ANNUAL MEETING OF STOCKHOLDERS

Purpose of the annual meeting

At the annual meeting, we will submit the following proposals to our stockholders:

Proposal One: To elect two Class III directors to a three-year term.

Proposal Two: To consider a non-binding say on pay vote regarding the compensation of our named executive officers.

Our Board of Directors does not intend to present to the annual meeting any business other than the proposals described in this proxy statement. Our Board of Directors was not aware, a reasonable time before mailing this proxy statement to stockholders, of any other business that may be properly presented for action at the annual meeting. If any other business should come before the annual meeting, the persons present will have discretionary authority to vote the shares they own or represent by proxy in accordance with their judgment, to the extent authorized by applicable regulations.

Record date

Our Board of Directors has fixed the close of business on Tuesday, April 22, 2014, as the record date for the annual meeting. Only stockholders of record as of the close of business on that date are entitled to receive notice of the annual meeting, and to vote at, the annual meeting. At the close of business on the record date, there were 15,859,352 shares of our common stock outstanding. Each share of common stock outstanding on the record date will be entitled to cast one vote.

Methods of voting

The shares represented by your properly signed proxy card will be voted in accordance with your directions. If you do not specify a choice with respect to a proposal for which our Board of Directors has made a recommendation, the shares covered by your signed proxy card will be voted as recommended in this proxy statement. We encourage you to vote on all matters to be considered.

Voting by mail:

By signing and returning the proxy card in the enclosed envelope, you are enabling the individual named on the proxy card (known as a proxy) to vote your shares at the meeting in the manner you indicate. We encourage you to sign and return the proxy card even if you plan to attend the meeting. In this way, your shares will be voted even if you are unable to attend the meeting. If you received more than one proxy card, it is an indication that your shares are held in multiple accounts. Please sign and return all proxy cards to ensure that all of your shares are voted.

Voting by telephone:

To vote by telephone, please follow the instructions included on your proxy card. If you vote by telephone, you do not need to complete and mail your proxy card.

Voting on the Internet:

To vote on the Internet, please follow the instructions included on your proxy card. If you vote on the Internet, you do not need to complete and mail your proxy card.

Table of Contents

Voting in person at the meeting:

If you plan to attend the meeting and vote in person, we will provide you with a ballot at the meeting. If your shares are registered directly in your name, you are considered the stockholder of record and you have the right to vote in person at the meeting. If your shares are held in the name of your broker or other nominee, you are considered the beneficial owner of the shares held in street name. If you wish to vote shares held in street name at the meeting, you will need to bring with you to the meeting a legal proxy from your broker or other nominee authorizing you to vote your shares.

Quorum requirement

Our by-laws provide that a quorum consists of a majority of the shares of common stock outstanding and entitled to vote at the annual meeting. Shares of common stock represented by a properly signed and returned proxy will be treated as present at the annual meeting for purposes of determining the existence of a quorum at the annual meeting. Abstentions and broker non-votes are counted as present or represented for purposes of determining the existence of a quorum at the annual meeting. A non-vote occurs when a broker or nominee holding shares for a beneficial owner returns a proxy but does not vote on a proposal because the broker or nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

Votes required; tabulation of votes

A majority of the votes properly cast at the annual meeting will be necessary to elect each Class III director to a three-year term (proposal one), to approve the advisory vote on the approval of our executive compensation (proposal two) and to approve any other matter to be acted upon at the annual meeting. For more information on majority voting, please see Board of Directors and Committees of the Board Corporate Governance Majority Voting. Proposal Two is a non-binding proposal.

Abstentions and broker non-votes will not be included in calculating the number of votes cast on any proposal. As a result, abstentions and broker non-votes will not have any effect on the outcome of the vote on any proposal.

Our transfer agent, Computershare Trust Company, N.A., will separately tabulate the votes on each matter presented to the stockholders at the annual meeting.

Solicitation of proxies

We are soliciting proxies on behalf of our Board of Directors. No compensation will be paid by any person in connection with our solicitation of proxies. We will reimburse brokers, banks and other nominees for the out-of-pocket expenses and other reasonable clerical expenses they incur in obtaining instructions from beneficial owners of our common stock. In addition to our solicitation by mail, our directors, officers and employees may make special solicitations of proxies personally or by telephone, facsimile, courier or e-mail. We expect that the expense of any special solicitation will be nominal. We will pay all expenses incurred in connection with this solicitation.

Revocability of proxy

You may revoke your proxy at any time before it is voted at the meeting. In order to revoke your proxy, you must either:

sign and return another proxy card with a later date;

provide written notice of the revocation of your proxy to our secretary;

if you voted by Internet or telephone, by following the instructions for revocation provided by Internet or telephone; or

attend the meeting and vote in person.

PROPOSAL ONE: ELECTION OF DIRECTORS

Proposal One concerns the election of two Class III directors for three-year terms.

Our Board of Directors currently consists of six directors and is divided into three classes. We refer to these classes as Class I, Class II and Class III. The term of one class of directors expires each year at the annual meeting of stockholders. Each director also continues to serve as a director until his or her successor is duly elected and qualified. This year, the term of the Class III directors is expiring.

Our Nominating and Corporate Governance Committee has nominated Robert W.B. Kits van Heyningen and Bruce J. Ryan to serve as Class III directors for a three-year term. Our stockholders last elected Messrs. Robert W.B. Kits van Heyningen and Bruce J. Ryan at our annual meeting of stockholders in May 2011, and their current terms will expire at the 2014 annual meeting.

Proxies will not be voted at the 2014 annual meeting for more than two candidates.

Messrs. Robert W.B. Kits van Heyningen and Bruce J. Ryan have agreed to serve if elected, and we have no reason to believe that they will be unable to serve. If either of them is unable or declines to serve as a director at the time of the annual meeting, proxies will be voted for another nominee that our Board of Directors will designate at that time.

Our Board recently amended our by-laws to provide for majority voting in uncontested elections for members of the Board of Directors. Accordingly, a majority of the votes properly cast at the annual meeting will be necessary to elect each Class III director to a three-year term. In accordance with our recently adopted director resignation policy, each of Messrs. Robert W.B. Kits van Heyningen and Bruce J. Ryan has submitted his resignation in advance of the annual meeting, and each resignation will only become effective if (a) the candidate fails to receive a majority of the votes properly cast on his re-election and (b) our Board accepts his resignation. For more information about majority voting and our director resignation policy, please see Board of Directors and Committees of the Board Corporate Governance Majority Voting.

Our Board of Directors recommends that you vote FOR the election of Messrs. Robert W.B. Kits van Heyningen and Bruce J. Ryan as our Class III directors.

PROPOSAL TWO: ADVISORY VOTE ON EXECUTIVE COMPENSATION

Proposal Two is an advisory vote on our executive compensation for 2013.

Under the Dodd-Frank Wall Street Reform and Consumer Protection Act enacted in July 2010, or the Dodd-Frank Act, and Section 14A of the Securities Exchange Act of 1934, as amended, or the Exchange Act, our stockholders are entitled to vote at the annual meeting to approve the compensation of our named executive officers. This proposal is commonly referred to as a *say on pay* proposal.

At our 2011 annual meeting of stockholders, our stockholders voted in favor of holding future *say on pay* votes once every three years, and in accordance with the will of our stockholders our board subsequently determined to submit *say on pay* proposals to our stockholders once every three years. Approximately 100% of the votes cast at the 2011 annual meeting on the non-binding proposal to approve our executive compensation for 2010 were voted in favor of approval. Partially as a result of this overwhelmingly positive stockholder feedback, our Compensation Committee has adopted compensation packages having similar basic structures in subsequent years.

As described in our Compensation Discussion and Analysis, the executive compensation tables and the accompanying narrative disclosure set forth in this proxy statement, we design our executive compensation program to provide an appropriate mix of fixed and variable pay, to balance short-term operational performance with long-term stockholder value, and to encourage executive recruitment and retention. Our 2013 executive compensation program provided for (a) fixed compensation in the form of salaries designed to provide a competitive baseline of compensation, (b) short-term variable compensation in the form of a cash-based incentive compensation program designed to reward achievement of our financial and business goals for 2013 and (c) long-term variable compensation in the form of equity awards designed to reward our executives primarily through increases in the price of our common stock. We believe that our executive compensation program appropriately implemented our pay-for-performance philosophy and gave appropriate incentives to our named executive officers to increase stockholder value.

Highlights of our executive compensation program include the following:

Base Salary. Base salaries of our named executive officers provide fixed compensation to reward individual value that the executive brings to us through experience and past and expected future contributions to our success while factoring in our specific needs and the base salaries of executives with comparable responsibilities at similar organizations. With the assistance of Radford Surveys and Consulting, an Aon Consulting Company, or Radford, the Compensation Committee reviewed the base salaries of our named executive officers against those of a peer group of companies and other survey data. We refer to the peer group data and the survey data collectively as the survey data. For 2013, the base salaries of our named executive officers were at or below the 50th percentile of the survey data, the base salaries of two named executive officers were at the 50th percentile of the survey data, and the base salaries of our three other named executive officers ranged from 3% to 10% below the 50th percentile of the survey data. We believe that aligning the base salaries of our named executive officers with appropriate benchmarks is especially critical to a competitive compensation program, as other elements of our compensation are determined as a percentage of base salary.

Annual Cash-based Incentive Compensation. In 2013, we utilized a cash-based incentive compensation plan that tied executive pay to the achievement of our annual business and financial goals and certain individual performance goals set at the beginning of the year. This incentive program awarded compensation based on the degree to which our actual financial results met the financial goals of our internal business plan and the degree to which the executives met their individual performance goals. In 2013, the Compensation Committee approved two formulas for calculating our cash-based incentive compensation. For named executive officers responsible for sales, 25% of each executive's target incentive compensation was based on the degree of achievement of our corporate performance goals

Table of Contents

and 75% was based on the degree of achievement of budgeted revenue targets. For all other named executive officers, 75% of each executive's target incentive compensation was based on the degree of achievement of our corporate performance goals and 25% was based on the degree of achievement of individual performance goals. The Compensation Committee gave greater weight in the formula to corporate performance (including revenue targets for sales executives) because it wished to align our executives' interest with strong corporate performance, accountability for budgeted revenue targets and to promote cooperation among them. The target incentive compensation (as a percentage of base salary) selected for the named executive officers was positioned five percentage points below the percentage of base salary at the 50th percentile of the survey data, with the exception of the two sales executives, which were positioned 25 percentage points below the percentage of base salary at the 50th percentile of the survey data. The corporate performance goal was based on the degree of achievement of our goals for revenue and earnings before interest, taxes, depreciation, amortization and equity-based compensation expenses, or Adjusted EBITDA. The Compensation Committee selected revenue and Adjusted EBITDA as performance measures because it believed that revenue and Adjusted EBITDA are strong operating measurements of how well or poorly we performed from a financial standpoint. In 2013, we did not meet all of our target goals for corporate performance, and the Compensation Committee awarded only 50% of the portion of the named executive officer's incentive compensation based on achievement of our corporate performance goals. Accordingly, cash-based incentive compensation actually awarded to the named executive officers for 2013 performance ranged from approximately 61% to 63% of the respective target compensation for the non-sales executives and were 79% and 94% of the respective target compensation for the two sales executives. The sales executives received a higher percentage of their target cash-based incentive compensation because the formulas for their incentive compensation gave greater weight to revenue targets, where our performance was closer to or over our targets.

Long-Term Equity Incentives. Equity incentives are designed to reward the achievement of long-term growth in the price of our common stock. The equity grants to our named executive officers in 2013 consisted of restricted stock awards, with four year vesting periods designed to encourage the executives to focus on the long-term performance of our stock price. The Compensation Committee believed that granting equity incentives was the best method of motivating the named executive officers to manage our operations in a manner that is consistent with the long-term interests of our stockholders. The fair values of the equity awards granted to the named executive officers in 2013 ranged from approximately 42% below to 16% above the 50th percentile of the survey data.

Total Direct Compensation. The total direct compensation for our CEO and CFO was approximately 21% and 32% below the 50th percentile of the Radford survey data, respectively, and the average total direct compensation for our other named executive officers was approximately 5% below the 50th percentile of the Radford survey data.

Pay Practices. We do not use certain executive pay practices that stockholder advocates consider to be problematic. For example, we do not provide extensive perquisites to our named executive officers, we do not have long-term employment agreements, we do not have guaranteed severance programs, and we do not provide any tax gross-ups. We have no guaranteed salary increases, no guaranteed bonuses and no cash-based incentive compensation programs that are not tied to our performance.

Consultant Independence. Our Compensation Committee's independent consultant is retained directly by the Compensation Committee, provides no other services to us, and has provided the Committee with a written attestation of its independence from management.

The Compensation Discussion and Analysis beginning on page 11 of this proxy statement further describes our compensation program for our named executive officers and the decisions made by the Compensation Committee with respect to 2013.

Stockholders are being asked to vote on the following resolution:

RESOLVED: That the stockholders of KVH Industries, Inc. hereby approve, on an advisory basis, the compensation of the corporation's named executive officers, as described in the Compensation Discussion and Analysis section, the executive compensation tables and the accompanying narrative disclosure set forth in the corporation's proxy statement for the 2014 annual meeting of stockholders.

Approval of this proposal requires the affirmative vote of the holders of a majority of the votes cast on the proposal at the annual meeting.

As an advisory vote, this proposal is not binding. The outcome of this advisory vote will not determine or overrule any decision by our directors or officers, create or imply any change to the fiduciary duties of our directors or officers or create or imply any additional fiduciary duties for our directors or officers. However, our Compensation Committee and Board of Directors value the opinions expressed by our stockholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for named executive officers.

Our Board of Directors unanimously recommends that you vote FOR the approval of the compensation of our named executive officers, as described in the Compensation Discussion and Analysis section, the executive compensation tables and the accompanying narrative disclosure set forth in this proxy statement.

COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS

Compensation Discussion and Analysis

Overview of Executive Compensation Program

Our executive compensation program is overseen and administered by the Compensation Committee of our Board of Directors, which is comprised entirely of independent directors as determined in accordance with various NASDAQ Stock Market, United States Securities and Exchange Commission, or SEC, and Internal Revenue Code rules. None of its members is a current or former employee of ours. It is the goal of the Compensation Committee to create policies and practices that provide total compensation for executive officers that is fair, reasonable and competitive. The Compensation Committee operates under a written charter adopted by our Board.

All principal elements of compensation paid to our executive officers are subject to approval by the Compensation Committee. Specifically, our Board has delegated authority to the Compensation Committee to determine and approve (1) our compensation philosophy, including evaluating risk management and incentives that create risk, (2) annual base salaries, cash-based incentive compensation and equity-based compensation applicable to our executive officers, and (3) equity-based compensation applicable to non-executive employees.

There are no material differences in the compensation policies, objectives or program elements and administration with respect to our named executive officers, except that the compensation for our President, Chief Executive Officer, and Chairman of the Board of Directors (CEO) is determined exclusively by the Compensation Committee, while the compensation of our other named executive officers is determined by the Compensation Committee based on similar criteria, but also takes into account the recommendations of our CEO.

Executive Compensation Philosophy and Objectives

Our executive compensation program is designed to attract, retain and motivate highly qualified executives and align their interests with the interests of our stockholders. The ultimate goal of our executive compensation program is to increase stockholder value by providing executives with appropriate incentives to achieve our business goals. In recent years, our executive compensation program has had three principal elements: annual base salary, annual cash-based incentive compensation, and longer-term equity-based compensation.

Our executive compensation objectives are to:

offer fair and competitive compensation that attracts and retains superior executive talent;

directly and substantially link rewards to measurable corporate performance;

align the interests of executive officers with those of stockholders by providing executive officers with an equity stake in our company;

optimize the cost to us and value to executives; and

promote long-term career commitments that support a long-standing internal culture of loyalty and dedication to our interests. The three principal elements of our executive compensation program seek to provide the following rewards:

Edgar Filing: KVH INDUSTRIES INC \DE\ - Form DEF 14A

Base salaries provide fixed compensation to reward individual value that an executive officer brings to us through experience and past and expected future contributions to our success, while factoring in our specific needs and comparable responsibilities at similar organizations.

Annual cash-based incentive compensation is designed to reward the achievement of our annual business and financial goals and certain individual performance goals set at the beginning of each year.

Table of Contents

This incentive program generally awards compensation based on the degree to which our actual financial results meet the financial goals of our internal business plan and the degree to which the executives meet their individual performance goals.

Equity grants are designed to reward the achievement of long-term growth in our stock price. In 2013, the Board elected to grant shares of restricted stock as the preferable form of equity compensation for our named executive officers to align with the trends among our peer group. Restricted stock awards were granted with no payment of cash consideration. The restricted stock awards vest in four equal annual installments, the first of which vested on March 11, 2014, the first anniversary of the grant date.

For a company of our size, we believe that the use of these executive compensation elements strengthens our ability to attract and retain highly qualified executives. We believe this combination of programs provides an appropriate mix of fixed and variable pay, balances short-term operational performance with long-term stockholder value, and encourages executive recruitment and retention.

Our equity incentive program is a key retention tool and our vehicle for offering long-term incentives. Equity incentives with four-year vesting periods are granted annually to executive officers to attract, motivate and retain these executives. We grant equity incentives to executive officers to encourage executive officers to work with a long-term view in the interest of stockholders and to reward the achievement of long-term growth in our stock price. We believe that granting equity incentives is the best method of motivating the executive officers to perform in a manner that is consistent with the long-term interests of our stockholders.

The Compensation Committee also noted that, at our 2011 annual meeting of stockholders, the stockholders approved the compensation of our named executive officers for 2010 by a favorable vote of approximately 100% of the votes cast. Partially as a result of this overwhelmingly positive stockholder feedback, our Compensation Committee has in subsequent years continued to employ compensation packages having a similar basic structure to the compensation package used in 2010.

Compensation Decision-making Process

Our executives are compensated principally through a combination of base salary, cash-based incentive compensation paid in the first quarter of the following year and an annual equity grant. In addition, we may also grant an initial equity award to new executive officers when they commence employment. From time to time, we may offer a signing or retention bonus to attract a new executive officer.

The base salary and equity award for each executive, together with the overall cash-based incentive compensation plan for all executives, are generally established within the first quarter of each fiscal year at meetings of the Compensation Committee held for this purpose. These meetings generally follow one or more informal presentations or discussions of our financial performance, including achievement of performance targets, for the prior fiscal year. In deciding the compensation to be awarded to the executive officers other than the CEO for the current year and cash-based incentive compensation earned during the prior fiscal year, the Compensation Committee typically receives recommendations from the CEO. The CEO and the members of the Compensation Committee discuss the CEO's recommendations. In deciding the compensation to be awarded to the CEO for the current year and the cash-based incentive compensation earned by the CEO during the prior year, the Compensation Committee typically receives a written self-assessment from the CEO and recommendations from the Chairman of the Compensation Committee. The members of the Compensation Committee then discuss the Chairman's recommendations. The CEO is not present at the time of these deliberations. The Compensation Committee may accept or adjust any recommendations and makes all final compensation decisions.

Table of Contents

Our cash-based incentive compensation program comprises both corporate performance goals and individual performance goals. Under this program, our Compensation Committee approved two formulas for 2013: one formula for named executive officers responsible for sales and one formula for all other named executive officers. For named executive officers responsible for sales, one-fourth of each executive's target incentive compensation was based on the degree of achievement of our corporate performance goals for 2013 and three-fourths was based on the degree of achievement of budgeted revenue targets for 2013. For all other named executive officers, three-fourths of each executive's target incentive compensation was based on the degree of achievement of our corporate performance goals for 2013 and one-fourth was based on the degree of achievement of individual performance goals for 2013. The corporate performance portion of the cash-based incentive compensation program is generally based on a formula approved by the Compensation Committee at the start of each year, but the Compensation Committee has the discretion to award incentive compensation that differs from the formula-based amounts. The individual performance goals for the named executive officers other than the CEO are determined by the CEO, with input from the CFO and each executive at the beginning of the year. The individual performance goals for the CEO are determined by the Compensation Committee, with input from the CEO.

Compensation Consultant

Since 2005, the Compensation Committee has engaged Radford as its independent compensation consultant. The Compensation Committee has engaged Radford to advise on matters related to our executive compensation program and to assist in creating an effective and competitive executive compensation program. A comprehensive Radford study was provided in January 2013 to determine the 2013 recommendations. Neither Radford nor any of its affiliates provided any services to us in 2013 other than Radford's services to the Compensation Committee.

Radford assisted the Compensation Committee by providing comparative market data on compensation practices and programs based on an analysis of executive compensation survey data. Radford also provided guidance on industry best practices. Radford advised the Compensation Committee in (1) determining base salaries for executives, (2) determining the targets for total cash-based incentive compensation as a percentage of base salary, and (3) designing and determining individual equity grants for the 2013 long-term incentive plan for executives.

Radford's recommendations with respect to base salary, cash-based incentive compensation and equity-based compensation were taken into consideration by the Compensation Committee when setting base salaries and making changes to the cash-based incentive compensation and equity-based compensation components of the executive compensation program in 2013.

Table of Contents***Peer Group, Survey Data and Compensation Targets***

With the assistance of Radford, the Compensation Committee compared our executive officers' compensation to that of a peer group of companies. For 2013, the peer group consisted of 21 public high technology companies which were selected by Radford in 2012 and approved by the Compensation Committee based on their respective businesses, revenues, market capitalization and the number of employees. In addition to the peer group, Radford reviewed data from the Radford Global Technology Survey, which includes approximately 127 high technology companies with revenues of less than \$200 million with the median revenue for the group being approximately \$107 million as well as the Radford Global Sales Survey, which included approximately 104 companies. The peer group, the Radford Global Technology Survey and the Radford Global Sales Survey data had effective dates of December 2012, November 2012, and November 2012, respectively, and were blended equally, where possible, and then the cash compensation data was increased by a 3.0% annual factor based on the results of Radford's Q4 2012 Trends Report specifically targeting high technology companies to update the previous cash compensation data results to a common effective date of February 1, 2013. The 21 companies included in our peer group were as follows:

AeroVironment
 Anadigics
 Anaren
 Astronics
 CalAmp
 Communications Systems
 Dialogic
 Digi
 DSP Group
 Glocomm Systems
 Intevac
 Mercury Computer Systems
 Meru Networks
 Numerex
 PC Tel
 Sonus Networks
 Sycamore Networks
 Symmetricom
 Telular
 Westell Technologies
 Zhone Technologies

Compensation Benchmarking Relative to Market

Radford also provided the Compensation Committee with a comparison of the compensation of our executives to the compensation of executives with similar titles and level of experience at the companies included in the aforementioned peer group. The assessment did not consider executive tenure, skill or performance. The Radford data reviewed by the Compensation Committee included market data taken from the aforementioned peer group and the survey data, which was combined and weighted equally and then gathered at the 25th, 50th, and 75th percentiles for (1) base salaries, (2) bonus, (3) total cash compensation (base salary plus bonus), (4) long-term incentives (number of shares of stock options granted and long-term incentive value of equity-based compensation), (5) stock option equivalents as a percentage of total outstanding shares of the company, and (6) total direct compensation (total cash compensation and long-term incentives).

Historically, the Compensation Committee has generally targeted approximately the median base salary level (50th percentile) of the base salaries of executives in the survey data used by the Compensation Committee as the basis for comparison for that year. Adjustments to median base salary levels were made based on comparisons to the survey data and evaluation of other factors, such as executive tenure, skill and performance relative to expectations for average performance for comparable executives, which are not reflected in the survey data. These factors reflect the value each individual brings to us through experience, education and training, our specific needs, and the individual's past and expected future contributions to our success. Radford advised the Compensation Committee that base salary levels are considered to be competitive if they fall within 10% of the desired market position. For 2013, base salaries for our named executive officers ranged from approximately 3% to 10% below the 50th percentile of the survey data, with the exception of two individuals whose base salaries were at the 50th

percentile of the survey data for their positions.

Table of Contents

We believe that benchmarking and aligning base salaries is especially critical to a competitive compensation program. Other elements of our compensation are affected by changes in base salary. For example, our annual cash-based incentive compensation is targeted and paid out as a percentage of base salary.

Our compensation program allows executives to participate in an annual cash-based incentive compensation program. Historically, the payouts for our executives for achieving the expected level of corporate performance for the year (as a percentage of base salary) have been targeted to pay out at approximately the median (50th percentile) of payouts for executives in the survey data used by the Compensation Committee as the basis for comparison for that year. As a percentage of base salary, targets for cash-based incentive compensation to the named executive officers for 2013 were five percentage points below the percentage of base salary at the 50th percentile of the Radford survey data, with the exception of two sales executives whose targets were positioned 25 percentage points below the percentage of base salary at the 50th percentile of the survey data.

Our compensation program allows executives to receive equity incentive awards under our equity incentive plans. Our primary goal is to create long-term value for stockholders, and accordingly the Compensation Committee believes that equity incentive awards provide an additional incentive to executive officers to work to maximize stockholder value. Typically, as was the case in 2013, all named executive officers other than the CEO and CFO receive the same quantity of equity awards, as their roles and responsibilities have been valued at an equivalent level. The Compensation Committee believed that granting equity incentives in this manner was the best method of motivating our executive team to perform in a manner consistent with the long-term interests of our stockholders. The CEO and CFO typically receive larger equity awards because they have greater responsibility for achieving our long-term goals. The fair values of the equity awards granted to the named executive officers in 2013 ranged from approximately 42% below to 16% above the 50th percentile of the survey data.

Radford advised the Compensation Committee that Radford considers target total direct compensation levels to be competitive if they fall within 30% of the desired market position. When taking into consideration the base salary, annual cash-based incentive compensation and the equity grants made during 2013, the total direct compensation for Martin A. Kits van Heyningen, our CEO and Chairman of the Board, was approximately 21% below the 50th percentile of the Radford survey data, and the total direct compensation for Peter Rendall, our CFO, was approximately 32% below the 50th percentile of the Radford survey data. The average total direct compensation for our other named executive officers was approximately 5% below the 50th percentile of the Radford survey data. The compensation for our CEO and CFO fell below this benchmark primarily because 75% of their cash-based incentive compensation was tied to achievement of our corporate performance goals, which was below the budgeted targets for 2013. Our CFO's compensation for 2013 also fell short of the benchmark because his 2013 equity grant was reduced in light of the substantial equity grant that he received in October 2012 in connection with the commencement of his employment.

Base Salary

The Compensation Committee defines base salary as the annualized regular cash compensation of an employee, excluding cash bonus awards, corporate contributions to employee benefit plans, and other compensation not designated as salary. As described above, base salaries are set for our named executive officers at a meeting of our Compensation Committee which is held for that purpose in the first quarter of the year.

In establishing base salaries for our named executive officers for 2013, the Compensation Committee took into account the value each individual brings to us through experience, education and training, our specific needs, and the individual's past and expected future contributions to our success, as well as our overall corporate performance. For 2013, the average adjustment to salaries for our named executive officers was an increase equal to 5% of base salary for 2012, with the largest increase equal to 10% of base salary for 2012. These adjustments were effective January 1, 2013.

Annual Cash-based Incentive Compensation

Our management incentive plan is designed to reward our executives for the achievement of annual goals, principally, achievement of corporate financial goals, and, secondarily, achievement of individual goals. It is our philosophy that the executives be rewarded for their performance as a team. We believe this is important to align our executive officers' interests with strong corporate performance and to promote cooperation among them. The executives also are rewarded for achieving individual goals set at the beginning of each year.

Formula for Cash-based Incentive Compensation

Edgar Filing: KVH INDUSTRIES INC \DE\ - Form DEF 14A

In March 2013, the Compensation Committee adopted the management incentive plan for 2013. The management incentive plan for 2013 was adopted based on our historical financial performance, planned strategic initiatives and the existing economic environment. Annual cash-based incentive compensation opportunities as a percentage of base salary were targeted at 90% of base salary for the CEO and 50% of base salary for the other named executive officers, with the exception of one individual that was targeted at 40% of base salary. The Compensation Committee approved two formulas for calculating the cash-based incentive compensation with respect to the executives, one formula for the executive responsible for sales and one formula for all other executives. Under the incentive compensation formula for each sales executive for 2013, 75% of the sales executives' target incentive compensation was tied to achievement of revenue targets. The threshold for payment was achievement of 85% of the individual's revenue target, in which case 60% of this portion of the bonus would have been earned. The maximum bonus payment for the individual's achievement of revenue

Table of Contents

targets would have been awarded if he had exceeded his individual revenue target by 25%, in which case the payment would have been equal to 200% of this portion of the target bonus. The remaining 25% of the target incentive compensation for each sales executive was tied to corporate performance. Corporate performance was measured by the achievement of our goals for (i) revenue and (ii) earnings before interest, taxes, depreciation, amortization, and equity-based compensation expenses, or Adjusted EBITDA. The threshold for payment of the portion of the bonus for corporate performance for the sales executives was our achievement of 100% of the corporate revenue target and 85% of the Adjusted EBITDA target, and at this level of achievement, 50% of the target bonus for corporate performance would have been earned. If we did not meet either of these thresholds, the payment for the corporate performance portion of the bonus would have been zero. The bonus payment for corporate performance would have been 100% for the sales executives if we had achieved 100% of our targets for both revenue and Adjusted EBITDA. The maximum bonus payment for corporate performance would have been awarded if we had exceeded the targets for revenue and Adjusted EBITDA by 15% and 25%, respectively, in which case the payment would have been 233% of the target bonus for corporate performance.

The Compensation Committee approved a formula for determining the bonus of all other named executive officers based 75% on corporate performance goals and 25% on individual performance goals. The portion of the bonus plan based on achieving corporate performance goals used the same formula described above for the sales executives. The portion of the bonus based on individual performance for such executives was based solely on the discretion of the Compensation Committee.

Incentive Compensation Awarded

The Compensation Committee awarded incentive compensation for fiscal 2013 based on its assessment of the degree of achievement of corporate and individual performance goals for 2013. Although we slightly exceeded the threshold performance targets for payment of the incentive compensation for corporate performance, the Compensation Committee, taking into account the fact that the acquisition of Headland Media Limited (now known as KVH Media Group) contributed to the achievement of corporate performance goals that pre-dated the acquisition, used its discretion and awarded only 50% of the corporate performance portion of the incentive compensation award, which was equal to the amount payable for achieving only the threshold performance targets. For Brent C. Bruun and Daniel R. Conway, our sales executives, the portion of the incentive compensation award based on the degree of achievement of their respective revenue targets was paid on 89% and 109% achievement, respectively. Achievement of individual performance goals for the remaining named executive officers ranged from 95% to 100%. Accordingly, cash-based incentive compensation actually awarded to the named executive officers for 2013 performance ranged from approximately 61% to 63% of the respective target compensation for the non-sales executives and were 79% and 94% of the respective target compensation for the two sales executives. The sales executives received a higher percentage of their target cash-based incentive compensation because the formulas for their incentive compensation gave greater weight to revenue targets, where our performance was closer to or over their targets.

Equity Incentive Program

The equity grant to our CEO in 2013 was based upon the Radford survey data for grants to other chief executive officers, the CEO's prior performance, the value of equity awards previously granted and unvested and the importance of retaining the CEO's services. These factors, as well as the CEO's achievements as listed above in determining his 2013 base salary, were taken into consideration when determining the number of shares covered by the equity grant. The equity grant to our CEO in 2013 constituted the largest portion of his total compensation for that year. The equity grant to our CFO in 2013 was based on guidance provided by Radford and was somewhat reduced in light of the substantial initial grant that he received in October 2012 upon his appointment as our CFO. When granting equity incentives to our other named executive officers, a team approach was utilized. In 2013, consistent with the approach used in recent years, all named executive officers other than the CEO and CFO received the same number of equity awards, as their roles and responsibilities were valued at an equivalent level. The Compensation Committee believed that granting equity incentives in this

Table of Contents

manner was the best method of motivating our executive team to perform in a manner consistent with the long-term interests of our stockholders. The CEO received a larger award because he has greater responsibility for achieving our long-term goals.

Timing of Equity Grants

We typically grant equity incentives to executives in the first quarter of each fiscal year, usually in conjunction with the annual review of the individual and collective performance of our executive officers.

We grant restricted stock awards or stock options to new hires on a case-by-case basis. In addition, we typically grant restricted stock awards or stock options to certain non-executive employees each year.

Exercise Price and Vesting of Equity Awards

Restricted stock awards are granted with no payment of cash consideration. In 2013, restricted stock awards were granted to our named executive officers to vest in four equal annual installments, the first of which vested on March 11, 2014, the first anniversary of the grant date.

Other Compensation and Perquisites

Our named executive officers are eligible to receive the same health and welfare benefits that are available to other U.S. employees and a contribution to their benefit premium that is the same percentage as provided to other U.S. employees. These benefit programs include health and dental insurance, life insurance, supplemental life insurance, and long-term disability insurance, and certain other benefits. In general, our employees pay between 30% and 34% of the health insurance premium due.

We maintain an Employee Stock Purchase Plan and a tax-qualified 401(k) plan, which provides for broad-based employee participation. Under the 401(k) plan, all of our U.S. employees, including executive officers, are eligible to receive matching contributions from us. We presently match 50% of all employee 401(k) plan contributions up to 4% of salary, with a maximum annual corporate match per employee of \$3,000. We do not provide defined benefit pension plans or defined contribution retirement plans to our executives or other U.S. employees other than the 401(k) plan.

We provided automobile and/or housing allowances to four named executive officers in 2013. Martin A. Kits van Heyningen's automobile allowance was \$10,580 and Robert J. Balog's was \$6,000. Brent C. Bruun received \$15,000 in 2013 for automobile and housing allowances. Peter A. Rendall received \$12,500 in 2013 for a housing allowance, which ended in October 2013. No other named executive officers received any other perquisites or other personal benefits or property from us during 2013.

Equity Ownership by Executives

We do not currently have a formal stock ownership requirement for executives or any related hedging policies. However, stock ownership by executives is encouraged on a voluntary basis. Each of our executive officers holds both vested and unvested stock options and restricted stock awards to the extent shown in the table entitled "Outstanding Equity Awards as of December 31, 2013." The Compensation Committee reviews the vested and unvested stock options and restricted stock awards held by the executives each year.

Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code limits our ability to deduct annual compensation in excess of \$1,000,000 that is paid to each of our CEO and our three most highly paid executive officers (other than the CEO and the CFO), unless that compensation is performance-based within the meaning of Section 162(m) and the

Table of Contents

regulations promulgated there under. The restricted stock awards that we grant under the 2006 Plan do not qualify as performance-based compensation. We believe that all of our stock options do so qualify and therefore are not subject to the deduction limitation of Section 162(m). The salary and bonuses paid to our executive officers are not exempt from this deduction limit. Accordingly, we may be unable to deduct some of the amounts that may be recognized as ordinary income by our executive officers.

We consider tax deductibility in the design and administration of our executive officer compensation plans and programs. However, we believe that it is in the best interests of our stockholders that we retain flexibility and discretion to make compensation awards, whether or not deductible, when such awards are consistent with our strategic goals.

Rules under generally accepted accounting principles determine the manner in which we account for grants of equity-based compensation to our employees in our consolidated financial statements. Our accounting policies for equity-based compensation are further discussed in note 7 of our audited consolidated financial statements in our Form 10-K for the year ended December 31, 2013, as filed with the SEC on March 17, 2014.

(1) Reflects annual holiday bonus earned and paid in 2013, 2012 and 2011.

(2) Amounts shown do not reflect compensation actually received by the named executive officer. Instead, the amounts shown represent the aggregate grant date fair value, computed using the closing price of our common stock on the date of grant in accordance with Accounting Standards Codification 718, *Compensation - Stock Compensation* (ASC 718), of restricted stock awards granted during each year, excluding the impact of estimated forfeitures related to service-based vesting conditions. Also included in this amount is the aggregate grant date fair value of performance-based restricted stock awards, which is based on the probable outcome of the performance conditions related to these awards as of the grant date, excluding the impact of estimated forfeitures related to service-based vesting conditions. There were no performance-based restricted stock awards granted during 2013 or 2012. The probable outcome of the 2011 performance-based awards was estimated at 100%, and the awards paid out at 100% of the target, as the performance criterion was determined to have been met by the Compensation Committee. Therefore, stock-based compensation associated with the aggregate grant date fair value of the performance-based awards was recorded in 2011.

- (3) Amounts shown do not reflect compensation actually received by the named executive officer. Instead, the amounts shown represent the aggregate grant date fair value, computed using the Black-Scholes option pricing model in accordance with ASC 718, of options granted during each year excluding the impact of estimated forfeitures related to service-based vesting conditions. The assumptions made to determine the value of these awards are set forth in Note 7 of our Consolidated Financial Statements included in our 2013 annual report on Form 10-K, as filed with the SEC on March 17, 2014.
- (4) For 2013, the table reflects amounts that were earned under our management incentive plan for 2013 performance and that were determined and paid in March 2014. For 2012, the table reflects amounts that were earned under our management incentive plan for 2012 performance and that were determined and paid in March 2013. For 2011, the table reflects amounts that were earned under our management incentive plan for 2011 performance and that were determined in February 2012 and paid in March 2012.
- (5) Reflects the value of 401(k) matching contributions (\$3,000 maximum) and auto and housing allowances. See Compensation Discussion and Analysis Other Compensation and Perquisites for more information on these allowances. Named executive officers did not receive any other perquisites, personal benefits or property.
- (6) Peter A. Rendall was appointed our CFO on October 1, 2012. His salary, bonus and non-equity incentive plan compensation for 2012 were paid in proportion to his period of service in that year.

- (2) The amounts shown in these columns represent the executives' annual incentive opportunity under the management incentive plan, which has both corporate performance goals and individual performance goals. There is no threshold for achievement of individual performance goals; the thresholds for achievement of corporate performance goals and sales performance goals vary by goal. All target and maximum amounts reflect executive achievement of 100% of individual performance goals. See Compensation Discussion and Analysis Annual Cash-based Incentive Compensation for more information regarding this plan.
- (3) Represents the grant of restricted stock awards under the 2006 Stock Incentive Plan in 2013, excluding the impact of estimated forfeitures related to service-based vesting conditions. The restricted stock awards were received without payment of cash consideration. The restricted stock awards vest in four equal annual installments. The equity grant to our CFO in 2013 was somewhat reduced in light of the substantial initial grant that he received in October 2012 upon his appointment as our CFO. See Compensation Discussion and Analysis Equity Incentive Program for more information regarding these grants.
- (4) Reflects the grant date fair value of restricted stock awards granted to our named executive officers computed using the market price on the date of grant, in accordance with ASC 718, excluding the impact of estimated forfeitures related to service-based vesting conditions. (1) The options vest and become exercisable in equal installments on the first four anniversaries of the grant date.

(2) Each option was granted five years prior to the option expiration date.

(3) Market value is calculated by multiplying the number of restricted stock awards that have not vested by \$13.03, which was the closing price of our common stock on the NASDAQ Global Select Market on December 31, 2013.

- (4) The restricted stock awards vest in equal installments on the first four anniversaries of the grant date.
- (5) The restricted stock awards vest in four equal annual installments, the first of which vested on March 12, 2011.

Table of Contents**EQUITY COMPENSATION PLANS**

The following table provides information as of December 31, 2013 regarding shares authorized for issuance under our equity compensation plans, including individual compensation arrangements.

The equity compensation plans approved by our stockholders are our Amended and Restated 2006 Stock Incentive Plan, Amended and Restated 2003 Incentive and Nonqualified Stock Option Plan, and Amended and Restated 1996 Employee Stock Purchase Plan. Under the 2006 Plan, each share issued under awards other than options will reduce the number of shares reserved for issuance by two shares (but will reduce the maximum annual number of shares that may be granted to a participant only by one share), and shares issued under options will reduce the shares reserved for issuance on a share-for-share basis. The following table does not reflect grants from January 1, 2014 through April 22, 2014 of 225,380 restricted stock awards with a weighted-average grant-date fair value of \$13.78 per share. No nonqualified stock options were issued from January 1, 2014 through April 22, 2014. The restricted stock awards and stock options reflected in the table were granted on the following terms as determined by the Compensation Committee: (a) in the case of restricted stock awards, the grantee received the restricted stock award without payment of cash consideration and (b) in the case of stock options, the exercise price per share of the stock option was equal to the closing price of our common stock on the NASDAQ Global Select Market on the date of the grant, (c) the total number of shares subject to the award will vest annually in four equal installments, the first of which vests on the first anniversary of the grant date. As of December 31, 2013, we did not have any equity compensation plans not approved by our stockholders.

The weighted-average grant-date fair value of these shares of restricted stock was \$13.61. Any restricted stock award forfeited would be available for issuance under the Amended and Restated 2006 Stock Incentive Plan at a ratio of two available shares for each restricted stock award forfeited.

⁽²⁾ Each share issued under awards other than options will reduce the number of shares reserved for issuance by two shares (but will reduce the maximum annual number of shares that may be granted to a participant only by one share), and shares issued under options will reduce the shares reserved for issuance on a share-for-share basis. SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers and directors and persons who beneficially own more than ten percent of our common stock to file reports of ownership and changes in ownership with the SEC. SEC regulations require executive officers, directors and greater-than-ten-percent stockholders to furnish us with copies of all Section 16(a) forms they file.

Based solely upon a review of Forms 3, 4, 5, and amendments thereto furnished to us with respect to 2013, we believe that all Section 16(a) filing requirements applicable to our executive officers, directors and greater-than-ten-percent stockholders were fulfilled in a timely manner, with two exceptions. Robert W.B. Kits van Heyningen filed one Form 4 two days late with respect to ten sale transactions on September 16, 2013 in fulfillment of a single sales order. Daniel R. Conway filed one Form 4 two days late with respect to one transaction.

BOARD OF DIRECTORS AND COMMITTEES OF THE BOARD

Director independence

A majority of our directors are independent directors under the rules of the NASDAQ Stock Market. Our Board of Directors has determined that our independent directors are Messrs. Ain, Honey, Ryan and Trimble.

Board meetings

During 2013, our Board of Directors met seven times. Each incumbent director attended at least 75% of the total number of meetings held by the Board and the committees of the Board on which he served during 2013. To the extent reasonably practicable, directors are expected to attend Board meetings, meetings of committees on which they serve, and our annual meeting of stockholders. Last year, two of the six individuals then serving as directors attended the annual meeting.

Board leadership structure

Martin A. Kits van Heyningen currently serves as our President, Chief Executive Officer and Chairman of the Board. The Board has determined that, at present, combining the positions of Chairman of the Board and

Table of Contents

Chief Executive Officer serves the best interests of KVH and our stockholders. The Board believes that the CEO's extensive knowledge of our businesses, expertise and leadership skills make him a more effective Chairman than an independent director.

The functions of the Board are carried out by the full Board, and when delegated, by the Board committees. The Board has delegated significant authority to the Audit, Compensation and Nominating and Corporate Governance Committees, each of which is comprised entirely of independent directors. The independent directors typically meet in an executive session at regularly scheduled Board meetings and additional executive sessions may be convened at any time at the request of a director.

The independent directors have designated Mr. Ain to serve as our Lead Independent Director. The Lead Independent Director will, among other functions, preside at all meetings of the Board at which the Chairman is not present and will serve as a liaison between the CEO and the independent directors. The Lead Independent Director also presides at executive sessions of the independent directors.

Risk management

Our Board of Directors administers its risk oversight role both directly and through its Committee structure. The Board consists of only six directors, four of whom are independent directors and two of whom are members of senior management. Of the four independent directors, three serve on each of the three principal Board committees, which makes them knowledgeable about the aspects of our business under the jurisdiction of those committees. The Board's Audit Committee meets frequently during the year and discusses with management, our CFO and our independent auditor: (a) current business trends affecting us; (b) the major risk exposures that we face; (c) the steps management has taken to monitor and control these risks; and (d) the adequacy of internal controls that could significantly affect our financial statements. The Board also receives regular reports from senior management about business plans and opportunities, as well as the challenges and risks associated with implementing those plans and taking advantage of new opportunities.

Board committees

Our Board of Directors has three standing committees: the Audit Committee, the Nominating and Corporate Governance Committee and the Compensation Committee. Each member of the Audit Committee, the Nominating and Corporate Governance Committee and the Compensation Committee meets the independence requirements of the NASDAQ Stock Market for membership on the committees on which he serves. The Audit Committee, the Nominating and Corporate Governance Committee and the Compensation Committee each have the authority to retain independent advisors and consultants. We pay the fees and expenses of these advisors. Our Board of Directors has adopted a written charter for each of the Audit Committee, the Nominating and Corporate Governance Committee and the Compensation Committee. We have made each of these charters available through the Investors Relations page of our website at <http://kvh.com/ircoe>.

Audit Committee

As of December 31, 2013, our Audit Committee was comprised of Messrs. Ain, Honey, Ryan, and Trimble. Our Audit Committee provides the opportunity for direct contact between our independent registered public accounting firm and members of the Board of Directors; the auditors report directly to the Committee. The Committee assists the Board in overseeing the integrity of our financial statements, our compliance with legal and regulatory requirements, our independent registered public accounting firm's qualifications and independence, and the performance of our independent registered public accounting firm. The Committee is directly responsible for appointing, compensating, evaluating and, when necessary, terminating our independent registered public accounting firm. Our Audit Committee has established procedures for the treatment of complaints regarding accounting, internal accounting controls or auditing matters, including procedures for the confidential and anonymous submission by our employees of concerns regarding questionable accounting,

internal accounting controls or auditing matters. Our Board has determined that Mr. Ryan is an Audit Committee financial expert under the rules of the SEC. Our Audit Committee met ten times during 2013. For additional information regarding the Audit Committee, please see Report of the Audit Committee.

Nominating and Corporate Governance Committee

As of December 31, 2013, our Nominating and Corporate Governance Committee was comprised of Messrs. Ain, Honey, Ryan and Trimble. Our Nominating and Corporate Governance Committee's responsibilities include providing recommendations to our Board of Directors regarding nominees for director and membership on the committees of our Board. An additional function of the committee is to develop corporate governance practices to recommend to our Board and to assist our Board in complying with those practices. Our Nominating and Corporate Governance Committee met once during 2013.

Compensation Committee

As of December 31, 2013, our Compensation Committee was comprised of Messrs. Ain, Ryan and Trimble. The Compensation Committee's responsibilities include providing recommendations to our Board regarding the compensation levels of directors, reviewing and approving the compensation levels of executive officers, providing recommendations to our Board regarding compensation programs, administering our incentive-compensation plans and equity-based plans, authorizing grants under our stock option and incentive plans, and authorizing other equity compensation arrangements. Our Compensation Committee met three times during 2013. For more information regarding the authority of the Compensation Committee, the extent of delegation to the Compensation Committee, our processes and procedures for determining executive compensation and the role of executive officers and compensation consultants in determining or recommending the amount or form of compensation for directors and executive officers, please see Compensation Discussion and Analysis.

Compensation Committee interlocks and insider participation

During 2013, the members of our Compensation Committee were Messrs. Ain, Ryan and Trimble. No member of our Compensation Committee has ever been an officer or employee of ours or any of our subsidiaries. None of our executive officers serves as a director or member of the compensation committee of another entity in a case where an executive officer of such other entity serves as a director of ours or a member of our Compensation Committee.

Director candidates and selection processes

The process followed by our Nominating and Corporate Governance Committee to identify and evaluate director candidates includes, as necessary, requests to our Board members and others for recommendations, meetings from time to time to evaluate biographical information and background materials relating to potential candidates, and interviews of selected candidates by members of the Committee and other members of our Board. The Committee may also solicit the opinions of third parties with whom the potential candidate has had a business relationship. Once the committee is satisfied that it has collected sufficient information on which to base a judgment, the committee votes on the candidate or candidates under consideration.

In evaluating the qualifications of any candidate for director, the Committee considers, among other factors, the candidate's depth of business experience, reputation for personal integrity, understanding of financial matters, familiarity with the periodic financial reporting process, reputation, degree of independence from management, possible conflicts of interest and willingness and ability to serve. The Committee also considers whether the candidate will add diversity to the Board, including the degree to which the candidate's skills, experience and background complement or duplicate those of our existing directors and the long-term interests of our stockholders. In the case of incumbent directors whose terms are set to expire, the Committee also gives consideration to each director's prior contributions to the Board. The minimum qualifications that each director

Table of Contents

must possess consist of general familiarity with fundamental financial statements, ten years of relevant business experience, no identified conflicts of interest, no convictions in a criminal proceeding during the five years prior to the date of selection and the willingness to execute and comply with our code of ethics. Although the Committee considers diversity as a factor in assessing any nomination, the Board does not have a formal policy with regard to diversity in identifying director nominees. In selecting candidates to recommend for nomination as a director, the Committee abides by our company-wide non-discrimination policy.

The Committee will consider director candidates recommended by stockholders and use the same process to evaluate candidates regardless of whether the candidates were recommended by stockholders, directors, management or others. The Committee has not adopted any particular method that stockholders must follow to make a recommendation. We suggest that stockholders make recommendations by writing to the Chairman of the Board who will in turn forward the nomination to the Nominating and Corporate Governance Committee, in care of our offices, with sufficient information about the candidate, his or her work experience, his or her qualifications for director, and his or her references as will enable the Committee to evaluate the candidacy properly. We also suggest that stockholders make their recommendations well in advance of the anticipated mailing date of our next proxy statement so as to provide our Nominating and Corporate Governance Committee an adequate opportunity to complete a thorough evaluation of the candidacy, including personal interviews. We remind stockholders of the separate requirements set forth in our by-laws for nominating individuals to serve as directors, which we discuss elsewhere in this proxy statement.

Corporate Governance

Our board believes that our corporate governance practices have been fundamental to our success. We seek to ensure that good governance and responsible business principles and practices are part of our culture and values and the way we do business. To maintain and enhance our corporate governance, the board of directors and the Nominating and Corporate Governance Committee periodically refine our corporate governance policies, procedures and practices. The following are examples of how we worked to achieve these objectives in 2013.

Majority Voting in Uncontested Director Elections. In March 2013, the Board of Directors undertook a review of its corporate governance with a specific focus on changes in the prevailing practices of larger companies toward majority voting in uncontested director elections. After reviewing developments in this area, the Board began the process of adopting a majority voting standard with respect to uncontested director elections and determined that we should replace our plurality voting standard with such a majority voting standard prior to our 2014 annual meeting of stockholders. The Board determined that we should retain plurality voting in contested director elections, where the number of director candidates exceeds the number of available director positions. Our Board implemented the new voting standard through a revision to our by-laws. Our by-laws now require that, in order for a nominee for election to the Board of Directors in an uncontested election to be elected, he or she must receive a majority of the votes properly cast at the meeting. Ballots for uncontested elections, including the elections at the 2014 annual meeting, will allow stockholders to vote FOR or AGAINST each nominee and will also allow stockholders to abstain from voting on any nominee. Abstentions and broker non-votes will have no effect on the outcome of any election for director. Under our by-laws and in accordance with Delaware law, an incumbent director's term extends until his or her successor is duly elected and qualified, or until he or she resigns or is removed from office. Thus, an incumbent director who fails to receive the required vote for re-election at our annual meeting would continue serving as a director (sometimes referred to as a holdover director) until his or her term ends for one of the foregoing reasons. In order to address the situation where an incumbent director receives more votes AGAINST his or her re-election than votes FOR his or her re-election, the Board has adopted a policy to the effect that, in order for an incumbent director in an uncontested election to be nominated for re-election, that director should tender a resignation that would become effective only upon both (i) the failure to obtain the requisite majority vote and (ii) the acceptance of the resignation by the Board of Directors. If an incumbent director were to fail to obtain the requisite majority vote for re-election, the Nominating and Corporate Governance Committee (or another appropriate committee) and the Board would consider the resignation in light of the surrounding circumstances. The policy adopted by the Board states that

Table of Contents

the Board will publicly announce its decision regarding the resignation within 90 days after certification of the results of the applicable annual meeting.

Committee Charters. In August 2013, the Board revised the charters of the Audit, Compensation and Nominating and Corporate Governance Committees to reflect regulatory developments and to implement other practices designed to enhance the functioning of the committees.

Communications with our Board of Directors

Our Board, including all of the independent directors, has established a process for facilitating stockholder communications with our Board. Stockholders wishing to communicate with our Board should send written correspondence to the attention of our corporate secretary, Felise B. Feingold, KVH Industries, Inc., 50 Enterprise Center, Middletown, RI 02842, USA, and should include with the correspondence evidence that the sender of the communication is one of our stockholders. Satisfactory evidence would include, for example, contemporaneous correspondence from a brokerage firm indicating the identity of the stockholder and the number of shares held. Our secretary will forward all mail to each member of our Board of Directors.

Code of ethics

We have adopted a code of ethics that applies to all of our directors, executive officers and employees, including our principal executive officer and principal financial and accounting officer. The code of ethics includes provisions covering compliance with laws and regulations, insider trading practices, conflicts of interest, confidentiality, protection and proper use of our assets, accounting and record keeping, fair competition and fair dealing, business gifts and entertainment, payments to government personnel and the reporting of illegal or unethical behavior. You can obtain a copy of our code of ethics through the Investor Relations page of our website at <http://kvh.com/ircharters>.

Certain relationships and related-party transactions

Pursuant to our Code of Ethics, our executive officers, directors and employees are to avoid conflicts of interest, except with the approval of the Board of Directors. A related-party transaction would be a conflict of interest. Pursuant to its charter, the Audit Committee must review and approve in advance all related-party transactions. In May 2012, our Board adopted a written policy and procedures for the Audit Committee to review and approve transactions involving us and related parties (which includes our directors, director nominees and executive officers and their immediate family members, as well as stockholders known by us to own five percent or more of our common stock and their immediate family members). The policy applies to any transaction in which we are a participant and any related party has a direct or indirect material interest, where the amount involved in the transaction exceeds \$120,000 in a single calendar year, excluding transactions in which standing pre-approval has been given. Pre-approved transactions include:

compensation of directors and executive officers provided that such compensation is approved by the Board of Directors or Compensation Committee or such compensation plan or other arrangement is generally available to full-time employees; and

transactions where the related party's interest arises solely from ownership of our common stock and such interest is proportionate to the interests of stockholders.

The Audit Committee is responsible for reviewing the material facts of all related-party transactions, subject to the exceptions described above. The Audit Committee will either approve or disapprove the entry into the related-party transaction. If advance approval is not feasible, the transaction will be considered and, if the Audit Committee determines it to be appropriate, ratified at the Audit Committee's next regularly scheduled meeting. In determining whether to approve or ratify a transaction with a related party, the Audit Committee will take into account, among other factors that it determines to be appropriate:

whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances;

Table of Contents

the business reasons for the transaction;

whether the transaction would impair the independence of an outside director; and

the extent of the related party's interest in the transaction.

Except as stated below, as of the date of this proxy statement there have been no reportable related-party transactions since January 1, 2013, nor are there any pending related-party transactions.

Kathleen Keating, the spouse of Mr. Martin A. Kits van Heyningen, serves as our senior director of creative and customer experience. For fiscal 2013, total individual compensation for Kathleen Keating, based on total salary, bonus, aggregate grant date fair value of stock option awards granted during the year and all other compensation, as calculated in a manner consistent with our Summary Compensation Table For 2013, was approximately \$167,000.

Hendrik Kits van Heyningen, the son of Mr. Martin A. Kits van Heyningen, worked for us as an engineering intern during the summer of 2013. During this time, total compensation for Hendrik Kits van Heyningen was approximately \$6,000.

Paula Conway, the wife of Mr. Daniel R. Conway, retired as our program manager in November 2013 and since then has served as an engineering program management consultant for us. For fiscal 2013, total individual compensation for Mrs. Conway as our program manager, based on total salary, bonus, aggregate grant date fair value of stock option awards granted during the year and all other compensation, as calculated in a manner consistent with our Summary Compensation Table For 2013, was approximately \$118,000. In 2013, we also paid Mrs. Conway \$4,970 for consulting services.

Mark S. Ain, a director, is a minority owner and advisor to ETS International, a ground transportation service company. In 2013, we paid ETS International \$18,703 for services rendered in 2013. The Audit Committee has determined such services are reasonable, in our best interest and on terms no less favorable than could be obtained from an unrelated third party. In assessing Mr. Ain's independence, our Board of Directors was aware of this information and concluded that it had no impact on his independence as a director.

AUDIT COMMITTEE REPORT ⁽¹⁾

The Board of Directors appointed an Audit Committee to monitor the integrity of our company's consolidated financial statements, its system of internal control over financial reporting and the independence and performance of our independent registered public accounting firm. The Audit Committee also selects our company's independent registered public accounting firm. Our Board of Directors adopted a charter for the Audit Committee in February 2004. The Audit Committee currently consists of four independent directors. Each member of the Audit Committee meets the independence requirements of the NASDAQ Stock Market for membership on the Audit Committee.

Our company's management is responsible for the financial reporting process, including the system of internal control over financial reporting, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. Our company's independent registered public accounting firm is responsible for auditing those consolidated financial statements and auditing the effectiveness of internal control over financial reporting. Our responsibility is to monitor and review these processes. We have relied, without independent verification, on the information provided to us and on the representations made by our company's management and independent registered public accounting firm.

In fulfilling our oversight responsibilities, we discussed with representatives of KPMG LLP, our company's independent registered public accounting firm for 2013, the overall scope and plans for their audit of our company's consolidated financial statements for the year ended December 31, 2013. We met with them, with and without our company's management present, to discuss the results of their audits of our consolidated financial statements and of our company's internal control over financial reporting and to discuss with them the overall quality of our company's financial reporting.

We reviewed and discussed the audited consolidated financial statements for the year ended December 31, 2013 with management and the independent registered public accounting firm.

We discussed with the independent registered public accounting firm the matters required to be discussed by Public Company Accounting Oversight Board (PCAOB) standards, *Communications with Audit Committees*, as amended. In addition, we have discussed with the independent registered public accounting firm its independence from our company and our company's management, including the matters in the written disclosures and letter which we received from the independent registered public accounting firm under applicable requirements of the PCAOB. We also considered whether the independent registered public accounting firm's performance of non-audit services for our company is compatible with the auditors' independence, and concluded that the performance of such non-audit services did not impair the auditors' independence.

Based on our review and these meetings, discussions and reports, and subject to the limitations on our role and responsibilities referred to above and in the Audit Committee charter, we recommended to the Board of Directors that our company's audited consolidated financial statements for the year ended December 31, 2013 be included in our company's annual report on Form 10-K.

STOCKHOLDER PROPOSALS

Stockholder proposals for inclusion in our proxy materials relating to our 2015 annual meeting of stockholders must be received by us at our executive offices no later than December 31, 2014 or, if the date of that meeting is more than 30 calendar days before or after June 11, 2014, a reasonable time before we begin to print and mail our proxy materials with respect to that meeting.
