04.01 - NOTES TO THE QUARTERLY REPORT

NOTES TO THE FINANCIAL STATEMENTS

Quarter ended September 30, 2004

(In thousands of Brazilian reais)

1. OPERATIONS

BRASIL TELECOM S.A. (the Company) is the responsible concessionaire of the Switched Fixed Telephone Service (STFC) and operates in Region II of the General Concessions Plan, covering the Brazilian states of Acre, Rondônia, Mato Grosso, Mato Grosso do Sul, Tocantins, Goiás, Paraná, Santa Catarina and Rio Grande do Sul and the Federal District. The Company has rendered STFC (local and long distance calls) since July 1998 in an area of 2,859,375 square kilometers, which corresponds to 34% of the Brazilian territory. The Company's business is regulated by the National Agency of Telecommunications - ANATEL.

With recognition of the prior fulfillment of the obligations for universalization stated in the General Plan of Universalization Goals (PGMU), forecasted for December 31, 2003, in accordance with the acts published in the Diário Oficial da União (Official Daily Government Newspaper) on January 19, 2004, the restriction of providing other telecommunications services ceased to exist, permitting the Company, its parent companies, its subsidiaries and associated companies to obtain new authorizations. On the same date ANATEL, issued authorizations for the Company to exploit STFC in the following service modalities: (i) local and domestic long distance calls in Regions I and III and Sectors 20, 22 and 25 of Region II of the General Concession Plan (PGO); and (ii) international long distance calls in Regions I, II of III of PGO. As a result of these authorizations, the Company began to exploit the domestic and international long distance services in the new regions, starting on January 22, 2004. In the case of the local service to be provided in regions I and III, as regulated, the Company has a period of 12 months to begin its operations as from the date of the aforementioned authorization.

Information related with the quality and universal service targets of the STFC are available to interested parties on ANATEL's homepage (www.anatel.gov.br).

The Company is a subsidiary of Brasil Telecom Participações S.A. (BrTP), incorporated on May 22, 1998 as a result of the privatization of the Telebrás group (State owned holding company of the telecommunication segment).

The Company is registered at the Brazilian Securities Commission - CVM and at the Securities and Exchange Commission - SEC in the USA. Its shares are traded on the São Paulo Stock Exchange BOVESPA and its American Depositary Receipts - ADRs on the New York Stock Exchange (NYSE). The Company is also part of level 1 of Corporate Governance at BOVESPA.

Subsidiaries

a) 14 Brasil Telecom Celular S.A. (BrT Celular): A wholly owned subsidiary incorporated in December 2002, to provide the Personal Mobile Service (SMP), with authorization to attend the same coverage area where the Company operates with STFC. On the closing date for the quarter BrT Celular was in the process of being structured - pre-operating stage. The beginning of its activities is forecasted for the last quarter of 2004.

b) BrT Serviços de Internet S.A. (BrTI): A wholly-owned subsidiary incorporated in October 2001, providing internet services and correlated activities, which became operational at the beginning of 2002.

During the second quarter of 2003, BrTI made investments in capital interests as a partner or quotaholder, obtaining control of the following companies:

(i) *BrT Cabos Submarinos Group (ex-GlobeNet)*

This group of companies operates through a system of submarine fiber optics cables, with points of connection in the United States, Bermuda Islands, Venezuela and Brazil, allowing the traffic of data through packages of integrated services, offered to local and international corporate customers. It is comprised by the following companies:

- **Brasil Telecom Cabos Submarinos do Brasil (Holding) Ltda. ("BrT CSH"):** Company acquired on June 11, 2003, as part of a program to purchase the GlobeNet Group, an acquisition previously disclosed on November 19, 2002, through a relevant fact.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

- Brasil Telecom Cabos Submarinos do Brasil Ltda. ("BrT CS Ltda."): Company acquired on June 11, 2003, in which BrTI exercises direct control and total control jointly with BrT CSH, which was a further step of the program to purchase the GlobeNet Group.
- Brasil Telecom Subsea Cable Systems (Bermudas) Ltd. ("BrT SCS Bermudas"): Company incorporated under the law of Bermudas, for which the transfer of funds by BrTI for paying in of capital occurred on May 30, 2003. It was also an additional step of the program to purchase the Globenet Group. BrT SCS Bermudas holds the controlling interest of Brasil Telecom of America Inc. and Brasil Telecom de Venezuela S.A.

(ii) iBest Group

Since February 2002, BrTI has held a minority interest in iBest Holding Corporation (IHC), a company incorporated in the Cayman Islands. Due to a succession of various corporate acts occurring during June 2003 in IHC and its subsidiaries, BrTI began to exercise control over the iBest Group, which is formed by the main companies: (i) iBest Holding Corporation; (ii) iBest S.A.; (iii) Febraio S.A.; and (iv) Freelance S.A. In May 2004 through a corporate reorganization process the Freelance fully incorporated Febraio SA., iBest S.A. and its subsidiary Mail BR Comunicação Ltda. The Freelance S.A. becomes the owner of iBest s trademark, being the main company of this Group.

iBest was incorporated in January 1999, with the objective of organizing the iBest Prize , trading advertising space for the event. In December 2001 it extended its activities, when it started to offer and to concentrate its operations on providing dialed access to the Internet.

c) MTH Ventures do Brasil Ltda. (MTH): On May 13, 2004, the Company acquired 80.1% of the voting capital of MTH, in addition to the 19.9% held previously. MTH, in turn, held 100% of the capital of MetroRED Telecomunicações Ltda. (MetroRED).

MetroRED is a service provider for a private telecommunications network through optical fiber digital networks and has 343 kilometers of local network in São Paulo, Rio de Janeiro and Belo Horizonte and 1,485 kilometers of long distance network connecting these major metropolitan commercial centers. It also has an Internet Solutions center in São Paulo, which offers co-location, hosting and other value added services.

d) VANT Telecomunicações S.A. (VANT): On May 13, 2004, the Company acquired the remaining 80,1% of the capital of VANT, which is a service provider for corporate network services, founded in October 1999. Initially focused on a TCP/IP network, VANT started in Brazil with a network 100% based on this technology. VANT operates throughout Brazil, and is present in the main Brazilian state capitals, offering a portfolio of voice and data products.

2. PRESENTATION OF FINANCIAL STATEMENTS

Preparation Criteria

The financial statements have been prepared in accordance with accounting practices adopted in Brazil, in accordance with Brazilian corporation law, rules of the CVM and rules applicable to Switched Fixed Telecommunications Services STFC concessionaires.

As the Company is registered with the SEC, it is subject to its standards, and should annually prepare financial statements and other information by using criteria that comply with that entity s requirements. For complying with these requirements and aiming at meeting the market s information needs, the Company adopts, as a principle, the practice of publishing information in both markets in their respective languages.

The notes to the financial statements are presented in thousands of reais, unless demonstrated otherwise in each note. According to each situation, the notes to the financial statement present information related with the Company and the consolidated financial statements, identified as PARENT COMPANY and CONSOLIDATED , respectively. When the information is common to both situations, it is indicated as PARENT COMPANY AND CONSOLIDATED .

The accounting estimates were based on objective and subjective factors, based on management s judgment to determine the appropriate amount to be recorded in the financial statements. Significant elements subject to these estimates and assumptions include the residual amount of the fixed assets, provision for doubtful accounts, inventories and deferred income tax assets, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to benefits for employees. The settlement of transactions involving these estimates may result in significant different amounts due to the inherent imprecision of the process of determining these amounts. Management reviews its estimates and assumptions at least quarterly.

Consolidated Financial Statements

The consolidation was made in accordance with CVM Instruction 247/96 and includes the companies listed in Note 1.

Some of the main consolidation procedures are:

Consolidated Financial Statements

Edgar Filing: BRASIL TELECOM SA - Form 6-K

- Elimination of intercompany balances, as well as revenue and expenses of transactions among them;
- Elimination of the investor's shareholdings, reserves and accumulated results in the investees; and
- Segregation of the portions of shareholders' equity and income belonging to minority shareholders, indicated in specific items.

The reconciliation between the Parent Company net income and the consolidated figures is as follows:

	NET INCOME		SHAREHOLDERS EQUITY	
	09/30/04	06/30/04	09/30/04	06/30/04
Parent company	263,568	154,465	6,698,158	6,590,778

CONSOLIDATED	257,447	153,523	6,698,158	6,590,778

In addition, the Company presents, in Note 17, the statement of cash flows, prepared under the indirect method, in accordance with Accounting Rules and Procedures NPC 20 of the Brazilian Institute of Independent Auditors IBRACON.

3. SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

The criteria mentioned in this note refer to the practices adopted by the Company and its subsidiaries that are included in the consolidated balance sheet.

a. Cash and cash equivalents: Cash equivalents are short-term, high-liquid investments, with immediate maturity. They are recorded at cost plus income earned to the end of the quarter, not exceeding market value.

b. Trade accounts receivable: Receivables from users of telecommunications services are recorded at the amount of the tariff in effect on the date the service is rendered. Unbilled services provided to customers at the balance sheet date are also included in trade accounts receivable. The criterion adopted for making the provision for doubtful accounts takes into account the calculation of the actual percentage of losses incurred on each range of accounts receivable. The historic percentages are applied to the current ranges of accounts receivable, also including accounts coming due and the portion yet to be billed, thus composing the amount that could become a future loss, which is recorded as a provision.

c. Inventories: Stated at average acquisition cost, not exceeding replacement cost. Inventories are segregated into inventories for plant expansion and those for maintenance. The inventories to be used in expansion are classified in property, plant and equipment (construction in progress), and inventories to be used in maintenance are classified as current and non-current assets. Obsolete items are provided for through an allowance for losses.

d. Investments: Investments in subsidiaries are valued using the equity method. Goodwill is calculated based on the expectation of future results and its amortization is based on the expected realization/timing over a forecasted period of not more than ten years. Other investments are recorded at cost less allowance for losses, when applicable. The investments resulting from income tax incentives are recognized at the date of investment, and result in shares of companies with tax incentives or investment fund quotas. In the period between the investment date and receipt of shares or quotas, they remain recognized in non-current assets. The Company adopts the criterion of using the maximum percentage of tax allocation. These investments are periodically valued at cost or market prices, when the latter is lower, and allowances for losses are recorded if required.

e. Property, plant and equipment: Stated at cost of acquisition and/or construction, less accumulated depreciation. Financial charges for financing assets and construction in progress are capitalized.

The costs incurred, when they represent improvements (increase in installed capacity or useful life) are capitalized. Maintenance and repair are charged to the profit and losses accounts, on an accrual basis.

Depreciation is calculated under the straight-line method. Depreciation rates used are based on expected useful lives of the assets and in accordance with the standards of the Public Telecommunications Service. The main rates used are set forth in Note 24.

f. Deferred charges: Segregated between deferred charges on amortization and formation. Their breakdown is shown in Note 25. Amortization is calculated under the straight-line method in accordance with the legislation in force. When benefits are not expected from an asset, it is written off against non-operating income.

g. Income and Social Contribution Taxes: Income and social contribution taxes are accounted for on an accrual basis. These taxes levied on temporary differences, tax losses, and the negative social contribution base are recorded under assets or liabilities, as applicable, according to the assumption of realization or future demand, within the parameters established in the CVM Instruction nr 371/02.

h. Loans and Financing: Updated to the balance sheet date for monetary or exchange variations and interest incurred. Equal restatement is applied to the guarantee contracts to hedge the debt.

i. Provision for Contingencies: Recognized based on management's risk assessment and measured based on economic grounds and legal counselors' opinions on the lawsuits and other contingency factors known as of the balance sheet date. The basis and nature of the provisions are described in Note 7.

j. Revenue recognition: Revenues from services rendered are accounted for on an accrual basis. Local and long distance calls are charged based on time measurement according to the legislation in force. Revenues from sales of payphone cards are recorded upon sale.

k. Recognition of Expenses: Expenses are recognized on an accrual basis, considering their relation with revenue realization. Expenses related to other periods are deferred.

l. Financial Income (Expense), Net: Financial income comprises interest earned on overdue accounts receivable from services, gains on financial investments, exchange variation and hedges. Financial expenses comprise interest incurred and other charges on loans, financing and other financial transactions.

Interest on Shareholders' Equity is included in the financial expenses balance for financial statement presentation purposes, the amounts are reversed to profit and loss accounts and reclassified as a deduction of retained earnings, in the shareholders' equity.

m. Research and Development: Costs for research and development are recorded as expenses when incurred, except for expenses with projects linked to the generation of future revenue, which are recorded under deferred assets and amortized over a five-year period from the beginning of the operations.

n. Benefits to Employees: Private pension plans and other retirement benefits sponsored by the Company and its subsidiaries for their employees are managed by SISTEL and BrTPREV. Contributions are determined on an actuarial basis, when applicable, and accounted for on an accrual basis. As of December 31, 2001, to comply with CVM Deliberation 371/00, the Company recorded its actuarial deficit on the balance sheet date against shareholders' equity, net of its tax effects. As from 2002, as new actuarial revaluations show the necessity for adjustments to the provision, they are recognized in the profit and loss accounts, in accordance with the CVM deliberation above. Complementary information on private pension plans is described in Note 6.

o. Profit Sharing: The provisions for employee and directors' profit sharing are recognized on an accrual basis. The calculation of the amount, which is paid in the subsequent year after the provision is recognised, is based on the target program established with the labor union, in accordance with Law 10,101/00 and the Company's bylaws.

p. Earnings per thousand shares: Calculated based on the number of shares outstanding at the balance sheet date, which comprises the total number of shares issued net of treasury stock.

4. RELATED-PARTY TRANSACTIONS

Related party transactions refer to operations with Brasil Telecom Participações S.A., the Company's parent company, and with the subsidiaries mentioned in Note 1.

Operations between related parties and the Company are carried out under normal prices and market conditions. The main transactions are:

BrTP

5. MARKET VALUE OF FINANCIAL ASSETS AND LIABILITIES (FINANCIAL INSTRUMENTS) AND RISK ANALYSIS

The Company and its subsidiary assessed the book value of its assets and liabilities as compared to market or realizable values (fair value), based on information available and valuation methodologies applicable to each case. The interpretation of market data regarding the choice of methodologies requires considerable judgment and determination of estimates to achieve an amount considered adequate for each case. Accordingly, the estimates presented may not necessarily indicate the amounts, which can be obtained in the current market. The use of different assumptions for calculation of market value or fair value may have material effect on the obtained amounts. The selection of assets and liabilities presented in this note has been made based on their materiality. Instruments whose values approximates their fair values, and risk assessment is not significant are not mentioned.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

In accordance with their natures, the financial instruments may involve known or unknown risks the potential of such risks is important for the best judgment. Thus, there may be risks with or without guarantees, depending on circumstantial or legal aspects. Among the principal market risk factors which can affect the Company's and subsidiaries' business are the following:

a. Credit Risk

The majority of the services provided by Brasil Telecom S.A. are related to the Concession Agreement, and a significant portion of these services is subject to the determination of tariffs by the regulatory agency. The credit policy, in case of telecommunications public services, is subject to legal standards established by the concession authority. The risk exists since the Company may incur losses arising from the difficulty in receiving amounts billed to its customers. In the quarter, the Company's default was 2.97% of the gross revenue (2.46% for the same period last year). By means of internal controls, the level of accounts receivable is constantly monitored, thus limiting the risk of past due accounts by cutting the access to the service (out phone traffic) if the bill is overdue for over 30 days. Exceptions are made for telephone services, which should be maintained for national security or defense.

b. Exchange Rate Risk

Assets

The Company has asset loans in foreign currency subject to exchange rate fluctuations. The assets exposed to exchange rate risk are as follows:

	PARENT COMPANY	
	BOOK AND MARKET VALUE	
	09/30/04	06/30/04
Assets		
Loans with Parent Company	148,091	159,773
Total	148,091	159,773
Current	148,091	159,773

Loans denominated in US dollar granted to BrT SCS Bermuda on April 2, 2004, bearing interest rate of 3% p.a.

Liabilities

The Company has loans and financing contracted in foreign currency. The risk related to these liabilities arises from possible exchange rate fluctuations, which may increase these liabilities balances. Loans subject to this risk represent approximately 26% of the total liabilities (29% on June 30, 2004). To minimize this type of risk, the subsidiary enters into swap agreements with financial institutions to hedge foreign exchange exposures. 45% of the debt portion in foreign currency is covered by hedge agreements (25% on June 30, 2004). Unrealized positive or negative effects of these operations are recorded in the profit and loss as gain or loss. Consolidated net gain amounted to R\$44,105 until the third quarter (losses of R\$76,695 for the same period of last year).

Net exposure as per book and market values, at the exchange rate prevailing on the balance sheet date, is as follows:

	PARENT COMPANY			
	09/30/04		06/30/04	
	Book Value	Market Value	Book Value	Market Value

Non-current	1,360,158	1,448,690	1,447,269	1,426,429

The method used for calculation of market value (fair value) of loans and financing in foreign currency and hedge instruments was the discounted cash flow at the market rates prevailing at the balance sheet date.

c. Interest Rate Risk

Assets

The Company has loans with a telephone directory company, with interest indexed to the IGP-DI (a national index price) and loans resulting from the sale of fixed assets to other telephone service companies, bearing interest rate indexed to the Column 27 of the FGV (a national index price). The consolidated financial statements also present a loan agreement with Freelance S.A., which is indexed to IGP-M.

At the balance sheet date, these assets are represented as follows:

	PARENT COMPANY		CONSOLIDATED	
	Book and Market Value		Book and Market Value	
	09/30/04	06/30/04	09/30/04	06/30/04

Current	1,117	1,996	2,538	2,511
Non-current assets	8,116	7,929	8,677	7,929

Liabilities

Brasil Telecom S.A. has loans and financing contracted in local currency subject to interest rates linked to indexing units TJLP, UMBNDES, CDI (Rate DI - CETIP) and IGP-M. The inherent risk in these liabilities arises from possible variations in these rates. The Company has contracted derivative contracts to hedge 52% (78% in June 30, 2004) of the liabilities subject to the UMBNDES rate, using exchange rate swap contracts, considering the influence of the dollar on the interest rate (basket of currencies) of these liabilities. However, the other market rates are continually monitored to evaluate the need to contract derivatives to protect against the risk of volatility of these rates.

In addition to the loans and financing, the Company issued non-convertible private and public debentures. These liabilities were contracted at interest rates linked to the CDI, and the risk associated with this liability results of the possible increase of the rate.

The abovementioned liabilities at the balance sheet date are as follows:

	PARENT COMPANY AND CONSOLIDATED			
	09/30/04		06/30/04	
	Book Value	Market Value	Book Value	Market Value
LIABILITIES

Book value is equivalent to market values where the current contractual conditions for these types of financial instruments are similar to those in which they were originated.

d. Risk of Not Linking Monetary Restatement Indexes to Accounts Receivable

Loan and financing rates contracted by the Company are not linked to amounts of accounts receivable. Telephony tariff adjustments do not necessarily follow increases in local interest rates, which affect the company's debts. Consequently, a risk arises from this potential lapse of correlation.

e. Contingency Risks

Contingency risks are assessed according to loss hypotheses, as probable, possible or remote. Contingencies considered as probable risks are recorded as liabilities. Details of these risks are presented in Note 7.

f. Risks Related to Investments

The Company has investments, which are valued using the equity method and stated at acquisition cost. The investments valued by the equity method are presented in Note 23, for which no market value exists, as they are represented by non-listed corporations or private limited companies. Provisions are recorded for losses when the future cash flows expected from an investment lead to expectations of losses.

In this quarter, a provision was recorded with respect to the negative equity of VANT, which amounted to R\$15,048 (R\$17,033 in June 30, 2004).

The investments valued at cost are immaterial in relation to total assets. Their associated risks would not cause significant impacts to the Company.

g. Temporary Cash Investment Risks

The company has temporary cash investments in exclusive financial investment funds (FIFs), whose assets comprise federal securities based on floating, fixed and foreign exchange rates, from which some are directly indexed to the CDI, and others indirectly through forward contracts traded at the Futures and Commodities Exchange - BM&F. No significant credit risk is associated with these transactions. The Company maintains cash investments in the amount of R\$1,683,463 (R\$1,030,484 as of June 30, 2004). Income accrued to the balance sheet date is recorded in financial income and amounts to R\$128,440 (R\$103,373 in 2003). Amounts recognized in the consolidated financial statements are R\$2,370,933 (R\$1,898,343 as of June 30, 2004), related to investments, and R\$134,203 (R\$109,236 in 2003), related to income accrued.

6. BENEFITS TO EMPLOYEES

The benefits described in this note are offered to the employees of the Company and its wholly-owned subsidiary. These companies are better described together, and can be referred to as Brasil Telecom (group) and for the purpose of the pension scheme cited in this note, are also denominated Sponsor.

(a) Private Pension Plan

The Company sponsors private pension schemes related with retirement for its employees and assisted members, and in the case of the latter, medical assistance in some cases. These plans are managed by two foundations, which are Fundação de Seguridade Social (SISTEL), originated from certain companies of the former Telebrás System and Fundação BrTPREV (FBrTPREV) former Fundação dos Empregados da Companhia Riograndense de Telecomunicações (FCRT), which manages the benefit plans of CRT, a company merged on December 28, 2000.

The Company bylaws stipulate approval of the supplementary pension policy, and the joint liability attributed to the defined benefit plans is linked to the acts signed with the foundations, with the agreement of the Supplementary Pensions Department - SPC, where applicable to the specific plans.

The plans sponsored are valued by independent actuaries on the balance sheet date and, in the case of the defined benefit plans described in this explanatory note, immediate recognition of the actuarial gains and losses is adopted. Liabilities are provided for plans which show deficits. This measure has been applied since the 2001 financial year, when the regulations of CVM Ruling 371/00 were adopted. In cases that show positive actuarial situations, no assets are recorded due to the legal impossibility of reimbursing the surpluses.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

The characteristics of the supplementary pension plans sponsored by the Company are described below.

FUNDAÇÃO SISTEL DE SEGURIDADE SOCIAL (SISTEL)

Plans

TCSPREV (Defined Contribution, Settled Benefit, Defined Benefit)

This defined contribution and settled benefit plan was introduced on February 28, 2000, with the adherence of around 80% of the employees at that time. On December 31, 2001, all the pension plans sponsored by the Company with SISTEL were merged, being exceptionally and provisionally approved by the Supplementary Pensions Department - SPC, due to the need for adjustments to the regulations. They were subsequently transformed into defined contribution groups with settled and defined benefits. The plans that were merged into the TCSPREV were the PBS-TCS, PBT-BrT, Convênio de Administração BrT, and the Termo de Relação Contratual Atípica, the conditions established in the original plans being maintained. In March 2003, this plan was suspended to the employees who want to be included in the supplementary pension plans sponsored by the Company. TCSPREV currently attends to around 58.0% of the staff.

PBS-A (Defined Benefit)

Maintained jointly with other sponsors linked to the provision of telecommunications services and destined for participants that had the status of beneficiaries on January 31, 2000.

PAMA - Health Care Plan for Retired Employees (Defined Contribution)

Maintained jointly with other sponsors linked to the provision of telecommunications services and destined for participants that had the status of beneficiaries on January 31, 2000, and also for the beneficiaries of the PBS-TCS Group, incorporated into the TCSPREV on December 31, 2001. According to a legal/actuarial appraisal, the Company's liability is exclusively limited to future contributions.

PAMEC-BrT (Health-care Plan for Supplementary Pension Beneficiaries)

Medical assistance for retirees and pensioners linked with the PBT-BrT Group, which was incorporated into the TCSPREV on December 31, 2001.

Contributions Established for the Plans

TCSPREV

Contributions to this plan were maintained on the same basis as the original plans incorporated in 2001 for each group of participants, and were established based on actuarial studies prepared by independent actuaries according to regulations in force in Brazil, using the capitalization system to determine the costs. Currently contributions are made by the participants and the sponsor only for the internal groups PBS-TCS (defined benefit) and TCSPREV. In the TCSPREV group, the contributions are credited in individual accounts of each participant, equally by the employee and the Company, and the basic contribution percentages vary between 3% and 8% of the participant's salary, according to age. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without equal payments from the Company. In the case of the PBS-TCS group, the sponsor's contribution in the quarter was 12% of the payroll of the participants; whilst the employees' contribution varies according to the age, service time and salary. An entry fee may also be payable depending on the age of entering the plan. The sponsors are responsible for the cost of all administrative expenses and risk benefits. To the quarter, contributions by the sponsor to the TCSPREV group represented on average 6.95% of the payroll of the plan participants. To the employees, the average was 6.26%.

The Company's contributions were R\$10,847 in the quarter (R\$10,768 in 2003).

PBS-A

Contributions may occur in case of accumulated deficit. As of December 31, 2003, the plan presented surplus.

PAMA

This plan is sponsored with contributions of 1.5% on payroll of active participants linked to PBS plans, segregated and sponsored by several SISTEL sponsors. In the case of Brasil Telecom, the PBS-TCS was incorporated into the TCSPREV plan on December 31, 2001, and became an internal group of the plan.

The company's contributions for this plan, that are exclusively the responsibility of the sponsors, were R\$86 in the quarter (R\$90 in 2003).

PAMEC-BrT

Contributions for this plan were fully paid in July 1998 through a single payment. New contributions will be limited to the future necessity to cover expenses, if that occurs.

FUNDAÇÃO BrTPREV

Edgar Filing: BRASIL TELECOM SA - Form 6-K

The main purpose of the Company sponsoring BrTPREV is to maintain the supplementary retirement, pension and other provisions in addition to those provided by the official social security system to participants. The actuarial system for determining the plan's cost and contributions is collective capitalization, valued annually by an independent actuary.

Plans

BrTPREV

Defined contribution and settled benefits in October 2002 plan to provide supplementary social security benefits in addition to those of the official social security. On March 2003, this plan was provided to the employees from all branches of the Company and to the employees of the subsidiaries, who wanted to be benefited by the supplementary pension plans sponsored. Currently, this plan attends approximately 36% of the staff.

Fundador - Brasil Telecom and Alternative - Brasil Telecom

Defined contribution and settled benefits plan to provide supplementary social security benefits in addition to those of the official social security, now closed to the entry of new participants. Currently, this plan attends approximately 1% of the staff.

Contributions Established for the Plans

BrTPREV

Contributions to this plan are established based on actuarial studies prepared by independent actuaries according to the regulations in force in Brazil, using the capitalization system to determine the costs. Contributions are credited in individual accounts of each participant, the employee's and Company's contributions being equal, the basic percentage contribution varying between 3% and 8% of the participation salary, according to the age. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without equal payments from the Company. The sponsor is responsible for the administrative expenses on the basic contributions from employees and normal contributions of the Company and risk benefits. In the quarter contributions by the sponsor represented on average 6.21% of the payroll of the plan participants, whilst the average employee contribution was 5.41%.

In the quarter, the Company's contributions amounted to R\$4,140 (R\$1,959 in 2003).

FUNDADOR - BRASIL TELECOM AND ALTERNATIVE-BRASIL TELECOM

The regular contribution by the sponsor in the quarter was an average of 2.22% on the payroll of plan participants, who contributed at variable rates according to age, service time and salary; the average rate was 2.18%. With the Alternative-Brasil Telecom, the participants also pay an entry fee depending on the age of entering the plan.

The usual contributions of the Company in the quarter amounted to R\$13 (R\$137 in 2003).

The technical reserve corresponding to the current value of the Company's supplementary contribution, as a result of the actuarial deficit of the plans managed by FCRT, must be amortized, due to the actuarial deficit of the plans, within the maximum established period of 20 years as from January 2002, according to Circular 66/SPC/GAB/COA from the Supplementary Pensions Department dated January 25, 2002. Of the maximum period established, 17 years and six months still remain for complete settlement. The amortizing contributions until this quarter amounted to R\$68,386 (R\$58,972 in 2003).

(b) Stock option plan for management and employees

The Extraordinary Shareholders' Meeting held on April 28, 2000, approved the general plan to grant stock purchase options to officers and employees of the Company and its subsidiaries. The plan authorizes a maximum limit of 10% of the shares of each kind of Company stock. Shares derived from exercising options guarantee the beneficiaries the same rights granted to other Company shareholders. The administration of this plan was entrusted to a management committee appointed by the Board of Directors, which decided only to grant preferred stock options. The plan is divided into two separate programs:

Program A

This program is granted as an extension of the performance objectives of the Company established by the Board of Directors for a five-year period. Up to June 30, 2004, no stock had been granted.

Program B

The price of exercising is established by the management committee based on the market price of 1000 shares at the date of the grant of option and will be monetarily restated by the IGP-M between the date of signing the contracts and the payment date.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

The right to exercise the option is given in the following way and within the following periods:

	First Grant		Second Grant	
	From	End of period	From	End of period
33%	01/01/04	12/31/08	12/19/05	12/31/10
33%	01/01/05	12/31/08	12/19/06	12/31/10
34%	01/01/06	12/31/08	12/19/07	12/31/10

The acquisition periods can be anticipated as a result of the occurrence of events or special conditions established in the option contract.

The information related with the general plan to grant stock options is summarized below:

	Preferred stock options (thousand)	Average exercise price R\$
Balance as of June 30, 2004	907,469	11,73
Balance as of September 30, 2004	907,469	11,73

There has been no grant of options for purchase of stocks exercised until the end of this quarter and the representativeness of the options balance in relation to the total of outstanding preferred shares is 0.31% (0.31% in June 30, 2004).

Considering the hypothesis that the options will be exercised integrally, the opportunity cost of the respective premiums, calculated based on the Black & Scholes method, would be R\$933 (R\$611 in 2003).

(c) Other Benefits to Employees

Other benefits are granted to employees, such as: health care/dental care, meal allowance, group life insurance, occupational accident allowance, sickness allowance, transportation allowance, and others.

7. PROVISIONS FOR CONTINGENCIES

The Company and its subsidiaries periodically assess their contingency risks, and also review their lawsuits taking into consideration the legal, economic, and accounting aspects. The assessment of these risks aims to classifying them according to the chances of unfavorable outcome among the alternatives of probable, possible or remote, taking into account, as applicable, the opinion of the legal counselors.

For those contingencies, which the risks are classified as probable, provisions are recognized. Contingencies classified as possible or remote are discussed in this note. In certain situations, due to legal requirements or precautionary measures, judicial deposits are made to guarantee the continuity of the cases in litigation. These lawsuits are in progress in various courts, including administrative, lower, and higher courts.

Labor Claims

The provision for labor claims includes an estimate by the Company's management, supported by the opinion of its legal counselors, of the probable losses related to lawsuits filed by former employees of the Company, and of service providers.

Tax Suits

The provision for tax contingencies refers principally to matters related to tax collections due to differences in interpretation of the tax legislation by Brasil Telecom (Group) counselors and the tax authorities.

Civil Suits

The provision for civil contingencies refers to cases related to contractual adjustments arising from Federal Government economic plans, and other cases related to community telephony plans.

Classification by Degree of Risk

Contingencies with a Probable Risk

Contingencies classified as having a probable risk of loss, for which provisions are recorded under liabilities, have the following balances:

Edgar Filing: BRASIL TELECOM SA - Form 6-K

Non-current	345,456	309,568	352,238	316,241

Labor

In the current fiscal year, a decrease in the provision for labor contingencies in the amount of R\$37,328 was verified until the third quarter (R\$36,599, consolidated). This variance is caused by the recognition of monetary restatements and effects of the reassessment of contingent risks that determine the additional recognition of a provision in the amount of R\$117,423 (R\$117,935, consolidated), by new additions amounting to R\$20,694 and by payments which amounted to R\$175,445. The consolidated provision was also increased by the amount of R\$217 due to labor contingencies of VANT and MetroRED.

The main objects that affect the provisions for labor claims are the following:

- (i) Additional Remuneration - related to the claim for payment of additional remuneration for hazardous activities, based on Law nr 7.369/85, regulated by Decree nr 93.412/86, due to the supposed risk of contact by the employee with the electric power system;
- (ii) Salary Differences and Consequences - related, mainly, to requests for salary increases due to supposedly unfulfilled union negotiations. They are related to the repercussion of the salary increase supposedly due on the others sums calculated based on the employees' salaries;
- (iii) Career Plan - related to the request for application of the career and salaries plan for employees of the Santa Catarina Branch (formerly Telesc), with promotions for seniority and merit, supposedly not granted by the former Telesc; and
- (iv) Joint Responsibility - related to the request to ascribe responsibility to the Company, made by outsourced personnel, due to supposed nonobservance of their labor rights by their real employers.

Tax

In the current fiscal year, there was a decrease of R\$227 (R\$34,367, consolidated), represented by R\$8,549 (R\$12,843, consolidated) of reduction as a result of reassessment of contingent risks, R\$9,452 (R\$10,759, consolidated) of increase due to monetary restatements and new additions, and payments amounting to R\$1,130. Additionally, there was also an increase of R\$35,581 as a result of the acquisition in May 2004 of MetroRED and Vant.

The main lawsuits provided for are as follows:

- (i) Social Security - Related to the non-collection of social security education allowance;
- (ii) Federal revenue Department - Incorrect compensation of tax losses;
- (iii) State Revenue Department - Non-collection of differential in rate of ICMS; and
- (iv) CPMF - Non-collection of the contribution on financial activities.

Civil

The decrease in the current fiscal year up the end of quarter in the amount of R\$36,732 (R\$35,206 for Consolidated), is represented by reassessments of the contingency risks, which were reduced by recognition of monetary restatement, which resulted in a net decrease of R\$29,094 (R\$27,568 for Consolidated) in the provision (R\$20,463 for Consolidated) and by payments totaling R\$28,101.

The lawsuits provided for are the following:

- (i) Review of contractual conditions - Lawsuit where a company which, supplies equipment filed legal action against the Company, asking for a review of contractual conditions due to economic stabilization plans;
- (ii)

Edgar Filing: BRASIL TELECOM SA - Form 6-K

Contracts of Financial Participation - It has been signed with TJ/RS the position related to the incorrect procedure previously adopted by the former CRT in processes related to the application of a rule enacted by the Ministry of the Communications has been agreed to in the Court of Appeals of Rio Grande do Sul. Such cases are in various phases: First instance, Court of Appeals and Higher Court of Appeals; and

- (iii) Other lawsuits - related to various ongoing lawsuits such as indemnification for pain and suffering and material damages to consumers, indemnification for contractual rescission, indemnification for accidents, as well as lawsuits that are in Special Civil Courts whose claims, separately, do not exceed forty minimum salaries.

Contingencies with a Possible Risk

The position of contingencies with degree of risk considered to be possible, and therefore not recorded in the accounts, is the following:

NATURE	PARENT COMPANY		CONSOLIDATED	
	09/30/04	06/30/04	09/30/04	06/30/04
Labor	652,096	629,179	653,952	629,405

Total	2,715,989	2,503,829	2,732,261	2,509,820

Labor

The main objects that comprise the possible losses of a labor nature are related to additional remuneration for hazardous activities, promotions and joint responsibility, the evaluation of which processes by the legal assessors resulted in a level of risk of loss evaluated only as possible. In addition to the subjects cited, the request for remunerative consideration for hours of work supposedly exceeding the normal agreed workload of hours also contributed to the amount mentioned.

Tax

The main lawsuits considered as possible loss are presented as follows:

- (i) ICMS - On international calls;
- (ii) ICMS - Differential of rate in interstate acquisitions;
- (iii) ICMS - Exploitation of credits related to the acquisition of fixed assets for use and consumption;
- (iv) ISS (Service Tax) - Not collected and/or under-collected;

- vii) COFINS - REPASS; and
- (viii) Withholding tax (IRRF) - Operations related to hedge for covering debts.

Civil

The main lawsuits are presented as follows:

- (i) Repayments resulting from Community Telephony Program lawsuits (PCT) - the plaintiffs intend to pay the compensations related to the contracts resulting from the Community Telephony Program. Such proceedings are encountered in various phases: First instance, Court of Appeals and Higher Court of Appeals;
- (ii) Lawsuits of a consumerist nature;
- (iii) Contractual - Lawsuits related to the claim for a percentage resulting from the Real Plan, to be applied in a contract for rendering services, review of conversion of installments in URV and later in reais, related to the supply of equipment and rendering of services; and

Edgar Filing: BRASIL TELECOM SA - Form 6-K

(iv) Attendance for customers points - Public civil lawsuits arising from the closing of customer attendance points.

Contingencies with a Remote Risk

In addition to the claims mentioned, there are also contingencies considered to be of a remote risk amounting to R\$1,406,721 (R\$1,311,217 on June 30, 2004) for the Parent Company and R\$1,407,701 (R\$1,311,492 on June 30, 2004) for the consolidated.

Guarantees

The company has guarantees signed with financial institutions, as complementary guarantees for judicial proceedings in provisional execution, in the amount of R\$213,902, (R\$192,260 on June 30, 2004). A major part of these contracts, representing 52%, has terms ending during the next twelve months and the rest for indeterminate periods. The remuneration of these contracts varies from 0.75% a.a. to 4.00% a.a., representing an average rate of 1.06% p.a.

The judicial deposits related to contingencies and contested taxes (suspended liability) are shown in Note 21.

8. SHAREHOLDERS EQUITY

a. Capital

The Company is authorized to increase its capital by means of a resolution of the Board of Directors to a total limit of 560,000,000,000 (five hundred and sixty billion) common or preferred shares, observing the legal limit of 2/3 (two thirds) for the issue of preferred shares without voting rights.

By means of a resolution of the General Shareholders' Meeting or the Board of Directors, the Company's capital can be increased by the capitalization of retained earnings or prior reserves allocated by the General Shareholders' Meeting. Under these conditions, the capitalization can be effected without modifying the number of shares.

The capital is represented by common and preferred stock, with no par value, and it is not mandatory to maintain the proportion between the shares in the case of capital increases.

By means of a resolution of the General Shareholders' Meeting or the Board of Directors, preference rights can be excluded for the issue of shares, subscription bonuses or debentures convertible into shares in the cases stipulated in article 172 of Corporation Law.

The preferred shares do not have voting rights, except in the cases specified in the paragraphs 1 to 3 of art, 12 of the bylaws, but are assured priority in receiving the minimum non-cumulative dividend of 6% per annum, calculated on the amount resulting from dividing the capital by the total number of Company shares, or 3% per annum calculated on the amount resulting from dividing the net book shareholders' equity by the total number of Company shares, whichever is greater.

Subscribed and paid-up capital as of the balance sheet date is R\$3,401,245 (R\$3,401,245 as of June 30, 2004) represented by shares without par value as follows:

TYPE OF SHARES	Total of Shares		Shares held in Treasury		Outstanding Shares

BOOK VALUE PER THOUSAND OF OUTSTANDING SHARES (R\$)	12,30	12,10

b. Treasury stock

In the calculation of the book value per thousand shares, were deducted the preferred shares held in treasury. These shares held in treasury are derived from two separate events:

Merger

Edgar Filing: BRASIL TELECOM SA - Form 6-K

The Company is holding in its treasury preferred stock acquired in the first half of 1998 by the former Companhia Riograndense de Telecomunicações - CRT, the company that was merged by Brasil Telecom S.A. at the end of 2000. Since the merger, the company has only placed shares in circulation to comply with judicial rulings as a result of ownership claims from the original subscribers of the merged company. The amount originally paid in this case is considered as a cost of replacement, according to the control made by the Company, considering the outgoings for the older acquisitions to the more recent.

The average acquisition cost originally represented, at CRT, an amount of R\$1,24 per share. With the swap ratio of the stock as a result of the merger process, each CRT share was swapped for 48.56495196 shares of Brasil Telecom S.A., resulting in an average cost of R\$0.026 for each treasury share.

The movements of treasury stock derived from the merged company were the following:

	09/30/04		06/30/04	
	Preferred shares (thousands)	Amount	Preferred shares (thousands)	Amount
Opening balance in the quarter	1,282	30	450,085	10,432
Number of shares replaced in circulation	-	-	(448,803)	10,402
Closing balance in the quarter	1,282	30	1,282	30

The retained earnings account represents the origin of the funds invested in acquiring the stock held in treasury.

Stock Repurchase Program - Relevant Fact of September 13, 2004

The Company's Board of Directors approved, on the abovementioned date, the proposals to repurchase preferred stock issued by the Company, for holding in treasury or cancellation or subsequent sale, under the following terms and conditions: (i) the retained earnings account represented the origin of the funds invested in purchasing the stock; (ii) the authorized quantity for the repurchase of Company stock for holding in treasury was limited to 10% of preferred shares outstanding in the market; and (iii) the period determined for the acquisition was 365 days, in accordance with CVM Instruction nr 390/03.

The repurchase of preferred shares issued by the Company for holding in treasury, is authorized up to the limit of 18,078,192,282 shares of this nature. In order to reach this limit, the Company could acquire the quantity of 11,747,081,779 shares.

The quantity of shares held in treasury arising from the programs for repurchase of shares was the following:

	09/30/04		06/30/04	
	Preferred shares (thousands)	Amount	Preferred shares (thousands)	Amount
Opening balance in the quarter	4,847,200	54,870	4,847,200	54,870

Average	11,32	11,32
Minimum	10,31	10,31
Maximum	13,80	13,80

The unit cost of acquisition considers the totality of stock repurchase program.

There were no disposals of these purchased preferred shares up to the end of the quarter.

Market value of treasury shares

The market value of treasury shares, arising from the merger of CRT and the repurchase programs, at the market quotation at the balance sheet date was the following:

	09/30/04	06/30/04
Number of preferred shares in treasury (thousand of shares)	5,027,282	4,848,482
Quotation per lot of thousand shares at BOVESPA (R\$)	11,37	11,35

Edgar Filing: BRASIL TELECOM SA - Form 6-K

BALANCE OF RESERVES NET OF TREASURY STOCK	1,495,082	1,496,805	1,528,587	1,419,484

c. Capital Reserves

Capital reserves are recognized in accordance with the following practices:

Reserve for Premium on Subscription of Shares: results from the difference between the amount paid on subscription, and the portion allocated to capital.

Special Goodwill Reserve arising on Merger: represents the net value of the contra entry of the goodwill recorded in deferred charges as provided by CVM Instructions 319/99 and 320/99. When the corresponding tax credits are used, the reserve is capitalized, annually, in the name of the controlling shareholder, observing the preferred rights of the other shareholders.

Reserve for Donations and Subsidies for Investments: registered as a result of donations and subsidies received, the contra entry for which represents an asset received by the Company.

Reserve for Special Monetary Restatement as per Law 8.200/91: registered as a result of special monetary restatement adjustments to compensate the distortions in the monetary restatement indices prior to 1991.

Other Capital Reserves: formed by the contra entry of the interest on work in progress up to December 31, 1998 and funds invested in income tax incentives.

d. Profit Reserves

The profit reserves are recognized in accordance with the following practices:

Legal Reserve: allocation of five percent of the annual net income, up to twenty percent of paid-up capital or thirty percent of capital plus capital reserves. The Legal Reserve is only used to increase capital or to offset losses.

Retained Earnings: Comprises the remaining balance of net income, adjusted according to the terms of article 202 of Law nr 6.404/76, or by the recording of adjustments from prior years, if applicable.

e. Dividends and Interest on Shareholders Equity

The dividends are calculated in accordance with the Company bylaws and the corporate law. Mandatory minimum dividends are calculated in accordance with article 202 of Law nr 6.404/76, and the preferred or priority dividends are calculated in accordance with the Company bylaws. As a result of a resolution by the Board of Directors, the Company may pay or credit, as dividends, Interest on Shareholders Equity (JSCP), under the terms of article 9, paragraph 7, of Law nr 9.249, dated December 26, 1995. The interests paid or credited will be offset against the minimum statutory dividend.

The JSCP credited to the shareholders and that will be allocated to dividends, net of income tax, as part of the proposed allocation of income for the current year that will be closed by the end of 2004, to be submitted for approval by the general shareholders meeting, are as follows:

The periods in which the deferred tax assets corresponding to income tax and social contribution on net income (CSLL) are expected to be realized, are shown below, which are derived from temporary differences between book income according on the accrual basis and taxable income. The realization periods are based on a technical study using forecast future taxable income, generated in financial years when the temporary differences will become deductible expenses for tax purposes. These assets are recorded in accordance with the requirements of CVM Instruction nr 371/02, being annually subject to a technical study, which is submitted to the Executive Board, Board of Directors, and Fiscal Council for approval.

The recoverable amount foreseen after the year 2013 is a result of a provision to cover an actuarial insufficiency of the pension plan that is being settled according to the maximum period established by the Supplementary Pensions Department (SPC), which is 17 years and 9 months. Despite the time limit stipulated by the SPC and according to the estimated future taxable income, the Company presents conditions to fully offset the deferred taxes in a period lower than ten years, if it opts to fully anticipate the payment of the debt. Tax credits in the amount of R\$103,358, attributed to the Consolidation were not recorded, due to the history of losses or uncertainties of taxable income in the next ten years in VANT, MetroRED, BrT CSH, BrT CS Ltda. and Freelance S.A. subsidiaries that the Company holds direct or indirect control.

Other Tax Recoverable

It is comprised by federal withholding taxes and payments made, calculated based on legal estimates, which will be offset against future tax obligations. The ICMS recoverable arises, for the most part, from credits recorded in the acquisition of fixed assets, whose compensation with ICMS payable may occur in up to 48 months, according to Complementary Law nr 102/00.

In 2004, considering the current technological stage of the telecommunications equipment, the Company, based on technical report issued by Instituto Nacional de Tecnologia, in January 12, 2004, decided to changed the depreciation rates of some equipment, covering underground systems, and metallic, coaxial and optic cables. This change generated a reduction in income, net of taxes, in the amount of R\$215,584.

According to the STFC concession contracts, the Company assets that are indispensable to providing the service, and qualified as reversible assets at the time of expiry of the concession will automatically revert to ANATEL, the Company being entitled to the right to the compensation stipulated in the legislation and the corresponding contracts.

Rent Expenses

The Company and its subsidiaries rents properties, posts, access through third-party land areas (roads), equipment, and connection means, formalized through several contracts, which mature on different dates. Some of these contracts are intrinsically related to the provision of services and are long-term agreements. Total rent expenses related to such contracts in the quarter amount to R\$169,730 (R\$137,993 in 2003)

Edgar Filing: BRASIL TELECOM SA - Form 6-K

and R\$177,554 (R\$138,356 in 2003) for the consolidated.

Leasing

The Company has lease contracts for information technology equipment. This type of leasing is also used for aircraft to be used in consortium with other companies, where the participation of the Company is 54.4%. Leasing expenses recorded in the quarter amounted to R\$13,133 (R\$31,560 in 2003) and R\$13,147 (R\$31,560 in 2003) in the Consolidated.

Insurance (Not revised)

An insurance policy program is maintained for covering reversible assets and loss of profits as established in the Concession Contract with the government. Insurance expenses in the quarter were R\$7,299 (R\$6,954 in 2003) and R\$7,899 (R\$7,050 in 2003) for the consolidation.

The assets, responsibilities, and interests covered by insurance are the following:

Type	Coverage	Amount insured	
		09/30/04	06/30/04
Operating risks	Buildings, machinery and equipment, installations, call centers, towers, infrastructure and information technology equipment	11,608,961	11,548,323
Loss of profit	Fixed expenses and net income	7,370,615	7,370,615
Performance bonds	Compliance with contractual obligations	120,870	120,870

Insurance policies are also in force for third party liability and officers liability, the amount insured being the equivalent of US\$15,000,000.00 (fifteen million US dollars).

There is no contractual civil liability insurance to cover clients in the case of claims or judicial suits, or optional third party liability for third party claims involving Company vehicles.

In 2003, the Company paid PIS and COFINS taxes in installments, previously settled through offsetting tax credits, the ratification of which was refused by the Federal Revenue department, at the administrative level. The payment in installments was included in the Program for Tax Recovery (REFIS) and Special Payment in Installments (PAES). The amount divided into installments through REFIS totaled R\$5,660 (R\$8,332 in June 30, 2004) with the period for amortization established at 9 monthly payments, and the Company still needs to pay R\$42,916 (R\$43,182 in June 30, 2004) for the remaining 108 months. The balances payable for both programs are charged interest at the long-term interest rate (TJLP).

With respect to the tax credits that were refused, the Company has lodged appeals at the judicial level for restitution or future compensation.

The long-term portion refers to ICMS (State VAT) on the 69/98 Agreement, which is being challenged in court, and is being deposited in escrow. It also includes the ICMS deferral, based on incentives by the government of the State of Paraná.

Guarantees

The loans and financing contracted are guaranteed by collateral of credit rights derived from the provision of telephone services and the Parent Company's guarantee.

The Company has hedge contracts on 45% of its dollar-denominated and iene loans and financing with third parties and 52% of the debt in UMBNDES (basket of currencies) with the BNDES, to protect against significant fluctuations in the quotations of these debt restatement factors. Gains and losses on these contracts are recognized on the accrual basis.

32. LICENSES TO EXPLOIT SERVICES

Edgar Filing: BRASIL TELECOM SA - Form 6-K

Represented by the terms signed by the subsidiary 14 Brasil Telecom Celular S.A. with ANATEL, to offer SMP Services for the next the fifteen years in the same area of operation where the Company has a concession for fixed telephony. Of the contracted value 10% was paid at the time of signing the contract, and the remaining balance was fully recognized in the subsidiary's liabilities to be paid in six equal, consecutive annual installments, with maturities foreseen for the years 2005 to 2010. The remaining balance is adjusted by the variation of IGP-DI, plus 1% per month.

During the second quarter of this year new authorizations were contracted for certain frequency bands in the total amount of R\$28,624. The rights to explore it are the same as the previous authorizations payment conditions, and the maturities of the installments of these new authorizations are foreseen for the years from 2007 to 2012.

The restated balance of this liability is R\$292,620, (R\$275,716 in June 30, 2004).

33. PROVISIONS FOR PENSION PLANS

Liability due to the actuarial deficit of the social security plans managed by BrTPREV and to SISTEL foundations, appraised by independent actuaries at the end of each fiscal year and in agreement with Deliberation CVM nr 371/00. The liabilities recognize the inflation effects of INPC, bearing fixed interest rates of 6% per annum. The expenses recognized until September 30, 2004 amounted to R\$49,352. The contribution paid to BrTPREV until the current quarter totaled R\$73,857.

The funds for sponsored supplementary pensions are detailed in Note 6.

Self-financing Funds - Rio Grande do Sul branch

They correspond to the credits of financial participation, paid by engaged subscribers, for acquisition of the right of use of switched fixed phone service, still under the elapsed self-financing modality. It happened that, as the shareholders of the Company had fully subscribed the capital increase made to repay in shares the credits for financial participation, no shares remained to be delivered to the engaged subscribers. Part of these engaged subscribers, who did not accept the Public Offer by the Company for devolution of the referred credits in money, as established in article 171, paragraph 2, of Law nr 6.404/76 are awaiting resolution of the ongoing lawsuit, filed by the Public Prosecution Service and Others, aiming at reimbursement in shares.

Self-Financing Installment Reimbursement - PCT

Refers to the payment, either in cash or as offset installments in invoices for services, to prospective subscribers of the Community Telephony Plan - PCT, to compensate the original obligation of repayment in shares. For these cases, there are agreements and judicial rulings.

36. FUNDS FOR CAPITALIZATION

The expansion plans (self-financing) were the means by which the telecommunications companies financed network investments. With the issue of Administrative Rule nr 261/97 by the Ministry of Communications, this mechanism for raising funds was eliminated, and the existing consolidated amount of R\$7,974 (R\$7,974 in December 31, 2003) is derived from plans sold prior to the issue of the Administrative Rule, the corresponding assets to which are already incorporated in the Company's fixed assets through the Community Telephone Plant - PCT. For reimbursement in shares, it is necessary to await the judicial ruling on the suits brought by the interested parties.

37. EARNING BEFORE INTEREST, TAX, DEPRECIATION AND AMORTIZATION - EBITDA

The EBITDA, reconciled with the operating income, is as follows:

(1) It does not include the amortization of special goodwill from incorporation recorded in the differed charges, in the permanent assets, whose amortization expense compose the nonoperating income.

38. COMMITMENTS

Services Rendered due to Acquisition of Assets

BrT SCS Bermuda acquired fixed assets from an already existing company. Together with the assets of underwater cables acquired, it assumed the obligation of providing data traffic services, initially contracted with the company that sold the assets, which was a beneficiary of the financial resources of the respective advances. The time remaining for the providing of such assumed services is around twenty years.

Financing

On July 19, 2004, the BNDES approved a financing amounting to R\$1.26 billion, which will be used for investments in the fixed telephony plan and operational improvements to comply with the targets set in the General Plan of Universalization Targets - PGMU and in the General Plan of Quality Targets - PGMQ. The financing will be directly provided by the BNDES for a total period of six and a half years, with a grace period of one and a half years. The cost of the financing will be the long-term interest rate (TJLP) plus 5.5% p.a. for 80% of the total financing and a basket of currencies plus 5.5% p.a. for the remaining 20%. The funds will be released from 2004 to 2006.

39. SUBSEQUENT EVENT

The company received on October 26, 2004 the second tranche of the BNDES financing described in note 38. This tranche amounted to R\$342,405, being R\$282,664 bearing interest of the long-term interest rate (TJLP) plus 5.5% p.a., and R\$59,741 bearing interest linked to a basket of currencies plus 5.5% p.a. Considering this release of funds, the total financing obtained with the BNDES until September 30, 2004 amounted to R\$742,405.

Lines Installed In the 3Q04, Brasil Telecom installed 13.8 thousand lines, ending the quarter with 10.7 million terminals. In relation to 3Q03, the plant registered an increase of 47.8 thousand lines.

Lines in Service The plant in service totaled 9.6 million lines in the 3Q04. Brasil Telecom continued the non-paying-lines-detection process, disconnecting lines with no prospects of returning to the active base in the medium term and transferring some of the clients who negotiated their obligations to the hybrid plan (LigMix). As a result, the utilization rate has reached to 89.5%.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

Additionally, the increase of 67.6% in hybrid terminals was the Company's initiative to incentive the migration of delinquent and economic plan clients. This strategy has caused a growth in the ARPU (net revenues/monthly LMES) of the fixed telephone service.

ADSL **Brasil Telecom practically doubled its ADSL accesses in service in just a year (905% of increase), reaching 456.1 thousand accesses at the end of 3Q04.**

Edgar Filing: BRASIL TELECOM SA - Form 6-K

With an institutional marketing campaign aired on the 26th of September, Brasil Telecom GSM announced the launch of its commercial activities in mobile telephony.

With a convergent telecommunications platform integrating the complete range of products and services of the Group, Brasil Telecom GSM brought a number of innovative and exclusive advantages to the market.

After announcing a promotion that reduced the interconnection rate by approximately 45%, which reduced the costs of calls from land lines to mobiles, Brasil Telecom GSM launched a new set of advantages to its clients, valid since the start of operations.

With the commercial launch of the mobile operations, Brasil Telecom becomes the first complete telecommunications carrier. Our convergence concept goes beyond products and services to reach our customer service and sales force. Both our call centers and points of sale will be ready to meet all the telecommunications needs of our clients. There will be more than 1.8 thousand points of sale, among them 16 flagship stores, 40 kiosks, 400 exclusive dealers and 1.350 retailers.

Our flagship stores have been designed following the one-stop-shop concept, where clients find all of our products and services including fixed and mobile telephony, intelligent services, broadband and narrowband internet, alternative DLD and ILD rate packages, besides various fixed-line and mobile telephony accessories.

In the 3Q04, investment in the mobile operation was of R\$502.7 million, amounting to R\$867.0 million since the start of the project.

Financial performance

Revenues

Local Service

Gross revenue from local service reached R\$1,218.3 million in the 3Q04, 3.2% higher than registered in the 3T03 and 9.2% larger than registered in the 2T04, result of the increase mainly in the incomes of measured service and basic subscription fees.

Gross line activation revenues totaled R\$7.7 million in the 3Q04, 17.6% lower than in the 2Q04, primarily due to the fee reduction of 18.5%, applicable from July 02, 2004 onwards. This reduction was partially offset by a rate increase of 3.6%, effective on September 01, 2004. Additionally, Brasil Telecom activated 403 thousand lines in the 3Q04, compared to 418 thousand lines in the previous quarter.

Basic subscription revenues reached R\$800.6 million in the quarter, an increase of 9.3% compared to the 2Q04, due to the rate adjustments of 7.4% and 4.4%, effective from July 02, 2004 and September 01, 2004, respectively.

Billed pulses revenues totaled R\$386.7 million in the 3Q04, an increase of 10.6% compared to the 2Q04, as a result of an increase in local traffic compared to 2Q04 and the rate adjustments of 7.4% and 4.4%, effective from July 02, 2004 and September 01, 2004, respectively.

Public Telephony

Public telephony revenues reached R\$128.4 million in the 3Q04, an increase of 7.8% compared to the 2Q04, primarily due to the rate adjustments of 7.4% and 3.2% in payphones credits, effective since from July 2, 2004 and September 1, 2004, respectively.

Long Distance

Long distance revenues reached R\$478.3 million in the 3Q04, resulting in an increase of 14.3% compared to the 2Q04. This was principally due to the **market share increase of 7.7 p.p. and 5.5 p.p. in the interregional and international segments**. The rate adjustment of 3.2% and 4.8%, effective from July 2, 2004 and September 1, 2004, respectively, in the DLD basket also had a positive impact on revenues.

Inter-Network

Gross revenue from inter-network calls reached R\$805.5 million in the 3Q04, a 9.1% increase compared to 2Q04, due to the increase of 6.1% in the traffic inter-nets and to the increase of the participation of the traffic VC-2 and VC-3 in the mix of the calls inter-nets.

Interconnection

Interconnection revenues increased by 1.9% compared to the 2Q04. On July 2, 2004, the Local Network Usage Rate (TU-RL) was decreased by 10.5% and the Intercity Network Usage Rate (TU-RIU) increased by 3.2%.

Edgar Filing: BRASIL TELECOM SA - Form 6-K

17.01 - LIMITED REVIEW REPORT

Report of independent accountants on special review

(A translation of the original report in Portuguese as filed with the Brazilian Securities Commission - CVM containing quarterly financial information prepared in accordance with accounting practices adopted in Brazil and the regulations issued by the CVM)

The Shareholders and Board of Directors
Brasil Telecom S.A.
Brasília - DF

We have reviewed the quarterly financial information of Brasil Telecom S.A. for the quarter ended September 30, 2004, comprising the balance sheet and the consolidated balance sheet of the Company and its subsidiaries, the statement of income and the consolidated statement of income, the management report and other relevant information, prepared in accordance with accounting practices adopted in Brazil.

Our review was performed in accordance with auditing standards established by the Brazilian Institute of Independent Auditors - IBRACON and the Federal Council of Accountancy, which comprised mainly: (a) inquiries and discussion with management responsible for the accounting, financial and operational areas of the Company regarding the criteria adopted in the preparation of the quarterly information; and (b) review of post-balance sheet information and events, which may have a material effect on the financial and operational position of the Company and its subsidiaries.

Based on our special review, we are not aware of any material changes that should be made to the aforementioned quarterly information for it to be in accordance with accounting practices adopted in Brazil and the regulations issued by the CVM, specifically applicable to the mandatory quarterly financial information.

Our review was performed for the purpose of issuing a special review report on the mandatory quarterly financial information. The statement of cash flow represents supplementary information to those statements and is presented to provide additional analysis. This supplementary information was submitted to the same review procedures applied to the quarterly financial information, and, based on our special review, is adequately presented in all material respects, in relation to the quarterly financial information taken as a whole.
