LG Display Co., Ltd. Form 6-K May 16, 2014 Table of Contents

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 6-K

REPORT OF FOREIGN PRIVATE ISSUER PURSUANT TO RULE 13a-16 OR 15d-16 UNDER THE SECURITIES EXCHANGE ACT OF 1934

For the month of May 2014

LG Display Co., Ltd.

(Translation of Registrant s name into English)

LG Twin Towers, 128 Yeoui-daero, Yeongdeungpo-gu, Seoul 150-721, Republic of Korea

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F x Form 40-F "

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): "

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): "

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submission to furnish a report or other document that the registration foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant s home country), or under the rules of the home country exchange on which the registrant s securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant s security holders, and if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes " No x

QUARTERLY REPORT

(From January 1, 2014 to March 31, 2014)

THIS IS A TRANSLATION OF THE QUARTERLY REPORT ORIGINALLY PREPARED IN KOREAN AND IS IN SUCH FORM AS REQUIRED BY THE KOREAN FINANCIAL SUPERVISORY COMMISSION.

IN THE TRANSLATION PROCESS, SOME PARTS OF THE REPORT WERE REFORMATTED, REARRANGED OR SUMMARIZED AND CERTAIN NUMBERS WERE ROUNDED FOR THE CONVENIENCE OF READERS. REFERENCES TO Q1 , Q2 AND Q3 OF A FISCAL YEAR ARE REFERENCES TO THE THREE-MONTH PERIODS ENDED MARCH 31, JUNE 30 AND SEPTEMBER 30, RESPECTIVELY, OF SUCH FISCAL YEAR.

UNLESS EXPRESSLY STATED OTHERWISE, ALL INFORMATION CONTAINED HEREIN IS PRESENTED ON A CONSOLIDATED BASIS IN ACCORDANCE WITH KOREAN INTERNATIONAL FINANCIAL REPORTING STANDARDS, OR K-IFRS, WHICH DIFFER IN CERTAIN RESPECTS FROM GENERALLY ACCEPTED ACCOUNTING PRINCIPLES IN CERTAIN OTHER COUNTRIES, INCLUDING THE UNITED STATES. K-IFRS ALSO DIFFERS IN CERTAIN RESPECTS FROM THE INTERNATIONAL FINANCIAL REPORTING STANDARDS AS ISSUED BY THE INTERNATIONAL ACCOUNTING STANDARDS BOARD. WE HAVE MADE NO ATTEMPT TO IDENTIFY OR QUANTIFY THE IMPACT OF THESE DIFFERENCES IN THIS DOCUMENT.

1. Company

A. Name and contact information

The name of our company is EL-GI DISPLAY CHUSIK HOESA, which shall be LG Display Co., Ltd. in English.

Our principal executive office is located at LG Twin Towers, 128 Yeoui-daero, Yeongdeungpo-gu, Seoul 150-721, Republic of Korea, and our telephone number is +82-2-3777-1010. Our website address is http://www.lgdisplay.com.

B. Domestic credit rating

Subject instrument	Month of rating	Credit rating (1)	Rating agency (Rating range)
	June 2012		
	October 2012		NICE Information Service Co., Ltd.
	March 2013	AA-	
	June 2013		$(AAA \sim D)$
	October 2013		
	June 2012		
Componeta handa	October 2012	AA-	Korea Investors Service, Inc.
Corporate bonds	June 2013	AA-	Rolea lilvestors Service, file.
	October 2013		(444 D)
	March 2014	AA	(AAA ~ D)
	June 2012		
	March 2013	AA-	Korea Ratings Corporation
	June 2013		$(AAA \sim D)$
	March 2014	AA	

(1) Domestic credit ratings are generally defined to indicate the following:

Subject instrument	Credit rating	Definition
-	AAA	Strongest capacity for timely repayment.
	AA+/AA/AA-	Very strong capacity for timely repayment. This capacity may, nevertheless, be slightly inferior than is the case for the highest rating
		category
	A+/A/A-	Strong capacity for timely repayment. This capacity may, nevertheless, be more vulnerable to adverse changes in circumstances or in economic
	DDD /DDD/DDD	conditions than is the case for higher rating categories.
Corporate bonds	BBB+/BBB/BBB-	Capacity for timely repayment is adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
-	BB+/BB/BB-	Capacity for timely repayment is currently adequate, but that there are some speculative characteristics that make the repayment uncertain over time.

Edgar Filing: LG Display Co., Ltd. - Form 6-K

B+/B/B- Lack of adequate capacity for repayment and speculative characteristics.

Interest payment in time of unfavorable economic conditions is uncertain.

CCC Lack of capacity for even current repayment and high risk of default.

CC Greater uncertainties than higher ratings.

C High credit risk and lack of capacity for timely repayment.

D Insolvency.

4

C. Capitalization

(1) Change in capital stock (as of March 31, 2014)
There were no changes to our issued capital stock during the year reporting period ended March 31, 2014.

- (2) Convertible bonds Not applicable.
 - D. Voting rights (as of March 31, 2014)

(Unit: share)

Description		Number of shares
A. Total number of shares issued:	Common shares	357,815,700
	Preferred shares	
B. Shares without voting rights:	Common shares	
	Preferred shares	
C. Shares subject to restrictions on voting	Common shares	
rights pursuant to our articles of incorporation:	Preferred shares	
D. Shares subject to restrictions on voting	Common shares	
rights pursuant to regulations:	Preferred shares	
E. Shares with restored voting rights:	Common shares	
	Preferred shares	
Total number of issued shares with voting	Common shares	357,815,700
rights $(=A B C D + E)$:		
	Preferred shares	

E. Dividends <u>Dividends for the three most recent fiscal years</u>

Description (unit)	2013	2012	2011
Par value (Won)	5,000	5,000	5,000
Profit (loss) for the period (million Won) (1)	99,672	28,549	(991,032)
Earnings per share (Won) (2)	279	80	(2,770)

Total cash dividend amount for the period (million Won)

Total stock dividend amount for the period (million Won)

Cash dividend payout ratio (%)

Cash dividend yield (%) (3)

Stock dividend yield (%)

Cash dividend per share (Won)

Stock dividend per share (share)

- (1) Profit (loss) for the period based on separate K-IFRS.
- (2) Earnings per share is based on par value of 5,000 per share and is calculated by dividing net income by weighted average number of common stock.
- (3) Cash dividend yield is the percentage that is derived by dividing cash dividend by the arithmetic average of the daily closing prices of our common stock during the one-week period ending two trading days prior to the closing of the register of shareholders for the purpose of determining the shareholders entitled to receive annual dividends.

2. Business

A. Business overview

We were incorporated in February 1985 under the laws of the Republic of Korea. LG Electronics and LG Semicon transferred their respective LCD business to us in 1998, and since then, our business has been focused on the research, development, manufacture and sale of display panels, applying technologies such as TFT-LCD and OLED.

5

As of March 31, 2014, we operated TFT-LCD and OLED production facilities and a research center in Paju, Korea and TFT-LCD production facilities in Gumi, Korea. We have also established subsidiaries in the Americas, Europe and Asia.

As of March 31, 2014, our business consisted of the manufacture and sale of display and display related products utilizing TFT-LCD, OLED and other technologies under a single reporting business segment.

2014 O1 consolidated operating results highlights

(Unit: In billions of Won)

2014 Q1	Display business
Sales Revenue	5,588
Gross Profit	664
Operating Profit (Loss)	94

B. Industry

(1) Industry characteristics and growth potential

TFT-LCD display panels are one of the most widely used type of display panels in flat panel display products, and the entry barriers to manufacture TFT-LCD display panels are relatively high due to the technology and capital intensive nature of the mass manufacturing process that is required to achieve economies of scale, among other factors.

While growth in the market for displays used in notebook computer, monitor and other traditional IT products has stagnated or declined, the market for displays used in tablet and smartphone products in the rapidly evolving IT environment has been growing very quickly. The display market for televisions has shown steady growth mainly due to growing demand from developing countries as well as from consumers in general for larger sized display panels. As for displays used in industrial, automobile and other value added products, we expect to see growth in these markets.

(2) Cyclicality

The display panel business is highly cyclical and sensitive to fluctuations in the general economy. The industry experiences periodic volatility caused by imbalances between supply and demand due to capacity expansion and changing production utilization rates within the industry.

Macroeconomic factors and other causes of business cycles can affect the rate of growth in demand for display panels. Accordingly, if supply exceeds demand, average selling prices of display panels may decrease. Conversely, if growth in demand outpaces growth in supply, average selling prices may increase.

(3) Market conditions

Overall, while there have been some variations in rates of production capacity growth among individual display panel manufacturers, display panel manufacturers have generally slowed their respective rates of production capacity growth since 2011 due to a slowdown in growth of the display panel industry.

Most display panel manufacturers are located in Asia. a. Korea: LG Display, Samsung Display, Hydis Technologies, etc.

6

b. Taiwan: AU Optronics, Innolux, CPT, HannStar, etc.

c. Japan: Japan Display, Sharp, Panasonic LCD, etc.

d. China: BOE, CSOT, etc.

(4) Market shares

Our worldwide market share of large-sized display panels (i.e., panels that are 9 inches or larger) based on revenue is as follows:

	2014 Q1	2013	2012
Panels for Televisions (1)	22.5%	24.7%	25.2%
Panels for Monitors	32.3%	34.0%	32.3%
Panels for Notebook Computers (2)	32.7%	32.3%	32.1%
Panels for Tablet Computers	24.2%	32.0%	40.3%
Total	25.4%	27.8%	28.4%

Source: DisplaySearch

- (1) Includes panels for public displays.
- (2) Includes panels for netbooks.

(5) Competitiveness

Our ability to compete successfully depends on factors both within and outside our control, including product pricing, our relationship with customers, successful and timely investment and product development, cost competitiveness, success in marketing to our end-brand customers, component and raw material supply costs, foreign exchange rates and general economic and industry conditions.

In order to compete effectively, it is critical to be cost competitive and maintain stable and long-term relationships with customers which will enable us to be profitable even in a buyer s market.

A substantial portion of our sales is attributable to a limited number of end-brand customers and their designated system integrators. The loss of these end-brand customers, as a result of customers entering into strategic supplier arrangements with our competitors or otherwise, would result in reduced sales.

Developing new products and technologies that can be differentiated from those of our competitors is critical to the success of our business. It is important that we take active measures to protect our intellectual property internationally by obtaining patents and undertaking monitoring activities in our major markets. It is also necessary to recruit and retain experienced key managerial personnel and skilled line operators.

As a leading technology innovator in the display industry, we continue to focus on delivering differentiated value to our customers by developing new technologies and products, including next generation display panels with three-dimensional (3D), IPS, copper line, touch screens and various other competitive technologies. With respect to 3D technology, we have commenced mass production of high definition 3D panels with reduced degrees of crosstalk, or the degree of 3D image overlapping, of less than 1% (which is less than what the human eye can perceive). We have also acquired diverse technical skills and have established a supply chain management system that enables us to provide one-stop solutions. Based on the strength of our IPS and copper line technologies, we have been able to maintain our strength in the market for television panels. With respect to our OLED business, following our supply of the world s first 55-inch OLED 3D panels for televisions in January 2013, we have supplied curved OLED panels for televisions and curved plastic OLED panels for smartphones and have shown that we are technologically a step ahead of the competition.

Moreover, we entered into long-term sales contracts with major global firms to secure customers and expand partnerships for technology development.

7

C. New businesses

For our continued growth, we are actively exploring and preparing for new business opportunities that may arise in the changing market environment. As such, we are continually reviewing and looking at opportunities in the display and promising new industries.

3. Major Products and Raw Materials

A. Major products

We manufacture TFT-LCD and OLED panels, of which a significant majority is exported overseas.

(Unit: In billions of Won, except percentages)

		Items		Major	
Business area	Sales type	(Market)	Usage	trademark	Sales in 2014 Q1 (%)
Display	Product/ Service/ Other sales	Display panel (Overseas (1)) Display panel (Korea (1))	Panels for notebook computers, monitors, televisions, smartphones, tablets, etc. Panels for notebook computers, monitors, televisions, smartphones, tablets, etc.	LG Display	4,943 (88.5%) 645 (11.5%)

Total 5,588 (100.0%)

(1) Based on ship-to-party.

B. Average selling price trend of major products

The average selling price of LCD panels per square meter of net display area shipped in the first quarter of 2014 decreased by approximately 3% from the fourth quarter of 2013, largely as a result of a decrease in the shipment of small- to medium-sized products and the effect of such decrease on our product mix. There is no assurance that the average selling prices of LCD panels will not fluctuate in the future due to change in market conditions.

(Unit: US\$ / m²)

Description	2014 Q1	2013 Q4	2013 Q3	2013 Q2
Display panel (1)(2)	628	697	678	657

⁻ Period: January 1, 2014 ~ March 31, 2014.

- (1) Quarterly average selling price per square meter of net display area shipped.
- (2) Excludes semi-finished products in the cell process.

C. Major raw materials

Prices of major raw materials depend on fluctuations in supply and demand in the market as well as on change in size and quantity of raw materials due to the increased production of large-sized panels.

8

(Unit: In billions of Won, except percentages)

Business area	Purchase type	Items	Usage	Cost (1)	Ratio (%)
		Glass		455	14.2%
Display	Raw materials	Backlight	t Display panel 774	774	24.2%
Dispiny	raw materials	Polarizer	manufacturing	571	17.8%
		Others		1,399	43.8%
Total				3,199	100.0%

⁻ Period: January 1, 2014 ~ March 31, 2014.

(1) Based on total cost for purchase of raw materials which includes manufacturing and development costs, etc.

4. Production and Equipment

- A. Production capacity and output
- (1) Production capacity

The table below sets forth the production capacity of our Gumi and Paju facilities in the periods indicated.

(Unit: 1,000 Glass sheets)

Business area	Items	Location of facilities	2014 Q1 ⁽¹⁾	$2013^{(2)}$	$2012^{(2)}$
Display	Display panel	Gumi, Paju	2,069	8,562	9,195

- (1) Calculated based on the maximum monthly input capacity (based on glass input substrate size for eighth generation glass sheets) during the period multiplied by the number of months in the period (i.e., 3 months).
- (2) Calculated based on the maximum monthly input capacity (based on glass input substrate size for eighth generation glass sheets) during the year multiplied by the number of months in a year (i.e., 12 months).
 - (2) Production output

The table below sets forth the production output of our Gumi and Paju facilities in the periods indicated.

(Unit: 1,000 Glass sheets)

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Business area	Items	Location of facilities	2014 Q1	2013	2012
Display	Display panel	Gumi, Paju	1,923	7,670	7,853

⁻ Based on glass input substrate size for eighth generation glass sheets.

B. Production performance and utilization ratio

(Unit: Hours, except percentages)

	Available working hours	Actual working hours	Average
Production facilities	in 2014 Q1	in 2014 Q1	utilization ratio
Gumi	2,160 (1)	2,144 (1)	
	(90 days) (2)	(89.3 days) ⁽²⁾	99.3%
Paju	2,160 (1)	2,160 (1)	
	(90 days) (2)	(90.0 days) (2)	100.0%

- (1) Based on the assumption that all 24 hours in a day have been fully utilized.
- (2) Number of days is calculated by averaging the number of working days for each facility.

C. Investment plan

In 2014, we expect our capital expenditures to be approximately in the mid-W3 trillions in anticipation of funding the production of OLED and LTPS-based display panels and other future display products while maintaining and making improvements to our existing facilities. Such amount is subject to change depending on business conditions and market environment.

5. Sales

A. Sales performance

(Unit: In billions of Won)

Business area	Sales types	Items (Market)		2014 Q1	2013	2012
Display	Products, etc.	Display panel	Overseas (1)	4,943	24,341	27,280
			Korea (1)	645	2,692	2,150
			Total	5,588	27,033	29,430

(1) Based on ship-to-party.

B. Sales route and sales method

(1) Sales organization

As of March 31, 2014, each of our Television Business Unit and IT/Mobile Business Unit had individual sales and customer support functions.

Sales subsidiaries in the United States, Germany, Japan, Taiwan, China and Singapore perform sales activities and provide local technical support to customers.

(2) Sales route Sales of our products take place through one of the following two routes:

LG Display HQ and overseas manufacturing subsidiaries g Overseas sales subsidiaries (USA/Germany/Japan/Taiwan/China/Singapore), etc. g System integrators and end-brand customers g End users

LG Display HQ and overseas manufacturing subsidiaries g System integrators and end-brand customers g End users

10

(3) Sales methods and sales terms

Direct sales and sales through overseas subsidiaries, etc. Sales terms are subject to change depending on the fluctuation in the supply and demand of LCD panels.

(4) Sales strategy

As part of our sales strategy, we have secured stable sales to major personal computer manufacturers and leading consumer electronics manufacturers globally, strengthened sales of high-resolution, IPS, narrow bezel and other high-end display panels in the tablet, notebook computer and monitor markets, led the television market with our OLED and other market leading television panels and increased the proportion of sales of our differentiated television panels, such as our ultra-high definition (Ultra HD) and large television panels, in our product mix.

In the smartphone, industrial products (including aviation and medical equipment) and automobile displays segment, we have continued to build a strong and diversified business portfolio by expanding our business with customers with a global reach on the strength of our differentiated products applying IPS, plastic OLED, high-resolution and other technologies.

(5) Purchase orders

Customers generally place purchase orders with us one month prior to delivery. Our customary practice for procuring orders from our customers and delivering our products to such customers is as follows:

Receive order from customer (overseas sales subsidiaries, etc.) g Headquarter is notified g Manufacture product g Ship product (overseas sales subsidiaries, etc.) g Sell product (overseas sales subsidiaries, etc.)

6. Market Risks and Risk Management

A. Market risks

The display industry continues to experience continued declines in the average selling prices of TFT-LCD and OLED panels irrespective of cyclical fluctuations in the industry, and our margins would be adversely impacted if prices decrease faster than we are able to reduce our costs.

The display industry is highly competitive. We have experienced pressure on the prices and margins of our major products due largely to additional industry capacity from panel manufacturers in Korea, Taiwan, China and Japan coupled with changes in the production mix of such manufacturers. Our main competitors in the industry include

Samsung Display, Hydis Technologies, AU Optronics, Innolux, CPT, HannStar, Japan Display, Sharp, Panasonic LCD, BOE and CSOT.

Our ability to compete successfully depends on factors both within and outside our control, including product pricing, performance and reliability, successful and timely investments, utilization of differentiated technologies in product development, success or failure of our end-brand customers in marketing their brands and products, component and raw material supply costs, and general economic and industry conditions. We cannot provide assurance that we will be able to compete successfully with our competitors on these fronts and, as a result, we may be unable to sustain our current market position.

Our results of operations are subject to exchange rate fluctuations. To the extent that we incur costs in one currency and generate sales in a different currency, our profit margins may be affected by changes in the exchange rates between the two currencies. Our sales of display panels are denominated mainly in U.S. dollars, whereas our purchases of raw materials are denominated mainly in U.S. dollars and Japanese Yen. Our risk management policy regarding foreign currency risk is to minimize the impact of foreign currency fluctuations on our foreign currency denominated assets and liabilities.

11

B. Risk management

As the average selling prices of TFT-LCD and OLED panels can continue to decline over time irrespective of industry-wide cyclical fluctuations, we may find it hard to manage risks associated with certain factors that are outside our control. However, we counteract such declines in average selling prices by increasing the proportion of high value panels in our product mix while also implementing various cost reduction measures. In addition, in order to manage our risk against foreign currency fluctuations, we continually monitor our currency position and risk, and when needed, we may from time to time enter into cross-currency interest rate swap contracts and foreign currency forward contracts. As of March 31, 2014, we had not entered into any such contract for currency related derivative products.

7. Derivative Contracts

A. Currency risks

We are exposed to currency risks on sales, purchases and borrowings that are denominated in currencies other than in Won, our functional currency. These currencies are primarily the U.S. dollar, the Euro and the Japanese Yen.

Interest on borrowings is denominated in the currency of the borrowing. Generally, borrowings are denominated in currencies that match the cash flows generated by our underlying operations, primarily in Won and the U.S. dollar.

In respect of other monetary assets and liabilities denominated in foreign currencies, we ensure that our net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates, when necessary, to address short-term imbalances.

B. Interest rate risks

Our exposure to interest rate risks relates primarily to our floating rate long term debt obligations. We have established and are managing interest rate risk policies to minimize uncertainty and costs associated with interest rate fluctuations by monitoring cyclical interest rate fluctuations and enacting countermeasures.

8. Major contracts

Our material contracts, other than contracts entered into in the ordinary course of business, are set forth below:

Type of agreement Name of party Term Content
October 2005 ~

Technology licensing agreement	Semiconductor Energy Laboratory		Patent licensing of LCD and OLED related technology	
	Fergason Patent Properties	October 2007 ~	Patent licensing of LCD driving technology	
Technology licensing/supply	Hewlett-Packard	January 2011 ~	Patent licensing of semi-conductor device technology	
agreement	Chunghwa Picture Tubes	November 2007 ~	Patent cross-licensing of LCD technology	
	HannStar Display Corporation	November 2009 ~	Patent cross-licensing of LCD technology	
	AU Optronics Corporation	August 2011~	Patent cross-licensing of LCD technology	
	Innolux	July 2012 ~	Patent cross-licensing of LCD technology, etc.	
	Corporation			

12

9. Research & Development

A. Summary of R&D-related expenditures

(Unit: In millions of Won, except percentages)

Items		2014 Q1	2013	2012
Material Cost		138,611	586,901	494,422
Labor Cost		166,742	500,705	412,805
Depreciation Expense		64,922	319,854	259,467
Others		45,206	267,320	206,093
Total R&D-Related				
Expenditures		415,481	1,674,780	1,372,787
	Selling & Administrative			
	Expenses	289,974	1,095,727	785,111
Accounting Treatment (1)	Manufacturing Cost	92,292	456,818	389,451
	Development Cost			
	(Intangible Assets)	33,215	122,235	198,225
R&D-Related Expenditures / Revenue Ratio (Total				
R&D-Related Expenditures \div Revenue for the period \times 100)		7.4%	6.2%	4.7%

⁽¹⁾ For accounting purposes, R&D-related expenditures are recognized in accordance with our financial statements. Previous to this quarterly report, they were recognized in accordance with their respective sources of cost.

B. R&D achievements

Achievements in 2012

1) Introduction of the world s first 13.3-inch high definition plus (HD+) AH-IPS notebook product

Development of the world s first 13.3-inch HD+ model applying AH-IPS technology

2) Development and introduction of a 14.0-inch HD product with the world s lowest (at the time) rate of logic circuit energy consumption (0.4W)

Application of DRD Z-inversion, HVDD and low voltage process

Application of high intensity LED (2.3cd) and Vcut light guiding plate

Increase in battery life due to reduced logic circuit energy consumption

3) Introduction of a 14.0-inch HD+ notebook product with a high color reproduction rate

Development of a 14.0-inch HD+ 72% color reproduction rate model

Development of a slim model applying 0.3 mm glass etching

4) Introduction of a 15.6-inch full high-definition (FHD) glasses-free 3D notebook product

Development of the first notebook product applying switchable barrier type 3D technology that does not require the use of glasses

13

5) Development of the world s first 23-inch FHD monitor product applying AH-IPS 4Mask technology

Increased display panel luminance by application of AH-IPS technology (20% more luminance compared to display panels applying conventional IPS technology)

Simplified panel production process by application of AH-IPS 4Mask technology

30% reduction in energy consumption resulting from increased efficiency of LED and circuit components

Increased productivity in the manufacture of circuit and mechanical components resulting from increased standardization

6) Development of TN monitor products (20-inch HD+, 21.5-inch FHD and 23-inch FHD) applying new LED

20% reduction in energy consumption resulting from increased efficiency of LED and circuit components (based on 23W power consumption models)

Increased productivity in the manufacture of circuit and mechanical components resulting from increased standardization

7) Development of products with new edge backlight unit (32-inch, 37-inch and 42-inch FHD)

Vertical 2Bar LED backlight unit g Vertical 1Bar LED backlight unit

Reduced energy consumption by 25% resulting from a reduction in the number of LED integrated (based on 32-inch display panel)

8) Development of 42-inch FHD product with new direct backlight unit

Development of LED Lens through the improvement of LED Beam spread angle (72ea based on 42-inch display panel)

Same thickness as conventional edge LED lighting lamp (35.5 mm)

9) Development of products with the world s narrowest bezels of 3.5 mm (47-inch and 55-inch FHD)

Narrow set design possible using 3.5 mm bezel

10) Development of the world s first panel products without borders on three sides (32-inch, 42-inch, 47-inch and 55-inch FHD)

Made possible by removing the forward-facing case top, resulting in zero bezel on three sides

11) Development of monitor products without borders on three sides (21.5-inch, 23-inch and 27-inch FHD)

Made possible by removing the forward-facing case top, resulting in zero bezel on three sides, and application of double-sided adhesive to secure the position of the panel and backlight

Used double guide panels to reduce light leakage issues in IPS panels

12) Development of 12.5-inch HD AH-IPS slim and light notebook display panels

Achieved thickness of 2.85t

Reduced the number of LEDs required by using high intensity LEDs (2.5cd)

13) The world s first GF2 Touch Tablet Product Development (10.1WXGA LCM + Touch)

Touch Concept: GF2, Touch IC In-House

Reduced cost by applying TMIC

Reduced power consumption by applying 6 in 1 (Buck version) PMIC

14

Reduced cost and power consumption by applying AH-IPS + DRD-Z

Reduced cost by applying Taper LGP

14) Development of Automotive 9.2WV product that applies wide temperature AH5-IPS technology

For use in Center Information Displays and Rear Seat Entertainment Displays mounted on a mass produced passenger car

Wide temperature materials/components used and AH5-IPS technology applied

15) Application and introduction of the world s first large multi-model on a glass (MMG) type product (60-inch FHD and 32-inch HD)

Increased glass efficiency by successfully applying large MMG technology for the first time in the industry

Developed three sided and six sided chamfers for eighth generation 60-inch FHD panels and 32-inch HD panels, respectively

16) Development of the world s first 84-inch Ultra HD display panel product

a-Si based 1G 1D Ultra HD panel with steady charging

Developed extra-large edge LED with rigid heat resistant structure

17) Development of 2000 nit bright public display panel for outdoor use (47-inch FHD)

Use of optimal-temperature panel prevents any blackening effect when exposed to direct sunlight

Use of quarter-wave plate (applying FPR technology) allows viewers wearing polarized sunglasses to view the public display panel with ease

Applied heat resistant structure without heat sink

Improved bright room contrast ratio by applying Shine Out ARC POL technology

18) Development of seam (AtA) 5.6 mm super-narrow bezel (SNB) public display panel (55-inch FHD)

Bezel thickness minimized (2.9 mm for pad, 1.6 mm for non-pad)

Developed SNB structure technology

19) Development of 47-inch and 55-inch display panel products applying vertical 1Bar structure

Our first 47-inch and 55-inch display panel products applying vertical 1Bar LED backlight units

Reduced number of LEDs needed, resulting in reduced energy consumption (for example, energy consumption for the 47-inch display panel was reduced from 65.5W to 55.8W)

20) Development of the world s first 29-inch 21:9 ratio three-side borderless monitor product

Made possible by removing the forward-facing case top, resulting in zero bezel on three sides

Double-sided adhesive used to secure the position of the panel and backlight

Double guide panels used to resolve light leakage issues in IPS panels

21) Development of the world s first 12.9-inch high-resolution slim AH-IPS display panel

Ultra-high resolution WQSXGA+ (239 PPI)

Achieved 400 nit brightness by improving panel luminance and applying high intensity LED PKG and new 1Bar structure

Developed 2.95 mm slim model through glass etching and application of rigid PCB

15

22) Development of the world s first ultra-slim all-in-one product applying G2 Touch technology (4.67WXGA)

320 PPI high resolution AH-IPS display panel

Ultra-slim LCM by applying G2 Touch and OCR Direct Bonding technologies

23) Development of the world s first TV product applying DRD technology (32-inch, 37-inch HD)

Simplified circuit structure for HD TV by applying DRD technology (source driver integrated circuits (D-IC) reduced from 4ea g 2ea)

24) Development of customer co-designed TV (32-inch to 55-inch FHD)

Co-designed TV model that integrates LCM and the front cover in a single body

Differentiated set bezel design

25) Development of the world s first borderless TV product with 7.8 mm bezel (47-inch FHD)

Borderless on the top and left/right sides with a borderless like bottom design

26) Development of the world s largest, at the time, 55-inch FHD OLED TV product

Utilizes WRGB OLED technology with a thickness of 4.45 mm

27) Development of the first touch notebook product with direct bonding of touch screen module (TSM) (12.5-inch FHD)

Applied direct bonding between LCM and TSM to reduce thickness (4.8 mm)

Direct bonding multi-sourcing in response to customer demand

28) Development of 23.8-inch desktop monitor product

Developed new display panel size for desktop monitor products

Narrower bezels (8 mm for the top and left/right sides) compared to conventional bezels

29) Development of the world s first clear borderless (borderless on all four sides) monitor product (27-inch FHD)

Applied Narrow Bezel Vertical LED Structure technology by changing the LED backlight structure

Developed even black matrix structure on all four sides *Achievements in 2013*

1) Developed 19.5-inch desktop monitor product

Developed new display panel size for desktop monitor products

Increased yield of glass panel area per glass substrate by cutting glass substrates at 19.5 inches

2) Developed 11.6-inch Tab Book product applying GF2 touch technology

Applied GF2 direct bonding process

3) Developed 5.0-inch and 5.5-inch high resolution (over 400 PPI) smartphone products applying AH-IPS technology

Luminance increased by 10% compared to conventional panels (5.0-inch FHD panel has 403 PPI and 5.5-inch FHD panel has 440 PPI)

Developed new source D-IC to drive 4 lanes of MIPI with speeds of up to 1 Gbps per lane

4) Developed the world s first 60-inch three-side borderless product

Made possible by removing the forward-facing case top, resulting in zero bezel on three sides with a borderless like bottom design

5) Developed the world s first 47-inch and 55-inch FHD TV product with 2.3 mm narrow bezels

Achieved optimal slim design by minimizing bezel width to 2.3 mm

16

6) Developed 55-inch and 65-inch Ultra HD products with narrow bezels

Ultra HD (55-inch model has 80 PPI and 65-inch model has 68 PPI)

Achieved high transmittance panel by applying 1 Gate 1 Data structure

Achieved narrow bezels (55-inch model has 6.9 mm and 65-inch has 7.5 mm) by optimizing panel and mechanical design

7) Developed 42-inch, 47-inch and 55-inch FHD three-side borderless products with direct backlight units

Borderless design made possible by removing the forward-facing case top, resulting in zero bezel on three sides

8) Developed 5-inch HD smartphone product utilizing oxide cell technology

Reduced energy consumption and achieved narrower bezels by using indium gallium zinc oxide (IGZO) cell technology (energy consumption reduced by 26.7% and bezel size reduced by 23.0% compared to products utilizing conventional silicon (a-Si) cell technology)

9) Developed FHD a-Si AH-IPS technology for use in smartphone products (more than 400 PPI)

Improved structure and technology compared to conventional FHD panels (luminance increased by 30%, achieved 443 PPI in 5.0-inch FHD panel)

Developed new D-IC and IC bonding materials and processes

10) Developed new line of 19.5-inch HD+ monitor products with IPS technology

Developed new line of display panels for desktop monitor products

Increased yield of glass panel area per glass substrate by cutting glass substrates at 19.5 inches

11) Developed 19.5-inch HD+ ultra-light monitor product

The world s lightest (at the time) 19.5-inch HD+ IPS monitor product with slim concept design

Reduced weight by 55% from 1520g to 830g and thickness from 7.6t to 5.4t compared to a conventional 19.5-inch HD+ IPS monitor product

12) Developed the world s first borderless monitor product with 3.5 mm narrow bezel (23.8-inch FHD)

Developed 23.8-inch FHD Neo Blade1 monitor product with the world s narrowest (at the time) bezel (3.5 mm)

13) Introduced 9.2-inch WXGA high resolution / high luminance automotive display product

The first automotive display product to apply EPI interface (800Mbps high speed transmission with Real 8it)

High luminance (800 nit) and high color gamut (70%)

Developed T-con with improved reliability and resolution

14) Developed 49-inch FHD four sided borderless like product

Achieved narrow borders by applying 4.9 mm GIP technology and developed a new PSJ mechanical structure

Developed new resin technology to apply to the bottom base decoration

15) Developed 55-inch FHD wide color gamut (WCG) LCM product

Achieved life like colors with WCG by combining panel and optical technologies

Developed differentiated case top set design

16) Developed our first 60-inch FHD product

Achieved narrow panel bezel size (7.8 mm)

New size in our product lineup

17) Developed the world s first 23.8-inch Ultra HD monitor product

The world s first Ultra HD AH-IPS monitor product (23.8-inch Ultra HD: 185 ppi)

Applied PAC panel technology and developed Ultra HD T-con/D-IC driver

Developed high luminance dual LED array structure

18) Expanded product lineup of 21:9 screen aspect ratio monitors

Expanded product lineup of 21:9 screen aspect ratio monitors to include 25-inch, 29-inch and 34-inch monitors

Borderless on three sides by removing case top

19) Developed the world s first 13.3-inch FHD notebook model with 1.9 mm narrow bezel

Development slim notebook design by utilizing panel GLA structure and minimizing bezel size to 1.9 mm

Achieved slim (3.0 mm) and ultra-light (230 g) LCM by utilizing 0.25 mm glass PPP LGP technology

20) Developed our first quad HD (QHD) notebook model (13.3-inch, 222 ppi / 14.0-inch / 210 ppi)

Increased transmittance rate by utilizing 3^{rd} metal, coop CS, red eye 12 um technology and improving aperture ratio

Achieved slim (2.6 mm) and ultra-light (235 g) LCM by utilizing 0.3 mm glass PPP LGP technology

21) Introduced product applying PPP LGP to maximize light collimation

Developed PPP technology for light collimation (improved luminance by 44% compared to conventional panels) for a more energy efficient panel model

Used 2 sheet structure to reduce thickness

22) Developed 12.3-inch FHD full cluster automotive product

The world s first full cluster product to apply IPS technology

Ultra-high luminance (800 nit) and high color gamut (85%). High color PR and developed RG LED for high light collimation

Applied the highest resolution (1920 x 720), at the time, for clusters

23) Developed 5.5-inch QHD LTPS smartphone panel applying AH-IPS technology with the worlds highest resolution, at the time, for smartphone panels (more than 500 ppi)

Designed and developed QHD, the world s highest resolution, at the time, for smartphone panels (538 ppi)

The world s first QHD module applying 1 chip D-IC driver *Achievements in 2014*

1) Developed the world s first green plus structure television panel products (42-inch, 49-inch and 55-inch Ultra HD)

Added white pixels to increase transmittance by 55% compared to conventional display panels

Developed energy conservation technology for Ultra HD products

18

2) Developed the world s narrowest, at the time, bezel (BtB 3.5 mm) videowall product (55-inch FHD)

The world s narrowest, at the time, bezel (BtB 3.5 mm) videowall product

Reduced panel PAD parts and minimized bezel size

3) Developed our first 79-inch Ultra HD product

New size in our product lineup

Achieved narrow bezel (On 9.9 mm) and slim depth (13.9 mm)

4) Developed the world s first 4 sided borderless like product (49-inch, 55-inch and 60-inch FHD)

Removed front case top and narrowed gap between the panel and front deco cabinet (set side reduced from 2.0 mm to 0.5 mm)

5) Developed the world s first a-Si AF-IPS 5Mask panel product for smartphones (5.0 WVGA)

Reduced production cost and simplified manufacturing process by reducing the number of mask steps from 6 to 5

Same level of performance as 6Mask panels

6) Developed the world s first LTPS AH-IPS photo alignment and negative LC panel product for smartphones (5.0-inch FHD)

LTPS AH-IPS photo alignment and negative LC panel product for smartphones developed in March 2014

Improved luminance and contrast ratio through improvement in panel transmittance (450 nit to 515 nit; 1,000:1 to 1500:1).

7) Developed the world s first 23.8-inch FHD ultra slim and light monitor product

Achieved ultra light design (reduced LCM weight from 2,270g to 1,280g compared to conventional LCMs)

Achieved ultra slim design by using slim component parts (7.6t reduced to 5.5t)

10. Intellectual Property

As of March 31, 2014, our cumulative patent portfolio (including patents that have already expired) included a total of 25,096 patents, consisting of 12,523 in Korea and 12,573 in other countries.

11. Environmental Matters

We are subject to a variety of environmental laws and regulations, and we may be subject to fines or restrictions that could cause our operations to be interrupted. Our manufacturing processes generate worksite waste, including water and air pollutants, at various stages in the manufacturing process, and we are subject to relevant laws and regulations in each area of the environment, including with respect to the treatment of chemical by-products. We have installed various types of anti-pollution equipment, consistent with environmental standards, for the treatment of chemical waste and equipment for the recycling of treated waste water at our various facilities. However, we cannot provide assurance that environmental claims will not be brought against us or that the local or national governments will not take steps toward adopting more stringent environmental standards. Any failure on our part to comply with any present or future environmental regulations could result in the assessment of damages or imposition of fines against us, suspension of production or a cessation of operations. In addition, environmental regulations could require us to acquire costly equipment or to incur other significant compliance expenses that may materially and negatively affect our financial condition and results of operations.

19

In 2010, we were designated by the Korean government as one of the companies subject to greenhouse gas emission and energy consumption targets under the Framework Act on Low Carbon, Green Growth. As a result, we may need to invest in additional equipment and there may be other costs associated with meeting reduction targets, which may have a negative effect on our profitability or production activities. In addition, if we fail to meet a reduction target and are unable to comply with the government subsequent enforcement notice relating to such failure, we may be subject to fines.

In connection with the greenhouse gas emission and energy reduction target system, we submitted a statement of our domestic emissions and energy usage for the 2013 to the Korean government (i.e., the Ministry of Environment and the Ministry of Trade, Industry & Energy) in March 2014 after it was certified by Lloyd s Register Quality Assurance, a government-designated certification agency.

The table below sets forth yearly levels of our greenhouse gases emissions and energy usage in the statement submitted to the Korean government:

(Unit: thousand tonnes of CO₂ equivalent; Tetra Joules)

Category	2013	2012	2011
Greenhouse gases	6,922	6,161	5,928
Energy	61,092	61,169	53,223

Operations at our manufacturing plants are subject to regulation and periodic scheduled and unscheduled on-site inspections by the Korean Ministry of Environment and local environmental protection authorities. We believe that we have adopted adequate anti-pollution measures and have minimized our impact on the environment by improving existing and developing new technologies for the effective maintenance of environmental protection standards consistent with local industry practice. In addition, we have continually monitored, and we believe that we are in compliance in all material respects with, the applicable environmental laws and regulations in Korea. Expenditures related to such compliance may be substantial. Such expenditures are generally included in capital expenditures. As required by Korean law, we employ licensed environmental specialists to manage our air pollution, toxic materials and waste water. In February 2013, to reduce costs and ensure safe water quality, we entered into a contract with a specialist company to operate our waste water treatment facilities. We currently have ISO 14001 certifications with respect to the environmental record for P1 through P98, our OLED production facility in Gumi, Korea, our Gumi module production plant and our Paju module production plant, as well as our module production plants in Nanjing, Yantai and Guangzhou, China.

In addition, with respect to P1 through P98 and our module production plants in Gumi and Paju, we received certification from BSI Group Korea in November 2011 and ISO 5001 certification in December 2013 for our green management system. Furthermore, we have been certified by the Korean Ministry of Environment as a Green Company, with respect to our environmental record for P1 and our module production plant in Gumi since 1997, with respect to our operations at P2 and P3 since 2006, and with respect to our operations at P4, P5 and P6 since 2008. Also, we received certification to self-inspect designated waste products with respect to our Paju plant by the Ministry of Environment in 2011, which was recertified in 2013. In addition, in recognition of our efforts to reduce greenhouse gas emissions, we were awarded a commendation from the Minster of Environment in the efforts against climate change category in the 2013 Green Management Awards, which was jointly hosted by the Ministry of Environment and the Ministry of Trade, Industry & Energy.

Edgar Filing: LG Display Co., Ltd. - Form 6-K

We also have an internal monitoring system to control the use of hazardous substances in the manufacture of our products as we are committed to compliance with all applicable environmental laws and regulations, including European Union Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU, and restricts the use of certain hazardous substances in the manufacture of electrical and electronic equipment.

In addition, as part of our commitment to use environment-friendly raw materials, we have implemented a green purchasing system that prevents the introduction of hazardous materials at the purchasing stage. The green purchasing system has been a key component in our efforts to comply with RoHS and other applicable environmental laws and regulation.

In October 2005, we became the first display panel company to receive accreditation as an International Accredited Testing Laboratory by the Korea Laboratory Accreditation Scheme, which is operated by the Korean Ministry of Trade, Industry & Energy. In September 2006, we received international accreditation from TUV SUD, EU s German accreditation agency, as a RoHS testing laboratory. Our efforts to keep pace with the increasingly stringent accreditation standards and to receive and maintain such accreditations are part of our on-going efforts to systematically monitor environmentally controlled substances in our component parts inventory. Moreover, we participated in reforming IEC 62321, an international testing standard published by the International Electrotechnical Commission and used by RoHS, and the commission adopted our halogen-free combustion ion chromatography method in as IEC 62321-3-2, which was published in June 2013.

21

(1) Restated to retroactively adopt amendment to K-IFRS No. 1001 Presentation of Financial Statements in the presentation of operating profit. Under the amendment, which was adopted for our financial statements for the interim and annual periods since December 31, 2012, operating profit or loss is presented as an amount of revenue less cost of sales, selling and administrative expenses and research and development expenses. Prior to the adoption of the amendment, other income and other expenses were included in the presentation of operating profit or loss.

Edgar Filing: LG Display Co., Ltd. - Form 6-K

(1) Restated to retroactively adopt amendment to K-IFRS No. 1001 Presentation of Financial Statements in the presentation of operating profit. Under the amendment, which was adopted for our financial statements for the interim and annual periods since December 31, 2012, operating profit or loss is presented as an amount of revenue less cost of sales, selling and administrative expenses and research and development expenses. Prior to the adoption of the amendment, other income and other expenses were included in the presentation of operating profit or loss.

Independent Auditors Review Report

Based on a report originally issued in Korean

To the Board of Directors and Shareholders

LG Display Co., Ltd.:

Reviewed Financial Statements

We have reviewed the accompanying condensed consolidated interim financial statements of LG Display Co., Ltd. and subsidiaries (the Group) which comprise the condensed consolidated interim statement of financial position as of March 31, 2014 and the condensed consolidated interim statements of comprehensive income (loss), changes in equity and cash flows for the three-month periods ended March 31, 2014 and 2013, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management s Responsibility for the Condensed Consolidated Interim Financial Statements

Management is responsible for the preparation and fair presentation of these condensed consolidated interim financial statements in accordance with Korean International Financial Reporting Standards No. 1034, *Interim Financial Reporting*, and for such internal controls as management determines necessary to enable the preparation of condensed consolidated interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors Responsibility

Our responsibility is to issue a report on these condensed consolidated interim financial statements based on our reviews.

We conducted our reviews in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Security and Futures Commission of the Republic of Korea. A review of interim financial information consists principally of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of Korea and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the condensed consolidated interim financial statements referred to above are not presented fairly, in all material respects, in accordance with Korean International Financial Reporting Standards No. 1034, *Interim Financial Reporting*.

Emphasis of Matter

As discussed in note 17 to the condensed consolidated interim financial statements, the Group has been or is under investigations by antitrust authorities in several countries with respect to possible anti-competitive activities in the Liquid Crystal Display (LCD) industry and named as defendants in a number of individual lawsuits and class actions in the United States and Canada, respectively, in connection with alleged antitrust violations concerning the sale of

Edgar Filing: LG Display Co., Ltd. - Form 6-K

LCD panels. The Group estimated and recognized losses related to these investigations and alleged violations. However, actual losses are subject to change in the future based on new developments in each matter, or changes in circumstances, which could be materially different from those estimated and recognized by the Group.

Other Matters

The procedures and practices utilized in the Republic of Korea to review such condensed consolidated interim financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying condensed consolidated interim financial statements are for use by those knowledgeable about Korean review standards and their application in practice.

We audited the consolidated statement of financial position as of December 31, 2013 and the related consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, which are not accompanying this review report, in accordance with auditing standards generally accepted in the Republic of Korea, and our report thereon, dated February 19, 2014, expressed an unqualified opinion. The accompanying condensed consolidated statement of financial position of the Group as of December 31, 2013, presented for comparative purposes, is not different from that audited by us from which it was derived in all material respects.

/s/ KPMG Samjong Accounting Corp. Seoul, Korea May 2, 2014

This report is effective as of May 2, 2014 the review report date. Certain subsequent events or circumstances, which may occur between the review report date and the time of reading this report, could have a material impact on the accompanying condensed consolidated interim financial statements and notes thereto. Accordingly, the readers of the review report should understand that the above review report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

1. Reporting Entity

(a) <u>Description of the Controlling Company</u>

LG Display Co., Ltd. (the Controlling Company) was incorporated in February 1985 under its original name of LG Soft, Ltd. as a wholly owned subsidiary of LG Electronics Inc. In 1998, LG Electronics Inc. and LG Semicon Co., Ltd. transferred their respective Thin Film Transistor-Liquid Crystal Display (TFT-LCD) related business to the Controlling Company. The main business of the Controlling Company and its subsidiaries (the Group) is to manufacture and sell TFT-LCD panels. The Controlling Company is a stock company (Jusikhoesa) domiciled in the Republic of Korea with its address at 128 Yeouidae-ro, Yeongdeungpo-gu, Seoul, the Republic of Korea. In July 1999, LG Electronics Inc. and Koninklijke Philips Electronics N.V. (Philips) entered into a joint venture agreement. Pursuant to the agreement, the Controlling Company changed its name to LG.Philips LCD Co., Ltd. However, in February 2008, the Controlling Company changed its name to LG Display Co., Ltd. considering the decrease of Philips s share interest in the Controlling Company and the possibility of its business expansion to other display products including Organic Light Emitting Diode (OLED) and Flexible Display products. As of March 31, 2014, LG Electronics Inc. owns 37.9% (135,625,000 shares) of the Controlling Company s common stock.

As of March 31, 2014, the Controlling Company has TFT-LCD manufacturing plants, an OLED manufacturing plant and an Research & Development Center in Paju and TFT-LCD manufacturing plants in Gumi. The Controlling Company has overseas subsidiaries located in North America, Europe and Asia.

The Controlling Company s common stock is listed on the Korea Exchange under the identifying code 034220. As of March 31, 2014, there are 357,815,700 shares of common stock outstanding. The Controlling Company s common stock is also listed on the New York Stock Exchange in the form of American Depository Shares (ADSs) under the symbol LPL. One ADS represents one-half of one share of common stock. As of March 31, 2014, there are 21,597,254 ADSs outstanding.

2. <u>Basis of Presenting Financial Statements</u>

(a) Statement of Compliance

The condensed consolidated interim financial statements have been prepared in accordance with Korean International Financial Reporting Standards (K-IFRSs) No.1034, *Interim Financial Reporting*. They do not include all of the information required for full annual consolidated financial statements and should be read in conjunction with the consolidated financial statements of the Group as of and for the year ended December 31, 2013.

The condensed consolidated interim financial statements were authorized for issuance by the Board of Directors on April 22, 2014.

(b) Basis of Measurement

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for the following material items in the statements of financial position:

available-for-sale financial assets measured at fair value, and

liabilities for defined benefit plans are recognized as the present value of defined benefit obligations less the fair value of plan assets

(c) Functional and Presentation Currency

The condensed consolidated interim financial statements are presented in Korean won, which is the Controlling Company s functional currency. All amounts in Korean won are in millions unless otherwise stated.

(d) <u>Use of Estimates and Judgments</u>

The preparation of the condensed consolidated interim financial statements in conformity with K-IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group s accounting policies and the key sources of estimation uncertainty were the same as those applied in its consolidated financial statements as of and for the year ended December 31, 2013.

3. Summary of Significant Accounting Policies

The significant accounting policies followed by the Group in the preparation of its condensed consolidated interim financial statements are the same as those followed by the Group in its preparation of the consolidated financial statements as of and for the year ended December 31, 2013, except for the application of K-IFRS No. 1034, *Interim Financial Reporting*, and the amended accounting standards explained below:

(a) <u>Changes to the Significant Accounting Policies</u> Amendment to K-IFRS No. 1032, *Financial Instruments: Presentation*

The Group has applied the amendment to K-IFRS No. 1032, *Financial Instruments: Presentation*, effective January 1, 2014. The amendment improves application guidance of K-IFRS No.1032, *Financial Instruments: Presentation*, to clarify criterion of offsetting financial assets and financial liabilities. There is no impact of applying this amendment on the condensed consolidated interim financial statements for the three-month period ended March 31, 2014.

Amendment to K-IFRS No. 1036, Impairment of Assets

The Group has applied the amendment to K-IFRS No. 1036, *Impairment of Assets*, effective January 1, 2014. The amendment improves disclosure guidance of the recoverable amount of cash-generating units to which goodwill or indefinite-lived intangible assets have been allocated. Under the amendments, the recoverable amount is required to be disclosed only when an impairment loss has been recognized or reversed. Furthermore, for consistency purposes, the amendment expands certain disclosure requirements when the recoverable amount of the asset is its fair value less costs of disposal. There is no significant impact of applying this amendment on the condensed consolidated interim financial statements for the three-month period ended March 31, 2014.

4. Financial Risk Management

The objectives and policies on financial risk management followed by the Group are consistent with those disclosed in the consolidated financial statements as of and for the year ended December 31, 2013.

42

5. <u>Inventories</u>

Inventories as of March 31, 2014 and December 31, 2013 are as follows:

(In millions of won)	March 31, 2014	December 31, 2013
Finished goods	896,307	733,987
Work-in-process	643,145	605,718
Raw materials	291,305	261,947
Supplies	368,087	331,589
	2,198,844	1,933,241

For the three-month periods ended March 31, 2014 and 2013, the amount of inventories recognized as cost of sales, inventory write-downs and reversal and usage of inventory write-downs included in cost of sales is as follows;

(In millions of won)	2014	2013
Inventories recognized as cost of sales	4,923,867	6,098,978
Including: inventory write-downs	267,087	173,312
Including: reversal and usage of inventory write-downs	(211,363)	(135,720)

6. <u>Investments in Equity Accounted Investees</u>

- (*1) The Controlling Company is a member of a limited partnership in the LB Gemini New Growth Fund No.16 (the Fund). In January and March 2014, the Controlling Company received 1,035 million and 921 million, respectively, from the Fund as a capital distribution and made an additional cash investment of 324 million in the Fund in March 2014. There were no changes in the Controlling Company is ownership percentage in the Fund and the Controlling Company is committed to making future investments of up to an aggregate of 30,000 million.
- (*2) In March 2014, the Controlling Company disposed of investments in Eralite Optoelectronics (Jiangsu) Co., Ltd., acquired for manufacturing LED Package, for 1,633 million and recognized 156 million for the difference between the amount received and the carrying amount as finance cost.

44

7. Property, Plant and Equipment

For the three-month periods ended March 31, 2014 and 2013, the Group purchased property, plant and equipment of 1,231,327 million and 524,150 million, respectively. The capitalized borrowing costs and the annualized capitalization rate were 9,837 million and 4.46%, and 2,484 million and 4.81% for the three-month periods ended March 31, 2014 and 2013, respectively. Also, for the three-month periods ended March 31, 2014 and 2013, the Group disposed of property, plant and equipment with carrying amounts of 7,882 million and 2,746 million, respectively, and recognized 2,765 million and 295 million as gain and loss, respectively, on disposal of property, plant and equipment for the three-month period ended March 31, 2014 (gain and loss for the three-month period ended on March 31, 2013: 2,870 million and 159 million, respectively).

8. Intangible Assets

The Group capitalizes expenditures related to development activities, such as expenditures incurred on designing, manufacturing and testing of products that are ultimately selected for production. The balances of capitalized development costs as of March 31, 2014 and December 31, 2013 are 163,874 million and 163,243 million, respectively.

45

9. Financial Instruments

(a) Credit risk

(i) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk as of March 31, 2014 and December 31, 2013 is as follows:

(In millions of won)

•	March 31, 2014	December 31, 2013
Cash and cash equivalents	550,122	1,021,870
Deposits in banks	1,470,573	1,301,539
Trade accounts and notes receivable, net	2,573,566	3,128,626
Other accounts receivable, net	85,360	89,545
Available-for-sale financial assets	2,846	2,838
Deposits	20,773	21,439
Other non-current financial assets	9,357	8,831
	4,712,597	5,574,688

The maximum exposure to credit risk for trade accounts and notes receivable as of March 31, 2014 and December 31, 2013 by geographic region was as follows:

(In millions of won)

	March 31, 2014	December 31, 2013
Domestic	290,380	264,703
Euro-zone countries	231,812	302,920
Japan	135,139	111,397
United States	690,215	1,048,005
China	673,044	784,597
Taiwan	374,835	438,929
Others	178,141	178,075
	2,573,566	3,128,626

9. Financial Instruments, Continued

(ii) Impairment loss

The aging of trade accounts and notes receivable as of March 31, 2014 and December 31, 2013 was as follows:

(In millions of won)

,	March	31, 2014	December 31, 2013		
	Book	Book Impairment		Impairment	
	value	loss	value	loss	
Not past due	2,563,078	(248)	3,091,184	(317)	
Past due 1-15 days	7,305	(2)	30,005	(8)	
Past due 16-30 days	3,307		7,504	(1)	
Past due 31-60 days	62	(2)	82	(1)	
Past due more than 60 days	69	(3)	181	(3)	
	2,573,821	(255)	3,128,956	(330)	

The movement in the allowance for impairment in respect of receivables during the three-month period ended March 31, 2014 and the year ended December 31, 2013 are as follows:

(In millions of won)

	2014	2013
Balance at the beginning of the period	330	1,019
Reversal of bad debt expense	(75)	(689)

9. Financial Instruments, Continued

Average exchange rates applied for the three-month periods ended March 31, 2014 and 2013 and the exchange rates at March 31, 2014 and December 31, 2013 are as follows:

(In won)	Avera	Average rate		date spot rate
			March 31,	December 31,
	2014	2013	2014	2013
USD	1,069.00	1,084.24	1,068.80	1,055.30
JPY	10.39	11.76	10.39	10.05
CNY	175.39	174.21	172.30	174.09
TWD	35.32	36.80	35.04	35.32
EUR	1,465.08	1,431.21	1,469.39	1,456.26
PLN	350.33	344.63	352.27	351.11
SGD	842.45	876.43	849.10	832.75

(ii) Sensitivity analysis

A weaker won, as indicated below, against the following currencies which comprise the Group s assets or liabilities denominated in foreign currency as of March 31, 2014 and December 31, 2013, would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considers to be reasonably possible as of the end of reporting period. The analysis assumes that all other variables, in particular interest rates, would remain constant. The changes in equity and profit or loss would have been as follows:

(In millions of won)	March 3	March 31, 2014		31, 2013
		Profit		Profit
	Equity	or loss	Equity	or loss
USD (5 percent weakening)	(28,662)	(16,642)	15,198	22,224
JPY (5 percent weakening)	(12,854)	(9,071)	(11,007)	(7,526)
CNY (5 percent weakening)	(14,559)	(754)	(6,267)	(515)
TWD (5 percent weakening)	28		28	(4)
EUR (5 percent weakening)	(699)	1,188	250	1,877
PLN (5 percent weakening)	1,102	210	669	494
SGD (5 percent weakening)	26	26	31	

A stronger won against the above currencies as of March 31, 2014 and December 31, 2013 would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

9. Financial Instruments, Continued

(d) Interest rate risk

(i) Profile

The interest rate profile of the Group s interest-bearing financial instruments as of March 31, 2014 and December 31, 2013 is as follows:

(In millions of won)

	March 31, 2014	December 31, 2013
Fixed rate instruments		
Financial assets	2,023,541	2,326,247
Financial liabilities	(2,639,537)	(3,156,590)
	(615,996)	(830,343)
Variable rate instruments		
Financial liabilities	(1,125,598)	(746,189)

(ii) Equity and profit or loss sensitivity analysis for variable rate instruments
As of March 31, 2014 and December 31, 2013, a change of 100 basis points in interest rates at the reporting date
would have increased (decreased) equity and profit or loss by the amounts shown below for each 12-month period
following the reporting dates. This analysis assumes that all other variables, in particular foreign currency rates,
remain constant.

(In millions of won)	Eq	uity	Profit	or loss
	1%p increase			1%p decrease
March 31, 2014				
Variable rate instruments	(5,557)	5,557	(5,557)	5,557
December 31, 2013				
Variable rate instruments	(5,656)	5,656	(5,656)	5,656

(e) Fair values

(i) Fair values versus carrying amounts

The fair values of financial assets and liabilities, together with the carrying amounts shown in the condensed consolidated interim statements of financial position, are as follows:

(In millions of won)

	March 31, 2014 Carrying		Decembe Carrying	er 31, 2013
	amounts	Fair values	amounts	Fair values
Assets carried at fair value				
Available-for-sale financial assets(*)	13,632	13,632	14,235	14,235
Assets carried at amortized cost				
Cash and cash equivalents	550,122	550,122	1,021,870	1,021,870
Deposits in banks	1,470,573	1,470,573	1,301,539	1,301,539
Trade accounts and notes receivable	2,573,566	2,573,566	3,128,626	3,128,626
Other accounts receivable	85,360	85,360	89,545	89,545
Deposits	20,773	20,773	21,439	21,439
Other non-current financial assets	9,357	9,357	8,831	8,831
	4,709,751	4,709,751	5,571,850	5,571,850
Liabilities carried at amortized cost				
Secured bank loans	26,720	26,720	26,383	26,383
Unsecured bank loans	1,103,318	1,103,224	1,241,981	1,266,521
Unsecured bond issues	2,635,097	2,695,100	2,634,415	2,689,697
Trade accounts and notes payable	2,965,129	2,965,129	2,999,522	2,999,522
Other accounts payable	1,660,914	1,660,336	1,374,664	1,374,719
Other non-current liabilities	32,612	32,046	9,879	9,959
	8,423,790	8,482,555	8,286,844	8,366,801

^(*) Investments in equity instruments that do not have a quoted price in an active market, and whose fair value cannot be reliably measured are measured at cost and excluded from the disclosure of fair value. The basis for determining fair values above by the Group are consistent with those disclosed in the financial statements as of and for the year ended December 31, 2013.

Edgar Filing: LG Display Co., Ltd. - Form 6-K

(ii) Financial Instruments measured at cost Available-for-sale financial assets measured at cost as of March 31, 2014 are as follows:

(In millions of won)

•	March 31, 2014	December 31, 2013
Intellectual Discovery Co., Ltd.	2,673	2,673

52

9. Financial Instruments, Continued

(iii) Interest rates used for determining fair value

The significant interest rates applied for determination of the above fair value at the reporting date are as follows:

	March 31, 2014	December 31, 2013
Debentures, loans and borrowings	2.70%~3.53%	2.81%~3.84%

(iv) Fair value hierarchy

The table below analyzes financial instruments carried at fair value based on the input variables used in the valuation method to measure fair value of assets and liabilities. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: inputs for the asset or liability that are not based on observable market data. The financial instruments carried at fair value as of March 31, 2014 and December 31, 2013 are as follows:

(In millions of won)

•	Level 1	Level 2	Level 3	Total
March 31, 2014				
Assets				
Available-for-sale financial assets	13,632			13,632
(In millions of won)	Level 1	Level 2	Level 3	Total
December 31, 2013				
Assets				
Available-for-sale financial assets	14,235			14,235

(f) Capital management

Management s policy is to maintain a capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Liabilities to equity ratio, net borrowings to equity ratio and other financial ratios are used by management to achieve an optimal capital structure. Management also monitors the return on capital as well as the level of dividends to ordinary shareholders. Equity, defined by K-IFRS, is identical to the definition of capital, managed by management.

(In millions of won)

	March 31, 2014	December 31, 2013
Total liabilities	10,883,122	10,917,864
Total equity	10,715,822	10,797,420
Cash and deposits in banks (*1)	2,020,695	2,323,409
Borrowings (including bonds)	3,765,135	3,902,779
Total liabilities to equity ratio	102%	101%
Net borrowings to equity ratio (*2)	16%	15%

- (*1) Cash and deposits in banks consist of cash and cash equivalents and deposits in banks.
- (*2) Net borrowings to equity ratio is calculated by dividing total equity with borrowings (including bonds) less cash and deposits in banks.

54

10. Financial Liabilities

(a) Financial liabilities as of March 31, 2014 and December 31, 2013 are as follows:

(In millions of won)	March 31, 2014	December 31, 2013
Current		
Short-term borrowings	392,576	21,090
Current portion of long-term debt	905,956	886,852
	1,298,532	907,942
Non-current		
Won denominated borrowings	6,323	503,968
Foreign currency denominated borrowings	464,928	495,991
Bonds	1,995,352	1,994,878
	2,466,603	2,994,837

(b) Short-term borrowings as of March 31, 2014 and December 31, 2013 are as follows:

(In millions of won, USD and CNY)

Annual interest rate

	as of				
Lender	March 31, 2014 (%)	Marcl 20 1	,	December 201	,
Korea Exchange Bank and others					
(*)	0.48~0.65	38	32,522

		464,92	8 495,991

- (*) ML represents Month LIBOR (London Inter-Bank Offered Rates).
 - (e) Details of bonds issued and outstanding as of March 31, 2014 and December 31, 2013 are as follows:

(In millions of won)

	Maturity	Annual interest rate as of March 31, 2014 (%)	March 31, 2014	December 31, 2013
Won denominated bonds (*)				
Publicly issued bonds	April 2014~			
	November 2018	2.90~5.89	2,640,000	2,640,000
Less discount on bonds			(4,903)	(5,585)
Less current portion			(639,745)	(639,537)
			1,995,352	1,994,878

(*) Principal of the won denominated bonds is to be repaid at maturity and interests are paid quarterly in arrears.

11. The Nature of Expenses and Others

The classification of expenses by nature for the three-month periods ended March 31, 2014 and 2013 are as follows:

(In millions of won)

	2014	2013
Changes in inventories	(265,603)	(138,566)
Purchases of raw materials, merchandise and others	2,920,064	3,974,948
Depreciation and amortization	920,659	1,117,226
Outsourcing fees	235,971	102,351
Labor cost	741,762	684,001
Supplies and others	230,952	228,048
Utility	184,884	185,262
Fees and commissions	110,768	117,389
Shipping costs	55,940	81,449
Advertising	26,608	16,083
After-sale service expenses	21,165	22,754
Taxes and dues	16,345	19,180
Travel	14,639	12,752
Others	316,186	257,389
	5,530,340	6,680,266

Total expenses consist of cost of sales, selling, administrative, research and development expenses and other non-operating expenses, excluding foreign exchange differences.

Certain expenses for the three-month period ended March 31, 2013 were reclassified to conform to the classification for the three-month period ended March 31, 2014.

12. Selling and Administrative Expenses

Details of selling and administrative expenses for the three-month periods ended March 31, 2014 and 2013 are as follows:

(In millions of won)

	2014	2013
Salaries	64,136	59,424
Expenses related to defined benefit plans	9,148	5,497
Other employee benefits	17,629	16,165
Shipping costs	44,894	60,213
Fees and commissions	40,216	50,977
Depreciation	22,525	24,734
Taxes and dues	4,559	7,998
Advertising	26,608	16,083
After-sale service	21,165	22,754
Rent	5,304	6,147
Insurance	3,229	3,610
Travel	5,768	4,747
Training	2,025	3,548
Others	12,370	11,881
	279,576	293,778

Certain expenses for the three-month period ended March 31, 2013 were reclassified to conform to the classification for the three-month period ended March 31, 2014.

13. Other Non-operating Income and Other Non-operating Expenses

(a) Details of other non-operating income for the three-month periods ended March 31, 2014 and 2013 are as follows:

(In millions of won)		
	2014	2013
Rental income	1,935	2,154
Foreign currency gain	167,728	328,809
Gain on disposal of property, plant and equipment	2,765	2,870
Reversal of allowance for doubtful accounts for other		
receivables		292
Commission earned		643
Others	9,525	2,050
	181.953	336,818

(b) Details of other non-operating expenses for the three-month periods ended March 31, 2014 and 2013 are as follows:

2013
25
46,224
159
1,157
1,387
25,586
74,538

14. Employee Benefits

The Controlling Company and certain subsidiaries defined benefit plans provide a lump-sum payment to an employee based on final salary rates and length of service at the time the employee leaves the Controlling Company.

(a) Recognized liabilities for defined benefit plans as of March 31, 2014 and December 31, 2013 are as follows:

Edgar Filing: LG Display Co., Ltd. - Form 6-K

(In millions of won)

	March 31, 2014	December 31, 2013
Present value of partially funded defined		
benefit obligations	866,658	807,738
Fair value of plan assets	(480,563)	(488,651)
	386,095	319,087

14. Employee Benefits, Continued

(b) Expenses recognized in profit or loss for the three-month periods ended March 31, 2014 and 2013 are as follows:

(In millions of won)

	2014	2013
Current service cost	39,137	37,476
Past service cost	21,990	
Net interest cost	3,778	2,106
	64,905	39,582

(c) Plan assets as of March 31, 2014 and December 31, 2013 are as follows:

(In millions of won)

	March 31, 2014	December 31, 2013
Guaranteed deposits in banks	480,563	488,651

As of March 31, 2014, the Group maintains the plan assets primarily with Mirae Asset Securities Co., Ltd. and Shinhan Bank.

(d) Remeasurements of the net defined benefit liability included in other comprehensive income (loss) for the three-month periods ended March 31, 2014 and 2013 are as follows:

(In millions of won)	2014	2013
Remeasurements of the net defined benefit liability	(2,719)	(166)
Income tax	704	(51)
Remeasurements of the net defined benefit liability, net of		
income tax	(2,015)	(217)

15. Finance Income and Finance Costs

(a) Finance income and costs recognized in profit and loss for the three-month periods ended March 31, 2014 and 2013 are as follows:

(In millions of won)

	2014	2013
Finance income		
Interest income	14,036	9,634
Foreign currency gain	14,639	44,323
Gain on disposal of investments in equity accounted investees		3,251
Gain on disposal of available-for-sale financial assets	5	
	28,680	57,208
Finance costs		
Interest expense	27,252	46,758
Foreign currency loss	19,398	79,406
Loss on sale of trade accounts and notes receivable	3,271	5,504
Loss on early redemption of debt	6,986	
Loss on disposal of investments in equity accounted investees	156	1,678
	57,063	133,346

(b) Finance income and costs recognized in other comprehensive income for the three-month periods ended March 31, 2014 and 2013 are as follows:

(In millions of won)

	2014	2013
Net change in fair value of available-for-sale financial assets	830	824
Tax effect	119	(108)
Finance income recognized in other comprehensive income after tax	949	716

16. Commitments

Factoring and securitization of accounts receivable

The Controlling Company has agreements with Korea Development Bank and several other banks for accounts receivable sales negotiating facilities of up to an aggregate of USD 1,813 million (1,938,247 million) and JPY 5,000 million (51,937 million) in connection with the Controlling Company s export sales transactions with its

Edgar Filing: LG Display Co., Ltd. - Form 6-K

subsidiaries. As of March 31, 2014, accounts and notes receivable amounting to USD 358 million (382,522 million) were sold but are not past due. In connection with all of the contracts in this paragraph, the Controlling Company has sold its accounts receivable with recourse.

61

16. Commitments, Continued

The Controlling Company and oversea subsidiaries entered into agreements with financial institutions for accounts receivables sales negotiating facilities. The respective maximum amount of accounts receivables sales and the amount of sold accounts receivables before maturity by contract are as follows:

In connection with all of the contracts in the above table, the Controlling Company has sold its accounts receivable without recourse.

Letters of credit

As of March 31, 2014, the Controlling Company has agreements in relation to the opening of letters of credit up to USD 15 million (16,032 million) with Korea Exchange Bank, USD 15 million (16,032 million) with China Construction Bank, JPY 1,000 million (10,387 million) with Woori Bank, USD 100 million (106,880 million) with Bank of China, USD 60 million (64,128 million) with Sumitomo Mitsui Banking Corporation, USD 30 million (32,064 million) with Shinhan Bank.

Payment guarantees

The Controlling Company obtained payment guarantees amounting to USD 8.5 million (9,085 million) and EUR 210 million (308,572 million) from Royal Bank of Scotland and other various banks for a number of occasions including value added tax payments in Poland.

LG Display Japan Co., Ltd. and other subsidiaries are provided with payment guarantees from the Bank of Tokyo-Mitsubishi UFJ and other various banks amounting to JPY 700 million (7,271 million), CNY 880 million (151,624 million), TWD 6 million (210 million) and PLN 0.2 million (70 million), respectively, for their local tax payments.

Credit facility

Edgar Filing: LG Display Co., Ltd. - Form 6-K

LG Display Japan Co., Ltd. and other subsidiaries have entered into short-term credit facility agreements of up to USD 60 million (64,128 million) and JPY 8,000 million (83,098 million) in total, with Mizuho Corporate Bank and other various banks.

License agreements

As of March 31, 2014, in relation to its TFT-LCD business, the Group has technical license agreements with Hitachi Display, Ltd. and others and has a trademark license agreement with LG Corp.

63

16. Commitments, Continued

Long-term supply agreement

In connection with long-term supply agreements, as of March 31, 2014 the Controlling Company s balance of advances received from a customer amount to USD 880 million (940,544 million) in aggregate. The advances received will be offset against outstanding accounts receivable balances after a given period of time, as well as those arising from the supply of products thereafter. The Controlling Company received a payment guarantee amounting to USD 180 million (192,384 million) from the Industrial Bank of Korea relating to advances received.

Pledged Assets

Regarding the secured bank loan amounting to USD 25 million (26,720 million) from the Export-Import Bank of Korea, the Controlling Company provided part of its OLED machinery as pledged assets.

17. Legal proceedings

(a) Patent infringements <u>Industrial Technology Research Institute of Taiwan</u>

In 2012, the United States International Trade Commission (USITC) granted a motion by Industrial Technology Research Institute of Taiwan (ITRI) to add the Controlling Company and LG Display America, Inc. as additional respondents in an investigation under Section 337 of the United States Tariff Act (In the Matter of Certain Devices for Improving Uniformity Used in a Backlight Module and Components Thereof and Products Containing the Same, Investigation No. 337-TA-805). ITRI is seeking an exclusion order which prohibits the importation of televisions and monitors incorporating the Controlling Company s products into the United States for alleged patent infringement. On October 22, 2012, USITC issued a Notice of Initial Determination finding that the Controlling Company and LG Display America, Inc. did not infringe the asserted patent of ITRI. On May 17, 2013, USITC issued a final determination finding that the patent was invalid and the Controlling Company and LG Display America, Inc. had not infringed ITRI s patents. Meanwhile, on June 28, 2013, ITRI appealed the USITC s decision to the United States Court of Appeals for the Federal Circuit (CAFC). The Controlling Company does not have a present obligation for this matter and has not recognized any provision at March 31, 2014. It is not possible to reasonably estimate an amount of potential loss, if any, because the USITC is not statutorily authorized to award damages in Section 337 investigations and the Controlling Company and LG Display America, Inc. do not anticipate any assessment of damages by the USITC regardless of the final outcome of the investigation.

Delaware Display Group LLC and Innovative Display Technologies LLC

In December 2013, Delaware Display Group LLC and Innovative Display Technologies LLC filed a patent infringement case against the Controlling Company and LG Display America, Inc. in the United States District Court for the District of Delaware. The Controlling Company does not have a present obligation for this matter and has not recognized any provision at March 31, 2014. It is not possible to reasonably estimate an amount of potential loss, if any, because the plaintiffs have not provided any information regarding damages.

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Surpass Tech Innovation LLC

In March 2014, Surpass Tech Innovation LLC filed a complaint in the U.S. District Court for the District of Delaware against the Controlling Company and LG Display America, Inc. for alleged patent infringement.

64

17. Legal proceedings, Continued

The Controlling Company does not have a present obligation for this matter and has not recognized any provision at March 31, 2014. It is not possible to reasonably estimate an amount of potential loss, if any, because the plaintiffs have not provided any information regarding damages.

(b) Anti-trust investigations and litigations

In January 2010, the Controlling Company received notice of the antitrust investigation by the Secretariat of Economic Law of Brazil. To date, the investigation by the Secretariat of Economic Law of Brazil is ongoing. The timing and amount of outflows are uncertain and the outcome depends upon the investigation proceedings.

In December 2011, the Korea Fair Trade Commission (the KFTC) imposed a fine of 31,378 million after finding that the Controlling Company and certain of its subsidiaries engaged in anti-competitive activities in violation of Korean fair trade laws. In February 2014, the Seoul High Court annulled the fining decision of the KFTC. In March 2014, the KFTC filed an appeal of the Seoul High Court decision with the Supreme Court of Korea. Any future recovery of the previously paid fine will be recognized when it is virtually certain.

In the United States, direct purchaser class plaintiffs, indirect purchaser class plaintiffs, and several state attorneys general and individual plaintiffs filed complaints against the Controlling Company and other TFT-LCD panel manufacturers alleging violation of the U.S. antitrust laws and related state laws. The Controlling Company is currently defending actions brought by Motorola Mobility, Inc., Electrograph Technologies Corp. and its affiliates, TracFone Wireless Inc., Costco Wholesale Corp., Office Depot, Inc., Interbond Corp. of America (BrandsMart), P.C. Richard & Son Long Island Corp., MARTA Cooperative of America, Inc., ABC Appliance (ABC Warehouse), Schultze Agency Services, LLC (Tweeter), AASI Creditor Liquidating Trust for All American Semiconductor Inc., Tech Data Corp. and its affiliate, CompuCom Systems, Inc., NECO Alliance LLC, Proview Technology, Inc. and its affiliates, Acer America Corp. and its affiliates, and the attorneys general of Illinois, Washington and Oregon. The timing and amounts of outflows are uncertain and the outcomes depend upon the various court proceedings.

In Canada, class action complaints alleging violations of Canada competition laws were filed against the Controlling Company and other TFT-LCD manufacturers in Ontario, British Columbia and Quebec. The Ontario Superior Court of Justice certified the class action complaints filed by the direct and indirect purchasers in May 2011. The Controlling Company is pursuing an appeal of the class certification decision. The actions in Quebec and British Columbia have been stayed. The timing and amount of outflows are uncertain and the outcome depends upon the court proceedings.

While the Group continues its vigorous defense of the various pending proceedings described above, management s assessment of the facts and circumstances could change based upon new information, intervening events and the final outcome of the cases. Consequently, the actual results could be materially different from management s current estimates.

65

18. Capital and Reserves

(a) Share capital

The Controlling Company is authorized to issue 500,000,000 shares of capital stock (par value 5,000), and as of March 31, 2014 and December 31, 2013, the number of issued common shares is 357,815,700. There have been no changes in the capital stock from January 1, 2013 to March 31, 2014.

(b) Reserves

Reserves consist mainly of the following:

Translation reserve

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

Fair value reserve

The fair value reserve comprises the cumulative net change in the fair value of available-for-sale financial assets until the investments are derecognized or impaired.

Mobile and others	919,473	870,045	
	5,587,698	6,803,240	

Revenue by product for the three-month periods ended March 31, 2013 were reclassified to conform to the classification for the three-month periods ended March 31, 2014.

21. Income Taxes

(a) Details of income tax expense for the three-month periods ended March 31, 2014 and 2013 are as follows:

(In millions of won)

	2014	2013
Current tax expense	29,227	35,474
Deferred tax expense	81,339	1,795
Income tax expense	110,566	37,269

21. Income Taxes, Continued

(b) Deferred Tax Assets and Liabilities

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the deferred tax assets at the reporting date will be realized with the Group s estimated future taxable income.

Deferred tax assets and liabilities as of March 31, 2014 and December 31, 2013 are attributable to the following:

(In millions of won)	Ass	sets	Liabi	lities	To	tal
	March, 31, I	December, 31,N	March, 3De	cember, 31	March, 31, D	ecember, 31,

22. Earnings (Loss) Per Share

(a) Basic earnings (loss) per share for the three-month periods ended March 31, 2014 and 2013 are as follows:

(In won and No. of shares)	2014	2013
Profit (loss) attributable to owners of the Controlling Company	(79,951,218,508)	3,899,143,341
Weighted-average number of common stocks outstanding	357,815,700	357,815,700
Earnings (loss) per share	(223)	11

There were no events or transactions that resulted in changes in the number of common stocks used for calculating earnings (loss) per share from January 1, 2013 to March 31, 2014.

(b) Diluted earnings per share are not calculated since there was no potential common stock for the three-month periods ended March 31, 2014 and 2013.

23. Subsequent event

The Controlling Company publicly issued the following debentures after March 31, 2014:

(In millions	of won)

Independent Auditors Review Report

Based on a report originally issued in Korean

To the Board of Directors and Shareholders

LG Display Co., Ltd.:

Reviewed Financial Statements

We have reviewed the accompanying condensed separate interim financial statements of LG Display Co., Ltd. (the Company) which comprise the condensed separate interim statement of financial position as of March 31, 2014, the condensed separate interim statements of comprehensive loss, changes in equity and cash flows for the three-month periods ended March 31, 2014 and 2013, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management s Responsibility for the Condensed Separate Interim Financial Statements

Management is responsible for the preparation and fair presentation of these condensed separate interim financial statements in accordance with Korean International Financial Reporting Standards No. 1034, *Interim Financial Reporting*, and for such internal controls as management determines necessary to enable the preparation of condensed separate interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors Responsibility

Our responsibility is to issue a report on these condensed separate interim financial statements based on our reviews.

We conducted our reviews in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Security and Futures Commission of the Republic of Korea. A review of interim financial information consists principally of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of Korea and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the condensed separate interim financial statements referred to above are not presented fairly, in all material respects, in accordance with Korean International Financial Reporting Standards No. 1034, *Interim Financial Reporting*.

Emphasis of Matter

As discussed in note 17 to the condensed separate interim financial statements, the Company has been or is under investigations by antitrust authorities in several countries with respect to possible anti-competitive activities in the Liquid Crystal Display (LCD) industry and named as defendants in a number of individual lawsuits and class actions in the United States and Canada, respectively, in connection with alleged antitrust violations concerning the sale of LCD panels. The Company estimated and recognized losses related to these investigations and alleged violations.

Edgar Filing: LG Display Co., Ltd. - Form 6-K

However, actual losses are subject to change in the future based on new developments in each matter, or changes in circumstances, which could be materially different from those estimated and recognized by the Company.

Other Matters

The procedures and practices utilized in the Republic of Korea to review such condensed separate interim financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying condensed separate interim financial statements are for use by those knowledgeable about Korean review standards and their application in practice.

We audited the separate statement of financial position as of December 31, 2013, and the related separate statements of comprehensive income, changes in equity and cash flows for the year then ended, which are not accompanying this review report, in accordance with auditing standards generally accepted in the Republic of Korea, and our report thereon, dated February 19, 2014, expressed an unqualified opinion. The accompanying condensed separate statement of financial position of the Company as of December 31, 2013, presented for comparative purposes, is not different from that audited by us from which it was derived in all material respects.

/s/ KPMG Samjong Accounting Corp.

Seoul, Korea

May 2, 2014

This report is effective as of May 2, 2014, the review report date. Certain subsequent events or circumstances, which may occur between the review report date and the time of reading this report, could have a material impact on the accompanying condensed separate interim financial statements and notes thereto. Accordingly, the readers of the review report should understand that the above review report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

1. Organization and Description of Business

LG Display Co., Ltd. (the Company) was incorporated in February 1985 under its original name of LG Soft, Ltd. as a wholly owned subsidiary of LG Electronics Inc. In 1998, LG Electronics Inc. and LG Semicon Co., Ltd. transferred their respective Thin Film Transistor-Liquid Crystal Display (TFT-LCD) related business to the Company. The main business of the Company is to manufacture and sell TFT-LCD panels. The Company is a stock company (Jusikhoesa) domiciled in the Republic of Korea with its address at 128 Yeouidae-ro, Yeongdeungpo-gu, Seoul, the Republic of Korea. In July 1999, LG Electronics Inc. and Koninklijke Philips Electronics N.V. (Philips) entered into a joint venture agreement. Pursuant to the agreement, the Company changed its name to LG.Philips LCD Co., Ltd. However, in February 2008, the Company changed its name to LG Display Co., Ltd. considering the decrease of Philips s share interest in the Company and the possibility of its business expansion to other display products including Organic Light Emitting Diode (OLED) and Flexible Display products. As of March 31, 2014, LG Electronics Inc. owns 37.9% (135,625,000 shares) of the Company s common stock.

As of March 31, 2014, the Company has TFT-LCD manufacturing plants, an OLED manufacturing plant and an Research & Development Center in Paju and TFT-LCD manufacturing plants in Gumi. The Company has overseas subsidiaries located in North America, Europe and Asia.

The Company s common stock is listed on the Korea Exchange under the identifying code 034220. As of March 31, 2014, there are 357,815,700 shares of common stock outstanding. The Company s common stock is also listed on the New York Stock Exchange in the form of American Depository Shares (ADSs) under the symbol LPL. One ADS represents one-half of one share of common stock. As of March 31, 2014, there are 21,597,254 ADSs outstanding.

2. Basis of Presenting Financial Statements

(a) Statement of Compliance

The condensed separate interim financial statements have been prepared in accordance with Korean International Financial Reporting Standards (K-IFRSs) No.1034, *Interim Financial Reporting*. They do not include all of the information required for full annual financial statements and should be read in conjunction with the financial statements of the Company as of and for the year ended December 31, 2013.

These condensed interim financial statements are separate interim financial statements prepared in accordance with K-IFRS No.1027, *Separate Financial Statements*, presented by a parent, an investor in an associate or a venturer in a jointly controlled entity, in which the investments are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investees.

The condensed separate interim financial statements were authorized for issuance by the Board of Directors on April 22, 2014.

89

2. Basis of Presenting Financial Statements, Continued

(b) Basis of Measurement

The condensed separate interim financial statements have been prepared on the historical cost basis except for the following material items in the statements of financial position:

available-for-sale financial assets measured at fair value, and

liabilities for defined benefit plans are recognized as the present value of defined benefit obligations less the fair value of plan assets

(c) Functional and Presentation Currency

The condensed separate interim financial statements are presented in Korean won, which is the Company s functional currency. All amounts in Korean won are in millions unless otherwise stated.

(d) <u>Use of Estimates and Judgments</u>

The preparation of the condensed separate interim financial statements in conformity with K-IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed separate interim financial statements, the significant judgments made by management in applying the Company s accounting policies and the key sources of estimation uncertainty were the same as those applied in its financial statements as of and for the year ended December 31, 2013.

3. Summary of Significant Accounting Policies

The significant accounting policies followed by the Company in the preparation of its condensed separate interim financial statements are the same as those followed by the Company in its preparation of the financial statements as of and for the year ended December 31, 2013, except for the application of K-IFRS No. 1034, *Interim Financial Reporting*, and the amended accounting standards explained below:

(a) <u>Changes to the Significant Accounting Policies</u> Amendment to K-IFRS No. 1032, *Financial Instruments: Presentation*

The Company has applied the amendment to K-IFRS No. 1032, *Financial Instruments: Presentation*, effective January 1, 2014. The amendment improves application guidance of K-IFRS No.1032, *Financial Instruments:*

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Presentation, to clarify criterion of offsetting financial assets and financial liabilities. There is no impact of applying this amendment on the condensed separate interim financial statements for the three-month period ended March 31, 2014.

90

3. Summary of Significant Accounting Policies, Continued

Amendment to K-IFRS No. 1036, Impairment of Assets

The Company has applied the amendment to K-IFRS No. 1036, *Impairment of Assets*, effective January 1, 2014. The amendment improves disclosure guidance of the recoverable amount of cash-generating units to which goodwill or indefinite-lived intangible assets have been allocated. Under the amendments, the recoverable amount is required to be disclosed only when an impairment loss has been recognized or reversed. Furthermore, for consistency purposes, the amendment expands certain disclosure requirements when the recoverable amount of the asset is its fair value less costs of disposal. There is no significant impact of applying this amendment on the condensed separate interim financial statements for the three-month period ended March 31, 2014.

Financial Risk Management

The objectives and policies on financial risk management followed by the Company are consistent with those disclosed in the financial statements as of and for the year ended December 31, 2013.

Inventories

Inventories as of March 31, 2014 and December 31, 2013 are as follows:

(In millions of won)	March 31, 2014	December 31, 2013
Finished goods	514,891	487,990
Work-in-process	595,023	570,008
Raw materials	254,253	240,439
Supplies	317,654	288,205
	1,681,821	1,586,642

For the three-month periods ended March 31, 2014 and 2013, the amount of inventories recognized as cost of sales, inventory write-downs and reversal and usage of inventory write-downs included in cost of sales is as follows:

(In millions of won)	2014	2013
Inventories recognized as cost of sales	5,059,797	6,019,364
Including: inventory write-downs	223,155	159,377
Including: reversal and usage of inventory write-downs	(189,312)	(118,903)
