- 1. This financial summary report contains forward-looking statements regarding estimations, forecasts, targets and plans in relation to the results of operations, financial conditions and other overall management of the company and/or the group as a whole (the forward-looking statements). The forward-looking statements are made based upon, among other things, the company s current estimations, perceptions and evaluations. In addition, in order for the company to adopt such estimations, forecasts, targets and plans regarding future events, certain assumptions have been made. Accordingly, due to various risks and uncertainties, the statements and assumptions are inherently not guarantees of future performance, may be considered differently from alternative perspectives and may result in material differences from the actual result. For the main factors that may affect the current forecasts, please see Consolidated Summary Report, Annual Securities Report, Disclosure Book, Annual Report, and other current disclosures that the company has announced.
- 2. The financial information included in this financial summary report is prepared and presented in accordance with accounting principles generally accepted in Japan (Japanese GAAP). Differences exist between Japanese GAAP and the accounting principles generally accepted in the United States (U.S. GAAP) in certain material respects. Such differences have resulted in the past, and are expected to continue to result for this period and future periods, in amounts for certain financial statement line items under U.S. GAAP to differ significantly from the amounts under Japanese GAAP. For example, differences in consolidation basis or accounting for business combinations, including but not limited to amortization and impairment of goodwill, could result in significant differences in our reported financial results between Japanese GAAP and U.S. GAAP. Readers should consult their own professional advisors for an understanding of the differences between Japanese GAAP and U.S. GAAP and how those differences might affect our reported financial results. We will publish U.S. GAAP financial results in a separate disclosure document when such information becomes available.

1. Results of Operations and Financial Condition

(1) Analysis of results of operations

(Results of operations for the fiscal year ended March 31, 2016)

The outlook has become increasingly clouded, even as the global economy especially developed countries remained on a gradual recovery course in FY15. Share prices around the world dropped owing to concerns surrounding China, weak oil and other resource prices. However, US domestic demand, in particular, remained on a path of self-sustained recovery as the employment picture steadily improved, despite weakness in the energy industry and some other sectors. Europe s economy continued to pick up, propelled by the weak EUR and cheap oil, in spite of the Greek debt issue and NPLs in southern countries. In Asia, China continued to slow due to suppressed investment, while weak exports weighed on other Asian economies. Even so, private consumption remained firm throughout the region, bolstered by lower inflation. Against this backdrop, Japan s economy continued on a gradual recovery trajectory, even with some apparent weak spots. The warm winter dampened private consumption, which remained fairly flat overall despite higher incomes. Exports to the US and Europe were strong overall, but exports to China and other emerging economies were weak, including resource-producing countries. On the other hand, capital expenditures continued to rise gradually due to robust corporate profits as the glut of capital stock was erased.

With regard to the financial situation, the US Fed hiked interest rates for the first time in nine-and-a-half years in December, as employment conditions improved. In the Eurozone, on the other hand, the ECB bolstered monetary easing, including cutting the deposit rate in December and again in March. The Bank of Japan introduced Quantitative and Qualitative Monetary Easing with Negative Interest rates in January, and the benchmark yield turned and stayed negative through to the end of the fiscal year. Share prices have fallen and the Japanese yen has rallied since the start of the year: a reflection of heightened risk aversion around the globe.

Under such business environment, consolidated gross profits for the fiscal year ended March 31, 2016 decreased 85.8 billion yen from the previous fiscal year to 4,143.2 billion yen. This was mainly due to the appreciation of the Japanese yen against the U.S. dollar since January, a decrease in net interest income from domestic loans and deposits as well as a decrease in gains on ALM, whereas an increase in overseas profit from MUFG s group collaboration businesses in the U.S. and overseas subsidiaries businesses contributed to increase gross profit. General and administrative (G&A) expenses for the fiscal year ended March 31, 2016 increased 1.1 billion yen from the previous fiscal year, mainly due to higher regulatory costs in overseas businesses despite cost cutting of MUFG and a positive impact from exchange rate. As a result, net business profits were 1,557.9 billion yen, a decrease of 87.0 billion yen from the previous fiscal year.

Total credit costs for the fiscal year ended March 31, 2016 increased 93.5 billion yen from the previous fiscal year, mainly due to an increase in provision for specific allowance for credit losses. Net gains (losses) on equity securities decreased 4.8 billion yen from the previous fiscal year, mainly due to an increase in losses on write-down of equity securities.

As a result, ordinary profits for the fiscal year ended March 31, 2016 were 1,539.4 billion yen, a decrease of 173.5 billion yen from the previous fiscal year, and profits attributable to owners of parent for the fiscal year ended March 31, 2016 was 951.4 billion yen, a decrease of 82.3 billion yen from the previous fiscal year.

*1 Included gains on loans written-offs (Earnings Target for the fiscal year ending March 31, 2017)

MUFG has set an earnings target of 850.0 billion yen of profits attributable to owners of parent for the fiscal year ending March 31, 2017.

MUFG is engaged in financial service businesses such as banking business, trust banking business, securities business and credit card/loan businesses.

Because there are various uncertainties caused by economic situation, market environments and other factors in these businesses, MUFG discloses a target of its profits attributable to owners of parent instead of a forecast of its performance. Please see 3. Management Policy (4) Management Target , for further information of the target.

(2) Analysis of financial condition

Total assets as of March 31, 2016 increased 12,153.1 billion yen from March 31, 2015 to 298,302.8 billion yen, and total net assets as of March 31, 2016 increased 99.2 billion yen from March 31, 2015 to 17,386.7 billion yen. The increase in total net assets was mainly due to increases in retained earnings.

With regard to major items of assets, securities as of March 31, 2016 decreased 3,544.3 billion yen from March 31, 2015 to 69,993.8 billion yen and loans and bills discounted as of March 31, 2016 increased 4,387.9 billion yen from March 31, 2015 to 113,756.3 billion yen. With regard to major items of liabilities, deposits as of March 31, 2016 increased 7,607.6 billion yen from March 31, 2015 to 160,965.0 billion yen.

With regard to MUFG s consolidated risk-adjusted capital ratio based on the Basel III Standards as of March 31, 2016, Common Equity Tier 1 capital ratio was 11.63%, Tier 1 capital ratio was 13.24% and Total capital ratio was 16.01%.

(3) Basic policy regarding profit distribution and dividends for fiscal years 2015 and 2016

MUFG considers the return of earnings to shareholders to be one of the most important management priorities and makes it a basic policy to aim for a stable and continuous increase in dividends per share through growth in profits.

With respect to the year-end dividend for common stock for fiscal year 2015, MUFG plans to pay ¥9 per share. As a result, the annual dividend for fiscal year 2015, including the interim dividend of ¥9 per share, is expected to be ¥18 per share, which is the same amount as the annual dividend of ¥18 paid for the previous fiscal year.

The annual dividend forecast for common stock for fiscal year 2016 is ¥18 per share, which is the same amount as the annual dividend to be paid for fiscal year 2015.

2. Information on Mitsubishi UFJ Financial Group (MUFG Group)

MUFG Group comprises the holding company, 224 consolidated subsidiaries, and 65 equity-method affiliates. MUFG s goal is to be the world s most trusted financial group, and it is engaged primarily in the banking, trust banking and securities businesses, while also conducting business in credit cards and consumer finance, leasing, asset management and other areas. The Group conducts consolidated reporting of its main entities on a segmental basis and the relationships between MUFG and its major related companies are as shown in the chart below.

⁶

- *1. As of April 1, 2016, Security Bank Corporation became an equity-method affiliate of The Bank of Tokyo-Mitsubishi UFJ, Ltd. following a share acquisition by The Bank of Tokyo-Mitsubishi UFJ, Ltd.
- *2. The ownership of BTMU Capital Corporation is planned to be transferred to MUFG Americas Holdings Corporation on July 1, 2016.
- *3. As of May 1, 2016, Mitsubishi UFJ Global Custody S.A. was renamed Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A.
- *4. Mitsubishi UFJ Securities International plc plans to be renamed MUFG Securities EMEA plc on July 1, 2016.

- *7. Consumer finance subsidiaries.

The Group has a combined group organization through which it seeks as a unified group to meet the financial needs of its customers by providing financial products and services that transcend traditional business boundaries. A system of business groups has been introduced under which the group formulates a unified strategy and pursues its business based on coordination between group companies.

** The Nominating and Governance Committee is a nomination committee under the Companies Act.

*** On July 1, 2016, an Americas Enterprise Risk Management Division is planned to be established within the Global Business Group, and the Americas Enterprise Risk Management Office in the Americas Holdings Division will be abolished.

3. Management Policy

(1) Principal management policy

MUFG Group has formulated the Group Corporate Vision to clarify the nature of the Group s overall mission and the type of group it should aspire to be, and as a shared credo to unify the hearts and minds of Group employees, while meeting the expectations of customers and society. Throughout the Group, the people of MUFG are working under three shared values Integrity and Responsibility, Professionalism and Teamwork, and Challenging Ourselves to Grow while aiming to be the world s most trusted financial group.

Corporate Vision

(2) Medium- and long-term management strategy

The operating environment for financial institutions is transforming substantially amidst such trends as changing patterns of consumption stemming from an aging Japanese population and its declining birthrate and the advance of information and communications technology. It is crucial to the continued progress of MUFG for us to maintain an accurate understanding of such changes, and evolve and reform our business model as a preemptive response to these changes. Based on this recognition, the MUFG Group turned its eye toward the expected operating environment changes over the next decade, and launched its medium-term business plan, which outlines the strategies that will be implemented over the first three years of this period (Fiscal 2015 Fiscal 2017).

The basic policy of the medium-term business plan was defined as Evolution and reformation to achieve sustainable growth for MUFG, and we formulated the Group business strategies and the administrative practices and business foundation strategies of the plan based on three strategic focuses: Customer perspective, Group-driven approach, and Productivity improvements. Customer perspective calls on us to develop business based on changing customer needs. Group-driven approach inspires us to bolster inter-Group company unity and consider how to optimize our business on a Group-wide basis. Productivity improvements encapsulates our commitment to boosting competitiveness by pursuing higher levels of rationality and efficiency.

By swiftly responding to environmental changes and continuing to accelerate and broaden the business and administration strategies outlined in MUFG s medium-term business plan, the Group will pursue improved corporate value and work to live up to the expectations of its customers, shareholders, employees, and other stakeholders.

(3) Key issues

In fiscal 2015, the outlook for the world economy grew more uncertain as markets were affected by the United States exit strategy from quantitative easing and the large impact of China s economic slowdown on developing economies. Financial markets experienced large fluctuations, partly due to the Bank of Japan s adoption of negative interest rates early in 2016. In this environment, MUFG implemented the first year of its medium-term business plan in a concerted, Group-wide effort to advance and revolutionize its business model ahead of structural changes in the future.

Advancing Group business strategies

As part of our Group business strategies, we will maintain our focus on the Japanese market while simultaneously working to incorporate the growth of the global market and evolving and reforming our business model.

For individual customers, the Group will band together to provide asset management, asset administration, and inheritance services and encourage the flow of assets from savings to investment while helping to stimulate consumption by strengthening payment and consumer finance businesses.

To address the needs of SME customers, MUFG will work to provide smooth support for customers funding needs while also implementing initiatives in new business fields. Initiatives in new fields will include enhancing M&A advisory service functions to respond to the rising number of business transfers and bolstering the Group s ability to provide asset management solutions. At the same time, the Group will also accelerate efforts to contribute to the growth of customers through means such as offering business matching services.

Meanwhile, MUFG will respond to the ever more advanced, diverse, and global needs of large companies through concerted efforts conducted on a Group-wide and global basis, and will establish a unique global Corporate & Investment Banking (CIB)*1 model to aid in this endeavor. As part of this process, the Group will consolidate the its sector-specific expertise while deepening strategic collaboration with Morgan Stanley.

In sales and trading operations*2, we intend to advance integrated operations to boost our competitiveness. Specifically, MUFG will push forward with efforts to strengthen its ability to provide products and services that address the diverse needs of various customers, such as corporations and institutional investors, on a global basis.

As for asset management and investor service operations, MUFG is committed to establishing a strong position as a global player in the fields of alternative investment investor services and asset management operations in the United States, Asia, and other regions. Both organic and non-organic strategies will be employed in pursuing this goal.

In transaction banking*3 operations, we aim to build an unrivaled position in the domestic market. At the same time, we will redouble efforts to address cross-border business flows, and expand trade finance operations. In addition, we will bolster product competitiveness and step up inter-regional collaboration to increase deposit balances.

Outside Japan, MUFG is working to establish and strengthen unique, comprehensive commercial banking platforms. These efforts are centered around Bank of Ayudhya Public Company Limited and MUFG Union Bank, N.A and also include developing our new capital and business alliance with Security Bank Corporation. The Group s overseas operations have previously focused primarily on transactions with large companies, but in strengthening platforms we are branching out to accommodate local individual and SME customers.

- *1 A business model that provides customers with end-to-end, comprehensive financial services including both Corporate Banking (e.g. deposits and loans) and Investment Banking (e.g. M&A advisory) services, in order to help customers increase their corporate value
- *2 General term for sales operations involving the provision of financial products and solutions including foreign exchange and derivatives, and trading operations to buy and sell marketable products through inter-bank trading or trading on exchanges
- *3 General term for deposit business, domestic exchange business, foreign exchange business, and related businesses such as cash management and trade finance

Enhancement of management fundamentals and controls

Strategies for enhancing management fundamentals and controls include the following measures to improve upon the financial base and administration practices that will underpin the evolution and reformation of business models.

BTMU, MUTB, and MUSHD will transition to Company with Audit and Supervisory Committee. Through building effective frameworks for business supervision by the Board of Directors, MUFG aims to further strengthen corporate governance systems, and governance on both a Group and global basis. At the same time, MUFG is developing more evolved and advanced comprehensive risk management practices that address new regulations and progress in businesses while placing emphasis on managing risks in an integrated and preventative manner.

We aim to strengthen and streamline the Group business platform, and this will be done in part through shared usage of systems, back-office functions, and facilities on a Group-wide basis.

In managing the Group s finances and capital, we will work to entrench frameworks for increasing returns on risks taken, which will be done while maintaining a strong capital base as the first priority. We will also diversify funding methods in consideration of global financial regulations.

Communication with external stakeholders and Group employees will be conducted strategically and in a manner that is integrated on a Group-wide and global basis to maximize the benefits of this communication. We recognize internal communication as a means of fostering a corporate culture and creating sense of cohesion within the Group. Meanwhile, communication with outside parties contributes to improving customer satisfaction and brand value and helps accomplish corporate social responsibility activities.

Notes to the Consolidated Financial Statements

(Notes on Going-Concern Assumption)

Not applicable

(Significant Accounting Policies Applied in the Preparation of the Consolidated Financial Statements)

1. Scope of Consolidation

(1) Number of Consolidated Subsidiaries: 224 Principal companies:

The Bank of Tokyo-Mitsubishi UFJ, Ltd. Mitsubishi UFJ Trust and Banking Corporation ACOM CO., LTD. (Changes in the scope of consolidation) Mitsubishi UFJ Securities Holdings Co., Ltd. Mitsubishi UFJ NICOS Co., Ltd.

In the current fiscal year, Mitsubishi UFJ Capital V, Limited Partnership and 12 other companies were newly consolidated following new establishments or for other reasons.

In the current fiscal year, Mitsubishi UFJ Venture Fund II, Limited Partnership and 14 other companies were excluded from the scope of consolidation because they were no longer subsidiaries due to liquidation or other reasons.

(2) Non-consolidated Subsidiaries: None

(3) Entities not Accounted for as Subsidiaries even though MUFG owns the Majority of Voting Rights: Hygeia Co., Ltd.

OiDE CapiSEA, Inc.

These were not treated as subsidiaries because Hygeia was established as a property management agent for a land trust project without any intent to control, or because OiDE CapiSEA, Inc. was established as ownership to benefit from the appreciation of their investments resulting from growth of the investees businesses without any intent to control.

2. Application of the Equity Method

(1) Number of Non-consolidated Subsidiaries Accounted for under the Equity Method: None

Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form 6-K

(2) Number of Affiliates Accounted for under the Equity Method: 65 Principal companies:

Mitsubishi UFJ Lease & Finance Company Limited

Morgan Stanley

(Changes in the scope of application of the equity method)

In current fiscal year, GOLDEN ASIA FUND II, L.P. and 2 other companies were newly included in the scope of application of the equity method following new establishments.

(3) Number of Non-consolidated Subsidiaries not Accounted for under the Equity Method: None

(4) Affiliates not Accounted for under the Equity Method: None

(5) Entities not Recognized as Affiliates in which MUFG Owns 20% to 50% of their Voting Rights: TECHTOM Ltd.

Osteopharma Inc.

Hirosaki Co., Ltd.

EDP Corporation

ISLE Co.,Ltd.

Fun Place Co.,Ltd.

AKITAYA Co,.Ltd.

These were not treated as affiliates because MUFG s consolidated venture capital subsidiaries owned 20% to 50% of voting rights primarily to benefit from the appreciation of their investments resulting from growth or restructuring of the investees businesses, without any intent to control.

- 3. The Balance Sheet Dates of Consolidated Subsidiaries
 - (1) The balance sheet dates of consolidated subsidiaries were as follows:

| August 31: | 1 | subsidiary |
|--------------|-----|--------------|
| October 31: | 1 | subsidiary |
| December 31: | 140 | subsidiaries |
| January 24: | 17 | subsidiaries |
| March 31: | 65 | subsidiaries |

(2) A subsidiary whose balance sheet date is August 31 was consolidated based on its preliminary financial statements as of February 29.

A subsidiary whose balance sheet date is October 31 was consolidated based on its preliminary financial statements as of January 31.

Subsidiaries other than specified above were consolidated based on the financial statements as of their balance sheet dates.

Adjustments were made to the consolidated financial statements to reflect the significant transactions that occurred between the balance sheet dates of the subsidiaries and the consolidated balance sheet date.

4. Accounting Policies

(1) Trading Assets and Trading Liabilities; Trading Income and Expenses

Transactions involving short-term fluctuations or arbitrage opportunities in interest rates, currency exchange rates, market prices of financial instruments or other market indices (trading purposes) are presented in Trading assets and Trading liabilities on the consolidated balance sheet on a trade-date basis, and gains and losses from trading transactions (interest and dividends, gains or losses on sales and gains or losses on valuation) are presented in Trading income and Trading expenses on the consolidated statement of income on a trade-date basis.

Trading assets and trading liabilities are stated at their fair values on the consolidated balance sheet date.

- (2) Securities
 - (A) Debt securities being held to maturity are stated at amortized cost (using the straight-line method) computed using the moving average method. Other securities are primarily stated at their quoted market prices on the consolidated balance sheet date (cost of securities sold is calculated primarily using the moving average method), and other securities whose fair value is extremely difficult to estimate are stated at acquisition costs computed using the moving average method. Net unrealized gains (losses) on other securities are included directly in net assets, net of applicable income taxes, except in the case of application of the fair value hedge accounting method, in which the change in fair value recognized is recorded in current earnings.
 - (B) Securities that are held as trust assets in money held in trust are accounted for under the same basis as noted above in Notes (1) and (2)(A). Unrealized gains and losses on securities in money held in trust, which are not held for trading purposes or held to maturity, are included directly in net assets, net of applicable income taxes.

(3) Derivatives

Derivative transactions (other than trading purposes) are calculated primarily based on fair value.

(4) Depreciation and Amortization of Fixed Assets

(A) Tangible Fixed Assets (Except for Lease Assets) Depreciation of tangible fixed assets of MUFG and its domestic consolidated banking subsidiaries and domestic consolidated trust banking subsidiaries is computed using the declining-balance method.

The useful lives are primarily estimated as follows:

| Buildings: | 15 to 50 years |
|------------|----------------|
| Equipment: | 2 to 20 years |

Depreciation of tangible fixed assets of other consolidated subsidiaries is computed primarily using the straight-line method based on their estimated useful lives.

(B) Intangible Fixed Assets (Except for Lease Assets)

Amortization of intangible fixed assets is computed using the straight-line method. Development costs for internally used software are amortized using the straight-line method over the estimated useful lives of primarily 3 to 10 years.

(C) Lease Assets

Depreciation or amortization of lease assets in Tangible fixed assets or Intangible fixed assets of the finance leases other than those that are deemed to transfer the ownership of leased property to the lesses is computed using the straight-line method over the lease periods with zero residual value unless residual value is guaranteed by the corresponding lease contracts.

(5) Deferred Assets

Bond issuance costs and stock issuance costs are expensed as incurred.

(6) Allowance for Credit Losses

Principal domestic consolidated subsidiaries provide an allowance for credit losses in accordance with the internal standards for self-assessment of asset quality and the internal standards for write-offs and provisions.

For claims on borrowers that have entered into bankruptcy, special liquidation proceedings or similar legal proceedings or whose notes have been dishonored and suspended from processing through clearing houses (bankrupt borrowers) or borrowers that are not legally or formally bankrupt but are regarded as substantially in a similar condition (substantially bankrupt borrowers), allowances are provided based on the amount of claims, after the write-offs as stated below, net of expected amounts to be collected through the disposal of collateral and the execution of guarantees.

For claims on borrowers that are not yet legally or formally bankrupt but deemed to have a high possibility of becoming bankrupt (potentially bankrupt borrowers) excluding a portion of which principal and interest payment can be reasonably estimated from borrower s cash flows, allowances are provided based on an overall solvency assessment of the claims, net of expected amounts to be collected through the disposal of collateral and the execution of guarantees.

For claims on potentially bankrupt borrowers and claims on borrowers requiring close monitoring, of which principal and interest payment can be reasonably estimated from borrower s cash flows, allowances are provided in an amount equal to the difference between the book value of the claims and the relevant cash flows discounted by the initial contractual interest rates.

For other claims, allowances are provided based on historical credit loss experience.

For claims originated in specific foreign countries, additional allowances are provided based on an assessment of political and economic conditions of these countries.

All claims are assessed by branches and the credit supervision departments in accordance with the internal standards for self-assessment of asset quality. The credit review department, which is independent from those operating sections, subsequently audits these assessments.

For claims on bankrupt borrowers and substantially bankrupt borrowers, the amount of claims exceeding the estimated value of collateral or guarantees, which is deemed uncollectible, has been written-off. The total amount of write-offs was \$397,076 million.

Consolidated subsidiaries, not adopting procedures stated above, provide allowances based on their historical credit loss experience for general claims and based on individual assessments of the possibility of collection for specific deteriorated claims.

(7) Reserve for Bonuses

Reserve for bonuses, which is provided for future bonus payments to employees, reflects an estimated amount accrued on the consolidated balance sheet date.

(8) Reserve for Bonuses to Directors

Reserve for bonuses to directors, which is provided for future bonus payments to directors, reflects an estimated amount accrued on the consolidated balance sheet date.

(9) Reserve for Retirement Benefits to Directors

Reserve for retirement benefits to directors, which is provided for future payments of retirement benefits to directors of subsidiaries, is recorded in the amount deemed accrued on the consolidated balance sheet date based on the estimated amount of benefits.

(10) Reserve for Loyalty Award Credits

Reserve for loyalty award credits, which is provided to meet future use of credits granted to credit card (such as Super IC Card) customers, is recorded in the amount deemed necessary based on the estimated future use of unused credits.

(11) Reserve for Contingent Losses

Reserve for contingent losses, which is provided for possible losses from contingent events related to off-balance -sheet and other transactions, is calculated by estimating the impact of such contingent events and includes future claims for repayment of excess interest payments on consumer loans that are estimated based on the past and pending claims.

(12) Reserves under Special Laws

Reserves under special laws represent the reserve for contingent liabilities from financial instrument transactions set aside in accordance with Article 46-5-1 and Article 48-3-1 of the Financial Instruments and Exchange Law and Article 175 and Article 189 of the Cabinet Office Ordinance on Financial Instruments Business.

(13) Retirement Benefits

In calculating benefit obligation, the portion of projected benefit obligation attributed to the current fiscal year is determined using the benefit formula basis.

Unrecognized prior service cost is amortized using the straight-line method for a fixed period, primarily over 10 years, within the employees average remaining service period.

Unrecognized net actuarial gains (losses) are amortized using the straight-line method for a fixed period, primarily over 10 years, within the employees average remaining service period, starting from the subsequent fiscal year after its occurrence.

For certain overseas branches of domestic consolidated subsidiaries and some of consolidated subsidiaries, net defined benefit liability and retirement benefit expenses are calculated by the simplified method.

(14) Translation of Assets and Liabilities Denominated in Foreign Currencies

Assets and liabilities denominated in foreign currencies or booked at overseas branches of domestic consolidated banking subsidiaries and domestic consolidated trust banking subsidiaries are translated into yen primarily at exchange rates prevailing at the consolidated balance sheet date, except for investments in non-consolidated affiliates which are translated into yen at exchange rates prevailing at the acquisition dates.

Assets and liabilities denominated in foreign currencies of other consolidated subsidiaries are translated into yen at the exchange rates prevailing at the respective balance sheet date.

(15) Leasing Transactions

(As Lessees)

Domestic consolidated subsidiaries finance leases other than those that are deemed to transfer the ownership of leased property to the lessees are accounted for in a similar way to purchases, and depreciation for lease assets is computed using the straight-line method over the lease term with zero residual value unless residual value is guaranteed by the corresponding lease contracts.

(As Lessors)

Finance leases other than those that are deemed to transfer the ownership of leased property to the lessees are accounted for in a similar way to sales and income and expenses related to such leases are recognized by allocating interest equivalents to applicable fiscal periods instead of recording sales as Other ordinary income.

(16) Hedge Accounting

(A) Hedge Accounting for Interest Rate Risks

Domestic consolidated banking subsidiaries and domestic consolidated trust banking subsidiaries have adopted the deferred hedge accounting method for hedging transactions for interest rate risks arising from financial assets and liabilities. Portfolio hedging or individual hedging, as described in the Japanese Institute of Certified Public Accountants (JICPA) Industry Audit Committee Report No. 24, Treatment of Accounting and Auditing of Application of Accounting Standard for Financial Instruments in Banking Industry (February 13, 2002) and JICPA Accounting Committee Report No. 14, Practical Guidelines for Accounting for Financial Instruments (January 31, 2000), are primarily applied to determine hedged items.

With respect to hedging transactions to offset fluctuations in the fair value of fixed rate deposits, loans and other instruments, hedging instruments (e.g. interest rate swaps) are designated to hedged items individually or collectively by their maturities in accordance with JICPA Industry Audit Committee Report No. 24. With respect to hedging transactions to offset fluctuations in fair value of fixed rate bonds classified as other securities, hedging instruments (e.g. interest rate swaps) are designated to hedged items collectively by the type of bond. Since material terms related to hedged items and hedging instruments are substantially identical, and such hedging transactions are deemed highly effective, the assessment of effectiveness is based on the similarity of the terms.

With respect to hedging transactions to fix the cash flows related to floating rate deposits and loans as well as forecasted transactions related to short-term fixed rate deposits, loans and other instruments, hedging instruments (e.g. interest rate swaps) are designated to hedged items collectively by interest rate indices and tenors in accordance with JICPA Industry Audit Committee Report No. 24. Since material terms related to hedged items and hedging instruments are substantially identical, and such hedging transactions are deemed highly effective, the assessment of effectiveness is based on the similarity of the terms. The effectiveness of hedging transactions is also assessed by the correlation between factors that cause fluctuations in interest rates of hedged items and those of hedging instruments.

(B) Hedge Accounting for Foreign Currency Risks

Domestic consolidated banking subsidiaries and domestic consolidated trust banking subsidiaries have adopted the deferred hedge accounting method for hedging foreign currency risks arising from financial assets and liabilities denominated in foreign currencies. Portfolio hedging is applied to determine hedged items as described in JICPA Industry Audit Committee Report No. 25 Treatment of Accounting and Auditing concerning Accounting for Foreign Currency Transactions in the Banking Industry (July 29, 2002). Hedging instruments (e.g. currency swaps and forward exchange contracts) are designated to hedged items collectively by currencies.

Portfolio hedging and individual hedging are applied to hedge foreign currency risks arising from equity investments in foreign subsidiaries and foreign affiliates, and other securities (other than bonds) denominated in foreign currencies. Monetary claims and liabilities denominated in the same foreign currencies or forward exchange contracts are used as hedging instruments. As for the hedge accounting method applied to equity investments in foreign subsidiaries and foreign affiliates, foreign currency translation differences arising from hedging instruments are recorded

as foreign currency translation adjustments. The fair value hedge accounting method is applied to other securities (other than bonds) denominated in foreign currencies.

(C) Hedge Accounting for Stock Price Fluctuation Risks

Individual hedging is applied to hedge market fluctuation risks arising from strategic equity securities held by domestic consolidated banking subsidiaries. Instruments such as total return swaps are used as hedging instruments. The effectiveness of hedging transactions is assessed by the correlation between changes in fair value of hedged items and changes in fair value of hedging instruments. The fair value hedge accounting method is applied.

(D) Transactions among Consolidated Subsidiaries

Derivative transactions including interest rate swaps and currency swaps which are designated as hedging instruments among consolidated subsidiaries or between trading accounts and other accounts (or among internal sections) are not eliminated from the consolidated statements of income or valuation difference, but are recognized as related gains or losses or deferred under hedge accounting because these derivative transactions are executed, meeting certain criteria under JICPA Industry Audit Committee Reports No. 24 and No. 25 and they are regarded as equivalent to external third-party transactions.

(17) Amortization Method and Amortization Period of Goodwill Goodwill is primarily amortized using the straight-line method over 20 years starting from the period of the acquisition. Other goodwill with insignificant balances is expensed as incurred.

(18) Cash and Cash Equivalents in the Consolidated Statements of Cash Flows Cash and cash equivalents in the consolidated statements of cash flows are defined as Cash and due from banks on the consolidated balance sheet, excluding time deposits and negotiable certificates of deposits in other banks.

(19) Consumption Taxes

National and local consumption taxes are excluded from transaction amounts. Non-deductible portions of consumption taxes on the purchases of tangible fixed assets are expensed when incurred.

(20) Adoption of Consolidated Taxation System

MUFG and some of its domestic consolidated subsidiaries adopt the consolidated taxation system.

(21) Accounting Standard for Foreign Subsidiaries

Financial statements of foreign subsidiaries are used for consolidated accounting as long as they are prepared in accordance with the International Financial Reporting Standards (IFRS) or Accounting Principles Generally Accepted in the United States (U.S. GAAP).

If they are prepared in accordance with generally accepted accounting principles in each domicile country and not in accordance with IFRS or U.S. GAAP, the financial statements of foreign subsidiaries are mainly rearranged in accordance with U.S. GAAP. They were also adjusted when necessary in the process of consolidation.

(Changes in Method of Presentation)

Change in presentation for Net income, etc. as well as change in presentation from Minority interests to Non-controlling interests has been carried out, in compliance with the provisions, etc. in Article 39 of the Revised Accounting Standard for Consolidated Financial Statements (ASBJ Statement No. 22 issued on September 13, 2013).

(Consolidated Balance Sheet)

- 1. Securities include ¥2,559,559 million in stock and ¥29,730 million in investments of affiliates.
- For borrowed securities under securities borrowing transactions and securities purchased under resale agreements which were permissible to be sold or re-pledged without restrictions, ¥12,388,598 million of such securities were re-pledged, ¥222,362 million were re-loaned and ¥3,091,874 million were held by MUFG as of the consolidated balance sheet date.

3. Loans to bankrupt borrowers: ¥54,913 million. Non-accrual delinquent loans: ¥1,110,576 million.

Loans to bankrupt borrowers are loans, after write-offs, to bankrupt borrowers as defined in Article 96-1-3-1 to 5 and 96-1-4 of the Enforcement Ordinance of the Corporate Tax Law (No. 97 in 1965) on which accrued interest income is not recognized (Non-accrual loans) as there is substantial doubt as to the collection of principal and/or interest because of delinquencies in payment of principal and/or interest for a significant period of time or for some other reasons.

Non-accrual delinquent loans represent non-accrual loans other than loans to bankrupt borrowers and loans renegotiated at concessionary terms including reduction or deferral of interest due to borrowers weakened financial condition.

4. Loans past due for 3 months or more: ¥51,620 million.

Loans past due for 3 months or more represent loans whose principal and/or interest payments have been past due for 3 months or more excluding loans to bankrupt borrowers and non-accrual delinquent loans.

5. Restructured loans: ¥438,767 million.

Restructured loans represent loans renegotiated at concessionary terms including reduction or deferral of interest or principal and waiver of the claims for the purpose of business reconstruction or support for the borrower, excluding loans to bankrupt borrowers, non-accrual delinquent loans and loans past due for 3 months or more.

6. The total amount of loans to bankrupt borrowers, non-accrual delinquent loans, loans past due for 3 months or more and restructured loans was ¥1,655,877 million.

The amounts provided in Notes 3 to 6 represent gross amounts before the deduction of allowances for credit losses.

- 7. Bills discounted were accounted for as financial transactions in accordance with JICPA Industry Audit Committee Report No. 24. MUFG s banking subsidiaries and trust banking subsidiaries have rights to sell or pledge bank acceptances bought, commercial bills discounted, documentary bills and foreign exchanges bought without restrictions. The total face value of these bills was ¥1,088,768 million.
- 8. Assets pledged as collateral were as follows:

| Cash and due from banks | ¥6,194 million |
|----------------------------|--------------------|
| Trading assets | ¥125,562 million |
| Securities | ¥2,843,706 million |
| Loans and bills discounted | ¥7,587,495 million |

Liabilities related to pledged assets were as follows:

| Deposits | ¥755,683 million |
|----------------------------|--------------------|
| Trading liabilities | ¥25,015 million |
| Borrowed money | ¥9,323,452 million |
| Bonds payable | ¥19,301 million |
| Acceptances and guarantees | ¥130,389 million |

In addition to the items listed above, \$3,425 million of cash and due from banks, \$792,042 million of monetary claims bought, \$273,007 million of trading assets, \$7,231,961 million of securities, and \$11,285,082 million of loans and bills discounted were pledged as collateral for cash settlements and other transactions or as deposits for margin accounts of futures and other transactions. \$1,718,168 million of trading assets and \$14,804,600 million of securities were sold under repurchase agreements or loaned under secured lending transactions with cash collateral. Payables corresponding to the assets sold or loaned under repurchase agreements and under securities lending transactions were \$13,081,752 million and \$3,069,990 million, respectively.

Bills rediscounted were accounted for as financial transactions in accordance with JICPA Industry Audit Committee Report No. 24. The total face value of bills of exchange rediscounted was ¥8,860 million.

9. Overdraft facilities and commitment lines of credit are binding contracts under which MUFG s consolidated subsidiaries have obligations to disburse funds up to predetermined limits upon the borrower s request as long as there have been no breach of contracts. The total amount of the unused portion of these facilities was ¥88,241,307 million.

The total amount of the unused portion does not necessarily represent actual future cash requirements because many of these contracts are expected to expire without being drawn upon. In addition, most of these contracts include clauses which allow MUFG s consolidated subsidiaries to decline the borrower s request for disbursement or decrease contracted limits for cause, such as changes in financial condition or deterioration in the borrower s creditworthiness. MUFG s consolidated subsidiaries may request the borrowers to pledge real property and/or securities as collateral upon signing of the contract and will perform periodic monitoring on the borrower s business conditions in accordance with internal procedures, which may lead to renegotiation of the terms and conditions of the contracts and/or initiate the request for additional collateral and/or guarantees.

10. In accordance with the Law concerning Revaluation of Land (the Law) (No. 34, March 31, 1998), land used for business operations of domestic consolidated banking subsidiaries and domestic consolidated trust banking subsidiaries has been revalued as of the dates indicated below. The total excess from revaluation, net of income taxes corresponding to the excess which were recognized as Deferred tax liabilities for land revaluation, is stated as Land revaluation excess in net assets. Land revaluation excess includes MUFG s share of affiliated companies land revaluation excess.

Dates of revaluation:

5. Securities Incurred Impairment Losses

Securities other than those held for trading purposes and investment in affiliates (excluding certain securities of which fair value is extremely difficult to determine) are subject to write-downs when their fair value has been impaired considerably and it is not probable that the value will recover to the acquisition cost as of the end of the current fiscal year. In such case, the fair value is recorded on the consolidated balance sheet and the difference between fair value and acquisition cost is recognized as losses for the fiscal year (referred to as impairment losses).

For the current fiscal year, impairment losses were \$10,351 million consisting of \$10,063 million of impairment losses on equity securities and \$287 million of impairment losses on bonds and other securities in which securities whose fair value was extremely difficult to estimate were included.

Considerable decline in fair value was determined based on the classification of issuers in accordance with the internal standards for self-assessment of asset quality as follows:

Bankrupt, Substantially bankrupt or Potentially bankrupt issuers:

Fair value is lower than acquisition cost.

Issuers requiring close monitoring:

Fair value has declined 30% or more from acquisition cost.

Other issuers:

Fair value has declined 50% or more from acquisition cost.

Bankrupt issuers mean issuers who have entered into bankruptcy, special liquidation proceedings or similar legal proceedings or whose notes have been dishonored and suspended from processing through clearing houses. Substantially bankrupt issuers mean issuers who are not legally or formally bankrupt but are regarded as substantially in a similar condition. Potentially bankrupt issuers mean issuers who are not yet legally or formally bankrupt but deemed to have a high possibility of becoming bankrupt. Issuers requiring close monitoring mean issuers who are financially weak and under close monitoring conducted by MUFG s subsidiaries. Other issuers mean issuers who do not correspond to any of the four categories of issuers mentioned above.
