EXECUTIVE COMPENSATION

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis (“**CD&A**”) as set forth in this Proxy Statement. Based upon this review and discussion, the Compensation Committee recommended to the Board of Directors that the CD&A be included in the Company’s Annual Report on Form 10-K for its fiscal year ended October 31, 2012 and its 2013 Proxy Statement filed in connection with the Company’s 2013 Annual Meeting of Shareholders.

Compensation Discussion and Analysis

Introduction

This CD&A describes the philosophy and objectives of our executive compensation program underlying the compensation which is reported in the executive compensation tables included in this Proxy Statement for the following executive officers (“NEOs”):

-

Arthur A. Bottone, President and Chief Executive Officer (“CEO”)

-

Michael Bishop, Senior Vice President, Chief Financial Officer (“CFO”), Corporate Secretary and Treasurer

-

Anthony Rauseo, Senior Vice President and Chief Operating Officer (“COO”)

The compensation of the NEOs is reported in the Summary Compensation Table presented on page 21 of this Proxy Statement.

Summary of Fiscal 2012 Compensation Actions

Our executive compensation program consists of three primary components: base salary, annual performance-based incentive awards and long-term equity incentive compensation in the form of restricted stock awards (“**RSAs**”).

A significant portion of the total compensation of our key employees, including the NEOs, is performance-oriented and “at risk” and, as described in this CD&A, demonstrates a transparent link between pay and performance. The following is a summary of the principal compensation actions during fiscal 2012 and the key features of our fiscal 2012 executive compensation program:

•

We amended Mr. Bottone’s employment agreement and entered into agreements with Messrs. Bishop and Rauseo (effective January 1, 2012) which provide them with certain payments and benefits upon an involuntary termination of employment, including following a change in control of the Company, which are described in detail on page 24 of this proxy statement;

•

Effective January 1, 2012, Mr. Bottone’s base salary was increased from \$340,000 to \$366,200; Mr. Rauseo’s base salary was increased from \$260,000 to \$269,200; and Mr. Bishop’s base salary was increased from \$210,000 to \$228,100;

•

Target annual incentive award opportunities (the amount of which is based on a percentage of base salary) were increased in fiscal 2012, as described in detail on page 18 of this Proxy Statement;

•

On June 14, 2012, the Company’s 2010 Amended and Restated Equity Incentive Plan (the “EIP”) was further amended (i) to prohibit “repricing” of outstanding awards under the EIP without stockholder approval and (ii) to remove promissory notes as an acceptable form of consideration for exercising Incentive Stock Options under the EIP;

•

The fiscal 2012 Management Incentive Plan (the “MIP”) was structured such that the annual incentive awards were linked to the achievement of pre-established Company operational milestones and strategic initiatives which we believe creates a performance-based compensation culture consistent with shareholder interests;

•

Under the terms of the MIP, the maximum annual incentive award payable was capped at 125% of the target award; the actual awards for fiscal 2012 performance (paid in fiscal 2013) were approved at 70% of target award levels for the NEOs based upon achievement of pre-established operational milestones and strategic initiatives which are described in detail on page 18 of this proxy statement;

•

We granted RSAs to the CEO, CFO and COO with grant date fair values of \$360,000, \$164,400 and \$209,000, respectively, as part of our annual long-term incentive compensation review;

Recent Shareholder Advisory Vote on Executive Compensation

At the 2011 Annual Meeting of Shareholders, we conducted a non-binding advisory vote of our shareholders on the compensation of the NEOs. At that meeting, approximately 96% of the votes cast by shareholders were voted to “approve” the compensation of the NEOs. Following the Annual Meeting, the Compensation Committee noted the favorable results of this advisory vote, reflecting widespread support from our shareholders. Although none of the Compensation Committee’s subsequent actions or decisions with respect to the compensation of the NEOs were directly attributable to the results of the vote, the Compensation Committee believes that shareholder feedback on executive compensation matters should be considered as part of its deliberations and intends to factor the result of future advisory votes into its compensation review process.

Compensation-Setting Process

The Compensation Committee is responsible for implementing and reviewing our executive compensation plans, policies and practices in an effort to ensure the attraction and retention of the executive officers in a reasonable and cost-effective manner, to motivate their performance in the achievement of the Company’s business objectives and to align the interests of the executive officers with the long-term interests of our shareholders.

The executive compensation program includes (i) a fixed component, which consists of base salary and health, welfare and retirement benefits and (ii) a variable component, which consists of an annual performance-based incentive award (the target amount of which is based on a percentage of base salary) and a long-term equity incentive award used to align a portion of each executive officer’s compensation with the long-term success of the Company and the interests of our shareholders.

The Compensation Committee reviews the base salary, target annual incentive award, long-term equity incentive award and target total direct compensation (which represents the sum of these three components) for each of the NEOs. The CEO makes recommendations to the Compensation Committee for annual merit increases in base salary, the annual incentive award payments and long-term equity incentive awards for each of the NEOs (other than himself). The Compensation Committee has the final authority to approve annual merit increases in base salary, annual incentive award payments and long-term equity incentive awards for the NEOs, except with respect to the CEO whose compensation is approved by the independent members of the Board of Directors.

Typically, the Compensation Committee makes any necessary adjustments to base salaries effective in January of each year. In addition, prior to the start of each fiscal year, the CEO develops the operational milestones and strategic initiatives for the year for the Company’s key employees, including the NEOs. The milestones and strategic initiatives represent key performance objectives which are incorporated into the MIP, which is then submitted to the Compensation Committee for consideration and approval. After the Company’s fiscal year-end financial results are available, the annual incentive award pool and individual annual incentive award payments for the NEOs for the just-completed fiscal year are approved by the Compensation Committee, except with respect to the CEO whose annual incentive award payment is approved by the independent members of the Board of Directors.

The Compensation Committee formulates its compensation decisions for the NEOs with input from the CEO, considering such factors as each NEO's professional experience, job scope, past performance, tenure and retention risk. The Compensation Committee also considers prior fiscal year adjustments to compensation and historical annual incentive award payments and long-term equity incentive awards. Finally, the Compensation Committee considers market practices, based on its review of executive compensation data for comparable companies, as well as current compensation trends, to ensure that the compensation we pay to the NEOs is both competitive and reasonable.

During fiscal 2012, the Compensation Committee obtained advice from Compensia, Inc., a national compensation consulting firm ("**Compensia**"), on matters discussed in this CD&A. The Compensation Committee has determined that this work did not raise any conflict of interest.

Competitive Positioning

The Company periodically performs competitive market analyses of our executive and director compensation programs. In 2011, the Compensation Committee commissioned Compensia to perform such an analysis. The Compensation Committee reviewed the executive compensation practices of a group of peer companies (the "**Peer Group**") (based on compensation data gathered from publicly-available filings) and other resources (including the Radford Global Technology compensation survey) to help ensure that the total compensation packages of the executive officers are within a reasonably competitive range.

Compensia worked closely with the Compensation Committee to develop the Peer Group by screening an initial list of publicly traded companies on the basis of revenue, market capitalization, total employees, growth rate and industry focus. These companies were then narrowed by identifying companies whose revenue and market capitalization ranged from approximately 0.5 to 2.5 times the Company's revenue and market capitalization, respectively. The list was further narrowed by eliminating distressed companies and companies with international headquarters as pay practices and disclosure requirements may vary significantly from those found in the United States.

[Back to Contents](#)

Compensia also reviewed and considered other factors such as revenue growth, profitability, valuation (e.g., market capitalization as a multiple of sales) and business model. The final Peer Group was selected based on the subjective evaluation of all of these factors, and then consisted of the following 16 companies:

Active Power	Comverge*	PowerSecure
Ballard Power Systems, Inc.	Ener1*	Rentech
Bel Fuse, Inc.	Energy Recovery	Ultralife
Broadwind Energy	Fuel Tech	Valence Technology*
BTU International	Lime Energy	
Capstone Turbine Corp.	Magnetek	

* No longer publicly traded

To complete the competitive market analysis of the executive compensation program, Compensia then blended the Peer Group data with aged survey data (weighted equally) to establish the market level for each of the executive officer positions.

The Compensation Committee uses the market data as a reference point (or “market check”) to ensure that the executive compensation program is competitive with market practice. In the case of each NEO, the Compensation Committee compares the overall compensation of each individual against the market data, if his or her position is sufficiently similar to the positions identified in the data to make the comparison meaningful. Ultimately, each NEO’s total compensation, and each individual compensation component, is determined primarily on the basis of Company and individual performance and internal equity.

In comparing the fiscal 2011 compensation arrangements of the NEOs with the market data, the Compensation Committee determined base salary and target total cash levels were generally at or below the 25th percentile of the market, while fiscal 2011 long term incentive awards and total direct compensation were generally between the 25th and 50th percentiles. The Compensation Committee took this market positioning into consideration in its deliberations as to the fiscal 2012 and 2013 compensation of the NEOs.

Fixed Compensation

The principal components of fixed compensation not directly linked to Company or individual performance include base salary and benefits, such as the Company’s Section 401(k) Retirement Savings plan, and health, life and disability insurance.

Base Salary

Under the executive compensation program, we view the purpose of base salary to fairly and competitively compensate the NEOs with a fixed amount of cash for the jobs they perform. In addition, base salaries are used to recognize the experience, skills, knowledge and responsibilities required of the NEOs. Accordingly, we seek to ensure that base salary levels are competitive and consistent with industry practices.

At the end of 2012, the Compensation Committee reviewed the base salaries of the NEOs and the results of the competitive market analysis performed in fiscal 2011. The Compensation Committee then evaluated the performance of the Company and these individuals, as well as their anticipated future contributions to the Company’s business objectives. As a result, the Compensation Committee decided to increase the base salaries of our NEOs to levels that

were more market-competitive to retain and motivate the performance of these individuals to achieve the Company's business objectives.

The Compensation Committee approved the following increases for the NEOs (except the CEO, whose base salary was approved by the independent members of the Board of Directors):

Name	Base Salary Changes Effective January 1, 2013			
	2012 Base	2013 Base	Increase	Increase
	(\$)	(\$)	(\$)	%
Arthur A. Bottone	\$366,200	392,400	26,200	7.2
Michael S. Bishop	\$228,100	256,200	28,100	12.3
Anthony F. Rauseo	\$269,200	289,180	19,980	7.4

The base salaries of the NEOs for fiscal 2012 are reported in the Summary Compensation Table on page 21 of this Proxy Statement.

Benefits

We offer medical and dental insurance to the NEOs and pay a portion of the premiums for these benefits consistent with the arrangements for non-executive employees. We also provide the NEOs and other eligible employees, at Company expense, group life and accidental death and dismemberment insurance benefits; short-term and long-term disability insurance benefits; paid time off benefits and other ancillary benefits (e.g., flexible spending accounts and an employee assistance program). Further, we offer a Section 401(k) Retirement Savings plan to our employees, including the NEOs.

Contributions to the Section 401(k) Retirement Savings plan are limited to an annual maximum amount as determined by the Internal Revenue Service. Effective January 1, 2012, the Company established a matching contribution equal to 1% of eligible base earnings. Participants are not permitted to receive or purchase shares of the Company's common stock through the Section 401(k) Retirement Savings plan. The Company's contributions to the retirement savings accounts of the NEOs for fiscal year 2012 are included in the Summary Compensation Table on page 21 of this proxy statement.

Historically, we have not provided other perquisites or personal benefits to our NEOs.

Variable Compensation

Annual Incentive Awards

All managers and executives, including the NEOs, are eligible to participate in an annual incentive plan, the MIP, which is intended to motivate their performance in the achievement of the Company's business objectives. The Compensation Committee determines the target annual incentive award opportunities (expressed as a percentage of base salary) under the MIP and considers the recommendations of the CEO with respect to the actual annual incentive award payments to be made to the MIP participants including the NEOs (other than with respect to his own award). The individual award payments, reflect (i) an individual's target annual incentive award opportunity, (ii) our performance against a set of pre-established Company operational milestones; (iii) our performance against a set of pre-established Company strategic initiatives (in the case of the NEOs only); and (iv) adjustments for individual performance for all other MIP participants.

The annual incentive award payments for the NEOs are based on a review of our actual performance against the Company operational milestones (which represent 75% of the target annual incentive award opportunity) and performance against the Company strategic initiatives (which represent the remaining 25% of the target annual incentive award opportunity). The Compensation Committee may also exercise its discretion to adjust the size of potential award payments as it deems appropriate to take into account factors that enhance or detract from results achieved relative to the Company operational milestones and strategic initiatives. In this way, the Compensation Committee does not confine itself to a purely quantitative approach and retains the discretion in determining award payments based on its review and assessment of results for the fiscal year. The Compensation Committee believes that linking annual incentive awards to Company operational milestones and strategic initiatives creates a performance-based compensation opportunity that furthers shareholder interests.

For fiscal 2012, the target annual incentive award opportunities for each NEO (expressed as a percentage of base salary) were 90% for the CEO and 50% for each of the other NEOs.

Fiscal 2012 MIP and Results

For fiscal 2012, the overall design of the MIP remained unchanged from fiscal 2011, except for the Company operational milestones and strategic initiatives. The pre-established Company operational milestones for fiscal 2012 (and their respective weighting) involved: (1) securing new orders (40%); (2) improving fleet performance (15%); (3) achieving a specified gross margin (15%); 4) controlling operating expenses (10%); and (5) limiting cash use (20%). The Compensation Committee developed target performance levels for each of these milestones that were consistent with our annual operating plan for fiscal 2012.

The pre-established Company strategic initiatives for fiscal 2012 (which were equally weighted) involved (a) developing a new strategic partner; (b) strengthening the Company's balance sheet; (c) completing the financing of certain projects; (d) executing on specified regulatory initiatives; (e) strengthening the organizational structure; and (f) growing the Advanced Technology business.

To accomplish the Company operational milestones and strategic initiatives for fiscal 2012, the management team, including the NEOs, was required to achieve target performance levels which were challenging, but achievable with diligent efforts throughout the year.

Under the MIP for fiscal 2012, performance against each of the Company operational milestones was evaluated based on a range of pre-established performance levels to obtain scores ranging from 0% to a maximum of 125%. A score of 50% generally represented the minimum level of acceptable performance required to earn an annual incentive award payment with respect to an operational milestone. Performance above this threshold level represented the achievement of Company operating results that significantly improved our financial condition and that the Compensation Committee considered to enhance shareholder value and, accordingly, could potentially result in a higher award payment.

With respect to the fiscal 2012 Company operational milestones, the Compensation Committee determined that the Company had significantly exceeded milestone (1); fully achieved milestone (4), and achieved 75% of milestone (2). The Company did not meet milestones (3) and (5).

Comparing the Company's actual performance against the range of pre-established target levels, the Compensation Committee calculated a weighted score for each milestone, the sum of which yielded a total weighted score. The overall performance for fiscal 2012 resulted in a calculated aggregate weighted score of 46%. After evaluating the NEOs' overall performance for the year, as well as their success in securing the POSCO Energy Co., LTD. ("POSCO") order (which was three times the Company's orders target for the fiscal year) and the related technology transfer and licensing agreement, the Compensation Committee approved a payout percentage for the Company operational milestones at a 50% level.

With respect to the fiscal 2012 Company strategic initiatives, the Compensation Committee determined that the Company had fully achieved initiatives (a), (b), (d) and (f) as well as 75% of initiatives (c) and (e). Based on this level of achievement, the overall performance for fiscal 2012 resulted in a calculated total weighted score for the Company strategic initiatives of 92%. The Compensation Committee then took into consideration the progress that the NEOs had made during the fiscal year on several additional strategic initiatives that, while not expressly identified at the beginning of the year, are ongoing and are expected to position the Company for significant future growth and, exercising its discretion, adjusted the payout percentage to 125%.

Applying the relative weighting of each performance category (75% for the operational milestones and 25% for the strategic initiatives), the Compensation Committee determined that the blended annual incentive award payout percentage was equal to 69% of the target award levels, which it rounded to 70%. Consequently, the Compensation Committee approved annual incentive award payments for the NEOs (other than the CEO) for fiscal 2012 at 70% of the target award levels, and made a similar recommendation to the independent members of the Board of Directors with respect to the annual incentive award payment for the CEO.

[Back to Contents](#)

As a result, the independent members of the Board of Directors (in the case of our CEO) and the Compensation Committee determined to pay our CEO an annual incentive award in the amount of \$230,706, to pay Mr. Bishop an annual incentive award in the amount of \$79,835 and to pay Mr. Rauseo an annual incentive award in the amount of \$94,220.

The annual incentive award payments for the NEOs for fiscal 2012 are reported in the Summary Compensation Table on page 21 of this Proxy Statement.

Long-Term Incentive Compensation

Each of the NEOs is eligible to receive long-term equity incentive awards under the EIP. These awards are intended to align a significant portion of the NEOs' compensation with shareholders' interests and the long-term success of the Company by providing a direct link to future earnings potential and the market value of the Company's common stock.

The Compensation Committee, in determining the long-term equity incentive awards to be granted to the executives, including the NEOs, considers relevant comparative market data as well as the recommendations of the CEO and other factors such as the individual's job scope, past performance, expected future contributions, tenure, and retention risk. The Compensation Committee approves all long-term equity incentive awards for the NEOs, except for awards to the CEO whose compensation is approved by the independent members of the Board of Directors.

Beginning in fiscal 2009, the Compensation Committee approved the granting of RSAs to our key employees, including the NEOs. The RSAs vest at a rate of 25% per year beginning on the first anniversary of the date of grant.

In determining the size of the awards granted to the NEOs, the Compensation Committee typically considers comparative market data, the recommendations of the CEO and the other factors described above. On April 5, 2012, the Compensation Committee considered and approved the recommendations of the CEO for the long-term equity incentive awards for the executives and NEOs (other than the CEO). This decision was based on the Company's overall performance for fiscal 2011 and the desire to minimize retention risks.

On April 5, 2012, the following long-term equity incentive awards were approved for the NEOs:

- An RSA for 163,281 shares of the Company's common stock with a value of \$209,000 was awarded to Mr. Rauseo;
- An RSA for 128,438 shares of the Company's common stock with a value of \$164,400 was awarded to Mr. Bishop;
- An RSA for 281,250 shares of the Company's common stock with a value of \$360,000 was awarded to Mr. Bottone.

The number of shares of the Company's common stock subject to each RSA granted to each of the NEOs was based on the dollar value of the award approved for each individuals by the Compensation Committee (or the independent members of the Board of Directors, in the case of the CEO) divided by the closing market price of the Company's common stock on the date of grant.

The long-term equity incentive awards granted to the NEOs in fiscal 2012 are reported in the Summary Compensation Table under Stock Awards and the Grants of Plan-Based Awards Table on pages 21 and 22, respectively, of this Proxy Statement.

Equity Award Grant Policy

The Compensation Committee does not re-price and has not re-priced equity awards. The grant date for each long-term equity incentive award is based on the date the award is approved by the Compensation Committee or the Board of Directors, as applicable. Stock option exercise prices equal the closing market price of the Company's common stock on the grant date.

Employment Agreements

On February 8, 2011, we entered into an employment agreement with Mr. Bottone which specifies the reasons pursuant to which his employment may be terminated by the Board of Directors and provides him with certain compensation and benefits upon termination of employment or a change in control of the Company. The employment agreement also protects the Company's interests following termination of employment by providing specific reasons for termination and by prohibiting him from engaging directly or indirectly in competition with the Company, from soliciting any employees or from disclosing confidential Company information. We believe that these provisions help ensure our long-term success.

Effective January 1, 2012, we also entered into agreements with Messrs. Bishop and Rauseo which specify the reasons pursuant to which their employment may be terminated and provide them with certain compensation and benefits upon termination of employment or a change in control of the Company. The agreements also protect the Company's interests following termination of employment by providing specific reasons for termination. We believe that these provisions help ensure our long-term success.

For a summary of the material terms and conditions of these agreements with the NEOs, as well as the material terms and conditions of their termination of employment and change in control protections, see "Employment Agreements and Change of Control and Severance" below.

Other Compensation Policies

Compensation Recovery Policy

In 2011, the Compensation Committee considered adopting a policy regarding retroactive adjustments to any cash or equity-based incentive compensation paid to the NEOs, executives and other employees where the payments were predicated upon the achievement of financial results that were subsequently the subject of a financial restatement. Effective January 1, 2012, the Company has incorporated provisions in its NEO employment agreements that allow the Company to recover compensation in the future. The Compensation Committee decided to postpone adoption of a general compensation recovery ("**clawback**") policy covering the annual and long-term incentive award plans and arrangements until such time as the SEC issues final rules implementing the requirements of Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code prohibits public companies from taking a tax deduction for a taxable year for compensation in excess of \$1 million paid to its chief executive officer or each of the other three most highly compensated executive officers (not including the chief financial officer) who are employed by the Company as of the end of the year. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. The Company periodically reviews the potential consequences of Section 162(m) on the components of its executive compensation program. Executive compensation paid during fiscal 2012 complied with Section 162(m) to the extent it was applicable.

We follow Financial Accounting Standards Board Accounting Standards Codification Topic 718 for all stock-based awards. ASC Topic 718 requires companies to measure the compensation expense for all share-based payment awards made to employees and directors, including stock options and restricted stock awards, based on the aggregate grant date “fair value” of these awards. This calculation is performed for accounting purposes and reported in the compensation tables below. ASC Topic 718 also requires companies to recognize the compensation cost of their stock-based compensation awards in their income statements over the period that an executive officer is required to render service in exchange for the option or other award.

Risk Assessment

To determine the level of risk arising from our compensation policies and practices, the Company conducted a compensation-related risk assessment and evaluation process during fiscal 2011 under the oversight of the Compensation Committee. The Compensation Committee reviewed this assessment in fiscal 2012 and determined that it remains relevant for current considerations. This assessment examined the compensation programs applicable to all of our employees, including, but not limited to, the NEOs. Areas of potential risk that were reviewed included: a) compensation program design; b) performance metrics and goal setting; c) administration procedures and controls; and d) communication and disclosure. The Company’s culture and values which emphasize ethical behavior, actions that contribute to building long-term value (rather than short-term performance), teamwork, the importance of nonfinancial and strategic performance and investment in people and infrastructure were also considered.

The Compensation Committee determined that base salaries, which represent fixed compensation, do not encourage excessive risk taking. The Compensation Committee reviewed the annual incentive award program and determined that while the focus of the annual incentive awards is on achievement of short-term goals, and short-term goals may encourage the taking of short-term risks at the expense of long-term results, the annual incentive compensation of the NEOs represents a small portion of each individual’s total compensation package and is not likely to lead to outsized risk taking. Moreover, the Compensation Committee believes that the annual incentive award appropriately balances risk and the desire to focus executives on specific short-term goals important to the Company’s success. Under the annual incentive award program for fiscal 2012, all payments were capped at 125% of target award opportunities and a minimum level of performance was clearly defined, below which awards would not be paid. The annual incentive award program is based on balanced, quantitative performance metrics that promote disciplined progress towards longer-term goals and, as such, are well-aligned with the business strategy and shareholder interests. For these reasons, the Compensation Committee determined that annual incentive awards do not encourage unnecessary or excessive risk taking.

The Compensation Committee also assessed the long-term equity incentive awards provided to our employees that are intended to align their interests with those of the Company’s shareholders. In reviewing the Company’s 2010 Amended and Restated Equity Incentive Plan which governs the terms of such awards, the Compensation Committee noted the

plan includes many provisions designed to mitigate risk and protect shareholder interests, including, but not limited to, the following:

-

Options and stock appreciation rights may not be priced at less than the fair market value of our common stock on the grant date;

-

The plan requires a minimum period for ratable vesting of options, shares of restricted stock and stock appreciation rights of three years for all time-based awards not issued to directors and one year for all performance-based awards, to the extent such awards may be paid in shares of our common stock. The minimum period for vesting is subject to the discretion of the Compensation Committee under certain circumstances (e.g., retirement, death, disability);

-

Material amendments of the plan require shareholder approval; and

-

The plan is administered by an independent committee of our Board of Directors.

-

In addition, the Compensation Committee has adopted a Grant Administration Policy which imposes limits on the number of shares that can be granted to any employee.

With respect to the long-term equity incentive awards granted to the executives, the Compensation Committee identified a number of factors that discourage excessive risk taking including: the relative size of the awards as compared with the executive's total compensation; the minimum vesting requirements; and the Company's policy which prohibits all hedging transactions involving shares of the Company's common stock so executives cannot insulate themselves from the effects of poor stock price performance. The Compensation Committee concluded that these awards do not encourage unnecessary or excessive risk taking since the ultimate value of the awards is tied to the Company's stock price, and the awards are staggered and subject to long-term vesting schedules to help ensure that executives have significant value tied to long-term stock price performance.

Based upon the assessment, the Compensation Committee concluded that the risks arising from our compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

The amounts reported in the Stock Awards column reflect the aggregate grant date fair value of stock awards, respectively, during each of the fiscal years 2012, 2011, and 2010. These values have been determined under the principles used to calculate the grant date fair value of equity awards for purposes of the Company's financial statements. For a discussion of the assumptions and methodologies used to value the awards reported in these columns, please see the discussion of stock awards contained in Note 14 of Notes to Consolidated Financial Statements of the Company's Annual Report on Form 10-K for the year ended October 31, 2012.

(2)

The amounts reported in the Non-Equity Incentive Plan column represent the value of the annual incentive award payment made to each NEO in fiscal 2012, 2011, and 2010, without regard to the form of payment. The amounts

reported for fiscal 2012 (paid in 2013) were paid in cash. The amounts reported for fiscal 2010 (paid in fiscal 2011) were paid one-third in cash and two-thirds in fully-vested shares of the Company's common stock. (3)

The amounts reported in the All Other Compensation column represent the aggregate Company contributions to the accounts of the NEOs for fiscal 2012 under the Company's Section 401(k) Retirement Savings plan, a tax-qualified defined contribution plan. In February 2009, the Company suspended the employer matching contribution, which was subsequently reinstated on January 1, 2012. Mr. Rauseo waived health insurance coverage in 2011 and received a \$1,200 allowance in accordance with the Company's policy.

(1)

The actual payment with respect to the fiscal 2012 annual incentive awards is reported in the “Summary Compensation Table” under the “Non-Equity Incentive Plan Compensation” column. The amounts reported in the threshold, target and maximum columns reflect the range of potential payments for fiscal 2012 that could have been made under the MIP in accordance with the financial goals determined by the Compensation Committee. Threshold amounts represent the minimum amount payable of 50% of the Target Annual Incentive Award for each NEO. If actual performance falls below the minimum level required, then payment of an award is at the discretion of the Compensation Committee and could be zero. Target amounts assume achievement of 100% of the Company’s financial goals. The Maximum amounts shown represent theoretical maximum payments that could be made,

however payout at the maximum has never been attained. For more information, see the explanation in the CD&A under the sub-heading “Variable Compensation”.

(2)

Restricted Stock Awards – Amounts reported in the “All Other Stock Awards” column represent the number of restricted shares granted to each NEO under the 2006 and 2010 Amended and Restated Equity Incentive Plans. The number of restricted shares was determined based upon the dollar value, as determined by the Compensation Committee, to be awarded to each executive and the closing market price of the Company’s common stock on the date of grant.

Grants of Plan-Based Awards

The restricted stock awards granted to the NEOs in fiscal 2012 as reflected in the Grants of Plan-Based Awards Table were granted pursuant to the Company’s 2006 and 2010 Amended and Restated Equity Incentive Plans. These awards were made on the same terms as the awards granted to all other eligible employees. The material terms and conditions of these awards are as follows:

-

Each award vests at a rate of 25% per year beginning on the first anniversary of the date of grant;

-

The Board of Directors may determine the effect on an award of the disability, death, retirement or other termination of employment of a NEO and the extent to which, and the period during which, the NEO’s legal representative, guardian or designated beneficiary may receive payment of an award or exercise rights thereunder;

-

The value of each award is based upon the number of shares of the Company’s common stock that could be purchased at the closing market price of the Company’s common stock on the date of grant.

For further information on the restricted stock awards included in the Grants of Plan Based Award Table, refer to the discussion of Long-Term Incentive Compensation on page 19 of this Proxy Statement.

Employment Agreements and Change of Control and Severance

Messrs. Bottone, Bishop and Rauseo have agreements with the Company, under which they are eligible to receive certain severance payments and benefits in connection with a termination of employment under various circumstances, including following a change of control of the Company.

In reporting the estimated potential payments and benefits payable to each NEO in the event of termination of employment as of October 31, 2012, we assumed the terms of these agreements were applicable. The actual amounts that would be paid or distributed to the NEOs as a result of one of the termination events occurring in the future may be different than those presented below as many factors will affect the amount of any payments and benefits upon a termination of employment. For example, some of the factors that could affect the amounts payable include the NEO's base salary and the market price of the Company's common stock. In addition, although we have entered into written arrangements to provide severance payments and benefits to certain of the NEOs in connection with a termination of employment under particular circumstances, we may mutually agree with the NEOs on severance terms that vary from those provided in these pre-existing agreements. Finally, in addition to the amounts presented below, each NEO would also be able to exercise any previously-vested stock options that he held. For more information about the NEOs' outstanding equity awards as of October 31, 2012, see "Fiscal 2012 Outstanding Equity Awards at Fiscal Year-End Table."

In addition to the severance payments and benefits described in each NEO's individual agreement, these executive officers are eligible to receive any benefits accrued under our broad-based benefit plans, such as accrued vacation pay, in accordance with those plans and policies.

Mr. Bottone

On February 8, 2011, the Company entered into a new employment agreement (the "**Agreement**") with Mr. Bottone upon his promotion to President and Chief Executive Officer. Under the Agreement, which is terminable by either party upon 30 days written notice, Mr. Bottone was entitled to an initial annual base salary of \$340,000, to be reviewed at least annually by the Board of Directors, and a target annual incentive award opportunity equal to 50% of Mr. Bottone's base salary also to be determined and approved by the Board of Directors. Mr. Bottone was then granted a restricted stock award in connection with his promotion for 180,000 shares of the Company's common stock valued at \$360,000, based on the closing market price at date of grant. The Agreement also provides Mr. Bottone with the opportunity to participate in insurance plans and other employee benefits as may be generally available to other employees of the Company. The Agreement also contains non-disclosure provisions and prohibits Mr. Bottone from competing with the Company during the term of his employment and for a period of two years thereafter.

In the event of a change in control of the Company leading to a voluntary resignation by Mr. Bottone or, in the event Mr. Bottone's employment is terminated by the Company without cause, he is eligible to receive a severance payment in an amount equal to two times his then-current annual base salary as of the date of termination plus the average of the bonuses paid to him since the effective date of his employment agreement. In the event of termination of Mr. Bottone's employment by the Company for cause, the Company shall pay Mr. Bottone any base salary and vacation accrued but as yet unpaid on the effective date of such termination. Mr. Bottone's outstanding and unvested stock options and restricted stock awards accelerate and immediately vest upon a change of control of the Company.

DIRECTOR COMPENSATION

The Board of Directors periodically reviews director compensation. The compensation and benefits program for non-employee directors described below was approved by the Board of Directors in fiscal 2005 and was amended by the Board in fiscal 2008. In recommending this program to the Board of Directors, the Compensation Committee was guided by the following goals: compensation should fairly pay directors, compensation should align directors' interests with the long-term interests of our shareholders and the structure of the compensation should be simple, transparent and easy for our shareholders to understand.

The compensation of the directors includes a combination of both cash and equity. Directors receive an annual retainer and committee member and chair fees. Directors may elect to receive these fees in cash, shares of the Company's common stock or stock options to purchase shares of the Company's common stock. In addition, directors also receive an annual long-term equity incentive award. Following is a description of the components of the director compensation program.

New Board Members

Upon election to the Board of Directors, a non-employee director is granted a non-qualified stock option to purchase 40,000 shares of the Company's common stock. The value of each award is based upon the number of shares of the Company's common stock that could be purchased at the closing market price of the Company's common stock on the date of grant.

Annual Director Compensation

The standard fee arrangements for non-employee directors include a retainer of \$30,000 per year for service as a director. In addition, committee fees have been established based upon the expected number of meetings and level of activity during the year. Non-Chair committee fees are \$5,000 for the first committee of which the director is a member and \$2,500 for each additional committee of which the director is a member. Chair committee fees are \$12,500 for the Compensation, Audit and Finance, Executive, Government Affairs and Nominating and Corporate Governance Committees. The non-employee Chairman of the Board receives a fee of \$20,000 annually.

All director fees are payable, at the option of the non-employee director, in cash, shares of the Company's common stock or stock options to purchase shares of the Company's common stock.

In addition to the fees described above, the non-employee directors also receive a long-term equity incentive award valued at \$28,000 per year which may be delivered in the form of shares of the Company's common stock or stock options to purchase shares of the Company's common stock (at the election of the director).

If a non-employee director chooses to receive his long-term equity incentive award or his director fees in the form of stock options to purchase shares of the Company's common stock, the total number of shares of common stock subject to the options are based on a Black-Scholes calculation as determined on or about the date of the Company's annual meeting of shareholders. The exercise price of any stock options will be equal to the closing market price of the Company's common stock on such date. These stock options vest at the rate of 25% per quarter from the date of grant.

In 2011, the Compensation Committee engaged Compensia to perform a competitive market analysis of each component of the director compensation program. Compensia developed a Peer Group consisting of 16 publicly traded companies which are listed on page 17 of this proxy statement. Based on this review, the Compensation

Committee determined that the base cash retainer fees and the total average cash fees (including retainers, committee and chair fees, and meeting fees) were consistent with the median values provided to the directors of the Peer Group companies.

Directors Deferred Compensation Plan

Pursuant to the Company's Directors Deferred Compensation Plan, directors may elect to defer until a predetermined date or until they leave the Board of Directors, receipt of all or a portion of their fees, whether paid in cash or equity. The election to defer receipt of all or a portion of their fees must be made by the director prior to December 31st of each calendar year or, with respect to a newly eligible director, within 30 days after such director becomes eligible to participate in the Directors Deferred Compensation Plan.
