INDEPENDENT DIRECTORS

The Board of Directors is comprised of five (5) members, of which three (3) are classified as "independent" as defined in the NASDAQ Stock Market Marketplace Rule 4200. The three independent directors are Ken Maddison, Victor Halpert and Doron Nevo.

MEETINGS OF THE BOARD OF DIRECTORS

The Board of Directors held 7 meetings during the year ended December 31, 2005. Each director attended at least (i) 75% of all of the meetings of the Board of Directors held during the period and (ii) 75% of the meetings of each committee on which he or she served. The Company does not have a policy requiring incumbent directors and director nominees to attend the Company's annual meeting of stockholders. Three incumbent directors attended last year's annual meeting.

COMMITTEES OF THE BOARD OF DIRECTORS

The Company has a separately designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act. Serving on the Committee are Messrs. Maddison and Halpert with one position vacant. The Board of Directors has adopted a written charter for the Audit Committee. The Board of Directors has determined that it has an audit committee financial expert serving on the audit committee, Mr. Ken Maddison. Mr. Maddison is an independent director as defined in Item 7(d)(3)(iv) of Schedule 14A. The functions of the Audit Committee are, among other things, to make recommendations concerning the selection each year of independent auditors of the Company, to review the effectiveness of the Company's internal accounting methods and procedures, to consider whether the Company's principal accountant's provision of non-audit services is compatible with maintaining the principal accountant's independence and to determine through discussions with the independent auditors whether any instructions or limitations have been placed upon them in connection with the scope of their audit or its implementation. To carry out its responsibilities, the Audit Committee met four times during fiscal 2005. The Board of Directors has determined that the two current members of the Audit Committee are "independent" as defined in the NASDAQ Stock Market's Marketplace Rule 4200.

The Compensation Committee is comprised of Mr. Nevo and Mr. Chamberlain, with one position vacant. The function of the Compensation Committee is to make recommendations to the Board of Directors concerning the compensation packages for the Executive Officers of the Company, including its Chief Executive Officer. To carry out its responsibilities, the Compensation Committee met three times during fiscal 2005. The Board of Directors has determined that one of the members of the Compensation Committee, Mr. Nevo, is "independent" as defined in the NASDAQ Stock Market's Marketplace Rule 4200.

The Company does not have a standing Nominating Committee. Due to the size of the Company, as well as the lack of turnover in the Company's Board of Directors, the Board of Directors has determined that it is not necessary or appropriate at this time to establish a separate Nominating Committee. Potential candidates are discussed by the entire Board of Directors, and director nominees are selected by Board of Director resolution subject to the recommendation of a majority of the independent directors. All of the nominees recommended for election to the Board of Directors at the Annual Meetings are directors standing for re-election, except for the three persons nominated pursuant to the terms of the agreement to acquire Cellertra Ltd. Although the Board of Directors has not established any minimum qualifications for director candidates, when considering potential director candidates, the Board considers the candidate's character, judgment, diversity, skills, including financial literacy, and experience in the context of the needs of the Company and the Board of Directors. In 2005 the Company did not pay any fees to any third party to assist in identifying or evaluating potential nominees.

The Company's By-laws include a procedure whereby its stockholders can nominate persons for election to the Board of Directors, as more fully described in its By-laws as summarized under "Stockholder Proposals for the 2006 Annual Meeting." The Board of Directors will consider director candidates recommended by the Company's stockholders in a similar manner as those recommended by members of management or other directors, provided the stockholder submitting such nomination has complied with the procedures set forth in its By-laws. To date, the Company has not received any recommended nominees from any non-management stockholder or group of stockholders that beneficially owns five percent of its voting stock.

EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT AND CHANGE IN CONTROL ARRANGEMENTS

There are no employment agreements between us or any of our subsidiaries and any of our Named Executive Officers.

Our company has no plans or arrangements in respect of remuneration received or that may be received by any Named Executive Officers of our company to compensate such officers in the event of termination of employment (as a result of resignation, retirement, change of control) or a change of responsibilities following a change of control, where the value of such compensation exceeds \$100,000 per Named Executive Officer.

COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS

Our directors receive \$1,000 per board meeting and \$500 per committee meeting. Our Audit Committee Chairman receives \$12,000 per year. Directors are entitled to reimbursement of expenses incurred in attending meetings. In addition, our directors are entitled to participate in our stock option plan. Members of our board of directors receive annual grants of options as follows:

Director	25,000 options
Audit Committee Chairman	25,000 options
Audit Committee Member	5,000 options

There are no arrangements or plans in which we provide pension, retirement or similar benefits for directors or executive officers. We have no material bonus or profit sharing plans pursuant to which cash or non-cash compensation is or may be paid to our directors or executive officers, except that stock options may be granted at the discretion of the Board of Directors or a committee thereof.

During the year ended December 31, 1998, we established a stock option plan pursuant to which 3,000,000 shares were reserved for issuance. This plan was replaced when, on December 6, 1999, we adopted a new stock option plan (the 1999 Stock Option Plan) pursuant to which 5,000,000 shares were reserved for issuance. On July 5, 2000, the stockholders approved this plan including a change in the maximum number of options issuable under this plan to 20% of the number of shares outstanding including shares of Common Stock issuable under the plan. As of December 31, 2005, this maximum number was 18,177,079. All outstanding options will be subject to the provisions of the new plan.

Where options issued after January 18, 2001 have an exercise price in a currency that is not either the (a) functional currency of our company or (b) the currency in which the employee is paid, the options are to be accounted for as variable plan options and compensation expense will be recorded equal to changes in the market value of the underlying shares at each reporting period.

Stock options become exercisable at dates determined by our board of directors at the time of granting the option and generally have initial terms of five years.

The fair value of each option granted in the years ended December 31, 2005 and 2004 was estimated on the date of the grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: no dividend yield; volatility of 154% (2004 - 175%) based on weekly stock price; risk-free interest rate of 3.25% (2004 - 3.25%) and expected lives between one to five years. The weighted-average fair value of options granted during the years ended December 31, 2005 and 2004 was \$0.21 and \$0.45 respectively.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Other than as disclosed below, there have been no transactions, or proposed transactions, which have materially affected or will materially affect us in which any director, executive officer or beneficial holder of more than 5% of the outstanding Common Stock, or any of their respective relatives, spouses, associates or affiliates, has had or will have any direct or material indirect interest.

In August 2003 we entered into a consulting agreement with Myer Bentob. Under the agreement, Mr. Bentob agreed, among other things, to assist the Company's sales and marketing efforts. The Company agreed to nominate him to be a director and Executive Vice Chairman, and to pay a fee to an entity controlled by Mr. Bentob equal to CDN \$84,000 per year, plus commission at a maximum rate of 1.8% of amounts collected by the Company from specified clients. The agreement also contains a non-compete provision that continues for six months after termination, and confidentiality requirements. This agreement was terminated January 14, 2005 upon Mr. Bentob's resignation as a director and Executive Chairman of the Company.

In August 2003, the Company in a private placement issued to Mr. Bentob 833,333 shares of Common Stock for US \$108,333, together with warrants to purchase 416,667 shares at US \$0.26 per share. In March 2004, Mr. Bentob further subscribed for 1,016,105 shares of Common Stock for US\$152,415.75 together with warrants to purchase 508,053 shares at US\$0.30.

ITEM II. RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

Subject to approval by the stockholders, the Board of Directors has appointed KPMG LLP as the independent auditors to audit the financial statements of the Company for the fiscal year ending December 31, 2005. KPMG LLP has served as the Company's auditors for each of the fiscal years ended since December 31, 2001. It is expected that a representative of KPMG LLP will be present at the Annual Meeting with the opportunity to make a statement if he desires to do so and to be available to respond to appropriate questions from stockholders.

In the event that the stockholders fail to ratify this appointment, other certified public accountants will be considered upon recommendation of the Audit Committee. Even if this appointment is ratified, our Board of Directors, in its discretion, may direct the appointment of a new independent accounting firm at any time during the year, if the Board believes that such a change would be in the best interest of the Company and its stockholders.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR RATIFICATION OF THE APPOINTMENT OF KPMG LLP AS INDEPENDENT AUDITORS

ITEM III. ADOPTION OF AMENDMENT TO CERTIFICATE OF INCORPORATION

At the Special Meeting, shareholders will be asked to adopt an amendment to the Company's Certificate of Incorporation to increase the number of authorized shares of the Company from 150,000,000 to 400,000,000 shares of Common Stock, with a par value of \$.001 per share (the Amendment). Our Board of Directors has approved the Amendment subject to shareholder authorization.

The text of the amendment to the Certificate of Incorporation increasing the number of authorized shares of Common Stock is set forth in Exhibit A to this Proxy Statement. The text of the amendment to the Certificate of Incorporation is subject to modification to include such changes as may be required by the office of the Secretary of State of the State of Delaware and as the Board of Directors deems necessary and advisable to effect the Amendment.

Of the 400,000,000 shares of Common Stock to be authorized, [92,114,284] shares will constitute shares of Common Stock issued and outstanding prior to the Amendment, 19,487,097 shares will be available to permit the exercise of issued and outstanding options and warrants, 12,830,000 shares will be available to permit the conversion of outstanding convertible notes, 20,000,000 shares will be reserved to permit the conversion of Series A Shares, and 90,000,000 shares will be reserved to permit the conversion of Series B Convertible Non-redeemable Preferred Shares (Series B Shares) that may be issued pursuant to the acquisition of Celletra Ltd. (as described below), 40,000,000 shares will be reserved to permit the exercise of warrants that may be issued pursuant to the acquisition Celletra Ltd., and the balance will be available for issuance by the Board of Directors. The increase in the authorized number of shares of Common Stock or the issuance of new shares of Common Stock, may have a depressive effect on the market price of the Common Stock.

The terms of the additional shares of Common Stock will be identical to those of the currently outstanding shares of Common Stock. Because holders of Common Stock have no preemptive rights to purchase or subscribe for any unissued stock of the Company, the issuance of additional shares of Common Stock will reduce the current stockholders' percentage ownership in the total outstanding shares of Common Stock. This Amendment and the creation of additional shares of authorized Common Stock will not alter the current number of issued shares. The relative rights and limitations of the shares of Common Stock will remain unchanged under this Amendment.

The proposed increase in the authorized number of shares of Common Stock could have a number of effects on the Company's stockholders depending upon the exact nature and circumstances of any actual issuances of authorized but unissued shares. The increase could have an anti-takeover effect, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of the Company more difficult. For example, additional shares could be issued by the Company so as to dilute the stock ownership or voting rights of persons seeking to obtain control of the Company, even if the persons seeking to obtain control of the Company offer an above-market premium that is favored by a majority of the independent shareholders.

Similarly, the issuance of additional shares to certain persons allied with the Company's management could have the effect of making it more difficult to remove the Company's current management by diluting the stock ownership or voting rights of persons seeking to cause such removal. The Company does not have any other provisions in its articles of incorporation, by-laws, employment agreements, credit agreements or any other documents that have material anti-takeover consequences. The Company has no plans or proposals to adopt other provisions or enter into other arrangements that may have material anti-takeover consequences. The Board of Directors is not aware of any attempt, or contemplated attempt, to acquire control of the Company, and this Amendment is not being taken with the intent that it be utilized as a type of anti-takeover device.

The issuance of new shares of Common Stock that would be authorized if the Amendment is approved could in a number of ways adversely affect the holders of shares of the Common Stock that are currently outstanding. For example, the voting power of our outstanding Common Stock will be diluted to the extent we issue additional shares of Common Stock in the future. Also, depending upon the number of shares of Common Stock issued and the relationship thereof to the book value of the Common Stock, it is possible that issuance of any of the Common Stock could have a dilutive effect on stockholders' equity in the Company.

The following table sets out information respecting the number of outstanding shares, and reserved but unissued shares of Common Stock of the Company as at the Record Date, taking into account the completed and pending transactions described below:

DESCRIPTION	NUMBER OF ISSUED OR RESERVED
Shares outstanding as at Record Date	93,216,464 shares
Shares reserved to permit the exercise of issued and outstanding stock options and warrants	19,853,347 shares
Shares reserved to permit the conversion of outstanding convertible notes (excluding notes issued pursuant to February 2006 financing and Avantry acquisition)	16,322,275 shares
Shares reserved to date pursuant to February 2006 financing	10,000,000 shares
Additional Shares to be reserved pursuant to February 2006 financing following increase to authorized capital.	12,000,000 shares
Shares reserved to permit the conversion of outstanding convertible notes and warrants issued pursuant to Avantry acquisition	7,600,000 shares
Shares to be reserved to permit the conversion of Series A Shares issued pursuant to Celerica acquisition	20,000,000 shares
Shares to be reserved to permit the conversion of Series B Shares to be issued pursuant to Celletra acquisition	90,000,000 shares
Shares to be reserved to permit the exercise of warrants to be issued pursuant to the Celletra acquisition	40,000,000 shares
Total	308,992,086 shares
Number of authorized but unreserved shares	91,007,914
Total number of shares to be authorized	400,000,000

The Company expects that the conversion and exercise of any securities that the Company issues in any financing may require the issuance of a portion of the additional shares of Common Stock that are proposed for authorization by the shareholders at the Special Meeting. The Company also expects that any such financing that is consummated will provide for early repayment or repurchase by the Company of the securities to be issued in the financing, as well as material penalties, if the additional shares of Common Stock are not authorized by shareholders at the Special Meeting.

Considerations for the Amendment

We believe that the increase in the number of authorized shares of Common Stock is in the best interests of our Company and its shareholders since the increase in the number of authorized but unissued shares of Common Stock that would be available for issuance would permit the Company to reserve and issue the shares of Common Stock in compliance with its obligations under the transactions described below and, in addition, would enable the Company,

without further stockholder approval, to issue shares for proper business purposes, such as raising additional capital for ongoing operations, business and asset acquisitions, stock splits and dividends, present and future employee benefit programs and other corporate purposes.

The Company has completed, or entered into agreements respecting, a number of transactions which require the Company to increase the authorized number of shares of Common Stock in order to permit the Company to issue a sufficient number of shares to comply with the Company's obligations pursuant to those transactions and agreements.

At the present time the Company does not have enough authorized shares to satisfy all of those obligations. As indicated in the table set out above, the Company will be required to issue or reserve a total of 309,442,727 shares of the Common Stock to satisfy all of its obligations pursuant to these transactions. As a result, the Company is asking Shareholders to approve increasing the authorized number of shares to 400,000,000, which would permit the Company to satisfy those obligations and provide additional authorized but unreserved shares for future option grants, financing transactions, acquisitions and other corporate purposes.

The transactions and agreements that the Company has entered into which require it to increase its authorized number of shares are described below.

February 2006 financing:

On February 28, 2006, the Company sold to private investors \$2,200,000 principal amount of Secured Convertible Notes (Notes) and warrants to purchase 6,875,000 shares of Common Stock at \$0.16 per share (Warrants).

The Notes bear interest at the rate of 8% per annum. [At the option of the Company] interest is payable quarterly beginning July 1, 2006 in cash or, subject to certain conditions, in registered Common Stock valued at 85% of the then volume weighted average price. Because the shares that may be issued in payment of interest will be based upon the then current market price it is not possible to determine the number of shares that may be issued in payment of interest. The lower the market price, the greater the number of shares will have to be issued in payment of the interest. Based upon the most recent market price \$.135 the Company may be required to issue 4,601,307 shares in payment of interest. At market prices that are 25%, 50% and 75% below the most recent market price the number of shares that may be required to be issued in payment of interest would then be 6,135,076, 9,202,614 and 18,405,229. The principal amount of the Notes is due on February 28, 2009 and is secured by all of the assets of the Company.

The Notes are convertible into Common Stock at the option of the holders at \$0.16 per share, provided that until July 1, 2006 the Notes are convertible into a maximum aggregate of 10,000,000 shares of Common Stock. Subject to certain conditions, the conversion price will be reduced on an unweighted basis if the Company issues equity securities at an effective price of less than \$0.16 per share. Also, subject to certain conditions, the Company can force conversion of the Notes if the volume weighted average price of the Common Stock is at least \$0.32 for 20 consecutive trading days.

The Warrants are exercisable at \$0.16 per share and expire on February 28, 2011. Subject to certain conditions, the exercise price will be reduced on an unweighted basis if the Company issues equity securities at an effective price of less than \$0.16 per share. In addition, subject to certain conditions, the Warrants will expire unless exercised within a specified number of days after the Company gives due notice that the volume weighted average price of the Common Stock was at least \$0.32 for 20 consecutive trading days.

The Company agreed to register the shares of Common Stock issuable upon conversion of the Notes and exercise of the Warrants, and any shares that the Company may propose to issue in payment of interest on the Notes.

In connection with the financing, the Company paid \$176,000 in placement fees to Cambria Capital, LLC (Cambria) and approximately \$10,000 of expenses, excluding fees of the Company's counsel. Cambria introduced the Company to the purchasers in the financing and assisted in the negotiating the terms between the Company and the purchasers. The Company also issued to Cambria warrants to purchase 1,375,000 shares of Common Stock at an exercise price of \$0.16 per share and in the form of the Warrants.

In connection with the financing, the Company reduced from \$0.20 to \$0.16 the per share conversion price of \$1,200,000 principal amount of secured convertible notes previously issued to investors in the offering (prior notes), and reduced from \$0.20 to \$0.10 the per share exercise price of 2,500,000 warrants previously issued to these investors. The investors extended the maturity date of the prior notes from August 31, 2006 (as to \$250,000 principal amount) and February 11, 2007 (as to \$950,000 principal amount) to February 28, 2009.

The Company consummated the February 2006 financing to obtain working capital that it needed for its operations. The extension of the maturity dates of previously outstanding notes benefited the Company by extending the date when it will be required to obtain the funds to discharge these notes. Given these considerations, and given that management of the Company believes that it could obtain shareholder approval to increase the authorized number of shares, the Company entered into the February 2006 financing notwithstanding that at the time the Company did not have sufficient authorized shares to meet the conversion and other requirements of the financing.

However, the February 2006 financing could adversely affect the Company in a number of ways. The increase in the number of shares of Common Stock that are issuable on conversion and exercise of the securities issued in the financing, and as dividends on the Notes, will likely tend to reduce the market price of the shares of Common Stock. The reduction in the exercise price of previously outstanding warrants will make it more attractive for the holders of these warrants to exercise their warrants and sell the underlying shares of Common Stock at lower prices. Any reduction of the conversion price of the Notes and the exercise price of the Warrants - as required if the Company issues equity securities at an effective price of less than \$0.16 per share - would similarly make it more attractive for the holders of the Notes and Warrants to convert and exercise these securities and to sell the underlying shares at lower prices.

The security interest that the Company granted in respect of the Notes may make it more difficult for the Company to obtain future financing, because persons providing future financing may require as a condition of such financing that they be granted a security interest having priority over other security interests that may have been granted by the Company.

The following table sets out the purchasers in the February 2006 financing and identifies whether or not such purchasers also hold prior notes:

Purchaser in February 2006 financing	Holder of Prior Notes (yes / no)
Bushido Capital Master Fund LP	Yes
Gamma Opportunity Capital Patners LP	Yes
Centrecourt Asset Management	Yes

The Company is contractually bound to repay the Notes and incur at least a penalty if the Company does not increase the number of authorized shares of Common Stock to at least 300,000,000, or upon certain other defined default

events. The approval by the stockholders of the Amendment before June 28, 2006 will result in the timely increase of authorized shares required under the Notes. Should the stockholders fail to approve the Amendment, the Company will be required to seek immediate financings to repay the Notes and to pay the related penalties. The Company does not have any arrangement to obtain the funds that would be required for this purpose.

Avantry Ltd. Acquisition:

On June 8, 2006, the Company completed the acquisition of the outstanding shares of Avantry Ltd. (Avantry), an Israel based point-to-point microwave radio developer. The shares of Avantry were purchased for a price of \$1,750,000 which was paid by way of a note due April 15, 2007 that is convertible into shares of Common Stock at a price of \$0.25 per share, which would result in the issuance of up to 7,000,000 shares. In addition, the vendors were granted warrants to purchase 600,000 Common shares at a price of \$0.40 per share. The note does not bear interest, and the Company has the right to prepay the note in advance on 20 days notice. However, if the Company gives notice of its intention to make early payment of the note, the holder has the right to convert the note into shares at a reduced conversion price. In such event, the conversion price will be reduced by 1/36 of \$0.01 for each day remaining from the date of the notice of repayment until the maturity date (April 15, 2007). By way of example, if notice of early payment were given on August 15, 2006, the conversion price would be reduced to \$0.1825 per share, which would result in the issuance of 9,589,041 shares. In addition, if the note has not been converted by the maturity date and the Company defaults in payment of the note, then the conversion price shall be reduced to \$0.225 per share, which could give rise to the issuance of 7,777,778 shares. The Company's authorized share capital is presently sufficient to permit the issuance of shares required to be issued upon the conversion of the note and exercise of the warrants issued pursuant to the acquisition of Avantry. However, the reservation of that number of shares limits the authorized but unreserved number of shares available for the other transactions described in this Information Circular.

Acquisition of Celerica, Inc.

On July 4, 2006, the Company completed the acquisition of all of the issued and outstanding shares of Celerica, Inc. (Celerica). An Israel based developer of coverage enhanced solutions for 2G and 3G wireless networks. The purchase price for the shares of Celerica consisted of 20,000 Series A Convertible Non-redeemable Preferred Shares (Series A Shares) with a preference on liquidation of \$160 per Series A Share (being equivalent to \$0.16 per Common Share). Each Series A Share will automatically convert into 1,000 shares of Common Stock upon the effectiveness of a Certificate of Amendment to the Company's Certificate of Incorporation increasing the authorized number of shares of Common Stock. The conversion of the Series A Shares would give rise to the issuance of a total of 20,000,000 shares of Common Stock. Because the Company did not have sufficient authorized and unreserved shares of Common Stock to issue 20,000,000 shares directly to the Vendor's of Celerica, it issued the Series A Shares in order to permit the Company to complete this acquisition in a timely manner without having to obtain Stockholder approval to amend the Articles prior to the completion of the transaction.

Acquisition of Celletra Ltd.

On July 17, 2006, the Company entered into an agreement respecting the purchase of all of the shares of Celletra Ltd., an Israel based provider of coverage and capacity enhancement solutions for wireless communication networks. It is anticipated that this transaction will be completed prior to the Meeting. Upon the completion of this transaction the Company is to issue 70,000 Series B Convertible Non-redeemable Preferred Shares (Series B Shares). Each Series B Share will be convertible into 1,000 shares of Common Stock upon the effectiveness of a Certificate of Amendment to the Company's Certificate of Incorporation to increase the authorized number of shares of Common Stock. This would result in the issuance of a total of 70,000,000 shares of Common Stock. In addition, if Celletra Ltd. meets certain performance milestones the Company has agreed to issue an additional 20,000 Series B Shares and warrants to purchase 40,000,000 Common shares. If the designated performance milestones are met this will result in the Company issuing a total of 90,000,000 Common shares, and reserving an additional 40,000,000 Common shares pursuant to the possible exercise of warrants. 10,000,000 warrants will have an exercise price of \$0.20 per share, 10,000,000 warrants will have an exercise price of \$0.22 per share, 10,000,000 warrants will have an exercise price of \$0.27 per share and the remaining 10,000,000 warrants will have an exercise price of \$0.30 per share.

The agreement with Celletra Ltd. requires the Company to make its best efforts to have the Company's shareholders approve an amendment to its Articles of Incorporation to increase the authorized number of shares of Common Stock in order to permit the conversion of the Series B Shares. Without such an amendment the Company does not have a sufficient number of authorized and unreserved shares to permit it to issue 90,000,000 shares and to reserve an additional 40,000,000 shares for the acquisition of Celletra Ltd., which is why the Company has agreed to issue Series B Shares that are convertible into Common shares in order to permit this agreement to be entered into and the transaction to be completed in a timely manner without having to obtain prior approval of the shareholders to amend the Articles of Incorporation.

If the Articles of Incorporation of the Company are not amended to increase the authorized number of shares of Common Stock in order to permit the conversion of the Series B Shares, the Vendors of the shares of Celletra Ltd. will be entitled to require the Company to purchase such shares, based upon the weighted average trading price of the Common shares for the 30 day period prior to the demand for the purchase of the Series B Shares.

THE BOARD OF DIRECTORS OF THE COMPANY RECOMMEND THAT SHAREHOLDER VOTE IN FAVOUR OF ADOPTING AN AMENDMENT TO THE ARTICLES OF INCORPORATION TO INCREASE THE AUTHORIZED SHARES OF COMMON STOCK FROM 150,000,000 TO 400,000,000. Such an amendment would permit the Company to issue the shares contemplated to be issued pursuant to the transaction described above, would prevent the Company from being in default of its obligations pursuant to the various transactions described above as a result of failing to adopt such amendment, and would provide the Company with additional authorized and unreserved shares for possible future acquisitions, financing transactions, and option grants.
