Diamond Hill Investment Group, Inc.

Notes to Consolidated Financial Statements (unaudited)

Note 1 Organization

Diamond Hill Investment Group, Inc. (the Company) was incorporated as a Florida corporation in April 1990 and in May 2002 reincorporated in Ohio, the Company's principal place of business. The Company has four operating subsidiaries.

Diamond Hill Capital Management, Inc. (DHCM), an Ohio corporation, is a wholly owned subsidiary of the Company and a registered investment advisor. DHCM is the investment adviser to the Diamond Hill Funds (the Funds), a series of open-end mutual funds, private investment funds (Private Funds), and also offers advisory services to institutional and individual investors.

Diamond Hill GP (Cayman) Ltd. (DHGP) was incorporated in the Cayman Islands as an exempted company on May 18, 2006 for the purpose of acting as the general partner of a Cayman Islands exempted limited partnership. This partnership acts as a master fund for Diamond Hill Offshore Ltd., a Cayman Islands exempted company; and Diamond Hill Investment Partners II, L.P., an Ohio limited partnership. Diamond Hill GP (Cayman) Ltd. has no operating activity.

Beacon Hill Fund Services, Inc. (BHFS), an Ohio corporation, is a wholly owned subsidiary of the Company incorporated on January 29, 2008. BHFS provides certain compliance, treasury, and fund administration services to small to mid size mutual funds.

BHIL Distributors, Inc. (BHIL), an Ohio corporation, is a wholly owned subsidiary of BHFS incorporated on February 19, 2008. BHIL will provide underwriting and distribution services to small to mid size mutual funds.

Note 2 Significant Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses for the periods. Actual results could differ from those estimates. The following is a summary of the Company's significant accounting policies:

Principles of Consolidation

The accompanying consolidated financial statements include the operations of the Company and its subsidiaries. All material inter-company transactions and balances have been eliminated in consolidation.

Segment Information

SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, establishes disclosure requirements relating to operating segments in annual and interim financial statements. Management has determined that the Company operates principally in one business segment, namely as an investment adviser and administrator to mutual funds, separate accounts, and private investment funds.

Cash and Cash Equivalents

Cash and cash equivalents include demand deposits and money market funds.

Table of Contents

Note 2 Significant Accounting Policies (Continued)

Accounts Receivable

Accounts receivable are recorded when they are due and are presented in the balance sheet, net of any allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible. Any allowance for doubtful accounts is estimated based on the Company's historical losses, existing conditions in the industry, and the financial stability of those individuals or entities that owe the receivable. No allowance for doubtful accounts was deemed necessary at March 31, 2009 or December 31, 2008.

Valuation of Investment Portfolio

Under Statement of Financial Accounting Standards No. 157 – Fair Value Measurements (SFAS 157), investments held by the Company are valued based upon the definition of Level 1 inputs and Level 2 inputs. In general, SFAS 157 defines Level 1 inputs, as fair values which use quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are defined as quoted prices in markets that are not considered to be active for identical assets or liabilities, quoted prices in active markets for similar assets or liabilities and inputs other than quoted prices that are directly observable or indirectly through corroboration with observable market data. \$2,824,710 and \$15,201,248 in Company investments are valued based upon Level 1 and Level 2 inputs, respectively. The changes in market values on the investments are recorded in the Consolidated Statement of Income as investment returns.

Limited Partnership Interests

DHCM is the managing member of Diamond Hill General Partner, LLC, the General Partner of Diamond Hill Investment Partners, LP (DHIP), Diamond Hill Investment Partners II, LP (DHIP II), and Diamond Hill Research Partners, LP (DHRP), collectively (the Partnerships), each a limited partnership whose underlying assets consist of marketable securities. DHCM in its role as the managing member of the General Partner exerts significant influence over the financial and operating policies of the Partnerships but does not exercise control. Therefore, DHCM's investment in the Partnerships is accounted for using the equity method, under which DHCM's share of the net earnings or losses from the partnership is reflected in income as earned, and distributions received are reflected as reductions from the investment. Several board members, officers and employees of the Company invest in the Partnerships through Diamond Hill General Partner, LLC. These individuals receive no remuneration as a result of their personal investment in the Partnerships. The capital of Diamond Hill General Partner, LLC is not subject to a management fee or an incentive fee.

Furniture and Equipment

Furniture and equipment, consisting of computer equipment, furniture, and fixtures, are carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over estimated lives of three to seven years.

Revenue Recognition – General

The Company earns substantially all of its revenue from investment advisory and fund administration services. Mutual fund investment advisory and administration fees, calculated as a percentage of assets under management, are recorded as revenue as services are performed. Managed account and private investment fund clients provide for monthly or quarterly management fees, in addition to quarterly or annual performance fees.

Table of ContentsNote 2 **Significant Accounting Policies (Continued)****Revenue Recognition Performance Incentive Revenue**

The Company's private investment funds and certain managed accounts provide for performance incentive fees. EITF Abstract Topic No. D-96, "Accounting for Management Fees Based on a Formula", identifies two methods by which incentive revenue may be recorded. Under Method 1, incentive fees are recorded at the end of the contract period; under Method 2, the incentive fees are recorded periodically and calculated as the amount that would be due under the formula at any point in time as if the contract was terminated at that date. Management has chosen Method 1, in which incentive fees are recorded at the end of the contract period for the specific client in which the incentive fee applies. The table below shows assets under management (AUM) subject to performance incentive fees and the performance incentive fees as calculated under each of the above methods:

	As Of March 31,	
	2009	2008
AUM Contractual Period Ends Quarterly	\$ 84,077,397	\$ 284,542,311
AUM Contractual Period Ends Annually	143,724,736	376,395,460
Total AUM Subject to Performance Incentive	\$ 227,802,133	\$ 660,937,771

	For The Three Months Ending March 31,	
	2009	2008
Performance Incentive Fees Method 1	\$ 4,645	\$ 280,900
Performance Incentive Fees Method 2	\$ 4,645	\$ 280,900

Amounts under Method 1 and Method 2 may differ throughout the year, but will generally be the same at fiscal year end because all client account contract periods end on December 31.

Revenue Recognition Mutual Fund Administration

DHCM has an administrative and transfer agency services agreement with the Diamond Hill Funds (Funds), under which DHCM performs certain services for each fund. These services include mutual fund administration, transfer agency and other related functions. For performing these services, each fund compensates DHCM a fee at an annual rate of 0.30% for Class A and Class C shares and 0.18% for Class I shares times each series' average daily net assets. Effective April 30, 2008, the fee for administrative services was reduced from 0.32% to 0.30% for Class A and Class C shares. The Funds have selected and contractually engaged certain vendors to fulfill various services to benefit the Funds' shareholders or to satisfy regulatory requirements of the Funds. These services include, among others, required fund shareholder mailings, registration fees, legal and audit fees. DHCM, in fulfilling a portion of its role under the administration agreement with the Funds, acts as agent to pay these obligations of the Funds. Each vendor is independently responsible for fulfillment of the services it has been engaged to provide and negotiates fees and terms with the management and board of trustees of the Funds. The fee that the Funds pay to DHCM is reviewed annually by the Funds' board of trustees and specifically takes into account the contractual expenses that DHCM pays on behalf of the Funds. As a result, DHCM is not involved in the delivery or pricing of these services and bears no risk related to these services. Consistent with EITF 99-19, revenue has been recorded net of these Fund expenses. In addition, DHCM finances the up-front commissions which are paid by the Fund's principal underwriter to brokers who sell C shares of the Funds. As financier, DHCM advances to the underwriter the commission amount to be paid to the selling broker at the time of sale. These advances are capitalized and amortized over 12 months to correspond with the re-payments DHCM receives from the principal underwriter to recoup this commission advancement. Mutual fund administration (admin) gross and net revenue are summarized below:

Table of ContentsNote 2 Significant Accounting Policies (Continued)Revenue Recognition – Mutual Fund Administration (Continued)

Third Party Distribution Expense

Third party distribution expenses are earned by various third party financial services firms based on sales and/or assets of the Company's investment products generated by the respective firm. Expenses recognized represent actual payments made to the third party firms and are recorded in the period earned based on the terms of the various contracts.

Income Taxes

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards (SFAS) No. 109 Accounting for Income Taxes (SFAS 109). A net deferred tax asset or liability is determined based on the tax effects of the various temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

Effective January 1, 2007, the Company adopted the provisions of FASB Interpretation No. 48 Accounting for the Uncertainty in Income Taxes (FIN 48), an interpretation of SFAS 109. As a result of the implementation of FIN 48, the Company has analyzed its tax positions taken on federal income tax returns for all open tax years (tax years ended December 31, 2005 through 2008) and has recognized no adjustment in the net liability.

Earnings Per Share

Basic earnings per share (EPS) excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution of EPS that could occur if options, warrants, and restricted stock units to issue common stock were exercised.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period financial presentation.

Table of ContentsNote 3 Investment Portfolio

As of March 31, 2009, the Company held investments worth \$18 million and a cost basis of \$22.7 million. The following table summarizes the market value of these investments as of March 31, 2009 and December 31, 2008:

DHCM is the managing member of the Diamond Hill General Partner LLC, which is the General Partner of the Partnerships. The underlying assets of the Partnerships are cash and marketable equity securities. The Company, as the parent entity to DHCM, is not contingently liable for the Partnership's liabilities but rather is only liable for its proportionate share, based on its membership interest. DHCM, as the managing member of the General Partner, is also not contingently liable for the Partnership's liabilities. Summary financial information, including the Company's carrying value and income from the Partnerships is as follows:

	March 31, 2009	December 31, 2008
Total partnership assets	\$ 175,092,093	\$ 196,021,226
Total partnership liabilities	23,067,642	33,056,747

Note 4 Capital Stock

Common Shares

The Company has only one class of securities, Common Shares.

Authorization of Preferred Shares

The Company's Articles of Incorporation authorize the issuance of 1,000,000 shares of blank check preferred shares with such designations, rights and preferences, as may be determined from time to time by the Company's Board of Directors. The Board of Directors is empowered, without shareholder approval, to issue preferred stock with dividend, liquidation, conversion, voting, or other rights, which could adversely affect the voting or other rights of the holders of the Common Shares. There were no shares of preferred stock issued or outstanding at March 31, 2009 or December 31, 2008.

Note 5 Stock-Based Compensation

Equity Incentive Plans

2005 Employee and Director Equity Incentive Plan

At the Company's annual shareholder meeting on May 12, 2005, shareholders approved the 2005 Employee and Director Equity Incentive Plan (2005 Plan). The 2005 Plan is intended to facilitate the Company's ability to attract and retain staff, provide additional incentive to employees, directors and consultants, and to promote the success of the Company's business. The Plan authorizes the issuance of Common Shares of the Company in various forms of stock or option grants. As of March 31, 2009 shares available for issuance under the Plan are 366,970. The Plan provides that the Board of Directors, or a committee appointed by the Board, may grant awards and otherwise administer the Plan. Restricted stock grants issued under the plan which vest over time, are recorded as deferred compensation on grant date and then recognized as compensation expense over the vesting period of the respective grant.

Equity Compensation Grants

On May 13, 2004 the Company's shareholders approved terms and conditions of certain equity compensation grants to three key employees. Under the approved terms, a total of 75,000 shares of restricted stock and restricted stock units were issued to the key employees on May 31, 2004. These shares vested on October 3, 2008.

Accelerated Vesting of Certain Equity Incentive Plans and Compensation Grants

The board of directors of the Company approved the accelerated vesting of 82,064 shares of restricted stock from various vesting dates during the first five months of 2009 to October 3, 2008. This acceleration resulted in additional compensation expense of \$1.0 million in the fourth quarter of 2008 that otherwise would have been recorded in the first and second quarters of 2009. In addition, as a result of this acceleration, the Company received a \$6.3 million tax deduction in 2008.

Table of Contents**Note 5 Stock-Based Compensation (Continued)****401(k) Plan**

The Company sponsors a 401(k) plan whereby all employees participate in the plan. Employees may contribute a portion of their compensation subject to certain limits based on federal tax laws. The Company makes matching contributions of Common Shares of the Company with a value equal to 200 percent of the first six percent of an employee's compensation contributed to the plan. Employees become fully vested in the matching contributions after six plan years of employment. For the three months ended March 31, 2009 and 2008, expenses attributable to the plan were \$186,424 and \$138,342 respectively.

Stock Options and Warrants

Effective October 1, 2005, the Company adopted SFAS No. 123(R), Accounting for Stock-Based Compensation (SFAS 123R). SFAS 123R requires all share-based payments to employees and directors, including grants of stock options, to be recognized as expense in the income statement based on their fair values. The amount of compensation is measured at the fair value of the options when granted, and this cost is expensed over the required service period, which is normally the vesting period of the options. SFAS 123R applies to the Company for options granted or modified after October 1, 2005. SFAS 123R also requires compensation cost to be recorded for prior option grants that vest after the date of adoption.

Stock option and warrant transactions under the various plans are summarized below:

	Options		Warrants

\$ 196,000	\$ 267,000	\$ 249,000	\$ 254,000	\$ 130,000

In addition to the above rent, the Company will also be responsible for normal operating expenses of the properties. Such operating expenses were approximately \$8.90 per square foot in 2008 and are expected to be approximately \$9.59 per square foot in 2009 on a combined basis.

Note 7 Income Taxes

The provision for income taxes for the three months ended March 31, 2009 and 2008 consists of federal, state and city income taxes. As of December 31, 2008, the Company and its subsidiaries had a capital loss carry forward for tax purposes of approximately \$3,476,000. The capital loss carryforward is available to offset capital gains in future years.

Tax Impact of Stock Option and Warrant Exercises

For the three months ended March 31, 2009, the Company received federal tax benefits of \$114,513 from the vesting of restricted stock grants and the disqualifying sale related to incentive stock options, which resulted in an increase to equity during the period. For the year ended December 31, 2008, the Company received federal tax benefits from the exercise of stock-based compensation of \$3,805,977, which resulted in an increase to equity.

Note 9 Commitments and Contingencies

The Company indemnifies its directors and certain of its officers and employees for certain liabilities that might arise from their performance of their duties to the Company. Additionally, in the normal course of business, the Company enters into agreements that contain a variety of representations and warranties and which provide general indemnifications. Certain agreements do not contain any limits on the Company's liability and would involve future claims that may be made against the Company that have not yet occurred. Therefore, it is not possible to estimate the Company's potential liability under these indemnities. Further, the Company maintains insurance policies that may provide coverage against certain claims under these indemnities.

ITEM 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking Statements

Throughout this Form 10-Q, the Company may make forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 relating to such matters as anticipated operating results, prospects for achieving the critical threshold of assets under management, technological developments, economic trends (including interest rates and market volatility), expected transactions and acquisitions and similar matters. The words believe, expect, anticipate, estimate, should, seek, plan, intend and similar words identify forward-looking statements that speak only as of the date thereof. While the Company believes that the assumptions underlying its forward-looking statements are reasonable, investors are cautioned that any of the assumptions could prove to be inaccurate and accordingly, the actual results and experiences of the Company could differ materially from the anticipated results or other expectations expressed by the Company in its forward-looking statements. Factors that could cause such actual results or experiences to differ from results discussed in the forward-looking statements include, but are not limited to: the adverse effect from a decline in the securities markets; a decline in the performance of the Company's products; changes in interest rates; a general or prolonged downturn in the economy; changes in government policy and regulation, including monetary policy; changes in the Company's ability to attract or retain key employees; unforeseen costs and other effects related to legal proceedings or investigations of governmental and self-regulatory organizations; and other risks identified from time-to-time in the Company's other public documents on file with the SEC.

General

Diamond Hill Investment Group, Inc. (the Company), an Ohio corporation organized in 1990, derives its consolidated revenue and net income from investment advisory and fund administration services provided by its subsidiary Diamond Hill Capital Management, Inc. (DHCM). DHCM is a registered investment adviser under the Investment Advisers Act of 1940 providing investment advisory services to individuals and institutional investors through the Diamond Hill sponsored mutual funds, separate accounts, and private investment funds (generally known as hedge funds). The Company was first incorporated in April 1990. During the first quarter of 2008, the Company incorporated two new subsidiaries, Beacon Hill Fund Services, Inc. (BHFS) and BHIL Distributors, Inc. (BHIL) to collectively operate as Beacon Hill. Beacon Hill will provide certain fund administration services and distribution services to small to mid size mutual funds, including Diamond Hill Funds.

In this section, the company discusses and analyzes the consolidated results of operations for the three month periods ending March, 2009 and 2008 and other factors that may affect future financial performance. This discussion should be read in conjunction with the Consolidated Financial Statements, Notes to the Consolidated Financial Statements, and Selected Financial Data.

The Company's revenue is derived primarily from investment advisory and administration fees received from Diamond Hill Funds and investment advisory fees received from separate accounts and private investment funds. Investment advisory and administration fees paid to the Company are based primarily on the value of the investment portfolios managed by the Company and fluctuate with changes in the total value of the assets under management. Such fees are recognized in the period that the Company manages these assets. The Company can also earn performance incentive fees which are generally 20% annually on the amount of client investment performance in excess of a certain annual return hurdle. Because performance incentive fees are based primarily on the performance of client accounts, they will be volatile from period to period. The Company's major expense is employee compensation and benefits.

Table of Contents**Assets Under Management**

As of March 31, 2009, assets under management (AUM) totaled \$3.9 billion, a 16% decrease in comparison to March 31, 2008. Revenues are highly dependent on both the value and composition of AUM. The following is a summary of the firm's AUM by product and objective as of March 31, 2009 and 2008 and a roll-forward of AUM activity for the three months ended March, 31 2009 and 2008:

Table of Contents**Three Months Ended March 31, 2009 compared with Three Months Ended March 31, 2008**

The Company generated net income of \$351,371, \$0.14 per diluted share, for the three months ended March 31, 2009, compared with net income of \$1,985,689, \$0.82 per diluted share, for the three months ended March 31, 2008. Net income decreased 82% despite a 16% decrease in AUM due to a negative return on the Company's corporate investment portfolio and the loss from Beacon Hill of approximately \$381 thousand.

Revenue

(in Thousands)	Three Months Ended March 31,		% Change
	2009	2008	
Investment advisory	\$ 7,789	\$ 9,513	-18%
Mutual fund administration, net	1,094	1,390	-21%
Total	\$ 8,883	\$ 10,903	-19%

As a percent of total first quarter 2009 revenues, investment advisory fees accounted for 88% and mutual fund administration fees accounted for the remaining 12% compared to the first quarter of 2008 where investment advisory fees accounted for 87% and mutual fund administration fees accounted for the remaining 13% of revenues.

Investment Advisory Fees. The overall decrease in investment advisory fees was primarily due to a decrease in AUM of just over \$756 million period over period. Investment advisory fees are calculated as a percent of average net assets under management at various levels depending on the investment product. The Company's average advisory fee rate for the three months ended March 31, 2009 was 0.76% compared to 0.82% for the three months ended March 31, 2008. During 2008, the Diamond Hill Long-Short Fund, which has a 0.90% advisory fee, was closed to new investors and effective December 31, 2008, it was reopened to new investors. As a result, there was a decrease in the cash flows into that Fund during the second half of 2008. In addition, there were cash outflows from the Long-Short Fund during the first quarter of 2009 resulting in a decrease in assets for that Fund of 18%. These factors contributed to the decrease in the average advisory fee rate for first quarter 2009 compared to first quarter 2008.

Mutual Fund Administration Fees. Mutual fund administration fees are calculated as a percent of average net assets under administration in the Diamond Hill Funds. The Company earns 0.30% on Class A and Class C shares and 0.18% on Class I shares. As assets in the Funds have grown the Company has realized certain economies of scale; and as a result, the Company has lowered its administration fees each of the last four years to pass on those economies of scale to fund shareholders. Given the decrease in mutual fund AUM from March 31, 2008 to March 31, 2009, effective April 30, 2009, the Company has increased its fees to 0.34% for Class A and Class C shares and to 0.20% for Class I shares. Due to a combination of fee changes and a reduction in mutual fund AUM, fund administration revenues decreased by \$296 thousand for the quarter ended March 31, 2009 compared to the quarter ended March 31, 2008.

Expenses

(in Thousands)	Three Months Ended March 31,		% Change
	2009	2008	
Compensation and related costs	\$ 5,138	\$ 5,842	-12%
General and administrative	646	557	16%
Sales and marketing	146	114	28%
Third party distribution	249	396	-37%
Mutual fund administration	577	469	23%

Total	\$	6,756	\$	7,378	-8%
-------	----	-------	----	-------	-----

Compensation and Related Costs. Compensation expense decreased by \$704 thousand, or 12%, during the three months ended March 31, 2009 over the same period a year ago, reflecting increase in employee headcount, base salaries and related benefits offset by a lower incentive compensation accrual. Base salaries and related benefits increased by \$525,695, or 20% reflecting an increase in staffing from 47 to 57 employees. Incentive compensation decreased by \$1,384,400, or 44% reflecting a decrease in both revenue and operating income in the current fiscal year.

Table of Contents

General and Administrative. General and administrative expenses increased by \$89,000 or 16%, period over period. Despite a decrease in overall AUM, the Company has grown its separate account business and the general and administrative expense increase is primarily in support of that growth.

Sales and Marketing. Sales and marketing expenses increased by \$32,000 or 28%. This increase was primarily due to an increase in travel and other marketing expenses related to new business growth.

Third Party Distribution. Third party distribution expense represents payments made to intermediaries related to sales of the Company's investment products. The expense is directly correlated with investments in the Company's private investment funds. The period over period increase or decrease directly corresponds to the increase or decrease in investment advisory fees earned by the Company.

Mutual Fund Administration. Mutual fund administration expense increased by \$108 thousand or 23% period over period. The majority of mutual fund administration fees are variable based on the amount of mutual fund AUM. Despite the decrease in mutual fund AUM by \$509 million, or 16%, during first quarter 2009, mutual fund administration expenses increased related to a fee increase by the sub-administrator and timing difference of certain other administration expenses.

Beacon Hill Fund Services

Through the first three months of 2009, Beacon Hill generated a pre-tax loss of \$381 thousand on \$103 thousand in revenue. This compares to a loss of \$191 thousand on zero revenue during the first three months of 2008. Beacon Hill is currently staffed with eight experienced professionals, recently received approval for membership in FINRA as a limited purpose broker/dealer. Beacon Hill has been actively marketing its services and has commitments from several clients to commence services at various starting dates throughout 2009. These commitments are annually recurring engagements; however, there is no guarantee that the associated revenue will be realized. The company continues to believe that Beacon Hill will achieve a run rate breakeven by the end of 2009.

Liquidity and Capital Resources

The Company's entire investment portfolio is in liquid readily marketable securities, which provide for cash liquidity, if needed, within three business days. Investments in mutual funds are valued at their current net asset value. Investments in private investment funds and other equity securities are valued based on readily available market quotations. Inflation is expected to have no material impact on the Company's performance.

As of March 31, 2009, the Company had working capital of approximately \$30.4 million compared to \$24.1 million at December 31, 2008. Working capital includes cash, securities owned and accounts receivable, net of all liabilities. The Company has no debt and its available working capital is expected to be sufficient to cover current expenses. The Company does not expect any material capital expenditures during 2009.

During the third quarter of 2007 the board of directors authorized management to repurchase up to 350,000 shares of the Company's common stock. Management and the board believe that the most appropriate use for excess cash is to invest in Diamond Hill investment strategies or repurchase the Company's common stock. The deciding factor will be which alternative offers the most favorable risk-adjusted rate of return in the opinion of management and the board.
