The increase in fiscal 2011 reflects an increase in rent expense relating to the land lease of its McCandless Crossing branch location, which opened in November 2010, and an increase in real estate taxes paid on office buildings. Partially offsetting these increases were decreases in office repairs and maintenance and utilities expense.

Depreciation and amortization increased \$33,000 or 6.2% to \$568,000 in fiscal 2011 compared to \$535,000 in fiscal 2010. The increase is primarily attributed to Fidelity opening its new McCandless Crossing branch location in November 2010.

Advertising expense was \$300,000 and \$332,000 in fiscal years 2011 and 2010, respectively. Fidelity strives to market its products and services in a cost effective manner and incorporates a market segmentation strategy in its business plan to effectively manage its advertising dollars.

Professional fees were \$438,000 and \$499,000 in fiscal years 2011 and 2010, respectively. Professional fees include legal fees, audit fees, and supervisory examination and assessment fees. The decrease in fiscal 2011 is primarily attributed to a \$75,000 decrease in legal fees, partially offset by a \$16,000 increase in audit fees. The decrease in legal fees is primarily related to the collection efforts on delinquent loans, which declined in fiscal 2011 as compared to fiscal 2010. The increase in audit fees is primarily related to a customary increase in fees paid to its audit firm to audit the financial statements of Fidelity and to prepare its tax returns.

Table of Contents

Service bureau expense amounted to \$566,000 and \$571,000 for fiscal years ended 2011 and 2010, respectively. While these fees were relatively unchanged from the prior period, Fidelity Savings Bank continually strives to expand technology and new products and services.

Federal deposit insurance premiums decreased \$186,000 or 15.1% to \$1.0 million in fiscal 2011 compared to \$1.2 million in fiscal 2010. The decrease in fiscal 2011 is attributed to a slight decrease in the assessment rate and the elimination of the separate assessment imposed on Fidelity Savings Bank for its election to participate in the Transaction Account Guarantee Program under the FDIC's Temporary Liquidity Guarantee Program which provided unlimited insurance coverage for non-interest bearing transaction accounts, effective December 31, 2010.

Other operating expenses, which consist primarily of check processing costs, software costs, bank service charges, director's fees, gains/losses on the sales of foreclosed real estate, foreclosed real estate expense, intangible amortization, and other administrative expenses, amounted to \$2.5 million in fiscal 2011 and \$2.4 million in fiscal 2010. The increase is primarily attributed to an increase in the net loss on the sales of foreclosed real estate and an increase in foreclosed real estate expense, including \$126,000 in write downs.

Income Taxes

Total income tax provision for the year ended September 30, 2011 was \$136,000, as compared to a tax benefit of \$585,000 for the year ended September 30, 2010. The increase in the tax provision for fiscal 2011 was primarily due to the increase in pre-tax income, which was impacted by the OTTI charges, and partially offset by a decrease in the level of tax-exempt income. The tax benefit for fiscal 2010 was primarily a result of Fidelity having tax-exempt income that was higher than pre-tax income due to the OTTI charges and increases in the provision for loan losses that were taken. Tax-exempt income includes income earned on certain municipal investments that qualify for state and/or federal income tax exemption; income earned by Fidelity Savings Bank's Delaware subsidiary, which is not subject to state income tax; and earnings on Bank-owned life insurance policies, which are exempt from federal taxation. State and federal tax-exempt income for fiscal 2011 was \$6.2 million and \$1.4 million, respectively, compared to \$7.2 million and \$1.6 million, respectively, for fiscal 2010.

The following summary discusses differences between WesBanco's articles of incorporation and bylaws and our articles of incorporation and bylaws and the differences between the Pennsylvania Business Corporation Law, which we refer to as PBCL, and the WVBCA. For information as to how to get the full text of each party's respective articles of incorporation or bylaws, see [Where You Can Find More Information About WesBanco and Fidelity](#) beginning on page 138.

We do not intend for the following summary to be a complete statement of the differences affecting the rights of our shareholders who become WesBanco shareholders, but rather as a summary of the more significant differences affecting the rights of such shareholders and certain important similarities. We qualify the following summary in its entirety by reference to the articles of incorporation and bylaws of WesBanco, our articles of incorporation and bylaws and applicable laws and regulations. We urge you to read WesBanco's articles of incorporation and bylaws, Fidelity's articles of incorporation and bylaws, and the WVBCA, the PBCL and federal law governing bank holding companies in their entirety.

Notice and Adjournment of Shareholder Meetings

Fidelity's bylaws provide that notice of the time and place of the annual meeting of shareholders shall be given by delivering personally or by mailing a written or printed notice at least ten days before the date of the meeting to each shareholder of record entitled to vote at the meeting. The PBCL provides that the shareholders present in person or by proxy at any regular or special meeting may adjourn such meeting for such periods as they direct. Adjournments of meetings at which directors are to be elected may only be adjourned from day to day or for periods not exceeding 15 days each as the shareholders present and entitled to vote shall direct until the directors have been elected.

WesBanco's bylaws provide that written notice must be served, either personally, by mail, or by electronic transmission, upon each shareholder of record entitled to vote at such meeting, not less than five days prior to the meeting. WesBanco's bylaws provide that shareholders may adjourn a meeting at which a quorum is not present without notice other than announcement at the meeting.

Call of Special Meeting of Shareholders

Fidelity's articles of incorporation provide that special meetings of the shareholders may be called only by the board of directors pursuant to a resolution approved by the affirmative vote of a majority of the directors then in office, the Chairman of the Board, or the President.

WesBanco's bylaws provide that special meetings of the shareholders may be called by the board of directors, the President, or any number of shareholders owning in the aggregate at least 10% of the number of shares outstanding.

Dissenters' Rights

Under the PBCL, shareholders are entitled to dissenters' rights in the event of corporate actions involving certain mergers, share exchanges, asset transfers, as well as certain other fundamental transactions. Dissenters' rights are generally denied to holders of shares listed on a national securities exchange or held beneficially or of record by more than 2,000 persons.

Under the WVBCA, shareholders are entitled to appraisal rights with respect to corporate actions involving certain mergers, share exchanges, asset dispositions, and certain article amendments that reduce the shares of a shareholder to a fraction of a share where the corporation has an obligation to repurchase the share fraction. No appraisal rights exist in the case of a merger, however, if (i) the stock of the acquiring corporation is listed on a national securities exchange or designated as a national market system security by the NASD, or (ii) the stock has at least 2,000 shareholders and the outstanding shares of a class or series has a market value of at least \$20 million, exclusive of the value of the shares held by subsidiaries, senior executives, directors, and beneficial shareholders owning more than 10% of the shares.

Director Number and Term

Fidelity's bylaws provide that it has a classified board of directors, which is divided into three classes as nearly equal as possible, with each director having a term that expires after three years and when his or her respective successor is elected and qualified. The board of directors may be increased or decreased at any time by a vote of a majority of the board of directors, provided that no decrease has the effect of shortening the term of any incumbent director; however, the number of directors may be no less than five and no more than 15.

Table of Contents

WesBanco's bylaws provide it has a classified board of directors, which is divided into three classes as nearly equal as possible, with each director having a staggered, three-year term. The board of directors shall consist of not less than 15 nor more than 35 members, with the number to be set by the board at its annual meeting. Currently, the WesBanco board of directors has 15 members.

Nomination of Directors

Fidelity's bylaws provide that nominations of candidates for election as directors at any annual meeting of shareholders may be made (a) by, or at the direction of, either a majority of the board of directors or a nominating committee appointed by the board of directors, or (b) by any shareholder entitled to vote at such annual meeting. Nominations by shareholders must be made pursuant to a notice to the secretary of Fidelity delivered to, or mailed and received at, the principal executive offices of Fidelity not less than six days prior to the anniversary date of the immediately preceding annual meeting of the shareholders. The notice must state (a) as to the nominee: (i) the name, age, business address, and residence address of the nominee; (ii) the principal occupation or employment of the nominee; (iii) the class and number of shares beneficially owned by the nominee on the date of notice; (iv) any other information relating to the nominee that is required to be disclosed in solicitations of proxies; and (v) the consent of the nominee; and (b) as to the shareholder providing notice: (i) the name and address of the shareholder and any other shareholders known to be supporting the nominee; (ii) the class and number of shares of stock which are beneficially owned by the shareholder on the date of the notice; (iii) a description of all arrangements or understandings between the shareholder and the nominee and any other person(s) pursuant to which the nomination is to be made by the shareholder; and (iv) a representation that the shareholder is entitled to nominate the nominee specified in the notice.

WesBanco's bylaws provide that nominations of candidates for election as directors at any meeting of shareholders may be made only (a) by or at the direction of the board of directors, or (b) by any shareholder entitled to vote for the election of directors who complies with the procedures in the bylaws. A nomination by a shareholder must be made pursuant to a notice to the secretary of WesBanco no later than (i) with respect to an election to be held at an annual meeting, 90 days prior to the anniversary of the previous year's annual meeting of shareholders, or (ii) with respect to an election to be held at a special meeting of shareholders, the close of business on the tenth day following the date on which notice of such meeting is first given to the shareholders. The notice must state (a) as to the nominee: (i) the name, age, address (business and residence), and principal occupation or employment and any directorships of such person; (ii) a description of any involvement in legal proceedings; (iii) the number of shares such person beneficially owns and any other ownership interest in the shares of WesBanco; and (iv) any other information that would be required to be disclosed in a definitive proxy statement; and (b) as to the shareholder: (i) the name and address of the shareholder; (ii) the class and number of shares beneficially owned by the shareholder and any other ownership interest in the shares of WesBanco; (iii) any relationship between the shareholder and the proposed nominee; (iv) a representation that the person sending the notice is a shareholder of record on the record date and shall remain such through the meeting date; and (v) a representation that the shareholder intends to appear in person or by proxy at such meeting to move the nomination. Moreover, WesBanco may require additional information to determine the qualifications of the nominee.

Removal of Directors; Filling Vacancies on the Board of Directors

Under the PBCL, any director or the entire board may be removed from office, without cause, by a vote of the shareholders of the company entitled to elect directors, and the board may be removed, with or without cause, by the unanimous vote or consent of shareholders entitled to vote thereon. Fidelity's articles of incorporation provide that vacancies on the board of directors shall be filled by a majority vote of the directors then in office, whether or not a quorum is present, or by a sole remaining director.

Under the WVBCA, the shareholders may remove one or more directors with or without cause, but only at a meeting called for the purpose of removing the director(s) and the meeting notice must state that the purpose, or

Table of Contents

one of the purposes, of the meeting is removal of the director(s). The director(s) may be removed by the shareholders only by the affirmative vote of a majority of all of the votes entitled to be cast. However, a director may not be removed if the number of votes sufficient to elect the director under cumulative voting is voted against his or her removal. WesBanco's bylaws provide that the shareholders may remove any elected director for cause and fill the vacancy created. Any vacancy not caused by a shareholder removal may be filled by the remaining board members.

Cumulative Voting

Cumulative voting entitles each shareholder to cast an aggregate number of votes equal to the number of voting shares held, multiplied by the number of directors to be elected. Each shareholder may cast all of his or her votes for one nominee or distribute them among two or more nominees. The candidates (up to the number of directors to be elected) receiving the highest number of votes are elected.

Pursuant to Fidelity's articles of incorporation, Fidelity shareholders are prohibited from cumulating their votes for the election of directors.

Under the WVBCA and WesBanco's articles of incorporation, WesBanco shareholders are entitled to cumulative voting in the election of directors.

Indemnification of Officers and Directors

Under the PBCL, unless otherwise restricted in its bylaws, a corporation has the power to indemnify any person who was or is a party or threatened to be made a party to any threatened, pending, or completed action or proceeding, whether civil, criminal, administrative, or investigative (other than an action by or in the right of the corporation), by reason of the fact that the person is or was a representative of the corporation, or is or was serving at the request of the corporation as a representative of another domestic or foreign corporation for profit or not-for-profit, partnership, joint venture, trust, or other enterprise, against expenses (including attorneys' fees), judgments, fines, and amounts paid in settlement actually and reasonably incurred by the person in connection with the action or proceeding if he acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to any criminal proceeding, had no reasonable cause to believe his conduct was unlawful. Further, a corporation may pay expenses incurred in defending any action or proceeding in advance of the final disposition of action upon receipt of an undertaking by or on behalf of the representative to repay the amount if it is ultimately determined that the representative is not entitled to indemnification from the corporation.

Under the PBCL, the statutory provisions for indemnification and advancement of expenses are not deemed to be exclusive of any other rights to which a person seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, or vote of shareholders or disinterested directors. A corporation may establish a fund to secure or insure in any manner its indemnification obligations. However, indemnification is prohibited in any case where the act or failure to act giving rise to the claim for indemnification is determined by a court to have constituted willful misconduct or recklessness.

Under the PBCL, unless otherwise restricted in its bylaws, a corporation may purchase and maintain insurance on behalf of any person who is or was a representative of the corporation or is or was serving at the request of the corporation as a representative of another domestic or foreign corporation for profit or not-for-profit, partnership, joint venture, trust, or other enterprise against any liability asserted against him in any such capacity or arising out of his status as such, whether or not the corporation would have the power to indemnify him against that liability.

Fidelity's articles of incorporation provide that Fidelity will indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding, including

Table of Contents

actions by or in the right of Fidelity, whether civil, criminal, administrative, or investigative by reason of the fact that such person is or was a director, officer, employee, or agent of Fidelity, or is or was serving at the request of Fidelity as a director, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise, against expenses (including attorneys' fees), judgments, fines, excise taxes, and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit, or proceeding to the full extent permissible under Pennsylvania law. Fidelity's articles of incorporation also provide that advances of reasonable expenses may be paid to a director, officer, employee, or agent in defending a civil or criminal action upon receipt of an undertaking by or on behalf of such person to repay the advance if it is ultimately determined that the person is not entitled to be indemnified by Fidelity. Fidelity has entered into indemnification agreements with each of its directors pursuant to which Fidelity has agreed to indemnify each director to the fullest extent provided by law. The indemnification agreements also establish procedures for submitting claims for indemnification and advancement of expenses and provide for certain rights in the event of a change in control. The indemnification agreements are binding on any successor to Fidelity.

Under the WVBCA, a corporation is generally permitted to indemnify a director if the director conducted himself or herself in good faith, he or she reasonably believed the conduct to be in the best interests of the corporation (or at least not opposed to the best interests of the corporation for all conduct that was not in his or her official capacity), and, in the case of any criminal proceeding, he or she had no reasonable cause to believe his or her conduct was unlawful. In addition, the WVBCA permits a corporation to include broader indemnification in its articles of incorporation so long as the provision does not limit the liability for (i) receipt of a financial benefit to which he or she is not entitled, (ii) an intentional infliction of harm on the corporation or its shareholders, (iii) certain unlawful distributions, or (iv) an intentional violation of criminal law. The articles of incorporation may also contain a provision (the "elimination provision") eliminating or limiting the personal liability of a director to the corporation or its shareholders for monetary damages for breach of fiduciary duty as a director so long as the provision does not eliminate or limit the liability of a director for (i) any breach of the director's duty of loyalty to the corporation or its shareholders, (ii) acts or omissions not in good faith or which involve intentional misconduct of a knowing violation of law, (iii) certain unlawful distributions, or (iv) any transaction from which the director derived an improper personal benefit. The elimination provision may not apply to conduct occurring prior to the provision's adoption. The WVBCA requires a corporation to indemnify a director, who was wholly successful, on the merits or otherwise, in the defense of any proceeding to which he or she was a party because he or she was a director of the corporation, against reasonable expenses incurred by him or her in connection with the proceeding.

The WVBCA permits a corporation to advance funds to pay for or reimburse the reasonable expenses incurred by a director, prior to the final disposition of a proceeding, who is a party to a proceeding because he or she is a director, if he or she delivers to the corporation:

A WRITTEN AFFIRMATION OF HIS OR HER GOOD FAITH BELIEF THAT HE OR SHE HAS MET THE RELEVANT STANDARD OF CONDUCT DESCRIBED IN THE FIRST SENTENCE OF THE PRECEDING PARAGRAPH OR THAT THE PROCEEDING INVOLVES CONDUCT FOR WHICH LIABILITY HAS BEEN ELIMINATED UNDER THE ELIMINATION PROVISION; AND

A WRITTEN UNDERTAKING TO REPAY ANY FUNDS ADVANCED IF HE OR SHE IS NOT ENTITLED TO MANDATORY INDEMNIFICATION AND IT IS ULTIMATELY DETERMINED THAT HE OR SHE HAS NOT MET THE RELEVANT STANDARD OF CONDUCT.

The WVBCA provides that a corporation may indemnify its officers to the same extent as a director and, if the officer is not a director or if the officer is a party to the proceeding solely in his capacity as an officer, to a further extent as may be provided in the articles of incorporation, the bylaws, a resolution of the board of directors, or a contract, except that such additional indemnification may not be provided for liability in connection with a proceeding by or in the right of the corporation other than for reasonable expenses incurred in connection with the proceeding or liability arising out of conduct that constitutes (i) receipt by him or her of a

Table of Contents

financial benefit to which he or she is not entitled, (ii) an intentional infliction of harm on the corporation or the shareholders, or (iii) an intentional violation of criminal law. The WVBCA mandates indemnification of officers that are not directors to the same extent as directors.

WesBanco's bylaws provide that WesBanco will indemnify each of its directors and officers, whether or not then in office, against all costs and expenses reasonably incurred in connection with any suit to which he is a party by reason of having been an officer or director of WesBanco or another company which he served at the request of WesBanco to the maximum extent permitted under the WVBCA and unless he is adjudged derelict in the performance of his duties as director or officer. Additionally, the WesBanco bylaws provide that a director or officer shall not receive a prohibited indemnification payment, which is defined as any payment or agreement to make a payment or reimburse such director or officer for any liability or legal expenses in any administrative proceeding brought by the appropriate federal banking agency that results in a final order or settlement in which the director or officer is assessed a civil monetary penalty, is removed or prohibited from conducting the business of banking, or is required to cease an action or take any affirmative action, including making restitution, with respect to WesBanco Bank, Inc. or WesBanco. Finally, WesBanco's bylaws provide that a reasonable indemnification payment will be made only if all of the following conditions are met: (i) the board of directors investigates and determines in writing that the director or officer acted in good faith and in the best interest of WesBanco Bank, Inc. or WesBanco; (ii) the board of directors investigates and determines that the payment will not materially adversely affect the safety and soundness of WesBanco Bank, Inc. or WesBanco; (iii) the payment does not fall within the definition of a prohibited indemnification payment; and (iv) the director or officer agrees in writing to reimburse WesBanco, to the extent not covered by permissible insurance, for advanced indemnification payments that subsequently become prohibited indemnification payments.

WesBanco's bylaws provide that WesBanco may purchase commercial insurance to cover certain costs that WesBanco incurs under the indemnification provisions. Costs that may be covered include legal expenses and restitution that an individual may be ordered to make to WesBanco. Such insurance may not pay or reimburse a director or officer for any final judgment or civil money penalty assessed against such individual. Partial indemnification for legal expenses is permitted in connection with a settlement when there is a formal and final finding that the director or officer has not breached a fiduciary duty, engaged in unsafe or unsound practices, and is not subject to a final prohibition order.

Amendment of Articles of Incorporation and Bylaws

Fidelity's articles of incorporation may be amended after the amendment is approved by the board of the directors pursuant to a resolution adopted by the affirmative vote of a majority of the shares entitled to vote generally in an election of directors, voting together as a single class, as well as such additional vote of the preferred stock as may be required by the provisions of any such series. However, (i) the affirmative vote of the holders of at least two-thirds of the shares as a single class, as well as such additional vote of the preferred stock as may be required, shall be required to amend, adopt, alter, change, or repeal any provision inconsistent with certain enumerated articles, and (ii) the provisions of article 12, section 6 shall be amended, repealed, altered, changed, or restated only in accordance with the vote requirements specified therein.

Fidelity's bylaws may be amended by (i) the affirmative vote of a majority of the directors then in office at any regular or special meeting of the board of directors, or (ii) the affirmative vote of the holders of a majority of the shares of Fidelity entitled to vote generally in an election of directors, voting together as a single class, as well as such additional vote of the preferred stock as may be required, provided that the affirmative vote of the holders of at least two-thirds of the shares entitled to vote generally in an election of directors, voting together as a single class, as well as such additional vote of the preferred stock as may be required, shall be required to amend, adopt, alter, change, or repeal any provision inconsistent with certain sections and articles of the bylaws.

Pursuant to the WVBCA, the WesBanco articles of incorporation and bylaws may generally be amended by the affirmative vote of a majority of all votes of shareholders entitled to be cast on the matter amendment and a

Table of Contents

majority of the outstanding stock of each class entitled to vote on the amendment, unless a greater number is specified in the articles of incorporation. The WesBanco articles of incorporation provide that the affirmative vote of the holders of not less than 75% of the outstanding shares of the voting stock is required to amend, alter, change, or repeal the article section dealing with the classes of directors.

WesBanco's bylaws require the affirmative vote of the holders of not less than 75% of the outstanding shares of the capital stock to amend or repeal the bylaw provisions dealing with the composition of the board of directors. The other bylaw provisions may be amended, altered, or repealed (i) at any duly called and constituted shareholders' meeting on the affirmative vote of the majority of the stock represented at such meeting, or (ii) at any meeting of the board of directors upon the affirmative vote of the majority of the whole of the board.

Vote Required for Extraordinary Corporate Transactions

Under the PBCL, a plan of merger or consolidation shall only be adopted after receiving the affirmative vote of a majority of the votes cast by all shareholders entitled to vote thereon. Fidelity's articles of incorporation, however, require for a business combination the affirmative vote of (i) the holders of at least 75% of the voting shares, voting separately as a class, and (ii) an independent majority of shareholders. The term business combination is defined to include a merger of consolidation, and the term voting shares is defined as the shares entitled to vote generally in an election of directors. However, this higher vote is not required in the event the business combination has been approved by a vote of a majority of those directors who (i) do not own more than 10% of the equity interest in an interested shareholder, (ii) is not an interested shareholder, and (iii) was not first elected as a director within 24 months preceding the date of the vote on the proposed transaction pursuant to a nomination by or on behalf of an interested shareholder.

Under the WVBCA, a consolidation, merger, share exchange, or transfer must be approved by the shareholders of the corporation by the affirmative vote of a majority of all votes entitled to be cast on the matter. The WesBanco articles of incorporation and bylaws do not provide for a greater vote. Additionally, pursuant to the WVBCA, no shareholder approval of a merger or share exchange is required if (i) the corporation will survive the merger or is the acquiring corporation in a share exchange, (ii) the articles of incorporation of the surviving corporation will not be amended, (iii) each shareholder of the corporation whose shares were outstanding immediately before the effective date of the merger or share exchange will hold the same number of shares, with identical preferences, limitations, and relative rights, immediately after the effective date, and (iv) the issuance in the merger or share exchange of shares or other securities convertible into or rights exercisable for shares does not otherwise require shareholder approval under the WVBCA.

Shareholder Rights Agreement

Pursuant to the Fidelity articles of incorporation, the Fidelity board of directors is authorized to divide the authorized and unissued shares of preferred stock into series and to fix by resolution full, limited, multiple, or fractional, or no voting rights, and such designations, preferences, qualifications, privileges, limitations, restrictions, options conversion rights, and other special or relative rights they desire. As such, the board established a class of preferred stock, Junior Participating Preferred Stock, Series A, no par value. On March 31, 2003, the board declared a dividend of one preferred share purchase right for each common share outstanding on March 31, 2003, pursuant to a shareholder Rights Agreement. The preferred share purchase right allows the holder to purchase one one-hundredth of a preferred share from Fidelity upon the occurrence of certain specified events involving a change in control of Fidelity. The issuance of such preferred stock could have the effect of delaying, deferring, or preventing a change in control of Fidelity without further action of its shareholders. On July 19, 2012, Fidelity amended its shareholder Rights Agreement to provide that neither WesBanco nor any of its subsidiaries, affiliates, or associates shall become an Acquiring Person as a result of the approval, execution, delivery, or performance, or public announcement thereof, of the Agreement and Plan of Merger by and among WesBanco, WesBanco Bank, Inc., Fidelity, and Fidelity Savings Bank, any or all of the voting agreements, or the consummation of any of the transactions contemplated thereby. The purchase rights issued pursuant to the amended Rights Agreement will expire immediately prior to the effective time of the merger.

Provisions Affecting Control Share Acquisitions and Business Combinations

Under the PBCL, certain anti-takeover provisions apply to Pennsylvania registered corporations (e.g., publicly traded companies) including those relating to (i) control share acquisitions, (ii) disgorgement of profits by certain controlling persons, (iii) business combination transactions with interested shareholders, and (iv) the rights of shareholders to demand fair value for their stock following a control transaction. The PBCL allows corporations to opt out of these anti-takeover provisions. As such, Fidelity has opted out of the provisions relating to items (i) through (iii) above. A general summary of the anti-takeover provisions is set forth below.

Rights of Shareholders to Demand Fair Value Following Control Transaction. A shareholder who objects to a control transaction is entitled to demand to be paid the fair value of such shareholder's shares. A control transaction for these purposes is the acquisition by a controlling person, as defined above for purposes of the Disgorgement of Profits by Certain Controlling Persons. Fair value may not be less than the highest price paid per share by the controlling person within the 90-day period ending on and including the date of the control transaction, taking into account all relevant factors, including an increment representing a proportion of any value payable for acquisition of control of the corporation.

Neither the WVBCA nor WesBanco's articles of incorporation or bylaws contain any provisions addressing interested shareholder transactions.

PROPOSAL NO. 2 ADVISORY (NON-BINDING) VOTE ON GOLDEN PARACHUTE COMPENSATION

The Golden Parachute Proposal

In accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act, Fidelity's board of directors is providing shareholders with the opportunity to cast an advisory vote on the golden parachute compensation payable to the named executive officers of Fidelity in connection with the merger at the special meeting through the following resolution:

RESOLVED, that the compensation that may be paid or become payable to Fidelity named executive officers in connection with the merger, as disclosed in the table entitled Golden Parachute Compensation that begins on page 64, together with the accompanying footnotes and narrative discussion relating to the named executive officers' golden parachute compensation and the agreements or understandings pursuant to which such compensation may be paid or become payable, as set forth in the section of this proxy statement/prospectus titled Proposal No. 1 Proposal to Adopt the Merger Agreement Summary of Golden Parachute Arrangements is hereby APPROVED.

The vote on this Proposal 2 is a vote separate and apart from the vote on Proposal 1 to adopt the merger agreement. Accordingly, you may vote to approve this Proposal 2 and not to approve Proposal 1, and vice versa. Because the vote is advisory in nature only, it will not be binding on WesBanco, WesBanco Bank, Fidelity or Fidelity Savings Bank regardless of whether the merger agreement is adopted. Accordingly, as the compensation to be paid in connection with the merger is contractual with the executives, regardless of the outcome of this advisory vote, such compensation will be paid, subject only to the conditions applicable to such payment, if the merger agreement is adopted and the merger is completed.

The named executive officers of Fidelity for which this advisory vote is being taken are Richard G. Spencer, President and Chief Executive Officer, Michael A. Mooney, Executive Vice President and Chief Lending Officer and Lisa L. Griffith, Senior Vice President and Chief Financial Officer. This vote is not intended to address any specific item of compensation, but rather the overall compensation that may become payable to Fidelity's named executive officers in connection with the completion of the merger transaction. Such compensation will not be payable in the event the merger transaction is not completed.

PROPOSAL NO. 3 ADJOURNMENT PROPOSAL

The Adjournment Proposal

In the event a quorum is present at the special meeting but there are insufficient votes to adopt the merger agreement, the merger proposal will fail unless Fidelity adjourns the special meeting in order to solicit additional proxies from our shareholders. An adjournment under such circumstances will allow us extra time to solicit additional proxies. In order to allow shares present in person or by proxy at the special meeting to vote FOR approval of the adjournment of the special meeting, if necessary, Fidelity is submitting an adjournment of the Fidelity special meeting to you as a separate matter for consideration. Fidelity will vote properly submitted proxy cards **FOR** approval of the adjournment proposal, unless otherwise indicated on the proxy. If Fidelity shareholders approve the adjournment proposal, Fidelity is not required to give any further notice of the time and place of the adjourned meeting other than an announcement of the time and place provided at the special meeting.

If a quorum is not present at the meeting, the meeting will be adjourned to a later time without a vote.

Recommendation of Our Board of Directors

Our board of directors recommends that Fidelity shareholders vote **FOR** approval of the adjournment proposal.

FIDELITY BANCORP, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Unaudited)

June 30, 2012

(1) Consolidation

The consolidated financial statements contained herein for Fidelity Bancorp, Inc. (the Company) include the accounts of Fidelity Bancorp, Inc. and its wholly-owned subsidiary, Fidelity Savings Bank, PaSB (the Bank). All inter-company balances and transactions have been eliminated.

(2) Basis of Presentation

The accompanying consolidated financial statements were prepared in accordance with instructions to Form 10-Q, and therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations, and cash flows in conformity with generally accepted accounting principles in the United States. However, all adjustments (consisting of normal recurring adjustments), which, in the opinion of management, are necessary for a fair presentation of the financial statements, have been included. These financial statements should be read in conjunction with the audited financial statements and the accompanying notes thereto included in the Company's Annual Report for the fiscal year ended September 30, 2011. The results for the nine-month period ended June 30, 2012 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2012 or any future interim period.

Certain amounts in the fiscal year 2011 financial statements have been reclassified to conform with the fiscal year 2012 presentation format. These reclassifications had no effect on stockholders' equity or net income.

(3) New Accounting Standards

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*. The amendments in this Update result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The amendments in this Update are to be applied prospectively. The Company has provided the necessary disclosures in Notes (9) and (10).

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*. The amendments in this Update improve the comparability, clarity, consistency, and transparency of financial reporting and increase the prominence of items reported in other comprehensive income. To increase the prominence of items reported in other comprehensive income and to facilitate convergence of U.S. GAAP and IFRS, the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity was eliminated. The amendments require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two-statement approach, the first statement should present total net income and its components followed consecutively by a second statement that should present total other comprehensive income, the components of other comprehensive income, and the total of comprehensive income. All entities that report items of comprehensive income, in any period presented, will be affected by the changes in this Update. The amendments in this Update should be applied retrospectively, and early adoption is permitted. The Company has provided the necessary disclosure in the Consolidated Statement of Comprehensive Income.

In September 2011, the FASB issued ASU 2011-08, *Intangibles - Goodwill and Other Topics (Topic 350), Testing Goodwill for Impairment*. The objective of this update is to simplify how entities, both public and nonpublic, test goodwill for impairment. The amendments in the Update permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than

Table of Contents

its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. Under the amendments in this Update, an entity is not required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. The amendments in this Update apply to all entities, both public and nonpublic, that have goodwill reported in their financial statements and are effective for interim and annual goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, including for annual and interim goodwill impairment tests performed as of a date before September 15, 2011, if an entity's financial statements for the most recent annual or interim period have not yet been issued or, for nonpublic entities, have not yet been made available for issuance. This ASU is not expected to have a significant impact on the Company's financial statements.

In September 2011, the FASB issued ASU 2011-09, *Compensation-Retirement Benefits-Multiemployer Plans (Subtopic 715-80): Disclosures about an Employer's Participation in a Multiemployer Plan*. The amendments in this Update will require additional disclosures about an employer's participation in a multiemployer pension plan to enable users of financial statements to assess the potential cash flow implications relating to an employer's participation in multiemployer pension plans. The disclosures also will indicate the financial health of all of the significant plans in which the employer participates and assist a financial statement user to access additional information that is available outside the financial statements. The amendments should be applied retrospectively for all prior periods presented. This ASU is not expected to have a significant impact on the Company's financial statements.

In December 2011, the FASB issued ASU 2011-10, *Property, Plant, and Equipment (Topic 360): Derecognition of in Substance Real Estate—a Scope Clarification*. The amendments in this Update affect entities that cease to have a controlling financial interest in a subsidiary that is in substance real estate as a result of default on the subsidiary's nonrecourse debt. Under the amendments in this Update, when a parent (reporting entity) ceases to have a controlling financial interest in a subsidiary that is in substance real estate as a result of default on the subsidiary's nonrecourse debt, the reporting entity should apply the guidance in Subtopic 360-20 to determine whether it should derecognize the in substance real estate. Generally, a reporting entity would not satisfy the requirements to derecognize the in substance real estate before the legal transfer of the real estate to the lender and the extinguishment of the related nonrecourse indebtedness. That is, even if the reporting entity ceases to have a controlling financial interest under Subtopic 810-10, the reporting entity would continue to include the real estate, debt, and the results of the subsidiary's operations in its consolidated financial statements until legal title to the real estate is transferred to legally satisfy the debt. The amendments in this Update should be applied on a prospective basis to deconsolidation events occurring after the effective date. Prior periods should not be adjusted even if the reporting entity has continuing involvement with previously derecognized in substance real estate entities. For public entities, the amendments in this Update are effective for fiscal years, and interim periods within those years, beginning on or after June 15, 2012. For nonpublic entities, the amendments are effective for fiscal years ending after December 15, 2013, and interim and annual periods thereafter. Early adoption is permitted. This ASU is not expected to have a significant impact on the Company's financial statements.

In December 2011, the FASB issued ASU 2011-11, *Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities*. The amendments in this Update affect all entities that have financial instruments and derivative instruments that are either (1) offset in accordance with either Section 210-20-45 or Section 815-10-45 or (2) subject to an enforceable master netting arrangement or similar agreement. The requirements amend the disclosure requirements on offsetting in Section 210-20-50. This information will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements on an entity's financial position, including the effect or potential effect of rights of setoff associated with certain financial instruments and derivative instruments in the scope of this Update. An entity is required to apply the amendments for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. An entity should provide the disclosures required by those amendments retrospectively for all comparative periods presented. This ASU is not expected to have a significant impact on the Company's financial statements.

In December 2011, the FASB issued ASU 2011-12, *Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05*. In order to defer only those changes in Update 2011-05 that relate to the presentation of reclassification adjustments, the paragraphs in this Update supersede certain pending paragraphs in Update 2011-05. Entities should continue to report reclassifications out of accumulated other comprehensive income consistent with the presentation requirements in effect before Update 2011-05. All other requirements in Update 2011-05 are not affected by this Update, including the requirement to report comprehensive income either in a single continuous financial statement or in two separate but consecutive financial statements.

Public entities should apply these requirements for fiscal years, and interim periods within those years, beginning after December 15, 2011. Nonpublic entities should begin applying these requirements for fiscal years ending after December 15, 2012, and interim and annual periods thereafter. This ASU is not expected to have a significant impact on the Company's financial statements.

(4) Stock Based Compensation

On June 30, 2012, the Company had four share-based compensation plans, for which stock options and restricted stock were outstanding as of June 30, 2012. However, the plan described below is the only plan for which stock options and restricted stock are available for grant. The compensation cost that has been charged against income for those plans was \$14,000 and \$28,000 for the nine months ended June 30, 2012 and 2011, respectively.

The Company's 2005 Stock-Based Incentive Plan (the Plan), which was shareholder-approved, permits the grant of stock options and restricted stock to its employees and non-employee directors for up to 165,000 shares of common stock, of which a maximum of 55,000 may be restricted stock. Option awards are granted with an exercise price equal to the market value of the common stock on the date of the grant, the options vest over a three-year period, and have a contractual term of seven years, although the Plan permits contractual terms of up to ten years. Option awards provide for accelerated vesting if there is a change in control, as defined in the Plan. Additionally, at December 20, 2011, the Company awarded 2,678 shares of restricted stock from the unallocated shares under the Plan having a market value of approximately \$23,995. Compensation expense on the restricted stock awards equals the market value of the Company's stock on the grant date and will be amortized ratably over the three-year vesting period. As of June 30, 2012, 24,471 share awards were available for grant under this program.

As of June 30, 2012 there was approximately \$29,000 of unrecognized compensation costs related to unvested share-based compensation awards granted.

Stock option transactions for the nine months ended June 30, 2012 were as follows:

	Options	Weighted-Average Exercise Price Per Share
Outstanding at the beginning of the year	330,652	\$ 15.55
Granted		
Exercised	(1,166)	6.23
Forfeited	(97,699)	16.26
Outstanding as of June 30, 2012	231,787	\$ 15.31
Exercisable as of June 30, 2012	231,787	\$ 15.31

The options outstanding and exercisable as of June 30, 2012 have a weighted average remaining term of 1.5 years.

No options were granted for the nine-month period ended June 30, 2012 or 2011.

Table of Contents

Compensation cost related to restricted stock is recognized based on the market price of the stock at the grant date over the vesting period. Compensation expense related to restricted stock was \$11,000 and \$20,000 for the nine months ended June 30, 2012 and 2011, respectively. For the nine months ended June 30, 2012, there were 2,678 shares of restricted stock awarded. The market price of stock on the date of grant was \$8.96. For the nine months ended June 30, 2011, there were 2,969 shares of restricted stock awarded. The market price of stock on the date of grant was \$5.91.

(5) Earnings Per Share

Basic earnings per share (EPS) excludes dilution and is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. The following table sets forth the computation of basic and diluted earnings per share (amounts in thousands, except per share data):

	Nine Months Ended June 30,	
	2012	2011
Numerator:		
Net income available to common stockholders	\$ 548	\$ 630
Denominator:		
Denominator for basic earnings per share weighted average shares outstanding	3,062	3,053
Effect of dilutive securities:		
Common stock equivalents	138	9
Denominator for diluted earnings per share weighted average shares and assumed conversions	3,200	3,062
Basic earnings per common share	\$ 0.18	\$ 0.21
Diluted earnings per common share	\$ 0.17	\$ 0.21

Options to purchase 189,037 shares of common stock at prices ranging from \$13.06 to \$21.35 per share were outstanding during the nine months ended June 30, 2012, but were not included in the computation of diluted EPS because to do so would have been anti-dilutive. Similarly, options to purchase 286,319 shares of common stock at prices ranging from \$11.06 to \$22.91 per share and warrants to acquire 121,387 shares of common stock at a price of \$8.65 per share were outstanding during the nine months ended June 30, 2011, but were not included in the computation of diluted EPS because to do so would have been anti-dilutive.

Proceeds from the sales of securities for the nine months ended June 30, 2012 and 2011 were \$9.3 million and \$22.4 million, respectively. Gross gains of \$426,000 and \$586,000 were realized on sales of securities during the nine months ended June 30, 2012 and 2011, respectively. Gross losses of \$45,000 and \$0 were realized on sales of securities during the nine months ended June 30, 2012 and 2011, respectively.

The Company recognized other-than-temporary impairment losses on securities of \$55,000 for the three-month periods ended June 30, 2011. There were no similar impairment charges recognized during the current three-month period ended June 30, 2012. The impairment charges for the three-month period ended June 30, 2011

relate to the Company's holdings of a private label mortgage-backed security. The Company recognized other-than-temporary impairment losses on securities of \$951,000 and \$1.4 million for the nine-month periods ended June 30, 2012 and 2011, respectively. The impairment charges for the nine-month period ended June 30, 2012 relate to the Company's holdings of a private label mortgage-backed security, a pooled trust preferred security, and three common stock holdings of local financial institutions. The impairment charges for the nine-month period ended June 30, 2011 relate to the Company's holdings of five pooled trust preferred securities, a single issuer trust preferred security, a private label mortgage-backed security, and common stock of a local financial institution.

At June 30, 2012, the unrealized losses on the securities portfolio were primarily attributable to wider credit spreads, reflecting market illiquidity. The Company does not intend to sell these securities and it is not more-likely than-not that the Company will have to sell these securities.

The following tables show the aggregate related fair value of investments with a continuous unrealized loss position for less than twelve months and those that have been in a continuous unrealized loss position for twelve months or more.

The Company conducts periodic reviews to identify and evaluate each investment that has an unrealized loss. An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis. Unrealized losses that are determined to be temporary in nature are recorded, net of tax, in *Accumulated Other Comprehensive Income (AOCI)* for available-for-sale securities, while such losses related to held-to-maturity securities are not recorded, as these investments are carried at their amortized cost.

Regardless of the classification of the securities as available-for-sale or held-to-maturity, the Company has assessed each position for other than temporary impairment.

Factors considered in determining whether a loss is temporary include:

the length of time and the extent to which fair value has been below cost;

the severity of the impairment;

the cause of the impairment and the financial condition and near-term prospects of the issuer;

activity in the market of the issuer which may indicate adverse credit conditions;

if the Company intends to sell the investment;

F-14

Table of Contents

if it is more-likely-than-not the Company will be required to sell the investment before recovering its amortized cost basis; and

if the Company does not expect to recover the investment's entire amortized cost basis (even if the Company does not intend to sell the security).

The Company's review for impairment generally entails:

identification and evaluation of investments that have indications of possible impairment;

analysis of individual investments that have fair values less than amortized cost, including consideration of the length of time the investment has been in an unrealized loss position and the expected recovery period;

discussion of evidential matter, including an evaluation of factors or triggers that could cause individual investments to qualify as having other-than-temporary impairment and those that would not support other-than-temporary impairment; and

documentation of the results of these analyses, as required under business policies.

For debt securities that are not deemed to be credit impaired, management performs additional analysis to assess whether it intends to sell or would more-likely-than-not be required to sell the investment before the expected recovery of the amortized cost basis. Management has no intent to sell and believes it is more-likely-than-not that it will not be required to sell the investment before recovery of its amortized cost basis.

Similarly, for equity securities, management considers the various factors described above, including its intent and ability to hold the equity security for a period of time sufficient for recovery to amortized cost. Where management lacks that intent or ability, the security's decline in fair value is deemed to be other-than-temporary and is recorded in earnings.

For debt securities, a critical component of the evaluation for other-than-temporary impairment is the identification of credit impaired securities, where management does not receive cash flows sufficient to recover the entire amortized cost basis of the security. The extent of the Company's analysis regarding credit quality and the stress on assumptions used in the analysis had been refined for securities where the current fair value or other characteristics of the security warrant. The paragraphs below describe the Company's process for identifying credit impairment in security types with the most significant unrealized losses as of June 30, 2012.

Trust Preferred Debt Securities

Included in debt securities in an unrealized loss position at June 30, 2012 were twelve different trust preferred offerings with an aggregate fair value of \$7.7 million, all of which had floating rates based on LIBOR. The unrealized losses on these debt securities amounted to \$6.1 million at June 30, 2012. Due to dislocations in the credit markets broadly, and the lack of trading and new issuances in trust preferred securities, market price indications generally reflect the lack of liquidity in the market. Prices on pooled trust preferred securities were calculated by a third party valuation company. The valuation methodology is based on the premise that the fair value of the security's collateral should approximate the fair value of its liabilities. In general, the spreads for trust preferred collateral have widened by over 500 basis points since 2007. To determine the decline in the collateral's value associated with this increase in credit spreads, the third party projected collateral cash flows for each pool using Intex, the commonly used modeling software for securities of this type. Once generated, the cash flows for each pool were discounted at the applicable rate to arrive at the fair value of the collateral. Any declines in the resulting fair value of the collateral below the par value represent the component of loss attributed to credit risk. The credit quality of each collateral pool was then analyzed for the purpose of projecting defaults and recoveries.

Prepayment assumptions were also estimated. With these additional assumptions, cash flow projections for both the collateral and the debt obligation were modeled and valued. The fair value of each bond was then determined

Table of Contents

by discounting the projected cash flows by an adjusted discount rate (adjusted to capture the default risk). Key assumptions in the valuation model are described below:

Discount rate: In accordance with EITF 99-20-b, the discount rate used for impairment testing is the current yield used to accrete the beneficial interest. Specifically, for securities with fixed rate coupons, the discount rate is equal to the bond's yield to maturity, calculated at the purchase price. For floating rate securities, the discount rate is equal to the bond's spread to maturity, calculated at the purchase price, plus the forward curve for the benchmark index, which is generally 3-month LIBOR.

Deferrals and defaults: For performing bank issuers, defaults are projected using an internal CAMELS model developed by the third party preparing the valuations. Issuers that have CAMELS ratings of 4 or 5, and fail a second level stress test, are assigned default probabilities of either 50% or 100%. Banks that pass these default thresholds are projected to default at an annual rate of 2% for 2 years, and 36 basis points every year thereafter. Defaults of insurance company and REIT issuers are projected at the average historical rates for their credit ratings. To account for current economic stresses, these default rates are doubled for insurance companies in each of the first two years of the projection. Ratings of CCC- are assigned to unrated issuers, and assume immediate defaults for issuers with ratings below CCC-. The model assumes that all issues in deferral will default immediately, unless they have entered into definitive agreements to either be acquired, or raise material amounts of capital. In addition, there are different recovery assumptions for deferrals and defaults. For collateral issued by failed banks, insurance companies and REITs, a conservative assumption of zero is modeled for recoveries. For deferring bank collateral, recoveries of 10% are assumed to account for the potential for cures, as well to be consistent with the small recoveries historically associated with TruPS. The model incorporates deferrals announced after the balance sheet date into the cash flow projections, to the extent that they are not already contained in the default projections.

Prepayment rate: Generally, TruPS are callable at par after a 5-year lockout. For deals with issues that have high, fixed rate coupons in excess of 8%, or floating rate spreads greater than 300 basis points, it is assumed that profitable, well capitalized banks will have the economic incentive to call their TruPS within one year. In addition, it is assumed that banks subject to Dodd-Frank's phase-out of TruPS from Tier 1 capital will prepay their issues in the middle of 2013. For mezzanine positions, increasing the prepayment assumptions would result in increased credit losses due to the reduction in the excess spread available to service our bonds. For senior positions, the credit effect would be neutral to positive because increases in prepayments would result in faster return of principal and lower aggregate defaults, all else equal. However, the prepayment assumptions did not change during the year.

During the nine months ended June 30, 2012, the Company recognized in earnings impairment charges of \$20,000 on an investment in a pooled trust preferred security. The impairment charges on the pooled trust preferred security resulted from several factors, including a downgrade on its credit ratings, failure to pass its principal coverage test, indications of a break in yield, and the decline in the net present value of its projected cash flows. During the nine months ended June 30, 2011, the Company recognized impairment charges of \$1.0 million on five investments in pooled trust preferred securities and \$135,000 on a single issuer trust preferred security. The impairment charges on the pooled trust preferred securities resulted from several factors, including a downgrade on their credit ratings, failure to pass their principal coverage tests, indications of a break in yield, and the decline in the net present value of their projected cash flows. The impairment charges on the single issuer trust preferred security resulted from the financial institution being put on regulatory order after several quarters of losses and it started deferring interest payments on both its trust preferred and its TARP preferred shares outstanding. Based on cash flow forecasts for the remaining securities, management expects to recover the remaining amortized cost of these securities. Furthermore, the Company does not intend to sell these securities and it is not more-likely-than-not that the Company will be required to sell these securities before recovery of their cost basis, which may be at maturity.

A - Number of unique, currently performing issuers

B - Deferrals and defaults as a percentage of original collateral

C - Deferrals and defaults as a percentage of currently performing collateral. The values in this field represent our estimate of the percentage of currently performing collateral that will default over the life of each deal.

D - Excess subordination as a percentage of currently performing collateral. Excess subordination represents the percentage of currently performing collateral that would need to default/(cure) for a bond to be fully collateralized. Excess subordination is calculated by subtracting the total principal balance of the class being evaluated, and all the classes senior to it, from the total performing collateral, and dividing the result by the total performing collateral.

Equity Securities in Financial Institutions

At June 30, 2012 the Company had \$83,000 of unrealized losses on equity securities in financial institutions. These securities represent investments in common equity offerings of three financial institutions with an aggregate fair value of \$720,000. In addition to the general factors mentioned above for determining whether the decline in market value is other than temporary, the analysis of each of these securities includes a review of the profitability of each issuer and its capital adequacy, and all data available to determine the credit quality of each issuer. During the nine months ended June 30, 2012, the Company recognized in earnings impairment charges of \$878,000 on three investments in common stock holdings of local financial institutions resulting from the duration and extent to which the market value has been less than the cost and the performance of the financial institution. During the nine months ended June 30, 2011, the Company recognized in earnings impairment charges of \$87,000 on one investment in common stock of a local financial institution resulting from the duration and extent to which the market value has been less than the cost and the performance of the financial institution.

Table of Contents

Based on the Company's detailed analysis, and because the Company has the ability and intent to hold the investments until a recovery of its amortized cost basis, except for the investment mentioned above, the Company does not consider these assets to be other-than-temporarily impaired at June 30, 2012. However, continued price declines could result in a write down of one or more of these equity investments.

Corporate Obligations

Included in corporate obligations in an unrealized loss position at June 30, 2012 were two different securities with an aggregate fair value of \$5.9 million. The unrealized loss on these securities amounted to \$363,000 at June 30, 2012. One of these securities represents an investment in a corporate obligation issued by a financial institution and has a floating rate which resets monthly based on LIBOR. In addition to the general factors mentioned above for determining whether the decline in market value is other-than-temporary, the analysis of this security included a review of the profitability of the issuer and its capital adequacy, and all data available to determine the credit quality of the issuer. The issuer was well capitalized as of June 30, 2012 and the security has an investment grade rating as rated by at least one nationally recognized credit rating agency. The institution had participated in the Treasury's TARP Capital Purchase Program and has subsequently repaid the TARP proceeds. Based on the Company's detailed analysis and because the Company has the ability and intent to hold these investments until a recovery of its amortized cost basis, the Company does not consider these securities to be other-than-temporarily impaired at June 30, 2012. There were no impairment charges on corporate obligations for the three and nine months ended June 30, 2012 and 2011.

Private-Label Collateralized Mortgage Obligations

Included in private-label collateralized mortgage obligations in an unrealized loss position at June 30, 2012 were two different securities with an aggregate fair value of \$1.2 million. The unrealized loss on these securities amounted to \$130,000 at June 30, 2012. For the nine months ended June 30, 2012 the Company recognized \$52,000 of credit impairment losses relating to one private label mortgage-backed security. The impairment losses were a result of a downgrade in its credit rating, as well as independent third-party analysis of the underlying collateral for the bond. For the nine months ended June 30, 2011 the Company recognized \$142,000 of credit impairment losses relating to this security. Based on management's analysis of the remaining securities, management determined that the price declines are strictly market and spread related and management expects to recover the remaining amortized cost of these securities. Furthermore, the Company does not intend to sell these securities and believes it is not more-likely-than-not that the Company will be required to sell these securities before recovery of their cost basis, which may be at maturity.

On March 1, 2012, the private label CMO security noted below, for which impairment charges have been taken, was transferred from the held-to-maturity (HTM) portfolio to the available-for-sale (AFS) portfolio.

Cusip #	Description	Par Value	Book Value	Market Value
949773AB1	WFMBMS 2007-6A	\$ 981,512.72	\$ 673,311.41	\$ 674,299.24

In accordance with FASB codification 320-10-25-6a, evidence of a significant deterioration in the issuer's creditworthiness (for example, a downgrading of an issuer's published credit rating) would be a change in circumstance that would cause an entity to change its intent to hold a security to maturity without calling into question its intent to hold other debt securities to maturity in the future. The sale or transfer of a HTM security for this reason shall not be considered inconsistent with its original classification.

The Company's intent to hold this security to maturity changed because of the significant deterioration in the issuer's (Wells Fargo) creditworthiness. The security was purchased on June 15, 2007 and was rated AAA by Fitch and Aaa by Moody's on that date. Since the time of purchase, the security was downgraded six times by Moody's and four times by Fitch. The security was downgraded to below investment grade on December 16, 2008 and April 8, 2009 by Moody's and Fitch, respectively. Other-than-temporary impairment (OTTI) losses

Table of Contents

were first recognized in June 2010 and continued each consecutive quarter through December 2011. Total OTTI losses were \$312,614 relating to this security. All private-label CMO s in the HTM portfolio were reviewed for transferability to AFS. As of December 31, 2011, the Company had six private-label CMO securities in its HTM portfolio with a book value of \$1.8 million. Of these six securities, three were at an unrealized gain position, two were at an unrealized loss position, and the security noted above was written down to its market value. Of the two securities at an unrealized loss position, one paid off in February 2012 and the other continues to make payments and retains its investment grade rating. There were no OTTI losses recognized on any private-label CMO s in the HTM portfolio other than the security transferred to AFS. On March 7, 2012, the Company subsequently sold the transferred security and recognized a loss of \$45,143.

The following is a roll forward for the nine months ended June 30, 2012 of the amounts recognized in earnings related to credit losses on securities which the Company has recorded other-than-temporary impairment charges through earnings and other comprehensive income:

The segments of the Bank's loan portfolio are disaggregated to a level that allows management to monitor risk and performance. The residential mortgage loan segment is made up of fixed rate and adjustable rate single-family amortizing term loans, which are primarily first liens. The commercial real estate (CRE) loan segment is further disaggregated into two classes. Non-owner occupied CRE loans, which include loans secured by non-owner occupied nonfarm nonresidential properties, generally have a greater risk profile than all other CRE loans, which include multifamily structures and owner-occupied commercial structures. The construction loan segment is further disaggregated into two classes. One to four family residential construction loans are generally made to individuals for the acquisition of and/or construction on a lot or lots on which a residential dwelling is to be built. Commercial construction loans are generally made to developers or investors for the purpose of acquiring, developing and constructing residential or commercial structures. Construction lending is generally considered to involve a higher degree of credit risk than long-term permanent financing. If the estimate of construction cost proves to be inaccurate, the Bank may be compelled to advance additional funds to complete the construction with repayment dependent, in part, on the success of the ultimate project rather than the ability of a borrower or guarantor to repay the loan. If the Bank is forced to foreclose on a project prior to completion, there is no assurance that it will be able to recover the entire unpaid portion of the loan. In addition, the Bank may be required to fund additional amounts to complete a project and may have to hold the property for an indeterminate period of time. The commercial business and lease loan segment consists of loans made for the purpose of financing the activities of commercial customers. The home equity loan segment consists primarily of home equity loans, which are generally second liens. The consumer loan segment consists of motor vehicle loans, savings account loans, personal lines of credit, overdraft loans, other types of secured consumer loans, and unsecured personal loans.

Management evaluates individual loans in all of the commercial segments for possible impairment if the loan is greater than \$50,000 and if the loan either is in nonaccrual status, or is risk rated Substandard. Loans are considered to be impaired when, based on current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in evaluating impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. The Company does not separately evaluate individual consumer and residential mortgage loans for impairment, unless such loans are part of a larger relationship that is impaired, or are classified as a troubled debt restructuring agreement.

Once the determination has been made that a loan is impaired, the determination of whether a specific allocation of the allowance is necessary is measured by comparing the recorded investment in the loan to the fair value of

Table of Contents

the loan using one of three methods: (a) the present value of expected future cash flows discounted at the loan's effective interest rate; (b) the loan's observable market price; or (c) the fair value of the collateral less selling costs.

The method is selected on a loan-by-loan basis, with management primarily utilizing the fair value of collateral method, which is required for loans that are collateral dependent. The evaluation of the need and amount of a specific allocation of the allowance and whether a loan can be removed from impairment status is made on a monthly basis. The Company's policy for recognizing interest income on impaired loans does not differ from its overall policy for interest recognition.

The following table presents impaired loans by class, segregated by those for which a specific allowance was required and those for which a specific allowance was not necessary as of June 30, 2012 and September 30, 2011 (in thousands):

There are certain impaired loans whose payments are being applied to reduce the principal balance of the loan because the recovery of interest is not determinable. The unpaid principal balance reflects the balance as if the payments were applied in accordance with the terms of the original contractual agreement whereas the recorded investment reflects the outstanding principal balance for financial reporting purposes.

Management uses an eight point internal risk rating system to monitor the credit quality of the overall loan portfolio. The first four categories are considered not criticized, and are aggregated as Pass rated. The criticized rating categories utilized by management generally follow bank regulatory definitions. The Special Mention category includes assets that are currently protected but are potentially weak, resulting in an undue and unwarranted credit risk, but not to the point of justifying a Substandard classification. Loans in the Substandard category have well-defined weaknesses that jeopardize the orderly liquidation of the debt, and have a distinct possibility that some loss will be sustained if the weaknesses are not corrected. All loans greater than 90 days past payment due date are considered Substandard. Loans which are 90 days past their contractual maturity date are analyzed individually to determine impairment, classification and accrual status. As of June 30, 2012, there were \$3.8 million of commercial construction loans and \$1.6 million of commercial business loans which were more than 90 days past their contractual maturity date but were otherwise performing in accordance with their terms and were not considered impaired or classified, and were also accruing interest. In general, these loans are either in the process of renewing or paying off. Loans in the Doubtful category have all the weaknesses found in Substandard loans, with the added provision that the weaknesses make collection of debt in full highly questionable and improbable. Any portion of a loan that has been charged off is placed in the Loss category.

To help ensure that risk ratings are accurate and reflect the present and future capacity of borrowers to repay a loan as agreed, the Bank has a structured loan rating process with several layers of internal and external oversight. The Bank's Commercial Loan Officers are responsible for the timely and accurate risk rating of the loans in their portfolios at origination and on an ongoing basis. The Credit Analysis Department confirms the appropriate risk grade at origination and monitors all subsequent changes to risk ratings. The Bank's Classified Asset Committee approves all risk rating changes, except those made within the pass risk ratings. The Bank engages an external consultant to conduct loan reviews on a quarterly basis. Generally, the external consultant reviews commercial relationships that equal or exceed \$1,000,000, 10% of the number of loans under \$1,000,000, and adversely classified commercial credits in excess of \$50,000. Detailed reviews, including plans for resolution, are performed on loans classified as Substandard on a monthly basis. Loans in the Special Mention and Substandard categories that are collectively evaluated for impairment are given separate consideration in the determination of the allowance.

An allowance for loan and lease losses (ALLL) is maintained to absorb losses from the loan portfolio. The ALLL is based on management's continuing evaluation of the risk characteristics and credit quality of the loan portfolio, assessment of current economic conditions, diversification and size of the portfolio, adequacy of collateral, past and anticipated loss experience, and the amount of non-performing loans.

The classes described above, provide the starting point for the ALLL analysis. Management tracks the historical net charge-off activity by loan class. A historical charge-off factor is calculated and applied to each class. Loans that are collectively evaluated for impairment are analyzed with general allowances being made as appropriate. For general allowances, historical loss trends are used in the estimation of losses in the current portfolio. Other qualitative factors are also considered.

Table of Contents

Pass rated credits are segregated from Criticized credits for the application of qualitative factors. Management has identified a number of qualitative factors which it uses to supplement the historical charge-off factor because these factors are likely to cause estimated credit losses associated with the existing loan pools to differ from historical loss experience. The qualitative factors are evaluated quarterly and updated using

information obtained from internal, regulatory, and governmental sources. The Bank's qualitative factors consist of: national and local economic trends and conditions; levels of and trends in delinquency rates and non-accrual loans; levels of and trends in the Bank's borrowers in bankruptcy; trends in volumes and terms of loans; effects of changes in lending policies and strategies; and concentrations of credit from a loan type, industry and/or geographic standpoint.

Management reviews the loan portfolio on a quarterly basis using a defined, consistently applied process in order to make appropriate and timely adjustments to the ALLL. When information confirms all or part of specific loans to be uncollectible, these amounts are promptly charged off against the ALLL.

The following table summarizes the primary segments of the ALLL, segregated into the amount required for loans individually evaluated for impairment and the amount required for loans collectively evaluated for impairment. Activity in the allowance is presented for the nine months ended June 30, 2012 and the twelve months ended September 30, 2011 (in thousands):

For the nine months ended June 30, 2012, the provision of \$1.3 million allocated to commercial real estate loans is primarily due to one commercial property. The Company foreclosed on the property and incurred expenses which exceeded the estimated cost previously reserved for in the allowance for loan losses.

The allowance for loan losses is based on estimates, and actual losses will vary from current estimates. Management believes that the granularity of the homogeneous pools and the related historical loss ratios and

F-25

Table of Contents

other qualitative factors, as well as the consistency in the application of assumptions, result in an ALLL that is representative of the risk found in the components of the portfolio at any given date.

The Company's loan portfolio also includes certain loans that have been modified in a troubled debt restructuring (TDR), where economic concessions have been granted to borrowers who have experienced or are expected to experience financial difficulties. These concessions typically result from the Company's loss mitigation activities and could include reductions in the interest rate, payment extensions, forgiveness of principal, forbearance or other actions. At June 30, 2012 the Company had one home equity loan totaling \$60,000 and one residential loan totaling \$135,000 that are TDRs and are classified as nonperforming. All other TDRs are making payments in accordance with the new loan agreements. There are no commitments to lend additional funds to these borrowers. At June 30, 2011 the Company did not have any TDRs that were classified as nonperforming.

When the Company modifies a loan, management evaluates any possible impairment based on the present value of expected future cash flows, discounted at the contractual interest rate of the original loan agreement, except when the sole remaining source of repayment for the loan is the operation or liquidation of the collateral. In these cases management uses the current fair value of the collateral, less selling costs, instead of discounted cash flows. If management determines that the value of the modified loan is less than the recorded investment in the loan,

impairment is recognized by segment of class of loan, as applicable, through a charge-off to the allowance. Segment and class status is determined by the loan's classification at origination. As of June 30, 2012 a specific reserve of \$29,000 has been established against one commercial real estate loan, one commercial business loan, and one residential loan modified in a troubled debt restructuring. At June 30, 2011 a specific reserve of \$138,000 had been established against one commercial real estate loan modified in a troubled debt restructuring.

Loan modifications that are considered TDRs completed during the three and nine months ended June 30, 2012 and 2011 were as follows:

	Nine Months Ended June 30,					
	2012		2011		Post-	
	Number of	Pre-Modification	Post-Modification	Number of	Pre-Modification	Post-Modification
(Dollar amounts in thousands)	Contracts	Outstanding Recorded Investment	Outstanding Recorded Investment	Contracts	Outstanding Recorded Investment	Outstanding Recorded Investment

Commercial business and lease loans	1	73	73			
Total	2	\$ 82	\$ 82	11	\$ 6,850	\$ 6,727

The restructuring of these loans include extension of the loan terms, accepting interest only payments, and resetting the interest rate.

As of June 30, 2012, one residential loan modification classified as TDR subsequently defaulted. The balance of this loan was \$135,000. As of June 30, 2011, none of the loan modifications classified as TDRs subsequently defaulted.

(8) Derivative Instruments

The Company accounts for its derivative instruments as either assets or liabilities on the balance sheet at fair value through adjustments to either the hedged items, accumulated other comprehensive income (loss), or current

Table of Contents

earnings, as appropriate. As part of its overall interest rate risk management activities, the Company utilizes derivative instruments to manage its exposure to various types of interest rate risk. These derivative instruments consist of interest rate swaps. There were two interest rate swap contracts outstanding as of June 30, 2012.

Entering into interest rate derivatives potentially exposes the Company to the risk of counterparties' failure to fulfill their legal obligations including, but not limited to, potential amounts due or payable under each derivative contract. Notional principal amounts are often used to express the volume of these transactions, but the amounts potentially subject to credit risk are much smaller.

During the second quarter of fiscal 2008, the Company entered into an interest rate swap contract involving the exchange of the Company's floating rate interest rate payment on its \$7.5 million in floating rate preferred securities for a fixed rate interest payment without the exchange of the underlying principal amount. This hedge relationship fails to qualify for the assumption of no ineffectiveness (short cut method) as defined by U.S. generally accepted accounting principles. Therefore, the Company accounts for this hedge relationship as a cash flow hedge. The cumulative change in fair value of the hedging derivative, to the extent that it is expected to be offset by the cumulative change in anticipated interest cash flows from the hedged exposure, will be deferred and reported as a component of accumulated other comprehensive income (AOCI). Any hedge ineffectiveness will be charged to current earnings. Consistent with the risk management objective and the hedge accounting designation, management measured the degree of hedge effectiveness by comparing the cumulative change in anticipated interest cash flows from the hedged exposure over the hedging period to the cumulative change in anticipated cash flows from the hedging derivative. Management utilizes the Hypothetical Derivative Method to compute the cumulative change in anticipated interest cash flows from the hedged exposure. To the extent that the cumulative change in anticipated cash flows from the hedging derivative offsets from 80% to 125% of the cumulative change in anticipated interest cash flows from the hedged exposure, the hedge will be deemed effective. The Company will use the Hypothetical Derivative Method to measure ineffectiveness. Under this method, the calculation of ineffectiveness will be done by using the change in fair value of the hypothetical derivative. That is, the swap will be recorded at fair value on the balance sheet and other comprehensive income will be adjusted to an amount that reflects the lesser of either the cumulative change in fair value of the swap or the cumulative change in the fair value of the hypothetical derivative instrument. Management will determine the ineffectiveness of the hedging relationship by comparing the cumulative change in anticipated interest cash flows from the hedged exposure over the hedging period to the cumulative change in anticipated cash flows from the hedging derivative. Any difference between these two measures will be deemed hedge ineffectiveness and recorded in current earnings. As of June 30, 2012, the hedge instrument was deemed to be effective, therefore, no amounts were charged to current earnings. The Company does not expect to reclassify any hedge-related amounts from accumulated other comprehensive income to earnings over the next twelve months.

The pay fixed interest rate swap contract outstanding at June 30, 2012 is being utilized to hedge \$7.5 million in floating rate preferred securities. Below is a summary of the interest rate swap contract and the terms at June 30, 2012:

During the first quarter of fiscal 2009, the Bank originated a \$1.0 million fixed rate loan for one of its commercial mortgage loan customers and simultaneously entered into an offsetting fixed interest rate swap contract with PNC Bank, National Association (PNC). The Bank pays PNC interest at the same fixed rate on the same notional amount as the customer pays to the Bank on the commercial mortgage loan, and receives interest from PNC at a floating rate on the same notional amount. This interest rate hedging program helps the

Bank limit its interest rate risk while at the same time helps the Bank meet the financing needs and interest rate risk management needs of its commercial customers. The Company accounts for this hedge relationship as a fair value hedge. This interest rate swap contract was recorded at fair value with any resulting gain or loss recorded in current period earnings. For the three and nine months ended June 30, 2012 the Company recorded losses of \$6,000 and \$4,000, respectively, relating to this contract. For the three and nine months ended June 30, 2011, the Company recorded a loss of \$2,000 and a gain of \$12,000, respectively, relating to this contract. As of June 30, 2012, the notional amount of the customer-related interest rate derivative financial instrument was \$935,000, compared to \$954,000 at June 30, 2011.

(9) Disclosures About Fair Value Measurements

The following disclosures show the hierarchal disclosure framework associated with the level of pricing observations utilized in measuring assets and liabilities at fair value. The three broad levels of pricing observations are as follows:

- Level I - Quoted prices are available in the active markets for identical assets or liabilities as of the reported date.
- Level II - Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reported date. The nature of these assets and liabilities include items for which quoted prices are available but traded less frequently, and items that are fair valued using other financial instruments, the parameters of which can be directly observed.
- Level III - Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

This hierarchy requires the use of observable market data when available.

The following tables present the assets and liabilities reported on the consolidated statements of financial condition at their fair value on a recurring basis as of June 30, 2012 and September 30, 2011 by level within the fair value hierarchy. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The Company's Level III investments at June 30, 2012, represent seventeen different trust preferred offerings with an aggregate fair value of \$8.2 million, of which twelve had floating rates based on LIBOR at June 30, 2012. Due to dislocations in the credit markets broadly, and the lack of trading and new issuance in trust preferred securities, market price indications generally reflect the lack of liquidity in the market. For further information relating to the Company's Level III trust preferred securities, reference footnote 6, "Securities", on pages F-11 through F-19.

The following table presents the changes in the Level III fair value category for the nine months ended June 30, 2012. The Company classifies financial instruments in Level III of the fair value hierarchy when there is reliance on at least one significant unobservable input to the valuation model. In addition to the unobservable inputs, the valuation models for Level III financial instruments typically also rely on a number of inputs that are readily observable either directly or indirectly.

Techniques used to value the collateral that secure the impaired loan include: quoted market prices for identical assets classified as Level I inputs; observable inputs, employed by certified appraisers, for similar assets classified as Level II inputs. In cases where valuation techniques included inputs that are unobservable and are based on estimates and assumptions developed by management based on the best information available under each circumstance, the asset valuation is classified as Level III inputs.

(10) Disclosures About Fair Value of Financial Instruments

Management uses its best judgment in estimating the fair value of the Company's financial instruments, however, there are inherent weaknesses in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates herein are not necessarily indicative of the amounts the Company could have realized in a sales transaction on the dates indicated. The estimated fair value amounts have been measured as of their respective periods, and have not been re-evaluated or updated for purposes of these financial statements subsequent to those respective dates. As such, the estimated fair values of these financial instruments subsequent to the respective reporting dates may be different than the amounts reported at each period.

Edgar Filing: WESBANCO INC - Form 424B3

The following information should not be interpreted as an estimate of the fair value of the entire Company since a fair value calculation is only provided for a limited portion of the Company's assets and liabilities.

Due to a wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparisons between the Company's disclosures and those of other companies may not be meaningful. The Company, in estimating its fair value disclosures for financial instruments, used the following methods and assumptions:

Cash and Due From Banks

The carrying amounts reported approximate those assets fair value.

Interest Bearing Demand Deposits with Other Institutions

The carrying amounts reported approximate those assets fair value.

Securities

Fair values of securities are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable securities. Prices on pooled trust preferred securities were calculated by a third party using a discounted projected cash-flow technique. Cash flows were estimated based on credit quality and prepayment assumptions. The present value of the projected cash flows was calculated using an adjusted discount rate which reflects higher credit spreads due to economic stresses in the marketplace and lower credit ratings.

Loans Receivable (including loans held for sale)

The net loan portfolio, except certain impaired loans, has been valued using a present value discounted cash flow. The discount rate used in these calculations is based upon the treasury yield curve, as of June 30, 2012, adjusted for non-interest operating costs, credit loss, current market prices and assumed prepayment risk. The carrying amounts of loans held for sale approximate their fair values.

Federal Home Loan Bank Stock

The carrying amounts reported approximate those assets fair value.

Accrued Interest Receivable and Payable

The carrying amounts of accrued interest receivable and payable approximate their fair value.

Deposits

Deposits with stated maturities have been valued using a present value discounted cash flow with a discount rate approximating current market for similar assets and liabilities. Deposits with no stated maturities have an estimated fair value equal to both the amount payable on demand and the recorded book balance.

Securities Sold Under Agreements to Repurchase

The fair values for securities sold under agreement to repurchase were estimated using the interest rate currently available from the party that holds the existing debt.

Short-Term Borrowings

The carrying amounts for short-term borrowings approximate the estimated fair value of such liabilities.

Long-Term Debt

The fair values for long-term debt were estimated using the interest rate currently available from the party that holds the existing debt.

Table of Contents**Subordinated Debt**

Fair values for subordinated debt are estimated using a discounted cash flow calculation similar to that used in valuing fixed rate certificate of deposit liabilities.

Advance Payments by Borrowers for Taxes and Insurance

The fair value of the advance payments by borrowers for taxes and insurance approximates the carrying value of those commitments at those dates.

Interest Rate Swap Contracts

Estimated fair values of interest rate swap contracts are based on quoted market prices.

Off-Balance Sheet Instruments

Fair values for the Company's off-balance sheet instruments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing.

(11) Federal Home Loan Bank (FHLB) Stock Dividends

The FHLB of Pittsburgh paid a cash dividend equal to an annual yield of 0.10% on April 27, 2012 and February 23, 2012. These were the first payments received since the FHLB announced it was suspending dividend payments and the repurchasing of excess capital stock from members in December 2008. On October 20, 2010, the FHLB repurchased approximately \$200 million in excess capital stock held by its members. The amount of excess stock repurchased from each member was the lesser of 5% of the member's total capital stock outstanding or its excess capital stock outstanding. Similar repurchases were made in subsequent quarters, with the most recent occurring on April 27, 2012. The Bank's investment in the FHLB of Pittsburgh was \$7.0 million at June 30, 2012 and is valued at the par issue amount of \$100 per share.

(12) TARP Capital Purchase Program

The Company entered into a Letter Agreement and Securities Purchase Agreement (collectively, the Purchase Agreement) with the United States Department of the Treasury (Treasury) under the TARP Capital Purchase Program, pursuant to which the Company sold (i) 7,000 shares of the Company's Fixed Rate Cumulative Perpetual Preferred Stock, Series B (the Series B Preferred Stock) and (ii) a warrant (the Warrant) to purchase 121,387 shares of the Company's common stock, par value \$0.01 per share (the Common Stock), for an aggregate purchase price of \$7.0 million in cash.

The Series B Preferred Stock will qualify as Tier 1 capital and will pay cumulative dividends at a rate of 5% per annum for the first five years, and 9% per annum thereafter. Pursuant to the terms of the Purchase Agreement, the ability of the Company to declare or pay dividends or distributions on, or purchase, redeem or otherwise acquire for consideration, shares of its Junior Stock (as defined below) and Parity Stock (as defined below) will be subject to restrictions, including a restriction against increasing dividends from the last quarterly cash dividend per share (\$0.14) declared on the Common Stock prior to the issuance date. The Company may redeem the Series B Preferred Stock at a price of \$1,000 per share plus accrued and unpaid dividends, subject to the concurrence of the Treasury and its federal banking regulators.

Table of Contents

The Warrant has a 10-year term and is immediately exercisable upon its issuance, with an exercise price, subject to anti-dilution adjustments, equal to \$8.65 per share of the Common Stock. Treasury has agreed not to exercise voting power with respect to any shares of Common Stock issued upon exercise of the Warrant.

The Series B Preferred Stock and the Warrant were issued in a private placement exempt from registration pursuant to Section 4(2) of the Securities Act of 1933, as amended. Upon the request of Treasury at any time, the Company has agreed to promptly enter into a deposit arrangement pursuant to which the Series B Preferred Stock may be deposited and depositary shares (Depositary Shares), representing fractional shares of Series B Preferred Stock, may be issued. The Company has agreed to register the Series B Preferred Stock, the Warrant, the shares of Common Stock underlying the Warrant (the Warrant Shares) and Depositary Shares, if any, as soon as practicable after the date of the issuance of the Series B Preferred Stock and the Warrant. Neither the Series B Preferred Stock nor the Warrant will be subject to any contractual restrictions on transfer, except that Treasury may only transfer or exercise an aggregate of one-half of the Warrant Shares prior to the redemption of 100% of the shares of Series B Preferred Stock.

The fair value of the preferred stock and the common stock warrants was determined based on their relative fair values calculated as of their issuance date. Based on their relative fair values, the TARP proceeds (net of issuance costs) were allocated between preferred stock and additional paid in capital (for the warrant component). The market/discount rate used when deriving the fair value of the preferred stock was 10.00%. This rate was determined by calculating the average dividend rate of the five most recent preferred equity offerings completed by banks and thrifts. A Black-Scholes model was used to calculate the fair value of the common stock warrants. Key assumptions input into the model included: amount of common stock, \$1,050,000 (based on 15% of the gross TARP proceeds); market price of the common stock on the warrant grant date, \$6.75; exercise price of the warrant, \$8.65 (20 day trailing average of the common stock as of the Treasury's approval date); number of common stock warrants issued, 121,387; expected life of the warrants, 5 years; the risk free interest rate, 1.55%; the continuous annualized volatility of the change in the underlying common stock's price, 32.00%; and the simple annual expected cash dividend yield on common stock, 8.30%. Based on the calculations, the fair value of the preferred stock represented 95.65% of the total fair value of the preferred stock and common stock warrants, while the fair value of the common stock warrants represented 4.35% of the total. The discount on the preferred stock is being amortized on a straight-line basis over five years.

(13) Subsequent Events

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Fidelity Bancorp, Inc. and subsidiaries as of September 30, 2011 and 2010, and the results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

Table of Contents**Notes to Consolidated Financial Statements****Note 1 Significant Accounting Policies****Nature of Operations**

Fidelity Bancorp, Inc. (the Company) is a bank holding company organized under the Pennsylvania Business Corporation Law. It operates principally as a holding company for its wholly-owned subsidiary, Fidelity Savings Bank, PaSB (the Bank), a Pennsylvania-chartered, FDIC-insured state savings bank. The Bank conducts full banking services through thirteen offices in Allegheny and Butler counties. FBIC, Inc. is a wholly-owned subsidiary of the Bank and was formed to hold and manage the Bank's fixed rate residential mortgage loan portfolio.

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, the Bank. Intercompany balances and transactions have been eliminated in consolidation.

Estimates

The financial statements are prepared in conformity with U.S. generally accepted accounting principles. These principles require management to make estimates and assumptions that affect reported amounts of assets and liabilities and require disclosure of contingent assets and liabilities. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal, recurring nature. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, the valuation of deferred tax assets, and the evaluation of other-than-temporary impairment of securities.

Significant Group Concentrations of Credit Risk

Most of the Company's activities are with customers located in the greater Pittsburgh metropolitan area. Note 2 discusses the types of securities that the Company invests in. Note 3 discusses the types of lending that the Company engages in. The Company does not have any significant concentrations to any one industry or customer.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include cash and amounts due from depository institutions and interest-bearing deposits in other financial institutions with original maturities of 90 days or less.

Securities

The Company classifies securities as either: (1) Securities Held-to-Maturity—debt securities that the Company has the positive intent and ability to hold to maturity and which are reported at cost, adjusted for amortization of premium and accretion of discount on a level yield basis; (2) Trading Securities—debt and equity securities bought and held principally for the purpose of selling them in the near term and which are reported at fair value, with unrealized gains and losses included in the current period earnings; or (3) Securities Available-for-Sale—debt and equity securities not classified as either securities held-to-maturity or trading securities and which are reported at fair value, with unrealized gains and losses, net of taxes, included as a separate component of accumulated other comprehensive income. Management determines the appropriate classification of debt securities at the time of purchase.

Other-Than-Temporary Impairments (OTTI)

Periodically, all available-for-sale and held-to-maturity securities are evaluated for other-than-temporary impairment. A debt security is considered to be other-than-temporarily impaired if the present value of cash

Table of Contents

flows expected to be collected are less than the security's amortized cost basis (the difference defined as the credit loss) or if the fair value of the security is less than the security's amortized cost basis and the investor intends, or more-likely-than-not will be required, to sell the security before recovery of the security's amortized cost basis. When OTTI exists, if the investor does not intend to sell the security, and it is more-likely-than-not that it will not be required to sell the security, before recovery of the security's amortized cost basis, the charge to earnings is limited to the amount of credit loss. Any remaining difference between fair value and amortized cost (the difference defined as the non-credit portion) is recognized in other comprehensive income, net of applicable taxes. Otherwise, the entire difference between fair value and amortized cost is charged to earnings.

Loans Held for Sale

Loans originated and intended for sale in the secondary market are carried at the lower of cost or estimated fair value in the aggregate. Net unrealized losses, if any, are recognized through a valuation allowance by charges to income. All sales are made without recourse.

Loans Receivable

Loans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are stated at their outstanding unpaid principal balances, net of an allowance for loan losses and any deferred fees or costs. Interest income is accrued on the unpaid principal balance. Loan origination fees and costs are deferred and recognized as an adjustment of the yield (interest income) of the related loans. The Bank is generally amortizing these amounts over the contractual life of the loan.

The accrual of interest is generally discontinued when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about further collectability of principal or interest, even though the loan is currently performing. A loan may remain on accrual status if it is in the process of collection and is either guaranteed or well secured. When a loan is placed on nonaccrual status, unpaid interest credited to income in the current year is reversed. Interest received on nonaccrual loans generally is either applied against principal or reported as interest income, according to management's judgment as to the collectability of principal. Interest accrual resumes when the loan is no longer 90 or more days past due and the borrower, in management's opinion, is able to meet payments as they become due.

Allowance for Loan Losses

Management establishes the allowance for loan losses based upon its evaluation of the pertinent factors underlying the types and quality of loans in the portfolio. Commercial loans and commercial real estate loans are reviewed on a regular basis with a focus on larger loans along with loans which have experienced past payment or financial deficiencies. Larger commercial loans and commercial real estate loans which are 90 days or more past due are selected for impairment testing. These loans are analyzed to determine if they are "impaired", which means that it is probable that all amounts will not be collected according to the contractual terms of the loan agreement. All loans that are delinquent 90 days and are placed on nonaccrual status are classified on an individual basis. Residential loans 90 days past due, which are still accruing interest are classified as substandard. The remaining loans are evaluated and classified as groups of loans with similar risk characteristics.

The Company allocates allowances based on the factors described below. In reviewing risk within the Bank's loan portfolio, management has determined there to be several different risk categories within the loan portfolio. The allowance for loan losses consists of amounts applicable to: (i) the commercial loan portfolio; (ii) the commercial real estate portfolio; (iii) the consumer loan portfolio; (iv) the residential portfolio. Factors considered in this process included general loan terms, collateral and availability of historical data to support the analysis. Historical loss percentages for each risk category are calculated and used as the basis for calculating

Table of Contents

allowance allocations. Certain qualitative factors are then added to the historical loss percentages to get the adjusted factor to be applied to non-classified loans. The following qualitative factors are analyzed:

Levels of and trends in delinquencies and nonaccruals

Trends in volume and terms

Changes in lending policies and procedures

Economic trends

Concentrations of credit

The Company also maintains an unallocated allowance to account for any factors or conditions that may cause a potential loss but are not specifically addressed in the process described above. The Company analyzes its loan portfolio each quarter to determine the appropriateness of its allowance for loan losses.

The allowance for loan losses is maintained at a level believed to be adequate by management to absorb probable losses inherent in the portfolio and is based on the size and current risk characteristics of the loan portfolio, an assessment of individual problem loans and actual loss experience, current economic events in specific industries and other pertinent factors such as regulatory guidance and general economic conditions. Determination of the allowance is inherently subjective as it requires significant estimates, including the amounts and timing of expected future cash flows on impaired loans, estimated losses on pools of homogeneous loans based on historical loss experience and consideration of current economic trends, all of which may be susceptible to significant change. Loan losses are charged off against the allowance, while recoveries of amounts previously charged off are credited to the allowance. A provision for loan losses is charged to operations based on management's periodic evaluation of the factors previously mentioned, as well as other pertinent factors. Evaluations are conducted quarterly, during which loans may be charged off upon reaching various stages of delinquency and depending upon the loan type.

Loan Charge-off Policies

Consumer loans are generally fully or partially charged down to the fair value of collateral securing the asset when the loan is 180 days past due for open-end loans or 120 days past due for closed-end loans unless the loan is well secured and in the process of collection. All other loans are generally charged down to the net realizable value when the loan is 90 days past due.

Office Premises and Equipment

Office premises and equipment are stated at cost less accumulated depreciation and amortization. Depreciation is calculated on a straight-line basis over the estimated useful lives of the related assets. Office buildings are depreciated over their estimated useful life of 40 years; furniture, fixtures, and equipment are depreciated over their estimated useful lives, which vary between three and ten years; and land improvements are depreciated over their estimated useful life of twenty years.

Bank Owned Life Insurance (BOLI)

The Bank has purchased life insurance on the lives of certain officers of the Bank. The beneficial aspects of these life insurance policies are tax-free earnings and a tax-free death benefit, which are realized by the Bank as the owner of the policies. The cash surrender value of these policies is included as an asset on the Consolidated Statement of Financial Condition, and any increases in cash surrender value are recorded as other income on the Consolidated Statement of Income.

Foreclosed Real Estate

Edgar Filing: WESBANCO INC - Form 424B3

Foreclosed real estate is comprised of property acquired through a foreclosure proceeding or acceptance of a deed in lieu of foreclosure and loans classified as in-substance foreclosure. A loan is classified as in-substance

Table of Contents

foreclosure when the Bank has taken possession of the collateral regardless of whether formal foreclosure proceedings take place.

Foreclosed assets initially are recorded at fair value, net of estimated selling costs, at the date of foreclosure establishing a new cost basis. After foreclosure, management periodically performs valuations and the assets are carried at the lower of cost or fair value minus estimated costs to sell. Revenues and expenses from operations and changes in the valuation allowance are included in other expenses.

Transfer of Financial Assets

Transfers of financial assets are accounted for as sales, when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from the Company, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of the right) to pledge or exchange the transferred assets, and (3) the Company does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Goodwill and Intangible Assets

The Company accounts for Goodwill and Other Intangible Assets for purchased intangible assets and goodwill which is no longer amortized, but tested for impairment on an annual basis. Other acquired intangible assets with finite lives, such as purchased customer accounts, are amortized over their estimated lives. Other intangible assets are amortized using an accelerated method over estimated weighted average useful lives of ten years. The Company periodically assesses whether events or changes in circumstances indicate that the carrying amounts of goodwill and other intangible assets may be impaired. As of September 30, 2011 the Company concluded that no impairment charges needed to be recorded.

There were no changes in the carrying amount of goodwill for the years ended September 30, 2011 and 2010. Goodwill amounted to \$2.7 million at September 30, 2011 and September 30, 2010.

Amortizable intangible assets were composed of the following:

		2011	2010

Amortizable intangible assets, acquisition of deposit accounts	\$ 325	\$ 319	\$ 309

Income Taxes

Deferred income taxes are provided on the liability method whereby deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets and liabilities are adjusted through the provision for income taxes for the effects of changes in tax laws and rates on the date of enactment. The Company establishes a valuation allowance for deferred tax assets in accordance with U.S. generally accepted accounting principles when it is more-likely-

Table of Contents

than-not that the deferred tax asset will not be realized through carry-back to taxable income in prior years, future reversals of existing taxable temporary differences and, to a lesser extent, future taxable income.

The Company prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Benefits from tax positions should be recognized in the financial statements only when it is more likely than not that the tax position will be sustained upon examination by the appropriate taxing authority that would have full knowledge of all relevant information. A tax position that meets the more-likely-than-not recognition threshold is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent financial reporting period in which that threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not recognition threshold should be derecognized in the first subsequent financial reporting period in which that threshold is no longer met.

There is currently no liability for uncertain tax positions and no known unrecognized tax benefits. The Company recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses. During the years ended September 30, 2011 and 2010, the Company recognized neither interest nor penalties. The Company has not recorded an accrual for the payment of interest and penalties at September 30, 2011 and 2010. With limited exception, the Company's federal and state income tax returns for taxable years through 2007 have been closed for purposes of examination by the federal and state taxing jurisdictions.

Treasury Stock

The acquisition of treasury stock is recorded under the cost method. At the date of subsequent reissue, the treasury stock is reduced by the cost of such stock by the last in first out method.

Advertising

The Company follows the policy of accruing advertising costs on a monthly basis, based on its annual budget.

Earnings per Share

Basic earnings per share (EPS) is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. The following table sets forth the computation of basic and diluted earnings per share:

	Years Ended September 30,

Options to purchase 286,319 shares of common stock at prices ranging from \$11.06 to \$22.91 per share and 121,387 warrants at a price of \$8.65 were outstanding during 2011, but were not included in the computation of diluted EPS because to do so would have been anti-dilutive. Similarly options to purchase 353,196 shares of common stock at prices ranging from \$6.23 to \$22.91 per share, 5,962 shares of restricted stock at prices ranging from \$7.00 to \$13.06 per share, and 121,387 warrants at a price of \$8.65 were outstanding during 2010, but were not included in the computation of diluted EPS because to do so would have been anti-dilutive.

Comprehensive Income

The Company has developed the following table to disclose comprehensive income, which includes the tax effects of the components of other comprehensive income (loss). Other comprehensive income (loss) consists of net unrealized gains (losses) on securities available-for-sale, non-credit impairment charges on securities, and derivatives that qualify as cash flow hedges. Other comprehensive income (loss) and related tax effects for the years ended September 30 consists of:

	2011	2010
	(Dollar amounts in thousands)	
Net Income	\$ 1,535	\$ 678
Comprehensive gain (loss) on cash flow hedges net of tax of \$81 in 2011 and (\$25) in 2010	159	(49)
Comprehensive gain (loss) on investment securities, net of tax of (\$80) in 2011 and \$3,012 in 2010	(155)	5,846
Reclassification adjustment on investment securities, net of tax of (\$245) in 2011 and (\$399) in 2010	(477)	(776)
Comprehensive loss on securities for which Other-than-temporary impairment has been recognized in earnings, net of tax of (\$412) in 2011 and (\$2,617) in 2010	(800)	(5,080)
Reclassification adjustment for other-than-temporary impairment losses on debt securities, net of tax of \$481 in 2011 and \$1,219 in 2010	934	2,367
Total comprehensive income	\$ 1,196	\$ 2,986

Off-Balance Sheet Financial Instruments

In the ordinary course of business, the Company has entered into off-balance sheet financial instruments consisting of commitments to extend credit, commercial letters of credit, and standby letters of credit. Such financial instruments are recorded on the Consolidated Statement of Financial Condition when they become payable by the borrower to the Company.

Segment Reporting

The Company acts as an independent community financial services provider, and offers traditional banking and related financial services to individual, business, and government customers. Through its branches, the Company offers a full array of commercial and retail financial services.

Management does not separately allocate expenses, including the cost of funding loan demand, between the commercial and retail operations of the Company. As such, discrete financial information is not available and segment reporting would not be meaningful.

Restrictions on Cash and Due from Bank Accounts

The Bank is required to maintain average reserve balances, in the form of cash and balances with the Federal Reserve Bank based upon deposit composition. Based on its deposit classifications in fiscal 2011 and

Table of Contents

fiscal 2010, the Bank's average reserve requirement at September 30, 2011 and 2010 was \$434,000 and \$433,000, respectively.

Federal Home Loan Bank Stock

The Bank is a member of the FHLB of Pittsburgh and as such, is required to maintain a minimum investment in FHLB stock that varies with the level of advances outstanding with the FHLB. The stock is bought from and sold to the FHLB based upon its \$100 par value. The stock does not have a readily determinable fair value and as such is classified as restricted stock, carried at cost and evaluated for impairment when necessary. The stock's value is determined by the ultimate recoverability of the par value rather than by recognizing temporary declines. The determination of whether the par value will ultimately be recovered is influenced by criteria such as the following: (a) the significance of the decline in net assets of the FHLB as compared to the capital stock amount and the length of time this situation has persisted (b) commitments by the FHLB to make payments required by law or regulation and the level of such payments in relation to the operating performance (c) the impact of legislative and regulatory changes on the customer base of the FHLB and (d) the liquidity position of the FHLB.

The FHLB has incurred losses in the past two years and has suspended the payment of dividends. The losses are primarily attributable to impairment of investment securities associated with the extreme economic conditions in place over the last two years. Management evaluated the stock and concluded that the stock was not impaired for the periods presented herein. More consideration was given to the long-term prospects for the FHLB as opposed to the recent stress caused by the extreme economic conditions the world is facing. Management also considered that the FHLB's regulatory capital ratios have increased from the prior year, liquidity appears adequate, and new shares of FHLB stock continue to exchange hands at the \$100 par value.

Reclassifications

Certain amounts in the 2010 financial statements have been reclassified to conform with the 2011 presentation format. These reclassifications had no effect on stockholders' equity or net income.

New Accounting Standards

In July 2010, FASB issued ASU No. 2010-20, *Receivables (Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses*. ASU 2010-20 is intended to provide additional information to assist financial statement users in assessing an entity's credit risk exposures and evaluating the adequacy of its allowance for credit losses. The disclosures as of the end of a reporting period are effective for interim and annual reporting periods ending on or after December 15, 2010. The disclosures about activity that occurs during a reporting period are effective for interim and annual reporting periods beginning on or after December 15, 2010. The amendments in ASU 2010-20 encourage, but do not require, comparative disclosures for earlier reporting periods that ended before initial adoption. However, an entity should provide comparative disclosures for those reporting periods ending after initial adoption. The adoption of this ASU did not have a material effect on the Company's results of operations or financial position. The Company has presented the necessary disclosures in Note (3) herein.

In December 2010, the FASB issued ASU 2010-28, *When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts*. This ASU modifies Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating an impairment may exist. The qualitative factors are consistent with the existing guidance, which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. For public entities, the amendments in this

Table of Contents

update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2010. Early adoption is not permitted. This ASU is not expected to have a significant impact on the Company's financial statements.

In December 2010, the FASB issued ASU 2010-29, *Disclosure of Supplementary Pro Forma Information for Business Combinations*. The amendments in this update specify that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The amendments also expand the supplemental pro forma disclosures under Topic 805 to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. The amendments in this Update are effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. Early adoption is permitted. This ASU is not expected to have a significant impact on the Company's financial statements.

In April 2011, the FASB issued ASU 2011-02, *Receivables (Topic 310): A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring*. The amendments in this Update provide additional guidance or clarification to help creditors in determining whether a creditor has granted a concession and whether a debtor is experiencing financial difficulties for purposes of determining whether a restructuring constitutes a troubled debt restructuring. The amendments in this Update are effective for the first interim or annual reporting period beginning on or after June 15, 2011, and should be applied retrospectively to the beginning annual period of adoption. As a result of applying these amendments, an entity may identify receivables that are newly considered impaired. For purposes of measuring impairment of those receivables, an entity should apply the amendments prospectively for the first interim or annual period beginning on or after June 15, 2011. The Company has presented the necessary disclosures in Note (3) herein.

In April 2011, the FASB issued ASU 2011-03, *Reconsideration of Effective Control for Repurchase Agreements*. The main objective in developing this Update is to improve the accounting for repurchase agreements (repos) and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. The amendments in this Update remove from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (2) the collateral maintenance implementation guidance related to that criterion. The amendments in this Update apply to all entities, both public and nonpublic. The amendments affect all entities that enter into agreements to transfer financial assets that both entitle and obligate the transferor to repurchase or redeem the financial assets before their maturity. The guidance in this Update is effective for the first interim or annual period beginning on or after December 15, 2011 and should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. This ASU is not expected to have a significant impact on the Company's financial statements.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*. The amendments in this Update result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The amendments in this update are to be applied prospectively. For public entities, the amendments are effective during interim and annual periods beginning after December 15, 2011. For nonpublic entities, the amendments are effective for annual periods beginning after December 15, 2011. Early application by public entities is not permitted. This ASU is not expected to have a significant impact on the Company's financial statements.

In June 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income*. The amendments in this Update improve the comparability, clarity, consistency, and transparency of financial reporting and increase

Table of Contents

the prominence of items reported in other comprehensive income. To increase the prominence of items reported in other comprehensive income and to facilitate convergence of U.S. GAAP and IFRS, the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity was eliminated. The amendments require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the two-statement approach, the first statement should present total net income and its components followed consecutively by a second statement that should present total other comprehensive income, the components of other comprehensive income, and the total of comprehensive income. All entities that report items of comprehensive income, in any period presented, will be affected by the changes in this Update. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. For nonpublic entities, the amendments are effective for fiscal years ending after December 15, 2012, and interim and annual periods thereafter. The amendments in this Update should be applied retrospectively, and early adoption is permitted. This ASU is not expected to have a significant impact on the Company's financial statements.

In September 2011, the FASB issued ASU 2011-08, *Intangibles - Goodwill and Other Topics (Topic 350), Testing Goodwill for Impairment*. The objective of this update is to simplify how entities, both public and non-public, test goodwill for impairment. The amendments in the Update permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. Under the amendments in this Update, an entity is not required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. The amendments in this Update apply to all entities, both public and non-public, that have goodwill reported in their financial statements and are effective for interim and annual goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, including for annual and interim goodwill impairment tests performed as of a date before September 15, 2011, if an entity's financial statements for the most recent annual or interim period have not yet been issued or, for non-public entities, have not yet been made available for issuance. This ASU is not expected to have a significant impact on the Company's financial statements.

In September 2011, the FASB issued ASU 2011-09, *Compensation-Retirement Benefits-Multiemployer Plans* (Subtopic 715-80). The amendments in this Update will require additional disclosures about an employer's participation in a multiemployer pension plan to enable users of financial statements to assess the potential cash flow implications relating to an employer's participation in multiemployer pension plans. The disclosures also will indicate the financial health of all of the significant plans in which the employer participates and assist a financial statement user to access additional information that is available outside the financial statements. For public entities, the amendments in this Update are effective for annual periods for fiscal years ending after December 15, 2011, with early adoption permitted. For nonpublic entities, the amendments are effective for annual periods of fiscal years ending after December 15, 2012, with early adoption permitted. The amendments should be applied retrospectively for all prior periods presented. This ASU is not expected to have a significant impact on the Company's financial statements.

At September 30, 2011 investments with an amortized cost of \$45.5 million and fair values of \$47.0 million were pledged to secure short-term and long-term borrowings with the Federal Home Loan Bank and the Federal Reserve Bank.

The proceeds from the sale of securities for the year ended September 30, 2011 was \$33.7 million. Gross gains of \$809,000 and gross losses of \$0 were realized on sales of securities in fiscal 2011. The proceeds from the sale of securities for the year ended September 30, 2010 were \$16.7 million. Gross gains of \$1.1 million and gross losses of \$23,000 were realized on sales of securities in fiscal 2010.

The Company recognized other-than-temporary impairment losses on securities of \$1.5 million and \$3.6 million for the fiscal periods ended September 30, 2011 and 2010, respectively. The impairment charges for the fiscal period ended September 30, 2011 relate to six pooled trust preferred securities, a single issuer trust preferred security, a private label mortgage-backed security, and common stock of a local financial institution. The impairment charges for the fiscal period ended September 30, 2010 relate to six pooled trust preferred securities and one private label mortgage-backed security.

At September 30, 2011, the unrealized losses on the securities portfolio were primarily attributable to wider credit spreads reflecting market illiquidity. The Company does not intend to sell these securities and it is not more-likely-than-not that the Company will have to sell these securities.

The Company conducts periodic reviews to identify and evaluate each investment that has an unrealized loss. An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis. Unrealized losses that are determined to be temporary in nature are recorded, net of tax, in *Accumulated Other Comprehensive Income* (AOCI) for available-for-sale securities, while such losses related to held-to-maturity securities are not recorded, as these investments are carried at their amortized cost.

Regardless of the classification of the securities as available-for-sale or held-to-maturity, the Company has assessed each position for credit impairment.

Factors considered in determining whether a loss is temporary include:

the length of time and the extent to which fair value has been below cost;

the severity of the impairment;

the cause of the impairment and the financial condition and near-term prospects of the issuer;

activity in the market of the issuer which may indicate adverse credit conditions;

F-52

Table of Contents

if the Company intends to sell the investment;

if it is more-likely-than-not the Company will be required to sell the investment before recovering its amortized cost basis; and

if the Company does not expect to recover the investment's entire amortized cost basis (even if the Company does not intend to sell the security).

The Company's review for impairment generally entails:

identification and evaluation of investments that have indications of possible impairment;

analysis of individual investments that have fair values less than amortized cost, including consideration of the length of time the investment has been in an unrealized loss position and the expected recovery period;

discussion of evidential matter, including an evaluation of factors or triggers that could cause individual investments to qualify as having other-than-temporary impairment and those that would not support other-than-temporary impairment; and

documentation of the results of these analyses, as required under business policies.

For debt securities that are not deemed to be credit impaired, management performs additional analysis to assess whether it intends to sell or would more-likely-than-not be required to sell the investment before the expected recovery of the amortized cost basis. Management has asserted that it has no intent to sell and that it believes it is more-likely-than-not that it will not be required to sell the investment before recovery of its amortized cost basis.

Similarly, for equity securities, management considers the various factors described above, including its intent and ability to hold the equity security for a period of time sufficient for recovery to amortized cost. Where management lacks that intent or ability, the security's decline in fair value is deemed to be other-than-temporary and is recorded in earnings.

For debt securities, a critical component of the evaluation for other-than-temporary impairment is the identification of credit impaired securities where management does not receive cash flows sufficient to recover the entire amortized cost basis of the security. The extent of the Company's analysis regarding credit quality and the stress on assumptions used in the analysis had been refined for securities where the current fair value or other characteristics of the security warrant. The paragraphs below describe the Company's process for identifying credit impairment in security types with the most significant unrealized losses as of September 30, 2011.

Trust Preferred Debt Securities

Included in debt securities in an unrealized loss position at September 30, 2011 were thirteen different trust preferred offerings with an aggregate fair value of \$7.6 million, which had floating rates based on LIBOR. The unrealized losses on these debt securities amounted to \$6.5 million at September 30, 2011. Due to dislocations in the credit markets broadly and the lack of trading and new issuances in pooled trust preferred securities, market price indications generally reflect the lack of liquidity in the market. Prices on pooled trust preferred securities were calculated by a third party valuation company. The valuation methodology is based on the premise that the fair value of the security's collateral should approximate the fair value of its liabilities. In general, the spreads for trust-preferred collateral have widened by over 500 basis points since 2007. To determine the decline in the collateral's value associated with this increase in credit spreads, the third party projected collateral cash flows for each pool using Intex, the industry standard modeling software for securities of this type. Once generated, the cash flows for each pool were discounted at the applicable rate to arrive at the fair value of the collateral. Any declines in the resulting fair value of the collateral below the par value represents the component of loss attributed to credit risk. The credit quality of each collateral pool was then analyzed for the purpose of projecting

Table of Contents

defaults and recoveries. Prepayment assumptions were also estimated. With these additional assumptions, cash flow projections for both the collateral and the debt obligation were modeled and valued. The fair value of each bond was then determined by discounting the projected cash flows by an adjusted discount rate (adjusted to capture the default risk). During the fiscal period ended September 30, 2011, the Company recognized in earnings impairment charges of \$1.1 million on six investments in pooled trust preferred securities and \$135,000 on a single issuer trust preferred security. The impairment charges on the pooled trust preferred securities resulted from several factors, including a downgrade on their credit ratings, failure to pass their principal coverage tests, indications of a break in yield, and the decline in the net present value of their projected cash flows. Management of the Company has deemed the impairment of these six trust preferred securities to be other-than-temporary based upon these factors and the duration and extent to which the market value has been less than cost, the inability to forecast a recovery in market value, and other factors concerning the issuers in the pooled security. The impairment charges on the single issuer trust preferred security resulted from the financial institution being put on regulatory order after several quarters of losses and it started deferring interest payments on both its trust preferred and its TARP preferred shares outstanding. During the fiscal period ended September 30, 2010, the Company recognized in earnings impairment charges of \$3.5 million on six investments in pooled trust preferred securities resulting from several factors, including a downgrade on their credit ratings, failure to pass their principal coverage tests, indications of a break in yield, and the decline in the net present value of their projected cash flows. Management of the Company has deemed the impairment of these six trust preferred securities to be other-than-temporary based upon these factors and the duration and extent to which the market value has been less than cost, the inability to forecast a recovery in market value, and other factors concerning the issuers in the pooled security. Based on cash flow forecasts for the remaining securities, management expects to recover the remaining amortized cost of these securities. Furthermore, the Company does not intend to sell these securities and it is not more-likely-than-not that the Company will be required to sell these securities before recovery of their cost basis, which may be at maturity.

Equity Securities in Financial Institutions

At September 30, 2011 the Company had \$1.0 million of unrealized losses on equity securities in financial institutions. These securities represent investments in common equity offerings of six financial institutions with an aggregate fair value of \$1.4 million. In addition to the general factors mentioned above for determining whether the decline in market value is other-than-temporary, the analysis of each of these securities includes a review of the profitability of each issuer and its capital adequacy, and all data available to determine the credit quality of each issuer. During the fiscal period ended September 30, 2011, the Company recognized in earnings impairment charges of \$87,000 on one investment in common stock of a local financial institution resulting from the duration and extent to which the market value has been less than the cost and the performance of the financial institution over the past two years. There were no impairment charges taken on these securities for the fiscal period ended September 30, 2010. Based on the Company's detailed analysis and because the Company has the ability and intent to hold the investments until a recovery of its amortized cost basis, the Company does not consider these remaining assets to be other-than-temporarily impaired at September 30, 2011. However, continued price declines could result in a writedown of one or more of these equity investments.

Corporate Obligations

Included in corporate obligations in an unrealized loss position at September 30, 2011 were two different securities with an aggregate fair value of \$1.2 million. The unrealized loss on these securities amounted to \$845,000 at September 30, 2011. These two securities represent investments in corporate obligations issued by financial institutions and have floating rates which reset monthly based on LIBOR. In addition to the general factors mentioned above for determining whether the decline in market value is other-than-temporary, the analysis of each of these securities included a review of the profitability of each issuer and its capital adequacy, and all data available to determine the credit quality of each issuer. Both issuers are well-capitalized as of September 30, 2011 and the securities have an investment grade rating as rated by at least one nationally recognized credit rating agency. Both institutions had participated in the Treasury's TARP Capital Purchase

Table of Contents

Program and have subsequently repaid the TARP proceeds. Based on the Company's detailed analysis and because the Company has the ability and intent to hold these investments until a recovery of its amortized cost basis, the Company does not consider these securities to be other-than-temporarily impaired at September 30, 2011. There were no impairment charges taken on these securities for the fiscal periods ended September 30, 2011 and 2010.

Private-Label Collateralized Mortgage Obligations

Included in private-label collateralized mortgage obligations in an unrealized loss position at September 30, 2011 were four different securities with an aggregate fair value of \$1.8 million. The unrealized loss on these securities amounted to \$223,000 at September 30, 2011. A significant amount of the unrealized losses at September 30, 2011 represents one private label mortgage-backed security. For the fiscal periods ended September 30, 2011 and 2010 the Company recognized \$204,000 and \$57,000, respectively, of credit impairment losses relating to this security. The impairment losses were a result of a downgrade in its credit rating, as well as independent third-party analysis of the underlying collateral for the bond. Based on management's analysis of the remaining securities, management determined that the price declines are strictly market and spread related and management expects to recover the remaining amortized cost of these securities. Furthermore, the Company does not intend to sell these securities and it is not more-likely-than-not that the Company will be required to sell these securities before recovery of their cost basis, which may be at maturity.

The following is a rollforward for the fiscal period ended September 30, 2011 of the amounts recognized in earnings related to credit losses on securities which the Company has recorded other-than-temporary impairment charges through earnings and other comprehensive income:

The segments of the Bank's loan portfolio are disaggregated to a level that allows management to monitor risk and performance. The residential mortgage loan segment is made up of fixed rate and adjustable rate single-family amortizing term loans, which are primarily first liens. The commercial real estate (CRE) loan segment is further disaggregated into two classes. Non-owner occupied CRE loans, which include loans secured by non-owner occupied nonfarm nonresidential properties, generally have a greater risk profile than all other CRE loans, which include multifamily structures and owner-occupied commercial structures. The construction loan segment is further disaggregated into two classes. One to four family residential construction loans are generally made to individuals for the acquisition of and/or construction on a lot or lots on which a residential dwelling is to be built. Commercial construction loans are generally made to developers or investors for the purpose of acquiring, developing and constructing residential or commercial structures. Construction lending is generally considered to involve a higher degree of credit risk than long-term permanent financing. If the estimate of construction cost proves to be inaccurate, the Bank may be compelled to advance additional funds to complete the construction with repayment dependent, in part, on the success of the ultimate project rather than the ability of a borrower or guarantor to repay the loan. If the Bank is forced to foreclose on a project prior to completion, there is no assurance that it will be able to recover all of the unpaid portion of the loan. In addition, the Bank may be required to fund additional amounts to complete a project and may have to hold the property for an indeterminate period of time. The commercial business and lease loan segment consists of loans made for the purpose of financing the activities of commercial customers. The home equity loan segment consists primarily of home equity loans, which are generally second liens. The consumer loans consist of motor vehicle loans, savings account loans, personal lines of credit, overdraft loans, other types of secured consumer loans, and unsecured personal loans.

Management evaluates individual loans in all of the commercial segments for possible impairment if the loan is greater than \$50,000 and if the loan either is in nonaccrual status, or is risk rated Substandard. Loans are considered to be impaired when, based on current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in evaluating impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. The Company does not separately evaluate individual consumer and residential mortgage loans for impairment, unless such loans are part of a larger relationship that is impaired, or are classified as a troubled debt restructuring agreement.

Table of Contents

Once the determination has been made that a loan is impaired, the determination of whether a specific allocation of the allowance is necessary is measured by comparing the recorded investment in the loan to the fair value of the loan using one of three methods: (a) the present value of expected future cash flows discounted at the loan's effective interest rate; (b) the loan's observable market price; or (c) the fair value of the collateral less selling costs. The method is selected on a loan-by-loan basis, with management primarily utilizing the fair value of collateral method, which is required for loans that are collateral dependent. The evaluation of the need and amount of a specific allocation of the allowance and whether a loan can be removed from impairment status is made on a monthly basis. The Company's policy for recognizing interest income on impaired loans does not differ from its overall policy for interest recognition.

The following table presents impaired loans by class, segregated by those for which a specific allowance was required and those for which a specific allowance was not necessary as of September 30, 2011 and 2010 (in thousands):

There are certain impaired loans whose payments are being applied to reduce the principal balance of the loan because the recovery of interest is not determinable. The unpaid principal balance reflects the balance as if the payments were applied in accordance with the terms of the original contractual agreement whereas the recorded investment reflects the outstanding principal balance for financial reporting purposes.

Management uses an eight point internal risk rating system to monitor the credit quality of the overall loan portfolio. The first four categories are considered not criticized, and are aggregated as Pass rated. The criticized rating categories utilized by management generally follow bank regulatory definitions. The Special Mention category includes assets that are currently protected but are potentially weak, resulting in an undue and unwarranted credit risk, but not to the point of justifying a Substandard classification. Loans in the Substandard category have well-defined weaknesses that jeopardize the orderly liquidation of the debt, and have a distinct possibility that some loss will be sustained if the weaknesses are not corrected. All loans greater than 90 days past due are considered Substandard. Loans in the Doubtful category have all the weaknesses found in substandard loans, with the added provision that the weaknesses make collection of debt in full highly questionable and improbable. Any portion of a loan that has been charged off is placed in the Loss category.

To help ensure that risk ratings are accurate and reflect the present and future capacity of borrowers to repay a loan as agreed, the Bank has a structured loan rating process with several layers of internal and external oversight. The Bank's Commercial Loan Officers are responsible for the timely and accurate risk rating of the loans in their portfolios at origination and on an ongoing basis. The Credit Analysis Department confirms the appropriate risk grade at origination and monitors all subsequent changes to risk ratings. The Bank's Classified Asset Committee approves all risk rating changes, except those made within the pass risk ratings. The Bank engages an external consultant to conduct loan reviews on a quarterly basis. Generally, the external consultant reviews commercial relationships that equal or exceed \$1,000,000, 10% of the number of loans under \$1,000,000, and adversely classified commercial credits in excess of \$50,000. Detailed reviews, including plans for resolution, are performed on loans classified as substandard on a monthly basis. Loans in the Special Mention and Substandard categories that are collectively evaluated for impairment are given separate consideration in the determination of the allowance.

An allowance for loan and lease losses (ALLL) is maintained to absorb losses from the loan portfolio. The ALLL is based on management's continuing evaluation of the risk characteristics and credit quality of the loan portfolio, assessment of current economic conditions, diversification and size of the portfolio, adequacy of collateral, past and anticipated loss experience, and the amount of non-performing loans.

Table of Contents

The classes described above, provide the starting point for the ALLL analysis. Management tracks the historical net charge-off activity by loan class. A historical charge-off factor is calculated and applied to each class. Loans that are collectively evaluated for impairment are analyzed with general allowances being made as appropriate. For general allowances, historical loss trends are used in the estimation of losses in the current portfolio. Other qualitative factors are also considered.

Pass rated credits are segregated from Criticized credits for the application of qualitative factors. Management has identified a number of qualitative factors which it uses to supplement the historical charge-off factor because these factors are likely to cause estimated credit losses associated with the existing loan pools to differ from historical loss experience. The qualitative factors are evaluated quarterly and updated using information obtained from internal, regulatory, and governmental sources. The Bank's qualitative factors consist of: national and local economic trends and conditions; levels of and trends in delinquency rates and non-accrual loans; levels of and trends in the Bank's borrowers in bankruptcy; trends in volumes and terms of loans; effects of changes in lending policies and strategies; and concentrations of credit from a loan type, industry and/or geographic standpoint.

Management reviews the loan portfolio on a quarterly basis using a defined, consistently applied process in order to make appropriate and timely adjustments to the ALLL. When information confirms all or part of specific loans to be uncollectible, these amounts are promptly charged off against the ALLL.

The following table summarizes the primary segments of the ALLL, segregated into the amount required for loans individually evaluated for impairment and the amount required for loans collectively evaluated for impairment as of September 30, 2011. Activity in the allowance is presented for the twelve months ended September 30, 2011 (in thousands):

other qualitative factors, as well as the consistency in the application of assumptions, result in an ALLL that is representative of the risk found in the components of the portfolio at any given date.

At September 30, 2011 loans with a carrying amount of \$113.9 million were pledged to secure short-term and long-term borrowings with the Federal Home Loan Bank.

Commitments to originate loans at September 30, 2011 were approximately as follows:

First mortgage loans:		
Fixed rate	3.250% to 5.500%	\$ 2,776
Adjustable rate	3.250% to 5.250%	10,822

The Bank conducts its business through thirteen offices located in the greater Pittsburgh metropolitan area. At September 30, 2011 and 2010, the majority of the Bank's loan portfolio was secured by properties located in this region. The Bank does not believe it has significant concentrations of credit risk to any one group of borrowers given its underwriting and collateral requirements.

In the normal course of business, loans are extended to directors, executive officers, and their associates. A summary of loan activity for those directors, executive officers, and their associates with loan balances in excess of \$60,000 for the year ended September 30, 2011, is as follows:

2010	Additions	Amounts Collected	2011
	(Dollar amounts in thousands)		
\$2,792	\$1,029	\$1,370	\$2,451

The Company's loan portfolio also includes certain loans that have been modified in a troubled debt restructuring (TDR), where economic concessions have been granted to borrowers who have experienced or are expected to experience financial difficulties. These concessions typically result from the Company's loss mitigation activities and could include reductions in the interest rate, payment extensions, forgiveness of principal, forbearance or other actions. At September 30, 2011 the Company had two home equity loans totaling \$98,000 that are TDRs and are classified as nonperforming. All other TDRs are making payments in accordance with the new loan agreements. There are no commitments to lend additional funds to these borrowers. At September 30, 2010 the Company did not have any TDRs that were classified as nonperforming.

When the Company modifies a loan, management evaluates any possible impairment based on the present value of expected future cash flows, discounted at the contractual interest rate of the original loan agreement, except when the sole remaining source of repayment for the loan is the operation or liquidation of the collateral. In these cases management uses the current fair value of the collateral, less selling costs, instead of discounted cash flows. If management determines that the value of the modified loan is less than the recorded investment in the loan, impairment is recognized by segment of class of loan, as applicable, through a charge-off to the allowance. Segment and class status is determined by the loan's classification at origination. As of September 30, 2011 a specific reserve of \$143,000 has been established against two commercial real estate loans. Also, as of September 30, 2011 the Company charged-off \$123,000 for one commercial real estate loan that had a modified loan value which was less than its recorded investment. At September 30, 2010 a specific reserve of \$144,000 had been established against one commercial real estate loan modified in a troubled debt restructuring.

outstanding advances. The remaining maximum borrowing capacity with the FHLB of Pittsburgh at September 30, 2011 was approximately \$16,940,000.

FHLB Convertible Select advances are long-term borrowings with terms of up to ten years and have a fixed rate for the first three months to five years of the term. After the fixed rate term expires and quarterly thereafter, the FHLB may convert the advance to an adjustable rate advance at their option. If the advance is converted to an adjustable rate advance, the Bank has the option at the conversion date and quarterly thereafter to prepay the advance with no prepayment fee.

Note 7 Subordinated Debt

Subordinated debt was \$7,732,000 at September 30, 2011 and 2010. The Subordinated Debt represents obligations of the wholly-owned statutory business trust subsidiary (the Trust) which is not consolidated for financial statement purposes. The Trust was formed with initial capitalization in common stock of \$232,000 and for the exclusive purpose of issuing \$7,500,000 of Preferred Securities and using the total proceeds to acquire Junior Subordinated Debt Securities (Debt Securities) issued by the Company. The Debt Securities are unsecured and rank subordinate and junior in right of payment to all indebtedness, liabilities, and obligations of the Company. The Debt Securities are due concurrently with the Preferred Securities and bear the same rate of interest as the Preferred Securities. The Preferred Securities qualify as Tier 1 capital for regulatory capital purposes.

The \$7,500,000 Floating Rate Preferred Securities were issued on September 20, 2007 and are callable in whole or in part at par on December 15, 2012 and quarterly thereafter, except in certain circumstances. These securities mature on December 15, 2037. These securities bear a current interest rate of 1.71% through December 14, 2011 and adjust quarterly at a rate equal to three-month LIBOR plus 1.36%. During the second quarter of fiscal 2008, the Company entered into an interest rate swap to manage its exposure to interest rate risk. This interest rate swap transaction involved the exchange of the Company's floating rate interest rate payment on its \$7.5 million in floating rate preferred securities for a fixed rate interest payment without the exchange of the underlying principal amount (see Note 18 Derivative Instrument).

Note 8 Securities Sold Under Agreements to Repurchase

The Bank enters into sales of securities under agreements to repurchase. Such repurchase agreements are treated as financings and the obligations to repurchase securities sold are reflected as a liability in the consolidated statements of financial condition. The dollar amount of securities underlying the agreements remains in the asset accounts. The securities sold under agreements to repurchase are collateralized by various securities that are either held in safekeeping by the FHLB or delivered to the broker/dealer who arranged the transaction. The fair value of such securities exceeds the value of the securities sold under agreements to repurchase.

Securities sold under agreements to repurchase included retail borrowings during fiscal 2011 and 2010. The daily average balance during 2011 and 2010 was \$10,115,000 and \$9,746,000, respectively, and the daily average interest rate was 0.18% and 0.45%, respectively. The maximum amount outstanding at any month-end during 2011 and 2010 was \$13,700,000 and \$13,393,000, respectively. At September 30, 2011 retail borrowings outstanding were \$11,373,000 at a weighted average interest rate of 0.13%. At September 30, 2010 retail borrowings outstanding were \$13,342,000 at a weighted average interest rate of 0.25%.

Securities underlying sales of securities under retail repurchase agreements consisted of investment securities that had an amortized cost of \$16,587,000 and a fair value of \$16,690,000 at September 30, 2011.

The Bank has five separate structured repurchase agreements with PNC Bank, N.A. (PNC) and Citigroup Global Markets, Inc. (CGMI). Each agreement is structured as the sale of a specified amount of identified securities to the counterparty which the Bank has agreed to repurchase five to seven years after the initial sale. The underlying securities consist of various U.S. Government and agency obligations, municipal obligations, and mortgage-backed securities, which continue to be carried as assets of the Bank, and the Bank is entitled to

Table of Contents

receive interest and principal payments on the underlying securities. The Bank is required to post additional collateral if the market value of the securities subject to repurchase falls below 105% of principal amount. While the repurchase agreements are in effect, the Bank is required to pay interest quarterly at the rate specified in the agreement. Each of the agreements provides an initial fixed or floating interest rate that converts to a floating or fixed rate at the end of six months to one year. The Bank also has one fixed rate agreement that does not convert. The counterparty has the option of terminating the repurchase agreement at the reset date and quarterly thereafter. The counterparty may also terminate the repurchase agreement upon certain events of default including the Bank's failure to maintain well-capitalized status. Upon termination, the Bank would be required to repurchase the securities. At September 30, 2011 the Bank had \$35,000,000, of borrowings outstanding with PNC, with a weighted average maturity of 1.22 years and had \$30,000,000, of borrowings outstanding with CGMI, with a weighted average maturity of 2.34 years. At September 30, 2010 the Bank had \$55,000,000, of borrowings outstanding with PNC, with a weighted average maturity of 1.59 years and had \$40,000,000, of borrowings outstanding with CGMI, with a weighted average maturity of 2.66 years. Securities underlying sales of securities under structured repurchase agreements consisted of investment securities that had an amortized cost of \$75,013,000 and \$107,633,000 and a fair value of \$78,086,000 and \$111,989,000 at September 30, 2011 and 2010, respectively.

The Bank's structured repurchase agreements are summarized as follows at September 30, 2011 and 2010:

Note 9 Financial Instruments with Off-Balance Sheet Risk

The Bank is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated statements of financial condition.

The Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Table of Contents

A summary of the contractual amount of the Bank's financial instrument commitments is as follows:

	September 30,	
	2011	2010
	(Dollar amounts in thousands)	
Commitments to grant loans	\$ 15,375	\$ 9,093
Unfunded commitments under lines of credit	80,270	70,684
Financial and performance standby letters of credit	592	1,333

The Bank's customers have available lines of credit as follows: consumer, both secured and unsecured, and commercial, generally secured. The amount available at September 30, 2011 and 2010 was \$33,911,000 and \$31,614,000, respectively, for consumer lines of credit and \$46,359,000 and \$39,069,000, respectively, for commercial lines of credit. The interest rate for the consumer lines of credit range from 2.25% to 8.00%, the majority of which are at variable rates. The interest rates for the commercial lines of credit are generally variable and based on prevailing market conditions at the time of funding. The Bank's customers also have available letters of credit. The amount available under these letters of credit at September 30, 2011 and 2010 was \$592,000 and \$1,333,000, respectively. The interest rates are generally variable and based on prevailing market conditions at the time of funding.

The Company does not issue any guarantees that would require liability recognition or disclosure, other than its standby letters of credit. Standby letters of credit written are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Generally, all letters of credit when issued have expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending other loan commitments. The Bank requires collateral supporting these letters of credit as deemed necessary. Management believes that the proceeds obtained through a liquidation of such collateral would be sufficient to cover the maximum potential amount of future payments required under the corresponding guarantees. The current amount of liability as of September 30, 2011 and 2010 for guarantees under standby letters of credit issued is not material.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the commitment. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The Bank evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based on management's credit evaluation of the borrower. The collateral consists primarily of residential real estate and personal property.

The Company does not have any off-balance sheet risk at September 30, 2011, except for the commitments referenced above.

Intangible assets	2	5
Office premises and equipment	144	143
Gross deferred tax liabilities	146	150
Net deferred tax asset	\$ 7,425	\$ 6,853

Net operating loss carryforwards in the amount of \$0 and \$48,000, obtained from acquisitions, were utilized in fiscal 2011 and 2010, respectively. As of September 30, 2011, the Company has state net operating loss carryforwards of \$7,725,773 that expire through 2019. Management does not believe that these state net operating loss carryforwards will be utilized prior to their expiration, and as such, valuation allowances of \$509,000 and \$445,000 for fiscal 2011 and 2010, respectively, have been provided for them.

The tax benefit for fiscal 2010 was primarily a result of the Company having tax-exempt income that is currently higher than pre-tax income due to the OTTI charges and increases in the provision for loan losses that were taken, thus the effective tax rate is not meaningful. Tax-exempt

Edgar Filing: WESBANCO INC - Form 424B3

income includes income earned on certain municipal investments that qualify for state and/or federal income tax exemption; income earned by the Bank's Delaware subsidiary, which is not subject to state income tax; and earnings on Bank-owned life insurance

Table of Contents

policies, which are exempt from federal taxation. State and federal tax-exempt income for fiscal 2011 was \$6.2 million and \$1.4 million, respectively, compared to \$7.2 million and \$1.6 million, respectively, for fiscal 2010. The amount of tax benefit recognized on the OTTI charges was based on the tax characteristics of each security (capital or ordinary). Those securities that are treated as capital losses for tax purposes have limited tax benefits recorded and a valuation allowance of \$1.1 million for fiscal 2010 was provided for them.

There is currently no liability for uncertain tax positions and no known unrecognized tax benefits. The Company recognizes, when applicable, interest and penalties related to unrecognized tax benefits in the provision for income taxes in the Consolidated Statement of Income. With few exceptions, the Company is no longer subject to U.S. federal income tax examinations by tax authorities for years before 2007.

Tax basis bad debt reserves established after 1987 are treated as temporary differences on which deferred income taxes have been provided. Deferred taxes are not required to be provided on tax bad debt reserves recorded in 1987 and prior years (base year bad debt reserves). Approximately \$3,404,000 of the balance in retained earnings at September 30, 2011, represents base year bad debt deductions for tax purposes only. No provision for federal income tax has been made for such amount. Should amounts previously claimed as a bad debt deduction be used for any purpose other than to absorb bad debts (which is not anticipated), tax liabilities will be incurred at the rate then in effect.

Note 11 Stockholders Equity

The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined) and of Tier 1 capital (as defined) to average assets (as defined). Management believes as of September 30, 2011 that the Bank meets all capital adequacy requirements to which it is subject.

As of September 30, 2011, the most recent notification from the Federal Deposit Insurance Corporation categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum total risk-based, Tier 1 risk-based, and Tier 1 leverage ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the Bank's category.

The Federal Reserve Board (FRB) measures capital adequacy for bank holding companies on the basis of a risk-based capital framework and a leverage ratio. The minimum ratio of total risk-based capital to risk-weighted assets is 8%. At least half of the total capital must be common stockholders' equity (not inclusive of net unrealized gains and losses on available-for-sale debt securities, non-credit impairment charges on held-to-maturity debt securities, net unrealized gains on available-for-sale equity securities, and net unrealized gains and losses on cash flow hedges) and perpetual preferred stock less goodwill and other nonqualifying intangible assets (Tier 1 capital). The remainder (i.e., the Tier 2 risk-based capital) may consist of hybrid capital instruments, perpetual debt, term subordinated debt, other preferred stock and a limited amount of the allowance for loan losses. At September 30, 2011, the Company had Tier I capital as a percentage of risk-weighted assets of 12.9% and total risk-based capital as a percentage of risk-weighted assets of 14.2%.

Table of Contents

In addition, the FRB has established minimum leverage ratio guidelines for bank holding companies. These guidelines currently provide for a minimum ratio of Tier 1 capital as a percentage of average total assets (the Leverage Ratio) of 3% for bank holding companies that meet certain criteria, including that they maintain the highest regulatory rating. The minimum leverage ratio for all other bank holding companies is 4%. At September 30, 2011, the Company had a leverage ratio of 7.8%.

The following table sets forth certain information concerning the Bank's regulatory capital at September 30, 2011 and 2010:

Federal and state banking regulations place certain restrictions on dividends paid and loans or advances made by the Bank to the Company. The total amount of dividends, which may be paid at any date, is generally limited to the retained earnings of the Bank and loans or advances are limited to 10 percent of the Bank's capital stock and surplus on a secured basis.

At September 30, 2011, the Bank's retained earnings available for the payment of dividends was \$14.2 million. Accordingly, \$39.6 million of the Company's equity in the net assets of the Bank was restricted at September 30, 2011. Funds available for loans or advances by the Bank to the Company amounted to \$5.5 million. Any such borrowing must be on terms that would be available to unaffiliated parties and must be fully collateralized in accordance with FRB regulations. In addition, dividends paid by the Bank to the Company would be prohibited if the effect thereof would cause the Bank's capital to be reduced below applicable minimum capital requirements.

On November 17, 2009, the Company made informal commitments to the Federal Reserve Bank of Cleveland (Reserve Bank). The Company has agreed that, without the prior written approval of the Reserve Bank it will not declare or pay any dividends on outstanding shares and, also without prior written approval, that neither the Company nor its nonbank subsidiary will make any distributions of interest, principal or other sums on outstanding trust preferred securities. In addition, without the prior written approval of the Reserve Bank, the Company will not redeem or repurchase any shares of its stock and neither the Company nor any nonbank subsidiary will incur or guarantee any debt.

The Reserve Bank approved the Company's request to pay approximately \$87,500 in dividends on its outstanding series of Fixed Rate Cumulative Perpetual Preferred Stock, Series B, held by the U.S. Department of Treasury payable November 15, 2011 and the payment of net interest in the amount of \$101,859 on its issue of trust preferred securities that was payable December 15, 2011.

Note 12 TARP Capital Purchase Program

The Company entered into a Letter Agreement and Securities Purchase Agreement (collectively, the Purchase Agreement) with the United States Department of the Treasury (Treasury) under the TARP Capital Purchase Program, pursuant to which the Company sold (i) 7,000 shares of the Registrant's Fixed Rate

Table of Contents

Cumulative Perpetual Preferred Stock, Series B (the Series B Preferred Stock) and (ii) a warrant (the Warrant) to purchase 121,387 shares of the Registrant's common stock, par value \$0.01 per share (the Common Stock), for an aggregate purchase price of \$7.0 million in cash.

The Series B Preferred Stock will qualify as Tier 1 capital and will pay cumulative dividends at a rate of 5% per annum for the first five years, and 9% per annum thereafter.

Pursuant to the terms of the Purchase Agreement, the ability of the Company to declare or pay dividends or distributions on, or purchase, redeem or otherwise acquire for consideration, shares of its Junior Stock (as defined below) and Parity Stock (as defined below) will be subject to restrictions, including a restriction against increasing dividends from the last quarterly cash dividend per share declared on the Common Stock prior to the issuance date. The Company may redeem the Series B Preferred Stock at a price of \$1,000 per share plus accrued and unpaid dividends, subject to the concurrence of the Treasury and its federal banking regulators. Prior to December 12, 2011, unless the Company has redeemed the Series B Preferred Stock or the Treasury has transferred the Series B Preferred Stock to a third party, the consent of the Treasury will be required for the Company to increase its Common Stock dividend or repurchase its Common Stock or other equity or capital securities, other than in certain circumstances specified in the Agreement.

The Warrant has a 10-year term and is immediately exercisable upon its issuance, with an exercise price, subject to anti-dilution adjustments, equal to \$8.65 per share of the Common Stock. Treasury has agreed not to exercise voting power with respect to any shares of Common Stock issued upon exercise of the Warrant.

The Series B Preferred Stock and the Warrant were issued in a private placement exempt from registration pursuant to Section 4(2) of the Securities Act of 1933, as amended. Upon the request of Treasury at any time, the Registrant has agreed to promptly enter into a deposit arrangement pursuant to which the Series B Preferred Stock may be deposited and depositary shares (Depositary Shares), representing fractional shares of Series B Preferred Stock, may be issued. The Company has agreed to register the Series B Preferred Stock, the Warrant, the shares of Common Stock underlying the Warrant (the Warrant Shares) and Depositary Shares, if any, as soon as practicable after the date of the issuance of the Series B Preferred Stock and the Warrant. Neither the Series B Preferred Stock nor the Warrant will be subject to any contractual restrictions on transfer, except that Treasury may only transfer or exercise an aggregate of one-half of the Warrant Shares prior to the redemption of 100% of the shares of Series B Preferred Stock.

The fair value of the preferred stock and the common stock warrants was determined based on their relative fair values calculated as of their issuance date. Based on their relative fair values, the TARP proceeds (net of issuance costs) were allocated between preferred stock and additional paid in capital (for the warrant component). The market/discount rate used when deriving the fair value of the preferred stock was 10.00%. This rate was determined by calculating the average dividend rate of the five most recent preferred equity offerings completed by banks and thrifts. A Black-Scholes model was used to calculate the fair value of the common stock warrants. Key assumptions input into the model included: amount of common stock, \$1,050,000 (based on 15% of the gross TARP proceeds); market price of the common stock on the warrant grant date, \$6.75; exercise price of the warrant, \$8.65 (20 day trailing average of the common stock as of the Treasury's approval date); number of common stock warrants issued, 121,387; expected life of the warrants, 5 years; the risk free interest rate, 1.55%; the continuous annualized volatility of the change in the underlying common stock's price, 32.00%; and the simple annual expected cash dividend yield on common stock, 8.30%. Based on the calculations, the fair value of the preferred stock represented 95.65% of the total fair value of the preferred stock and common stock warrants, while the fair value of the common stock warrants represented 4.35% of the total. The discount on the preferred stock is being amortized on a straight-line basis over five years.

Note 13 Stock Option Plans

On September 30, 2011, the Company had five share-based compensation plans for which stock options and restricted stock are outstanding. However, the plan described below is the only plan for which stock options and

restricted stock are available for grant. The compensation cost that has been charged against income for those plans was \$37,000 and \$61,000 in fiscal 2011 and 2010. The total income tax benefit recognized in the income statement for share-based compensation arrangements was \$0 and \$14,000 for fiscal 2011 and 2010.

The Company's 2005 Stock-Based Incentive Plan (the Plan), which is shareholder-approved, permits the grant of stock options and restricted stock to its employees and non-employee directors for up to 165,000 shares of common stock, of which a maximum of 55,000 may be restricted stock. Option awards are granted with an exercise price equal to the market value of the common stock on the date of grant, the options vest over a three-year period, and have a contractual term of seven years, although the Plan permits contractual terms of up to ten years. Option awards provide for accelerated vesting if there is a change in control, as defined in the Plan. No options were awarded in fiscal 2011 or 2010. Additionally, at December 21, 2010 the Company awarded 2,969 shares of restricted stock from the unallocated shares under the Plan having a market value of approximately \$17,550. Compensation expense on the restricted stock awards equals the market value of the Company's stock on the grant date and will be amortized ratably over the three-year vesting period. As of September 30, 2011, 10,381 share awards remain available to grant under the Plan.

The total intrinsic value of options exercised during the fiscal years ended September 30, 2011 and 2010, was \$720 and \$1,270, respectively.

Compensation cost related to restricted stock is recognized based on the market price of the stock at the grant date over the vesting period. Compensation expense related to restricted stock was \$25,000 and \$36,000 for the fiscal years ended September 30, 2011 and 2010, respectively. The following table summarizes restricted stock awards for the fiscal years ended September 30, 2011 and 2010:

Non-vested Shares	Shares	Weighted Average Grant-Date Fair Value

Vested	(3,768)	9.53
Forfeited	(34)	7.00
Non-vested at September 30, 2011	5,131	\$ 6.37

As of September 30, 2011, there was \$18,000 of total unrecognized compensation cost related to non-vested share-based compensation arrangements. That cost is expected to be recognized over a weighted-average period of 1.1 years. The total fair value of option awards vested during the years ended September 2011 and 2010 was \$33,000 and \$52,000, respectively, and the total fair value of restricted stock vested during the years ended September 2011 and 2010, was \$36,000 and \$36,000, respectively.

Table of Contents

Cash received from options exercised under all share-based payment arrangements for the fiscal years ended September 30, 2011 and 2010 was \$1,246 and \$6,230, respectively. There was no actual tax benefit realized for the tax deductions from option exercise of the share-based payment arrangements for the fiscal years ended September 30, 2011 and 2010, respectively.

The Company has a policy of issuing shares from authorized but unissued shares to satisfy share option exercises.

Note 14 Employee Benefit Plans

Deferred Compensation Post-Retirement Benefits

The Bank maintains a non-qualified Salary Continuation Plan covering certain officers of the Bank. The Plan is unfunded and provides benefits to participants based upon amounts stipulated in the Plan agreements for a period of 15 years from normal retirement, as defined in the respective Plan agreements. Participants vest in benefits based upon years of service from Plan initiation to normal retirement age. Expense is being accrued based on the present value of future benefits in which the participant is expected to be vested. Expense recognized under the Plan for 2011 and 2010 was approximately \$228,000 and \$227,000, respectively. The accrued liability under the Plan at September 30, 2011 and 2010 was approximately \$2,048,000 and \$1,887,000, respectively.

The Bank has entered into life insurance policies designed to offset the Bank's contractual obligation to pay pre-retirement death benefits and to recover the cost of providing benefits. Participants in the Plan are the insured under the policy, and the Bank is the owner and beneficiary. As of September 30, 2011, the cash surrender value of the bank owned life insurance was \$2.2 million with a total death benefit of \$5.5 million.

Group Term Replacement Plan

The Bank has purchased life insurance policies on the lives of certain officers of the Bank. By way of separate split dollar agreements, the policy interest is divided between the Bank and the officer. The Bank owns the policy cash surrender value, including accumulated policy earnings, and the policy death benefits over and above the cash surrender value are endorsed to the employee and beneficiary. As of September 30, 2011 the cash surrender value of the bank owned life insurance was \$3.7 million with a total death benefit of \$9.4 million for which the Bank has a death benefit obligation to beneficiaries of certain officers of \$2.9 million. Net earnings recognized in 2011 and 2010 as a result of increased cash surrender value were approximately \$211,000 and \$202,000, respectively.

Employee Stock Ownership Plan

The Bank maintains a non-contributory, tax qualified Employee Stock Ownership Plan (ESOP) for the benefit of officers and employees who have met certain eligibility requirements related to age and length of service. Each year, the Bank makes a discretionary contribution to the ESOP in cash, Company common stock, or a combination of cash and Company stock. Amounts charged to compensation expense were \$370,000 and \$175,000 in 2011 and 2010, respectively. At September 30, 2011 the ESOP had 318,000 shares at a price of \$9.26 per share. All shares were vested at September 30, 2011.

Note 15 Disclosures About Fair Value Measurements

The following disclosures show the hierarchal disclosure framework associated with the level of pricing observations utilized in measuring assets and liabilities at fair value. The three broad levels are as follows:

- Level I - Quoted prices are available in the active markets for identical assets or liabilities as of the reported date.
- Level II - Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reported date. The nature of these assets and liabilities include items for which quoted prices are available but traded less frequently and items that are fair valued using other financial instruments, the parameters of which can be directly observed.

Table of Contents

Level III - Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

This hierarchy requires the use of observable market data when available.

The following tables present the assets and liabilities reported on the consolidated statements of financial condition at their fair value as of September 30, 2011 and 2010 by level within the fair value hierarchy. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The Company's Level III investments at September 30, 2011, represent 19 different trust preferred offerings with an aggregate fair value of \$8.0 million, which had floating rates based on LIBOR at September 30, 2011. Due to dislocations in the credit markets broadly, and the lack of trading and new issuance in pooled trust preferred securities, market price indications generally reflect the lack of liquidity in the market. For further information relating to the Company's Level III trust preferred securities, reference Note 2, "Securities", on pages F-49 through F-55.

The following table presents the changes in the Level III fair-value category for the fiscal period ended September 30, 2011. The Company classifies financial instruments in Level III of the fair-value hierarchy when there is reliance on at least one significant unobservable input to the valuation model. In addition to the unobservable inputs, the valuation models for Level III financial instruments typically also rely on a number of inputs that are readily observable either directly or indirectly.

Impaired loans that are collateral dependent are written down to fair value through the establishment of specific reserve allocations. Techniques used to value the collateral that secure the impaired loan include: quoted market prices for identical assets classified as Level I inputs; observable inputs, employed by certified appraisers, for similar assets classified as Level II inputs. In cases where valuation techniques included inputs that are unobservable and are based on estimates and assumptions developed by management based on the best information available under each circumstance, the asset valuation is classified as Level III inputs.

Note 16 Disclosures About Fair Value of Financial Instruments

Management uses its best judgment in estimating the fair value of the Company's financial instruments, however, there are inherent weaknesses in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates herein are not necessarily indicative of the amounts the Company could have realized in a sales transaction on the dates indicated. The estimated fair value amounts have been measured as of their respective year-ends, and have not been re-evaluated or updated for purposes of these financial statements subsequent to those respective dates. As such, the estimated fair values of these financial instruments subsequent to the respective reporting dates may be different than the amounts reported at each year-end.

The following information should not be interpreted as an estimate of the fair value of the entire Company since a fair value calculation is only provided for a limited portion of the Company's assets and liabilities.

Due to a wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparisons between the Company's disclosures and those of other companies may not be meaningful. The Company, in estimating its fair value disclosures for financial instruments, used the following methods and assumptions:

Cash and Due From Banks

The carrying amounts reported approximate those assets' fair value.

Interest Bearing Demand Deposits with Other Institutions

The carrying amounts reported approximate those assets' fair value.

Securities

Fair values of securities are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable securities. Prices on trust preferred securities were calculated by a third party using a discounted projected cash-flow technique. Cash flows were estimated based on credit quality and prepayment assumptions. The present value of the projected cash flows was calculated using an adjusted discount rate which reflects higher credit spreads due to economic stresses in the marketplace and lower credit ratings.

Loans Receivable

The net loan portfolio has been valued using a present value discounted cash flow. The discount rate used in these calculations is based upon the treasury yield curve adjusted for non-interest operating costs, credit loss, current market prices and assumed prepayment risk.

Federal Home Loan Bank Stock

The carrying amounts reported approximate those assets' fair value.

Accrued Interest Receivable and Payable

The carrying amounts of accrued interest receivable and payable approximate their fair value.

Deposits

Deposits with stated maturities have been valued using a present value discounted cash flow with a discount rate approximating current market for similar assets and liabilities. Deposits with no stated maturities have an estimated fair value equal to both the amount payable on demand and the recorded book balance.

Table of Contents

Securities Sold Under Agreements to Repurchase

The fair values for securities sold under agreement to repurchase were estimated using the interest rate currently available from the party that holds the existing debt.

Short-Term Borrowings

The carrying amounts for short-term borrowings approximate the estimated fair value of such liabilities.

Long-Term Debt

The fair values for long-term debt were estimated using the interest rate currently available from the party that holds the existing debt.

Subordinated Debt

Fair values for subordinated debt are estimated using a discounted cash flow calculation similar to that used in valuing fixed rate certificate of deposit liabilities.

Advance Payments by Borrowers for Taxes and Insurance

The fair value of the advance payments by borrowers for taxes and insurance approximated the carrying value of those commitments at those dates.

Interest Rate Swap Contracts

Estimated fair values of interest rate swap contracts are based on quoted market prices.

Off-Balance Sheet Instruments

Fair values for the Company's off-balance sheet instruments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing.

Note 17 Contingent Liabilities

The Company is subject to a number of asserted and unasserted potential claims encountered in the normal course of business. In the opinion of management, after consultation with legal counsel, the resolution of these claims will not have a material adverse effect on the Company's financial position, liquidity or results of operations.

Note 18 Derivative Instruments

The Company accounts for its derivative instruments as either assets or liabilities on the balance sheet at fair value through adjustments to either the hedged items, accumulated other comprehensive income (loss), or current earnings, as appropriate. As part of its overall interest rate risk management activities, the Company utilizes derivative instruments to manage its exposure to various types of interest rate risk. These derivative instruments consist of interest rate swaps. There were two interest rate swap contracts outstanding as of September 30, 2011.

Entering into interest rate derivatives potentially exposes the Company to the risk of counterparties' failure to fulfill their legal obligations including, but not limited to, potential amounts due or payable under each derivative contract. Notional principal amounts are often used to express the volume of these transactions, but the amounts potentially subject to credit risk are much smaller.

Table of Contents

During the second quarter of fiscal 2008, the Company entered into an interest rate swap contract involving the exchange of the Company's floating rate interest rate payment on its \$7.5 million in floating rate preferred securities for a fixed rate interest payment without the exchange of the underlying principal amount. This hedge relationship fails to qualify for the assumption of no ineffectiveness (short cut method) as defined by U.S. generally accepted accounting principles. Therefore, the Company accounts for this hedge relationship as a cash flow hedge. The cumulative change in fair value of the hedging derivative, to the extent that it is expected to be offset by the cumulative change in anticipated interest cash flows from the hedged exposure, will be deferred and reported as a component of other comprehensive income (OCI). Any hedge ineffectiveness will be charged to current earnings. Consistent with the risk management objective and the hedge accounting designation, management measured the degree of hedge effectiveness by comparing the cumulative change in anticipated interest cash flows from the hedged exposure over the hedging period to the cumulative change in anticipated cash flows from the hedging derivative. Management will utilize the

Hypothetical Derivative Method to compute the cumulative change in anticipated interest cash flows from the hedged exposure. To the extent that the cumulative change in anticipated cash flows from the hedging derivative offsets from 80% to 125% of the cumulative change in anticipated interest cash flows from the hedged exposure, the hedge will be deemed effective. The Company will use the Hypothetical Derivative Method to measure ineffectiveness. Under this method, the calculation of ineffectiveness will be done by using the change in fair value of the hypothetical derivative. That is, the swap will be recorded at fair value on the balance sheet and other comprehensive income will be adjusted to an amount that reflects the lesser of either the cumulative change in fair value of the swap or the cumulative change in the fair value of the hypothetical derivative instrument. Management will determine the ineffectiveness of the hedging relationship by comparing the cumulative change in anticipated interest cash flows from the hedged exposure over the hedging period to the cumulative change in anticipated cash flows from the hedging derivative. Any difference between these two measures will be deemed hedge ineffectiveness and recorded in current earnings. As of September 30, 2011 the hedge instrument was deemed to be effective, therefore, no amounts were charged to current earnings. The Company does not expect to reclassify any hedge-related amounts from accumulated other comprehensive income (loss) to earnings over the next twelve months.

The pay fixed interest rate swap contract outstanding at September 30, 2011 is being utilized to hedge \$7.5 million in floating rate preferred securities. Below is a summary of the interest rate swap contract and the terms at September 30, 2011:

(Dollar amounts in thousands)	Notional Amount	Pay Rate	Receive Rate(*)	Maturity Date	Unrealized Gain	Loss
Cash flow hedge	\$ 7,500	5.32%	1.71%	12/15/2012	\$	\$ 328

(*) Variable receive rate based upon contract rates in effect at September 30, 2011

During the first quarter of fiscal 2009, the Bank originated a \$1.0 million fixed rate loan for one of its commercial mortgage loan customers and simultaneously entered into an offsetting fixed interest rate swap contract with PNC Bank, National Association (PNC). The Bank pays PNC interest at the same fixed rate on the same notional amount as the customer pays to the Bank on the commercial mortgage loan, and receives interest from PNC at a floating rate on the same notional amount. This interest rate hedging program helps the Bank limit its interest rate risk while at the same time helps the Bank meet the financing needs and interest rate risk management needs of its commercial customers. The Company accounts for this hedge relationship as a fair value hedge. This interest rate swap contract was recorded at fair value with any resulting gain or loss recorded in current period earnings. For the fiscal period ended September 30, 2011 and 2010 the Company recorded a loss of \$4,000 and \$10,000, respectively, relating to this contract. As of September 30, 2011, the notional amount of the customer related interest rate derivative financial instrument was \$949,000, compared to \$966,000 at September 30, 2010.

Note 19 Federal Home Loan Bank (FHLB) Stock Dividends

The FHLB of Pittsburgh historically paid quarterly cash dividends, which were last paid on November 17, 2008 at an annualized rate of 2.35%. In December 2008, the FHLB announced that it was suspending dividend

payments beginning with the dividend payment that would have been payable in the March 2009 quarter in an effort to retain capital. In addition, the historical practice of repurchasing excess capital stock from members of the FHLB was also suspended. However, on October 20, 2010, February 22, 2011, April 28, 2011 and again on July 29, 2011 the FHLB announced the repurchase of approximately \$200 million in excess capital stock. The amount of excess capital stock repurchased from any member was the lesser of 5% of the member's total capital stock outstanding or its excess capital stock outstanding. The Bank's investment in the FHLB of Pittsburgh was \$8.2 million and \$10.0 million at September 30, 2011 and 2010, respectively, and is valued at the par issue amount of \$100 per share.

AGREEMENT AND PLAN OF MERGER

THIS AGREEMENT AND PLAN OF MERGER (this **Agreement**), dated as of July 19, 2012, is made and entered into by and among WesBanco, Inc., a West Virginia corporation (**Buyer**), WesBanco Bank, Inc., a West Virginia banking corporation and a wholly-owned subsidiary of Buyer (**Buyer Sub**), Fidelity Bancorp, Inc., a Pennsylvania corporation (**Seller**), and Fidelity Savings Bank, a Pennsylvania state-chartered stock savings bank and a wholly-owned subsidiary of Seller (**Seller Sub**). Buyer and Seller are sometimes hereinafter collectively referred to as the **Constituent Corporations**.

WITNESSETH:

WHEREAS, the Boards of Directors of Seller, Seller Sub, Buyer and Buyer Sub have each determined that it is in the best interests of their respective corporations and shareholders for Buyer to acquire Seller pursuant to a merger of Seller with and into Buyer (the **Merger**) and, immediately after the Merger, a merger of Seller Sub with and into Buyer Sub (the **Bank Merger**), upon the terms and subject to the conditions set forth in this Agreement; and

WHEREAS, the Boards of Directors of Seller, Seller Sub, Buyer and Buyer Sub have each approved this Agreement and the consummation of the transactions contemplated hereby; and

WHEREAS, as a result of the Merger, in accordance with the terms of this Agreement, Seller will cease to have a separate corporate existence and the shareholders of Seller will receive from Buyer in exchange for each share of common stock, \$0.01 par value, of Seller (individually **Seller Share** and collectively **Seller Shares**), (a) \$4.50 in cash, and (b) 0.8275 shares of common stock, \$2.0833 par value per share, of Buyer (individually, a **Buyer Share** and collectively, the **Buyer Shares**), as may be adjusted as provided herein, and any outstanding shares of Seller Preferred Stock as of the Effective Time will be converted into shares of preferred stock of the Buyer all as determined in accordance with the terms of this Agreement; and

WHEREAS, as a condition to the willingness of Buyer to enter into this Agreement, the directors and executive officers of Seller listed on Exhibit A hereto (the **Voting Agreement Shareholders**) have each entered into a Voting Agreement, dated as of the date hereof, with Buyer (each a **Voting Agreement**), pursuant to which each Voting Agreement Shareholder has agreed, among other things, to vote such Voting Agreement Shareholder's Seller Shares in favor of the approval of this Agreement and the transactions contemplated hereby, upon the terms and subject to the conditions set forth in the Voting Agreement; and

WHEREAS, for Federal income tax purposes, it is intended that the Merger and the Bank Merger contemplated by this Agreement each qualify as a reorganization under the provisions of Section 368(a) of the Internal Revenue Code of 1986, as amended (the **Code**) and that this Agreement is intended to be and is adopted as a plan of reorganization for purposes of the Code and the Treasury Regulations promulgated thereunder; and

WHEREAS, Seller has previously provided to Buyer a schedule disclosing additional information about Seller (the **Seller Disclosure Schedule**), and Buyer has previously provided to Seller a schedule disclosing additional information about Buyer (the **Buyer Disclosure Schedule**); and

WHEREAS, the parties desire to make certain representations, warranties and agreements in connection with the Merger and the Bank Merger and also to prescribe certain conditions to the Merger and the Bank Merger.

2.01. *Conversion of Seller Shares*

At the Effective Time, by virtue of the Merger and without any action on the part of Buyer, Buyer Sub, Seller, Seller Sub or the holder of any of the following securities:

- (a) Subject to the other provisions of this Article Two and the potential additional payment or adjustment as provided in Section 11.01(d)(iv), each Seller Share issued and outstanding immediately prior to the Effective Time (other than (i) Seller Shares held directly or indirectly by Buyer or Seller or any of their respective Subsidiaries (as defined below) (except for Trust Account Shares and DPC Shares, as such terms are defined in Section 2.01(b) hereof), and (ii) shares of Seller Restricted Stock (as defined in Section 3.01(b))) shall, by virtue of this Agreement and without any action on the part of the holder thereof, be converted into and exchangeable for the right to receive, subject to the provisions set forth in this Agreement, (i) 0.8275 (the **Exchange Ratio**) Buyer Shares and (ii) \$4.50 in cash, without interest. - (b) At the Effective Time, all Seller Shares that are owned directly or indirectly by Buyer or Seller or any of their respective Subsidiaries (other than Seller Shares (x) held directly or indirectly in trust accounts, managed accounts and the like or otherwise held in a fiduciary or agency capacity for the benefit of third parties (any such shares, and shares of Buyer Common Stock which are similarly held, whether held

directly or indirectly by Buyer or Seller, as the case may be, being referred to herein as **Trust Account Shares**) or (y) held by Buyer or Seller or any of their respective Subsidiaries, directly or indirectly, in respect of a debt previously contracted (any such Seller Shares, and Buyer Shares which are similarly held, being referred to herein as **DPC Shares**)) shall be cancelled and shall cease to exist and no Buyer Shares, cash or other consideration shall be delivered in exchange therefor. At the Effective Time, all Buyer Shares that are owned by Seller or any of its Subsidiaries (other than Trust Account Shares and DPC Shares) shall become treasury stock of Buyer without any consideration therefor.

- (c) In the event each issued and outstanding share of the Fixed Rate Cumulative Perpetual Preferred Stock, Series B, par value \$0.01 per share, stated liquidation amount \$1,000 per share, of Seller (the **Series B Preferred Stock**) is not purchased or redeemed prior to or contemporaneous with the Effective Time, then each share of the Series B Preferred Stock issued and outstanding immediately prior to the Effective Time shall as of the Effective Time automatically be converted into and shall thereafter represent the right to receive, subject to the other provisions of this Article 2, one share (the **Preferred Stock Merger Consideration**) and, together with the Common Stock Merger Consideration, the **Merger Consideration**) of the WBC Preferred Stock to be designated, prior to the Closing Date, as Fixed Rate Cumulative Perpetual Preferred Stock, Series B, stated liquidation amount \$1,000 per share (the **WBC Series B Preferred Stock**), and otherwise having rights, preferences, privileges and voting powers such that the rights, preferences, privileges and voting powers of the Series B Preferred Stock are not adversely affected by such conversion and having rights, preferences and privileges and voting powers, and limitations and restrictions that, taken as a whole, are not materially less favorable than the rights, preferences, privileges and voting powers, and limitations and restrictions of the Series B Preferred Stock immediately prior to such conversion, taken as a whole.

2.02. Seller Stock Options, Seller Restricted Stock and Seller Warrant

- (a) Seller shall take all requisite action so that, at the Effective Time, each option to acquire Seller Shares (each, a **Seller Stock Option**) granted under Seller's stock compensation and stock based incentive plans (the **Seller Stock Option and Benefit Plans**) that is outstanding immediately prior to the Effective Time, whether or not then vested or exercisable, shall be, by virtue of the Merger and without any action on the part of Buyer, Buyer Sub, Seller, Seller Sub, the holder of such Seller Stock Option or any other person or entity, cancelled and converted into the right to receive from Seller at the Effective Time an amount in cash, without interest, equal to the product of (x) the aggregate number of Seller Shares subject to such Seller Stock Option, multiplied by (y) the excess, if any, of \$22.50 over the per share exercise price under such Seller Stock Option, less any Taxes required to be deducted or withheld in accordance with Section 2.03(i).
- (b) Seller shall take all requisite action so that, at the Effective Time, each share of Seller Restricted Stock, other restricted stock award, deferred stock award, stock appreciation right and other right, contingent or accrued, to acquire or receive Seller Shares or benefits measured by the value of such shares, and each award of any kind consisting of Seller Shares that may be held, awarded, outstanding, payable or reserved for issuance under any Compensation and Benefits Plans, other than Seller Stock Options (each, a **Seller Stock Award**) immediately prior to the Effective Time, whether or not then vested or exercisable, shall be, by virtue of the Merger and without any action on the part of Buyer, Buyer Sub, Seller, Seller Sub, the holder of such Seller Stock Award or any other person or entity, cancelled and converted into the right to receive from Seller at the Effective Time, an amount in cash, without interest, equal to the product of (x) the aggregate number of Seller Shares in respect of such Seller Stock Award, multiplied by (y) \$22.50, less any Taxes required to be deducted or withheld in accordance with Section 2.03(i). Notwithstanding the previous sentence, if any shares of Series B Preferred Stock are held by the Treasury Department at the Effective Time, then the shares of Seller Restricted Stock set forth in Section 2.02(b) of the Seller Disclosure Schedule (the **Converted Seller Restricted Stock**) shall not become entitled to receive the consideration set forth in the preceding

Table of Contents

sentence. Instead, at the Effective Time, each share of Converted Seller Restricted Stock shall be converted into the right to acquire the number of Buyer Shares, determined by multiplying the number of shares of Converted Seller Restricted Stock immediately prior to the Effective Time by the sum of (i) the Exchange Ratio and (ii) the quotient determined by dividing \$4.50 by the average of the closing sale prices of Buyer Shares as reported on the Nasdaq for each of the ten consecutive trading days ending with the date of this Agreement (rounded down, if necessary, to a whole Buyer Share). Except as specifically provided in this Section 2.02(b), following the Effective Time, each such share of Converted Seller Restricted Stock shall otherwise be subject to the same terms and conditions as were applicable to the Seller Restricted Stock under the applicable Seller Compensation and Benefit Plans and related Seller award agreements immediately prior to the Effective Time; *provided, however*, that after the Effective Time, no Converted Seller Restricted Stock shall vest and become unrestricted Buyer Shares at any time during which any shares of WBC Series B Preferred Stock are held by the Treasury Department.

- (c) The right of the U.S. Department of the Treasury (the **Treasury Department**) to receive Seller Shares upon exercise of that certain Warrant (the **Seller Warrant**) issued on December 12, 2008 to the Treasury Department in connection with the issuance of Seller's Series B Preferred Stock, to the extent the Warrant Purchase is not consummated at or prior to the Effective Time, shall, by virtue of the Merger and without any action on the part of any person, be converted automatically into the right of the Treasury Department to exercise the Seller Warrant to acquire:
- (i) that number of Buyer Shares equal to the product of (x) the number of Seller Shares that were purchasable pursuant to the Seller Warrant immediately prior to the Effective Time and (y) the Exchange Ratio, rounded to the nearest one-hundredth (1/100th) of a share; and
- (ii) an aggregate amount in cash equal to the amount obtained by multiplying (x) \$4.50 by (y) the number of Seller Shares that were purchasable pursuant to the Seller Warrant immediately prior to the Effective Time, rounded to the nearest one-tenth (1/10th) of a cent;

and Buyer shall otherwise assume the rights and obligations of Seller under the Warrant subject to and in accordance with the provisions of the Warrant; *provided, however*, that after the Effective Time, the provisions of the Warrant shall be appropriately adjusted in accordance with the foregoing and Section 13(E) of the Warrant. If the Warrant Purchase is consummated at or prior to the Effective Time, the Seller Warrant shall be cancelled and shall cease to exist as of the Effective Time.

- (d) At or prior to the Effective Time, Seller, the Seller Board (as defined in Section 5.03(b)) and the compensation committee of such board, as applicable, shall adopt any resolutions and take any actions (including obtaining any Seller or Seller Sub employee consents) that may be necessary to effectuate the provisions of paragraphs (a), (b) and (c) of this Section 2.02.

2.03. Exchange and Payment Procedures

- (a) *Exchange Agent.* Buyer shall designate Computershare Investor Services, LLC or such other entity as shall reasonably be selected by Buyer and reasonably acceptable to Seller to act as agent (the **Exchange Agent**) for purposes of conducting the exchange and payment procedures as described in this Section 2.03. Seller shall provide to the Exchange Agent all information reasonably necessary for it to perform as specified herein.
- (b) *Deposit with Exchange Agent; Exchange Fund.* Immediately prior to the the Effective Time, Buyer shall provide to the Exchange Agent the aggregate number of Buyer Shares and an amount in cash representing the Merger Consideration, together with cash to be paid in lieu of fractional shares pursuant to Section 2.03(f) hereto, all of which shall be held by the Exchange Agent in trust for the holders of Seller Shares (collectively, the **Exchange Fund**). The Exchange Agent shall not be entitled to vote or exercise any rights of ownership with respect to the Buyer Shares held by it from time to time hereunder, except that it shall receive and hold for the benefit of the recipients of the

Table of Contents

Buyer Shares until distributed thereto pursuant to the provisions of this Agreement any dividends or other distributions paid or distributed with respect to such Buyer Shares for the account of the persons entitled thereto. The Exchange Fund shall not be used for any purpose other than as set forth in this paragraph. The Exchange Agent shall invest cash in the Exchange Fund, as directed by Buyer, on a daily basis; *provided, however*, that all such investments shall be in (1) obligations of, or guaranteed by, the United States of America, (2) commercial paper obligations receiving the highest rating from either Moody's Investors Services, Inc. or Standard and Poor's Corporation, or (3) certificates of deposit of commercial banks (not including any Subsidiary (as defined in Section 3.01(c)) or affiliate of Buyer) with capital exceeding \$1.0 billion. All interest and other income resulting from such investments shall be paid to Buyer.

- (c) *Surrender of Seller Certificates.* As promptly as practicable after the Effective Time, Buyer shall send or cause to be sent to each former holder of record of Seller Shares transmittal materials (which shall specify that delivery shall be effected, and risk of loss and title to the certificates theretofore representing the Seller Shares shall pass only upon proper delivery of such certificates to the Exchange Agent). Each holder of an outstanding certificate or certificates which prior to the Effective Time represented Seller Shares (**Seller Certificate**), who surrenders such Seller Certificate to the Exchange Agent shall, upon acceptance thereof by the Exchange Agent, be entitled to receive (a) the Common Stock Merger Consideration, (b) any cash in lieu of fractional shares into which the Seller Shares represented by the Seller Certificate have been converted, (c) any other dividend or distribution with a record date after the Effective Time theretofore paid with respect to Buyer Shares issuable in the Merger, and (d) subject to compliance with Section 7.08, any dividend or distribution with respect to Seller's Shares with a record date prior to the Effective Time, in each case without interest. The Exchange Agent shall accept such Seller Certificate upon compliance with such reasonable terms and conditions as the Exchange Agent may impose to effect an orderly exchange thereof in accordance with normal exchange practices and shall as promptly as practicable, but in no event later than 3 business days after receipt of the Seller Certificate, issue the certificates representing Buyer Shares and/or cash in accordance with this Agreement. Each Seller Certificate that is not surrendered to the Exchange Agent in accordance with the procedures provided for herein shall, except as otherwise herein provided, be deemed at any time after the Effective Time to represent only the right to receive upon such surrender (a) the Common Stock Merger Consideration, (b) any cash in lieu of fractional shares into which the Seller Shares represented by the Seller Certificate have been converted, (c) any other dividend or distribution with a record date after the Effective Time theretofore paid with respect to Buyer Shares issuable in the Merger, and (d) subject to compliance with Section 7.08, any dividend or distribution with respect to Seller's Shares with a record date prior to the Effective Time, in each case without interest. No dividends or other distributions with a record date after the Effective Time with respect to Buyer Shares shall be paid to the holder of any unsurrendered Seller Certificate until the holder thereof shall surrender such Seller Certificate in accordance with this Section 2.03(c). After the surrender of a Seller Certificate in accordance with this Section 2.03(c), the record holder thereof shall be entitled to receive any such dividends or other distributions, without any interest thereon, which theretofore had become payable with respect to Buyer Shares represented by such Seller Certificates. After the Effective Time, there shall be no further transfer on the records of Seller of a Seller Certificate representing Seller Shares and, if any such Seller Certificate is presented to Seller for transfer, it shall be canceled against delivery of the Common Stock Merger Consideration as provided in Article Two.
- (d) *Lost, Stolen or Destroyed Certificates.* If there shall be delivered to the Exchange Agent by any person who is unable to produce any Seller Certificate for Seller Shares for surrender to the Exchange Agent in accordance with this Section 2.03:
- (i) evidence to the reasonable satisfaction of the Surviving Corporation that such Seller Certificate has been lost, wrongfully taken, or destroyed;
 - (ii) such security or indemnity as reasonably may be requested by the Surviving Corporation to save it harmless (which may include the requirement to obtain a third party bond or surety); and

- (iii) evidence, to the reasonable satisfaction of the Surviving Corporation, that such person was the owner of the Seller Shares theretofore represented by each such Seller Certificate claimed by him to be lost, wrongfully taken or destroyed and that he is the person who would be entitled to present such Seller Certificate for exchange pursuant to this Agreement; then the Exchange Agent, in the absence of actual notice to it that any Seller Shares theretofore represented by any such Seller Certificate have been acquired by a bona fide purchaser, shall deliver to such person (a) the Common Stock Merger Consideration, (b) any cash in lieu of fractional shares into which the Seller Shares represented by the Seller Certificate have been converted, (c) any other dividend or distribution with a record date after the Effective Time theretofore paid with respect to Buyer Shares issuable in the Merger, and (d) subject to compliance with Section 7.08, any dividend or distribution with respect to Seller's Shares with a record date prior to the Effective Time, in each case without interest, that such person would have been entitled to receive upon surrender of each such lost, wrongfully taken or destroyed Seller Certificate.
- (e) *No Further Ownership Rights in Seller Shares.* All cash and Buyer Shares issued upon conversion of Seller Shares in accordance with the terms hereof shall be deemed to have been issued in full satisfaction of all rights pertaining to such Seller Shares; subject, however, to the Surviving Corporation's obligation to pay any dividends or make any other distributions with a record date prior to the Effective Time which may have been declared or made by Seller (but only in compliance with the terms of this Agreement) on such Seller Shares prior to the Effective Time and which remain unpaid at the Effective Time, subject to compliance with Section 7.08.
- (f) *No Fractional Buyer Shares.*
- (i) No certificates or scrip representing fractional Buyer Shares shall be issued upon the surrender for exchange of Seller Certificates evidencing Seller Shares, and such fractional Buyer Share interests will not entitle the owner thereof to vote or to any rights of a shareholder of the Surviving Corporation.
- (ii) Each holder of Seller Shares who would otherwise be entitled to receive a fractional Buyer Share shall instead receive from the Exchange Agent an amount of cash, without interest, equal to the product obtained by multiplying (a) the fractional Buyer Share interest to which such holder (after taking into account all Seller Shares held at the Effective Time by such holder) would otherwise be entitled by (b) \$18.00.
- (g) *Termination of Exchange Fund.* Any portion of the Exchange Fund delivered to the Exchange Agent by Buyer pursuant to Section 2.03(b) which remains undistributed to the shareholders of Seller for 12 months after the Effective Time may be delivered to the Surviving Corporation, upon Buyer's demand, and any shareholders of Seller who have not theretofore complied with this Article Two shall thereafter look only to the Surviving Corporation for payment of the Common Stock Merger Consideration, any cash in lieu of fractional Buyer Share interest and any dividends or distributions with respect to Buyer Shares issuable in the Merger, in each case without interest.
- (h) *No Liability.* None of Buyer, Seller, the Exchange Agent or the Surviving Corporation shall be liable to any former holder of Seller Shares for any payment of the Common Stock Merger Consideration, any cash in lieu of fractional Buyer Share interest or any dividends or distributions with respect to Buyer Shares issuable in the Merger delivered to a public official as and if required by any applicable abandoned property, escheat or similar law.
- (i) *Withholding Rights.* Buyer or the Exchange Agent shall be entitled to deduct and withhold from the consideration otherwise payable pursuant to this Agreement to any holder of Seller Certificates such amounts as Buyer or the Exchange Agent is required to deduct and withhold with respect to the making of such payment under the Code, or any other provision of domestic or foreign (whether national, federal, state, provincial, local or otherwise) tax law. To the extent that amounts are so withheld and paid over to the appropriate taxing authority by Buyer or the Exchange Agent, such withheld amounts

shall be treated for all purposes of this Agreement as having been paid to the holder of the Seller Certificates in respect of which such deduction and withholding was made by Buyer, the Surviving Corporation or the Exchange Agent.

- (j) *Waiver.* The Surviving Corporation may from time to time, in the case of one or more persons, waive one or more of the rights provided to it in this Article Two to withhold certain payments, deliveries and distributions; and no such waiver shall constitute a waiver of its rights thereafter to withhold any such payment, delivery or distribution in the case of any person.
- (k) *Section 16 Exemption.* Prior to the Effective Time, Buyer and Seller shall take all such steps as may be required to cause any acquisitions of Buyer equity securities (including derivative securities with respect to any Buyer equity securities) and dispositions of Seller equity securities (including derivative securities with respect to any Seller equity securities) resulting from the transactions contemplated by this Agreement by each individual who is anticipated to be subject to the reporting requirements of Section 16(a) of the Securities Exchange Act of 1934, as amended (**Exchange Act**) with respect to Buyer, to be exempt under Rule 16b-3 promulgated under the Exchange Act.

2.04. Limited Dissenters Rights

Anything contained in this Agreement or elsewhere to the contrary notwithstanding, except for shares of Series B Preferred Stock to the extent provided in this Section 2.04, no outstanding Seller Shares or other shares of the Seller's capital stock shall have any dissenters' rights of appraisal under the PBCL. In the event each issued and outstanding share of Series B Preferred Stock is not purchased or redeemed prior to or contemporaneous with the Effective Time, if any holder of an outstanding share of Series B Preferred Stock who is entitled to demand and properly demands appraisal for their Series B Preferred Stock in accordance with Subchapter D of the PBCL (**Dissenting Seller Preferred Stock**), then such shares of Dissenting Seller Preferred Stock shall not be converted into the right to receive the Preferred Stock Merger Consideration, and instead:

- (a) Each such share of Dissenting Seller Preferred Stock shall nevertheless be deemed to be extinguished at the Effective Time as provided elsewhere in this Agreement; and
- (b) Each holder perfecting such dissenters' rights shall thereafter have only such rights (and shall have such obligations) as are provided in Subchapter D of the PBCL, and the Surviving Corporation shall not be required to deliver the Preferred Stock Merger Consideration to such person in substitution for each such share of Dissenting Seller Preferred Stock in accordance with this Agreement; *provided, however,* that if any such person shall have failed to perfect or shall withdraw or lose such holder's rights under the PBCL, each such holder's Dissenting Seller Preferred Stock shall thereupon be deemed to have been converted as of the Effective Time into the right to receive the Preferred Stock Merger Consideration, without any interest thereon.

No holder of Dissenting Seller Preferred Stock shall be entitled to submit a letter of transmittal, and any letter of transmittal submitted by a holder of Dissenting Seller Preferred Stock shall be invalid, unless and until the demand for fair value made in respect of such Dissenting Seller Preferred Stock shall have been or is deemed to have been withdrawn.

2.05. Anti-Dilution Provisions

Except as disclosed in Section 2.05 of the Buyer Disclosure Schedule, in the event that, subsequent to the date of this Agreement but prior to the Effective Time, the outstanding Buyer Shares are increased, decreased, changed into or exchanged for a different number or kind of shares or securities (or Buyer establishes a record date for effecting any such change to the outstanding Buyer Shares) as a result of a reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split or other similar changes in Buyer's capitalization, appropriate and proportionate adjustment shall be made to the Merger Consideration. Nothing contained herein shall be deemed to permit any action which may be proscribed by this Agreement.

These disclosures were made in writing by management to Seller's auditors and audit committee and a copy has previously been made available to Buyer. As of the date hereof, there is no reason to believe that Seller's chief executive officer and chief financial officer will not be able to give the certifications and attestations required pursuant to the rules and regulations adopted pursuant to Section 404 of the Sarbanes-Oxley Act, without qualification, when next due.
- (iii) Since December 31, 2008, (i) through the date hereof, neither Seller nor any of the Seller Subsidiaries has received or otherwise had or obtained actual knowledge of any material complaint, allegation, assertion or claim, whether written or oral, regarding the accounting or auditing practices, procedures, methodologies or methods of Seller or any of the Seller Subsidiaries or their respective internal accounting controls, including any material complaint, allegation, assertion or claim that Seller or any of the Seller Subsidiaries has engaged in questionable accounting or auditing practices, and (ii) no attorney representing Seller or any of the Seller Subsidiaries, whether or not employed by Seller or any of the Seller Subsidiaries, has reported evidence of a material violation of securities laws, breach of fiduciary duty or similar violation by Seller or any of its officers, directors, employees or agents to the Seller Board or any committee thereof or to any director or officer of Seller.

Except as set forth in Section 3.01(j) of the Seller Disclosure Schedule, no debtor under any of the Loan Documentation has asserted as of the date hereof any claim or defense with respect to the subject matter thereof, which claim or defense, if determined adversely to Seller, would have a material adverse effect on Seller. All loans and extensions of credit that have been made by the Seller Subsidiaries comply in all material respects with applicable regulatory limitations and procedures.

Seller has previously made available to Buyer complete and correct copies of its and the Seller Subsidiaries' lending policies. The deposit and loan agreements of Seller and each Seller Subsidiary comply in all material respects with all applicable laws, rules and regulations. Seller and the Seller Subsidiaries shall not be required to provide access to or to disclose information where such access or disclosure would result in the loss of the attorney-client privilege of Seller or the Seller Subsidiaries or contravene any law, rule, regulation, order, judgment, decree, fiduciary duty or binding agreement entered into prior to the date of this Agreement.

- (h) *Qualification as a Section 368(a) Reorganization.* Buyer and Seller shall use their respective best efforts to cause the Merger to qualify as a reorganization with the meaning of Section 368(a) of the Code.

5.02. Notification

Between the date of this Agreement and the Closing Date, Seller shall promptly notify Buyer in writing if Seller becomes aware of any fact or condition that (a) causes or constitutes a breach in any material respect of any of Seller's or Seller Sub's representations and warranties or (b) would (except as expressly contemplated by this Agreement) cause or constitute a breach in any material respect of any such representation or warranty had such representation or warranty been made as of the time of occurrence or discovery of such fact or condition. Should any such fact or condition require any change in the Seller Disclosure Schedule, Seller shall promptly deliver to Buyer a supplement to the Seller Disclosure Schedule specifying such change (**Updated Seller Disclosure Schedule**); *provided, however*, that the disclosure of such change in the Updated Seller Disclosure Schedule shall not be deemed to constitute a cure of any breach of any representation or warranty made pursuant to this Agreement unless consented to in writing by Buyer. During the same period, Seller shall promptly notify Buyer of (i) the occurrence of any breach in any material respect of any of Seller's or Seller Sub's covenants contained in this Agreement, (ii) the occurrence of any event that may make the satisfaction of the conditions in this Agreement impossible or unlikely in any material respect or (iii) the occurrence of any event that is reasonably likely, individually or taken with all other facts, events or circumstances known to Seller, to result in a material adverse effect with respect to Seller.

5.03. No Solicitation

(a) Seller shall not and shall cause Seller Sub and the respective officers, directors, employees, investment bankers, financial advisors, attorneys, accountants, consultants, affiliates and other agents of Seller and Seller Sub (collectively, the **Seller Representatives**) not to, directly or indirectly, (i) initiate, solicit, induce or knowingly encourage, or take any action to facilitate the making of, any inquiry, offer or proposal which constitutes, or could reasonably be expected to lead to, an Acquisition Proposal (as defined below); (ii) participate in any discussions or negotiations regarding any Acquisition Proposal or furnish, or otherwise afford access, to any person (other than Buyer) any information or data with respect to Seller or the Seller Subsidiaries or otherwise relating to an Acquisition Proposal; (iii) release any person from, waive any provisions of, or fail to enforce any confidentiality agreement or standstill agreement to which Seller is a party; (iv) enter into any agreement, agreement in principle or letter of intent with respect to any Acquisition Proposal or approve or resolve to approve any Acquisition Proposal or any agreement, agreement in principle or letter of intent relating to an Acquisition Proposal; or (v) take any action to render the provisions of any Takeover Laws

inapplicable to any person (other than Buyer or the Buyer Subsidiaries) or group in connection with any Acquisition Proposal. Any violation of the foregoing restrictions by any of the Seller Representatives, whether or not such Seller Representative is so authorized and whether or not such Seller Representative is purporting to act on behalf of Seller or otherwise, shall be deemed to be a breach of this Agreement by Seller. Seller and Seller Sub shall, and shall cause each of the Seller Representatives to, immediately cease and cause to be terminated any and all existing discussions, negotiations, and communications with any persons with respect to any existing or potential Acquisition Proposal.

For purposes of this Agreement, **Acquisition Proposal** shall mean any inquiry, offer or proposal (other than an inquiry, offer or proposal from Buyer), whether or not in writing, contemplating, relating to, or that could reasonably be expected to lead to, an Acquisition Transaction. For purposes of this Agreement, **Acquisition Transaction** shall mean (A) any transaction or series of transactions involving any merger, consolidation, recapitalization, share exchange, liquidation, dissolution or similar transaction involving Seller or Seller Sub; (B) any transaction pursuant to which any third party or group acquires or would acquire (whether through sale, lease or other disposition), directly or indirectly, any assets of Seller or the Seller Subsidiaries representing, in the aggregate, twenty percent (20%) or more of the assets of Seller and the Seller Subsidiaries on a consolidated basis; (C) any issuance, sale or other disposition (including by way of merger, consolidation, share exchange or any similar transaction) of securities (or options, rights or warrants to purchase or securities convertible into, such securities) representing twenty percent (20%) or more of the votes attached to the outstanding securities of Seller or the Seller Subsidiaries; (D) any tender offer or exchange offer that, if consummated, would result in any third party or group beneficially owning twenty percent (20%) or more of any class of equity securities of Seller or the Seller Subsidiaries; or (E) any transaction which is similar in form, substance or purpose to any of the foregoing transactions, or any combination of the foregoing.

(b) Notwithstanding the provisions of Section 5.03(a), Seller may take any of the actions described in clause (ii) of Section 5.03(a) if, but only if, (i) Seller has received a bona fide unsolicited written Acquisition Proposal that did not result from a breach of this Section 5.03; (ii) Seller's Board of Directors (the **Seller Board**) determines in good faith, after consultation with and having considered the advice of its outside legal counsel and Seller's Financial Advisors, that it is required to take such actions to comply with its fiduciary duties to Seller's shareholders under applicable law; (iii) Seller has provided Buyer with at least two (2) business days prior notice of such determination; and (iv) prior to furnishing or affording access to any information or data with respect to Seller or the Seller Subsidiaries or otherwise relating to an Acquisition Proposal, Seller receives from such person a confidentiality agreement with terms no less favorable to Seller than those contained in the confidentiality agreement between Seller and Buyer. Seller shall promptly provide to Buyer any non-public information regarding Seller or the Seller Subsidiaries provided to any other person which was not previously provided to Buyer, such additional information to be provided no later than the date of provision of such information to such other party.

(c) Seller shall promptly (and in any event within twenty-four (24) hours) notify Buyer in writing if any proposals or offers are received by, any information is requested from, or any negotiations or discussions are sought to be initiated or continued with, Seller or the Seller Representatives, in each case in connection with any Acquisition Proposal, and such notice shall indicate the name of the person initiating such discussions or negotiations or making such proposal, offer or information request and the material terms and conditions of any proposals or offers (and, in the case of written materials relating to such proposal, offer, information request, negotiations or discussion, such notice shall include copies of such materials (including e-mails or other electronic communications) unless (i) such materials constitute confidential information of the party making such offer or proposal under an effective confidentiality agreement, (ii) disclosure of such materials jeopardizes the attorney-client privilege or (iii) disclosure of such materials contravenes any law, rule, regulation, order, judgment or decree). Seller shall keep Buyer informed, on a current basis, of the status and terms of any such proposal, offer, information request, negotiations or discussions (including any amendments or modifications to such proposal, offer or request).

(d) Neither the Seller Board nor any committee thereof shall (i) withdraw, withhold, qualify or modify, or propose to withdraw, withhold, qualify or modify, in a manner adverse to Buyer in connection with the

transactions contemplated by this Agreement (including the Merger and the Bank Merger), the Seller Board Recommendation (as defined in Section 7.06(f)), or make any statement, filing or release, in connection with the Seller Meeting (as defined in Section 7.06(e)) or otherwise, inconsistent with the Seller Board Recommendation (it being understood that taking a neutral position or no position with respect to an Acquisition Proposal shall be considered an adverse modification of the Seller Board Recommendation); (ii) approve or recommend, or propose to approve or recommend, any Acquisition Proposal; or (iii) enter into (or cause Seller or the Seller Subsidiaries to enter into) any letter of intent, agreement in principle, acquisition agreement or other agreement (A) related to any Acquisition Transaction or (B) requiring Seller to abandon, terminate or fail to consummate the Merger, the Bank Merger or any other transaction contemplated by this Agreement. Notwithstanding the foregoing, nothing contained herein shall prohibit Seller or the Seller Board from complying with Seller's obligations required under Rules 14d-9 and 14e-2(a) promulgated under the Exchange Act

(e) Notwithstanding the provisions of Section 5.03(d), prior to the date of the Seller Meeting (as defined in Section 7.06(e)), the Seller Board may approve or recommend to the shareholders of Seller a Superior Proposal (as defined below) and withdraw, qualify or modify the Seller Board Recommendation in connection therewith (a **Seller Subsequent Determination**) after the fifth business day following Buyer's receipt of a notice (the **Notice of Superior Proposal**) from Seller advising Buyer that the Seller Board has decided that a bona fide unsolicited written Acquisition Proposal that it received (that did not result from a breach of this Section 5.03) constitutes a Superior Proposal (it being understood that Seller shall be required to deliver a new Notice of Superior Proposal in respect of any revised Superior Proposal from such third party or its affiliates that Seller proposes to accept) if, but only if, (i) the Seller Board has reasonably determined in good faith, after consultation with and having considered the advice of outside legal counsel and Seller's Financial Advisors, that it is required to take such actions to comply with its fiduciary duties to Seller's shareholders under applicable law, (ii) during the three (3) business day period after receipt of the Notice of Superior Proposal by Buyer, Seller and the Seller Board shall have cooperated and negotiated in good faith with Buyer to make such adjustments, modifications or amendments to the terms and conditions of this Agreement as would enable Seller to proceed with the Seller Board Recommendation without a Seller Subsequent Determination; *provided, however*, that Buyer and Seller shall not have any obligation to propose any adjustments, modifications or amendments to the terms and conditions of this Agreement, and (iii) at the end of such five (5) business day period, after taking into account any such adjusted, modified or amended terms as may have been proposed by Buyer since its receipt of such Notice of Superior Proposal, the Seller Board has again in good faith made the determination (A) in clause (i) of this Section 5.03(e) and (B) that such Acquisition Proposal constitutes a Superior Proposal. Notwithstanding the foregoing, the changing, qualifying or modifying of the Seller Board Recommendation or the making of a Seller Subsequent Determination by the Seller Board shall not change the approval of the Seller Board for purposes of causing any Takeover Laws to be inapplicable to this Agreement and the Voting Agreements and the transactions contemplated hereby and thereby, including the Merger and the Bank Merger.

For purposes of this Agreement, **Superior Proposal** shall mean any bona fide written proposal (on its most recently amended or modified terms, if amended or modified) made by a third party to enter into an Acquisition Transaction on terms that the Seller Board determines in its good faith judgment, after consultation with and having considered the advice of outside legal counsel and Seller's Financial Advisors (i) would, if consummated, result in the acquisition of all, but not less than all, of the issued and outstanding shares of Seller common stock or all, or substantially all, of the assets of Seller and the Seller Subsidiaries on a consolidated basis; (ii) would result in a transaction that (A) involves consideration to the holders of the Seller Shares that is more favorable, from a financial point of view, than the consideration to be paid to Seller's shareholders pursuant to this Agreement, considering, among other things, the nature of the consideration being offered and any material regulatory approvals or other risks associated with the timing of the proposed transaction beyond or in addition to those specifically contemplated hereby, and which proposal is not conditioned upon obtaining additional financing that has not been committed and (B) is, in light of the other terms of such proposal, more favorable to Seller's shareholders than the Merger and the transactions contemplated by this Agreement; and (iii) is reasonably likely to be completed on the terms proposed, in each case taking into account all legal, financial, regulatory and other aspects of the proposal.

- (b) Seller shall promptly pay to Buyer a termination fee of \$3,200,000 (the **Termination Fee**) if this Agreement is terminated by (i) Buyer pursuant to Section 11.01(c)(iii) or (ii) Seller pursuant to Section 11.01(d)(iii) and, and in the case of both (i) and (ii), prior to the date that is 12 months after the date of such termination, Seller consummates an Acquisition Transaction or enters into any definitive agreement with respect to an Acquisition Transaction.
- (c) In the event that this Agreement is terminated by Buyer or Seller pursuant to Section 11.01(b)(ii) or Section 11.01(b)(i) due to the failure to obtain the approval of Seller's shareholders required for the consummation of the Merger (provided that Buyer and Buyer Sub have complied with the requirements of Section 6.10 hereto), and (i) an Acquisition Proposal with respect to Seller shall have been publicly announced, disclosed or otherwise communicated to the Seller Board prior to the date specified in Section 11.01(b)(i) and prior to the Seller Meeting, and (ii) within twelve (12) months of such termination, Seller shall have entered into a definitive agreement with respect to, or Seller shall have consummated, an Acquisition Transaction, then Seller shall pay to Buyer an amount equal to the Termination Fee.
- (d) In the event that this Agreement is terminated by Buyer pursuant to Sections 11.01(c)(i) or (ii) and (A) an Acquisition Proposal with respect to Seller shall have been publicly announced, disclosed or otherwise communicated to the Seller Board prior to any breach by Seller of any representation, warranty, covenant or other agreement giving rise to such termination by Buyer or during the cure period therefor provided in Sections 11.01(c)(i) or (ii) and (B) within twelve (12) months of such termination, Seller shall have entered into a definitive agreement with respect to, or Seller shall have consummated, an Acquisition Transaction, then Seller shall pay to Buyer an amount equal to the Termination Fee.
- (e) Any payment of the Termination Fee required to be made pursuant to this Section 11.02 shall be made not more than two (2) business days after the date of the event giving rise to the obligation to make such payment, unless the Termination Fee is payable as a result of the termination of this Agreement by Seller pursuant to Section 11.01(d)(iii), in which case, the Termination Fee shall be payable concurrently with such termination. All payments under this Section 11.02 shall be made by wire transfer of immediately available funds to an account designated by Buyer.
- (f) Buyer and Seller acknowledge that the agreements contained in this Section 11.02 are an integral part of the transactions contemplated by this Agreement and that, without these agreements, Buyer would not enter into this Agreement. Accordingly, if Seller fails promptly to pay any amount due pursuant to this Section 11.02 and, in order to obtain such payment, Buyer commences a suit which results in a judgment against Seller for the amount set forth in this Section 11.02, Seller shall pay to Buyer its costs and expenses (including reasonable attorneys' fees and expenses) in connection with such suit, together with interest on the amount of the Termination Fee at a rate per annum equal to three-month LIBOR (as reported in The Wall Street Journal (Northeast edition), or if not reported therein, in another authoritative source selected by the party to which the payment is due) plus 200 basis points as in effect on the date such payment was required to be made.

The Board of Directors

Fidelity Bancorp, Inc.

1009 Perry Highway

Pittsburgh, PA 15237

Members of the Board:

You have requested our opinion as investment bankers (the **Opinion**) as to the fairness, from a financial point of view, to the stockholders of Fidelity Bancorp, Inc. (**Fidelity**) with regard to the Agreement and Plan of Merger dated as of July 19, 2012 (the **Agreement**) by and between WesBanco, Inc. (**WesBanco**) and Fidelity, with WesBanco being the surviving company in the proposed merger (the **Merger**). Pursuant to the terms of the Agreement, each share of Fidelity common stock, par value \$0.01 per share issued and outstanding immediately prior to the effective time of the merger shall, by virtue of the Agreement and without any action on the part of the holder thereof, be converted into and exchangeable for the right to receive 0.8275 WesBanco common shares and \$4.50 in cash (the **Merger Consideration**), as more fully described in the Agreement.

Mufson Howe Hunter & Partners LLC (**Mufson Howe Hunter** or **we**) has acted as financial advisor to Fidelity. In connection with our opinion, we have, among other things:

- i. reviewed and analyzed a draft copy of the Agreement dated July 19, 2012;
- ii. reviewed and analyzed the audited consolidated financial statements of Fidelity for the three fiscal years ended September 30, 2011 and the unaudited consolidated financial statements of Fidelity for the six months ended March 31, 2012;
- iii. reviewed and analyzed the audited consolidated financial statements of WesBanco for the three fiscal years ended December 31, 2011 and the unaudited consolidated financial statements of WesBanco for the quarter ended March 31, 2012;
- iv. reviewed and analyzed certain other publicly available information concerning Fidelity and WesBanco;
- v. held discussions with Fidelity and WesBanco's senior management and advisors, including, without limitation, discussions regarding estimates of certain cost savings, operating synergies, merger charges and the pro forma financial impact of the Merger on WesBanco;
- vi. reviewed certain non-publicly available information concerning Fidelity, including without limitation, internal financial analyses and forecasts prepared by its management, and held discussions with Fidelity's senior management regarding recent developments and

regulatory matters;

- vii. reviewed certain non-publicly available information concerning WesBanco, including without limitation, internal financial analyses and forecasts prepared by its management, and held discussions with WesBanco's senior management regarding recent developments and regulatory matters;

- viii. participated in certain discussions and negotiations between representatives of Fidelity and WesBanco;
- ix. reviewed the reported prices and trading activity of the equity securities of Fidelity and WesBanco;
- x. analyzed certain publicly available information concerning the terms of selected merger and acquisition transactions that we considered relevant to our analysis;
- xi. reviewed and analyzed certain publicly available financial and stock market data relating to selected public companies that we deemed relevant to our analysis;
- xii. conducted such other financial studies, analyses and investigations and considered such other information as we deemed necessary or appropriate for purposes of our opinion; and
- xiii. took into account our assessment of general economic, market and financial conditions and our experience in other transactions, as well as our experience and knowledge of the banking industry generally.

In connection with our review, we have relied upon and assumed, without independent verification, the accuracy and completeness of all of the financial and other information that was provided to Mufson Howe Hunter by or on behalf of Fidelity or WesBanco, or that was otherwise reviewed by Mufson Howe Hunter, and we have not assumed any responsibility for independently verifying any of such information. We have further relied on the assurances by Fidelity or WesBanco that each of them is unaware of any facts that would make their respective information incomplete or misleading. With respect to the financial forecasts supplied to us by Fidelity and WesBanco (including, without limitation, potential cost savings and operating synergies realized by a potential acquirer), we have assumed that the forecasts were reasonably prepared on the basis reflecting the best currently available estimates and judgments of the management of Fidelity and WesBanco, as applicable, as to the future operating and financial performance of Fidelity and WesBanco, as applicable, and that they provided a reasonable basis upon which we could form our Opinion. Such forecasts were not prepared with the expectation of public disclosure. Mufson Howe Hunter has relied on such forecasts without independent verification or analyses and does not in any respect assume any responsibility for the accuracy or completeness thereof.

We assumed that there were no material changes in the assets, liabilities, financial condition, results of operations, business or prospects of either Fidelity or WesBanco since the date of the last financial statements of each company made available to us. We have also assumed, without independent verification and with your consent, that the aggregate allowances for loan losses set forth in the respective financial statements of Fidelity and WesBanco are, in the aggregate, adequate to cover all such losses. We did not make or obtain any independent evaluation, appraisal or physical inspection of either Fidelity's or WesBanco's assets or liabilities, the collateral securing any of such assets or liabilities, or the collectability of any such assets, nor did we review loan or credit files of Fidelity or WesBanco. Estimates of values of companies and assets do not purport to be appraisals or necessarily reflect the prices at which companies or assets may actually be sold. Because such estimates are inherently subject to uncertainty, Mufson Howe Hunter assumes no responsibility for their accuracy. We relied on advice of Fidelity's counsel as to certain legal matters with respect to Fidelity, the Agreement and the Merger and other matters contained or contemplated therein. In addition, we have assumed, with your consent, that there are no factors that would delay or subject to adverse conditions any necessary regulatory or governmental approval and that all conditions to the Merger will be satisfied and not waived. We have assumed that the Merger will be consummated substantially on the terms and conditions described in the Agreement, without any waiver of material terms and conditions by Fidelity or any other party, and that obtaining any necessary regulatory approvals or satisfying any other conditions for consummation of the Merger will not have an adverse effect on Fidelity or WesBanco. We have assumed that the Merger will be consummated in a matter that complies in all respects with the applicable provisions of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and all other applicable federal and state statutes, rules and regulations.

Our Opinion is necessarily based solely on economic, market, monetary, financial and other conditions as they exist on, and on the information made available to us as of, the date of this letter. It is understood that subsequent developments may affect the conclusions reached in this Opinion and that Mufson Howe Hunter does not have or assume any obligation to update, revise or reaffirm this Opinion. Our Opinion is solely for the information of, and directed to, the Fidelity Board of Directors (the Board) for its information and assistance in connection with its consideration of the financial terms of the Merger and is not to be relied upon by any shareholder of Fidelity or WesBanco or any other person or entity. Our Opinion does not constitute a recommendation to the Board as to how the Board should vote on the Merger or to any shareholder of Fidelity or WesBanco as to how any such shareholder should vote at any shareholders' meeting at which the Merger is considered, or whether or not any Fidelity shareholder should enter into a voting, shareholders', or affiliates' agreement with respect to the Merger, or exercise any dissenters' or appraisal rights that may be available to such shareholder. In addition, the Opinion does not compare the relative merits of the Merger with any other alternative transaction or business strategy which may have been available to Fidelity and does not address the underlying business decision of the Board or Fidelity to proceed with the Merger or any aspect thereof.

Mufson Howe Hunter, as part of its investment banking services, is regularly engaged in the independent valuation of businesses and securities in connection with mergers, acquisitions, private placements and valuations for corporate and other purposes. We have acted as financial advisor to Fidelity in connection with the Merger and will receive a fee for our services, a substantial portion of which is contingent upon the completion of the Merger. In addition, Fidelity has agreed to indemnify us for certain liabilities arising out of our engagement.

Mufson Howe Hunter's Fairness Opinion Committee has approved the issuance of this opinion. Our Opinion may not be published or otherwise used to refer to, nor shall any public reference to Mufson Howe Hunter be made, without our prior written consent, except in accordance with the terms and conditions of our engagement letter with Fidelity.

Based upon and subject to the foregoing, we are of the opinion that, as of the date hereof, the Merger Consideration to be received from WesBanco in the Merger pursuant to the Agreement is fair to holders of shares of Fidelity common stock, from a financial point of view.

Respectfully,

/s/ Mufson Howe Hunter & Partners LLC

It is understood that subsequent developments may affect this opinion and that we do not have any obligation to update, revise or reaffirm this opinion.

We do not express any view on, and our opinion does not address (i) the advisability of any other transaction that the Company may be considering at the present time or the effect of any such transaction on the Company's current or future financial condition or results of operations or (ii) any other term or aspect of the Definitive Agreement or the Merger, or any agreement or instrument contemplated by the Definitive Agreement or entered into or amended in connection with the Merger. In addition, we do not express any view on, and our opinion does not address, the fairness of the Merger to the holders of any class of securities of the Company or FSBI, creditors of the Company or FSBI or other constituencies of the Company or the fairness of the amount or nature of any compensation to be paid or payable to any of the officers, directors or employees of the Company or FSBI, or class of such persons, in connection with the Merger, whether relative to the Merger Consideration or otherwise. In addition, the Company has agreed to reimburse certain of our expenses and to indemnify us against certain liabilities arising out of our engagement. In the ordinary course of business, Macquarie Capital (USA) Inc. or its affiliates may actively trade in the debt and equity securities, or options on securities, of the Company or any other company that may be involved in the Merger, for its own account and for the accounts of its customers and, accordingly, may at any time hold a long or short position in such securities. In addition, we and our affiliates may have in the past provided, may be currently providing and in the future may provide, financial advisory services to the Company, FSBI or their respective affiliates, for which we or such affiliates have received, and would expect to receive, compensation. Specifically, in the past two years, we have served as a Financial Advisor to the Company in relation to its bid to acquire another financial institution.

It is understood that this opinion is addressed to, and is for the sole use and benefit of the Board of Directors of the Company in connection with and for the purposes of its evaluation of the Definitive Agreement and, for the avoidance of doubt, this opinion may not, in whole or in part, be quoted, referred to, disclosed to any third party or used for any other purpose, in each case, without our prior written consent. Our opinion does not constitute a recommendation to any stockholder of FSBI as to how such stockholder should act in connection with the Merger. VOTING AGREEMENT (this Agreement), dated as of _____, 2012, by and between WESBANCO, INC., a West Virginia corporation (Buyer), and the undersigned holder (the Shareholder) of shares of common stock, \$0.01 par value (the Seller Shares), of FIDELITY BANCORP, INC., a Pennsylvania corporation (Seller).

WHEREAS, concurrently with the execution of this Agreement, Buyer, Buyer Sub, Seller Sub and Seller have entered into an Agreement and Plan of Merger (as such agreement may be subsequently amended or modified, the Merger Agreement), providing for, among other things, the merger of Seller with and into Buyer (the Merger);

WHEREAS, as used herein, the term Shares means all shares of Seller Shares held by the Shareholder on the date of this Agreement and all shares of Seller Shares that the Shareholder purchases, acquires the right to vote or acquires beneficial ownership of (as defined in Rule 13d-3 of the Exchange Act, but excluding shares of Seller Shares underlying unexercised stock options and Seller Shares held by the Shareholder in a fiduciary capacity) prior to the Expiration Date (as defined in Section 2 below), whether by the exercise of any stock options or otherwise;
