### **RECORD DATE**

The record date (the Record Date) for determining which NAEP Shareholders shall be entitled to receive notice of and to vote at the Meeting is August 14, 2013. Only NAEP Shareholders of record as of the Record Date are entitled to receive notice of and to vote at the Meeting, unless after the Record Date such shareholder of record transfers its shares and the transferee (the Transferee), upon establishing that the Transferee owns such shares, requests in writing at least 10 days prior to the Meeting or any adjournments thereof that the Transferee may have his, her or its name included on the list of NAEP Shareholders entitled to vote at the Meeting, in which case the Transferee is entitled to vote such shares at the Meeting. Such written request by the Transferee shall be filed with Computershare Investor Services Inc., 8th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, together with a copy to the Secretary of the Corporation at Suite 300, 18817 Stony Plain Road, Edmonton, Alberta, T7X 5A7.

Under normal conditions, confidentiality of voting is maintained by virtue of the fact that the Corporation's transfer agent tabulates proxies and votes. However, such confidentiality may be lost as to any proxy or ballot if a question arises as to its validity or revocation or any other like matter. Loss of confidentiality may also occur if the Board of Directors decides that disclosure is in the interest of the Corporation or its shareholders.

### **APPOINTMENT OF PROXYHOLDERS**

The persons named in the accompanying Proxy as proxyholders are representatives of management of NAEP. **Every NAEP Shareholder has the right to appoint a person or company to represent them at the Meeting other than the persons named in the accompanying Proxy. A NAEP Shareholder desiring to appoint some other person (who need not be a shareholder of NAEP) to represent him, her or it at the Meeting, may do so either by striking out the printed names and inserting the desired person's name in the blank space provided in the Proxy or by completing another proper proxy and, in either case, delivering the completed proxy to our transfer agent Computershare Investor Services Inc., (i) by mail using the enclosed return envelope or one addressed to Computershare Investor Services Inc., Proxy Department, 135 West Beaver Creek, P.O. Box 300, Richmond Hill, Ontario, L4B 4R5, or (ii) by hand delivery to Computershare Investor Services Inc., 8th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1. Alternatively, you may vote electronically by telephone (1-866-732-8683) or internet ([www.investorvote.com](http://www.investorvote.com)) by following the instructions on the enclosed form of proxy. Your proxy or voting instructions must be received in each case no later than 10:00 a.m. (Eastern Time), on September 16th, 2013 and if the Meeting is adjourned, no later than 48 hours (excluding Saturdays and holidays) prior to the commencement of any adjournment thereof. A Proxy must be signed by a NAEP Shareholder or its attorney duly authorized in writing or, if a NAEP Shareholder is a corporation, by a duly authorized officer, attorney or other authorized signatory of the NAEP Shareholder. If a proxy is given by joint shareholders, it must be executed by all such joint shareholders.**

**Table of Contents**

**VOTING OF PROXIES**

If a Proxy is completed, signed and delivered to the Corporation in the manner specified above, the persons named as proxyholders therein shall vote or withhold from voting the shares in respect of which they are appointed as proxyholders at the Meeting, in accordance with the instructions of the NAEP Shareholder appointing them, on any show of hands or any ballot that may be called for and, if the NAEP Shareholder specifies a choice with respect to any matter to be acted upon at the Meeting, the persons appointed as proxyholders shall vote in accordance with the specification so made. **In the absence of such specification, or if the specification is not certain, the shares represented by such Proxy will be voted in favour of the matters to be acted upon as specified in the Notice of Meeting.**

**A Proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the Notice of Meeting and all other matters which may properly come before the Meeting or any adjournments thereof. As of the date of this Information Circular, the Board of Directors of the Corporation knows of no such amendments, variations or other matters to come before the Meeting, other than matters referred to in the Notice of Meeting. However, if amendments, variations or other matters should properly come before the Meeting, the Proxy will be voted on such amendments, variations and other matters in accordance with the best judgment of the person or persons voting such Proxy.**

**REVOCABILITY OF PROXY**

Any NAEP Shareholder returning an enclosed Proxy may revoke the same at any time insofar as it has not been exercised. In addition to revocation in any other manner permitted by law, a Proxy may be revoked by instrument in writing executed by the NAEP Shareholder or by his, her or its attorney authorized in writing or, if the NAEP Shareholder is a corporation, by an officer or attorney thereof duly authorized, and deposited at the registered office of the Corporation to the attention of the Secretary of the Corporation, at any time up to and including the last business day preceding the day of the Meeting, or any adjournment thereof, or with the chairperson of the Meeting, prior to the commencement of the Meeting. A NAEP Shareholder attending the Meeting has the right to vote in person and, if he, she or it does so, his, her or its proxy is nullified with respect to the matters such person votes upon and any subsequent matters thereafter to be voted upon at the Meeting or any adjournment thereof.

**ADVICE TO BENEFICIAL HOLDERS OF COMMON SHARES**

**The information set forth in this section is of significant importance to many NAEP Shareholders, as a substantial number of NAEP Shareholders do not hold common shares of the Corporation ( NAEP Common Shares ) in their own name, and thus are considered non-registered shareholders.** NAEP Shareholders who do not hold their NAEP Common Shares in their own name ( Beneficial Shareholders ) should note that only Proxies deposited by NAEP Shareholders whose names appear on the records of the Corporation as the registered holders of NAEP Common Shares can be recognized and acted upon at the Meeting. If NAEP Common Shares are listed in an account statement provided to a NAEP Shareholder by a broker, then, in almost all cases, those NAEP Common Shares will not be registered in the NAEP Shareholder's name on the records of the Corporation. Such NAEP Common Shares will more likely be registered under the name of the NAEP Shareholder's broker or an agent of that broker or another similar entity (called an Intermediary ). NAEP Common Shares held by an Intermediary can only be voted by the Intermediary (for, withheld or against resolutions) upon the instructions of the Beneficial Shareholder. Without specific instructions, Intermediaries are prohibited from voting NAEP Common Shares.

**Beneficial Shareholders should ensure that instructions respecting the voting of their NAEP Common Shares are communicated in a timely manner and in accordance with the instructions**

**Table of Contents**

**provided by their Intermediary.** Applicable regulatory rules require Intermediaries to seek voting instructions from Beneficial Shareholders in advance of shareholders' meetings. **Every Intermediary has its own mailing procedures and provides its own return instructions to clients, which should be carefully followed by Beneficial Shareholders in order to ensure that their NAEP Common Shares are voted at the Meeting.**

Although a Beneficial Shareholder may not be recognized directly at the Meeting for the purposes of voting NAEP Common Shares registered in the name of their Intermediary, a Beneficial Shareholder may attend at the Meeting as proxyholder for the Intermediary and vote the NAEP Common Shares in that capacity. **Beneficial Shareholders who wish to attend the Meeting and indirectly vote their NAEP Common Shares as a proxyholder, should enter their own names in the blank space on the form of proxy provided to them by their Intermediary and timely return the same to their Intermediary in accordance with the instructions provided by their Intermediary, well in advance of the Meeting.**

**NOTICE TO UNITED STATES SHAREHOLDERS**

The solicitation of proxies by the Corporation is not subject to the requirements of Section 14(a) of the United States Securities Exchange Act of 1934, as amended (the "US Exchange Act"), by virtue of an exemption applicable to proxy solicitations by foreign private issuers as defined in Rule 3b-4 under the US Exchange Act. Accordingly, this Information Circular has been prepared in accordance with the applicable disclosure requirements in Canada. Residents of the United States should be aware that such requirements may be different than those of the United States applicable to proxy statements under the US Exchange Act.

**VOTING SHARES AND PRINCIPAL HOLDERS THEREOF**

The Corporation's authorized capital consists of an unlimited number of NAEP Common Shares and an unlimited number of non-voting NAEP Common Shares. As at August 14, 2013, there were a total of 36,310,926 NAEP Common Shares outstanding and no non-voting NAEP Common Shares outstanding. Each NAEP Common Share entitles the holder thereof to one vote in respect of each of the matters to be voted upon at the Meeting. To the knowledge of the Corporation's directors and executive officers, the following individuals or entities beneficially own, control or direct, directly or indirectly, securities carrying more than 10.0% of the voting rights attached to the NAEP Common Shares:

<b>Name of Beneficial Owner</b>	<b>Number of NAEP Common Shares</b>	<b>% of Outstanding NAEP Common Shares</b>
Harbinger Capital Partners, LLC <sup>(a)</sup>	7,032,322	19.4
Perry Corp. <sup>(b)</sup>	4,598,466	12.7

(a) Harbinger Group Inc. may be deemed to beneficially own 7,032,322 NAEP Common Shares. Such shares are held in the name of HGI Funding, LLC, which is a direct, wholly-owned subsidiary of Harbinger Group Inc.

(b) Perry Partners, L.P. directly holds 2,161,361 NAEP Common Shares. Perry Luxco S.A.R.L. directly holds 1,718,443 NAEP Common Shares. Perry Partners International, Inc. directly holds 718,662 NAEP Common Shares. Richard Perry is the President and sole shareholder of Perry Corp., which is the investment manager of Perry Partners International, Inc. and the managing general partner of Perry Partners, L.P. Perry Partners International, Inc. is the indirect sole shareholder of the class of securities owned by Perry Luxco S.A.R.L. As such, Mr. Perry may be deemed to have beneficial ownership over the respective NAEP Common Shares owned by Perry Luxco S.A.R.L., Perry Partners, L.P. and Perry Partners International, Inc.; however, Mr. Perry disclaims such beneficial ownership, except to the extent of his pecuniary interest, if any, therein.

**QUORUM**

A quorum for the transaction of business at the Meeting shall consist of at least two persons holding or representing by proxy not less than twenty (20%) percent of the outstanding shares of the Corporation entitled to vote at the meeting.

---

**Table of Contents**

If a quorum is not present at the opening of the Meeting, the NAEP Shareholders present may adjourn the meeting to a fixed time and place but may not transact any other business. If a meeting of shareholders is adjourned by one or more adjournments for an aggregate of less than 30 days it is not necessary to give notice of the adjourned meeting other than by announcement at the time of an adjournment. If a meeting of NAEP Shareholders is adjourned by one or more adjournments for an aggregate of more than 29 days and not more than 90 days, notice of the adjourned meeting shall be given as for an original meeting but the management of the Corporation shall not be required to send a form of proxy in the form prescribed by applicable law to each NAEP Shareholder who is entitled to receive notice of the meeting. Those shareholders present at any duly adjourned meeting shall constitute a quorum.

The Corporation's list of NAEP Shareholders as of the Record Date has been used to deliver to NAEP Shareholders the Notice of Meeting and this Information Circular as well as to determine the NAEP Shareholders who are eligible to vote.

**PRESENTATION OF FINANCIAL STATEMENTS**

The audited comparative consolidated financial statements of the Corporation for the fiscal year ended March 31, 2013, together with the report of the auditors thereon, copies of which are contained in the Corporation's annual report, will be presented to the NAEP Shareholders at the Meeting. Receipt at the Meeting of the auditors' report and the Corporation's financial statements for its last completed fiscal period will not constitute approval or disapproval of any matters referred to therein.

**BUSINESS TO BE TRANSACTED AT THE MEETING**

**1. ELECTION OF DIRECTORS**

The Board of Directors of the Corporation presently consists of eight directors, all of which have indicated that they wish to stand for re-election. Management proposes to set the number of directors to be elected at the Meeting at eight.

The eight nominees below are now directors of the Corporation and have been directors since the dates indicated below. It should be noted that George R. Brokaw resigned as director on June 18, 2013.

Management does not contemplate that any of the following nominees will be unable or unwilling to serve as a director but if that should occur for any reason prior to the Meeting, the persons named in the enclosed Proxy will have the right to vote for another nominee in their discretion. Each director elected at the Meeting will hold office until the next annual meeting or until his or her successor is duly elected or appointed.

The Board adopted a Board Policy on Majority Voting for Director Nominees (the Policy) on August 8, 2013. The Policy applies to the election of directors at uncontested shareholder meetings and provides that, with respect to any nominee for the Board, where the total number of shares withheld exceeds the total number of shares voted in favour of the nominee, then notwithstanding that such nominee is duly elected as a matter of corporate law, he or she shall forthwith submit his or her resignation for consideration by the Board, to take effect immediately upon acceptance by the Board. Upon receipt of such a conditional resignation, the Governance Committee shall consider the matter and, as soon as possible, make a recommendation to the full Board regarding whether or not such resignation should be accepted. After considering the recommendation of the Governance Committee, the Board shall within 90 days of the shareholder's meeting decide whether or not to accept the tendered resignation and shall issue a press release which either confirms that they have accepted the resignation or provides an explanation for why they have refused to accept such resignation.

**Table of Contents**

The following table and the notes thereto state, as of July 31, 2013, the: (i) name, municipality, province or state of residence, country of residence, and age of each nominee; (ii) the date each nominee first became a director of the Corporation (with the current term of each nominee expiring as of the holding of the Meeting); (iii) where applicable, the current position of each nominee with the Corporation (other than that of director); (iv) the present status of each nominee as an independent or non-independent director; (v) the committees upon which each nominee presently serves; (vi) the present principal occupation, business or employment of each nominee; (vii) the number of NAEP Common Shares, securities and options beneficially owned, or controlled or directed, directly or indirectly, by each nominee; and (viii) the Board and committee meeting attendance record for each nominee in the 2013 fiscal year.

**Corporate Cease Trade Orders, Bankruptcies, Penalties or Sanctions**

Ronald A. McIntosh is a director of Alvopetro Inc. (Alvopetro), formerly known as Fortress Energy Inc. On March 2, 2011, the Court of Queen's Bench of Alberta granted an order (the Order) under the Companies Creditors Arrangement Act (Canada) (CCAA) staying all claims and actions against Alvopetro and its assets and allowing Alvopetro to prepare a plan of arrangement for its creditors if necessary. Alvopetro took such step in order to enable Alvopetro to challenge a reassessment issued by the Canada Revenue Agency (CRA). As a result of the reassessment, if Alvopetro had not taken any action, it would have been compelled to immediately remit one half of the reassessment to the CRA and Alvopetro did not have the necessary liquid funds to remit, although Alvopetro had assets in excess of its liabilities with sufficient liquid assets to pay all other liabilities and trade payables. Alvopetro believed that the CRA's position was not sustainable and vigorously disputed the CRA's claim. Alvopetro filed a Notice of Objection to the reassessment and on October 20, 2011 announced that its Notice of Objection was successful, CRA having confirmed there were no taxes payable. As the CRA claim had been vacated and no taxes or penalties were owing Alvopetro no longer required the protection of the Order under the CCAA and on October 28, 2011 the Order was removed. On March 3, 2011 the TSX suspended trading in the securities of Alvopetro due to Alvopetro having been granted a stay under the CCAA. In addition the securities regulatory authorities in Alberta, Ontario and Quebec issued a cease trade order with respect to Alvopetro for failure to file its annual financial statements for the year ended December 31, 2010 by March 31, 2011. The delay in filing was due to Alvopetro being granted the CCAA order on March 2, 2011 and the resulting additional time required by its auditors to deliver their audit opinion. The required financial statements and other continuous disclosure documents were filed on April 29, 2011 and the cease trade order was subsequently removed. On September 1, 2010 Alvopetro closed the sale of substantially all of its oil and gas assets. As a result of the sale Alvopetro was delisted from the TSX on March 30, 2011 as it no longer met minimum listing requirements

*William C. Oehmig* served as a director of Propex Inc., which voluntarily filed for protection under Chapter 11 of the U.S. Bankruptcy Code on January 18, 2008 in order to allow it to restructure its US operations. Mr. Oehmig also served as director of Panolam Industries Inc., which voluntarily filed a petition under Chapter 11 of the U.S. Bankruptcy Code on November 4, 2009 to implement a Debt Restructuring Plan.

*Allen R. Sello* served as a director of Sterling Shoes Inc. (Sterling) until January 22, 2013. Pursuant to orders of the Supreme Court of British Columbia, including an initial order dated October 21, 2011, Sterling and each of its subsidiaries obtained creditor protection under the Companies Creditors Arrangement Act (Canada), staying all claims and actions against Sterling and its assets and allowing Sterling to conduct a court-approved asset sale. The Sterling assets have since been sold and the resulting proceeds have been distributed to its creditors.

### **EXECUTIVE COMPENSATION PHILOSOPHY**

The Corporation's executive compensation philosophy is designed to attract, retain and motivate qualified executives who are committed to achieving success for the Corporation and maximum value for its shareholders. The executive compensation philosophy is premised upon three core principles: competitive compensation, pay for performance and alignment with shareholder interests.

**Competitive compensation** It is the objective of the corporation to attract and retain talented executives who are capable of meeting the financial and other objectives of the corporation. It is important to ensure executive compensation is competitive within the market where the Corporation competes for talent, and in this light, the corporation has adopted a market-competitive total executive compensation package.

**Pay for performance** The corporation believes that executive compensation should be strongly correlated to the financial performance of the corporation, and that the executives, as the key decision makers of the corporation, should be held accountable for that performance. To that end, the Board has adopted the annual Short-Term Incentive Plan (STIP). The STIP rewards executives for the achievement of key financial (EBITDA) and non-financial (safety performance) objectives, all of which contribute to the long term success of the corporation.

**Alignment with shareholder interests** It is in the corporation's best interest to meet shareholder expectations and ensure continued access to capital on favourable terms. Accordingly the STIP and the Long Term Incentive Plan (LTIP) were designed to ensure that the activities of the corporation's executives are aligned with shareholder interests. Each of these plans is described in greater detail below.

⌚ The term EBITDA or Consolidated EBITDA, when used in this document refers to Consolidated EBITDA as defined in the Corporation's credit agreement. This is not a recognized measure under generally accepted accounting principles. For a detailed definition of Consolidated EBITDA (as used in this document) and a reconciliation to net income see our management's discussion and analysis for the year ended March 31, 2013, which is available on the Canadian Securities Administrators' System for Electronic Document Analysis and Retrieval (SEDAR) at [www.sedar.com](http://www.sedar.com), the Securities and Exchange Commission's website at [www.sec.gov](http://www.sec.gov) and the Corporation's web site at [www.nacg.ca](http://www.nacg.ca).

**Table of Contents**

**EXECUTIVE COMPENSATION OVERVIEW**

The following table sets out the various components of compensation that NEOs are eligible to receive:

**Executive Compensation Components**

Base Salary	Base salary is based on the executive's level of responsibility, skills and experience, and the market value of the position. Adjustments to base salary are considered annually, taking into account the executive's overall performance, experience and market conditions.
Short-Term Incentive Plan  ( STIP )	STIP compensation is linked to the corporation's performance in the fiscal year as measured by Consolidated EBITDA and improvement in the corporation's consolidated disabling injury rate ( DIR ). Both measures have a pre-determined target set by the Board prior to the start of the fiscal year and funding of the STIP pool is based on the performance of the corporation against the two targets during the year. Each executive has a targeted annual bonus of 100% of base salary. Actual payout is determined by the level of achievement of predetermined financial and non-financial performance objectives. Payouts range from zero to a maximum of 200% of an executive's STIP target.
Long-Term Incentive Plan  ( LTIP )	LTIP compensation grants are generally made twice per calendar year through two vehicles: (1) Stock Options are normally granted in December, and (2) Restricted Share Units granted in April. Each executive has a target annual LTIP compensation value of 40% of base salary. Of that target annual LTIP, 50% is awarded as Stock Options and 50% is awarded as Restricted Share Units. The CEO's targeted LTIP compensation value is 50% of base salary. Of that target annual LTIP, 50% is awarded as Stock Options and 50% is awarded as Restricted Share Units.
Retirement Arrangements	The Corporation matches contributions of executives to registered retirement savings plans to a maximum of 5% of base salary. If or when the executive reaches his or her annual RRSP contribution limits, the remaining contributions for the calendar year are made to a non-registered saving plan.
Benefit Plans	Executive benefit plans, paid for by the corporation, provide extended health, dental, disability and insurance coverage.
Perquisites	Limited perquisites are provided including a vehicle allowance, and reimbursement of fuel purchases, reimbursement for annual dues to a local sport or health club, an annual medical examination and a discretionary health care spending account.

**DETERMINING INDIVIDUAL COMPENSATION FOR NEOs**

It is the role of the Human Resources & Compensation Committee to recommend the compensation of the CEO to the board for approval and to determine, following the recommendation of the CEO, the compensation of the other NEOs. The Committee receives assistance from several sources, both internal and external, to assist it in fulfilling its duties in this respect.

**Table of Contents**

**NEW POLICIES IMPLEMENTED**

During the most recent financial year the structure of the STIP plan for NEOs other than the President and CEO was modified to add increased focus on the results of the Company. The root cause for this modification was that the year ended March 31, 2013 was a transition year with the arrival of Martin Ferron as President and CEO and many individual NEO goals were set by the outgoing President and CEO. Also, the sale of pipeline business and the elimination of the industrial division further minimized the need to focus on divisional objectives. The Human Resources & Compensation Committee thus approved a change in structure effective April 1, 2013, that will see the STIP plan for NEOs structured completely around the Company's performance as follows:

MANAGEMENT LEVEL	COMPANY PERFORMANCE	DIVISIONAL PERFORMANCE	INDIVIDUAL PERFORMANCE	PROPORTION OF SALARY PAYABLE AT TARGET
President and Chief Executive Officer	100%			100%
Chief Financial Officer, Chief Operating Officer and other Vice Presidents	100%			100%

**COMPARATOR GROUP ANALYSIS AND MARKET DATA**

In determining compensation for NEOS, our primary comparator group includes companies that meet the following criteria:

- (a) compete with for customers and revenue;
- (b) compete with for executive talent, primarily in the heated Alberta labour market;
- (c) compete with for equity or other capital;
- (d) are in the same or similar industry such as construction and engineering and oil and gas equipment and services;
- (e) are of comparable size, whether in terms of revenue or number of employees; and
- (f) where reliable benchmark compensation information is available.

A number of relevant competitors are excluded from our comparator group due to the fact that some are private corporations (i.e. KMC) or smaller divisions of larger corporations (i.e. Flatiron) and therefore insufficient compensation information is available. A thorough job matching exercise has been conducted for each NEO with their counterparts in the comparator group to ensure a strong position match was obtained, and so relevant and meaningful benchmarking could be conducted using the comparator group data. In general the job matches from the executive review group below are comprised of NEOs of the listed corporations. The use of comparative market data is just one of the

factors used in setting compensation for NEOs. NEO compensation could be higher or lower than the comparator data as a result of personal performance, skills or experience.

INPUT FROM THE CORPORATION'S MANAGEMENT			

The President and CEO actively participates in the compensation process, makes recommendations to the Human Resources & Compensation Committee with respect to the other NEOs and recommends to the Compensation Committee the specific business goals to be used as performance targets for the various incentive programs. For fiscal 2013, the following corporate goals were recommended by the CEO and approved by the Committee under the STIP plan.

Metric	Fiscal 2013 Target	Fiscal 2013 Achievement	STIP Score
Safety Performance (20% weighting)	Achieve a 7% reduction in the consolidated DIR vs. the FY2012 result of 1.54	A consolidated DIR of 1.39 was achieved thus exceeding the target reduction of 7%	100%
Financial Performance (80% weighting)	Achieve budgeted  EBITDA of \$103M	The corporation achieved EBITDA of \$78.3M	75%

In previous years, the corporation has refrained from disclosing specific financial objectives for fear of prejudicing the corporation. For the financial year ending December 31, 2013, the corporation will disclose specific financial objectives concerning EBITDA to STIP eligible employees to promote line of sight and better alignment with respect to the Corporation's financial objectives.

For details on application of compensation against objectives, see section on Short Term Incentive Plan and Analysis of Fiscal 2013 Compensation Decisions Regarding NEOs.

### **RISK MANAGEMENT**

The Human Resources & Compensation Committee has considered the topic of risk as it relates to executive compensation. As part of its oversight of executive compensation and a desire to mitigate the risk associated with executive compensation, the committee has taken the following actions:

Elected to make the majority of the targeted annual compensation of each NEO at risk by making it contingent on the achievement of pre-determined objectives or based on the appreciation of the corporation's share price over the mid to long term;

Regularly benchmark base, variable and total compensation against a peer group of organizations selected by the Committee as being relevant for compensation benchmarking purposes;

Short term incentive pay is earned through a balanced, diversified mix of performance measures, both financial and non-financial, each intended to improve different elements of the corporation's business;

The Committee is planning formal adoption of a share ownership policy for NEOs which, once implemented, will require NEOs to hold a target dollar value of equity in the corporation while employed in an executive position by the corporation;

While current policies of the Corporation prohibit employees, including executive officers, from short-selling securities of the Corporation, the Committee will be considering adoption of a more comprehensive anti-hedging policy that will expressly prohibit NEOs from purchasing any financial instruments that would hedge their holdings in equity of the Corporation.

Restricted share units cliff-vest three years from their grant date, inherently focusing the interests and efforts of the executive on the long term performance of the corporation;

Share options vest 20% per year over a five year period, inherently focusing the interests and efforts of the executive on the long term performance of the corporation;

RSUs and share options are granted annually, thereby providing overlapping performance cycles that require sustained high levels of performance to achieve a consistent payout; and

The Human Resources & Compensation Committee and the Board provide strong oversight of the management of the corporation's compensation programs. The Committee has the ability to use discretion in assessing performance under executive compensation programs to adjust metrics or the payouts based on results, events and/or individual circumstances.

**TRENDS BETWEEN NEO COMPENSATION AND TOTAL SHAREHOLDER RETURN**

As described in the section Executive Compensation Philosophy , executive compensation is tied to the financial and safety performance of the Corporation as well as market competitiveness and thus the compensation strategy for base salary is not inherently linked to the Corporation's share performance. There is a level of correlation between the STIP and the price of the NAEP Common Shares, as Consolidated EBITDA is a key factor in determining the annual bonus. As well, there is a level of correlation between LTIP and the performance of NAEP Common Shares as the Share Option Plan and Restricted Share Unit values are based on the price of NAEP Common Shares

**SHARE-BASED AND OPTIONS-BASED AWARDS**

Share-based and options-based awards are granted to NEOs under the terms of the Restricted Share Unit Plan and the Share Option Plan. The Human Resources & Compensation Committee has approved a target annual LTIP grant value of 50% of base salary for the President and CEO and 40% of base salary for the CFO and the NEOs. To determine the number of units or options granted to each

## **Table of Contents**

NEO at the time of grant a calculation is performed using the fair value of the corporation's share price as at the grant date in relation to the targeted compensation value of the grant. For share options, the corporation applies a discount to the fair value using the Black Scholes model to reflect the volatility of the corporation's common shares and the expected life of the option. The Human Resources & Compensation Committee has the discretion to award fewer share options than the formula suggests due to a high volatility of the share price. Previous grants are not a factor in determining new grants.

### **COMPENSATION GOVERNANCE**

The Human Resources & Compensation Committee of the Board of Directors is charged with the oversight and governance of the executive compensation programs of the corporation. The Board has approved a Committee Charter which outlines the accountabilities of the Human Resources & Compensation Committee. These accountabilities include:

- (b) review and recommend to the Board for approval on an annual basis the corporate goals and objectives relevant to the compensation of the President and Chief Executive Officer ( CEO );

- (d) review and approve the compensation package for the Executive Management of the Company, other than the CEO, including without limitation, base salaries, annual incentive compensation, retirement, health and welfare benefits and perquisites. In this Charter, Executive Management includes the CEO and all individuals reporting directly to the CEO (save and except for the CEO's Executive Assistant);
- (e) review and recommend to the Board for approval the structure, implementation, participation, amendments or termination of all long-term incentive compensation programs, including but not limited to, the Share Option Plan, Director Deferred Share Plan, Performance Share Unit Plan, and Restricted Share Unit Plan;
- (f) review and recommend to the Board for approval the compensation package for the Committee Chairs and other directors;
- (g) review and recommend to the Board for approval the recruitment, evaluation and succession plans for the CEO;
- (h) review and approve the recruitment, appointment, evaluation and succession plans for the Executive Management of the Company, other than the CEO;
- (i) retain, compensate, and terminate, as applicable, any independent compensation consultants or other consultants to be used to advise and assist the Committee with respect to its responsibilities. The Committee shall have the sole authority to approve such consultant's fees and the other terms and conditions of the consultant's retention; and
- (j) undertake any other activity that may be reasonably necessary in order for the Committee to carry out its responsibilities as set out in this Charter.

**COMPENSATION OF THE NAMED EXECUTIVE OFFICERS**

The corporation's performance for fiscal 2013 saw a marked improvement from previous years though financial performance fell below target levels, primarily in the first quarter. The majority of the intended compensation of NEOs is in the form of at-risk pay meaning that overall non-equity incentive compensation levels for NEOs reflected the improved performance of the corporation with regards to STIP as compared to fiscal 2012, when the corporation failed to achieve its threshold EBITDA level and STIP was paid at 20% of target based solely on safety performance. The corporation's share price declined during the first quarter of the fiscal year but has been steadily rising since the arrival of Martin Ferron as President and CEO and appears to have been positively impacted by the significant restructuring and debt reduction undertaken by the corporation.

In fiscal 2012, the Board became concerned with the stability of the Executive team over the upcoming 12 month period based on the decrease in value of NEO equity holdings and the low STIP payments generated in fiscal 2012. As such, at its March 2012 meeting the Board approved a special retention bonus for each NEO, with the exception of the CEO, with the intent of reducing the probability of significant turnover of the Executive team. These retention bonuses met their intended objective as the only turnover at the executive team was non-voluntary in nature.

Following is a summary of the various compensation programs applicable to NEOs and the payments generated under each during the 2013 fiscal year.

**Base Salary**

Base salaries for the NEOs are reviewed and approved each year by the Human Resources & Compensation Committee with adjustments effective July 1. The Committee may make adjustments to an executive's salary as a result of any change in the executive's duties and responsibilities and based

on the performance and contribution of the executive, both on an individual basis and on the performance of the executive's business unit or division during the previous fiscal year. In reviewing the base salaries of the Corporation's executives, the Committee also considers comparator group compensation, internal pay relationships, total direct target compensation and total employee cost. The base salary pay adjustments noted below took into consideration the pay position of each executive in the market.

The following table sets out the base salaries as at March 31, 2013, March 31, 2012 and the percentage increase from the prior year for each NEO:

NEO	2013 Base Salary (\$)	2012 Base Salary (\$)	% change from 2012

**Short-Term Incentive Plan ( STIP )**

Our STIP for executive management is described above in *Executive Compensation Components*. It is the primary vehicle the corporation uses to reward executives for their contributions to strong financial and operational performance in a particular year. The purpose of the STIP is to motivate executives to enable the corporation to achieve its financial goals and to reward them to the extent that goals are achieved. All senior managers, including the NEOs, participate in the STIP.

Consolidated EBITDA is the primary metric within the STIP for NEOs because it measures the current profitability of the business and, as such, is a good indicator of overall corporate performance. The Human Resources & Compensation Committee may make recommendations to the Board of Directors regarding adjustments to Consolidated EBITDA to eliminate factors not considered relevant to the true financial performance of the Corporation. The secondary metric within the STIP plan is the disabling injury rate ( DIR ), which measures the rate at which employees are injured on the job and unable to complete their normal work tasks. DIR is selected given its critical impact on the corporation's ability to secure work and the extremely high degree of focus placed on health and safety within the corporate culture. Together EBITDA and DIR comprise the funding mechanism for the STIP plan, with EBITDA generating 80% of the potential funding of the pool at target, and DIR generating the other 20% of the pool.

The Board of Directors approves both the EBITDA and DIR targets under the STIP each year. Both targets are designed to be challenging. The Board of Directors set a consolidated EBITDA target for the 2013 fiscal year taking into account the results of the 2012 fiscal year and considering the budget and business plans prepared, presented to and approved by the Board. The Board also sets a consolidated DIR target reduction for the 2013 fiscal year taking into account the results of the 2012 fiscal year. The consolidated EBITDA results for the 2013 fiscal year were 75% of the target set by the Board of Directors while the consolidated DIR results for the 2013 fiscal year achieved the targeted reduction, resulting in the STIP pool for FY2013 being funded by both strong safety results and improved profitability, thereby generating 64.7% of target into the funding pool for NEOs.

Incentive opportunities for STIP participants at different levels within our organization are set as a percentage of each individual's base salary. The target incentive opportunity for each of the NEOs is 100% of base salary. The payouts for the NEOs range from zero to a maximum of 200% of target bonus depending on the Corporation's performance relative to the Consolidated EBITDA target and the DIR target.

**Table of Contents**

The Human Resources & Compensation Committee recommends the STIP award for the CEO on the basis of the Corporation's EBITDA and DIR performance and on the achievement of the CEO's individual targets. The Board of Directors approves the CEO's STIP award. The Committee approves the STIP awards for other NEOs, on the recommendation of the CEO, based on the same criteria. Although only 75% of EBITDA target was achieved for fiscal 2013, the corporation is in a much stronger financial position than it was at the end of fiscal 2012. The stronger position is the result of significant reduction in total debt, divesting the pipeline and piling assets, an amended and restated credit agreement with the lending syndicate, refinancing heavy equipment operating leases and the five-year master services contract awarded at the Kearl mine. Of these accomplishments, the sale of the piling business had the most substantial impact on the corporation and led to the Board approving an STIP award of 122% of target for the CEO and 100% of target for the CFO for their direct involvement in closing out the sale. The following table sets forth the STIP target, maximum STIP award and 2013 STIP award for each NEO.

NEO	STIP Target as Percentage of Base Salary (%)	STIP Target (\$) <sup>(a)</sup>	Maximum STIP Award (\$)	FY2013 STIP Award (\$)
Martin Ferron	100	491,154	982,308	600,000
David Blackley	100	302,421	604,842	302,421
Joseph Lambert	100	297,543	595,087	213,607
Barry Palmer	100	278,048	556,096	199,612
Bernard Robert	100	271,821	543,642	195,141
Rodney Ruston	100	111,037	222,075	185,512

(a) STIP Target is calculated as follows: 100% (Base Salary Effective April 1, 2012 to June 30, 2012 \* 0.25) + (Base Salary Effective July 1, 2012 to March 31, 2013 \* 0.75). This calculation takes into consideration base salary changes made part way through the fiscal year. Further pro-rations of the STIP calculation would occur if off-cycle adjustments were made throughout the fiscal year.

**Long-Term Incentive Plan ( LTIP )**

The purpose of the corporation's equity-based LTIP is to motivate executives to achieve sustained long-term performance which will increase the value of the Corporation over the long term and in turn, generate sustained returns for shareholders. Under the LTIP, long-term incentives are awarded to executives in the form of share options and Restricted Share Units (RSUs), the value of which is directly linked to share price.

The annual target LTIP value is 50% of base salary for the CEO and 40% of base salary for other NEOs. Each year, 50% of the annual target LTIP value is granted in the form of share options, with the balance of the annual target LTIP granted in the form of RSUs.

NEO	Annual LTIP Value at Target (% of base salary)	% as Share Options	% as RSUs
Martin R. Ferron	50	50	50
David Blackley	40	50	50
Joseph C. Lambert	40	50	50
Barry W. Palmer	40	50	50
Bernard T. Robert	40	50	50

**Share Option Plan**

The Share Option Plan was approved by the Corporation's shareholders on November 3, 2006 and became effective on November 28, 2006. The Share Option Plan is administered by the Human Resources & Compensation Committee. Option grants under the Share Option Plan may be made to

## **Table of Contents**

the Corporation's directors, officers, employees and consultants selected by the Committee. The Share Option Plan provides for the discretionary grant of options to purchase the Corporation's common shares. Options granted under the Share Option Plan are evidenced by an agreement, specifying the vesting, exercise price and expiration of such options, which terms are determined for each optionee by the Committee.

Options to be granted under the Share Option Plan will have an exercise price of not less than the previous 5 day volume weighted average trading price of the Corporation's Common Shares on the Toronto Stock Exchange or the New York Stock Exchange, converted to Canadian dollars.

The Share Option Plan provides that up to 10% of the Corporation's issued and outstanding NAEP Common Shares from time to time may be reserved for issuance or issued from treasury and also provides that the maximum number of NAEP Common Shares issuable to insiders under the Share Option Plan (and any other security based compensation arrangements of the Corporation) is 10% of the Corporation's issued and outstanding NAEP Common Shares. The maximum number of NAEP Common Shares issuable to insiders, at any time or within any one year period, pursuant to the Share Option Plan and any other security based compensation arrangements of the Corporation is 10% of the outstanding NAEP Common Shares on a non-diluted basis immediately prior to the proposed option to purchase.

As of July 31, 2013, the Corporation had 36,254,606 Common Shares outstanding, therefore providing for a current maximum of 3,625,460 Common Shares reserved for issuance under the Share Option Plan. As at July 31, 2013, the Corporation had 3,282,342 options to purchase Common Shares outstanding (or approximately 9.1% of the outstanding Common Shares), leaving unallocated options to purchase an aggregate of 343,118 Common Shares (or approximately 0.9% of the outstanding Common Shares) available for future option grants at that date. Approximately 253,330 options will become available with the sale of the piling business and the cessation of employment for senior managers in the piling group who had been granted options during their tenure.

Options may not be exercised prior to the first anniversary of the date of the grant. The vesting of options is otherwise determined on the grant of the option. Generally, options vest over a five-year period at a rate of 20% per year and expire at the end of 10 years. Each option has a term of no less than five and not more than 10 years.

The Share Option Plan provides that, in the event of the termination (with or without cause) of an optionee, the options held by an optionee cease to be exercisable 30 days after the termination, subject to adjustment by the Human Resources & Compensation Committee. For qualified retirees (age 55 or over and as approved by the Human Resources & Compensation Committee), vested options continue to be exercisable for the balance of the exercise period applicable to the option.

The Corporation does not provide financial assistance to participants under the Share Option Plan to facilitate the purchase of securities under the Share Option Plan. Options granted under the Share Option Plan are not transferable by an optionee, except by an optionee's will or by the laws of descent and distribution. During the lifetime of an optionee, the options are exercisable by only him or her (or, in the case of the optionee's disability, by his or her legal representative(s), if applicable). If an optionee dies, the options held by such optionee may be exercised by the legal representative of the deceased optionee. Such options cease to be exercisable on such date that is the earlier of: (a) 365 days after the optionee's death, and (b) the expiry date set out in the deceased optionee's option agreement. Notwithstanding the foregoing, the Share Option Plan allows the expiry date to be extended by determination of the Human Resources & Compensation Committee or as permitted under the option agreement. If the expiry date falls within or immediately after a blackout period or a lock-up period, the expiry date would be automatically extended for five business days after the blackout period or lock-up period.

**Table of Contents**

The Share Option Plan provides that subject to receipt of shareholder and regulatory approval, the Board of Directors may make certain specified amendments to the Share Option Plan, including (i) any amendment to the number of securities issuable under the Share Option Plan, (ii) any changes in the participants in the plan that have the potential of broadening or increasing insider participation, (iii) the introduction of, or amendments to, any form of financial assistance and (iv) any other amendments that may lead to significant or unreasonable dilution in the Corporation's outstanding securities or may provide additional benefits to eligible participants, especially to participants who are insiders. The Share Option Plan authorizes the Board of Directors to make other amendments to the plan, subject only to regulatory approval (i.e. without shareholder approval, unless specifically required by applicable law), including (i) amendments of a housekeeping nature (i.e. amendments for the purpose of curing any ambiguity, error or omission in the Share Option Plan, or to comply with applicable law or the requirements of any stock exchange on which the NAEP Common Shares are listed), (ii) any changes to the vesting provisions, (iii) any changes in the termination provisions of an option or of the Share Option Plan which does not entail an extension beyond the original expiry date, (iv) a discontinuance of the Share Option Plan and (v) the addition of provisions relating to phantom share units, such as restricted share units and deferred share units, which result in participants receiving cash payments, and the terms governing such features.

Share Options are normally granted in November or December of each fiscal year as part of the 50% grant under the LTIP program. For fiscal year 2013 the Board approved issuing the Share Options in September at a level somewhat higher than usual. The reasons for the earlier grant date and somewhat larger volume of options granted were that: (a) the Company had recently completed a restructuring involving significant layoffs; (b) the Corporation was beginning the process of refocusing its business; (c) the board agreed with executive management that option-based compensation was one of the best available motivators to ensure retention of key employees and dedication to the refocusing effort; and (d) the then-current share price was such that previously issued Share Options were significantly out of the money and therefore were not achieving the desired effect. The CEO voluntarily elected not to receive the Share Options he otherwise would have been entitled to as part of the 2013 fiscal year grant, choosing instead to make such options available for a larger grant to other employees. As part of that, the other NEOs were granted options above the target level of 50%. Specifically, the Board of Directors granted an aggregate amount of 250,000 Share Options to the NEOs at an exercise price of \$2.75.

*Restricted Share Unit Plan ( RSU Plan )*

The Board of Directors has approved the RSU Plan. The RSU Plan is part of the Corporation's Long-Term Incentive Plan. Under the RSU Plan the corporation credits a Restricted Share Unit (a RSU ), being a right granted to a participant to receive a cash payment equivalent to the fair market value of a Common Share of the Corporation, or at the discretion of the Corporation, in a number of Common Shares purchased on the open market, as of the maturity date. RSUs cliff-vest three years from their grant date. If any dividends are paid on the Corporation's Common Shares, additional RSUs will be credited to the participant to reflect such dividends. The RSU plan provides that, in the event of termination of a participant (with or without cause), all RSUs that are not earned RSUs are immediately forfeited. In the event of retirement or disability of a participant, all earned RSUs will be redeemed within 30 days of the maturity date. Any RSUs which have not completed their prescribed term (credited RSUs) shall continue to be eligible to become earned RSUs as if the participant was still employed by the corporation. On the death of a participant, all credited RSUs will vest and will be redeemed within 90 days of the date of the participant's death. Rights respecting RSUs are not transferable or assignable other than by will or the laws of descent and distribution.

In June 2010 the Board of Directors approved amendments to the RSU plan in the event of a Change of Control in order to provide a retention vehicle at a time of employment uncertainty. The amendments

**Table of Contents**

provide that 100% of the outstanding RSUs that are not earned RSUs held in the participant's RSU Account on the date the Change of Control transaction is completed shall be deemed to be earned RSUs. The value of the Earned RSUs will be fixed at the date of the Change in Control and final payment deferred until the end of the maximum term (3 years) of the RSU. Termination provisions in the amendments provide that within 24 months following the Change of Control, if the participant's employment is terminated for any reason other than death, disability, qualified retirement or good reason as defined in the plan, all earned RSUs shall be immediately forfeited. In the case of a termination without cause within 36 months following a Change of Control, all earned RSUs shall be paid out.

The Human Resources & Compensation Committee, on recommendation to and approval of the Board of Directors, may amend, suspend or terminate the RSU Plan or any portion thereof at any time. However, no amendment, suspension or termination may materially adversely affect any RSUs, or any rights pursuant thereto, granted previously to any participant without the consent of that participant.

On April 1, 2013, as part of the remaining 50% of grants under the LTIP program, a total of 100,155 RSUs were granted to the NEOs. The following table outlines the total LTIP awards for the NEOs for fiscal 2013:

NEO	LTIP Target as Percentage of Base Salary (%) <sup>(a)</sup>	Share Options Granted September 19, 2012	RSUs Granted April 1, 2013
Martin R. Ferron	50	Nil	50,000

Barry W. Palmer	40	50,000	12,340
Bernard T. Robert	40	60,000	11,781

<sup>(a)</sup> LTIP awards are delivered through two vehicles - 50% of the award is delivered as Share Options and 50% of the award as RSUs  
*Retirement Arrangements*

The Corporation does not have a pension plan. For the fiscal year ended March 31, 2013, the total amount the Corporation set aside for pension, retirement and similar benefits for the NEOs was \$78,024, consisting of employer matching contributions to the executive officers' Registered & Non Registered Retirement Savings Plans.

*Benefit Plans*

The Corporation provides the NEOs with health, dental, disability and insurance coverage through benefit plans paid for by the Corporation.

*Perquisites*

NEOs receive a limited number of perquisites that are consistent with market practice for individuals at this level. These include a vehicle allowance, reimbursement for annual dues at a local health or sports club, an annual medical examination and a discretionary health care spending account.

- (d) Mr. Ruston did not participate in the Corporation's matching RRSP program during his employment; however, in accordance with the terms of his employment agreement Mr. Ruston did receive lump sum payments of \$15,698 and \$20,000 in fiscal 2011 and 2012, respectively, in lieu of participation in the RRSP program. In addition to the payment of \$15,698 for fiscal 2011, Mr. Ruston also expensed perquisites in the amount of \$4,302, bringing his total benefit in lieu of participation in the RRSP program to \$20,000 for the fiscal year. In fiscal 2013, Mr. Ruston received \$10,000 in lieu of participation in the RRSP program. Mr. Blackley did not participate in the Corporation's matching RRSP program in fiscal 2010; however he did participate in the program in fiscal 2011 and 2012.

Palmer for fiscal 2012 presents his taxable relocation allowance. The amount indicated for Rodney J. Ruston for fiscal 2013 presents his retiring allowance.

**ANALYSIS OF FISCAL 2013 COMPENSATION DECISIONS REGARDING NEOs**

The following outlines the rationale behind the compensation decisions for each of the NEOs for fiscal 2013.

***Martin R. Ferron***

Mr. Ferron was hired June 7, 2012; the Board approved a base salary of \$600,000 and he was not eligible for salary adjustment until July 2013. The Board also approved a grant of 750,000 Share Options on June 14, 2012 to ensure that a significant component of the CEO's total compensation is directly linked to performance as measured by share price thus aligning it with shareholder interest. Under the STIP, Mr. Ferron's bonus award is based solely on corporate results which are directly related to his individual achievements. As outlined above, the corporation achieved 75% of the consolidated EBITDA target and fully achieved the DIR safety target which would normally result in STIP payouts being funded at 64.7% of target for Mr. Ferron. The Board approved a top up to 123% of target for Mr. Ferron based on his direct involvement in completing the piling sale and his leadership in reducing costs and improving cash flow. This resulted in a bonus payout of \$600,000 for FY2013 for Mr. Ferron.

Under the LTIP, Mr. Ferron was awarded share options and restricted share units as follows;

LTIP Component	# Units	Grant Date Value*
Share Options	750,000	2,092,500
RSUs	50,000	233,000
<b>Total</b>	<b>800,000</b>	<b>2,325,500</b>

\* The value at the grant date is determined using the volume weighted average trading price of the Company's common shares for the five trading days immediately preceding the grant date. The grant dates of the share options and RSUs were June 14, 2012 and April 1, 2013, respectively.

***David Blackley***

Mr. Blackley received a base salary increase of 5.0% in fiscal 2013, increasing his base salary to \$306,095 from \$291,519. This increase was in line with the general salary increase budget approved for all managerial, professional and administrative staff for FY2013 and also based on the desire to bring Mr. Blackley's total compensation in line with the external market.

Under the STIP, Mr. Blackley's bonus award is normally based 50% on the corporate results, as measured by Consolidated EBITDA and DIR, 30% on divisional results, and 20% on the achievement of individual objectives approved at the start of the year by the Human Resources and Compensation Committee. As outlined above, the CEO approved awarding NEOs their bonus awards strictly on the results of the corporation given that he set new objectives for NEOs upon his arrival which was part

way through the fiscal year. The threshold EBITDA target was achieved for fiscal 2013 with consolidated EBITDA at 75% of target and the DIR safety target was achieved. This would have resulted in the normal course STIP being funded at a level of 64.7% of target. However, the Board approved a top up to 100% of target for Mr. Blackley based on his direct involvement in the completion of the piling asset sale. This led to an STIP payout of \$302,421 for Mr. Blackley.

Under the LTIP, Mr. Blackley was awarded share options and restricted share units as follows;

<b>LTIP Component</b>	<b># Units</b>	<b>Grant Date Value*</b>
Share Options	70,000	192,500
RSUs	13,138	61,223
<b>Total</b>	<b>83,138</b>	<b>253,723</b>

\* The value at the grant date is determined using the volume weighted average trading price of the Company's common shares for the five trading days immediately preceding the grant date. The grant dates of the share options and RSUs were September 19, 2012 and April 1, 2013, respectively.

**Joseph C. Lambert**

Mr. Lambert received a base salary increase of 4.0% in fiscal 2013, increasing his base salary to \$300,456 from \$288,900. This increase was in line with the general salary increase budget approved for all managerial, professional and administrative staff for FY2013 and improves the internal equity of the CEO's direct reports.

Under the STIP, Mr. Lambert's bonus award would normally be based 50% on the corporate results, as measured by Consolidated EBITDA and DIR, 30% on divisional results, and 20% on the achievement of individual objectives approved at the start of the year by the Human Resources and Compensation Committee. As outlined above, the CEO approved awarding NEOs their bonus awards strictly on the results of the corporation given that he set new objectives for NEOs upon his arrival which was part way through the fiscal year. The threshold EBITDA target was achieved for fiscal 2013 with consolidated EBITDA at 75% of target and the DIR safety target was achieved. This resulted in the normal course STIP being funded at a level of 64.7% of target which equates to \$213,607 for Mr. Lambert.

Under the LTIP, Mr. Lambert was awarded share options and restricted share units as follows:

<b>LTIP Component</b>	<b># Units</b>	<b>Grant Date Value*</b>
Share Options	70,000	192,500
RSUs	12,896	60,095
<b>Total</b>	<b>82,896</b>	<b>252,595</b>

\* The value at the grant date is determined using the volume weighted average trading price of the Company's common shares for the five trading days immediately preceding the grant date. The grant dates of the share options and RSUs were September 19, 2012 and April 1, 2013, respectively.

**Barry W. Palmer**

Mr. Palmer received a base salary increase of 15% in fiscal 2013, increasing his base salary to \$287,500 from \$250,000. This increase reflected Mr. Palmer's strong performance over the prior year, the desire to improve internal equity among NEOs and to improve alignment with the external market.

Under the STIP, Mr. Palmer's bonus award is based 50% on the corporate results, as measured by Consolidated EBITDA and DIR, 30% on divisional results, and 20% on the achievement of individual objectives approved at the start of the year by the Human Resources and Compensation Committee.

**Table of Contents**

As outlined above, the CEO approved awarding NEOs their bonus awards strictly on the results of the corporation given that he set new objectives for NEOs upon his arrival which was part way through the fiscal year. This resulted in the normal course STIP being funded at a level of 64.7% of target which equates to \$199,612 for Mr. Palmer.

Under the LTIP, Mr. Palmer was awarded share options and restricted share units as follows;

<b>LTIP Component</b>	<b># Units</b>	<b>Grant Date Value*</b>
Share Options	50,000	137,500
RSUs	12,340	57,504

***Bernard T. Robert***

Mr. Robert received a base salary increase of 4.0% in fiscal 2012, increasing his base salary to \$274,482 from \$263,925. This increase matched the general salary increase budget approved for all managerial, professional and administrative staff for FY2012 and continued aligning Mr. Robert's base salary to external market data.

Under the STIP, Mr. Robert's bonus award is normally based 50% on the corporate results, as measured by Consolidated EBITDA and DIR, 30% on divisional results, and 20% on the achievement of individual objectives approved at the start of the year by the Human Resources and Compensation Committee. As outlined above, the CEO approved awarding NEOs their bonus awards strictly on the results of the corporation given that he set new objectives for NEOs upon his arrival which was part way through the fiscal year. The threshold EBITDA target was achieved for fiscal 2013 with consolidated EBITDA at 75% of target and the DIR safety target was achieved. This resulted in the normal course STIP being funded at a level of 64.7% of target which equates to \$195,141 for Mr. Robert.

Under the LTIP, Mr. Robert was awarded share options and restricted share units as follows;

<b>LTIP Component</b>	<b># Units</b>	<b>Grant Date Value*</b>
Share Options	60,000	165,000
RSUs	11,781	54,899
<b>Total</b>	<b>71,781</b>	<b>219,899</b>

\* The value at the grant date is determined using the volume weighted average trading price of the Company's common shares for the five trading days immediately preceding the grant date. The grant dates of the share options and RSUs were September 19, 2012 and April 1, 2013, respectively.

## **Table of Contents**

### **Mandate of the Board of Directors**

The Board of Directors supervises the management of the Corporation's business as provided by Canadian law and complies with the listing requirements of the New York Stock Exchange applicable to foreign private issuers, which require that the Board of Directors be composed of a majority of independent directors. The Corporation has adopted a Corporate Governance Policy which sets the framework for how the Board of Directors approaches its mandate and addresses such things as (i) the responsibility of the Board of Directors to monitor the operation of the business, provide oversight of risk management, internal control and corporate communications, and approve the strategic and ethical directions of the Corporation, (ii) committees of the Board of Directors (which include an Audit Committee, Human Resources & Compensation Committee, Governance Committee and a Health, Safety, Environment and Business Risk Committee), (iii) qualifications, responsibilities, orientation and education of the directors, and (iv) succession planning. The Corporate Governance Policy for the Corporation can be found on the Corporation's website at [www.nacg.ca](http://www.nacg.ca).

### **Compensation Philosophy and Approach**

The compensation of non-employee directors is intended to attract highly qualified individuals with the capability to meet the demanding responsibilities of Board members and to align the interests of directors with those of the company's shareholders. Non-employee director compensation is not incentive-based. Non-employee Directors are compensated based on a combination of an annual retainer, Committee Chair retainer (if applicable) and meeting attendance fees. The President and CEO does not receive additional compensation for his role on the Board.

### **Compensation Structure**

The Corporation's non-employee directors, other than the Chair, each receive an annual retainer and a fee for attendance at each meeting of the Board of Directors or any committee of the Board that they attend, and are reimbursed for reasonable out-of-pocket expenses incurred in connection with their services pursuant to the Corporation's policies. The table below outlines the compensation paid to non-employee directors during fiscal year 2013.

<b>Type of Fee</b>	<b>Amount (\$)</b>
<b><u>Annual Fees</u></b>	
Board retainer	110,000
Audit committee chair	12,000
HRCC committee chair	9,000
Risk committee chair	5,000
Governance committee chair	5,000
<b><u>Attendance Fees (per meeting)</u></b>	
Board or committee meeting	1,500

The Human Resources & Compensation Committee assesses the adequacy and form of compensation paid to directors in order to ensure that their compensation is competitive and reflects their responsibilities as directors. Periodically, the Human Resources & Compensation Committee benchmarks directors' compensation against compensation paid by major Canadian public companies similar in size to the Corporation and will engage the services of a compensation consultant to report on relevant benchmark data and recommend appropriate compensation for directors. Director compensation was updated in January 2008 based upon analysis and recommendation by Hewitt Associates (now Meridian Compensation Partners LLC).

**Table of Contents****Share Ownership Guidelines**

One way that Board members demonstrate their commitment to the long term success of the corporation is through share ownership. The Board has established share ownership guidelines for non-employee directors which must be met within five years of being elected as a director. The Share Ownership Guidelines require the Chair of the Board of Directors to own \$660,000 of equity in the Corporation and the remaining directors to own \$330,000 of equity in the Corporation, in each case represented by NAEP Common Shares and/or Directors' Deferred Share Units ( DSUs ). Such ownership level must be achieved within five years of the initial appointment or election as a director. The achievement of the share ownership threshold is facilitated by the requirement for the directors to receive 50% of their annual fixed remuneration in the form of DSUs. Once the share ownership threshold is achieved, the number of NAEP Common Shares and DSUs representing the compliance level must be held for at least 30 days to qualify. Thereafter that number of NAEP Common Shares or DSUs must be maintained in order to remain compliant, regardless of a subsequent decrease in NAEP Common Share price. All current directors comply with these Share Ownership Guidelines.

**Board and Committee Membership**

Over the course of the 2013 fiscal year the following non-employee directors served on the following committees:

**Directors Deferred Share Unit Plan**

The Corporation's Directors Deferred Share Unit Plan ( DSU Plan ) was approved on November 27, 2007 by the Corporation's Board of Directors and became effective on January 1, 2008. The DSU Plan is administered by the Human Resources & Compensation Committee. DSUs under the DSU Plan may be granted to each member of the Board of Directors of the Corporation (the Participant ) who is not an employee or officer of the Corporation and its affiliated entities. The DSU Plan provides that the Participant receives 50% (or if they choose, up to 100%) of their fees in the form of DSUs. In addition, directors may elect any amount of their variable compensation (i.e. meeting fees) to be paid in the form of DSUs. DSUs vest immediately upon grant and may be redeemed when a non-employee director ceases to hold office. In the event a director ceases to hold office, all DSUs will be redeemed by the Corporation within 21 days following: (a) in the case of directors that are U.S. taxpayers, the date of such termination; and (b) in the case of all other directors, by December 1 of the calendar year immediately following the year by which such termination takes place (unless an earlier date is elected by the director after termination). A Participant has no further rights respecting any DSU which has been redeemed. Please refer to the DSU plan document for additional information on the DSU plan.
