OLD GOAT ENTERPRISES, INC
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2003
(UNAUDITED)

1. DEVELOPMENT STAGE ENTERPRISES

The Company was incorporated on April 23, 2002 under the laws of Nevada and is considered a development stage company. It has not generated significant revenues from operations. The Company is pursuing opportunities in the development of a business as a distributor of specialty personal care products.

In the opinion of management, the accompanying financial statements contain all adjustments necessary (consisting only of normal recurring accruals) to present fairly the financial information contained therein. These statements do not include all disclosure required by generally accepted accounting principles in the United States of America and should be read in conjunction with the audited financial statements of the Company for the year ended March 31, 2003. The results of operations for the period ended September 30, 2003 are not necessarily indicative of the results to be expected for the year ending March 31, 2004.

2. COMPARATIVE RESULTS

Comparative results for the six months ended September 30, 2002 are from the date of incorporation on April 23, 2002.

3. GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company has no current source of revenue. Without realization of additional capital, it would be unlikely for the Company to continue as a going concern. The Company's ability to continue as a going concern is dependent on additional cash financings, and, ultimately, upon achieving profitable operations through the development of its business. These financial statements do not include any adjustments that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

4. COMMON STOCK

The Company's authorized common stock consists of 75,000,000 shares with a par value of \$0.001 per share. All shares have equal voting rights and, when validly issued and outstanding, are entitled to one non-cumulative vote per share in all matters to be voted upon by stockholders. The shares have no pre-emptive, subscription, conversion or redemption rights and may be issued only as fully paid and non-assessable shares. Holders of the common stock are entitled to equal rateable rights to dividends and

8

distributions with respect to the common stock, as may be declared by the Board of Directors out of funds legally available.

On April 30, 2003, the Company completed a public offering under its SB-2 Registration Statement. It issued 750,000 shares of common stock for \$0.10 per share, or \$75,000 under share subscriptions received in advance of the completion.

On September 8, 2003 the Board of Directors of the Company approved a 10 for 1 forward stock split of the Company's issued and outstanding common stock. Nine additional shares were issued, for every share held, to stockholders of record on September 22, 2003. The result was an increase in the number of issued and outstanding shares from 3,550,000 to 35,500,000.

5. SEGMENTED INFORMATION

The Company's operations have been conducted as one reportable segment.

ITEM 2. MANAGEMENT'S PLAN OF OPERATION

Old Goat Enterprises Inc. was incorporated under the laws of the state of Nevada on April 23, 2002. The Company's fiscal year end is March 31.

On December 24, 2002 our Form SB-2 registration statement was declared effective. We closed the offering on April 30, 2003, raising a total of \$75,000 for the sale of 750,000 shares at a price of \$0.10 per share. The offering was fully subscribed for. On September 24, 2003, our common stock commenced trading on the Over the Counter Electronic Bulletin Board under the trading symbol "OGTE.BB."

We currently have no revenue from operations, we are in a start-up phase with our existing assets and we have no significant assets, tangible or intangible. There can be no assurance that we will generate revenues in the future, or that we will be able to operate profitably in the future, if at all. We have incurred net losses in each fiscal year since inception of our operations.

We are in the preliminary stages of creating a business as a retailer of specialty personal care products. These products are designed for the use of consumers who are sensitive to certain chemical additives commonly found in mass produced personal care products. Our Company intends to sell products that will provide customers with alternative products that have been manufactured without certain compounds that may cause irritation for the consumer.

Edgar Filing: OLD GOAT ENTERPRISES INC - Form 10QSB/A

We are initially planning to offer two parallel types of products for sale to consumers. The first is a line of specialty products based on the naturally moisturizing properties of goat's milk. This by-product of the production of milk, cheese and yogurt is a super-rich milk and is appropriate for cosmetic uses. It is believed that the goat's milk contains naturally occurring proteins and compounds that are absorbed by the skin, resulting in a natural moisturizing effect. This product line may consist of goat's milk soaps, goat's milk moisturizing lotions, goat's milk body wash and goat's milk foaming milk bath.

The second is an assortment of personal care products that do not contain certain chemical compounds believed to be irritants to the consumers. If a consumer believes that certain chemical compounds found in body care products are irritants to their skin, they will be able to purchase alternative personal care products that are manufactured using different methods and ingredients.

9

During the second quarter, we completed additional improvements to our website to provide more specific information about our products. Without significant additional capital for awareness advertising, we are finding that it is doubtful that we will be able to drive traffic to our website and provide a profitable level of sales. A major supplier of the goats milk product has also changed its strategy to aggressively pursue direct retail sales. This may significantly impact our ability to develop a successful business plan around these products. As an alternative, we have undertaken initiatives to identify and potentially develop relationships with distributors in middle eastern countries and in other parts of the world. During the quarter, we started a program to obtain regulatory approval to sell the products in Israel, where goats milk properties are well known. There can be no assurance that we will be successful in developing a market for these products.

We are also actively evaluating other opportunities that would potentially enhance stockholder value and improve the company's chances in attracting additional capital.

In order to continue with our business plan, we will likely require additional equity or debt funding within approximately 6-9 months. There can be no assurance we will be successful in obtaining additional financing on favorable terms, if at all. We have limited funds to maintain our own ongoing expenses. Without an infusion of new capital, we will not be able to maintain current operations beyond these periods.

Management Discussion and Analysis

The following discussion of the plan of operation, financial condition, results of operations, cash flows and changes in financial position of our Company should be read in conjunction with our most recent financial statements and notes appearing elsewhere in this Form 10-QSB; and our 10-KSB for March 31, 2003.

At September 30, 2003, we had working capital of \$22,412, compared to working capital of \$4,264 at March 31, 2003.

At September 30, 2003, our total assets consisted of \$24,679 of cash and \$493 of prepaid expenses. This compares with total assets at March 31, 2003 consisting solely of cash of \$4,264.

At September 30, 2003, our total current liabilities increased to \$2,760 from \$nil at March 31, 2003, for accounts payable.

We have not had revenues from inception. Although there may be insufficient

Edgar Filing: OLD GOAT ENTERPRISES INC - Form 10QSB/A

capital to execute our business plan, we expect to survive with funding from sales of securities and, as necessary or from shareholder loans.

We do not anticipate making any major purchases of capital assets in the next 12 months, or conducting any research and development directly. Our current corporate employee count is only likely to change if we can raise additional capital, and open a retail operation.

Results of Operations

Our company posted losses of \$56,852 for the six months ended September 30, 2003, compared with the losses of \$10,679 for the comparable period in 2002. From inception to September 30, 2003 we incurred losses of \$71,588. The principal component of losses for the six month period ended September 30, 2003 was marketing expenses of \$33,307, professional fees of \$13,869 and \$4,417 for website development. Our marketing expenses include costs for the review,

10

selection and negotiation with potential distributors and for samples provided to potential distributors.

ITEM 3. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures within 90 days of the filing date of this quarterly report, and, based on their evaluation, our principal executive officer and principal financial officer have concluded that these controls and procedures are effective. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.
