GOL INTELLIGENT AIRLINES INC.
(Translation of Registrant's name into English)

**Rua Gomes de Carvalho 1,629
Vila Olímpia
05457-006 São Paulo, São Paulo
Federative Republic of Brazil**
(Address of Registrant's principal executive offices)

Indicate by check mark whether the registrant files or will file
annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark whether the registrant by furnishing the
information contained in this Form is also thereby furnishing the
information to the Commission pursuant to Rule 12g3-2(b) under
the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicated below the file number assigned to the
registrant in connection with Rule 12g3-2(b):

GOL Announces Revised Fleet Plan and Reduces Growth

São Paulo, August 6, 2008 GOL Linhas Aéreas Inteligentes S.A. (NYSE: GOL and Bovespa: GOLL4), the parent company of Brazilian airlines GOL Transportes Aéreos S.A. and VRG Linhas Aéreas S.A., announces that the Company has revised its fleet plan to continue its fleet renewal and modernization strategy in accordance with its disciplined growth plan.

The Company reviewed and adjusted its fleet plan to better adapt to recent fuel price increases and higher competition in the air transportation industry, while also accelerating its fleet renewal program (announced in December 2007) and improving its low-cost structure. In addition to operational changes to reduce fuel consumption, such as reducing cruise flight speed and shutting down one engine after landing, the Company is reducing its capacity growth.

In the third and fourth quarters 2008, consolidated domestic ASKs are projected to be approximately 8.0 and 8.1 billion, respectively, a 5% sequential reduction and a 1% sequential increase, respectively. In the international market, consolidated ASKs are projected to be approximately 1.6 billion for the third and fourth quarters 2008. For 2008, total ASKs are projected to be approximately 41.0 billion, 32.5 billion in the domestic market, and 8.5 billion in the international market, a 5% reduction versus the Company's previous guidance.

GOL is also in the final phases of its plan to replace all 737-300 and 767-300 aircraft with 737-700s and 737-800s for operations on short and medium-haul routes. In addition to reducing the fleet's average age, these aircraft have lower operational costs and are more fuel efficient. The 737-700 NG aircraft provide the Company with greater flexibility at airports with operating restrictions and the ability to offer more direct flights to medium-sized cities with low traffic volumes. The 737NGs are also equipped with winglets, a technology that improves aircraft performance during takeoff, allows longer non-stop flights and reduces fuel costs by more than three percent per year. All of GOL's Boeing 737 model aircraft adhere to international safety rules and are certified by U.S. and Brazilian authorities for take-off and landing on short runways.

The revised fleet plan will adequately meet the expected demand for air travel in the Company's markets; GOL estimates approximately 7-8% Brazilian market growth for 2009. Our fleet plan allows us to adequately serve expected air travel growth in Brazil and to countries in South America, says Wilson Maciel Ramos, GOL's Vice President of Planning and IT. The Company's all-Boeing fleet permits it to grow faster or slower as market conditions change.

The Company has reduced its fleet plan by two leased 737-800s in 2008. For 2009, the fleet plan has reduced by five leased 737-800s. The fleet modernization plan guarantees that GOL's fleet will maintain its status as one of the youngest and most modern in the world. By the end of 2008, it is expected that the fleet will be comprised entirely of Boeing 737 NGs, reducing the average age of the fleet to 5.6 years. At the end of 2012, 65 percent of the fleet will be comprised of 737-800 SFP aircraft, reducing the average age to 5.5 years. The table below details the revised fleet plan through 2014:

2007	2008	2009	2010	2011	2012	2013	2014
------	------	------	------	------	------	------	------

Total Consolidated Fleet (End of Period)								
B737-300	28	-	-	-	-	-	-	-
B737-700 NG	31	40	40	40	40	40	40	40
B737-800 NG	18	27	16	11	7	2	-	-
B737-800 NG SFP	25	37	52	64	74	85	96	100
B767-300 ER	9	-	-	-	-	-	-	-
Total	111	104	108	115	121	127	136	140
