STATEMENT ON CORPORATE GOVERNANCE

Edgar Filing: HOME PRODUCTS INTERNATIONAL INC - Form DEF 14A

The Company believes in good corporate governance practices and regularly monitors developments in the area of corporate governance. In July 2002, Congress passed the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"), which, among other things, establishes, or provides the basis for, a number of new corporate governance standards and disclosure requirements. In addition, Nasdaq has recently proposed changes to its corporate governance requirements. The Company has taken a number of steps in response to these developments. The Company is currently conducting a search for additional non-employee directors to serve on its Board of Directors. Many of the requirements of the Sarbanes-Oxley Act and the proposed Nasdaq rules are subject to formal SEC rules that have not yet or only recently been adopted, and therefore do not yet apply to the Company as of the date of this Proxy Statement. In anticipation of these rule changes, the Company is working with its legal, accounting and other advisors so that it will be positioned to implement necessary or desirable changes. The Company will consider whether further changes to its corporate governance policies and procedures and board committees and committee charters are necessary or desirable once final rules have been adopted.

The following table discloses the compensation awarded by the Company for services rendered during the Company's last three completed fiscal years to the chief executive officer and the other executive officer during fiscal 2002 whose salary and bonus for the fiscal year exceeded \$100,000. The term "named executive officers" is used to refer collectively to these individuals later in this proxy statement.

Option Grants in Last Fiscal Year

The following table provides information relating to stock options awarded to the named executive officers during the fiscal year ending December 28, 2002. All stock options were granted under the Company's 1999 Performance Incentive Plan and have an exercise price equal to the closing price of the common stock on the Nasdaq SmallCap Marketsm on the date of grant. The potential realizable value is calculated based on the term of the option at its time of grant, 10 years. The calculation assumes that the fair market value on the date of grant appreciates at the indicated rate compounded annually for the entire term of the option and that the option is exercised at the exercise price and sold on the last day of its term at the appreciated price. The potential realizable value does not reflect any taxes associated with exercise which would be payable by the executive. Stock price appreciation of 0%, 5% and 10% is assumed in accordance with SEC rules. There can be no assurance that the actual Company common stock price will appreciate over the 10-year option term at the assumed levels or at any other defined level. Actual gains, if any, on stock option exercises are dependent on the future performance of the common stock, overall market conditions and the continued employment of the named executive officer.

Name	Individual Grants				Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation for Option Term		
	Number of Securities Underlying Options Granted (#)	Percent of Total Options Granted in 2002 (%)	Exercise Price (\$/Share)	Expiration Date	0%	5%	10%

James E. Winslow(1)	25,000(1)	20%	\$ 2.65	02/19/12	\$ 0	\$ 41,664	\$ 105,585

- (1) The options become exercisable in annual cumulative installments of 25%, commencing one year from the date of grant, with full vesting occurring on the fourth anniversary date of the date of grant. Vesting may be accelerated as of result of certain changes in control of the Company.

Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Option Values

The following table provides information about options held as of December 28, 2002 and option exercises during the fiscal year ending December 28, 2002 by the named executive officers. The value of unexercised in-the-money options at fiscal year end is calculated using the difference between the option exercise price and the fair market value at December 28, 2002 (based on the \$4.59 per share closing price of the common stock on the Nasdaq SmallCap Marketsm on December 27, 2002), multiplied by the number of shares underlying the option.

An option is in-the-money if the fair market value of the common stock subject to the option is greater than the exercise price.

Long-Term Incentive Plans Awards in Last Fiscal Year

The following table presents the value as of December 28, 2002 of the share units earned by the named executive officers in fiscal 2002 under the Company's Executive Incentive Plan (EIP). The number of share units awarded for 2002 were determined by dividing the total dollar amount of the deferred award by the average trading price of the Company's common stock for the final twenty trading days of the fiscal year (as defined in the EIP). Recipients of share units earned in fiscal 2002 will be entitled to receive cash and/or shares of common stock, as determined by the Compensation Committee, paid out in three annual installments as soon as practicable following the closing of each of fiscal 2003, 2004 and 2005. Such awards may be settled by converting 100% of the share units to cash or converting 67% of the share units to common stock and converting 33% of the share units to cash prior to payout each year.

The value of the 2002 share units as of December 28, 2002 in the table below was determined by multiplying the number of share units awarded under the EIP for 2002 by the last reported sale price of the Company's common stock as reported on the Nasdaq SmallCap Market[®] on the last trading day of the Company's fiscal year (\$4.59 per share as of December 27, 2002).

Mr. Tennant is also entitled to receive a discretionary bonus based on the Company's financial performance (in the form of cash and/or stock options at the discretion of the Board of Directors), as well as to receive incentive bonuses subject to the terms of the EIP and the Company's Management Incentive Plan. Tennant's employment without cause or does not renew Mr. Tennant's employment agreement for any renewal year after December 31, 2003, Mr. Tennant will be entitled to receive a severance payment in an amount equal to three times the average salary and bonus earned during the two years immediately prior to the termination.

If Mr. Tennant's employment is terminated for any reason within 180 days after a change in control of the Company, Mr. Tennant is entitled to receive (i) a payment on the date of such termination in consideration for consulting services for the following twenty-four months, in an amount equal to the difference between (A) five million and (B) the per share value of the Company's common stock at the closing of the event which is the

culmination of the transaction(s) resulting in the change of control minus the exercise price per share of each stock option granted to Mr. Tennant prior to the change in control multiplied by the number of shares of common stock underlying each option granted and (ii) a one time payment equal to the product of (A) three times (B) the sum of the amount of salary and bonus earned during each of the two years immediately prior to the termination divided by two.

Mr. Tennant's employment agreement also contains a provision to reimburse him for any excise tax that may be due under section 4999 of the Internal Revenue Code of 1986, as amended, as well as any additional income or other tax which may become due because of this additional payment. He also agrees not to compete against the Company or solicit its customers or employees for a period of three years after his voluntary termination or termination by the Company without cause.

James E. Winslow. In October 1994, the Company entered into an agreement with Mr. Winslow, the Company's Executive Vice President, Chief Financial Officer and Secretary. This agreement, as amended in May 2000, provides that if Mr. Winslow's employment is terminated by the Company for any reason (other than for cause, death or disability) or except in connection with a change in control, in which event the terms of the Retention and Non-Competition Agreement described below will govern, he is entitled to a severance payment equal to two times his average yearly salary and bonus compensation paid to him over the past two fiscal years.

On January 28, 2000, the Company entered into a Retention and Non-Competition Agreement with Mr. Winslow. The agreement provides that if Mr. Winslow remains with the Company for 180 days following a change in control of the Company, or is terminated without cause, dies or is reassigned to an area outside the metropolitan area where he is currently employed before the end of such period, Mr. Winslow will receive a payment equal to two times his average yearly salary and bonus compensation paid to him over the past two fiscal years. Additionally, Mr. Winslow agrees that he will not compete against the Company or solicit its customers or employees for a period of one year after the termination of his employment with the Company, and the Company agrees to pay Mr. Winslow an additional \$100,000 in twelve monthly installments upon a change in control in consideration for such agreements.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors (the "Committee") determines and administers the compensation of the Company's executive officers. The Committee is comprised entirely of non-employee directors.

Compensation Philosophy

At the direction of the Board of Directors and pursuant to the charter of the Committee, the Committee endeavors to ensure that the compensation programs for executive officers of the Company are effective in attracting, retaining and motivating key executives responsible for the success of the Company and are administered in an appropriate fashion in the long-term interests of the Company. Committee actions related to the compensation of the chief executive officer and other executive officers of the Company are submitted to the full Board of Directors for ratification.

The Committee believes that the Company's overall financial performance should be an important factor in the total compensation of the Company's executive officers. At the executive officer level, the Committee has a policy that a significant portion of the total compensation should consist of variable, performance-based components, such as stock awards and bonuses, which can increase or decrease to reflect changes in corporate and individual performances. These incentive compensation programs are intended to reinforce management's commitment to enhancement of profitability and stockholder value.

The Committee takes into account various qualitative and quantitative indicators of Company and individual performance in determining the level and composition of compensation for the chief executive officer and other executive officers. While the Committee considers such Company performance measures as net income, earnings per share and return on capital employed, the Committee does not apply any specific quantitative formula in making compensation decisions. However, the Management Incentive Plan and the Executive Incentive Plan are based on specific Company performance measures related to the attainment of certain budgeted goals and return on capital employed, respectively. The Committee also appreciates the importance of achievements that may be difficult to quantify and, accordingly, recognizes qualitative factors, such as successful supervision of major corporate projects, demonstrated leadership ability and contributions to the industry. From time to time, the Committee also receives assessments and advice regarding the Company's compensation practices from independent compensation consultants.

Base Salary

Base salaries for the chief executive officer and other executive officers are established at competitive market levels for their respective positions, levels of responsibility and their knowledge and experience. Salaries are reviewed periodically and adjusted as warranted to reflect sustained individual executive officer's performance. The Committee focuses primarily on total annual compensation, including incentive awards, rather than base salary alone, as the appropriate measure of executive officer performance and contribution. Executive officers may defer a portion of their salary until termination of their employment with the Company or the attainment of a certain age.

Performance Based Compensation

Management Incentive Plan. The Management Incentive Plan, (MIP) applies to executive officers and key employees of the Company. Participants are eligible to earn an annual incentive award based on the attainment of pre-approved Company and subsidiary goals. Participants are assigned a target incentive award stated as a percent of their salary, based on a participant's duties and responsibilities. The target incentive award is calculated at the end of the fiscal year based upon the attainment of predetermined financial and economic goals. The goals consist of (1) earnings performance goals expressed as earnings before interest, taxes, depreciation and amortization (EBITDA), and (2) for key employees a discretionary performance goal with respect to specific performance objectives established at the beginning of the year. For achievement above or below the performance goals, the amount of the total award will increase or decrease above or below the target incentive award opportunity.

The 2002 performance goal set by the Committee for executive officers was the attainment of a minimum level of EBITDA. After year end, the Committee then reviewed the performance of the Company and each of the participating executives prior to payment of the incentive awards. The amount of the 2002 incentive awards paid to named executive officers under the MIP is included in the Bonus column of the Summary Compensation Table.

Executive Incentive Plan. The Executive Incentive Plan (EIP) applies to the Company's senior management. The purpose of the EIP is to make available to the participants a portion of their total compensation in the form of an incentive opportunity for attaining a return on capital employed goal determined by the Committee at the beginning of the plan year.

While the EIP provides annual incentive opportunity, it also provides longer-term incentives to enhance stockholder value. One-half of the total award is paid to participants in cash following the end of the plan year, while the remainder is deferred as phantom stock units whose value is tied to the performance of the Company's stock. The value of deferred phantom stock units is generally paid out over three years in the form of cash or cash and Company common stock.

After year end, the Committee reviewed the performance of the Company prior to determining the final incentive awards for 2002. The cash portion of the 2002 incentive awards paid to named executive officers under the EIP is included in the Bonus column of the Summary Compensation Table. Information regarding payouts to named executive officers in 2002 with respect to phantom stock units accrued under the EIP is included in the LTIP Payouts column of the Summary Compensation Table. Payouts in 2002 of deferred amounts under the EIP were made in cash.

Stock Options

The Company's long-term equity-based compensation program consists primarily of stock option grants that vest over a multi-year period. Grants under the Company's stock option plans are designed to further reinforce the link between executive performance and stockholder return, to provide additional incentives to executives that are tied to growth of stock price over time and to encourage continued employment with the Company. In recommending grants under the various stock option plans, the Committee considers various quantitative and qualitative factors. The Company periodically grants new awards to provide continuing incentives for future performance. The number of options previously awarded to and held by executive officers and key employees is reviewed but is only one factor in determining the size of current option grants. Like base salary and the annual incentive payments, award levels are set with regard to competitive considerations, and each individual's actual award is based upon the individual's performance, potential for increased responsibility and contributions, leadership ability and commitment to the Company's strategic efforts. In February 2002, nonqualified stock options to purchase 125,000 shares of the Company's common stock were granted. The chief financial officer, other executives and key employees participated in the grant. For more information regarding these options, see the Options Grants in Last Fiscal Year table above.

Chief Executive Officer Compensation

Compensation of the Chief Executive Officer for the 2002 fiscal year was determined pursuant to the terms of Mr. Tennant's employment agreement. Mr. Tennant also participates in the Executive Incentive Plan as well as the Management Incentive Plan. Mr. Tennant was not granted any additional stock options in 2002.

Deductibility of Compensation

Section 162(m) of the Internal Revenue Code denies a publicly held corporation, such as the Company, a federal income tax deduction for compensation in excess of \$1 million in a taxable year paid to each of its chief executive officer and the four other most highly compensated executive officers. Certain performance based compensation, such as stock options awarded at fair market value, is not subject to the limitation on deductibility provided that certain stockholder approval and independent director requirements are met. To the extent consistent with the Company's compensation policies, the Company's ability to attract and retain independent directors, and the Committee's assessment of the interests of stockholders, the Company intends to design its executive compensation programs to preserve its ability to deduct compensation paid to executives under these programs.

AUDIT COMMITTEE REPORT

The Audit Committee acts under a written charter adopted by the Board of Directors. The purpose of the Audit Committee is to assist the Board of Directors in its oversight of:

the integrity of the Company's financial statements;

the adequacy of the Company's system of internal controls

the Company's compliance with legal and regulatory requirements;

the qualifications of and independence of the Company's independent auditors; and

the performance of the Company's independent auditors.

In carrying out these responsibilities, the Audit Committee, among other things:

monitors the preparation of quarterly and annual financial reports by the Company's management;

supervises the relationship between the Company and its independent auditors, including making decisions with respect to their appointment or removal, reviewing the scope of their audit services, approving significant non-audit services and the independence of the independent auditors; and

overseeing management's implementation and maintenance of effective systems of internal and disclosure controls, including review of the Company's policies relating to legal and regulatory compliance, ethics and conflicts of interests.

The Company's management is responsible for the preparation, presentation and integrity of the Company's financial statements. Management is also responsible for maintaining appropriate accounting and financial reporting practices and policies as well as internal controls and procedures designed to provide reasonable assurance that the Company is in compliance with accounting standards and applicable laws and regulations. The independent auditors are responsible for planning and performing an independent audit of the Company's financial statement in accordance with auditing standards generally accepted in the United States. The independent auditors are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States.

In May 2002, the Board of Directors, upon the recommendation of the Audit Committee, terminated the engagement of Arthur Andersen LLP as its independent auditor. The Arthur Andersen LLP report on the Company's financial statements for each of the fiscal years ended December 30, 2000 and December 29, 2001, did not contain an adverse opinion or a disclaimer of opinion and was not qualified or modified as to uncertainties, audit scope or accounting principles. During the fiscal years 2000 and 2001 and the interim period between December 29, 2001 and the termination in May 2002, there were no disagreements between the Company and Arthur Andersen LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which if not resolved to the satisfaction of Arthur

Edgar Filing: HOME PRODUCTS INTERNATIONAL INC - Form DEF 14A

Andersen LLP, would have caused it to make reference to the subject matter of the disagreements in connection with their report. The Company engaged KPMG LLP in May 2002 as its new independent auditor effective upon the termination of Arthur Andersen LLP.

As part of the oversight of the Company's financial statements, the Committee reviews and discusses with both management and the Company's independent auditors all annual financial statements and quarterly operating results prior to their issuance. During 2002, management advised the Committee that each set of financial statements reviewed had been prepared in accordance with generally accepted accounting principles, and reviewed significant accounting and disclosure issues with the Committee, including the Company's financial statements as of and for the fiscal year ended December 28, 2002. The Committee's review of the Company's audited financial statements with management included a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee reviewed and discussed with KPMG LLP the matters required to be discussed pursuant to *Statement on Auditing Standards No. 61 (Communication with Audit Committees)*, including the quality of the Company's accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Committee also discussed with KPMG LLP matters relating to its independence, including a review of audit and non-audit fees and disclosures made to the Committee pursuant to *Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees)*.

The Committee met three times during 2002. The Committee's meetings include, when appropriate, executive sessions with the Company's independent auditors without the presence of the Company's management. Each director who currently serves on the Audit Committee meets both the current and proposed independence requirements of the Nasdaq Stock Market. In August 2002, Jeffrey C. Rubenstein resigned from the Audit Committee due to changes mandated by the Sarbanes-Oxley legislation. In April 2003, Joel D. Spungin was appointed to serve on the Audit Committee.

Based upon the review and discussions referred to above, and subject to limitations on the role and responsibilities of the Audit Committee referred to above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 28, 2002 for filing with the Securities and Exchange Commission.

This report is submitted on behalf of the members of the Audit Committee:

If the date of the 2004 annual meeting of stockholders is changed by more than 30 days from the date of the 2003 annual meeting of stockholders, notice of any such stockholder proposals must be received by the Company a reasonable time before the Company solicits proxies for the 2004 annual meeting of stockholders.
