NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION

Description of Business

Viacom is home to premier global media brands that create compelling television programs, motion pictures, short-form content, apps, games, consumer products, social media experiences and other entertainment content for audiences in 180 countries. Viacom operates through two reporting segments: Media Networks, which includes the Music & Entertainment Group, the Kids & Family Group and BET Networks, and Filmed Entertainment. The Media Networks segment provides entertainment content and related branded products for consumers in targeted demographics attractive to advertisers, content distributors and retailers. The Filmed Entertainment segment produces, finances, acquires and distributes motion pictures, television programming and other entertainment content under the Paramount Pictures, Paramount Vantage, Paramount Classics, Paramount Animation, Insurge Pictures, Nickelodeon Movies, MTV Films and Paramount Television brands. References in this document to “Viacom,” “Company,” “we,” “us” and “our” mean Viacom Inc. and our consolidated subsidiaries, unless the context requires otherwise.

Unaudited Interim Financial Statements

The accompanying unaudited consolidated quarterly financial statements have been prepared on a basis consistent with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and pursuant to the rules of the Securities and Exchange Commission (“SEC”). In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of our results of operations, financial position and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results expected for the fiscal year ending September 30, 2016 (“fiscal 2016”) or any future period. These financial statements should be read in conjunction with our Form 10-K for the year ended September 30, 2015, as filed with the SEC on November 12, 2015 (the “2015 Form 10-K”).

Use of Estimates

Preparing financial statements in conformity with GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities as of the dates presented and the reported amounts of revenues and expenses during the periods presented. Significant estimates inherent in the preparation of the accompanying Consolidated Financial Statements include estimates of film ultimate revenues, product returns, potential outcome of uncertain tax positions, fair value of acquired assets and liabilities, fair value of equity-based compensation and pension benefit assumptions. Estimates are based on past experience and other considerations reasonable under the circumstances. Actual results may differ from these estimates.

Reclassification

Certain prior year amounts have been reclassified to conform to the fiscal 2016 presentation.

Recent Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-09 - Compensation - Stock Compensation: Improvements to Employee Share-Based Payment Accounting. ASU 2016-09 includes provisions intended to simplify various aspects related to how share-based payments are accounted for and presented in the financial statements, such as requiring all income tax effects of awards to be recognized in the income statement when the awards vest or are settled and allowing a policy election to account for forfeitures as they occur. In addition, all related cash flows resulting from share-based payments will be reported as operating activities on the statement of cash flows. The guidance will be effective for the first interim period of our 2018 fiscal year, with early adoption permitted. The new standard will impact our financial statements by increasing or decreasing our income tax provision and increasing cash flow from operating activities.

In February 2016, the FASB issued ASU 2016-02 - Leases. ASU 2016-02 requires lessees to recognize a right-of-use asset and a lease liability on the balance sheet for most leases. For income statement purposes, leases will be classified

as either operating or finance, generally resulting in straight-line expense recognition for operating leases (similar to current operating leases) and accelerated expense recognition for financing leases (similar to current capital leases). The guidance will be effective for the first interim period of our 2020 fiscal year, with early adoption permitted. We are currently evaluating the impact of the new standard.

In January 2016, the FASB issued ASU 2016-01 - Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. Among other provisions, the new guidance requires the fair value measurement of investments in certain equity securities. For investments without readily determinable fair values, entities have the option to

(continued)

either measure these investments at fair value or at cost adjusted for changes in observable prices minus impairment. All changes in measurement will be recognized in net income. The guidance will be effective for the first interim period of our 2019 fiscal year. Early adoption is not permitted, except for certain provisions relating to financial liabilities. We are currently evaluating the impact of the new standard.

In November 2015, the FASB issued ASU 2015-17 - Income Taxes: Balance Sheet Classification of Deferred Taxes, which requires that all deferred taxes be classified as noncurrent in the balance sheet. The guidance is effective for interim and annual periods beginning after December 15, 2016, with early adoption permitted on either a prospective or retrospective basis. In the quarter ended December 31, 2015, we adopted the new guidance on a retrospective basis. As a result, our \$99 million net deferred tax liability in the Consolidated Balance Sheet as of September 30, 2015 is presented as a deferred tax asset of \$51 million within Other assets and \$150 million in Deferred tax liabilities, net. In May 2014, the FASB issued ASU 2014-09 - Revenue from Contracts with Customers, a comprehensive revenue recognition model that supersedes the current revenue recognition requirements and most industry-specific guidance. The guidance provides a five step framework to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration it expects to be entitled to in exchange for those goods or services. The guidance will be effective for the first interim period of our 2019 fiscal year (with early adoption permitted beginning fiscal year 2018), and allows adoption either under a full retrospective or a modified retrospective approach. We are currently evaluating the impact of the new standard.

At March 31, 2016, there were no amounts outstanding under our \$2.5 billion revolving credit facility due November 2019. The credit facility is used for general corporate purposes and to support commercial paper outstanding. The credit facility has one principal financial covenant that requires our interest coverage for the most recent four consecutive fiscal quarters to be at least 3.0x, which we met as of March 31, 2016.

NOTE 6. COMMITMENTS AND CONTINGENCIES

Commitments

As more fully described in Note 11 of the 2015 Form 10-K, our commitments primarily consist of programming and talent commitments, operating and capital lease arrangements, and purchase obligations for goods and services. These arrangements result from our normal course of business and represent obligations that may be payable over several years.

Contingencies

We have certain indemnification obligations with respect to leases primarily associated with the previously discontinued operations of Famous Players Inc. ("Famous Players"). In addition, we have certain indemnities provided by the acquirer of Famous Players. These lease commitments amounted to approximately \$250 million as of March 31, 2016. The amount of lease commitments varies over time depending on expiration or termination of individual underlying leases, or of the related indemnification obligation, and foreign exchange rates, among other things. We may also have exposure for certain other expenses related to the leases, such as property taxes and common area maintenance. We have recorded a liability of \$192 million with respect to such obligations as of March 31, 2016. We believe our accrual is sufficient to meet any future obligations based on our consideration of

available financial information, the lessees' historical performance in meeting their lease obligations and the underlying economic factors impacting the lessees' business models.

Legal Matters

Litigation is inherently uncertain and always difficult to predict. However, based on our understanding and evaluation of the relevant facts and circumstances, we believe that the legal matters described below and other litigation to which we are a party are not likely, in the aggregate, to have a material adverse effect on our results of operations, financial position or operating cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

In July 2015, the Directorate-General for Competition (“DG Comp”) of the European Commission (the “Commission”) issued a Statement of Objections (the “SO”) to the six major Hollywood film studios, including Paramount Pictures, and to Sky UK (“Sky”), in connection with DG Comp's investigation into whether conventional territorial restrictions in agreements licensing content to pay television broadcasters impeded European Union (“EU”) single market imperatives in an anti-competitive way. The SO directed at Paramount takes issue with certain geo-filtering provisions in Paramount's 2009 and 2014 agreements with Sky, which were designed to enforce the territorial nature of the content Paramount licenses for distribution on Sky's online and mobile pay television platforms. In addition, the SO challenges certain provisions in the 2009 agreement regarding Sky's satellite distribution of Paramount content. While we believe that Paramount's licensing practices in the EU are consistent with the region's competition and other rules, Paramount has chosen to reach agreement with the Commission rather than prolong the dispute. Subject to final Commission approval, Viacom and Paramount will give binding commitments to neither enforce nor renew the types of geo-filtering clauses in premium pay television license agreements that were described in the SO and that restrict European Economic Area (“EEA”) broadcasters from responding to unsolicited requests by consumers located in a different territory in the EEA. No admission of liability will be made. The commitments permit Paramount to continue to license films through premium pay television license agreements in Europe on an exclusive territorial basis. In addition, the agreement eliminates the possibility of fines and enables the Commission to close similar pending cases against Viacom and Paramount relating to broadcasters in Italy, France, Germany and Spain. If Paramount's commitments do not receive final Commission approval and the Commission ultimately decides that violations have in fact occurred, it has the power to impose fines. Any such decision would be subject to judicial review in the EU's General Court and, thereafter, the Court of Justice of the EU. The full process, including appeals, could last several years.

In November 2015, Robert J. Casey, II, a Viacom shareholder, commenced a shareholder derivative action in the Court of Chancery of the State of Delaware naming, as defendants, all of the members of our Board of Directors, our Chief Financial Officer and our Controller. The complaint alleged breaches of fiduciary duties and unjust enrichment in connection with (i) our decision to recognize a pre-tax charge in the second quarter of fiscal 2015, reflecting the impact of write-downs of underperforming programming, costs associated with workforce reductions and the accelerated amortization of programming expenses, as we publicly announced on April 6, 2015, (ii) our decision to temporarily pause our stock repurchase program in order to stay within our target leverage ratio, also as publicly announced on April 6, 2015, and (iii) the matters relating to the European Statement of Objections, as discussed above. The complaint was filed following communication to Mr. Casey's counsel that the Board unanimously determined not to authorize commencement of a civil action against members of management in connection with the above matters, as requested by Mr. Casey's counsel in previous demand letters. In January 2016, we moved to dismiss the complaint, and Mr. Casey filed an amended complaint in March 2016. On April 7, Mr. Casey voluntarily dismissed the action. The dismissal was approved by the court on the same day.

In January 2016, E.F. Greenberg, a putative Viacom shareholder, commenced a shareholder derivative action in the Court of Chancery of the State of Delaware against the Company and all the current members of our Board of Directors. The complaint alleges breaches of the fiduciary duties of loyalty and candor, waste of corporate assets, and unjust enrichment in connection with compensation arrangements between Viacom and Sumner and Shari Redstone since October 1, 2013. CBS Corporation and its directors were also named in the complaint in connection with arrangements between CBS and Mr. Redstone and Ms. Redstone. In March 2016, Mr. Greenberg voluntarily dismissed the action, and the dismissal was approved by the court.

NOTE 8. RESTRUCTURING

Our restructuring liability as of March 31, 2016 by reporting segment is as follows:

2015 Restructuring Liability

We anticipate that substantially all of the liability associated with the restructuring plan will be paid by September 30, 2016.

NOTE 9. EARNINGS PER SHARE

Basic earnings per common share is computed by dividing Net earnings attributable to Viacom by the weighted average number of common shares outstanding during the period. The determination of diluted earnings per common share includes the weighted average number of common shares plus the dilutive effect of equity awards based upon the application of the treasury stock method. Anti-dilutive common shares were excluded from the calculation of diluted earnings per common share.

The following table sets forth the weighted average number of common shares outstanding used in determining basic and diluted earnings per common share and anti-dilutive common shares:

Weighted Average Number of Common Shares Outstanding and Anti-dilutive Common Shares	Quarter Ended		Six Months Ended	
	March 31, 2016	2015	March 31, 2016	2015

We had \$567 million and \$577 million of noncurrent trade receivables as of March 31, 2016 and September 30, 2015, respectively. Accounts receivables are principally related to content distribution arrangements at Media Networks and long-term television license arrangements at Filmed Entertainment. These amounts are included within Other assets - noncurrent in our Consolidated Balance Sheets. Such amounts are due in accordance with the underlying terms of the respective agreements with companies that are investment grade or with which we have historically done business

under similar terms. We have determined that credit loss allowances are generally not considered necessary for these amounts.

Variable Interest Entities

In the normal course of business, we enter into joint ventures or make investments with business partners that support our underlying business strategy and provide us the ability to enter new markets to expand the reach of our brands, develop new programming and/or distribute our existing content. In certain instances, an entity in which we make an investment may qualify as a variable interest entity ("VIE"). In determining whether we are the primary beneficiary of a VIE, we assess whether we have the power to direct matters that most significantly impact the activities of the VIE and have the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.

Unconsolidated Variable Interest Entities: We have an unconsolidated investment in Prism TV Private Limited ("Prism"), a 50% owned joint venture in India that qualifies as a VIE. In connection with our investment, we do not have the power to direct matters that most significantly impact the activities of Prism and therefore we do not qualify as the primary beneficiary. Our carrying value in Prism was \$157 million and \$145 million as of March 31, 2016 and September 30, 2015, respectively.

Consolidated Variable Interest Entities: Our Consolidated Balance Sheets include amounts related to consolidated VIEs totaling \$212 million in assets and \$56 million in liabilities as of March 31, 2016, and \$207 million in assets and \$54 million in liabilities as of September 30, 2015. The consolidated VIEs' revenues, expenses and operating income were not significant for all periods presented.

Income Taxes

Our effective income tax rate was 32.8% and 34.6% in the quarter and six months ended March 31, 2016, respectively. Discrete tax expense of \$21 million contributed 1.8 percentage points to the effective income tax rate in the six months. This discrete tax expense was principally related to a reduction in qualified production activity tax benefits as a result of retroactively reenacted legislation.

Our effective income tax rate was 51.0% in the quarter ended March 31, 2015, which included restructuring and programming charges that contributed 19.8 percentage points to the effective income tax rate. Our effective tax rate was 32.8% in the six months ended March 31, 2015. Discrete tax expense of \$23 million in the six months, taken together with the restructuring and programming charges and a pension settlement loss, contributed 1.0 percentage point to the effective income tax rate. This discrete tax expense was principally related to a reduction in qualified production activity tax benefits as a result of retroactively reenacted legislation.

NOTE 11. FAIR VALUE MEASUREMENTS

The following table summarizes our financial assets and liabilities measured and recorded at fair value on a recurring basis as of March 31, 2016 and September 30, 2015:

The notional value of all foreign exchange contracts was \$963 million and \$1.040 billion as of March 31, 2016 and September 30, 2015, respectively. At March 31, 2016, \$678 million related to our foreign currency balances and \$285 million related to future production costs. At September 30, 2015, \$769 million related to our foreign currency balances and \$271 million related to future production costs.

NOTE 12. REPORTING SEGMENTS

The following tables set forth our financial performance by reporting segment. Our reporting segments have been determined in accordance with our internal management structure. We manage our operations through two reporting segments: (i) Media Networks and (ii) Filmed Entertainment. Typical intersegment transactions include the purchase of advertising by the Filmed Entertainment segment on Media Networks' properties and the purchase of Filmed Entertainment's feature films and television programming exhibition rights by Media Networks. The elimination of such intercompany transactions in the Consolidated Financial Statements is included within eliminations in the tables below.

Our measure of segment performance is adjusted operating income/(loss). Adjusted operating income/(loss) is defined as operating income/(loss), before equity-based compensation and certain other items identified as affecting comparability, including restructuring and programming charges, when applicable.

NOTE 13. RELATED PARTY TRANSACTIONS

National Amusements, Inc. ("NAI"), directly and indirectly, is the controlling stockholder of both Viacom and CBS Corporation ("CBS"). Sumner M. Redstone, the controlling shareholder, Chairman and Chief Executive Officer of NAI, serves as our Chairman Emeritus and as the Chairman Emeritus of CBS. Shari Redstone, who is Sumner Redstone's daughter, is the President and a director of NAI, and serves as non-executive Vice Chair of the Board of Directors of both Viacom and CBS. George Abrams, one of our directors, serves on the boards of both NAI and Viacom, and Frederic Salerno, our Lead Independent Director, serves on the boards of both Viacom and CBS. Philippe Dauman, our Executive Chairman, President and Chief Executive Officer, also serves on the boards of both NAI and Viacom. Transactions between Viacom and related parties are overseen by our Governance and Nominating Committee.

Viacom and NAI Related Party Transactions

NAI licenses films in the ordinary course of business for its motion picture theaters from all major studios, including Paramount. During the six months ended March 31, 2016 and 2015, Paramount earned revenues from NAI in connection with these licenses in the aggregate amounts of approximately \$4 million and \$6 million, respectively.

Viacom and CBS Corporation Related Party Transactions

In the ordinary course of business, we are involved in transactions with CBS and its various businesses that result in the recognition of revenues and expenses by us. Transactions with CBS are settled in cash.

Our Filmed Entertainment segment earns revenues and recognizes expenses associated with its distribution of certain television products into the home entertainment market on behalf of CBS. Pursuant to its agreement with CBS, Paramount distributes CBS's library of television and other content on DVD and Blu-ray disc on a worldwide basis. Under the terms of the agreement, Paramount is entitled to retain a fee based on a percentage of gross receipts and is generally responsible for all out-of-pocket costs, which are recoupable together with any advance amounts paid. Paramount made advance payments of \$60 million to CBS during the six months ended March 31, 2016. Paramount also earns revenues from CBS through leasing of studio space and licensing of certain film products.

Our Media Networks segment recognizes advertising revenues and purchases television programming from CBS. The cost of the programming purchases is initially recorded as acquired program rights inventory and amortized over the estimated period that revenues will be generated.

Both of our segments recognize advertising expenses related to the placement of advertisements with CBS.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.

Management's discussion and analysis of results of operations and financial condition is provided as a supplement to and should be read in conjunction with the unaudited consolidated financial statements and related notes to enhance the understanding of our results of operations, financial condition and cash flows. Additional context can also be found in our Form 10-K for the fiscal year ended September 30, 2015, as filed with the Securities and Exchange Commission ("SEC") on November 12, 2015 (the "2015 Form 10-K"). References in this document to "Viacom," "Company," "we," "us" and "our" mean Viacom Inc. and our consolidated subsidiaries, unless the context requires otherwise. Significant components of management's discussion and analysis of results of operations and financial condition include:

Overview: The overview section provides a summary of our business.

Results of Operations: The results of operations section provides an analysis of our results on a consolidated and reportable segment basis for the quarter and six months ended March 31, 2016, compared with the quarter and six months ended March 31, 2015. In addition, we provide a discussion of items that affect the comparability of our results of operations.

Liquidity and Capital Resources: The liquidity and capital resources section provides a discussion of our cash flows for the six months ended March 31, 2016, compared with the six months ended March 31, 2015, and of our outstanding debt, commitments and contingencies existing as of March 31, 2016.

OVERVIEW

Summary

We are home to premier global media brands that create compelling television programs, motion pictures, short-form content, apps, games, consumer products, social media experiences and other entertainment content for audiences in 180 countries. Our media networks, including Nickelodeon®, COMEDY CENTRAL®, MTV®, VH1®, SPIKE®, BET®, CMT®, TV Land®, Nick at Nite®, Nick Jr.®, Channel 5® (UK), Logo®, Nicktoons®, TeenNick® and Paramount Channel™, reach 510 million households worldwide. Viacom Media Networks also provides extensive online, mobile and app experiences. Paramount Pictures® is a major global producer and distributor of filmed entertainment. Paramount Television™ develops and produces programming for television and video-on-demand platforms. In February 2016, the Company announced that it initiated a process to explore opportunities for a significant strategic minority equity investment in Paramount Pictures.

We operate through two reporting segments: Media Networks and Filmed Entertainment. Our measure of segment performance is adjusted operating income/(loss). We define adjusted operating income/(loss) for our segments as operating income/(loss), before equity-based compensation and certain other items identified as affecting comparability, when applicable. Equity-based compensation is excluded from our segment measure of performance since it is set and approved by the Compensation Committee of Viacom's Board of Directors in consultation with corporate executive management, and is included as a component of consolidated adjusted operating income. When applicable, we use consolidated adjusted operating income, adjusted net earnings attributable to Viacom and adjusted diluted earnings per share ("EPS"), among other measures, to evaluate our actual operating performance and for planning and forecasting of future periods. We believe that the adjusted results provide relevant and useful information for investors because they clarify our actual operating performance, make it easier to compare our results with those of other companies and allow investors to review performance in the same way as our management. Since these are not measures of performance calculated in accordance with accounting principles generally accepted in the United States of America ("GAAP"), they should not be considered in isolation of, or as a substitute for, operating income, net earnings attributable to Viacom and diluted EPS as indicators of operating performance and they may not be comparable to similarly titled measures employed by other companies. For a reconciliation of our adjusted measures and discussion of the items affecting comparability, refer to the section entitled "Factors Affecting Comparability".

Media Networks

Our Media Networks segment generates revenues in three categories: (i) the sale of advertising and marketing services, (ii) affiliate fees from cable television operators, direct-to-home satellite television operators, mobile networks, video-on-demand services, and other distributors of our programming and program services, and (iii) ancillary revenues, which include consumer products licensing, brand licensing, sale of content on DVDs and Blu-ray

discs, licensing of our content for download-to-own and download-to-rent services and television syndication.

15

Table of ContentsManagement's Discussion and Analysis
of Results of Operations and Financial Condition
(continued)

Media Networks segment expenses consist of operating expenses, selling, general and administrative ("SG&A") expenses and depreciation and amortization. Operating expenses are comprised of costs related to original and acquired programming, including programming amortization, expenses associated with the distribution of home entertainment products and consumer products licensing, participation fees, integrated marketing expenses and other costs of sales. SG&A expenses consist primarily of employee compensation, marketing, research and professional service fees and facility and occupancy costs. Depreciation and amortization expenses reflect depreciation of fixed assets, including transponders financed under capital leases, and amortization of finite-lived intangible assets.

Filmed Entertainment

Our Filmed Entertainment segment generates revenues worldwide principally from: (i) the theatrical release and/or distribution of motion pictures, (ii) home entertainment, which includes sales of DVDs and Blu-ray discs relating to the motion pictures we release theatrically and direct-to-DVD, as well as content distributed on behalf of Viacom and third parties, transactional video-on-demand and download-to-own services, (iii) licensing of film and television exhibition rights to pay and basic cable television, free television, subscription video-on-demand and free video-on-demand services and (iv) ancillary revenues from providing production services to third parties, primarily at Paramount's studio lot, licensing of its brands for consumer products, theme parks and other uses, and distribution of content specifically developed for digital platforms.

Filmed Entertainment segment expenses consist of operating expenses, SG&A expenses and depreciation and amortization. Operating expenses principally include the amortization of film costs of our released feature films (including participations and residuals), print and advertising expenses and other distribution costs. We incur marketing costs before and throughout the theatrical release of a film and, to a lesser extent, other distribution windows. Such costs are incurred to generate public interest in our films and are expensed as incurred; therefore, we typically incur losses with respect to a particular film prior to and during the film's theatrical exhibition and profitability may not be realized until well after a film's theatrical release. Therefore, the results of the Filmed Entertainment segment can be volatile as films work their way through the various distribution windows. SG&A expenses include employee compensation, facility and occupancy costs, professional service fees and other overhead costs. Depreciation and amortization expense principally consists of depreciation of fixed assets.

Factors Affecting Comparability

The Consolidated Financial Statements reflect our results of operations, financial position and cash flows reported in accordance with GAAP. Our results have been affected by certain items identified as affecting comparability. Accordingly, when applicable, we use non-GAAP measures, including consolidated adjusted operating income, adjusted net earnings attributable to Viacom and adjusted diluted EPS, to evaluate our actual operating performance and for planning and forecasting of future periods. We believe that the adjusted results provide relevant and useful information for investors because they clarify our actual operating performance, make it easier to compare our results with those of other companies and allow investors to review performance in the same way as our management. These measures of performance are calculated on a basis other than GAAP and should not be considered in isolation of, or as a substitute for, operating income, net earnings attributable to Viacom

and diluted EPS as indicators of operating performance, and they may not be comparable to similarly titled measures employed by other companies.

There were no adjustments to our results for the quarter ended March 31, 2016. The following tables reconcile our reported results to our adjusted results, calculated on a non-GAAP basis, for the six months ended March 31, 2016 and quarter and six months ended March 31, 2015. Restructuring and programming charges: The quarter and six months ended March 31, 2015 reflect a pre-tax charge of \$784 million recognized in connection with a company-wide review across our worldwide Media Networks, Filmed Entertainment operations and corporate functions. The company-wide review resulted in the implementation of significant strategic and operational improvements aimed at addressing the ratings challenges experienced by our networks and enhancing the effectiveness and efficiency of our operations, including a new programming strategy shifting focus away from repeated acquired programming and toward fresher, first-run original programming specifically targeted to appeal to our youth and family-oriented demographics.

As a result of the review, we reorganized our operating segments and the newly structured operating segment management performed a comprehensive strategic review of existing programming, resulting in the identification of programming not aligned with the Company's new strategy. Decisions were made to cease airing certain programs, alter future airing patterns of certain other programs, and move some programming to secondary networks that would not generate sufficient revenues to support their carrying value.

The charge consisted of \$578 million of programming charges and a \$206 million restructuring charge associated with workforce reductions. See "Segment Results of Operations" for additional discussion of the impact of the restructuring and programming charges on segment expenses.

Loss on pension settlement: The pre-tax non-cash charge of \$24 million in the six months ended March 31, 2015 was driven by the settlement of pension benefits of certain participants of our funded pension plan.

Discrete tax expense: The net discrete tax expense in each of the six months ended March 31, 2016 and 2015 is principally related to a reduction in qualified production activity tax benefits as a result of retroactively reenacted legislation.

Revenues

Worldwide revenues decreased \$77 million, or 3%, to \$3.001 billion in the quarter ended March 31, 2016. Media Networks revenues decreased \$71 million, or 3%, principally reflecting lower advertising and affiliate revenues, and Filmed Entertainment revenues decreased \$4 million.

Worldwide revenues decreased \$267 million, or 4%, to \$6.155 billion in the six months ended March 31, 2016. Media Networks revenues decreased \$160 million, or 3%, reflecting lower advertising, affiliate and ancillary revenues.

Filmed Entertainment revenues decreased \$112 million, or 8%, primarily driven by lower theatrical and home entertainment revenues, partially offset by higher license fees.

Expenses

Total expenses decreased \$625 million, or 21%, to \$2.415 billion and \$719 million, or 13%, to \$4.730 billion in the quarter and six months ended March 31, 2016, respectively, due to \$784 million of restructuring and programming charges in the prior year quarter and six months and a \$24 million loss on pension settlement in the prior year six months, partially offset by higher segment expenses. Media Networks expenses increased \$27 million, or 2%, in the quarter primarily driven by higher operating expenses and decreased \$15 million in the six months, primarily driven by lower SG&A expenses. Filmed Entertainment expenses increased \$133 million, or 20%, in the quarter and \$111 million, or 8%, in the six months driven by higher operating expenses.

Operating

Operating expenses decreased \$402 million, or 20%, to \$1.654 billion in the quarter and \$432 million, or 12%, to \$3.247 billion in the six months. Consolidated operating expenses included a programming charge of \$578 million in the prior year quarter and six months, as described in more detail in the "Factors Affecting Comparability" discussion above. Significant current quarter releases were 10 Cloverfield Lane, 13 Hours: The Secret Soldiers of Benghazi, Zoolander 2 and Whiskey Tango Foxtrot. Domestic theatrical revenues decreased 2% due to the weak performance of our current quarter releases compared with the prior year quarter's performance of The SpongeBob Movie: Sponge Out of Water, while international theatrical revenues increased 22% as strong carryover revenues from Daddy's Home and The Big Short more than offset the decline in current quarter release revenues. LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Sources and Uses of Cash

Our primary source of liquidity is cash provided through the operations of our businesses. We have access to external financing sources such as our \$2.5 billion five-year revolving credit facility and the capital markets. Our principal uses of cash from operations include the creation of new programming and film content, acquisitions of third-party content, and interest and income tax payments. We also use cash for the repayment of debt, quarterly cash dividends and capital expenditures, as well as discretionary share repurchases under our stock repurchase program, as deemed appropriate.

We believe that our cash flows from operating activities together with our credit facility provide us with adequate resources to fund our anticipated ongoing cash requirements. We anticipate that future debt maturities will be funded with cash and cash equivalents, cash flows from operating activities and future access to capital markets, including our credit facility. Share repurchases under the program are expected to be funded through a combination of debt and cash generated by operations, as deemed appropriate.

We may continue to access external financing from time to time depending on our cash requirements, assessments of current and anticipated market conditions and after-tax cost of capital. Our access to capital markets can be impacted by factors outside our control, including economic conditions; however, we believe that our strong cash flows and balance sheet, our credit facility and our credit rating will provide us with adequate access to funding given our expected cash needs. Any new borrowing cost would be affected by market conditions and short and long-term debt ratings assigned by independent rating agencies, and there can be no assurance that we will be able to access capital markets on terms and conditions that will be favorable to us.

Cash Flows

Cash and cash equivalents were \$480 million as of March 31, 2016, a decrease of \$26 million compared with September 30, 2015.

Operating Activities

Cash provided by operating activities was \$284 million for the six months ended March 31, 2016, a decrease of \$396 million compared with the six months ended March 31, 2015, primarily reflecting unfavorable working capital requirements.

Investing Activities

Cash used in investing activities was \$98 million and \$59 million for the six months ended March 31, 2016 and 2015, respectively, reflecting higher spending on acquisitions and investments.

Financing Activities

Cash used in financing activities was \$208 million for the six months ended March 31, 2016, primarily driven by dividend payments of \$318 million and the settlement of share repurchases totaling \$100 million, partially offset by \$250 million of commercial paper borrowings.

Cash used in financing activities was \$1.228 billion for the six months ended March 31, 2015, primarily driven by the settlement of share repurchases totaling \$1.506 billion and dividend payments of \$273 million, partially offset by net proceeds of \$390 million from debt transactions. Proceeds of \$990 million from the issuance of senior notes and debentures were partially offset by the repayment of the \$600 million aggregate principal amount of our 1.250% Senior Notes due in February 2015.

Capital Resources

Capital Structure and Debt

Total debt was \$12.529 billion as of March 31, 2016, an increase of \$244 million from \$12.285 billion at September 30, 2015.

Credit Facility

At March 31, 2016, there were no amounts outstanding under our credit facility. The credit facility is used for general corporate purposes and to support commercial paper outstanding. The amount of unused capacity under the credit facility, after deducting commercial paper outstanding of \$250 million with a weighted average maturity of 26 days and weighted average interest rate of 1.28%, was \$2.25 billion as of March 31, 2016. The credit facility has one principal financial covenant that requires our interest coverage for the most recent four consecutive fiscal quarters to be at least 3.0x, which we met as of March 31, 2016.

Stock Repurchase Program

During the six months ended March 31, 2016, we repurchased 2.1 million shares of Class B common stock for an aggregate purchase price of \$100 million, leaving \$4.9 billion of remaining capacity under our program.
