**Explanatory Note**

Casey's General Stores, Inc. (the Company) is filing this Amendment No. 1 on Form 10-Q/A to its Quarterly Report on Form 10-Q for the quarterly period ended July 31, 2014, originally filed with the Securities and Exchange Commission (SEC) on September 9, 2014, (the Original Filing) to make the following changes:

1. To amend and revise Item 4. Controls and Procedures related to the effectiveness of our disclosure controls and procedures and internal control over financial reporting; and
2. To make revisions for immaterial errors in the consolidated financial statements previously included in the Original Filing.

In the second quarter of fiscal year 2015, through a routine Internal Revenue Service (IRS) examination, management became aware that an inadvertent accounting and reporting error occurred during the fiscal years 2012, 2013, and 2014 and the first quarter of fiscal year 2015. A control deficiency was identified with regards to the review and approval of quarterly federal excise tax returns by management with the requisite skill and knowledge, and recognition of the corresponding liability and expense. The internal controls in place during this time were not responsive to changes in circumstances. While the control deficiency did not result in a material misstatement to the Company's consolidated financial statements for any periods through and including the fiscal year ended April 30, 2014, or unaudited condensed consolidated financial statements for the first fiscal quarter of fiscal year 2015, it did represent a material weakness as of April 30, 2014, since there existed a reasonable possibility that a material misstatement of the Company's annual or interim financial statements would not be prevented or detected on a timely basis. The correction of these immaterial errors is being recognized in revisions to our consolidated financial statements for the fiscal year ended April 30, 2014, filed separately as Amendment No. 1 on Form 10-K/A for the fiscal year ended April 30, 2014, and the unaudited condensed consolidated financial statements for the quarter ended July 31, 2014 in this Amendment No. 1. Pursuant to Rule 12b-15 under the Securities Exchange Act of 1934, as a result of this Amendment No. 1, the certifications pursuant to Rules 13a-14(a)/15(d)-14(a) under the Securities Exchange Act of 1934, as amended and Section 906 of the Sarbanes-Oxley Act of 2002 have been re-executed and refiled as of the date of this Amendment No. 1. As a result, the Exhibit Index in Item 6. of the Quarterly Report is also being amended to reflect the inclusion of the aforementioned updates.

Accordingly, we hereby amend Items 1, 2, 4, and 6 in the Original Filing. Except as described in this Explanatory Note, the Original Filing is unchanged. In particular, except for the events described above, this Amendment No. 1 speaks only as of the date the Original Filing was filed, and has not been updated, amended, or supplemented to

**Table of Contents**

give effect to any subsequent events. Accordingly, forward-looking statements included in this Amendment No. 1 represent the management's views as of the Original Filing was filed and should not be assumed to be accurate as of any date thereafter. This Amendment No. 1 should be read in conjunction with the Original Filing, and any of the Company's other filings with the SEC subsequent to the Original Filing, together with any amendments to those filings.

**FINANCIAL STATEMENTS**

*(Dollars in Thousands, Except Share and Per Share Amounts)*

**1. Presentation of Financial Statements**

The accompanying condensed consolidated financial statements include the accounts and transactions of the Company and its wholly-owned subsidiaries. All material inter-company balances and transactions have been eliminated in consolidation.

**2. Correction of Immaterial Errors**

Subsequent to the year ended April 30, 2014, through a routine IRS examination, the Company identified errors in excise taxes owed on ethanol gallon purchases, that resulted in an understatement of accrued expenses at April 30, 2014 and 2013 and cost of goods sold for the fiscal years ended 2014, 2013 and 2012. The excise tax liability is subject to interest charges and is deductible for income tax purposes. In accordance with the SEC's Staff Accounting Bulletin (SAB) No. 99, Materiality, and SAB No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Consolidated Statements of Income, Balance Sheets, and Cash Flows, management evaluated the materiality of the errors from qualitative and quantitative perspectives and concluded that the errors were immaterial to the Company's historical financial statements. Consequently, the Company has revised its historical financial statements for the quarter ended July 31, 2014 as noted in the tables below.

*In addition, the following notes to the condensed consolidated financial statements have been affected by the revisions for the correction of these immaterial errors: Footnotes 7 and 9.*

## **Table of Contents**

### *3. Basis of Presentation*

*The accompanying condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. Although management believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these interim condensed consolidated financial statements be read in conjunction with the Company's most recent audited financial statements and notes thereto. In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of all normal recurring accruals) necessary to present fairly the financial position as of July 31, 2014 and April 30, 2014, and the results of operations for the three months ended July 31, 2014 and 2013, and cash flows for the three months ended July 31, 2014 and 2013.*

### *4. Revenue Recognition*

*The Company recognizes retail sales of fuel, grocery and general merchandise, prepared food and fountain and commissions on lottery, newspapers, prepaid phone cards, and video rentals at the time of the sale to the customer. Renewable Identification Numbers (RINs) are treated as a reduction in cost of goods sold in the period the Company commits to a price and agrees to sell the RIN. Vendor rebates in the form of rack display allowances are treated as a reduction in cost of goods sold and are recognized pro rata over the period covered by the applicable rebate agreement. Vendor rebates in the form of billbacks are treated as a reduction in cost of goods sold and are recognized at the time the product is sold.*

### *5. Long-Term Debt and Fair Value Disclosure*

*The fair value of the Company's long-term debt is estimated based on the current rates offered to the Company for debt of the same or similar issues. The fair value of the Company's long-term debt was approximately \$894,000 and \$841,000, respectively, at July 31, 2014 and April 30, 2014. The Company has an aggregate \$100,000 line of credit with no balance owed at July 31, 2014 and April 30, 2014, respectively.*

### *6. Disclosure of Compensation Related Costs, Share Based Payments*

*The 2009 Stock Incentive Plan (the Plan), was approved by the Board in June 2009 and approved by the shareholders in September 2009. The Plan replaced the 2000 Option Plan and the Non-employee Director Stock Plan (together, the Prior Plans). There are 3,916,668 shares still available for grant at July 31, 2014. Awards made under the Plan may take the form of stock options, restricted stock or restricted stock units. Each share issued pursuant to a stock option will reduce the shares available for grant by one, and each share issued pursuant to an award of restricted stock or restricted stock units will reduce the shares available for grant by two. We account for stock-based compensation by estimating the fair value of stock options and restricted stock unit awards granted under the Plan using the market price of a share of our common stock on the date of grant. We recognize this fair value as an operating expense in our consolidated statements of income ratably over the requisite service period using the straight-line method, as adjusted for certain retirement provisions. Additional information regarding the Plan is provided in the Company's 2009 Proxy Statement.*

**Table of Contents**

*On June 7, 2013 and June 19, 2013, restricted stock units with respect to a total of 77,650 shares were granted to certain officers and key employees. These awards were granted at no cost to the grantee. These awards will vest on June 7, 2016.*

*On September 13, 2013, restricted stock units totaling 14,000 shares were granted to the non-employee members of the Board. This award was granted at no cost to the non-employee members of the Board. This award vested on May 1, 2014.*

*On June 6, 2014, restricted stock units with respect to a total of 91,000 shares were granted to certain officers and key employees. These awards were granted at no cost to the grantee. The fair value of these awards was \$6,584. These awards will vest on June 6, 2017.*

*At July 31, 2014, options for 645,124 shares (which expire between 2014 and 2021) were outstanding for the Plan and Prior Plans. Information concerning the issuance of stock options under the Plan and Prior Plans is presented in the following table:*

	Number of option shares	Weighted average option exercise price
Outstanding at April 30, 2014	712,024	\$ 36.73
Granted		
Exercised	(66,900)	40.27
Forfeited		
Outstanding at July 31, 2014	645,124	\$ 36.36

*At July 31, 2014, all outstanding options had an aggregate intrinsic value of \$19,231 and a weighted average remaining contractual life of 5.8 years. The vested options totaled 645,124 shares with a weighted average exercise price of \$36.36 per share and a weighted average remaining contractual life of 5.8 years. The aggregate intrinsic value for the vested options as of July 31, 2014, was \$19,231. The aggregate intrinsic value for the total of all options exercised during the three months ended July 31, 2014, was \$2,018. The fair value of options vested during the quarter ended July 31, 2014 was \$6,270.*

**Table of Contents**

Information concerning the issuance of restricted stock units under the Plan is presented in the following table:

Unvested at April 30, 2014	148,546
Granted	91,000
Vested	(38,198)
Forfeited	(6,136)
Unvested at July 31, 2014	195,212

Total compensation costs recorded for the three months ended July 31, 2014 and 2013, respectively, were \$1,632 and \$1,044 for the stock option and restricted stock unit awards. As of July 31, 2014, there were no unrecognized compensation costs related to the Plan for stock options and \$9,312 of unrecognized compensation costs related to restricted stock units which are expected to be recognized ratably through fiscal 2018.

### 7. Acquisitions

Due to the immaterial error discussed in this Amendment No. 1, amounts in this footnote have been revised. For further discussion of the revision, see footnote 2, Correction of Immaterial Errors

During the first three months of fiscal 2015, the Company acquired 25 stores through one transaction with a third party. The stores were valued using a discounted cash flow model on a location by location basis. The acquisitions were recorded in the financial statements by allocating the purchase price to the assets acquired, including intangible assets and liabilities assumed, based on their estimated fair values at the acquisition date. The excess of the cost of the acquisition over the net amounts assigned to the fair value of the assets acquired and the liabilities assumed is recorded as goodwill. All of the goodwill associated with these transactions will be deductible for income tax purposes over 15 years.

Allocation of the purchase price for the transaction in aggregate is as follows (in thousands):

<i>Assets acquired:</i>	
<i>Inventories</i>	\$ 2,208
<i>Property and equipment</i>	22,075
<i>Total assets</i>	24,283
<i>Liabilities assumed:</i>	
<i>Accrued expenses</i>	34
<i>Total liabilities</i>	34
<i>Net tangible assets acquired, net of cash</i>	24,249
<i>Goodwill and other intangible assets</i>	6,525
<i>Total consideration paid, net of cash acquired</i>	\$ 30,774

**Table of Contents**

The allocation of the purchase price to assets acquired and liabilities assumed is preliminary pending finalization of management's analysis.

The following unaudited pro forma information presents a summary of our consolidated results of operations as if the transaction referenced above occurred at the beginning of the first fiscal year of the periods presented (amounts in thousands, except per share data)(all acquisitions from the three month period ended July 31, 2014 were completed in May):

	Three months ended	
	July 31,	
	2014	2013
Total revenues	\$ 2,291,186	2,210,709
Net earnings	50,097	55,793
<b>Earnings per common share:</b>		
Basic	\$ 1.30	1.45
Diluted	\$ 1.28	1.44

#### 8. Commitments and Contingencies

As previously reported, the Company was named as a defendant in four lawsuits (hot fuel cases) brought in the federal courts in Kansas and Missouri against a variety of fuel retailers, which were consolidated in the U.S. District Court for the District of Kansas in Kansas City, Kansas as part of the multidistrict Motor Fuel Temperature Sales Practices Litigation. On November 20, 2012, the Court preliminarily approved the previously-reported settlement involving the Company, which when approved in final form by the Court following notice to the Class would result in the settlement and dismissal of all claims against Casey's in the multidistrict litigation. The preliminarily approved settlement includes, but is not limited to, a commitment on the part of the Company to sticker certain information on its fuel pumps and make a monetary payment (which is not considered to be material in amount) to the plaintiff class.

From time to time we may be involved in other legal and administrative proceedings or investigations arising from the conduct of our business operations, including contractual disputes; employment or personnel matters; personal injury and property damage claims; and claims by federal, state, and local regulatory authorities relating to the sale of products pursuant to licenses and permits issued by those authorities. Claims for compensatory or exemplary damages in those actions may be substantial. While the outcome of such litigation, proceedings, investigations, or claims is never certain, it is our opinion, after taking into consideration legal counsel's assessment and the availability of insurance proceeds and other collateral sources to cover potential losses, that the ultimate disposition of such matters currently pending or threatened, individually or cumulatively, will not have a material adverse effect on our consolidated financial position and results of operation.

---

**Table of Contents**

*9. Unrecognized Tax Benefits*

*Due to the immaterial error discussed in this Amendment No. 1, amounts in this footnote have been revised. For further discussion of the revision, see footnote 2, Correction of Immaterial Errors*

*The total amount of gross unrecognized tax benefits was \$9,244 at April 30, 2014. At July 31, 2014, gross unrecognized tax benefits were \$9,736. If this unrecognized tax benefit were ultimately recognized, \$6,451 is the amount that would impact our effective tax rate. The total amount of accrued interest and penalties for such unrecognized tax benefits was \$189 at July 31, 2014, and \$402 at April 30, 2014. Net interest and penalties included in income tax expense for the three months ended July 31, 2014, was a net benefit of \$213 and an expense of \$94 for the same period of 2013.*

*A number of years may elapse before an uncertain tax position is audited and ultimately settled. It is difficult to predict the ultimate outcome or the timing of resolution for uncertain tax positions. It is reasonably possible that the amount of unrecognized tax benefits could significantly increase or decrease within the next twelve months. These changes could result from the expiration of the statute of limitations, examinations or other unforeseen circumstances. The Company currently has no ongoing federal or state income tax examinations. The Company does not have any outstanding litigation related to tax matters. At this time, management expects the aggregate amount of unrecognized tax benefits to decrease by approximately \$2,549 within the next 12 months. The expected decrease is due to the expiration of the statute of limitations related to certain federal and state income tax filing positions.*

*The federal statute of limitation remains open for the tax years 2010 and forward. Tax years 2009 and forward are subject to audit by state tax authorities depending on open statute of limitations waivers and the tax code of each state.*

*In July 2013, the Financial Accounting Standards Board issued Accounting Standards Update No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists to provide guidance on the presentation of unrecognized tax benefits. The pronouncement requires unrecognized tax benefits to be offset on the balance sheet by any same-jurisdiction net operating loss or tax credit carryforward that would be used to settle the position with a tax authority. The pronouncement was adopted by the Company effective May 1, 2014. The adoption did not have a material impact on our financial statements.*

*10. Segment Reporting*

*As of July 31, 2014 we operated 1,837 stores in fourteen states. Our stores offer a broad selection of merchandise, fuel and other products and services designed to appeal to the convenience needs of our customers. We manage the business on the basis of one operating segment and therefore, have only one reportable segment. Our stores sell similar products and services, use similar processes to sell those products and services, and sell their products and services to similar classes of customers. We make specific disclosures concerning the three broad merchandise categories of fuel, grocery & other merchandise, and prepared food and fountain because it makes it easier for us to discuss*

**Table of Contents**

*trends and operational initiatives within our business and industry. Although we can separate gross margins within these categories (and further sub-categories), the operating expenses associated with operating a store that sells these products are not separable by these three categories.*

*11. Subsequent Events*

*Events that have occurred subsequent to July 31, 2014 have been evaluated for disclosure through the filing date of this Quarterly Report on Form 10-Q/A (Amendment No. 1) with the SEC.*

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Dollars in Thousands).**

**Overview**

Casey's General Stores, Inc. (Casey's) and its wholly-owned subsidiaries (Casey's, together with its subsidiaries, are referred to herein as the Company) operate convenience stores primarily under the name Casey's General Store (hereinafter collectively referred to as Casey's Store or Stores) in fourteen Midwestern states, primarily Iowa, Missouri and Illinois. The Company also operates one stand-alone pizza delivery and carry-out store and one store selling primarily tobacco products. On July 31, 2014, there were a total of 1,837 Casey's Stores in operation. All convenience stores offer fuel for sale on a self-serve basis and most stores carry a broad selection of food (including freshly prepared foods such as pizza, donuts and sandwiches), beverages, tobacco products, health and beauty aids, automotive products and other non-food items. The Company derives its revenue primarily from the retail sale of fuel and the products offered in its stores.

Approximately 57% of all Casey's Stores are located in areas with populations of fewer than 5,000 persons, while approximately 17% of all stores are located in communities with populations exceeding 20,000 persons. The Company operates a central warehouse, the Casey's Distribution Center, adjacent to its Corporate Headquarters facility in Ankeny, Iowa, through which it supplies grocery and general merchandise items to stores. At July 31, 2014, the Company owned the land at 1,832 locations and the buildings at 1,820 locations, and leased the land at five locations and the buildings at 17 locations.

The Company reported diluted earnings per common share of \$1.28 for the first quarter of fiscal 2015. For the same quarter a year-ago, diluted earnings per common share were \$1.39.

During the first fiscal quarter, the Company completed seven new-store constructions, opened four replacement stores, acquired 25 stores, and closed three stores. The annual goal is to build or acquire 72 to 108 stores and replace 25 existing locations.

**Table of Contents**

The first quarter results reflected a 3.0% increase in same-store fuel gallons sold, with an average margin of 18.9 cents per gallon, primarily driven by the continuing benefit of our fuel saver program and \$5,738 of renewable fuel credits. The Company policy is to price to the competition, so the timing of retail price changes is driven by local competitive conditions.

Same-store sales of grocery and other merchandise increased 7.7% and prepared foods and fountain increased 11.1% during the first quarter. Operating expenses increased 13.1% in the quarter primarily due to 88 more stores in operation compared to the same period a year ago, and the expansion of our operating initiatives in our stores (expanded hours at select locations, stores with pizza delivery, and major remodels).

**Three Months Ended July 31, 2014 Compared to Three Months Ended July 31, 2013 (1)**

*(Dollars and Amounts in Thousands)*

	<b>Grocery &amp; Other</b>				<b>Prepared Food &amp; Fountain</b>	<b>Other</b>	<b>Total</b>
<b>Three months ended 7/31/14</b>	<b>Fuel</b>	<b>Merchandise</b>					
Revenue	\$ 1,607,126	478,586	194,610	10,864		2,291,186	
Gross profit	87,872	155,683	116,511	10,848		370,914	
Margin	5.5%	32.5%	59.9%	99.9%		16.2%	
Fuel gallons	464,214						
	<b>Grocery &amp; Other</b>				<b>Prepared Food</b>	<b>Other</b>	<b>Total</b>
<b>Three months ended 7/31/13</b>	<b>Fuel</b>	<b>Merchandise</b>					
Revenue	\$ 1,514,874	423,585	166,248	10,042		2,114,749	
Gross profit	91,227	138,412	102,754	10,028		342,421	
Margin	6.0%	32.7%	61.8%	99.9%		16.2%	
Fuel gallons	426,549						

(1) Due to the immaterial error discussed in this Amendment No. 1, these numbers have been revised from the Original Filing.

Total revenue for the first quarter of fiscal 2015 increased by \$176,437 (8.3%) over the comparable period in fiscal 2014. Retail fuel sales increased by \$92,252 (6.1%) as the number of gallons sold increased by 37,665 (8.8% or \$130,398) while the average retail price per gallon decreased 2.5% (amounting to a \$38,146 decrease). During this same period, retail sales of grocery and general merchandise increased by \$55,001

**Table of Contents**

(13.0%), primarily due to a \$22,807 increase from stores that were built or acquired after April 30, 2013, and a \$10,665 increase from the expansion of our operating initiatives in our stores. Prepared food and fountain sales also increased by \$28,362 (17.1%), due primarily to an \$8,719 increase from stores that were built or acquired after April 30, 2013, and a \$6,462 increase from the expansion of our operating initiatives in our stores.

The other revenue category primarily consists of lottery, prepaid phone cards, newspaper, money orders, car wash, video rental revenues and automated teller machine (ATM) commissions received. These revenues increased \$822 (8.2%) for the first quarter of fiscal 2015 primarily due to the increases in prepaid phone card sales, car wash revenues, and ATM commissions from the comparable period in the prior year.

Total gross profit margin was 16.2% for the first quarter of fiscal 2015, compared to 16.2% for the comparable period in the prior year. The gross profit margin on retail fuel sales decreased (to 5.5%) during the first quarter of fiscal 2015 from the first quarter of the prior year (6.0%). The gross profit margin per gallon also decreased (to \$.1893) in the first quarter of fiscal 2015 from the comparable period in the prior year (\$.2139) primarily due to the decrease of the renewable fuel credits sold this quarter (\$5,738) compared to the comparable quarter in the prior year (\$12,942). The gross profit margin on retail sales of grocery and other merchandise decreased (to 32.5%) from the comparable period in the prior year (32.7%), primarily due to margin pressure on cigarettes. The prepared food margin also decreased (to 59.9%) from the comparable period in the prior year (61.8%) primarily due to higher input costs of cheese, meat, and supplies.

Operating expenses increased 13.1% (\$28,344) in the first quarter of fiscal 2015 from the comparable period in the prior year primarily due to an \$11,716 increase from stores that were built or acquired after April 30, 2013 and a \$5,399 increase from the expansion of our operating initiatives in our stores. Operating expenses as a percentage of total revenue were 10.7% for the first quarter of fiscal 2015 compared to 10.2% for the comparable period in the prior year. The store level operating expenses for open stores not impacted by the initiatives were up approximately 5.0% for the quarter.

Depreciation and amortization expense increased 18.8% to \$36,249 in the first quarter of fiscal 2015 from \$30,501 for the comparable period in the prior year. The increase was due to capital expenditures made during the previous twelve months.

The effective tax rate decreased 40 basis points to 37.3% in the first quarter of fiscal year 2015 from 37.7% in the first quarter of fiscal year 2014. The decrease in the effective tax rate was due to a decline in unrecognized tax benefits from prior period.

Net income decreased by \$3,698 (6.9%). The decrease in net income was attributable primarily to the decrease in renewable fuel credits sold and higher input costs in prepared foods category. However, this was partially offset by increases in same-store sales and having 88 more stores in operation compared to prior year.

**Table of Contents****Use of Non-GAAP Measures**

We define EBITDA as net income before net interest expense, depreciation and amortization, and income taxes. Adjusted EBITDA further adjusts EBITDA by excluding the gain or loss on disposal of assets as well as impairment charges. Both EBITDA and Adjusted EBITDA are not presented in accordance with generally accepted accounting principles in the United States of America ( GAAP ).

We believe EBITDA and Adjusted EBITDA are useful to investors in evaluating our operating performance because securities analysts and other interested parties use such calculations as a measure of financial performance and debt service capabilities, and they are regularly used by management for internal purposes including our capital budgeting process, evaluating acquisition targets, and assessing store performance.

EBITDA and Adjusted EBITDA are not recognized terms under GAAP and should not be considered as a substitute for net income, cash flows from operating activities or other income or cash flow statement data. These measures have limitations as analytical tools, and should not be considered in isolation or as substitutes for analysis of our results as reported under GAAP. We strongly encourage investors to review our financial statements and publicly filed reports in their entirety and not to rely on any single financial measure.

Because non-GAAP financial measures are not standardized, EBITDA and Adjusted EBITDA, as defined by us, may not be comparable to similarly titled measures reported by other companies. It therefore may not be possible to compare our use of these non-GAAP financial measures with those used by other companies.

The following table contains a reconciliation of net income to EBITDA and Adjusted EBITDA for the three months ended July 31, 2014 and 2013:

	Three months ended (1)	
	July 31, 2014	July 31, 2013
Net income	\$ 50,097	53,795
Interest, net	10,506	9,576
Depreciation and amortization	36,249	30,501
Federal and state income taxes	29,744	32,575
<b>EBITDA</b>	<b>\$ 126,596</b>	<b>126,447</b>
Loss on disposal of assets and impairment charges	242	916
<b>Adjusted EBITDA</b>	<b>\$ 126,838</b>	<b>127,363</b>

(1) Due to the immaterial error discussed in this Amendment No. 1, these numbers have been revised from the Original Filing.

For the three months ended July 31, 2014, EBITDA and Adjusted EBITDA were effectively flat with prior year. The primary reasons for this were the decrease in renewable fuel credits sold and higher input costs in prepared foods, offset by a higher store count, same-store sales increases, and higher depreciation.

**Table of Contents**

**Critical Accounting Policies**

Critical accounting policies are those accounting policies that management believes are important to the portrayal of the Company's financial condition and results of operations.

**Inventory.** Inventories, which consist of merchandise and fuel, are stated at the lower of cost or market. For fuel, cost is determined through the use of the first-in, first-out (FIFO) method. For merchandise inventories, cost is determined through the use of the last-in, first-out (LIFO) method for financial and income tax reporting purposes. This is applied to inventory values determined primarily by our FIFO accounting system for warehouse inventories.

Vendor allowances include rebates and other funds received from vendors to promote their products. The Company often receives such allowances on the basis of quantitative contract terms that vary by product and vendor or directly on the basis of purchases made. Vendor rebates in the form of rack display allowances are treated as a reduction in cost of goods sold and are recognized incrementally over the period covered by the applicable rebate agreement. The rack display allowances are funds that we receive from various vendors for allocating certain shelf space to carry their specific products or to introduce new products in our stores for a particular period of time. These funds do not represent reimbursements of specific, incremental, identifiable costs incurred by us in selling the vendor's products. Vendor rebates in the form of billbacks are treated as a reduction in cost of goods sold and are recognized at the time the product is sold. Reimbursements of an operating expense (e.g., advertising) are recorded as reductions of the related expense.

**Goodwill.** Goodwill and intangible assets with indefinite lives are tested for impairment at least annually. The Company assesses impairment annually at year-end using a market based approach to establish fair value. All of the goodwill assigned to the individual stores is aggregated into a single reporting unit due to the similar economic characteristics of the stores. As of July 31, 2014, there was \$126,931 of goodwill. Management's analysis of recoverability completed as of the fiscal year end yielded no evidence of impairment and no events have occurred since the annual test indicating a potential impairment.

**Long-lived Assets.** The Company periodically monitors under-performing stores to assess whether the carrying amount of assets may not be recoverable. If the sum of the expected future undiscounted cash flows is less than the carrying amount of the assets, an impairment loss is recognized to the extent the carrying value of the assets exceeds their estimated fair value. Fair value is based on management's estimate of the future cash flows to be generated and the amount that could be realized from the sale of assets in a current transaction between willing parties, which are considered Level 3 inputs. The estimate is derived from offers, actual sale or disposition of assets subsequent to the

**Table of Contents**

reporting period, and other indications of fair value. In determining whether an asset is impaired, assets are grouped at the lowest level for which there are identifiable cash flows that are largely independent of the cash flows of other groups of assets, which for the Company is generally on a store-by-store basis. Management expects to continue its on-going evaluation of under-performing stores, and may periodically sell specific stores where further operational and marketing efforts are not likely to improve their performance. The Company incurred impairment charges of \$132 and \$686 during the three months ended July 31, 2014 and 2013, respectively. Impairment charges are a component of operating expenses.

**Self-insurance.** The Company is primarily self-insured for employee health care, workers' compensation, general liability, and automobile claims. The self-insurance claim liability is determined actuarially at each year end based on claims filed and an estimate of claims incurred but not yet reported. Actuarial projections of the losses are employed due to the high degree of variability in the liability estimates. Some factors affecting the uncertainty of claims include the time frame of development, settlement patterns, litigation and adjudication direction, and medical treatment and cost trends. The liability is not discounted.

**Liquidity and Capital Resources (Dollars in Thousands)**

Due to the nature of the Company's business, cash provided by operations is the Company's primary source of liquidity. The Company finances its inventory purchases primarily from normal trade credit aided by the relatively rapid turnover of inventory. This turnover allows the Company to conduct its operations without large amounts of cash and working capital. As of July 31, 2014, the Company's ratio of current assets to current liabilities was .92 to 1. The ratio at July 31, 2013 and April 30, 2014 was 1.07 to 1 and 1 to 1 respectively. Management believes that the Company's current aggregate \$100,000 bank line of credit, together with the current cash and cash equivalents and the future cash flow from operations will be sufficient to satisfy the working capital needs of our business.

Net cash provided by operations decreased \$21,876 (15.8%) in the three months ended July 31, 2014 from the comparable period in the prior year, primarily as a result of a reduced net income, and smaller increases in accounts payable and accrued expenses. This was partially offset by a larger increase in depreciation and amortization. Cash used in investing in the three months ended July 31, 2014 increased due to the increase in the store acquisition activity. Cash flows from financing showed a net usage for the period ended July 31, 2014 as compared to a larger net inflow in the prior period, primarily due to the proceeds from long-term debt in the prior period.

Capital expenditures represent the single largest use of Company funds. Management believes that by acquiring and reinvesting in stores, the Company will be better able to respond to competitive challenges and increase operating efficiencies. During the first three months of fiscal 2015, the Company expended \$119,563 primarily for property and equipment, resulting from the construction and remodeling of stores,

**Table of Contents**

compared to \$74,125 for the comparable period in the prior year. The Company anticipates expending between \$360,000 and \$410,000 in fiscal 2015 for construction, acquisition and remodeling of stores, primarily from existing cash and funds generated by operations.

As of July 31, 2014, the Company had long-term debt, net of current maturities, of \$853,545 consisting of \$569,000 in principal amount of 5.22% Senior Notes, \$150,000 in principal amount of 3.67% Senior Notes, Series A, \$50,000 in principal amount of 3.75% Senior Notes Series B, \$75,000 in principal amount of 5.72% Senior Notes, Series A and B, and \$9,545 of capital lease obligations.

To date, the Company has funded capital expenditures primarily from the proceeds of the sale of Common Stock, issuance of 6-1/4% Convertible Subordinated Debentures (which were converted into shares of Common Stock in 1994), the Senior Notes, a mortgage note, existing cash, and funds generated from operations. Future capital needs required to finance operations, improvements and the anticipated growth in the number of stores are expected to be met from cash generated by operations, the bank line of credit, and additional long-term debt or other securities as circumstances may dictate, and are not expected to adversely affect liquidity.

**Cautionary Statements (Dollars in Thousands)**

This Form 10-Q/A, including the foregoing Management's Discussion and Analysis of Financial Condition and Results of Operations, contains various forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements represent the Company's expectations or beliefs concerning future events, including (i) any statements regarding future sales and gross profit percentages, (ii) any statements regarding the continuation of historical trends and (iii) any statements regarding the sufficiency of the Company's cash balances and cash generated from operations and financing activities for the Company's future liquidity and capital resource needs. The words believe, expect, anticipate, intend, estimate, project and similar expressions are used to identify forward-looking statements. The Company cautions that these statements are further qualified by important factors that could cause actual results to differ materially from those in the forward-looking statements, including, without limitations, the following factors described more completely in the Form 10-K for the fiscal year ended April 30, 2014:

**Competition.** The Company's business is highly competitive, and marked by ease of entry and constant change in terms of the numbers and type of retailers offering the products and services found in stores. Many of the food (including prepared foods) and non-food items similar or identical to those sold by the Company are generally available from a variety of competitors in the communities served by stores, and the Company competes with other convenience store chains, gasoline stations, supermarkets, drug stores, discount stores, club stores, mass merchants and fast-food outlets (with respect

**Table of Contents**

to the sale of prepared foods). Sales of such non-fuel items (particularly prepared food items) have contributed substantially to the Company's gross profits from retail sales in recent years. Fuel sales are also intensely competitive. The Company competes with both independent and national brand gasoline stations in the sale of fuel, other convenience store chains and several non-traditional fuel retailers such as supermarkets in specific markets. Some of these other fuel retailers may have access to more favorable arrangements for fuel supply than do the Company or the firms that supply its stores. Some of the Company's competitors have greater financial, marketing and other resources than the Company, and, as a result, may be able to respond better to changes in the economy and new opportunities within the industry.

Fuel operations. Fuel sales are an important part of the Company's sales and earnings, and retail fuel profit margins have a substantial impact on the Company's net earnings. Profit margins on fuel sales can be adversely affected by factors beyond the control of the Company, including the supply of fuel available in the retail fuel market, uncertainty or volatility in the wholesale fuel market, increases in wholesale fuel costs generally during a period and price competition from other fuel marketers. The market for crude oil and domestic wholesale petroleum products is marked by significant volatility, and is affected by general political conditions and instability in oil producing regions such as the Middle East and South America. The volatility of the wholesale fuel market makes it extremely difficult to predict the impact of future wholesale cost fluctuation on the Company's operating results and financial conditions. These factors could materially impact the Company's fuel gallon volume, fuel gross profit and overall customer traffic levels at stores. Any substantial decrease in profit margins on fuel sales or in the number of gallons sold by stores could have a material adverse effect on the Company's earnings.

The Company purchases its fuel from a variety of independent national and regional petroleum distributors. Although in recent years the Company's suppliers have not experienced any difficulties in obtaining sufficient amounts of fuel to meet the Company's needs, unanticipated national and international events could result in a reduction of fuel supplies available for distribution to the Company. Any substantial curtailment in fuel supplied to the Company could adversely affect the Company by reducing its fuel sales. Further, management believes that a significant amount of the Company's business results from the patronage of customers primarily desiring to purchase fuel and, accordingly, reduced fuel supplies could adversely affect the sale of non-fuel items. Such factors could have a material adverse impact upon the Company's earnings and operations.

Tobacco Products. Sales of tobacco products represent a significant portion of the Company's revenues. Significant increases in wholesale cigarette costs and tax increases on tobacco products (such as the past tax increase in Illinois), as well as national and local campaigns to further regulate and discourage smoking in the United States, have had, and are expected to continue having, an adverse effect on the demand for cigarettes sold in our stores. The Company attempts to pass price increases onto its customers, but

**Table of Contents**

competitive pressures in specific markets may prevent it from doing so. These factors could materially impact the retail price of cigarettes, the volume of cigarettes sold by stores and overall customer traffic, and have a material adverse impact on the Company's earnings and profits.

**Environmental Compliance Costs.** The United States Environmental Protection Agency and several states, including Iowa, have established requirements for owners and operators of underground fuel storage tanks (USTs) with regard to (i) maintenance of leak detection, corrosion protection and overfill/spill protection systems; (ii) upgrade of existing tanks; (iii) actions required in the event of a detected leak; (iv) prevention of leakage through tank closings; and (v) required fuel inventory recordkeeping. Since 1984, new Company stores have been equipped with non-corroding fiberglass USTs, including many with double-wall construction, over-fill protection and electronic tank monitoring. The Company currently has 4,159 USTs, of which 3,259 are fiberglass and 900 are steel. Management believes that its existing fuel procedures and planned capital expenditures will continue to keep the Company in substantial compliance with all current federal and state UST regulations.

Several of the states in which the Company does business have trust fund programs with provisions for sharing or reimbursing corrective action or remediation costs incurred by UST owners, including the Company. In each of the years ended April 30, 2014 and 2013, the Company spent approximately \$1,224 and \$899, respectively, for assessments and remediation. During the three months ended July 31, 2014, the Company expended approximately \$430 for such purposes. Substantially all of these expenditures have been submitted for reimbursement from state-sponsored trust fund programs and as of July 31, 2014, approximately \$17,118 has been received from such programs since their inception. Such amounts are typically subject to statutory provisions requiring repayment of the reimbursed funds for non-compliance with upgrade provisions or other applicable laws. No amounts are currently expected to be repaid. The Company has an accrued liability at July 31, 2014 of approximately \$330 for estimated expenses related to anticipated corrective actions or remediation efforts, including relevant legal and consulting costs. Management believes the Company has no material joint and several environmental liability with other parties.

Although the Company regularly accrues expenses for the estimated costs related to its future corrective action or remediation efforts, there can be no assurance that such accrued amounts will be sufficient to pay such costs, or that the Company has identified all environmental liabilities at all of its current store locations. In addition, there can be no assurance that the Company will not incur substantial expenditures in the future for remediation of contamination or related claims that have not been discovered or asserted with respect to existing store locations or locations that the Company may acquire in the future, or that the Company will not be subject to any claims for reimbursement of funds disbursed to the Company under the various state programs or that additional regulations, or amendments to existing regulations, will not require additional expenditures beyond those presently anticipated.

**Table of Contents**

**Other Factors.** Other factors and risks that may cause actual results to differ materially from those in the forward-looking statements include the risk that our cash balances and cash generated from operations and financing activities will not be sufficient for our future liquidity and capital resource needs, tax increases, potential liabilities and expenditures related to compliance with environmental and other laws and regulations, the seasonality of demand patterns, and weather conditions; the increased indebtedness that the Company has incurred to purchase shares of our common stock in our self tender offer; and the other risks and uncertainties included from time to time in our filings with the SEC. We further caution you that other factors we have not identified may in the future prove to be important in affecting our business and results of operations. We ask you not to place undue reliance on any forward-looking statements because they speak only of our views as of the statement dates. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

The Company's exposure to market risk for changes in interest rates relates primarily to our investment portfolio and long-term debt obligations. We place our investments with high-quality credit issuers and, by policy, limit the amount of credit exposure to any one issuer. Our first priority is to reduce the risk of principal loss. Consequently, we seek to preserve our invested funds by limiting default risk, market risk, and reinvestment risk. We mitigate default risk by investing in only high-quality credit securities that we believe to be low risk and by positioning our portfolio to respond appropriately to a significant reduction in a credit rating of any investment issuer or guarantor. The portfolio includes only marketable securities with active secondary or resale markets to ensure portfolio liquidity. We believe an immediate 100-basis-point move in interest rates affecting our floating and fixed rate financial instruments as of July 31, 2014 would have no material effect on pretax earnings.

We do from time to time, participate in a forward buy of certain commodities, primarily cheese and coffee. These contracts are not accounted for as derivatives as they meet the normal purchases exclusion under derivative accounting.

**Item 4. Controls and Procedures.**

(a) Evaluation of disclosure controls and procedures.

In the second quarter of fiscal year 2015, through a routine Internal Revenue Service (IRS) examination, management became aware that an inadvertent accounting and reporting error occurred during the fiscal years 2012, 2013, and 2014 and the first quarter of fiscal year 2015. A control deficiency was identified with regards to the review and approval of quarterly federal excise tax returns by management with the requisite skill and knowledge, and recognition of the corresponding liability and expense. The internal

**Table of Contents**

controls in place during this time were not responsive to changes in circumstances. While the control deficiency did not result in a material misstatement to the Company's consolidated financial statements for any periods through and including the fiscal year ended April 30, 2014, or unaudited condensed consolidated financial statements for the first fiscal quarter of fiscal year 2015, it did represent a material weakness as of April 30, 2014, since there existed a reasonable possibility that a material misstatement of the Company's annual or interim financial statements would not be prevented or detected on a timely basis. The correction of these immaterial errors is being recognized in revisions to our consolidated financial statements for the fiscal year ended April 30, 2014, filed separately as Amendment No. 1 on Form 10-K/A for the fiscal year ended April 30, 2014, and the unaudited condensed consolidated financial statements for the quarter ended July 31, 2014 in this Amendment No. 1.

The Company's chief executive officer and its chief financial officer evaluated the effectiveness of the Company's disclosure controls and procedures (as that term is defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended) as of April 30, 2014. Our chief executive officer and chief financial officer concluded that, as a result of the material weakness in internal control over financial reporting described below, our disclosure controls and procedures were not effective as of April 30, 2014. The Company is amending Item 9A of its Annual Report in a separate filing on Form 10-K/A for the Fiscal Year ended April 30, 2014 as well as Item 4 of its Quarterly Reports in this Amendment No. 1 to reflect the conclusion by management that there was a material weakness in internal control over financial reporting as of the end of the periods covered by these reports.

For purposes of Rule 13a-15(e), the term *disclosure controls and procedures* means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Act (15 U.S.C. 78a et seq.) is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its chief executive and chief financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

(b) Change in Internal Control over Financial Reporting.

Management has identified no changes in internal control during the three months ended July 31, 2014. In connection with our assessment of the effectiveness of internal control over financial reporting at our last assessment date, April 30, 2014, we identified the following deficiency which constituted a material weakness in our internal control related to financial reporting:

**Table of Contents**

Ineffective design and operation of controls regarding the review and approval of quarterly federal excise tax returns by management with the requisite skill and knowledge, and recognition of the corresponding liability and expense.

The internal controls in place at the time and subsequently were not responsive to changes in circumstances. The control deficiency resulted in errors in cost of goods sold, interest expense, net, federal and state income taxes, deferred income taxes, accrued expenses and retained earnings. These errors did not, individually or in the aggregate, result in a material misstatement to the Company's consolidated financial statements for any periods through and including the fiscal year ended April 30, 2014. However such control deficiencies could have resulted in a material misstatement to our annual or interim consolidated financial statements that would not be prevented or detected. Accordingly, management has determined that the lack of an independent control in place to review the federal excise tax returns constituted a material weakness on April 30, 2014.

(c) Remediation.

In the second quarter of fiscal year 2015, management became actively engaged in the planning for, and implementation of, remediation efforts to address the material weakness in our internal control over financial reporting identified above, and included preliminary details of its remediation plans in the Current Report on Form 8-K filed on November 24, 2014. After further discussion, management has determined to clarify and refine those preliminary remediation plans and now has implemented or intends to implement the following steps:

preparation of the federal excise tax returns managed under the authority of the Company's Tax Department;

review and approval of the completed federal excise tax returns by management with the requisite skill and knowledge;

enhance our information technology solutions to facilitate the preparation of the excise tax return and enhance monitoring of the payment of excise taxes;

formalize the process by which the Tax Department will notify return preparers of any changes in the forms used for filings and or any necessary procedural changes to the process;

Management believes the measures described above and others that will be implemented will remediate the material weakness that we have identified. As management continues to evaluate and improve internal control over financial reporting, we may decide to take additional measures to address control deficiencies or determine to modify, or in appropriate circumstances not to complete, certain of the remediation measures contemplated.

**Table of Contents**

Nonetheless, the chief executive officer and chief financial officer believe that the subsequent procedures we performed in connection with our preparation of this Amendment No. 1 provide reasonable assurance that the identified material weakness did not lead to material misstatements in our condensed consolidated financial statements presented in this Amendment No. 1 or in prior periods and that the condensed consolidated financial statements included in this Amendment No. 1 fairly present, in all material respects, our financial position, results of operations and cash flows as of the dates, and for the periods presented, in accordance with U.S. GAAP.

(d) Other.

The Company does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all fraud and material errors. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations on all internal control systems, our internal control system can provide only reasonable assurance of achieving its objectives and no evaluation of controls can provide absolute assurance that all control issues and occurrences of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of internal control is also based in part upon certain assumptions about the likelihood of future events, and can provide only reasonable, not absolute, assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in circumstances, or the degree of compliance with the policies and procedures may deteriorate.

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings**

The information required by this Item is set forth in Note 7 to the unaudited condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q/A and is incorporated herein by this reference.

**Table of Contents**

**Item 1A. Risk Factors**

There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K/A (Amendment No. 1) for the Fiscal Year ended April 30, 2014, filed on December 9, 2014.

**Table of Contents****Item 6. Exhibits.**

The following exhibits are filed with this Report or, if so indicated, incorporated by reference.

Exhibit No.	Description
3.1	Restatement of the Restated and Amended Articles of Incorporation ( <i>incorporated by reference from the Quarterly Report on Form 10-Q for the fiscal quarter ended October 31, 1996</i> ) and Articles of Amendment thereto ( <i>incorporated by reference from the Current Report on Form 8-K filed April 16, 2010, as amended by the Current Report on Form 8-K/A filed April 19, 2010, and the Current Report on Form 8-K filed May 20, 2011</i> ).
3.2(a)	Second Amended and Restated By-laws ( <i>incorporated by reference from the Current Report on Form 8-K filed June 16, 2009</i> ) and Amendments thereto ( <i>incorporated by reference from the Current Reports on Form 8-K filed May 20, 2011, and August 2, 2011, and the Current Report on 8-K filed on June 22, 2012</i> ).
4.8	Note Purchase Agreement dated as of September 29, 2006 among the Company and the purchasers of the 5.72% Senior Notes, Series A and Series B ( <i>incorporated by reference from the Current Report on Form 8-K filed September 29, 2006</i> ).
4.9	Note Purchase Agreement dated as of August 9, 2010 among the Company and the purchasers of the 5.22% Senior Notes ( <i>incorporated by reference from the Current Report on Form 8-K filed August 10, 2010</i> ).
4.10	Note Purchase Agreement dated as of June 17, 2013 among the Company and the purchasers of the 3.67% Series A Notes and 3.75% Series B Notes ( <i>incorporated by reference from the Current Reports on Form 8-K filed June 18, 2013, and December 18, 2013</i> ).
21(a)	Subsidiaries of Casey's General Stores, Inc. ( <i>incorporated by reference from the Annual Report on Form 10-K for the fiscal year ended April 30, 2014</i> ).
31.1	Certification of Robert J. Myers under Section 302 of the Sarbanes Oxley Act of 2002
31.2	Certification of William J. Walljasper under Section 302 of the Sarbanes Oxley Act of 2002
32.1	Certificate of Robert J. Myers under Section 906 of Sarbanes-Oxley Act of 2002
