**Table of Contents**

**RISK FACTORS**

*We believe that the following factors may affect our ability to fulfill our obligations under the Notes. All of these factors are contingencies which may or may not occur and we are not in a position to express a view on the likelihood of any such contingency occurring. Factors which we believe may be material for the purpose of assessing the market risks associated with our notes are also described below.*

*We believe that the factors described below, together with the risk factors included in the accompanying prospectus and our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2012, which is incorporated by reference herein, represent the principal risks inherent in investing in the Notes, but we do not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set forth elsewhere in this prospectus supplement and the accompanying prospectus (including any documents incorporated or deemed to be incorporated by reference herein and therein) and reach their own views prior to making any investment decision.*

**The Indenture governing the Notes does not restrict our ability or our subsidiaries' ability to incur additional indebtedness or issue preferred stock. The Notes will be structurally subordinated to the existing and future indebtedness of our subsidiaries.**

The Indenture governing the Notes does not limit our ability or the ability of our subsidiaries to incur additional indebtedness or issue preferred stock. Accordingly, we or our subsidiaries could enter into acquisitions, refinancings, recapitalizations or other highly leveraged transactions that could significantly increase our or our subsidiaries' total amount of outstanding debt. The interest payments needed to service this increased level of indebtedness could have a material adverse effect on our or our subsidiaries' operating results. A highly leveraged capital structure could also impair our or our subsidiaries' overall credit quality, making it more difficult for us to finance our operations or issue future indebtedness on favorable terms, and could result in a downgrade in the ratings of our indebtedness, including the Notes, by rating agencies. Further, if any of our or our subsidiaries' indebtedness is accelerated due to an event of default under such indebtedness and such acceleration results in an event of default under some or all of our other indebtedness, including the Notes, we may not have sufficient funds to repay all of the accelerated indebtedness and the Notes simultaneously.

Claims of creditors of our subsidiaries will have priority over the claims of holders of the Notes with respect to the assets and earnings of our subsidiaries. Our subsidiaries are separate and distinct legal entities, and have no obligation to pay any amounts due on the Notes or to provide us with funds for our payment obligations. Our right to receive any assets of any of our subsidiaries upon their liquidation or reorganization, and therefore the right of the holders of the Notes to participate in those assets, will be effectively subordinated to the claims of that subsidiary's creditors.

**We may not have the ability to raise the funds necessary to finance the change of control offer required by the Indenture.**

Upon the occurrence of a Change of Control Triggering Event (as defined herein), we will be required to offer to repurchase all outstanding Notes at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of repurchase. However, it is possible that we will not have sufficient funds at the time of the Change of Control (as defined herein) to make the required repurchase of Notes or that restrictions in our then-existing debt instruments will not allow such repurchases. In addition, certain important corporate events, such as acquisitions, refinancings, recapitalizations or other highly leveraged transactions that would increase the level of our indebtedness, would not constitute a Change of Control under the Indenture. See Description of Notes Offer to Repurchase Upon Change of Control Triggering Event.

**Table of Contents**

**If an active trading market does not develop for the Notes you may not be able to resell them.**

Prior to this offering, there was no public market for the Notes. If no active trading market develops, you may not be able to resell your Notes at their fair market value or at all. Future trading prices of the Notes will depend on many factors, including, among other things, prevailing interest rates, our operating results and the market for similar securities. We have been informed by the underwriters that they currently intend to make a market in the Notes after this offering is completed. However, the underwriters may cease their market-making at any time.

**USE OF PROCEEDS**

We estimate that the net proceeds we will receive from this offering will be \$1,481,982,500, after deducting underwriting discounts and estimated expenses of the offering payable by us. We intend to use the net proceeds from this offering, together with cash on hand, to repay approximately \$500 million of the indebtedness outstanding under our \$550.0 million term loan agreement (subject to any adjustment pursuant to the proposed amendment summarized below) and to repay in full our 4.625% Notes due 2013 (which mature on May 15, 2013), our Private Notes (as defined below) (which, following a notice of prepayment, we are required to prepay on March 29, 2013) and for general corporate purposes (which may include the redemption in full of our 5.625% Notes due 2014 (which mature on March 1, 2014), a process we anticipate initiating shortly following the consummation of this offering). As of December 31, 2012, (i) the total outstanding aggregate principal amount of our 2.60% Senior Notes, Series A, due November 23, 2015, our 4.03% Senior Notes, Series B, due November 23, 2020 and our 4.18% Senior Notes, Series C, due November 23, 2022 (collectively, the Private Notes ) was \$535.0 million, (ii) the outstanding aggregate principal amount of our 4.625% Notes due 2013 was \$125.0 million and (iii) the outstanding aggregate principal amount of our 5.625% Notes due 2014 was \$500.0 million. We are required to prepay our term loan in an amount equal to 50% of the net cash proceeds received from certain incurrences of debt for borrowed money in excess of \$500.0 million, including the net cash proceeds of this offering, but are currently discussing with the lenders under our term loan agreement an amendment that would allow lenders who wish to remain as lenders under our term loan agreement to not accept such prepayment. **Table of Contents****CONSOLIDATED RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our consolidated ratio of earnings to fixed charges for the periods indicated:

	Year Ended December 31,				
	2012	2011	2010	2009	2008
Consolidated Ratio of Earnings to Fixed Charges <sup>(1)</sup>	2.4x	6.1x	7.8x	7.0x	9.2x

(1) We currently do not have any preference securities outstanding and we did not pay or accrue any preference dividends during the years presented above.

For purposes of computing the ratio of earnings to fixed charges, earnings consists of income before income taxes, noncontrolling interests and cumulative effect of accounting changes, plus fixed charges and the amortization of capitalized interest. Fixed charges consists of interest incurred on indebtedness, amortization of debt discount, fees and expenses plus one-third of the rental expense from operating leases, which management believes is a reasonable approximation of the interest component of rental expense. The computation of ratio of earnings to fixed charges does not include the interest component of our income tax liabilities related to uncertain tax positions connected with ongoing tax audits in various jurisdictions. The ratios of earnings to fixed charges are calculated as follows:

(Income before income taxes, noncontrolling interests and cumulative effect of accounting changes)

+ (Fixed charges) + (Amortization of capitalized interest)

(Fixed charges)
