INFORMATION CONTAINED IN THIS FORM 6-K REPORT

**EXHIBIT 1**

**STAR BULK DELIVERS THE PANAMAX STAR IOTA TO ITS BUYERS**

**Athens, Greece, October 7, 2008** - Star Bulk Carriers Corp. (NASDAQ:SBLK) announced today that it has delivered the Star Iota, a Panamax bulk carrier of approximately 78,585 dwt, built in 1983 in S. Korea to its buyers. The Star Iota had been previously sold for approximately \$18.3 million.

With the delivery of Star Iota to its buyers, Star Bulk has completed all deliveries of vessels for either purchase or sale, to date. Star Bulk's fleet currently consists of twelve dry bulk carriers. The contracted fleet operating days under time charter in 2008, 2009 and 2010 is currently 100%, 90% and 69% respectively.

**Akis Tsirigakis, President and CEO of Star Bulk commented:** We are pleased to have delivered the oldest vessel of our fleet to its buyers. This disposal has reduced by 1.3 years the average age of the fleet to 9.4 years, well below the industry average of about 17 years. Star Bulk's limited exposure to current market volatility because of its high charter coverage, coupled with a strong balance sheet affords us flexibility in planning our company's path and to take advantage of opportunities that may arise.

**Fleet Table:**

<b>Vessel Name</b>	<b>Type</b>	<b>DWT</b>	<b>Year Built</b>	<b>Time Charter Expiry (1)</b>	<b>Time Charter Rate (2)</b>

(1)

Range represents the earliest and latest expiry dates allowed by the charter party. Charterers have the right to add off-hire days, if any, which occurred during the charter period.

(2)

Represents the gross daily rate

### About Star Bulk

Star Bulk is a global shipping company providing worldwide seaborne transportation solutions in the dry bulk sector. Star Bulk's vessels transport major bulks, which include iron ore, coal and grain and minor bulks such as bauxite, fertilizers and steel products. Star Bulk was incorporated in the Marshall Islands on December 13, 2006 and is headquartered in Athens, Greece. Its common stock and warrants trade on the NASDAQ Global Market under the symbols "SBLK" and "SBLKW" respectively. Currently, Star Bulk has an operating fleet of twelve dry bulk carriers. The total fleet consists of four Capesize and eight Supramax dry bulk vessels with an average age of approximately 9

years and a combined cargo carrying capacity of 1,106,250 deadweight tons.

### **Forward-Looking Statements**

The information in this press release may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements regarding: (1) the delivery and operation of assets of Star Bulk; (2) Star Bulk's future operating or financial results; (3) future, pending or recent acquisitions, business strategy, areas of possible expansion, and expected capital spending or operating expenses; (4) drybulk market trends, including charter rates and factors affecting vessel supply and demand; and (5) other statements identified by words such as "anticipate," "believe," "plan," "estimate," "expect," "intend," "will," "should," "may," or words of similar meaning.

Such forward looking statements are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, Star Bulk's examination of historical operating trends, data contained in their records and other data available from third parties. Although Star Bulk believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond their control, Star Bulk cannot assure you that Star Bulk will achieve or accomplish these expectations, beliefs or projections. Important factors that could cause actual results to differ materially from those discussed in the forward-looking statements include the failure of a seller to deliver one or more vessels, the strength of world economies and currencies, general market conditions, including changes in charterhire rates and vessel values, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled drydocking, changes in Star Bulk's operating expenses, including bunker prices, dry-docking and insurance costs, or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists. Additional factors that could cause Star Bulk's results to differ materially from those described in the forward-looking statements can be found in Star Bulk's Registration Statement on Form F-1/F-4 and reports on Form 6-K filed with the Securities and Exchange Commission (the "SEC") and available at the SEC's Internet site (<http://www.sec.gov>). The information set forth herein speaks only as of the date hereof, and Star Bulk disclaims any intention or obligation to update any forward looking statements as a result of developments occurring after the date of this communication.
