For the transition period from _____ to _____

Commission file number 0-20052

STEIN MART, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: STEIN MART INC - Form 10-Q

Florida
(State or other jurisdiction of
incorporation or organization)

64-0466198
(I.R.S. Employer
Identification Number)

1200 Riverplace Blvd., Jacksonville, Florida
(Address of principal executive offices)

32207
(Zip Code)

Registrant's telephone number, including area code: (904) 346-1500

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the Registrant's common stock as of August 30, 2013 was 44,283,524.

STEIN MART, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in tables in thousands, except per share amounts)

1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting primarily of normal and recurring adjustments) considered necessary for a fair statement have been included. Due to the seasonality of our business, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in our annual report on Form 10-K for the year ended February 2, 2013.

As used herein, the terms we , our , us , Stein Mart and the Company refer to Stein Mart, Inc. and its wholly-owned subsidiaries.

Recent Accounting Pronouncement

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*. ASU No. 2013-02 requires presentation of reclassification adjustments from each component of accumulated other comprehensive income either in a single note or parenthetically on the face of the financial statements, for those amounts required to be reclassified into net income in their entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety in the same reporting period, cross-reference to other disclosures is required. We adopted this guidance in the first quarter of 2013. The adoption of this guidance did not have a material impact on our financial statements or disclosures.

2. Fair Value Measurements

Assets and Liabilities Measured at Fair Value on a Recurring Basis

We have money market fund investments classified as cash equivalents which are Level 1 assets because fair value is based on readily available market prices. The fair value of these assets was \$36.2 million at August 3, 2013, \$55.2 million at February 2, 2013 and \$83.1 million at July 28, 2012.

3. Gift Card and Merchandise Return Cards

For the 13 weeks ended August 3, 2013 and July 28, 2012, we recognized breakage income on unused gift and merchandise return cards of \$0.2 million and \$2.3 million, respectively. For the 26 weeks ended August 3, 2013 and July 28, 2012, we recognized breakage income on unused gift and merchandise return cards of \$0.4 million and \$2.6 million, respectively. During the second quarter of 2012, we updated certain assumptions on our obligations for unused gift and merchandise return card balances. Breakage income is included in Selling, general and administrative expenses in the Condensed Consolidated Statements of Income.

4. Revolving Credit Agreement

On October 28, 2011, we entered into an amended and restated revolving credit agreement (the Credit Agreement) with Wells Fargo Bank, N.A. The Credit Agreement provides for a \$100 million senior secured revolving credit facility which can be increased to \$150 million. The Credit Agreement matures on February 28, 2017. Borrowings under the Credit Agreement are based on and collateralized by eligible credit card

receivables and inventory.

The amount available under the Credit Agreement is the lesser of \$100 million or 90% of eligible credit card receivables and inventories less reserves. The amount available for borrowing at August 3, 2013 was \$93.8 million and represents the capped borrowing base of \$100 million reduced by outstanding letters of credit of \$6.2 million. The Credit Agreement contains customary affirmative and negative covenants, including limitations on granting of liens, certain investments, additional indebtedness, prepayments on indebtedness and disposition of inventory. We had no direct borrowings at August 3, 2013.

5. Income Taxes

The effective tax rates (ETR) for the second quarter of 2013 and 2012 were 40.9 percent and 39.4 percent, respectively. The ETR for the 26 weeks ended August 3, 2013 and July 28, 2012 were 39.8 percent and 42.2 percent, respectively. The ETR for the 26 weeks ended August 3, 2013 and July 28, 2012 were higher than the statutory rate due to non-deductible expenses.

Table of Contents**6. Shareholders Equity***Stock Repurchase Plan*

During the 26 weeks ended August 3, 2013 we repurchased 10,003 shares of our common stock at a total cost of \$0.1 million. Repurchases during the 26 weeks ended July 28, 2012 were 390,029 shares of our common stock at a total cost of \$2.5 million.

7. Earnings Per Share

We calculate earnings per share (EPS) using the two-class method. Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are included in the computation of EPS. Our restricted stock awards are considered participating securities because they contain non-forfeitable rights to dividends.

The following table presents the calculation of basic and diluted EPS (shares in thousands):

	13 Weeks Ended August 3, 2013	13 Weeks Ended July 28, 2012	26 Weeks Ended August 3, 2013	26 Weeks Ended July 28, 2012
Basic Earnings Per Common Share:				
Net income	\$ 3,414	\$ 2,306	\$ 18,106	\$ 13,139
Income allocated to participating securities	96	69	464	347
Net income available to common shareholders	\$ 3,318	\$ 2,237	\$ 17,642	\$ 12,792
Basic weighted-average shares outstanding	42,931	42,586	42,872	42,649
Basic earnings per share	\$ 0.08	\$ 0.05	\$ 0.41	\$ 0.30
Diluted Earnings Per Common Share:				
Net income	\$ 3,414	\$ 2,306	\$ 18,106	\$ 13,139
Income allocated to participating securities	95	68	459	346
Net income available to common shareholders	\$ 3,319	\$ 2,238	\$ 17,647	\$ 12,793
Basic weighted-average shares outstanding	42,931	42,586	42,872	42,649
Incremental shares from share-based compensation plans	776	129	613	85
Diluted weighted-average shares outstanding	43,707	42,715	43,485	42,734
Diluted earnings per share	\$ 0.08	\$ 0.05	\$ 0.41	\$ 0.30

Options to acquire shares and performance share awards totaling approximately 0.1 million and 0.7 million shares of common stock that were outstanding during the second quarters of 2013 and 2012, respectively, were not included in the computation of diluted earnings per share. Options excluded were those that had exercise prices greater than the average market price of the common shares such that inclusion would have been anti-dilutive. Performance share awards were not included based on level of performance. For the first 6 months of 2013 and 2012, options to acquire and performance share awards of approximately 0.6 million and 0.8 million shares of common stock, respectively, were not included in the computation of diluted earnings per share for the aforementioned reasons.

8. Commitments and Contingencies

Edgar Filing: STEIN MART INC - Form 10-Q

On July 24, 2013, the Securities and Exchange Commission (the SEC) informed us that it was conducting an investigation of the Company and made a request for voluntary production of documents and information. The request is focused on our recent restatement of prior financial statements and our change in auditors. We are cooperating fully with the SEC in this matter. We are unable to predict what action, if any, might be taken in the future by the SEC as a result of the matters that are the subject of the investigation or what impact, if any, the cost of responding to the investigation might have on our financial condition or results of operations.

Table of Contents

STEIN MART, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used herein, the terms we, our, us, Stein Mart and the Company refer to Stein Mart, Inc. and its wholly-owned subsidiaries.

Forward-Looking Statements

This report contains forward-looking statements which are subject to certain risks, uncertainties or assumptions and may be affected by certain factors, including but not limited to the matters discussed in Item 1A. Risk Factors of our Form 10-K for the fiscal year ended February 2, 2013. Wherever used, the words plan, expect, anticipate, believe, estimate and similar expressions identify forward-looking statements. Should one or more of these risks, uncertainties or other factors materialize, or should underlying assumptions prove incorrect, actual results, performance or achievements may vary materially from any future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements are based on beliefs and assumptions of our management and on information currently available to such management. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to publicly update or revise our forward-looking statements in light of new information or future events. Undue reliance should not be placed on such forward-looking statements, which are based on current expectations. Forward-looking statements are not guarantees of performance.

Overview

Stein Mart is a national retailer offering the fashion merchandise, service and presentation of a better department or specialty store at prices competitive with off-price retail chains. Our focused assortment of merchandise features current-season moderate to better fashion apparel for women and men, as well as accessories, shoes and home fashions.

Financial Overview for the 13 and 26 weeks ended August 3, 2013

Net sales were \$291.0 million for the 13 weeks ended August 3, 2013, an increase from \$280.4 million for the 13 weeks ended July 28, 2012, and \$612.3 million for the 26 weeks ended August 3, 2013, an increase from \$590.1 million for the 26 weeks ended July 28, 2012.

Comparable store sales for the 13 weeks ended August 3, 2013 increased 6.4 percent compared to the 13 weeks ended July 28, 2012, and for the 26 weeks ended August 3, 2013 increased 3.6 percent compared to the 26 weeks ended July 28, 2012.

Net income was \$3.4 million or \$0.08 per diluted share for the 13 weeks ended August 3, 2013, compared to net income of \$2.3 million or \$0.05 per diluted share for the 13 weeks ended July 28, 2012.

Net income was \$18.1 million or \$0.41 per diluted share for the 26 weeks ended August 3, 2013 compared to net income of \$13.1 million or \$0.30 per diluted share for the 26 weeks ended July 28, 2012.

The effective tax rate was 40.9 percent for the 13 weeks ended August 3, 2013, compared to 39.4 percent for the 13 weeks ended July 28, 2012 and 39.8 percent for the 26 weeks ended August 3, 2013, compared to 42.2 percent for the 26 weeks ended July 28, 2012.

Cash and cash equivalents as of August 3, 2013 was \$48.1 million compared to \$67.2 million as of February 2, 2013 and \$94.1 million as of July 28, 2012. The lower cash balance reflects payment of a special dividend of \$43.8 million at the end of 2012 and a quarterly dividend of \$2.2 million during the second quarter of 2013. We had no direct borrowings on our revolving credit agreement as of August 3, 2013, February 2, 2013 and July 28, 2012.

Stores

Edgar Filing: STEIN MART INC - Form 10-Q

There were 262 stores open as of August 3, 2013 and 263 stores open as of July 28, 2012.

	13 Weeks Ended August 3, 2013	13 Weeks Ended July 28, 2012	26 Weeks Ended August 3, 2013	26 Weeks Ended July 28, 2012
Stores at beginning of period	262	263	263	262
Stores opened during the period				2
Stores closed during the period			(1)	(1)
Stores at the end of period	262	263	262	263

Table of Contents

Results of Operations

The following table sets forth the Condensed Consolidated Statements of Income expressed as a percentage of our net sales:

	13 Weeks Ended August 3, 2013	13 Weeks Ended July 28, 2012	26 Weeks Ended August 3, 2013	26 Weeks Ended July 28, 2012
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of merchandise sold	72.4%	73.7%	70.9%	71.9%
Gross profit	27.6%	26.3%	29.1%	28.1%
Selling, general and administrative expenses	25.6%	25.0%	24.2%	24.3%
Income from operations	2.0%	1.3%	4.9%	3.8%
Interest expense, net	0.0%	0.0%	0.0%	0.0%
Income before income taxes	2.0%	1.3%	4.9%	3.8%
Income tax expense	0.8%	0.5%	1.9%	1.6%
Net income	1.2%	0.8%	3.0%	2.2%

Net Sales. The following table compares net sales for the 13 and 26 weeks ended August 3, 2013 to the 13 and 26 weeks ended July 28, 2012 (dollar amounts in thousands):

	13 Weeks Ended August 3, 2013	13 Weeks Ended July 28, 2012	Increase	26 Weeks Ended August 3, 2013	26 Weeks Ended July 28, 2012	Increase
Net sales	\$ 290,969	\$ 280,372	\$ 10,597	\$ 612,333	\$ 590,080	\$ 22,253
Sales percent increase:						
Total net sales			3.8%			3.8%
Comparable store sales			6.4%			3.6%

For the 13 and 26 weeks ended August 3, 2013, the comparable store sales increase was driven by an increase in average unit retail and a smaller increase in average units per transaction, partially offset by a decrease in the number of transactions. Comparable store sales reflects stores open throughout the period and prior fiscal year and excludes leased department commissions. Comparable store sales has been adjusted for the one-week shift caused by the 53 week year in 2012.

We believe our customers responded positively to our spring merchandise assortment. An expanded color palette, an increased assortment of designer and national brands throughout the store, and our home department continue to drive sales.

Gross Profit. The following table compares gross profit for the 13 and 26 weeks ended August 3, 2013 to the 13 and 26 weeks ended July 28, 2012 (dollar amounts in thousands):

	13 Weeks Ended August 3, 2013	13 Weeks Ended July 28, 2012	Increase	26 Weeks Ended August 3, 2013	26 Weeks Ended July 28, 2012	Increase
Gross profit	\$ 80,316	\$ 73,819	\$ 6,497	\$ 178,261	\$ 165,683	\$ 12,578
Percentage of net sales	27.6%	26.3%	1.3%	29.1%	28.1%	1.0%

Edgar Filing: STEIN MART INC - Form 10-Q

For the 13 and 26 weeks ended August 3, 2013, the increases in the gross profit rates for both the quarter and year to date periods were primarily the result of lower markdowns, slightly higher markup and slightly lower occupancy costs as a percentage of sales due to leverage on higher sales. These increases in the gross profit rate were slightly offset by increased allocated buying and distribution costs.

Table of Contents

Selling, General and Administrative Expenses (SG&A). The following table compares SG&A expenses for the 13 and 26 weeks ended August 3, 2013 to the 13 and 26 weeks ended July 28, 2012 (dollar amounts in thousands):

	13 Weeks Ended August 3, 2013	13 Weeks Ended July 28, 2012	Increase	26 Weeks Ended August 3, 2013	26 Weeks Ended July 28, 2012	Increase/ (Decrease)
Selling, general and administrative expenses	\$ 74,473	\$ 69,968	\$ 4,505	\$ 148,036	\$ 142,875	\$ 5,161
Percentage of net sales	25.6%	25.0%	0.6%	24.2%	24.3%	(0.1)%

For the 13 weeks ended August 3, 2013, SG&A expenses increased primarily due to \$2.1 million decrease in breakage income on unused gift cards and merchandise return cards, \$1.6 million increase in store expenses and \$1.5 million increase in depreciation expense, partially offset by \$0.4 million decrease in corporate expenses and \$0.3 million increase in credit card program income.

For the 26 weeks ended August 3, 2013, SG&A expenses increased primarily due to \$3.1 million increase in depreciation expense, \$2.2 million decrease in breakage income on unused gift cards and merchandise return cards and \$1.5 million increase in store expenses, partially offset by \$0.9 million decrease in corporate expenses and \$0.8 million increase in credit card program income.

The decrease in breakage income on unused gift cards and merchandise return cards was primarily the result of an update in our breakage assumptions during the second quarter of 2012. Depreciation expense increased as a result of investments in capital expenditures. Store expenses increased primarily due to higher incentive expense and compensation increases. Corporate expenses decreased primarily due to lower healthcare costs resulting from favorable claims experience, partially offset by higher incentive expense and compensation increases.

Income Taxes. The following table compares income tax expense for the 13 and 26 weeks ended August 3, 2013 to the 13 and 26 weeks ended July 28, 2012 (dollar amounts in thousands):

	13 Weeks Ended August 3, 2013	13 Weeks Ended July 28, 2012	Increase	26 Weeks Ended August 3, 2013	26 Weeks Ended July 28, 2012	Increase/ (Decrease)
Income tax expense	\$ 2,362	\$ 1,502	\$ 860	\$ 11,991	\$ 9,580	\$ 2,411
Effective tax rate	40.9%	39.4%	1.5%	39.8%	42.2%	(2.4)%

For the 26 weeks ended August 3, 2013 and July 28, 2012, the effective tax rates were higher than the statutory rate due to the impact of non-deductible expenses.

Liquidity and Capital Resources

Our primary source of liquidity is the sale of merchandise inventories. Capital requirements and working capital needs are funded through a combination of internally generated funds, available cash, credit terms from vendors and a \$100 million revolving credit facility with Wells Fargo Bank, N.A. Working capital is needed to support store inventories and capital investments for system improvements, new store openings and to maintain existing stores. Historically, our working capital needs are lowest in the first quarter and highest at the end of the third quarter and beginning of the fourth quarter as we build inventories for the holiday selling season. As of August 3, 2013, we had cash and cash equivalents of \$48.1 million and no direct borrowings under our revolving credit facility.

Net cash provided by operating activities was \$2.7 million for the 26 weeks ended August 3, 2013 compared to \$25.6 million for the 26 weeks ended July 28, 2012. Cash provided by operating activities decreased primarily due to changes in working capital, partially offset by an increase in operating income. Cash provided by operating activities for the 26 weeks ended July 28, 2012 includes an income tax refund of approximately \$6.6 million.

Net cash used in investing activities was \$19.0 million for the 26 weeks ended August 3, 2013 compared to \$20.6 million for the 26 weeks ended July 28, 2012. Capital expenditures relate to information systems hardware and software and to new and existing store improvements. Expenditures in 2012 were higher due to greater investment in our new merchandise information system.

Edgar Filing: STEIN MART INC - Form 10-Q

Net cash used in financing activities was \$2.8 million for the 26 weeks ended August 3, 2013 compared to \$4.9 million for the 26 weeks ended July 28, 2012. During the 26 weeks ended August 3, 2013 we had payments on capital leases of \$2.2 million, a cash dividend paid of \$2.2 million, and receipts from stock option exercises of \$1.5 million. During the 26 weeks ended July 28, 2012, we repurchased shares of common stock for \$2.5 million and had payments on capital leases of \$2.9 million.

Recent Accounting Pronouncement

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*. ASU No. 2013-02 requires presentation of reclassification adjustments from each component of accumulated other comprehensive income either in a single note or parenthetically on the face of the financial statements, for those amounts required to be reclassified into net income in their entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety in the same reporting period, cross-reference to other disclosures is required. We adopted this guidance in the first quarter of 2013. The adoption of this guidance did not have a material impact on our financial statements or disclosures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our exposure to certain market risk, see Quantitative and Qualitative Disclosures About Market Risk in Part II, Item 7A of our Form 10-K for the year ended February 2, 2013. There were no material changes to our market risk during the quarter ended August 3, 2013.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this report.

Based on the evaluation discussed above, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this report due to the material weaknesses identified in the Company s internal control over financial reporting described below.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company s annual or interim financial statements will not be prevented or detected on a timely basis. Based on this definition, management has concluded that the material weaknesses noted below existed in the Company s internal control over financial reporting.

The following material weaknesses were identified in 2012 and still existed as of August 3, 2013.

Inventory Markdowns: We did not maintain effective internal controls over inventory markdowns that impacted the valuation and accuracy of the accounting for and disclosures of Inventory and Cost of merchandise sold. Specifically, we did not design effective controls for the finance department to monitor and evaluate the appropriate accounting for markdowns. Additionally, our finance and merchandising departments did not communicate effectively so that the finance department could develop appropriate accounting policies relative to markdowns. Because the Company values inventories at the lower of average cost or market on a first-in, first-out basis using the retail inventory method of accounting, the characterization of markdowns as either permanent or promotional has a direct impact on the calculation of ending inventory value and thus cost of merchandise sold. More specifically, inventory is reduced by permanent markdowns for all on-hand units at the time the markdown is taken but is not reduced by promotional markdowns until the units are sold. These material weaknesses resulted in the misstatement of our Inventory and Cost of merchandise sold in 2012 and prior years.

Leasehold improvement costs: We did not maintain effective internal controls over leasehold improvements that impacted the presentation and disclosure and accuracy of the accounting for and disclosures of Prepaid expenses and other current assets, Property and equipment, net, Other assets, Other liabilities, Cost of merchandise sold and Selling, general & administrative expenses. Specifically, we did not design effective controls for financial management to adequately validate the assertions made by real estate operations management regarding the future value of leasehold improvements made by the Company and consequently did not record tenant improvement allowances (TIA) provided by landlords for our stores in accordance with accounting standards. TIA provided as leasehold incentives to us was thus improperly netted against property and equipment instead of being accounted for as a deferred rent credit. This material weakness resulted in the misstatement of our Prepaid expenses and other current assets, Property and equipment, net, Other assets, Other liabilities, Cost of merchandise sold and Selling, general & administrative expenses in 2012 and prior years.

Edgar Filing: STEIN MART INC - Form 10-Q

Compensated absences (paid vacation): We did not maintain effective internal controls over the establishment of compensated absences (paid vacation) accruals that impacted accuracy, completeness and valuation of the accounting for and disclosures of Accrued expenses and other current liabilities and Selling, general and administrative expenses. Specifically, we did not design effective controls for financial management to effectively communicate with human resources personnel to fully understand the Company's vacation policy. The Company's vacation policy is an earn in one year, take in the next policy whereby at the end of any year, the policy leaves associates with a full year of earned, but untaken vacation. In the past, the policy was incorrectly interpreted by financial management to be an earn and take in the same year policy; thus the Company had historically not recorded a vacation accrual. This material weakness resulted in the misstatement of our Accrued expenses and other current liabilities and Selling, general and administrative expenses in 2012 and prior years.

Table of Contents

Indirect overhead cost capitalization: We did not maintain effective internal controls over indirect overhead cost capitalization that impacted the valuation and accuracy of the accounting for and disclosures of Inventory and Cost of merchandise sold. Specifically, we did not design effective controls to calculate the indirect cost capitalization adjustment in interim periods. Although we have a control in place to evaluate the key assumptions and the resulting calculation of the indirect cost capitalization adjustment on an annual basis, we did not conduct an analysis at interim period ends. This material weakness resulted in the misstatement of our Inventory and Cost of merchandise sold in interim periods in 2012 and prior years.

Software assets amortization periods and retirements: We did not maintain effective internal controls over the appropriate amortization periods and the timing of retirements of software assets that impacted the accuracy, completeness, presentation and disclosure of the accounting for and disclosures of Prepaid expenses and other current assets, Property and equipment, net, and Selling, general and administrative expenses. Specifically, we did not design effective controls for information technology personnel to effectively communicate the nature of certain software expenditures to the finance department resulting in the amortization of software costs over an improper period. Additionally, we did not design effective controls for financial management to effectively communicate with information technology personnel to timely identify and remove retired software assets from the accounting records. These material weaknesses resulted in the misstatement of our Prepaid expenses and other current assets, Property and equipment, net, and Selling, general and administrative expenses in 2012 and prior years.

The material weaknesses set forth above have caused us to conclude that we had a material weakness in our control environment related to the level of information and communication between the finance department and other departmental functions being insufficient in preventing and detecting material misstatements to the Company's financial statements in 2012 and prior years. This material weakness contributed to the above material weaknesses.

The following additional material weakness was identified in the third quarter of 2011 and still existed as of August 3, 2013:

Information technology communication: We did not maintain effective internal controls over information technology communication that impacted the accuracy and valuation of the accounting for and disclosures of Cost of merchandise sold and Inventory. Specifically, we did not design effective controls for our IT department to effectively communicate system incidents to the appropriate personnel. We determined that IT operations personnel followed protocols for issue resolution; however, because of the uniqueness and potential impacts of certain incidents, further escalation to the finance organization should have occurred. IT personnel did not notify the finance organization that historical records had been removed to free up system capacity and that certain transactions had been reprocessed. This prevented accounting personnel from identifying an error in the Perpetual System unit balances and analyzing the potential impact related to permanent markdowns on a timely basis. This material weakness resulted in an adjustment in the third quarter of 2011 to Cost of merchandise sold and Inventory by not recording all permanent markdowns actually taken.

The above material weaknesses could result in further misstatement of the financial statements or disclosures that would result in a material misstatement to the annual or interim consolidated financial statements that would not be prevented or detected.

Remediation Efforts to Address Material Weaknesses

Our management has discussed the material weaknesses described above with our Audit Committee and external auditors. To remediate the material weaknesses we have implemented or are implementing a number of measures, including those listed below.

Identified in 2012:

Inventory Markdowns: We implemented or are implementing the following activities in 2013 to remediate the markdown material weaknesses noted above: 1) Merchandising and financial management are updating the existing policies and procedures to reflect the agreed upon characteristics of markdowns as promotional or permanent; 2) At quarter end, financial management reviews markdown activity to determine if all items have been recorded in accordance with markdown policies; 3) At quarter end, financial management meets with merchandising management to review the seasonal inventory levels. Based on this analysis they assess comparability and appropriateness of permanent markdowns and related markdown levels; 4) Financial management reviews promotional markdowns in detail to determine whether pricing actions before and after quarter end indicate situations where markdowns should be more appropriately identified as permanent; and 5) Financial management approves changes, if any, in seasonal merchandise mark out-of-stock dates.

Leasehold improvement costs: We implemented the following activities in 2013 to remediate the leasehold accounting material weakness noted above: 1) The existing policy and procedures related to leases have been updated to reflect the proper accounting treatment of

Table of Contents

lease terms and financial management will review the terms of all new leases that contain TIA in accordance with the new policy to determine that leasehold improvements and deferred rent credits are correctly recorded; 2) The finance department meets with real estate management annually to review the lease accounting policy and validate the underlying assertions made by the real estate department upon which the policy is predicated; and 3) We implemented a software application that in addition to streamlining our processes for tracking and recording leases will facilitate communication between finance and our real estate department.

Compensated absences (paid vacation): We implemented the following activities in 2013 to remediate the compensated absences (paid vacation) material weakness noted above: The accounting policy for recording accrued vacation has been updated by the finance department to reflect the proper accounting treatment of compensated absences (paid vacation) in accordance with the Company's vacation policy and changes to the Company's vacation policy will require approval by the finance department. Additionally, financial management reviews and approves the vacation accrual on a quarterly basis and determines that the accrual calculation is consistent with the Company's vacation policy.

Indirect overhead cost capitalization: We implemented the following activities in 2013 to remediate the indirect cost capitalization material weakness noted above: The accounting policy for recording the indirect cost capitalization adjustment has been changed to include quarterly review of the indirect overhead rate assumptions and preparation of the resulting inventory adjustment on a quarterly basis. Additionally, financial management reviews and approves the indirect cost capitalization adjustment on a quarterly basis.

Software assets amortization periods and retirements: In the fourth quarter of 2012, we implemented the following activities to remediate the software assets amortization periods and retirements material weaknesses noted above: Financial management reviews software asset additions with IT personnel and approves the software asset amortization period and capitalization prior to recording in the fixed asset subledger. For retirements, we added procedures for IT personnel and financial management to review the software assets listing to identify assets no longer in use on an annual basis.

Identified in the third quarter of 2011:

Information technology communication: We implemented the following activities to remediate the information technology material weakness noted above: 1) In the first quarter of 2012, we added procedures to regularly review systematic schedule changes that have been temporarily placed on hold; 2) In the first quarter of 2012, we monitored the capacity issue on our legacy inventory system on a daily basis until we replaced the system in May 2012; and 3) In the fourth quarter of 2012, we implemented procedures to ensure formal communication and documentation with finance and other department heads related to issue resolution.

In addition to the remediation efforts set forth above, beginning in the fourth quarter of 2012 we re-evaluated the composition and structure of our finance organization and made several changes including replacing associates in several key positions, modifying associate responsibilities, adding resources and realigning reporting assignments to strengthen the skills and capabilities of the organization to improve the level of information and communication between departmental functions. Additionally, we implemented a quarterly sub-certification process whereby all members of upper management and certain other management review our filings and confirm their responsibility for, among other things, the effectiveness of key controls in their functional areas and that they are unaware of inaccuracies or omissions in our financial statements.

The Company believes the remediation measures will strengthen the Company's internal control over financial reporting and remediate the material weaknesses identified. However, as we are still assessing the design and operating effectiveness of these measures, the identified material weaknesses have not been fully remediated as of August 3, 2013. We will continue to monitor the effectiveness of these remediation measures and will make any changes and take such other actions that we deem appropriate.

Changes in Internal Control Over Financial Reporting

As discussed above, there were changes in the Company's internal control over financial reporting (as that term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PART II - OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

On July 24, 2013, the Securities and Exchange Commission (the "SEC") informed the Company that it was conducting an investigation of the Company and made a request for voluntary production of documents and information. Based upon the request, the Company believes the investigation is focused on the Company's recent restatement of prior financial statements and the Company's change in auditors. The Company is cooperating fully with the SEC in this matter.

In addition, we are involved in various routine legal proceedings incidental to the conduct of our business. Management, based upon the advice of outside legal counsel, does not believe that any of these legal proceedings will have a material adverse effect on our financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

The risks described in Item 1A, Risk Factors, in our Annual Report on Form 10-K for the fiscal year ended February 2, 2013, could materially and adversely affect our business, financial condition and results of operations. In addition to the risks described in Item 1A, Risk Factors, in our Annual Report on Form 10-K for the fiscal year ended February 2, 2013, the following additional risk factor could materially and adversely affect our business, financial condition and results of operation.

The SEC Investigation could materially and adversely affect our business, our financial condition and results of operations. On July 24, 2013, the Securities and Exchange Commission (the "SEC") informed the Company that it was conducting an investigation of the Company and made a request for voluntary production of documents and information. Based upon the request, the Company believes the investigation is focused on the Company's recent restatement of prior financial statements and the Company's change in auditors. The Company is cooperating fully with the SEC in this matter. The Company is unable to predict what action, if any, might be taken in the future by the SEC as a result of the matters that are the subject of the investigation or what impact, if any, the cost of responding to the investigation might have on the Company's financial condition or results of operations. The Company has not established any provision for losses in respect of this matter. A protracted investigation could impose substantial costs and distractions, regardless of its outcome. There can be no assurance that any final resolution of this investigation will not have a material and adverse effect on the Company's financial condition and results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information regarding repurchases of our common stock during the quarter ended August 3, 2013:

Period	ISSUER PURCHASES OF EQUITY SECURITIES		Total number of shares purchased as part of publicly announced plans or programs (1)	Maximum number of shares that may yet be purchased under the plans or programs (1)
	Total number of shares purchased	Average price paid per share		
May 5, 2013 - June 1, 2013	6,670	\$ 8.89	6,670	883,939
June 2, 2013 - July 6, 2013	2,065	\$ 13.23	2,065	881,874
July 7, 2013 - August 3, 2013	944	\$ 14.71	944	880,930
Total	9,679	\$ 10.38	9,679	880,930

Edgar Filing: STEIN MART INC - Form 10-Q

- (1) Our Open Market Repurchase Program is conducted pursuant to authorizations made from time to time by our Board of Directors. For the quarter ended August 3, 2013, all shares purchased related to taxes due on the vesting of employee stock awards.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES
