Item 1.01 Entry into a Material Definitive Agreement.

On August 11, 2017, Blackstone Mortgage Trust, Inc. (the *Company*) completed its registered underwritten public offering of \$115.0 million aggregate principal amount of its 4.375% Convertible Senior Notes due 2022 (the *Notes*), including \$15.0 million aggregate principal amount sold pursuant to the underwriter's exercise in full of its option to purchase additional Notes, pursuant to an underwriting agreement, dated August 8, 2017, among the Company, BXMT Advisors L.L.C. and Barclays Capital Inc., as underwriter, in a reopening of the Company's existing series of such Notes. The Notes were sold pursuant to the Company's effective shelf registration statement on Form S-3ASR (File No. 333-212769) filed on July 29, 2016 and the related prospectus dated July 29, 2016, as supplemented by a prospectus supplement dated August 8, 2017.

Indenture and Notes

The Notes are governed by the Indenture, dated as of November 25, 2013 (the *Base Indenture*) between the Company and The Bank of New York Mellon Trust Company N.A., as trustee (the *Trustee*), as supplemented by the second supplemental indenture, dated as of May 5, 2017, between the Company and the Trustee (the *Supplemental Indenture* and, together with the Base Indenture, the *Indenture*).

The Notes represent an additional issuance of the 4.375% Convertible Senior Notes due 2022 of the Company, which were initially issued in an aggregate principal amount of \$250,000,000 on May 5, 2017, with an additional \$37,500,000 in aggregate principal amount issued on May 23, 2017 following the exercise in full of the underwriters option to purchase additional Notes (collectively, the *Outstanding Notes*). Following consummation of the offering of the Notes, the total aggregate principal amount of the Company's 4.375% Convertible Senior Notes due 2022 outstanding is \$402,500,000. The Notes constitute *Additional Notes* under the Indenture and have the same terms as the *Outstanding Notes*. In addition, the Notes have the same CUSIP number as, and are fungible with, the *Outstanding Notes*. The Notes are treated with the *Outstanding Notes* as a single class, and holders of the Notes and the *Outstanding Notes* vote as one class under the Indenture.

The Notes pay interest semi-annually on May 1 and November 1, commencing on November 1, 2017, at a rate of 4.375% per year, and mature on May 5, 2022, unless earlier converted or purchased by the Company. The Notes are the Company's senior unsecured obligations that rank equally in right of payment with all of the Company's existing and future unsecured and unsubordinated indebtedness, including the Company's 5.25% Convertible Senior Notes due 2018 and the *Outstanding Notes*, senior in right of payment to any of the Company's future indebtedness that is expressly subordinated in right of payment to the Notes, effectively junior to any of the Company's existing and future secured indebtedness to the extent of the value of the assets securing such indebtedness, and structurally subordinated to all existing and future indebtedness (including trade payables) and preferred equity of the Company's subsidiaries as well as any of the Company's existing or future indebtedness that may be guaranteed by any of its subsidiaries (to the extent of any such guarantee).

At any time prior to 5:00 p.m., New York City time, on the business day immediately preceding February 1, 2022, the Notes will be convertible at the option of the holder only upon the specified events and during the specified periods set forth in the following paragraph. Thereafter, the Notes will be convertible at the option of the holder at any time until 5:00 p.m., New York City time, on the second scheduled trading day immediately preceding the maturity date. The Notes will initially be convertible at a conversion rate of 28.0324 shares of the Company's class A common stock per \$1,000 principal amount of Notes, which is equivalent to an initial conversion price of approximately \$35.67 per share of class A common stock. The conversion rate is subject to adjustment upon certain events. Upon conversion, the Company's conversion obligation will be satisfied in cash, shares of class A common stock or a combination thereof (subject to the Company's right to deliver cash in lieu of all or a portion of such shares, based upon a Daily Conversion Value (as defined in the Indenture) calculated for each VWAP Trading Day (as defined in the Indenture) in the applicable 25 VWAP Trading Day Observation Period (as defined in the Indenture)).

Edgar Filing: BLACKSTONE MORTGAGE TRUST, INC. - Form 8-K

Prior to 5:00 p.m., New York City time, on the business day immediately preceding February 1, 2022, the Notes will be convertible at the option of the holder only under the following circumstances:

(i) during any calendar quarter commencing after June 30, 2017 (and only during such calendar quarter), if the last reported sale price of the Company's class A common stock for at least 20 trading days (whether or not consecutive) during the period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 110% of the applicable conversion price on each applicable trading day;

(ii) during the five consecutive business day period after any five consecutive trading day period, or the measurement period, in which the Trading Price (as defined in the Indenture) per \$1,000 principal amount of notes for each trading day of such measurement period was less than 98% of the product of the last reported sale price of the Company's class A common stock and the applicable conversion rate on each such trading day; or

(iii) upon the occurrence of specified corporate events.

Upon a Fundamental Change (as defined in the Indenture), holders may require the Company to purchase the Notes in whole or in part for cash at a price equal to 100% of the principal amount of the Notes to be purchased, plus any accrued and unpaid interest to, but not including, the fundamental change purchase date. In addition, upon a Make-Whole Fundamental Change (as defined in the Indenture), the Company will, under certain circumstances, increase the applicable conversion rate for a holder that elects to convert its Notes in connection with such Make-Whole Fundamental Change.

The Indenture provides that the following are events of default under the Indenture: (a) failure to pay the principal of any Note (including the fundamental change purchase price) when due and payable on the maturity date, upon required repurchase, upon declaration of acceleration or otherwise; (b) failure to pay interest when due and such failure continues for 30 days; (c) failure to observe or perform any other covenant contained in the Notes or the Indenture and such failure continues for 60 days after the Company receives written notice from the Trustee or holders of at least 25% of the aggregate principal amount of the Notes (including the Outstanding Notes); (d) failure by the Company to comply with its obligation to convert the Notes into the amount of cash or the combination of cash and shares of class A common stock, if any, in accordance with the Indenture upon exercise of a holder's conversion right and that failure continues for five business days; (e) failure by the Company to comply with its obligations regarding a consolidation, merger or sale; (f) failure by the Company to issue certain notices when due; (g) failure by the Company to pay beyond any applicable grace period, or the acceleration of indebtedness of the Company or any of its subsidiaries in an aggregate amount greater than \$50.0 million (or its foreign currency equivalent at the time); and (h) certain events of bankruptcy, insolvency or reorganization involving the Company.

If certain bankruptcy and insolvency-related events of defaults with respect to the Company occur, the principal of, and accrued and unpaid interest on, all of the then outstanding Notes will automatically become due and payable. If an event of default other than certain bankruptcy and insolvency-related events of defaults with respect to the Company occurs and is continuing, the Trustee by notice to the Company or the holders of the Notes (including the Outstanding Notes) of at least 25% in principal amount of the outstanding Notes (including the Outstanding Notes) by notice to the Company and the Trustee, may declare the principal of, and accrued and unpaid interest on, all of the then outstanding Notes (including the Outstanding Notes) to be due and payable. Notwithstanding the foregoing, the Indenture provides that, to the extent the Company elects, the sole remedy for an event of default relating to certain failures by the Company to comply with reporting covenants in the Indenture consists exclusively of the right to receive additional interest on the Notes.

The foregoing summary description of the material terms of the Base Indenture and the Supplemental Indenture is qualified in its entirety by reference to the Base Indenture, a copy of which has been filed as Exhibit 4.1 to the Company's Current Report on Form 8-K (File No. 001-14788) filed with the Securities and Exchange Commission (the Commission) on November 25, 2013, and the Supplemental Indenture, a copy of which has been filed as Exhibit 4.2 to the Company's Current Report on Form 8-K (File No. 001-14788) filed with the Commission on May 5, 2017 (and which includes the form of 4.375% Convertible Senior Notes due 2022, filed as Exhibit 4.3 to such Current Report on Form 8-K), each of which is incorporated herein by reference.
