Harvard Business Review Ranks David Pyott

One of the Top 5 CEOs in the World

Ranking Based on Objective, Long-Term Performance

Irvine, Calif., (October 15, 2014) Allergan, Inc. s (NYSE: AGN) (the Company) Chairman of the Board and Chief Executive Officer, David E.I. Pyott, has been ranked the 4th best-performing CEO in the world by the Harvard Business Review (HBR). Mr. Pyott was selected for this honor out of a total of 832 current CEOs in 30 countries who qualified for consideration by HBR. The complete list, which has been published in HBR s November 2014 issue, ranks CEOs worldwide based upon performance over their entire tenure.

In compiling its list, HBR examined the track records of the CEOs of the S&P Global 1200 who assumed their role between 1995 and April 30, 2012. For each CEO, HBR looked at three quantitative metrics: industry-adjusted shareholder returns, country-adjusted shareholder returns, and increase in market capitalization over the CEO s tenure. HBR designed its methodology to make an objective determination of which global CEOs have had the greatest success delivering results over the long-term. Reputation and anecdote have no bearing on the outcome of the ranking.

Since becoming Allergan s CEO in January 1998, Mr. Pyott has delivered a country-adjusted shareholder return of 1,948% and an industry-adjusted shareholder return of 1,929%. Allergan s increase in market capitalization during this same period has exceeded \$50 billion.
