**Item 7.01 Regulation FD Disclosure**

On January 20, 2015, American Water Works Company, Inc.'s utility subsidiary, California-American Water Company (CAWC), announced a one-year extension in its Cost of Capital filing with the California Public Utilities Commission (the CPUC).

CAWC, along with three other Class A water companies (California Water Service Company, Golden State Water Company, and San Jose Water Company) has reached an agreement with the CPUC to defer the next cost of capital application to March 31, 2016, having met the requirements put forth by the Executive Director of the CPUC. As part of the conditional approval, the four water companies agreed to forgo any adjustment to their authorized cost of capital in 2016, including any change that would otherwise have applied due to the water cost of capital adjustment mechanism. The result is that CAWC's current authorized cost of capital of 8.41% will continue in effect through December 31, 2016.

The information furnished pursuant to Item 7.01 of this Current Report shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into future filings by the Company under the Securities Act of 1933, as amended, or under the Securities Exchange Act of 1934, as amended, unless the Company expressly sets forth in such future filing that such information is to be considered filed or incorporated by reference therein.
