## **GOL Marks Anniversary of Debut on Stock Exchanges**

**São Paulo, June 24, 2005** GOL Linhas Aéreas Inteligentes S.A. (NYSE: GOL and Bovespa: GOLL4), Brazil's low-cost, low-fare airline, today completed its one year anniversary as a public company listed on the São Paulo and New York Stock Exchanges.

The GOL Initial Public Offering (IPO) was the second-ever simultaneous listing by a Brazilian company on the Bovespa and the NYSE. The primary objective of the listings was to raise capital for the expansion of the Company's business and the acquisition of additional aircraft. In addition, the offerings further diversified GOL's sources of capital by successfully attracting a variety of equity investor bases: global, airline, emerging markets and Brazilian.

In the IPO, GOL's shares were priced at US\$17 per ADS and R\$26.57 per preferred share, and commenced trading on June 24, 2004. Since its IPO, GOL's shares have outperformed their US and European peers in the low-cost, low-fare business model, while also outperforming the Bovespa and the Dow Jones Industrial Average. Our dual listing and capital raising on the Bovespa and NYSE proved to be a successful strategy. In April of this year, we completed a successful follow-on offering. The capital raised from the public offerings positions GOL with a very solid balance sheet for the Company's expansion plans, said Richard Lark, GOL's Chief Financial Officer.

Since its initial listing on the Bovespa and NYSE, GOL has built its Investor Relations (IR) program around three core principles: transparency, equal access to information, and equality of treatment. The Company is committed to the transparency of its financial statements and continues to make significant investments to ensure that its financial statements conform to international best practices in accounting.

Additionally, GOL's disclosure standards follow the Exemplary Disclosure® process. As a result, the Company ensures consistency and ongoing improvement of its information disclosure controls and performance, as part of its commitment to corporate governance and compliance. In fact, GOL is one of the few companies in Latin America that provides guidance for the current year's results, which allows the Company to more freely discuss industry trends and expectations in line with Regulation FD. The Company's fair disclosure policies and procedures are composed of several initiatives, including a Disclosure Policy Manual, multi-lingual IR website, global webcasts, quarterly financial statements in BRGAAP and USGAAP, earnings guidance and a disclosure committee.

### **About GOL Linhas Aéreas Inteligentes**

GOL Linhas Aéreas Inteligentes, a low-cost, low-fare airline, is one of the most profitable and fastest growing airlines in the industry worldwide. GOL operates a simplified fleet with a single class of service. It also has one of the youngest and most modern fleets in the industry that results in low maintenance, fuel and training costs, with high aircraft utilization and efficiency ratios. In addition, safe and reliable services, which stimulate GOL's brand recognition and customer satisfaction, allow GOL to have the best value proposition in the market. GOL currently offers over 350 daily flights to 42 major business and travel destinations in Brazil and Argentina, with substantial expansion opportunities. In 2005, GOL plans to grow by increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic South American travel destinations. GOL listed its shares on the NYSE and the Bovespa in June 2004.
