Drilling of first well in Transfer of Rights area completed at Franco

Rio de Janeiro, February 8th, 2012 – Petróleo Brasileiro S.A - Petrobras reports that drilling of the first well following the execution of the Transfer of Rights Agreement has been completed. Results confirm the extension of oil reservoirs northwest of the discovery well at Franco area, in the pre-salt area of Santos Basin.

The well referred to as 3-BRSA-944A-RJS (3-RJS-688A) and informally known as Franco NW, is located at a water depth of 1,860 meters, 188 km off the city of Rio de Janeiro and 7.7 km northwest of discovery well 2-ANP-1-RJS (Franco).

The discovery was confirmed through good quality oil samples (28^º API), obtained from cable tests collected from 5,460 meters.

The well confirmed the same oil/water contact of the discovery well, and drilled through excellent quality carbonate rock reservoirs and thickness similar to those found in well 2-ANP-1-RJS (Franco).

Next, a formation test will be conducted to assess the well's productivity and Petrobras will proceed with the activities and investments included in the Minimum Exploratory Program (PEO) of the Transfer of Rights Agreement, which also includes the acquisition of 3D seismic data of the area.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
