Note 1 Reporting and Accounting Policies

Nature of Operations

We are a holding company that, through subsidiaries, provides personal automobile insurance with a concentration on nonstandard auto insurance. Although licensed to write insurance in all 50 states and the District of Columbia, we focus on select states that we believe offer the greatest opportunity for premium growth and profitability.

Basis of Consolidation and Reporting

The accompanying consolidated financial statements are unaudited and should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2012. This Quarterly Report on Form 10-Q, including the Condensed Notes to Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations, focuses on our financial performance since the beginning of the year. These financial statements reflect certain adjustments necessary for a fair presentation of our results of operations and financial position. Such adjustments consist of normal, recurring accruals recorded to match expenses with their related revenue streams and the elimination of all significant inter-company transactions and balances. We have evaluated events that occurred after June 30, 2013 for recognition or disclosure in our financial statements and the notes to the financial statements.

Schedules may not foot due to rounding.

Estimates

We based certain accounts and balances within these financial statements upon our estimates and assumptions. The amount of reserves for claims not yet paid, for example, is an item that we can only record by estimation. Unrealized capital gains and losses on investments are subject to market fluctuations, and we use judgment in the determination of whether unrealized losses on certain securities are temporary or other-than-temporary. Should actual results differ significantly from these estimates, the effect on our results of operations could be material. The results of operations for the periods presented may not be indicative of our results for the entire year.

Recently Adopted Accounting Standards

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

In February 2013, the FASB issued guidance requiring expanded disclosures about amounts reclassified out of accumulated other comprehensive income (AOCI). Entities are required to present reclassifications by component when reporting changes in AOCI balances. The guidance requires the presentation of significant amounts reclassified out of AOCI by income statement line item. We adopted the new guidance as of March 31, 2013. The new guidance affects disclosures only and therefore had no impact on our results of operations or financial position.

Percentage of total cash and investments 20.5 % 78.7 % 0.8 % 100.0 % We do not report any large terms debt at fair value in the Consolidated Polance Shorts. The \$272.8 million and \$288.0	Percentage of total cash and investments	20.5 %	78.7 %	0.8 %	100.0 %

We do not report our long-term debt at fair value in the Consolidated Balance Sheets. The \$272.8 million and \$288.9 million fair value of our long-term debt at June 30, 2013 and December 31, 2012, respectively, would be included in Level 2 of the fair value hierarchy if it were reported at fair value.

Level 1 includes cash and cash equivalents, U.S. Treasury securities, an exchange-traded fund and equities invested in a rabbi trust. Level 2 includes securities whose fair value was determined using observable market inputs. Level 3 securities are

Table of Contents

Condensed Notes to Consolidated Financial Statements

comprised of (i) securities for which there is no active or inactive market for similar instruments, (ii) securities whose fair value is determined based on unobservable inputs and (iii) securities, other than those backed by the U.S. Government, that are not rated by a nationally recognized statistical rating organization ("NRSRO"). We recognize transfers between levels at the beginning of the reporting period.

A third party nationally recognized pricing service provides the fair value of securities in Level 2. We review the third party pricing methodologies quarterly and test for significant differences between the market price used to value the security and recent sales activity.

The following tables present the changes in the Level 3 fair value category (in thousands):

Of the \$11.2 million fair value of securities in Level 3 at June 30, 2013, which consists of 12 securities, we priced five based on non-binding broker quotes, four prices were provided by our unaffiliated money managers and one security, which is included in Level 3 because it is not rated by a nationally recognized statistical rating organization, was priced by a nationally recognized pricing service. We manually calculated the remaining two securities, which have a combined fair value of \$0.7 million.

Quantitative information about the significant unobservable inputs used in the fair value measurement of these manually priced securities at June 30, 2013 is as follows (in millions):

	Fair Value	Valuation Technique	Unobservable Input	Value Used
Corporate bond	\$0.1	Recovery rate ¹	Probability of default	100%
Corporate bond	0.6	Discounted cash flow	Comparable credit rating ²	CCC
Total	\$0.7			

¹ Recovery rate for senior unsecured bonds as indicated in Moody's Investor's Service Annual Default Study: Corporate Default and Recovery Rates, 1920-2012.

² This bond is not rated, but is supported by JC Penney Corporation trust assets; therefore a JC Penney comparable bond rating is used.

The significant unobservable inputs used in the fair value measurement of our manually-priced corporate bonds are a probability of default assumption and an assigned credit rating. Significant changes in either of these inputs in isolation could result in a significant change in fair value measurement for these corporate bonds. Generally, a reduction in probability of

Condensed Notes to Consolidated Financial Statements

default would increase security valuation. A change in the credit rating assumption would change the yield spread associated with that bond, and thus the yield used in discounting the cash flows to arrive at the security's valuation. There were no transfers between Levels 1, 2 or 3 during the six months ended June 30, 2013.

The gains or losses included in net earnings are included in the line item net realized gains on investments in the Consolidated Statements of Earnings. We recognize the net gains or losses included in other comprehensive income in the line item unrealized gains (losses) on investments, net in the Consolidated Statements of Comprehensive Income and the line item change in unrealized gain on investments or the line item change in non-credit component of impairment losses on fixed maturities in the Consolidated Statements of Changes in Shareholders' Equity.

The following table presents the carrying value and estimated fair value of our financial instruments (in thousands):

	June 30, 2013	December 31, 2012		
	Carrying	Fair	Carrying	Fair
	Value	Value	Value	Value

Note 4 Investments

We consider all fixed maturity and equity securities to be available-for-sale and report them at fair value with the net unrealized gains or losses reported after-tax (net of any valuation allowance) as a component of other comprehensive income. The proceeds from sales of securities for the three and six months ended June 30, 2013 were \$91.9 million and \$288.2 million, respectively. The proceeds from sales of securities for the three and six months ended June 30, 2012 were \$86.7 million and \$123.5 million, respectively. The proceeds for the six months ended June 30, 2013 were net of \$5.4 million of receivable for securities sold during the second quarter of 2013 that had not settled at June 30, 2013.

Gains or losses on securities are determined on a specific identification basis.
