The information in this proxy statement/prospectus is not complete and may be changed. We may not issue these securities until the registration statement filed with the Securities and Exchange Commission is effective. This proxy statement/prospectus is not an offer to sell or exchange securities and is not soliciting an offer to buy or exchange securities in any jurisdiction where the offer or sale is not permitted.

Subject to Completion Dated , 2015

400 Atlantic Street

Stamford, Connecticut 06901

Dear Fellow Stockholders:

As previously announced, Charter Communications, Inc. (Charter) and Comcast Corporation (Comcast) entered into a transactions agreement, dated April 25, 2014 (the Transactions Agreement), which contemplates the following transactions: (1) an asset purchase, (2) an asset exchange and (3) a contribution, spin-off and merger transaction as described in more detail below (the Transactions). The Transactions are expected to be consummated substantially contemporaneously with each other and will be consummated as promptly as practicable following the merger of a subsidiary of Comcast with Time Warner Cable Inc. (Time Warner Cable) as previously announced by Comcast and Time Warner Cable and only if such merger occurs. Pursuant to the Transactions Agreement, Charter and Comcast and certain other parties expect to enter into implementing agreements in furtherance of the transactions contemplated thereby (the Implementing Agreements), including a merger agreement and other related agreements to be entered into by Comcast, Charter, CCH I, LLC (CCH I), a wholly-owned indirect subsidiary of Charter, Midwest Cable, Inc. (GreatLand Connections), a newly-formed wholly-owned subsidiary of Comcast, and certain other parties. The completion of the Transactions will result in CCH I acquiring approximately a net 1.3 million current Time Warner Cable video customers and approximately 33% of the common stock of GreatLand Connections, which will serve approximately 2.5 million of Comcast s current video customers.

Pursuant to Transactions Agreement, or if applicable, the Implementing Agreements, Comcast will cause specified assets and liabilities to be transferred to GreatLand Connections. After such transfer, GreatLand Connections (directly and through its subsidiaries) plans to incur new indebtedness in an amount currently estimated to be approximately \$7.8 billion in the aggregate. The indebtedness will consist of (i) credit facilities to be used to fund cash distributions to Comcast and for general corporate purposes and (ii) notes newly issued by GreatLand Connections to Comcast, which notes will enable Comcast to complete a debt-for-debt exchange whereby one or more financial institutions will exchange debt securities of Comcast for the new GreatLand Connections notes held by Comcast. Comcast will then spin-off GreatLand Connections to Comcast shareholders by distributing all of the GreatLand Connections common stock to Comcast shareholders (the Spin-Off). The Spin-Off will occur after the closing of the Time Warner Cable merger and will be made pro rata to holders of Comcast common stock as of the record date for the Spin-Off.

Prior to the Spin-Off, CCH I will be reorganized to be a direct subsidiary of Charter, and will be converted into a Delaware corporation (New Charter). Immediately after the Spin-Off, CCH I Charter Merger Sub, LLC, a newly-formed wholly-owned subsidiary of New Charter (which we refer to as Charter Merger Sub), will merge with and into Charter with Charter surviving as a wholly-owned subsidiary of New Charter, which will change its name in

connection with the merger to Charter Communications, Inc. As a result of this merger, Charter stockholders will receive one share of New Charter Class A common stock in exchange for every share of Charter Class A common stock they own. New Charter will become the new holding company of Charter and its Class A common stock will be traded on the NASDAQ Stock Market under the same ticker symbol, CHTR, as currently used by Charter.

Concurrently with this merger, CCH I Spinco Sub, LLC, a newly-formed wholly-owned subsidiary of New Charter (which we refer to as GreatLand Connections Merger Sub), will merge with and into GreatLand Connections, with GreatLand Connections surviving. As a result of this merger, GreatLand Connections stockholders will receive New Charter Class A common stock in exchange for a portion of their GreatLand Connections common stock. In connection with the Spin-Off and the merger of GreatLand Connections Merger

Table of Contents

Sub with GreatLand Connections, we currently expect that Comcast shareholders, in addition to retaining their Comcast common stock, will receive approximately _____ shares of GreatLand Connections common stock and _____ shares of New Charter Class A common stock in the aggregate as a result of the transactions or approximately _____ shares of GreatLand Connections common stock and _____ shares of New Charter Class A common stock for every one share of Comcast common stock they own on the record date of the Spin-Off. However, no fractional shares of GreatLand Connections common stock or New Charter Class A common stock will be issued in either of the mergers.

Immediately following the mergers, Comcast shareholders are expected to own approximately _____ % of New Charter s outstanding Class A common stock and approximately 67% of GreatLand Connections outstanding common stock, Charter stockholders are expected to own approximately _____ % of New Charter s outstanding Class A common stock, and New Charter is expected to own approximately 33% of GreatLand Connections outstanding common stock.

Concurrently with the mergers, Charter will exchange with Comcast certain cable systems serving approximately 1.6 million Charter video customers for certain cable systems currently serving approximately 1.5 million Time Warner Cable video customers, in each case together with the relevant customers and the other assets and liabilities primarily related to such systems, in a tax-efficient like-kind exchange. To the extent the EBITDA (as defined in the agreements and further described in the accompanying document) of the exchanged systems for 2014 differs, a cash equalization payment will be made at a valuation of 7.125 times such difference in EBITDA. In addition, there will be a post-closing adjustment between Charter and Comcast to true up for any variance of working capital of the exchanged systems from a normalized level of working capital.

At the same time, Charter will acquire from Comcast certain cable systems currently serving approximately 1.4 million Time Warner Cable video customers, together with the relevant customers and all the other assets and liabilities primarily related to such systems for cash consideration equal to 7.125 times the EBITDA (as defined in the agreements and further described in the accompanying document) of such systems for 2014. The consideration for this asset purchase will be financed with new indebtedness of Charter. Charter will also pay to Comcast amounts representing the tax benefit of the step up it receives in the tax basis of the assets acquired in this asset purchase. Such amounts will be paid as the related tax benefit is realized by Charter over an eight-year period, and an additional payment will be made at the end of such eight-year period in the amount of any remaining tax benefit (on a present value basis) not previously realized by Charter. In addition, there will be a post-closing adjustment between Charter and Comcast to true up for any variance of working capital of the acquired systems from a normalized level of working capital.

After careful consideration, our board of directors has determined that the transactions described above, and in particular the merger of us with Charter Merger Sub and the issuance of shares by New Charter in the merger of GreatLand Connections Merger Sub with GreatLand Connections, are in the best interests of Charter and its stockholders and has approved the mergers. In order to complete the mergers, Charter is seeking the approval of its stockholders for the issuance of New Charter Class A common stock to GreatLand Connections stockholders in the merger of GreatLand Connections Merger Sub with GreatLand Connections (the Share Issuance). You will be asked to vote on a proposal to approve this issuance and a proposal to approve the adjournment or postponement of the special meeting, if necessary or appropriate, to solicit additional proxies in the event that there are not sufficient votes at the time of the special meeting to approve such issuance, at a special meeting of Charter stockholders to be held on _____ at _____.

Our board of directors unanimously recommends that you vote FOR the proposal to approve the Share Issuance and FOR the meeting adjournment proposal. Your vote is very important, regardless of the number of shares you own. Only stockholders who owned shares of Charter Class A common stock at the close of business on _____, 2015 will be entitled to vote at the special meeting. **Whether or not you plan to be present at the special**

meeting, please complete, sign, date and return your proxy card in the enclosed envelope, or authorize the individuals named on your proxy card to vote your shares by calling the toll-free telephone number or by using the Internet as described in the instructions included with your proxy card. If you hold your shares in street name, you should instruct your broker how to vote your shares in accordance with your voting instruction form.

Table of Contents

This proxy statement/prospectus explains the Transactions Agreement, the mergers, the merger agreement and the transactions contemplated thereby and provides specific information concerning the special meeting. **Please review this document carefully. You should carefully consider, before voting, the matters discussed under the heading Risk Factors beginning on page 28 of this proxy statement/prospectus.**

On behalf of our board of directors, I thank you for your support and appreciate your consideration of this matter.

Sincerely,

Thomas M. Rutledge

President and Chief Executive Officer

Neither the Securities and Exchange Commission nor any state securities regulator has approved or disapproved the transactions described in this proxy statement/prospectus, including the mergers, or the New Charter Class A common stock to be issued pursuant to the merger agreement, or determined if this proxy statement/prospectus is accurate or adequate. Any representation to the contrary is a criminal offense.

The date of this proxy statement/prospectus is and this proxy statement/prospectus is being mailed to Charter stockholders on or about .

NOTICE OF SPECIAL MEETING

To the Stockholders of Charter Communications, Inc.:

NOTICE IS HEREBY GIVEN of a special meeting of stockholders of Charter Communications, Inc., a Delaware corporation, which we refer to as Charter, which will be held at , on , at , local time, for the following purposes:

1. to vote on a proposal to approve the issuance of common stock of CCH I, LLC, after its conversion to a corporation, to shareholders of GreatLand Connections in connection with the Agreement and Plan of Merger to be entered into, by and among GreatLand Connections, Charter, CCH I, LLC, Charter Merger Sub, GreatLand Connections Merger Sub and Comcast Corporation and the Transactions Agreement, dated as of April 25, 2014, by and between Comcast and Charter, which we refer to as the Share Issuance ; and
2. to vote on a proposal to approve the adjournment or postponement of the special meeting, if necessary or appropriate, to solicit additional proxies in the event that there are not sufficient votes at the time of the special meeting to approve the Share Issuance, which we refer to as the meeting adjournment proposal.

Charter will transact no other business at the special meeting except such business as may properly be brought before the special meeting or any adjournment or postponement thereof.

The Charter board of directors has fixed the close of business on , 2015 as the record date for the special meeting. Only Charter stockholders of record as of the record date are entitled to receive notice of, and to vote at, the special meeting or any adjournment or postponement thereof. A complete list of such stockholders will be available for inspection by any Charter stockholder for any purpose germane to the special meeting during ordinary business hours for the 10 days preceding the special meeting at Charter s offices at the address on this notice. The eligible Charter stockholder list will also be available at the special meeting for examination by any stockholder present at such meeting.

THE CHARTER BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT CHARTER STOCKHOLDERS VOTE FOR THE SHARE ISSUANCE AND FOR THE MEETING ADJOURNMENT PROPOSAL.

Your vote is very important. Whether or not you expect to attend the special meeting in person, to ensure your representation at the special meeting, we urge you to authorize the individuals named on your proxy card to vote your shares as promptly as possible by (1) accessing the Internet site listed on the proxy card, (2) calling the toll-free number listed on the proxy card or (3) submitting your proxy card by mail by using the provided self-addressed, stamped envelope. If you hold your shares in street name, you should instruct your broker how to vote your shares in

accordance with your voting instruction form. Charter stockholders may revoke their proxy in the manner described in the accompanying proxy statement/prospectus before it has been voted at the special meeting.

By Order of the Board of Directors,

Richard R. Dykhouse

Corporate Secretary

WHERE YOU CAN FIND ADDITIONAL INFORMATION

This proxy statement/prospectus incorporates by reference important business and financial information about Charter from documents filed with the SEC that have not been included herein or delivered herewith. Charter files reports (including annual, quarterly and current reports), proxy statements and other information with the SEC. Copies of Charter's filings with the SEC are available to investors without charge by request made to Charter in writing, by telephone or by email with the following contact information or through Charter's website at www.charter.com:

Charter Communications, Inc.

400 Atlantic Street

Stamford, Connecticut 06901

Attention: Investor Relations

Telephone: (203) 905-7801

In order to receive timely delivery of these materials, you must make your requests no later than five business days before the date of the special meeting.

Charter's filings with the SEC are available to the public over the Internet at the SEC's website at www.sec.gov, or at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Please call 1-800-SEC-0330 for further information on the public reference facilities.

The SEC allows certain information to be incorporated by reference into this proxy statement/prospectus. This means that Charter can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is deemed to be part of this proxy statement/prospectus, except for any information superseded by information contained directly in this proxy statement/prospectus or in any document subsequently filed by Charter that is also incorporated or deemed to be incorporated by reference. This proxy statement/prospectus incorporates by reference the documents set forth below that we have previously filed with the SEC and any future filings by Charter or New Charter under Section 13(a), 13(c), 14 or 15(d) of the Exchange Act from the date of this proxy statement/prospectus to the date the Charter special meeting is held, except, in any such case, for any information therein which has been furnished rather than filed, which shall not be incorporated herein. Subsequent filings with the SEC will automatically modify and supersede information in this proxy statement/prospectus. These subsequent filings contain important information about Charter and its financial condition.

This proxy statement/prospectus, and the registration statement of which this proxy statement/prospectus forms a part, hereby incorporate by reference the following documents which Charter has filed with the SEC:

Charter's annual report on Form 10-K for the year ended December 31, 2013, filed with the SEC on February 21, 2014;

Edgar Filing: CHARTER COMMUNICATIONS, INC. /MO/ - Form PRER14A

Charter's quarterly reports on Form 10-Q for the quarters ended March 31, 2014, June 30, 2014, and September 30, 2014, filed with the SEC on April 30, 2014, July 31, 2014, and October 31, 2014, respectively;

Portions of the Charter Definitive Proxy Statement filed with the SEC on March 27, 2014 that are incorporated by reference into the annual report; and

Charter's current reports on Form 8-K, filed with the SEC on April 19, 2013 (with respect to Exhibits 99.1 and 99.2 only), January 14, 2014, January 21, 2014, January 22, 2014, February 11, 2014, April 28, 2014 (with respect to Item 1.01 and 8.01), May 9, 2014, July 25, 2014, September 18, 2014, October 14, 2014, October 29, 2014 (with respect to Item 8.01), and November 10, 2014 (in each case excluding any information furnished but not filed); and

Charter's Current Report on Form 8-K/A filed with the SEC on September 6, 2013 (with respect to Exhibit 99.3 only).

ABOUT THIS DOCUMENT

Comcast Corporation has supplied certain information contained in this proxy statement/prospectus relating to Comcast and GreatLand Connections Inc. Charter Communications, Inc. has supplied all information contained in or incorporated by reference into this proxy statement/prospectus relating to Charter, CCH I, LLC, Charter Merger Sub, and GreatLand Connections Merger Sub. Comcast and Charter have each contributed certain information relating to the Transactions.

This proxy statement/prospectus forms a part of a registration statement on Form S-4 (Registration No. 333-200809) filed by CCH I, LLC with the SEC to register with the SEC shares of New Charter Class A common stock to be issued pursuant to the Transactions Agreement, dated as of April 25, 2014, among Charter Communications, Inc. and Comcast Corporation. It constitutes a prospectus of CCH I, LLC under Section 5 of the Securities Act of 1933, as amended, and the rules thereunder, with respect to the shares of CCH I, LLC Class A common stock to be issued to GreatLand Connections stockholders and Charter stockholders in the transactions described in this proxy statement/prospectus. It also constitutes a proxy statement under Section 14(a) of the Exchange Act and a notice of meeting and action to be taken with respect to the Charter special meeting of stockholders at which Charter stockholders will consider and vote on the proposal to approve the issuance of shares of New Charter Class A common stock to GreatLand Connections stockholders in connection with the merger of GreatLand Connections Merger Sub into GreatLand Connections as described in this proxy statement/prospectus.

As allowed by SEC rules, this proxy statement/prospectus does not contain all of the information you can find in CCH I, LLC's registration statement or its exhibits. For further information pertaining to Charter, CCH I, LLC and the shares of New Charter Class A common stock to be issued, reference is made to that registration statement and its exhibits. Statements contained in this document or in any document incorporated in this document by reference as to the contents of any contract or other document referred to within this document or other documents that are incorporated by reference are not necessarily complete and, in each instance, reference is made to the copy of the applicable contract or other document filed as an exhibit to the registration statement or otherwise filed with the SEC. Each statement contained in this document is qualified in its entirety by reference to the underlying documents. We encourage you to read the registration statement. You may obtain copies of the Form S-4 (and any amendments to those documents) by following the instructions under Where You Can Find Additional Information. In addition, the Charter, Time Warner Cable and GreatLand Connections customer counts included in this proxy statement/prospectus are based on respective Charter, Time Warner Cable and Comcast reporting methodologies, where there may be small definitional differences, and which may result in small differences in the numbers reported by the respective companies.

HELPFUL INFORMATION

In this document:

Asset Purchase Agreement means the Asset Purchase Agreement by and among Charter, Comcast and certain affiliates of Comcast and Charter expected to be entered into pursuant to the Transactions Agreement.

Charter means Charter Communications, Inc., a Delaware corporation.

Charter Merger means the merger of Charter Merger Sub with and into Charter, with Charter continuing as the surviving entity.

Charter Merger Sub means CCH I Charter Merger Sub, LLC, a Delaware limited liability company, and wholly owned subsidiary of New Charter.

Charter Services Agreement means the Services Agreement between GreatLand Connections and Charter Communications Operating, LLC expected to be entered into pursuant to the Transactions Agreement.

Charter Share Valuation means the volume weighted average trading price of Charter Class A Common Stock on the NASDAQ over the trading days occurring during the 60 consecutive calendar days ending the trading day immediately prior to the Closing Date, as determined by reference to the screen entitled CHTR <EQUITY> AQR as reported by Bloomberg L.P. (without regard to pre-open or after hours trading outside of any regular trading session for such trading days).

Code means the Internal Revenue Code, as amended, together with the rules and regulations promulgated thereunder.

Comcast means Comcast Corporation, a Pennsylvania corporation.

Communications Act means the Communications Act of 1934, as amended, together with the rules and regulations promulgated thereunder.

Contribution means the transfer by Comcast of the GreatLand Connections Systems, together with the relevant customers and all the other assets and liabilities primarily related to the GreatLand Connections Systems to GreatLand Connections, as contemplated by the Separation Agreement.

DGCL means the Delaware General Corporation Law.

DOJ means the Antitrust Division of the Department of Justice.

Exchange means the exchange of certain cable systems, together with the relevant customers and all the other assets and liabilities primarily related to such systems, as contemplated by the Exchange Agreement.

Exchange Act means the Securities Exchange Act of 1934, as amended, together with the rules and regulations promulgated thereunder.

Exchange Agreement means the Exchange Agreement by and among Charter, Comcast and certain affiliates of Charter and Comcast expected to be entered into pursuant to the Transactions Agreement.

Employee Matters Agreement means one or more Employee Matters Agreements between Charter and Comcast expected to be entered into pursuant to the Transactions Agreement.

FCC means the Federal Communications Commission.

FTC means the Federal Trade Commission.

Table of Contents

GreatLand Connections means Midwest Cable Inc., a Delaware corporation and wholly owned subsidiary of Comcast, and which, after the completion of the GreatLand Connections Merger, expects to change its name to GreatLand Connections Inc.

GreatLand Connections Business means the business, operations and activities primarily related to the GreatLand Connections Systems.

GreatLand Connections Merger means the merger of GreatLand Connections Merger Sub with and into GreatLand Connections, with GreatLand Connections continuing as the surviving entity.

GreatLand Connections Merger Consideration means the shares of New Charter common stock to be issued to the holders of GreatLand Connections common stock in the GreatLand Connections Merger.

GreatLand Connections Merger Sub means CCH I Spinco Sub LLC, a Delaware limited liability company and wholly owned subsidiary of New Charter.

GreatLand Connections Systems has the meaning given in the Separation Agreement.

HSR Act means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended.

Implementing Agreements means, as currently contemplated, the Merger Agreement, the Separation Agreement, the Exchange Agreement, the Asset Purchase Agreement, the Tax Matters Agreement and the Shareholder Agreement, and certain other agreements in connection with the Separation, the Purchase and the Exchange.

IRS means the U.S. Internal Revenue Service or any successor thereto, including its agents, representatives and attorneys.

Liberty means Liberty Media Corporation, a Delaware corporation, prior to November 4, 2014, and Liberty Broadband Corporation, a Delaware Corporation, after such date.

Merger Agreement means the Agreement and Plan of Merger by and among GreatLand Connections, Charter, New Charter, Charter Merger Sub, GreatLand Connections Merger Sub and Comcast expected to be entered into pursuant to the Transactions Agreement.

Mergers means the Charter Merger and the GreatLand Connections Merger.

NASDAQ means the NASDAQ Global Select Market.

New Charter means CCH I, LLC, a Delaware limited liability company and wholly owned subsidiary of Charter, which will be converted into a Delaware corporation in accordance with Section 265 of the DGCL and renamed Charter Communications, Inc. in connection with the Charter Merger.

Predecessor Company means Charter and its subsidiaries prior to and through November 30, 2009.

Purchase means the acquisition by Charter of certain cable systems currently owned by Time Warner Cable, together with the relevant customers and all the other assets and liabilities primarily related to such systems, as contemplated by the Asset Purchase Agreement.

SEC means the U.S. Securities and Exchange Commission.

Securities Act means the Securities Act of 1933, as amended, together with the rules and regulations promulgated thereunder.

Table of Contents

Separation Agreement means the Contribution, Separation and Spin-Off Agreement between Comcast and GreatLand Connections expected to be entered into pursuant to the Transactions Agreement.

Share Issuance means the issuance of shares by New Charter in the GreatLand Connections Merger.

Spin-Off means the distribution by Comcast of all of the GreatLand Connections shares to the holders of outstanding shares of Comcast common stock (including former Time Warner Cable stockholders).

Transition Services Agreement means the Transition Services Agreement between Comcast and GreatLand Connections expected to be entered into pursuant to the Transactions Agreement.

Successor Company means Charter and its subsidiaries subsequent to November 30, 2009.

Tax Matters Agreement means the Tax Matters Agreement to be entered into among Comcast, GreatLand Connections and New Charter substantially in the form attached as an Exhibit to the Separation Agreement.

Time Warner Cable means Time Warner Cable Inc., a Delaware corporation.

TWC Merger means the merger between Time Warner Cable and Comcast contemplated by the TWC Merger Agreement.

Transactions means the transactions contemplated by the Separation Agreement, the Merger Agreement, the Exchange Agreement and the Asset Purchase Agreement, which provide, among other things, for the Contribution and Spin-Off, the Mergers, the Exchange and the Asset Purchase, as described in The Transactions.

Transactions Agreement means the Transactions Agreement by and between Comcast and Charter, dated April 25, 2014.

TWC Merger Agreement means the Agreement and Plan of Merger dated as of February 12, 2014, by and among Time Warner Cable, Comcast and Tango Acquisition Sub, Inc.

QUESTIONS AND ANSWERS ABOUT THE TRANSACTIONS AND THE SPECIAL MEETING

*The following are some of the questions and answers that are intended to address briefly some commonly asked questions regarding the Transactions and the special meeting. For more detailed information about the matters discussed in these questions and answers, see *The Transactions*, *The Implementing Agreements* and *The Charter Special Meeting*. These questions and answers, as well as the Summary, are not meant to be a substitute for the information contained in the remainder of this proxy statement/prospectus, and this information is qualified in its entirety by the more detailed descriptions and explanations contained elsewhere in this proxy statement/prospectus. Stockholders are urged to read this proxy statement/prospectus in its entirety. Additional important information is also contained in the annexes to this proxy statement/prospectus. You should pay special attention to the *Risk Factors* and *Cautionary Statement Regarding Forward-Looking Statements* beginning on pages 26 and 43.*

About the Transactions

Q: What are the transactions described in this proxy statement/prospectus?

A: As further described in the next few questions and answers, in *The Transactions* and elsewhere in this proxy statement/prospectus, the Transactions consist of: (i) a contribution of the GreatLand Connections Systems to GreatLand Connections, (ii) a special dividend of cash and GreatLand Connections debt by GreatLand Connections to Comcast, (iii) a debt-for-debt exchange of GreatLand Connections debt held by Comcast for Comcast debt, which we refer to as the debt-for-debt exchange, (iv) the spin-off of GreatLand Connections to Comcast's shareholders, (v) the merger of Charter Merger Sub with and into Charter, resulting in New Charter becoming the publicly traded holding company of Charter, (vi) the merger of GreatLand Connections Merger Sub with and into GreatLand Connections, resulting in New Charter owning approximately 33% of GreatLand Connections outstanding common stock and GreatLand Connections stockholders owning approximately % of New Charter's outstanding Class A common stock, (vii) the like-kind exchange of certain cable systems between Charter and Comcast, (viii) Charter's purchase of certain cable systems from Comcast, and (ix) the other transactions contemplated by the Transactions Agreement.

Q: What will happen in the Contribution and Spin-Off?

A: Comcast has formed a new entity, GreatLand Connections, which will hold and operate the GreatLand Connections Systems, the relevant subscribers and any other assets, investments and businesses primarily related to the GreatLand Connections Systems and will also assume liabilities primarily related to the GreatLand Connections Systems and other assets transferred by Comcast to GreatLand Connections.

GreatLand Connections (directly and through its subsidiaries) is expected to incur new indebtedness in an amount equal to 5.0 times the 2014 EBITDA of the GreatLand Connections Systems (as such term is defined by GreatLand Connections financing sources for purposes of the financing). The indebtedness will consist of (i) credit facilities or new issuance of notes to be used to fund cash distributions to Comcast and for general corporate purposes and (ii) notes newly issued by GreatLand Connections to Comcast, which notes will enable Comcast to complete a debt-for-debt exchange whereby one or more financial institutions will exchange debt securities of Comcast for the new GreatLand Connections notes held by Comcast. In addition, GreatLand Connections is expected to have a \$750 million unfunded revolving line of credit to facilitate day-to-day operations and cash flow.

To effect this debt-for-debt exchange, third-party financial institutions will conduct a debt tender offer for existing Comcast notes and will offer the new GreatLand Connections notes. Charter and Comcast will determine the cap on the expenses to be incurred in connection with the debt tender offer. If the cap is not sufficient to allow purchases in the debt tender offer, or the debt tender offer does not result in actual tenders of notes that would be exchanged for GreatLand Connections notes resulting in GreatLand Connections

Table of Contents

leverage equal to 5.0 times the 2014 EBITDA of the GreatLand Connections Systems, each of Charter and Comcast will have the right to fund additional tender premium at its own expense to increase GreatLand Connections leverage. If the amount of Comcast notes ultimately tendered would, following the exchange for new GreatLand Connections notes, result in GreatLand Connections leverage of less than 2.5 times 2014 EBITDA of the GreatLand Connections Systems, the Transactions may be terminated. If, as a result of the debt-for-debt exchange, the GreatLand Connections leverage is at least 2.5 times but less than 5.0 times 2014 EBITDA of the GreatLand Connections Systems, New Charter will increase the GreatLand Connections Merger Consideration in accordance with the formula described in The Transactions The Mergers. Following the settlement of the debt tender offer, GreatLand Connections notes to be issued to Comcast may be priced in the market on a best-efforts basis, in a principal amount (less original issue discount, if any) equal to the value of tendered Comcast notes, and Comcast may seek to have the banks exchange the GreatLand Connections notes held by Comcast for the tendered Comcast notes.

Following the distribution and debt-for-debt exchange, Comcast will distribute all of the GreatLand Connections shares to the holders of outstanding shares of Comcast common stock in the Spin-Off. The Spin-Off will occur after the closing of the Time Warner Cable merger and will be made pro rata to holders of Comcast common stock as of the record date for the Spin-Off.

Q: What will happen in the Charter Merger?

A: The Charter Merger is a reorganization of Charter that, in itself, is not intended to change the ultimate economic or voting interests of Charter stockholders or the assets or liabilities of Charter and its subsidiaries. Following the Spin-Off, New Charter will convert into a corporation. Charter Merger Sub will merge with and into Charter in the Charter Merger with the effect that each share of Class A common stock of Charter will be converted into one share of Class A common stock of New Charter, and New Charter will survive as the publicly-traded parent company of Charter. The exchange of shares of New Charter Class A common stock for each existing share of Charter Class A common stock is being registered in this registration statement. New Charter will become the new holding company of Charter and its Class A common stock will be traded on the NASDAQ under the same ticker symbol, CHTR, as currently used by Charter.

Q: What will happen in the GreatLand Connections Merger?

A: GreatLand Connections Merger Sub will merge with and into GreatLand Connections, with GreatLand Connections surviving in the GreatLand Connections Merger. In the GreatLand Connections Merger, (i) New Charter will acquire an amount of GreatLand Connections shares (estimated to be approximately 33% of the GreatLand Connections shares) that will result in historic Comcast shareholders (not including former Time Warner Cable stockholders and disregarding public trading for purposes of this calculation) holding at least 50.75% of the GreatLand Connections shares, and (ii) in exchange for a number of GreatLand Connections shares determined as described below. After the Spin-Off, Comcast will not have any ownership interest in GreatLand Connections or New Charter. New Charter will be subject to certain purchase restrictions with respect to the GreatLand Connections shares until the fourth anniversary of the closing of the GreatLand Connections Merger, and Comcast will be subject to certain purchase restrictions with respect to the GreatLand Connections shares until the eighth anniversary of the closing of the GreatLand Connections Merger.

Q: How will the number of shares issued in the Share Issuance be determined?

A: The number of shares issued in the Share Issuance will be determined based upon the following formula. Following the GreatLand Connections Merger, New Charter's ownership percentage in GreatLand Connections will be equal to an amount that will result in historic Comcast shareholders (not including Time Warner Cable stockholders and disregarding public trading for the purposes of this calculation) holding at least 50.75% of the GreatLand Connections' shares. New Charter's ownership percentage in GreatLand Connections is currently estimated to be approximately 33%. To calculate the number of shares issued in the Share Issuance, the enterprise value of GreatLand Connections will be calculated (for purposes of the Share

Table of Contents

Issuance) as the product of 7.125 and the Carveout 2014 EBITDA (as defined in the Transactions Agreement) of the GreatLand Connections systems, plus the fair market value of any non-system assets of GreatLand Connections. From this, the amount of GreatLand Connections indebtedness as of the closing (subject to further adjustment as provided in the Transactions Agreement) will be deducted to estimate the equity value of GreatLand Connections (for purposes of the Share Issuance). This equity value, plus the amount of certain financing fees for the transaction, will be multiplied by New Charter's percentage ownership to obtain the value (for purposes of the Share Issuance) of New Charter's interest in GreatLand Connections.

Once the value of New Charter's interest in GreatLand Connections has been determined, New Charter shares having an equal value will be issued to the stockholders of GreatLand Connections. These New Charter shares will be valued based upon the 60-calendar-day volume weighted average price of Charter shares ending on the last trading day prior to closing.

As an example, if the Carveout 2014 EBITDA is \$1,754 million, the fair value of non-system assets of GreatLand Connections is \$0, the amount of GreatLand Connections debt at closing is \$7,800 million, the amount of certain financing fees for the transaction is \$107 million, and New Charter's ownership percentage in GreatLand Connections is 33.2%, the value of New Charter's interest would be determined (for purposes of the Share Issuance) to be $((7.125 \times 1,754) + 0 - 7,800 + 107) \times 33.2\%$ = approximately \$1,595 million. If the 60-calendar-day volume weighted average price of Charter shares ending on the last trading day prior to closing is equal to \$150, then $1,595 / 150$ = approximately 10.6 million New Charter shares would be issued. If this weighted average price were instead \$140 or \$160, then approximately 11.4 million or approximately 10.0 million New Charter shares, respectively, would be issued to GreatLand Connections' stockholders.

The purpose of the formula-based approach is to align the number of shares to be issued to the most recent and comprehensive financial information relating to GreatLand Connections and the value of Charter shares at the time of the Share Issuance. Because the number of shares to be issued is based on a formula and on financial information that is still being prepared and audited, the Transactions Agreement also provides for a review process to allow Charter and GreatLand Connections to verify the basis of the calculation. If this review is completed post-closing, there will be a post-closing adjustment in the form of a cash payment from GreatLand Connections to Comcast or from Comcast to GreatLand Connections and there will be no accompanying change in the number of shares to be issued.

Immediately following the Mergers, Comcast shareholders are expected to own approximately 33% of New Charter's outstanding Class A common stock and approximately 67% of GreatLand Connections' outstanding common stock, Charter stockholders are expected to own approximately 67% of New Charter's outstanding Class A common stock, and New Charter is expected to own approximately 33% of GreatLand Connections' outstanding common stock.

Q: What will happen in the Exchange?

At closing, Charter will exchange with Comcast certain systems serving approximately 1.6 million Charter video customers for certain cable systems currently serving approximately 1.5 million Time Warner Cable video customers, in each case together with the relevant subscribers and all other assets and liabilities primarily related to such systems in a tax-efficient like-kind exchange. To the extent Carveout 2014 EBITDA (as defined in the Exchange Agreement) of the exchanged systems differs, a cash equalization payment will be made at a valuation of 7.125 times such difference in EBITDA. In addition, there will be a post-closing adjustment between Charter and Comcast to true up for any variance of working capital of the exchanged systems from a normalized level of working capital.

Q: What will happen in the Purchase?

At closing, Charter will acquire from Comcast certain cable systems currently owned by Time Warner Cable and not included in the Exchange, currently serving approximately 1.4 million Time Warner Cable

Table of Contents

video customers, together with the relevant subscribers and all the other assets and liabilities primarily related to such systems for cash consideration equal to 7.125 times Carveout 2014 EBITDA (as defined in the Asset Purchase Agreement) of such systems. The consideration for the Purchase will be financed with new indebtedness of Charter, a substantial portion of which is currently held in escrow pending the closing of the Transactions. Charter will also pay to Comcast amounts representing the tax benefit of the step-up it receives in the tax basis of the assets acquired in the Purchase. Such amounts will be paid as the related tax benefit is realized by Charter over an eight-year period, and an additional payment will be made at the end of such eight-year period in the then-present value of any remaining tax benefit.

Q: Who will serve on the New Charter board of directors following completion of the Mergers?

A: The directors of New Charter following the closing of the Mergers are expected to be the directors of Charter immediately prior to the closing of the Mergers.

Q: Will Charter's current senior management team manage the business of New Charter and Charter after the Transactions?

A: Yes. Charter anticipates that its senior management team will continue to manage the business of New Charter and Charter after the Transactions. See The Transactions Board of Directors and Executive Officers of New Charter Following the Merger; Operations Following the Merger .

Q: Will Charter incur indebtedness in connection with the Transactions?

A: Yes. The consideration for the Purchase will be financed with new indebtedness of Charter. This financing, subject to certain conditions, has been committed or obtained and to the extent obtained is being held in escrow pending the closing of the Transactions. Charter obtained \$8.4 billion of committed financing from several leading investment banks, of which \$7.0 billion has been raised and is currently held in escrow. The funds currently held in escrow include a \$3.5 billion Term Loan G and \$3.5 billion principal amount of new Senior Notes due 2022 and 2024. An additional \$1.0 billion has been committed, but not issued, as Term Loan A-2 leaving \$400 million of committed financing outstanding. In addition to the committed financing, Charter has secured an incremental senior secured revolving credit facility equal to \$500 million. See Debt Financing .

Q: How will the rights of stockholders of Charter change after the Charter Merger?

A: The rights of stockholders of Charter will not change as a result of the Charter Merger. The amended and restated certificate of incorporation and amended and restated bylaws of New Charter will grant stockholders the same rights as the amended and restated certificate of incorporation and amended and restated bylaws of Charter before the Charter Merger.

Q: What are the material tax consequences to Charter and GreatLand Connections stockholders resulting from the Charter Merger and the GreatLand Connections Merger?

A: The parties intend for the Charter Merger and the GreatLand Connections Merger, taken together, to qualify as a transaction described in Section 351 of the Code. The obligation of Charter, New Charter, Charter Merger Sub and GreatLand Connections Merger Sub to complete the Mergers is conditioned upon the receipt of an opinion from Wachtell, Lipton, Rosen & Katz, special counsel to Charter, to the effect that the Mergers, taken together, will be treated as a transaction described in Section 351 of the Code. The obligation of Comcast and GreatLand Connections to complete the GreatLand Connections Merger is conditioned upon Comcast's receipt of an opinion from Davis Polk & Wardwell LLP, counsel to Comcast, to the effect that the Mergers, taken together, will be treated as a transaction described in Section 351 of the Code. These opinions will be based upon representations made by Comcast, Charter, New Charter, Charter Merger Sub, GreatLand Connections Merger Sub and GreatLand Connections.

Table of Contents

Accordingly, and based on the foregoing opinions, a holder of Charter Class A common stock or GreatLand Connections Class A-1 common stock will not recognize any gain or loss on the exchange of such holder's stock for New Charter Class A common stock in the Charter Merger or the GreatLand Connections Merger, as applicable, except, in the case of GreatLand Connections stockholders, for any gain or loss recognized with respect to cash received in lieu of a fractional share of New Charter Class A common stock.

For a more detailed discussion of the material United States federal income tax consequences of the Charter Merger and the GreatLand Connections Merger, see [Material U.S. Federal Income Tax Consequences](#) .

The tax consequences of the Transactions to each Charter and GreatLand Connections stockholder may depend on such holder's particular facts and circumstances. Charter and GreatLand Connections stockholders are urged to consult their tax advisors to understand fully the consequences to them of the Transactions in their specific circumstances.

Q: Does Charter have to pay anything to Comcast or GreatLand Connections if the Share Issuance is not approved by the Charter stockholders or if the Transactions are otherwise terminated?

A: Although each of Charter, Comcast and GreatLand Connections will have the right to terminate the Transactions under certain circumstances, no termination fee is payable in connection with such termination. However, if the Transactions are terminated under certain circumstances, including if the Share Issuance is not approved by the Charter stockholders, Charter will reimburse certain expenses incurred by or on behalf of GreatLand Connections in connection with the Transactions. In addition, if the Transactions are terminated under certain other circumstances, a percentage of certain expenses incurred by or on behalf of GreatLand Connections in connection with the Transactions equal to the percentage ownership of GreatLand Connections that New Charter would have received at closing will be reimbursed by Charter. For a discussion of the circumstances under which Charter, Comcast and GreatLand Connections will have the right to terminate the Merger Agreement, see [The Implementing Agreements](#) [The Merger Agreement](#) [Termination](#) .

Q: Does GreatLand Connections or Comcast have to pay anything to Charter if the Transactions are terminated?

A: Although each of Charter, Comcast and GreatLand Connections will have the right to terminate the Transactions under certain circumstances, no termination fee is payable in connection with such termination. However, if the Transactions are terminated under certain circumstances, Comcast will reimburse certain expenses incurred by GreatLand Connections Merger Sub on behalf of GreatLand Connections in connection with the Transactions. In addition, if the Transactions are terminated under certain other circumstances, a percentage of certain expenses incurred by GreatLand Connections Merger Sub on behalf of GreatLand Connections in connection with the Transactions equal to the percentage ownership of GreatLand Connections that Comcast shareholders would have held immediately following the Transactions will be reimbursed by Comcast. Further, we have incurred significant interest costs in connection with the Purchase and legal and regulatory expenses to prepare the Charter Services Agreement for GreatLand Connections, none of which costs will be reimbursed if the Transactions are terminated. For a discussion of the circumstances under which Charter, Comcast and GreatLand Connections will have the right to terminate the Merger Agreement, see [The Implementing Agreements](#) [The Merger Agreement](#) [Termination](#) .

Q: Are there risks associated with the Transactions?

A: Yes. Charter may not realize the expected benefits of the Transactions because of the risks and uncertainties discussed in Risk Factors and Cautionary Statement Regarding Forward-Looking Statements. These risks include, among others, risks relating to the uncertainty that the Transactions will close, the uncertainty that GreatLand Connections will be able to operate successfully as a standalone company, and uncertainties relating to the performance of Charter and GreatLand Connections after the Transactions. In addition, the value of Charter's shares of GreatLand Connections common stock going forward may be affected by risks

Table of Contents

associated with GreatLand Connections separation from Comcast and operations, as discussed in Risk Factors and Cautionary Statement Regarding Forward-Looking Statements.

Q: Can Charter stockholders demand appraisal of their shares?

A: No. Charter stockholders do not have appraisal rights under Delaware law in connection with the Contribution and Spin-Off, the Mergers, the Exchange or the Purchase.

Q: Does the Company intend to proceed with the Transactions in the event that shareholder approval is not obtained?

A: In the Transactions Agreement, Charter agreed to hold a shareholder meeting for the purposes of obtaining the requisite vote. The vote would only be required under NASDAQ rules if Charter is to issue 20% or more of its shares. If Charter stockholders do not approve the Share Issuance, Charter will consider whether to proceed with the Transactions in light of any applicable NASDAQ rules, Charter and Comcast's termination rights, and other contractual restrictions.

Q: When will the Transactions be completed?

A: We expect the Transactions to close 30 to 60 days from the closing of the TWC Merger.

About the Special Meeting

Q: What are Charter stockholders being asked to vote on at the special meeting?

A: Charter stockholders are being asked to approve the issuance of New Charter Class A common stock in connection with the GreatLand Connections Merger, which we refer to as the Share Issuance, as the vote may be required in certain circumstances in accordance with NASDAQ rules. The Charter stockholder approval of the Share Issuance proposal is a condition to the completion of the Transactions unless it is not required under applicable law. Charter shareholders are not being asked to vote on the issuance of New Charter Class A common stock to existing Charter shareholders in connection with the Charter Merger.

Charter stockholders are also being asked to approve the adjournment or postponement of the special meeting, if necessary or appropriate, to solicit additional proxies in the event that there are not sufficient votes at the time of the special meeting to approve the Share Issuance, which we refer to as the meeting adjournment proposal. The approval by Charter stockholders of the meeting adjournment proposal is not a condition to the completion of the Transactions.

Pursuant to the Transactions Agreement, Charter's board of directors may, in its sole discretion, change its recommendation with respect to the shareholder meeting if the board determines in good faith, after consultation with its outside legal counsel, that failure to take such action would be inconsistent with its fiduciary duty.

Q: When and where is the special meeting of Charter stockholders?

A: The special meeting of Charter stockholders will be held on , at , local time, at .

Q: Who can vote at the special meeting of Charter stockholders?

A: Only stockholders who own Charter Class A common stock of record at the close of business on , 2015 are entitled to vote at the special meeting. Each holder of Charter Class A common stock is entitled to one vote per share. There were shares of Charter Class A common stock outstanding on .

Table of Contents

Q: How does the Charter board of directors recommend that Charter stockholders vote?

A: The Charter board of directors has determined that the Transactions and the Transactions Agreement are advisable, fair to, and in the best interests of Charter and its stockholders. Accordingly, the Charter board of directors unanimously recommends that Charter stockholders vote **FOR** the proposal to approve the Share Issuance and **FOR** the meeting adjournment proposal.

Q: What vote is required to approve each proposal?

A: To the extent that the approval by Charter stockholders of the Share Issuance is required in accordance with NASDAQ rules, such approval will require, pursuant to the DGCL and Charter's governing documents, a majority of votes cast by holders of the shares of Charter Class A Common Stock either present in person or represented by proxy at the special meeting at which a quorum is present. The approval of the meeting adjournment proposal requires a majority of votes cast by holders of the shares of Charter Class A common stock present in person or represented by proxy at the special meeting and entitled to vote thereon, whether or not a quorum is present.

On April 25, 2014, concurrently with the execution of the Transactions Agreement, Liberty entered into a voting agreement (the **Voting Agreement**) with Comcast. Pursuant to the Voting Agreement, Liberty agreed, among other things, to vote all of its shares of Charter Class A Common Stock in favor of the Share Issuance pursuant to the Transactions Agreement and any other matters for which the approval of Charter's stockholders is reasonably necessary to consummate the transactions contemplated by the Transactions Agreement, and against any actions that would reasonably be expected to prevent or delay the consummation of the transactions contemplated by the Transactions Agreement. The Voting Agreement may be terminated under certain circumstances as more fully described under the heading **Security Ownership of Certain Beneficial Owners, Directors and Executive Officers of Charter**.

Q: What is a quorum?

A: The holders of a majority of the voting power of the Class A common stock outstanding and entitled to vote, either present in person or represented by proxy at the meeting, will constitute a quorum. Proxies received but marked as abstentions will be included in the calculation of the number of shares considered to be present at the special meeting.

Q: What should Charter stockholders do now in order to vote on the proposals being considered at the Charter special meeting?

A: Charter stockholders may submit a proxy by filling out the accompanying proxy card and returning it as instructed on the proxy card. Charter stockholders can also authorize the individuals named on the proxy card to vote their shares by telephone or the Internet by following the instructions printed on the proxy card. Submitting a proxy means that a stockholder gives someone else the right to vote his shares in accordance with his instructions. In this way, the stockholder ensures that his vote will be counted even if he is unable to attend the Charter

special meeting. If a Charter stockholder executes a proxy, but does not include specific instructions on how to vote, the individuals named as proxies will vote the Charter stockholder's shares as follows:

FOR the proposal to approve the Share Issuance; and

FOR the meeting adjournment proposal.

If a Charter stockholder holds shares in street name, which means the shares are held of record by a broker, bank or nominee, please see Q: If a Charter stockholder's shares are held in street name by his broker, will the broker vote the shares for the stockholder? , below.

Table of Contents

Charter stockholders of record may also vote in person at the meeting. If a Charter stockholder plans to attend the Charter special meeting and wishes to vote in person, he will be given a ballot at the Charter special meeting. Whether or not a Charter stockholder plans to attend the Charter special meeting, he is encouraged to authorize his proxy as described in this proxy statement/prospectus.

Q: If a Charter stockholder is not going to attend the special meeting, should the stockholder return his proxy card or otherwise vote his shares?

A: Yes. Completing, signing, dating and returning the proxy card by mail or submitting a proxy by calling the toll-free number shown on the proxy card or submitting a proxy by visiting the website shown on the proxy card ensures that the stockholder's shares will be represented and voted at the special meeting, even if the stockholder is unable to or does not attend.

Q: If a Charter stockholder's shares are held in street name by his broker, will the broker vote the shares for the stockholder?

A: If a Charter stockholder's shares are held in street name, which means such shares are held of record by a broker, bank or nominee, he will receive instructions from his broker, bank or other nominee that he must follow in order to have his shares of Charter Class A common stock voted. If a Charter stockholder has not received such voting instructions or requires further information regarding such voting instructions, the Charter stockholder should contact his bank, broker or other nominee.

Under NASDAQ rules, banks, brokers or other nominees who hold shares in street name for a beneficial owner of those shares typically have the authority to vote in their discretion on routine proposals when they have not received instructions from beneficial owners. However, brokers are not allowed to exercise their voting discretion with respect to the approval of matters that NASDAQ determines to be non-routine without specific instructions from the beneficial owner. It is expected that all proposals to be voted on at the special meeting of Charter stockholders are such non-routine matters. Broker non-votes occur when a bank, broker or other nominee is not instructed by the beneficial owner of shares to vote on a particular proposal for which the broker does not have discretionary voting power. Failing to instruct your bank, broker or other nominee how you wish your shares to be voted will not have an effect on the proposal to approve the Share Issuance or the meeting adjournment proposal, but could prevent a quorum from being obtained. In order to minimize the number of broker non-votes, you are encouraged to vote or to provide voting instructions to the organization that holds your shares by carefully following the instructions provided in the meeting notice.

WHETHER OR NOT YOU PLAN TO ATTEND THE SPECIAL MEETING, YOU ARE ENCOURAGED TO GRANT YOUR PROXY AS DESCRIBED IN THIS PROXY STATEMENT/PROSPECTUS.

Q: Can Charter stockholders change their vote?

A:

Yes. Holders of record of Charter Class A common stock who have properly completed and submitted their proxy card or proxy by telephone or Internet can change their vote before the proxy is voted at the Charter special meeting in any of the following ways:

sending a written notice that is received prior to the special meeting stating that the stockholder revokes his proxy to the corporate secretary of Charter at 400 Atlantic Street, Stamford, Connecticut 06901;

properly completing, signing and dating a new proxy card bearing a later date and properly submitting it so that it is received prior to the special meeting;

visiting the website shown on the proxy card and submitting a new proxy in the same manner that the stockholder would submit his proxy via the Internet or by calling the toll-free number shown on the proxy card to submit a new proxy by telephone; or

attending the special meeting in person and voting their shares.

Table of Contents

Simply attending the special meeting will not revoke a proxy.

A Charter stockholder whose shares are held in street name by his broker and who has directed that person to vote his shares should instruct that person to change his vote.

Q: What will happen if Charter stockholders abstain from voting, fail to vote or do not direct how to vote on their proxy?

A: A stockholder may vote to abstain on any of the proposals. If you vote to abstain, your shares will be counted as present at the meeting for purposes of determining a quorum on all matters, but will not be considered votes cast. The failure of a Charter stockholder to vote or to instruct his broker, bank or nominee to vote if his shares are held in street name may make it more difficult to achieve the number of votes necessary to achieve a quorum at the special meeting. The failure of a Charter stockholder to vote or to instruct his broker, bank or nominee to vote if his shares are held in street name will not affect the proposal to approve the Share Issuance (assuming a quorum is present) or the meeting adjournment proposal.

All properly signed proxies that are received prior to the special meeting and that are not revoked will be voted at the special meeting according to the instructions indicated on the proxies. If a proxy is returned without an indication as to how shares of Charter Class A common stock represented by the proxy are to be voted with regard to a particular proposal, the shares of Class A common stock represented by the proxy will be voted in accordance with the recommendation of the Charter board of directors, and therefore will be voted FOR the proposal to approve the Share Issuance and FOR the meeting adjournment proposal to adjourn the special meeting.

(203) 905-7801

GreatLand Connections Merger Sub is a direct, wholly-owned subsidiary of CCH I, LLC. GreatLand Connections Merger Sub was organized on May 22, 2014 for the purposes of merging with and into GreatLand Connections in the GreatLand Connections Merger. It has not carried on any activities other than in connection with the Transactions Agreement. For more information on GreatLand Connections Merger Sub, see Information About the Companies .

Comcast Corporation

One Comcast Center

Philadelphia, Pennsylvania 19103-2838

(215) 286-1700

Table of Contents

Comcast (NASDAQ: CMCSA, CMCSK) is a global media and technology company with two primary businesses, Comcast Cable and NBCUniversal. Comcast Cable is the nation's largest video, high-speed Internet and phone provider to residential customers under the XFINITY brand and also provides these services to businesses. NBCUniversal operates 30 news, entertainment and sports cable networks, the NBC and Telemundo broadcast networks, television production operations, television station groups, Universal Pictures and Universal Parks and Resorts.

Midwest Cable, Inc.

Comcast Corporation

One Comcast Center

Philadelphia, Pennsylvania 19103-2838

(215) 286-1700

Midwest Cable, Inc. is currently a wholly-owned subsidiary of Comcast formed in May 2014 as a limited liability company and converted to a corporation in September 2014. Following the Spin-Off, GreatLand Connections will be an independent, publicly-traded entity that will hold cable systems serving approximately 2.5 million existing Comcast video customers in the Midwestern and Southeastern United States. Following consummation of the Transactions, holders of Comcast common stock (as of the record date for the Spin-Off) will own approximately 67% of GreatLand Connections, and New Charter will own the remaining approximately 33%. Comcast will have no remaining interest in GreatLand Connections. After the consummation of the GreatLand Connections Merger, Midwest Cable, Inc. expects to change its name to GreatLand Connections Inc.

GreatLand Connections will offer a variety of video, Internet and voice services (cable services) over a geographically-aligned cable distribution system to residential and commercial customers located in the Midwestern and Southeastern United States. As of September 30, 2014, the cable systems that will be owned by GreatLand Connections served approximately 2.5 million video customers, 2.3 million Internet customers and 1.1 million voice customers and passed approximately 6.3 million homes and businesses. As of September 30, 2014, the cable systems that will be owned by GreatLand Connections had customer relationships with approximately 2.7 million residential customers and 183,000 commercial customers.

GreatLand Connections will offer its cable services individually and in bundles. GreatLand Connections' subscription rates and related charges will vary according to the services and features customers receive and the type of equipment they use, and customers are typically billed in advance on a monthly basis. GreatLand Connections' residential customers may generally discontinue service at any time, while commercial customers may only discontinue service in accordance with the terms of their contracts, which typically have two- to five-year terms.

The Proposals (See Submission of Future Stockholder Proposals)

Proposal 1: Charter stockholders are being asked to approve the Share Issuance in connection with the GreatLand Connections Merger. Charter stockholder approval of the Share Issuance proposal may be required under NASDAQ rules and is a condition to the completion of the Transactions unless it is not required under applicable law.

Proposal 2: Charter stockholders are also being asked to approve the adjournment or postponement of the special meeting, if necessary or appropriate, to solicit additional proxies in the event that there are not sufficient votes at the

time of the special meeting to approve the Share Issuance, which we refer to as the meeting adjournment proposal. The approval by Charter stockholders of the meeting adjournment proposal is not a condition to the completion of the Transactions.

Table of Contents**The Transactions (See The Transactions)**

On April 25, 2014, Charter entered into the Transactions Agreement, a binding definitive agreement with Comcast which contemplated the Contribution and Spin-Off, the Mergers, the Exchange and the Purchase, and Charter expects to enter into more detailed Implementing Agreements implementing the Transactions Agreement. The Transactions are expected to be executed substantially contemporaneously with each other and will be consummated as promptly as practicable following the merger of a subsidiary of Comcast with Time Warner Cable. The completion of the Transactions will result in the combined Comcast-Time Warner Cable entity divesting a net approximately 3.8 million video customers and Charter acquiring a net approximately 1.3 million existing Time Warner Cable video customers, making Charter the second largest cable operator in the United States. Immediately following the Transactions, current Charter stockholders will own approximately % of New Charter common stock, and Comcast shareholders as of the record date of the Spin-Off will own approximately % of New Charter common stock and will retain their shares in Comcast.

The Implementing Agreements will provide for the allocation between Comcast and GreatLand Connections of Comcast's assets, liabilities and obligations and will govern the relationship between Comcast and GreatLand Connections after the Spin-Off (including with respect to employee matters, intellectual property rights, and tax matters). In connection with GreatLand Connections' spin-off from Comcast, GreatLand Connections and Comcast will also enter into other agreements, and GreatLand Connections, Comcast and New Charter will enter into the Tax Matters Agreement, which will provide for, among other things, the allocation among Comcast, GreatLand Connections, and New Charter of certain tax assets and obligations.

Charter, New Charter, Charter Merger Sub, GreatLand Connections Merger Sub and Comcast will also enter into the Merger Agreement to effect the Mergers and set forth the terms and conditions of the Mergers, as well as to provide for, among other things, certain covenants regarding the operation of the GreatLand Connections Business by Comcast before the closing of the Mergers. In addition, Charter and Comcast will enter into the Exchange Agreement and the Asset Purchase Agreement to effect the Exchange and the Purchase, respectively, and to set forth the terms and conditions of the Exchange and the Purchase, respectively. In connection with the Exchange Agreement, Charter will enter into a Transition Services Agreement which will provide for, among other things, the provision of transition services to Charter and Comcast following the Exchange.

For a more complete discussion of the Implementing Agreements, see The Implementing Agreements , and Additional Agreements Related to the Contribution and Spin-Off, the Mergers, the Exchange and the Purchase .

Overview (See The Transactions Transaction Sequence)

Below is a step-by-step list illustrating the sequence of material events relating to the Contribution and Spin-Off, the Mergers, the Exchange and the Purchase that are expected to occur, subject to the closing conditions described in The Implementing Agreements The Merger Agreement Conditions to the Mergers.

Step 1 Transfer of GreatLand Connections Business to GreatLand Connections; GreatLand Connections Debt Incurrence and Distribution to Comcast. Comcast will transfer the GreatLand Connections Systems, the relevant subscribers and any other assets and liabilities primarily related to the GreatLand Connections Systems to GreatLand Connections and GreatLand Connections (directly and through its subsidiaries) will incur new indebtedness. The indebtedness will consist of (i) credit facilities or new issuance of notes to be used to fund cash distributions to Comcast and for general corporate purposes and (ii) notes newly issued by GreatLand Connections to Comcast.

Step 2 Debt-for-Debt Exchange. Comcast will exchange newly issued GreatLand Connections notes for existing Comcast notes that have been acquired by third party financial institutions pursuant to a debt tender offer for existing Comcast notes.

Table of Contents

Step 3 Spin-Off. Comcast will distribute all of the GreatLand Connections shares to the holders of outstanding shares of Comcast common stock. The Spin-Off will occur after the closing of the Time Warner Cable merger and will be made pro rata to holders of Comcast common stock as of the record date for the Spin-Off.

Step 4 New Charter Reorganization. Charter Merger Sub will merge with and into Charter, resulting in New Charter becoming the publicly traded holding company of Charter. In connection with the Charter Merger, one share of New Charter Class A common stock will be exchanged for each existing share of Charter Class A common stock, and such exchange is being registered in this registration statement.

Step 5 GreatLand Connections Merger. GreatLand Connections Merger Sub will merge with and into GreatLand Connections, resulting in New Charter owning approximately 33% of the outstanding common stock of GreatLand Connections and GreatLand Connections stockholders owning approximately % of the outstanding Class A common stock of New Charter.

Step 6 Asset Exchange. Charter will exchange with Comcast certain systems serving approximately 1.6 million Charter video customers for certain cable systems currently serving approximately 1.5 million Time Warner Cable video customers.

Step 7 Asset Purchase. Charter will acquire from Comcast for cash certain cable systems currently owned by Time Warner Cable and not included in the Exchange, currently serving approximately 1.4 million Time Warner Cable video customers.

Set forth below are diagrams that graphically illustrate, in simplified form, the existing corporate structure, the corporate structure immediately following the Spin-Off but before the Mergers, and the corporate structure immediately following the consummation of the Transactions.

Table of Contents

The Contribution and Spin-Off (See The Transactions The Contribution and Spin-Off)

Pursuant to and in accordance with the terms and conditions of the Separation Agreement, Comcast will transfer the GreatLand Connections Systems, the relevant subscribers and any other assets and liabilities primarily related to the GreatLand Connections Systems to GreatLand Connections. GreatLand Connections is currently a wholly owned subsidiary of Comcast that was formed in May 2014 in connection with the Transactions.

GreatLand Connections (directly and through its subsidiaries) is expected to incur new indebtedness in an amount equal to 5.0 times the 2014 EBITDA of the GreatLand Connections Systems (as such term is defined by GreatLand Connections financing sources for purposes of the financing). The indebtedness will consist of bank debt and/or term loans or new issuance of notes to be used to fund cash distributions to Comcast and for general corporate purposes at GreatLand Connections, and GreatLand Connections notes newly issued to Comcast,

Table of Contents

which will enable Comcast to complete the debt-for-debt exchange described below. In addition, GreatLand Connections is expected to have a \$750 million unfunded revolving line of credit to facilitate day-to-day operations and cash flow.

To effect this debt-for-debt exchange, third-party financial institutions will conduct a debt tender offer for existing Comcast notes and will offer new GreatLand Connections notes. Charter and Comcast will determine the cap on the expenses to be incurred in connection with the debt tender offer. If the cap is not sufficient to allow purchases in the debt tender offer, or the debt tender offer does not result in actual tenders, of Comcast notes that would be exchanged for GreatLand Connections notes resulting in GreatLand Connections leverage equal to 5.0 times the 2014 EBITDA of the GreatLand Connections Systems, each of Charter and Comcast will have the right to fund additional tender premium at its own expense to increase GreatLand Connections leverage, but in each case, in a manner that would not cause the resulting GreatLand Connections leverage to exceed 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections financing sources for purposes of the financing). If the amount of Comcast notes ultimately tendered, following exchange for new GreatLand Connections notes, would result in GreatLand Connections leverage of less than 2.5 times 2014 EBITDA of the GreatLand Connections Systems, the Transactions will be terminated. If as a result of the debt-for-debt exchange, the GreatLand Connections leverage is at least 2.5 times but less than 5.0 times 2014 EBITDA of the GreatLand Connections Systems, New Charter will increase the GreatLand Connections Merger Consideration in accordance with the formula described below in *The Mergers; Merger Consideration*.

Following the settlement of the debt tender offer, GreatLand Connections notes to be issued to Comcast may be priced in the market on a best-efforts basis, in a principal amount (less original issue discount, if any) equal to the value of tendered Comcast notes, and Comcast may seek to have the banks exchange the GreatLand Connections notes held by Comcast for the tendered Comcast notes.

Following the distribution and debt-for-debt exchange, Comcast will distribute all of the GreatLand Connections shares (which will consist of Class A and Class A-1 shares) to the holders of outstanding shares of Comcast common stock in the Spin-Off. The Spin-Off will occur after the closing of the Time Warner Cable merger and will be made pro rata to holders of Comcast common stock as of the record date for the Spin-Off.

Fractional shares of GreatLand Connections Class A-1 common stock will be issued to Comcast shareholders in connection with the Spin-Off. No fractional shares of GreatLand Connections Class A common stock, however, will be issued to Comcast shareholders in connection with the Spin-Off. Instead, the distribution agent will aggregate fractional shares of GreatLand Connections Class A common stock into whole shares, sell the whole shares in the open market at prevailing market prices and distribute the aggregate cash proceeds, net of brokerage fees and other costs, from the sales pro rata to each holder who would otherwise have been entitled to receive a fractional share of GreatLand Connections Class A common stock in the Spin-Off. Recipients of cash in lieu of fractional shares will not be entitled to any interest on the amounts of payments made in lieu of fractional shares.

After the Spin-Off, Comcast will not own any shares of GreatLand Connections common stock.

The Mergers; Merger Consideration (See *The Transactions The Mergers*)

The Charter Merger is a reorganization of Charter that, in itself, is not intended to change the ultimate economic or voting interests of Charter stockholders or the assets or liabilities of Charter and its subsidiaries. Pursuant to and in accordance with the terms and conditions of the Merger Agreement, following the Spin-Off, New Charter will convert into a corporation. Charter Merger Sub, a newly formed, wholly owned subsidiary of New Charter, will merge with and into Charter in the Charter Merger with the effect that each share of Class A

Table of Contents

common stock of Charter will be converted into one share of Class A Common Stock of New Charter. New Charter will become the publicly traded parent company of Charter and its Class A common stock will be traded on the NASDAQ Stock Market under the same ticker symbol, CHTR, as currently used by Charter. GreatLand Connections Merger Sub, another newly formed, wholly owned subsidiary of New Charter, will merge with and into GreatLand Connections in the GreatLand Connections Merger, with GreatLand Connections surviving.

At the effective time of the Mergers:

each issued and outstanding share of Charter Class A common stock (except shares of Charter Class A common stock held by Charter as treasury or owned by Charter) will be automatically converted into one share of New Charter Class A common stock, and such exchange is being registered in this registration statement;

each issued and outstanding share of GreatLand Connections Class A common stock will remain outstanding without modification and each issued and outstanding share of GreatLand Connections Class A-1 common stock will be automatically converted into a number of shares of New Charter Class A common stock equal to the SpinCo Class A-1 Common Stock Conversion Ratio (as defined in the Merger Agreement); and

New Charter will receive the maximum number of shares of GreatLand Connections common stock that New Charter can receive pursuant to the GreatLand Connections Merger and based on the number of outstanding shares of GreatLand Connections common stock without causing the historic Comcast shareholders, not including former Time Warner Cable stockholders and disregarding public trading, to own (within the meaning of Section 355(e) of the Code) less than 50.75% of the GreatLand Connections shares.

We refer to the percentage of shares of GreatLand Connections common stock owned by New Charter immediately following the effective time of the Mergers as the New Charter GreatLand Ownership Percentage. We currently estimate that the New Charter GreatLand Ownership Percentage will be approximately 33%. The SpinCo Class A-1 Common Stock Conversion Ratio will be determined to ensure that the holders of GreatLand Connections common stock immediately prior to the effective time of the Mergers will receive shares of New Charter common stock equal in value (based on the Charter Share Valuation) to the aggregate value of GreatLand Connections, calculated as explained below, multiplied by the New Charter GreatLand Ownership Percentage (we refer to such aggregate number of shares of New Charter common stock as the New Charter share number). The number of shares issued in the Share Issuance will be determined based upon the following formula. Following the GreatLand Connections Merger, New Charter's ownership percentage in GreatLand Connections will be equal to an amount that will result in historic Comcast shareholders (not including Time Warner Cable stockholders and disregarding public trading for the purposes of this calculation) holding at least 50.75% of the GreatLand Connections shares. New Charter's ownership percentage in GreatLand Connections is currently estimated to be 33%. To calculate the number of shares issued in the Share Issuance) as the product of 7.125 and the Carveout 2014 EBITDA (as defined in the Transactions Agreement) of the GreatLand Connections systems, plus the fair market value of any non-system assets of GreatLand Connections. From this, the amount of GreatLand Connections indebtedness as of the closing (subject to further adjustment as provided in the Transactions Agreement) will be deducted to estimate the equity value of GreatLand Connections (for purposes of the Share Issuance). This equity value, plus the amount of certain financing fees for the transaction, will be multiplied by New Charter's percentage ownership to obtain the value (for purposes of the Share Issuance) of New Charter's interest in GreatLand Connections. Once the value of New Charter's interest in GreatLand Connections has been determined, New Charter shares having an equal value will be issued to the stockholders of

GreatLand Connections. These New Charter shares will be valued based upon the 60-calendar-day volume weighted average price of Charter shares ending on the last trading day prior to closing.

Table of Contents

Immediately after the Mergers are completed, GreatLand Connections stockholders as of immediately prior to the Mergers are expected to collectively own approximately % , and Charter stockholders as of immediately prior to the Mergers are expected to collectively own approximately % , of the outstanding shares of New Charter Class A common stock.

If the Aggregate GreatLand Connections Equity Valuation has not been finally determined prior to the completion of the GreatLand Connections Merger, there will be a post-closing adjustment between Comcast and GreatLand Connections based on any differences between the Aggregate GreatLand Connections Equity Valuation used for the calculation of the New Charter share number, on the one hand, and the actual Aggregate GreatLand Connections Equity Valuation, on the other hand. If the actual Aggregate GreatLand Connections Equity Valuation is greater than the estimated Aggregate GreatLand Connections Equity Valuation, then GreatLand Connections shall pay to Comcast an amount equal to such difference. If the estimated Aggregate GreatLand Connections Equity Valuation is greater than the actual Aggregate GreatLand Connections Equity Valuation, then Comcast shall pay to GreatLand Connections an amount equal to such difference. Such payment by Comcast or GreatLand Connections, as applicable, shall be made to the other as soon as practicable, and in any event not later than six months following final resolution of the amount of such payment. Interest shall accrue on any such payment at a rate of 5% per annum starting 10 business days after final resolution of the amount of such payment.

Conditions to the Mergers (See The Implementing Agreements The Merger Agreement Conditions to the Charter Merger and the GreatLand Connections Merger , and The Implementing Agreements The Separation Agreement).

The obligations of the parties to the Merger Agreement to consummate the Charter Merger, the GreatLand Connections Merger and of Comcast to consummate the Spin-Off will be subject to a number of conditions, including:

the consummation of the merger between Comcast and Time Warner Cable;

expiration or termination of the HSR Act waiting period and the receipt of a number of regulatory approvals, including approval of the FCC, approval from all required public utility commissions and approval of certain franchise authorities, in most cases without the imposition of a burdensome condition;

the absence of injunctions or certain legal impediments;

unless not required by applicable law, the approval by Charter s stockholders of the issuance of New Charter common stock in the GreatLand Connections Merger;

the effectiveness of the registration statement filed by New Charter into which this prospectus is incorporated and the approval of the listing of the New Charter common stock on the NASDAQ Global Select Market;

the effectiveness of the registration statement filed by GreatLand Connections to register the GreatLand Connections common stock that will be issued in the Spin-Off and the GreatLand Connections Merger and

the approval of the listing of GreatLand Connections Class A Common Stock on the NASDAQ Global Select Market;

completion of the debt-for-debt exchange; and

subject to certain exceptions, the satisfaction or waiver of the conditions to the obligations of the parties in the Exchange Agreement and the Asset Purchase Agreement.

Table of Contents

The obligations of Charter, New Charter, Charter Merger Sub and GreatLand Connections Merger Sub to consummate the Charter Merger and the GreatLand Connections Merger will be further subject to (i) the accuracy of representations and warranties and the performance of covenants made by Comcast and GreatLand Connections in the Merger Agreement and the Separation Agreement, subject to applicable materiality thresholds, (ii) Charter's receipt of an opinion of tax counsel regarding the tax-free nature of the transactions, and (iii) since April 25, 2014, there not having occurred and being continuing any event, occurrence, development or state of circumstances or facts which, individually or in the aggregate, has had or would reasonably be expected to have, a material adverse effect on GreatLand Connections' assets and liabilities and the assets and liabilities of Comcast to be transferred to Charter in the Exchange and Purchase, taken as a whole.

GreatLand Connections and Comcast's obligations to consummate the GreatLand Connections Merger will be further subject to, among other things, (i) the accuracy of representations and warranties and the performance of covenants made by Charter, New Charter, Charter Merger Sub and GreatLand Connections Merger Sub in the Merger Agreement, subject to applicable materiality thresholds, (ii) Comcast's receipt of an opinion of tax counsel regarding the tax-free nature of the transactions, and (iii) since April 25, 2014, there not having occurred and being continuing any event, occurrence, development or state of circumstances or facts which, individually or in the aggregate, has had or would reasonably be expected to have, a material adverse effect on Charter.

The Exchange and Purchase (See The Transactions The Exchange and the Purchase)

Concurrently with the closing of the Mergers, Charter will exchange with Comcast certain systems serving approximately 1.6 million Charter video customers for certain cable systems serving approximately 1.5 million Time Warner Cable video customers, in each case together with the relevant customers and all the other assets and liabilities primarily related to such systems in a tax-efficient like-kind exchange. To the extent the EBITDA (as defined in the agreements and further described in this proxy statement/prospectus) for the exchanged systems for 2014 differs, a cash equalization payment will be made, and trued up post-closing (only if not finally determined prior to closing), at a valuation of 7.125 times such difference in EBITDA. In addition, there will be a post-closing adjustment between Charter and Comcast to true up for any variance of working capital of the exchanged systems from a normalized level of working capital.

At the same time, Charter will acquire from Comcast certain cable systems currently serving approximately 1.4 million Time Warner Cable video customers, together with the relevant customers and all the other assets and liabilities primarily related to such systems for cash consideration equal to 7.125 times the EBITDA (as defined in the Asset Purchase Agreement) of such systems for 2014. In addition, there will be a post-closing adjustment between Charter and Comcast to true up for any variance of working capital of the acquired systems from a normalized level of working capital. The consideration for the Purchase will be financed with new indebtedness of Charter.

Opinions of Financial Advisors to Charter (See The Transactions Opinions of Charter's Financial Advisors)

Opinion of LionTree Advisors LLC

On December 5, 2014, LionTree Advisors LLC rendered an oral opinion to the Charter board of directors (which was confirmed in writing by delivery of LionTree's written opinion dated December 5, 2014), as to the fairness, from a financial point of view, as of such date, to Charter of the consideration to be paid in connection with the Transactions (as defined in such opinion), based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion.

LionTree's opinion was directed to the Charter board of directors and only addressed the fairness from a financial point of view of the consideration to be paid in connection with the Transactions and did not address any other aspect or implication of the Transactions. The summary of LionTree's opinion in this proxy statement/prospectus is qualified in its entirety by reference to the full text of its written

Table of Contents

opinion, which is included as Annex D to this proxy statement/prospectus and sets forth the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion. However, neither LionTree's opinion nor the summary of its opinion and the related analyses set forth in this proxy statement/prospectus constitute a recommendation to any stockholder as to how such stockholder should vote or act on any matter relating to the proposed Transactions or otherwise.

Opinion of Goldman Sachs & Co.

On December 5, 2014, at a meeting of the board of directors of Charter to evaluate whether to recommend that stockholders of Charter vote in favor of the issuance of shares of Class A common stock of New Charter in the Transactions, Goldman, Sachs & Co. ("Goldman Sachs") rendered its oral opinion, subsequently confirmed in writing, to the effect that, as of December 5, 2014, and based upon and subject to the factors and assumptions set forth in Goldman Sachs' written opinion, the Aggregate Consideration (as defined in the written opinion) to be paid by Charter and New Charter for the Acquired Assets (as defined in the written opinion) pursuant to the Transactions Agreement was fair from a financial point of view to Charter.

The full text of the written opinion of Goldman Sachs, dated December 5, 2014, which sets forth the assumptions made, procedures followed, matters considered, qualifications and limitations on the review undertaken in connection with the opinion, is attached to this proxy statement/prospectus as Annex E. The summary of the Goldman Sachs opinion provided in this proxy statement/prospectus is qualified in its entirety by reference to the full text of Goldman Sachs' written opinion. Goldman Sachs' advisory services and opinion were provided for the information and assistance of the board of directors of Charter in connection with its evaluation as to whether to recommend that stockholders of Charter vote in favor of the issuance of shares of Class A common stock of New Charter in the Transactions and the opinion does not constitute a recommendation as to how any stockholder of Charter should vote with respect to the Transactions or any other matter.

Board of Directors and Management of New Charter After the Mergers (See "The Transactions Board of Directors and Executive Officers of New Charter Following the Merger; Operations Following the Merger").

The directors and executive officers of Charter immediately prior to the Mergers will become the directors and executive officers of New Charter immediately following the effective time of the Mergers.

Following the Charter Merger, the location of the headquarters and principal executive offices of New Charter and the surviving corporation in the Charter Merger will be Charter's executive offices.

Interests of Certain Persons in the Mergers (See "The Transactions Interests of Certain Persons in the Mergers")

In considering the recommendation of the Charter board of directors with respect to the Share Issuance proposal, Charter stockholders should be aware that executive officers and directors of Charter have certain interests in the Mergers that may be different from, or in addition to, the interests of Charter stockholders generally.

Voting by Charter Directors and Executive Officers (See "The Charter Special Meeting Voting by Charter Directors and Executive Officers")

At the close of business on the record date of the special meeting, Charter directors and executive officers and their affiliates were entitled to vote approximately % of the shares of Charter Class A common stock outstanding on that

date. Charter currently expects that Charter directors and executive officers and their affiliates will vote their shares in favor of all proposals.

Table of Contents

To the extent that the approval by Charter stockholders of the Share Issuance Proposal is required in accordance with NASDAQ rules, such approval will require, pursuant to the DGCL, and Charter's governing documents, a majority of votes cast by holders of the shares of Charter Class A Common Stock present or represented by proxy at the special meeting at which a quorum is present. The approval of the meeting adjournment proposal requires a majority of votes cast by holders of the shares of Charter Class A common stock present in person or represented by proxy at the special meeting and entitled to vote thereon, whether or not a quorum is present.

Risk Factors (See Risk Factors)

Charter stockholders should carefully consider the matters described in the section Risk Factors, as well as other information included in this proxy statement/prospectus and the other documents to which they have been referred.

Regulatory Approvals (See The Transactions Regulatory Approvals)

Completion of the Transactions is conditioned upon the receipt of certain governmental clearances or approvals, including, but not limited to, the expiration or termination of the waiting period under the HSR Act, approval of the FCC and certain other governmental consents and approvals from state regulators and franchise authorities.

Under the HSR Act, certain transactions, including the GreatLand Connections Merger, may not be completed unless certain waiting period requirements have expired or been terminated. The HSR Act provides that each party must file a pre-merger notification with the FTC and the DOJ. A transaction notifiable under the HSR Act may not be completed until the expiration of a 30-calendar-day waiting period following the parties' filings of their respective HSR Act notification forms or the termination of that waiting period. If the DOJ issues a Request for Additional Information and Documentary Material prior to the expiration of the initial waiting period, the parties must observe a second 30-calendar-day waiting period, which begins to run only after both parties have substantially complied with the request for additional information, unless the waiting period is terminated earlier.

Both Charter and Comcast are subject to regulation by the FCC under the Communications Act. Each company holds a number of licenses and authorizations issued by the FCC for the operation of its business. The FCC must approve the transfer of control or assignment of the licenses and authorizations to Comcast, Charter, and GreatLand Connections as a result of the Transactions. The transfer of control over franchises occurring as a result of the Transactions is also subject to the approval of local franchise authorities. In addition, Charter, Comcast and GreatLand Connections are required to obtain approval of certain state public utility commissions with respect to the transfer of control of certificates of public convenience and necessity for telecommunications services as a result of the Transactions.

Charter, Comcast and GreatLand Connections have agreed to use their respective reasonable best efforts to obtain all regulatory approvals required to complete the Transactions, and as of the date of this proxy statement/prospectus, the parties have filed all their applications for regulatory approval of the Transactions. Specifically, beginning in May 2014, Charter, Comcast and GreatLand Connections made a number of filings to initiate the regulatory review process, including filings under the HSR Act on May 14, 2014 and on May 16, 2014 and a detailed public interest statement with the FCC on June 4, 2014.

Concurrent with the federal transaction approval process, approval must also be sought from certain local and state authorities. Charter and Comcast have filed franchise transfer requests where local approval for the Transactions is required. In addition, Charter and Comcast have sought approvals from state authorities where state approval of the Transactions is required with such approvals pending as of the date of this proxy statement/prospectus. A number of other states require only notice either prior to or preceding the closing date of the Transactions. Such notices shall be

made pursuant to the requirements of each state. Separately, three congressional hearings have been held on the Transactions. Although no further hearings are scheduled at this time, it is possible that the parties will be asked to participate in additional legislative proceedings before the Mergers are approved.

Table of Contents

The process for obtaining the requisite regulatory approvals for the Transactions is ongoing. The FCC initiated a public comment period that commenced on July 10, 2014, during which other service providers, members of the public, and other interested parties may file comments in support of, opposing, or seeking conditions on the Transactions. Charter, Comcast and GreatLand Connections will have an opportunity to respond to any public comments filed at the FCC. The FCC's review is subject to an informal 180-day clock deadline from the start of the public comment period and the FCC had previously stopped the clock pending resolution of certain procedural issues. On December 3, 2014, the FCC re-started the 180-day clock and established a December 23, 2014 deadline for reply comments. On December 22, 2014, the FCC stopped the clock until January 12, 2015, to allow for review of documents that had recently been provided to the FCC by Time Warner Cable. The DOJ's transaction review process does not include a similar public comment process. Each of Charter and Comcast has received a Request for Additional Information and Documentary Material (Second Request) from the DOJ, which extended the waiting period under the HSR Act until 30 days after both parties substantially complied with the Second Request. Comcast and Charter substantially complied with the Second Request on August 14, 2014 and September 5, 2014, respectively, and the waiting period, therefore, ended on October 6, 2014. At the state and local level, the parties will actively participate in each state's/municipality's individual review processes as appropriate, including by remaining engaged with and available to the regulatory officials overseeing the regulatory review process. On November 21, 2014, the United States Court of Appeals for the District of Columbia Circuit granted a stay in a case brought by certain content providers, which prohibited the disclosure of certain programming contracts and certain related information in connection with the FCC's review of the TWC Merger. We cannot predict what effect, if any, the stay will have on the FCC's review of the TWC Merger.

Financing (See The Implementing Agreements The Separation Agreement , and Debt Financing)

Pursuant to the Separation Agreement, GreatLand Connections (directly and through its subsidiaries) is expected to incur new indebtedness in an amount equal to 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections' financing sources for purposes of the financing). The indebtedness will consist of (i) credit facilities or new issuance of notes to be used to fund cash distributions to Comcast and for general corporate purposes and (ii) notes newly issued by GreatLand Connections to Comcast, which are expected to then be exchanged for outstanding Comcast notes in the debt-for-debt exchange. In addition, GreatLand Connections is expected to have a \$750 million unfunded revolving line of credit to facilitate day-to-day operations and cash flow.

If after the financing transactions, including the debt tender and debt-for-debt exchange, the resulting GreatLand Connections leverage is less than 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections' financing sources for purposes of the financing), Charter and Comcast may agree that GreatLand Connections shall take further steps, including borrowing additional funds and distributing proceeds to Comcast, distributing debt securities to Comcast, or distributing excess cash to Comcast to increase GreatLand Connections' leverage, but in each case, in a manner that would not cause the resulting GreatLand Connections leverage to exceed 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections' financing sources for purposes of the financing). If the resulting GreatLand Connections leverage still remains less than 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections' financing sources for purposes of the financing), then pursuant to the Merger Agreement, the New Charter share number, and thus the number of shares issued as merger consideration by Charter, will increase.

In connection with the Purchase, Charter obtained \$8.4 billion of committed financing from several leading investment banks, of which \$7.0 billion has been raised and is currently held in escrow. The funds issued and currently held in escrow include \$3.5 billion Term Loan G and \$3.5 billion of new Senior Notes due 2022 and 2024. An additional \$1.0 billion has been committed, but not issued, as Term Loan A-2 leaving \$400 million of committed

financing outstanding. In addition to the committed financing, Charter has secured an incremental senior secured revolving credit facility equal to \$500 million. See Debt Financing . The Term Loan G, Term Loan A-2,

Table of Contents

\$400 million committed financing outstanding and incremental senior secured revolving credit facility, in each case, will be incurred under Charter Communications Operating, LLC's (Charter Operating) existing amended and restated credit agreement, as described in Debt Financing Incremental Facilities. The proceeds of the incremental facilities and the senior notes will be used by Charter for the purpose of financing the Purchase, paying fees and expenses incurred in connection with the Purchase and the related transactions, for providing ongoing working capital and for other general corporate purposes of Charter Operating and its subsidiaries.

Termination (See The Implementing Agreements The Merger Agreement Termination)

The Merger Agreement will provide that it may be terminated prior to completion of the transactions:

by Charter, Comcast or GreatLand Connections upon termination of the TWC Merger Agreement;

by mutual written agreement of Charter, Comcast and GreatLand Connections;

by Charter, Comcast or GreatLand Connections:

if there shall be final and nonappealable injunctions or certain legal impediments;

unless such approval is not required under applicable law, if, at the Charter stockholder meeting, Charter stockholders fail to approve the issuance of New Charter common stock in the GreatLand Connections Merger;

if the Charter Merger and the GreatLand Connections Merger have not been completed by (i) if all necessary regulatory approvals for the Transactions are received on or before the completion of the TWC Merger, then the date that is 60 days after completion of the TWC Merger (or, if on such 60th day the debt tender offer has commenced then the date that is 90 days after completion of the TWC Merger) or (ii) if all necessary regulatory approvals for the Transactions not received on or before the completion of the TWC Merger, then the date that is 150 days after completion of the TWC Merger (or, if by the 75th day after completion of the TWC Merger, all necessary regulatory approvals are received other than approvals from local franchise authorities and public utility commission, then the date that is 240 days after completion of the TWC Merger);

by Charter, if there is a material breach by Comcast or GreatLand Connections of the Merger Agreement or the Separation Agreement, subject to certain cure periods;

by Comcast or GreatLand Connections, if there is a material breach by Charter, New Charter, Charter Merger Sub or GreatLand Connections Merger Sub of the Merger Agreement, subject to certain cure periods;

by Comcast or GreatLand Connections, if the Charter board changes its recommendation that Charter stockholders approve the issuance of New Charter common stock in the GreatLand Connections Merger;

by Comcast, Charter or GreatLand Connections if the amount of notes tendered in the debt tender offer is less than the amount necessary for GreatLand Connections to reach a Resulting GreatLand Connections Leverage (as defined in the Separation Agreement) of 2.5 times; and

automatically upon termination of the Asset Purchase Agreement or the Exchange Agreement, other than in certain specified circumstances.

Expenses (See The Implementing Agreements The Merger Agreement)

The Merger Agreement, the Exchange Agreement and the Asset Purchase Agreement will each provide that each party will pay its own fees and expenses in connection with such agreement and the transactions contemplated by such agreement, except for certain specified expenses. In addition, the parties agreed that any

Table of Contents

expenses in connection with the Charter financing will be borne by Charter. Further, the parties agreed that, if the Transactions are consummated, any expenses in connection with the GreatLand Connections financing, as well as certain expenses incurred in connection with the formation of GreatLand Connections and other actions in preparation for the Spin-Off, including the hiring of certain key future GreatLand Connections executives and employees (collectively, including financing expenses, GreatLand Connections Expenses), will be borne by GreatLand Connections, and that GreatLand Connections will reimburse Comcast, Charter and GreatLand Connections Merger Sub for any GreatLand Connections Expenses incurred by such company. If the Transactions are terminated, then, depending on the circumstances under which the Transactions are terminated, GreatLand Connections Expenses will (i) be shared by Comcast and Charter in proportion to the percentage of GreatLand Connections that, immediately following completion of the Transactions, would have been owned by Comcast shareholders and by New Charter, respectively, (ii) be borne by Charter, with Charter reimbursing Comcast and GreatLand Connections for GreatLand Connections Expenses incurred by Comcast and GreatLand Connections or (iii) be borne by Comcast, with Comcast reimbursing Charter for GreatLand Connections Expenses incurred by Charter or GreatLand Connections Merger Sub.

Material U.S. Federal Income Tax Consequences of the Charter Merger and the GreatLand Connections Merger
(See Material U.S. Federal Income Tax Consequences)

The parties intend for the Charter Merger and the GreatLand Connections Merger, taken together, to qualify as a transaction described in Section 351 of the Code. The obligation of Charter, New Charter, Charter Merger Sub and GreatLand Connections Merger Sub to complete the Mergers is conditioned upon the receipt of an opinion from Wachtell, Lipton, Rosen & Katz, special counsel to Charter, to the effect that the Mergers, taken together, will be treated as a transaction described in Section 351 of the Code. The obligation of Comcast and GreatLand Connections to complete the GreatLand Connections Merger is conditioned upon Comcast's receipt of an opinion from Davis Polk & Wardwell LLP, counsel to Comcast, to the effect that the Mergers, taken together, will be treated as a transaction described in Section 351 of the Code. These opinions will be based upon representations made by Charter, New Charter, Charter Merger Sub, GreatLand Connections Merger Sub and GreatLand Connections.

Accordingly, and based on the foregoing opinions, a holder of Charter Class A common stock or GreatLand Connections Class A-1 common stock will not recognize any gain or loss on the exchange of such holder's Charter for New Charter Class A common stock in the Charter Merger or the GreatLand Connections Merger, as applicable, except, in the case of GreatLand Connections stockholders, for any gain or loss recognized with respect to cash received in lieu of a fractional share of New Charter Class A common stock.

For a more detailed discussion of the material United States federal income tax consequences of the Charter Merger and the GreatLand Connections Merger, see Material U.S. Federal Income Tax Consequences .

The tax consequences of the transaction to each Charter and GreatLand Connections stockholder may depend on such holder's particular facts and circumstances. Charter and GreatLand Connections stockholders are urged to consult their tax advisors to understand fully the consequences to them of the transactions in their specific circumstances.

No Dissenters or Appraisal Rights (See The Transactions Rights of Appraisal)

Charter stockholders do not have appraisal rights under Delaware law in connection with the Spin-Off the Mergers or the other Transactions.

RISK FACTORS

You should carefully consider the following risk factors, together with the other information contained or incorporated by reference in this proxy statement/prospectus, including the factors discussed in Part I, Item 1A Risk Factors in Charter's annual report on Form 10-K for the year ended December 31, 2013. The risks described below relate to the Contribution and Spin-Off, the Mergers, the Exchange, the Purchase, and New Charter after the Transactions, and are in addition to, and should be read in conjunction with, without limitation, the factors discussed in Part I, Item 1A Risk Factors in Charter's annual report on Form 10-K for the year ended December 31, 2013, and Part II, Item 1A Risk Factors in Charter's Quarterly Reports on Form 10-Q for the quarters ended March 31, 2014, June 30, 2014 and September 30, 2014.

If any of the following risks and uncertainties develops into actual events, these events could have a material adverse effect on Charter's business, financial condition or results of operations after the Transactions. In addition, past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results or trends in future periods.

Risks Related to the Transactions

As a result of the Transactions, current Charter stockholders' ownership interest in Charter will be diluted from 100% to approximately 50%.

Immediately following the Transactions, it is expected that the current stockholders of Charter, who presently own 100% of Charter, will own approximately 50% of the outstanding common stock of Charter. The Transactions therefore will result in substantial dilution of the ownership interest of the current Charter stockholders. Additionally, due to the ownership dilution, Charter's current stockholders as a group will be able to exercise less influence after the Transactions than they currently exercise over the management, operations and policies for Charter. If GreatLand Connections raises less proceeds in the related financing Transactions than currently contemplated, Charter is obligated pursuant to the Merger Agreement and the financing arrangements to increase its stock consideration paid in the Charter Merger, which would further dilute existing Charter stockholders. For more information, see "The Transactions - The Mergers."

Completion of the Transactions is subject to a number of conditions and if these conditions are not satisfied or waived, the Transactions will not be completed.

Charter's obligation and the obligation of Comcast to complete the Transactions are subject to satisfaction or waiver of a number of conditions, including, among others:

completion of Comcast's acquisition of Time Warner Cable;

expiration or termination of the HSR Act waiting period and receipt of certain regulatory approvals for the Transactions, in most cases without the imposition of a burdensome condition;

unless not required under applicable law, approval by Charter's stockholders;

receipt of opinions of counsel as to the tax-free nature of certain of the Transactions;

absence of injunctions or certain legal impediments on any of the Transactions;

effectiveness of a registration statement for GreatLand Connections shares to be issued in the Transactions and approval for the listing on NASDAQ of the shares of GreatLand Connections common stock to be issued in the Transactions;

effectiveness of the registration statement filed by New Charter into which this prospectus is incorporated and approval for listing on NASDAQ of the shares of New Charter s common stock;

accuracy of the representations and warranties with respect to each of the Transactions, subject to certain materiality thresholds;

Table of Contents

performance of covenants with respect to each of the Transactions, subject to certain materiality thresholds;

with respect to Charter's obligations, absence of a material adverse change with respect to the assets and liabilities transferred to GreatLand Connections and the assets and liabilities transferred by Comcast to us, taken as a whole, and with respect to Comcast's obligations, absence of a material adverse change with respect to the assets and liabilities transferred by us to Comcast and absence of a material adverse effect with respect to us, and also with respect to Charter's obligations, absence of the assertion by Charter's financing sources of a material adverse effect with respect to us; and

completion of the debt-for-debt exchange.

There can be no assurance that the conditions to closing of the Transactions will be satisfied or waived or that the Transactions will be completed.

In order to complete the Transactions, we along with Comcast must make certain governmental filings and obtain certain governmental authorizations, and if such filings and authorizations are not made or granted or are granted with conditions to the parties, completion of the Transactions may be jeopardized or the anticipated benefits of the Transactions could be reduced.

Completion of the Transactions is conditioned upon the expiration or early termination of the waiting periods relating to the Transactions under the Hart-Scott-Rodino Antitrust Improvement Act and the required governmental authorizations, including an order of the Federal Communications Commission, having been obtained and being in full force and effect. Although we and Comcast have agreed in the Agreement to use reasonable best efforts, subject to certain limitations, to make certain governmental filings or obtain the required governmental authorizations, as the case may be, there can be no assurance that the relevant waiting periods will expire or that the relevant authorizations will be obtained. In addition, the governmental authorities with or from which these authorizations are required have broad discretion in administering the governing regulations. As a condition to authorization of the Transactions, these governmental authorities may impose requirements, limitations or costs or require divestitures or place restrictions on the conduct of Charter's business after completion of the Transactions. There can be no assurance that regulators will not impose conditions, terms, obligations or restrictions and that such conditions, terms, obligations or restrictions will not have the effect of delaying completion of the Transactions or imposing additional material costs on or materially limiting the revenues of New Charter following the Transactions, or otherwise adversely affect Charter's business and results of operations after completion of the Transactions. In addition, we can provide no assurance that these conditions, terms, obligations or restrictions will not result in the delay or abandonment of the Transactions.

Charter relied on publicly available information on the systems being acquired by Charter and by GreatLand Connections.

Charter relied on publicly available information regarding the systems being acquired by Charter and by GreatLand Connections. The Transactions accordingly provide for assumption by Charter and by GreatLand Connections of only those liabilities that are primarily related to the systems acquired by each of them respectively, and for valuation terms that will depend on actual Carveout 2014 EBITDA (as defined in the Agreement) produced by such systems, including true-up adjustment payments related to EBITDA and, in some cases, working capital. However, it is possible that significant liabilities, present, future or contingent, may be assumed by Charter or GreatLand Connections that are not fully reflected in the valuation terms, and accordingly could have a material adverse effect on Charter and/or its investment in GreatLand Connections. Similarly, it is possible that certain assets required to operate the systems acquired by GreatLand Connections and/or Charter, such as licenses, technologies and/or employees, may

not be transferred in the Transactions, requiring GreatLand Connections and/or Charter to incur additional costs and invest additional resources to procure such assets and/or hire employees with expertise in the transferred business, which may adversely affect Charter's ability to realize the anticipated benefits of the Transactions.

Table of Contents

Charter may not realize anticipated cost synergies and growth opportunities.

Charter expects that it will realize cost synergies, growth opportunities and other financial and operating benefits as a result of the Transactions. Charter's success in realizing these cost synergies, growth opportunities and other financial and operating benefits, and the timing of this realization, depends on the successful integration of the business operations obtained in the Exchange and the Purchase and the ability of Charter to provide certain services to GreatLand Connections effectively pursuant to the Charter Services Agreement. Even if Charter is able to integrate the business operations obtained in the Exchange and the Purchase successfully, Charter cannot predict with certainty if or when these cost synergies, growth opportunities and benefits will occur, or the extent to which they actually will be achieved. For example, the benefits from the Transactions may be offset by costs incurred in integrating the new business operations or in obtaining or attempting to obtain regulatory approvals for the Transactions, or negatively impacted by potential programming dis-synergies that Charter may experience as a result of the Transactions. Realization of any benefits and cost synergies could be affected by the factors described in other risk factors and a number of factors beyond Charter's control, including, without limitation, general economic conditions, increased operating costs, the response of competitors and regulatory developments.

In addition, certain license and customer contracts which are required to be transferred to GreatLand Connections or Charter by Comcast require the consent of the licensor or customer party to the contract to effect this assignment. Comcast, GreatLand Connections and Charter may be unable to obtain these consents on terms favorable to GreatLand Connections or Charter, respectively, or at all, which could have a material adverse impact on GreatLand Connections (and hence on Charter's) or on Charter's business, financial condition and results of operations after the Transactions. There can be no assurance that third-party consents will be obtained prior to completion of the Transactions or at all.

The integration of the business acquired in the Exchange and Purchase with the businesses we operated prior to the Exchange and Purchase may not be successful or the anticipated benefits from the Exchange and Purchase may not be realized.

After consummation of the Exchange and Purchase, we will have significantly more systems, assets, investments, businesses, customers and employees than we did prior to the Exchange and Purchase. The process of integrating these assets with the businesses we operated prior to the Exchange and Purchase will require us to expend significant capital and significantly expand the scope of Charter's operations and operating and financial systems. Charter's management will be required to devote a significant amount of time and attention to the process of integrating the operations of the acquired assets with Charter's operations before the Exchange and Purchase. There is a significant degree of difficulty and management involvement inherent in that process. These difficulties include:

integrating the operations of the acquired assets while carrying on the ongoing operations of the businesses we operated prior to the Exchange and Purchase;

integrating information, purchasing, provisioning, accounting, finance, sales, billing, payroll, reporting and regulatory compliance systems;

integrating and unifying the product offerings and services available to customers, including customer premise equipment and video user interfaces;

managing a significantly larger company than before consummation of the Exchange and Purchase;

integrating separate business cultures;

attracting and retaining the necessary personnel associated with the acquired assets;

creating uniform standards, controls, procedures, policies and information systems and controlling the costs associated with such matters; and

the impact on Charter's business of providing services to GreatLand Connections which will also face the foregoing difficulties.

Table of Contents

Charter and Comcast have agreed to provide each other with transition services in connection with the transferred systems and relevant assets. Providing such services could divert management attention and result in additional costs, particularly as Charter starts up infrastructure and staff to take over transition services and provides transition services to Comcast for former Charter systems. In addition, the inability to procure such services could negatively impact Charter's expected results of operations.

There is no assurance that the assets acquired in the Exchange and Purchase will be successfully or cost-effectively integrated into the businesses we operated prior to the Exchange and Purchase. The process of integrating the acquired assets into Charter's pre-Exchange and Purchase operations may cause an interruption of, or loss of momentum in, the activities of Charter's business. If Charter's management is not able to effectively manage the integration process, or if any significant business activities are interrupted as a result of the integration process, Charter's business could suffer and Charter's liquidity, results of operations and financial condition may be materially adversely impacted.

Even if we are able to successfully integrate the new assets, it may not be possible to realize the benefits that are expected to result from the Exchange and Purchase, or realize these benefits within the time frame that is expected. For example, the elimination of duplicative costs may not be possible or may take longer than anticipated, or the benefits from the Exchange and Purchase may be offset by costs incurred or delays in integrating the companies. Programming dis-synergies could also be larger than expected. If we fail to realize the benefits we anticipate from the acquisition, Charter's liquidity, results of operations or financial condition may be adversely affected.

The value of our interests in GreatLand Connections following the Transactions may fluctuate from time to time based on factors beyond our control.

Following the Transactions, the value of our interests in GreatLand Connections will depend on GreatLand Connections' operational performance and fluctuations in its share price. We will not control the management and operations of GreatLand Connections, and we will therefore not be able to prevent or address any decline in the operational performance or trading value of GreatLand Connections. In addition, the operational performance and trading value of GreatLand Connections may be influenced by other factors outside our control, including risks resulting from the separation of the cable systems from Comcast; changes in earnings estimated by securities analysts or GreatLand Connections' ability to meet those estimates; and domestic and foreign economic conditions. For more information about the risks associated with our ownership interest in GreatLand Connections, see Risk Factors Risks Related to our Interest in GreatLand Connections .

If the operating results for GreatLand Connections following the Transactions are poor, Charter may not achieve the increases in revenues and earnings per share that Charter expects as a result of the Transactions.

Charter has projected that it will derive a portion of its revenues and earnings per share from GreatLand Connections after the Transactions, through its receipt of a management services fee of 4.25% of GreatLand Connections' revenues pursuant to the Charter Services Agreement. In addition, Charter will record 33% of GreatLand Connections' net income, which will also have an impact on Charter's operating results. Therefore, any negative impact on GreatLand Connections or the operations of the GreatLand Connections Business could harm Charter's operating results. Some of the significant factors that could harm GreatLand Connections and the operations of the GreatLand Connections Business, and therefore harm the future operating results of Charter after the Transactions, include competitive pressure from existing or new companies and a decline in the markets served by the GreatLand Connections Business. See Risk Factors Risks Related to our Interest in GreatLand Connections .

Table of Contents

If the operating results of the Time Warner Cable assets acquired in the Exchange and the Purchase are less than our expectations, or an increase in the capital expenditures to upgrade and maintain those assets as well as to keep pace with technological developments is necessary, Charter may not achieve the expected level of financial results from the Transactions.

Charter has projected that it will derive a portion of its revenues and earnings per share from the operation of the Time Warner Cable assets that it will acquire in the Exchange and the Purchase. Therefore, any negative impact on the Time Warner Cable assets to be acquired by Charter or the operating results derived from such exchanged and purchased assets could harm Charter's operating results.

Our business is characterized by rapid technological change and the introduction of new products and services. Charter intends to make all-digital investments in the Time Warner Cable assets acquired in the Exchange and Purchase. The increase in capital expenditures necessary for the all-digital investment in the Time Warner Cable assets may negatively impact the expected financial results from the Transactions. We may not be able to fund the capital expenditures necessary to keep pace with technological developments, execute the plans to do so, or anticipate the demand of our customers for products and services requiring new technology or bandwidth. Our inability to maintain, expand and upgrade our existing or acquired assets, including through all-digital initiatives for the Time Warner Cable assets, could materially adversely affect our financial condition and results of operations.

The substantial indebtedness that will be incurred by Charter in connection with the Transactions could adversely affect Charter's operations and financial condition after the Transactions.

As of September 30, 2014, Charter had approximately \$17.7 billion principal amount of debt outstanding, including the Term Loan G issued in September 2014 and being held in escrow. On a pro forma basis, after giving effect to the Transactions and the financings, Charter will have a total of approximately \$21.7 billion principal amount of debt outstanding which includes \$3.5 billion of Senior Notes due 2022 and 2024 that were issued in November 2014, and \$1.0 billion Term Loan A-2 which has been committed, but not issued. The \$3.5 billion of new Senior Notes due 2022 and 2024 are also being held in escrow. As of September 30, 2014, on a pro forma basis, after giving effect to the Transactions and the financings, Charter will have availability under its credit facilities of approximately \$1.7 billion which includes an additional \$500 million incremental senior secured revolving credit facility. The Term Loan G, Term Loan A-2 and incremental senior secured revolving credit facility, in each case, will be incurred under Charter Operating's existing amended and restated credit agreement, as described in the section entitled "Debt Financing - Incremental Facilities".

Charter may also incur additional indebtedness in connection with the Transactions and related financing transactions. The number of shares issued in the Share Issuance will be determined based upon the following formula. Following the GreatLand Connections Merger, New Charter's ownership percentage in GreatLand Connections will be equal to an amount that will result in historic Comcast shareholders (not including Time Warner Cable stockholders and disregarding public trading for the purposes of this calculation) holding at least 50.75% of the GreatLand Connections shares. New Charter's ownership percentage in GreatLand Connections is currently estimated to be 33%. To calculate the number of shares issued in the Share Issuance) as the product of 7.125 and the Carveout 2014 EBITDA (as defined in the Transactions Agreement) of the GreatLand Connections systems, plus the fair market value of any non-system assets of GreatLand Connections. From this, the amount of GreatLand Connections indebtedness as of the closing (subject to further adjustment as provided in the Transactions Agreement) will be deducted to estimate the equity value of GreatLand Connections (for purposes of the Share Issuance). This equity value, plus the amount of certain financing fees for the transaction, will be multiplied by New Charter's percentage ownership to obtain the value (for purposes of the Share Issuance) of New Charter's interest in GreatLand Connections. Once the value of New Charter's interest in GreatLand Connections has been determined, New Charter shares having an equal value will be issued to

the stockholders of GreatLand Connections. These New Charter shares will be valued based upon the 60-calendar-day volume weighted average price of Charter shares ending on the last trading day prior to closing. The expenses

Table of Contents

incurred by Charter and Comcast in connection with the related GreatLand Connections financing transactions may also be larger than expected, which may further increase the amount of indebtedness Charter incurs in connection with the Transactions. For more information, see *The Transactions* *The Mergers* .

Charter's and its subsidiaries' indebtedness could have negative consequences to Charter after the Transactions, such as:

requiring Charter to dedicate a substantial portion of its cash flow from operating activities to payments on its indebtedness, thereby reducing the availability of cash flow to fund working capital, capital expenditures, research and development efforts, potential strategic acquisitions and other general corporate purposes;

limiting Charter's ability to obtain additional financing to fund growth, working capital or capital expenditures, or to fulfill debt service requirements or other cash requirements;

exposing Charter to increased interest expense to the extent Charter refinances existing debt, particularly its bank debt, with higher cost debt;

placing Charter at a competitive disadvantage relative to competitors that have less debt;

to the extent that Charter's debt is subject to floating interest rates, increasing Charter's vulnerability to fluctuations in market interest rates;

adversely affecting Charter's relationship with customers and suppliers;

limiting Charter's flexibility in planning for, or reacting to, changes in its business, the cable and telecommunications industries, and the economy at large; and

limiting Charter's ability to buy back Charter common stock or pay cash dividends.

If current debt amounts increase, the related risks that Charter now faces may intensify.

Because of high debt levels, Charter may not be able to service its debt obligations in accordance with their terms after the Transactions.

Charter's ability to meet its expense and debt service obligations contained in the agreements governing Charter's indebtedness will depend on its future performance, which will be affected by financial, business, economic and other factors, including potential changes in customer preferences, the success of product and marketing innovation and pressure from competitors. Should Charter's sales decline after the Transactions, it may not be able to generate sufficient cash flow to pay its debt service obligations when due. If Charter is unable to meet its debt service obligations after the Transactions or should it fail to comply with its financial and other restrictive covenants

contained in the agreements governing Charter's indebtedness, Charter may be required to refinance all or part of its debt, sell important strategic assets at unfavorable prices or borrow more money. Charter may not be able to, at any given time, refinance its debt, sell assets or borrow more money on terms acceptable to Charter or at all. The inability of Charter to refinance its debt could have a material adverse effect on Charter's financial condition and results from operations after the Transactions.

The existing agreements and instruments governing Charter's existing debt contain restrictions and limitations that could significantly affect its ability to operate its business, as well as significantly affect its liquidity and, after the Transactions, Charter will be subject to restrictive debt covenants, which may restrict its operational flexibility.

Charter's existing credit facilities and the indentures governing its debt contain a number of significant covenants that could adversely affect its ability to operate its business, its liquidity, and its results of operations. These covenants restrict, among other things, Charter's and its subsidiaries' ability to:

incur additional debt;

repurchase or redeem equity interests and debt;

Table of Contents

issue equity;

make certain investments or acquisitions;

pay dividends or make other distributions;

dispose of assets or merge;

enter into related party transactions; and

grant liens and pledge assets.

Charter depends on generating sufficient cash flow to fund its debt obligations, capital expenditures, and ongoing operations.

After the Transactions, the agreements governing Charter's indebtedness will contain additional financial and other restrictive covenants that may be similarly or more restrictive and will limit Charter's and its subsidiaries' ability to engage in activities that may be in their long-term best interests, including minimum interest coverage and maximum leverage ratios and covenants that may limit the ability of Charter and its subsidiaries to incur additional indebtedness, create liens, merge or consolidate with another company, sell assets and enter into transactions with affiliates.

Charter is dependent on its cash on hand and cash flow from operations to fund its debt obligations, capital expenditures and ongoing operations.

Charter's ability to service its existing debt and debt incurred in connection with the Transactions, and to fund its planned capital expenditures and ongoing operations will depend on its ability to continue to generate cash flow and its access (by dividend or otherwise) to additional liquidity sources at the applicable obligor. Charter's ability to continue to generate cash flow is dependent on many factors, including:

Charter's ability to sustain and grow revenues and cash flow from operations by offering video, Internet, voice, advertising and other services to residential and commercial customers, to adequately meet the customer experience demands in its markets and to maintain and grow its customer base, particularly in the face of increasingly aggressive competition, the need for innovation and the related capital expenditures and the difficult economic conditions in the United States;

the impact of competition from other market participants, including but not limited to incumbent telephone companies, direct broadcast satellite operators, wireless broadband and telephone providers, DSL providers and video provided over the Internet;

general business conditions, economic uncertainty or downturn, high unemployment levels and the level of activity in the housing sector;

Charter's ability to obtain programming at reasonable prices or to raise prices to offset, in whole or in part, the effects of higher programming costs (including retransmission consents);

the development and deployment of new products and technologies including in connection with Charter's plan to make its systems all-digital in 2014; and

the effects of governmental regulation on Charter's business.

Some of these factors are beyond Charter's control. If Charter is unable to generate sufficient cash flow or Charter is unable to access additional liquidity sources, Charter may not be able to service and repay its debt, operate its business, respond to competitive challenges, or fund its other liquidity and capital needs.

Charter may have difficulty attracting, motivating and retaining executives and other employees in light of the Transactions.

Uncertainty about the effect of the Transactions on Charter employees may have an adverse effect on Charter. This uncertainty may impair Charter's ability to attract, retain and motivate personnel until the

Table of Contents

Transactions are completed. Employee retention may be particularly challenging during the pendency of the Transactions, as employees may feel uncertain about their future roles with Charter after the Transactions. If employees of Charter depart because of issues relating to the uncertainty and difficulty of integration or a desire not to become employees of Charter after the Transactions, Charter's ability to realize the anticipated benefits of the Transactions could be reduced.

A delay in the completion of the Transactions may diminish the anticipated benefits of the Transactions.

Completion of the Transactions is conditioned upon the receipt of certain governmental consents and approvals, orders, authorizations, and rulings, including the expiration or termination of any applicable waiting period (or extension thereof) under the HSR Act and the adoption of an order, and release of the full text thereof, by the FCC granting its consent to the transfer of control or assignment of certain licenses and authorizations issued by the FCC. The requirement to receive these consents and approvals, orders, authorizations and rulings before the Transactions could delay the completion of the Transactions if, for example, government agencies request additional information from the parties in order to facilitate their review of the Transactions or require any conditions precedent to granting their approval of the Transactions. In addition, these governmental agencies may attempt to condition their approval of the Transactions on the imposition of conditions that could have a material adverse effect on Charter after the Transactions, including but not limited to its operating results or the value of Charter Class A common stock. Any delay in the completion of the Transactions could diminish the anticipated benefits of the Transactions or result in additional transaction costs, loss of revenue or other effects associated with uncertainty about the Transactions. Any uncertainty over the ability of the companies to complete the Transactions could make it more difficult for Charter and GreatLand Connections to retain key employees or to pursue business strategies. In addition, until the Transactions are completed, the attention of Charter management may be diverted from ongoing business concerns and regular business responsibilities to the extent management is focused on matters relating to the Transactions.

Our inability to successfully acquire and integrate other businesses, assets, products or technologies could harm our operating results.

We continuously evaluate and pursue small and large acquisitions and strategic investments in businesses, products or technologies that we believe could complement or expand our business or otherwise offer growth or cost-saving opportunities. From time to time, including in the near term, we may enter into letters of intent with companies with which we are negotiating for potential acquisitions or investments, or as to which we are conducting due diligence. An investment in, or acquisition of, complementary businesses, products or technologies in the future could materially decrease the amount of our available cash or require us to seek additional equity or debt financing. We may not be successful in negotiating the terms of any potential acquisition, conducting thorough due diligence, financing the acquisition or effectively integrating the acquired business, product or technology into our existing business and operations. Our due diligence may fail to identify all of the problems, liabilities or other shortcomings or challenges of an acquired business, product or technology, including issues related to intellectual property, product quality or product architecture, regulatory compliance practices, revenue recognition or other accounting practices, or employee or customer issues.

Additionally, in connection with any acquisitions we complete, we may not achieve the growth, synergies or other benefits we expected to achieve, and we may incur write-downs, impairment charges or unforeseen liabilities that could negatively affect our operating results or financial position or could otherwise harm our business. Further, contemplating or completing an acquisition and integrating an acquired business, product or technology, individually or across multiple opportunities, could divert management and employee time and resources from other matters.

Table of Contents

Failure to complete the Transactions could negatively impact our stock price and our future business and financial results.

If the Transactions are not completed for any reason, including as a result of our stockholders failing to approve the Share Issuance proposal, our ongoing business may be adversely affected and, without realizing any of the benefits of having completed the Transactions, we would be subject to a number of risks:

We may experience negative reactions from the financial markets, including negative impacts on our stock price;

We may experience negative reactions from our customers, regulators and employees;

We may be required to pay significant costs relating to the Transactions;

The Transactions Agreement places certain restrictions on the conduct of our business with respect to our assets being transferred to Comcast prior to completion of the Transactions. Such restrictions, the waiver of which is subject to the consent of the other party (in certain cases, not to be unreasonably withheld, conditioned or delayed), may have prevented us from taking certain specified actions or otherwise pursuing business opportunities during the pendency of the Transactions; and

Matters relating to the Transactions (including integration planning) will require substantial commitments of time and resources by our management and expenditures, which would otherwise have been devoted to day-to-day operations and other opportunities that may have been beneficial to us as an independent company.

If the Transactions are not completed, the risks described above may materialize and they may adversely affect our business, financial condition, financial results and stock price. In addition, we could be subject to litigation related to any failure to complete the Transactions or related to any enforcement proceeding commenced against us to perform our obligations under the Transactions Agreement.

If the Spin-Off does not qualify as a tax-free reorganization under Sections 368(a)(1)(D) and 355 of the Code, including as a result of subsequent acquisitions of stock of GreatLand Connections, then Comcast may recognize a very substantial amount of taxable gain and GreatLand Connections (and in certain circumstances, Charter) may be obligated to indemnify Comcast for these taxes.

The completion of the Transactions is conditioned upon the receipt of opinions from counsel as to the tax free nature of certain of the Transactions, including the Spin-Off. The opinions of counsel will be based on, among other things, current law and certain assumptions and representations as to factual matters made by Comcast, GreatLand Connections and Charter. Any change in currently applicable law, which may be retroactive, or the failure of any representation to be true, correct and complete, could adversely affect the conclusions reached by counsel in the opinions. Moreover, the opinions will not be binding on the IRS or the courts, and the IRS or the courts may not agree with the conclusions reached in the opinions.

Even if the Spin-Off otherwise qualifies as a tax-free spin-off for U.S. federal income tax purposes, the Spin-Off will be taxable to Comcast pursuant to section 355(e) of the Code if 50% or more of the stock of either Comcast or GreatLand Connections is acquired, directly or indirectly (taking into account the stock of GreatLand Connections acquired by New Charter in the Merger and the stock of Comcast and GreatLand Connections acquired by Time Warner Cable stockholders in the transaction between Comcast and Time Warner Cable and in the Spin-Off), as part of a plan or series of related transactions that includes the Spin-Off. Because GreatLand Connections stockholders that are former Comcast shareholders (exclusive of former Time Warner Cable stockholders) will own more than 50% of the common stock of GreatLand Connections following the Merger, the Merger standing alone is not expected to cause the Spin-Off to be taxable to Comcast under section 355(e) of the Code. However, if the IRS were to determine that other acquisitions of GreatLand Connections common stock or Comcast common stock, either before or after the Spin-Off are part of a plan or series of related transactions that includes the Spin-Off, such determination could result in the recognition of gain by Comcast under section 355(e) of the Code. If section 355(e) of the Code applied, Comcast might recognize a very substantial amount of taxable gain.

Table of Contents

Under the Tax Matters Agreement, in certain circumstances, and subject to certain limitations, GreatLand Connections will be required to indemnify Comcast against taxes on the Spin-Off that arise as a result of certain actions or failures to act by GreatLand Connections or as a result of certain changes in ownership of the stock of GreatLand Connections after the completion of the Transactions. GreatLand Connections will be unable to take certain actions after the Transactions because such actions could adversely affect the tax-free status of the Spin-Off, and such restrictions could be significant. If GreatLand Connections is required to indemnify Comcast in the event the Spin-Off is taxable, this indemnification obligation would be substantial and could have a material adverse effect on GreatLand Connections.

Moreover, under the Tax Matters Agreement, and subject to certain limitations, New Charter will be required to indemnify Comcast against taxes on the Spin-Off that arise from New Charter taking any actions that would result in New Charter holding GreatLand Connections shares in excess of the percentage of GreatLand Connections shares acquired in the Merger during the two year period following the Spin-Off. If New Charter is required to indemnify Comcast in the event the Spin-Off is taxable, this indemnification obligation would be substantial and could have a material adverse effect on New Charter.

New Charter and GreatLand Connections will be unable to take certain actions after the Transactions because such actions could adversely affect the tax-free status of the Spin-Off, and such restrictions could be significant.

The Tax Matters Agreement will prohibit New Charter, Charter and GreatLand Connections from taking actions that could cause the Spin-Off to be taxable to Comcast. In particular, for two years after the completion of the Transactions, New Charter and GreatLand Connections will not be permitted to take actions that would result in New Charter holding (or being treated as holding) GreatLand Connections shares in excess of the percentage of GreatLand Connections shares acquired by New Charter in the GreatLand Connections Merger. These actions could include entering into certain merger or consolidation transactions, certain stock issuances and certain other desirable strategic transactions.

Because of these restrictions, GreatLand Connections may be limited in the amount of stock that it can issue to make acquisitions or raise additional capital in the two years subsequent to the completion of the Mergers, which could have a material adverse effect on GreatLand Connections liquidity and financial condition.

The Tax Matters Agreement will also provide that in certain circumstances, and subject to certain limitations, GreatLand Connections and New Charter will be required to indemnify Comcast against taxes on the Spin-Off that arise as a result of actions in violation of the prohibitions and limitations described above. If GreatLand Connections or New Charter is required to indemnify Comcast in the event the Spin-Off is taxable, this indemnification obligation would be substantial and could have a material adverse effect on GreatLand Connections or New Charter, as applicable.

See Additional Agreements Related to the Contribution and Spin-Off, the Mergers, the Exchange and the Purchase Tax Matters Agreement .

We will incur significant transaction-related costs in connection with the Transactions.

We expect to incur a number of non-recurring costs associated with the Transactions before, at, and after closing the Transactions. We also will incur transaction fees and costs related to formulating and implementing integration plans, including facilities and systems implementation costs and employment-related costs. We continue to assess the magnitude of these costs, and additional unanticipated costs may be incurred in the Transactions and integration. Although we expect that the elimination of duplicative costs, as well as the realization of other efficiencies related to

the integration of the businesses, should allow us to offset integration-related costs over time, this net benefit may not be achieved in the near term, or at all. In addition, if the Transactions are not consummated, we would bear some or all of these costs without the benefit of efficiencies from the integration of the businesses. Such costs could have a material adverse impact on our financial results.

Table of Contents

Sales of our common stock after the Transactions may negatively affect the market price of New Charter common stock.

The shares of our common stock to be issued in the Transactions to holders of GreatLand Connections common stock will generally be eligible for immediate resale. The market price of our common stock could decline as a result of sales of a large number of shares of our common stock in the market after the consummation of the Transactions or even the perception that these sales could occur.

Currently, Comcast shareholders may include index funds that have performance tied to the Standard & Poor's 500 Index or other stock indices, and institutional investors subject to various investing guidelines. Because New Charter may not be included in these indices following the consummation of the Transactions or may not meet the investing guidelines of some of these institutional investors, these index funds and institutional investors may decide to or may be required to sell the common stock that they receive in the Transactions. These sales, or the possibility that these sales may occur, may also make it more difficult for New Charter to obtain additional capital by selling equity securities in the future at a time and at a price that it deems appropriate.

The GreatLand Connections board of directors did not obtain an independent financial advisor's opinion to the effect that the GreatLand Connections Merger is fair to GreatLand Connections shareholders.

The Transactions Agreement was approved by the board of directors of Comcast and, as GreatLand Connections was not formed at the time the Transactions Agreement was approved and as GreatLand Connections is now and will remain until completion of the Spin-Off a wholly-owned subsidiary of Comcast, GreatLand Connections did not seek and will not seek, and the GreatLand Connections board of directors did not receive and will not receive, an independent financial advisor's opinion that the GreatLand Connections Merger is fair to GreatLand Connections shareholders before entering into the Transactions Agreement or completing the transactions contemplated thereby.

Risks Related to our Interest in GreatLand Connections

GreatLand Connections currently faces a wide range of competitors, and its business and results of operations could be adversely affected if it does not compete effectively.

GreatLand Connections operates in an intensely competitive, consumer-driven and rapidly changing environment and competes with a growing number of companies that provide a broad range of communications products and services and entertainment, news and information content to consumers. Technological changes are further intensifying and complicating the competitive landscape and influencing consumer behavior, which is discussed in the risk factor immediately below. Newer technologies and services are driving changes in consumer behavior, which may increase the number of competitors GreatLand Connections faces and adversely affect its businesses.

Competition for the cable services GreatLand Connections offers consists primarily of direct broadcast satellite (DBS) providers, which have a national footprint and compete in all GreatLand Connections service areas, and phone companies, which overlap approximately half of its service areas and are continuing to expand their fiber-based networks. GreatLand Connections also competes with other providers of traditional cable services in some of the areas it serves and with satellite master antenna television systems. All of these companies typically offer features, pricing and packaging for services comparable to GreatLand Connections cable services. Furthermore, some of GreatLand Connections phone company competitors have their own wireless facilities and may expand their cable offerings to include bundled wireless offerings, which may have an adverse impact on its competitive position, business and results of operations. Additionally, in May 2014, AT&T, GreatLand Connections largest phone company competitor, announced its intention to acquire DirecTV, the nation's largest DBS provider. If completed, this transaction will

create an even larger competitor for GreatLand Connections cable services that will have the ability to expand its cable service offerings to include bundled wireless offerings.

Table of Contents

There continue to be new entrants, some with significant financial resources, that potentially may compete on a larger scale with GreatLand Connections' cable services. These new entrants include companies that offer services that enable Internet video streaming and downloading of video programming, some of which charge a nominal or no fee for access to their content. Additionally, Google has launched high-speed Internet and video services in a limited number of areas outside of GreatLand Connections' footprint, and some local municipalities are launching their own fiber-optic high-speed Internet services.

There can be no assurance that GreatLand Connections will be able to compete effectively against existing or new competitors or that competition will not have an adverse effect on its business.

Newer technologies and services are driving changes in consumer behavior, which may increase the number of competitors GreatLand Connections faces and adversely affect GreatLand Connections' businesses.

Newer technologies and services, particularly alternative methods for the distribution, sale and viewing of content, have been, and will likely continue to be, developed that further increase the number of competitors that GreatLand Connections faces for its cable services. These technologies and services are also driving changes in consumer behavior as consumers seek more control over when, where and how they consume content and access communications services. While GreatLand Connections will attempt to adapt to changing consumer behavior by adding additional video on demand content and offering some of that content and live programming online, newer services and technologies that may compete with GreatLand Connections' video services include digital distribution services and devices that offer Internet video streaming and downloading of movies, television shows and other video programming that can be viewed on television sets, computers, smartphones and tablets. Some of these services charge a nominal or no fee for access to their content, which could adversely affect demand for GreatLand Connections' video services, including for premium networks and its DVR and video on demand services. Newer services in wireless Internet technology, such as 4G wireless broadband services and Wi-Fi networks, and devices such as wireless data cards, tablets, smartphones and mobile wireless routers that connect to such devices, may compete with GreatLand Connections' high-speed Internet services. GreatLand Connections' voice services continue to face increased competition from wireless and Internet-based phone services as more people choose to replace their traditional wireline phone service with these phone services. The success of any of these ongoing and future developments or GreatLand Connections' failure to effectively anticipate or adapt to emerging technologies or changes in consumer behavior, including among younger consumers, could have an adverse effect on GreatLand Connections' competitive position, business and results of operations.

We have relied and will rely on GreatLand Connections to provide us with the financial information that we use in accounting for our ownership interest in GreatLand Connections as well as information regarding GreatLand Connections that we include in our public filings, including this prospectus/proxy statement.

We expect to account for our approximately 33% ownership interest in GreatLand Connections using the equity method of accounting and, accordingly, in our financial statements we expect to record our share of GreatLand Connections' net income or loss. Within the meaning of U.S. accounting rules, we will rely on GreatLand Connections to provide us with financial information prepared in accordance with generally accepted accounting principles, which we will use in the application of the equity method. We will also rely on GreatLand Connections to provide us with the information regarding their company that we will include in our public filings. In addition, we cannot change the way in which GreatLand Connections will report its financial results or require GreatLand Connections to change its internal controls over financial reporting. No assurance can be given that GreatLand Connections will provide us with the information necessary to enable us to complete our public filings on a timely basis or at all. Furthermore, any material misstatements or omissions in the information GreatLand Connections is expected to provide to us or publicly files could have a material adverse effect on our financial statements and filing status under federal securities

laws.

Table of Contents***GreatLand Connections expects its programming expenses to increase considerably immediately following the Spin-Off.***

Prior to the Spin-Off, programming expenses for GreatLand Connections' video services were its largest single expense item, even with the benefit of lower rates obtained by Comcast due to its scale as being the nation's largest cable operator. Following the Spin-Off, GreatLand Connections expects that it will obtain its programming primarily through Charter, as well as through some direct relationships with programmers. Charter anticipates its programming costs, even after giving effect to the Transactions, to be considerably higher than Comcast's programming costs.

Programming expenses for GreatLand Connections' video services are increasing, which could adversely affect GreatLand Connections' businesses.

The multichannel video provider industry has experienced continued increases in the cost of programming, especially sports programming, which GreatLand Connections expects will continue for the foreseeable future. GreatLand Connections' programming expenses may also increase as GreatLand Connections adds programming to GreatLand Connections' video services or distributes existing programming to more of GreatLand Connections' customers or through additional delivery platforms, such as video on demand or online video applications. Additionally, in the past few years, cable operators have begun paying certain local broadcast television stations in exchange for their required consent for the retransmission of broadcast network programming to its video services customers; GreatLand Connections expects to be subject to increasing demands for payment and other concessions from local broadcast television stations. These market factors may be exacerbated by the increasing trend of consolidation in the media industry, which may further increase GreatLand Connections' programming expenses. If GreatLand Connections is unable to raise its customers' rates or offset programming cost increases through the sale of additional services, the increasing cost of programming could have an adverse impact on GreatLand Connections' results of operations. Moreover, as GreatLand Connections' contracts with content providers expire, there can be no assurance that they will be renewed on acceptable terms or that they will be renewed at all, in which case GreatLand Connections may be unable to provide such content as part of its video services, and its businesses and results of operations could be adversely affected.

GreatLand Connections faces risks inherent in its commercial business.

GreatLand Connections is focused on growing its commercial services business and expects to maintain or increase expenditures on technology, equipment and personnel focused on the commercial business. Commercial business customers often require service level agreements and generally have heightened customer expectations for reliability of services. If GreatLand Connections' efforts to build the infrastructure to scale the commercial business are not successful, the growth of its commercial services business would be limited. GreatLand Connections depends on interconnection and related services provided by certain third parties for the growth of its commercial business. As a result, GreatLand Connections' ability to implement changes as the services grow may be limited. If GreatLand Connections is unable to meet these service level requirements or expectations, its commercial business could be adversely affected.

A decline in advertising expenditures or changes in advertising markets could negatively impact GreatLand Connections' businesses.

A decline in advertising expenditures could negatively impact GreatLand Connections' results of operations. Declines can be caused by the economic prospects of specific advertisers or industries, by increased competition for the leisure time of audiences and audience fragmentation, by the growing use of new technologies, or by the economy in general, any of which may cause advertisers to alter their spending priorities based on these or other factors. Further, natural

disasters, wars, acts of terrorism, or other significant adverse news events could lead to a reduction in advertising expenditures as a result of uninterrupted news coverage and general economic uncertainty.

Table of Contents***GreatLand Connections' business depends on keeping pace with technological developments.***

GreatLand Connections' success is, to a large extent, dependent on its ability to acquire, develop, adopt and leverage new and existing technologies, and its competitors' use of certain types of technology and equipment may provide them with a competitive advantage. For example, some companies and municipalities are building advanced fiber-optic networks that provide very fast Internet access speeds, and wireless Internet technologies continue to evolve rapidly to allow for greater speed and reliability. GreatLand Connections expects other advances in communications technology to occur in the future. If GreatLand Connections chooses technology or equipment that is not as effective or attractive to consumers as that employed by its competitors, if GreatLand Connections fails to employ technologies desired by consumers before its competitors do so, or if GreatLand Connections fails to execute effectively on its technology initiatives, GreatLand Connections' business and results of operations could be adversely affected. GreatLand Connections also may incur increased costs if changes in the products and services that its competitors offer require that GreatLand Connections offer certain of its existing services or enhancements at a lower or no cost to its customers or that GreatLand Connections make additional research and development expenditures, which could have an adverse effect on its businesses.

GreatLand Connections is subject to regulation by federal, state and local authorities, which may impose additional costs and restrictions on GreatLand Connections' businesses.

Federal, state and local governments extensively regulate the video services industry and may increase the regulation of the Internet service and Voice over Internet Protocol (VoIP) service industries. GreatLand Connections expects that legislative enactments, court actions and regulatory proceedings will continue to clarify, and in some cases may adversely affect, the rights and obligations of cable operators and other entities under the Communications Act of 1934, as amended (the Communications Act), and other laws. Failure to comply with the laws and regulations applicable to GreatLand Connections' businesses could result in administrative enforcement actions, fines, and civil and criminal liability.

Changes to existing statutes, rules, regulations, or interpretations thereof, or adoption of new ones, could have an adverse effect on GreatLand Connections' business.

Legislators and regulators at all levels of government frequently consider changing, and sometimes do change, existing statutes, rules, regulations, or interpretations thereof, or prescribe new ones. Any future legislative, judicial, regulatory or administrative actions may increase GreatLand Connections' costs or impose additional restrictions on GreatLand Connections' businesses. For example, in 2014, the FCC launched a rulemaking to adopt new open Internet regulations applicable to broadband Internet service providers (ISPs) such as us. Among other things, the FCC has proposed requirements to enhance required disclosures regarding network management, performance and commercial terms of the service; bar broadband ISPs from blocking access to lawful content, applications, services or non-harmful devices; and bar wireline broadband ISPs such as us from discriminating in a commercially unreasonable manner in transmitting lawful network traffic. The FCC has also invited comment on proposals to reclassify broadband Internet service as a telecommunications service, which would subject it to traditional common carriage regulation under Title II of the Communications Act, potentially including rate regulation and a prohibition or restriction on arrangements between GreatLand Connections and Internet content, application, and service providers, including backbone connection arrangements, which would have a material adverse effect on its business and results of operations. The FCC is also considering the appropriate regulatory framework for VoIP service, including whether that service should be regulated under Title II. While GreatLand Connections cannot predict what rules the FCC will adopt as part of these rulemakings, any changes to the regulatory framework for GreatLand Connections' high-speed Internet or VoIP services could have a negative impact on its business and results of operations.

Table of Contents

GreatLand Connections relies on network and information systems, properties and other technologies, and a disruption, cyber-attack, failure or destruction of such networks, systems, properties or technologies may disrupt or have an adverse effect on its business.

Network and information systems and other technologies, including those related to GreatLand Connections' network management and customer service operations, are critical to its business activities. Network and information systems-related events, including those caused by us or by third parties, such as computer hackings, cyber attacks, computer viruses, worms or other destructive or disruptive software, process breakdowns, denial of service attacks, malicious social engineering or other malicious activities, or any combination of the foregoing, or power outages, natural disasters, terrorist attacks or other similar events, could result in a degradation or disruption of GreatLand Connections' services, excessive call volume to call centers or damage to its properties, equipment and data. These events also could result in large expenditures to repair or replace the damaged properties, networks or information systems or to protect them from similar events in the future.

In addition, GreatLand Connections may obtain certain confidential, proprietary and personal information about GreatLand Connections' customers, personnel and vendors, and may provide this information to third parties, in connection with its business. While GreatLand Connections obtains assurances that these third parties will protect this information, there is a risk that this information may be compromised. Any security breaches, such as misappropriation, misuse, leakage, falsification or accidental release or loss of information maintained in GreatLand Connections' information technology systems, including customer, personnel and vendor data, could damage GreatLand Connections' reputation and require it to expend significant capital and other resources to remedy any such security breach, and could cause regulators to impose fines or other remedies for failure to comply with relevant customer privacy rules.

The risk of these systems-related events and security breaches occurring continues to intensify in many lines of business, and GreatLand Connections' line of business may be at a disproportionately heightened risk of these events occurring, due to the nature of its business and the fact that GreatLand Connections maintains certain information necessary to conduct GreatLand Connections' business in digital form stored on cloud servers. In the ordinary course of GreatLand Connections' business, there are frequent attempts to cause such systems-related events and security breaches, and GreatLand Connections has experienced a few minor systems-related events that, to date, have not resulted in any significant degradation or disruption to GreatLand Connections' network or information systems or its services or operations. While Comcast developed and maintained systems seeking to prevent systems-related events and security breaches from occurring, GreatLand Connections will be transitioning from Comcast's systems following the Spin-Off. Additionally, the development and maintenance of these systems is costly and requires ongoing monitoring and updating as technologies change and efforts to overcome security measures become more sophisticated. Despite any efforts to prevent these events and security breaches, there can be no assurance that they will not occur in the future or will not have an adverse effect on GreatLand Connections' business. Moreover, the amount and scope of insurance GreatLand Connections maintains against losses resulting from any such events or security breaches may not be sufficient to cover its losses or otherwise adequately compensate GreatLand Connections for any disruptions to its business that may result, and the occurrence of any such events or security breaches could have an adverse effect on its business.

Weak economic conditions may have a negative impact on GreatLand Connections' business.

A substantial portion of GreatLand Connections' revenue is expected to come from customers whose spending patterns may be affected by prevailing economic conditions. Weak economic conditions, including unemployment and a weak housing market, or increases in price levels generally due to inflationary pressures, could adversely affect demand for any of GreatLand Connections' products and services and have a negative impact on GreatLand Connections' results of

operations. For example, customers may reduce the level of cable services to which they subscribe, or may discontinue subscribing to one or more of GreatLand Connections cable services. This risk may be increased by the expanded availability of free or lower cost competitive services, such as Internet video streaming and downloading services, or substitute services for GreatLand Connections

Table of Contents

high-speed Internet and phone services, such as mobile phones, smartphones and Wi-Fi networks. Weak economic conditions also may have a negative impact on GreatLand Connections' advertising revenue. Additionally, because GreatLand Connections will have concentrations of customers in the Detroit, St. Paul-Minneapolis and Indianapolis designated market areas (DMAs), any disproportionate economic weakness in those DMAs as compared to the nation as a whole could have an adverse effect on GreatLand Connections' business. Weak economic conditions and turmoil in the global financial markets may also impair the ability of third parties to satisfy their obligations to GreatLand Connections. Further, any disruption in the global financial markets may affect GreatLand Connections' ability to obtain financing on acceptable terms. If economic conditions deteriorate, GreatLand Connections' businesses may be adversely affected.

GreatLand Connections may be unable to obtain necessary hardware, software and operational support.

GreatLand Connections depends on third-party vendors to supply GreatLand Connections with a significant amount of the hardware, software and operational support necessary to provide certain of its services. Some of these vendors represent GreatLand Connections' primary source of supply or grant GreatLand Connections the right to incorporate their intellectual property into some of GreatLand Connections' hardware and software products. If any of these vendors experience operating or financial difficulties, if GreatLand Connections' demand exceeds their capacity or if they are otherwise unable to meet GreatLand Connections' specifications or provide the equipment or services GreatLand Connections needs in a timely manner or at reasonable prices, GreatLand Connections' ability to provide some services may be adversely affected.

GreatLand Connections may be unable to maintain intellectual property protection for its products and services.

GreatLand Connections depends on patent, copyright, trademark and trade secret laws and licenses to establish and maintain its intellectual property rights in technology and the products and services used in its operating activities. Any of GreatLand Connections' intellectual property rights could be challenged or invalidated, or such intellectual property rights may not be sufficient to permit GreatLand Connections to continue to use certain intellectual property, which could result in discontinuance of certain product or service offerings or other competitive harm, GreatLand Connections incurring substantial monetary liability or being enjoined preliminarily or permanently from further use of the intellectual property in question. The occurrence of any such event could have an adverse effect on GreatLand Connections' business.

GreatLand Connections' cable system franchises are subject to non-renewal or termination. The failure to renew a franchise in one or more key markets could adversely affect its business.

GreatLand Connections' cable systems generally operate pursuant to franchises, permits, and similar authorizations issued by a state or local governmental authority controlling public rights-of-way. Many franchises establish comprehensive facilities and service requirements, as well as specific customer service standards and monetary penalties for noncompliance. In many cases, franchises are terminable if the franchisee fails to comply with significant provisions set forth in the franchise agreement governing system operations. Franchises are generally granted for fixed terms and must be periodically renewed. Franchising authorities may resist granting a renewal if either past performance or the prospective operating proposal is considered inadequate. Franchise authorities often demand concessions or other commitments as a condition to renewal. In some instances, local franchises have not been renewed at expiration, and GreatLand Connections will operate under either temporary operating agreements or without a franchise while negotiating renewal terms with the local franchising authorities.

The traditional cable franchising regime has recently undergone significant change as a result of various federal and state actions. Some state franchising laws do not allow GreatLand Connections to immediately opt into favorable

statewide franchising. In many cases, state franchising laws will result in fewer franchise imposed requirements for GreatLand Connections competitors who are new entrants than for GreatLand Connections, until it is able to opt into the applicable state franchise.

Table of Contents

GreatLand Connections may not be able to comply with all significant provisions of its franchise agreements and certain of its franchisers may from time to time allege that GreatLand Connections has not complied with these agreements. Additionally, GreatLand Connections may not be able to renew, or to renew as favorably, its franchises in the future. A termination of or a sustained failure to renew a franchise in one or more key markets could adversely affect GreatLand Connections' business in the affected geographic area.

GreatLand Connections has no operating history as a separate company and may be unable to maintain its operating results at historical levels after becoming a stand-alone company.

GreatLand Connections has no operating history as a separate, stand-alone company. We cannot assure you that as a separate company, GreatLand Connections' operating results will continue at historic levels. Prior to the Transactions, GreatLand Connections, as part of Comcast, the nation's largest cable operator, was able to procure products and services on favorable terms. As a stand-alone company, GreatLand Connections may not be able to obtain the same favorable terms and could incur additional costs to obtain the same products and services. Additionally, as a stand-alone company, GreatLand Connections will incur additional costs to make investments to replicate or outsource certain systems, infrastructure, and functional expertise that are currently provided by Comcast. In connection with the Transactions, GreatLand Connections will enter into a services agreement with Charter pursuant to which Charter will provide certain services to GreatLand Connections, including but not limited to corporate, network operations, engineering and IT, voice operations, programming management, procurement services, customer products and customer services (the Charter Services Agreement). See Additional Agreements Related to the Contribution and Spin-Off, the Mergers, the Exchange and the Purchase Charter Services Agreement. The Charter Services Agreement will require GreatLand Connections to pay to Charter a quarterly service charge of 4.25% of GreatLand Connections' quarterly total revenues and to reimburse Charter for certain service costs incurred. The Charter Services Agreement will have an initial term of three years, automatically renewable for one-year terms unless either party gives notice of non-renewal at least one year prior to the end of the initial, or any renewal, term. The Charter Services Agreement will also be terminable by either party for customary for-cause events. If the Charter Services Agreement is terminated, GreatLand Connections may not be able to enter into other agreements on terms favorable or acceptable to GreatLand Connections. Any additional or increased costs GreatLand Connections incurs to maintain its systems, infrastructure and functional expertise may have a material adverse effect on its business.

Historically, GreatLand Connections' business has been operated as part of Comcast's cable communications business, and Comcast has performed many corporate functions for its operations, including managing financial and human resources systems, internal auditing, investor relations, treasury services, select accounting functions, finance and tax administration, benefits administration, legal, governmental relations and regulatory functions. Following the Transactions, Comcast will provide support to GreatLand Connections with respect to certain of these functions for periods specified in the Transition Services Agreement and various other agreements. However, GreatLand Connections will need to replicate certain systems, infrastructure and personnel to which it will no longer have access after the separation from Comcast, and the costs of such activities may exceed the costs GreatLand Connections has historically incurred or that GreatLand Connections will pay to Comcast during the transition period.

Additional Risk Factors Relating to the Company

Charter is subject to the risks described in Item 1A Risk Factors, in Charter's Annual Report on Form 10-K for the year ended December 31, 2013 as filed with the SEC on February 21, 2014 and is incorporated by reference in this proxy statement/prospectus and all Quarterly Reports on Form 10-Q filed thereafter, all of which are filed with the SEC and incorporated by reference into this proxy statement/prospectus. See Where You Can Find Additional Information beginning on page i for the location of information incorporated by reference into this proxy statement/prospectus.

Table of Contents

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This proxy statement/prospectus, including information incorporated by reference into this proxy statement/prospectus, includes forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act regarding, among other things, Charter's plans, strategies and prospects, both business and financial. Although Charter believes that its plans, intentions and expectations reflected in or suggested by these forward-looking statements are reasonable, Charter cannot assure you that we will achieve or realize these plans, intentions or expectations. Forward-looking statements are inherently subject to risks, uncertainties and assumptions including, without limitation, the factors described under "Risk Factors" from time to time in Charter's filings with the SEC. Many of the forward-looking statements contained in this presentation may be identified by the use of forward-looking words such as "believe," "expect," "anticipate," "should," "planned," "will," "may," "intend," "on track," "target," "opportunity," "tentative," "positioning," "designed," "create," "predict," "project," "seek," "would," "ongoing," "upside," "increases" and "potential," among others. Important factors that could cause actual results to differ materially from the forward-looking statements we make in this presentation are set forth in other reports or documents that we file from time to time with the SEC, and include, but are not limited to:

Risks Related to the Transactions:

the ultimate outcome of the Transactions, including the possibility that the Transactions may not occur if closing conditions are not satisfied;

if the Transactions were to occur, the ultimate outcome and results of integrating operations and application of Charter's operating strategies to the acquired assets and the ultimate ability to realize synergies at the levels currently expected as well as potential programming dis-synergies;

disruption in Charter's business relationships as a result of the Transactions;

the impact of the Transactions on Charter's stock price and future operating results, including due to transaction and integration costs, increased interest expense, business disruption, and diversion of management time and attention;

the reduction in Charter's current stockholders' percentage ownership and voting interest as a result of the Mergers; and

the increase in indebtedness as a result of the Transactions, which will increase interest expense and may decrease Charter's operating flexibility.

Risks Related to our Business:

Charter's ability to sustain and grow revenues and cash flow from operations by offering video, Internet, voice, advertising and other services to residential and commercial customers, to adequately meet the customer experience demands in Charter's markets and to maintain and grow Charter's customer base, particularly in the face of increasingly aggressive competition, the need for innovation and the related capital expenditures and the difficult economic conditions in the United States;

the impact of competition from other market participants, including but not limited to incumbent telephone companies, direct broadcast satellite operators, wireless broadband and telephone providers, digital subscriber line (DSL) providers, and video provided over the Internet;

general business conditions, economic uncertainty or downturn, high unemployment levels and the level of activity in the housing sector;

Charter's ability to obtain programming at reasonable prices or to raise prices to offset, in whole or in part, the effects of higher programming costs (including retransmission consents);

Table of Contents

the development and deployment of new products and technologies, including in connection with Charter's plan to make its systems all-digital in 2014;

the effects of governmental regulation on Charter's business or potential business combination transactions;

the availability and access, in general, of funds to meet Charter's debt obligations prior to or when they become due and to fund Charter's operations and necessary capital expenditures, either through (i) cash on hand, (ii) free cash flow, or (iii) access to the capital or credit markets; and

Charter's ability to comply with all covenants in its indentures and credit facilities, any violation of which, if not cured in a timely manner, could trigger a default of its other obligations under cross-default provisions. All forward-looking statements attributable to Charter or any person acting on Charter's behalf are expressly qualified in their entirety by this cautionary statement. Charter is under no duty or obligation to update any of the forward-looking statements after the date of this proxy statement/prospectus.

Table of Contents

THE CHARTER SPECIAL MEETING

General

This proxy statement/prospectus is being provided to Charter stockholders as part of a solicitation of proxies by the Charter board of directors for use at the Charter special meeting. This proxy statement/prospectus provides Charter stockholders with important information they need to know to be able to vote, or instruct their brokers or other nominees to vote, at the Charter special meeting.

Date, Time and Place

The Charter special meeting will be held on , at , local time, at .

Matters for Consideration

At the special meeting, Charter stockholders will be asked to vote on the following proposals:

a proposal to approve the issuance of New Charter common stock in connection with the GreatLand Connections Merger, which we refer to as the Share Issuance ; and

a proposal to approve the adjournment or postponement of the special meeting, if necessary or appropriate, to solicit additional proxies in the event there are not sufficient votes at the time of the special meeting to approve the Share Issuance, which we refer to as the meeting adjournment proposal.

Completion of the Mergers is conditioned on approval of the Share Issuance (unless it is not required under applicable law), but is not conditioned on the approval of the meeting adjournment proposal. The Share Issuance will only occur if the GreatLand Connections Merger is completed.

THE CHARTER BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT CHARTER STOCKHOLDERS VOTE FOR THE SHARE ISSUANCE AND FOR THE MEETING ADJOURNMENT PROPOSAL.

Record Date; Voting Information

The record date for the special meeting is , 2015. Only holders of record of Charter Class A common stock at the close of business on the record date will be entitled to notice of, and to vote at, the special meeting or any adjournment or postponement thereof. As of the record date, approximately shares of Charter Class A common stock were issued and outstanding and entitled to notice of, and to vote at, the special meeting and there were approximately holders of record of Charter Class A common stock. Each share of Charter Class A common stock shall entitle the holder to one vote on each matter to be considered at the special meeting. A complete list of stockholders entitled to vote at the special meeting will be open to the examination of stockholders on the special meeting date and for a period of ten days prior to the special meeting, during normal business hours, at the offices of Charter, 400 Atlantic Street Stamford, Connecticut 06901.

If you are a record holder of Charter Class A common stock on the record date, you may vote your shares of Charter Class A common stock in person at the special meeting or by proxy as described below under Voting by Proxy.

Quorum

The holders of a majority of the voting power of Class A common stock of Charter issued and outstanding and entitled to vote, present either in person or by proxy at the meeting, will constitute a quorum. A quorum must be present before a vote can be taken on the proposal to approve the Share Issuance but is not required for a vote on the meeting adjournment proposal. Proxies received but marked as abstentions will be included in the calculation of the number of shares considered to be present at the special meeting.

Table of Contents

If a quorum is not present or if there are not sufficient votes for the approval of the Share Issuance, Charter expects that the Charter special meeting will be adjourned to solicit additional proxies, subject to approval of the meeting adjournment proposal a majority of votes cast by holders of the shares of Charter common stock present in person or represented by proxy at the Charter special meeting. At any subsequent reconvening of the Charter special meeting, all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the Charter special meeting, except for any proxies that have been effectively revoked or withdrawn prior to the subsequent meeting.

Required Vote

You may vote FOR or AGAINST, or you may abstain from voting on the proposal to approve the Share Issuance. Consummation of the Transactions requires the approval of the Share Issuance. To the extent that the approval by Charter stockholders of the Share Issuance is required in accordance with NASDAQ rules, such approval will require, pursuant to the DGCL and Charter's governing documents, a majority of votes cast by holders of the shares of Charter Class A common stock present or represented by proxy at the special meeting at which a quorum is present. The approval of the meeting adjournment proposal requires a majority of votes cast by holders of the shares of Charter Class A common stock present in person or represented by proxy at the special meeting and entitled to vote thereon, whether or not a quorum is present.

Under NASDAQ rules, banks, brokers or other nominees who hold shares in street name for a beneficial owner of those shares typically have the authority to vote in their discretion on routine proposals when they have not received instructions from beneficial owners. However, brokers are not allowed to exercise their voting discretion with respect to the approval of matters that NASDAQ determines to be non-routine without specific instructions from the beneficial owner. It is expected that all proposals to be voted on at the special meeting of Charter stockholders are such non-routine matters. Broker non-votes occur when a bank, broker or other nominee is not instructed by the beneficial owner of shares to vote on a particular proposal for which the broker does not have discretionary voting power. Not instructing your bank, broker or other nominee how you wish your shares to be voted will not have an effect on the proposal to approve the Share Issuance or the meeting adjournment proposal.

A stockholder may vote to abstain on any of the proposals. If you vote to abstain, your shares will be counted as present at the meeting for purposes of determining a quorum on all matters, but will not be considered to be votes cast with respect to such matters. Only FOR and AGAINST votes are counted for purposes of determining the votes received in connection with each proposal.

Voting by Proxy

If you were a record holder of Charter Class A common stock at the close of business on the record date of the special meeting, a proxy card is enclosed for your use. Charter requests that you submit your proxy to vote your shares as promptly as possible by (i) accessing the Internet site listed on the proxy card, (ii) calling the toll-free number listed on the proxy card or (iii) submitting your proxy card by mail by using the provided self-addressed, stamped envelope. Information and applicable deadlines for voting through the Internet or by telephone are set forth on the enclosed proxy card. When the accompanying proxy is returned properly executed, the shares of Charter common stock represented by it will be voted at the special meeting or any adjournment or postponement thereof in accordance with the instructions contained in the proxy card. Your Internet or telephone vote authorizes the named proxies to vote your shares in the same manner as if you had marked, signed and returned a proxy card.

If a proxy is returned without an indication as to how the shares of Charter Class A common stock represented are to be voted with regard to a particular proposal, the Charter Class A common stock represented by the proxy will be

voted in accordance with the recommendation of the Charter board of directors and, therefore, FOR the proposal to approve the Share Issuance and FOR the meeting adjournment proposal.

Table of Contents

If your broker, bank or other nominee holds your shares of Charter Class A common stock in street name, you must either direct your nominee on how to vote your shares or obtain a proxy from your nominee to vote in person at the special meeting. Please check the voting form used by your nominee for information on how to submit your instructions to them.

Your vote is important. Accordingly, if you were a record holder of Charter Class A common stock on the record date of the special meeting, please sign and return the enclosed proxy card or vote via the Internet or telephone whether or not you plan to attend the special meeting in person. Proxies submitted through the specified Internet website or by phone must be received by 11:59 p.m., Eastern Time, on .

Revocation of Proxies

If you are the record holder of Charter Class A common stock, you can change your vote or revoke your proxy at any time before your proxy is voted at the special meeting. You can do this by:

timely delivering a signed written notice of revocation;

timely delivering a new, valid proxy bearing a later date (including by telephone or through the Internet); or

attending the special meeting and voting in person, which will automatically cancel any proxy previously given, or revoking your proxy in person. Simply attending the special meeting without voting will not revoke any proxy that you have previously given or change your vote.

A registered stockholder may revoke a proxy by any of these methods, regardless of the method used to deliver the stockholder's previous proxy.

Written notices of revocation and other communications with respect to the revocation of proxies should be addressed as follows:

Charter Communications, Inc.

400 Atlantic Street

Stamford, Connecticut 06901

Attention: Corporate Secretary

If your shares are held in street name through a broker, bank or other nominee, you may change your vote by submitting new voting instructions to your broker, bank or nominee in accordance with its established procedures. If your shares are held in the name of a broker, bank or other nominee and you decide to change your vote by attending the special meeting and voting in person, your vote in person at the special meeting will not be effective unless you have obtained and present an executed proxy issued in your name from the record holder (your broker, bank or nominee).

Voting by Charter Directors and Executive Officers

At the close of business on the record date of the special meeting, Charter directors and executive officers and their affiliates were entitled to vote shares of Charter Class A common stock or approximately % of the shares of Charter Class A common stock outstanding on that date. Charter currently expects that its directors and executive officers and their affiliates will vote their shares in favor of all proposals, but none of them has entered into any agreement obligating him or her to do so.

To the extent that the approval by Charter stockholders of the Share Issuance is required in accordance with NASDAQ rules, such approval will require, pursuant to the DGCL and Charter's governing documents, a majority of votes cast by holders of the shares of Charter Class A Common Stock present or represented by proxy at the special meeting at which a quorum is present. The approval of the meeting adjournment proposal requires a

Table of Contents

majority of votes cast by holders of the shares of Charter Class A common stock present in person or represented by proxy at the special meeting and entitled to vote thereon, whether or not a quorum is present.

On April 25, 2014, concurrently with the execution of the Transactions Agreement by and between Charter and Comcast, Liberty entered into a voting agreement (the "Voting Agreement") with Comcast. Pursuant to the Voting Agreement, Liberty agreed, among other things, to vote all of its shares of Charter Class A common stock in favor of the stock issuance pursuant to the Transactions Agreement and any other matters for which the approval of Charter's stockholders is reasonably necessary to consummate the transactions contemplated by the Transactions Agreement, and against any actions that would reasonably be expected to prevent or delay the consummation of the transactions contemplated by the Transactions Agreement. Liberty agreed, subject to certain exceptions, not to transfer its shares of Charter Class A common stock during the term of the Voting Agreement. Liberty further agreed that, subject to certain exceptions, neither it nor certain related entities will knowingly acquire ownership of any GreatLand Connections stock until the second anniversary of the GreatLand Connections merger. The Liberty Voting Agreement may be terminated under certain circumstances as more fully described under the heading "Security Ownership of Certain Beneficial Owners, Directors and Executive Officers of Charter."

Solicitation of Proxies

Charter is soliciting proxies for the special meeting and will bear all expenses in connection with solicitation of proxies. We have retained [redacted], a proxy solicitation firm, to solicit proxies in connection with the special meeting at a cost of approximately \$ [redacted] plus expenses. Upon request, Charter will pay banks, brokers, nominees, fiduciaries or other custodians their reasonable expenses for sending proxy material to, and obtaining instructions from, persons for whom they hold shares. Charter expects to solicit proxies primarily by mail, but directors, officers and other employees of Charter may also solicit in person or by Internet, telephone or mail.

Other Matters

As of the date of this proxy statement/prospectus, the Charter board of directors knows of no other matters that will be presented for consideration at the special meeting other than as described in this proxy statement/prospectus. If any other matters properly come before the special meeting of Charter stockholders, or any adjournments of the special meeting are proposed and are properly voted upon, the enclosed proxies will give the individuals that Charter stockholders name as proxies discretionary authority to vote the shares represented by these proxies as to any of these matters; provided, however, that those individuals will only exercise this discretionary authority with respect to matters that were unknown a reasonable time before the solicitation of proxies.

Pursuant to the Transactions Agreement, Charter's board of directors may, in its sole discretion, change its recommendation with respect to the shareholder meeting if the board determines in good faith, after consultation with its outside legal counsel, that failure to take such action would be inconsistent with its fiduciary duty.

Proxy Solicitor

Charter stockholders who need assistance in voting their shares or need a copy of this proxy statement/prospectus should contact:

Table of Contents**THE TRANSACTIONS****General**

On April 25, 2014, Charter entered into the Transactions Agreement, a binding definitive agreement with Comcast which contemplated the Contribution and Spin-Off, the Mergers, the Exchange and the Purchase, and Charter expects to enter into more detailed Implementing Agreements, implementing the April 25 agreement. The Transactions are expected to be executed substantially contemporaneously with each other and will be consummated as promptly as practicable following the merger of a subsidiary of Comcast with Time Warner Cable, Inc. The completion of the Transactions will result in the combined Comcast-Time Warner Cable entity divesting a net approximately 3.8 million video customers and Charter acquiring a net approximately 1.3 million existing Time Warner Cable video customers, making Charter the second largest cable operator in the United States. Immediately following the Mergers, (1) New Charter is expected to own approximately 33% of the outstanding common stock of GreatLand Connections and Comcast shareholders as of the record date of the Spin-Off owning approximately % of the outstanding Class A common stock of GreatLand Connections, and (2) current Charter stockholders are expected to own approximately % of New Charter's outstanding Class A common stock, and Comcast shareholders as of the record date of the Spin-Off will own approximately % of New Charter's outstanding Class A common stock and will retain their shares in Comcast.

The Implementing Agreements will provide for the allocation between Comcast and GreatLand Connections of Comcast's assets, liabilities and obligations and will govern the relationship between Comcast and GreatLand Connections after the Separation (including with respect to employee matters, intellectual property rights, and tax matters). In connection with the Spin-Off, GreatLand Connections' Spin-Off from Comcast, GreatLand Connections and Comcast will also enter into other agreements, and GreatLand Connections, Comcast and New Charter will enter into the Tax Matters Agreement, which will provide for, among other things, the allocation among Comcast, GreatLand Connections and New Charter of certain tax assets and obligations.

Charter, New Charter, Charter Merger Sub, GreatLand Connections Merger Sub and Comcast will also enter into the Merger Agreement to effect the Mergers and set forth the terms and conditions of the Mergers, as well as to provide for, among other things, certain covenants regarding the operation of the GreatLand Connections Business by Comcast before the closing of the Mergers. In addition, Charter and Comcast will enter into the Exchange Agreement and the Asset Purchase Agreement to effect the Exchange and the Purchase, respectively, and to set forth the terms and conditions of the Exchange and the Purchase, respectively. In connection with the Exchange Agreement, Charter will enter into a Transition Services Agreement which will provide for, among other things, the provision of transition services to Charter and Comcast following the Exchange.

Charter's Subscriber Footprint in 2014

Charter's Anticipated Subscriber Footprint after the Transactions

Table of Contents

Transaction Sequence

Below is a step-by-step list illustrating the sequence of material events relating to the Contribution and Spin-Off, the Mergers, the Exchange and the Purchase that are expected to occur, subject to the closing conditions described in The Implementing Agreements The Merger Agreement Closing Conditions :

Step 1 Transfer of GreatLand Connections Business to GreatLand Connections; GreatLand Connections Debt Incurrence and Distribution to Comcast. Comcast will transfer the GreatLand Connections Systems, the relevant subscribers and any other assets and liabilities, investments and businesses primarily related to the GreatLand Connections Systems to GreatLand Connections (directly and through its subsidiaries), and GreatLand Connections will incur new indebtedness. The indebtedness will consist of (i) credit facilities or new issuance of notes to be used to fund cash distributions to Comcast and for general corporate purposes and (ii) notes newly issued by GreatLand Connections to Comcast.

Step 2 Debt-for-Debt Exchange. Comcast will exchange newly issued GreatLand Connections notes for existing Comcast notes that have been acquired by third party financial institutions pursuant to a debt tender offer for existing Comcast notes.

Step 3 Spin-Off. Comcast will distribute all of the GreatLand Connections shares to the holders of outstanding shares of Comcast common stock. The Spin-Off will occur after the closing of the Time Warner Cable merger and will be made pro rata to holders of Comcast common stock as of the record date for the Spin-Off.

Step 4 New Charter Reorganization. Charter Merger Sub will merge with and into Charter, resulting in New Charter becoming the publicly traded holding company of Charter. In connection with the Charter Merger, one share of New Charter Class A common stock will be exchanged for each existing share of Charter Class A common stock, and such exchange is being registered in this registration statement.

Step 5 GreatLand Connections Merger. GreatLand Connections Merger Sub, another newly formed, wholly owned subsidiary of New Charter, will merge with and into GreatLand Connections, resulting in New Charter owning approximately % of the outstanding common stock of GreatLand Connections and GreatLand Connections stockholders owning approximately % of the outstanding Class A common stock of New Charter.

Step 6 Asset Exchange. Charter will exchange with Comcast certain systems serving approximately 1.6 million Charter video customers for certain cable systems currently serving approximately 1.5 million Time Warner Cable video customers.

Step 7 Asset Purchase. Charter will acquire from Comcast for cash certain cable systems currently owned by Time Warner Cable and not included in the Exchange, currently serving approximately 1.4 million Time Warner Cable video customers.

Table of Contents

Set forth below are diagrams that graphically illustrate, in simplified form, the existing corporate structure, the corporate structure immediately following the Contribution and Spin-Off but before the Mergers, and the corporate structure immediately following the consummation of the Transactions.

Table of Contents

The Contribution and Spin-Off

Pursuant to and in accordance with the terms and conditions of the Separation Agreement, Comcast will transfer the GreatLand Connections Systems, the relevant subscribers and any other assets and liabilities primarily related to the GreatLand Connections Systems to GreatLand Connections. GreatLand Connections is currently a wholly owned subsidiary of Comcast that was formed on May 27, 2014 in connection with the Transactions.

GreatLand Connections (directly and through its subsidiaries) is expected to incur new indebtedness in an amount equal to 5.0 times the 2014 EBITDA of the GreatLand Connections Systems (as such term is defined by GreatLand Connections financing sources for purposes of the financing). The indebtedness will consist of bank debt and/or term loans or new issuance of notes to be used to fund cash distributions to Comcast and for general corporate purposes at GreatLand Connections, and GreatLand Connections notes newly issued to Comcast, which will enable Comcast to complete the debt-for-debt exchange described below. In addition, GreatLand Connections is expected to have a \$750 million unfunded revolving line of credit to facilitate day-to-day operations and cash flow.

To effect the debt-for-debt exchange, third-party financial institutions will conduct a debt tender offer for existing Comcast notes and will offer new GreatLand Connections notes. Charter and Comcast will determine the cap on the expenses to be incurred in connection with the debt tender offer. If the cap is not sufficient to allow purchases in the debt tender offer, or the debt tender offer does not result in actual tenders, of Comcast notes that would be exchanged for GreatLand Connections notes resulting in GreatLand Connections leverage equal to 5.0 times the 2014 EBITDA of the GreatLand Connections Systems, each of Charter and Comcast will have the right to fund additional tender premium at its own expense to increase GreatLand Connections leverage. If the amount of Comcast notes ultimately tendered following exchange for new GreatLand Connections notes, would result in GreatLand Connections leverage of less than 2.5 times 2014 EBITDA of the GreatLand Connections Systems, the Transactions will be terminated. If as a result of the debt-for-debt exchange, the GreatLand Connections leverage is at least 2.5 times but less than 5.0 times 2014 EBITDA of the GreatLand Connections Systems, the GreatLand Connections Merger Consideration will be increased in accordance with the formula described below in The Mergers.

Following the settlement of the debt tender offer, GreatLand Connections notes to be issued to Comcast may be priced in the market on a best-efforts basis, in a principal amount (less original issue discount, if any) equal to the value of tendered Comcast notes, and Comcast may seek to have the banks exchange the GreatLand Connections notes held by Comcast for the tendered Comcast notes.

Table of Contents

Following the distribution and debt-for-debt exchange, Comcast will distribute all of the GreatLand Connections shares (which will consist of Class A and Class A-1 shares) to the holders of outstanding shares of Comcast common stock in the Spin-Off. The Spin-Off will occur after the closing of the Time Warner Cable merger and will be made pro rata to holders of Comcast common stock as of the record date for the Spin-Off.

Fractional shares of GreatLand Connections Class A-1 common stock will be issued to Comcast shareholders in connection with the Spin-Off. No fractional shares of GreatLand Connections Class A common stock, however, will be issued to Comcast shareholders in connection with the Spin-Off. Instead, the distribution agent will aggregate fractional shares of GreatLand Connections Class A common stock into whole shares, sell the whole shares in the open market at prevailing market prices and distribute the aggregate cash proceeds, net of brokerage fees and other costs, from the sales pro rata to each holder who would otherwise have been entitled to receive a fractional share of GreatLand Connections Class A common stock in the Spin-Off. Recipients of cash in lieu of fractional shares will not be entitled to any interest on the amounts of payments made in lieu of fractional shares.

After the Spin-Off, Comcast will not own any shares of GreatLand Connections common stock.

The Mergers

The Charter Merger is a reorganization of Charter that, in itself, is not intended to change the ultimate economic or voting interests of Charter stockholders or the assets or liabilities of Charter and its subsidiaries. Pursuant to and in accordance with the terms and conditions of the Merger Agreement, following the Spin-Off, New Charter will convert into a corporation. Charter Merger Sub, a newly formed, wholly owned subsidiary of New Charter, will merge with and into Charter in the Charter Merger with the effect that each share of Class A common stock of Charter will be converted into one share of Class A common stock of New Charter. New Charter will become the publicly-traded parent company of Charter and its Class A common stock will be traded on the NASDAQ under the same ticker symbol, CHTR, as currently used by Charter. GreatLand Connections Merger Sub, another newly formed, wholly owned subsidiary of New Charter, will merge with and into GreatLand Connections in the GreatLand Connections Merger, with GreatLand Connections surviving.

At the effective time of the Mergers:

each issued and outstanding share of Charter Class A common stock (except shares of Charter Class A common stock held by Charter as treasury or owned by Charter) will be automatically converted into one share of New Charter Class A common stock, and such exchange is being registered in this registration statement;

each issued and outstanding share of GreatLand Connections Class A common stock will remain outstanding without modification and each issued and outstanding share of GreatLand Connections Class A-1 common stock will be automatically converted into a number of shares of New Charter Class A common stock equal to the SpinCo Class A-1 Common Stock Conversion Ratio (as defined in the Merger Agreement); and

New Charter will receive the maximum number of shares of GreatLand Connections common stock that New Charter can receive pursuant to the GreatLand Connections Merger and based on the number of outstanding shares of GreatLand Connections common stock without causing the historic Comcast

shareholders, not including former Time Warner Cable stockholders and disregarding public trading, to own (within the meaning of Section 355(e) of the Code) less than 50.75% of the GreatLand Connections shares. We refer to the percentage of shares of GreatLand Connections common stock owned by New Charter immediately following the effective time of the Mergers as the New Charter GreatLand Ownership Percentage. We currently estimate that the New Charter GreatLand Ownership Percentage will be approximately 33%. The SpinCo Class A-1 Common Stock Conversion Ratio will be determined to ensure that the holders of GreatLand

Table of Contents

Connections common stock immediately prior to the effective time of the Mergers will receive an aggregate number of shares of New Charter common stock equal in value (based on Charter Share Valuation) to the aggregate value of GreatLand Connections, calculated as explained below, multiplied by the New Charter Ownership Percentage (we refer to such aggregate number of shares of New Charter common stock as the New Charter share number). For the purposes of determining the New Charter share number, the aggregate value of GreatLand Connections, which we refer to as the Aggregate GreatLand Connections Equity Valuation, will be calculated by multiplying the estimated GreatLand Connections Carveout 2014 EBITDA (as defined in the Merger Agreement) by 7.125 and subtracting the amount of GreatLand Connections indebtedness (excluding indebtedness incurred to pay expenses and reimbursements and, without duplication, that results in cash held by GreatLand Connections immediately after the closing), GreatLand Connections financing expenses incurred by Comcast and not reimbursed by GreatLand Connections and the fair market value of GreatLand Connections non-system assets.

Immediately after the Mergers are completed, GreatLand Connections stockholders as of immediately prior to the Mergers are expected to collectively own approximately %, and Charter stockholders as of immediately prior to the Mergers are expected to collectively own approximately %, of the outstanding shares of New Charter Class A common stock.

If the Aggregate GreatLand Connections Equity Valuation has not been finally determined prior to the completion of the GreatLand Connections Merger, there will be a post-closing adjustment between Comcast and GreatLand Connections based upon any differences between the Aggregate GreatLand Connections Equity Valuation used for the calculation of the New Charter share number, on the one hand, and the actual Aggregate GreatLand Connections Equity Valuation on the other hand. If the actual Aggregate GreatLand Connections Equity Valuation is greater than estimated Aggregate GreatLand Connections Equity Valuation, then GreatLand Connections shall pay to Comcast an amount equal to such difference. If GreatLand Connections estimated Aggregate GreatLand Connections Equity Valuation is greater than GreatLand Connections actual Aggregate GreatLand Connections Equity Valuation, then Comcast shall pay to GreatLand Connections an amount equal to such difference. Such payment by Comcast or GreatLand Connections, as applicable, shall be made to the other as soon as practicable, and in any event not later than six months following final resolution of the amount of such payment. Interest shall accrue on any such payment at a rate of 5% per annum starting 10 business days after final resolution of the amount of such payment.

The Exchange and the Purchase

Concurrently with the closing of the Mergers, Charter will exchange with Comcast certain systems serving approximately 1.6 million Charter video customers, for certain cable systems serving approximately 1.5 million Time Warner Cable video customers, in each case together with the relevant customers and all the other assets and liabilities primarily related to such systems in a tax-efficient like-kind exchange. To the extent EBITDA of the exchanged systems differs, a cash equalization payment will be made, and trued up post-closing (only if not finally determined prior to closing), at a valuation of 7.125 times such difference in EBITDA. In addition, there will be a post-closing adjustment between Charter and Comcast to true up for any variance of working capital of the exchanged systems from a normalized level of working capital.

At the same time, Charter will acquire from Comcast certain cable systems currently serving approximately 1.4 million Time Warner Cable video customers, together with the relevant customers and all the other assets and liabilities primarily related to such systems for cash consideration equal to 7.125 times the 2014 EBITDA (as defined in the Asset Purchase Agreement) for such systems for 2014. The consideration for the Purchase will be financed with new indebtedness of Charter. Charter will also pay to Comcast amounts representing the tax benefit of the step up it receives in the tax basis of the assets acquired in the Purchase. Such amounts will be paid as the related tax benefit is realized by Charter over an eight-year period, and an additional payment will be made at the end of such eight year

period in the then-present value of any remaining tax benefit. In addition, there will be a post-closing adjustment between Charter and Comcast to true up for any variance of working capital of the acquired systems from a normalized level of working capital.

Table of Contents

Trading Markets

Charter Common Stock

Charter Class A common stock began trading on the NASDAQ under the ticker symbol **CHTR** in September, 2010. After the Mergers, it is expected that shares of New Charter Class A common stock will also trade on the NASDAQ under the same ticker symbol.

GreatLand Connections Common Stock

There currently is no trading market for shares of GreatLand Connections common stock. It is expected that GreatLand Connections common stock will trade on the NASDAQ under the ticker symbol **GLCI**.

Background of the Mergers

Our industry is dynamic and evolving technologically and structurally. Therefore, we continuously evaluate and pursue possibilities for strategic business combinations and investments that could enhance our ability to serve customers and create stockholder value. In early 2013, as part of its ongoing strategic review activities, Charter came to the belief that significant value could be created through the application of Charter's growth-oriented strategies to the cable assets held by Time Warner Cable in a combination of the two companies. Over the course of 2013 and early 2014, Charter made several proposals to Time Warner Cable regarding such a combination, all of which were rejected by Time Warner Cable. As part of its pursuit of a business combination with Time Warner Cable, Charter discussed with Comcast the possibility of Comcast and Charter collectively supporting a transaction in which Charter would acquire Time Warner Cable and divest assets to Comcast. On February 11, 2014, Charter announced, and gave notice to Time Warner Cable of, its nomination of a full slate of candidates for Time Warner Cable's board of directors to be considered at Time Warner Cable's 2014 annual meeting.

On February 13, 2014, Comcast and Time Warner Cable issued a joint press release announcing the approval of a merger agreement between the two companies by the board of directors of each company. The Time Warner Cable merger agreement contemplated that, in connection with the transaction, Comcast/Time Warner Cable was prepared to divest up to 3 million subscribers of the combined company as part of its pursuit of regulatory approval.

On March 12, 2014, Tom Rutledge, President and Chief Executive Officer of Charter, and John Malone and Gregory Maffei, directors of Charter, discussed with Brian Roberts, the Chairman and Chief Executive Officer of Comcast, the possibility of a transaction to follow Comcast's acquisition of Time Warner Cable, in which Charter would purchase, and/or acquire interests in a spun-off subsidiary of Comcast holding, cable systems serving Comcast and Time Warner Cable cable subscribers following Comcast's acquisition of Time Warner Cable. On March 24, 2014, Wachtell, Lipton, Rosen & Katz (Wachtell Lipton), Charter's outside counsel, sent to Davis Polk and Wardwell LLP (Davis Polk), Comcast's outside counsel, a high-level proposed transaction structure, involving a spin-off of Comcast cable systems, a swap of Time Warner Cable cable systems for Charter cable systems, and a sale of Time Warner Cable cable systems to Charter for cash. Later that day, the two counsels discussed the structure, including the tax treatment of the proposed transactions.

On March 25, 2014, Mr. Rutledge met with Michael Angelakis, Chief Financial Officer and Vice Chairman of Comcast, to discuss matters relating to the potential structure, tax treatment, and timing of the proposed transactions.

In the evening of March 27, 2014, Charter filed with the SEC a preliminary proxy statement soliciting proxies from the stockholders of Time Warner Cable in opposition to the Comcast merger, which became publicly available on

March 28, 2014.

Table of Contents

On March 31, 2014, representatives of Charter, including Christopher Winfrey, Executive Vice President and Chief Financial Officer of Charter, met with representatives of Comcast, including Mr. Angelakis, to discuss the structure and valuation of the potential transaction. On April 1, 2014, the Charter board of directors met telephonically for an update on Time Warner Cable and the discussions with Comcast, including Charter's options.

On April 9, 2014, representatives of Charter, including Messrs. Rutledge and Maffei, met with representatives of Comcast, including Neil Smit, Executive Vice President of Comcast, and Mr. Angelakis, and determined that 7.125 times the EBITDA of the combined systems would serve as the primary financial consideration in the proposed transactions, as well as preliminary terms as to the distribution of assets to be acquired and exchanged, and certain governance matters with respect to GreatLand Connections.

On April 10, 2014, Wachtell Lipton sent to Davis Polk, a draft of a Transactions Agreement setting forth material terms of the proposed transactions. The Transactions Agreement draft contemplated that Charter would acquire the maximum equity interest in GreatLand Connections consistent with tax-free treatment of the spin-off, a valuation of all cable systems transferred in the transaction at 7.125x the EBITDA of the transferred systems, and a payment by Charter to Comcast of amounts representing certain tax benefits resulting from the cash purchase component of the proposed transaction. Over the next four days, representatives of Charter, including Messrs. Rutledge and Winfrey, Charles Fisher, Senior Vice President, Corporate Finance of Charter, Richard Dykhouse, Executive Vice President, General Counsel and Corporate Secretary of Charter, Goldman, Sachs & Co. (Goldman Sachs), LionTree Advisors LLC (LionTree) and Wachtell Lipton, had numerous meetings and discussions with representatives of Comcast, including Mr. Angelakis, Robert Pick, Senior Vice President, Corporate Development of Comcast, Alexander Evans, Executive Vice President, Global Corporate Development and Strategy of Comcast, and Arthur Block, Senior Vice President, General Counsel and Secretary of Comcast, J.P. Morgan, financial advisor to Comcast, and Davis Polk regarding the terms of the proposed transaction, including details of valuation mechanics, the level of the parties' commitments regarding financing and regulatory approvals, services to be provided by the parties to each other and to GreatLand Connections, standstills with respect to GreatLand Connections and indemnification obligations. During this period, the parties also exchanged several drafts of the Transactions Agreement.

On April 11, 2014, the Charter board of directors met telephonically to review status and receive an update on the negotiations with Comcast. On April 15, 2014, the board again met telephonically and reviewed the terms of a draft of the Transactions Agreement with Charter's senior management and with Wachtell Lipton and Charter's financial advisors, LionTree and Goldman Sachs. In particular, Charter's senior management and Wachtell Lipton described the binding nature of the term sheet, transaction structure, the valuation formula, the systems involved, requirement of Company shareholders' approval and the Board's obligations with respect thereto, conditions to closing, termination rights, the requirement that Time Warner Cable consent to the transaction, the terms of the services agreement Charter would enter into with GreatLand Connections, the management of GreatLand Connections, taxation of the asset purchase, and the financing of the acquisition. Each of Charter's financial advisors reviewed with the Charter board of directors their financial analysis of the transactions. LionTree delivered to the board its oral opinion that, as of April 15, 2014 and subject to the factors, assumptions and limitations used by LionTree in reaching its opinion, the consideration to be paid in the Transactions was fair, from a financial point of view, to Charter. Goldman Sachs informed the board that it was not then able to render a fairness opinion to the board because, among other reasons, historical financial statements and other information with respect to the businesses subject to the Transactions were not then available and Goldman Sachs had not been provided with the opportunity to conduct due diligence of the nature it would customarily perform in connection with the delivery of a fairness opinion. Goldman Sachs also indicated that it then believed that, in connection with the board's evaluation as to whether to recommend that stockholders of Charter vote in favor of the issuance of New Charter shares in the GreatLand Connections Merger, it would be able to render to the board an opinion, to the effect that the consideration to be paid by Charter in connection with the Transactions is fair from a financial point of view to Charter, subject to, among other things, the historical

financial statements and information included in this proxy statement/prospectus, any updated forecasts

Table of Contents

from Charter management and Goldman Sachs' due diligence not revealing information in any way material to Goldman Sachs' financial analyses. After further consideration and consultation with its legal and financial advisors, the Charter board of directors unanimously (by all directors present) approved and declared advisable the proposed Transactions Agreement, the Charter Merger and the other Transactions.

From April 15, 2014 through April 21, 2014, representatives of Charter, including Messrs. Rutledge, Winfrey, Fisher and Dykhouse, and its financial advisors and counsel, had numerous meetings and discussions with representatives of Comcast, including Messrs. Angelakis, Pick, Evans and Block, and its financial advisors and counsel, in which they continued to negotiate terms of the proposed transaction regarding, among other things, the minimum and maximum leverage levels that could result from the GreatLand Connections financing, the timing and cost of financing commitments, the structure and cost of the debt-for-debt exchange, the allocation of the risk of tax liability, whether the parties would proceed with some portions of the transactions if other portions could not be completed, level of efforts and commitments required for regulatory and financing purposes, and the level of services and the methodology of cost reimbursements for transition and other support services. The parties did not resolve these issues during these discussions. During this period, the parties exchanged several drafts of the Transactions Agreement.

Starting on April 22, 2014, representatives of Charter, including Messrs. Winfrey, Fisher and Dykhouse, and its financial advisors and counsel, met at Wachtell Lipton's offices with representatives of Comcast, including Messrs. Angelakis, Pick, Evans and Block, and its financial advisors and counsel, to finalize negotiations on the Transactions Agreement. The meetings continued through April 25, 2014, and addressed matters including the financing structure for the transactions, regulatory obligations of the parties, the method of calculating Charter's permissible interest in GreatLand Connections, and the specific geographic areas in which cable systems would be spun off, sold or swapped and the number of subscribers served by such systems. Following these discussions, the parties agreed, among other things, that failing to achieve a GreatLand Connections leverage ratio of 2.5x (as calculated in the Transactions Agreement) would result in the termination of the transactions; that in certain circumstances, either party may, at its own expense, change certain terms of the debt-for-debt exchange in order to make the exchange more attractive to current holders of Comcast debt and to achieve the target GreatLand Connections leverage ratio of 5.0x; that the number of New Charter shares to be issued to GreatLand Connections stockholders would be increased if the target GreatLand Connections leverage ratio was not achieved; that Comcast and Charter would be jointly responsible for the debt transactions; that the parties would not be obligated to agree to divestitures to obtain regulatory approvals for the transactions, but that, subject to certain exceptions, Comcast would be obligated to agree to conditions that it agrees to in connection with the Time Warner Cable transaction; and that the outside date for consummating the transactions would be determined based on the status of regulatory approvals as described in the Transactions Agreement.

On Friday, April 25, 2014, representatives of Charter and Comcast concluded their negotiations on the Transactions Agreement. In the evening of that day, Time Warner Cable delivered its written consent to the entry into the Transactions Agreement by Comcast and to the Transactions, Comcast and Charter entered into the Transactions Agreement, and Comcast and Liberty entered into the Voting Agreement. Shortly thereafter, Charter withdrew its formal notice of intent to nominate individuals for election to the Time Warner Cable board of directors and submit other business proposals at Time Warner Cable's 2014 annual meeting. On the following business day, Monday, April 28, 2014, Charter and Comcast announced the execution of the Transactions Agreement.

On December 5, 2014, the Charter board of directors met to consider their recommendation to Charter stockholders in connection with the vote on the issuance of shares of New Charter in connection with the GreatLand Connections Merger. The Charter board of directors, together with their financial and legal advisors, among other things, received an update on the status and progress of the Transactions, and considered the forecasts described below under "Certain Forecasts." LionTree and Goldman Sachs each reviewed with the Charter board of directors their financial analysis of

the Transactions as described below under Opinions of Charter's Financial Advisors. LionTree delivered to the board its oral opinion (subsequently confirmed in

Table of Contents

writing) that as of December 5, 2014, and subject to the factors, assumptions and limitations set forth in LionTree's written opinion (attached as Annex D to this proxy statement/prospectus) the Consideration (as defined in the written opinion) to be paid in connection with the Transactions was fair, from a financial point of view, to Charter. Goldman Sachs rendered to the board its oral opinion (subsequently confirmed in writing) to the effect that, as of December 5, 2014, and subject to the factors, assumptions and limitations set forth in Goldman Sachs' written opinion (attached as Annex E to this proxy statement/prospectus), the Aggregate Consideration (as defined in the written opinion) to be paid by Charter and New Charter for the Acquired Assets (as defined in the written opinion) pursuant to the Transactions Agreement was fair from a financial point of view to Charter. After further consideration and consultation with its legal and financial advisors, the Charter board of directors unanimously (by all directors present) determined to recommend that Charter's stockholders vote in favor of the issuance of shares of New Charter in connection with the GreatLand Connections Merger.

Charter's Reasons for the Transactions

In reaching its decision in April to unanimously (by all directors present) approve and find advisable the Transactions Agreement, the Charter Merger and the other Transactions, and its decision in December to unanimously (by all directors present) recommend that Charter stockholders vote in favor of the issuance of shares of New Charter in connection with the GreatLand Connections Merger, the Charter board of directors consulted with members of Charter's management as well as with its financial and legal advisors and carefully considered a variety of factors, including the following:

the significant expansion and rationalization of Charter's operating footprint provided by the Transactions, which is expected to permit Charter to provide better marketing and service capabilities;

the increased scale of Charter's operations following the Transactions, including the fact that the transaction will result in Charter acquiring approximately a net 1.3 million existing Time Warner Cable video customers, increasing Charter's video customer base from 4.4 million in April, 2014 to approximately 5.7 million upon completion of the Transactions;

Charter's ownership of approximately 33% of the outstanding shares of GreatLand Connections common stock immediately following completion of the Mergers, giving Charter the opportunity to participate meaningfully in the future performance of a new cable company expected to serve approximately 2.5 million customers;

Charter's provision of services to GreatLand Connections, for which it will receive payments including a management services fee of 4.25% of GreatLand Connections' revenues pursuant to the Charter Services Agreement;

the financial strength of Charter after the Transactions and the increased flexibility that this strength should provide, including an ongoing ability to pursue new acquisition opportunities and other initiatives providing stockholder value;

the expectation that the Transactions will be accretive to Charter's stock price, increase Charter's sales and earnings and enhance cash flow generation, which would allow Charter to reduce its debt obligations on an accelerated basis;

Charter's ability to obtain a significant part of the strategic and operating benefits Charter had hoped to achieve in its contemplated merger with Time Warner Cable, at a lower valuation than would have been possible through a competitive process to acquire Time Warner Cable;

the fact that the pricing mechanism on which the Transactions are based is designed to adjust to reflect actual financial results for 2014, which will be more closely calibrated to the benefit that Charter will receive in the Transactions, and the ability Charter would have in certain circumstances to terminate for a failure to secure financing;

the opinion of LionTree to the effect that, as of the date of LionTree's opinion and subject to the factors, assumptions and limitations used by LionTree in reaching its opinion, the consideration to be

Table of Contents

paid in the Transactions was fair, from a financial point of view, to Charter, as more fully described below under the caption "Opinions of Charter's Financial Advisors' Opinion of LionTree Advisors LLC"; and

the fact that, although Goldman Sachs indicated on April 15, 2014 that it was not then in a position to render to the board of directors an opinion as to the fairness of the consideration to be paid pursuant to the Transaction Agreement because, among other reasons, historical financial statements and other information with respect to the businesses subject to the Transactions were not then available and Goldman Sachs had not been provided with the opportunity to conduct due diligence of the nature it would customarily perform in connection with the delivery of a fairness opinion, Goldman Sachs also indicated that it then believed that, in connection with the board's evaluation as to whether to recommend that stockholders of Charter vote in favor of the issuance of New Charter shares in the GreatLand Connections Merger, it would be able to render to the board of directors of Charter an opinion to the effect that the consideration to be paid by Charter pursuant to the Transactions Agreement is fair from a financial point of view to Charter, subject to, among other things, the historical financial statements and information included in this proxy statement/prospectus, any updated forecasts from Charter management and Goldman Sachs' due diligence not revealing information in any way material to Goldman Sachs' financial analyses; and

the oral opinion of Goldman Sachs (subsequently confirmed in writing) rendered to the board of directors of Charter on December 5, 2014 in connection with the its evaluation as to whether to recommend that stockholders of Charter vote in favor of the issuance of New Charter shares in the GreatLand Connections Merger to the effect that, as of that date and subject to the factors, assumptions and limitations set forth in Goldman Sachs' written opinion (attached as Annex E to this proxy statement/prospectus), the Aggregate Consideration (as defined in the written opinion) to be paid by Charter and New Charter for the Acquired Assets (as defined in the written opinion) pursuant to the Transactions Agreement was fair from a financial point of view to Charter and the financial analysis presented by Goldman Sachs to the board of directors of Charter in connection with the rendering of its opinion, all as more fully described below under the caption "Opinions of Charter's Financial Advisors' Opinion of Goldman, Sachs & Co.

The Charter board of directors also considered certain countervailing factors in its deliberations concerning the Transactions, including:

the dilution of the voting power of Charter's current stockholders that would result from the issuance of New Charter Class A common stock to GreatLand stockholders in the GreatLand Connections Merger;

the possibility that the number of shares of New Charter Class A common stock to be issued could increase due to decreases in the market price of Charter common stock or inability of GreatLand to obtain the expected level of debt financing;

the substantial indebtedness that Charter, New Charter and their subsidiaries are expected to incur in connection with the Transactions and related financing transactions, substantially increasing Charter's and New Charter's indebtedness after the Transactions;

the challenges inherent to the relationship between GreatLand and New Charter as reflected in the Charter Services Agreement, including the possible disruption of Charter's business that might result from the provision of services to GreatLand;

the difficulty in separating the operations of the Time Warner Cable assets and the GreatLand Business from Comcast;

the limitations on due diligence available prior to signing;

the restrictions imposed on Charter's ability to take certain corporate actions under applicable federal income tax laws and the terms of the Tax Matters Agreement to be entered into by and among Comcast, GreatLand and New Charter;

Table of Contents

the risks inherent in requesting regulatory approval from multiple government agencies in multiple jurisdictions, as more fully described under the caption Regulatory Approvals ; and

the possibility that the Transactions may not be consummated and the potential adverse consequences if the Transactions are not completed, including substantial costs incurred and potential stockholder and market reaction.

This discussion of the information and factors considered by the Charter board of directors in reaching its conclusions and recommendation includes the principal factors considered by the Charter board of directors, but is not intended to be exhaustive and may not include all of the factors considered by the Charter board of directors. In view of the wide variety of factors considered in connection with its evaluation of the Mergers and the other Transactions contemplated by the Transactions Agreement, and the complexity of these matters, the Charter board of directors did not find it useful and did not attempt to quantify, rank or assign any relative or specific weights to the various factors that it considered in reaching its determination to approve the Transactions Agreement and the Transactions and to make its recommendation to Charter stockholders. Rather, the Charter board of directors viewed its decisions as being based on the totality of the information presented to it and the factors it considered, including its discussions with, and questioning of, members of Charter's management and outside legal and financial advisors. In addition, individual members of the Charter board of directors may have assigned different weights to different factors.

Certain of Charter's directors and executive officers have financial interests in the Transactions that are different from, or in addition to, those of Charter's stockholders generally. The Charter board of directors was aware of and considered these potential interests, among other matters, in evaluating the Mergers and the other Transactions and in making its recommendation to Charter stockholders. For a discussion of these interests, see Interests of Certain Persons in the Merger.

The Charter board of directors unanimously recommends to the stockholders of Charter that the stockholders approve the Share Issuance and the meeting adjournment proposal.

Opinions of Charter's Financial Advisors

Opinion of LionTree Advisors LLC

On December 5, 2014, LionTree Advisors LLC rendered an oral opinion to the Charter board of directors (which was confirmed in writing by delivery of LionTree's written opinion dated December 5, 2014), as to the fairness, from a financial point of view, as of such date, to Charter of the Consideration (as defined in such opinion) to be paid in connection with the Transactions (as defined in such opinion), based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion.

LionTree's opinion was directed to the Charter board of directors and only addressed the fairness from a financial point of view of the consideration to be paid in connection with the Transactions and did not address any other aspect or implication of the Transactions. The summary of LionTree's opinion in this proxy statement/prospectus is qualified in its entirety by reference to the full text of its written opinion, which is included as Annex D to this proxy statement/prospectus and sets forth the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion. However, neither LionTree's opinion nor the summary of its opinion and the related analyses set forth in this proxy statement/prospectus constitute a recommendation to any stockholder as to how such stockholder should vote or act on any matter relating to the proposed Transactions or otherwise.

In arriving at its opinion, LionTree, among other things:

reviewed the Transactions Agreement;

reviewed certain publicly available business and financial information relating to Comcast, Time Warner Cable, and Charter;

Table of Contents

reviewed certain internal financial estimates and other data relating to the business and financial prospects of Charter after giving pro forma effect to the Transactions (which we refer to in this section entitled *Opinion of LionTree Advisors LLC* as Pro Forma Charter), the GreatLand Connections Systems, the Comcast Swap Systems (as defined in the Transactions Agreement), the Taxable Purchase Systems (as defined in the Transactions Agreement; in this section entitled *Opinion of LionTree Advisors LLC* we refer to the Comcast Swap Systems and the Taxable Purchase Systems as the Acquired Systems), and the Charter Swap Systems (as defined in the Transactions Agreement) that were provided to LionTree by the management of Charter and not publicly available, including financial forecasts and estimates for the fiscal years ending 2014 and 2015;

reviewed certain internal financial estimates and other data relating to the business and financial prospects of the GreatLand Connections Systems and Pro Forma Charter that were provided to LionTree by the management of Charter and not publicly available, including financial forecasts and estimates for the fiscal years ending 2016 through 2019 (as well as certain estimates for utilization of tax assets beyond 2019 through the full utilization of such tax assets), prepared by the management of Charter;

reviewed certain internal financial information and other data relating to the business and financial prospects of Charter that were provided to LionTree by the management of the Company and not publicly available, including financial forecasts and estimates for the fiscal years ending 2014 through 2019 (as well as certain estimates for utilization of tax assets beyond 2019 through the full utilization of such tax assets), prepared by Charter management;

reviewed certain estimates of dis-synergies, synergies, overhead, public company costs, and fees payable to Charter pursuant to the Charter Services Agreement, in each case, for the fiscal year ending 2014, which we refer to collectively in this section entitled *Opinion of LionTree Advisors LLC* as the Transaction Effects, prepared by Charter management;

conducted discussions with members of the senior management of Charter concerning the business and financial prospects of the GreatLand Connections Systems, the Acquired Systems, and Charter, as well as the Transaction Effects;

reviewed current and historical market prices of Charter common stock;

reviewed certain publicly available financial and stock market data with respect to certain other companies LionTree believed to be generally relevant;

compared certain financial terms of the Transactions with the publicly available financial terms of certain other transactions LionTree believed to be generally relevant;

reviewed certain pro forma effects relating to the Transactions, including the effects of anticipated financings, prepared by Charter management; and

conducted such other financial studies, analyses and investigations, and considered such other information, as LionTree deemed necessary or appropriate.

In connection with its review, LionTree assumed and relied upon, without independent verification, the accuracy and completeness in all material respects of the information provided to or reviewed by it for the purpose of its opinion. In addition, LionTree did not make any independent evaluation or appraisal of any of the assets or liabilities (contingent or otherwise) of Charter, GreatLand Connections, the Acquired Assets (as defined in LionTree's opinion), or the Assumed Liabilities (as defined in LionTree's opinion), nor was LionTree furnished with any such evaluation or appraisal. With respect to the financial forecasts, estimates, Transaction Effects and pro forma effects referred to above, which we refer to in this section entitled *Opinion of LionTree Advisors LLC* collectively as the Forecasts, LionTree assumed, based on advice from management of Charter, that each had been reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of Charter as to the future financial performance of Charter, the GreatLand Connections

Table of Contents

Systems, and Pro Forma Charter including the Transaction Effects and pro forma effects. In addition, LionTree assumed that the financial forecasts and estimates referred to above would be achieved at the times and in the amounts projected. LionTree expressed no opinion with respect to such forecasts or estimates, including any Transaction Effects and pro forma effects. LionTree assumed, with the consent of the Charter board of directors, that for U.S. federal income tax purposes (A) the Contribution and the Spin-Off will qualify as a tax-free reorganization within the meaning of Section 368(a)(1)(D) of the Internal Revenue Code of 1986, as amended, which we refer to in this section entitled *Opinion of LionTree Advisors LLC* as the Code, and a tax-free distribution within the meaning of Section 355 of the Code, (B) the debt-for-debt exchange will qualify as a tax-free exchange within the meaning of Sections 355 and 361 of the Code, (C) the GreatLand Connections Merger and the Charter Merger, taken together, will qualify as a tax-free transaction described in Section 351 of the Code, and (D) the Exchange will qualify as an exchange of property to which Section 1031 of the Code applies. LionTree's opinion is necessarily based on economic, monetary, market and other conditions as in effect on, and the information available to LionTree as of, the date thereof.

In rendering its opinion, LionTree assumed, with the consent of the Charter board of directors, that (i) the representations and warranties of the parties to the Transactions Agreement were true and correct in all material respects, (ii) the parties to the Transactions Agreement, will comply with and perform all material covenants and agreements required to be complied with or performed by such parties under the Transactions Agreement, and (iii) the Transactions will be consummated in accordance with the terms of the Transactions Agreement without any adverse waiver or amendment of any material term or condition thereof. LionTree also assumed, with the consent of the Charter board of directors, that all governmental, regulatory or other consents and approvals necessary for the consummation of the Transactions will be obtained without any material adverse effect on Charter, GreatLand Connections, the Acquired Assets, the Assumed Liabilities, or the Transactions.

LionTree's opinion was provided for the benefit of the Charter board of directors (in its capacity as such) in connection with, and for the purpose of, its evaluation of the Transactions.

LionTree's opinion did not address the relative merits of the Transactions or any related transaction as compared to other business strategies or transactions that might be available to Charter or Charter's underlying business decision to effect the Transactions or any related transaction. LionTree was not asked to, nor did it, offer any opinion as to the terms, other than the Consideration (as defined in LionTree's opinion) to the extent expressly specified in its opinion, of the Transactions Agreement or any related documents, or the form of the Transactions or any related transaction. In addition, LionTree expressed no opinion as to the fairness of the amount or nature of any compensation to be received by any officers, directors or employees of any parties to the Transactions, or any class of such persons, relative to the Consideration. LionTree expressed no opinion as to what the value of any Charter common stock will be when issued in connection with the Transactions or the prices at which Charter common stock or GreatLand Connections shares will trade at any time.

In preparing its opinion to the Charter board of directors, LionTree performed a variety of analyses, including those described below. The summary of LionTree's analyses is not a complete description of the analyses underlying LionTree's opinion. The preparation of a fairness opinion involves various quantitative and qualitative judgments and determinations with respect to the financial, comparative and other analytical methods employed and the adaptation and application of these methods to the unique facts and circumstances presented. Consequently, neither a fairness opinion nor its underlying analyses is readily susceptible to summary description. LionTree arrived at its opinion based on the results of all analyses undertaken by it, assessed as a whole, and did not draw, in isolation, conclusions from or with regard to any individual analysis, methodology or factor. Accordingly, LionTree believes that its analyses and the following summary must be considered as a whole and that selecting portions of its analyses, methodologies and factors or focusing on information presented in tabular format, without considering all analyses, methodologies and factors or the narrative description of the analyses, could create a misleading or incomplete view

of the process underlying LionTree's analyses and opinion. Each analytical technique has inherent strengths and weaknesses, and the nature of the available information may further affect the value of particular techniques.

Table of Contents

In performing its analyses, LionTree considered general business, economic, industry, regulatory and market conditions, financial and otherwise, and other matters as they existed on, and could be evaluated as of, the date of the opinion. LionTree's analyses involved judgments and assumptions with regard to general business, economic, industry, regulatory and market conditions, financial and otherwise, and other matters, many of which are beyond the control of Charter, such as the impact of competition on the business of Charter and on the industry generally, industry growth and the absence of any material change in the financial condition and prospects of Charter or the proposed Transactions, and an evaluation of the results of those analyses is not entirely mathematical. LionTree believes that mathematical derivations (such as determining mean and median) of financial data are not by themselves meaningful and should be considered together with qualities, judgments and informed assumptions. The estimates contained in Charter's analyses and the implied reference range values indicated by LionTree's analyses are not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than those suggested by the analyses. Additionally, any analyses relating to the value of assets, businesses or securities do not purport to be appraisals or to reflect the prices at which businesses or securities actually may be sold, which may depend on a variety of factors, many of which are beyond the control of Charter. Much of the information used in, and accordingly the results of, LionTree's analyses are inherently subject to substantial uncertainty.

LionTree's opinion was provided to the Charter board of directors in connection with its evaluation of the Transactions and was only one of many factors considered by the Charter board of directors in evaluating the Transactions. Neither LionTree's opinion nor its analyses were determinative of the Consideration or of the views of the Charter board of directors or management with respect to the Transactions or the Consideration. The type and amount of consideration payable in the Transactions were determined through negotiation between Charter and Comcast, during which LionTree provided advice to Charter, and the decision to enter into the Transactions was solely that of the Charter board of directors. LionTree did not, however, recommend any specific type or amount of consideration to Charter or the Charter board of directors, nor did it recommend that any specific type or amount of consideration constituted the only appropriate consideration for the transaction.

The following is a summary of the material analyses reviewed by LionTree in connection with LionTree's presentation to the Charter board of directors and opinion rendered on December 5, 2014. The order of the analyses does not represent relative importance or weight given to those analyses by LionTree. The analyses summarized below include information presented in tabular format. The tables alone do not constitute a complete description of the analyses. Considering the data in the tables below without considering the full narrative description of the analyses, as well as the methodologies underlying, and the assumptions, qualifications and limitations affecting, each analysis, could create a misleading or incomplete view of LionTree's analyses.

For purposes of its analyses, LionTree reviewed a number of financial and operating metrics, including:

enterprise value, calculated as the value of the relevant company's outstanding equity securities (taking into account its outstanding options, warrants and other convertible securities) based on the relevant company's closing stock price, or equity value, plus net debt (calculated as outstanding indebtedness, preferred stock and capital lease obligations less the amount of cash on its balance sheet) plus interests of others in majority (but not wholly owned) subsidiaries, or minority interests, less interests in entities for which the relevant company owns less than 50% of the equity, or associates, as of a specified date;

adjusted enterprise value, calculated as enterprise value less the net present value of the relevant company's tax attributes;

earnings before interest, taxes, depreciation and amortization, adjusted for certain one-time items, which we refer to in this section entitled *Opinion of LionTree Advisors LLC* as EBITDA.

Unless the context indicates otherwise, enterprise values and equity values derived from the selected companies analyses described below were calculated using the closing price of Charter common stock, and the common stock of the selected publicly traded companies listed below as of December 1, 2014, and transaction values for the target companies derived from the selected transactions analysis described below were calculated as of the public announcement date of the relevant transaction based on the estimated purchase prices paid in the selected transactions. Accordingly, this information may not reflect current or future market conditions.

Table of Contents

In addition, unless the context indicates otherwise, (i) per share amounts for Charter common stock were calculated on a fully diluted basis, using the treasury stock method; (ii) calculations described as being on a proportionate basis include the applicable GreatLand Connections financial metric *multiplied by* Charter's pro forma ownership percentage of GreatLand Connections, (iii) Carve-out EBITDA represents the Carve-out 2014 EBITDA (as defined in the Transactions Agreement); and (iv) Pro Forma EBITDA represents Carve-out EBITDA, adjusted for the Transaction Effects, in each case, based on assumptions provided by Charter management.

Estimates of 2014 and 2015 EBITDA for Charter, Comcast, Time Warner Cable, and Cablevision were based on certain publicly available research analyst estimates for those companies.

Acquired Assets Financial Analyses

Selected Companies Analysis. LionTree calculated certain valuation multiples based on certain financial data for Charter and certain selected companies. The selected companies consisted of publicly traded companies primarily engaged in the U.S. cable industry with enterprise values in excess of \$5 billion. For each of Charter and Comcast, LionTree calculated valuation multiples both on a standalone basis as well as pro forma for the Transactions and the Comcast-TWC Transaction (as defined in the Transactions Agreement). The calculated multiples included enterprise value and adjusted enterprise value as a multiple of estimated 2014 adjusted EBITDA and estimated 2015 adjusted EBITDA. The list of selected companies and the related multiples for such selected companies and for Charter are set forth below, and compared to the multiples implied by the Transactions based on Carve-out EBITDA, consolidated Pro Forma EBITDA and proportionate Pro Forma EBITDA:

Implied Multiples:

	Enterprise Value as a Multiple of		Adjusted Enterprise Value	
	2014E EBITDA	2015E EBITDA	2014E EBITDA	2015E EBITDA
<u>Unadjusted for Transactions and Comcast-TWC Transaction:</u>				
Charter	10.5x	9.6x	9.5x	8.7x
Comcast (Cable)	7.4x	7.0x	7.4x	7.0x
TWC	7.7x	7.6x	7.5x	7.4x
Cablevision (Cable)	7.4x	7.5x	7.3x	7.4x
<u>Adjusted for Transactions and Comcast-TWC Transaction:</u>				
Charter	9.1x	8.7x	8.3x	8.0x
Comcast (Cable)	7.7x	7.4x	7.7x	7.3x
<u>Transactions:</u>				
Carve-out	7.125x		7.1x	
Consolidated Pro Forma	6.9x	7.1x	6.9x	7.0x
Proportionate Pro Forma	6.3x	6.5x	6.3x	6.5x

Table of Contents

Selected Transactions Analysis. LionTree calculated certain valuation multiples based on the estimated purchase prices paid in the following selected publicly announced U.S. cable industry transactions from 2010 to 2014. The selected transactions consisted of publicly announced transactions involving target companies primarily engaged in the U.S. cable industry with transaction values in excess of \$500 million. The calculated multiples included transaction value as a multiple of estimated adjusted EBITDA for the next twelve-month period, or NTM, both before and after giving effect to the present value of tax attributes of the target company. The list of selected transactions is set forth below:

Announcement Date	Target	Acquiror
June 2010	Bresnan Broadband Holdings, LLC	Cablevision Systems Corporation
November 2010	Mediacom Communications Corporation	Take Private
August 2011	Insight Communications Company Inc.	Time Warner Cable Inc.
June 2012	Wave Division Holdings LLC	Oak Hill Capital Partners
July 2012	Atlantic Broadband LLC	Cogeco Cable Inc.
July 2012	Suddenlink Communications	BC Partners Limited / CPP Investment Board
February 2013	Bresnan Broadband Holdings, LLC	Charter Communications Inc.
March 2013	Charter Communications, Inc.	Liberty Media Corporation
February 2014	Time Warner Cable Inc.	Comcast Corporation

This analysis indicated the following mean, median, minimum and maximum NTM EBITDA multiples (both before and after giving effect to the present value of tax attributes of the target company) for the selected transactions, and compared to the multiples implied by the Transactions based on Carve-Out EBITDA, consolidated Pro Forma EBITDA and proportionate Pro Forma EBITDA:

Multiple of NTM EBITDA:

	Enterprise Value	Adjusted Enterprise Value
<u>Selected Transactions</u>		
Mean	7.8x	6.9x
Median	8.0x	6.8x
Minimum	7.0x	5.4x
Maximum	8.4x	7.9x
<u>Transactions:</u>		
Carve-out	7.125x	7.1x
Consolidated Pro Forma	6.9x	6.9x
Proportionate Pro Forma	6.3x	6.3x

From this data, LionTree concluded that the multiples paid in the Transactions were within the range of the selected Transactions.

Table of Contents***Pro Forma Financial Analyses***

GreatLand Connections DCF Analysis. LionTree performed a discounted cash flow analysis of GreatLand Connections by calculating the estimated net present value of the unlevered, after-tax free cash flows that GreatLand Connections was forecasted to generate through 2018, based on the Forecasts. LionTree calculated terminal values for GreatLand Connections by applying a range of terminal value multiples of 6.25x to 7.25x to GreatLand Connections 2019 estimated EBITDA. The present values of the cash flows and terminal values were then calculated using discount rates ranging from 6.0% to 7.5%. The discounted cash flow analysis indicated the following equity value reference ranges for Pro Forma Charter's 33.2% equity ownership in GreatLand Connections:

Implied Equity Value (\$bn) Reference Range**for Pro Forma Charter's Ownership in GreatLand Connections**

\$1.023	\$1.721
---------	---------

Pro Forma DCF Analyses. LionTree performed discounted cash flow analyses of Pro Forma Charter by calculating the estimated net present value of the unlevered, after-tax free cash flows that Pro Forma Charter was forecasted to generate through 2018, based on the Forecasts. LionTree calculated terminal values for Pro Forma Charter by applying a range of terminal value multiples of 6.25x to 7.25x to Pro Forma Charter's 2019 estimated EBITDA. The present values of the cash flows and terminal values, including the net present value of the pro forma tax attributes of the combined company and the Transaction Effects, were then calculated using discount rates ranging from 6.0% to 7.5%, except for the tax attributes which were calculated using a 10.0% discount rate. LionTree then added the implied equity value for Pro Forma Charter's ownership in GreatLand Connections referenced above. The discounted cash flow analysis indicated the following implied per share reference ranges for Pro Forma Charter, and compared to the implied per share reference ranges for Charter on a standalone basis based on the same discount rates and multiples:

Implied Per Share Equity Reference Range**for Pro Forma Charter**

\$160.42	\$222.91
----------	----------

Implied Per Share Equity Reference Range**for Charter**

\$155.09	\$202.77
----------	----------

Pro Forma DCF Accretion/Dilution Analysis. LionTree performed discounted cash flow accretion/dilution analyses of Pro Forma Charter by comparing the implied per share equity reference range of Charter on a standalone basis, as discussed above, to the implied per share equity reference range derived from the pro forma discounted cash flow analysis of Pro Forma Charter. The analysis indicated that the transaction could be between approximately 3.4% and 9.9% accretive to holders of Charter common stock.

Other Matters

LionTree was engaged by Charter to act as its financial advisor in connection with the Transactions and provide financial advisory services, including an opinion to the Charter board of directors regarding the fairness, from a financial point of view, to Charter of the Consideration to be paid in connection with the Transactions. Charter engaged LionTree based on the experience and reputation of LionTree's professionals. LionTree is regularly engaged to provide advisory services in connection with mergers and acquisitions. Pursuant to its engagement letter, Charter will pay LionTree \$22.5 million for its services, \$1.5 million of which became payable upon the delivery of LionTree's

opinion, regardless of the conclusion reached therein, and the balance of which is contingent upon the consummation of the Transactions. Charter has also agreed to reimburse LionTree for certain expenses and to indemnify LionTree, its affiliates and certain related parties against certain liabilities and expenses, including certain liabilities under the federal securities laws arising out of or relating to LionTree's engagement.

In the past, LionTree and its affiliates have provided investment banking services to Charter and its affiliates unrelated to the proposed Transactions, for which LionTree and its affiliates received compensation, including having acted as (i) financial advisor to Charter and its affiliates in connection with certain merger and acquisition

Table of Contents

transactions or matters and (ii) co-manager in connection with certain debt offerings of Charter and its affiliates. LionTree and its affiliates may also seek to provide such services to Charter and its affiliates in the future and expect to receive fees for the rendering of these services. In the ordinary course of business, certain of LionTree's employees and affiliates may hold or trade, for their own accounts and the accounts of their investors, securities of Charter, Comcast, and Time Warner Cable and, accordingly, may at any time hold a long or short position in such securities.

Opinion of Goldman Sachs & Co.

On December 5, 2014, at a meeting of the board of directors of Charter to evaluate whether to recommend that stockholders of Charter vote in favor of the issuance of shares of Class A common stock of New Charter in the Transactions, Goldman Sachs rendered its oral opinion, subsequently confirmed in writing, to the effect that, as of December 5, 2014, and based upon and subject to the factors and assumptions set forth in Goldman Sachs' written opinion, the Aggregate Consideration (as defined in the written opinion) to be paid by Charter and New Charter for the Acquired Assets (as defined in the written opinion) pursuant to the Transactions Agreement was fair from a financial point of view to Charter.

The full text of the written opinion of Goldman Sachs, dated December 5, 2014, which sets forth the assumptions made, procedures followed, matters considered, qualifications and limitations on the review undertaken in connection with the opinion, is attached to this proxy statement/prospectus as Annex E. The summary of the Goldman Sachs opinion provided in this proxy statement/prospectus is qualified in its entirety by reference to the full text of Goldman Sachs' written opinion. Goldman Sachs' advisory services and opinion were provided for the information and assistance of the board of directors of Charter in connection with its evaluation as to whether to recommend that stockholders of Charter vote in favor of the issuance of shares of Class A common stock of New Charter in the Transactions and the opinion does not constitute a recommendation as to how any stockholder of Charter should vote with respect to the Transactions or any other matter.

In connection with rendering the opinion described above and performing its related financial analyses, Goldman Sachs reviewed, among other things:

the Transactions Agreement;

a draft, dated December 5, 2014, of the registration statement on Form S-4 of New Charter of which this proxy statement/prospectus forms a part;

annual reports to stockholders and Annual Reports on Form 10-K of Charter for the five fiscal years ended December 31, 2013;

certain interim reports to stockholders and Quarterly Reports on Form 10-Q of Charter;

certain other communications from Charter to its stockholders;

the registration statement of Midwest Cable, Inc. (expected to be renamed GreatLand Connections in connection with the Transactions) on Form S-1 (333-199741), including the prospectus contained therein;

certain publicly available research analyst reports for Charter; and

certain internal financial analyses and forecasts for Charter and the Charter Swap Systems (as defined in the Transactions Agreement), and certain financial analyses and forecasts for GreatLand Connections, the Comcast Swap Systems and the Taxable Purchase Systems (both as defined in the Transactions Agreement), in each case, as prepared by the management of Charter and approved for our use by Charter (the Forecasts), including certain cost savings and operating synergies and dis-synergies projected by the management of Charter to result from the Transactions, as approved for our use by Charter (the Net Synergies).

Table of Contents

Goldman Sachs held discussions with members of senior management of Charter regarding their assessment of the past and current business operations, financial condition and future prospects of Charter, New Charter, the GreatLand Connections Systems, the Comcast Swap Systems, the Charter Swap Systems and the Taxable Purchase Systems (such systems, collectively, the Systems) and the strategic rationale for, and the potential benefits of, the Transactions; reviewed the reported price and trading activity for the shares of Class A common stock of Charter, compared certain financial and stock market information for Charter and certain financial information for the GreatLand Connections Systems, the Comcast Swap Systems, Charter Swap Systems and the Taxable Purchase Systems with similar financial and stock market information for certain other companies the securities of which are publicly traded; reviewed the financial terms of certain recent business combinations in the cable industry; and performed such other studies and analyses, and considered such other factors, as Goldman Sachs deemed appropriate.

For purposes of rendering its opinion, Goldman Sachs, with the consent of Charter, relied upon and assumed the accuracy and completeness of all of the financial, legal, regulatory, tax, accounting and other information provided to, discussed with or reviewed by, Goldman Sachs, without assuming any responsibility for independent verification thereof. In that regard, Goldman Sachs assumed with the consent of the board of directors of Charter that the Forecasts, including the Net Synergies, had been reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of Charter. Goldman Sachs did not make any independent evaluation or appraisal of the assets and liabilities (including any contingent, derivative or other off-balance-sheet assets and liabilities) of Charter, GreatLand Connections or any of their respective subsidiaries, any of the Comcast Swapped Assets, the Comcast Swapped Liabilities, the Charter Swapped Assets, the Charter Swapped Liabilities, the Taxable Purchase Assets or the Taxable Purchase Liabilities (all as defined in the Transactions Agreement) and Goldman Sachs was not furnished with any such evaluation or appraisal. Goldman Sachs assumed that all governmental, regulatory or other consents and approvals necessary for the consummation of the Transactions would be obtained without any adverse effect on New Charter, Charter, GreatLand Connections, any of the Comcast Swapped Assets, the Comcast Swapped Liabilities, the Charter Swapped Assets, the Charter Swapped Liabilities, the Taxable Purchase Assets or the Taxable Purchase Liabilities or on the expected benefits of the Transactions in any way meaningful to its analysis. Goldman Sachs assumed that the Transactions would be consummated on the terms set forth in the Transactions Agreement, without the waiver or modification of any term or condition the effect of which would be in any way meaningful to its analysis. Goldman Sachs also assumed that the Implementing Agreements would be executed on the basis of the terms and conditions set forth in the Transactions Agreement, without any amendments or modifications the effect of which would be in any way meaningful to its analysis.

Goldman Sachs opinion did not address the underlying business decision of Charter to engage in the Transactions, or the relative merits of the Transactions as compared to any strategic alternatives that may be available to Charter; nor did it address any legal, regulatory, tax or accounting matters. Goldman Sachs opinion addressed only the fairness from a financial point of view to Charter, as of the date of the opinion, of the Aggregate Consideration to be paid by Charter and New Charter for the Acquired Assets pursuant to the Transactions Agreement. Goldman Sachs did not express any view on, and its opinion did not address, any ongoing obligations of Charter, New Charter or GreatLand Connections, any allocation of the Aggregate Consideration, the fair market values of the SpinCo Non-System Assets and the Taxable Purchase Non-System Assets (both as defined in the Transactions Agreement and, together, the Non-System Assets), any other term or aspect of the Transactions Agreement or the Transactions or any term or aspect of any other agreement or instrument contemplated by the Transactions Agreement or entered into or amended in connection with any of the Transactions, including, the fairness of the Transactions to, or any consideration received in connection therewith by, the holders of any class of securities, creditors, or other constituencies of Charter; nor as to the fairness of the amount or nature of any compensation to be paid or payable to any of the officers, directors or employees of Charter, or any class of such persons in connection with the Transactions, whether relative to the Aggregate Consideration to be paid by Charter and New Charter for the Acquired Assets pursuant to the Transactions Agreements or otherwise. Goldman Sachs did not express any opinion as to the prices at which shares of

Class A common stock of Charter or Class A common stock of New Charter or the shares of GreatLand

Table of Contents

Connections would trade at any time or as to the impact of the Transactions on the solvency or viability of Charter, New Charter, GreatLand Connections, Comcast, any of the Systems or any of the businesses conducted with the Non-System Assets or the ability of Charter, New Charter, GreatLand Connections, Comcast, any of the Systems or any of the businesses conducted with the Non-System Assets to pay their respective obligations when they come due. Goldman Sachs' opinion was necessarily based on economic, monetary, market and other conditions as in effect on, and the information made available to Goldman Sachs as of, December 5, 2014, the date of its opinion and Goldman Sachs assumed no responsibility for updating, revising or reaffirming its opinion based on circumstances, developments or events occurring after the date of its opinion. Goldman Sachs' advisory services and opinion were provided for the information and assistance of the board of directors of Charter in connection with its consideration of its recommendation to stockholders of Charter with respect to the Transactions and such opinion does not constitute a recommendation as to how any holder of Class A common stock of Charter should vote with respect to the Transactions or any other matter. Goldman Sachs' opinion was approved by a fairness committee of Goldman Sachs.

The following is a summary of the material financial analyses presented by Goldman Sachs to the board of directors of Charter on December 5, 2014 in connection with rendering the opinion described above. The following summary, however, does not purport to be a complete description of the financial analyses performed by Goldman Sachs, nor does the order of analyses described represent relative importance or weight given to those analyses by Goldman Sachs. Some of the summaries of the financial analyses include information presented in tabular format. The tables must be read together with the full text of each summary and are alone not a complete description of Goldman Sachs financial analyses. Except as otherwise noted, the following quantitative information, to the extent that it is based on market data, is based on market data as it existed on or before December 1, 2014 and is not necessarily indicative of current market conditions.

Illustrative Discounted Cash Flow Analyses

Using the Forecasts (and, in the case of New Charter, the Net Synergies), Goldman Sachs performed illustrative discounted cash flow analyses of:

New Charter on a pro forma basis giving effect to Charter's acquisition in the Exchange and the Purchase of the cable systems currently owned by Time Warner Cable proposed to be acquired in the Exchange and the Purchase, the divestiture of the cable systems of Charter proposed to be divested in the Exchange, New Charter's expected acquisition of a 33.2% equity interest in GreatLand Connections and the issuance of shares of Class A common stock of New Charter pursuant to the GreatLand Connections Merger.

GreatLand Connections; and

Charter on a standalone basis.

For purposes of its analysis with respect to each of the foregoing entities, Goldman Sachs derived an illustrative range of enterprise values for the applicable entity by applying discount rates ranging from 5.25% to 6.25%, reflecting an estimate of the weighted average cost of capital of New Charter, GreatLand Connections and Charter, to (a) estimates of the unlevered free cash flows estimated to be generated by the applicable entity for the years 2015 through 2019 as reflected in the Forecasts and, in the case of New Charter, the Net Synergies, and (b) a range of illustrative terminal values for the applicable entity at the end of 2019. The range of illustrative terminal values were derived by applying illustrative multiples ranging from 6.5x to 7.5x to estimated 2019 earnings before interest, taxes, depreciation and

amortization, or EBITDA for the applicable entity as reflected in the Forecasts and, in the case of New Charter, the Net Synergies.

To derive an illustrative range of equity values for each of the entities, Goldman Sachs subtracted from the range of enterprise values it derived for each entity an estimate of the net debt of the applicable entity as of December 31, 2014, as reflected in the Forecasts. In the case of New Charter and Charter, Goldman Sachs added to the result the present value as of December 31, 2014 (derived, in the case of New Charter, using a discount rate of 7.9%, and in the case of Charter, using a discount rate of 8.0%), of estimates of tax savings anticipated to

Table of Contents

be realized from Charter's current net operating losses and other tax attributes as reflected in the Forecasts. In the case of New Charter, Goldman Sachs also added to the result the net present value as of December 31, 2014 of estimates of the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the Purchase net of the payments New Charter anticipates making to Comcast as a result of the basis step-up, as provided to Goldman Sachs by management of Charter and approved for Goldman Sachs use by Charter, and 33.2% of an illustrative equity value Goldman Sachs derived for GreatLand Connections by applying to the estimated 2014 EBITDA for GreatLand Connections as reflected in the Forecasts illustrative 2014 EBITDA multiples derived based on the 2014 EBITDA multiples for selected publicly traded cable companies, as summarized below under Comparable Companies Analysis.

Goldman Sachs then divided the illustrative ranges of equity values it derived for New Charter and Charter, respectively, by the total number of fully diluted shares of Class A common stock of New Charter anticipated to be outstanding after giving effect to the Transactions as provided by Charter management (assuming an aggregate number of shares of New Charter issuable in the GreatLand Connections Merger based on the closing share price for the Class A common stock of Charter as of December 1, 2014) and the total number of fully diluted shares of Class A common stock of Charter outstanding as provided by Charter management, as applicable, to derive illustrative present values for the shares of Class A common stock of New Charter and illustrative present values for the shares of Class A common stock of Charter. Goldman Sachs also multiplied the illustrative equity value it derived for GreatLand Connections as described above, by 33.2% to derive an illustrative equity value for the 33.2% equity interest New Charter expects to receive in GreatLand Connections.

The illustrative ranges derived from the foregoing analyses are as follows:

New Charter Class A common stock	\$189-\$243
33.2% equity interest in GreatLand Connections	\$1,292M-\$1,956M
Charter Class A common stock	\$176-\$221

Illustrative Present Value of Future Stock Price Analyses

Goldman Sachs calculated illustrative ranges of implied present values per share of Class A common stock of New Charter on a proforma basis, of implied present values of a 33.2% equity interest in GreatLand Connections, and of implied present values per share of Class A common stock of Charter on a standalone basis based on theoretical future values as of December 31, 2018, for, respectively, the New Charter Class A common stock, for a 33.2% equity interest in GreatLand Connections and for the Charter Class A common stock.

For purposes of this analysis, Goldman Sachs derived these theoretical future values as of December 31, 2018 by:

applying an illustrative range of multiples of 6.5x to 7.5x to the estimate of 2019 EBITDA for the applicable entity as reflected in the Forecasts;

subtracting, in the case of New Charter and Charter, an assumed amount of net debt equal to the estimate of its 2019 EBITDA as reflected in the Forecasts, multiplied by the midpoint of Charter management's anticipated range of its leverage ratios, and, in the case of GreatLand Connections, an estimate of its net debt as of December 31, 2018 as reflected in the Forecasts;

adding, in the case of New Charter and Charter, the present value as of December 31, 2018 (derived, in the case of New Charter, using a discount rate of 7.9%, and in the case of Charter, using a discount rate of 8.0%) of estimates of the tax savings anticipated to be realized from Charter's current net operating losses and other tax attributes as reflected in the Forecasts;

adding, in the case of New Charter, the net present value as of December 31, 2018 of estimates of the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the Purchase net of the payments New Charter anticipates making to Comcast as a result of the basis step-up as provided to Goldman Sachs by management of Charter and approved for Goldman Sachs' use by Charter;

Table of Contents

adding, in the case of New Charter, a range of implied present values derived by Goldman Sachs for a 33.2% equity interest in GreatLand Connections based on theoretical future values for the equity of GreatLand Connections as of December 31, 2018; and

dividing the result, in the case of New Charter, by Charter management's estimate of the by the total number of fully diluted shares of Class A common stock of New Charter anticipated to be outstanding of December 31, 2018 (taking into account Charter's estimated share repurchases and assuming an aggregate number of shares of Class A common stock of New Charter issuable in the GreatLand Connections Merger based on the closing share price for the Class A common stock of Charter as of December 1, 2014), as provided by Charter's management, and, in the case of Charter, by Charter management's estimate of the number of shares expected to be outstanding as of December 31, 2018 (taking into account Charter's estimated share repurchases), as provided by Charter management; and multiplying the result, in the case of GreatLand Connections, by 33.2%.

By applying a discount rate of 7.9%, reflecting an estimate of New Charter's anticipated cost of equity, to the theoretical future values for the shares of Class A common stock of New Charter as of December 31, 2018, Goldman Sachs derived illustrative pro forma present values per share for the Class A common stock of New Charter as of December 31, 2014, ranging from \$192 to \$235.

By applying a discount rate of 7.9%, reflecting an estimate of GreatLand Connection's cost of equity, to 33.2% of the theoretical future equity values for GreatLand Connections as of December 31, 2018, Goldman Sachs derived illustrative present equity values for a 33.2% equity interest in GreatLand Connections as of December 31, 2014, ranging from \$1,480 to \$1,970.

By applying a discount rate of 8.0%, reflecting an estimate of Charter's cost of equity, to the theoretical future values for the Class A common stock of Charter as of December 31, 2018, Goldman Sachs derived illustrative standalone present values per share of Class A common stock of Charter as of December 31, 2014 ranging from \$178 to \$210.

Comparable Companies Analysis

Goldman Sachs calculated and compared (a) the multiples of the transaction values (TV) of the cable systems currently owned by Time Warner Cable proposed to be acquired by Charter in the Exchange and the Purchase, net of the cable systems of Charter proposed to be divested by Charter in the Exchange, or the Net acquired systems and of GreatLand Connections, respectively, in each case implied by the consideration to be paid by Charter and New Charter in the Transactions, to estimated 2014 EBITDA for the Net acquired systems and GreatLand Connections, respectively, in each case as reflected in the Forecasts and, to the extent applicable, the Net Synergies, and (b) multiples of implied adjusted enterprise value for each of the following selected companies (calculated as described below) to estimated 2014 EBITDA for each of the selected companies:

Charter standalone

Comcast standalone

Time Warner Cable standalone

Cablevision Systems Corporation standalone

Charter pro forma

Comcast pro forma for its pending acquisition of Time Warner Cable

This analysis was undertaken to assist Goldman Sachs and Charter's board of directors in understanding how the adjusted enterprise value/2014E EBITDA multiples for the selected companies (based on their current trading prices and analyst EBITDA estimates) compared to the TV/2014E EBITDA multiple implied by the consideration to be paid by Charter and New Charter in the Transactions. Although none of the selected companies is directly comparable to the Net acquired systems or GreatLand Connections, the companies included were chosen because they are publicly traded companies in the cable industry with operations that, for purposes of analysis, may be considered similar to certain operations of the Net acquired systems or GreatLand Connections.

Table of Contents

For purposes of these calculations, Goldman Sachs calculated an implied equity value for each selected company by multiplying the number of fully diluted outstanding shares of that company as reported in its most recent SEC filings (and in the case of pro forma Charter and pro forma Comcast, increased by the number of shares expected to be issued by each in its respective pending transaction, based on publicly available information) by each company's closing share price on December 1, 2014. By adding the net debt amount of each selected company as reported in its most recent public filings as of December 1, 2014 (and, in the case of pro forma Charter and pro forma Comcast, adjusted to reflect the indebtedness expected to be incurred/repaid by each in connection with its respective pending transaction, based on publicly available information) to the implied equity value of such company derived from the foregoing calculations adjusted to deduct, in the case of Charter standalone and Charter pro forma, the net present value as of December 31, 2014 of estimates of the tax savings anticipated to be realized by Charter and New Charter as described above, in the case of other selected companies, available information regarding the net present value of their respective tax assets and, in the case of all selected companies an implied value of each company's non-cable assets derived based on publicly available information, Goldman Sachs calculated an implied adjusted enterprise value (Adjusted EV) for each company. The multiples for each of the selected companies were calculated using the median 2014 EBITDA estimates for each company published by the Institutional Brokers Estimate System (I/B/E/S) as of December 1, 2014 and where applicable, adjusted to exclude the 2014 EBITDA from any non-cable assets based on publicly available estimates.

The table below compares the TV/2014E EBITDA multiple of 7.1x implied by the consideration to be paid by Charter and New Charter with respect to the Net acquired systems and the approximately 33% of the outstanding common stock of GreatLand Connections to the high, low and median Adjusted EV/2014E EBITDA multiples calculated by Goldman Sachs for the selected companies, all of which were higher than 7.1x.

	Net Acquired Systems	GreatLand Connections	Selected Companies		
			High	Low	Median
TV or Adjusted EV to 2014E EBITDA	7.1x	7.1x	9.6x	7.3x	7.5x

Selected Precedent Transactions Analysis

Goldman Sachs calculated and compared (a) multiples of the TV of the Net acquired systems and of GreatLand, in each case implied by the consideration to be paid by Charter and New Charter in the Transactions, to estimated 2014 EBITDA for the Net acquired systems and GreatLand Connections, respectively, in each case as reflected in the Forecasts and, to the extent applicable, the Net Synergies, and (b) multiples of the implied TV in each of the following selected transactions in the cable industry based on the announced transaction price, as a multiple of the target company's estimated EBITDA for the last completed four quarter period before the announcement of the transaction as disclosed in its public filings (the LTM EBITDA). With respect to each of the following selected transactions, Goldman Sachs calculated an implied adjusted transaction value by deducting the net present value of the target company's respective tax assets, to the extent such information was publicly available and applicable.

Date

Announced	Target	Acquirer
02/2014	Time Warner Cable	Comcast
02/2013	Bresnan Cable Systems	Charter
08/2011	Insight Communications Company, Inc.	Time Warner Cable Inc.

06/2010

Bresnan Communications LLC

Cablevision Corporation

This analysis was undertaken to assist Goldman Sachs and Charter's board of directors in understanding how the TV/LTM EBITDA multiples for the selected transactions compared with the TV/2014E EBITDA multiple implied by the consideration to be paid by Charter and New Charter in the Transactions. With respect to each selected transaction, the TV/LTM EBITDA multiples were calculated with, and without, accounting for the present values of any tax assets that are expected to be realized by the target company wherever applicable.

Table of Contents

The table below compares the TV/ 2014E EBITDA multiple of 7.1x implied by the consideration to be paid by Charter and New Charter with respect to the Net acquired systems and the approximately 33% of the outstanding common stock of GreatLand Connections to the median of the TV/LTM EBITDA multiples calculated by Goldman Sachs for the selected transactions, which was higher than 7.1x.

TV/2014E EBITDA		Selected Transactions (TV/LTMEBITDA)	
<u>Net acquired systems</u>	<u>GreatLand</u>	<u>Median (Gross EV)</u>	<u>Median (EV Adjusted for</u>
	<u>Connections</u>		<u>Tax Assets)</u>
7.1x	7.1x	8.6x	7.8x
<i>General</i>			

The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Selecting portions of the analyses or of the summary set forth above, without considering the analyses as a whole, could create an incomplete view of the processes underlying Goldman Sachs' opinion. In arriving at its fairness determination, Goldman Sachs considered the results of all of its analyses and did not attribute any particular weight to any factor or analysis considered by it. Rather, Goldman Sachs made its determination as to fairness on the basis of its experience and professional judgment after considering the results of all of its analyses. No company or transaction used in the above analyses as a comparison is directly comparable to Charter, the Net acquired systems, GreatLand Connections or the Transactions.

Goldman Sachs prepared these analyses for purposes of providing its opinion to the board of directors of Charter as to the fairness from a financial point of view to Charter, as of the date of the opinion, of the Aggregate Consideration to be paid by Charter and New Charter for the Acquired Assets pursuant to the Transactions Agreement. These analyses do not purport to be appraisals nor do they necessarily reflect the prices at which businesses or securities actually may be sold. Analyses based upon projections of future results are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by these analyses. Because these analyses are inherently subject to uncertainty, being based upon numerous factors or events beyond the control of the parties or their respective advisors, none of Charter, Goldman Sachs or any other person assumes responsibility if future results are materially different from those forecast.

The Aggregate Consideration was determined through arm's-length negotiations between Charter and Comcast and was approved by the board of directors of Charter. Goldman Sachs provided advice to Charter during these negotiations. Goldman Sachs did not, however, recommend any specific amount of consideration to Charter or that any specific amount of consideration constituted the only appropriate consideration for the Transactions.

As described above, Goldman Sachs' opinion was one of many factors taken into consideration by the board of directors of Charter in making its recommendation to the stockholders of Charter to vote in favor of the issuance of shares of Class A common stock of New Charter in the Transactions. The foregoing summary does not purport to be a complete description of the analyses performed by Goldman Sachs in connection with the delivery of its fairness opinion to Charter's board of directors and is qualified in its entirety by reference to the written opinion of Goldman Sachs attached as Annex E to this proxy statement/prospectus.

Goldman, Sachs & Co. and its affiliates are engaged in advisory, underwriting and financing, principal investing, sales and trading, research, investment management and other financial and non-financial activities and services for various persons and entities. Goldman, Sachs & Co. and its affiliates and employees, and funds or other entities they manage

or in which they invest or have other economic interests or with which they co-invest, may at any time purchase, sell, hold or vote long or short positions and investments in securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments of Charter, Comcast and any of their respective affiliates and third parties, including Liberty, a significant stockholder of Charter and affiliates of a significant shareholder of Liberty (the Liberty Related Entities), or any currency or

Table of Contents

commodity that may be involved in the Transactions. Goldman Sachs provided certain financial advisory and/or underwriting services to Charter and/or its affiliates from time to time for which its Investment Banking Division has received, and may receive, compensation, including having acted as financial advisor to Charter in connection with its acquisition of Bresnan Broadband Holdings, LLC in February 2013 and, in connection with the financing of the Transactions (the Transaction Financing), as (i) joint bookrunner in connection with the offering of 5.500% Senior Unsecured Notes due 2022 (aggregate principal amount of \$1.5 billion) by CCOH Safari, LLC, a subsidiary of Charter (CCOH), (ii) joint bookrunner in connection with the offering of 5.750% Senior Unsecured Notes due 2024 (aggregate principal amount \$2.0 billion) by CCOH and (iii) joint bookrunner in connection with a term loan due 2021 (aggregate principal amount \$3.5 billion) provided to CCO Safari, LLC, a subsidiary of Charter. Goldman Sachs also provided certain financial advisory and/or underwriting services to Comcast and/or its affiliates from time to time for which its Investment Banking Division has received, and may receive, compensation, including having acted as co-manager in connection with the public offering of 3.600% Notes due 2024 (aggregate principal amount \$1,200,000,000) and 4.750% Notes due 2044 (aggregate principal amount \$1,000,000,000) in February 2014. Goldman Sachs also provided certain financial advisory and/or underwriting services to the Liberty Related Entities and their respective affiliates from time to time for which its Investment Banking Division has received, and may receive, compensation, including having acted as joint bookrunner with respect to the public offering of 5.500% Senior Secured Notes due 2023 (aggregate principal amount \$1,000,000,000) and 5.750% Senior Secured Notes due 2023 (aggregate principal amount 500,000,000) by Unitymedia Hessen GmbH & Co. KG and Unitymedia NRW GmbH (together, Unitymedia) in December 2012; as joint bookrunner with respect to the public offering of 5.125% Senior Secured Notes due 2023 (aggregate principal amount 500,000,000) by Unitymedia in January 2013; as joint bookrunner with respect to the refinancing of indebtedness of VTR GlobalCom Spa (VTR GlobalCom) and certain of its affiliates and the related public offering of 6.875% Senior Secured Notes due 2024 (aggregate principal amount \$1,400,000,000) by VTR Finance B.V. in January 2014; as joint bookrunner with respect to the public offering of 5.500% Senior Secured Notes due 2025 (aggregate principal amount of \$425,000,000), 5.500% Senior Secured Notes due 2025 (aggregate principal amount £430,000,000) and 6.250% Senior Secured Notes due 2029 (aggregate principal amount £225,000,000) by Virgin Media Secured Finance PLC (Virgin Media Secured Finance) in March 2014; as financial advisor to Liberty Global plc (Liberty Global) in its acquisition of certain outstanding shares VTR GlobalCom and VTR Wireless SpA in March 2014; as sole bookrunner with respect to the public offering of 6.250% Senior Secured Notes due 2029 (aggregate principal amount £175,000,000) by Virgin Media Secured Finance in April 2014; as financial advisor to Liberty Global in its acquisition of a 6.400% stake in ITV plc in July 2014; and as financial advisor to Liberty Global with respect to a redemption of certain Senior Secured Notes due 2019 and the public offering of 6.375% Senior Secured Notes due 2024 (aggregate principal amount £300,000,000) and 6.000% Senior Secured Notes due 2024 (aggregate principal amount \$500,000,000) in October 2014. Goldman Sachs may also in the future provide financial advisory and/or underwriting services to Charter, Comcast, Liberty Related Entities and their respective affiliates for which its Investment Banking Division may receive compensation.

Charter selected Goldman Sachs as its financial advisor because it is an internationally recognized investment banking firm that has substantial experience in transactions similar to the proposed Transactions. Pursuant to a letter agreement, dated June 9, 2014, as amended, the board of directors of Charter engaged Goldman Sachs to act as its financial advisor in connection with the Transactions. Pursuant to the terms of this engagement letter, Charter agreed to pay Goldman Sachs fees of approximately \$30 million, subject to crediting of up to \$7.5 million in connection with the Transaction Financing, all of which is contingent upon the consummation of the Transactions. In addition, Charter agreed to reimburse Goldman Sachs for its expenses, including attorneys' fees and disbursements, and to indemnify Goldman Sachs and related persons against certain liabilities that may arise out of its engagement.

Certain Forecasts

Charter does not as a matter of course make public forecasts as to future performance, earnings or other results, and Charter is especially reluctant to disclose forecasts for extended periods due to the unpredictability of

Table of Contents

the underlying assumptions and estimates. However, in connection with the Charter board of directors' consideration of its recommendation with respect to this proxy statement/prospectus, in December 2014, Charter provided to the Charter board of directors and Charter's financial advisors non-public, internal financial forecasts regarding Charter's and GreatLand Connections' anticipated future operations for fiscal years 2014 to 2019. The internal financial forecasts were not prepared with a view toward public disclosure, nor were they prepared with a view toward compliance with published guidelines of the SEC or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of financial forecasts. Neither our independent registered public accounting firm, nor any other independent accountants, have examined, compiled or otherwise applied procedures to the financial forecasts presented herein and, accordingly, do not express an opinion or any other form of assurance on such information or its achievability, and assume no responsibility for, and disclaim any association with, the prospective financial information. The reports of our independent registered public accounting firm incorporated by reference in this proxy statement/prospectus relate to Charter's historical financial information. They do not extend to the prospective financial information and should not be read to do so. The summary of these internal financial forecasts is not being included in this proxy statement/prospectus to influence Charter stockholders' decision whether to vote for the Share Issuance, but for informational purposes because these internal financial forecasts were considered by the Charter board of directors and financial advisors for purposes of evaluating the Transactions.

These internal financial forecasts were prepared by Charter in December, 2014 using numerous variables and assumptions, based upon the information available to Charter at that time. When the internal financial forecasts were prepared, Charter management had not completed its diligence on the Time Warner Cable assets to be acquired by Comcast and transferred to Charter, or the assets to be transferred from Comcast to GreatLand Connections. Charter management used audited carveout financial statements for the year ended December 31, 2013 and unaudited carveout financial statements for the nine months ended September 30, 2014 of Charter, Time Warner Cable and Comcast that separately presented the assets and businesses that would be acquired, exchanged, divested, retained or transferred to GreatLand Connections in the Transactions. These carveout financial statements include significant overhead cost allocations from the current asset owners and substantially different direct and indirect costs as compared to future operations under Charter or GreatLand Connections. In its internal financial forecasts for the carveout financial statements of retained Charter assets, acquired Time Warner Cable assets and Comcast assets transferred to GreatLand Connections, Charter estimated forecasts of revenue, and Adjusted EBITDA and Capital Expenditures for the last quarter of 2014. In the internal financial forecasts of the acquired Time Warner Cable assets and Comcast assets transferred to GreatLand Connections for each period presented, Charter also estimated the 4.25% services fee, programming dis-synergies and overhead synergies following the completion of the Transactions. The Charter assets were assumed to develop financially consistent with its internal plans. For the Comcast assets and the Time Warner Cable assets, the forecasts were extrapolated for the period from 2015 to 2019 using Charter's actual and internally forecasted growth rate during the period from 2012 to 2015 as a general guideline. The internal financial forecasts were prepared assuming a second quarter 2015 closing for future financial development of New Charter and GreatLand Connections, but the internal financial forecasts are shown as if closing had occurred on January 1, 2014. Given their one-time or short-term nature, however, the internal financial forecasts did not include M&A transaction costs, transition costs from Comcast to Charter or GreatLand Connections, integration or separation costs, or one-time costs to establish operating services from Charter to GreatLand Connections. The internal financial forecasts for New Charter also do not include a gross-up to revenue or expense for the reimbursement of actual economic costs of services to be provided under the Charter Services Agreement. Charter's internal financial forecasts for New Charter and GreatLand Connections also do not reflect charges related to GreatLand Connections' use of Charter's assets, which are similar to the shared asset charge from Comcast currently reflected on GreatLand Connections' audited financial statements. These costs could increase GreatLand Connections' forecasted operating expenses and reduce its forecasted capital expenditures after closing of the Transactions. In addition to these internal financial forecasts, the Charter board of directors was provided with historical market precedent transactions as a multiple of EBITDA by Charter's financial advisors, and considered the fact that final purchase price would be based on finalization of the

audited Carveout EBITDA for 2014 for each component of the Transactions.

Table of Contents

While Charter management believed the assumptions used in developing the internal financial forecasts to be reasonable in light of the circumstances at the time they were made, the variables and assumptions on which the internal financial forecasts were based are inherently uncertain and many are beyond the control of Charter's management. Important factors that may affect actual results and cause the internal financial forecasts to not be achieved include, but are not limited to, risks and uncertainties relating to the business of each company (including each company's ability to achieve strategic goals, objectives and targets over applicable periods), industry performance, the regulatory environment, general business and economic conditions and other factors described or incorporated by reference in Risk Factors and Cautionary Statement Regarding Forward-Looking Statements. The internal financial forecasts also reflect assumptions as to certain business decisions that are subject to change. As a result, actual results may differ materially from those contained in these internal financial forecasts, and there can be no assurance that the projections will be realized.

The inclusion of these internal financial forecasts in this proxy statement/prospectus, however, should not be regarded as an indication that any of Charter, New Charter, GreatLand Connections, Comcast or their respective affiliates, advisors or representatives considered the internal financial forecasts to be predictive of actual future events, and the internal financial forecasts should not be relied upon as such. The internal financial forecasts were prepared by Charter for its own purposes and were not internally prepared or adopted, nor were they reviewed, by Comcast or GreatLand Connections. None of Charter, New Charter, GreatLand Connections, or Comcast or their respective affiliates, advisors, officers, directors, partners or representatives can give any assurance that actual results will not differ from these internal financial forecasts, and none of them undertakes any obligation to update or otherwise revise or reconcile these internal financial forecasts to reflect circumstances existing after the date the internal financial forecasts were generated or to reflect the occurrence of future events even in the event that any or all of the assumptions underlying the projections are shown to be in error. None of Charter, GreatLand Connections or Comcast intends to make publicly available any update or other revision to these internal financial forecasts. None of Charter or its respective affiliates, advisors, officers, directors, partners or representatives has made, makes or is authorized in the future to make any representation to any shareholder or other person regarding Charter's ultimate performance compared to the information contained in these internal financial forecasts or that forecasted results will be achieved. Charter and New Charter will make no representation to Comcast, in the Merger Agreement or otherwise, concerning these internal financial forecasts.

Subject to the above, a summary of the forecasts regarding Projected New Charter's and GreatLand Connections anticipated future operations for fiscal years 2014 to 2019 is set forth below (in millions).

Projected New Charter:

	2014	2015	2016	2017	2018	2019
Revenue	\$ 11,424	\$ 11,984	\$ 12,843	\$ 13,927	\$ 15,067	\$ 16,309
Adjusted EBITDA	4,442	4,652	5,016	5,471	5,983	6,575
Capex	2,384	2,156	2,475	2,458	2,210	2,279

Projected GreatLand Connections:

	2014	2015	2016	2017	2018	2019
Revenue	\$ 4,625	\$ 4,809	\$ 5,050	\$ 5,378	\$ 5,728	\$ 6,043
Adjusted EBITDA	1,558	1,575	1,609	1,713	1,825	1,925

Capex	735	818	808	753	773	786
-------	-----	-----	-----	-----	-----	-----

Based on the unaudited financial statements for the nine months ended September 30, 2014 and Charter internal forecasts for the assets and businesses that would be acquired, exchanged, or divested in the Transactions, Charter currently estimates the consideration for the assets acquired and the transaction expenses to be \$7.2 billion, which is lower than previous estimates of \$8.0 billion. Previous estimates relied on consensus

Table of Contents

estimates for Time Warner Cable which are higher than Charter's current estimates for the acquired and exchanged assets, and consensus estimates for Charter which are lower than Charter's current estimates for the divested assets. Charter also currently estimates the value of its purchase of a 33% interest in GreatLand Connections will be \$1.6 billion, and Comcast-Time Warner Cable shareholders will receive an approximately 8% ownership interest in New Charter both on a common and a fully diluted basis, assuming a volume weighted average price during the 60-day period prior to closing of \$160 per share.

Ownership of New Charter Following the Mergers

Immediately after the close of the Mergers, GreatLand Connections stockholders are expected to own approximately % of the outstanding shares of New Charter Class A common stock and Charter stockholders are expected to own approximately % of the outstanding shares of New Charter Class A common stock. The proportion of New Charter Class A common stock owned by GreatLand Connections stockholders and current Charter stockholders will own at the conclusion of the Transactions may be affected by a number of factors, including the amount of debt raised in the financing transactions and any corresponding increase in the consideration paid by Charter in connection with the Charter Merger. For more information about factors resulting in the reduction of the expected equity interests of GreatLand Connections and Charter in New Charter following the Transactions, see Risk Factors Risks Related to the Transactions and The Implementing Agreements .

Board of Directors and Executive Officers of New Charter Following the Merger; Operations Following the Merger

It is currently expected that the directors and executive officers of Charter immediately prior to the Mergers will become the directors and executive officers of New Charter immediately following the effective time of the Mergers.

Following the Charter Merger, the location of the headquarters and principal executive offices of New Charter and the surviving corporation in the Charter Merger will be Charter's executive offices.

Interests of Certain Persons in the Merger

In considering the recommendation of the Charter board of directors with respect to the Share Issuance proposal, Charter stockholders should be aware that executive officers and directors of Charter have certain interests in the Mergers that may be different from, or in addition to, the interests of Charter stockholders generally. These interests include the following:

Continuing Services as Director for New Charter Board of Directors

It is currently expected that the New Charter board of directors after the Mergers will include each of the directors from the current Charter, and that the compensation to be paid to outside directors of New Charter will be substantially similar to the compensation paid to Charter directors immediately prior to the effective time of the Mergers. Following the completion of the Transactions, it is also expected that some current directors of Charter will become directors of GreatLand Connections.

Treatment of Stock-Based Awards

Under the Charter long-term incentive plans, the Mergers will not constitute a change in control for Charter. Therefore, the outstanding Charter stock options, restricted stock awards, restricted stock units and performance units will not become exercisable and/or the vesting restrictions will not lapse by virtue of the Mergers. The outstanding

Charter stock options, restricted stock awards, restricted stock units and performance units will generally be converted from a right to acquire Charter common stock into a right to acquire New Charter common stock, on substantially the same terms and conditions (including vesting schedule and per share exercise price) as applied to such Charter awards immediately prior to the effective time of the Merger.

Table of Contents

Continuing Employment with New Charter

It is currently expected that the executive officers of Charter immediately prior to the Mergers will become the executive officers of New Charter immediately following the effective time of the Mergers and will continue their employment with New Charter on substantially similar terms and conditions as those terms and conditions in existence immediately prior to the effective time of the Mergers.

Regulatory Approvals

Completion of the Mergers and the other Transactions is conditioned upon the receipt of certain governmental clearances or approvals, including, but not limited to, the expiration or termination of the waiting period relating to the GreatLand Connections Merger under the HSR Act, approval of the FCC and certain other governmental consents and approvals from state regulators and franchise authorities.

Under the HSR Act, certain transactions, including the GreatLand Connections Merger, may not be completed unless certain waiting period requirements have expired or been terminated. The HSR Act provides that each party must file a pre-merger notification with the FTC and the DOJ. A transaction notifiable under the HSR Act may not be completed until the expiration of a 30-calendar-day waiting period following the parties' filings of their respective HSR Act notification forms or the termination of that waiting period. If the DOJ issues a Request for Additional Information and Documentary Material prior to the expiration of the initial waiting period, the parties must observe a second 30-calendar-day waiting period, which would begin to run only after both parties have substantially complied with the request for additional information, unless the waiting period is terminated earlier.

Both Charter and Comcast are subject to regulation by the FCC under the Communications Act. Each company holds a number of licenses and authorizations issued by the FCC for the operation of its business. The FCC must approve the transfer of control or assignment of Comcast's licenses and authorizations to GreatLand Connections as a result of the Contribution, of Comcast's licenses and authorizations to New Charter as a result of the Exchange and Purchase, and of Charter's licenses and authorizations to Comcast as a result of the Exchange. The Mergers are also subject to the approval of certain local franchise authorities with respect to the transfer of control of franchises as a result of the Transactions. In addition, Charter, Comcast and GreatLand Connections are required to obtain approval of certain state public utility commissions with respect to the transfer of control of certificates of public convenience and necessity for telecommunications services as a result of the Transactions.

Charter, Comcast and GreatLand Connections have agreed to use their respective reasonable best efforts to obtain all regulatory approvals required to complete the Transactions, and as of the date of this proxy statement/prospectus, the parties have made all requisite filings for regulatory approval of the Transactions. Specifically, beginning in May 2014, Charter, Comcast and GreatLand Connections made a number of filings to initiate the regulatory review process, including filings under the HSR Act on May 14, 2014 and May 16, 2014 and a detailed public interest statement with the FCC on June 4, 2014.

Concurrent with the federal merger approval process, approval must also be sought from certain local and state authorities. Charter and Comcast have filed local franchise transfer requests where local approval for the Transactions is required. In addition, Charter and Comcast have sought approvals from certain state authorities where state approval of the Transactions is required with such approvals pending as of the date of this proxy statement/prospectus. A number of other states require only notice either prior to or preceding the closing date of the Transactions. Such notices shall be made pursuant to the requirements of each state. Separately, three congressional hearings have been held on the Transactions. Although no further hearings are scheduled at this time, it is possible that the parties will be asked to participate in additional legislative proceedings before the Mergers are approved.

The process for obtaining the requisite regulatory approvals for the Mergers is ongoing. The FCC has initiated a public comment period that commenced on July 10, 2014, during which other service providers, members of the public, and other interested parties may file comments in support of, or opposing, the

Table of Contents

Transactions. Charter, Comcast and GreatLand Connections will have an opportunity to respond to any public comments filed at the FCC. The FCC's review is subject to an informal 180-day clock deadline from the start of the public comment period and the FCC had previously stopped the clock pending resolution of certain procedural issues. On December 3, 2014, the FCC re-started the 180-day clock and established a December 23, 2014 deadline for reply comments. After the conclusion of the public comment period, Charter, Comcast and GreatLand Connections will continue to engage with the FCC as it reviews public comments and proceeds with its review of the merger. The DOJ's merger review process does not include a similar public comment process. Rather, the parties expect to remain in regular contact with DOJ officials to assist their review of the parties' submissions to the agency and answer questions and provide clarification regarding the Transactions. Each of Charter and Comcast has received a Request for Additional Information and Documentary Material from the DOJ, which extends the waiting period under the HSR Act until 30 days after both parties have substantially complied with the request for additional information, unless the waiting period is terminated earlier. At the state and local level, the parties will actively participate in each state's/municipality's individual review processes as appropriate, including by remaining engaged with and available to the regulatory officials overseeing the regulatory review process. On November 21, 2014, the United States Court of Appeals for the District of Columbia Circuit granted a stay in a case brought by certain content providers, which prohibited the disclosure of certain programming contracts and related information in connection with the FCC's review of the TWC Merger. We cannot predict what effect, if any, the stay will have on the FCC's review of the TWC Merger.

Charter's, Comcast's and GreatLand Connections' obligations to use reasonable best efforts to obtain all regulatory approvals required to complete the Transactions does not require Charter, Comcast or GreatLand Connections to:

divest or hold separate any businesses, assets or properties of Charter, Comcast or GreatLand Connections or any of their respective subsidiaries;

accept any conditions or take any actions that would apply to or affect any businesses, assets or properties of Charter, Comcast or GreatLand Connections or any of their respective subsidiaries;
or

litigate or participate in the litigation of any proceeding involving the FCC, the FTC or the DOJ. Notwithstanding, (A) Charter, Comcast and GreatLand Connections are required to take the actions and accept the conditions described in the second bullet above to the extent such actions and conditions are consistent in scope and magnitude with the actions and conditions (other than any condition that was subsequently suspended by the agency that imposed the condition) required or imposed by governmental authorities in connection with prior acquisitions of United States domestic cable systems consummated since February 12, 2002 with an aggregate purchase price of at least \$500 million and (B) Comcast is required to implement certain undertakings, with such modifications to the undertakings that, taken in the aggregate, are no more adverse to the businesses, assets and properties of Comcast and its subsidiaries. These requirements are described in more detail under 'The Implementing Agreements' The Merger Agreement Reasonable Best Efforts Covenant' of this proxy statement/prospectus, 'The Implementing Agreements' The Exchange Agreement Reasonable Best Efforts Covenant' of this proxy statement/prospectus and 'The Implementing Agreements' The Asset Purchase Agreement Reasonable Best Efforts Covenant' of this proxy statement/prospectus.

Listing

Charter has agreed to use its reasonable best efforts to cause the shares of New Charter Class A common stock to be issued in connection with the Mergers to be listed on NASDAQ, subject to official notice of issuance.

It is a condition to the completion of the Transactions that the shares of New Charter Class A common stock to be issued in connection with the Mergers will have been approved for listing on the NASDAQ, subject to official notice of issuance.

Table of Contents

Federal Securities Law Consequences; Resale Restrictions

New Charter Class A common stock issued pursuant to the Merger Agreement will not be subject to any restrictions on transfer arising under the Securities Act, except for shares issued to any person who may be deemed to be an affiliate of Charter for purposes of Rule 145 under the Securities Act.

Accounting Treatment

Charter prepares its financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). The Transactions will be accounted for by Charter as a business combination under the acquisition method of accounting.

Charter s investment in GreatLand Connections will be accounted for by Charter under the equity method of accounting. Charter will follow the guidance of Accounting Standards Codification Topic 323, which prescribes the use of the equity method for investments where Charter has significant influence, but does not have a controlling interest.

Under the equity method, Charter s share of the net income or loss for its investment in GreatLand Connections, including Charter s share of the depreciation and amortization of the excess of the fair value over the book value of GreatLand Connections assets and any equity investment impairments will be included in Charter s consolidated statement of operations. Charter will review its interest in GreatLand Connections for impairment if there is a series of operating losses or other factors that may indicate that there is a decrease in the value of Charter s investment that is other than temporary.

Rights of Appraisal

Charter s stockholders will not be entitled to exercise appraisal or dissenters rights under the DGCL in connection with the Spin-Off, the Mergers, the Exchange or the Purchase.

Table of Contents

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

This section describes the material United States federal income tax consequences of the Charter Merger and the GreatLand Connections Merger to U.S. holders (as defined below) of Charter Class A common stock and GreatLand Connections Class A-1 common stock who exchange shares of such stock for shares of New Charter Class A common stock pursuant to the Charter Merger or the GreatLand Connections Merger, as applicable. The following discussion is based on the Code, existing and proposed regulations thereunder and published rulings and decisions, all as currently in effect as of the date hereof, and all of which are subject to change, possibly with retroactive effect. Any such change could affect the continuing validity of this discussion.

For purposes of this discussion, a U.S. holder is a beneficial owner of Charter Class A common stock or GreatLand Connections Class A-1 common stock who for United States federal income tax purposes is:

a citizen or resident of the United States;

a corporation, or an entity treated as a corporation, created or organized in or under the laws of the United States or any state or political subdivision thereof;

a trust that (1) is subject to (A) the primary supervision of a court within the United States and (B) the authority of one or more United States persons to control all substantial decisions of the trust or (2) has a valid election in effect under applicable Treasury Regulations to be treated as a United States person; or

an estate that is subject to United States federal income tax on its income regardless of its source.

If a partnership (including for this purpose any entity or arrangement treated as a partnership for United States federal income tax purposes) holds Charter Class A common stock or GreatLand Connections Class A-1 common stock, the tax treatment of a partner generally will depend on the status of the partner and the activities of the partnership. If you are a partner of a partnership holding Charter Class A common stock or GreatLand Connections Class A-1 common stock, you should consult your tax advisor.

This discussion addresses only those stockholders that hold their Charter Class A common stock or GreatLand Connections Class A-1 common stock as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment), and does not address all the United States federal income tax consequences that may be relevant to particular stockholders in light of their individual circumstances or to stockholders that are subject to special rules, such as:

financial institutions;

investors in pass-through entities;

insurance companies;

tax-exempt organizations;

dealers in securities;

traders in securities that elect to use a mark-to-market method of accounting;

persons who exercise dissenters' rights;

persons that hold Charter Class A common stock or GreatLand Connections Class A-1 common stock as part of a straddle, hedge, constructive sale or conversion transaction;

persons that purchased or sell their shares of Charter Class A common stock or GreatLand Connections Class A-1 common stock as part of a wash sale;

certain expatriates or persons that have a functional currency other than the U.S. dollar;

persons that are not U.S. holders; and

stockholders who acquired their shares of Charter Class A common stock or GreatLand Connections Class A-1 common stock through the exercise of an employee stock option or otherwise as compensation or through a tax-qualified retirement plan.

Table of Contents

In addition, the discussion does not address any alternative minimum tax or any state, local or foreign tax consequences of the Mergers.

ALL HOLDERS OF CHARTER COMMON STOCK SHOULD CONSULT THEIR TAX ADVISORS AS TO THE SPECIFIC TAX CONSEQUENCES TO THEM OF THE MERGERS, INCLUDING THE APPLICABILITY AND EFFECT OF THE ALTERNATIVE MINIMUM TAX AND ANY STATE, LOCAL, FOREIGN AND OTHER TAX LAWS.

The parties intend for the Charter Merger and the GreatLand Connections Merger, taken together, to qualify as a transaction described in Section 351 of the Code. The obligation of Charter, New Charter, Charter Merger Sub and GreatLand Connections Merger Sub to complete the Mergers is conditioned upon the receipt of an opinion from Wachtell, Lipton, Rosen & Katz, special counsel to Charter, to the effect that the Mergers, taken together, will be treated as a transaction described in Section 351 of the Code based upon representations made by Charter, New Charter, Charter Merger Sub, GreatLand Connections Merger Sub and GreatLand Connections. The obligation of Comcast and GreatLand Connections to complete the GreatLand Connections Merger is conditioned upon Comcast's receipt of an opinion from Davis Polk & Wardwell LLP, counsel to Comcast, to the effect that the Mergers, taken together, will be treated as a transaction described in Section 351 of the Code based upon representations made by Charter, New Charter, Charter Merger Sub, GreatLand Connections Merger Sub and GreatLand Connections. Neither of these opinions is binding on the Internal Revenue Service or the courts. Charter, New Charter and GreatLand Connections have not requested any ruling from the Internal Revenue Service as to the United States federal income tax consequences of the Mergers.

The discussion below constitutes the opinion of Wachtell, Lipton, Rosen & Katz, special counsel to Charter, as to the material U.S. federal income tax consequences of the Charter Merger to U.S. holders of Charter Class A common stock and of the GreatLand Connections Merger to U.S. holders of GreatLand Connections Class A-1 common stock, in each case, subject to the limitations, exceptions, beliefs, assumptions, and qualifications described in such opinions and herein.

Accordingly, assuming the issuance of the opinions described above, in general, the U.S. federal income tax consequences of the Charter Merger to U.S. holders of Charter Class A common stock and of the GreatLand Connections Merger to U.S. holders of GreatLand Connections Class A-1 common stock are as follows:

The Charter Merger

The Charter stockholders will recognize no gain or loss on their receipt of shares of New Charter Class A common stock in exchange for shares of Charter Class A common stock;

The Charter stockholders' tax basis in the shares of New Charter Class A common stock received in the Charter Merger will be the same as their tax basis in the shares of Charter Class common stock surrendered in exchange therefor; and

The holding period of New Charter Class A common stock received in exchange for shares of Charter Class A common stock will include the holding period of the Charter Class A common stock for which it is exchanged.

The GreatLand Connections Merger

The GreatLand Connections stockholders will recognize no gain or loss on their receipt of New Charter common stock in exchange for shares of GreatLand Connections Class A-1 common stock, except for any gain or loss recognized with respect to cash received in lieu of a fractional share of New Charter common stock;

Table of Contents

the GreatLand Connections stockholders' tax basis in the shares of New Charter common stock received in the GreatLand Connections Merger, including any fractional share of New Charter common stock deemed received, will be the same as their tax basis in the shares of GreatLand Connections Class A-1 common stock exchanged therefor;

the holding period of New Charter common stock received in exchange for shares of GreatLand Connections Class A-1 common stock will include the holding period of the GreatLand Connections Class A-1 common stock for which it is exchanged; and

gain or loss will be recognized by GreatLand Connections stockholders on any cash received in lieu of a fractional share of New Charter common stock in the GreatLand Connections Merger equal to the difference between the amount of cash received in lieu of the fractional share and the stockholder's tax basis in the fractional share of New Charter common stock; such gain or loss will be long-term capital gain or loss if the stockholder's holding period for such fractional share is more than one year as of the closing date of GreatLand Connections Merger.

The preceding discussion is intended only as a summary of material United States federal income tax consequences of the Charter Merger and the GreatLand Connections Merger. It is not a complete analysis or discussion of all potential tax effects that may be important to you. Thus, you are strongly encouraged to consult your tax advisor as to the specific tax consequences resulting from the Charter Merger and the GreatLand Connections Merger, including tax return reporting requirements, the applicability and effect of federal, state, local, and other tax laws and the effect of any proposed changes in the tax laws.

Table of Contents

THE IMPLEMENTING AGREEMENTS

The following describes the material provisions of the Implementing Agreements, which are expected to be entered into in connection with the Transactions Agreement. The description in this section and elsewhere in this proxy statement/prospectus is qualified in its entirety by reference to the Transactions Agreement. This summary does not purport to be complete and may not contain all of the information about the Transactions that is important to you. New Charter encourages you to read carefully the Transactions Agreement, in its entirety before making any decisions regarding the Transactions as it is the legal document governing the Transactions.

Charter expects to enter into more detailed Implementing Agreements implementing the Transactions Agreement. However, if the Implementing Agreements are not entered into, the Transactions will be completed pursuant to the Transactions Agreement.

This summary has been included to provide you with information regarding the terms of the Implementing Agreements. Factual disclosures about Charter, New Charter, Comcast, or any of their respective subsidiaries or affiliates contained in this proxy statement/prospectus or their respective public reports filed with the SEC may supplement, update or modify the factual disclosures about Charter, New Charter, Comcast or their respective subsidiaries or affiliates contained in the Implementing Agreements and described in this summary. The representations, warranties and covenants made in the Implementing Agreements by Charter, New Charter, Comcast will be qualified and subject to important limitations agreed to by Charter, New Charter, Comcast in connection with negotiating the terms of the Implementing Agreements. In particular, in your review of this summary of representations and warranties to be contained in the Implementing Agreements and described in this summary, it is important to bear in mind that the representations and warranties are being negotiated with the principal purposes of allocating risk between the parties to the Implementing Agreements, rather than establishing matters as facts. The representations and warranties may also be subject to a contractual standard of materiality different from those generally applicable to stockholders and reports and documents filed with the SEC and in some cases will be qualified by confidential disclosures that are being made by each party to the other, which disclosures will not be reflected in the Implementing Agreements or otherwise publicly disclosed. For the foregoing reasons, these descriptions, representations, warranties and covenants should not be read alone.

Transactions Agreement

On April 25, 2014, Charter entered into a binding definitive agreement (the Transactions Agreement) with Comcast that contemplates and sets forth the principal obligations of the parties with respect to the Contribution and Spin-Off, the Charter Merger, the GreatLand Connections Merger, the Exchange, and the Purchase, as described in The Transactions above.

Pursuant to the Transactions Agreement, Comcast and Charter agreed to use reasonable best efforts to document these transactions in more detailed Implementing Agreements on the terms and conditions set forth in the Transactions Agreement. The Implementing Agreements are currently expected to include the Separation Agreement, the Merger Agreement, the Exchange Agreement, the Asset Purchase Agreement, and the Tax Matters Agreement, in addition to certain other agreements described under the heading, Additional Agreements Related to the Contribution and Spin-Off, the Mergers, the Exchange and the Purchase.

Each of the Implementing Agreements to be entered into pursuant to the Transactions Agreement, as currently contemplated, is described below.

The Merger Agreement

Prior to the effective time of the Spin-Off, New Charter will enter into a merger agreement with GreatLand Connections, Charter Merger Sub, GreatLand Connections Merger Sub, and Comcast (the Merger Agreement) to provide for, among other things, the Charter Merger and the GreatLand Connections Merger.

Table of Contents*Structure of the Merger*

Pursuant to the Merger Agreement, immediately following the effective time of the Spin-Off, New Charter will convert into a corporation. Charter Merger Sub will then merge with and into Charter with the effect that each share of Charter will be converted into one share of New Charter, and New Charter will survive as the publicly-traded parent company of Charter.

The Merger Agreement will provide that, immediately following the Charter Merger, GreatLand Connections Merger Sub will merge with and into GreatLand Connections, with GreatLand Connections surviving, which is referred to in this proxy statement/prospectus as the GreatLand Connections Merger. Pursuant to the GreatLand Connections Merger, (i) each share of GreatLand Connections Class A-1 common stock will be converted into a pro rata portion of the shares of New Charter common stock to be issued in the GreatLand Connections Merger and (ii) New Charter will receive a number of shares of GreatLand Connections Class A common stock that is equal to the number of shares of GreatLand Connections Class A-1 common stock that have been converted into shares of New Charter common stock. Because the Separation Agreement will provide that the shares of GreatLand Connections Class A-1 common stock that will be distributed in the Spin-Off will represent the New Charter GreatLand Ownership Percentage of the total number of shares of GreatLand Connections common stock, the shares of GreatLand Connections Class A common stock that will be received by New Charter in the GreatLand Connections Merger will represent the New Charter GreatLand Ownership Percentage (which is expected to be approximately 33%) of the total number of shares of GreatLand Connections Class A common stock (after giving effect to the GreatLand Connections Merger).

Fractional Shares

No fractional shares of New Charter will be issued in the GreatLand Connections Merger. All fractional shares of New Charter Common Stock that a holder of shares of GreatLand Connections Class A-1 common stock would otherwise be entitled to receive as a result of the GreatLand Connections Merger shall be aggregated and, if a fractional share results from such aggregation, such holder shall be entitled to receive, in lieu thereof, an amount in cash without interest determined based on the volume-weighted average of Charter Class A common stock in the 60 consecutive calendar days ending on the last trading day immediately prior to closing of the Transactions.

New Charter Stock Issuance and GreatLand Connections Equity Valuation

The Merger Agreement will further provide that the shares of New Charter common stock issued in the GreatLand Connections Merger will have an aggregate value equal to the New Charter GreatLand Ownership Percentage multiplied by the Aggregate GreatLand Connections Equity Valuation (the New Charter share number). Aggregate GreatLand Connections Equity Valuation means the excess of (A) 7.125 times the Carveout 2014 EBITDA (as defined in the Merger Agreement) over (B) the amount of GreatLand Connections indebtedness as of closing, plus certain other adjustments. The shares of New Charter common stock will be valued based on the volume-weighted average price of Charter Class A common stock in the 60 consecutive calendar days ending on the last trading day immediately prior to closing of the Transactions.

The Merger Agreement will contain a process for determining the Aggregate GreatLand Connections Equity Valuation. If the Aggregate GreatLand Connections Equity Valuation has not been finally determined prior to the completion of the GreatLand Connections Merger, the Aggregate GreatLand Connections Equity Valuation used to determine the number of shares of New Charter common stock issued in the GreatLand Connections Merger will be determined by Comcast in good faith in accordance with certain procedures, and there will be a post-closing adjustment between Comcast and GreatLand Connections equal to the excess of the Aggregate GreatLand Connections Equity Valuation as finally determined in accordance with certain procedures over the Aggregate

GreatLand Connections Equity Valuation used to determine the number of shares of New Charter common stock issued in the GreatLand Connections Merger. If the post-closing adjustment is a positive number,

Table of Contents

GreatLand Connections will pay the amount of the post-closing adjustment to Comcast in cash. If the post-closing adjustment is a negative number, Comcast will pay the absolute value of the amount of the post-closing adjustment to GreatLand Connections in cash.

Conditions to the Charter Merger and the GreatLand Connections Merger

The obligations of the parties to the Merger Agreement to consummate the Charter Merger and the GreatLand Connections Merger will be subject to a number of conditions, including:

the consummation of the merger between Comcast and Time Warner Cable;

the consummation of the Spin-Off;

expiration or termination of the HSR Act waiting period and the receipt of a number of regulatory approvals, including approval of the FCC, approval from all required public utility commissions and approval of certain franchise authorities, in most cases without the imposition of a burdensome condition;

the absence of injunctions or certain legal impediments;

unless not required under applicable law, the approval by Charter's stockholders of the issuance of New Charter common stock in the GreatLand Connections Merger;

the effectiveness of the registration statement into which this proxy statement/prospectus is incorporated and the approval of the listing of the New Charter common stock on the NASDAQ Global Select Market;

the effectiveness of the registration statement filed by GreatLand Connections to register the GreatLand Connections Class A Common Stock that will be issued in the Spin-Off and the GreatLand Connections Merger and the approval of the listing of the GreatLand Connections Class A Common Stock on the NASDAQ Global Select Market;

completion of the debt-for-debt exchange; and

subject to certain exceptions, the satisfaction or waiver of the conditions to the obligations of the parties in the Separation Agreement, the Exchange Agreement and the Asset Purchase Agreement.

The obligations of Charter, New Charter, Charter Merger Sub and GreatLand Connections Merger Sub to consummate the Charter Merger and the GreatLand Connections Merger will be further subject to (i) the accuracy of representations and warranties and the performance of covenants made by Comcast and GreatLand Connections in the Merger Agreement and the Separation Agreement, subject to applicable materiality thresholds, (ii) Charter's receipt of

an opinion of tax counsel regarding the tax-free nature of the transactions, and (iii) since April 25, 2014,, there not having occurred and being continuing any event, occurrence, development or state of circumstances or facts which, individually or in the aggregate, has had or would reasonably be expected to have, a material adverse effect on GreatLand Connections' assets and liabilities and the other assets and liabilities of Comcast to be transferred to Charter in the Transactions, taken as a whole.

GreatLand Connections and Comcast's obligations to consummate the GreatLand Connections Merger will be further subject to, among other things, (i) the accuracy of representations and warranties and the performance of covenants made by Charter, New Charter, Charter Merger Sub and GreatLand Connections Merger Sub in the Merger Agreement, subject to applicable materiality thresholds, (ii) Comcast's receipt of an opinion of tax counsel regarding the tax-free nature of the transactions and (iii) since April 25, 2014, there not having occurred and being continuing any event, occurrence, development or state of circumstances or facts which, individually or in the aggregate, has had or would reasonably be expected to have, a material adverse effect on Charter.

Table of Contents

Representations and Warranties

The Merger Agreement will include certain representations and warranties made by Charter to GreatLand Connections, including the following:

Corporate existence and qualification to do business;

Corporate power and authority to execute the Merger Agreement and the other Implementing Agreements;

Governmental authorizations to enter into the Merger Agreement and the other Implementing Agreements;

Absence of any conflict with or breach of organizational documents, laws or regulations or agreements as a result of the execution, delivery or performance of the Merger Agreement and the other Implementing Agreements;

Compliance with SEC filing requirements, accuracy of information filed with the SEC, and compliance with the Sarbanes-Oxley Act;

No action that would be reasonably likely to prevent the Charter Merger and the GreatLand Connections Merger, taken together, from qualifying under Section 351 of the Code;

No agreements with respect to an acquisition of GreatLand Connections; and

Other than certain financial advisors, no investment banker, broker or other intermediary is entitled to any fee or commission from Charter.

Termination

The Merger Agreement may be terminated prior to completion of the transactions:

by Charter, Comcast or GreatLand Connections upon termination of the TWC Merger Agreement;

by mutual written agreement of Charter, Comcast and GreatLand Connections;

by Charter, Comcast or GreatLand Connections:

if there shall be final and nonappealable injunctions or certain legal impediments;

unless such stockholder approval is not required under applicable law, if, at the Charter stockholder meeting, Charter stockholders fail to approve the issuance of New Charter common stock in the GreatLand Connections Merger;

if the Charter Merger and the GreatLand Connections Merger have not been completed by (i) if all necessary regulatory approvals for the Transactions are received on or before the completion of the TWC Merger, then the date that is 60 days after completion of the TWC Merger (or, if on such 60th day the debt tender offer has commenced, then the date that is 90 days after completion of the TWC Merger) or (ii) if all necessary regulatory approvals for the Transactions are not received on or before the completion of the TWC Merger, then the date that is 150 days after completion of the TWC Merger (or, if by the 75th day after completion of the TWC Merger, all necessary regulatory approvals are received other than approvals from local franchise authorities and public utility commission, then the date that is 240 days after completion of the TWC Merger);

by Charter, if there is a material breach by Comcast or GreatLand Connections of the Merger Agreement or the Separation Agreement, subject to certain cure periods;

by Comcast or GreatLand Connections, if there is a material breach by Charter, New Charter, Charter Merger Sub or GreatLand Connections Merger Sub of the Merger Agreement, subject to certain cure periods;

Table of Contents

by Comcast or GreatLand Connections, if the Charter board of directors changes its recommendation that Charter stockholders approve the issuance of New Charter common stock in the GreatLand Connections Merger;

by Comcast, Charter or GreatLand Connections if the amount of notes tendered in the debt tender offer is less than the amount necessary for GreatLand Connections to reach a Resulting GreatLand Connections Leverage (as defined in the Separation Agreement) of 2.5 times; and

automatically upon termination of the Asset Purchase Agreement or the Exchange Agreement, other than in certain specified circumstances.

Reasonable Best Efforts Covenant

Pursuant to the Merger Agreement, each of the parties to the Merger Agreement will agree to use reasonable best efforts to take, or cause to be taken, all actions, and to do, or cause to be done, all things necessary proper or advisable under applicable law to consummate and make effective the Charter Merger and the GreatLand Connections Merger, subject to certain specified exceptions. In particular, subject to certain specified exceptions, neither New Charter, Comcast or Charter will be required to (i) divest or otherwise hold separate any businesses, assets or properties, (ii) accept any conditions or take any actions that would apply to, or affect, any businesses, assets or properties of New Charter, Comcast or Charter that are not consistent with conditions imposed by governmental authorities in prior acquisitions of U.S. cable systems since February 12, 2002 with an aggregate purchase price of at least \$500 million (clauses (i) and (ii), subject to certain specified exceptions, are referred to as a burdensome condition) or (iii) litigate or participate in the litigation of any proceeding involving certain regulatory authorities.

Other Covenants of Charter

The Merger Agreement will contain certain covenants which, among other things, will prohibit Charter from taking certain specified actions. Pursuant to the Merger Agreement, Charter will not, during the 100-calendar-day period ending on closing: (i) split, combine or otherwise reclassify the shares of Charter Class A Common Stock; (ii) declare, set aside or make any dividend or other distribution to its stockholders (whether cash or stock); (iii) engage in a reclassification, reorganization, recapitalization or exchange or other like change, or redeem, repurchase or otherwise acquire any shares of Charter Class A Common Stock, other than redemptions pursuant to the exercise of, or the withholding of taxes in connection with, any compensatory equity awards or the net-issuance exercise of any currently-outstanding warrants; or (iv) publicly announce any intention to do any of the foregoing. In addition, Charter will agree that it shall take all action necessary to cause GreatLand Connections Merger Sub, Charter Merger Sub and, prior to the Closing, New Charter to perform their respective obligations under the Merger Agreement and, as applicable, to consummate the GreatLand Connections Merger and the Charter Merger. Charter will also agree that it shall use its reasonable best efforts to cause the shares of New Charter Common Stock to be issued as part of the merger consideration to be listed on NASDAQ.

Charter Shareholder Meeting

Pursuant to the Merger Agreement, Charter will agree to hold a meeting of Charter's stockholders to approve the issuance of New Charter common stock in the GreatLand Connections Merger and the Charter board of directors will agree to recommend that Charter stockholders grant such approval, subject to the right of the Charter board of directors to withdraw that recommendation if it determines in good faith that failure to take such action would be inconsistent with its fiduciary duties under applicable law.

Indemnification

Pursuant to the Merger Agreement, (i) Comcast will agree to indemnify us and GreatLand Connections for certain liabilities arising from (A) filings made by Comcast with the SEC in connection with the Transactions or

Table of Contents

the TWC merger and (B) certain information provided by Comcast for inclusion in the registration statement into which this proxy statement/prospectus is incorporated, in other filings made by us with the SEC in connection with the Transactions or in the registration statement filed by GreatLand Connections in connection with the Transactions and (ii) we will agree to indemnify Comcast and GreatLand Connections for certain liabilities arising from (A) the registration statement into which this proxy statement/prospectus is incorporated and other filings made by us with the SEC in connection with the Transactions and (B) certain information provided by us for inclusion in the registration statement filed by GreatLand Connections in connection with the Transactions or in filings made by Comcast with the SEC in connection with the Transactions.

The terms of the Merger Agreement have not yet been finalized; changes, some of which may be material, may be made to the terms of the Merger Agreement before it is finalized, including to the terms described above.

The Separation Agreement

Prior to the effective time of the Spin-Off, GreatLand Connections and Comcast will enter into a contribution, separation and spin-off agreement (the Separation Agreement) to provide for, among other things, the principal corporate transactions required to effect the Spin-Off, the conditions to the Spin-Off and certain provisions governing the relationship between GreatLand Connections and Comcast following the Spin-Off.

The Separation Agreement will provide that, effective as of the effective time of the Spin-Off, Comcast will transfer or cause to be transferred to GreatLand Connections all of Comcast's and its subsidiaries' right, title and interest in the GreatLand Connections systems, together with the related subscribers, the assets primarily related to the GreatLand Connections systems (other than certain specified assets) and certain other specified assets (the GreatLand Connections Assets). In addition, effective as of the effective time of the Spin-Off, GreatLand Connections will assume all liabilities of Comcast and its subsidiaries primarily relating to the GreatLand Connections systems (other than certain specified liabilities) and certain other specified liabilities (the GreatLand Connections Liabilities). All other assets and liabilities of Comcast and its subsidiaries will be retained by Comcast.

Pursuant to the Separation Agreement, GreatLand Connections and Comcast will agree to use reasonable best efforts to take, or cause to be taken, all actions, and to do, or cause to be done, all things necessary proper or advisable under applicable law to consummate and make effective the Spin-Off, subject to certain specified exceptions. In particular, subject to certain specified exceptions, neither GreatLand Connections nor Comcast will be required to (i) divest or otherwise hold separate any businesses, assets or properties, (ii) accept any conditions or take any actions that would apply to, or affect, any businesses, assets or properties of GreatLand Connections or Comcast that are not consistent with conditions imposed by governmental authorities in prior acquisitions of U.S. cable systems since February 12, 2002 with an aggregate purchase price of at least \$500 million (clauses (i) and (ii), subject to certain specified exceptions, are referred to as a burdensome condition); provided, however, that any condition that is imposed on and accepted by Comcast to obtain regulatory approval for the TWC Merger (except for any condition that relates solely to the assets and liabilities transferred in the Transactions and for which there is no substantially similar condition that relates to other assets and liabilities of Comcast) may not be invoked as a burdensome condition or (iii) litigate or participate in the litigation of any proceeding involving certain regulatory authorities.

The Separation Agreement will also provide that GreatLand Connections will use reasonable best efforts to cause GreatLand Connections to incur new indebtedness in an aggregate amount equal to 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections' financing sources for purposes of the financing). The indebtedness will consist of (i) credit facilities or new issuance of notes to be used to fund cash distributions to Comcast and for GreatLand Connections' general corporate purposes, and (ii) notes newly issued by GreatLand Connections to Comcast, which notes will be used to enable

Table of Contents

Comcast to complete a debt-for-debt exchange whereby one or more financial institutions are expected to conduct a third-party tender offer for certain of Comcast's publicly-traded debt securities, which is referred to as the debt tender offer, and will then exchange the tendered debt securities of Comcast for GreatLand Connections' new notes held by Comcast in the debt-for-debt exchange.

The obligations of Comcast to consummate the Spin-Off will be subject to a number of conditions, including:

the consummation of the merger between Comcast and TWC;

expiration or termination of the HSR Act waiting period and the receipt of a number of regulatory approvals, including approval of the FCC, approval from all required public utility commissions and approval of certain franchise authorities, in most cases without the imposition of a burdensome condition;

the absence of injunctions or certain legal impediments;

the effectiveness of the registration statement filed by GreatLand Connections to register the GreatLand Connections common stock that will be issued in the Spin-Off and the GreatLand Connections Merger and the approval of the listing of the shares of its Class A common stock on the NASDAQ Global Select Market;

the completion of the debt-for-debt exchange; and

subject to certain exceptions, the satisfaction or waiver of the conditions to the obligations of the parties in the Merger Agreement, the Exchange Agreement and the Asset Purchase Agreement.

Comcast's obligation to consummate the Spin-Off will be further subject to, among other things, Comcast's receipt of an opinion of tax counsel regarding the tax-free nature of the transactions.

The Separation Agreement will require that, following the satisfaction of certain conditions to the consummation of the Spin-Off and completion of the debt tender offer, the board of directors of Comcast will establish the record date and the effective date of the Spin-Off. The Separation Agreement will also provide that, prior to the effective time of the Spin-Off, GreatLand Connections and Comcast will take all action necessary to issue to Comcast the shares of GreatLand Connections common stock that will be distributed in the Spin-Off, with the percentage of shares of GreatLand Connections common stock that are shares of GreatLand Connections Class A-1 common stock representing the New Charter GreatLand Ownership Percentage (which is expected to be approximately 33%). New Charter GreatLand Ownership Percentage means the maximum number of shares of GreatLand Connections Class A common stock that New Charter can acquire in the GreatLand Connections Merger such that historic Comcast shareholders (not including former Time Warner Cable stockholders) hold at least 50.75% of GreatLand Connections outstanding shares of Class A common stock following the completion of the GreatLand Connections Merger, expressed as a percentage of the total number of shares of GreatLand Connections Class A common stock. The Separation Agreement will also provide that, at the effective time of the Spin-Off, Comcast will distribute all of the shares of GreatLand Connections Class A common stock and Class A-1 common stock pro rata to holders of Comcast common stock.

The Separation Agreement will include customary representations of Comcast relating to, among other matters, GreatLand Connections business. In addition, pursuant to the Separation Agreement, and subject to certain specified exceptions, Comcast will agree to operate GreatLand Connections business prior to the effective time of the Spin-Off in the ordinary course consistent with past practice and not to permit GreatLand Connections to take certain specified actions. The Separation Agreement will also contain other covenants addressing, among other matters, insurance matters, access to information, litigation cooperation and confidentiality obligations. In addition, the Separation Agreement will provide that, from the effective date of the Spin-Off until the eighth anniversary of that date, subject to certain specified exceptions, Comcast will not, directly or indirectly, make any acquisition after which Comcast would own in excess of 1% of the then-outstanding shares of GreatLand Connections capital stock.

Table of Contents

The Separation Agreement will provide that, following the effective time of the Spin-Off, GreatLand Connections will indemnify Comcast for any losses arising out of liabilities that GreatLand Connections has assumed pursuant to the Separation Agreement or out of GreatLand Connections' breach of any of GreatLand Connections' covenants in the Separation Agreement. The Separation Agreement will also provide that, following the effective time of the Spin-Off, Comcast will indemnify GreatLand Connections for any losses arising out of liabilities retained by Comcast pursuant to the Separation Agreement, out of Comcast's breach of any of its covenants in the Separation Agreement or, subject to certain limitations (including time limits for claims to be made and a deductible and cap on indemnification amounts), out of Comcast's breach of any of its representations in the Separation Agreement.

The Separation Agreement will terminate automatically upon termination of the Merger Agreement. If the Separation Agreement terminates prior to the effective time of the Spin-Off, the Spin-Off will not be effected.

The terms of the Separation Agreement have not yet been finalized; changes, some of which may be material, may be made to the terms of the Separation Agreement before it is finalized, including to the terms described above.

GreatLand Connections Financing

Pursuant to the Separation Agreement, GreatLand Connections (directly and through its subsidiaries) is expected to incur new indebtedness in an amount equal to 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections' financing sources for purposes of the financing). The indebtedness will consist of (i) credit facilities or new issuance of notes to be used to fund cash distributions to Comcast and for general corporate purposes and (ii) notes newly issued by GreatLand Connections to Comcast, which are expected to then be exchanged for outstanding Comcast notes in the debt-for-debt exchange. Third-party financial institutions, which we refer to as the financing parties, are expected to conduct a debt tender offer for certain outstanding Comcast notes (such notes to be jointly determined by Comcast and Charter, subject to reasonable liability management decisions by Comcast), which we refer to as the debt tender, promptly following the satisfaction of all closing conditions to the Transactions (other than completion of the debt-for-debt exchange and conditions that by their nature cannot be satisfied until the closing).

In connection with the debt tender, within a reasonable period of time, but in no event more than 10 days, prior to the anticipated launch of the debt tender, Comcast and Charter, will, after consultation with their respective financial advisors, mutually estimate the following:

the **Clearing Tender Price**, which means the lowest aggregate tender price, taking into account other tender expenses, as defined in Annex A to the Separation Agreement, that would be required to achieve a GreatLand Connections leverage ratio, which we refer to as the resulting GreatLand Connections leverage, of 5.0 times 2014 EBITDA of the GreatLand Connections systems, where such leverage ratio is calculated as the ratio of (i) the sum of (x) the principal amount of new GreatLand Connections debt to be exchanged in the debt-for-debt exchange for the Comcast notes to be acquired in the debt tender and (y) the estimated principal amount of term loans described in the section entitled **Debt Financing**, to (ii) 2014 EBITDA of the GreatLand Connections systems;

the **Maximum Tender Price**, which means the aggregate tender price that would result in the tender expenses, as defined in Annex A to the Separation Agreement, being equal to a tender expenses cap as mutually agreed upon by Comcast and Charter; and

the Leverage-Limited Tender Price , which means the lowest aggregate tender price that would result in an amount of bonds acquired in the debt-for-debt exchange with a value (taking into account certain GreatLand Connections financing expenses) equal to the aggregate principal amount of not less than 8-year unsecured securities and not less than 10-year secured securities of GreatLand Connections that could be sold in the market.

Table of Contents

Comcast and Charter will also estimate the achievable GreatLand Connections leverage, which shall be the resulting GreatLand Connections leverage based on an aggregate tender price equal to the lowest of the Clearing Tender Price, Maximum Tender Price and Leverage-Limited Tender Price. At the launch of the debt tender, the tender price will be equal to the lesser of the estimated Clearing Tender Price and the estimated Maximum Tender Price, and the amount of Comcast notes sought in the debt tender will equal the amount of notes required to reach the achievable GreatLand Connections leverage. If the achievable GreatLand Connections leverage is less than 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections financing sources for purposes of the financing), either Comcast or Charter may fund additional tender premium at its own expense to increase the achievable GreatLand Connections leverage (up to the lesser of 5.0 times and the maximum resulting GreatLand Connections leverage based on the securities of GreatLand Connections that could be sold in the market). The debt tender will have an initial early bird deadline of ten business days. If the debt tender is fully subscribed or oversubscribed at such time, the debt tender will be closed without any extension or repricing. In the event the debt tender is undersubscribed at the early bird tender deadline, then if the tender price was less than the lesser of the estimated Maximum Tender Price and the estimated Leverage-Limited Tender Price, Comcast and Charter, together with their advisors, will produce new price estimates and the debt tender will be extended for another ten business days, with an increased tender price to the lesser of the new estimate of the Clearing Tender Price, Maximum Tender Price and Leverage-Limited Tender Price. If the debt tender is undersubscribed at the early bird tender deadline and the tender price was equal to the Maximum Tender Price, or the new estimate of the Clearing Tender Price exceeds the Maximum Tender Price, then either Comcast or Charter may fund additional tender premium at its own expense to increase the achievable GreatLand Connections leverage (up to the lesser of 5.0 times and the maximum resulting GreatLand Connections leverage based on the securities of GreatLand Connections that could be sold in the market). Pursuant to the terms of Annex A to the Separation Agreement, the debt tender may not be extended in this manner more than two times. Upon the expiration of the debt tender, including any extensions thereto as provided in the preceding two sentences, the debt tender will be closed, provided the resulting GreatLand Connections leverage is equal to at least 2.5 times. If the resulting GreatLand Connections leverage is less than 2.5 times, the Transactions will be terminated and the debt tender will not be closed.

Subsequent to the settlement of the debt tender, the financing parties will hold the tendered Comcast notes for at least 14 calendar days. On the fifth day following the settlement of the debt tender, new GreatLand Connections notes will be priced in the market on a best efforts basis, with the principal amount of such notes expected to equal to the value of the Comcast notes tendered in the debt tender (with the value of such notes determined by the price at which such Comcast notes are to be purchased from the financing sources plus certain GreatLand Connections financing expenses pursuant to a separate exchange agreement for the notes to be entered into by Comcast and the financing parties). No earlier than the fourteenth day following the settlement of the debt tender, the priced GreatLand Connections notes will be issued and the debt-for-debt exchange will be settled.

If after these financing transactions, the resulting GreatLand Connections leverage remains less than 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections financing sources for purposes of the financing), Charter and Comcast may agree that GreatLand Connections shall take further steps, including borrowing additional funds and distributing proceeds to Comcast or Comcast shareholders, distributing debt securities to Comcast shareholders, or distributing excess cash to Comcast to increase GreatLand Connections leverage, but in each case, in a manner that would not cause the resulting GreatLand Connections leverage to exceed 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections financing sources for purposes of the financing). If the resulting GreatLand Connections leverage still remains less than 5.0 times the 2014 EBITDA of the GreatLand Connections systems (as such term is defined by GreatLand Connections financing sources for purposes of the financing), then pursuant to the Merger Agreement, the New Charter share number, and thus the number of shares issued as merger consideration by Charter, will increase.

Table of Contents

The Exchange Agreement

Charter, Comcast and certain affiliates of Comcast and Charter will enter into an Exchange Agreement (the Exchange Agreement) to provide for, among other things, the Exchange.

Structure of the Exchange

Pursuant to the Exchange Agreement, at the closing, Comcast will transfer or cause to be transferred to us all of Comcast's and its subsidiaries' right, title and interest in the systems currently owned by Time Warner Cable in certain franchise areas (such systems collectively, the Comcast Exchanged Systems), together with the related subscribers, the assets primarily related to such systems (other than certain specified assets) and certain other specified assets, and the liabilities primarily relating to such systems (other than certain specified liabilities) and certain other specified liabilities, in exchange for us transferring or causing to be transferred to Comcast all of our and our subsidiaries' right, title and interest in the systems currently owned by us in certain franchise areas (such systems collectively, the Charter Exchanged Systems), together with the related subscribers, the assets primarily related to such systems (other than certain specified assets) and certain other specified assets, and the liabilities primarily relating to such systems (other than certain specified liabilities) and certain other specified liabilities. We refer to the assets and liabilities transferred by Comcast in the Exchange as the Comcast Exchanged Assets and the Comcast Exchanged Liabilities, respectively, and the assets and liabilities transferred by Charter in the Exchange as the Charter Exchanged Assets and the Charter Exchanged Liabilities, respectively.

Like-Kind Exchange

The Exchange is intended to qualify as an exchange of property to which Section 1031 of the Code applies. For the avoidance of doubt, the like-kind exchange shall be done on a debt-free basis, with all systems delivered with normalized working capital at closing, and a cash equalization payment shall be made to the extent of any difference in the Carveout 2014 EBITDA (as defined in the Exchange Agreement) of the systems on each side of the exchange (including any local news networks included in such systems) multiplied by 7.125. Unless the Carveout 2014 EBITDA of the Comcast Exchanged Systems and the Charter Exchanged Systems is finally determined prior to the closing, following the closing, there shall be true ups between Comcast and Charter with respect to the Comcast Exchanged Systems and the Charter Exchanged Systems, based on the product of (a) 2014 EBITDA of the Comcast Exchanged Systems or the Charter Exchanged Systems, as applicable, multiplied by (b) 7.125. In addition, there will be true ups based on any net working capital variance in respect of either the Comcast Exchanged Systems or the Charter Exchanged Systems (based on an agreed amount of normalized target working capital in each case). The true ups will be subject to certain dispute resolution procedures. The Exchange will be effected through one or more qualified intermediaries engaged by the parties to effectuate a like-kind exchange under Section 1031 of the Code.

Conditions to the Exchange

The obligations of Comcast and Charter to consummate the Exchange will be subject to a number of conditions, including:

the consummation of the merger between Comcast and Time Warner Cable;

expiration or termination of the HSR waiting period and the receipt of a number of regulatory approvals, including approval of the FCC, approval from all required public utility commissions and approval of certain franchise authorities, in most cases without the imposition of a burdensome condition;

the absence of injunctions or certain legal impediments;

the satisfaction or waiver of the conditions to the obligations of the parties in the Separation Agreement, the Merger Agreement and the Asset Purchase Agreement; and

Table of Contents

the absence of a change in law that would cause the Exchange to not be treated as a tax-free exchange of property under Section 1031 of the Code.

Comcast's obligation to consummate the Exchange will be further subject to, among other things, (i) Comcast's receipt of an opinion of tax counsel regarding the tax-free nature of certain of the Transactions, and (ii) the absence of a material adverse effect with respect to the Charter Exchanged Assets and the Charter Exchanged Liabilities. Charter's obligation to consummate the Exchange will be further subject to, among other things, (i) the accuracy of representations and warranties and the performance of covenants made by Comcast in the Exchange Agreement, subject to applicable materiality thresholds, and (ii) the absence of a material adverse effect with respect to the GreatLand Connections Assets, GreatLand Connections Liabilities, the Comcast Exchanged Assets, the Comcast Exchanged Liabilities, the Purchased Assets and the Purchased Liabilities, taken as a whole.

Representations and Warranties; Covenants

The Exchange Agreement will include representations of Comcast and Charter relating to, among other matters, the Comcast Exchanged Assets and the Charter Exchanged Liabilities. In addition, pursuant to the Exchange Agreement, and subject to certain specified exceptions, Comcast and Charter will agree to operate the Comcast Exchanged Assets and Charter Exchanged Assets prior to the closing in the ordinary course consistent with past practice. The Exchange Agreement will also contain other covenants addressing, among other matters, insurance matters, access to information, litigation cooperation and confidentiality obligations. Each of Comcast and Charter will also agree to use reasonable best efforts to cause the Transactions to qualify for the intended tax treatment and to use its good faiths efforts to obtain the tax opinions, including giving customary representation letters.

Reasonable Best Efforts Covenant

Pursuant to the Exchange Agreement, Comcast and Charter will agree to use reasonable best efforts to take, or cause to be taken, all actions, and to do, or cause to be done, all things necessary proper or advisable under applicable law to consummate and make effective the Exchange, subject to certain specified exceptions. In particular, subject to certain specified exceptions, neither Comcast or Charter will be required to (i) divest or otherwise hold separate any businesses, assets or properties, (ii) accept any conditions or take any actions that would apply to, or affect, any businesses, assets or properties of Comcast or Charter that are not consistent with conditions imposed by governmental authorities in prior acquisitions of U.S. cable systems since February 12, 2002 with an aggregate purchase price of at least \$500 million (clauses (i) and (ii), subject to certain specified exceptions, are referred to as a burdensome condition) or (iii) litigate or participate in the litigation of any proceeding involving certain regulatory authorities.

Indemnification

The Exchange Agreement will provide that, following the closing, Comcast will indemnify Charter for (i) liabilities not included in the Comcast Exchanged Liabilities; (ii) the Charter Exchanged Liabilities, and Charter will indemnify Comcast for (i) liabilities not included in the Charter Exchanged Liabilities and (ii) the Comcast Exchanged Liabilities. The Exchange Agreement will also provide that, after the closing, Comcast and Charter will indemnify the other party for losses arising from the breach of any of its covenants in the Exchange Agreement or, subject to certain limitations (including time limits for claims to be made and a deductible and cap on indemnification amounts), out of such party's breach of any of its representations in the Exchange Agreement.

The terms of the Exchange Agreement have not yet been finalized; changes, some of which may be material, may be made to the terms of the Exchange Agreement before it is finalized, including to the terms described above.

Table of Contents

The Asset Purchase Agreement

Charter, Comcast and certain affiliates of Comcast and Charter will enter into an Asset Purchase Agreement (the Purchase Agreement), as more fully described below, to provide for, among other things, the Purchase.

Structure of the Purchase

Pursuant to the Asset Purchase Agreement, at the closing, Comcast will transfer or cause to be transferred to us all of Comcast's and its subsidiaries' right, title and interest in the systems currently owned by Time Warner Cable in certain franchise areas (such systems collectively, the Purchased Systems), together with the related subscribers, the assets primarily related to such systems (other than certain specified assets) and certain other specified assets, the liabilities primarily relating to such systems (other than certain specified liabilities) and certain other specified liabilities. We refer to the assets and liabilities transferred by Comcast in the Purchase as the Purchased Assets and the Purchased Liabilities, respectively.

Consideration for the Purchase

The allocation of consideration payable pursuant to the Asset Purchase Agreement will be determined pursuant to a third party valuation performed by an independent appraisal firm selected by Comcast and which is reasonably acceptable to Charter, provided that Comcast shall not be required to take any position on a tax return consistent with such allocation if Comcast in good faith believes such position would be inconsistent with any other position taken by Comcast on a tax return.

Charter will pay Comcast consideration in cash equal to the sum of (1) the product of (x) the 2014 EBITDA (as defined in the Asset Purchase Agreement) of the Purchased Systems (including any local new networks included in the Purchased Assets) multiplied by (y) 7.125 and (2) the fair market value of any investments and businesses included in the Purchased Assets (other than any local news networks). Unless the 2014 EBITDA of the Purchased Systems is finally determined prior to the closing, following the closing, there will be a true up between Comcast and Charter based on the product of (a) the 2014 EBITDA of the Purchased Systems multiplied by (b) 7.125. In addition, there will be a true up based on any net working capital variance (based on an agreed amount of normalized target working capital). The true ups will be subject to certain dispute resolution procedures.

In addition, for the first eight taxable years following the closing, Charter will pay Comcast the amount of the Tax Benefit (as defined below) in such taxable year. Upon filing its tax return for the eighth taxable year following the closing, the present value, using a discount rate of 10%, of the Tax Benefit for each subsequent taxable year (until the year in which the Tax Benefit equals zero) applying an agreed valuation assumption. The Tax Benefit is equal to the reduction in liability for federal and state income taxes of Charter resulting from the amortization and depreciation deductions, or during such eight year period, reduction in taxable gain, attributable to the Basis Step Up. The Basis Step Up is the amount of gain recognized by Comcast in the Purchase, increased by the amounts paid pursuant to the step-up payments made during the first eight taxable years and the additional step up amount paid in the eighth taxable year following the closing.

Conditions to the Purchase

The obligations of Comcast and Charter to consummate the Purchase will be subject to a number of conditions, including:

the consummation of the merger between Comcast and Time Warner Cable;

the receipt of a number of regulatory approvals, including approval of the FCC, approval from all required public utility commissions and approval of certain franchise authorities, in most cases without the imposition of a burdensome condition;

Table of Contents

the absence of an injunction or legal impediment; and

subject to certain exceptions, the satisfaction or waiver of the conditions to the obligations of the parties in the Separation Agreement, the Merger Agreement and the Exchange Agreement.

Comcast's obligation to consummate the Purchase will be further subject to, among other things, (i) Comcast's receipt of an opinion of tax counsel regarding the tax-free nature of certain of the Transactions, and (ii) the accuracy of representations and warranties and the performance of covenants made by Charter in the Asset Purchase Agreement, subject to applicable materiality thresholds. Charter's obligation to consummate the Purchase will be further subject to, among other things, (i) the accuracy of representations and warranties and the performance of covenants made by Comcast in the Asset Purchase Agreement, subject to applicable materiality thresholds, and (ii) the absence of a material adverse effect with respect to the GreatLand Connections Assets, the GreatLand Connections Liabilities, the Comcast Exchanged Assets, the Comcast Exchanged Liabilities, the Purchased Assets and the Purchased Liabilities, taken as a whole.

Representations and Warranties; Covenants

The Asset Purchase Agreement will include representations of Comcast relating to, among other matters, the Purchased Assets, and representations of Charter. In addition, pursuant to the Asset Purchase Agreement, and subject to certain specified exceptions, Comcast will agree to operate the Purchased Assets prior to the closing in the ordinary course consistent with past practice. The Asset Purchase Agreement will also contain other covenants addressing, among other matters, insurance matters, access to information, litigation cooperation and confidentiality obligations.

Reasonable Best Efforts Covenant

Pursuant to the Asset Purchase Agreement, Comcast and Charter will agree to use reasonable best efforts to take, or cause to be taken, all actions, and to do, or cause to be done, all things necessary proper or advisable under applicable law to consummate and make effective the Purchase, subject to certain specified exceptions. In particular, subject to certain specified exceptions, neither Comcast or Charter will be required to (i) divest or otherwise hold separate any businesses, assets or properties, (ii) accept any conditions or take any actions that would apply to, or affect, any businesses, assets or properties of Comcast or Charter that are not consistent with conditions imposed by governmental authorities in prior acquisitions of U.S. cable systems since February 12, 2002 with an aggregate purchase price of at least \$500 million (clauses (i) and (ii), subject to certain specified exceptions, are referred to as a "burdensome condition") or (iii) litigate or participate in the litigation of any proceeding involving certain regulatory authorities.

Indemnification

The Asset Purchase Agreement will provide that, following the closing, Comcast will indemnify Charter for liabilities not included in the Purchased Liabilities and Charter will indemnify Comcast for the Purchased Liabilities. The Asset Purchase Agreement will also provide that, after the closing, Comcast and Charter will indemnify the other party for losses arising from the breach of any of its covenants in the Asset Purchase Agreement or, subject to certain limitations (including time limits for claims to be made and a deductible and cap on indemnification amounts), out of such party's breach of any of its representations in the Asset Purchase Agreement.

The terms of the Asset Purchase Agreement have not yet been finalized; changes, some of which may be material, may be made to the terms of the Asset Purchase Agreement before it is finalized, including to the terms described above.

Table of Contents

The Stockholder Agreement

Prior to the effective time of the GreatLand Connections Merger, New Charter will enter into a stockholder agreement with GreatLand Connections (the "Stockholder Agreement") that will set forth certain agreements with GreatLand Connections relating to New Charter's relationship with GreatLand Connections and its subsidiaries following the transactions.

The Stockholder Agreement will include certain provisions relating to GreatLand Connections' governance, including an agreement that GreatLand Connections' board of directors will be comprised of nine directors, divided into three classes of three directors each. The Stockholder Agreement will further provide that, subject to certain exceptions (including where applicable law or the NASDAQ listing rules require such committee to be otherwise comprised), each committee appointed by GreatLand Connections' board of directors will consist of three directors of the same class.

The Stockholder Agreement will also provide New Charter with certain preemptive rights. In particular, beginning on the second anniversary of the completion of the transactions, in the event that GreatLand Connections proposes to issue or sell equity securities (other than pursuant to a compensation program or equity plan that meets certain conditions), the Stockholder Agreement will grant New Charter preemptive rights to purchase from GreatLand Connections the number of equity securities necessary to maintain its percentage ownership. The preemptive rights will terminate when New Charter and its subsidiaries cease to own at least 5% of GreatLand Connections outstanding capital stock.

The Stockholder Agreement will also provide that New Charter and its controlled affiliates will not enter into any transaction with GreatLand Connections, other than (i) transactions pursuant to agreements entered into concurrently with the completion of the transactions, (ii) transactions that have been approved by a majority of GreatLand Connections' independent directors and (iii) transactions on arms-length terms involving aggregate consideration of \$10,000,000 or less. In addition, the Stockholder Agreement will provide that, from the second anniversary of the completion of the transactions until the fourth anniversary of the completion of the transactions, New Charter and its controlled affiliates will not acquire beneficial ownership in excess of 49% of GreatLand Connections then-outstanding shares, other than in a transaction that is approved by a majority of GreatLand Connections' independent directors or a majority of GreatLand Connections' stockholders (other than New Charter). Pursuant to the Stockholder Agreement, GreatLand Connections will agree that, other than the limitations set forth in the Stockholder Agreement and the Tax Matters Agreement, GreatLand Connections will not take any actions that restrict the ability of New Charter and its subsidiaries to acquire, hold or dispose of GreatLand Connections' equity securities.

The terms of the Stockholder Agreement have not yet been finalized; changes, some of which may be material, may be made to the terms of the Stockholder Agreement before it is finalized, including to the terms described above.

Table of Contents**DEBT FINANCING*****Incremental Facilities***

On July 24, 2014, Charter Operating, an indirect subsidiary of Charter, received a debt commitment letter (as amended, restated, supplemented or modified from time to time, the Debt Commitment Letter), from Goldman Sachs Bank USA, Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Credit Suisse Securities (USA) LLC, Credit Suisse AG, Deutsche Bank Securities, Inc. and Deutsche Bank AG New York Branch (collectively, the Lead Arrangers), to provide (i) incremental senior secured term loan facilities totaling up to \$8.4 billion (the Incremental Term Loan Facilities) and (ii) an incremental senior secured revolving credit facility equal to \$500 million (the Incremental Revolving Facility), and together with the Incremental Term Loan Facilities, the Incremental Facilities), in each case, under Charter Operating's Amended and Restated Credit Agreement dated April 11, 2012 (as further amended, restated, supplemented or otherwise modified from time to time, the Charter Credit Agreement) and subject to the conditions set forth in the Debt Commitment Letter. The Incremental Facilities will be used by Charter for the purpose of financing the Purchase, paying fees and expenses incurred in connection with the Purchase and the related transactions, for providing ongoing working capital and for other general corporate purposes of Charter Operating and its subsidiaries.

On September 12, 2014, Charter Operating executed a Term Loan G Incremental Activation Notice (the Notice) under the Charter Credit Agreement. The Notice established a new tranche of Term Loan G commitments (the Term Loan G) in an aggregate principal amount of \$3.5 billion that was fully drawn on September 12, 2014. The Term Loan G forms a portion of the Incremental Term Loan Facilities described above. Charter Operating assigned all of its obligations with respect to the Term Loan G and transferred all of the proceeds from the Term Loan G to a newly-created subsidiary, CCO Safari, LLC (CCO Safari), which is considered a Non-Recourse Subsidiary under the Charter Credit Agreement, and an Unrestricted Subsidiary under the CCO Holding, LLC indentures, and CCO Safari placed the funds in escrow pending the closing of the Purchase and the related transactions. The maturity date of the Term Loan G is September 12, 2021. The Term Loan G will bear interest at the Eurodollar Rate plus 3.50% with a floor of 0.75%. As of the date of this statement, other than the Term Loan G described above, the remaining Incremental Facilities commitments have not been funded.

On November 5, 2014, in connection with the transactions described below in the section entitled Debt Financing Senior Notes , \$3.5 billion of commitments in respect of the Incremental Term Loan Facilities were terminated. As of the date of this statement, \$1.4 billion of Incremental Term Loan Facilities and \$500 million of Incremental Revolving Facilities remain committed pursuant to the Debt Commitment Letter, in addition to the \$3.5 billion of escrowed Term Loan G described above.

The commitment of the Lead Arrangers with respect to the Incremental Facilities expires upon the earlier to occur of (i) the termination of the Asset Purchase Agreement in accordance with its terms prior to the closing of the Purchase and the related transactions, and (ii) July 24, 2015. Other than in connection with the Term Loan G, the documentation governing the remaining unfunded portion of the debt financing has not been finalized and, accordingly, the actual terms of such debt financing may differ from those described in this document. Although the debt financing described in this document is not subject to a due diligence or market out, such financing may not be considered assured. The obligation of the Lead Arrangers to provide debt financing under the Debt Commitment Letter and the release of the Term Loan G from escrow is, in each case, subject to a number of conditions. There is a risk that these conditions will not be satisfied and the debt financing may not be funded or released from escrow when required. As of the date of this statement, no alternative financing arrangements or alternative financing plans (other than that described below) have been made in the event the debt financing described in this statement is not available.

Table of Contents

Senior Notes

On November 5, 2014, Charter and its subsidiaries closed on transactions in which two series of senior notes due 2022 and 2024 (the Notes) in an aggregate principal amount of \$3.5 billion were issued. The Notes were issued by CCOH Safari, LLC (Safari II), a Delaware limited liability company, which is an indirect subsidiary of Charter. Substantially concurrently with the closing of the Purchase and the related transactions, Safari II will merge into CCO Holdings, LLC, a Delaware limited liability company (CCO Holdings) and the Notes will become obligations of CCO Holdings and CCO Holdings Capital Corp., a Delaware corporation (CCO Holdings Capital) and will rank *pari passu* in right of payment with each other and with all of the existing and future senior indebtedness of CCO Holdings and CCO Holdings Capital.

The gross proceeds of the Notes, together with an amount of cash sufficient to fund a special mandatory redemption of the Notes (as described below) on the first scheduled interest payment date for the Notes, if a special mandatory redemption event were to occur on such date, were placed in an escrow account pending the closing of the Purchase and the related transactions. In addition, no later than November 24, 2014 (the First Additional Deposit Date) and May 25, 2015 (the Second Additional Deposit Date), Safari II will be required to deposit an additional amount (the Additional Deposit Amount) that, together with the amounts on deposit in the escrow account, will be sufficient to (i) in the case of the First Additional Deposit Date, pay all scheduled interest payments through and including June 1, 2015 and (ii) without duplication, fund a special mandatory redemption on (x) in the case of the First Additional Deposit Date, June 1, 2015 and (y) in the case of the Second Additional Deposit Date, the fourth business day after November 5, 2015.

A special mandatory redemption event occurs upon the earliest of (i) November 5, 2015, (ii) the date on which Safari II notifies the escrow agent and the trustee for the noteholders that the Issuers will not pursue the consummation of the Purchase and the related transactions and (iii) the date on which Safari II fails to deposit the Additional Deposit Amount on or prior to the applicable Additional Deposit Date.

Table of Contents

**ADDITIONAL AGREEMENTS RELATED TO THE CONTRIBUTION AND SPIN-OFF,
THE MERGERS, THE EXCHANGE AND THE PURCHASE**

The descriptions of the Charter Services Agreement, the Employee Matters Agreements, the Comcast Provider Transition Services Agreement, the Charter Provider Transition Services Agreement, and the Tax Matters Agreement are qualified by reference to the complete text of these agreements, which are incorporated by reference herein. We encourage you to read the agreements in their entirety.

Charter Services Agreement

Prior to the effective time of the Spin-Off, GreatLand Connections will enter into a services agreement with a subsidiary of Charter (the Charter Services Agreement) pursuant to which Charter and its subsidiaries will provide services to GreatLand Connections, subject to GreatLand Connections overall authority and supervision.

The services provided by Charter and its subsidiaries will include, among other services, corporate services, network operations, engineering and IT, voice operations, field operations support services, customer service, billing and collections, product services, marketing services, sales, business intelligence, and intellectual property licensing. The nature and scope of the services will be as set forth in the Charter Services Agreement.

If, after the effective time of the Spin-Off, GreatLand Connections identifies additional services that are not provided under the Charter Services Agreement (other than because Charter and GreatLand Connections agreed that those services would not be provided), and certain other conditions are met, then, subject to certain exceptions, Charter and its subsidiaries will provide those services and those services that Charter and its subsidiaries provide will become services under the Charter Services Agreement.

In consideration for the services, the Charter Services Agreement will provide that GreatLand Connections will pay to Charter and its subsidiaries the actual, economic costs of providing the services, without markup, which will comprise any direct costs incurred in providing the services and, subject to certain exceptions, an allocated portion of the compensation and overhead expenses incurred in providing the services. GreatLand Connections will also reimburse Charter and its subsidiaries for out-of-pocket costs incurred in providing the services. In addition, in consideration for certain rights, including the rights to purchase goods and services, and the rights to obtain programming services, under Charter s third-party procurement and programming agreements, GreatLand Connections will pay Charter a services fee equal to 4.25% of GreatLand Connections gross revenues.

Unless earlier terminated, the Charter Services Agreement will expire three years after the effective date of the Spin-Off, except that the Charter Services Agreement will automatically renew for successive one-year periods unless GreatLand Connections or Charter give notice of an election not to renew at least one year prior to expiration of the then-current term. The Charter Services Agreement may be terminated by either party upon the material breach of the other party, subject to certain cure periods, and the Charter Services Agreement may also be terminated in certain circumstances involving a change of control of GreatLand Connections or upon the termination of the Merger Agreement. In addition, we may suspend provision of the services in certain circumstances, including upon the occurrence of certain bankruptcy events involving GreatLand Connections. Upon termination of the Charter Services Agreement in certain circumstances, if requested by us, we will continue to provide the services for a transition period of not more than one year.

Pursuant to the Charter Services Agreement, Charter will agree to indemnify GreatLand Connections and certain related parties for any losses arising out of the material breach of the Charter Services Agreement by us and certain

related parties and the gross negligence, willful misconduct or material violation of applicable law by us and certain related parties in connection with the Charter Services Agreement. However, except in the case of losses arising out of the gross negligence, willful misconduct or material violation of law by us and certain related parties in connection with the Charter Services Agreement, our liability will not exceed the total amount

Table of Contents

paid and payable to us pursuant to the Charter Services Agreement. GreatLand Connections will agree to indemnify us and certain related parties for any losses arising out of the Charter Services Agreement, other than losses arising from circumstances for which we have agreed to indemnify GreatLand Connections. The Charter Services Agreement will also include certain other provisions, including, among others, a limited license for GreatLand Connections to use certain of our marks and provisions addressing the treatment of confidential information of each party.

The Charter Services Agreement has not yet been executed and remains subject to change.

GreatLand Services Agreement

Prior to the effective time of the Spin-Off, GreatLand Connections will enter into a second services agreement with Charter (the GreatLand Services Agreement) pursuant to which GreatLand Connections and GreatLand Connections subsidiaries will provide certain services to Charter. The services will include, among other services, certain field technical operational support services provided in areas where GreatLand Connections and Charter s cable markets are contiguous. The terms of the GreatLand Services Agreement will generally parallel the terms of the Charter Services Agreement, except that GreatLand Connections position and Charter s position will be reversed and Charter will pay to GreatLand Connections only the actual, economic costs of providing the services, and reimburse GreatLand Connections for out-of-pocket costs incurred in providing the services, and Charter will not pay to GreatLand Connections any additional services fee.

The terms of the GreatLand Services Agreement have not yet been finalized; changes, some of which may be material, may be made to the terms of the GreatLand Services Agreement before it is finalized, including to the terms described above.

Employee Matters Agreements

Prior to the effective time of the Exchange and the Purchase, Charter will enter into one or more Employee Matters Agreements with Comcast to provide for specified employee, compensation and benefits matters relating to current and former employees who are or were employed primarily with respect to the Charter systems, the Comcast systems and certain other assets, which employees (if employed at the time of completion of the Transactions) will generally be transferred to the other company pursuant to the Exchange or the Purchase, as applicable. The Employee Matters Agreements will provide that, effective as of the effective time of the Exchange or the Purchase, Charter and Comcast generally will assume or retain the obligations and liabilities relating to the employment, termination of employment or employment practices with regard to these employees, whether arising before, on or after the Exchange or the Purchase, as applicable, subject to exceptions for certain liabilities, such as defined benefit pension benefits and pre-closing incentive compensation, which will remain with Comcast or Charter.

The Employee Matters Agreements will provide that, for one year following the Exchange or the Purchase, as applicable, Charter and Comcast, as applicable, will provide, or cause to be provided, to each employee whose employment was transferred pursuant to the Exchange or the Purchase, as applicable and who continues to be employed by such party, as applicable, immediately following the Exchange or the Purchase, as applicable (other than any employees included in a collective bargaining unit covered by a collective bargaining agreement, who are referred to in this prospectus as union employees), such employees being referred to in this prospectus as covered employees, with:

base pay, commission opportunities and cash bonus opportunities, as applicable, that are no less favorable in the aggregate than provided to such covered employee immediately prior to the Exchange or the Purchase, as applicable; and

employee benefits that are no less favorable, in the aggregate, than were provided to such covered employee immediately prior to the Exchange or the Purchase, as applicable.

For purposes of determining whether the pay, opportunities and benefits referred to in the immediately preceding two bullets are no less favorable in the aggregate, equity compensation, defined benefit pension plan benefits, severance, retention, sale, stay, or change in control payments or awards or any similar compensation or

Table of Contents

benefits will not be taken into account. With respect to union employees, Charter and Comcast will assume or retain any and all of the rights and obligations each such party may have pursuant to any collective bargaining agreements or applicable law.

In addition, under the Employee Matters Agreements, following the Exchange or the Purchase, as applicable, Charter and Comcast will, for all covered employees, (i) honor all contracts providing for severance to the extent and in accordance with their terms and (ii) honor, without amendment, all plans providing for severance during the period from completion of the Exchange or the Purchase, as applicable through the first anniversary thereof, or for any longer period during which such amendments are prohibited under the terms of the applicable plan.

The Employee Matters Agreements will provide that, following the effective time of the Exchange or the Purchase, as applicable, Charter will indemnify Comcast for any losses arising out of liabilities that Charter has retained or assumed pursuant to the Employee Matters Agreement, and Comcast will indemnify Charter for any losses arising out of liabilities retained or assumed by Comcast pursuant to the Employee Matters Agreements. The Employee Matters Agreements will terminate automatically upon termination of the Exchange Agreement or the Purchase Agreement, as applicable.

The terms of the Exchange Employee Matters Agreements have not yet been finalized; changes, some of which may be material, may be made to the terms of the Exchange Employee Matters Agreements before it is finalized, including to the terms described above.

Comcast Provider Transition Services Agreement

Prior to the effective time of the Exchange, Charter will enter into a transition services agreement with Comcast (the Comcast Provider Transition Services Agreement) pursuant to which Comcast and its subsidiaries will provide certain transition services to us with respect to the Comcast Exchanged Systems. The transition services will include, among other services, certain facilities and asset-based, software platforms, marketing and sales and customer-facing services.

The nature and scope of the transition services will be as set forth in the Comcast Provider Transition Services Agreement and will otherwise be substantially consistent with the nature and scope of such services as provided by Comcast and its subsidiaries to the Comcast systems immediately before the effective date of the Exchange. If, after the effective time of the Exchange, Charter identifies additional services that are not provided under the Comcast Provider Transition Services Agreement (other than because Comcast and Charter agreed that those services would not be provided), and certain other conditions are met, Comcast and its subsidiaries will provide those services as they can reasonably provide and those services that Comcast and its subsidiaries provide will become transition services under the Comcast Provider Transition Services Agreement.

The terms of the Comcast Provider Transition Services Agreement have not yet been finalized; changes, some of which may be material, may be made to the terms of the Comcast Provider Transition Services Agreement before it is finalized, including to the terms described above.

Charter Provider Transition Services Agreement

Prior to the effective time of the Exchange, Charter will enter into a transition services agreement with Comcast (the Charter Provider Transition Services Agreement) pursuant to which Charter and its subsidiaries will provide certain transition services to Comcast. The transition services will include, among other services, certain facilities and asset-based, software platforms, marketing and sales and customer-facing services.

The nature and scope of the transition services will be as set forth in the Charter Provider Transition Services Agreement and will otherwise be substantially consistent with the nature and scope of such services as provided by Charter and its subsidiaries to the Charter systems immediately before the effective date of the Exchange. If, after the effective time of the Exchange, Comcast identifies additional services that are not

Table of Contents

provided under the Charter Provider Transition Services Agreement (other than because Comcast and Charter agreed that those services would not be provided), and certain other conditions are met, Charter and its subsidiaries will provide those services as they can reasonably provide and those services that Charter and its subsidiaries provide will become transition services under the Charter Provider Transition Services Agreement.

The terms of these services have not yet been finalized; changes, some of which may be material, may be made to the terms of the Charter Provider Transition Services Agreement before it is finalized, including to the terms described above.

Tax Matters Agreement

In connection with the Spin-Off and GreatLand Connections Merger (together with certain related transactions, but excluding the Exchange and the Purchase), GreatLand Connections, Comcast and New Charter will enter into a tax matters agreement (the Tax Matters Agreement) that will govern the parties' respective rights, responsibilities, and obligations with respect to taxes, including taxes arising in the ordinary course of business, and taxes, if any, incurred as a result of any failure of the Spin-Off, GreatLand Connections Merger (or certain related transactions, including the debt exchange) to qualify as tax-free for U.S. federal income tax purposes. The Tax Matters Agreement will also set forth the respective obligations of the parties with respect to the filing of tax returns, the administration of tax contests and assistance and cooperation on tax matters. This summary is qualified by reference to the complete text of the form of the Tax Matters Agreement, which is incorporated by reference and is filed as an exhibit to the registration statement of which this document is a part.

In general, the Tax Matters Agreement will govern the rights and obligations that GreatLand Connections, Comcast and New Charter have after the Spin-Off and GreatLand Connections Merger with respect to taxes for both pre- and post-closing periods. Under the Tax Matters Agreement, Comcast generally will be responsible for pre-Spin-Off income taxes, and GreatLand Connections will be responsible for all post-Spin-Off income taxes and all non-income taxes primarily related to GreatLand Connections' assets and businesses that are due and payable after the Spin-Off.

In the event that the Spin-Off, the GreatLand Connections Merger and certain related transactions (including the debt-for-debt exchange) fail to qualify for their intended tax treatment, in whole or in part, and Comcast is subject to tax as a result of such failure, which we refer to as transaction taxes, the Tax Matters Agreement will determine whether Comcast must be indemnified for any such transaction taxes by GreatLand Connections or New Charter. As a general matter, under the terms of the Tax Matters Agreement, GreatLand Connections is required to indemnify Comcast for any transaction taxes due to any action of any person following the Spin-Off other than transaction taxes arising from (i) an action of Comcast or with respect to Comcast, in which case Comcast will bear the liability of the transaction taxes; or (ii) a breach by New Charter of the New Charter Tax Standstill (as described below) or other covenant of New Charter, in which case New Charter will bear the liability of the transaction taxes. For purposes of the prior sentence, the GreatLand Connections Merger, a violation of the GreatLand Connections Tax Standstill and certain actions relating to the governance of GreatLand Connections following the closing and the entering into the Charter Services Agreement do not constitute actions of Comcast. Therefore, in the event that the Spin-Off, GreatLand Connections Merger and/or related transactions fail to qualify for their intended tax treatment, GreatLand Connections will generally be required to indemnify Comcast for the resulting transaction taxes unless the liability for such transaction taxes is allocated to Comcast or New Charter in the limited circumstances described above. However, the Tax Matters Agreement will also provide that (i) if Comcast has a claim in respect of transaction taxes against Liberty under the voting agreement between Comcast and Liberty entered into as April 25, 2014 and no action GreatLand Connections has taken shall have contributed to the imposition of the transaction taxes, Comcast will take reasonable best efforts to pursue and exhaust any and all recourse available to Comcast against Liberty prior to seeking to enforce its indemnification right against GreatLand Connections and (ii) if both an action GreatLand

Connections has taken and the action of another person (including New Charter) gives rise to transaction taxes that are indemnifiable by GreatLand Connections under the Tax Matters Agreement, then Comcast will pursue its available recourses against GreatLand Connections and such other person.

Table of Contents

The Tax Matters Agreement will further provide that:

Without duplication of GreatLand Connections' indemnification obligations described in the prior paragraph, GreatLand Connections will indemnify Comcast against (i) GreatLand Connections' taxes for the post-closing period; (ii) any liability or damage resulting from a breach by GreatLand Connections or any of its affiliates of a covenant made in the Tax Matters Agreement or representation it made to tax counsel in connection with tax counsel's delivery of a tax opinion at closing; and (iii) any transfer taxes arising from or associated with the Spin-Off, GreatLand Connections Merger and related transactions.

New Charter will indemnify Comcast against (i) any transaction taxes arising due to a violation of the New Charter tax standstill (as described below) by New Charter or any of its affiliates and (ii) any liability or damage resulting from a breach by New Charter or any of its affiliates of a covenant made by New Charter in the Tax Matters Agreement or a representation made by New Charter to tax counsel in connection with tax counsel's delivery of a tax opinion at closing, in each case, without any duplication of any amounts for which Comcast has otherwise been indemnified;

Comcast will indemnify GreatLand Connections against (i) any tax liability of the Comcast consolidated group; (ii) any tax liability a result of its having been a member of the Comcast consolidated group; and (iii) any pre-Spin-Off income taxes, in each case, other than tax liabilities of Comcast for which GreatLand Connections is required to indemnify Comcast; and

New Charter will indemnify GreatLand Connections against any tax liability of the New Charter consolidated group.

In addition to the indemnification obligations described above, the indemnifying party will generally be required to indemnify the indemnified party against any interest, penalties, additions to tax, losses, assessments, settlements or judgments arising out of or incident to the event giving rise to the indemnification obligation, along with costs incurred in any related contest or proceeding.

Further, the Tax Matters Agreement generally will prohibit GreatLand Connections and New Charter, and GreatLand Connections' and New Charter's affiliates, from taking certain actions that could cause the Spin-Off, GreatLand Connections Merger and certain related transactions (including the debt exchange) to fail to qualify for their intended tax treatment. In particular:

GreatLand Connections

from and until the second anniversary of the Spin-Off (or otherwise pursuant to a plan within the meaning of Section 355(e) of the Code) GreatLand Connections may not take any action (including the issuance of any equity securities or a redemption, repurchase or other acquisition of any of its equity securities) that would result in New Charter holding (or being treated as holding) a greater percentage of GreatLand Connections outstanding shares than it holds immediately after the GreatLand Connections Merger;

other than the GreatLand Connections Merger, from and until the second anniversary of the Spin-Off (or otherwise pursuant to a plan within the meaning of Section 355(e) of the Code), GreatLand Connections may not cause or permit any merger or consolidation of GreatLand Connections or any liquidation or dissolution of GreatLand Connections (except for certain transactions with a subsidiary);

from and until the second anniversary of the Spin-Off, neither GreatLand Connections nor any GreatLand Connections subsidiaries may, or agree to, sell, exchange, distribute or otherwise dispose of any asset of any member of the GreatLand Connections group, except in the ordinary course of business or except for assets that, in the aggregate, do not constitute more than 30% of its gross assets;

from and until the second anniversary of the Spin-Off, GreatLand Connections may not permit or cause GreatLand Connections securities used by Comcast in the debt exchange to be modified, repurchased, defeased, satisfied or discharged other than in accordance with their terms;

Table of Contents

from and until the second anniversary of the Spin-Off (or otherwise pursuant to a plan within the meaning of Section 355(e) of the Code), GreatLand Connections may not take any other action where the taking of such action could reasonably be expected to have, in the aggregate and taking into account the GreatLand Connections Merger and the Comcast-Time Warner Cable Merger, the effect of causing or permitting one or more persons to acquire a fifty percent (50%) or greater interest in GreatLand Connections or any of its subsidiaries for purposes of Section 355(e) of the Code;

from and until the second anniversary of the Spin-Off, GreatLand Connections may not discontinue the active conduct of its business; and

GreatLand Connections may not take any action where the taking of such action could reasonably be expected to cause the Spin-Off, debt exchange, GreatLand Connections Merger or certain related transactions to fail to qualify as tax-free transactions under the applicable provisions of the Code.

New Charter

from and until the second anniversary of the Spin-Off (or otherwise pursuant to a plan within the meaning of Section 355(e) of the Code) New Charter may not take any action that would result in New Charter holding (or being treated as holding) a greater percentage of the outstanding GreatLand Connections shares than it holds immediately after the GreatLand Connections Merger (referred to as the New Charter Tax Standstill);

from and until the second anniversary of the Spin-Off (or otherwise pursuant to a plan within the meaning of Section 355(e) of the Code) New Charter may not take any action that could reasonably be expected to have the effect of causing New Charter (or any person acting in concert with New Charter) to be treated as acquiring a 50% or greater interest in GreatLand Connections for purposes of Section 355(e) of the Code; and

from and until the second anniversary of the Spin-Off, New Charter may not liquidate Charter or take any other action where the taking of such action could reasonably be expected to have the effect of causing the GreatLand Connections Merger and Charter Merger, taken together, to fail for their intended tax treatment.

As described above, if GreatLand Connections or New Charter take any of the actions described above and such actions result in transaction taxes, GreatLand Connections or New Charter, as applicable, will be required to indemnify Comcast against such transaction taxes.

The terms of the Tax Matters Agreement have not yet been finalized; changes, some of which may be material, may be made to the terms of the Tax Matters Agreement before it is finalized, including to the terms described above.

Table of Contents

INFORMATION ABOUT THE COMPANIES

Charter Communications, Inc.

Charter is among the largest providers of cable services in the United States, offering a variety of entertainment, information and communications solutions to residential and commercial customers. Charter's infrastructure consists of a hybrid of fiber and coaxial cable plant with approximately 12.8 million estimated passings, with 97% at 550 megahertz or greater and 98% of plant miles two-way active. A national Internet Protocol (IP) infrastructure interconnects Charter markets.

As of September 30, 2014, Charter served approximately 6.1 million residential and commercial customers. Charter sells its video, Internet and voice services primarily on a subscription basis, often in a bundle of two or more services, providing savings and convenience to its customers. Bundled services are available to approximately 97% of Charter's passings, and approximately 62% of Charter's customers subscribe to a bundle of services.

Charter was organized as a Delaware corporation on July 22, 1999. On March 27, 2009, Charter and certain affiliates filed voluntary petitions in the United States Bankruptcy Court for the Southern District of New York, to reorganize under Chapter 11 of the United States Bankruptcy Code. The Chapter 11 cases were jointly administered under the caption *In re Charter Communications, Inc., et al.*, Case No. 09-11435. On May 7, 2009, Charter filed a Joint Plan of Reorganization and a related disclosure statement with the bankruptcy court. The plan was confirmed by the bankruptcy court on November 17, 2009, and became effective on November 30, 2009, the date on which Charter emerged from protection under Chapter 11. The final decree closing the case was entered by the bankruptcy court on December 30, 2013.

Charter's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901. Charter's telephone number is (203) 905-7801, and it has a website accessible at www.charter.com.

CCH I, LLC

New Charter is a wholly owned subsidiary of Charter. New Charter was organized as a Delaware limited liability company on June 9, 2003. New Charter's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901.

CCH I Charter Merger Sub, LLC

Charter Merger Sub is a direct, wholly owned subsidiary of New Charter. Charter Merger Sub was formed on November 24, 2014 for the purposes of merging with and into Charter in the Charter Merger. Charter Merger Sub has not carried on any activities other than in connection with the Transactions Agreement. Charter Merger Sub's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901.

CCH I SpinCo, Sub, LLC

GreatLand Connections Merger Sub is a direct, wholly-owned subsidiary of New Charter. GreatLand Connections Merger Sub was organized on May 22, 2014 for the purposes of merging with and into GreatLand Connections in the GreatLand Connections Merger. GreatLand Connections Merger Sub has not carried on any activities other than in connection with the Transactions Agreement. GreatLand Connections Merger Sub's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901.

Comcast Corporation

Comcast Corporation (NASDAQ: CMCSA, CMCSK) is a global media and technology company with two primary businesses, Comcast Cable and NBCUniversal. Comcast Cable is the nation's largest video, high-speed

Table of Contents

Internet and phone provider to residential customers under the XFINITY brand and also provides these services to businesses. NBCUniversal operates 30 news, entertainment and sports cable networks, the NBC and Telemundo broadcast networks, television production operations, television station groups, Universal Pictures and Universal Parks and Resorts. Comcast's principal executive offices are located at One Comcast Center, Philadelphia, Pennsylvania 19103.

Midwest Cable, Inc.

Midwest Cable, Inc. is currently a wholly owned subsidiary of Comcast formed in May 2014 as a limited liability company and converted to a corporation in September 2014. Following the Spin-Off, GreatLand Connections will be an independent, publicly-traded entity that will hold cable systems serving approximately 2.5 million existing Comcast video subscribers in the Midwestern and Southeastern United States. Following consummation of the transactions, holders of Comcast common stock (as of the record date for the Spin-Off) will own approximately 67% of GreatLand Connections, and New Charter will own the remaining approximately 33%. Comcast will have no remaining interest in GreatLand Connections. Upon completion of the GreatLand Connections Merger, GreatLand Connections expects to change its name to GreatLand Connections Inc.

GreatLand Connections will offer a variety of video, high-speed Internet and voice services (cable services) over a geographically-aligned cable distribution system to residential and commercial customers located in the Midwestern and Southeastern United States. As of September 30, 2014, the cable systems that will be owned by GreatLand Connections served approximately 2.5 million video customers, 2.3 million high-speed Internet customers and 1.1 million voice customers and passed approximately 6.3 million homes and businesses. As of September 30, 2014, the cable systems that will be owned by GreatLand Connections had customer relationships with approximately 2.7 million residential customers and 183,000 commercial customers.

GreatLand Connections will offer its cable services individually and in bundles. GreatLand Connections' subscription rates and related charges will vary according to the services and features customers receive and the type of equipment they use, and customers are typically billed in advance on a monthly basis. GreatLand Connections' residential customers may generally discontinue service at any time, while commercial customers may only discontinue service in accordance with the terms of their contracts, which typically have two- to five-year terms.

Table of Contents**SELECTED HISTORICAL CONSOLIDATED FINANCIAL INFORMATION OF CHARTER**

The following tables present selected historical consolidated financial data for Charter and its subsidiaries and has been derived from (i) the audited consolidated financial statements of Charter and its subsidiaries for each of the years in the three-year period ended December 31, 2013 (Successor Company), incorporated by reference in this proxy statement/prospectus, (ii) the year ended December 31, 2010 (Successor Company), one month ended December 31, 2009 (Successor Company), and the eleven months ended November 30, 2009 (Predecessor Company), which have been audited by KPMG LLP, an independent registered public accounting firm, and (iii) the unaudited consolidated financial statements of Charter and its subsidiaries for the nine months ended September 30, 2014 (Successor Company) and 2013 (Successor Company), incorporated by reference in this proxy statement/prospectus. The following information should be read in conjunction with the historical consolidated financial statements and related notes.

Comparability of the above information from year to year is affected by acquisitions and dispositions completed by us including the acquisition of Bresnan Broadband Holdings, LLC and its subsidiaries (Bresnan) in July

Table of Contents

2013. See Note 3 to Charter's consolidated financial statements included in Charter's Annual Report on Form 10-K for the year ended December 31, 2013, incorporated by reference in this proxy statement/prospectus, for additional information on the acquisition of Bresnan. In addition, upon our emergence from bankruptcy, we adopted fresh start accounting. This resulted in us becoming a new entity on December 1, 2009, with a new capital structure, a new accounting basis in the identifiable assets and liabilities assumed and no retained earnings or accumulated losses. Accordingly, the consolidated financial statements on or after December 1, 2009 are not comparable to the consolidated financial statements prior to that date. The financial statements for the periods ended November 30, 2009 do not include the effect of any changes in our capital structure or changes in the fair value of assets and liabilities as a result of fresh start accounting.

Table of Contents**SELECTED HISTORICAL FINANCIAL DATA OF THE GREATLAND CONNECTIONS BUSINESS**

The following table presents GreatLand Connections' selected combined financial and other data as of and for the years ended December 31, 2013, 2012, 2011, 2010 and 2009, and as of and for the nine months ended September 30, 2014 and 2013. The combined statement of income data set forth below for the years ended December 31, 2013, 2012 and 2011 and the combined balance sheet data as of December 31, 2013 and 2012 are derived from the audited combined financial statements of the Comcast Cable Systems to be Contributed to Midwest Cable, Inc. included elsewhere in this proxy statement/prospectus, which have been audited by Deloitte & Touche LLP, an independent registered public accounting firm. The combined statement of income data for the years ended December 31, 2010 and 2009 and the combined balance sheet data as of December 31, 2011, 2010 and 2009 are derived from the unaudited financial statements of the Comcast Cable Systems to be Contributed to Midwest Cable, Inc. not included in this proxy statement/prospectus. The combined statement of income data set forth below for the nine months ended September 30, 2014 and 2013 and the combined balance sheet data as of September 30, 2014 are derived from the unaudited condensed combined financial statements of the Comcast Cable Systems to be Contributed to Midwest Cable, Inc. included elsewhere in this proxy statement/prospectus.

The selected historical financial data presented below should be read in conjunction with the audited and unaudited combined financial statements and accompanying notes included elsewhere in this proxy statement/prospectus. The selected combined financial data may not be indicative of GreatLand Connections' future performance and does not necessarily reflect what the financial position and results of operations would have been had GreatLand Connections operated as a separate, stand-alone entity during the periods presented, including changes that will occur in its operations and capitalization as a result of the Spin-Off. The unaudited condensed combined financial statements are not necessarily indicative of the results to be expected for any other interim period or for the years ending December 31, 2014 and 2013. However, in the opinion of GreatLand Connections' management, the unaudited condensed combined financial statements include all normal recurring adjustments that are necessary for the fair presentation of the results for interim periods.

Table of Contents**HISTORICAL AND PRO FORMA PER SHARE DATA OF CHARTER**

The following tables set forth, as of and for the nine months ended September 30, 2014 and the year ended December 31, 2013, selected unaudited per share information for Charter common shares on a historical and pro forma basis after giving effect to the Transactions. Except for the historical information as of and for the year ended December 31, 2013, the information in the table is unaudited. You should read the table below in conjunction with the audited consolidated financial statements and related notes thereto of Charter and its subsidiaries for the year ended December 31, 2013, incorporated by reference in this proxy statement/prospectus, and the unaudited consolidated financial statements and related notes thereto of Charter and its subsidiaries for the period ended September 30, 2014, incorporated by reference in this proxy statement/prospectus. You should also read the table below in conjunction with the unaudited pro forma condensed consolidated balance sheet as of September 30, 2014, and the unaudited pro forma condensed consolidated statements of operations for the nine months ended September 30, 2014 and the year ended December 31, 2013. See, [Unaudited Pro Forma Financial Information](#) .

The Charter pro forma loss per common share was calculated using the methodology described under the heading [Unaudited Pro Forma Financial Information](#) and is subject to all the assumptions, adjustments and limitations described thereunder. The pro forma per share data are presented for illustrative purposes only and are not necessarily indicative of the operating results or financial position that would have occurred if the Transactions had been consummated at the beginning of the earliest period presented, and it is not necessarily indicative of future operating results or financial position. The pro forma adjustments are estimates based upon information and assumptions available at the date of this proxy statement/prospectus.

Charter has not paid stock or cash dividends on any of its common stock. Charter would be dependent on distributions from its subsidiaries if Charter were to make any dividends. Covenants in the indentures and credit agreements governing the debt obligations of our subsidiaries restrict their ability to make distributions to us, and accordingly, limit our ability to declare or pay cash dividends. Future cash dividends, if any, will be at the discretion of Charter's board of directors and will depend upon, among other things, our future operations and earnings, capital requirements, general financial condition, contractual restrictions and such other factors as Charter's board of directors may deem relevant.

Market price data for GreatLand Connections Class A common stock has not been presented as shares of GreatLand Connections Class A common stock do not trade separately from shares of Comcast common stock.

Table of Contents**UNAUDITED PRO FORMA FINANCIAL INFORMATION**

The accompanying unaudited pro forma financial information as of and for the nine months ended September 30, 2014 and for the year ended December 31, 2013 is intended to reflect the impacts of the Transactions on Charter's consolidated financial statements as if the Transactions had occurred as of September 30, 2014 for the unaudited pro forma condensed consolidated balance sheet and as of January 1, 2013, the beginning of the earliest period presented, for the unaudited pro forma condensed consolidated statements of operations. The accompanying unaudited pro forma financial information presents the pro forma consolidated financial position and results of operations of Charter based on the historical financial statements and accounting records of Charter, Bresnan Broadband Holdings, LLC and its subsidiaries (Bresnan), Time Warner Cable, GreatLand Connections and the related pro forma adjustments as described in these notes. The starting point for the unaudited pro forma condensed consolidated statement of operations for the year ended December 31, 2013 is the Charter unaudited pro forma financial information after giving effect to the acquisition of Bresnan. See Note 2. The pro forma adjustments related to the Transactions are included only to the extent they are (i) directly attributable to the Transactions, (ii) factually supportable and (iii) with respect to the statements of operations, expected to have a continuing impact on the combined results.

The Transactions will be valued at a 7.125 multiple of the respective cable systems' Carveout 2014 EBITDA (as defined in the agreements), subject to certain post-closing adjustments. The Carveout 2014 EBITDA (as defined in the agreements) was estimated using unaudited results for the nine months ended September 30, 2014 of the cable systems included in this unaudited pro forma financial information and Charter internal forecasts. For purposes of this unaudited pro forma financial information, the value of the asset purchase and asset exchange transactions are estimated to be \$7.2 billion and \$7.5 billion, respectively, and the valuation of GreatLand Connections for purposes of determining the value of Charter's equity interest, is estimated to be \$12.5 billion.

Charter has received commitments from a number of leading Wall Street investment banks to provide incremental senior secured term loan facilities totaling up to \$8.4 billion and a senior secured incremental revolving facility equal to \$500 million under the Charter Operating credit facility. Pursuant to that commitment, Charter has fully drawn on \$3.5 billion of Term Loan G commitments, and \$1.0 billion has been committed, but not issued, in additional Charter Operating term loans. The amount of the commitments for incremental term loan facilities was further reduced by \$3.5 billion at the closing of the offering of \$1.5 billion aggregate principal amount of 5.50% senior notes due 2022 and \$2.0 billion aggregate principal amount of 5.75% senior notes due 2024 by Safari II. The proceeds from the Term Loan G and the new Senior Notes are being held in escrow subject to the closing of the Transactions. The consideration for the assets acquired and transaction expenses is currently estimated at approximately \$7.2 billion. The proceeds of the incremental facilities and the new Senior Notes will be used by Charter for the purpose of financing the asset purchase, paying fees and expenses incurred in connection with the asset purchase and the Transactions, for providing ongoing working capital and for other general corporate purposes of Charter Operating and its subsidiaries.

The unaudited pro forma financial statements are based on (i) the audited financial statements of Charter and its subsidiaries for the year ended December 31, 2013 contained in Charter's Annual Report on Form 10-K filed with the SEC on February 21, 2014, (ii) the unaudited condensed consolidated financial statements of Charter and its subsidiaries as of and for the nine months ended September 30, 2014 contained in Charter's Quarterly Report on Form 10-Q filed with the SEC on October 31, 2014, (iii) the audited historical financial statements of the TWC Cable Systems to be Sold or Exchanged in the Divestiture Transactions with Charter Communications, Inc. (TWC Cable Systems Acquired) for the year ended December 31, 2013 contained in this proxy statement/prospectus, (iv) the unaudited financial statements of the TWC Cable Systems to be Sold or Exchanged in the Divestiture Transactions with Charter Communications, Inc. as of and for the nine months ended September 30, 2014 contained in this proxy statement/prospectus, (v) the audited historical financial statements of the Comcast Cable Systems to be Contributed to Midwest Cable, Inc. for the year ended December 31, 2013 contained in this proxy statement/prospectus, (vi) the

unaudited financial statements of the

Table of Contents

Comcast Cable Systems to be Contributed to Midwest Cable, Inc. as of and for the nine months ended September 30, 2014 contained in this proxy statement/prospectus, and (vii) the unaudited financial statements of Bresnan for the six months ended June 30, 2013 incorporated by reference in this proxy statement/prospectus.

The Transactions will be accounted for using the acquisition method of accounting. The unaudited pro forma financial information reflects the preliminary assessment of fair values and useful lives assigned to the assets acquired and liabilities assumed. The fair values assigned in the unaudited pro forma financial information are preliminary and represent Charter's current best estimate of fair value and are subject to revision. The detailed valuation studies necessary to arrive at the required estimates of the fair values for the assets acquired and liabilities assumed have not commenced. Significant assets and liabilities that are subject to preparation of valuation studies to determine appropriate fair value adjustments include property, plant and equipment and identifiable intangible assets, including franchises and customer relationships. Changes to the fair values of these assets and liabilities will also result in changes to goodwill and deferred tax liabilities.

The unaudited pro forma financial information is provided for illustrative purposes only and is based on available information and assumptions that Charter believes are reasonable. It does not purport to represent what the actual consolidated results of operations or the consolidated financial position of Charter would have been had the Transactions occurred on the dates indicated, nor is it necessarily indicative of future consolidated results of operations or consolidated financial position. The actual financial position and results of operations will differ, perhaps significantly, from the pro forma amounts reflected herein due to a variety of factors, including access to additional information, changes in value not currently identified and changes in operating results following the date of the pro forma financial information.

Items Not Adjusted in the Unaudited Pro Forma Financial Information

The unaudited pro forma financial information does not reflect all reclassifications or adjustments to conform the TWC Cable Systems Acquired financial statement presentation or accounting policies to those adopted by Charter. At this time, Charter is not aware of any intercompany transactions that would have a material impact on the unaudited pro forma financial information that are not reflected in the pro forma adjustments. Further review may identify additional intercompany transactions, reclassifications or differences between the accounting policies of the two companies that, when conformed, could have a material impact on the unaudited pro forma financial information of the combined company.

The unaudited pro forma financial information does not include any adjustment for liabilities or related costs that may result from integration activities, since management has not completed the process of making these assessments. Significant liabilities and related costs may ultimately be recorded for employee severance or relocation, costs of vacating some facilities and costs associated with other exit and integration activities. The unaudited pro forma statements of operations do not include any revenue or expense synergies or dis-synergies resulting from the Transactions, including programming costs or shared functions and other administrative and overhead allocations, as these adjustments are not factually supportable. The unaudited pro forma statements of operations also do not include an estimated \$220 million of non-recurring costs directly attributable to the Transactions, such as escrow interest, investment banking fees and legal fees.

Charter intends to review the synergies of the combined business in advance of and subsequent to the completion of the Transactions, which may result in a plan to reorganize certain of the TWC Cable Systems Acquired's products, network, service operations and organizational structure. The costs of implementing such a plan, if it were to occur, and any resulting future changes in revenue or cost savings have not been reflected in the accompanying unaudited pro forma financial information. The unaudited pro forma financial information also does not include any revenue or

expenses for services provided under the Charter Services Agreement for which Charter will be reimbursed the actual economic costs of such services.

Table of Contents

The Transactions may result in changes to Charter's tax rate used to determine deferred income taxes due to changes in apportionment factors related to state income taxes. Any changes in Charter's deferred taxes as a result of the Transactions will be reflected in income as of the closing dates. Therefore, the unaudited pro forma financial information does not include the impact of any such changes on Charter's existing deferred tax assets and liabilities, as the analysis is not complete.
