WisdomTree Long-Term Treasury PutWrite Strategy Fund

Investment Objective

The WisdomTree Long-Term Treasury PutWrite Strategy Fund (the “Fund”) seeks long-term growth of capital and income generation.

Fees and Expenses of the Fund

The following table describes the fees and expenses you may pay if you buy and hold shares of the Fund. The fees are expressed as a percentage of the Fund’s average net assets.

Shareholder Fees (fees paid directly from your investment)	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	[__]%
Distribution and/or Service (12b-1) Fees	None
Other Expenses	0.00% ¹
Total Annual Fund Operating Expenses	[__]%
Fee Waivers	[__]% ²
Total Annual Fund Operating Expenses After Fee Waivers	[__]% ²

1 Other Expenses are based on estimated amounts for the current fiscal year.

WisdomTree Asset Management, Inc. has contractually agreed to limit the Management Fee to [__]% through 2 [__], 2019, unless earlier terminated by the Board of Trustees of WisdomTree Trust (the “Trust”) for any reason at any time.

Example

The following example is intended to help retail investors compare the cost of investing in the Fund with the cost of investing in other funds. It illustrates the hypothetical expenses that such investors would incur over various periods if they were to invest \$10,000 in the Fund for the time periods indicated and then redeem all of the shares at the end of those periods. This example assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. This example does not include the brokerage commissions that retail investors may pay to buy and sell shares of the Fund. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1 Year 3 Years

\$[__] \$[__]

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in a substantial amount of distributions from the Fund to be taxed as ordinary income, which may limit the tax efficiency of the Fund. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. Because the Fund is newly organized, portfolio turnover information is not yet available.

Principal Investment Strategies of the Fund

The Fund, an exchange traded fund (“ETF”), is actively managed.

The Fund seeks to achieve its investment objective primarily through a strategy of selling (or “writing”) listed put options on one or more ETFs that track the performance of debt issued by the U.S. Treasury with remaining maturities of 20 years or more (“Treasury ETF Puts”). The Fund attempts to generate returns through the receipt of option premiums from selling Treasury ETF Puts, while investing the sales proceeds in U.S. Treasury Bills of varying maturities. Accordingly, under normal circumstances, the Fund will invest substantially all of its assets in Treasury

ETF Puts and one- or three-month U.S. Treasury Bills.

In a put writing strategy, the Fund (as the seller of the option) receives premiums from the purchaser of the option in exchange for providing the purchaser with the right to sell the underlying instrument to the Fund at a specific price (i.e., the exercise price or strike price). If the market price of the instrument underlying the option exceeds the strike price, it is anticipated that the option would go unexercised and the Fund would earn the full premium upon the option's expiration or a portion of the premium upon the option's early termination. If the market price

2 WisdomTree Trust Prospectus

Table of Contents

Table of Contents

of the instrument underlying the option drops below the strike price, it is anticipated that the option would be exercised and the Fund would pay the option buyer the difference between the market value of the underlying instrument and the strike price. The proceeds received by the Fund for writing put options will generally be invested in Treasury Bills in order to seek to offset any liabilities the Fund incurs from writing put options.

The Fund's sub-adviser ("____") will select option investments based on estimates of current and future market volatility levels, underlying instrument valuations and perceived market risks. Further, the sub-adviser will evaluate relative option premiums in determining preferred option contract terms, such as exercise prices and expiration dates. At the time of writing a put option, the aggregate investment exposure, as measured on a notional basis (i.e., the value of the underlying instrument at its strike price), of the options written by the Fund will not exceed 100% of the Fund's total assets.

Principal Risks of Investing in the Fund

You can lose money on your investment in the Fund. The Fund is subject to the risks described below. Some or all of these risks may adversely affect the Fund's net asset value per share ("NAV"), trading price, yield, total return and/or ability to meet its objective. For more information about the risks of investing in the Fund, see the sections in the Fund's Prospectus titled "Additional Principal Risk Information About the Fund" and "Additional Non-Principal Risk Information."

Investment Risk. As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time.

Market Risk. The trading prices of fixed income securities and other instruments fluctuate in response to a variety of factors, such as economic, financial or political events that impact the entire market, market segments, or specific issuers. The Fund's NAV and market price may fluctuate significantly in response to these and other factors. As a result, an investor could lose money over short or long periods of time.

Shares of the Fund May Trade at Prices Other Than NAV. As with all ETFs, Fund shares may be bought and sold in the secondary market at market prices. The trading prices of the Fund's shares in the secondary market generally differ from the Fund's daily NAV and there may be times when the market price of the shares is more than the NAV (premium) or less than the NAV (discount). This risk is heightened in times of market volatility or periods of steep market declines.

Cash Redemption Risk. The Fund generally redeems shares for cash or otherwise includes cash as part of its redemption proceeds. The Fund may be required to sell or unwind portfolio investments in order to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize a capital gain that it might not have recognized if it had made a redemption in-kind. As a result, the Fund may pay out higher annual capital gain distributions than if the in-kind redemption process was used.

Cyber Security Risk. The Fund and its service providers may be susceptible to operational and information security risks resulting from a breach in cyber security, including cyber-attacks. A breach in cyber security, intentional or unintentional, may adversely impact the Fund in many ways, including, but not limited to, disruption of the Fund's operational capacity, loss of proprietary information, theft or corruption of data, denial-of-service attacks on websites or network resources, and the unauthorized release of confidential information. Cyber-attacks affecting the Fund's third-party service providers, market makers, Authorized Participants, or the issuers of securities in which the Fund invests may subject the Fund to many of the same risks associated with direct cyber security breaches.

Derivatives Risk. The Fund invests in derivatives, including Treasury ETF Puts. Derivatives are financial instruments that derive their performance from an underlying reference asset, such as an index. The return on a derivative instrument may not correlate with the return of its underlying reference asset. Derivatives are subject to a number of risks described elsewhere in the Fund’s Prospectus, such as market risk and issuer-specific risk. Derivatives can be volatile and may be less liquid than other securities. As a result, the value of an investment in the Fund may change quickly and without warning and you may lose money.

Geopolitical Risk. The Fund sells put options on a Treasury ETF or Treasury ETFs that invest in the United States. The United States has experienced security concerns, war, threats of war, aggression and/or conflict, terrorism, economic uncertainty, natural and environmental disasters and/or systemic market dislocations

Table of Contents

Table of Contents

(including due to events outside of the United States) that have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on the U.S. and world economies and markets generally, each of which may negatively impact the Fund's investments.

Implied Volatility Risk. Upon selling a Treasury ETF Put, the Fund gains the amount of premium it receives; however, the Fund also incurs a liability that represents the value of the Treasury ETF Put it has sold until the Treasury ETF Put is exercised or expires. The value of the Treasury ETF Puts in which the Fund invests is partly based on the volatility used by market participants to price such options (i.e., implied volatility). Consequently, increases in the implied volatility of the Treasury ETF Puts will cause the value of such options to increase (even if the prices of the underlying ETFs' stocks do not change), which will result in a corresponding increase in the liabilities of the Fund under the Treasury ETF Puts and thus decrease the Fund's NAV. The Fund is therefore exposed to implied volatility risk before the Treasury ETF Puts expire or are struck at-the-money. The implied volatility of the Treasury ETF Puts sold by the Fund may increase due to general market and economic conditions, perceptions regarding the industries in which the ETF invests or factors relating to the ETF or specific ETF holdings.

Interest Rate Risk. Interest rate risk is the risk that fixed income securities will decline in value because of an increase in interest rates and changes to other factors, such as perception of an issuer's creditworthiness. Funds with higher durations generally are subject to greater interest rate risk. For example, the price of a security with a ten-year duration would be expected to drop by approximately 10% in response to a 1% increase in interest rates.

Issuer-Specific Risk. Issuer-specific events, including changes in the actual or perceived financial condition of an issuer, can have a negative impact on the value of the Fund.

Management Risk. The Fund is actively managed using proprietary investment strategies and processes. There can be no guarantee that these strategies and processes will be successful or that the Fund will achieve its investment objective.

Non-Diversification Risk. Although the Fund intends to invest in Treasury ETF Puts which are valued based on the underlying ETFs' value and Treasury bills, the Fund will be considered to be non-diversified, which means that it may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were a diversified fund. As a result, the Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a smaller number of issuers than a fund that invests more widely. This may increase the Fund's volatility and cause the performance of a relatively smaller number of issuers to have a greater impact on the Fund's performance.

Portfolio Turnover Risk. The Fund will pay transaction costs, such as commissions or mark-ups in the bid/offer spread on Treasury ETF Puts, when it writes options. Because the Fund may "turn over" its Treasury ETF Puts frequently, the Fund may incur high levels of transaction costs. While the turnover of the Treasury ETF Put positions is not deemed "portfolio turnover" for accounting purposes, the economic impact to the Fund is similar to what could occur if the Fund experienced high portfolio turnover (e.g., in excess of 100% per year).

Put Option Risk. Options may be subject to volatile swings in price influenced by changes in the value of the underlying instrument. Although the Fund collects premiums on the options it writes, the Fund's risk of loss if

its options expire in-the-money (i.e., the Fund, as the seller of the Treasury ETF Puts, owes the buyer of the Treasury ETF Puts) may outweigh the gains to the Fund from the receipt of such option premiums. The potential return to the Fund is limited to the amount of option premiums it receives; however, the Fund can potentially lose up to the entire strike price of each option it sells.

U.S. Treasury Bill Risk. Treasury bills may differ from other debt securities in their interest rates, maturities, times of issuance and other characteristics and may provide relatively lower returns than those other securities. Similar to other issuers, changes to the financial condition or credit rating of the U.S. government may cause the value of the Fund's Treasury bill holdings to decline.

Fund Performance

The Fund is new and therefore does not have a performance history. Updated performance information for the Fund will be available online on the Fund's website at www.wisdomtree.com.

Table of Contents

Management

Investment Adviser and Sub-Adviser

WisdomTree Asset Management serves as investment adviser to the Fund. [____] serves as sub-adviser to the Fund.

Portfolio Managers

The Fund is managed by [____] Portfolio Management team. The individual members of the team jointly and primarily responsible for the day-to-day management of the Fund's portfolio are described below.

[____]

[____]

Buying and Selling Fund Shares

The Fund is an ETF. This means that shares of the Fund are listed on a national securities exchange, such as [____], and trade at market prices. Most investors will buy and sell shares of the Fund through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV (premium) or less than NAV (discount).

The Fund issues and redeems shares at NAV only in large blocks of shares ("Creation Units"), which only certain institutions or large investors (typically market makers or other broker-dealers) may purchase or redeem. Currently, Creation Units generally consist of [50,000] shares, though this may change from time to time. Creation Units are not expected to consist of less than 25,000 shares. The Fund issues and redeems Creation Units in exchange for a portfolio of securities and/or U.S. cash.

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income or capital gains.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank) (an "Intermediary"), WisdomTree Asset Management, Inc. or its affiliates may pay Intermediaries for certain activities related to the Fund, including participation in activities that are designed to make Intermediaries more knowledgeable about exchange traded products, including the Fund, or for other activities, such as marketing, educational training or other initiatives related to the sale or promotion of Fund shares. These payments may create a conflict of interest by influencing the Intermediary and your salesperson to recommend the Fund over another investment. Any such arrangements do not result in increased Fund expenses. Ask your salesperson or visit the Intermediary's website for more information.

Table of Contents

Additional Information About the Fund

Additional Information About the Fund's Investment Objective

Since the Fund's investment objective has been adopted as a non-fundamental investment policy, the Fund's investment objective may be changed without a vote of shareholders upon 60 days' written notice to shareholders.

Non-Principal Information About the Fund's Investment Strategies

The Fund may invest in other investments that the Fund believes will help it meet its investment objective, including cash and cash equivalents, as well as in shares of other investment companies (including affiliated investment companies), futures contracts, options on futures contracts, options and swaps.

The Fund may also invest in short-term, high quality securities issued or guaranteed by U.S. and non-U.S. governments, agencies and instrumentalities, repurchase agreements backed by U.S. government and non-U.S. government securities, money market mutual funds, deposits and other obligations of U.S. and non-U.S. banks and financial institutions ("Money Market Securities"). All Money Market Securities acquired by the Fund will be rated investment grade, except that the Fund may invest in unrated Money Market Securities that are deemed by the Adviser or Sub-Adviser to be of comparable quality to Money Market Securities rated investment grade. The term "investment grade," for purposes of Money Market Securities only, is intended to mean securities rated A1 or A2 by one or more nationally recognized statistical rating organizations.

The Fund may also invest up to 20% of its net assets (in aggregate) in one or more of the following derivative instruments or other investments which the Adviser or Sub-Adviser believes will help the Fund meet its investment objective: total return swaps, futures, and options on futures. For example, the Fund may invest in total return swaps that create positions equivalent to investments in puts and U.S. Treasury securities. The Fund's investment in total return swap agreements will be backed by investments in U.S. government securities in an amount equal to the exposure of such contracts. The Fund may also invest up to 10% of its total assets in over-the-counter put options. The Fund may invest up to 20% of its net assets in other exchange traded products, such as other ETFs, as well as in non-exchange-traded registered open-end investment companies (i.e., mutual funds). The Fund may invest in securities that have variable or floating interest rates which are readjusted on set dates in the case of variable rates or whenever a specified interest rate change occurs in the case of a floating rate instrument.

Temporary Defensive Strategies. The Fund reserves the right to invest in U.S. government securities, money market instruments, and cash, without limitation, as determined by the Adviser or Sub-Adviser in response to adverse market, economic, political or other conditions. In the event the Fund engages in temporary defensive strategies that are inconsistent with its investment strategies, the Fund's ability to achieve its investment objective may be limited.

Securities Lending. The Fund may lend its portfolio securities in an amount not to exceed one third (33 1/3%) of the value of its total assets via a securities lending program through its securities lending agent, State Street Bank and Trust Company, to brokers, dealers and other financial institutions desiring to borrow securities to complete transactions and for other purposes. A securities lending program allows the Fund to receive a portion of the income generated by lending its securities and investing the respective collateral. The Fund will receive collateral for each loaned security which is at least equal to the market value of that security, marked to market each trading day. In the securities lending program, the borrower generally has the right to vote the loaned securities; however, the Fund may call loans to vote proxies if a material issue affecting the Fund's economic interest in the investment is to be voted upon. Security loans may be terminated at any time by the Fund.

Additional Principal Risk Information About the Fund

This section provides additional information regarding the principal risks described under "Principal Risks of Investing in the Fund" in the Fund Summary. Each of the factors below could have a negative impact on Fund performance and trading prices.

Cash Redemption Risk

When the Fund's investment strategy requires it to redeem shares for cash or to otherwise include cash as part of its redemption proceeds, it may be required to sell or unwind portfolio investments in order to obtain the cash needed to

distribute redemption proceeds. This may cause the Fund to recognize capital gains that it might not have recognized if it had made a redemption in-kind (i.e., distribute securities as payment of redemption proceeds). As a result, the Fund may pay out higher annual capital gain distributions than if the in-kind redemption process was used.

6 WisdomTree Trust Prospectus

Table of Contents**Table of Contents****Cyber Security Risk**

The Fund and its service providers may be susceptible to operational and information security risks resulting from a breach in cyber security, including cyber-attacks. A breach in cyber security, intentional or unintentional, may adversely impact the Fund in many ways, including, but not limited to, disruption of the Fund's operational capacity, loss of proprietary information, theft or corruption of data maintained online or digitally, denial-of-service attacks on websites or network resources, and the unauthorized release of confidential information. Cyber-attacks affecting the Fund's third-party service providers, including the investment adviser, sub-adviser, administrator, custodian, and transfer agent, may subject the Fund to many of the same risks associated with direct cyber security breaches and adversely impact the Fund. For instance, cyber-attacks may impact the Fund's ability to calculate its NAV, cause the release of confidential business information, impede trading, cause the Fund to incur additional compliance costs associated with corrective measures, subject the Fund to regulatory fines or other financial losses, and/or cause reputational damage to the Fund. Cyber security breaches of market makers, Authorized Participants, or the issuers of securities in which the Fund invests could also have material adverse consequences on the Fund's business operations and cause financial losses for the Fund and its shareholders. While the Fund and its service providers have established business continuity plans and risk management systems designed to address cyber security risks, prevent cyber-attacks and mitigate the impact of cyber security breaches, there are inherent limitations on such plans and systems. In addition, the Fund has no control over the cyber security protections put in place by its service providers or any other third parties whose operations may affect the Fund or its shareholders.

Derivatives Risk

The Fund invests in derivatives, including Treasury ETF Puts. Derivatives are financial instruments that derive their performance from an underlying reference asset, such as an index, interest rate or currency exchange rate. Derivatives are subject to a number of risks described elsewhere in this Prospectus, such as market risk and issuer-specific risk. They also involve the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index, or that the counterparty to a derivative contract might default on its obligations. Derivatives can be volatile and may be less liquid than other securities. As a result, the value of an investment in the Fund may change quickly and without warning, and you may lose money.

Geopolitical Risk

The Fund sells put options on a Treasury ETF or Treasury ETFs that invest in the United States. The United States has experienced security concerns, war, threats of war, aggression and/or conflict, terrorism, economic uncertainty, natural and environmental disasters and/or systemic market dislocations (including due to events outside of the United States) that have led, and in the future may lead, to increased short-term market volatility and may have adverse long-term effects on the U.S. and world economies and markets generally, each of which may negatively impact the Fund's investments.

Implied Volatility Risk

When the Fund sells a Treasury ETF Put, the Fund gains the amount of premium it receives; however, the Fund also incurs a liability that represents the value of the Treasury ETF Put it has sold until the Treasury ETF Put is exercised or expires. The value of the Treasury ETF Puts in which the Fund invests is partly based on the volatility used by market participants to price such options (i.e., implied volatility). Consequently, increases in the implied volatility of the Treasury ETF Puts will cause the value of such options to increase (even if the prices of the underlying ETFs' holdings do not change), which will result in a corresponding increase in the liabilities of the Fund under the Treasury ETF Puts and thus decrease the Fund's NAV. The Fund is therefore exposed to implied volatility risk before the Treasury ETF Puts expire or are struck at-the-money. The implied volatility of the Treasury ETF Puts sold by the Fund may increase due to general market and economic conditions, perceptions regarding the industries in which the ETF invests or factors relating to the ETF or specific ETF holdings.

Interest Rate Risk

The market value of fixed income securities, and financial instruments related to fixed income securities, will change in response to changes in interest rates and may change in response to other factors, such as perception of an issuer's creditworthiness. As interest rates rise, the value of certain fixed income securities is likely to decrease. Similarly, if interest rates decline, the value of fixed income securities is likely to increase. While securities with longer maturities tend to produce higher yields, the prices of longer maturity securities tend to be more sensitive to changes in interest rates and thus subject to greater volatility than securities with shorter maturities. The "average portfolio maturity" of the Fund is the average of all the current maturities of the individual securities in the Fund's portfolio. Average portfolio maturity is important to investors as an indication of the Fund's sensitivity to changes in interest rates. Funds with longer portfolio maturities generally are subject to greater interest rate risk.

WisdomTree Trust Prospectus 7

Table of Contents

Table of Contents

Investment Risk

As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time. An investment in the Fund is not a bank deposit and it is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Issuer-Specific Risk

Changes in the actual or perceived financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect a security's or instrument's value. Issuer-specific events can have a negative impact on the value of the Fund.

Management Risk

The Fund is actively managed using proprietary investment strategies and processes. The Fund is subject to active management or security-selection risk and its performance therefore will reflect, in part, the ability of the Sub-Adviser to select investments and to make investment decisions that are suited to achieving the Fund's investment objective. The Sub-Adviser's assessment of a particular investment, company, sector or country and/or assessment of broader economic, financial or other macro views, may prove incorrect, including because of factors that were not adequately foreseen, and the selection of investments may not perform as well as expected when those investments were purchased or as well as the markets generally, resulting in Fund losses or underperformance. There can be no guarantee that these strategies and processes will produce the intended results and no guarantee that the Fund will achieve its investment objective or outperform other investment strategies over the short- or long-term market cycles. This risk is exacerbated when an investment or multiple investments made as a result of such decisions are significant relative to the Fund's net assets.

Market Risk

The trading prices of fixed income securities, equity securities, and other instruments fluctuate in response to a variety of factors. These factors include events impacting the entire market or specific market segments, such as political, market and economic developments, including, but not limited to, changes in interest rates, government regulation, and the outlook for economic growth or recession, as well as events that impact specific issuers, such as changes to an issuer's actual or perceived creditworthiness. The Fund's NAV and market price, like security, currency and other investment prices generally, may fluctuate significantly in response to these and other factors. As a result, an investor could lose money over short or long periods of time.

Non-Diversification Risk

The Fund is considered to be non-diversified. This means that the Fund may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it was a diversified fund. As a result, the Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a smaller number of issuers than a fund that invests more widely. This may increase the Fund's volatility and cause the performance of a relatively smaller number of issuers to have a greater impact on the Fund's performance.

Shares of the Fund May Trade at Prices Other Than NAV

As with all ETFs, Fund shares may be bought and sold in the secondary market at market prices. Although it is expected that the market price of the shares of the Fund will not materially differ from the Fund's NAV, there may be times when the market price and the NAV vary significantly, including due to timing reasons, perceptions about the NAV, supply and demand of the Fund's shares (including disruptions in the creation/redemption process), during periods of market volatility and/or other factors. Thus, you may pay more (or less) than NAV when you buy shares of the Fund in the secondary market, and you may receive more (or less) than NAV when you sell those shares in the secondary market. If an investor purchases Fund shares at a time when the market price is at a premium to the NAV of the Fund's shares or sells at a time when the market price is at a discount to the NAV of the Fund's shares, an investor may sustain losses.

Portfolio Turnover Risk

The Fund's investment strategies may result in high portfolio turnover rates for the Fund. High portfolio turnover would result in correspondingly greater transaction expenses and may result in the distribution to shareholders of additional capital gains for tax purposes. These factors may negatively affect the Fund's performance.

The Fund will pay transaction costs, such as commissions or mark-ups in the bid/offer spread on Treasury ETF Puts, when it writes options. Because the Fund may "turn over" its Treasury ETF Puts frequently, the Fund may incur high

8 WisdomTree Trust Prospectus

Table of Contents

Table of Contents

levels of transaction costs. While the turnover of the Treasury ETF Put positions is not deemed “portfolio turnover” for accounting purposes, the economic impact to the Fund is similar to what could occur if the Fund experienced high portfolio turnover (e.g., in excess of 100% per year). The Fund’s high level of transaction costs may result in higher taxes when shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example thereunder, may affect the Fund’s performance.

Put Option Risk

Options may be subject to volatile swings in price influenced by changes in the value of the underlying instrument. Although the Fund collects premiums on the options that it writes, the Fund’s risk of loss if any of its options is exercised and expires in-the-money (i.e., the Fund, as the seller of the Treasury ETF Puts, owes the buyer of the Treasury ETF Puts) may outweigh the gains to the Fund from the receipt of such option premiums. The potential return to the Fund is limited to the amount of option premiums it receives, while the Fund can potentially lose up to the entire strike price of each option it sells. Furthermore, it could be the case that the Treasury ETF Puts sold by the Fund may not perfectly correlate with the returns of their underlying stocks.

U.S. Treasury Bill Risk

Treasury bills may differ from other debt securities in their interest rates, maturities, times of issuance and other characteristics and may provide relatively lower returns than those other securities. Similar to other issuers, changes to the financial condition or credit rating of the U.S. government may cause the value of the Fund’s Treasury bill holdings to decline.

Additional Non-Principal Risk Information

Trading. Although the Fund’s shares are listed for trading on [____] and may be listed or traded on U.S. and non-U.S. stock exchanges other than the Listing Exchange, there can be no assurance that an active trading market for such shares will develop or be maintained. The trading market in the Fund’s shares may become less liquid in response to deteriorating liquidity in the markets for the Fund’s holdings or due to irregular trading activity in the markets. Trading in shares may be halted due to market conditions or for reasons that, in the view of the Listing Exchange, make trading in shares inadvisable. In addition, trading in shares on the Listing Exchange is subject to trading halts caused by extraordinary market volatility pursuant to Listing Exchange “circuit breaker” rules. There can be no assurance that the requirements of the Listing Exchange necessary to maintain the listing of the Fund will continue to be met or will remain unchanged or that Fund shares will trade with any volume, or at all, on any stock exchange.

Costs of Buying or Selling Shares. Investors buying or selling Fund shares in the secondary market will pay brokerage commissions or other charges imposed by brokers, as determined by that broker. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Fund shares. In addition, secondary market investors will also incur the cost of the difference between the price that an investor is willing to buy shares (the “bid” price) and the price at which an investor is willing to sell shares (the “ask” price). This difference in bid and ask prices is often referred to as the “spread” or “bid/ask spread.” The bid/ask spread varies over time for shares based on trading volume and market liquidity (including for the underlying securities held by the Fund), and is generally lower if the Fund’s shares have more trading volume and market liquidity and higher if the Fund’s shares have little trading volume and market liquidity. Further, a relatively small investor base in the Fund, asset swings in the Fund and/or increased market volatility may cause increased bid/ask spreads. Shares of the Fund, similar to shares of other issuers listed on a stock exchange, may be sold short and are therefore subject to the risk of increased volatility associated with short selling. Due to the costs of buying or selling Fund shares, including bid/ask spreads, frequent trading of Fund shares may significantly reduce investment results and an investment in shares may not be advisable for investors who anticipate regularly making small investments.

Securities Lending. Although the Fund is indemnified by the Fund’s lending agent for losses incurred in connection with a borrower’s default with respect to a loan, the Fund bears the risk of loss of investing cash collateral and may be required to make payments to a borrower upon return of loaned securities if invested collateral has declined in value. Furthermore, because of the risks in delay of recovery, the Fund may lose the opportunity to sell the securities at a

desirable price, and the Fund will generally not have the right to vote securities while they are being loaned. These events could also trigger negative tax consequences for the Fund.

Authorized Participants, Market Makers and Liquidity Providers Concentration Risk. The Fund has a limited number of financial institutions that may act as Authorized Participants (“APs”). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Fund shares may trade at a prolonged and material premium or discount to NAV (or not trade at all)

WisdomTree Trust Prospectus 9

Table of Contents

Table of Contents

and possibly face trading halts and/or delisting: (i) APs exit the business, have a business disruption (including through the types of disruptions described under “Cyber Security Risk” and “Operational Risk”) or otherwise become unable or unwilling to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business, have a business disruption (including through the types of disruptions described under “Cyber Security Risk” and “Operational Risk”) or significantly reduce their business activities and no other entities step forward to perform their functions.

Operational Risk. The Fund and its service providers, including the investment adviser, sub-adviser, administrator, custodian, and transfer agent, may experience disruptions that arise from human error, processing and communications errors, counterparty or third-party errors, technology or systems failures, any of which may have an adverse impact on the Fund. Although the Fund and its service providers seek to mitigate these operational risks through their internal controls and operational risk management processes, these measures may not identify or may be inadequate to address all such risks.

Portfolio Holdings Information

Information about the Fund’s daily portfolio holdings is available at www.wisdomtree.com. In addition, the Fund will disclose its complete portfolio holdings as of the end of its fiscal year ([____]) and its second fiscal quarter ([____]) in its reports to shareholders. The Fund files its complete portfolio holdings as of the end of its first and third fiscal quarters ([____] and [____], respectively) with the SEC on Form N-Q no later than 60 days after the relevant fiscal period. You can find the SEC filings on the SEC’s website, www.sec.gov. A summarized description of the Fund’s policies and procedures with respect to the disclosure of the Fund’s portfolio holdings is available in the Statement of Additional Information (“SAI”).

Management

Investment Adviser

As investment adviser, WisdomTree Asset Management has overall responsibility for the general management and administration of the WisdomTree Trust (the "Trust") and the Fund. WisdomTree Asset Management is a registered investment adviser with offices located at 245 Park Avenue, 35th Floor, New York, New York 10167, and is a leader in ETF management. As of [____], 2018, WisdomTree Asset Management had assets under management totaling approximately \$[___] billion. WisdomTree Investments* is the parent company of WisdomTree Asset Management. WisdomTree Asset Management provides an investment program for the Fund. The Adviser provides proactive oversight of the Sub-Adviser, defined below, daily monitoring of the Sub-Adviser's buying and selling of securities for the Fund, and regular review of the Sub-Adviser's performance. In addition, the Adviser arranges for sub-advisory, transfer agency, custody, fund administration, securities lending, and all other non-distribution related services necessary for the Fund to operate.

* "WisdomTree" is a registered mark of WisdomTree Investments and has been licensed for use by the Trust.

DESCRIPTION OF BUSINESS

Overview

We operate the largest and most geographically diverse theatre circuit in the United States, consisting of 7,361 screens in 572 theatres in 42 states along with Guam, Saipan, American Samoa and the District of Columbia as of December 31, 2015, with approximately 217 million attendees for the year ended December 31, 2015 ("fiscal 2015"). Our geographically diverse circuit includes theatres in 46 of the top 50 U.S. designated market areas. We operate multi-screen theatres and, as of December 31, 2015, had an average of 12.9 screens per location, which is well above the North American motion picture exhibition industry average. We develop, acquire and operate multi-screen theatres primarily in mid-sized metropolitan markets and suburban growth areas of larger metropolitan markets throughout the United States.

For fiscal 2014 and prior periods, the Company's fiscal year ended on the first Thursday after December 25, which in certain years (such as fiscal 2014) resulted in a 53-week fiscal year. Beginning January 2, 2015, the Company's fiscal year changed from a 52-53 week fiscal year ending on the first Thursday after December 25 of each year to a fiscal year ending on December 31 of each year. Accordingly, effective for the Company's fiscal year ending December 31, 2015, the Company's quarterly results will be for three month periods ending March 31, June 30, September 30 and December 31 of each year.

For fiscal 2015, we reported total revenues, income from operations and net income attributable to controlling interest of \$3,127.3 million, \$319.3 million and \$153.4 million, respectively. In addition, we generated \$434.4 million of cash flows from operating activities during fiscal 2015.

Business Strategy

Our business strategy is predicated on our ability to allocate capital effectively to enhance value for our stockholders. This strategy focuses on enhancing our position in the motion picture exhibition industry by distributing value to our stockholders, capitalizing on prudent industry consolidation and partnership opportunities, managing, expanding and upgrading our existing asset base with new technologies and customer amenities and realizing selective growth opportunities through new theatre construction. Our business strategy should enable us to continue to produce the free cash flow necessary to maintain a prudent allocation of our capital among dividend payments, debt service and repayment and investment in our theatre assets, all to provide meaningful value to our stockholders. Key elements of our business strategy include:

Table of Contents

Maximizing Stockholder Value. We believe that our cash dividends are an efficient means of distributing value to our stockholders. From our initial public offering ("IPO") in May 2002 through December 31, 2015, we have returned approximately \$4.1 billion to our stockholders in the form of quarterly and extraordinary cash dividends.

Pursuing Prudent Acquisitions and Strategic Partnerships. We believe that our acquisition experience and capital structure position us well to take advantage of future acquisition opportunities and to participate in various partnership initiatives. We intend to selectively pursue accretive theatre acquisitions and theatre-related investments that enhance and more fully utilize our asset base to improve our consolidated operating results and free cash flow.

For example, since 2012, we have demonstrated our ability to enhance our asset base, operating results and free cash flow through the successful acquisition of 73 theatres and 875 screens, including the fiscal 2015 acquisition of five theatres with 61 screens from entities affiliated with Georgia Theatre Company.

With respect to partnership initiatives, we own approximately 19.5% of National CineMedia, LLC ("National CineMedia" or "NCM") as of December 31, 2015. National CineMedia operates the largest digital in-theatre advertising network in North America and concentrates on in-theatre advertising for its theatrical exhibition partners, which includes us, AMC Entertainment, Inc. ("AMC"), and Cinemark, Inc. ("Cinemark"). See "National CineMedia Joint Venture" under Part I, Item I of this Form 10-K for further discussion of National CineMedia. We also participate in other joint ventures such as Digital Cinema Implementation Partners, LLC, Open Road Films and AC JV, LLC, which are also further discussed under Part I, Item I of this Form 10-K. Finally, the Company is a party to a joint venture with certain exhibitors and distributors called Digital Cinema Distribution Coalition ("DCDC"). DCDC has established a satellite distribution network that distributes digital content to theatres via satellite. We believe our investment in National CineMedia and other joint venture arrangements generate incremental value for our stockholders.

Pursuing Premium Experience Opportunities. We continue to embrace innovative concepts that generate incremental revenue and cash flows for the Company and deliver a premium movie-going experience for our customers on several complementary fronts:

- First, we continue to focus on improving customer amenities, primarily the installation of luxury reclining seats. With respect to our luxury reclining seating initiative, as of December 31, 2015, we offered luxury reclining seating in 819 auditoriums at 72 theatre locations. Based on promising results, we expect to offer luxury reclining seating in approximately 40 additional locations during fiscal 2016 and expect to outfit approximately 25% to 30% of the total screens in our circuit with luxury reclining seating by the end of fiscal 2017. The costs of these conversions in some cases are partially covered by contributions from our theatre landlords.

Second, to continually address consumer trends and customer preferences, we have focused on expanding our menu of food and alcoholic beverage products. We believe that the enhancement of our food and alcoholic beverage offerings has had a positive effect on our operating results and we expect to continue to invest in such offerings in our theatres. As of December 31, 2015, we offered an expanded menu of food and/or alcoholic beverage items in 235 locations and during fiscal 2016, we expect to introduce an expanded menu of food in approximately 65 locations and alcoholic beverages in approximately 75 locations.

Third, we maintain a frequent moviegoer loyalty program, named the Regal Crown Club®, to actively engage our core customers. Regal Crown Club® members are eligible for specified awards, such as concession items, based on purchases made at our participating theatres. As of December 31, 2015, we had over 13 million active members in the Regal Crown Club®, making it the largest loyalty program in our industry, and these members accounted for approximately \$1.1 billion of the Company's box office and concession revenues during fiscal 2015. In addition, our mobile ticketing application, designed to give customers quick access to box office information via their Apple iPhone® or Android™ phone, has been downloaded approximately 4.2 million times since its fiscal 2012 launch. The application provides customers the ability to find films, movie information, showtimes and special offers from Regal (including Regal Crown Club® loyalty program promotions) and the ability to purchase tickets for local theatres, thereby expediting the admissions process.

Finally, we believe that our IMAX® digital projection systems and our proprietary large screen format, RPXSM offer our patrons all-digital, large format premium experiences and generate incremental revenue and cash flows for the Company. As of December 31, 2015, our IMAX® footprint consisted of 89 IMAX® screens and we operated 91 RPXSM screens. We have been encouraged by the operating results of our IMAX® and RPXSM screens and believe such premium motion picture formats allow us to deliver a premium movie-going experience for our customers. We believe the continued rollout of premium amenities such as luxury reclining seating, a wider array of food and alcoholic beverage offerings and IMAX® and RPXSM screens allow us to deliver a premium movie-going experience for a

Table of Contents

majority of our customers. We believe this strategy will enable us to better compete for patrons and build brand loyalty, which we believe will provide us the opportunity for incremental revenue and cash flows.

Pursuing Selective Growth Opportunities and Active Asset Management. We intend to selectively pursue expansion opportunities through new theatre construction, expansion and upgrades that meet our strategic and financial return criteria. Additionally, we manage our asset base by opportunistically closing underperforming theatres. We continued to actively manage our asset base during fiscal 2015 by opening two theatres with 24 screens and closing nine underperforming theatres with 91 screens, ending the year with 572 theatres and 7,361 screens.

In summary, we believe our business strategy should enable us to continue to produce the free cash flow necessary to maintain a prudent allocation of our capital among dividend payments, debt service and repayment and investment in our theatres assets, all to provide meaningful value to our stockholders.

Competitive Strengths

We believe that the following competitive strengths position us to capitalize on future opportunities:

Industry Leader. We are the largest domestic motion picture exhibitor operating 7,361 screens in 572 theatres in 42 states along with Guam, Saipan, American Samoa and the District of Columbia. Our geographically diverse circuit includes theatres in 46 of the top 50 U.S. designated market areas. We believe that the quality and size of our theatre circuit is a significant competitive advantage for negotiating attractive national contracts and generating economies of scale. We believe that our market leadership allows us to capitalize on favorable attendance trends and attractive consolidation and partnership opportunities.

Superior Management Drives Strong Operating Margins. Our operating philosophy focuses on efficient operations and strict cost controls at both the corporate and theatre levels. At the corporate level, we are able to capitalize on our size and operational expertise to achieve economies of scale in purchasing and marketing functions. We have developed an efficient purchasing and distribution supply chain that generates favorable concession margins. At the theatre level, management devotes significant attention to cost controls through the use of financial data analysis, detailed management reports and performance-based compensation programs to encourage theatre managers to deliver a premium customer experience while effectively controlling costs and maximizing free cash flow.

Proven Acquisition and Integration Expertise. We have significant experience identifying, completing and integrating acquisitions of theatre circuits. Since our 2002 IPO, we have demonstrated our ability to enhance revenues and realize operating efficiencies through the successful acquisition and integration of nine theatre circuits, consisting of 230 theatres and 2,683 screens. We have generally achieved immediate cost savings at acquired theatres and improved their profitability through the application of our consolidated operating functions and key supplier contracts.

Quality Theatre Portfolio. We believe that we operate one of the most modern theatre circuits among major motion picture exhibitors. In addition, approximately 53% of our locations featured one or more premium amenity offerings as of December 31, 2015. We believe the continued rollout of premium amenities such as luxury reclining seating, a wider array of food and alcoholic beverage offerings and IMAX® and RPXSM screens allow us to deliver a premium movie-going experience for a majority of our customers. Finally, we believe that our modern theatre portfolio coupled with our operating margins should allow us to generate significant cash flows from operations.

Dividend Policy

We believe that paying dividends on our shares of common stock is important to our stockholders. To that end, during fiscal 2015, we paid to our stockholders four quarterly cash dividends of \$0.22 per share on each outstanding share of our Class A and Class B common stock, or approximately \$139.1 million in the aggregate. Further, on February 9, 2016, we declared a cash dividend of \$0.22 per share on each outstanding share of Class A and Class B common stock. The dividend is payable on March 15, 2016 to our stockholders of record on March 4, 2016. These dividends have been or will be funded through cash flow from operations and available cash on hand. We, at the discretion of our Board of Directors and subject to applicable law, anticipate paying regular quarterly dividends on our Class A and Class B common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, loan agreement restrictions,

future prospects for earnings and cash flows, as well as other relevant factors. Dividends are considered quarterly and may be paid only when, and in such amounts as, approved by our Board of Directors.

Table of Contents

INDUSTRY OVERVIEW AND TRENDS

The domestic motion picture exhibition industry is a mature business that has historically maintained steady long-term growth in revenues and stable attendance. Since 1965, total box office revenues have grown at a compound annual growth rate of approximately 5% with annual attendance of approximately 1.3 billion attendees in 2015. Against this background of steady long-term growth in revenues and stable attendance, the exhibition industry has experienced periodic short-term increases and decreases in attendance and in turn box office revenues. Consequently, we expect the cyclical nature of the domestic motion picture exhibition industry to continue for the foreseeable future. However, we believe that long-term trends in motion picture attendance in the U.S. will continue to benefit the domestic motion picture exhibition industry. For example, during the most recent five-year period, attendance levels remained stable and the industry generated record box office results during 2012, 2013 and 2015.

Through the years, the domestic motion picture exhibition industry has experienced increased competition from other methods of delivering content to consumers including digital sell-through, DVD and Blu-ray, physical and digital rental, subscription video on demand and free and pay television. Traditionally, when motion picture distributors license their films to the domestic exhibition industry, they refrain from licensing their products to other delivery channels for a period of time, commonly called the theatrical release window. Over the past several years, the average period between a film's theatrical release and its release in the next distribution channel has contracted slightly to approximately three to four months. Further, some film distributors have experimented with offering alternative distribution methods for certain films that rely on shorter theatrical release windows and in some cases, bypass the theatrical release altogether. We believe that a material contraction of the theatrical release window could significantly dilute the consumer appeal of the out-of-home motion picture offering. As a result, we continue to monitor the status of the theatrical release window during our film licensing decisions. Fundamentally, we believe that movie-going is a convenient, affordable and attractively priced form of out-of-home entertainment, which, on an average price per patron basis, continues to compare favorably to other out-of-home entertainment alternatives, such as concerts and sporting events.

Finally, the domestic motion picture exhibition industry is in the process of implementing various initiatives, concepts and customer amenities aimed at delivering a premium movie-going experience for its customers in order to better compete for patrons and build brand loyalty, which we believe will provide us the opportunity for incremental revenue and cash flows. These initiatives include luxury reclining seating, a wider array of food and beverage offerings, in-theatre dining and bar service, reserved seating, the enhancement of loyalty programs and other customer engagement initiatives such as mobile ticketing applications, internet ticketing, social media and other marketing initiatives. In addition, we believe the benefits associated with premium motion picture formats are significant for our industry and provide us with the opportunity for incremental revenue from formats such as IMAX® and our proprietary large screen format, RPXSM. Finally, we believe that operating a digital theatre circuit provides greater flexibility in scheduling our programming content, which has enhanced our capacity utilization, and enables us to generate incremental revenue from advanced motion picture formats, such as digital 3D, and the exhibition of specialty content offerings through certain distributors of specialty content, such as AC JV, LLC. We are optimistic that these and other recent industry initiatives and trends will drive continued growth and strength for the domestic motion picture industry.

THEATRE OPERATIONS

We operate the largest theatre circuit in the United States with 7,361 screens in 572 theatres in 42 states along with Guam, Saipan, American Samoa and the District of Columbia as of December 31, 2015. We operate theatres in 46 of the top 50 U.S. designated market areas, which include locations in suburban growth areas. We target prime locations with excellent access to large, high patron-traffic areas. We operate our theatre circuit using our Regal Cinemas, United Artists, Edwards, Great Escape Theatres and Hollywood Theaters brands through our wholly owned subsidiaries.

We operate multi-screen theatres. Our multi-screen theatre complexes typically contain 10 to 18 screens, each with auditoriums ranging from 100 to 500 seats. As a result, our theatres appeal to a diverse group of patrons because we

offer a wide selection of films and convenient show times. In addition, many of our theatres feature state-of-the-art amenities such as immersive sound, wall-to-wall and floor-to-ceiling screens, Sony Digital Cinema™ 4K projection systems, 3D digital projection systems, IMAX® and our proprietary large screen format, RPXSM, digital stereo surround-sound, closed-captioning, multi-station concessions stands, computerized ticketing systems, plush stadium seating with cup holders and retractable armrests and enhanced interiors featuring video game and party room areas adjacent to the theatre lobby. Finally, we are in the process of implementing various other initiatives, concepts and customer amenities such as luxury reclining seating, a wider array of food and beverage offerings, in-theatre dining and bar service and reserved seating.

Our modern, multi-screen theatres are designed to increase profitability by optimizing revenues per square foot while reducing our operational costs on a per attendee basis. We vary auditorium seating capacities within the same theatre, allowing us to exhibit films on a more cost effective basis for a longer period of time by shifting films to smaller auditoriums to meet

Table of Contents

changing attendance levels. In addition, we realize significant operating efficiencies by having common box office, concessions, projection, lobby and restroom facilities, which enables us to spread some of our costs, such as payroll, advertising, rent and utility costs over a higher revenue base. We strategically schedule movie show times to reduce staffing requirements and box office and concession line congestion and to provide more desirable parking and traffic flow patterns. We also actively monitor ticket sales in order to quickly recognize demand surges, which enables us to add seating capacity quickly and efficiently. In addition, we offer various forms of convenient ticketing methods, including print-at-home technology, self-serve kiosks, e-gift cards and mobile and internet ticketing. We believe that operating a theatre circuit consisting primarily of modern theatres enhances our ability to attract patrons and believe theatres larger than the current 10 to 18 screen megaplex are not able to generate attractive returns in most locations because of the substantial market suitability requirements to generate a level of profitability similar to the current megaplex format.

Table of Contents

The following table details the number of locations and theatre screens in our theatre circuit ranked by the number of screens in each state along with Guam, Saipan, American Samoa and the District of Columbia as of December 31, 2015:

State/District	Locations	Number of Screens
California	87	1,054
Florida	48	709

Table of Contents

We have implemented a best practices management program across all of our theatres, including daily, weekly, monthly and quarterly management reports generated for each individual theatre and we maintain active communication between the theatres, divisional management and corporate management. We use these management reports and communications to closely monitor admissions and concessions revenues as well as accounting, payroll and workforce information necessary to manage our theatre operations effectively and efficiently.

We seek experienced theatre managers and require new theatre managers to complete a comprehensive training program within the theatres and at the "Regal Entertainment University," which is held at our corporate office. The program is designed to encompass all phases of theatre operations, including our operating philosophy, policies, procedures and standards. In addition, we have an incentive compensation program for theatre-level management that rewards theatre managers for controlling operating expenses while complying with our operating standards.

In addition, we have implemented quality assurance programs in all of our theatres to maintain clean, comfortable and modern facilities and monitor food service. To maintain quality and consistency within our theatre circuit, district and regional managers and various contractual service partners regularly inspect each theatre and provide recurring feedback. In addition, we consistently solicit feedback from our patrons through an on-line guest experience program whereby our guests rank and provide detailed comments and experiences for each of our theatres. Finally, we also conduct a "mystery shopper" program, which involves unannounced visits by unidentified customers who report on the quality of service, film presentation and cleanliness at individual theatres.

NATIONAL CINEMEDIA JOINT VENTURE

We maintain an investment in National CineMedia, which operates the largest digital in-theatre advertising network in North America representing over 20,400 U.S. theatre screens (of which approximately 19,800 are part of National CineMedia's digital content network) as of December 31, 2015. During 2015, over 700 million patrons attended movies shown in theatres in which National CineMedia currently has exclusive cinema advertising agreements in place. National CineMedia concentrates on in-theatre advertising for its theatrical exhibition partners, which includes us, AMC and Cinemark. As described further in Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, on February 13, 2007, National CineMedia, Inc. ("NCM, Inc."), which serves as the sole manager of National CineMedia, completed an IPO of its common stock. In connection with the IPO of NCM, Inc., RCM, through its wholly owned subsidiary Regal CineMedia Holdings, LLC ("RCH"), AMC and Cinemark amended and restated the operating agreement of National CineMedia and other ancillary agreements. As a result of these agreements, we receive theatre access fees and mandatory distributions of excess cash from National CineMedia. Subsequent to the IPO of NCM, Inc. and through December 31, 2015, the Company received from National CineMedia approximately 11.8 million newly issued common units of National CineMedia as a result of the adjustment provisions of the Common Unit Adjustment Agreement. These transactions, partially offset by the redemption of approximately 6.6 million of our National CineMedia common units for a like number of shares of NCM, Inc. common stock, which we sold in underwritten public offerings during fiscal 2010 and fiscal 2013, caused a net increase in the Company's ownership share in National CineMedia to 26.4 million common units. As a result, on a fully diluted basis, we own a 19.5% interest in NCM, Inc. as of December 31, 2015.

During fiscal 2013, National CineMedia sold its "Fathom Events" business to AC JV, LLC ("AC JV"), a newly-formed Delaware limited liability company owned 32% by each of RCI, AMC and Cinemark and 4% by National CineMedia. The Fathom Events business focuses on the marketing and distribution of live and pre-recorded entertainment programming to various theatre operators (including us, AMC and Cinemark) to provide additional programs to augment their feature film schedule and includes events such as live and pre-recorded concerts, opera and symphony, DVD product releases and marketing events, theatrical premieres, Broadway plays, live sporting events and other special events. In consideration for the sale, National CineMedia received a total of \$25 million in promissory notes from RCI, Cinemark and AMC (one-third or approximately \$8.3 million from each). In addition, RCI, AMC and Cinemark each amended and restated its existing exhibitor service agreement with National CineMedia in connection with the sale by National CineMedia of its Fathom Events business.

See Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion of National CineMedia and related transactions, including AC JV.

DIGITAL CINEMA IMPLEMENTATION PARTNERS JOINT VENTURE

We maintain an investment in Digital Cinema Implementation Partners, LLC ("DCIP"), a joint venture company formed by Regal, AMC and Cinemark. DCIP funds the cost of digital projection principally through the collection of virtual print fees from motion picture studios and equipment lease payments from participating exhibitors, including us. DCIP's initial and second round of financing substantially covered the cost of conversion to digital projection for our entire circuit. The Company

Table of Contents

effected equity contributions of approximately \$7.5 million to DCIP since fiscal 2012, and expects to make additional equity contributions in the future. Through fiscal 2015, the Company has received \$8.3 million in cash distributions from DCIP as a return on its investment.

The Company holds a 46.7% economic interest in DCIP as of December 31, 2015. As of December 31, 2015, all of our screens were fully outfitted with digital projection systems. Please refer to Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion of DCIP.

OPEN ROAD FILMS JOINT VENTURE

We also maintain an investment in Open Road Films, a film distribution company jointly owned by us and AMC. Open Road Films was created to fill a gap in the marketplace created by the major studios' big-budget franchise film strategy by marketing smaller budget films in a cost-effective manner which we believe will drive additional patrons to our theatres and generate a return on our capital investment. Open Road Films distributed six films during 2015 which generated national box office revenues of approximately \$70.2 million, and intends to distribute approximately six to eight films per year. As of December 31, 2015, we have invested \$20.0 million in cash in Open Road Films and may invest an additional \$10.0 million in this joint venture. The carrying value of the Company's investment in Open Road Films as of December 31, 2015 was \$(10.0) million. Please refer to Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further discussion of Open Road Films.

FILM DISTRIBUTION

Domestic movie theatres are the primary initial distribution channel for domestic film releases. The theatrical success of a film is often the most important factor in establishing its value in other film distribution channels. Motion pictures are generally made available through several alternative distribution methods after the theatrical release date, including digital sell-through, DVD and Blu-ray, physical and digital rental, subscription video on demand and free and pay television. A strong theatrical opening often establishes a film's success and positively influences the film's potential in these downstream distribution channels. As the primary distribution mechanism for the public's evaluation of films, we believe that domestic theatrical distribution remains the cornerstone of a film's overall financial success. The development of additional distribution channels has given motion picture producers the ability to generate a greater portion of a film's revenues through channels other than its theatrical release. Historically, this potential for increased revenue after a film's initial theatrical release has enabled major motion picture studios and some independent producers to increase the budgets for film production and advertising.

FILM EXHIBITION

Evaluation of Film. We license films on a film-by-film and theatre-by-theatre basis by negotiating directly with film distributors. Prior to negotiating for a film license, we evaluate the prospects for upcoming films. Criteria we consider for each film may include cast, producer, director, genre, budget, comparative film performances and various other market conditions. Successful licensing depends greatly upon the exhibitor's knowledge of trends and historical film preferences of the residents in markets served by each theatre, as well as the availability of commercially successful motion pictures.

Access to Film Product. Films are licensed from film distributors owned by major production companies and from independent film distributors that distribute films for smaller production companies. Film distributors typically establish geographic licensing zones and allocate each available film to one theatre within that zone.

In licensing zones where we are the sole exhibitor, we obtain film licenses by selecting a film from among those films being offered and negotiating directly with the distributor. In zones where there is competition, a distributor may allocate films among the exhibitors in the zone. When films are licensed under the allocation process, a distributor will select an exhibitor for each film who then negotiates film rental terms directly with the distributor.

Film Rental Fees. Film licenses typically specify rental fees or formulas by which rental fees may be calculated. The majority of our arrangements use a "sliding scale" formula. Under a sliding scale formula, the distributor receives a percentage of the box office receipts using a pre-determined and mutually agreed upon film rental template. This

formula establishes film rental predicated on box office performance and is the predominant formula used by us to calculate film rental fees. To a much lesser extent, we have also used a "firm term" formula and a "review or settlement" method where either (1) the exhibitor and distributor agree prior to the exhibition of the film on a specified percentage of the box office receipts to be remitted to the distributor or (2) the exhibitor and distributor negotiate a percentage of the box office receipts to be remitted to the distributor upon completion of the theatrical engagement.

Table of Contents

Duration of Film Licenses. The duration of our film licenses are negotiated with our distributors on a case-by-case basis. The terms of our license agreements depend on performance of each film. Marketable movies that are expected to have high box office admission revenues will generally have longer license terms than movies with more uncertain performance and popularity.

Relationship with Distributors. Many distributors provide quality first-run movies to the motion picture exhibition industry. We license films from each of the major distributors and believe that our relationships with these distributors are good. For fiscal 2015, films shown from our top ten film distributors accounted for approximately 95% of our admissions revenues. Our revenues attributable to individual distributors may vary significantly from year to year depending upon the commercial success of each distributor's motion pictures in any given year. In 2015, our largest single distributor accounted for 22.4% of our box office admissions.

CONCESSIONS

In addition to box office admissions revenues, we generated approximately 28.8% of our total revenues from concessions sales during fiscal 2015. We emphasize prominent and appealing concession stations designed for rapid and efficient service. We continually seek to increase concessions sales by actively managing concession line congestion, optimizing product mix and through expansion of our concession offerings, introducing special promotions from time to time and offering employee training and incentive programs to up-sell and cross-sell products. We have favorable concession supply contracts and have developed an efficient concession purchasing and distribution supply chain. We have historically maintained strong brand relationships and management negotiates directly with these manufacturers for many of our concession items to obtain competitive prices and to ensure adequate supplies.

To continually address consumer trends and customer preferences, we have focused on expanding our menu of food and alcoholic beverage products. We believe that the enhancement of our food and alcoholic beverage offerings has had a positive effect on our operating results and we expect to continue to invest in such offerings in our theatres. As of December 31, 2015, we offered an expanded menu of food and/or alcoholic beverage items in 235 locations and during fiscal 2016, we expect to introduce an expanded menu of food in approximately 65 locations and alcoholic beverages in approximately 75 locations. We believe that offering a wider array of food and alcoholic beverage offerings has had a positive effect on our operating results and we expect to continue to invest in such offerings in our theatres.

COMPETITION

The motion picture exhibition industry is highly competitive. Motion picture exhibitors generally compete on the basis of the following competitive factors:

- ability to secure films with favorable licensing terms;
- availability of customer amenities, location, reputation, stadium seating and seating capacity;
- quality of projection and sound systems;
- appeal of our concession products; and
- ability and willingness to promote the films that are showing.

We have several hundred competitors nationwide that vary substantially in size, from small independent exhibitors to large national chains such as AMC and Cinemark. As a result, our theatres are subject to varying degrees of competition in the regions in which they operate. Our competitors, including newly established motion picture exhibitors, may build new theatres or screens in areas in which we operate, which may result in increased competition and excess capacity in those areas. If this occurs, it may have an adverse effect on our business and results of operations. As the largest motion picture exhibitor, however, we believe that we will be able to generate economies of scale and operating efficiencies that will give us a competitive advantage over many of our competitors. As discussed in "Industry Overview and Trends" under Part I, Item I of this Form 10-K, the domestic motion picture exhibition industry is in the process of experimenting with various initiatives and concepts aimed at delivering a premium

movie-going experience for its customers in order to better compete for patrons and build brand loyalty. We are optimistic that these and other recent industry initiatives and trends will drive continued growth and strength for the domestic motion picture industry. To that end, our market share may be positively or negatively impacted by such initiatives and trends during any given fiscal period.

We also compete with other motion picture distribution channels including digital sell-through, DVD and Blu-ray, physical and digital rental, subscription video on demand and free and pay television. Other technologies could also have an adverse effect on our business and results of operations. When motion picture distributors license their products to the domestic exhibition industry, they refrain from licensing their motion pictures to these other distribution channels for a period of time,

Table of Contents

commonly called the theatrical release window. Over the past several years, the theatrical release window has contracted to approximately three to four months. Further, some film distributors have experimented with offering alternative distribution methods for certain films that rely on shorter theatrical release windows and in some cases, bypass the theatrical release altogether. We believe that a material contraction of the theatrical release window could significantly dilute the consumer appeal of the out-of-home motion picture offering. As a result, we continue to monitor the status of the theatrical release window during our film licensing decisions.

In addition, we compete for the public's leisure time and disposable income with other forms of entertainment, including sporting events, concerts, live theatre and restaurants.

MARKETING AND ADVERTISING

Currently, film distributors organize and finance multimedia advertising campaigns for major film releases. To market our theatres, we utilize Internet, mobile and social media, print and multimedia advertising to inform our patrons of film selections and show times. In many of our markets, we employ special interactive marketing programs for specific films and concessions items.

Our frequent moviegoer loyalty program, Regal Crown Club®, is designed to actively engage our core customers and is the largest loyalty program in our industry. Regal Crown Club® members are eligible for specified awards, such as concession items, based on purchases made at our theatres. Through the Regal Crown Club®, we seek to enhance the customer experience and increase frequency of purchases to generate additional revenue. As of December 31, 2015, we had over 13 million active members in the Regal Crown Club®, and these members accounted for approximately \$1.1 billion of the Company's box office and concession revenues during fiscal 2015. In addition, we seek to develop patron loyalty through a number of other marketing programs such as summer children's film series, cross-promotional ticket redemptions and promotions within local communities. Our mobile ticketing application, designed to give customers quick access to box office information via their Apple iPhone® or Android™ phone, has been downloaded approximately 4.2 million times since its fiscal 2012 launch. The application provides customers the ability to find films, movie information, showtimes and special offers from Regal and the ability to purchase tickets for local theatres, thereby expediting the admissions process. Additionally, the application helps customers stay up-to-date on the latest coupons and Regal Crown Club® loyalty program promotions.

INFORMATION TECHNOLOGY SYSTEMS

Information Technology ("IT") is focused on the customer experience and supporting the efficient operation of our theatres, the management of our business and other revenue-generating opportunities. The revenue streams generated by attendance and concession sales are fully supported by information systems to monitor cash flow and to detect fraud and inventory shrinkage. We have implemented software and hardware solutions which provide for enhanced capabilities and efficiency within our theatre operations. These solutions have enabled us to sell gift cards at various major retailers, grocery and warehouse stores and to redeem those gift cards at our theatre box offices and concession stands. We continue to expand our ability to sell tickets remotely by using our internet ticketing partners, and by offering self-service alternatives, such as ticketing kiosks, print-at-home ticketing, and mobile ticketing. Our Apple iPhone® or Android™ phone application provides customers the ability to find films, movie information, showtimes, special offers from Regal and the ability to purchase tickets for local theatres, thereby expediting the admissions process. We continue to strategically pursue technologies to improve services to our patrons and provide information to our management, allowing them to operate our theatres efficiently.

In addition, our scheduling systems support the coordination needed to properly allocate our auditoriums between film showings and meetings and events, while also ensuring that movie audiences view the intended advertising and that revenue is allocated to the appropriate business function. The scheduling systems also provide information electronically and automatically to the media outlets, including newspapers and various online media outlets to drive attendance to our theatres. The sales and attendance information collected by the theatre systems is used directly for film booking and settlement as well as being the primary source of data for our financial systems.

SEASONALITY

Our revenues are usually seasonal, coinciding with the timing of releases of motion pictures by the major distributors. Generally, motion picture studios release the most marketable motion pictures during the summer and the holiday season. The unexpected emergence of a hit film during other periods can alter the traditional trend. The timing of movie releases can have a significant effect on our results of operations, and the results of one fiscal quarter are not necessarily indicative of results for the next fiscal quarter or any other fiscal quarter. The seasonality of motion picture exhibition, however, has become less pronounced as motion picture studios are releasing motion pictures somewhat more evenly throughout the year.

Table of Contents**EMPLOYEES**

As of December 31, 2015, we employed approximately 25,915 persons. The Company considers its employee relations to be good.

EXECUTIVE OFFICERS OF THE REGISTRANT

Shown below are the names, ages as of December 31, 2015, and current positions of our executive officers. There are no family relationships between any of the persons listed below, or between any of such persons and any of the directors of the Company or any persons nominated or chosen by the Company to become a director or executive officer of the Company.

Name	Age	Position
Amy E. Miles	49	Chief Executive Officer and Chair of the Board of Directors
Gregory W. Dunn	56	President and Chief Operating Officer
Peter B. Brandow	55	Executive Vice President, General Counsel and Secretary
David H. Ownby	46	Executive Vice President, Chief Financial Officer and Treasurer

Amy E. Miles is our Chief Executive Officer and Chair of the Board of Directors. Ms. Miles has served as Chief Executive Officer since June 2009 and became Chair of the Board of Directors in March 2015. Prior thereto, Ms. Miles served as our Executive Vice President, Chief Financial Officer and Treasurer from March 2002 to June 2009. Additionally, Ms. Miles has served as the Chief Executive Officer of Regal Cinemas, Inc. since June 2009. Ms. Miles formerly served as the Executive Vice President, Chief Financial Officer and Treasurer of Regal Cinemas, Inc. from January 2000 to June 2009. Prior thereto, Ms. Miles served as Senior Vice President of Finance from April 1999, when she joined Regal Cinemas, Inc. Prior to joining the Company, Ms. Miles was a Senior Manager with Deloitte & Touche LLP from 1998 to 1999. From 1989 to 1998, she was with PricewaterhouseCoopers LLP.

Gregory W. Dunn is our President and Chief Operating Officer. Mr. Dunn has served as an Executive Vice President and Chief Operating Officer of Regal since March 2002 and became President of Regal in May 2005. Mr. Dunn served as Executive Vice President and Chief Operating Officer of Regal Cinemas, Inc. from 1995 to March 2002. Prior thereto, Mr. Dunn served as Vice President of Marketing and Concessions of Regal Cinemas, Inc. from 1991 to 1995.

Peter B. Brandow is our Executive Vice President, General Counsel and Secretary and has served as such since March 2002. Mr. Brandow has served as the Executive Vice President, General Counsel and Secretary of Regal Cinemas, Inc. since July 2001, and prior to that time he served as Senior Vice President, General Counsel and Secretary of Regal Cinemas, Inc. since February 2000. Prior thereto, Mr. Brandow served as Vice President, General Counsel and Secretary from February 1999 when he joined Regal Cinemas, Inc. From September 1989 to January 1999, Mr. Brandow was an associate with the law firm Simpson Thacher & Bartlett LLP.

David H. Ownby is our Executive Vice President, Chief Financial Officer and Treasurer and has served in this capacity since June 2009. Mr. Ownby also has served as our Chief Accounting Officer since May 2006. Mr. Ownby served as our Senior Vice President of Finance from March 2002 to June 2009. Prior thereto, Mr. Ownby served as the Company's Vice President Finance and Director of Financial Projects from October 1999 to March 2002. Prior to joining the Company, Mr. Ownby served with Ernst & Young LLP from September 1992 to October 1999.

REGULATION

The distribution of motion pictures is in large part regulated by federal and state antitrust laws and has been the subject of numerous antitrust cases. Consent decrees effectively require major film distributors to offer and license films to exhibitors, including us, on a film-by-film and theatre-by-theatre basis. Consequently, exhibitors cannot assure themselves of a supply of films by entering into long-term arrangements with major distributors, but must negotiate for licenses on a film-by-film basis.

Our theatres must comply with Title III of the Americans with Disabilities Act of 1990 (the "ADA") to the extent that such properties are "public accommodations" and/or "commercial facilities" as defined by the ADA. Compliance with

the ADA requires that public accommodations "reasonably accommodate" individuals with disabilities and that new construction or alterations made to "commercial facilities" conform to accessibility guidelines unless "structurally impracticable" for new construction or technically infeasible for alterations. Non-compliance with the ADA could result in the imposition of injunctive relief, fines, award of damages to private litigants and additional capital expenditures to remedy such non-compliance.

We believe that we are in substantial compliance with all current applicable regulations relating to accommodations for the disabled. We intend to comply with future regulations in this regard and except as set forth in Note 8 to the consolidated

Table of Contents

financial statements included in Part II, Item 8 of this Form 10-K, we do not currently anticipate that compliance will require us to expend substantial funds.

Our theatre operations are also subject to federal, state and local laws governing such matters as wages, working conditions, citizenship and health and sanitation and environmental protection requirements. We believe that we are in substantial compliance with all relevant laws and regulations.

FORWARD-LOOKING STATEMENTS

Some of the information in this Form 10-K includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical facts included in this Form 10-K, including, without limitation, certain statements under "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" may constitute forward-looking statements. In some cases you can identify these forward-looking statements by words like "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of those words and other comparable words. These forward-looking statements involve risks and uncertainties. Our actual results could differ materially from those indicated in these statements as a result of certain risk factors as more fully discussed under "Risk Factors" below.

Item 1A. RISK FACTORS.

Investing in our securities involves a significant degree of risk. In addition to the other information contained in this Form 10-K, you should consider the following factors before investing in our securities.

Our substantial lease and debt obligations could impair our financial condition.

We have substantial lease and debt obligations. For fiscal 2015, our total rent expense and net interest expense were approximately \$421.5 million and \$129.6 million, respectively. As of December 31, 2015, we had total debt obligations of \$2,342.4 million. As of December 31, 2015, we had total contractual cash obligations of approximately \$6,244.6 million. For a detailed discussion of our contractual cash obligations and other commercial commitments over the next several years, refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations—Contractual Cash Obligations and Commitments" provided in Part II, Item 7 of this Form 10-K.

If we are unable to meet our lease and debt service obligations, we could be forced to restructure or refinance our obligations and seek additional equity financing or sell assets. We may be unable to restructure or refinance our obligations and obtain additional equity financing or sell assets on satisfactory terms or at all. As a result, the inability to meet our lease and debt service obligations could cause us to default on those obligations. The agreements governing the terms of our debt obligations contain restrictive covenants that limit our ability to take specific actions (including paying dividends to our stockholders) or require us not to allow specific events to occur and prescribe minimum financial maintenance requirements that we must meet. If we violate those restrictive covenants or fail to meet the minimum financial requirements contained in a debt instrument, we could be in default under that instrument, which could, in turn, result in defaults under other debt instruments. Any such defaults could materially impair our financial condition and liquidity. In addition, we may incur additional indebtedness in the future, subject to the restrictions contained in the agreements governing the terms of our debt obligations. If new indebtedness is added to our current debt levels, the related risks that we now face could intensify.

To service our indebtedness, we will require a significant amount of cash, which depends on many factors beyond our control.

Our ability to make payments on our debt and other financial obligations will depend on the ability of our subsidiaries to generate substantial operating cash flow. This will depend on future performance, which will be subject to prevailing economic conditions and to financial, business and other factors beyond our control. If our and our subsidiaries' cash flows prove inadequate to meet our and their debt service and other obligations in the future, we may be required to refinance all or a portion of our and our subsidiaries' existing or future debt, on or before maturity,

to sell assets, to obtain additional financing or suspend the payment of dividends. We cannot assure you that we will be able to refinance any indebtedness, sell any such assets or obtain additional financing on commercially reasonable terms or at all.

We depend on motion picture production and performance and our relationships with film distributors.

Our ability to operate successfully depends upon the availability, diversity and commercial appeal of motion pictures, our ability to license motion pictures and the performance of such motion pictures in our markets. We license first-run motion pictures, the success of which can depend on the marketing efforts of the major motion picture studios. Poor performance of, or any disruption in the production of, these motion pictures (including by reason of a strike or lack of adequate financing), or a

Table of Contents

reduction in the marketing efforts of the major motion picture studios, could hurt our business and results of operations. In addition, a change in the type and breadth of movies offered by motion picture studios may adversely affect the demographic base of moviegoers.

The distribution of motion pictures is in large part regulated by federal and state antitrust laws and has been the subject of numerous antitrust cases. Consent decrees resulting from those cases effectively require major motion picture distributors to offer and license films to exhibitors, including us, on a film-by-film and theatre-by-theatre basis. Consequently, we cannot assure ourselves of a supply of motion pictures by entering into long-term arrangements with major distributors, but must compete for our licenses on a film-by-film and theatre-by-theatre basis. In addition, the film distribution business is highly concentrated, with the top ten film distributors accounting for approximately 95% of our admissions revenues during fiscal 2015. Our business depends on maintaining good relations with these distributors. We are dependent on our ability to negotiate commercially favorable licensing terms for first-run films. A deterioration in our relationship with any of the major film distributors could affect our ability to negotiate film licenses on favorable terms or our ability to obtain commercially successful films and, therefore, could hurt our business and results of operations.

An increase in the use of alternative film delivery methods may drive down movie theatre attendance and reduce our revenue.

We compete with other motion picture distribution channels including digital sell-through, DVD and Blu-ray, physical and digital rental, subscription video on demand and free and pay television. When motion picture distributors license their products to the domestic exhibition industry, they refrain from licensing their motion pictures to these other distribution channels during the theatrical release window. The average theatrical release window has decreased from approximately six months to approximately three to four months over the last decade. Further, some film distributors have experimented with offering alternative distribution methods for certain films that rely on shorter theatrical release windows and in some cases, bypass the theatrical release altogether. We believe that a material contraction of the current theatrical release window could significantly dilute the consumer appeal of the in-theatre motion picture offering, which could have a material adverse effect on our business and results of operations. We can provide no assurance as to the impact or timing of any material contraction to the current theatrical release window.

Our theatres operate in a competitive environment.

The motion picture exhibition industry is fragmented and highly competitive with no significant barriers to entry. Theatres operated by national and regional circuits and by small independent exhibitors compete with our theatres, particularly with respect to film licensing, attracting patrons and developing new theatre sites. Moviegoers are generally not brand conscious and usually choose a theatre based on its location, the films showing there and its amenities.

The motion picture exhibition industry has and continues to implement various initiatives, concepts, customer amenities and technological innovations aimed at delivering a premium movie-going experience for its patrons (including, but not limited to, luxury reclining seating, enhancement of food and alcoholic beverage offerings, the installation of premium format screens, digital 3D, satellite distribution technologies and stadium seating). Theatres in our markets without these amenities may be more vulnerable to competition than those theatres with such amenities, and should other theatre operators choose to implement these or other initiatives in these markets, the performance of our theatres may be significantly and negatively impacted. In addition, while we continue to implement these and other initiatives, new innovations and technology will continue to impact our industry. If we are unable to respond to or invest in future technology and the changing preferences of our customers, we may not be able to compete with other exhibitors or other entertainment venues, which could also adversely affect our results of operations. Finally, should other theatre operators return to the aggressive capital spending strategies undertaken in the late 1990's, our attendance, revenue and income from operations per screen could decline substantially.

We are currently the subject of an investigation by the Antitrust Division of the Department of Justice and Attorneys General in several states and have been named as defendants in third party lawsuits related to similar matters.

We are currently the subject of an investigation by the DOJ regarding potentially anticompetitive conduct and coordination among NCM, AMC, the Company and/or Cinemark, under Sections 1 and 2 of the Sherman Act, 15

U.S.C. § 1 and § 2. Additionally, we are the subject of investigations by various state attorneys general relating to our investments in various joint ventures, including NCM, as well as movie “clearances” whereby film distributors do not license the rights to exhibitors to play the same first-run feature length films at the same time in the same theatrical release zones. In addition, we have been named as defendants in lawsuits commenced by other theatre operators who claim the Company has engaged in anti-competitive conduct by virtue of these clearances.

The Company intends to cooperate with any Federal or state investigations to the extent any are undertaken. While we do not believe that the Company has engaged in any violation of Federal or state antitrust or competition laws related to its investments in NCM, other joint ventures, or as pertains to movie clearances, and while the Company intends to vigorously defend any allegation that it has done so, we can provide no assurances as to the scope, timing or outcome of the DOJ’s, any

Table of Contents

other state or Federal governmental reviews of the Company's conduct, or any third party lawsuits initiated regarding the same or similar matters. If we are subject to an adverse finding or ruling resulting from any of these investigations or lawsuits, we could be required to pay damages or penalties or have other remedies imposed upon us that could have a material adverse effect on our business. In addition, we have already incurred substantial legal expenses related to these matters and we may incur significant additional expenditures in the future. Furthermore, the period of time necessary to fully respond to and resolve these investigations and lawsuits is uncertain and could require significant management time and financial resources which could otherwise be devoted to the operation of our business.

We may not benefit from our acquisition strategy and strategic partnerships.

We may have difficulty identifying suitable acquisition candidates and partnership opportunities. In the case of acquisitions, even if we identify suitable candidates, we anticipate significant competition from other motion picture exhibitors and financial buyers when trying to acquire these candidates, and there can be no assurances that we will be able to acquire such candidates at reasonable prices or on favorable terms. Moreover, some of these possible buyers may be stronger financially than we are. As a result of this competition for limited assets, we may not succeed in acquiring suitable candidates or may have to pay more than we would prefer to make an acquisition. If we cannot identify or successfully acquire suitable acquisition candidates, we may not be able to successfully expand our operations and the market price of our securities could be adversely affected.

In any acquisition, we expect to benefit from cost savings through, for example, the reduction of overhead and theatre level costs, and from revenue enhancements resulting from the acquisition. There can be no assurance, however, that we will be able to generate sufficient cash flow from these acquisitions to service any indebtedness incurred to finance such acquisitions or realize any other anticipated benefits. Nor can there be any assurance that our profitability will be improved by any one or more acquisitions. If we cannot generate anticipated cash flows resulting from acquisitions or fail to realize their anticipated benefits, our results of operations and profitability could be adversely affected. Any acquisition may involve operating risks, such as:

- the difficulty of assimilating the acquired operations and personnel and integrating them into our current business;
- the potential disruption of our ongoing business;
- the diversion of management's attention and other resources;
- the possible inability of management to maintain uniform standards, controls, procedures and policies;
- the risks of entering markets in which we have little or no experience;
- the potential impairment of relationships with employees and landlords;
- the possibility that any liabilities we may incur or assume may prove to be more burdensome than anticipated; and
- the possibility that any acquired theatres or theatre circuit operators do not perform as expected.

We also selectively pursue theatre-related investments and partnership opportunities that enhance and more fully leverage our asset base to improve our consolidated operating results and free cash flow. As of December 31, 2015, we own approximately 19.5% of National CineMedia, and participate in other joint ventures such as DCIP, Open Road Films, AC JV and DCDC. Risks associated with pursuing these investments and opportunities include:

- the difficulties and uncertainties associated with identifying investment and partnership opportunities that will successfully enhance and utilize our existing asset base in a manner that contributes to cost savings and revenue enhancement;
- our inability to exercise complete voting control over the partnerships and joint ventures in which we participate; and our partners may have economic or business interests or goals that are inconsistent with ours, exercise their rights in a way that prohibits us from acting in a manner which we would like or they may be unable or unwilling to fulfill their obligations under the joint venture or similar agreements.

Although we have not been materially constrained by our participation in National CineMedia or other joint ventures to date, no assurance can be given that the actions or decisions of other stakeholders in these ventures will not affect our investments in National CineMedia, DCIP, Open Road Films, AC JV and DCDC or other existing or future ventures in a way that hinders our corporate objectives or reduces any anticipated improvements to our operating results and free cash flow.

In addition, any acquisitions or partnership opportunities are subject to the risk that the Antitrust Division of the United States Department of Justice or state or foreign competition authorities may require us to dispose of existing or acquired theatres in order to complete acquisition and partnership opportunities, pay damages and fines, or otherwise modify our normal operations as a result of our joint venture investments. The DOJ and various state attorneys general are currently investigating

Table of Contents

our investments in our various joint ventures, including NCM, for potentially anticompetitive conduct, as described more fully herein, and until such investigations are complete, we are not able to predict their outcome.

We rely on our information systems to conduct our business, and failure to protect these systems against security breaches could adversely affect our business and results of operations. Additionally, if these systems fail or become unavailable for any significant period of time, our business could be harmed.

The efficient operation of our business is dependent on computer hardware and software systems. Information systems are vulnerable to security breaches by computer hackers, cyber terrorists, employee error or misconduct, viruses, power outages and other catastrophic events, leading to unauthorized disclosure of confidential and proprietary information and exposing us to litigation that could adversely affect our reputation. We rely on industry accepted security measures and technology to protect confidential and proprietary information maintained on our information systems. However, these measures and technology may not adequately prevent security breaches. In addition, the unavailability of the information systems or the failure of these systems to perform as anticipated for any reason could disrupt our business and could result in decreased performance and increased operating costs, causing our business and results of operations to suffer. Any significant interruption or failure of our information systems or any significant breach of security could adversely affect our business and results of operations.

Economic, political and social conditions could materially affect our business by reducing consumer spending on movie attendance or could have an impact on our business and financial condition in ways that we currently cannot predict.

We depend on consumers voluntarily spending discretionary funds on leisure activities. We also compete for the public's leisure time and disposable income with other forms of entertainment, including sporting events, theme parks, concerts, live theatre and restaurants. Motion picture theatre attendance may be affected by negative trends in the general economy that adversely affect consumer spending. A prolonged reduction in consumer confidence or disposable income in general may affect the demand for motion pictures or severely impact the motion picture production industry, which, in turn, could adversely affect our operations. If economic conditions are weak or deteriorate, or if financial markets experience significant disruption, it could materially adversely affect our results of operations, financial position and/or liquidity. For example, deteriorating conditions in the global credit markets could negatively impact our business partners which may impact film production, the development of new theatres or the enhancement of existing theatres.

Theatre attendance may also be affected by political events, such as terrorist attacks on, or wars or threatened wars involving, the United States, health related epidemics and random acts of violence, any one of which could cause people to avoid our theatres or other public places where large crowds are in attendance. In addition, due to our concentration in certain markets, natural disasters such as hurricanes, earthquakes and severe storms in those markets could adversely affect our overall results of operations.

In addition, our ability to access capital markets may be restricted at times when the implementation of our business strategy may require us to do so, which could have an impact on our flexibility to react to changing economic and business conditions. For example, our future ability to borrow on Regal Cinemas' senior credit facility or the effectiveness of our remaining and future interest rate hedging arrangements could be negatively impacted if one or more counterparties files for bankruptcy protection or otherwise fails to perform their obligations thereunder.

All of these factors could adversely affect our credit ratings, the market price of our Class A common stock and our financial condition and results of operations.

We depend on our senior management.

Our success depends upon the retention of our senior management, including Amy Miles, our Chief Executive Officer. We cannot assure you that we would be able to find qualified replacements for the individuals who make up our senior management if their services were no longer available. The loss of services of one or more members of our senior management team could have a material adverse effect on our business, financial condition and results of operations. The loss of any member of senior management could adversely affect our ability to effectively pursue our business strategy.

We are subject to substantial government regulation, which could entail significant cost.

We are subject to various federal, state and local laws, regulations and administrative practices affecting our business, and we must comply with provisions regulating health and sanitation standards, equal employment, environmental, and licensing for the sale of food and, in some theatres, alcoholic beverages. Changes in existing laws or implementation of new laws, regulations and practices could have a significant impact on our business. A significant portion of our theatre level employees are part time workers who are paid at or slightly above the applicable minimum wage in the theatre's jurisdiction. Increases in the minimum wage and implementation of reforms requiring the provision of additional benefits will increase our labor costs.

Our theatres must comply with the ADA to the extent that such properties are "public accommodations" and/or "commercial facilities" as defined by the ADA. Compliance with the ADA requires that public accommodations "reasonably accommodate" individuals with disabilities and that new construction or alterations made to "commercial facilities" conform to

Table of Contents

accessibility guidelines unless "structurally impracticable" for new construction or technically infeasible for alterations. Non-compliance with the ADA could result in the imposition of injunctive relief, fines, award of damages to private litigants and additional capital expenditures to remedy such non-compliance.

The interests of our controlling stockholder may conflict with your interests.

The Anschutz Corporation owns all of our outstanding Class B common stock. Our Class A common stock has one vote per share while our Class B common stock has ten votes per share on all matters to be voted on by stockholders. As a result, as of December 31, 2015, The Anschutz Corporation controlled approximately 78% of the voting power of all of our outstanding common stock. For as long as The Anschutz Corporation continues to own shares of common stock representing more than 50% of the voting power of our common stock, it will be able to elect all of the members of our Board of Directors, effect stockholder actions by written consent in lieu of stockholder meetings and determine the outcome of all matters submitted to a vote of our stockholders, including matters involving mergers or other business combinations, the acquisition or disposition of assets, the incurrence of indebtedness, the issuance of any additional shares of common stock or other equity securities and the payment of dividends on our common stock. The Anschutz Corporation will also have the power to prevent or cause a change in control, and could take other actions that might be desirable to The Anschutz Corporation but not to other stockholders. In addition, The Anschutz Corporation and its affiliates have controlling interests in companies in related and unrelated industries, including interests in the sports, motion picture production and music entertainment industries. In the future, it may combine our company with one or more of its other holdings.

Substantial sales of our Class A common stock could cause the market price for our Class A common stock to decline. We cannot predict the effect, if any, that open-market sales of shares of our Class A common stock or the availability of shares of our Class A common stock for sale will have on the market price of our Class A common stock prevailing from time to time. Sales of substantial amounts of shares of our Class A common stock in the public market, including by the The Anschutz Corporation or its affiliates, or the perception that those sales will occur, could cause the market price of our Class A common stock to decline.

As of February 22, 2016, we had outstanding 23,708,639 shares of Class B common stock that may convert into Class A common stock on a one-for-one basis, all of which shares of common stock constitute "restricted securities" under the Securities Act. Provided the holders comply with the applicable volume limits and other conditions prescribed in Rule 144 under the Securities Act, all of these restricted securities are currently freely tradable.

In addition, The Anschutz Corporation and its affiliates are able to sell their shares pursuant to the registration rights that we have granted and may chose to do so at any time. In addition, we cannot predict whether substantial amounts of our Class A common stock will be sold in the open market in anticipation of, or following, any divestiture by The Anschutz Corporation or our directors or executive officers of their shares of our common stock.

Our amended and restated certificate of incorporation and our amended and restated bylaws contain anti-takeover protections, which may discourage or prevent a takeover of our company, even if an acquisition would be beneficial to our stockholders.

Provisions contained in our amended and restated certificate of incorporation and amended and restated bylaws, as amended, as well as provisions of the Delaware General Corporation Law, could delay or make it more difficult to remove incumbent directors or for a third party to acquire us, even if a takeover would benefit our stockholders.

Our issuance of shares of preferred stock could delay or prevent a change of control of our company.

Our Board of Directors has the authority to cause us to issue, without any further vote or action by the stockholders (unless otherwise required by the rules of the New York Stock Exchange), up to 50,000,000 shares of preferred stock, par value \$0.001 per share, in one or more series, to designate the number of shares constituting any series, and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, voting rights, rights and terms of redemption, redemption price or prices and liquidation preferences of such series. The issuance of shares of preferred stock may have the effect of delaying, deferring or preventing a change in control of our company without further action by the stockholders, even where stockholders are offered a premium for their shares.

Our issuance of preferred stock could dilute the voting power of the common stockholders.

Edgar Filing: WisdomTree Trust - Form 485APOS

The issuance of shares of preferred stock with voting rights may adversely affect the voting power of the holders of our other classes of voting stock either by diluting the voting power of our other classes of voting stock if they vote together as a single class, or by giving the holders of any such preferred stock the right to block an action on which they have a separate class vote even if the action were approved by the holders of our other classes of voting stock. Our issuance of preferred stock could adversely affect the market value of our common stock.

19

Table of Contents

The issuance of shares of preferred stock with dividend or conversion rights, liquidation preferences or other economic terms favorable to the holders of preferred stock could adversely affect the market price for our common stock by making an investment in the common stock less attractive. For example, investors in the common stock may not wish to purchase common stock at a price above the conversion price of a series of convertible preferred stock because the holders of the preferred stock would effectively be entitled to purchase common stock at the lower conversion price causing economic dilution to the holders of common stock.

We are a holding company dependent on our subsidiaries for our ability to service our debt and pay our dividends. We are a holding company with no operations of our own. Consequently, our ability to service our and our subsidiaries' debt and pay dividends on our common stock is dependent upon the earnings from the businesses conducted by our subsidiaries. Our subsidiaries are separate and distinct legal entities and have no obligation to provide us with funds for our payment obligations, whether by dividends, distributions, loans or other payments. Any distribution of earnings to us from our subsidiaries, or advances or other distributions of funds by these subsidiaries to us, all of which are subject to statutory or contractual restrictions, are contingent upon our subsidiaries' earnings and are subject to various business considerations. Our right to receive any assets of any of our subsidiaries upon their liquidation or reorganization, and therefore the right of the holders of our 5³/₄% Senior Notes due 2022 (the "5³/₄% Senior Notes Due 2022"), our 5³/₄% Senior Notes due 2023 (the "5³/₄% Senior Notes Due 2023"), our 5³/₄% Senior Notes due 2025 (the "5³/₄% Senior Notes Due 2025") and our common stock to participate in those assets, will be structurally subordinated to the claims of that subsidiary's creditors. In addition, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us.

Item 1B. UNRESOLVED STAFF COMMENTS.

None.

Item 2. PROPERTIES.

As of December 31, 2015, we operated 515 theatre locations pursuant to lease agreements and owned the land and buildings in fee for 57 theatre locations. For a list of the states in which we operated theatres and the number of theatres and screens operated in each such state as of December 31, 2015, please see the chart under Part I, Item 1 of this Form 10-K under the caption "Business—Theatre Operations," which is incorporated herein by reference. The majority of our leased theatres are subject to lease agreements with original terms of 15 to 20 years or more and, in most cases, renewal options for up to an additional 10 to 20 years. These leases provide for minimum annual rentals and the renewal options generally provide for rent increases. Some leases require, under specified conditions, further rental payments based on a percentage of revenues above specified amounts. A significant majority of the leases are net leases, which require us to pay the cost of insurance, taxes and a portion of the lessor's operating costs. Our corporate office is located in Knoxville, Tennessee. We believe that these facilities are currently adequate for our operations.

Item 3. LEGAL PROCEEDINGS.

Pursuant to Rule 12b-23 under the Securities Exchange Act of 1934, as amended, the information required to be furnished by us under this Part I, Item 3 (Legal Proceedings) is incorporated by reference to the information contained in Note 8 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

Item 4. MINE SAFETY DISCLOSURES.

Not applicable.

PART II

Item 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Edgar Filing: WisdomTree Trust - Form 485APOS

Our common equity consists of Class A and Class B common stock. Our Class A common stock has traded on the New York Stock Exchange since May 9, 2002 under the symbol "RGC." There is no established public trading market for our Class B common stock.

20

Table of Contents

The following table sets forth the historical high and low sales prices per share of our Class A common stock as reported by the New York Stock Exchange for the fiscal periods indicated.

	Fiscal 2015	
	High	Low
First Quarter (January 2, 2015 - March 31, 2015)	\$24.52	\$18.70
Second Quarter (April 1, 2015 - June 30, 2015)	23.67	20.25
Third Quarter (July 1, 2015 - September 30, 2015)	21.98	17.48
Fourth Quarter (October 1, 2015 - December 31, 2015)	20.25	17.65
	Fiscal 2014	
	High	Low
First Quarter (December 27, 2013 - March 27, 2014)	\$20.14	\$17.97
Second Quarter (March 28, 2014 - June 26, 2014)	21.40	18.41
Third Quarter (June 27, 2014 - September 25, 2014)	21.56	19.41
Fourth Quarter (September 26, 2014 - January 1, 2015)	23.24	17.87

On February 22, 2016, there were approximately 244 stockholders of record of our Class A common stock and one stockholder of record of our Class B common stock. As of February 22, 2016 our officers, directors and key employees hold, or in the case of performance shares are eligible to receive, approximately 1,499,394 restricted shares of our Class A common stock, for which the restrictions lapse or the performance criteria and vesting may be satisfied, at various dates through January 13, 2020. All shares of restricted stock are registered and will be freely tradable when the restrictions lapse, unless such shares are issued to or acquired by an affiliate of Regal, in which case the affiliate may only sell the shares subject to the volume limitations imposed by Rule 144 of the Securities Act.

Dividend Policy

During fiscal 2015, we paid to our stockholders four quarterly cash dividends of \$0.22 per share on each outstanding share of our Class A and Class B common stock, or approximately \$139.1 million in the aggregate. During fiscal 2014, we paid to our stockholders four quarterly cash dividends of \$0.22 per share on each outstanding share of our Class A and Class B common stock, or approximately \$138.6 million in the aggregate. In addition, on December 15, 2014, we paid an extraordinary cash dividend of \$1.00 per share on each outstanding share of our Class A and Class B common stock, or approximately \$156.2 million. Finally, on February 9, 2016, we declared a cash dividend of \$0.22 per share on each outstanding share of Class A and Class B common stock. The dividend is payable on March 15, 2016 to our stockholders of record on March 4, 2016. These dividends have been or will be funded through cash flow from operations and available cash on hand. We, at the discretion of our Board of Directors and subject to applicable law, anticipate paying regular quarterly dividends on our Class A and Class B common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, loan agreement restrictions, future prospects for earnings and cash flows, as well as other relevant factors. For a description of the loan agreement restrictions on the payment of dividends, see "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources" included in Part II, Item 7 of this Form 10-K and Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

Unregistered Sales of Equity Securities and Use of Proceeds
None.

Issuer Purchases of Equity Securities

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet be Purchased Under the Plans or Programs
October 1, 2015 - October 31, 2015	—	\$—	—	—
November 1, 2015 - November 30, 2015	1,269	19.90	—	—
December 1, 2015 - December 31, 2015	—	—	—	—
Total	1,269	\$19.90	—	—

During the quarter ended December 31, 2015, the Company withheld approximately 1,269 shares of restricted stock at an aggregate cost of less than \$0.1 million as permitted by the applicable equity award agreements, to satisfy employee tax withholding requirements related to the vesting of restricted stock awards.

Item 6. SELECTED FINANCIAL DATA.

We present below selected historical consolidated financial data for Regal based on historical data, for periods subsequent to the respective acquisition dates, for (i) the fiscal year ended December 29, 2011, considering the results of United Artists, Regal Cinemas, and Edwards (the "subsidiaries") from December 31, 2010, (ii) the fiscal year ended December 27, 2012, considering the results of the subsidiaries from December 30, 2011 and the acquisition of Great Escape Theatres for the period subsequent to the acquisition date of November 29, 2012, (iv) the fiscal year ended December 26, 2013, considering the results of the subsidiaries and Great Escape Theatres from December 28, 2012, and the acquisition of Hollywood Theaters for the period subsequent to the acquisition date of March 29, 2013, (iv) the fiscal year ended January 1, 2015, considering the results of the subsidiaries, Great Escape Theatres and Hollywood Theaters from December 27, 2013 and (v) the fiscal year ended December 31, 2015, considering the results of the subsidiaries, Great Escape Theatres and Hollywood Theaters from January 2, 2015, and the five theatres acquired from Georgia Theatres for the period subsequent to the acquisition date of September 3, 2015. The selected historical consolidated financial data as of and for the fiscal years ended December 31, 2015, January 1, 2015, December 26, 2013, December 27, 2012, and December 29, 2011 were derived from the audited consolidated financial statements of Regal and the notes thereto. The selected historical financial data does not necessarily indicate the operating results or financial position that would have resulted from our operations on a combined basis during the periods presented, nor is the historical data necessarily indicative of any future operating results or financial position of Regal. In addition to the below selected financial data, you should also refer to the more complete financial information included elsewhere in this Form 10-K.

(1) Fiscal year ended January 1, 2015 was comprised of 53 weeks.

(2) Includes the December 15, 2014 payment of the \$1.00 extraordinary cash dividend paid on each share of Class A and Class B common stock.

(3) Includes the December 27, 2012 payment of the \$1.00 extraordinary cash dividend paid on each share of Class A and Class B common stock.

(4) During the quarter ended September 26, 2013, we redeemed 2.3 million of our National CineMedia common units for a like number of shares of NCM, Inc. common stock, which the Company sold in an underwritten public offering (including underwriter over-allotments) for \$17.79 per share, reducing our investment in National CineMedia by approximately \$10.0 million, the average carrying amount of the shares sold. The Company received approximately \$40.9 million in proceeds, resulting in a gain on sale of approximately \$30.9 million. We accounted for these transactions as a proportionate decrease in the Company's Initial Investment Tranche and Additional Investments Tranche and decreased our ownership share in National CineMedia. See Note 4 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further information.

(5) During the years ended December 31, 2015, January 1, 2015, December 26, 2013, December 27, 2012, and December 29, 2011, and December 30, 2010, we recorded long-lived asset impairment charges of \$15.6 million, \$5.6 million, \$9.5 million, \$11.1 million, and \$17.9 million, respectively, specific to theatres that were directly and individually impacted by increased competition, adverse changes in market demographics or adverse changes in the development or the conditions of the areas surrounding the theatre. See Note 2 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further information related to our impairment policies.

(6) During the quarter ended December 29, 2011, the Company considered various factors pertaining to its investment in RealD, Inc. as part of its ongoing impairment review and determined that an other-than-temporary impairment existed as of December 29, 2011. Such determination was based primarily on the length (approximately six

months) of time during which the fair value of the RealD, Inc. investment remained substantially below the recorded investment cost basis of approximately \$19.40 per share, the severity of the decline during such period and the prospects of recovery of the investment to its original cost basis. As a result, the Company recorded a \$13.9 million other-than-temporary impairment charge to write-down its cost basis in

Table of Contents

RealD, Inc. to fair value as of December 29, 2011. The fair value of RealD, Inc. common shares was based on the publicly traded common stock price of RealD, Inc. as of December 29, 2011 of \$8.05 per share.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This discussion summarizes the significant factors affecting the consolidated operating results, financial condition, liquidity and cash flows of Regal Entertainment Group for the fiscal years ended December 31, 2015, January 1, 2015, and December 26, 2013. The following discussion and analysis should be read in conjunction with the consolidated financial statements of Regal and the notes thereto included elsewhere in this Form 10-K.

Overview and Basis of Presentation

We conduct our operations through our wholly owned subsidiaries. We operate the largest and most geographically diverse theatre circuit in the United States, consisting of 7,361 screens in 572 theatres in 42 states along with Guam, Saipan, American Samoa and the District of Columbia as of December 31, 2015. We believe the size, reach and quality of our theatre circuit provide an exceptional platform to realize economies of scale from our theatre operations. We also maintain an investment in National CineMedia, which concentrates on in-theatre advertising. The Company manages its business under one reportable segment: theatre exhibition operations.

We generate revenues primarily from admissions and concession sales. Additional revenues are generated by our vendor marketing programs, our gift card and discount ticket programs, various other activities in our theatres and our relationship with National CineMedia. Film rental costs depend primarily on the popularity and box office revenues of a film, and such film rental costs generally increase as the admissions revenues generated by a film increase. Because we purchase certain concession items, such as fountain drinks and popcorn, in bulk and not pre-packaged for individual servings, we are able to maximize our margins by negotiating volume discounts. Other operating expenses consist primarily of theatre labor and occupancy costs.

The Company's revenues are usually seasonal, coinciding with the timing of releases of motion pictures by the major distributors. Generally, motion picture studios release the most marketable motion pictures during the summer and holiday seasons. The emergence or continuance of a "hit" film during other periods can alter the traditional pattern. The timing of movie releases can have a significant effect on the Company's results of operations, and the results of one fiscal quarter are not necessarily indicative of the results for the next or any other fiscal quarter. The seasonality of motion picture exhibition, however, has become less pronounced as motion picture studios are releasing motion pictures somewhat more evenly throughout the year. The Company does not believe that inflation has had a material impact on its financial position or results of operations.

For a summary of industry trends as well as other risks and uncertainties relevant to the Company, see "Business—Industry Overview and Trends" and "Risk Factors."

Critical Accounting Estimates

Our consolidated financial statements are prepared in conformity with U.S generally accepted accounting principles ("GAAP"), which require management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosures of contingent assets and liabilities as of the date of the balance sheet as well as the reported amounts of revenues and expenses during the reporting period. We routinely make estimates and judgments about the carrying value of our assets and liabilities that are not readily apparent from other sources. We evaluate and modify on an ongoing basis such estimates and assumptions, which include those related to property and equipment, goodwill, deferred revenue pertaining to gift card and discount ticket sales, income taxes and purchase accounting as well as others discussed in Note 2 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K. Estimates and assumptions are based on historical and other factors believed to be reasonable under the circumstances. The results of these estimates may form the basis of the carrying value of certain assets and liabilities. Actual results, under conditions and circumstances different from those assumed, may differ materially from estimates. The impact and any associated risks related to estimates, assumptions, and accounting policies are discussed elsewhere within this "Management's Discussion and Analysis of Financial Condition and Results of

Operations," as well as in the notes to the consolidated financial statements, if applicable, where such estimates, assumptions, and accounting policies affect our reported and expected results. Management has discussed the development and selection of its critical accounting estimates with the Audit Committee of our Board of Directors and the Audit Committee has reviewed our related disclosures herein.

Table of Contents

We believe the following accounting policies are critical to our business operations and the understanding of our results of operations and affect the more significant judgments and estimates used in the preparation of our consolidated financial statements:

We have applied the principles of purchase accounting when recording theatre acquisitions. Under current purchase accounting principles, we are required to use the acquisition method of accounting to estimate the fair value of all assets and liabilities, including: (i) the acquired tangible and intangible assets, including property and equipment, (ii) the liabilities assumed at the date of acquisition (including contingencies), and (iii) the related deferred tax assets and liabilities. Because the estimates we make in purchase accounting can materially impact our future results of operations, for significant acquisitions, we have obtained assistance from third party valuation specialists in order to assist in our determination of fair value. The Company provides the assumptions to the third party valuation firms based on information available to us at the acquisition date, including both quantitative and qualitative information about the specified assets or liabilities. The Company primarily utilizes the third parties to accumulate comparative data from multiple sources and assemble a report that summarizes the information obtained. The Company then uses the information to determine fair value. The third party valuation firms are supervised by Company personnel who are knowledgeable about valuations and fair value. The Company evaluates the appropriateness of the valuation methodology utilized by the third party valuation firms. The estimation of the fair value of the assets and liabilities involves a number of judgments and estimates that could differ materially from the actual amounts. Historically, the estimates made have not experienced significant changes and, as a result, we have not disclosed such changes. FASB Accounting Standards Codification ("ASC") Subtopic 350-20, Intangibles—Goodwill and Other—Goodwill specifies that goodwill and indefinite-lived intangible assets will be subject to an annual impairment assessment. Based on our annual impairment assessment conducted during fiscal 2015, fiscal 2014 and fiscal 2013, we were not required to record a charge for goodwill impairment. In assessing the recoverability of the goodwill, we must make various assumptions regarding estimated future cash flows and other factors in determining the fair values of the respective assets. If these estimates or their related assumptions change in the future, we may be required to record impairment charges for these assets in future periods.

We depreciate and amortize the components of our property and equipment relating to both owned and leased theatres on a straight-line basis over the shorter of the lease term or the estimated useful lives of the assets. Each owned theatre consists of a building structure, structural improvements, seating and concession and film display equipment. While we have assigned an estimated useful life of less than 30 years to certain acquired facilities, we estimate that our newly constructed buildings generally have an estimated useful life of 30 years. Certain of our buildings have been in existence for more than 40 years. With respect to equipment (e.g., concession stand, point-of-sale equipment, etc.), a substantial portion is depreciated over seven years or less, which has been our historical replacement period. Seats and digital projection equipment generally have a longer useful economic life, and their depreciable lives (10-17.5 years) are based on our experience and replacement practices. The estimates of the assets' useful lives require our judgment and our knowledge of the assets being depreciated and amortized. Further, we review the economic useful lives of such assets annually and make adjustments thereto as necessary. To the extent we determine that certain of our assets have become obsolete, we accelerate depreciation over the remaining useful lives of the assets. Actual economic lives may differ materially from these estimates.

Historical appraisals of our properties have supported the estimated lives being used for depreciation and amortization purposes. Furthermore, our analysis of our historical capital replacement program is consistent with our depreciation policies. Finally, we review long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be fully recoverable. Such analysis generally evaluates assets for impairment on an individual theatre basis. When the estimated future undiscounted cash flows of the operations to which the assets relate do not exceed the carrying value of the assets, such assets are written down to fair value. Our experience indicates that theatre properties become impaired primarily due to market or competitive factors rather than physical (wear and tear) or functional (inadequacy or obsolescence) factors. In this regard, we do not believe the frequency or volume of facilities impaired due to these market factors are significant enough to impact the useful lives used for depreciation periods.

Edgar Filing: WisdomTree Trust - Form 485APOS

For the fiscal years ended December 31, 2015, January 1, 2015 and December 26, 2013, no significant changes have been made to the depreciation and amortization rates applied to operating assets, the underlying assumptions related to estimates of depreciation and amortization, or the methodology applied. For the fiscal year ended December 31, 2015, consolidated depreciation and amortization expense was \$216.8 million, representing 6.9% of consolidated total revenues. If the estimated lives of all assets being depreciated were increased by one year, the consolidated depreciation and amortization expense would have decreased by approximately \$13.7 million, or

25

Table of Contents

6.3%. If the estimated lives of all assets being depreciated were decreased by one year, the consolidated depreciation and amortization expense would have increased by approximately \$15.7 million, or 7.2%.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases as well as operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. We record a valuation allowance if it is deemed more likely than not that our deferred income tax assets will not be realized. We reassess the need for such valuation allowance on an ongoing basis. An increase in the valuation allowance generally results in an increase in the provision for income taxes recorded in such period. A decrease in the valuation allowance generally results in a decrease to the provision for income taxes recorded in such period.

Additionally, income tax rules and regulations are subject to interpretation, require judgment by us and may be challenged by the taxing authorities. As described further in Note 7 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, the Company applies the provisions of ASC Subtopic 740-10, Income Taxes—Overview. Although we believe that our tax return positions are fully supportable, in accordance with ASC Subtopic 740-10, we recognize a tax benefit only for tax positions that we determine will more likely than not be sustained based on the technical merits of the tax position. With respect to such tax positions for which recognition of a benefit is appropriate, the benefit is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. Tax positions are evaluated on an ongoing basis as part of our process for determining our provision for income taxes. Among other items deemed relevant by us, the evaluations are based on new legislation, other new technical guidance, judicial proceedings, and our specific circumstances, including the progress of tax audits. Any change in the determination of the amount of tax benefit recognized relative to an uncertain tax position impacts the provision for income taxes in the period that such determination is made. For fiscal 2015, our provision for income taxes was \$100.1 million. Changes in management's estimates and assumptions regarding the probability that certain tax return positions will be sustained, the enacted tax rate applied to deferred tax assets and liabilities, the ability to realize the value of deferred tax assets, or the timing of the reversal of tax basis differences could impact the provision for income taxes and change the effective tax rate. A one percentage point change in the effective tax rate from 39.5% to 40.5% would have increased the current year income tax provision by approximately \$2.5 million.

As noted in our significant accounting policies for "Revenue Recognition" under Note 2 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, the Company maintains a deferred revenue balance pertaining to cash received from the sale of discount tickets and gift cards that have not been redeemed. The Company recognizes revenue as a component of "Other operating revenues" associated with discount tickets and gift cards when redeemed, or when the likelihood of redemption becomes remote. We recognize unredeemed gift cards and other advanced sale-type certificates as revenue (known as "breakage" in our industry) based on historical experience, when the likelihood of redemption is remote, and when there is no legal obligation to remit the unredeemed gift card and discount ticket items to the relevant jurisdiction. The determination of the likelihood of redemption is based on an analysis of historical redemption trends and considers various factors including the period outstanding, the level and frequency of activity, and the period of inactivity.

Significant Events and Fiscal 2016 Outlook

During the fiscal year ended December 31, 2015 ("Fiscal 2015 Period"), the fifty-three week fiscal year ended January 1, 2015 ("Fiscal 2014 Period") and the fiscal year ended December 26, 2013 ("Fiscal 2013 Period"), the Company entered into various investing and financing transactions which are more fully described under "Liquidity and Capital Resources" below and in the notes to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

Edgar Filing: WisdomTree Trust - Form 485APOS

During the Fiscal 2015 Period, we continued to make progress with respect to our business strategy as follows: We demonstrated our commitment to providing incremental value to our stockholders. During the Fiscal 2015 Period, we paid to our stockholders four quarterly cash dividends of \$0.22 per share, or approximately \$139.1 million in the aggregate.

In addition to the acquisition of five theatres and 61 screens from entities affiliated with Georgia Theatre Company, we continued to actively manage our asset base during the Fiscal 2015 Period by opening two theatres

Table of Contents

with 24 screens and closing nine underperforming theatres with 91 screens, ending the Fiscal 2015 Period with 572 theatres and 7,361 screens.

We continued to embrace innovative concepts that generate incremental revenue and cash flows for the Company and deliver a premium movie-going experience for our customers on several complementary fronts:

First, we continued to focus on improving customer amenities, primarily the installation of luxury reclining seats. With respect to our luxury reclining seating initiative, as of December 31, 2015, we offered luxury reclining seating in 819 auditoriums at 72 theatre locations. Based on promising results, we expect to offer luxury reclining seating in approximately 40 additional locations during fiscal 2016 and expect to outfit approximately 25% to 30% of the total screens in our circuit with luxury reclining seating by the end of fiscal 2017. The costs of these conversions in some cases are partially covered by contributions from our theatre landlords.

Second, to continually address consumer trends and customer preferences, we have focused on expanding our menu of food and alcoholic beverage products. We believe that the enhancement of our food and alcoholic beverage offerings has had a positive effect on our operating results and we expect to continue to invest in such offerings in our theatres. As of December 31, 2015, we offered an expanded menu of food and/or alcoholic beverage items in 235 locations and during fiscal 2016, we expect to introduce an expanded menu of food in approximately 65 locations and alcoholic beverages in approximately 75 locations.

Third, we maintain a frequent moviegoer loyalty program, named the Regal Crown Club®, to actively engage our core customers. Regal Crown Club® members are eligible for specified awards, such as concession items, based on purchases made at our participating theatres. As of December 31, 2015, we had over 13 million active members in the Regal Crown Club®, making it the largest loyalty program in our industry, and these members accounted for approximately \$1.1 billion of the Company's box office and concession revenues during fiscal 2015. In addition, our mobile ticketing application, designed to give customers quick access to box office information via their Apple iPhone® or Android™ phone, has been downloaded approximately 4.2 million times since its fiscal 2012 launch. The application provides customers the ability to find films, movie information, showtimes and special offers from Regal (including Regal Crown Club® loyalty program promotions) and the ability to purchase tickets for local theatres, thereby expediting the admissions process.

Finally, we believe that our IMAX® digital projection systems and our proprietary large screen format, RPXSM offer our patrons all-digital, large format premium experiences and generate incremental revenue and cash flows for the Company. As of December 31, 2015, our IMAX® footprint consisted of 89 IMAX® screens and we operated 91 RPXSM screens. We have been encouraged by the operating results of our IMAX® and RPXSM screens and believe such premium motion picture formats allow us to deliver a premium movie-going experience for our customers. We are optimistic regarding the breadth of the 2016 film slate, including the timing of the release schedule and the number of films scheduled for release. Evidenced by the motion picture studios' continued efforts to promote and market upcoming film releases, 2016 appears to be another year of high-profile releases such as Zootopia, Batman vs Superman: Dawn of Justice, The Jungle Book, Captain America: Civil War, Alice Through the Looking Glass, X Men: Apocalypse, Warcraft, Finding Dory, Independence Day: Resurgence, Ghostbusters, Ice Age: Collision Course, Star Trek Beyond, Jason Bourne, Suicide Squad, Fantastic Beasts and Where to Find Them and Rogue One: A Star Wars Story.

We intend to grow our theatre circuit through selective expansion and through accretive acquisitions. With respect to capital expenditures, subject to the timing of certain construction projects, we expect capital expenditures (net of proceeds from asset sales and landlord contributions) to be in the range of \$135.0 million to \$150.0 million for fiscal 2016, consisting of new theatre development, expansion of existing theatre facilities, upgrades for premium amenities, and maintenance.

Overall for the fiscal 2016 year, we expect to benefit from modest increases in ticket prices and average concessions per patron. In addition, we expect fiscal 2016 admissions and concessions revenues to be supported by our continued focus on efficient theatre operations and through opportunities to expand our concession offerings. We will continue to maintain a business strategy focused on the evaluation of accretive acquisition opportunities, selective upgrades and

premium experience opportunities and providing incremental returns to our stockholders. For an understanding of the significant factors that influenced our performance during the past three fiscal years, the preceding and following discussion should be read in conjunction with the consolidated financial statements and the notes thereto presented in Part II, Item 8 of this Form 10-K.

Table of Contents

Recent Developments

On February 9, 2016, we declared a cash dividend of \$0.22 per share on each outstanding share of Class A and Class B common stock. The dividend is payable on March 15, 2016 to our stockholders of record on March 4, 2016.

Results of Operations

Based on our review of industry sources, North American box office revenues for the time period that corresponds to the Fiscal 2015 Period were estimated to have increased by approximately three to four percent in comparison to the period of time that corresponds to the Fiscal 2014 Period. The industry's box office results for 2015 were positively impacted by strong attendance from the breadth and commercial success of the overall film slate during 2015, including, most notably, Star Wars: The Force Awakens and Jurassic World.

For fiscal 2014 and prior periods, the Company's fiscal year ended on the first Thursday after December 25, which in certain years (such as fiscal 2014) resulted in a 53-week fiscal year. Beginning January 2, 2015, the Company's fiscal year changed from a 52-53 week fiscal year ending on the first Thursday after December 25 of each year to a fiscal year ending on December 31 of each year. Accordingly, effective for the Company's fiscal year ending December 31, 2015, the Company's quarterly results will be for three month periods ending March 31, June 30, September 30 and December 31 of each year.

The following table sets forth the percentage of total revenues represented by certain items included in our consolidated statements of income for the Fiscal 2015 Period, the Fiscal 2014 Period and the Fiscal 2013 Period (dollars and attendance in millions, except average ticket prices and average concessions per patron):

	Fiscal 2015 Period		Fiscal 2014 Period		Fiscal 2013 Period

Fiscal 2015 Period Compared to Fiscal 2014 Period

Admissions

During the Fiscal 2015 Period, total admissions revenues increased \$39.3 million, or 2.0%, to \$2,038.2 million, from \$1,998.9 million in the Fiscal 2014 Period. A 3.6% increase in average ticket prices (approximately \$71.3 million of total admissions revenues), partially offset by a 1.6% decrease in attendance (approximately \$32.0 million of total admissions revenues) led to the overall increase in the Fiscal 2015 Period admissions revenues. For the Fiscal 2015 Period, the 3.6% average ticket price increase was due to selective price increases identified during our ongoing periodic pricing reviews and an increase in the percentage of our admissions revenues generated by premium format films exhibited during the Fiscal 2015 Period. The decrease in attendance during the Fiscal 2015 Period as compared to the Fiscal 2014 Period was primarily related to the timing of our fiscal calendar. The Fiscal 2014 Period included seven additional days of operations in comparison to that of the Fiscal 2015 Period. The seven days of operations were significant in that they accounted for approximately 9.1 million attendees, or 4.1%, of the Fiscal 2014 Period total attendance and contributed approximately \$80.1 million, or 4.0%, of the Fiscal 2014 Period total admissions revenues. Notwithstanding the timing of our fiscal calendar, the Company's box office results for 2015 were positively impacted by strong attendance from the breadth and commercial success of the overall film slate during 2015 including, most notably, Star Wars: The Force Awakens and Jurassic World. Based on our review of certain industry sources, the increase in our admissions revenues on a per screen basis was in line with the industry's per screen results for the Fiscal 2015 Period as compared to the Fiscal 2014 Period. We are optimistic that the industry's investment in new theatres and customer amenities and other recent industry initiatives and trends will drive continued growth and strength for the domestic motion picture industry. To that end, our market share may be positively or negatively impacted by such initiatives and trends during any given quarter.

Concessions

Total concessions revenues increased \$72.1 million, or 8.7%, to \$901.7 million during the Fiscal 2015 Period, from \$829.6 million for the Fiscal 2014 Period. A 10.3% increase in average concessions revenues per patron (approximately \$85.4 million of total concessions revenues), partially offset by a 1.6% decrease in attendance (approximately \$13.3 million of total concessions revenues) led to the overall increase in the Fiscal 2015 Period concessions revenue. The decrease in attendance during the Fiscal 2015 Period was primarily related to the timing of our fiscal calendar described above. Attendance for the seven additional days of operations during the Fiscal 2014 Period contributed approximately \$32.1 million, or 3.9%, of the Fiscal 2014 Period total concessions revenues. The increase in average concessions revenues per patron for the Fiscal 2015 Period was primarily attributable to an increase in popcorn and beverage sales volume, selective price increases and the continued rollout of our expanded food and alcohol menu.

Other Operating Revenues

Other operating revenues increased \$25.8 million, or 16.0%, to \$187.4 million during the Fiscal 2015 Period, from \$161.6 million for the Fiscal 2014 Period. Included in other operating revenues are the theatre access fees paid by National CineMedia (net of payments for onscreen advertising time provided to our beverage concessionaire), revenues from our vendor marketing programs, other theatre revenues (consisting of theatre rentals, internet ticketing surcharges, arcade games and other) and revenues related to our gift card and discount ticket programs. During the Fiscal 2015 Period, the increase in other operating revenues was due to an increase in revenues related to our gift card and discount ticket programs (approximately \$10.2 million), an increase in other theatre revenues (approximately \$8.1

million) primarily related to internet ticketing surcharges, an increase in revenues from our vendor marketing programs (approximately \$3.8 million) and incremental National CineMedia revenues (approximately \$3.6 million).
Film Rental and Advertising Costs

Film rental and advertising costs as a percentage of admissions revenues for the Fiscal 2015 Period increased to 53.6% during the Fiscal 2015 Period from 52.4% in the Fiscal 2014 Period. The increase in film rental and advertising costs as a

Table of Contents

percentage of box office revenues during the Fiscal 2015 Period was primarily attributable to higher film costs associated with the success of the top tier films exhibited during the Fiscal 2015 Period.

Cost of Concessions

During the Fiscal 2015 Period, cost of concessions increased \$3.3 million, or 3.0%, to \$114.4 million as compared to \$111.1 million during the Fiscal 2014 Period. Cost of concessions as a percentage of concessions revenues for the Fiscal 2015 Period was approximately 12.7%, compared to 13.4% during the Fiscal 2014 Period. The decrease in cost of concessions as a percentage of concessions revenues during the Fiscal 2015 Period was primarily due to the amount of vendor marketing revenues recorded as a reduction of cost of concessions and the impact of the aforementioned price increases during such periods, partially offset by slightly higher raw material and packaged good costs for certain items and the related mix of concession products sold.

Rent Expense

Rent expense decreased \$1.9 million, or 0.4%, to \$421.5 million in the Fiscal 2015 Period, from \$423.4 million in the Fiscal 2014 Period. The decrease in rent expense in the Fiscal 2015 Period was primarily impacted by the restructuring of an existing master lease covering nine operating properties described further in Note 6 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K and the closure of nine theatres with 91 screens subsequent to the end of the Fiscal 2014 Period, partially offset by incremental rent associated with the opening of two new theatres with 24 screens and the acquisition of five theatres and 61 screens subsequent to the end of the Fiscal 2014 Period.

Other Operating Expenses

Other operating expenses increased \$50.5 million, or 6.2%, to \$863.7 million in the Fiscal 2015 Period, from \$813.2 million in the Fiscal 2014 Period. During the Fiscal 2015 Period, the increase in other operating expenses was primarily attributable to the impact of a State of New York sales tax refund received by the Company during the Fiscal 2014 Period totaling approximately \$16.8 million, increases in theatre level payroll expenses (approximately \$14.0 million), increases in non-rent occupancy costs (approximately \$7.0 million), increases in credit card fees and incremental expenses associated with increased internet ticketing surcharge fees (approximately \$4.8 million) and increases in other theatre operating expenses (approximately \$5.5 million).

General and Administrative Expenses

General and administrative expenses increased \$4.4 million, or 5.9%, to \$78.8 million in the Fiscal 2015 Period, from \$74.4 million in the Fiscal 2014 Period. The increase in general and administrative expenses during the Fiscal 2015 Period was primarily attributable to higher legal and professional fees (approximately \$4.8 million) and corporate payroll costs (approximately \$1.5 million), partially offset by lower share-based compensation expense (approximately \$1.1 million).

Depreciation and Amortization

Depreciation and amortization expense increased \$9.6 million, or 4.6%, to \$216.8 million for the Fiscal 2015 Period, from \$207.2 million in the Fiscal 2014 Period. The increase in depreciation and amortization expense during the Fiscal 2015 Period was primarily related to the impact of increased capital expenditures associated with the installation of luxury reclining seats subsequent to the Fiscal 2014 Period, and the opening of two new theatres with 24 screens (partially offset by the closure of nine theatres with 91 screens) subsequent to the end of the Fiscal 2014 Period.

Income from Operations

Income from operations increased \$12.9 million, or 4.2%, to \$319.3 million during the Fiscal 2015 Period, from \$306.4 million in the Fiscal 2014 Period. The increase in income from operations during the Fiscal 2015 Period was primarily attributable to the increase in total revenues, partially offset by increases in certain variable operating expense line items described above.

Interest Expense, net

During the Fiscal 2015 Period, net interest expense increased \$3.1 million, or 2.5%, to \$129.6 million, from \$126.5 million in the Fiscal 2014 Period. The increase in net interest expense during the Fiscal 2015 Period was primarily due to incremental interest associated with a higher effective interest rate under the New Term Facility, partially offset by

interest savings associated with the refinance of approximately \$711.4 million aggregate principal amount of the Company's $9\frac{1}{8}\%$ Senior Notes and $8\frac{5}{8}\%$ Senior Notes with the March 2014 issuance of our $5\frac{3}{4}\%$ Senior Notes Due 2022.

Earnings Recognized from NCM

Earnings recognized from NCM decreased \$1.1 million, or 3.4%, to \$31.0 million in the Fiscal 2015 Period, from \$32.1 million in the Fiscal 2014 Period. The decrease in earnings recognized from NCM during the Fiscal 2015 Period was primarily attributable to lower earnings of National CineMedia during the period.

Table of Contents

Income Taxes

The provision for income taxes of \$100.1 million and \$73.4 million for the Fiscal 2015 Period and the Fiscal 2014 Period, respectively, reflect effective tax rates of approximately 39.5% and 41.1%, respectively. The decrease in the effective tax rate for the Fiscal 2015 Period is primarily attributable to a decrease in the effective tax rate in certain states during the Fiscal 2015 Period and the state tax effects of the \$62.4 million (\$39.2 million after related tax effects) loss on debt extinguishment associated with the repurchase of approximately \$711.4 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and 8⁵/₈% Senior Notes that occurred during the Fiscal 2014 Period, which was not deductible in certain states. The effective tax rates for such periods also reflect the impact of certain non-deductible expenses and other income tax credits.

Net Income Attributable to Controlling Interest

Net income attributable to controlling interest for the Fiscal 2015 Period was \$153.4 million, which represents an increase of \$47.8 million, from net income attributable to controlling interest of \$105.6 million during the Fiscal 2014 Period. The increase in net income attributable to controlling interest for the Fiscal 2015 Period was primarily attributable to the impact of the \$62.4 million (\$39.2 million after related tax effects) loss on debt extinguishment associated with the repurchase of approximately \$711.4 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and Regal Cinemas' 8⁵/₈% Senior Notes during the Fiscal 2014 Period, an increase in operating income as described above and higher equity income from certain of our non-consolidated entities.

Fiscal 2014 Period Compared to Fiscal 2013 Period

Admissions

During the Fiscal 2014 Period, total admissions revenues decreased \$60.7 million, or 2.9%, to \$1,998.9 million, from \$2,059.6 million in the Fiscal 2013 Period. A 3.7% decrease in attendance (approximately \$76.2 million of total admissions revenues), partially offset by a 0.8% increase in average ticket prices (approximately \$15.5 million of total admissions revenues) led to the overall decrease in the Fiscal 2014 Period admissions revenues. The Fiscal 2014 Period results were favorably impacted by the timing of the Fiscal 2014 Period calendar, which consisted of fifty-three weeks compared to the fifty-two weeks during the Fiscal 2013 Period and the inclusion of the 513 screens from Hollywood Theaters for the entire Fiscal 2014 Period (compared to nine months in the Fiscal 2013 Period). The additional week of operations was the week between Christmas and New Years, a traditionally high attendance and revenue week for the Company and the industry. The additional week of operations was significant in that it accounted for approximately 8.7 million attendees, or 4.0%, of the Fiscal 2014 Period total attendance and contributed to approximately \$76.5 million, or 3.8%, of the Fiscal 2014 Period total admissions revenues. Excluding week 53, the 513 screens from Hollywood Theaters accounted for 11.8 million attendees, or 5.4%, of the Fiscal 2014 Period total attendance and contributed approximately \$90.2 million, or 4.5%, of the Fiscal 2014 Period total admissions revenues. However, these factors were offset by the impact of the decline in industry attendance during the Fiscal 2014 Period and as a result, total attendance for the Company's Fiscal 2014 Period decreased by 3.7%. The overall decline in attendance and admissions revenues during the Fiscal 2014 Period as compared to the Fiscal 2013 Period was primarily a result of strong attendance generated by the breadth and commercial appeal of the overall film slate during the Fiscal 2013 Period, which experienced record box office revenues.

On a comparable screen basis (i.e., excluding the effects of the impact of week 53 in the Fiscal 2014 Period and the 513 screens from Hollywood Theaters for the Fiscal 2014 Period and Fiscal 2013 Period), attendance for the Fiscal 2014 Period was approximately 199.7 million, an 8.6% decrease from the Fiscal 2013 Period, and admissions revenues for the Fiscal 2014 Period was approximately \$1,832.2 million, a decrease of \$150.6 million or 7.6% from the Fiscal 2013 Period. On a comparable screen basis, an 8.6% decrease in attendance (approximately \$170.5 million of admissions revenues), partially offset by a 1.1% increase in average ticket prices (approximately \$19.9 million of admissions revenues) led to the net decline in the Fiscal 2014 Period admissions revenues. We believe that our attendance is primarily dependent upon the commercial appeal of content released by the motion picture studios. The decline in comparable screen attendance and admissions revenues was primarily a result of the aforementioned breadth and commercial appeal of the overall film slate during the Fiscal 2013 Period. The increase in our comparable

screen average ticket price was due to selective price increases identified during our ongoing periodic pricing reviews, partially offset by a decrease in the percentage of our admissions revenues generated by premium format films exhibited during the Fiscal 2014 Period. Based on our review of certain industry sources, the decrease in our comparable screen admissions revenues on a per screen basis was greater than the industry's per screen results for the Fiscal 2014 Period as compared to the Fiscal 2013 Period. We believe the greater than industry decrease in comparable screen admissions revenues on a per screen basis in the Fiscal 2014 Period was primarily attributable to premium format film performance and the impact of our competitors' investment in new theatres and customer amenities. We are optimistic that our investments in new theatre construction and premium amenities will provide the opportunity for incremental revenue and cash

Table of Contents

flows for the Company. To that end, our market share may be positively or negatively impacted by such initiatives and trends during any given fiscal period.

Concessions

Total concessions revenues increased \$12.7 million, or 1.6%, to \$829.6 million during the Fiscal 2014 Period, from \$816.9 million for the Fiscal 2013 Period. A 5.6% increase in average concessions revenues per patron (approximately \$42.9 million of total concessions revenues), partially offset by a 3.7% decrease in attendance (approximately \$30.2 million of total concessions revenues) led to the overall increase in the Fiscal 2014 Period concessions revenue. On a comparable screen basis, total concessions revenues for the Fiscal 2014 Period was \$752.1 million, a decrease of \$28.1 million or 3.6% from the Fiscal 2013 Period. Such decrease was primarily attributable to the aforementioned 8.6% decrease in comparable screen attendance (approximately \$67.1 million of concessions revenues), partially offset by a 5.6% increase in comparable screen average concessions revenues per patron (approximately \$39.0 million of concessions revenues). The increase in comparable screen average concessions revenues per patron for the Fiscal 2014 Period was primarily attributable to an increase in popcorn and beverage sales volume per patron, selective price increases during the period and to a lesser extent, the continued rollout of our expanded food and alcohol menu.

Other Operating Revenues

Other operating revenues of \$161.6 million during the Fiscal 2014 Period was consistent with that of the Fiscal 2013 Period. Included in other operating revenues are the theatre access fees paid by National CineMedia (net of payments for onscreen advertising time provided to our beverage concessionaire), revenues from our vendor marketing programs, other theatre revenues (consisting of theatre rentals, internet ticketing surcharges, arcade games and other) and revenues related to our gift card and discount ticket programs. During the Fiscal 2014 Period, other operating revenues were primarily impacted by a decrease in revenues related to our gift card and discount ticket programs (approximately \$5.9 million) and decreases in revenues from our vendor marketing programs (approximately \$1.0 million), offset by incremental National CineMedia revenues (approximately \$3.9 million) and increases in other theatre revenues (approximately \$3.0 million).

Film Rental and Advertising Costs

Film rental and advertising costs as a percentage of admissions revenues of 52.4% during the Fiscal 2014 Period was in line with that of the Fiscal 2013 Period.

Cost of Concessions

During the Fiscal 2014 Period, cost of concessions decreased \$0.5 million, or 0.4%, to \$111.1 million as compared to \$111.6 million during the Fiscal 2013 Period. Cost of concessions as a percentage of concessions revenues for the Fiscal 2014 Period was approximately 13.4%, compared to 13.7% during the Fiscal 2013 Period. The decrease in cost of concessions as a percentage of concessions revenues during the Fiscal 2014 Period was primarily related to an increase in the amount of vendor marketing revenues recorded as a reduction of cost of concessions and the impact of the aforementioned price increases during the period, partially offset by slight increases in raw material costs.

Rent Expense

Rent expense increased by \$9.8 million, or 2.4%, to \$423.4 million in the Fiscal 2014 Period, from \$413.6 million in the Fiscal 2013 Period. The increase in rent expense during the Fiscal 2014 Period was primarily related to the opening of several new theatres late in the Fiscal 2013 Period, the opening of nine new theatres with 98 screens (partially offset by the closure of 15 theatres with 125 screens) subsequent to the end of the Fiscal 2013 Period and incremental rent associated with the leases acquired as part of the Hollywood Theaters acquisition. On a comparable screen basis, rent expense increased \$5.9 million, or 1.5%, during the Fiscal 2014 Period as compared to the Fiscal 2013 Period. On a comparable screen basis, the increase in rent expense in the Fiscal 2014 Period was primarily attributable to the opening of several new theatres late in the Fiscal 2013 Period and the opening of nine new theatres with 98 screens (partially offset by the closure of 15 theatres with 125 screens) subsequent to the end of the Fiscal 2013 Period.

Other Operating Expenses

Other operating expenses increased \$0.4 million, to \$813.2 million in the Fiscal 2014 Period, from \$812.8 million in the Fiscal 2013 Period. During the Fiscal 2014 Period, other operating expenses was primarily impacted by increases

in theatre level payroll expenses (approximately \$11.1 million for the Fiscal 2014 Period) and increased non-rent occupancy costs (approximately \$11.1 million for the Fiscal 2014 Period) primarily associated with the impact of the fifty-three weeks of operations and the inclusion of 513 screens from Hollywood Theaters, partially offset by the impact of the State of New York sales tax refund received by the Company during the Fiscal 2014 Period totaling approximately \$16.8 million and decreased costs (approximately \$3.5 million) associated with lower premium format film revenues during the Fiscal 2014 Period. On a comparable screen basis, other operating expenses decreased \$24.6 million, or 3.2% during the Fiscal 2014 Period as compared

Table of Contents

to the Fiscal 2013 Period. Such decrease was attributable to the aforementioned State of New York sales tax refund and decreased costs associated with lower premium format film revenues during the Fiscal 2014 Period.

General and Administrative Expenses

General and administrative expenses increased \$0.7 million, or 0.9%, to \$74.4 million in the Fiscal 2014 Period, from \$73.7 million in the Fiscal 2013 Period. The increase in general and administrative expenses during the Fiscal 2014 Period was primarily attributable to higher payroll costs associated with an additional week of operations, partially offset by lower legal and professional fees associated with the Fiscal 2013 Period acquisition of Hollywood Theaters and slightly lower travel costs.

Depreciation and Amortization

Depreciation and amortization expense increased \$7.0 million, or 3.5%, to \$207.2 million for the Fiscal 2014 Period, from \$200.2 million in the Fiscal 2013 Period. The increase in depreciation and amortization expense during the Fiscal 2014 Period was primarily related to incremental depreciation and amortization expense associated with increased capital expenditures during the Fiscal 2014 Period, the addition of the 513 screens from Hollywood Theaters, the opening of several new theatres late in the Fiscal 2013 Period and the opening of nine new theatres with 98 screens subsequent to the end of the Fiscal 2013 Period. On a comparable screen basis, depreciation and amortization expense increased \$3.0 million, or 1.6% during the Fiscal 2014 Period as compared to the Fiscal 2013 Period. On a comparable screen basis, the increase in depreciation and amortization expense during the Fiscal 2014 Period was primarily related to incremental depreciation and amortization expense associated with increased capital expenditures during the Fiscal 2014 Period, the opening of several new theatres late in the Fiscal 2013 Period and the opening of nine new theatres with 98 screens subsequent to the end of the Fiscal 2013 Period.

Income from Operations

Income from operations decreased \$33.4 million, or 9.8%, to \$306.4 million during the Fiscal 2014 Period, from \$339.8 million in the Fiscal 2013 Period. On a comparable screen basis, income from operations for the Fiscal 2014 Period decreased \$86.8 million, or 26.6%, from \$326.3 million in the Fiscal 2013 Period. The decrease in income from operations during the Fiscal 2014 Period was primarily attributable to the decline in total revenues, partially offset by decreases in certain variable operating expense line items described above.

Interest Expense, net

During the Fiscal 2014 Period, net interest expense decreased \$14.8 million, or 10.5%, to \$126.5 million, from \$141.3 million in the Fiscal 2013 Period. The decrease in net interest expense during the Fiscal 2014 Period was principally due to interest savings associated with the refinance of approximately \$925.0 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and 8⁵/₈% Senior Notes with the March 2014 issuance of our 5³/₄% Senior Notes Due 2022 and the June 2013 issuance of our 5³/₄% Senior Notes Due 2023, a lower effective interest rate on our Term Facility (including a change in our interest rate swap portfolio) and the aforementioned interest income related to the State of New York sales tax refund, partially offset by incremental interest from the capital lease and lease financing obligations assumed from Hollywood Theaters.

Earnings Recognized from NCM

Earnings recognized from NCM decreased \$5.4 million, or 14.4%, to \$32.1 million in the Fiscal 2014 Period, from \$37.5 million in the Fiscal 2013 Period. The decrease in earnings recognized from NCM during the Fiscal 2014 Period was primarily attributable to lower earnings of National CineMedia during the period.

Income Taxes

The provision for income taxes of \$73.4 million and \$107.0 million for the Fiscal 2014 Period and the Fiscal 2013 Period, respectively, reflect effective tax rates of approximately 41.1% and 40.4%, respectively. The increase in the effective tax rate for the Fiscal 2014 Period is primarily attributable to changes in uncertain tax positions with state taxing authorities resulting from the lapse of statute of limitations that occurred in the Fiscal 2013 Period and the state tax effects of the \$62.4 million (\$39.2 million after related tax effects) loss on debt extinguishment associated with the repurchase of approximately \$711.4 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and 8⁵/₈% Senior Notes that occurred during the Fiscal 2014 Period, which was not deductible in certain states. The effective tax rates for such periods also reflect the impact of certain non-deductible expenses and other income tax

credits.

Net Income Attributable to Controlling Interest

Net income attributable to controlling interest for the Fiscal 2014 Period was \$105.6 million, which represents a decrease of \$52.1 million, from net income attributable to controlling interest of \$157.7 million during the Fiscal 2013 Period. The decrease in net income attributable to controlling interest for the Fiscal 2014 Period was primarily attributable to a decline in operating income as described above, the \$62.4 million (\$39.2 million after related tax effects) loss on debt extinguishment

33

Table of Contents

associated with the repurchase of approximately \$711.4 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and 8⁵/₈% Senior Notes during the Fiscal 2014 Period and the impact of the gain on sale of NCM, Inc. common stock recorded during the Fiscal 2013 Period, partially offset by the impact of the \$30.3 million (\$19.2 million after related tax effects) loss on debt extinguishment related to the Fiscal 2013 Period repurchase of approximately \$213.6 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and a decrease in interest expense during the Fiscal 2014 Period.

Quarterly Results

The following table sets forth selected unaudited quarterly results for the eight quarters ended December 31, 2015. The quarterly financial data as of each period presented below have been derived from Regal's unaudited condensed consolidated financial statements for those periods. Results for these periods are not necessarily indicative of results for the full year. The comparability of our results between quarters is impacted by certain factors described below and to a lesser extent, seasonality. The quarterly financial data should be read in conjunction with the consolidated financial statements of Regal and notes thereto included in Part II, Item 8 of this Form 10-K.

	Dec. 31, 2015	Sept. 30, 2015	June 30, 2015 (1)	March 31, 2015	Jan. 1, 2015 (2)	Sept. 25, 2014 (3)	June 26, 2014 (4)	March 27, 2014 (5)
	In millions (except per share data)							
Total revenues	\$848.2	\$725.0	\$862.8	\$691.3	\$799.1	\$693.8	\$770.3	\$726.9
Income from operations(6)	101.9	51.9	115.1	50.4	91.7	58.6	85.8	70.3
Net income (loss) attributable to controlling interest(6)	55.0	21.9	53.4	23.1	46.3	26.7	33.8	(1.2)
Diluted earnings (loss) per share(6)	0.35	0.14	0.34	0.15	0.30	0.17	0.22	(0.01)
Dividends per common share(7)	\$0.22	\$0.22	\$0.22	\$0.22	\$1.22	\$0.22	\$0.22	\$0.22

As described further in Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, on April 2, 2015, Regal Cinemas entered into a seventh amended and restated credit agreement with (1) Credit Suisse AG as Administrative Agent and the lenders party thereto which amended, restated and refinanced the sixth amended and restated credit agreement. As a result of the amendment, the Company recorded a loss on debt extinguishment of approximately \$5.7 million during the quarter ended June 30, 2015.

(2) The fiscal quarter ended January 1, 2015 was comprised of 14 weeks.

(3) On July 10, 2014, the State of New York approved a sales tax refund claim filed by the Company to recover sales taxes paid on certain nontaxable purchases made by the Company during the fiscal 2008 through fiscal 2012 periods. The refund totaled approximately \$17.4 million, including interest. The Company recorded the refund during the quarter ended September 25, 2014 by reducing "Other operating expenses" by approximately \$16.8 million and "Interest expense, net" by approximately \$0.6 million.

(4) Reflects the impact of the \$10.5 million (\$6.6 million after related tax effects) loss on debt extinguishment recorded during the quarter ended June 26, 2014 related to the redemption of the remaining \$133.3 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and Regal Cinemas' 8⁵/₈% Senior Notes.

(5) Reflects the impact of the \$51.9 million (\$32.6 million after related tax effects) loss on debt extinguishment recorded during the quarter ended March 27, 2014 related to the repurchase of approximately \$578.1 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and Regal Cinemas' 8⁵/₈% Senior Notes.

(6) During the eight quarters ended December 31, 2015, we recorded long-lived asset impairment charges of \$4.5 million, \$9.2 million, \$1.9 million, \$0.0 million, \$0.0 million, \$1.9 million, \$3.3 million, \$0.4 million, respectively, specific to theatres that were directly and individually impacted by increased competition, adverse changes in market demographics or adverse changes in the development or the conditions of the areas surrounding the theatre. See Note 2 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for further information related to our impairment policies.

Edgar Filing: WisdomTree Trust - Form 485APOS

Includes the December 15, 2014 payment of the \$1.00 extraordinary cash dividend paid on each share of Class A (7) and Class B Common Stock. See Note 9 to the accompanying consolidated financial statements included in Item 8 of this Form 10-K for further discussion.

Table of Contents

Liquidity and Capital Resources

On a consolidated basis, we expect our primary uses of cash to be for operating expenses, capital expenditures, investments, acquisitions, general corporate purposes related to corporate operations, debt service and the Company's dividend payments. The principal sources of liquidity are cash generated from operations, cash on hand and borrowings under the Amended Senior Credit Facility described below. Under the terms of the Amended Senior Credit Facility, Regal Cinemas is restricted as to how much it can advance or distribute to Regal, its indirect parent. Since Regal is a holding company with no significant assets other than the stock of its subsidiaries, this restriction could impact Regal's ability to effect future debt or dividend payments, pay corporate expenses, repurchase or retire for cash its 5³/₄% Senior Notes Due 2022, its 5³/₄% Senior Notes Due 2023 and its 5³/₄% Senior Notes Due 2025. In addition, as described further below, the indentures under which the 5³/₄% Senior Notes Due 2022, the 5³/₄% Senior Notes Due 2023, and the 5³/₄% Senior Notes Due 2025 are issued limit the Company's (and its restricted subsidiaries') ability to, among other things, incur additional indebtedness, pay dividends on or make other distributions in respect of its capital stock, purchase or redeem capital stock, make loans or advances to its subsidiaries, or purchase, redeem or otherwise acquire or retire certain subordinated obligations.

Operating Activities

Our revenues are generated principally through admissions and concessions sales with proceeds received in cash or via credit cards at the point of sale. Our operating expenses are primarily related to film and advertising costs, rent and occupancy and payroll. Film costs are ordinarily paid to distributors within 30 days following receipt of admissions revenues and the cost of the Company's concessions are generally paid to vendors approximately 30 to 35 days from purchase. Our current liabilities include items that will become due within 12 months. In addition, from time to time, we use cash from operations and borrowings to fund dividends in excess of net income attributable to controlling interest and cash flows from operating activities less cash flows from investing and other financing activities. As a result, at any given time, our balance sheet may reflect a working capital deficit.

Net cash flows provided by operating activities totaled approximately \$434.4 million, \$349.1 million and \$346.9 million for the Fiscal 2015 Period, the Fiscal 2014 Period and the Fiscal 2013 Period, respectively. The \$85.3 million increase in net cash flows generated by operating activities for the Fiscal 2015 Period as compared to the Fiscal 2014 Period was caused by positive fluctuation in working capital activity of approximately \$78.4 million and a \$6.9 million increase in net income excluding non-cash items. Working capital activity was primarily impacted by changes in accounts payable activity and accrued expense and other activity, partially offset by changes in trade and other receivables activity during the Fiscal 2015 Period as compared to the Fiscal 2014 Period. The change in accounts payable activity and accrued expense and other activity was primarily due to the timing of film and certain other vendor payments associated with increased attendance and admissions revenues at our theatres during the latter part of the Fiscal 2015 Period. The change in accounts receivable activity was primarily attributable to an increase in credit card receivable activity associated with increased attendance and admissions revenues at our theatres during the latter part of the Fiscal 2015 Period and the timing of payments received attributable to the marketing and advertising services provided by the Company under certain vendor marketing programs.

The \$2.2 million increase in net cash flows generated by operating activities for the Fiscal 2014 Period as compared to the Fiscal 2013 Period increase was caused by a \$40.1 million increase in net income excluding non-cash items, largely offset by a negative fluctuation in working capital activity of approximately \$37.9 million. Working capital activity was primarily impacted by changes in accrued expense and other activity and deferred revenue, partially offset by changes in accounts receivable activity during the Fiscal 2014 Period as compared to the Fiscal 2013 Period. The change in accrued expense and other activity was primarily due to the timing of vendor payments associated with increased attendance and admissions revenues at our theatres during the latter part of the Fiscal 2014 Period. The change in deferred revenue was primarily due to increased redemptions during our 53rd week of operations in the Fiscal 2014 Period. The change in accounts receivable activity was attributable to the timing of collections as a result of the additional week of operations during Fiscal 2014 Period.

Investing Activities

Our capital requirements have historically arisen principally in connection with acquisitions of theatres, new theatre construction, strategic partnerships, the addition of luxury amenities in select theatres, adding new screens to existing theatres, and other upgrades to the Company's theatre facilities and replacing equipment. We fund the cost of capital expenditures through internally generated cash flows, cash on hand, landlord contributions and proceeds from disposition of assets and financing activities.

We intend to continue to grow our theatre circuit through selective expansion and acquisition opportunities. The Company has a formal and intensive review procedure for the authorization of capital projects, with the most important financial measure of acceptability for a discretionary non-maintenance capital project being whether its projected discounted cash flow return on investment meets or exceeds the Company's internal rate of return targets. We currently expect capital expenditures (net of

Table of Contents

proceeds from asset sales and landlord contributions) for theatre development, expansion, upgrading and replacements to be in the range of approximately \$135.0 million to \$150.0 million in fiscal year 2016, exclusive of acquisitions.

As further described in Note 3 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, on September 3, 2015, the Company completed the acquisition of five theatres with 61 screens from entities affiliated with Georgia Theatre Company in exchange for an aggregate net cash purchase price, before post-closing adjustments, of \$9.2 million.

During the Fiscal 2015 Period, we received approximately 0.6 million newly issued common units of National CineMedia in accordance with the annual adjustment provisions of the Common Unit Adjustment Agreement. This transaction caused a proportionate increase in the Company's ownership share in National CineMedia to 26.4 million common units. On a fully diluted basis, we own a 19.5% interest in NCM, Inc. as of December 31, 2015.

Net cash flows used in investing activities totaled approximately \$183.3 million, \$150.4 million and \$258.6 million for the Fiscal 2015 Period, the Fiscal 2014 Period and the Fiscal 2013 Period, respectively. The \$32.9 million increase in cash flows used in investing activities during the Fiscal 2015 Period, as compared to the Fiscal 2014 Period, was primarily attributable to a \$18.6 million increase in capital expenditures (net of proceeds from disposals) during the Fiscal 2015 Period, \$9.2 million of cash used for the acquisition of five theatres with 61 screens from entities affiliated with Georgia Theatre Company, and the impact of \$6.0 million in proceeds received related to the sale of RealD, Inc. common stock during the Fiscal 2014 Period. The \$108.2 million decrease in cash flows used in investing activities during the Fiscal 2014 Period, as compared to the Fiscal 2013 Period, was primarily attributable to the impact of the \$194.4 million acquisition of Hollywood Theaters during the Fiscal 2013 Period, partially offset by a \$50.3 million increase in capital expenditures (net of proceeds from disposals) during the Fiscal 2014 Period and the impact of proceeds of \$40.9 million related to the sale of NCM, Inc. common stock during the Fiscal 2013 Period.

Financing Activities

As described further in Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, on April 2, 2015, Regal Cinemas entered into the Amended Senior Credit Facility, with Credit Suisse AG and the lenders party thereto which amends, restates and refinances the Prior Senior Credit Facility among Regal Cinemas, Credit Suisse, Cayman Islands Branch, and the lenders party thereto. The Amended Senior Credit Facility consists of the New Term Facility in an aggregate principal amount of \$965.8 million with a final maturity date in April 2022 and the New Revolving Facility in an aggregate principal amount of \$85.0 million with a final maturity date in April 2020. The New Term Facility amortizes in equal quarterly installments in an aggregate annual amount equal to 1.0% of the original principal amount of the New Term Facility, with the balance payable on the New Term Facility maturity date. Proceeds of the New Term Facility (approximately \$963.3 million, net of debt discount) were applied to refinance the term loan under the Prior Senior Credit Facility, which had an aggregate outstanding principal balance of approximately \$963.2 million. As a result of the amendment, the Company recorded a loss on debt extinguishment of approximately \$5.7 million during the Fiscal 2015 Period.

In connection with the Amended Senior Credit Facility, on April 2, 2015, Regal Cinemas entered into amendments of two of its existing interest rate swap agreements (which are described further in Note 13 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K) initially designated to hedge \$350.0 million of variable rate debt obligations under the prior Senior Credit Facility. The amended interest rate swaps require Regal Cinemas to pay interest at fixed rates ranging from 1.22% to 2.165% (formerly 0.817% to 1.828%) and receive interest at a variable rate.

As of December 31, 2015, we had approximately \$958.8 million aggregate principal amount outstanding (net of debt discount) under the New Term Facility, \$775.0 million aggregate principal amount outstanding under the 5³/₄% Senior Notes Due 2022, \$250.0 million aggregate principal amount outstanding under the 5³/₄% Senior Notes Due 2023 and \$250.0 million aggregate principal amount outstanding under the 5³/₄% Senior Notes Due 2025. As of December 31, 2015, we had approximately \$2.7 million outstanding in letters of credit, leaving approximately \$82.3 million available for drawing under the New Revolving Facility. As of December 31, 2015, we are in full compliance with all agreements, including all related covenants, governing our outstanding debt obligations.

The Company is rated by nationally recognized rating agencies. The significance of individual ratings varies from agency to agency. However, companies assigned ratings at the top end of the range have, in the opinion of certain rating agencies, the strongest capacity for repayment of debt or payment of claims, while companies at the bottom end of the range have the weakest capability. Ratings are always subject to change and there can be no assurance that the Company's current ratings will continue for any given period of time. An upgrade or downgrade of the Company's debt ratings, depending on the extent, could affect the cost to borrow funds. There were no upgrades or downgrades to the Company's debt ratings that materially impacted our ability or cost to borrow funds during the fiscal year ended December 31, 2015.

During the Fiscal 2015 Period, Regal paid four quarterly cash dividends of \$0.22 per share on each outstanding share of the Company's Class A and Class B common stock, or approximately \$139.1 million in the aggregate. On February 9, 2016, we

Table of Contents

declared a cash dividend of \$0.22 per share on each outstanding share of Class A and Class B common stock. The dividend is payable on March 15, 2016 to our stockholders of record on March 4, 2016. These dividends have been or will be funded through cash flow from operations and available cash on hand. We, at the discretion of our board of directors and subject to applicable law, anticipate paying regular quarterly dividends on our Class A and Class B common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, loan agreement restrictions, future prospects for earnings and cash flows, as well as other relevant factors.

Net cash flows provided by (used in) financing activities were approximately \$(178.6) million, \$(332.5) million and \$83.1 million for the Fiscal 2015 Period, the Fiscal 2014 Period and the Fiscal 2013 Period, respectively. The net decrease in cash flows used in financing activities during the Fiscal 2015 Period as compared to the Fiscal 2014 Period of \$153.9 million was primarily attributable to a \$155.7 million decrease in dividends paid to stockholders during the 2015 Fiscal Period as compared to the 2014 Fiscal Period, lower payments on long-term obligations and landlord contributions received in connection with amended lease financing arrangements, partially offset by the net impact of the Amended Senior Credit Facility refinancing effected during the Fiscal 2015 Period. The net increase in cash flows used in financing activities during the Fiscal 2014 Period as compared to the Fiscal 2013 Period of \$415.6 million was primarily attributable to \$764.3 million of cash used to repurchase our 9¹/₈% Senior Notes and 8⁵/₈% Senior Notes during the Fiscal 2014 Period, the impact of \$500.0 million in gross proceeds from the issuance of our 5³/₄% Senior Notes Due 2025 and 5³/₄% Senior Notes Due 2023 in the Fiscal 2013 Period and a \$162.6 million increase in dividends paid to stockholders during the 2014 Fiscal Period as compared to the 2013 Fiscal Period, partially offset by \$775.0 million in gross proceeds received in connection with the Fiscal 2014 Period issuance of our 5³/₄% Senior Notes Due 2022 and the impact of \$244.3 million of cash used to repurchase a portion of our 9¹/₈% Senior Notes during the Fiscal 2013 Period.

EBITDA

Earnings before interest, taxes and depreciation and amortization ("EBITDA") was approximately \$599.9 million, \$512.7 million and \$606.2 million for the Fiscal 2015 Period, the Fiscal 2014 Period and the Fiscal 2013 Period, respectively. The increase in EBITDA for the Fiscal 2015 Period was primarily attributable the impact of the \$62.4 million loss on debt extinguishment associated with the repurchase of approximately \$711.4 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and Regal Cinemas' 8⁵/₈% Senior Notes during the Fiscal 2014 Period and to a lesser extent, an increase in operating income as described above and higher equity income from certain of our non-consolidated entities. The decrease in EBITDA for the Fiscal 2014 Period was primarily attributable to a decline in operating income as described above, the \$62.4 million loss on debt extinguishment associated with the refinance of approximately \$711.4 million aggregate principal amount of the Company's 9¹/₈% Senior Notes and Regal Cinemas' 8⁵/₈% Senior Notes during the Fiscal 2014 Period and the impact of the \$30.9 million gain on sale of NCM, Inc. common stock recorded during the Fiscal 2013 Period, partially offset by the impact of the \$30.3 million loss on debt extinguishment related to the Fiscal 2013 Period refinance of approximately \$213.6 million aggregate principal amount of the Company's 9¹/₈% Senior Notes.

The Company uses EBITDA as a supplemental liquidity measure because we find it useful to understand and evaluate our capacity, excluding the impact of interest, taxes, and non-cash depreciation and amortization charges, for servicing our debt, paying dividends and otherwise meeting our cash needs, prior to our consideration of the impacts of other potential sources and uses of cash, such as working capital items. We believe that EBITDA is useful to investors for these purposes as well. EBITDA should not be considered an alternative to, or more meaningful than, net cash provided by or used in operating activities, as determined in accordance with GAAP, since it omits the impact of interest, taxes and changes in working capital that use or provide cash (such as receivables, payables and inventories) as well as the sources or uses of cash associated with changes in other balance sheet items (such as long-term loss accruals and deferred items). Because EBITDA excludes depreciation and amortization, EBITDA does not reflect any cash requirements for the replacement of the assets being depreciated and amortized, which assets will often have to be replaced in the future. Further, EBITDA, because it also does not reflect the impact of debt service, income taxes,

cash dividends, capital expenditures and other cash commitments from time to time as described in more detail elsewhere in this Form 10-K, does not represent how much discretionary cash we have available for other purposes. Nonetheless, EBITDA is a key measure expected by and useful to our fixed income investors, rating agencies and the banking community all of whom believe, and we concur, that these measures are critical to the capital markets' analysis of our ability to service debt, fund capital expenditures, pay dividends and otherwise meet cash needs, respectively. We also evaluate EBITDA because it is clear that movements in these non-GAAP measures impact our ability to attract financing and pay dividends. EBITDA, as calculated, may not be comparable to similarly titled measures reported by other companies. A reconciliation of EBITDA to net cash provided by operating activities is calculated as follows (in millions):

37

Table of Contents

	Fiscal 2015 Period	Fiscal 2014 Period	Fiscal 2013 Period
EBITDA	\$599.9	\$512.7	\$606.2

Interest Rate Swaps

As described in Note 13 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, as of December 31, 2015, the Company maintained two effective hedging relationships via two distinct interest rate swap agreements (maturity dates ranging from December 31, 2016 through June 30, 2018), which require Regal Cinemas to pay interest at fixed rates ranging from 1.220% to 2.165% and receive interest at a variable rate. These interest rate swap agreements are designated to hedge \$350.0 million of variable rate debt obligations at an effective rate of approximately 4.76% as of December 31, 2015. See Note 14 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for a discussion of the Company's interest rate swaps' fair value estimation methods and assumptions.

Sale-Leaseback Transactions

For information regarding our various sale and leaseback transactions, refer to Note 6 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.

Contractual Cash Obligations and Commitments

The Company has assumed long-term contractual obligations and commitments in the normal course of business, primarily debt obligations and non-cancelable operating leases. Other than the operating leases that are detailed below, the Company does not utilize variable interest entities or any other form of off-balance sheet financing. As of December 31, 2015, the Company's estimated contractual cash obligations and commercial commitments over the next several periods are as follows (in millions):

	Payments Due By Period				
	Total	Current	13 - 36 months	37 - 60 months	After 60 months
Contractual Cash Obligations:					
Debt obligations(1)	\$2,241.9	\$13.6	\$ 22.1	\$ 20.7	\$2,185.5

-
- (1) These amounts are included on our consolidated balance sheet as of December 31, 2015. Our Amended Senior Credit Facility provides for mandatory prepayments under certain scenarios. See Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for additional information about our long-term debt obligations and related matters.
- (2) Future interest payments on the Company's unhedged debt obligations as of December 31, 2015 (consisting of approximately \$610.9 million of variable interest rate borrowings under the New Term Facility, \$775.0 million outstanding under the 5³/₄% Senior Notes Due 2022, \$250.0 million outstanding under the 5³/₄% Senior Notes Due 2025, \$250.0 million outstanding under the 5³/₄% Senior Notes Due 2023 and approximately \$8.1 million of other debt obligations) are based on the stated fixed rate or in the case of the \$610.9 million of variable interest rate borrowings under the New Term Facility, the current interest rate specified in our Amended Senior Credit Facility as of December 31, 2015 (3.83%). Future interest payments on the Company's hedged indebtedness as of December 31, 2015 (the remaining \$350.0 million of borrowings under the New Term Facility) are based on (1) the applicable margin (as defined in Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K) as of December 31, 2015 (3.0%) and (2) the expected fixed interest payments under the Company's interest rate swap agreements, which are described in further detail under Note 13 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.
- (3) The present value of these obligations, excluding interest, is included on our consolidated balance sheet as of December 31, 2015. Future interest payments are calculated based on interest rates implicit in the underlying leases, which have a weighted average interest rate of 11.29%, maturing in various installments through 2028. Refer to Note 5 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K for additional information about our capital lease obligations and lease financing arrangements.
- (4) Includes estimated capital expenditures and investments to which we were committed as of December 31, 2015, including improvements associated with existing theatres (including luxury reclining seating), the construction of new theatres and investments in non-consolidated entities. With respect to our luxury reclining seating conversions, we expect to receive approximately \$19.9 million in landlord contributions to partially cover the costs of such conversions.
- (5) We enter into operating leases in the ordinary course of business. Such lease agreements provide us with the option to renew the leases at defined or then fair value rental rates for various periods. Our future operating lease obligations would change if we exercised these renewal options or if we enter into additional operating lease agreements. Our operating lease obligations are further described in Note 6 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K.
- (6) The table does not include approximately \$8.8 million of recorded liabilities associated with unrecognized state tax benefits because the timing of the related payments was not reasonably estimable as of December 31, 2015.
- (7) In addition, as of December 31, 2015, Regal Cinemas had approximately \$82.3 million available for drawing under the \$85.0 million New Revolving Facility. Regal Cinemas also maintains a sublimit within the New Revolving Facility of \$10.0 million for short-term loans and \$30.0 million for letters of credit.
- We believe that the amount of cash and cash equivalents on hand, cash flow expected from operations and availability under our New Revolving Facility will be adequate for the Company to execute its business strategy and meet anticipated requirements for lease obligations, capital expenditures, working capital and debt service for the next 12 months.

Off-Balance Sheet Arrangements

Other than the operating leases detailed above in this Form 10-K, under the heading "Contractual Cash Obligations and Commitments," the Company has no other off-balance sheet arrangements.

Recent Accounting Pronouncements

For a discussion of the recent accounting pronouncements relevant to our operations, please refer to the information provided under Note 2 to the consolidated financial statements included in Part II, Item 8 of this Form 10-K, which information is incorporated herein by reference.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

The Company's interest rate risk is confined to interest rate exposure of its and its wholly owned subsidiaries' debt obligations that bear interest based on floating rates. The Amended Senior Credit Facility provides variable rate interest that could be adversely affected by an increase in interest rates. Borrowings under the New Term Facility bears interest, at Regal Cinemas' option, at either a base rate or an adjusted LIBOR rate plus, in each case, an applicable margin.

Under the terms of the Company's two effective interest rate swap agreements (which hedge an aggregate of \$350.0 million of variable rate debt obligations as of December 31, 2015) described in Note 13 to the consolidated financial

Table of Contents

statements included in Part II, Item 8 of this Form 10-K, Regal Cinemas pays interest at fixed rates ranging from 1.220% to 2.165% and receives interest at a variable rate.

As of December 31, 2015 and January 1, 2015, borrowings of \$958.8 million (net of debt discount) and \$965.8 million, respectively, were outstanding under the New Term Facility and term facility under the Prior Senior Credit Facility at an effective interest rate of 4.17% (as of December 31, 2015) and 3.23% (as of January 1, 2015), after the impact of interest rate swaps is taken into account. A hypothetical change of 10% in the Company's effective interest rate under the New Term Facility as of December 31, 2015, would increase or decrease interest expense by \$4.0 million for the fiscal year ended December 31, 2015.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Board of Directors
Regal Entertainment Group:

Management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended.

Management, including our principal executive officer and principal financial officer, conducted an evaluation of the effectiveness of such controls as of December 31, 2015. This assessment was based on criteria for effective internal control over financial reporting described in the Internal Control - Integrated Framework (2013) by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, our management believes that the Company's internal control over financial reporting is effective as of December 31, 2015.

KPMG LLP, independent registered public accounting firm of the Company's consolidated financial statements, has issued an audit report on the effectiveness of the Company's internal control over financial reporting as of December 31, 2015, as stated in their report which is included herein.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Regal Entertainment Group:

We have audited the accompanying consolidated balance sheets of Regal Entertainment Group and subsidiaries as of December 31, 2015 and January 1, 2015, and the related consolidated statements of income, comprehensive income, deficit, and cash flows for each of the years in the three-year period ended December 31, 2015. We also have audited Regal Entertainment Group's internal control over financial reporting as of December 31, 2015, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Regal Entertainment Group's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Regal Entertainment Group and subsidiaries as of December 31, 2015 and January 1, 2015, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2015, in conformity with U.S. generally accepted accounting principles. Also in our opinion, Regal Entertainment Group maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based

Edgar Filing: WisdomTree Trust - Form 485APOS

on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) .

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2015, January 1, 2015 and December 26, 2013

1. THE COMPANY AND BASIS OF PRESENTATION

Regal Entertainment Group (the "Company," "Regal," "we" or "us") is the parent company of Regal Entertainment Holdings, Inc. ("REH"), which is the parent company of Regal Cinemas Corporation ("Regal Cinemas") and its subsidiaries. Regal Cinemas' subsidiaries include Regal Cinemas, Inc. ("RCI") and its subsidiaries, which include Edwards Theatres, Inc. ("Edwards") and United Artists Theatre Company ("United Artists"). The terms Regal or the Company, REH, Regal Cinemas, RCI, Edwards and United Artists shall be deemed to include the respective subsidiaries of such entities when used in discussions included herein regarding the current operations or assets of such entities.

Regal operates the largest theatre circuit in the United States, consisting of 7,361 screens in 572 theatres in 42 states along with Guam, Saipan, American Samoa and the District of Columbia as of December 31, 2015. Beginning January 2, 2015, the Company's fiscal year changed from a 52-53 week fiscal year ending on the first Thursday after December 25 of each year to a fiscal year ending on December 31 of each year. Accordingly, effective for the Company's fiscal year ending December 31, 2015, the Company's quarterly results will be for three month periods ending March 31, June 30, September 30 and December 31 of each year.

During 2001 and 2002, Anschutz Company and its subsidiaries ("Anschutz") acquired controlling equity interests in United Artists, Edwards and RCI upon each of the entities' emergence from bankruptcy reorganization. In May 2002, the Company sold 18.0 million shares of its Class A common stock in an initial public offering at a price of \$19.00 per share, receiving aggregate net offering proceeds, net of underwriting discounts, commissions and other offering expenses, of \$314.8 million. In 2015, as a result of an internal restructuring, Anschutz Company changed its name to The Anschutz Corporation.

Certain amounts in prior fiscal years have been reclassified to conform with the presentation adopted in the current year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of Regal and its subsidiaries. Majority-owned subsidiaries that the Company controls are consolidated while those affiliates of which the Company owns between 20% and 50% and does not control are accounted for under the equity method. Those affiliates of which the Company owns less than 20% are generally accounted for under the cost method, unless the Company is deemed to have the ability to exercise significant influence over the affiliate, in which case the Company would account for its investment under the equity method. The results of these subsidiaries and affiliates are included in the consolidated financial statements effective with their formation or from their dates of acquisition. All significant intercompany accounts and transactions have been eliminated in consolidation.

Revenue Recognition

Revenues are generated principally through admissions and concessions sales with proceeds received in cash or via credit card at the point of sale. Other operating revenues consist primarily of product advertising (including vendor marketing programs) and other ancillary revenues that are recognized as income in the period earned. The Company

generally recognizes payments received attributable to the marketing and advertising services provided by the Company under certain vendor programs as revenue in the periods in which the advertising is displayed or when the related impressions are delivered. Such impressions are measured by the concession product sales volume, which is a mutually agreed upon proxy of attendance and reflects the Company's marketing and advertising services delivered to its vendors. In instances where the consideration received is in excess of fair value of the advertising services provided, the excess is recorded as a reduction of concession costs.

The Company maintains a deferred revenue balance pertaining to amounts received for agreeing to the existing National CineMedia exhibitor services agreement ("ESA") modification, amounts recorded in connection with the receipt of newly issued common units of National CineMedia pursuant to the provisions of the Common Unit Adjustment Agreement described in Note 4—"Investments," and amounts received from the sale of discount tickets and gift cards that have not been redeemed. Amortization of deferred revenue related to the amount we received for agreeing to the existing National CineMedia exhibitor services agreement modification and amounts recorded in connection with the receipt of newly issued common units of National CineMedia pursuant to the provisions of the Common Unit Adjustment Agreement are described below in this Note 2 under "Deferred Revenue" and in Note 4—"Investments." The Company recognizes revenue associated with discount tickets

Table of Contents

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

and gift cards when redeemed, or when the likelihood of redemption becomes remote. The determination of the likelihood of redemption is based on an analysis of actual historical redemption trends.

Cash Equivalents

The Company considers all unrestricted highly liquid debt instruments and investments purchased with an original maturity of 3 months or less to be cash equivalents. At December 31, 2015, the Company held substantially all of its cash in temporary cash investments in the form of certificates of deposit and variable rate investment accounts with major financial institutions.

Inventories

Inventories consist of concession products and theatre supplies. The Company states inventories on the basis of first-in, first-out (FIFO) cost, which is not in excess of net realizable value.

Property and Equipment

The Company states property and equipment at cost. Major renewals and improvements are capitalized, while maintenance and repairs that do not improve or extend the lives of the respective assets are expensed currently. Gains and losses from disposition of property and equipment are included in income and expense when realized.

The Company capitalizes the cost of computer equipment, system hardware and purchased software ready for service. During the years ended December 31, 2015 and January 1, 2015, the Company capitalized approximately \$12.6 million and \$21.7 million, respectively, of such costs, which were associated primarily with (i) new point-of-sale devices at the Company's box offices and concession stands, (ii) new ticketing kiosks, and (iii) computer hardware and software purchased for the Company's theatre locations and corporate office. The Company also capitalizes certain direct external costs associated with software developed for internal use after the preliminary software project stage is completed and Company management has authorized further funding for a software project and it is deemed probable of completion. The Company capitalizes these external software development costs only until the point at which the project is substantially complete and the software is ready for its intended purpose.

The Company records depreciation and amortization using the straight-line method over the following estimated useful lives:

Buildings	20 - 30 years
Equipment	3 - 20 years
Leasehold improvements	Lesser of term of lease or asset life
Computer equipment and software	3 - 5 years

As of December 31, 2015 and January 1, 2015, included in property and equipment is \$185.9 million and \$183.2 million of assets accounted for under capital leases and lease financing arrangements, before accumulated depreciation of \$104.1 million and \$87.4 million, respectively. The Company records amortization using the straight-line method over the shorter of the lease terms or the estimated useful lives noted above.

Impairment of Long-Lived Assets

The Company reviews long-lived assets (including intangible assets, marketable equity securities and investments in non-consolidated entities as described further below) for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be fully recoverable. The Company generally evaluates assets for impairment on an individual theatre basis, which management believes is the lowest level for which there are identifiable cash flows. If the sum of the expected future cash flows, undiscounted and without interest charges, is less than the carrying amount of the assets, the Company recognizes an impairment charge in the amount by which the carrying value of the assets exceeds their fair market value.

The Company considers historical theatre level cash flows, estimated future theatre level cash flows, theatre property and equipment carrying values, intangible asset carrying values, the age of the theatre, competitive theatres in the marketplace, the

Table of Contents

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

impact of recent ticket price changes, strategic initiatives, available lease renewal options and other factors considered relevant in its assessment of whether or not a triggering event has occurred that indicates impairment of individual theatre assets may be necessary. For theatres where a triggering event is identified, impairment is measured based on the estimated cash flows from continuing use until the expected disposal date or the fair value of furniture, fixtures and equipment. The expected disposal date does not exceed the remaining lease period unless it is probable the lease period will be extended and may be less than the remaining lease period when the Company does not expect to operate the theatre to the end of its lease term. The fair value of assets is determined using the present value of the estimated future cash flows or the expected selling price less selling costs for assets of which the Company expects to dispose. Significant judgment is involved in determining whether a triggering event has occurred, estimating future cash flows and determining fair value. Management's estimates (Level 3 inputs as described in FASB Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurements and Disclosures) are based on historical and projected operating performance, recent market transactions, and current industry trading multiples.

Triggering events identified resulted in the recording of impairment charges of \$15.6 million, \$5.6 million and \$9.5 million for the years ended December 31, 2015, January 1, 2015 and December 26, 2013, respectively. The long-lived asset impairment charges recorded during each of the periods presented are specific to theatres that were directly and individually impacted by increased competition, adverse changes in market demographics or adverse changes in the development or the conditions of the areas surrounding the theatre.

Leases

The majority of the Company's operations are conducted in premises occupied under non-cancelable lease agreements with initial base terms generally ranging from 15 to 20 years. The Company, at its option, can renew a substantial portion of the leases at defined or then fair rental rates for various periods. Certain leases for Company theatres provide for contingent rentals based on the revenue results of the underlying theatre and require the payment of taxes, insurance, and other costs applicable to the property. Also, certain leases contain escalating minimum rental provisions. There are no conditions imposed upon us by our lease agreements or by parties other than the lessor that legally obligate the Company to incur costs to retire assets as a result of a decision to vacate our leased properties. None of our lease agreements require us to return the leased property to the lessor in its original condition (allowing for normal wear and tear) or to remove leasehold improvements at our cost.

The Company accounts for leased properties under the provisions of ASC Topic 840, Leases and other authoritative accounting literature. ASC Subtopic 840-10, Leases—Overview requires that the Company evaluate each lease for classification as either a capital lease or an operating lease. The Company performs this evaluation at the inception of the lease and when a modification is made to a lease. As to those arrangements that are classified as capital leases, the Company records property under capital leases and a capital lease obligation in an amount equal to the lesser of the present value of the minimum lease payments to be made over the life of the lease at the beginning of the lease term, or the fair value of the leased property. The property under capital lease is amortized on a straight-line basis as a charge to expense over the lease term, as defined, or the economic life of the leased property, whichever is less. During the lease term, as defined, each minimum lease payment is allocated between a reduction of the lease obligation and interest expense so as to produce a constant periodic rate of interest on the remaining balance of the lease obligation. The Company does not believe that exercise of the renewal options in its leases are reasonably assured at the inception of the lease agreements because such leases: (i) provide for either (a) renewal rents based on market rates or (b) renewal rents that equal or exceed the initial rents, and (ii) do not impose economic penalties upon the determination whether or not to exercise the renewal option. As a result, there are not sufficient economic

incentives at the inception of the leases to consider the lease renewal options to be reasonably assured of being exercised and therefore, the initial base term is generally considered as the lease term under ASC Subtopic 840-10.

The Company records rent expense for its operating leases with contractual rent increases in accordance with ASC Subtopic 840-20, Leases—Operating Leases, on a straight-line basis from the "lease commencement date" as specified in the lease agreement until the end of the base lease term.

The Company accounts for lease incentive payments received from a landlord in accordance with ASC Subtopic 840-20, Leases—Lease Incentives, and records the proceeds as a deferred lease incentive liability and amortizes the liability as a reduction in rent expense over the base term of the lease.

For leases in which the Company is involved with construction of the theatre, the Company accounts for the lease during the construction period under the provisions of ASC Subtopic 840-40, Leases—Sale-Leaseback Transactions. The landlord is typically responsible for constructing a theatre using guidelines and specifications agreed to by the Company and assumes

Table of Contents

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

substantially all of the risk of construction. In accordance with ASC Subtopic 840-40, if the Company concludes that it has substantially all of the construction period risks, it records a construction asset and related liability for the amount of total project costs incurred during the construction period. Once construction is completed, the Company considers the requirements under ASC Subtopic 840-40, for sale-leaseback treatment, and if the arrangement does not meet such requirements, it records the project's construction costs funded by the landlord as a financing obligation. The obligation is amortized over the financing term based on the payments designated in the contract.

In accordance with ASC Subtopic 840-20, we expense rental costs incurred during construction periods for operating leases as such costs are incurred. For rental costs incurred during construction periods for both operating and capital leases, the "lease commencement date" is the date at which we gain access to the leased asset. Historically, and for the years ended December 31, 2015, January 1, 2015 and December 26, 2013, these rental costs have not been significant to our consolidated financial statements.

Sale and Leaseback Transactions

The Company accounts for the sale and leaseback of real estate assets in accordance with ASC Subtopic 840-40. Losses on sale leaseback transactions are recognized at the time of sale if the fair value of the property sold is less than the undepreciated cost of the property. Gains on sale and leaseback transactions are deferred and amortized over the remaining lease term.

Goodwill

The carrying amount of goodwill at December 31, 2015 and January 1, 2015 was approximately \$328.7 million and \$320.4 million, respectively. The \$8.3 million increase in goodwill during the year ended December 31, 2015 is attributable to the Company's acquisition of five theatres with 61 screens from entities affiliated with Georgia Theatre Company during fiscal 2015, which is more fully described in Note 3—"Acquisitions." The Company evaluates goodwill for impairment annually or more frequently as specific events or circumstances dictate. Under ASC Subtopic 350-20, Intangibles—Goodwill and Other—Goodwill, the Company has identified its reporting units to be the designated market areas in which the Company conducts its theatre operations. Goodwill impairment is evaluated using a two-step approach requiring the Company to compute the fair value of a reporting unit and compare it with its carrying value. If the carrying value of the reporting unit exceeds its estimated fair value, a second step is performed to measure the potential goodwill impairment. The Company determines fair value by using an enterprise valuation methodology determined by applying multiples to cash flow estimates less net indebtedness, which the Company believes is an appropriate method to determine fair value. There is considerable management judgment with respect to cash flow estimates and appropriate multiples and discount rates to be used in determining fair value and such management estimates fall under Level 3 within the fair value measurement hierarchy.

As part of the Company's ongoing operations, we may close certain theatres within a reporting unit containing goodwill due to underperformance of the theatre or inability to renew our lease, among other reasons. Additionally, we generally abandon certain assets associated with a closed theatre, primarily leasehold improvements. Under ASC Topic 350, Intangibles—Goodwill and Other, when a portion of a reporting unit that constitutes a business is disposed of, goodwill associated with that business shall be included in the carrying amount of the business in determining the gain or loss on disposal. We evaluate whether the portion of a reporting unit being disposed of constitutes a business on the date of closure. Generally, on the date of closure, the closed theatre does not constitute a business because the Company retains assets and processes on that date essential to the operation of the theatre. These assets and processes

are significant missing elements impeding the operation of a business. Accordingly, when closing individual theatres, we generally do not include goodwill in the calculation of any gain or loss on disposal of the related assets.

The Company's annual goodwill impairment assessments for the years ended December 31, 2015, January 1, 2015 and December 26, 2013 indicated that the fair value of each of its reporting units exceeded their carrying value and therefore, goodwill was not deemed to be impaired.

Intangible Assets

As of December 31, 2015 and January 1, 2015, intangible assets totaled \$67.1 million before accumulated amortization of \$16.9 million and \$13.2 million, respectively. Such intangible assets are recorded at fair value and are amortized on a straight-line basis over the estimated remaining useful lives of the assets. The Company's identifiable intangible assets substantially

Table of Contents

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

consist of favorable leases (approximately \$66.0 million before accumulated amortization of \$16.3 million) acquired in connection with various acquisitions since fiscal 2008. During the years ended December 31, 2015, January 1, 2015 and December 26, 2013, the Company recognized \$3.7 million, \$3.7 million and \$3.3 million of amortization, respectively, related to these intangible assets.

Estimated amortization expense for the next five fiscal years for such intangible assets as of December 31, 2015 is projected below (in millions):

2016	\$4.1
2017	3.8
2018	3.8
2019	3.7
2020	3.5

During the year ended December 26, 2013, the Company recorded an impairment charge of approximately \$1.5 million pertaining to certain favorable leases associated with the acquisition of Consolidated Theatres. The Company did not record an impairment of any intangible assets during the years ended December 31, 2015 and January 1, 2015.

Debt Acquisition Costs

Other non-current assets include debt acquisition costs, which are deferred and amortized over the terms of the related agreements using a method that approximates the effective interest method. Debt acquisition costs as of December 31, 2015 and January 1, 2015 were approximately \$46.9 million and \$45.1 million, before accumulated amortization of \$16.2 million and \$17.1 million, respectively.

Investments

The Company accounts for its investments in non-consolidated subsidiaries using the equity method of accounting and has recorded the investments within "Other Non-Current Assets" and "Other Non-Current Liabilities" as applicable in its consolidated balance sheets. The Company records equity in earnings and losses of these entities in its consolidated statements of income. As of December 31, 2015, the Company holds a 19.5% interest in National CineMedia, LLC ("National CineMedia" or "NCM"), a 46.7% interest in Digital Cinema Implementation Partners, LLC, a 50% interest in Open Road Films, a 32% interest in AC JV, LLC and a 14.6% interest in Digital Cinema Distribution Coalition (each as described further under Note 4—"Investments"). In addition, the Company holds an investment in available-for-sale equity securities of RealD, Inc., an entity specializing in the licensing of 3D technologies. See Note 14—"Fair Value of Financial Instruments" for a discussion of fair value estimation methods and assumptions with respect to the Company's investment in RealD, Inc. The carrying value of the Company's investment in these entities as of December 31, 2015 was approximately \$321.8 million.

The Company reviews investments in non-consolidated subsidiaries accounted for under the equity method for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be fully recoverable. The Company reviews unaudited financial statements on a quarterly basis and audited financial statements on an annual basis for indicators of triggering events or circumstances that indicate the potential impairment of these investments as well as current equity prices for its investment in National CineMedia and RealD, Inc. and discounted projections of cash flows for certain of its other investees. Additionally, the Company has periodic discussions with the management of significant investees to assist in the identification of any factors that

might indicate the potential for impairment. In order to determine whether the carrying value of investments may have experienced an other-than-temporary decline in value necessitating the write-down of the recorded investment, the Company considers various factors, including the period of time during which the fair value of the investment remains substantially below the recorded amounts, the investees' financial condition and quality of assets, the length of time the investee has been operating, the severity and nature of losses sustained in current and prior years, a reduction or cessation in the investees dividend payments, suspension of trading in the security, qualifications in accountant's reports due to liquidity or going concern issues, investee announcement of adverse changes, downgrading of investee debt, regulatory actions, changes in reserves for product liability, loss of a principal customer, negative operating cash flows or working capital deficiencies and the recording of an impairment charge by the investee for goodwill, intangible or long-lived

Table of Contents

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

assets. Once a determination is made that an other-than-temporary impairment exists, the Company writes down its investment to fair value.

There was no impairment of the Company's investments during the years ended December 31, 2015, January 1, 2015 and December 26, 2013.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company records a valuation allowance if it is deemed more likely than not that its deferred income tax assets will not be realized. The Company expects that certain deferred income tax assets are not more likely than not to be recovered and therefore has established a valuation allowance. The Company reassesses its need for the valuation allowance for its deferred income taxes on an ongoing basis.

Additionally, income tax rules and regulations are subject to interpretation, require judgment by the Company and may be challenged by the taxation authorities. As described further in Note 7—"Income Taxes," the Company applies the provisions of ASC Subtopic 740-10, Income Taxes—Overview. In accordance with ASC Subtopic 740-10, the Company recognizes a tax benefit only for tax positions that are determined to be more likely than not sustainable based on the technical merits of the tax position. With respect to such tax positions for which recognition of a benefit is appropriate, the benefit is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. Tax positions are evaluated on an ongoing basis as part of the Company's process for determining the provision for income taxes.

Interest Rate Swaps

Regal Cinemas has entered into hedging relationships via interest rate swap agreements to hedge against interest rate exposure of its variable rate debt obligations under Regal Cinemas' Amended Senior Credit Facility. Certain of these interest rate swaps qualify for cash flow hedge accounting treatment and as such, the change in the fair values of the interest rate swaps is recorded on the Company's consolidated balance sheet as an asset or liability with the effective portion of the interest rate swaps' gains or losses reported as a component of other comprehensive income and the ineffective portion reported in earnings. As interest expense is accrued on the debt obligation, amounts in accumulated other comprehensive income/loss related to the interest rate swaps will be reclassified into earnings. In the event that an interest rate swap is terminated or de-designated prior to maturity, gains or losses accumulated in other comprehensive income or loss remain deferred and are reclassified into earnings in the periods during which the hedged forecasted transaction affects earnings. See Note 14—"Fair Value of Financial Instruments" for discussion of the Company's interest rate swaps' fair value estimation methods and assumptions. The fair value of the Company's interest rate swaps is based on Level 2 inputs as described in ASC Topic 820, Fair Value Measurements and Disclosures, which include observable inputs such as dealer quoted prices for similar assets or liabilities, and represents the estimated amount Regal Cinemas would receive or pay to terminate the agreements taking into consideration various factors, including current interest rates, credit risk and counterparty credit risk. The counterparties to the Company's

interest rate swaps are major financial institutions. The Company evaluates the bond ratings of the financial institutions and believes that credit risk is at an acceptably low level.

Deferred Revenue

Deferred revenue relates primarily to the amount we received for agreeing to the ESA modification, amounts recorded in connection with the receipt of newly issued common units of National CineMedia, cash received from the sale of discount tickets and gift cards, and amounts received in connection with vendor marketing programs. The amount we received for agreeing to the ESA modification will be amortized to advertising revenue over the 30 year term of the agreement following the units of revenue method. In addition, as described in Note 4—"Investments," amounts recorded as deferred revenue in connection with the receipt of newly issued common units of National CineMedia pursuant to the provisions of the Common Unit Adjustment Agreement will be amortized to advertising revenue over the remaining term of the ESA following the units of revenue method. As of December 31, 2015 and January 1, 2015, approximately \$426.7 million and \$428.5 million of deferred revenue, respectively, related to the ESA was recorded as components of current and non-current deferred revenue in the

Table of Contents

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

accompanying consolidated balance sheets. Deferred revenue related to gift cards and discount ticket sales and vendor marketing programs are recognized as revenue as described above in this Note 2 under "Revenue Recognition." As of December 31, 2015 and January 1, 2015, approximately \$188.5 million and \$168.7 million of deferred revenue, respectively, related to the gift cards and discount tickets was recorded as a component of current deferred revenue in the accompanying consolidated balance sheets.

Deferred Rent

The Company recognizes rent on a straight-line basis after considering the effect of rent escalation provisions resulting in a level monthly rent expense for each lease over its term. The deferred rent liability is included in other non-current liabilities in the accompanying consolidated balance sheets.

Film Costs

The Company estimates its film cost expense and related film cost payable based on management's best estimate of the ultimate settlement of the film costs with the distributors. Generally, less than one-third of our quarterly film expense is estimated at period-end. The length of time until these costs are known with certainty depends on the ultimate duration of the film's theatrical run, but is typically "settled" within 2 to 3 months of a particular film's opening release. Upon settlement with our film distributors, film cost expense and the related film cost payable are adjusted to the final film settlement.

Loyalty Program

Members of the Regal Crown Club® earn credits for each dollar spent at the Company's theatres and earn concession or ticket awards based on the number of credits accumulated. Because the Company believes that the value of the awards granted to Regal Crown Club® members is insignificant in relation to the value of the transactions necessary to earn the award, the Company records the estimated incremental cost of providing awards under the Regal Crown Club® loyalty program at the time the awards are earned. Historically, and for the years ended December 31, 2015, January 1, 2015 and December 26, 2013, the costs of these awards have not been significant to the Company's consolidated financial statements.

Advertising and Start-Up Costs

The Company expenses advertising costs as incurred. Start-up costs associated with a new theatre are also expensed as incurred.

Share-Based Compensation

As described in Note 9—"Capital Stock And Share-Based Compensation," we apply the provisions of ASC Subtopic 718-10, Compensation—Stock Compensation—Overall. Under ASC Subtopic 718-10, share-based compensation cost is measured at the grant date, based on the estimated fair value of the award, and is recognized as expense over the employee's requisite service period.

Under ASC Subtopic 718-10, the Company elected to adopt the alternative transition method for calculating the tax effects of share-based compensation. The alternative transition method includes a simplified method to establish the

beginning balance of the additional paid-in capital pool related to the tax effects of employee share-based compensation, which is available to absorb tax deficiencies that could be recognized subsequent to the adoption of ASC Subtopic 718-10.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include, but are not limited to, those related to film costs, property and equipment, goodwill, income taxes and purchase accounting. Actual results could differ from those estimates.

Table of Contents

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

Segments

As of December 31, 2015, January 1, 2015 and December 26, 2013, the Company managed its business under one reportable segment: theatre exhibition operations.

Acquisitions

The Company accounts for acquisitions under the acquisition method of accounting. The acquisition method requires that the acquired assets and liabilities, including contingencies, be recorded at fair value determined on the acquisition date and changes thereafter reflected in income. For significant acquisitions, the Company obtains independent third party valuation studies for certain of the assets acquired and liabilities assumed to assist the Company in determining fair value. The estimation of the fair values of the assets acquired and liabilities assumed involves a number of estimates and assumptions that could differ materially from the actual amounts recorded. The results of the acquired businesses are included in the Company's results from operations beginning from the day of acquisition.

Comprehensive Income

Total comprehensive income, net of tax, for the years ended December 31, 2015, January 1, 2015 and December 26, 2013 was \$152.6 million, \$106.1 million and \$159.5 million, respectively. Total comprehensive income consists of net income and other comprehensive income, net of tax, related to the change in the aggregate unrealized gain/loss on the Company's interest rate swap arrangement, the change in fair value of available for sale equity securities (including other-than-temporary impairments), the reclassification adjustment for gain on sale of available for sale securities recognized in net income and the change in fair value of equity method investee interest rate swap transactions during each of the years ended December 31, 2015, January 1, 2015 and December 26, 2013. The Company's interest rate swap arrangements and available for sale equity securities are further described in Note 13—"Derivative Instruments" and Note 14—"Fair Value of Financial Instruments."

Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued ASU 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. ASU 2014-08 changes the requirements for reporting discontinued operations and includes enhanced disclosures about discontinued operations. Under the update, only those disposals of components of an entity that represent a strategic shift that has a major effect on an entity's operations and financial results will be reported as discontinued operations in the financial statements. ASU 2014-08 is effective prospectively for annual reporting periods beginning on or after December 15, 2014, and interim reporting periods within those years. ASU 2014-08 became effective for the Company as of the beginning of fiscal 2015 and has been applied prospectively.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The standard permits the use of either the retrospective or cumulative effect transition method. ASU 2014-09 was originally effective for annual and interim reporting periods beginning after December 15, 2016. However, the standard was deferred by ASU 2015-14, issued by the FASB in August 2015, and is now effective for fiscal years beginning on or after December 15, 2017, including interim reporting periods within that reporting period,

with early adoption permitted as of the original effective date. The Company is evaluating the impact that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In June 2014, the FASB issued ASU 2014-12, Compensation-Stock Compensation (Topic 718). ASU 2014-12 is intended to resolve the diverse accounting treatment of share-based awards that require a specific performance target to be achieved in order for employees to become eligible to vest in the awards. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period for which the requisite service has already been rendered. ASU 2014-12 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Early adoption is permitted. The Company expects to apply the amendments prospectively to all awards granted or modified after the effective date and expects to adopt ASU 2014-12 as of the beginning of fiscal 2016. The Company does not anticipate the adoption of ASU 2014-12 to have a material impact on the Company's consolidated financial statements and related disclosures.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

In February 2015, the FASB issued ASU 2015-02, Consolidation (Topic 810) - Amendments to the Consolidation Analysis, which provides guidance on evaluating whether a reporting entity should consolidate certain legal entities. Specifically, the amendments modify the evaluation of whether limited partnerships and similar legal entities are variable interest entities ("VIEs") or voting interest entities. Further, the amendments eliminate the presumption that a general partner should consolidate a limited partnership, as well as affect the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for interim and annual reporting periods beginning after December 15, 2015. Early adoption is permitted. A reporting entity may apply the amendments using a modified retrospective approach or a full retrospective application. The Company does not anticipate the adoption of ASU 2015-03 to have a material impact on the Company's consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU 2015-03, Interest—Imputation of Interest, which intends to simplify the presentation of debt issuance costs. Under current U.S. GAAP, debt issuance costs are reported on the balance sheet as assets and amortized as interest expense. ASU 2015-03 requires that they be presented on the balance sheet as a direct deduction from the carrying amount of the related debt liability, which is similar to the presentation of debt discounts or premiums. The costs will continue to be amortized to interest expense using the effective interest method. ASU 2015-03 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Early adoption is permitted. The standard requires retrospective application and the Company expects to adopt ASU 2015-03 as of the beginning of fiscal 2016. The Company does not anticipate the adoption of ASU 2015-03 to have a material impact on the Company's consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU 2015-05, Intangibles – Goodwill and Other – Internal Use Software (Subtopic 350-40): Customer’s Accounting for Fees Paid in Cloud Computing Arrangement. ASU 2015-05 provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The guidance will not change GAAP for a customer’s accounting for service contracts. In addition, the guidance in this ASU supersedes paragraph 350-40-25-16. Consequently, all software licenses within the scope of Subtopic 350-40 will be accounted for consistent with other licenses of intangible assets. ASU 2015-05 is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Company does not anticipate the adoption of ASU 2015-03 to have a material impact on the Company's consolidated financial statements and related disclosures.

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330) - Simplifying the Measurement of Inventory, which affects reporting entities that measure inventory using first-in, first-out (FIFO) or average cost. Specifically, ASU 2015-11 requires that inventory be measured at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. ASU 2015-11 is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Company does not anticipate the adoption of ASU 2015-11 to have a material impact on the Company's consolidated financial statements and related disclosures.

In August 2015, the FASB issued ASU 2015-15, Interest – Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements. ASU 2015-15 adds

clarification to the guidance presented in ASU 2015-03, as that guidance did not address the presentation or subsequent measurement of debt issuance costs related to line-of-credit arrangements. The Company plans to adopt this ASU effective January 1, 2016 along with the original guidance in ASU 2015-03.

In September 2015, the FASB issued ASU 2015-16, Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments. ASU 2015-16 was issued to simplify the accounting for adjustments made to provisional amounts recognized in a business combination and eliminates the requirement to retrospectively account for such adjustments. ASU 2015-16 requires an entity to present separately on the face of the income statement, or disclose in the notes, amounts recorded in current period earnings that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. For public business entities, the amendments are effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The amendments should be applied prospectively to adjustments to provisional amounts that occur after the effective date with earlier application

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

permitted for financial statements that have not been issued. The Company does not expect ASU 2015-16 to have a significant impact on its consolidated financial statements.

In November 2015, the FASB issued ASU 2015-17, Income Taxes (Topic740) - Balance Sheet Classification of Deferred Taxes, which will require the presentation of deferred tax liabilities and asset be classified as non-current in a classified statement of financial position. The amendments in this update are effective for financial statements issued for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Earlier application is permitted for all entities as of the beginning of an interim or annual reporting period. The Company does not anticipate the adoption of ASU 2015-17 to have a material impact on the Company's consolidated financial statements and related disclosures.

3. ACQUISITIONS**Acquisition of Five Theatres from Georgia Theatre Company**

On September 3, 2015, Regal completed the acquisition of five theatres with 61 screens from entities affiliated with Georgia Theatre Company for an aggregate net cash purchase price, before post-closing adjustments, of \$9.2 million. The acquisition enhanced the Company's presence in the state of Georgia. The aggregate net cash purchase price was allocated to the identifiable assets acquired for each of the respective theatre locations based on their estimated fair values at the date of acquisition using the acquisition method of accounting. The allocation of the purchase price is based on management's judgment after evaluating several factors. The results of operations of the five acquired theatres have been included in the Company's consolidated financial statements for periods subsequent to the acquisition date.

The following is a summary of the preliminary allocation of the aggregate net cash purchase price (before post-closing adjustments) to the estimated fair values of the identifiable assets acquired that have been recognized by the Company in its consolidated balance sheet as of the date of acquisition (in millions):

Property and equipment	\$0.9
Goodwill	8.3
Total purchase price	\$9.2

Acquisition of Hollywood Theaters

On March 29, 2013, Regal completed the acquisition of Hollywood Theaters, whereby it acquired a total of 43 theatres with 513 screens for an aggregate net cash purchase price of \$194.4 million. In addition, the Company assumed approximately \$47.9 million of capital lease and lease financing obligations, and certain working capital. The cash portion of the purchase price included repayment of approximately \$167.0 million of the sellers' debt. The acquisition of Hollywood Theaters enhanced the Company's presence in 16 states and 3 U.S. territories. The Company incurred approximately \$3.0 million in transaction costs in connection with this transaction. The aggregate net cash purchase price was allocated to the identifiable assets acquired and liabilities assumed for each of the respective theatre locations based on their estimated fair values at the date of acquisition using the acquisition method of accounting. The allocation of the purchase price is based on management's judgment after evaluating several factors, including an independent third party valuation. The results of operations of the acquired theatres have been included in the Company's consolidated financial statements for periods subsequent to the acquisition date.

The following is a summary of the final allocation of the aggregate net cash purchase price to the estimated fair values of the identifiable assets acquired and liabilities assumed that have been recognized by the Company in its consolidated balance sheet as of the date of acquisition (in millions):

57

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

Current assets	\$8.7	
Property and equipment	143.2	
Favorable leases and other intangible assets	35.6	
Goodwill	46.4	
Deferred income tax asset	35.8	
Other assets	0.2	
Current liabilities	(14.2)
Lease financing obligations	(40.4)
Capital lease obligations	(7.5)
Unfavorable leases	(10.7)
Other liabilities	(2.7)
Total purchase price	\$194.4	

The transaction included the assumption of lease financing obligations associated with 14 acquired theatres and various capital lease obligations, which are presented in the Company's consolidated balance sheets. Such obligations have a weighted average interest rate of approximately 10.7% and mature in various installments through December 2030. In addition, the transaction included the acquisition of favorable leases (approximately \$34.4 million) and unfavorable leases (approximately \$10.7 million), which are presented in the Company's consolidated balance sheet as a component of "Intangible Assets, net" and "Other Non-Current Liabilities," respectively. The weighted average amortization period for the favorable leases and the unfavorable leases are approximately 18 years and 15 years, respectively. Goodwill represents the excess purchase price over the amounts assigned to assets acquired, including intangible assets, and liabilities assumed and is not deductible for tax purposes.

4. INVESTMENTS

Investment in National CineMedia, LLC

We maintain an investment in National CineMedia. National CineMedia concentrates on in-theatre advertising for its theatrical exhibition partners, which includes us, AMC and Cinemark.

On February 13, 2007, National CineMedia, Inc. ("NCM, Inc."), the sole manager of National CineMedia, completed an initial public offering ("IPO") of its common stock. NCM, Inc. sold 38.0 million shares of its common stock for \$21 per share in the IPO, less underwriting discounts and expenses. NCM, Inc. used a portion of the net cash proceeds from the IPO to acquire newly issued common units from National CineMedia. At the closing of the IPO, the underwriters exercised their over-allotment option to purchase an additional 4.0 million shares of common stock of NCM, Inc. at the initial offering price of \$21 per share, less underwriting discounts and commissions. In connection with this over-allotment option exercise, Regal, AMC and Cinemark each sold to NCM, Inc. common units of National CineMedia on a pro rata basis at the initial offering price of \$21 per share, less underwriting discounts and expenses. Upon completion of this sale of common units, Regal held approximately 21.2 million common units of National CineMedia ("Initial Investment Tranche"). Such common units are immediately redeemable on a one-to-one basis for shares of NCM, Inc. common stock.

As a result of the transactions associated with the IPO and receipt of proceeds in excess of our investment balance, the Company reduced its investment in National CineMedia to zero. Accordingly, we will not provide for any additional losses as we have not guaranteed obligations of National CineMedia and we are not otherwise committed to provide

further financial support for National CineMedia. In addition, subsequent to the IPO, the Company determined it would not recognize its share of any undistributed equity in the earnings of National CineMedia pertaining to the Company's Initial Investment Tranche in National CineMedia until National CineMedia's future net earnings, net of distributions received, equal or exceed the amount of the above described excess distribution. Until such time, equity in earnings related to the Company's Initial Investment Tranche in National CineMedia will be recognized only to the extent that the Company receives cash distributions from National CineMedia. The Company believes that the accounting model provided by ASC 323-10-35-22 for recognition of equity investee losses in excess of an investor's basis is analogous to the accounting for equity income subsequent to recognizing an excess distribution. The Company's Initial Investment Tranche is recorded at \$0 cost.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

In connection with the completion of the IPO, the joint venture partners, including RCI, amended and restated their exhibitor services agreements with National CineMedia in exchange for a significant portion of its pro rata share of the IPO proceeds. The modification extended the term of the exhibitor services agreement ("ESA") to 30 years, provided National CineMedia with a 5-year right of first refusal beginning one year prior to the end of the term and changed the basis upon which RCI is paid by National CineMedia from a percentage of revenues associated with advertising contracts entered into by National CineMedia to a monthly theatre access fee. The theatre access fee is composed of a fixed \$0.0756 payment per patron which increases by 8% every 5 years starting at the end of fiscal 2011, a fixed \$800 payment per digital screen each year, which increases by 5% annually starting at the end of fiscal 2007 (or \$1,182 for fiscal 2015) and an additional payment per digital screen of \$608 for fiscal 2015. The access fee revenues received by the Company under its contract are determined annually based on a combination of both fixed and variable factors which include the total number of theatre screens, attendance and actual revenues (as defined in the ESA) generated by National CineMedia. The ESA does not require us to maintain a minimum number of screens and does not provide a fixed amount of access fee revenue to be earned by the Company in any period. The theatre access fee paid in the aggregate to us, AMC and Cinemark will not be less than 12% of NCM's aggregate advertising revenue, or it will be adjusted upward to meet this minimum payment. On-screen advertising time provided to our beverage concessionaire is provided by National CineMedia under the terms of the ESA. In addition, we receive mandatory quarterly distributions of any excess cash from National CineMedia.

The amount we received for agreeing to the ESA modification was approximately \$281.0 million, which represents the estimated fair value of the ESA modification payment. We estimated the fair value of the ESA payment based upon a valuation performed by the Company with the assistance of third party specialists. This amount has been recorded as deferred revenue and will be amortized to advertising revenue over the 30 year term of the ESA following the units of revenue method. Under the units of revenue method, amortization for a period is calculated by computing a ratio of the proceeds received from the ESA modification payment to the total expected decrease in revenues due to entry into the new ESA over the 30 year term of the agreement and then applying that ratio to the current period's expected decrease in revenues due to entry into the new ESA.

Also in connection with the IPO, the joint venture partners entered into a Common Unit Adjustment Agreement with National CineMedia. Pursuant to our Common Unit Adjustment Agreement, from time to time, common units of National CineMedia held by the joint venture partners will be adjusted up or down through a formula primarily based on increases or decreases in the number of theatre screens operated and theatre attendance generated by each joint venture partner. The common unit adjustment is computed annually, except that an earlier common unit adjustment will occur for a joint venture partner if its acquisition or disposition of theatres, in a single transaction or cumulatively since the most recent common unit adjustment, will cause a change of two percent or more in the total annual attendance of all of the joint venture partners. In the event that a common unit adjustment is determined to be a negative number, the joint venture partner shall cause, at its election, either (a) the transfer and surrender to National CineMedia a number of common units equal to all or part of such joint venture partner's common unit adjustment or (b) pay to National CineMedia, an amount equal to such joint venture partner's common unit adjustment calculated in accordance with the Common Unit Adjustment Agreement. If the Company elects to surrender common units as part of a negative common unit adjustment, the Company would record a reduction to deferred revenue at the then fair value of the common units surrendered and a reduction of the Company's Additional Investments Tranche at an amount equal to the weighted average cost for the Additional Investments Tranche common units, with the difference between the two values recorded as a non-operating gain or loss.

As described further below, subsequent to the IPO and through December 31, 2015, the Company received from National CineMedia approximately 11.8 million newly issued common units of National CineMedia ("Additional Investments Tranche") as a result of the adjustment provisions of the Common Unit Adjustment Agreement. The Company follows the guidance in ASC 323-10-35-29 (formerly EITF 2-18, Accounting for Subsequent Investments in an Investee after Suspension of Equity Loss Recognition) by analogy, which also refers to AICPA Technical Practice Aid 2220.14, which indicates that if a subsequent investment is made in an equity method investee that has experienced significant losses, the investor must determine if the subsequent investment constitutes funding of prior losses. The Company concluded that the construction or acquisition of new theatres that has led to the common unit adjustments included in its Additional Investments Tranche equates to making additional investments in National CineMedia. The Company evaluated the receipt of the additional common units in National CineMedia and the assets exchanged for these additional units and has determined that the right to use its incremental new screens would not be considered funding of prior losses. As such, the Additional Investments Tranche is accounted for separately from the Company's Initial Investment Tranche following the equity method with undistributed equity earnings included as a component of "Earnings recognized from NCM" in the accompanying consolidated financial statements.

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

The NCM, Inc. IPO and related transactions have the effect of reducing the amounts NCM, Inc. would otherwise pay in the future to various tax authorities as a result of an increase in Regal's proportionate share of tax basis in NCM Inc.'s tangible and intangible assets. On the IPO date, NCM, Inc., the Company, AMC and Cinemark entered into a tax receivable agreement. Under the terms of this agreement, NCM, Inc. will make cash payments to us, AMC and Cinemark in amounts equal to 90% of NCM, Inc.'s actual tax benefit realized from the tax amortization of the intangible assets described above. For purposes of the tax receivable agreement, cash savings in income and franchise tax will be computed by comparing NCM, Inc.'s actual income and franchise tax liability to the amount of such taxes that NCM, Inc. would have been required to pay had there been no increase in NCM Inc.'s proportionate share of tax basis in NCM's tangible and intangible assets and had the tax receivable agreement not been entered into. The tax receivable agreement shall generally apply to NCM, Inc.'s taxable years up to and including the 30th anniversary date of the NCM, Inc. IPO and related transactions.

The Company accounts for its investment in National CineMedia following the equity method of accounting and such investment is included as a component of "Other Non-Current Assets" in the consolidated balance sheets. Below is a summary of activity with National CineMedia included in the Company's consolidated financial statements as of and for the years ended December 31, 2015, January 1, 2015 and December 26, 2013 (in millions):

(1) On March 17, 2015, March 13, 2014, and March 14, 2013, we received from National CineMedia approximately 0.6 million, 0.4 million and 2.2 million, respectively, newly issued common units of National CineMedia in accordance with the annual adjustment provisions of the Common Unit Adjustment Agreement. In addition, on November 19, 2013, we received from National CineMedia approximately 3.4 million newly issued common units

of National CineMedia in accordance with the adjustment provisions of the Common Unit Adjustment Agreement in connection with our acquisition of Hollywood Theaters. The Company recorded the additional common units (Additional Investments Tranche) at fair value using the available closing stock prices of NCM, Inc. as of the dates on which the units were issued. As a result of these adjustments, the Company recorded increases to its investment in National CineMedia (along with corresponding increases to deferred revenue) of \$9.0 million, \$5.9 million and \$95.2 million during the years ended December 31, 2015, January 1, 2015 and December 26, 2013, respectively. Such deferred revenue amounts are being amortized to advertising revenue over the remaining term of the ESA between RCI and National CineMedia following the units of revenue method as described in (4) below. These transactions, together with

Table of Contents

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

the transaction described in (6) below, caused a proportionate net increase in the Company's Additional Investments Tranche and increased our ownership share in National CineMedia to 26.4 million common units. As a result, on a fully diluted basis, we own a 19.5% interest in NCM, Inc. as of December 31, 2015.

During the years ended December 31, 2015, January 1, 2015 and December 26, 2013, the Company received \$40.0 million, \$39.1 million, \$40.0 million, respectively, in cash distributions from National CineMedia, exclusive of receipts for services performed under the ESA (including payments of \$9.5 million, \$12.0 million, and \$4.6 million received under the tax receivable agreement). Approximately \$15.3 million, \$14.1 million and \$10.0 million of (2) these cash distributions received during the years ended December 31, 2015, January 1, 2015 and December 26, 2013, respectively, were attributable to the Additional Investments Tranche and were recognized as a reduction in our investment in National CineMedia. The remaining amounts were recognized in equity earnings during each of these periods and have been included as components of "Earnings recognized from NCM" in the accompanying consolidated financial statements.

The Company recorded other revenues, excluding the amortization of deferred revenue, of approximately \$16.7 million, \$14.2 million and \$12.6 million for the years ended December 31, 2015, January 1, 2015 and December 26, 2013, respectively, pertaining to our agreements with National CineMedia, including per patron and (3) per digital screen theatre access fees (net of payments \$11.8 million, \$14.0 million and \$15.5 million for the years ended December 31, 2015, January 1, 2015 and December 26, 2013, respectively) for on-screen advertising time provided to our beverage concessionaire and other NCM revenues. These advertising revenues are presented as a component of "Other operating revenues" in the Company's consolidated financial statements.

Amounts represent amortization of ESA modification fees received from NCM to advertising revenue utilizing the (4) units of revenue amortization method. These advertising revenues are presented as a component of "Other operating revenues" in the Company's consolidated financial statements.

Amounts represent the Company's share in the net income of National CineMedia with respect to the Additional Investments Tranche. Such amounts have been included as a component of "Earnings recognized from NCM" in the consolidated financial statements. On May 5, 2014, NCM, Inc. announced that it had entered into a merger agreement to acquire Screenvision, LLC ("Screenvision") for \$375 million, consisting of cash and NCM, Inc. common stock. On November 3, 2014, the U.S. Department of Justice ("DOJ") filed an antitrust lawsuit seeking to enjoin the proposed merger between NCM, Inc. and Screenvision. On March 16, 2015, NCM, Inc. announced that (5) it had agreed with Screenvision to terminate the merger agreement. The termination of the merger agreement was effective upon NCM Inc.'s payment of a \$26.8 million termination payment to Screenvision. National CineMedia indemnified NCM, Inc. for the termination fee. Accordingly, each founding member bore a pro rata portion of this fee (along with approximately \$14.1 million of associated merger costs) based upon their respective ownership percentage in National CineMedia. The Company recorded the impact of its pro rata portion of this fee and associated merger costs as a \$3.3 million reduction of equity earnings in NCM during the year ended December 31, 2015.

During the year ended December 26, 2013, the Company redeemed 2.3 million of its National CineMedia common units for a like number of shares of NCM, Inc. common stock, which the Company sold in an underwritten public offering (including underwriter over-allotments) for \$17.79 per share, reducing our investment in National (6) CineMedia by approximately \$10.0 million, the average carrying amount of the shares sold. The Company received approximately \$40.9 million in proceeds, resulting in a gain on sale of approximately \$30.9 million. We accounted for this transaction as a proportionate decrease in the Company's Initial Investment Tranche and Additional Investments Tranche and decreased our ownership share in National CineMedia.

(7) As described further below under "Investment in AC JV, LLC," in connection with the sale of its Fathom Events business to AC JV, LLC, National CineMedia recorded a gain of approximately \$25.4 million in connection with the sale. The Company's proportionate share of such gain (approximately \$1.9 million) was excluded from equity

earnings in National CineMedia and recorded as a reduction in the Company's investment in AC JV.

As of December 31, 2015, approximately \$2.8 million and \$1.3 million due from/to National CineMedia were included in "Trade and other receivables, net" and "Accounts payable," respectively. As of January 1, 2015, approximately \$2.7 million and \$1.5 million due from/to National CineMedia were included in "Trade and other receivables, net" and "Accounts payable," respectively.

Liabilities and members' deficit	681.1	699.2

Investment in Digital Cinema Implementation Partners

We maintain an investment in Digital Cinema Implementation Partners, LLC, a Delaware limited liability company ("DCIP"). DCIP is a joint venture company formed by Regal, AMC and Cinemark. Regal holds a 46.7% economic interest in DCIP as of December 31, 2015 and a one-third voting interest along with each of AMC and Cinemark. Since the Company does not have a controlling financial interest in DCIP or any of its subsidiaries, it accounts for its investment in DCIP under the equity method of accounting. The Company's investment in DCIP is included as a component of "Other Non-Current Assets" in the accompanying consolidated balance sheets. The changes in the carrying amount of our investment in DCIP for the years ended December 31, 2015, January 1, 2015, and December 26, 2013 are as follows (in millions):

Balance as of December 27, 2012	\$72.8
Equity contributions	3.5
Equity in earnings of DCIP(1)	22.9
Change in fair value of equity method investee interest rate swap transactions	2.4
Balance as of December 26, 2013	101.6
Equity contributions	3.6
Equity in earnings of DCIP(1)	28.6
Receipt of cash distributions(2)	(6.3)
Change in fair value of equity method investee interest rate swap transactions	(1.2)
Balance as of January 1, 2015	126.3
Equity contributions	0.4
Equity in earnings of DCIP(1)	37.0
Receipt of cash distributions(2)	(2.0)

Edgar Filing: WisdomTree Trust - Form 485APOS

Change in fair value of equity method investee interest rate swap transactions	(1.0)
Balance as of December 31, 2015	\$160.7

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

- (1) Represents the Company's share of the net income of DCIP. Such amount is presented as a component of "Equity in income of non-consolidated entities and other, net" in the accompanying consolidated statements of income.
- (2) Represents cash distributions from DCIP as a return on its investment.

DCIP funds the cost of digital projection principally through the collection of virtual print fees from motion picture studios and equipment lease payments from participating exhibitors, including us. In accordance with the master equipment lease agreement (the "Master Lease"), the digital projection systems are leased from a subsidiary of DCIP under a twelve-year term with ten one-year fair value renewal options. The Master Lease also contains a fair value purchase option. On March 31, 2014, the junior capital raised by DCIP in the initial financing transactions was paid in full by DCIP. In connection with this repayment, the Master Lease was amended to eliminate the incremental minimum rent payment provision of \$2,000 per digital projection system. DCIP incurred a loss on debt extinguishment of approximately \$6.0 million as a result of the debt repayment and Regal recorded its pro rata share of such loss (approximately \$2.8 million) during the year ended January 1, 2015 as a reduction of equity in earnings of DCIP. As a result of the amendment to the Master Lease, the Company's deferred rent balance associated with the incremental minimum rental payment of \$2,000 per digital projection system is being amortized on a straight-line basis as a reduction of rent expense from the effective date of the amendment (March 31, 2014) through the end of the remaining lease term. As of December 31, 2015, under the Master Lease, the Company continues to pay annual minimum rent of \$1,000 per digital projection system from the effective date of the original agreement through the end of the lease term. The Company considers the \$1,000 rent payment to be a minimum rental and accordingly records such rent on a straight-line basis in its consolidated financial statements. The Company is also subject to various types of other rent if such digital projection systems do not meet minimum performance requirements as outlined in the Master Lease. Certain of the other rent payments are subject to either a monthly or an annual maximum. The Company accounts for the Master Lease as an operating lease for accounting purposes. During the years ended December 31, 2015, January 1, 2015, and December 26, 2013, the Company incurred total rent expense of approximately \$5.4 million, \$7.7 million, and \$14.5 million, respectively, associated with the leased digital projection systems. Such rent expense is presented as a component of "Other operating expenses" in the Company's consolidated statements of income.

Summarized consolidated statements of operations information for DCIP for the years ended December 31, 2015, December 31, 2014, and December 31, 2013 is as follows (in millions):

	Year Ended December 31, 2015	Year Ended December 31, 2014	Year Ended December 31, 2013

REGAL ENTERTAINMENT GROUP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

may invest an additional \$10.0 million in this joint venture. We account for our investment in Open Road Films using the equity method of accounting. As a result of cumulative losses recorded in Open Road Films, the Company's investment in Open Road Films was reduced to a minimum carrying value of \$(10.0) million as of March 27, 2014. Consistent with the accounting model provided by ASC 323-10-35-22, as of March 27, 2014, the Company has not provided for any additional losses of Open Road Films since it has not guaranteed obligations of Open Road Films and otherwise has not committed to provide further financial support for Open Road Films above its initial \$30.0 million commitment. Accordingly, the Company discontinued equity method accounting for its investment in Open Road Films as of March 27, 2014. The amount of excess losses incurred through December 31, 2015 continued to be in excess of the Company's initial \$30.0 million commitment by approximately \$19.9 million.

The Company's investment in Open Road Films is included as a component of "Other Non-Current Liabilities" in the consolidated balance sheets. The changes in the carrying amount of our investment in Open Road Films for the years ended December 31, 2015, January 1, 2015 and December 26, 2013 are as follows (in millions):

Balance as of December 27, 2012	\$(10.0)
Equity in earnings attributable to Open Road Films(1)	2.9
Balance as of December 26, 2013	(7.1)
Equity in loss attributable to Open Road Films(1)	(2.9)
Balance as of January 1, 2015	(10.0)
Equity in earnings attributable to Open Road Films(1)	—
Balance as of December 31, 2015	\$(10.0)

Represents the Company's recorded share of the net income (loss) of Open Road Films. Such amount is presented (1) as a component of "Equity in income of non-consolidated entities and other, net" in the accompanying consolidated statements of income.

Summarized consolidated statements of operations information for Open Road Films for the years ended December 31, 2015, December 31, 2014, and December 31, 2013 is as follows (in millions):

	Year Ended December 31, 2015	Year Ended December 31, 2014	Year Ended December 31, 2013
Revenues	\$119.2	\$175.4	\$140.4
Income (loss) from operations	(27.6)	(13.3)	12.3
Net income (loss)	(29.8)	(15.2)	9.7

Summarized consolidated balance sheet information for Open Road Films as of December 31, 2015 and 2014 is as follows (in millions):

	December 31, 2015	December 31, 2014
Current assets	\$49.0	\$44.5
Noncurrent assets	52.3	12.3
Total assets	101.3	56.8
Current liabilities	65.1	41.1
Noncurrent liabilities	95.9	45.6
Total liabilities	161.0	86.7
Members' deficit	(59.7)	(29.9)
Liabilities and members' deficit	101.3	56.8

Investment in RealD, Inc.

The Company also maintains an investment in RealD, Inc., an entity specializing in the licensing of 3D technologies. The Company has determined that its RealD, Inc. shares are available for sale securities in accordance with ASC Topic 320-10-35-1, therefore unrealized holding gains and losses are reported as a component of accumulated other comprehensive income (loss)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2015, January 1, 2015, and December 26, 2013

until realized. During fiscal 2013 and 2014, the Company sold 900,000 shares of RealD, Inc. common stock at prices ranging from \$11.27 to \$15.42 per share. During the year ended December 31, 2015, the Company recorded a net decrease to its investment in RealD, Inc. of approximately \$0.4 million and a corresponding net increase to "Accumulated other comprehensive loss, net" of \$0.2 million, net of tax. The carrying value of the Company's investment in RealD, Inc. as of December 31, 2015 was approximately \$3.4 million. The Company has recorded this investment within "Other Non-Current Assets." See Note 14—"Fair Value of Financial Instruments" for a discussion of fair value estimation methods and assumptions with respect to the Company's investment in RealD, Inc.

In addition, on November 9, 2015, RealD, Inc. and Rizvi Traverse Management, LLC announced that they have entered into a definitive agreement pursuant to which Rizvi Traverse Management, LLC will acquire RealD, Inc. for \$11.00 per share, in an all-cash merger transaction. Under the terms of the agreement, RealD, Inc. shareholders will receive \$11.00 in cash for each share of RealD, Inc.'s common stock. Upon completion of the transaction, RealD, Inc. will become a privately held company. The RealD, Inc. Board of Directors approved the agreement and recommends that RealD, Inc. shareholders vote in favor of the transaction. The proposed transaction is subject to closing conditions including receipt of shareholder and regulatory approvals and is currently expected to close in the fourth quarter of fiscal 2016 or shortly thereafter.
