Section 16(a) Beneficial Ownership Reporting

Section 16(a) of the Securities and Exchange Act of 1934 requires the Company s Officers and Directors and persons who own more than ten percent (10%) of a registered class of the Company s equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission (SEC). Such Officers, Directors, and stockholders are required by SEC regulations to furnish the Company with copies of all such reports that they file.

The Company has in place a system designed to ensure timely reporting of Forms 3, 4, and 5 following a reportable transaction. While the reporting person is responsible for making the filing, ordinarily when a reporting person engages in a transaction with the Company, such as the grant of a stock option, RSU, or similar award, Company personnel generate the report on a timely basis for the benefit of the reporting person. In the following instances, those reports were inadvertently not generated and filed on a timely basis.

Form 4s were not filed for Directors Bayer, McNamara, Phillips, Toups, and Welch for eight grants of RSUs they each received during fiscal years 2003, 2004, and 2005 under the DSPP. The aggregate number of RSUs for which the necessary reports were not filed on a timely basis was 1,885. Form 4s were also not filed for Director McNamara for 288 shares of common stock earned for participation in Strategic Assessment Committee meetings during fiscal years 2004 and 2005. The Form 3 filed for Officer Fairl in November 2004 did not include a grant of RSUs he received in fiscal year 2004 and a grant of RSUs and stock options he received in fiscal year 2005. All required reports have subsequently been filed.

- (1) Other annual compensation for all listed Executives includes the value of a 15 percent discount provided to Executives electing to defer a portion of their annual cash bonus compensation to the purchase of common stock under the Management Stock Purchase Plan (MSPP). For the fiscal years ended June 30, 2005, 2004 and 2003, other annual compensation for J.P. London included \$58,786, \$91,212 and \$68,773, respectively, of value attributed to the 15 percent discount, and a \$25,000 personal expense allowance for each of the three years. Other annual compensation for the fiscal years ended June 2005, 2004 and 2003 for G.R. Bradford included \$18,946, \$17,753 and \$16,178, respectively, of automobile lease payments and \$22,522, \$15,232 and \$17,111, respectively, of medical expense reimbursements. Other annual compensation for G.R. Bradford for fiscal years 2004 and 2003 also included education tuition reimbursements of \$37,385 and \$61,859, respectively.
- (2) Restricted stock awards consist of restricted stock units (RSUs) provided pursuant to the Company's MSPP and the Company's 1996 Stock Incentive Plan. The amounts in this column include the portion of annual cash bonus compensation deferred by those Officers choosing to allocate a portion of their annual cash bonus compensation to the purchase of shares of common stock under the MSPP. The value of restricted stock awards is calculated by multiplying the closing market price of a share of common stock on the date of grant (as adjusted by the 15 percent discount provided for RSUs granted under the MSPP) by the number of restricted stock awards granted. RSUs granted under both the 1996 Stock Incentive Plan and the MSPP vest in full three years from the date of grant. The aggregate number of RSUs granted for fiscal years through fiscal year 2005 to each of the Officers is as follows: J.P. London, 58,876; W.M. Fairl, 10,620; S.L. Waechter, 17,517; G.R. Bradford, 10,051; J.P. Elefante, 7,748. The value of the shares underlying the invested RSUs as based on the price of a share of Company common stock at close of business on June 30, 2005, for each of the Officers listed above is as follows: J.P. London, \$3,718,608; W.M. Fairl, \$670,759; S.L. Waechter, \$1,106,374; G.R. Bradford, \$634,821; J.P. Elefante, \$489,364. With the exception of the RSUs granted to J.P. Elefante, which were forfeited in entirety on August 31, 2005, all RSUs were unvested as of the date of record, September 26, 2005.
- (3) For each of the listed Executives above, All Other Compensation includes Company contributions made on behalf of the listed Executives to the Company's non-qualified supplemental executive retirement savings plan (NQSP) and its 401(k) plan. The amount of the Company NQSP and 401(k) plan contributions made for the year ended June 30, 2005 for each of the listed Executives, respectively, is as follows: J.P. London, \$107,852 and \$6,300; W.M. Fairl, \$16,159 and \$6,400; S.L. Waechter, \$81,087 and \$6,300; G.R. Bradford, \$23,058 and \$4,975; J.P. Elefante, \$20,752 and \$6,370.
- (4) Includes \$742,649 of bonus earned in connection with the Company's acquisition of the Defense and Intelligence Group of American Management Systems, Inc.
- (5) Mr. Bradford's compensation is paid partly in British pounds sterling and is reported in this table in U.S. dollars at the average exchange rate in effect during the fiscal year. This currency conversion of pounds sterling to U.S. dollars causes Mr. Bradford's reported salary and bonus to fluctuate from year to year.
- (6) Jeffrey P. Elefante retired from the Company effective August 31, 2005.

J. P. Elefante ⁽⁴⁾	15,000	3.0%	40.00	6/30/11	244,260	569,230

(1) The options granted during fiscal year 2005 vest in increments of one-third annually beginning two years from the date of grant, and provide for full vesting upon retirement at age 65 or older.

(2) The exercise price of options granted under the 1996 Stock Incentive Plan is equal to the closing price of the common stock on the date of grant, July 1, 2004.

(3) The potential realizable value of the options assumes option exercise seven years from the date of grant and is calculated based upon the assumption that the market price of the underlying shares will increase over the seven-year period at the assumed annual rates, compounded annually. The assumed annual rates in this column are suggested by the SEC. The actual pre-tax value, if any, that an executive may realize will depend on the excess of the common stock price of a share of common stock of the Company over the grant price (listed in this table as the exercise price) on the date the option is exercised. There is no assurance the value realized by an individual will be at or near the value estimated in this column.

(4) The stock options granted to J.P. Elefante were forfeited in entirety effective with Mr. Elefante's retirement on August 31, 2005.

Employment Agreements

The Company has entered into agreements with certain Executive Officers for the purpose of providing those Officers with a degree of security that will enhance the chances that they will remain with the Company, even when there is a planned or threatened change of control of the Company. Generally, the term of each agreement is one year with automatic one-year extensions each year thereafter. Each Executive Officer who is a party to one of these agreements may have his employment terminated by the Company without payment of any kind in the event of death, disability, or for cause as determined by the Board. In the event of termination for any other reason, the agreements provide that the Company will pay a severance payment equal to a number of months of the Executive's base salary. In the event of a termination, or resignation for good reason, within one year of the effective date of a change of control, as defined in the agreements, the agreements provide that the Company will pay a termination payment equal to a number of months of the Executive's base salary. The agreements restrict each Executive's rights to compete with the Company or to offer employment to Company employees following termination. Additional information about the agreements is provided below.

The agreement also provides that the Company will reimburse business expenses incurred in the performance of Dr. London's duties. Under the agreement, Dr. London's severance payment is equal to 18 months of his current base salary. In the event Dr. London is terminated within one year following a change of control of the Company, Dr. London will receive a termination payment equal to 36 months of his current base salary.

On September 9, 2005, the Company entered into a Severance Compensation Agreement with Paul M. Cofoni, President of CACI, INC.-FEDERAL, the terms of which are generally consistent with the description set forth above for Dr. London. Mr. Cofoni has a two-year non-compete provision with the Company.

Fairl, Chief Operating Officer, the terms of which are generally consistent with the description set forth above for Dr. London. Criteria for Determining Board and Committee Independence

The Board has affirmatively determined that ten of the eleven current Directors are independent in accordance with the NYSE's definition. Because of Dr. London's service as President and Chief Executive Officer of the Company, he is not independent as defined by the NYSE rules. NYSE rules require the Company's Board of Directors to adopt criteria and apply those criteria to making an affirmative determination whether each Director is independent in accordance with the NYSE definition. The following criteria have been applied by the Board in making its affirmative determination of independence with respect to all current Directors:

No Material Relationship. The director must not have any material relationship with the Company or its subsidiaries apart from his/her service as a director. In making this determination, the Board considers all relevant facts and circumstances, including commercial,

charitable, and familial relationships that exist, either directly or indirectly, between the director and the Company.

Employment. The director must not have been an employee of the Company or any of its subsidiaries at any time during the past three years. In addition, a member of the director's immediate family (including the director's spouse; parents; children; siblings; mothers-, fathers-, brothers-, sisters-, sons- and daughters-in-law; and anyone who shares the director's home, other than household employees) must not have been an executive officer of the Company or any of its subsidiaries in the prior three years.

Other Compensation. The director and all of his/her immediate family members must not have received direct compensation from the Company or any of its subsidiaries, other than in the form of director fees, pension or other forms of deferred compensation, during the past three years.

Auditor Affiliation. The director must not have been affiliated with, or employed by, the Company's internal or external auditors during the past three years. In addition, a member of the director's immediate family cannot have been employed in a professional capacity by the internal or external auditor during the past three years.

Interlocking Directorships. During the past three years, the director cannot have been employed by another entity where one of CACI's executives served on the compensation committee. In addition a member of the director's immediate family cannot have been an executive officer of such entity.

Business Transactions. The director must not be an employee of another entity that, during any one of the past three years, received payments from the Company or any of its subsidiaries, or made payments to the Company or any of its subsidiaries, for property or services that exceed the greater of \$1 million or two percent (2%) of the other entity's annual consolidated gross revenues. In addition, a member of the director's immediate family cannot have been an executive officer of another entity that, during any one of the past three years, received payments from the Company, or made payments to the Company, for property or

services that exceed the greater of \$1 million or two percent (2%) of the other entity's annual consolidated gross revenues.

Independent Judgment. The director must not have any other relationship or affiliation with the Company or another entity that will, in the judgment of the Board, interfere with the exercise of independent judgment by the director.

Nominating Process

The Company's By-Laws describe the procedure by which the Board, a Board Committee, or stockholder who is entitled to vote and meets the By-Laws' advance notification requirements may recommend a candidate for nomination as a Director.⁽¹⁾ The Corporate Governance and Nominating Committee is tasked with, among other things, identifying and recommending prospective Director nominees.⁽²⁾ It is the Committee's policy to consider similarly, irrespective of the source of the nomination, all Director nominee recommendations properly presented in accordance with the prescribed By-Law requirements on the basis of the potential Director nominee's background and business experience. The criteria that the Committee uses in assessing potential Director nominees is set forth in the Corporate Governance and Nominating Committee's Charter, which is available at the Company's website, www.caci.com.

COMPENSATION COMMITTEE REPORT FOR FISCAL YEAR 2005

The Company's executive compensation policies and practices are overseen by the Compensation Committee of the Board of Directors (the Committee). In fiscal year 2005 the members of the Committee were Michael J. Bayer, Richard L. Leatherwood, Charles P. Revoile, John M. Troups, and Larry D. Welch. Each Committee member is a Director and meets the independence requirements established by the New York Stock Exchange. Committee actions concerning Executive Officer compensation are subject to full Board review. Award decisions under the Company's 1996 Plan, however, are delegated exclusively to the Committee.

Set forth below is the report of the Committee for fiscal year 2005 addressing the Company's executive compensation policies for fiscal year 2005 as they affected (1) Dr. London and (2) Messrs. Bradford, Elefante, Fairl, Johnson, and Waechter, who were the Company's Executive Officers.⁽¹⁾

Executive Compensation Policies

Executive Officers' compensation levels are intended to be fair (but not excessive) and competitive with similar sized companies in the Company's industry. In setting compensation levels, the Committee takes into account both objective and subjective performance criteria, including: (1) the Company's after-tax earnings; (2) actual versus target operating performance in terms of revenue and after-tax earnings; (3) each officer's initiative and contributions to overall performance; (4) achievement of specific, pre-set strategic objectives; (5) managerial ability; and (6) performance of special projects.⁽²⁾ Incentive compensation programs typically include performance thresholds, below which either no bonus or a significantly reduced bonus is paid. It is the Committee's intent by considering these criteria to tie a significant portion of the Executive Officers' compensation to Company performance.

The Company uses stock-based compensation to the Executive Officers as a means of (1) aligning the interests of management with those of the stockholders, and (2) retaining key executives through the use of stock option awards and RSUs with future exercise dates. The Executive Officers may participate in: (1) the Company's 1996 Plan; (2) the Executive Stock Bonus Plan; (3) the Officer Stock Deposit Program; and (4) the MSPP. For fiscal year 2005, awards of options and RSUs under the 1996 Plan were made based on the position of the officer and the achievement of certain performance measures.

Executive Officers also are permitted to participate in certain broad-based employee benefit plans on substantially the same terms as other employees who meet applicable eligibility criteria, subject to any legal limitation placed on the amounts that may be contributed or the benefits that may be payable under such plans. For example, the Company makes matching contributions to the Company's voluntary 401(k) CACI SMART PLAN on behalf of the Executive Officers based on the amount of each Executive Officer's contributions to the Plan and on the Company's profits for each fiscal year and to the CACI Non-Qualified Executive Retirement Plan based on the Executive Officer's compensation. The Executive Officers may elect to contribute a percentage of their compensation to the CACI Non-Qualified Executive Retirement Plan.

⁽¹⁾ L. Kenneth Johnson, former President, U.S. Operations, CACI, INC.-FEDERAL retired from the Company effective November 1, 2004 and Mr. William M. Fairl was appointed Acting Chief Operating Officer on September 1, 2004, and Chief Operating Officer, U.S. Operations effective April 1, 2005.

⁽²⁾

The Committee also considers cost-of-living and expatriate adjustments for Executive Officers serving outside the United States. At present, Mr. Bradford, Chief Executive and President of CACI Limited, a Company subsidiary in the United Kingdom, is the only Executive Officer serving abroad. Mr. Bradford is not paid a cost-of-living or expatriate adjustment.

Relationship of Executive Compensation to Company Performance

Compensation paid to the Executive Officers in fiscal year 2005 (as reflected in the Summary of Executive Officer Compensation table included in this Proxy Statement) consisted primarily of base salary and performance bonus, along with specific stock option and/or restricted stock unit grants (as reflected in the Option Grants During Fiscal Year 2005 table included in this Proxy Statement).

Compensation plans for fiscal year 2005 were developed late in fiscal year 2004 following a review of compensation to ascertain the compensation levels that would be necessary or desirable to maintain the Company's compensation structure on a competitive basis, and to provide appropriate incentive for achieving desired Company performance. Specific performance targets were established and incorporated into fiscal year business plans that were developed by the Executive Officers under the supervision of the Chief Executive Officer and approved by the Board of Directors.

The approved fiscal year business plans were used as the basis for the Company's performance bonus plans, which provided for bonus payments to Executive Officers based on actual versus target operating performance in terms of after-tax earnings for the Company as a whole; and for those Executive Officers in charge of an operating unit, for the Executive Officer's particular unit. These plans provided for (1) no bonus payment for performance below a pre-set minimum profit threshold; (2) payment of a base bonus for performance that exceeded the minimum profit threshold; and (3) payment of an enhanced bonus at increasing percentage levels as performance met or exceeded additional pre-set profit levels.

The Company's incentive compensation plans also allowed for payment of additional compensation on the basis of achievement of (1) specific, pre-set strategic objectives and (2) an evaluation of each Executive Officer's initiative and contributions to overall performance apart from quantitative financial performance. Payments pursuant to such subjective criteria were determined at or close to the end of fiscal year 2005 after discussions among the Committee and, for all Executive Officers other than Dr. London, after discussions between the Committee and Dr. London.

Chief Executive Officer Compensation

The Committee's approach to setting the Chief Executive Officer's compensation, as in the case of the other Executive Officers, is to tie a significant portion of his compensation to Company performance while seeking to be competitive with other similar sized companies in the Company's industry and to provide the Chief Executive Officer with some certainty as to the level of his compensation through base salary. The Committee believes that this approach appropriately rewards the Chief Executive Officer for achievement of Company performance goals.

Dr. London's salary and bonus compensation for fiscal year 2005 was \$3,633,046, an increase of \$699,928 from fiscal year 2004 as a result of the operation of Dr. London's incentive compensation plan applied to the Company's after-tax earnings in fiscal year 2005.

Dr. London's fiscal year 2005 incentive compensation was based on the Company's net after-tax profit, both for individual quarters within the fiscal year and for the fiscal year as a whole. Dr. London was entitled to a bonus based on each quarter's net after-tax profit so long as that profit was equal to or exceeded the net after-tax profit for the same quarter of fiscal year 2004, and a larger, variable bonus upon reaching or exceeding a predetermined threshold net after-tax profit level for the fiscal year. During fiscal year 2005, by operation of the applicable bonus formulae, Dr. London earned \$2,920,996 in aggregate incentive compensation for quarterly and annual net after-tax profit results for the fiscal year.

The Committee believes that in view of the Company's performance for the year, Dr. London's compensation for fiscal year 2005 was reasonable.

In June, 2005, the Committee and the Board of Directors approved a bonus arrangement for Dr. London for fiscal year 2006 which ties a significant portion of Dr. London's compensation to the achievement by the Company of certain profit results during fiscal year 2006.

APPENDIX B

AUDIT AND NON-AUDIT SERVICES PRE-APPROVAL POLICY

I. Services Performed by the Independent Auditors

A. Statement of Principles

The purpose of this Policy is to set forth the procedures by which the Audit Committee of the Board of Directors (the Committee) intends to fulfill its responsibilities with respect to the engagement of the independent auditor to perform audit and non-audit services for the Company. It does not delegate the Committee's responsibilities to pre-approve services performed by the independent auditor to management.

Under the Sarbanes-Oxley Act of 2002 (the Act), the Committee is responsible for the appointment, compensation and oversight of the work of the independent auditor. As part of this responsibility, the Committee is required to pre-approve any audit and non-audit services performed by the independent auditor in order to assure that they do not impair the auditor's independence from the Company. To implement these provisions of the Act, the Securities and Exchange Commission (the SEC) has issued rules specifying the types of services that an independent auditor may not provide to its audit client, and outlining the audit committee's administration of the engagement of the independent auditor. Accordingly, the Committee has adopted, and the Board of Directors has ratified, this Audit and Non-Audit Services

Edgar Filing: CACI INTERNATIONAL INC /DE/ - Form DEF 14A

Pre-Approval Policy (the Policy), which sets forth the procedures and the conditions pursuant to which services proposed to be performed by the independent auditor may be pre-approved.

The SEC's rules establish two different approaches to pre-approving services, which the SEC considers to be equally valid. Proposed services may be pre-approved by the Committee without consideration of specific case-by-case services (general pre-approval), or pre-approved by the Committee on a specific case-by-case basis (specific pre-approval). The Committee believes that the combination of these two approaches will result in an effective and efficient procedure to pre-approve services performed by the independent auditor. It is expressly understood that, unless a type of service has received general pre-approval in accordance with this Policy, it will require specific pre-approval by the Committee. Any proposed services exceeding pre-approved cost levels or budgeted amounts will also require specific pre-approval by the Committee.

For both general and specific approval situations, the Committee will consider whether the proposed services are consistent with the SEC's rules on auditor independence. The Committee also will consider (i) whether the independent auditor is best positioned to provide the proposed services most effectively and efficiently based on its familiarity with the Company's business, people, culture, accounting systems, risk profile and other factors, and (ii) whether the service are likely to enhance the Company's ability to manage or control risk or improve audit quality. Such factors will be considered as a whole, and no one factor necessarily will be determinative.

The Committee also is mindful that the relationship between fees for audit and non-audit services is a matter that should be considered in deciding whether to pre-approve any such services, and the Committee in its discretion may set for each fiscal year an acceptable ratio between the total amount of fees for Audit, Audit-related and Tax services and the total amount of fees for certain permissible non-audit services, denominated as All Other services.

The term of any general pre-approval is 12 months from the date of pre-approval, unless the Committee states otherwise in connection with its approval. The Committee annually will review and consider renewing its approval of the services that have been the subject of general pre-approval during the preceding year. The Committee may add to or subtract from the list of generally pre-approved services from time to time as the Committee sees fit.

The independent auditor has reviewed this Policy and believes that implementation of the policy will not adversely affect the auditor's independence.

B. Delegation of Authority

As provided in the Act and the SEC's rules, the Committee may delegate either type of pre-approval authority to one or more of its members. The member (or members) to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

C. Audit Services

The annual Audit services engagement terms and fees must be **specifically** pre-approved by the Committee. Services appropriately included in the audit engagement include the following:

Annual financial statement audit (including required quarterly reviews).

Statutory audit in the United Kingdom (and any other applicable subsidiary audits).

Other procedures required to be performed by the independent auditor in order to be able to form an opinion on the Company's consolidated financial statements. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit or quarterly review.

Attestation engagements for the independent auditor's report on management's report on internal controls for financial reporting.

The Committee will monitor the Audit services engagement as necessary, but no less than quarterly, and will also approve in advance as necessary any changes in terms, conditions and fees resulting from changes in audit scope, Company structure or other items.

In addition to the annual Audit services engagement approval by the Committee, the Committee may grant general pre-approval for Other Audit Services. Other Audit Services are those services that only the independent auditor reasonably can provide, and may include statutory audits or financial audits for subsidiaries or affiliates of the Company and services associated with SEC registration statements, periodic reports and other documents filed with the SEC or issued in connection with securities offerings.

All Other Audit Services not generally pre-approved by the Committee must be specifically pre-approved by the Committee.

D. Audit-related Services

Audit-related Services generally are considered to include (i) assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements and (ii) services that are traditionally performed by the independent auditor. Because the Committee believes that the provision of Audit-related Services does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence, the Committee is likely to grant general pre-approval to Audit-related Services. The Audit-related Services category specifically includes, among other services, due diligence services pertaining to potential business acquisitions/dispositions; accounting consultations related to accounting, financial reporting or disclosure matters not otherwise classified as Audit Services; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; financial audits of employee benefit plans; and agreed-upon or expanded audit procedures related to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters.

All Audit-related Services not generally pre-approved by the Committee must be specifically pre-approved by the Committee.

E. Tax Services

The Committee believes that the independent auditor can provide Tax Services to the Company, such as tax compliance, tax planning and tax advice, without impairing the auditor's independence, and the Committee is cognizant of the fact that the SEC has stated that the independent auditor may provide such services. Hence, the Committee will consider granting general pre-approval to those Tax Services that have historically been provided by the auditor that the Committee believes would not impair the independence of the auditor consistent with the SEC's rules on auditor independence. The Committee will not approve engagement of the

independent auditor in connection with a transaction initially recommended by the independent auditor, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Committee will consult with the Chief Financial Officer or General Counsel to determine that the tax planning and reporting positions taken by the Company are consistent with this policy.

All Tax Services not generally pre-approved by the Committee and all Tax Services involving large and complex transactions must be specifically pre-approved by the Committee.

F. All Other Services

Based on the SEC's rules prohibiting the independent auditor from providing specific non-audit services, the Committee is of the opinion that other types of non-audit services are permitted. Accordingly, the Committee believes it may grant general pre-approval to those permissible non-audit services classified as All Other Services that are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

All Other Services not generally pre-approved by the Committee must be specifically pre-approved by the Committee.

A list of the non-audit services that SEC rules prohibit the independent auditor from performing is attached to this policy as Exhibit I. If necessary, the Committee will consult with the General Counsel or an outside advisor of its choosing to determine the specific application of the SEC's rules to specific situations.

G. Pre-Approval Fee Levels or Budgeted Amounts

The Committee annually may establish ceilings on the level of fees and/costs of generally pre-approved services that may be performed without seeking re-approval from the Committee. Any proposed services exceeding such levels will require specific pre-approval by the Committee. The Committee will consider the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Committee may determine the appropriate ratio between the total amount of fees for Audit, Audit-related and Tax Services, and the total amount of fees for services classified as All Other Services.

H. Procedures

All proposals to engage the independent auditor to perform services that have been generally pre-approved by the Committee will be submitted to the Chief Financial Officer (with a copy to the Chief Executive Officer) and must include a detailed description of the services to be rendered. The Chief Financial Officer will determine whether such services are included within the list of services that has received the general pre-approval of the Committee. The Chief Financial Officer will inform the Committee and the Chief Executive Officer promptly of any such services rendered by the independent auditor.

Proposals to engage the independent auditors to provide services that require specific approval by the Committee will be submitted to the Committee by both the independent auditor and the Chief Financial Officer (after notice to the Chief Executive Officer and an opportunity to discuss such services with the Chief Executive Officer), and must include a joint statement by the independent auditor and the Chief Financial Officer as to whether the proposal that the independent auditor perform such services is consistent with the SEC's rules on auditor independence.

The Committee has designated the Internal Auditor to monitor the performance of all services provided by the independent auditor and to determine whether such services are in compliance with this policy. The Internal Auditor will report to the Committee (with copies to the Chief Executive Officer and the Chief Financial Officer) on a periodic basis on the results of its monitoring. Both the Internal Auditor and the Chief Financial Officer will immediately report to the Chairman of the Committee (with a copy to the Chief Executive Officer) any breach or suspected breach of this policy that comes to the attention of the Internal Auditor or any member of the Top Management Team.

The Committee will review the Internal Auditor's annual internal audit plan to confirm that the plan provides for the monitoring of the independent auditor's services.

I. Additional Requirements

The Committee has determined to take additional measures on an annual basis to meet its responsibility to oversee the work of the independent auditor and to assure the auditor's independence from the Company, such as reviewing a formal written statement from the independent auditor delineating all relationships between the independent auditor and the Company, consistent with Independence Standards Board Standard No.1, and discussing with the independent auditor its methods and procedures for ensuring independence.

II. Performance of Services by Other Audit Firms

It is the intent of the Committee that all services to be performed for the Company by a firm traditionally engaged in providing audit services to public companies be approved in advance by the Committee. Such pre-approval will enable the Committee to be aware of and to consider all services provided to the Company by such firms when considering engagement of independent auditors and/ or approval of specific services to be performed by the independent auditors in accordance with Section I of this Policy.

Any proposal to engage any such firm to perform services for the Company, therefore, will be provided to the Committee, or to the Chairman of the Committee in accordance with specific delegation of the authority of the Committee, by the Chief Financial Officer (after consultation with the Chief Executive Officer) for consideration and approval by the Committee. Such proposal must include a detailed description of the services proposed to be rendered.

To the extent that the authority to pre-approve such services has been delegated to the Chairman of the Committee, the Chairman will report to the Committee on any pre-approvals that he has granted at the next scheduled meeting of the Committee.

III. Reports

No less frequently than annually, the Chief Financial Officer of the Company shall report to the Committee (with a copy to the Chief Executive Officer) on the specific services provided by and the amounts paid by the Company to the independent auditors and other accounting firms engaged pursuant to this Policy. Such report shall, at a minimum, list and describe all of the services provided by such firms and identify the exact sums paid by the Company to each firm in connection with each separate engagement.
