PROSPECTUS SUPPLEMENT
 (To Prospectus dated June 23, 2006)

9,375,000 Shares

Common Stock

Ares Capital Corporation is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland that is regulated as a business development company under the Investment Company Act of 1940. We were founded in April 2004 and completed our initial public offering on October 8, 2004. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases may include an equity component, and, to a lesser extent, in equity investments, in private middle market companies.

We are managed by Ares Capital Management LLC, an affiliate of Ares Management LLC, an independent Los Angeles based firm that currently manages investment funds that have approximately \$10.7 billion of committed capital. Ares Technical Administration LLC provides the administrative services necessary for us to operate.

Our common stock is quoted on The NASDAQ National Market under the symbol "ARCC." On July 12, 2006, the last reported sales price of our common stock on The NASDAQ National Market was \$15.67 per share.

Investing in our common stock involves risks that are described in the "Risk Factors" section beginning on page 15 of the accompanying prospectus.

This prospectus and the accompanying prospectus supplement concisely provide important information you should know before investing in our common stock. Please read the prospectus and the accompanying prospectus supplement before you invest and keep it for future reference. Our Internet address is

<http://www.arescapitalcorporation.com>. We make available free of charge on our website our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission. The SEC also maintains a website at www.sec.gov that contains such information.

	<u>Per Share</u>	<u>Total</u>
Public offering price	\$15.67	\$146,906,250
Underwriting discount (sales load)	\$.58	\$5,437,500
Proceeds, before expenses, to Ares Capital Corporation(1)	\$15.09	\$141,468,750

(1)

Before deducting expenses payable by us related to this offering, estimated at \$483,125

Edgar Filing: ARES CAPITAL CORP - Form 497

The underwriters may also purchase up to an additional 1,406,250 shares from us at the public offering price, less the underwriting discount, within 30 days from the date of this prospectus to cover overallocments. If the underwriters exercise this option in full, the total public offering price will be \$168,942,188, the total underwriting discount (sales load) paid by us will be \$6,253,125, and total proceeds, before expenses, will be \$162,689,063.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The shares will be ready for delivery on or about July 18, 2006.

FORWARD-LOOKING STATEMENTS

Some of the statements in this prospectus supplement and the accompanying prospectus constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained in this prospectus involve risks and uncertainties, including statements as to:

our future operating results;

our business prospects and the prospects of our portfolio companies;

the impact of investments that we expect to make;

our contractual arrangements and relationships with third parties;

the dependence of our future success on the general economy and its impact on the industries in which we invest;

the ability of our portfolio companies to achieve their objectives;

our expected financings and investments;

the adequacy of our cash resources and working capital;

the timing of cash flows, if any, from the operations of our portfolio companies; and

the ability of Ares Capital Management to locate suitable investments for us and to monitor and administer our investments.

We use words such as "anticipates," "believes," "expects," "intends" and similar expressions to identify forward-looking statements. Our actual results could differ materially from those projected in the forward-looking statements for any reason, including the factors set forth in "Risk Factors" and elsewhere in this prospectus supplement or the accompanying prospectus.

We have based the forward-looking statements included in this prospectus supplement on information available to us on the date of this prospectus supplement, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

You should understand that under Sections 27A(b)(2)(B) and (D) of the Securities Act of 1933 (the "Securities Act") and Sections 21E(b)(2)(B) and (D) of the Exchange Act, the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 do not apply to statements made in connection with this offering.

THE COMPANY

This summary highlights some of the information contained elsewhere in this prospectus supplement and the accompanying prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" and the other information included in this prospectus supplement and the accompanying prospectus. Except where the context suggests otherwise, the terms "we," "us," "our," "the Company" and "Ares Capital" refer to Ares Capital Corporation and its subsidiaries; "Ares Capital Management" or "investment adviser" refers to Ares Capital Management LLC; "Ares Administration" refers to Ares Technical Administration LLC; and "Ares" refers to Ares Partners Management Company LLC and its affiliated companies, including Ares Management LLC.

Ares Capital

Ares Capital is a specialty finance company that is a closed-end, non-diversified management investment company, regulated as a business development company, or a "BDC," under the Investment Company Act of 1940, or the "1940 Act." We were founded in April 2004, completed our initial public offering on October 8, 2004 and completed two additional equity offerings in March 2005 and October 2005. Ares Capital's investment objective is to generate both current income and capital appreciation through debt and equity investments. We primarily invest in U.S. middle market companies, where we believe the supply of primary capital is limited and the investment opportunities are most attractive.

We primarily invest in first and second lien senior loans and long-term mezzanine debt. First and second lien senior loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. These loans also have the benefit of security interests on the assets of the portfolio company, which may rank ahead of or be junior to other security interests. Mezzanine debt is subordinated to senior loans and is generally unsecured. In some cases, we may also receive warrants or options in connection with our debt instruments. Our investments have generally ranged between \$10 million and \$50 million each, although the investment sizes may be more or less than the targeted range and are expected to grow with our capital availability. We also, to a lesser extent, make equity investments in private middle market companies. These investments have generally been less than \$10 million each but may grow with our capital availability and are usually made in conjunction with loans we make to these companies. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential portfolio company substantially in excess of our final investment. In this prospectus, we generally use the term "middle market" to refer to companies with annual EBITDA between \$5 million and \$50 million. EBITDA represents net income before net interest expense, income tax expense, depreciation and amortization.

The first and second lien senior loans generally have stated terms of three to ten years and the mezzanine debt investments generally have stated terms of up to ten years, but the expected average life of such first and second lien loans and mezzanine debt is generally between three and seven years. However, there is no limit on the maturity or duration of any security in our portfolio. The debt that we invest in typically is not rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's or lower than "BBB-" by Standard & Poor's). We may invest without limit in debt of any rating, including securities that have not been rated by any nationally recognized statistical rating organization.

We believe that our investment adviser, Ares Capital Management, is able to leverage Ares' current investment platform, resources and existing relationships with financial sponsors, financial institutions, hedge funds and other investment firms to provide us with attractive investments. In addition to deal flow, the Ares investment platform assists our investment adviser in analyzing, structuring and monitoring investments. Ares' senior principals have worked together for many years

and have substantial experience in investing in senior loans, high yield bonds, mezzanine debt and private equity. The Company has access to the Ares staff of approximately 58 investment professionals and to the 38 administrative professionals employed by Ares who provide assistance in accounting, legal, compliance and investor relations.

While our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of private companies, we also may invest up to 30% of the portfolio in opportunistic investments. Such investments may include investments in high-yield bonds, debt and equity securities in collateralized debt obligation vehicles and distressed debt or equity securities of public companies. We expect that these public companies generally will have debt that is non-investment grade. As part of this 30% of the portfolio, we may also invest in debt of middle market companies located outside of the United States, which investments are not anticipated to be in excess of 10% of the portfolio at the time such investments are made.

About Ares

Ares is an independent firm with approximately \$10.7 billion of total committed capital and 129 employees. Ares was founded in 1997 by a group of highly experienced investment professionals.

Ares specializes in originating and managing assets in both the leveraged finance and private equity markets. Ares' leveraged finance activities include the acquisition and management of senior loans, high yield bonds, mezzanine and special situation investments. Ares' private equity activities focus on providing flexible, junior capital to middle market companies. Ares has the ability to invest across a capital structure, from senior secured floating rate debt to common equity.

Ares is comprised of the following groups:

Capital Markets Group. The Ares Capital Markets Group currently manages a variety of funds and investment vehicles that have approximately \$6.8 billion of total committed capital, focusing primarily on syndicated senior secured loans, high yield bonds, distressed debt, other liquid fixed income investments and other publicly traded debt securities.

Private Debt Group. The Ares Private Debt Group manages the assets of Ares Capital. The Private Debt Group focuses primarily on non-syndicated first and second lien senior loans and mezzanine debt.

Private Equity Group. The Ares Private Equity Group manages the Ares Corporate Opportunities Fund L.P. and the Ares Corporate Opportunities Fund II, L.P. (collectively referred to as "ACOF"), which together have approximately \$2.7 billion of total committed capital. ACOF generally makes private equity investments in companies in amounts substantially larger than the private equity investments anticipated to be made by Ares Capital. The Private Equity Group generally focuses on control-oriented equity investments in under-capitalized companies or companies with capital structure issues.

Ares' senior principals have been working together as a group for many years and have an average of over 20 years of experience in leveraged finance, private equity, distressed debt, investment banking and capital markets. They are backed by a large team of highly-disciplined professionals. Ares' rigorous investment approach is based upon an intensive, independent financial analysis, with a focus on preservation of capital, diversification and active portfolio management. These fundamentals underlie Ares' investment strategy and have resulted in large pension funds, banks, insurance companies, endowments and high net worth individuals investing in Ares funds.

Ares Capital Management

Ares Capital Management, our investment adviser, is served by a dedicated origination and transaction development team of 17 investment professionals, including our President, Michael J. Arougheti, which team is augmented by Ares' additional investment professionals, primarily its 24 member Capital Markets Group. Ares Capital Management's investment committee has 5 members, including Mr. Arougheti and 4 founding members of Ares. In addition, Ares Capital Management leverages off of Ares' entire investment platform and benefits from the Ares investment professionals' significant capital markets, trading and research expertise developed through Ares industry analysts. Ares funds have made investments in over 1,000 companies in over 30 different industries and currently hold over 400 investments in over 30 different industries.

Our Corporate Information

Our administrative offices are located at 1999 Avenue of the Stars, Suite 1900, Los Angeles, California, 90067, telephone number (310) 201-4200, and our executive offices are located at 280 Park Avenue, 22nd Floor, Building East, New York, New York 10017, telephone number (212) 750-7300.

FEES AND EXPENSES

The following table is intended to assist you in understanding the costs and expenses that an investor in our common stock will bear directly or indirectly. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this prospectus contains a reference to fees or expenses paid by "you," "us" or "Ares Capital," or that "we" will pay fees or expenses, stockholders will indirectly bear such fees or expenses as investors in Ares Capital.

Stockholder transaction expenses (as a percentage of offering price):	
Sales load paid by us	3.70%(1)
Offering expenses borne by us	0.33%(2)
Dividend reinvestment plan expenses	None(3)
Total stockholder transaction expenses paid by us	4.03%
Estimated annual expenses (as a percentage of consolidated net assets attributable to common stock)(4):	
Management fees	2.04%(5)
Incentive fees payable under investment advisory and management agreement (20% of realized capital gains and 20% of pre-incentive fee net investment income, subject to certain limitations)	2.07%(6)
Interest payments on borrowed funds	1.23%(7)
Other expenses	0.78%(8)
Total annual expenses (estimated)	6.12%(9)

- (1) The underwriting discounts and commissions with respect to the shares sold in this offering, which is a one-time fee, is the only sales load paid in connection with this offering.
- (2) Amount reflects estimated offering expenses of approximately \$483,125 and based on the 9,375,000 shares offered in this offering.
- (3) The expenses of the dividend reinvestment plan are included in "other expenses."
- (4) "Consolidated net assets attributable to common stock" equals net asset value at March 31, 2006 plus the anticipated net proceeds from this offering.
- (5) Our management fee is 1.5% of our total assets other than cash and cash equivalents (which includes assets purchased with borrowed amounts). For the purposes of this table, we have assumed that we maintain no cash or cash equivalents. The 2.04% reflected on the table is calculated on our net assets (rather than our total assets). See "Management Investment Advisory and Management Agreement."
- (6) We expect to use a portion of the net proceeds of this offering to repay outstanding indebtedness under our Revolving Credit Facility (\$102 million outstanding as of July 7, 2006). We expect to invest the remainder of the net proceeds from this offering within 90 days. This item represents an estimate of our annualized incentive fees based on actual amounts earned for the three months ended March 31, 2006. It also assumes that this fee will remain constant although it is based on our performance and will not be paid unless we achieve certain goals. We have also assumed that the net realized capital gains based incentive fees are equal to 0% as we had not received any such incentive fees for the quarter ending March 31, 2006. We may realize sufficient capital gains to result in the payment of such incentive fees.

Edgar Filing: ARES CAPITAL CORP - Form 497

The incentive fee consists of two parts:

The first, payable quarterly in arrears, equals 20% of our pre-incentive fee net investment income (including interest that is accrued but not yet received in cash), subject to a 2.00% quarterly (8% annualized) hurdle rate and a "catch-up" provision measured as of the end of each calendar quarter. Under this provision, in any calendar quarter, our investment adviser receives no incentive fee until our net investment income equals the hurdle rate of 2.00% but then receives, as a "catch-up," 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.50%. The effect of this provision is that, if pre-incentive fee net investment income exceeds 2.50% in any calendar quarter, our investment adviser will receive 20% of our pre-incentive fee net investment income as if a hurdle rate did not apply.

The second, payable annually in arrears for each calendar year ending on or after December 31, 2004, equals 20% of our net realized capital gains, if any, computed net of all realized capital losses and unrealized capital depreciation.

We will defer cash payment of any incentive fee otherwise earned by our investment adviser if, during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness) is less than 8.0% of our net assets at the beginning of such period. These calculations will be adjusted for any share issuances or repurchases.

See "Management Investment Advisory and Management Agreement."

- (7) "Interest payments on borrowed funds" represents an estimate of our annualized interest expenses based on actual interest and credit facility expense incurred and amortization of debt issuance cost for the quarter ended March 31, 2006. During the quarter ended March 31, 2006, the average borrowings were \$82.9 million and cash paid for interest expense was \$308,038. We had outstanding borrowings of \$185.2 million at March 31, 2006. The estimate is based on our assumption that our borrowings and interest costs after an offering will remain similar to those prior to such offering. The amount of leverage that we employ at any particular time will depend on, among other things, our investment adviser's and our board of directors' assessment of market and other factors at the time of any proposed borrowing. See "Risk Factors We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us."
- (8) Includes our overhead expenses, including payments under the administration agreement based on our allocable portion of overhead and other expenses incurred by Ares Administration in performing its obligations under the administration agreement. Such expenses are based on annualized other expenses for the quarter ended March 31, 2006. See "Management Administration Agreement." The holders of shares of our common stock (and not the holders of our debt securities or preferred stock, if any) indirectly bear the cost associated with our annual expenses.
- (9) "Total annual expenses" as a percentage of consolidated net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage our net assets and increase our total assets. The SEC requires that the "Total annual expenses" percentage be calculated as a percentage of net assets, rather than the total assets, including assets that have been funded with borrowed monies. If the "Total annual expenses" percentage were calculated instead as a percentage of consolidated total assets, our "Total annual expenses" would be 4.49% of consolidated total assets.

Example

The following example demonstrates the projected dollar amount of total cumulative expenses over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed we would have no additional leverage, that none of our assets are cash or cash equivalents, and that our annual operating expenses would remain at the levels set forth in the table above.

	<u>1 year</u>	<u>3 years</u>	<u>5 years</u>	<u>10 years</u>
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual return(1)	\$ 80	\$ 161	\$ 243	\$ 454

(1) The above illustration assumes that we will not realize any capital gains computed net of all realized capital losses and unrealized capital depreciation. The expenses you would pay, based on a \$1,000 investment and assuming a 5% annual return resulting entirely from net realized capital gains (and therefore subject to the capital gain incentive fee), and otherwise making the same assumptions in the example above, would be: 1 year, \$90; 3 years, \$189; 5 years, \$289; and 10 years, \$540. However, cash payment of the capital incentive fee would be deferred if during the most recent four full calendar quarter period ending on or prior to the date the payment set forth in the example is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness) was less than 8.0% of our net assets at the beginning of such period (as adjusted for any share issuances or repurchases).

The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The incentive fee under the investment advisory and management agreement, which, assuming a 5% annual return, would either not be payable or have an insignificant impact on the expense amounts shown above, is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, participants in our dividend reinvestment plan who have not otherwise elected to receive cash will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the valuation date for the dividend. See "Dividend Reinvestment Plan" for additional information regarding our dividend reinvestment plan.

This example and the expenses in the table above should not be considered a representation of our future expenses, and actual expenses (including the cost of debt, if any, and other expenses) may be greater or less than those shown.

RECENT DEVELOPMENTS

Capital Raising Activities

On July 7, 2006, Ares Capital, through its newly formed, wholly owned Delaware subsidiary, ARCC CLO 2006 LLC ("ARCC CLO"), completed a \$400 million debt securitization where approximately \$314 million principal amount of asset-backed notes (including \$50 million revolving notes that have not been drawn down as of the date of this prospectus supplement) (the "Offered Notes") were issued to third parties and secured by a pool of middle market loans that have been purchased or originated by the Company. We retained approximately \$86 million of certain BBB and non-rated securities in the debt securitization. The blended pricing of the Offered Notes, excluding fees, is approximately 3 month LIBOR plus 34 basis points. The securitization is an on-balance-sheet financing for the Company.

The classes, amounts, ratings and interest rates (expressed as a spread to LIBOR) of the Offered Notes are:

Class	Amount (millions)	Rating (S&P/Moody's)	LIBOR Spread (basis points)
A-1A	\$ 75	AAA/Aaa	25
A-1A VFN	\$ 50(1)	AAA/Aaa	28
A-1B	\$ 14	AAA/Aaa	37
A-2A	\$ 75	AAA/Aaa	22
A-2B	\$ 33	AAA/Aaa	35
B	\$ 23	AA/Aa2	43
C	\$ 44	A/A2	70
Total	\$ 314		

(1)

Revolving class, none of which was drawn down as of the date of this prospectus supplement.

During the first five years from the closing date, principal collections received on the underlying collateral may be used to purchase new collateral, allowing us to maintain the initial leverage in the securitization for the entire five-year period. Under the terms of the securitization, up to 15% of the collateral may be subordinated loans that are neither first nor second lien loans.

The Class A-1A VFN Notes are a revolving class of secured notes and allow us to borrow and repay AAA/Aaa financing over the initial five-year period thereby providing more efficiency in funding costs. All of the notes are secured by the assets of ARCC Commercial Loan Trust 2006, including commercial loans currently totaling \$308.1 million as of the closing date, which were sold to the trust by the Company, the originator and servicer of the assets. Additional commercial loans will be purchased by the trust from the Company primarily using the proceeds from the Class A-1A VFN Notes. The pool of commercial loans in the trust must meet certain requirements, including, but not limited to, asset mix and concentration, collateral coverage, term, agency rating, minimum coupon, minimum spread and sector diversity requirements.

Approximately \$243 million of the total proceeds from the sale of the Offered Notes (not including the revolving notes that have not yet been drawn down) were used to pay down amounts outstanding under our Senior Secured Revolving Credit Agreement (the "Revolving Credit Facility") and our wholly owned subsidiary Ares Capital CP Funding LLC's credit facility (the "CP Funding Facility" and, together with the Revolving Credit Facility, the "Facilities"). The Facilities provide for up to \$600 million of borrowings and are expected to remain in place and be available for future drawings prior to expiration.

As of July 7, 2006, there were no amounts outstanding under the CP Funding Facility and \$102 million outstanding under the Revolving Credit Facility. Total borrowings as of July 7, 2006 were \$366 million. For a description of our Facilities, see "Management's Discussion and Analysis of Financial Condition and Results of Operations Financials, Liquidity and Capital Resources" in the accompanying prospectus.

Investment Activity

As of June 30, 2006, the year to date net realized capital gains on our investments were approximately \$24.5 million (\$9.8 million of which were previously recorded as unrealized gains at December 31, 2005 and have been subsequently realized), for which we currently estimate we will owe taxes of approximately \$4.4 million. Gross originations during the quarter ended June 30, 2006 were \$255.5 million. During the same quarter, we realized certain investments, bringing net investments for the quarter to \$146.4 million. In addition, during the quarter ended June 30, 2006, we made commitments in excess of our final investments and syndicated a portion of these commitments to third parties. As a result of this activity, during the same quarter, we generated in excess of \$5 million of structuring fee income.

We currently have outstanding commitments to fund an aggregate of approximately \$200 million of investments. We expect to syndicate a portion of these commitments to third parties. In addition, we have a pipeline of approximately \$250 million. The consummation of any of the investments in this backlog and pipeline depends upon, among other things, one or more of the following: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment, the execution and delivery of satisfactory documentation and the receipt of any necessary consents. We cannot assure you that we will make any of these investments.

USE OF PROCEEDS

We estimate that the net proceeds we will receive from the sale of 9,375,000 shares of our common stock in this offering will be approximately \$140,985,625 (or approximately \$162,205,938 if the underwriters fully exercise their overallotment option), in each case assuming a public offering price of \$15.67 per share, after deducting the underwriting discounts and commissions of \$5,437,500 (or approximately \$6,253,125 if the underwriters fully exercise their overallotment option) payable by us and estimated offering expenses of approximately \$483,125 payable by us.

We expect to use approximately \$102 million of the net proceeds of this offering to repay outstanding indebtedness under our Revolving Credit Facility. We expect such repayment will occur within 5 business days after the closing of this offering. The interest charged on the indebtedness incurred under the Revolving Credit Facility is based on LIBOR (one, two, three or six month) plus 1.00%, generally. As of July 5, 2006, the one, two, three and six month LIBOR were 5.34%, 5.43%, 5.49% and 5.59%, respectively. The Revolving Credit Facility expires on December 28, 2010. We intend to use the remainder of the net proceeds within 90 days to fund investments in portfolio companies in accordance with our investment objective and the strategies described in the accompanying prospectus and for general corporate purposes. However, it could take a longer time to invest substantially all of the net proceeds, depending on the availability of appropriate investment opportunities and market conditions.

We intend to invest primarily in first and second lien senior loans and mezzanine debt of middle market companies, each of which may include an equity component, and, to a lesser extent, in equity securities in such companies. In addition to such investments, we may invest up to 30% of the portfolio in opportunistic investments, including high-yield bonds, debt and equity securities in collateralized debt obligation vehicles, distressed debt or equity securities of public companies. As part of this 30%, we may also invest in debt of middle market companies located outside of the United States, which investments are not anticipated to be in excess of 10% of the portfolio. Pending such investments, we will invest a portion of the net proceeds primarily in cash, cash equivalents, U.S. government securities and other high-quality short-term investments. These securities may earn yields substantially lower than the income that we anticipate receiving once we are fully invested in accordance with our investment objective. As a result, we may not be able to achieve our investment objective and/or pay any dividends during this period or, if we are able to do so, such dividends may be substantially lower than the dividends that we expect to pay when our portfolio is fully invested. If we do not realize yields in excess of our expenses, we may incur operating losses and the market price of our shares may decline. See "Regulation Temporary Investments" for additional information about temporary investments we may make while waiting to make longer-term investments in pursuit of our investment objective.

PRICE RANGE OF COMMON STOCK

Our common stock is quoted on The NASDAQ National Market under the symbol "ARCC." We completed our initial public offering in October 2004 at the price of \$15.00 per share. Prior to such date there was no public market for our common stock. Our common stock continues to trade in excess of net asset value. There can be no assurance, however, that our shares will continue to trade at a premium to our net asset value.

The following table sets forth the range of high and low closing prices of our common stock as reported on The NASDAQ National Market and the dividends declared by us for each fiscal quarter since our initial public offering. The stock quotations are interdealer quotations and do not include markups, markdowns or commissions and may not necessarily represent actual transactions.

	NAV(1)	Price Range		Premium/ Discount of High Sales Price to NAV	Premium/ Discount of Low Sales Price to NAV	Cash Dividend Per Share(2)
		High	Low			
Fiscal 2004						
Fourth quarter	\$ 14.43	\$ 19.75	\$ 15.00	136.9%	104.1%	\$ 0.30
Fiscal 2005						
First quarter	\$ 14.96	\$ 18.74	\$ 15.57	125.3%	104.0%	\$ 0.30
Second quarter	\$ 14.97	\$ 18.14	\$ 15.96	121.2%	106.6%	\$ 0.32
Third quarter	\$ 15.08	\$ 19.25	\$ 16.18	127.7%	107.3%	\$ 0.34
Fourth quarter	\$ 15.03	\$ 16.73	\$ 15.08	111.3%	100.3%	\$ 0.34
Fiscal 2006						
First quarter	\$ 15.03	\$ 17.97	\$ 16.23	119.6%	108.0%	\$ 0.36
Second quarter	\$ *	\$ 17.50	\$ 16.36	* %	* %	\$ 0.38
Third quarter (through July 12, 2006)	\$ *	\$ 17.13	\$ 15.67	*	*	**

(1) *Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high and low closing sales prices. The net asset values shown are based on outstanding shares at the end of each period.*

(2) *Represents the dividend declared in the specified quarter.*

* *Net asset value has not yet been calculated for this period.*

** *Dividend has not yet been declared for this period.*

On July 12, 2006, the last reported sales price of our common stock on The NASDAQ National Market was \$15.67 per share.

CAPITALIZATION

The following table sets forth (1) our actual capitalization at March 31, 2006 and (2) our capitalization as adjusted to reflect the effects of the sale of our common stock in this offering (assuming no exercise of the underwriters' overallotment option) at an assumed public offering price of \$15.67 per share, after deducting the underwriting discounts and commissions and offering expenses payable by us. You should read this table together with "Use of Proceeds" and our balance sheet included in the accompanying prospectus.

	As of March 31, 2006	
	Actual	As Adjusted
Cash and cash equivalents	\$ 19,034,286	\$ 58,019,911
Debt		
Credit facilities	\$ 185,200,000	83,200,000(1)
Stockholders' Equity		
Common stock, par value \$.001 per share, 100,000,000 common shares authorized, 38,007,148 and 47,382,148 common shares issued and outstanding, respectively(2)	\$ 38,008	\$ 47,382
Capital in excess of par value	560,795,135	701,771,386
Accumulated net realized gain on sale of investments	4,385,073	4,385,073
Net unrealized depreciation on investments	6,157,122	6,157,122
Total stockholders' equity	\$ 571,375,338	\$ 712,360,963
Total capitalization	\$ 756,575,338	\$ 795,560,963

- (1) The above table reflects debt outstanding as of March 31, 2005 of \$185,200,000 under the CP Funding Facility and the Revolving Credit Facility. However as of July 7, 2006, the Company had \$0 outstanding under the CP Funding Facility, \$102,000,000 outstanding under the Revolving Credit Facility and \$264,000,000 outstanding in Offered Notes. Proceeds from the sale of our common stock in this offering will be used to pay down outstanding indebtedness of approximately \$102,000,000 under the Revolving Credit Facility.
- (2) Does not include 101,749 shares issued under our Dividend Reinvestment Plan on April 17, 2006 and 98,357 shares issued under our Dividend Reinvestment Plan on June 30, 2006.

UNDERWRITING

We intend to offer the shares through the underwriters named below. Merrill Lynch, Pierce, Fenner & Smith Incorporated, UBS Securities LLC, Citigroup Global Markets Inc., J.P. Morgan Securities Inc., Wachovia Capital Markets, LLC and SunTrust Capital Markets, Inc. are acting as representatives of the underwriters. Subject to the terms and conditions described in a purchase agreement among us and the underwriters, we have agreed to sell to the underwriters, and the underwriters severally have agreed to purchase from us, the number of shares listed opposite their names below.

Underwriter	Number of Shares
Merrill Lynch, Pierce, Fenner & Smith Incorporated	3,281,250
UBS Securities LLC	2,812,500
Citigroup Global Markets Inc.	937,500
J.P. Morgan Securities Inc.	937,500
Wachovia Capital Markets, LLC	937,500
SunTrust Capital Markets, Inc.	468,750
Total	9,375,000

The underwriters have agreed that they must purchase all of the shares sold under the purchase agreement if they purchase any of them. However, the underwriters are not required to take or pay for the shares covered by the underwriters' overallotment option described below. If an underwriter defaults, the purchase agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the purchase agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the purchase agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the shares to the public at the public offering price on the cover page of this prospectus and to dealers at that price less a concession not in excess of \$.34 per share. The underwriters may allow, and the dealers may reallow, a discount not in excess of \$.10 per share to other dealers. After the public offering, the public offering price, concession and discount may be changed.

The following table shows the per share and total underwriting discounts and commissions we will pay to the underwriters assuming both no exercise and full exercise of the underwriters' overallotment option to purchase up to an additional 1,406,250 shares.

	No exercise	Full exercise
Per share	\$.58	\$.58
Total	\$5,437,500	\$6,253,125

S-13

Edgar Filing: ARES CAPITAL CORP - Form 497

The maximum commission or discount to be received by any member of the National Association of Securities Dealers, Inc. ("NASD") in connection with this and any other offering of securities registered by the Company pursuant to Rule 415 will not exceed 8%.

We estimate that the total expenses of the offering payable by us, not including underwriting discounts and commissions, will be approximately \$483,125.

Overallotment Option

We have granted an option to the underwriters to purchase up to 1,406,250 additional shares at the public offering price less the underwriting discount. The underwriters may exercise this option for 30 days from the date of this prospectus solely to cover any overallotments. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the purchase agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

No Sales of Similar Securities

We, our executive officers and directors and Ares Capital Management have agreed, with exceptions, not to sell or transfer any common stock for 90 days after the date of this prospectus without first obtaining the written consent of Merrill Lynch, Pierce, Fenner & Smith Incorporated and UBS Securities LLC. Specifically, we and these other individuals and entities have agreed not to directly or indirectly:

offer, pledge, sell or contract to sell any common stock,

sell any option or contract to purchase any common stock,

purchase any option or contract to sell any common stock,

grant any option, right or warrant for the sale of any common stock,

lend or otherwise dispose of or transfer any common stock,

request or demand that we file a registration statement related to the common stock, or

enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any common stock whether any such swap or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

This lockup provision applies to common stock and to securities convertible into or exchangeable or exercisable for or repayable with common stock. It also applies to common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition.

Quotation on the NASDAQ National Market

Our common stock is quoted on The NASDAQ National Market under the symbol "ARCC."

Price Stabilization and Short Positions

Edgar Filing: ARES CAPITAL CORP - Form 497

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the representatives may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

S-14

If the underwriters create a short position in the common stock in connection with the offering, i.e., if they sell more shares than are listed on the cover of this prospectus supplement, the representatives may reduce that short position by purchasing shares in the open market. The representatives may also elect to reduce any short position by exercising all or part of the overallotment option described above. Purchases of the common stock to stabilize its price or to reduce a short position may cause the price of the common stock to be higher than it might be in the absence of such purchases.

Neither we nor any of the underwriters make any representation or prediction or magnitude of any effect that the transaction described above may have the price of the common stock. In addition, neither we nor any of the representatives makes any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

Merrill Lynch will be facilitating electronic distribution for this offering to certain of its Internet subscription customers. Merrill Lynch intends to allocate a limited number of shares for sale to its online brokerage customers. An electronic prospectus is available on the Internet Web site maintained by Merrill Lynch. Other than the prospectus in electronic format, the information on the Merrill Lynch Web site is not part of this prospectus supplement.

Other Relationships

Certain of the underwriters and their affiliates have provided in the past to Ares and may provide from time to time in the future in the ordinary course of their business certain commercial banking, financial advisory, investment banking and other services to Ares, Ares Capital or our portfolio companies for which they will be entitled to receive separate fees. In particular, the underwriters or their affiliates may execute transactions with Ares Capital or on behalf of Ares Capital, Ares or any of our portfolio companies. In addition, the underwriters or their respective affiliates may act as arrangers, underwriters or placement agents for companies whose securities are sold to or whose loans are syndicated to Ares, Ares Capital or Ares Capital Management.

Affiliates of certain of the underwriters are limited partners in various Ares private investment funds. Affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated are limited partners of Ares Corporate Opportunities Fund, L.P.

The underwriters or their respective affiliates may also trade in our securities, securities of our portfolio companies or other financial instruments related thereto for their own accounts or for the account of others and may extend loans or financing directly or through derivative transactions to Ares, Ares Capital, Ares Capital Management or any of the portfolio companies.

We may purchase securities of third parties from some of the underwriters or their respective affiliates after the offering. However, we have not entered into any agreement or arrangement regarding the acquisition of any such securities, and we may not purchase any such securities. We would only purchase any such securities if among other things we identified securities that satisfied our investment needs and completed our due diligence review of such securities.

After the date of this prospectus supplement, the underwriters and their affiliates may from time to time obtain information regarding specific portfolio companies or us that may not be available to the general public. Any such information is obtained by these underwriters and their respective affiliates in the ordinary course of their business and not in connection with the offering of the common stock. In addition, after the offering period for the sale of our common stock, the underwriters or their affiliates may develop analyses or opinions related to Ares, Ares Capital or our

portfolio companies and buy or sell interests in one or more of our portfolio companies on behalf of their proprietary or client accounts and may engage in competitive activities. There is no obligation on behalf of these parties to disclose their respective analyses, opinions or purchase and sale activities regarding any portfolio company or regarding Ares Capital to our stockholders.

Each of Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wachovia Capital Markets, LLC was an underwriter of our October 2004 initial public offering and our March 2005 and October 2005 common stock offerings, for which it received customary fees. Each of UBS Securities LLC and J.P. Morgan Securities Inc. was an underwriter of our October 2005 common stock offering, for which it received customary fees. Wachovia Capital Markets, LLC is the administrative agent and a lender under the CP Funding Facility. JPMorgan Chase Bank, N.A. is the administrative agent and a lender under the Revolving Credit Facility. Merrill Lynch Capital Corporation, UBS Loan Finance LLC and Wachovia Bank, National Association are syndication agents and lenders under the Revolving Credit Facility. SunTrust Bank is a lender under the Revolving Credit Facility. Wachovia Securities was the initial purchaser in connection with the issuance by ARCC Commercial Loan Trust 2006 of \$400 million of its floating rate notes, for which it received customary fees.

Affiliates of the underwriters will receive part of the proceeds of the offering by reason of the repayment of amounts outstanding under the Revolving Credit Facility. Because more than 10% of the net proceeds of the offering may be paid to members or affiliates of members of the NASD participating in the offering, the offering will be conducted in accordance with NASD Conduct Rule 2710(h).

The principal business address of Merrill Lynch is 4 World Financial Center, New York, New York 10080. The principal business address of UBS Securities LLC is 299 Park Avenue, New York, New York 10171. The principal business address of Citigroup Global Markets Inc. is 388 Greenwich Street, New York, New York 10013. The principal business address of J.P. Morgan Securities Inc. is 277 Park Avenue, New York, New York 10172. The principal business address of Wachovia Capital Markets, LLC is One Wachovia Center, 301 South College Street, Charlotte, North Carolina 28288. The principal business address of SunTrust Capital Markets, Inc. is 3333 Peachtree Road, NE, 10th Floor, Atlanta, Georgia 30326.

LEGAL MATTERS

Certain legal matters regarding the securities offered by this prospectus supplement will be passed upon for Ares Capital by Proskauer Rose LLP, New York, New York, Sutherland Asbill & Brennan LLP, Washington, D.C., and Venable LLP, Baltimore, Maryland. Proskauer Rose LLP has from time to time represented certain of the underwriters, Ares and Ares Capital Management on unrelated matters. Certain legal matters in connection with the offering will be passed upon for the underwriters by Fried, Frank, Harris, Shriver & Jacobson LLP, New York, New York.

PROSPECTUS

\$250,000,000

Common Stock

Ares Capital Corporation is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland that is regulated as a business development company under the Investment Company Act of 1940. We were founded in April 2004 and completed our initial public offering on October 8, 2004. Our investment objectives are to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases may include an equity component, and, to a lesser extent, in equity investments, in private middle market companies.

We are managed by Ares Capital Management LLC, an affiliate of Ares Management LLC, an independent Los Angeles based firm that currently manages investment funds that have approximately \$10.7 billion of committed capital. Ares Technical Administration LLC provides the administrative services necessary for us to operate.

Our common stock is quoted on The NASDAQ National Market under the symbol "ARCC." On June 15, 2006, the last reported sales price of our common stock on The NASDAQ National Market was \$16.77 per share.

Investing in our common stock involves risks that are described in the "Risk Factors" section beginning on page 15 of the prospectus.

We may offer, from time to time, up to \$250 million aggregate initial offering price of our common stock in one or more offerings. We will offer the shares of common stock at prices and on terms to be described in one or more supplements to this prospectus. The offering price per share of our common stock less any underwriting commissions or discounts will not be less than the net value per share of our common stock at the time we make the offering. This prospectus and the accompanying prospectus supplement concisely provide important information you should know before investing in our common stock. Please read the prospectus and the accompanying prospectus supplement before you invest and keep it for future reference. Our Internet address is <http://www.arescapitalcorporation.com>. We make available free of charge on our website our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission. The SEC also maintains a website at www.sec.gov that contains such information.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus may not be used to consummate sales of shares of common stock unless accompanied by a prospectus supplement.

The date of this prospectus is June 23, 2006.

Edgar Filing: ARES CAPITAL CORP - Form 497

You should rely only on the information contained in this prospectus and the accompanying prospectus supplement. We have not authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus and the accompanying prospectus supplement is accurate only as of the date on the front cover of this prospectus and the accompanying prospectus supplement, as applicable. Our business, financial condition, results of operations and prospects may have changed since that date.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the SEC, using the "shelf" registration process. Under the shelf registration process, we may offer, from time to time, up to \$250 million aggregate initial offering price of our common stock on the terms to be determined at the time of the offering. Shares of our common stock may be offered at prices and on terms described in one or more supplements to this prospectus. This prospectus provides you with a general description of the shares of our common stock that we may offer. Each time we use this prospectus to offer shares of our common stock, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. Please carefully read this prospectus and any prospectus supplement together with any exhibits and the additional information described under the headings "Available Information" and "Risk Factors" before you make an investment decision.

PROSPECTUS SUMMARY

This summary highlights some of the information in this prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" and the other information included in this prospectus. Except where the context suggests otherwise, the terms "we," "us," "our," "the Company" and "Ares Capital" refer to Ares Capital Corporation and its subsidiaries; "Ares Capital Management" or "investment adviser" refers to Ares Capital Management LLC; "Ares Administration" refers to Ares Technical Administration LLC; and "Ares" refers to Ares Partners Management Company LLC and its affiliated companies, including Ares Management LLC.

THE COMPANY

Ares Capital is a specialty finance company that is a closed-end, non-diversified management investment company, regulated as a business development company, or a "BDC," under the Investment Company Act of 1940, or the "1940 Act." We were founded in April 2004, completed our initial public offering on October 8, 2004 and completed two additional equity offerings in March 2005 and October 2005. Ares Capital's investment objectives are to generate both current income and capital appreciation through debt and equity investments by primarily investing in U.S. middle market companies, where we believe the supply of primary capital is limited and the investment opportunities are most attractive.

We primarily invest in first and second lien senior loans and long-term mezzanine debt. First and second lien senior loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. These loans also have the benefit of security interests on the assets of the portfolio company, which may rank ahead of or be junior to other security interests. Mezzanine debt is subordinated to senior loans and is generally unsecured. In some cases, we may also receive warrants or options in connection with our debt instruments. Our investments have generally ranged between \$10 million and \$50 million each, although the investment sizes may be more or less than the targeted range and are expected to grow with our capital availability. We also, to a lesser extent, make equity investments in private middle market companies. These investments have generally been less than \$10 million each but may grow with our capital availability and are usually made in conjunction with loans we make to these companies. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential portfolio company substantially in excess of our final investment. In this prospectus, we generally use the term "middle market" to refer to companies with annual EBITDA between \$5 million and \$50 million. EBITDA represents net income before net interest expense, income tax expense, depreciation and amortization.

The first and second lien senior loans generally have stated terms of three to ten years and the mezzanine debt investments generally have stated terms of up to ten years, but the expected average life of such first and second lien loans and mezzanine debt is generally between three and seven years. However, there is no limit on the maturity or duration of any security in our portfolio. The debt that we invest in typically is not rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's or lower than "BBB-" by Standard & Poor's). We may invest without limit in debt of any rating, including securities that have not been rated by any nationally recognized statistical rating organization.

We believe that our investment adviser, Ares Capital Management, is able to leverage Ares' current investment platform, resources and existing relationships with financial sponsors, financial institutions, hedge funds and other investment firms to provide us with attractive investments. In addition to deal flow, the Ares investment platform assists our investment adviser in analyzing, structuring and monitoring investments. Ares' senior principals have worked together for many years and have substantial experience in investing in senior loans, high yield bonds, mezzanine debt and

private equity. The Company has access to the Ares staff of approximately 58 investment professionals and to the 38 administrative professionals employed by Ares who provide assistance in accounting, legal, compliance and investor relations.

While our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of private companies, we also may invest up to 30% of the portfolio in opportunistic investments. Such investments may include investments in high-yield bonds, debt and equity securities in collateralized debt obligation vehicles and distressed debt or equity securities of public companies. We expect that these public companies generally will have debt that is non-investment grade. As part of this 30% of the portfolio, we may also invest in debt of middle market companies located outside of the United States, which investments are not anticipated to be in excess of 10% of the portfolio at the time such investments are made.

About Ares

Ares is an independent firm with approximately \$10.7 billion of total committed capital and 129 employees. Ares was founded in 1997 by a group of highly experienced investment professionals.

Ares specializes in originating and managing assets in both the leveraged finance and private equity markets. Ares' leveraged finance activities include the acquisition and management of senior loans, high yield bonds, mezzanine and special situation investments. Ares' private equity activities focus on providing flexible, junior capital to middle market companies. Ares has the ability to invest across a capital structure, from senior secured floating rate debt to common equity.

Ares is comprised of the following groups:

Capital Markets Group. The Ares Capital Markets Group currently manages a variety of funds and investment vehicles that have approximately \$6.8 billion of total committed capital, focusing primarily on syndicated senior secured loans, high yield bonds, distressed debt, other liquid fixed income investments and other publicly traded debt securities.

Private Debt Group. The Ares Private Debt Group manages the assets of Ares Capital. The Private Debt Group focuses primarily on non-syndicated first and second lien senior loans and mezzanine debt.

Private Equity Group. The Ares Private Equity Group manages the Ares Corporate Opportunities Fund L.P. and the Ares Corporate Opportunities Fund II, L.P. (collectively referred to as "ACOF"), which together have approximately \$2.7 billion of total committed capital. ACOF generally makes private equity investments in companies in amounts substantially larger than the private equity investments anticipated to be made by Ares Capital. The Private Equity Group generally focuses on control-oriented equity investments in under-capitalized companies or companies with capital structure issues.

Ares' senior principals have been working together as a group for many years and have an average of over 20 years of experience in leveraged finance, private equity, distressed debt, investment banking and capital markets. They are backed by a large team of highly-disciplined professionals. Ares' rigorous investment approach is based upon an intensive, independent financial analysis, with a focus on preservation of capital, diversification and active portfolio management. These fundamentals underlie Ares' investment strategy and have resulted in large pension funds, banks, insurance companies, endowments and high net worth individuals investing in Ares funds.

Ares Capital Management

Ares Capital Management, our investment adviser, is served by a dedicated origination and transaction development team of 17 investment professionals, including our President, Michael J. Arougheti, which team is augmented by Ares' additional investment professionals, primarily its 24 member Capital Markets Group. Ares Capital Management's investment committee has 5 members, including Mr. Arougheti and 4 founding members of Ares. In addition, Ares Capital Management leverages off of Ares' entire investment platform and benefits from the Ares investment professionals' significant capital markets, trading and research expertise developed through Ares industry analysts. Ares funds have made investments in over 1,000 companies in over 30 different industries and currently hold over 400 investments in over 30 different industries.

MARKET OPPORTUNITY

We believe the environment for investing in middle market companies is attractive for the following reasons:

We believe that many senior lenders have, in recent years, de-emphasized their service and product offerings to middle market businesses in favor of lending to large corporate clients and managing capital markets transactions.

We believe there is increased demand among private middle market companies for primary capital. Many middle-market firms have faced increased difficulty raising debt in the capital markets, due to a continuing preference for larger size high yield bond issuances.

We believe there is a large pool of uninvested private equity capital for middle market companies. We expect private equity firms will seek to leverage their investments by combining capital with senior secured loans and mezzanine debt from other sources.

COMPETITIVE ADVANTAGES

We believe that we have the following competitive advantages over other capital providers in middle market companies:

Existing investment platform

Ares currently manages approximately \$10.7 billion of committed capital in the related asset classes of syndicated loans, high yield bonds, mezzanine debt and private equity. We believe Ares' current investment platform provides a competitive advantage in terms of access to origination and marketing activities and diligence for Ares Capital.

Seasoned management team

Ares senior professionals have an average of over 20 years experience in leveraged finance, including substantial experience in investing in leveraged loans, high yield bonds, mezzanine debt, distressed debt and private equity securities. As a result of Ares' extensive investment experience, Ares and its senior principals have developed a strong reputation in the capital markets. We believe that this experience affords Ares Capital a competitive advantage in identifying and investing in middle market companies with the potential to generate positive returns.

Experience and focus on middle market companies

Ares has historically focused on investments in middle market companies and we benefit from this experience. Our investment adviser uses Ares' extensive network of relationships with intermediaries focused on middle market companies, to attract well-positioned prospective

portfolio

3

company investments. In particular, our investment adviser works closely with the Ares investment professionals, who oversee a portfolio of investments in over 400 companies, and provide access to an extensive network of relationships and special insights into industry trends and the state of the capital markets.

Disciplined investment philosophy

In making its investment decisions, our investment adviser has adopted Ares' long-standing, consistent investment approach that was developed over 14 years ago by several of its founders. Ares Capital Management's investment philosophy and portfolio construction involves an assessment of the overall macroeconomic environment, financial markets and company-specific research and analysis. Our investment approach emphasizes capital preservation, low volatility and minimization of downside risk.

Extensive industry focus

We concentrate our investing activities in industries with a history of predictable and dependable cash flows and in which the Ares investment professionals historically have had extensive investment experience. Since its inception in 1997, Ares investment professionals have invested in over 1,000 companies in over 30 different industries, and over this time have developed long-term relationships with management teams and management consultants within these industries. The experience of Ares' investment professionals in investing across these industries, throughout various stages of the economic cycle, provides our investment adviser with access to ongoing market insights and favorable investment opportunities.

Flexible transaction structuring

We are flexible in structuring investments, the types of securities in which we invest and the terms associated with such investments. The principals of Ares have extensive experience in a wide variety of securities for leveraged companies with a diverse set of terms and conditions. This approach and experience should enable our investment adviser to identify attractive investment opportunities throughout the economic cycle and across a company's capital structure so that we can make investments consistent with our stated objectives.

OPERATING AND REGULATORY STRUCTURE

Our investment activities are managed by Ares Capital Management and supervised by our board of directors, a majority of whom are independent of Ares and its affiliates. Ares Capital Management is an investment adviser that is registered under the Investment Advisers Act of 1940, or the "Advisers Act." Under our amended and restated investment advisory and management agreement, referred to herein as our investment advisory and management agreement, we have agreed to pay Ares Capital Management an annual base management fee based on our total assets, as defined under the 1940 Act (other than cash and cash equivalents but including assets purchased with borrowed funds), and an incentive fee based on our performance. See "Management Investment Advisory and Management Agreement."

As a BDC, we are required to comply with certain regulatory requirements. While we are permitted to finance investments using debt, our ability to use debt is limited in certain significant respects. See "Regulation." We have elected to be treated for federal income tax purposes as a regulated investment company, or a "RIC," under Subchapter M of the Internal Revenue Code of 1986, or the "Code." See "Material U.S. Federal Income Tax Considerations."

LIQUIDITY

We are party to a Senior Secured Revolving Credit Agreement that provides for up to \$250 million of borrowings, which expires on December 28, 2010. In addition, our wholly owned subsidiary, Ares Capital CP Funding LLC, is party to a separate credit facility (together with the Senior Secured Revolving Credit Agreement, the "Facilities") that provides for up to \$350 million of borrowings, which expires on November 1, 2006, unless extended prior to such date with the consent of the lenders.

RISK FACTORS

Investing in Ares Capital involves risks. The following is a summary of certain risks that you should carefully consider before investing in shares of our common stock. In addition, see "Risk Factors" beginning on page 15 for a more detailed discussion of the factors you should carefully consider before deciding to invest in our common stock.

Risks Relating to Our Business

A failure on our part to maintain our status as a BDC would significantly reduce our operating flexibility.

The Company may not replicate Ares' historical success.

We are dependent upon Ares Capital Management's key personnel for our future success and upon their access to Ares investment professionals.

We are a new company with a limited operating history.

Our investment adviser and the members of its investment committee have limited experience managing a BDC.

Our financial condition and results of operation will depend on our ability to manage future growth effectively.

Our ability to grow will depend on our ability to raise capital.

We operate in a highly competitive market for investment opportunities.

We will be subject to corporate-level income tax if we are unable to qualify as a RIC.

We may have difficulty paying our required distributions if we recognize income before or without receiving cash representing such income.

Regulations governing our operation as a BDC affect our ability to, and the way in which we, raise additional capital.

If our primary investments are deemed not to be qualifying assets we could lose our status as a BDC or be precluded from investing according to our current business plan.

Edgar Filing: ARES CAPITAL CORP - Form 497

We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us.

We will be exposed to risks associated with changes in interest rates.

Many of our portfolio investments are not publicly traded and, as a result, there will be uncertainty as to the value of our portfolio investments.

The lack of liquidity in our investments may adversely affect our business.

We may experience fluctuations in our quarterly results.

Edgar Filing: ARES CAPITAL CORP - Form 497

There are significant potential conflicts of interest that could impact our investment returns.

Our investment adviser's liability is limited under the investment management agreement, and we will indemnify our investment adviser against certain liabilities, which may lead our investment adviser to act in a riskier manner on our behalf than it would when acting for its own account.

We may be obligated to pay our manager incentive compensation even if we incur a loss.

Changes in laws or regulations governing our operations, or changes in the interpretation thereof, and any failure by us to comply with laws or regulations governing our operations may adversely affect our business.

Our ability to enter into transactions with our affiliates will be restricted.

Risks Relating To Our Investments

Our portfolio is concentrated in a limited number of portfolio companies, which subjects us to a risk of significant loss if any of these companies defaults on its obligations.

Our investments may be risky, and you could lose all or part of your investment.

Economic recessions or downturns could impair our portfolio companies and harm our operating results.

There may be circumstances where our debt investments could be subordinated to claims of other creditors or we could be subject to lender liability claims.

An investment strategy focused primarily on privately-held companies presents certain challenges, including the lack of available information about these companies and a greater vulnerability to economic downturns.

Our portfolio companies may incur debt or issue equity securities that rank equally with, or senior to, our investments in such companies.

Investments in equity securities involve a substantial degree of risk.

Our incentive fee may induce Ares Capital Management to make certain investments, including speculative investments.

Our investments in foreign debt may involve significant risks in addition to the risks inherent in U.S. investments. We may expose ourselves to risks if we engage in hedging transactions.

We will initially invest a portion of the net proceeds of offerings pursuant to this prospectus primarily in high-quality short-term investments, which will generate lower rates of return than those expected from the interest generated on first and second lien loans and mezzanine debt.

Edgar Filing: ARES CAPITAL CORP - Form 497

When we are a debt or minority equity investor in a portfolio company, we may not be in a position to control the entity, and management of the company may make decisions that could decrease the value of our portfolio holdings.

Our board of directors may change our operating policies and strategies without prior notice or stockholder approval, the effects of which may be adverse.

Risks Relating To Offerings

There is a risk that you may not receive dividends or that our dividends may not grow over time.

Provisions of the Maryland General Corporation Law and of our charter and bylaws could deter takeover attempts and have an adverse impact on the price of our common stock.

Investing in our shares may involve an above average degree of risk.

The market price of our common stock may fluctuate significantly.

We may allocate the net proceeds from offerings in ways with which you may not agree.

Our shares may trade at discounts from net asset value.

Investors in offerings will incur immediate dilution upon the closing of this offering.

Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of our common stock.

OUR CORPORATE INFORMATION

Our administrative offices are located at 1999 Avenue of the Stars, Suite 1900, Los Angeles, California, 90067, telephone number (310) 201-4200, and our executive offices are located at 280 Park Avenue, 22nd Floor, Building East, New York, New York 10017, telephone number (212) 750-7300.

OFFERINGS

We may offer, from time to time, up to \$250 million of our common stock, on terms to be determined at the time of the offering. We will offer our common stock at prices and on terms to be set forth in one or more supplements to this prospectus; *provided* that the offering price per share, less any underwriting commissions or discounts, will not be less than the net asset value per share of our common stock at the time of the offering.

We may offer our common stock directly to one or more purchasers, through agents that we designate from time to time, or to or through underwriters or dealers. The prospectus supplement relating to the offering will identify any agents or underwriters involved in the sale of our common stock, and will set forth any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters or among our underwriters or the basis upon which such amount may be calculated. See "Plan of Distribution." We may not sell any of our common stock through agents, underwriters or dealers without delivery of a prospectus supplement describing the method and terms of the offering of our securities.

Set forth below is additional information regarding offerings of our securities:

Use of proceeds	Unless otherwise specified in a prospectus supplement, we intend to use the net proceeds from the sale of our securities for general corporate purposes, which includes investing in portfolio companies in accordance with our investment objectives and strategies and repaying indebtedness, if any, incurred under our credit facilities. The supplement to this prospectus relating to an offering will more fully identify the use of the proceeds from such offering. See "Use of Proceeds."
Distributions	We intend to distribute quarterly dividends to our stockholders out of assets legally available for distribution. Our quarterly dividends, if any, will be determined by our board of directors. For more information, see "Dividends."
Taxation	We have elected to be treated for federal income tax purposes as a RIC. As a RIC, we generally will not pay corporate-level federal income taxes on any ordinary income or capital gains that we distribute to our stockholders as dividends. To maintain our RIC status, we must meet specified source-of-income and asset diversification requirements and distribute annually an amount equal to at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, reduced by deductible expenses, out of assets legally available for distribution. See "Risk Factors We will be subject to corporate level income tax if we are unable to qualify as a RIC" and "Distributions."
Dividend reinvestment plan	We have a dividend reinvestment plan for our stockholders. This is an "opt out" dividend reinvestment plan. As a result, if we declare a dividend, then stockholders' cash dividends will be automatically reinvested in additional shares of our common stock, unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash dividends. Stockholders who receive distributions in the form of stock will be subject to the same federal, state and local tax consequences as stockholders who elect to receive their distributions in cash. See "Dividend Reinvestment Plan."
NASDAQ National Market symbol	"ARCC"

Anti-takeover provisions	Our board of directors is divided into three classes of directors serving staggered three-year terms. This structure is intended to provide us with a greater likelihood of continuity of management, which may be necessary for us to realize the full value of our investments. A staggered board of directors also may serve to deter hostile takeovers or proxy contests, as may certain other measures adopted by us. See "Description of Our Stock."
Leverage	We borrow funds to make additional investments. We use this practice, which is known as "leverage," to attempt to increase returns to our common stockholders, but it involves significant risks. See "Risk Factors," "Senior Securities" and "Regulation Indebtedness and Senior Securities." With certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200% after such borrowing. The amount of leverage that we employ at any particular time will depend on our investment adviser's and our board of directors' assessment of market and other factors at the time of any proposed borrowing.
Management arrangements	Ares Capital Management serves as our investment adviser. Ares Administration serves as our administrator. For a description of Ares Capital Management, Ares Administration, Ares and our contractual arrangements with these companies, see "Management Investment Advisory and Management Agreement," and " Administration Agreement."
Available information	We are required to file periodic reports, proxy statements and other information with the SEC. This information is available free of charge on our website at www.arescapitalcorp.com . The SEC also maintains a website at www.sec.gov that contains such information.

FEES AND EXPENSES

The following table is intended to assist you in understanding the costs and expenses that an investor in our common stock will bear directly or indirectly. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this prospectus contains a reference to fees or expenses paid by "you," "us" or "Ares Capital," or that "we" will pay fees or expenses, stockholders will indirectly bear such fees or expenses as investors in Ares Capital.

Stockholder transaction expenses (as a percentage of offering price):	
Sales load paid by us	(1)
Offering expenses borne by us	(2)
Dividend reinvestment plan expenses	None (3)
	<hr/>
Total stockholder transaction expenses paid by us	(4)
	<hr/>
Estimated annual expenses (as a percentage of consolidated net assets attributable to common stock)(5):	
Management fees	2.04%(6)
Incentive fees payable under investment advisory and management agreement (20% of realized capital gains and 20% of pre-incentive fee net investment income, subject to certain limitations)	0.00%(7)
Interest payments on borrowed funds	1.23%(8)
Other expenses	0.78%(9)
	<hr/>
Total annual expenses (estimated)	4.05%(10)
	<hr/>

- (1) In the event that the shares of common stock to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will disclose the applicable sales load.
- (2) The related prospectus supplement will disclose the estimated amount of offering expenses, the offering price and the offering expenses borne by us as a percentage of the offering price.
- (3) The expenses of the dividend reinvestment plan are included in "other expenses."
- (4) The related prospectus supplement will disclose the offering price and the total stockholder transaction expenses as a percentage of the offering price.
- (5) "Consolidated net assets attributable to common stock" equals net asset value at March 31, 2006.
- (6) Our management fee is 1.5% of our total assets other than cash and cash equivalents (which includes assets purchased with borrowed amounts). For the purposes of this table, we have assumed that we maintain no cash or cash equivalents. The 2.04% reflected on the table is calculated on our net assets (rather than our total assets). See "Management Investment Advisory and Management Agreement."
- (7) We expect to invest all of the net proceeds from shares of common stock registered under the registration statement of which this prospectus is a part within two years or less of the date of the initial registration and may have capital gains and interest income that could result in the payment of an incentive fee to our investment adviser in the first year after completion of offerings pursuant to this prospectus. However, the incentive fee payable to our investment adviser is based on our performance and will not be paid unless we achieve certain goals. As we cannot predict whether we will meet the necessary performance targets, we have assumed a base incentive fee of 0% in this chart. Since our inception, the average quarterly incentive fee payable to our investment adviser has been approximately 0.34% of our weighted net assets (1.36% on an annualized basis). For more detailed information about incentive fees

previously incurred by us, please see Note 3 to our

Edgar Filing: ARES CAPITAL CORP - Form 497

consolidated financial statements as of December 31, 2005 and Note 3 to our consolidated financial statements as of March 31, 2006.

The incentive fee consists of two parts:

The first, payable quarterly in arrears, equals 20% of our pre-incentive fee net investment income (including interest that is accrued but not yet received in cash), subject to a 2.00% quarterly (8% annualized) hurdle rate and a "catch-up" provision measured as of the end of each calendar quarter. Under this provision, in any calendar quarter, our investment adviser receives no incentive fee until our net investment income equals the hurdle rate of 2.00% but then receives, as a "catch-up," 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.50%. The effect of this provision is that, if pre-incentive fee net investment income exceeds 2.50% in any calendar quarter, our investment adviser will receive 20% of our pre-incentive fee net investment income as if a hurdle rate did not apply.

The second, payable annually in arrears for each calendar year ending on or after December 31, 2004, equals 20% of our net realized capital gains, if any, computed net of all realized capital losses and unrealized capital depreciation.

We will defer cash payment of any incentive fee otherwise earned by our investment adviser if, during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness) is less than 8.0% of our net assets at the beginning of such period. These calculations will be adjusted for any share issuances or repurchases.

See "Management Investment Advisory and Management Agreement."

- (8) "Interest payments on borrowed funds" represents an estimate of our annualized interest expenses based on actual interest and credit facility expense incurred and amortization of debt issuance cost for the quarter ended March 31, 2006. During the quarter ended March 31, 2006, the average borrowings were \$82.9 million and cash paid for interest expense was \$308,038. We had outstanding borrowings of \$185.2 million at March 31, 2006. The estimate is based on our assumption that our borrowings and interest costs after an offering will remain similar to those prior to such offering. The amount of leverage that we employ at any particular time will depend on, among other things, our investment adviser's and our board of directors' assessment of market and other factors at the time of any proposed borrowing. See "Risk Factors We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us."
- (9) Includes our overhead expenses, including payments under the administration agreement based on our allocable portion of overhead and other expenses incurred by Ares Administration in performing its obligations under the administration agreement. Such expenses are based on annualized other expenses for the quarter ended March 31, 2006. See "Management Administration Agreement." The holders of shares of our common stock (and not the holders of our debt securities or preferred stock, if any) indirectly bear the cost associated with our annual expenses.
- (10) "Total annual expenses" as a percentage of consolidated net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage our net assets and increase our total assets. The SEC requires that the "Total annual expenses" percentage be calculated as a percentage of net assets, rather than the total assets, including assets that have been funded with borrowed monies. If the "Total annual

Edgar Filing: ARES CAPITAL CORP - Form 497

expenses" percentage were calculated instead as a percentage of consolidated total assets, our "Total annual expenses" would be 2.97% of consolidated total assets.

Example

The following example demonstrates the projected dollar amount of total cumulative expenses over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed we would have no additional leverage, that none of our assets are cash or cash equivalents, and that our annual operating expenses would remain at the levels set forth in the table above. Transaction expenses are not included in the following example. In the event that shares to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will restate this example to reflect the applicable sales load.

	1 year	3 years	5 years	10 years
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual return(1)	\$ 41.50	\$ 125.56	\$ 211.06	\$ 431.24

(1)

The above illustration assumes that we will not realize any capital gains computed net of all realized capital losses and unrealized capital depreciation. The expenses you would pay, based on a \$1,000 investment and assuming a 5% annual return resulting entirely from net realized capital gains (and therefore subject to the capital gain incentive fee), and otherwise making the same assumptions in the example above, would be: 1 year, \$51.50; 3 years, \$154.88; 5 years, \$258.73; and 10 years, \$520.16. However, cash payment of the capital incentive fee would be deferred if during the most recent four full calendar quarter period ending on or prior to the date the payment set forth in the example is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness) was less than 8.0% of our net assets at the beginning of such period (as adjusted for any share issuances or repurchases).

The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The incentive fee under the investment advisory and management agreement, which, assuming a 5% annual return, would either not be payable or have an insignificant impact on the expense amounts shown above, is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, participants in our dividend reinvestment plan who have not otherwise elected to receive cash will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the valuation date for the dividend. See "Dividend Reinvestment Plan" for additional information regarding our dividend reinvestment plan.

This example and the expenses in the table above should not be considered a representation of our future expenses, and actual expenses (including the cost of debt, if any, and other expenses) may be greater or less than those shown.

SELECTED FINANCIAL AND OTHER DATA

The following selected financial and other data for the period from June 23, 2004 (inception) through December 31, 2004 and the year ended December 31, 2005, are derived from our consolidated financial statements that have been audited by KPMG LLP, an independent registered public accounting firm whose report thereon is included within this registration statement. Quarterly financial information is derived from unaudited financial data, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results at and for the three months ended March 31, 2006, are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. The data should be read in conjunction with our consolidated financial statements and notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations," which are included elsewhere in this registration statement.

Weighted Average Yield of Income Producing Equity Securities and Debt(5):	11.47%	11.25%	12.36%

- (1) The information presented for the period June 23, 2004 (inception) through December 31, 2004 includes \$140.8 million of the assets purchased from Royal Bank of Canada and excludes \$9.7 million of publicly traded fixed income securities.

Edgar Filing: ARES CAPITAL CORP - Form 497

(2) The information presented for the period June 23, 2004 (inception) through December 31, 2004 excludes \$9.7 million of publicly traded fixed income securities.

(3) Total return based on market value for the three months ended March 31, 2006 equals the increase of the ending market value at March 31, 2006 or \$17.18 per share over the ending market value at December 31, 2005 of \$16.07, plus the declared dividend of \$0.36 per share for holders of record on March 24, 2006, divided by the market value at December 31, 2005. Total return based on market value for the year ended December 31, 2005 equals the decrease of the ending market value at December 31, 2005 of \$16.07 per share over the ending market value at December 31, 2004 of \$19.43 per share plus the declared dividends of \$1.30 per share for the year ended December 31, 2005. Total return based on market value for the period June 23, 2004 (inception) through December 31, 2004 equals the increase of the ending market value at December 31, 2004 of \$19.43 per share over the offering price of \$15.00 per share plus the declared dividend of \$0.30 per share (includes return of capital of \$0.01 per share) for holders of record on December 27, 2004, divided by the offering price. Total return based on market value is not annualized.

(4) Total return based on net asset value for the three months ended March 31, 2006 equals the change in net asset value during the period plus the declared dividend of \$0.36 per share for holders of record on March 24, 2006, divided by the beginning net asset value during the period. Total return based on net asset value for the year ended December 31, 2005 equals the change in net asset value during the period (adjusted for share issuances) plus the declared dividends of \$1.30 per share for the year ended December 31, 2005, divided by the beginning net asset value. Total return based on net asset value for the period June 23, 2004 (inception) through December 31, 2004 equals the change in net asset value during the period plus the declared dividend of \$0.30 per share (includes return of capital of \$0.01 per share) for holders of record on December 27, 2004, divided by the beginning net asset value. Total return based on net asset value is not annualized.

(5) Weighted average yield on income producing equity securities and debt is computed as (a) the annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount on accruing debt divided by (b) total income producing equity securities and debt at fair value.

(1) The Company was initially funded on June 23, 2004 (inception) but had no significant operations until the fourth quarter of 2004. The sole activity for the second and third quarters of 2004 was the incurrence of \$199,183 in organizational expenses.

RISK FACTORS

Before you invest in our shares, you should be aware of various risks, including those described below. You should carefully consider these risk factors, together with all of the other information included in this prospectus, before you decide whether to make an investment in our common stock. The risks set out below are not the only risks we face. If any of the following events occur, our business, financial condition and results of operations could be materially adversely affected. In such case, our net asset value and the trading price of our common stock could decline, and you may lose all or part of your investment.

RISKS RELATING TO OUR BUSINESS

A failure on our part to maintain our status as a BDC would significantly reduce our operating flexibility.

If we do not continue to qualify as a BDC, we might be regulated as a closed-end investment company under the 1940 Act, which would significantly decrease our operating flexibility.

The Company may not replicate Ares' historical success.

Our primary focus in making investments differs from those of other private funds that are or have been managed by Ares' investment professionals. Further, investors in Ares Capital are not acquiring an interest in other Ares funds. While Ares Capital may consider potential co-investment participation in portfolio investments with other Ares funds (other than ACOF), no investment opportunities are currently under consideration and any such investment activity could be subject to, among other things, regulatory and independent board member approvals, the receipt of which, if sought, cannot be assured. Accordingly, we cannot assure you that Ares Capital will replicate Ares' historical success, and we caution you that our investment returns could be substantially lower than the returns achieved by those private funds.

We are dependent upon Ares Capital Management's key personnel for our future success and upon their access to Ares investment professionals.

We depend on the diligence, skill and network of business contacts of the members of Ares Capital Management's investment committee. We also depend, to a significant extent, on Ares Capital Management's access to the investment professionals of Ares and the information and deal flow generated by Ares' investment professionals in the course of their investment and portfolio management activities. Our future success will depend on the continued service of Ares Capital Management's investment committee. The departure of any of the members of Ares Capital Management's investment committee, or of a significant number of the investment professionals or partners of Ares, could have a material adverse effect on our ability to achieve our investment objectives. In addition, we cannot assure you that Ares Capital Management will remain our investment adviser or that we will continue to have access to Ares' investment professionals or its information and deal flow.

We are a new company with a limited operating history.

We were incorporated in April 2004, completed our initial public offering in October 2004 and have a limited operating history. We are subject to all of the business risks and uncertainties associated with any new business, including the risk that we will not achieve our investment objectives and that the value of your investment could decline substantially.

Our investment adviser and the members of its investment committee have limited experience managing a BDC.

The 1940 Act imposes numerous constraints on the operations of business development companies. For example, business development companies are required to invest at least 70% of their total assets primarily in securities of private or thinly traded U.S. public companies, cash, cash equivalents, U.S. government securities and other high quality debt investments that mature in one year or less. Our investment adviser and the majority of the members of our senior management only have limited experience managing or providing management consultant services to an operating company, such as may be required of a BDC. Our investment adviser's, and the members of its investment committee's, lack of experience in managing a portfolio of assets under such constraints may hinder their ability to take advantage of attractive investment opportunities and, as a result, achieve our investment objectives.

Our financial condition and results of operation will depend on our ability to manage future growth effectively.

Our ability to achieve our investment objectives depends on our ability to acquire suitable investments and monitor and administer those investments, which depends, in turn, on Ares Capital Management's ability to identify, invest in and monitor companies that meet our investment criteria.

Accomplishing this result on a cost-effective basis is largely a function of Ares Capital Management's structuring of the investment process and its ability to provide competent, attentive and efficient services to us. Our executive officers and the members of Ares Capital Management have substantial responsibilities in connection with their roles at Ares and with the other Ares funds as well as responsibilities under the investment advisory and management agreement. They may also be called upon to provide managerial assistance to our portfolio companies on behalf of our administrator. These demands on their time, which will increase as the number of investments grow, may distract them or slow the rate of investment. In order to grow, Ares Capital Management will need to hire, train, supervise and manage new employees. However, we cannot assure you that any such employees will be retained. Any failure to manage our future growth effectively could have a material adverse effect on our business, financial condition and results of operations.

Our ability to grow will depend on our ability to raise capital.

We will need to periodically access the capital markets to raise cash to fund new investments. Unfavorable economic conditions could increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us. An inability to successfully access the capital markets could limit our ability to grow our business and fully execute our business strategy and could decrease our earnings, if any. With certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200% after such borrowing. The amount of leverage that we employ will depend on our investment adviser's and our board of directors' assessment of market and other factors at the time of any proposed borrowing. We cannot assure you that we will be able to maintain our current Facilities or obtain other lines of credit at all or on terms acceptable to us.

We operate in a highly competitive market for investment opportunities.

A number of entities compete with us to make the types of investments that we make in middle market companies. We compete with other business development companies, public and private funds, commercial and investment banks, commercial financing companies, insurance companies, high yield investors, hedge funds, and, to the extent they provide an alternative form of financing, private equity funds. Many of our competitors are substantially larger and have considerably greater financial,

technical and marketing resources than we do. Some competitors may have a lower cost of funds and access to funding sources that are not available to us. In addition, some of our competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships than us. Furthermore, many of our competitors are not subject to the regulatory restrictions that the 1940 Act imposes on us as a BDC. We cannot assure you that the competitive pressures we face will not have a material adverse effect on our business, financial condition and results of operations. Also, as a result of this competition, we may not be able to take advantage of attractive investment opportunities from time to time, and we cannot assure you that we will be able to identify and make investments that meet our investment objectives.

We do not seek to compete primarily based on the interest rates we offer and we believe that some of our competitors may make loans with interest rates that will be comparable to or lower than the rates we offer.

We may lose investment opportunities if we do not match our competitors' pricing, terms and structure. If we match our competitors' pricing, terms and structure, we may experience decreased net interest income and increased risk of credit loss. As a result of operating in such a competitive environment, we may make investments that are on better terms to our portfolio companies than what we may have originally anticipated, which may impact our return on these investments.

We will be subject to corporate-level income tax if we are unable to qualify as a RIC.

To qualify as a RIC under the Code, we must meet certain income source, asset diversification and annual distribution requirements.

The annual distribution requirement for a RIC is satisfied if we distribute to our stockholders on a timely basis an amount equal to at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, reduced by deductible expenses for each year. Because we use debt financing, we are subject to certain asset coverage ratio requirements under the 1940 Act and financial covenants under our loan agreements that could, under certain circumstances, restrict us from making distributions necessary to qualify as a RIC. If we are unable to obtain cash from other sources, we may fail to qualify as a RIC and, thus, may be subject to corporate-level income tax.

To qualify as a RIC, we must also meet certain asset diversification requirements at the end of each calendar quarter. Failure to meet these tests may result in our having to (i) dispose of certain investments quickly or (ii) raise additional capital to prevent the loss of RIC status. If we fail to qualify as a RIC for any reason and become or remain subject to corporate income tax, the resulting corporate taxes could substantially reduce our net assets, the amount of income available for distribution and the amount of our distributions. Such a failure would have a material adverse effect on us and our stockholders.

We may have difficulty paying our required distributions if we recognize income before or without receiving cash representing such income.

For federal income tax purposes, we include in income certain amounts that we have not yet received in cash, such as original issue discount, which may arise if we receive warrants in connection with the making of a loan or possibly in other circumstances, or contracted payment-in-kind interest, which represents contractual interest added to the loan balance and due at the end of the loan term. Such original issue discount or increases in loan balances are included in income before we receive any corresponding cash payments. We also may be required to include in income certain other amounts that we will not receive in cash, including, for example, non-cash income from pay-in-kind securities and deferred payment securities.

Since in certain cases we may recognize income before or without receiving cash representing such income, we may have difficulty meeting the tax requirement to distribute an amount equal to at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, reduced by deductible expenses, to maintain our status as a RIC. Accordingly, we may have to sell some of our investments at times we would not consider advantageous, raise additional debt or equity capital or reduce new investment originations to meet these distribution requirements. If we are not able to obtain cash from other sources, we may fail to qualify as a RIC and thus be subject to corporate-level income tax. See "Material U.S. Federal Income Tax Considerations Taxation as a RIC."

If a portfolio company defaults on a loan that is structured to provide accrued interest, it is possible that accrued interest previously used in the calculation of the incentive fee will become uncollectible. The investment adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued income that we never receive as a result of a default by an entity on the obligation that resulted in the accrual of such income.

Regulations governing our operation as a BDC affect our ability to, and the way in which we, raise additional capital.

We may issue debt securities or preferred stock, which we refer to collectively as "senior securities," and borrow money from banks or other financial institutions up to the maximum amount permitted by the 1940 Act. Under the provisions of the 1940 Act, we will be permitted, as a BDC, to incur indebtedness or issue senior securities only in amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200% after such incurrence or issuance. If the value of our assets declines, we may be unable to satisfy this test, which would prohibit us from paying dividends and could prevent us from maintaining our status as a RIC. If we cannot satisfy this test, we may be required to sell a portion of our investments and, depending on the nature of our leverage, repay a portion of our indebtedness at a time when such sales may be disadvantageous. As of March 31, 2006, our asset coverage for senior securities was 409%.

We are not generally able to issue and sell our common stock at a price below net asset value per share. We may, however, sell our common stock, or warrants, options or rights to acquire our common stock, at a price below the current net asset value of the common stock if our board of directors determines that such sale is in our best interests and the best interests of our stockholders, and our stockholders approve such sale. In any such case, the price at which our securities are to be issued and sold may not be less than a price which, in the determination of our board of directors, closely approximates the market value of such securities (less any commission or discount). If our common stock trades at a discount to net asset value, this restriction could adversely affect our ability to raise capital.

In addition, we may seek to securitize our loans to generate cash for funding new investments. To securitize loans, we may create a wholly owned subsidiary and contribute a pool of loans to the subsidiary. This could include the sale of interests in the subsidiary on a non-recourse basis to purchasers who we would expect to be willing to accept a lower interest rate to invest in investment grade loan pools, and we would retain a portion of the equity in the securitized pool of loans. An inability to successfully securitize our loan portfolio could limit our ability to grow our business, fully execute our business strategy and decrease our earnings, if any. The securitization market is subject to changing market conditions and we may not be able to access this market when we would otherwise deem appropriate. Moreover, the successful securitization of our loan portfolio might expose us to losses as the residual loans in which we do not sell interests will tend to be those that are riskier and more apt to generate losses. The 1940 Act may also impose restrictions on the structure of any securitization.

If our primary investments are deemed not to be qualifying assets, we could lose our status as a BDC or be precluded from investing according to our current business plan.

If we are to maintain our status as a BDC, we must not acquire any assets other than "qualifying assets" unless, at the time of and after giving effect to such acquisition, at least 70% of our total assets are qualifying assets. If we acquire senior loans, mezzanine investments or equity securities from an issuer that has outstanding marginable securities at the time we make an investment, these acquired assets may not be treated as qualifying assets. See "Regulation Qualifying Assets." This results from the definition of "eligible portfolio company" under the 1940 Act, which in part looks to whether a company has outstanding marginable securities.

Amendments promulgated in 1998 by the Board of Governors of the Federal Reserve System to Regulation T under the Securities Exchange Act of 1934 (the "Exchange Act"), expanded the definition of marginable security to include any non-equity security. These amendments have raised questions as to whether a private company that has outstanding debt would qualify as an eligible portfolio company.

We believe that the senior loans and mezzanine investments that we acquire should constitute qualifying assets because the privately held issuers will not, at the time of our investment, have outstanding marginable securities for the reasons set forth in this paragraph. First, we make a large portion of our investments in companies that, to the extent they have any outstanding debt, have issued such debt on terms and in circumstances such that such debt should not, under existing legal precedent, be "securities" under the Exchange Act and therefore should not be deemed marginable securities under Regulation T. Second, we believe that, should a different position be taken such that those investments may be securities, they should still not be marginable securities. In particular, debt that does not trade in a public secondary market or is not rated investment grade is generally not a margin eligible security under the rules established by the self-regulatory organizations, including the New York Stock Exchange and National Association of Securities Dealers, that govern the terms on which broker-dealers may extend margin credit. Unless the questions raised by the amendments to Regulation T have been addressed by legislative, administrative or judicial action that contradicts our interpretation, we intend to treat as qualifying assets only those senior loans and mezzanine investments that, at the time of our investment, are issued by an issuer that does not have outstanding a class of margin eligible securities. Likewise, we will treat equity securities issued by a portfolio company as qualifying assets only if such securities are issued by a company that has no margin eligible securities outstanding at the time we purchase such securities.

If there were a court ruling or regulatory decision that conflicts with our interpretations, we could lose our status as a BDC or be precluded from investing in the manner described in this prospectus, either of which would have a material adverse effect on our business, financial condition and results of operations. See " A failure on our part to maintain our status as a BDC would significantly reduce our operating flexibility." Such a ruling or decision also may require that we dispose of investments that we made based on our interpretation of Regulation T. Such dispositions could have a material adverse effect on us and our stockholders. We may need to dispose of such investments quickly, which would make it difficult to dispose of such investments on favorable terms. In addition, because these types of investments will generally be illiquid, we may have difficulty in finding a buyer and, even if we do find a buyer, we may have to sell the investments at a substantial loss. See "Changes in laws or regulations governing our operations, or changes in the interpretation thereof, and any failure by us to comply with laws or regulations governing our operations may adversely affect our business."

On November 1, 2004, the SEC proposed for comment two new rules under the 1940 Act that are designed to realign the definition of eligible portfolio company set forth under the 1940 Act, and the investment activities of BDCs, with their original purpose by (1) defining eligible portfolio company

with reference to whether an issuer has any class of securities listed on a national securities exchange or on an automated interdealer quotation system of a national securities association ("NASDAQ") and (2) permitting BDCs to make certain additional ("follow-on") investments in those issuers even after they list their securities on a national securities exchange or on NASDAQ. The proposed rules are intended to expand the definition of eligible portfolio company in a manner that would promote the flow of capital to small, developing and financially troubled companies. We cannot assure you that these rules, or related rules arising out of the comment process, will be approved by the Securities and Exchange Commission.

Until the SEC or its staff has issued final rules with respect to the issue discussed above, we will continue to monitor this issue closely, and may be required to adjust our investment focus to comply with and/or take advantage of any future administrative position, judicial decision or legislative action.

We borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing with us.

As of March 31, 2006, we had \$185.2 million of outstanding borrowings under our Facilities. In order for us to cover our annual interest payments on indebtedness, we must achieve annual returns on our March 31, 2006 total assets of at least 0.69%. The weighted average interest rate charged on our borrowings as of March 31, 2006 was 5.6566%. We intend to continue borrowing under the Facilities in the future and we may increase the size of the Facilities or otherwise issue debt securities or other evidences of indebtedness. Our ability to service our debt depends largely on our financial performance and will be subject to prevailing economic conditions and competitive pressures. The amount of leverage that we employ at any particular time will depend on our investment adviser's and our board of directors' assessment of market and other factors at the time of any proposed borrowing.

Our Facilities impose financial and operating covenants that restrict our business activities, including limitations that could hinder our ability to finance additional loans and investments or to make the distributions required to maintain our status as a regulated investment company under Subchapter M of the Internal Revenue Code. A failure to renew our Facilities, or to add new or replacement debt facilities could have a material adverse effect on our business, financial condition and results of operations.

Borrowings, also known as leverage, magnify the potential for gain or loss on amounts invested and, therefore, increase the risks associated with investing in our securities. We currently borrow under our Facilities and in the future may borrow from or issue senior debt securities to banks, insurance companies, and other lenders. Lenders of senior securities have fixed dollar claims on our consolidated assets that are superior to the claims of our common stockholders. If the value of our consolidated assets increases, then leveraging would cause the net asset value attributable to our common stock to increase more sharply than it would have had we not leveraged. Conversely, if the value of our consolidated assets decreases, leveraging would cause net asset value to decline more sharply than it otherwise would have had we not leveraged. Similarly, any increase in our consolidated income in excess of consolidated interest payable on the borrowed funds would cause our net income to increase more than it would without the leverage, while any decrease in our consolidated income would cause net income to decline more sharply than it would have had we not borrowed. Such a decline could negatively affect our ability to make common stock dividend payments. There is no assurance that a leveraging strategy will be successful.

The following table illustrates the effect on return to a holder of our common stock of the leverage created by our use of borrowing at the interest rate of 5.6566% and assumes (i) our total

Edgar Filing: ARES CAPITAL CORP - Form 497

value of net assets as of March 31, 2006; (ii) \$185.2 million debt outstanding as of March 31, 2006 and (iii) hypothetical annual returns on our portfolio of minus 15 to plus 15 percent.

Assumed Return on Portfolio (Net of Expenses)(1)	-15.0%	-10.0%	-5.0%	5.0%	10.0%	15.0%
Corresponding Return to Common Stockholders(2)	-22.3%	-15.5%	-8.7%	-1.8%	5.0%	11.8%

- (1) The assumed portfolio return is required by regulation of the SEC and is not a prediction of, and does not represent, our projected or actual performance.
- (2) In order to compute the "Corresponding Return to Common Stockholders," the "Assumed Return on Portfolio" is multiplied by the total value of our assets at March 31, 2006 to obtain an assumed return to us. From this amount, the interest expense calculated by multiplying the interest rate of 5.6566% times the \$185.2 million debt is subtracted to determine the return available to stockholders. The return available to stockholders is then divided by the total value of our net assets as of March 31, 2006 to determine the "Corresponding Return to Common Stockholders."

We will be exposed to risks associated with changes in interest rates.

General interest rate fluctuations may have a substantial negative impact on our investments and investment opportunities and, accordingly, may have a material adverse effect on investment objectives and our rate of return on invested capital. Because we borrow money to make investments, our net investment income is dependent upon the difference between the rate at which we borrow funds and the rate at which we invest these funds. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income. Trading prices for debt that pays a fixed rate of return tend to fall as interest rates rise. Trading prices tend to fluctuate more for fixed-rate securities that have longer maturities. Although we have no policy governing the maturities of our investments, under current market conditions we expect that we will invest in a portfolio of debt generally having maturities of up to 10 years. This means that we will be subject to greater risk (other things being equal) than a fund invested solely in shorter-term securities. A decline in the prices of the debt we own could adversely affect the trading price of our shares.

Many of our portfolio investments are not publicly traded and, as a result, there will be uncertainty as to the value of our portfolio investments.

A large percentage of our portfolio investments are not publicly traded. The fair value of investments that are not publicly traded may not be readily determinable. We value these investments quarterly at fair value as determined in good faith by our board of directors. However, we may be required to value our investments more frequently as determined in good faith by our board of directors to the extent necessary to reflect significant events affecting their value. Where appropriate, our board of directors may utilize the services of an independent valuation firm to aid it in determining fair value. The types of factors that may be considered in valuing our investments include the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings, the markets in which the portfolio company does business, comparison to publicly traded companies, discounted cash flow and other relevant factors. Because such valuations, and particularly valuations of private investments and private companies, are inherently uncertain, may fluctuate over short periods of time and may be based on estimates, our determinations of fair value may differ materially from the values that would have been used if a ready market for these investments existed. Our net asset value could be adversely affected if our determinations regarding the fair value of our investments are materially higher than the values that we ultimately realize.

The lack of liquidity in our investments may adversely affect our business.

We generally make investments in private companies. Substantially all of these investments will be subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. The illiquidity of our investments may make it difficult for us to sell such investments if the need arises. In addition, if we are required to liquidate all or a portion of our portfolio quickly, we may realize significantly less than the value at which we have previously recorded our investments. In addition, we may face other restrictions on our ability to liquidate an investment in a portfolio company to the extent that we or an affiliated manager of Ares has material non-public information regarding such portfolio company.

We may experience fluctuations in our quarterly results.

We could experience fluctuations in our quarterly operating results due to a number of factors, including the interest rate payable on the debt investments we make, the default rate on such investments, the level of our expenses, variations in and the timing of the recognition of realized and unrealized gains or losses and the degree to which we encounter competition in our markets and general economic conditions. As a result of these factors, results for any period should not be relied upon as being indicative of performance in future periods.

There are significant potential conflicts of interest that could impact our investment returns.

Certain of our executive officers and directors, and members of the investment committee of our investment adviser serve or may serve as officers, directors or principals of other entities and affiliates of our adviser and investment funds managed by our affiliates. Accordingly, they may have obligations to investors in those entities, the fulfillment of which might not be in the best interests of us or our stockholders or that may require them to devote time to services for other entities, which could interfere with the time available to provide services to us. For example, Messrs. Ressler, Rosenthal, Kissick and Sachs each are and, will continue to be, founding members of Ares with significant responsibilities for other Ares funds. Mr. Ressler and Mr. Rosenthal are required to devote a substantial majority of their business time, and Mr. Kissick is required to devote a majority of his business time, to the affairs of ACOF. Ares believes that the efforts of Messrs. Ressler, Rosenthal and Kissick relative to Ares Capital and ACOF are synergistic with and beneficial to the affairs of each of Ares Capital and ACOF.

Although other Ares funds generally have different primary investment objectives than Ares Capital, they may from time to time invest in asset classes similar to those targeted by Ares Capital. Ares Capital Management endeavors to allocate investment opportunities in a fair and equitable manner, and in any event consistent with any fiduciary duties owed to Ares Capital. Nevertheless, it is possible that we may not be given the opportunity to participate in certain investments made by investment funds managed by investment managers affiliated with Ares Capital Management.

We pay management and incentive fees to Ares Capital Management, and reimburse Ares Capital Management for certain expenses it incurs. As a result, investors in our common stock will invest on a gross basis and receive distributions on a net basis after expenses, resulting in, among other things, a lower rate of return than one might achieve through direct investments.

Ares Capital Management's management fee is based on a percentage of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) and Ares Capital Management may have conflicts of interest in connection with decisions that could affect the Company's total assets, such as decisions as to whether to incur debt.

Edgar Filing: ARES CAPITAL CORP - Form 497

The incentive fees payable to our investment adviser are subject to certain hurdles. To the extent we or Ares Capital Management are able to exert influence over our portfolio companies, these hurdles may provide Ares Capital Management (subject to its fiduciary duty to us) with an incentive to induce our portfolio companies to accelerate or defer interest or other obligations owed to us from one calendar quarter to another under circumstances where accrual would not otherwise occur, such as acceleration or deferral of the declaration of a dividend or the timing of a voluntary redemption.

Acceleration of obligations may result in stockholders recognizing taxable gains earlier than anticipated, while deferral of obligations creates incremental risk of an obligation becoming uncollectible in whole or in part if the issuer of the security suffers subsequent deterioration in its financial condition. Any such inducement by the investment adviser solely for the purpose of adjusting the incentive fees would be a breach of the investment adviser's fiduciary duty to us.

The part of the incentive fee payable by us that relates to our pre-incentive fee net investment income is computed and paid on income that may include interest that is accrued but not yet received in cash. If a portfolio company defaults on a loan that is structured to provide accrued interest, it is possible that accrued interest previously used in the calculation of the incentive fee will become uncollectible.

Pursuant to a separate administration agreement, Ares Administration, an affiliate of Ares Capital Management, furnishes us with administrative services and we pay Ares Administration our allocable portion of overhead and other expenses incurred by Ares Administration in performing its obligations under the administration agreement, including our allocable portion of the cost of our officers and their respective staffs. We lease office facilities directly (the "New Office Space") from a third party. We have entered into a sublease with Ares Management LLC whereby Ares Management subleases approximately 25% of the New Office Space for a fixed rent equal to 25% of the basic annual rent payable by us under our lease, plus certain additional costs and expenses. As a result of these arrangements, there may be times when the management team of Ares Capital Management has interests that differ from those of our stockholders, giving rise to a conflict.

Our stockholders may have conflicting investment, tax and other objectives with respect to their investments in us. The conflicting interests of individual stockholders may relate to or arise from, among other things, the nature of our investments, the structure or the acquisition of our investments, and the timing of disposition of our investments. As a consequence, conflicts of interest may arise in connection with decisions made by our investment adviser, including with respect to the nature or structuring of our investments, that may be more beneficial for one stockholder than for another stockholder, especially with respect to stockholders' individual tax situations. In selecting and structuring investments appropriate for us, our investment adviser will consider the investment and tax objectives of Ares Capital and our stockholders as a whole, not the investment, tax or other objectives of any stockholder individually.

Our investment adviser's liability is limited under the investment management agreement, and we will indemnify our investment adviser against certain liabilities, which may lead our investment adviser to act in a riskier manner on our behalf than it would when acting for its own account.

Our investment adviser has not assumed any responsibility to us other than to render the services described in the investment management agreement, and it will not be responsible for any action of our board of directors in declining to follow our investment adviser's advice or recommendations. Pursuant to the investment management agreement, our investment adviser and its managing members, officers and employees will not be liable to us for their acts under the investment management agreement, absent willful misfeasance, bad faith, gross negligence or reckless disregard in the performance of their duties. We have agreed to indemnify, defend and protect our investment adviser and its managing members, officers and employees with respect to all damages, liabilities, costs

and expenses resulting from acts of our investment adviser not arising out of willful misfeasance, bad faith, gross negligence or reckless disregard in the performance of their duties under the investment management agreement. These protections may lead our investment adviser to act in a riskier manner when acting on our behalf than it would when acting for its own account.

We may be obligated to pay our manager incentive compensation even if we incur a loss.

Our investment adviser is entitled to incentive compensation for each fiscal quarter in an amount equal to a percentage of the excess of our investment income for that quarter (before deducting incentive compensation, net operating losses and certain other items) above a threshold return for that quarter. Our pre-incentive fee net investment income for incentive compensation purposes excludes realized and unrealized capital losses that we may incur in the fiscal quarter, even if such capital losses result in a net loss on our statement of operations for that quarter. Thus, we may be required to pay our manager incentive compensation for a fiscal quarter even if there is a decline in the value of our portfolio or we incur a net loss for that quarter.

Under the investment advisory and management agreement, we will defer cash payment of any incentive fee otherwise earned by our investment adviser if, during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness) is less than 8.0% of our net assets at the beginning of such period. These calculations will be adjusted for any share issuances or repurchases.

Changes in laws or regulations governing our operations, or changes in the interpretation thereof, and any failure by us to comply with laws or regulations governing our operations may adversely affect our business.

We and our portfolio companies are subject to regulation by laws at the local, state and federal levels. These laws and regulations, as well as their interpretation, may be changed from time to time. Accordingly, any change in these laws or regulations, or their interpretation, or any failure by us to comply with these laws or regulations may adversely affect our business. As discussed above, there is a risk that certain investments that we intend to treat as qualifying assets will be determined to not be eligible for such treatment. Any such determination would have a material adverse effect on our business.

Our ability to enter into transactions with our affiliates is restricted.

We are prohibited under the 1940 Act from knowingly participating in certain transactions with our affiliates without the prior approval of our independent directors. Any person that owns, directly or indirectly, 5% or more of our outstanding voting securities is our affiliate for purposes of the 1940 Act and we are generally prohibited from buying or selling any security from or to such affiliate, absent the prior approval of our independent directors. The 1940 Act also prohibits "joint" transactions with an affiliate, which could include investments in the same portfolio company (whether at the same or different times), without prior approval of our independent directors. If a person acquires more than 25% of our voting securities, we are prohibited from buying or selling any security from or to such person, or entering into joint transactions with such person, absent the prior approval of the SEC.

RISKS RELATING TO OUR INVESTMENTS

Our investments may be risky, and you could lose all or part of your investment.

The debt that we invest in is typically not rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's or lower than "BBB-" by Standard & Poor's). Indebtedness of below investment grade quality

is regarded as having predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. Our mezzanine investments may result in an above average amount of risk and volatility or loss of principal. We also invest in assets other than mezzanine investments including first and second lien loans, high-yield securities, U.S. government securities, credit derivatives and other structured securities and certain direct equity investments. These investments will entail additional risks that could adversely affect our investment returns. In addition, to the extent interest payments associated with such debt are deferred, such debt will be subject to greater fluctuations in value based on changes in interest rates. Also, such debt could subject us to phantom income, and since we generally do not receive any cash prior to maturity of the debt, the investment is of greater risk.

In addition, investments in middle market companies involve a number of significant risks, including:

these companies may have limited financial resources and may be unable to meet their obligations, which may be accompanied by a deterioration in the value of any collateral and a reduction in the likelihood of us realizing any guarantees we may have obtained in connection with our investment;

they typically have shorter operating histories, narrower product lines and smaller market shares than larger businesses, which tend to render them more vulnerable to competitors' actions and market conditions, as well as general economic downturns;

they typically depend on the management talents and efforts of a small group of persons; therefore, the death, disability, resignation or termination of one or more of these persons could have a material adverse impact on our portfolio company and, in turn, on us;

they generally have less predictable operating results, may from time to time be parties to litigation, may be engaged in rapidly changing businesses with products subject to a substantial risk of obsolescence, and may require substantial additional capital to support their operations, finance expansion or maintain their competitive position. In addition, our executive officers, directors and our investment adviser may, in the ordinary course of business, be named as defendants in litigation arising from our investments in the portfolio companies; and

they may have difficulty accessing the capital markets to meet future capital needs.

When we invest in first and second lien senior loans or mezzanine debt, we may acquire warrants or other equity securities as well. Our goal is ultimately to dispose of such equity interests and realize gains upon our disposition of such interests. However, the equity interests we receive may not appreciate in value and, in fact, may decline in value. Accordingly, we may not be able to realize gains from our equity interests, and any gains that we do realize on the disposition of any equity interests may not be sufficient to offset any other losses we experience.

Our portfolio is concentrated in a limited number of portfolio companies, which subjects us to a risk of significant loss if any of these companies defaults on its obligations.

As of March 31, 2006, we were invested in 48 portfolio companies. This number may be higher or lower depending on the amount of our assets under management at any given time, market conditions and the extent to which we employ leverage, and will likely fluctuate over time. A consequence of this limited number of investments is that the aggregate returns we realize may be significantly adversely affected if a small number of investments perform poorly or if we need to write down the value of any one investment. Beyond our income tax diversification requirements, we do not have fixed guidelines for diversification, and our investments could be concentrated in relatively few portfolio companies.

Economic recessions or downturns could impair our portfolio companies and harm our operating results.

Many of our portfolio companies may be susceptible to economic slowdowns or recessions and may be unable to repay our loans during these periods. Therefore, our non-performing assets are likely to increase and the value of our portfolio is likely to decrease during these periods. Adverse economic conditions also may decrease the value of collateral securing some of our loans and the value of our equity investments. Economic slowdowns or recessions could lead to financial losses in our portfolio and a decrease in revenues, net income and assets. Unfavorable economic conditions also could increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us. These events could prevent us from increasing investments and harm our operating results.

A portfolio company's failure to satisfy financial or operating covenants imposed by us or other lenders could lead to defaults and, potentially, acceleration of the time when the loans are due and foreclosure on its secured assets, which could trigger cross-defaults under other agreements and jeopardize our portfolio company's ability to meet its obligations under the debt that we hold and the value of any equity securities we own. We may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms with a defaulting portfolio company.

There may be circumstances where our debt investments could be subordinated to claims of other creditors or we could be subject to lender liability claims.

If one of our portfolio companies were to go bankrupt, even though we may have structured our interest as senior debt, depending on the facts and circumstances, including the extent to which we actually provided managerial assistance to that portfolio company, a bankruptcy court might recharacterize our debt holding and subordinate all or a portion of our claim to that of other creditors. In addition, lenders can be subject to lender liability claims for actions taken by them where they become too involved in the borrower's business or exercise control over the borrower. It is possible that we could become subject to a lender's liability claim, including as a result of actions taken if we actually render significant managerial assistance.

An investment strategy focused primarily on privately-held companies presents certain challenges, including the lack of available information about these companies and a greater vulnerability to economic downturns.

We invest primarily in privately-held companies. Generally, little public information exists about these companies, and we are required to rely on the ability of Ares Capital Management's investment professionals to obtain adequate information to evaluate the potential returns from investing in these companies. These companies and their financial information are not subject to the Sarbanes-Oxley Act of 2002 and other rules that govern public companies. If we are unable to uncover all material information about these companies, we may not make a fully informed investment decision, and we may lose money on our investments. Also, privately-held companies frequently have less diverse product lines and smaller market presence than larger competitors, subjecting them to greater vulnerability to economic downturns. These factors could affect our investment returns.

Our portfolio companies may incur debt or issue equity securities that rank equally with, or senior to, our investments in such companies.

Our portfolio companies usually have, or may be permitted to incur, other debt, or issue other equity securities, that rank equally with, or senior to, our investments. By their terms, such instruments may provide that the holders are entitled to receive payment of dividends, interest or principal on or before the dates on which we are entitled to receive payments in respect of our investments. These

debt instruments usually prohibit the portfolio companies from paying interest on or repaying our investments in the event and during the continuance of a default under such debt. Also, in the event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company, holders of securities ranking senior to our investment in that portfolio company typically are entitled to receive payment in full before we receive any distribution in respect of our investment. After repaying such holders, the portfolio company may not have any remaining assets to use for repaying its obligation to us. In the case of securities ranking equally with our investments, we would have to share on an equal basis any distributions with other security holders in the event of an insolvency, liquidation, dissolution, reorganization or bankruptcy of the relevant portfolio company.

Investments in equity securities involve a substantial degree of risk.

We may purchase common and other equity securities. Although common stocks have historically generated higher average total returns than fixed-income securities over the long term, common stocks also have experienced significantly more volatility in those returns and in recent years have significantly underperformed relative to fixed-income securities. The equity securities we acquire may fail to appreciate and may decline in value or become worthless and our ability to recover our investment will depend on our portfolio company's success. Investments in equity securities involve a number of significant risks, including:

any equity investment we make in a portfolio company could be subject to further dilution as a result of the issuance of additional equity interests and to serious risks as a junior security that will be subordinate to all indebtedness or senior securities in the event that the issuer is unable to meet its obligations or becomes subject to a bankruptcy process;

to the extent that the portfolio company requires additional capital and is unable to obtain it, we may not recover our investment in equity securities; and

in some cases, equity securities in which we invest will not pay current dividends, and our ability to realize a return on our investment, as well as to recover our investment, will be dependent on the success of our portfolio companies. Even if the portfolio companies are successful, our ability to realize the value of our investment may be dependent on the occurrence of a liquidity event, such as a public offering or the sale of the portfolio company. It is likely to take a significant amount of time before a liquidity event occurs or we can sell our equity investments. In addition, the equity securities we receive or invest in may be subject to restrictions on resale during periods in which it could be advantageous to sell.

There are special risks associated with investing in preferred securities, including:

Preferred securities may include provisions that permit the issuer, at its discretion, to defer distributions for a stated period without any adverse consequences to the issuer. If we own a preferred security that is deferring its distributions, we may be required to report income for tax purposes although it has not yet received such income.

Preferred securities are subordinated to debt in terms of priority to corporate income and liquidation payments, and therefore will be subject to greater credit risk than debt.

Preferred securities may be substantially less liquid than many other securities, such as common stocks or U.S. government securities.

Generally, preferred security holders have no voting rights with respect to the issuing company, subject to limited exceptions.

Our incentive fee may induce Ares Capital Management to make certain investments, including speculative investments.

The incentive fee payable by us to Ares Capital Management may create an incentive for Ares Capital Management to make investments on our behalf that are risky or more speculative than would be the case in the absence of such compensation arrangement. The way in which the incentive fee payable to our investment adviser is determined, which is calculated as a percentage of the return on invested capital, may encourage our investment adviser to use leverage to increase the return on our investments. Under certain circumstances, the use of leverage may increase the likelihood of default, which would disfavor the holders of our common stock. In addition, the investment adviser will receive the incentive fee based, in part, upon net capital gains realized on our investments. Unlike the portion of the incentive fee based on income, there is no hurdle rate applicable to the portion of the incentive fee based on net capital gains. As a result, the investment adviser may have a tendency to invest more in investments that are likely to result in capital gains as compared to income producing securities. Such a practice could result in our investing in more speculative securities than would otherwise be the case, which could result in higher investment losses, particularly during economic downturns. The part of the incentive fee payable by us that relates to our pre-incentive fee net investment income will be computed and paid on income that may include interest that is accrued but not yet received in cash. If a portfolio company defaults on a loan that is structured to provide accrued interest, it is possible that accrued interest previously used in the calculation of the incentive fee will become uncollectible. The investment adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued income that we never receive as a result of a default by an entity on the obligation that resulted in the accrual of such income.

Because of the structure of the incentive fee, it is possible that we may have to pay an incentive fee in a quarter where we incur a loss. For example, if we receive pre-incentive fee net investment income in excess of the hurdle rate for a quarter, we will pay the applicable incentive fee even if we have incurred a loss in that quarter due to realized capital losses. In addition, if market interest rates rise, we may be able to invest our funds in debt instruments that provide for a higher return, which would increase our pre-incentive fee net investment income and make it easier for our investment adviser to surpass the fixed hurdle rate and receive an incentive fee based on such net investment income.

Our investments in foreign debt may involve significant risks in addition to the risks inherent in U.S. investments. We may expose ourselves to risks if we engage in hedging transactions.

Our investment strategy contemplates potential investments in debt of foreign companies. Investing in foreign companies may expose us to additional risks not typically associated with investing in U.S. companies. These risks include changes in exchange control regulations, political and social instability, expropriation, imposition of foreign taxes, less liquid markets and less available information than is generally the case in the United States, higher transaction costs, less government supervision of exchanges, brokers and issuers, less developed bankruptcy laws, difficulty in enforcing contractual obligations, lack of uniform accounting and auditing standards and greater price volatility.

Although most of our investments will be U.S. dollar-denominated, our investments that are denominated in a foreign currency will be subject to the risk that the value of a particular currency will change in relation to one or more other currencies. Among the factors that may affect currency values are trade balances, the level of short-term interest rates, differences in relative values of similar assets in different currencies, long-term opportunities for investment and capital appreciation, and political developments. We may employ hedging techniques to minimize these risks, but we cannot assure you that such strategies will be effective.

If we engage in hedging transactions, we may expose ourselves to risks associated with such transactions. We may utilize instruments such as forward contracts, currency options and interest rate swaps, caps, collars and floors to seek to hedge against fluctuations in the relative values of our portfolio positions from changes in currency exchange rates and market interest rates. Use of these hedging instruments may include counter-party credit risk. Hedging against a decline in the values of our portfolio positions does not eliminate the possibility of fluctuations in the values of such positions or prevent losses if the values of such positions decline. However, such hedging can establish other positions designed to gain from those same developments, thereby offsetting the decline in the value of such portfolio positions. Such hedging transactions may also limit the opportunity for gain if the values of the portfolio positions should increase. Moreover, it may not be possible to hedge against an exchange rate or interest rate fluctuation that is so generally anticipated that we are not able to enter into a hedging transaction at an acceptable price.

The success of our hedging transactions will depend on our ability to correctly predict movements, currencies and interest rates. Therefore, while we may enter into such transactions to seek to reduce currency exchange rate and interest rate risks, unanticipated changes in currency exchange rates or interest rates may result in poorer overall investment performance than if we had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio positions being hedged may vary. Moreover, for a variety of reasons, we may not seek to establish a perfect correlation between such hedging instruments and the portfolio holdings being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge and expose us to risk of loss. In addition, it may not be possible to hedge fully or perfectly against currency fluctuations affecting the value of securities denominated in non-U.S. currencies because the value of those securities is likely to fluctuate as a result of factors not related to currency fluctuations.

We will initially invest a portion of the net proceeds of offerings pursuant to this prospectus primarily in high-quality short-term investments, which will generate lower rates of return than those expected from the interest generated on first and second lien loans and mezzanine debt.

We will initially invest a portion of the net proceeds primarily in cash, cash equivalents, U.S. government securities and other high-quality short-term investments. These securities may earn yields substantially lower than the income that we anticipate receiving once we are fully invested in accordance with our investment objectives. As a result, we may not be able to achieve our investment objectives and/or pay any dividends during this period or, if we are able to do so, such dividends may be substantially lower than the dividends that we expect to pay when our portfolio is fully invested. If we do not realize yields in excess of our expenses, we may incur operating losses and the market price of our shares may decline.

When we are a debt or minority equity investor in a portfolio company, we may not be in a position to control the entity, and management of the company may make decisions that could decrease the value of our portfolio holdings.

We make both debt and minority equity investments; therefore, we are subject to the risk that a portfolio company may make business decisions with which we disagree, and the stockholders and management of such company may take risks or otherwise act in ways that do not serve our interests. As a result, a portfolio company may make decisions that could decrease the value of our portfolio holdings.

Our board of directors may change our operating policies and strategies without prior notice or stockholder approval, the effects of which may be adverse.

Our board of directors has the authority to modify or waive our current operating policies and our strategies without prior notice and without stockholder approval. We cannot predict the effect any changes to our current operating policies and strategies would have on our business, operating results and value of our stock. However, the effects might be adverse, which could negatively impact our ability to pay you dividends and cause you to lose all or part of your investment.

RISKS RELATING TO OFFERINGS PURSUANT TO THIS PROSPECTUS

There is a risk that you may not receive dividends or that our dividends may not grow over time.

We intend to make distributions on a quarterly basis to our stockholders out of assets legally available for distribution. We cannot assure you that we will achieve investment results that will allow us to make a specified level of cash distributions or year-to-year increases in cash distributions. In addition, due to the asset coverage test applicable to us as a BDC, we may be limited in our ability to make distributions. Further, if we invest a greater amount of assets in equity securities that do not pay current dividends, it could reduce the amount available for distribution. See "Distributions."

Provisions of the Maryland General Corporation Law and of our charter and bylaws could deter takeover attempts and have an adverse impact on the price of our common stock.

The Maryland General Corporation Law, our charter and our bylaws contain provisions that may discourage, delay or make more difficult a change in control of Ares Capital or the removal of our directors. We are subject to the Maryland Business Combination Act, subject to any applicable requirements of the 1940 Act. Our board of directors has adopted a resolution exempting from the Business Combination Act any business combination between us and any other person, subject to prior approval of such business combination by our board, including approval by a majority of our disinterested directors. If the resolution exempting business combinations is repealed or our board does not approve a business combination, the Business Combination Act may discourage third parties from trying to acquire control of us and increase the difficulty of consummating such an offer. Our bylaws exempt from the Maryland Control Share Acquisition Act acquisitions of our stock by any person. If we amend our bylaws to repeal the exemption from the Control Share Acquisition Act, the Control Share Acquisition Act also may make it more difficult for a third party to obtain control of us and increase the difficulty of consummating such an offer.

We have also adopted measures that may make it difficult for a third party to obtain control of us, including provisions of our charter classifying our board of directors in three classes serving staggered three-year terms, and provisions of our charter authorizing our board of directors to classify or reclassify shares of our stock in one or more classes or series, to cause the issuance of additional shares of our stock, and to amend our charter, without stockholder approval, to increase or decrease the number of shares of stock that we have authority to issue. These provisions, as well as other provisions of our charter and bylaws, may delay, defer or prevent a transaction or a change in control that might otherwise be in the best interests of our stockholders.

Investing in our shares may involve an above average degree of risk.

The investments we make in accordance with our investment objectives may result in a higher amount of risk than alternative investment options and volatility or loss of principal. Our investments in portfolio companies may be highly speculative and aggressive, and therefore, an investment in our shares may not be suitable for someone with lower risk tolerance.

The market price of our common stock may fluctuate significantly.

The market price and liquidity of the market for shares of our common stock may be significantly affected by numerous factors, some of which are beyond our control and may not be directly related to our operating performance. These factors include:

significant volatility in the market price and trading volume of securities of business development companies or other companies in our sector, which are not necessarily related to the operating performance of these companies;

price and volume fluctuations in the overall stock market from time to time;

changes in regulatory policies or tax guidelines, particularly with respect to RICs or business development companies;

loss of RIC status;

changes in earnings or variations in operating results;

changes in the value of our portfolio of investments;

any shortfall in revenue or net income or any increase in losses from levels expected by investors or securities analysts;

departure of Ares Capital Management's key personnel;

operating performance of companies comparable to us;

general economic trends and other external factors; and

loss of a major funding source.

In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been brought against that company. If our stock price fluctuates significantly, we may be the target of securities litigation in the future. Securities litigation could result in substantial costs and divert management's attention and resources from our business.

We may allocate the net proceeds from offerings in ways with which you may not agree.

We will have significant flexibility in investing the net proceeds of offerings pursuant to this prospectus and may use the net proceeds in ways with which you may not agree or for purposes other than those contemplated at the time of such offering.

Our shares may trade at discounts from net asset value.

Shares of closed-end investment companies frequently trade at a market price that is less than the net asset value that is attributable to those shares. This characteristic of closed-end investment companies is separate and distinct from the risk that our net asset value per share may decline. It is not possible to predict whether the shares offered hereby will trade at, above, or below net asset value.

Investors in offerings will incur immediate dilution upon the closing of this offering.

Edgar Filing: ARES CAPITAL CORP - Form 497

We expect the public offering price of our shares to be higher than the book value per share of our outstanding common stock. Accordingly, investors purchasing shares of common stock in offerings pursuant to this prospectus will pay a price per share that exceeds the tangible book value per share after such offering.

Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of our common stock.

Sales of substantial amounts of our common stock, or the availability of such shares for sale, could adversely affect the prevailing market prices for our common stock. If this occurs and continues, it could impair our ability to raise additional capital through the sale of equity securities should we desire to do so.

FORWARD-LOOKING STATEMENTS

Some of the statements in this prospectus constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained in this prospectus involve risks and uncertainties, including statements as to:

our future operating results;

our business prospects and the prospects of our portfolio companies;

the impact of investments that we expect to make;

our contractual arrangements and relationships with third parties;

the dependence of our future success on the general economy and its impact on the industries in which we invest;

the ability of our portfolio companies to achieve their objectives;

our expected financings and investments;

the adequacy of our cash resources and working capital;

the timing of cash flows, if any, from the operations of our portfolio companies; and

the ability of Ares Capital Management to locate suitable investments for us and to monitor and administer our investments.

We use words such as "anticipates," "believes," "expects," "intends" and similar expressions to identify forward-looking statements. Our actual results could differ materially from those projected in the forward-looking statements for any reason, including the factors set forth in "Risk Factors" and elsewhere in this prospectus.

We have based the forward-looking statements included in this prospectus on information available to us on the date of this prospectus, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

You should understand that under Sections 27A(b)(2)(B) and (D) of the Securities Act of 1933 (the "Securities Act") and Sections 21E(b)(2)(B) and (D) of the Exchange Act, the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 do not apply to statements made in connection with this offering.

USE OF PROCEEDS

Unless otherwise specified in a prospectus supplement, we intend to use the net proceeds from the sale of our securities for general corporate purposes, which includes investing in portfolio companies in accordance with our investment objectives and strategies and repaying indebtedness, if any, incurred under our Facilities. The supplement to this prospectus relating to an offering may more fully identify the use of the proceeds from such offering. We anticipate that substantially all of the net proceeds of an offering of securities pursuant to this prospectus will be used for the above purposes within two years, depending on the availability of appropriate investment opportunities consistent with our investment objectives and strategies and market conditions.

We intend to invest primarily in first and second lien senior loans and mezzanine debt of middle market companies, each of which may include an equity component, and, to a lesser extent, in equity securities in such companies. In addition to such investments, we may invest up to 30% of the portfolio in opportunistic investments, including high-yield bonds, debt and equity securities in collateralized debt obligation vehicles, distressed debt or equity securities of public companies. As part of this 30%, we may also invest in debt of middle market companies located outside of the United States, which investments are not anticipated to be in excess of 10% of the portfolio. Pending such investments, we will invest a portion of the net proceeds primarily in cash, cash equivalents, U.S. government securities and other high-quality short-term investments. These securities may earn yields substantially lower than the income that we anticipate receiving once we are fully invested in accordance with our investment objectives. As a result, we may not be able to achieve our investment objectives and/or pay any dividends during this period or, if we are able to do so, such dividends may be substantially lower than the dividends that we expect to pay when our portfolio is fully invested. If we do not realize yields in excess of our expenses, we may incur operating losses and the market price of our shares may decline. See "Regulation Temporary Investments" for additional information about temporary investments we may make while waiting to make longer-term investments in pursuit of our investment objectives.

PRICE RANGE OF COMMON STOCK AND DISTRIBUTIONS

Our common stock is quoted on The NASDAQ National Market under the symbol "ARCC." We completed our initial public offering in October 2004 at the price of \$15.00 per share. Prior to such date there was no public market for our common stock. Our common stock continues to trade in excess of net asset value. There can be no assurance, however, that our shares will continue to trade at a premium to our net asset value.

The following table sets forth the range of high and low closing prices of our common stock as reported on The NASDAQ National Market and the dividends declared by us for each fiscal quarter since our initial public offering. The stock quotations are interdealer quotations and do not include markups, markdowns or commissions and may not necessarily represent actual transactions.

	NAV(1)	Price Range		Premium/ Discount of High Sales Price to NAV	Premium/ Discount of Low Sales Price to NAV	Cash Dividend Per Share(2)
		High	Low			
Fiscal 2004						
Fourth quarter	\$ 14.43	\$ 19.75	\$ 15.00	136.9%	104.1%	\$ 0.30
Fiscal 2005						
First quarter	\$ 14.96	\$ 18.74	\$ 15.57	125.3%	104.0%	\$ 0.30
Second quarter	\$ 14.97	\$ 18.14	\$ 15.96	121.2%	106.6%	\$ 0.32
Third quarter	\$ 15.08	\$ 19.25	\$ 16.18	127.7%	107.3%	\$ 0.34
Fourth quarter	\$ 15.03	\$ 16.73	\$ 15.08	111.3%	100.3%	\$ 0.34
Fiscal 2006						
First quarter	\$ 15.03	\$ 17.97	\$ 16.23	119.6%	108.0%	\$ 0.36
Second quarter (through June 15, 2006)	\$ *	\$ 17.50	\$ 16.36	*	*	\$ 0.38

- (1) *Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high and low closing sales prices. The net asset values shown are based on outstanding shares at the end of each period.*
- (2) *Represents the dividend declared in the specified quarter.*
- * *Net asset value has not yet been calculated for this period.*

On June 15, 2006, the last reported sales price of our common stock on The NASDAQ National Market was \$16.77 per share. As of May 4, 2006, we had 6 stockholders of record (including Cede & Co.).

We currently intend to distribute quarterly dividends to our stockholders. Our quarterly dividends, if any, will be determined by our board of directors. On December 16, 2004, we declared an initial dividend of \$0.30 per share for the fourth quarter of 2004, which was comprised of \$0.29 ordinary income and \$0.01 return of capital. On February 23, 2005, we declared a dividend of \$0.30 per share for the first quarter of 2005 and on June 20, 2005, we declared a dividend of \$0.32 per share for the second quarter of 2005. On September 6, 2005, we declared a dividend of \$0.34 per share for the third quarter of 2005. On December 12, 2005, we declared a dividend of \$0.34 per share for the fourth quarter of 2005. On February 28, 2006, we declared a dividend of \$0.36 per share for the first quarter of 2006. On May 8, 2006, we declared a dividend of \$0.38 per share for the second quarter of 2006. Because of our limited operating history, these are the only dividends to date that we have declared on our common stock.

To maintain our RIC status, we must distribute an amount equal to at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, reduced by deductible expenses, out of the assets legally available for distribution. To avoid certain excise taxes imposed on RICs, we are generally required to distribute during each calendar year an amount at least equal to the sum of (1) 98% of our ordinary income for the calendar year, (2) 98% of our capital gains in excess of capital losses for the one-year period ending on October 31 of the calendar year and (3) any ordinary income and net capital gains for preceding years that were not distributed during such years. If this requirement is not met, we will be required to pay a nondeductible excise tax equal to 4% of the amount by which 98% of the current year's taxable income exceeds the distribution for the year. The taxable income on which an excise tax is paid is generally carried forward and distributed to stockholders in the next tax year. Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year distributions into the next tax year and pay a 4% excise tax on such income, as required. As of March 31, 2006, our excise tax liability was approximately \$99,000.

We cannot assure you that we will achieve results that will permit the payment of any cash distributions and, if we incur indebtedness or issue senior securities, we will be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.

We maintain an "opt out" dividend reinvestment plan for our common stockholders. As a result, if we declare a dividend, then stockholders' cash dividends will be automatically reinvested in additional shares of our common stock, unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash dividends. See "Dividend Reinvestment Plan."

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

The information contained in this section should be read in conjunction with the Selected Financial and Other Data and our financial statements and notes thereto appearing elsewhere in this prospectus and any prospectus supplements.

OVERVIEW

We were incorporated in Maryland on April 16, 2004 and initially funded on June 23, 2004. We commenced material operations on October 8, 2004, when we completed our initial public offering (the "IPO") of 11,000,000 common shares, raising net proceeds of \$159.8 million. On March 23, 2005, we completed an add-on offering of 12,075,000 shares of common stock, raising net proceeds of \$183.9 million. On October 18, 2005, we completed an additional add-on offering of 14,500,000 shares of common stock, raising net proceeds of approximately \$213.8 million. Our investment objectives are to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and long-term mezzanine debt, which in some cases may include an equity component, and, to a lesser extent, in equity investments in U.S. private middle market companies.

We are an externally managed, specialty finance company that is a closed-end, non-diversified management investment company and that is a BDC. As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets," including securities of private U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less.

We have elected to be treated as a regulated investment company, or a RIC, under Subchapter M of the Internal Revenue Code of 1986, as amended. To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements. Pursuant to this election, we generally will not have to pay corporate-level taxes on any income that we distribute to our stockholders.

CRITICAL ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States, and include the accounts of the Company and its wholly owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications which, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition for the periods presented. All significant intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

Cash and cash equivalents include short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are computed using the specific identification method. We carry our investments at fair value, as determined by our board of directors. Investments for which market quotations are readily available are valued at such market quotations. Debt and equity securities that are not publicly traded or whose market price is not readily available are valued at fair value as determined in good faith by our board of directors based on the input of our investment adviser and audit committee and, where appropriate, an independent valuation firm. The types of factors that we may take into account in fair value pricing of our investments include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors.

When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our private equity valuation. Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments, and the differences could be material.

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment.

Preliminary valuation conclusions are then documented and discussed with our senior management.

The audit committee of our board of directors reviews these preliminary valuations. Where appropriate, the committee may utilize an independent valuation firm selected by the board of directors.

The board of directors discusses valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our investment adviser and audit committee and, where appropriate, an independent valuation firm.

Interest Income Recognition

Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis to the extent that such amounts are expected to be collected. The Company stops accruing interest on its investments when it is determined that interest is no longer collectible. If any cash is received after it is determined that interest is no longer collectible, we will treat the cash as payment on the principal balance until the entire principal balance has been repaid, before any interest income is recognized. Discounts and premiums on securities purchased are accreted/amortized over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortizations of premium on bonds.

Payment in Kind Interest

The Company has loans in its portfolio that contain a payment-in-kind ("PIK") provision. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends, even though the Company has not yet collected the cash.

Capital Structuring Service Fees

The Company's Investment Adviser seeks to provide assistance to the portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's Investment Adviser provides vary by investment, but generally consist of reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the loan. The Company's Investment Adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and in the event that the Company does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations may be deferred and amortized over the estimated life of the loan.

Foreign Currency Translation

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the day.
- (2) Purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the fair values are presented at the foreign exchange rates at the end of the day, the Company does not isolate the portion of the results of the operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in fair value of investments. Such fluctuations are included with the net realized and unrealized gains or losses from investments. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. Government securities. These risks include but are not limited to revaluation of currencies and future adverse political and economic developments which could cause investments in their markets to be less liquid and prices more volatile than those of comparable U.S. companies.

Offering Expenses

The Company's offering costs are charged against the proceeds therefrom when received.

Debt Issuance Costs

Debt issuance costs are being amortized over the life of the related credit facility using the straight line method which approximates the interest method.

Federal Income Taxes

The Company has qualified and elected and intends to continue to qualify for the tax treatment applicable to regulated investment companies under Subchapter M of the Internal Revenue Code of 1986 (the "Code"), as amended, and, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will relieve the Company from Federal income taxes. In order to qualify as a RIC, among other factors, the Company is required to timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each year.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned.

Our wholly owned subsidiaries ARCC Cervantes Corporation ("ACC") and ARCC Cervantes LLC ("ACLLC") are subject to Federal and state income taxes.

Dividends

Dividends and distributions to common stockholders are recorded on the record date. The amount to be paid out as a dividend is determined by the board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually, although we may decide to retain such capital gains for investment.

We have adopted a dividend reinvestment plan that provides for reinvestment of our distributions on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not "opted out" of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividends.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments approximate fair value. The carrying value of interest and open trade receivables, accounts payable and accrued expenses, as well as the credit facility payable approximate fair value due to their short maturity.

PORTFOLIO AND INVESTMENT ACTIVITY

For the three months ended March 31, 2006, we issued 13 new commitments in an aggregate amount of \$209.6 million (\$193.6 million to new portfolio companies and \$16.0 million to existing portfolio companies) compared to five new commitments in an aggregate amount of \$56.8 million (\$34.3 million to new portfolio companies and \$22.5 million to existing portfolio companies) for the three months ended March 31, 2005. During the three months ended March 31, 2006, we funded

\$195.4 million of such commitments (\$179.4 million to new portfolio companies and \$16.0 million to existing portfolio companies) compared to \$56.8 million of commitments (\$34.3 million to new portfolio companies and \$22.5 million to existing portfolio companies) for the three months ended March 31, 2005. We have remaining contractual obligations for \$14.2 million with respect to the \$14.2 million of commitments issued and not funded as of March 31, 2006. The weighted average yield of new income producing equity securities and debt funded in connection with investments purchased during the three months ended March 31, 2006 and March 31, 2005 was approximately 12.12% and 10.68%, respectively (computed as (a) annual stated interest rate yield earned plus the net annual amortization of original issue discount and market discount earned on accruing loans and debt securities, divided by (b) total income producing equity securities and debt at fair value).

For the three months ended March 31, 2006, the Company purchased (A) \$151.5 million aggregate principal amount of senior term debt, (B) \$31.6 million aggregate principal amount of senior subordinated debt and (C) \$12.3 million of investments in equity securities. For the three months ended March 31, 2005, the Company purchased (1) \$35.2 million aggregate principal amount of senior term debt, (2) \$15.6 million aggregate principal amount of senior subordinated debt, (3) \$5.8 million aggregate principal amount of senior notes and (4) \$0.3 million of investments in equity securities.

During the three months ended March 31, 2006, (A) \$17.9 million aggregate principal amount of senior subordinated debt and (B) \$3.5 million aggregate principal amount of senior term debt were redeemed. Additionally, (1) \$9.1 million of investments in equity securities were sold and (2) \$6.1 million aggregate principal amount senior term debt were sold. As of March 31, 2006, the Company held investments in 48 portfolio companies. During the three months ended March 31, 2005, (a) \$7.0 million aggregate principal amount of senior term debt and (b) \$2.1 million aggregate principal amount of senior subordinated debt were redeemed, and (c) \$0.2 million of investments in equity securities were sold.

We believe that as of March 31, 2006, the weighted average investment grade of the debt in our portfolio is 3.1 (see "Business Ongoing Relationships With and Monitoring of Portfolio Companies" for more information about the investment grade system) and the weighted average yield of such debt and income producing equity securities is approximately 11.47% (computed as (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt, divided by (b) total income producing equity securities and debt at fair value). As of March 31, 2006, the weighted average yield on our entire portfolio was 11.07%. The weighted average yield on our senior term debt, senior subordinated debt and income producing equity securities was 11.05%, 14.76% and 8.29%, respectively. Of the senior term debt, the weighted average yield attributable to first lien senior term debt and second lien term debt was 10.30% and 11.77%, respectively.

For the year ended December 31, 2005, we issued 31 new commitments in an aggregate amount of \$528.9 million (\$464.9 million to new portfolio companies and \$64.0 million to existing portfolio companies). During the year ended December 31, 2005, we funded \$504.3 million of such commitments (\$440.3 million to new portfolio companies and \$64.0 million to existing portfolio companies). As of December 31, 2005, we had remaining contractual obligations for \$17.2 million with respect to the \$24.6 million of commitments issued and not funded. The weighted average yield of new income producing equity securities and debt funded in connection with such investments is approximately 10.50% (computed as (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt, divided by (b) total income producing securities and debt at fair value).

For the year ended December 31, 2005, the Company purchased (a) \$339.3 million aggregate principal amount of senior term debt, (b) \$76.6 million aggregate principal amount of senior

subordinated debt, (c) \$61.4 million of investments in equity securities, (d) \$18.0 million aggregate principal amount of senior notes and (e) \$9.0 million of investments in collateralized debt obligations.

During the same period, (1) \$38.4 million aggregate principal amount of senior term debt and (2) \$27.2 million aggregate principal amount of senior subordinated debt were redeemed. Additionally, (A) \$25.0 million aggregate principal amount of senior term debt, (B) \$14.0 million aggregate principal amount of senior notes and (C) \$3.5 million of investments in equity securities were sold.

We believe that as of December 31, 2005, the weighted average investment grade of the debt in our portfolio is 3.1 (see "Business Ongoing Relationships With and Monitoring of Portfolio Companies" for more information about the investment grade system) and the weighted average yield of such income producing equity securities and debt is approximately 11.25% (computed as (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt, divided by (b) total income producing equity securities and debt at fair value). As of December 31, 2004, we believe the weighted average investment grade of the debt in our portfolio was 3.0 and the weighted average yield of such debt and income producing equity securities was approximately 12.36%.

On September 16, 2004, we entered into an agreement with Royal Bank of Canada and its affiliates ("RBC") whereby we agreed to pay \$250,000 to RBC to acquire a right to purchase a portfolio of loans and equity investments comprising substantially of BDC qualifying assets (the "October Portfolio") that satisfy our investment objectives.

Following the completion of our IPO on October 8, 2004, we exercised our right to purchase substantially all of the assets in the October Portfolio from RBC for approximately \$122.3 million. We purchased additional assets originally included in the October Portfolio from RBC for approximately \$18.5 million on November 3, 2004.

Aside from the purchase of the October Portfolio, the Company also purchased (A) \$52.2 million of senior term debt, (B) \$34.6 million of senior subordinated debt, (C) \$6.1 million of senior notes, (D) \$0.3 million of investments in equity securities and (E) \$9.7 million of publicly traded fixed income securities during the period from October 8, 2004 (the date of the IPO and commencement of substantial investment operations) through December 31, 2004.

In addition, we sold (i) \$13.7 million of senior term debt, (ii) \$8.9 million of senior subordinated debt, (iii) \$0.8 million of investments in equity securities and (iv) \$9.7 million of publicly traded fixed income securities during the period from October 8, 2004 (the date of the IPO and commencement of substantial investment operations) through December 31, 2004. Also during the period, (A) \$6.9 million of senior term debt and (B) \$22.0 million of senior subordinated debt were redeemed.

RESULTS OF OPERATIONS

For the three months ended March 31, 2006 and March 31, 2005

Operating results for the three months ended March 31, 2006 and March 31, 2005 are as follows:

	For the Three Months Ended March 31,	
	2006	2005
Total Investment Income	\$ 20,191,305	\$ 5,750,592
Total Expenses	8,290,890	2,220,763
Net Investment Income Before Income Taxes	11,900,415	3,529,829
Income Tax Expense, Including Excise Tax	208,880	
Net Investment Income	11,691,535	3,529,829
Net Realized Gain	610,886	409,030
Net Unrealized Gain	1,540,612	4,565,047
Net Increase in Stockholders' Equity Resulting From Operations	\$ 13,843,033	\$ 8,503,906

Investment Income

For the three months ended March 31, 2006, total investment income increased \$14.4 million, or 251%, over the three months ended March 31, 2005. For the three months ended March 31, 2006, total investment income consisted of \$17.5 million in interest income from investments, \$2.3 million in capital structuring service fees and \$231,000 in interest income from cash and cash equivalents. Interest income from investments increased \$12.3 million, or 235%, to \$17.5 million for the three months ended March 31, 2006 from \$5.2 million for the comparable period in 2005. The increase in interest income from investments was primarily due to the increase in the size of the portfolio. The average investments, at fair value, for the quarter increased from \$198.2 million in the three months ended March 31, 2005 to \$647.0 million in the comparable period in 2006. Capital structuring service fees increased \$2.0 million, or 667%, to \$2.3 million for the three months ended March 31, 2006 from \$304,000 for the comparable period in 2005. The increase in capital structuring service fees was due to the increased number of originations. The number of funded commitments increased from five during the three months ended March 31, 2005 to thirteen during the comparable period in 2006.

Expenses

For the three months ended March 31, 2006, total expenses increased \$6.1 million, or 273%, over the three months ended March 31, 2005. Base management fees increased \$1.7 million, or 212%, to \$2.5 million for the three months ended March 31, 2006 from \$815,000 for the comparable period in 2005, primarily due to the increase in the size of the portfolio. Incentive fees related to pre-incentive fee net investment income increased \$2.7 million, or 1,129%, to \$2.9 million for the three months ended March 31, 2006 from \$238,000 for the comparable period in 2005, primarily due to the increase in the size of the portfolio and the related increase in net investment income. Interest expense and credit facility fees increased \$947,000, or 252%, to \$1.3 million for the three months ended March 31, 2006 from \$375,000 for the comparable period in 2005, primarily due to the increase in the borrowings outstanding. The average outstanding borrowings during the quarter increased from \$34.4 million for the three months ended March 31, 2005 to \$82.9 million in the comparable period in 2006. Amortization of debt issuance costs increased \$342,000, or 520%, to \$407,000 for the three months ended March 31, 2006 from \$66,000 for the comparable period in 2005, primarily due to the additional debt issuance costs incurred during the last twelve months ended March 31, 2006 as a result of entering

into the new Revolving Credit Facility and increasing the borrowing capacity of the CP Funding Facility.

Income Tax Expense, Including Excise Tax

The Company has qualified and elected and intends to continue to qualify and elect for the tax treatment applicable to regulated investment companies under Subchapter M of the Internal Revenue Code of 1986 (the "Code"), as amended, and, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will relieve the Company from Federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended March 31, 2006, a provision of approximately \$99,000 was recorded for Federal excise tax.

Our wholly owned subsidiaries ACC and ACLLC are subject to Federal and state income taxes. For the three months ended March 31, 2006, we recorded a tax provision of approximately \$110,000 for these subsidiaries.

Net Unrealized Appreciation on Investments

For the three months ended March 31, 2006, the Company's investments had an increase in net unrealized appreciation of \$1.5 million, which primarily related to the increase in unrealized appreciation of \$4.0 million for the Company's investment in CICQ, LP offset by the increase in unrealized depreciation of \$2.4 million for the Company's investment in Making Memories Wholesale, Inc. For the three months ended March 31, 2005, the Company's investments had an increase in net unrealized appreciation of \$4.6 million primarily related to the anticipated gain of Reef Holdings, Inc. that was eventually realized in the following quarter.

Net Realized Gains/Losses

During the three months ended March 31, 2006, the Company had \$37.3 million of sales and repayments resulting in \$611,000 of net realized gains. During the three months ended March 31, 2005, the Company had \$9.7 million of sales and repayments resulting in \$409,000 of net realized gains.

Net Increase in Stockholders' Equity Resulting From Operations

Net increase in stockholders' equity resulting from operations for the three months ended March 31, 2006 was approximately \$13.8 million. Based on the weighted average shares outstanding during the three months ended March 31, 2006, our net increase in stockholders' equity resulting from operations per common share was \$0.36.

Net increase in stockholders' equity resulting from operations for the three months ended March 31, 2005 was approximately \$8.5 million. Based on the weighted average shares outstanding during the three months ended March 31, 2005, our net increase in stockholders' equity resulting from operations per common share was \$0.69.

Edgar Filing: ARES CAPITAL CORP - Form 497

For the year ended December 31, 2005, and the period from June 23, 2004 (inception) through December 31, 2004

Set forth below is a comparison of our results of operations for the year ended December 31, 2005 and the period from June 23, 2004 (inception) through December 31, 2004. We were incorporated on April 16, 2004, initially funded on June 23, 2004 and commenced operations in October 2004. Therefore, there is no prior period with which to compare the results of operations for the period from June 23, 2004 (inception) through December 31, 2004.

	Year Ended December 31, 2005	For the Period June 23, 2004 (inception) Through December 31, 2004
Total Investment Income	\$ 41,850,477	\$ 4,380,848
Net Realized and Unrealized Gain on Investments	14,727,276	475,393
Total Expenses	(14,726,677)	(1,665,753)
Net Increase in Stockholders' Equity Resulting from Operations	\$ 41,851,076	\$ 3,190,488
Per Share Data:		
Net Increase in Stockholder's Equity Resulting from Operations:		
Basic:	\$ 1.78	\$ 0.29
Diluted:	\$ 1.78	\$ 0.29
Cash Dividend Declared:	\$ 1.30	\$ 0.30
Total Assets	\$ 613,645,144	\$ 220,455,614
Total Debt	\$ 18,000,000	\$ 55,500,000
Total Stockholders' Equity	\$ 569,612,199	\$ 159,708,305
Other Data:		
Number of Portfolio Companies at Period End	38	20
Principal Amount of Investments Purchased(1)	\$ 504,299,000	\$ 234,102,000
Principal Amount of Investments Sold and Repayments(2)	\$ 108,415,000	\$ 52,272,000
Total Return Based on Market Value(3)	(10.60)%	31.53%
Total Return Based on Net Asset Value(4)	12.04%	(1.80)%
Weighted Average Yield of Income Producing Equity Securities and Debt(5):	11.25%	12.36%

- (1) The information presented for the period June 23, 2004 (inception) through December 31, 2004 includes \$140.8 million of the assets purchased from Royal Bank of Canada and excludes \$9.7 million of publicly traded fixed income securities.
- (2) The information presented for the period June 23, 2004 (inception) through December 31, 2004 excludes \$9.7 million of publicly traded fixed income securities.
- (3) Total return based on market value for the year ended December 31, 2005 equals the decrease of the ending market value at December 31, 2005 of \$16.07 per share over the ending market value at December 31, 2004 of \$19.43 per share plus the declared dividends of \$1.30 per share for the year

Investment Income

Investment income for the year ended December 31, 2005 was approximately \$41.9 million compared to approximately \$4.4 million for the period from June 23, 2004 (inception) through December 31, 2004. The increase was primarily from the use of the proceeds from the add-on offerings completed in 2005 to fund additional investments, and as a result of a full year of operations for the year ended December 31, 2005 as compared to our limited operations during the prior period. For the year ended December 31, 2005 investment income consisted of approximately \$34.0 million in interest income from investments, \$1.5 million in interest income from cash and cash equivalents, \$745,000 in dividend income, \$5.2 million in capital structuring service fees from the closing of newly originated loans, and \$447,000 in facility fees and other income. Of the approximately \$34.0 million in interest income from investments, non-cash PIK interest income was \$3.1 million. For the period from June 23, 2004 (inception) through December 31, 2004 investment income consisted of approximately \$3.57 million in interest income from investments, \$39,000 in interest income from cash and cash equivalents, \$191,000 in dividend income, \$542,000 in capital structuring service fees from the closing of newly originated loans, and \$34,000 in facility fees and other income. Of the approximately \$3.57 million in interest income from investments, non-cash PIK interest income was \$509,000.

Operating Expenses

Total operating expenses for the year ended December 31, 2005 were approximately \$14.7 million compared to approximately \$1.7 million for the period from June 23, 2004 (inception) through December 31, 2004.

For the year ended December 31, 2005, operating expenses consisted of approximately \$5.1 million in base management fees, \$3.2 million in incentive management fees related to pre-incentive fee net investment income and \$979,000 in incentive management fees related to realized capital gains compared to approximately \$472,000 in base management fees, \$60,000 in incentive management fees related to pre-incentive fee net investment income and \$36,000 in incentive management fees related to realized capital gains for the period from June 23, 2004 (inception) through December 31, 2004. The increase in base management fees and incentive management fees related to pre-incentive fee net investment income reflects the significantly increased size of our portfolio during the year ended December 31, 2005 as a result of the add-on offerings completed in 2005, and also reflects a full year of operations for the year ended December 31, 2005 as compared to our limited operations during the prior period. The increase in incentive management fees related to realized capital gains was a result of the sales and paydowns of several investments during the year ended December 31, 2005. Additionally, base management fees and incentive management fees were only payable beginning on October 8, 2004 (the date of the IPO and the commencement of substantial investment operations).

For the year ended December 31, 2005, total operating expenses also consisted of \$888,000 in general and administrative expenses, \$1.4 million in professional fees, \$310,000 for director fees, \$631,000 in insurance expenses, \$1.1 million in interest expense and facility fees, \$154,000 in interest payable to the investment adviser, \$465,000 in amortization of debt issuance cost, \$311,000 in other expense and \$158,000 in excise tax related to excess taxable income carried forward into 2006. For the period from June 23, 2004 (inception) through December 31, 2004 total expenses consisted of \$136,000 in general and administrative expenses, \$336,000 in professional fees, \$120,000 for director fees, \$162,000 in insurance expenses, \$96,000 in interest expense and facility fees, \$41,000 in amortization of debt issuance cost, \$8,000 in other expense, and a one-time charge of \$199,000 in organizational expenses. The increases are primarily a result of the larger size of our portfolio and also reflect a full year of operations for the year ended December 31, 2005 as compared to the prior period.

Net Realized Gains

During the year ended December 31, 2005, the Company had \$118.8 million of sales and repayments resulting in \$10.3 million of net realized gains compared to the period from June 23, 2004 (inception) through December 31, 2004 which had \$53.5 million of sales and repayments resulting in \$244,000 of net realized gains. The increase in net realized gains was primarily a result of the sales and paydowns of several investments during the year ended December 31, 2005.

Net Change in Unrealized Appreciation on Investments

During the year ended December 31, 2005, the Company's investments had an increase in net unrealized appreciation of \$4.4 million as compared to \$231,000 for the period from June 23, 2004 (inception) through December 31, 2004. The increase in net unrealized appreciation was primarily a result of the appreciation of one investment offset by the depreciation of several other investments during the year ended December 31, 2005.

Net Increase in Stockholders' Equity Resulting From Operations

Net increase in stockholders' equity resulting from operations for the year ended December 31, 2005 was approximately \$41.9 million compared to \$3.2 million for the period from June 23, 2004 (inception) through December 31, 2004. Our net increase in stockholders' equity resulting from operations per common share for the year ended December 31, 2005 was \$1.78 compared to \$0.29 for the period from June 23, 2004 (inception) through December 31, 2004.

FINANCIAL CONDITION, LIQUIDITY, AND CAPITAL RESOURCES

On October 8, 2004, we completed our IPO of 11,000,000 shares of common stock at \$15.00 per share, less an underwriting discount and commissions totaling \$.675 per share. Ares Capital Management agreed to pay the underwriters \$.225 per share, or \$2,475,000, in underwriting and commissions on the Company's behalf. We were obligated to repay this amount, together with the accrued interest upon the occurrence of one or more of the following events on or before October 8, 2007: (a) if during any four calendar periods ending on or after October 8, 2005 the sum of (i) the aggregate distributions to the stockholders and (ii) the change in net assets (defined as total assets less indebtedness) equals or exceeds 7.0% of the net assets at the beginning of such period (as adjusted for any share issuances or repurchases) or (b) upon the Company's liquidation. On March 8, 2005, the Company's board of directors approved entering into an amended and restated agreement with Ares Capital Management whereby the Company would be obligated to repay Ares Capital Management for the approximate \$2.5 million only if the conditions for repayment referred to above were met before the third anniversary of the IPO. In accordance with the terms of the amended and restated agreement with Ares Capital Management, in February 2006, we repaid this amount together with accrued interest. We received approximately \$159.8 million in net proceeds from the IPO.

On March 23, 2005, we completed an add-on public offering (the "Add-on Offering") of 12,075,000 shares of common stock (including the underwriters' overallotment of 1,575,000 common shares) at \$16.00 per share, less an underwriting discount and commissions totaling \$.72 per share. We received approximately \$183.9 million in proceeds net of underwriting and offering costs.

On October 18, 2005, we completed an additional add-on public offering (the "October Add-on Offering") of 14,500,000 shares of common stock at \$15.46 per share, less an underwriting discount and commissions totaling \$0.6957 per share. We received approximately \$213.8 million in proceeds net of underwriting and offering costs.

A portion of the proceeds from the Add-on Offering and the October Add-on Offering was used to repay outstanding indebtedness under the CP Funding Facility. The remaining unused portion

Edgar Filing: ARES CAPITAL CORP - Form 497

of the proceeds from the Add-on Offering and October Add-on Offering has been used to fund investments in portfolio companies in accordance with our investment objectives and strategies.

As of March 31, 2006, December 31, 2005 and December 31, 2004, the fair value of investments and cash and cash equivalents, and the outstanding borrowing under the Facilities were as follows:

	<u>March 31, 2006</u>	<u>December 31, 2005</u>	<u>December 31, 2004</u>
Cash and cash equivalents	\$ 19,034,286	\$ 16,613,334	\$ 26,806,160
Senior term debt	480,455,437	338,467,061	63,118,678
Senior notes	10,000,000	10,000,000	5,997,645
Senior subordinated debt	144,489,390	130,042,698	78,169,595
Collateralized debt obligations	17,184,257	17,386,561	8,281,768
Equity securities	95,016,065	90,072,055	26,992,461
	<u>766,179,435</u>	<u>602,581,709</u>	<u>209,366,307</u>
Total	\$ 766,179,435	\$ 602,581,709	\$ 209,366,307
	<u>185,200,000</u>	<u>18,000,000</u>	<u>55,500,000</u>
Outstanding borrowings	\$ 185,200,000	\$ 18,000,000	\$ 55,500,000

In order to provide additional liquidity and to meet our investment objectives and strategies, in November 2004 we and Ares Capital CP Funding LLC, a single member, special purpose, limited liability company, wholly owned by us ("Ares Capital CP"), entered into the CP Funding Facility, pursuant to which our wholly owned subsidiary Ares Capital CP can obtain financing for the acquisition of loans from Ares Capital as described in more detail in Note 8 to our consolidated financial statements as of December 31, 2005.

The available amount for borrowing under the CP Funding Facility is \$350.0 million (see Note 7 to the consolidated financial statements as of March 31, 2006 for more detail of the CP Funding Facility arrangement). As of March 31, 2006, there was \$109.2 million outstanding under the CP Funding Facility. The CP Funding Facility expires on November 1, 2006 unless extended prior to such date with the consent of the lenders. The available amount for borrowing under the Revolving Credit Facility is \$250.0 million (see Note 7 to the consolidated financial statements as of March 31, 2006 for more detail of the Revolving Credit Facility arrangement). As of March 31, 2006, there was \$76.0 million outstanding under the Revolving Credit Facility. The Revolving Credit Facility expires on December 28, 2010. For the three months ending March 31, 2006, average total assets was \$675.1 million.

In April 2005, the Company entered into an amendment that increased the available amount for borrowing under the CP Funding Facility from \$150.0 million to \$225.0 million and in November 2005, the Company entered into an amendment that further increased the available amount for borrowing under the CP Funding Facility from \$225.0 million to \$350.0 million (see Note 8 to the consolidated financial statements as of December 31, 2005 for more detail of the CP Funding Facility arrangement).

As of December 31, 2005, the outstanding principal balance under the CP Funding Facility was \$18.0 million, which bears interest at a rate equal to the commercial paper rate plus 75 basis points. As of December 31, 2005, the commercial paper rate was 4.3223%. As of December 31, 2004, the outstanding principal balance under the CP Funding Facility was approximately \$55.5 million which bore interest at a rate equal to the commercial paper rate plus 125 basis points. As of December 31, 2004, the commercial paper rate was 2.3152%.

In December 2005, we entered into the Revolving Credit Facility under which the lenders have agreed to extend credit to Ares Capital in an initial aggregate principal amount not exceeding \$250.0 million at any one time outstanding (see Note 8 to the consolidated financial statements as of December 31, 2005 for more detail of the Revolving Credit Facility arrangement). As of December 31, 2005, there were no amounts outstanding under the Revolving Credit Facility which bears an interest

rate of LIBOR (one, two three or six month) plus 100 basis points, generally. As of December 31, 2005, the one, two, three and six month LIBOR were 4.39%, 4.48%, 4.54% and 4.70%, respectively.

A summary of our contractual payment obligations as of December 31, 2005 are as follows:

	Payments Due by Period				
	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
CP Funding Facility payable	\$ 18,000,000	\$ 18,000,000			
Revolving Credit Facility payable					

OFF-BALANCE SHEET ARRANGEMENTS

As of March 31, 2006, the Company had committed to make a total of approximately \$63.0 million of investments in various revolving senior secured loans. As of March 31, 2006, \$37.5 million was unfunded. Included within the \$63.0 million commitment in revolving secured loans is a commitment to issue up to \$3.2 million in standby letters of credit through a financial intermediary on behalf of a portfolio company. Under these arrangements, the Company would be required to make payments to third-party beneficiaries if the portfolio company was to default on its related payment obligations. As of March 31, 2006, the Company had \$2.3 million in standby letters of credit issued and outstanding on behalf of the portfolio company, of which no amounts were recorded as a liability on the Company's consolidated balance sheet. These letters of credit expire on September 30, 2006, but may be extended under substantially similar terms for additional one-year terms at the Company's option until the revolving line of credit, under which the letters of credit were issued, matures on September 30, 2011.

As of December 31, 2005, the Company had committed to make a total of approximately \$43.0 million of investments in various revolving senior secured loans. As of December 31, 2005, \$28.8 million was unfunded. Included within the \$43.0 million commitment in revolving secured loans is a commitment to issue up to \$3.2 million in standby letters of credit through a financial intermediary on behalf of a portfolio company. Under these arrangements, the Company would be required to make payments to third-party beneficiaries if the portfolio company was to default on its related payment obligations. As of December 31, 2005, the Company had \$2.2 million in standby letters of credit issued and outstanding on behalf of the portfolio company, of which no amounts were recorded as a liability on the Company's consolidated balance sheet. These letters of credit expire on September 30, 2006, but may be extended under substantially similar terms for additional one-year terms at the Company's option until the revolving line of credit, under which the letters of credit were issued, matures on September 30, 2011.

As of December 31, 2004, the Company had committed to make a total of approximately \$14.2 million of investments in various revolving senior secured loans. As of December 31, 2004, \$13.8 million was unfunded.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to financial market risks, including changes in interest rates and the valuations of our investment portfolio.

Interest Rate Risk

As of March 31, 2006, approximately 35% of the investments at fair value in our portfolio were at fixed rates while approximately 61% were at variable rates. In addition, the CP Funding Facility and the Revolving Credit Facility are variable rate borrowing facilities.

To illustrate the potential impact of changes in interest rates, we have performed the following analysis based on our March 31, 2006 balance sheet and assuming no changes in our investment and borrowing structure. Under this analysis, a 100 basis point increase in the various base rates would

result in an increase in interest income of approximately \$4,981,000 and an increase in interest expense of \$1,852,000 over the next 12 months. A 100 basis point decrease in the various base rates would result in a decrease in interest income of approximately \$4,981,000 and a decrease in interest expense of \$1,852,000 over the next 12 months.

As of December 31, 2005, approximately 39% of the investments at fair value in our portfolio were at fixed rates while approximately 57% were at variable rates. In addition, the Facilities are variable rate borrowing facilities.

To illustrate the potential impact of changes in interest rates, we performed the following analysis based on our December 31, 2005 balance sheet and assuming no changes in our investment and borrowing structure. Under this analysis, a 100 basis point increase in the various base rates would result in an increase in interest income of approximately \$3,313,474 and an increase in interest expense of \$180,000 over the next 12 months. A 100 basis point decrease in the various base rates would result in a decrease in interest income of approximately \$3,313,474 and a decrease in interest expense of \$180,000 over the next 12 months.

On January 7, 2005, we entered into a costless collar agreement in order to manage the exposure to changing interest rates related to the Company's fixed rate investments. The costless collar agreement was for a notional amount of \$20 million, has a cap of 6.5%, a floor of 2.72% and matures in 2008. The costless collar agreement allows us to receive an interest payment when the 3-month LIBOR exceeds 6.5% and obligates us to pay an interest payment when the 3-month LIBOR is less than 2.72%. The costless collar resets quarterly based on the 3-month LIBOR. As of March 31, 2006, the 3-month LIBOR was 5.00%. As of March 31, 2006, these derivatives had no fair value. As of December 31, 2005, the 3-month LIBOR was 4.54%. As of December 31, 2005, these derivatives had no fair value.

While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments.

Portfolio Valuation

We carry our investments at fair value, as determined by our board of directors. Investments for which market quotations are readily available are valued at such market quotations. Debt and equity securities that are not publicly traded or whose market price is not readily available are valued at fair value as determined in good faith by our board of directors. The types of factors that we may take into account in fair value pricing of our investments include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors.

When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our private equity valuation. Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments, and the differences could be material.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the valuations currently assigned.

SENIOR SECURITIES

Information about our senior securities is shown in the following tables as of each fiscal year ended December 31 since the Fund commenced operations, unless otherwise noted. The report of our independent registered public accounting firm on the senior securities table of December 31, 2004 and December 31, 2005 is attached as an exhibit to the registration statement of which this prospectus is a part. The " " indicates information which the SEC expressly does not require to be disclosed for certain types of senior securities.

Class and Year	Total Amount Outstanding Exclusive of Treasury Securities(1)	Asset Coverage Per Unit(2)	Involuntary Liquidating Preference Per Unit(3)	Average Market Value Per Unit(4)
CP Funding Facility				
Fiscal 2006 (as of March 31, 2006, unaudited)	\$ 109,200,000	\$ 2,408.76	\$	N/A
Fiscal 2005 (as of December 31, 2005)	\$ 18,000,000	\$ 32,645.12	\$	N/A
Fiscal 2004 (as of December 31, 2004)	\$ 55,500,000	\$ 3,877.62	\$	N/A
Revolving Credit Facility				
Fiscal 2006 (as of March 31, 2006, unaudited)	\$ 76,000,000	\$ 1,676.42	\$	N/A
Fiscal 2005 (as of December 31, 2005)	\$	\$	\$	N/A

- (1) Total amount of each class of senior securities outstanding at the end of the period presented.
- (2) The asset coverage ratio for a class of senior securities representing indebtedness is calculated as our consolidated total assets, less all liabilities and indebtedness not represented by senior securities, divided by senior securities representing indebtedness. This asset coverage ratio is multiplied by \$1,000 to determine the Asset Coverage Per Unit. In order to determine the specific Asset Coverage Per Unit for each of the Facilities, the total Asset Coverage Per Unit was divided based on each Facility's amount outstanding at the end of the period.
- (3) The amount to which such class of senior security would be entitled upon the involuntary liquidation of the issuer in preference to any security junior to it.
- (4) Not applicable, as senior securities are not registered for public trading.

BUSINESS

GENERAL

Ares Capital is a specialty finance company that is a closed-end, non-diversified management investment company, regulated as a BDC under the 1940 Act. We were founded in April 2004 and completed our initial public offering on October 8, 2004. Ares Capital's investment objectives are to generate both current income and capital appreciation through debt and equity investments by primarily investing in U.S. middle market companies, where we believe the supply of primary capital is limited and the investment opportunities are most attractive.

We primarily invest in first and second lien senior loans and long-term mezzanine debt. In some cases, we may also receive warrants or options in connection with our debt investments. Our investments have generally ranged between \$10 million and \$50 million each, although the investment sizes may be more or less than the targeted range and are expected to grow with our capital availability. We also, to a lesser extent, make equity investments in private middle market companies. These investments are generally less than \$10 million each (but may grow with our capital availability) and are usually made in conjunction with loans we make to these companies. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential portfolio company substantially in excess of our final investment.

The first and second lien senior loans generally have stated terms of three to ten years and the mezzanine debt investments generally have stated terms of up to ten years, but the expected average life of such first and second lien loans and mezzanine debt is generally between three and seven years. However, there is no limit on the maturity or duration of any security in our portfolio. The debt that we invest in typically is not rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's or lower than "BBB-" by Standard & Poor's). We may invest without limit in debt of any rating, including securities that have not been rated by any nationally recognized statistical rating organization.

We believe that our investment adviser, Ares Capital Management, is able to leverage Ares' current investment platform, resources and existing relationships with financial sponsors, financial institutions, hedge funds and other investment firms to provide us with attractive investments. In addition to deal flow, the Ares investment platform assists our investment adviser in analyzing, structuring and monitoring investments. Ares' senior principals have worked together for many years and have substantial experience in investing in senior loans, high yield bonds, mezzanine debt and private equity. The Company has access to the Ares staff of approximately 58 investment professionals and to the 38 administrative professionals employed by Ares who provide assistance in accounting, legal, compliance and investor relations.

While our primary focus is to generate current income and capital appreciation through investments in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity securities of private companies, we also may invest up to 30% of the portfolio in opportunistic investments. Such investments may include investments in high-yield bonds, debt and equity securities in collateralized debt obligation vehicles and distressed debt or equity securities of public companies. We expect that these public companies generally will have debt that are non-investment grade. As part of this 30% of the portfolio, we may also invest in debt of middle market companies located outside of the United States, which investments are not anticipated to be in excess of 10% of the portfolio at the time such investments are made.

About Ares

Ares is an independent Los Angeles based firm with approximately \$10.7 billion of committed capital and 129 employees. Ares was founded in 1997 by a group of highly experienced investment professionals.

Ares specializes in originating and managing assets in both the leveraged finance and private equity markets. Ares' leveraged finance activities include the acquisition and management of senior loans, high yield bonds, mezzanine and special situation investments. Ares' private equity activities focus on providing flexible, junior capital to middle market companies. Ares has the ability to invest across a capital structure, from senior secured floating rate debt to common equity.

Ares is comprised of the following groups:

Capital Markets Group. The Ares Capital Markets Group currently manages a variety of funds and investment vehicles that have approximately \$6.8 billion of total committed capital, focusing primarily on syndicated senior secured loans, high yield bonds, distressed debt, other liquid fixed income investments and other publicly traded debt securities.

Private Debt Group. The Ares Private Debt Group manages the assets of Ares Capital. The Private Debt Group focuses primarily on non-syndicated first and second lien senior loans and mezzanine debt.

Private Equity Group. The Ares Private Equity Group manages ACOF, which has approximately \$2.7 billion of total committed capital. ACOF generally makes private equity investments in companies in amounts substantially larger than the private equity investments anticipated to be made by Ares Capital. The Private Equity Group generally focuses on control-oriented equity investments in under-capitalized companies or companies with capital structure issues.

Ares' senior principals have been working together as a group for many years and have an average of over 20 years of experience in leveraged finance, private equity, distressed debt, investment banking and capital markets. They are backed by a large team of highly-disciplined professionals. Ares' rigorous investment approach is based upon an intensive, independent financial analysis, with a focus on preservation of capital, diversification and active portfolio management. These fundamentals underlie Ares' investment strategy and have resulted in large pension funds, banks, insurance companies, endowments and high net worth individuals investing in Ares funds.

Ares Capital Management

Ares Capital Management, our investment adviser, is served by a dedicated origination and transaction development team of 17 investment professionals, including our President, Michael J. Arougheti, which team is augmented by Ares' additional investment professionals, primarily its 24 member Capital Markets Group. Ares Capital Management's investment committee has 5 members, including Mr. Arougheti and 4 founding members of Ares. In addition, Ares Capital Management leverages off of Ares' entire investment platform and benefits from Ares' investment professionals' significant capital markets, trading and research expertise developed through Ares industry analysts. Ares funds have made investments in over 1,000 companies in over 30 different industries and currently hold over 400 investments in over 30 different industries.

MARKET OPPORTUNITY

We believe the environment for investing in middle market companies is attractive for the following reasons:

We believe that many senior lenders have in recent years de-emphasized their service and product offerings to middle-market businesses in favor of lending to large corporate clients and managing capital markets transactions.

We believe there is increased demand among private middle market companies for primary capital. Many middle market firms have faced increased difficulty raising debt in the capital markets, due to a continuing preference for larger size high yield bond issuances.

Edgar Filing: ARES CAPITAL CORP - Form 497

We believe there is a large pool of uninvested private equity capital for middle market companies. We expect private equity firms will seek to leverage their investments by combining capital with senior secured loans and mezzanine debt from other sources.

COMPETITIVE ADVANTAGES

We believe that we have the following competitive advantages over other capital providers in middle market companies:

Existing investment platform

Ares currently manages approximately \$10.7 billion of committed capital in the related asset classes of syndicated loans, high yield bonds, mezzanine debt and private equity. We believe Ares' current investment platform provides a competitive advantage in terms of access to origination and marketing activities and diligence for Ares Capital.

Seasoned management team

Antony Ressler, Bennett Rosenthal, John Kissick and David Sachs are all founding members of Ares who serve on Ares Capital Management's investment committee. These professionals have an average of over 20 years experience in leveraged finance, including substantial experience in investing in leveraged loans, high yield bonds, mezzanine debt, distressed debt and private equity securities. In addition, our President, Michael J. Arougheti also serves on the investment committee and leads a dedicated origination and transaction development team of 17 investment professionals (including Mr. Arougheti), which team is augmented by Ares' additional investment professionals, primarily its 24 member Capital Markets Group. As a result of Ares' extensive investment experience, Ares and its senior principals have developed a strong reputation in the capital markets. We believe that this experience affords Ares Capital a competitive advantage in identifying and investing in middle market companies with the potential to generate positive returns.

Experience and focus on middle market companies

Ares has historically focused on investments in middle market companies and we benefit from this experience. Our investment adviser uses Ares' extensive network of relationships with intermediaries focused on middle market companies, including management teams, members of the investment banking community, private equity groups and other investment firms with whom Ares has had long-term relationships. We believe this network enables us to attract well-positioned prospective portfolio company investments. In particular, our investment adviser works closely with the Ares investment professionals who oversee a portfolio of investments in over 400 companies and provide access to an extensive network of relationships and special insights into industry trends and the state of the capital markets.

Disciplined investment philosophy

In making its investment decisions, our investment adviser has adopted Ares' long-standing, consistent investment approach that was developed over 14 years ago by several of its founders. Ares Capital Management's investment philosophy and portfolio construction involves an assessment of the overall macroeconomic environment, financial markets and company-specific research and analysis. Our investment approach emphasizes capital preservation, low volatility and minimization of downside risk. In addition to engaging in extensive due diligence from the perspective of a long-term investor, Ares Capital Management's approach seeks to reduce risk in investments by focusing on:

Businesses with strong franchises and sustainable competitive advantages;

Industries with positive long-term dynamics;

Cash flows that are dependable and predictable;

Management teams with demonstrated track records and economic incentives;

Rates of return commensurate with the perceived risks; and

Securities or investments that are structured with appropriate terms and covenants.

Extensive industry focus

We concentrate our investing activities in industries with a history of predictable and dependable cash flows and in which the Ares investment professionals historically have had extensive investment experience. Since its inception in 1997, Ares investment professionals have invested in over 1,000 companies in over 30 different industries. Ares' Capital Markets Group provides a large team of in-house analysts with significant expertise and relationships in industries in which we are likely to invest. Ares investment professionals have developed long-term relationships with management teams and management consultants in these industries, as well as substantial information concerning these industries and potential trends within these industries. The experience of Ares' investment professionals in investing across these industries throughout various stages of the economic cycle provides our investment adviser with access to ongoing market insights and favorable investment opportunities.

Flexible transaction structuring

We are flexible in structuring investments, the types of securities in which we invest and the terms associated with such investments. The principals of Ares have extensive experience in a wide variety of securities for leveraged companies with a diverse set of terms and conditions. This approach and experience should enable our investment adviser to identify attractive investment opportunities throughout the economic cycle and across a company's capital structure so that we can make investments consistent with our stated objectives.

OPERATING AND REGULATORY STRUCTURE

Our investment activities are managed by Ares Capital Management and supervised by our board of directors, a majority of whom are independent of Ares and its affiliates. Ares Capital Management is an investment adviser that is registered under the Advisers Act. Under our investment advisory and management agreement, we have agreed to pay Ares Capital Management an annual base management fee based on our total assets (other than cash and cash equivalents, but including assets purchased with borrowed funds), and an incentive fee based on our performance. See "Management Investment Advisory and Management Agreement."

As a BDC, we are required to comply with certain regulatory requirements. For example, we would not generally be permitted to invest in any portfolio company in which Ares or any of its affiliates currently has an investment (although we may co-invest on a concurrent basis with funds managed by Ares, subject to compliance with existing regulatory guidance, applicable regulations and our allocation procedures). Some of these co-investments would only be permitted pursuant to an exemptive order from the SEC and we have currently determined not to pursue obtaining such an order.

Also, while we are permitted to finance investments using debt, our ability to use debt is limited in certain significant respects. We borrow funds to make additional investments. See "Regulation." We have elected to be treated for federal income tax purposes as a regulated investment company, or a RIC, under Subchapter M of the Code. See "Material U.S. Federal Income Tax Considerations."

INVESTMENTS

We have created a diversified portfolio that includes first and second lien senior loans and mezzanine debt by investing a range of \$10 million to \$50 million of capital, on average, although the investment sizes may be more or less and are expected to grow with our capital availability. We also, to a lesser extent, make equity investments in private middle market companies. These investments are generally less than \$10 million each (but may grow with our capital availability) and are usually made in conjunction with loans we make to these companies. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential portfolio company substantially in excess of our final investment. In addition to originating investments, we may acquire investments in the secondary market.

Structurally, mezzanine debt usually ranks subordinate in priority of payment to senior loans and is often unsecured. However, mezzanine debt ranks senior to common and preferred equity in a borrowers' capital structure. Typically, mezzanine debt has elements of both debt and equity instruments, offering the fixed returns in the form of interest payments associated with senior loans, while providing lenders an opportunity to participate in the capital appreciation of a borrower, if any, through an equity interest. This equity interest typically takes the form of warrants. Due to its higher risk profile and often less restrictive covenants as compared to senior loans, mezzanine debt generally earns a higher return than senior secured debt. The warrants associated with mezzanine debt are typically detachable, which allows lenders to receive repayment of their principal on an agreed amortization schedule while retaining their equity interest in the borrower. Mezzanine debt also may include a "put" feature, which permits the holder to sell its equity interest back to the borrower at a price determined through an agreed formula.

In making an equity investment, in addition to considering the factors discussed below under "Investment Selection," we also consider the anticipated timing of a liquidity event, such as a public offering, sale of the company or redemption of our equity securities.

Our principal focus is investing in first and second lien senior loans and mezzanine debt and, to a lesser extent, equity capital, of middle market companies in a variety of industries. We generally target companies that generate positive cash flows. Ares has a staff of 16 investment professionals who specialize in specific industries. We generally seek to invest in companies from the industries in which Ares' investment professionals have direct expertise. The following is a representative list of the industries in which Ares has invested.

Aerospace and Defense

Airlines

Broadcasting/Cable

Cargo Transport

Chemicals

Consumer Products

Containers/Packaging

Education

Energy

Environmental Services

Farming and Agriculture

Food and Beverage

Gaming

Health Care

Homebuilding

Lodging and Leisure

Manufacturing

Metals/Mining

Paper and Forest Products

Printing/Publishing

Retail

Restaurants

Supermarket and Drug

Technology

Utilities

Wireless and Wireline Telecom

However, we may invest in other industries if we are presented with attractive opportunities.

Edgar Filing: ARES CAPITAL CORP - Form 497

The industry and geographic information of the portfolio as of March 31, 2006, December 31, 2005 and December 31, 2004, were as follows:

As a result of regulatory restrictions, we are not permitted to invest in any portfolio company in which Ares or any affiliate currently has an investment (although we may co-invest on a concurrent basis with funds managed by Ares, subject to compliance with existing regulatory guidance, applicable regulations and our allocation procedures). Some of these co-investments would only be permitted pursuant to an exemptive order from the SEC and we have currently determined not to pursue obtaining such an order.

In addition to such investments, we may invest up to 30% of the portfolio in opportunistic investments in high-yield bonds, debt and equity securities in collateralized debt obligation vehicles, distressed debt or equity securities of public companies. We expect that these public companies generally will have debt that is non-investment grade. We also may invest in debt of middle market companies located outside of the United States, which investments are not anticipated to be in excess of 10% of the portfolio at the time such investments are made.

INVESTMENT SELECTION

Ares' investment philosophy was developed over the past 14 years and has remained consistent throughout a number of economic cycles. In managing the Company, Ares Capital Management

employs the same investment philosophy and portfolio management methodologies used by the investment professionals of Ares in Ares' private investment funds.

Ares Capital Management's investment philosophy and portfolio construction involves:

an assessment of the overall macroeconomic environment and financial markets;

company-specific research and analysis; and

with respect to each individual company, an emphasis on capital preservation, low volatility and minimization of downside risk.

The foundation of Ares' investment philosophy is intensive credit investment analysis, a strict sales discipline based on both market technicals and fundamental value-oriented research and diversification strategy. Ares Capital Management follows a rigorous process based on:

a comprehensive analysis of issuer creditworthiness, including a quantitative and qualitative assessment of the issuer's business;

an evaluation of management;

an analysis of business strategy and industry trends; and

an in-depth examination of capital structure, financial results and projections.

Ares Capital Management seeks to identify those issuers exhibiting superior fundamental risk-reward profiles and strong defensible business franchises while focusing on relative value of the security across the industry as well as for the specific issuer.

Intensive due diligence

The process through which Ares Capital Management makes an investment decision involves extensive research into the target company, its industry, its growth prospects and its ability to withstand adverse conditions. If the senior investment professional responsible for the transaction determines that an investment opportunity should be pursued, Ares Capital Management will engage in an intensive due diligence process. Though each transaction will involve a somewhat different approach, the regular due diligence steps generally to be undertaken include:

meeting with management to get an insider's view of the business, and to probe for potential weaknesses in business prospects;

checking management backgrounds and references;

performing a detailed review of historical financial performance and the quality of earnings;

visiting headquarters and company operations and meeting top and middle level executives;

contacting customers and vendors to assess both business prospects and standard practices;

Edgar Filing: ARES CAPITAL CORP - Form 497

conducting a competitive analysis, and comparing the issuer to its main competitors on an operating, financial, market share and valuation basis;

researching the industry for historic growth trends and future prospects (including Wall Street research, industry association literature and general news);

assessing asset value and the ability of physical infrastructure and information systems to handle anticipated growth; and

investigating legal risks and financial and accounting systems.

Selective investment process

Ares Capital Management employs Ares' credit recommendation process, which is focused on selectively narrowing investment opportunities through a process designed to identify the most attractive opportunities. Ares reviews and analyzes numerous investment opportunities on behalf of its funds to determine which investments should be consummated.

After an investment has been identified and diligence has been completed, a credit research and analysis report is prepared. This report will be reviewed by the senior investment professional in charge of the potential investment. If such senior investment professional is in favor of the potential investment, then it is presented to the investment committee. Members of the investment committee have an average of over 20 years of experience in the leveraged finance markets. The investment generally requires the substantial consensus of the investment committee. Additional due diligence with respect to any investment may be conducted on our behalf by attorneys and independent accountants prior to the closing of the investment, as well as other outside advisers, as appropriate.

Investment structure

Once we have determined that a prospective portfolio company is suitable for investment, we work with the management of that company and its other capital providers, including senior, junior, and equity capital providers, to structure an investment. We negotiate among these parties to agree on how our investment is expected to perform relative to the other capital in the portfolio company's capital structure.

Debt investments

We invest in portfolio companies primarily in the form of first and second lien senior loans and long-term mezzanine debt. The first and second lien senior loans generally have terms of three to ten years. We generally obtain security interests in the assets of our portfolio companies that will serve as collateral in support of the repayment of the first and second lien senior loans. This collateral may take the form of first or second priority liens on the assets of a portfolio company.

We structure our mezzanine investments primarily as unsecured, subordinated loans that provide for relatively high, fixed interest rates that provide us with significant current interest income. The mezzanine debt investments generally have terms of up to ten years. These loans typically have interest-only payments in the early years, with amortization of principal deferred to the later years of the mezzanine debt. In some cases, we may enter into loans that, by their terms, convert into equity or additional debt or defer payments of interest (or at least cash interest) for the first few years after our investment. Also, in some cases our mezzanine debt will be collateralized by a subordinated lien on some or all of the assets of the borrower.

In some cases our debt investments may provide for a portion of the interest payable to be payment-in-kind interest. To the extent interest is payment-in-kind, it will be payable through the increase of the principal amount of the loan by the amount of interest due on the then-outstanding aggregate principal amount of such loan.

In the case of our first and second lien senior loans and mezzanine debt, we tailor the terms of the investment to the facts and circumstances of the transaction and the prospective portfolio company, negotiating a structure that aims to protect our rights and manage our risk while creating incentives for the portfolio company to achieve its business plan and improve its profitability. For example, in addition to seeking a senior position in the capital structure of our portfolio companies, we will seek, where appropriate, to limit the downside potential of our investments by:

requiring a total return on our investments (including both interest and potential equity appreciation) that compensates us for credit risk;

incorporating "put" rights and call protection into the investment structure; and

negotiating covenants in connection with our investments that afford our portfolio companies as much flexibility in managing their businesses as possible, consistent with preservation of our capital. Such restrictions may include affirmative and negative covenants, default penalties, lien protection, change of control provisions and board rights, including either observation or participation rights.

In general, Ares Capital Management includes financial covenants and terms that require an issuer to reduce leverage, thereby enhancing credit quality. These methods include: (i) maintenance leverage covenants requiring a decreasing ratio of debt to cash flow; (ii) maintenance cash flow covenants requiring an increasing ratio of cash flow to the sum of interest expense and capital expenditures; and (iii) debt incurrence prohibitions, limiting a company's ability to re-lever. In addition, limitations on asset sales and capital expenditures should prevent a company from changing the nature of its business or capitalization without consent.

Our debt investments may include equity features, such as warrants or options to buy a minority interest in the portfolio company. Warrants we receive with our debt may require only a nominal cost to exercise, and thus, as a portfolio company appreciates in value, we may achieve additional investment return from this equity interest. We may structure the warrants to provide provisions protecting our rights as a minority-interest holder, as well as puts, or rights to sell such securities back to the company, upon the occurrence of specified events. In many cases, we also obtain registration rights in connection with these equity interests, which may include demand and "piggyback" registration rights.

Equity investments

Our equity investments may consist of preferred equity that is expected to pay dividends on a current basis or preferred equity that does not pay current dividends. Preferred equity generally has a preference over common equity as to distributions on liquidation and dividends. In some cases, we may acquire common equity. In general, our equity investments are not control-oriented investments and in many cases we acquire equity securities as part of a group of private equity investors in which we are not the lead investor. With respect to preferred or common equity investments, these investments that have generally been less than \$10 million each (but may grow with our capital availability) and are usually made in conjunction with loans we make these companies. In many cases, we will also obtain registration rights in connection with these equity interests, which may include demand and "piggyback" registration rights.

ONGOING RELATIONSHIPS WITH AND MONITORING OF PORTFOLIO COMPANIES

Ares Capital Management closely monitors each investment we make, maintains a regular dialogue with both the management team and other stakeholders and seeks specifically tailored financial reporting. In addition, senior investment professionals of Ares sometimes take board seats or obtain board observation rights. As of March 31, 2006, Ares Capital Management has board seats or board observation rights on more than 23% of the operating companies in our portfolio.

Post-investment, in addition to covenants and other contractual rights, Ares seeks to exert significant influence through board participation, when appropriate, and by actively working with management on strategic initiatives. Ares often introduces managers of companies in which they have invested to other portfolio companies to capitalize on complementary business activities and best practices.

In addition to various risk management and monitoring tools, we grade all loans on a scale of 1 to 4. This system is intended to reflect the performance of the borrower's business, the collateral coverage of the loans and other factors considered relevant.

Under this system, loans with a grade of 4 involve the least amount of risk in our portfolio. The borrower is performing above expectations and the trends and risk factors are generally favorable. Loans graded 3 involve a level of risk that is similar to the risk at the time of origination. The borrower is performing as expected and the risk factors are neutral to favorable. All new loans are initially graded 3. Loans graded 2 involve a borrower performing below expectations and indicates that the loan's risk has increased materially since origination. The borrower is generally out of compliance with debt covenants, however, loan payments are generally not more than 120 days past due. For loans graded 2, we expect to increase procedures to monitor the borrower and the fair value generally will be lowered. A loan grade of 1 indicates that the borrower is performing materially below expectations and that the loan risk has substantially increased since origination. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Loans graded 1 are not anticipated to be repaid in full. We believe that as of March 31, 2006, the weighted average investment grade of the debt in our portfolio was 3.1.

MANAGERIAL ASSISTANCE

As a BDC, we will offer, and must provide upon request, managerial assistance to our portfolio companies. This assistance could involve, among other things, monitoring the operations of our portfolio companies, participating in board and management meetings, consulting with and advising officers of portfolio companies and providing other organizational and financial guidance. We may receive fees for these services. Ares Administration provides such managerial assistance on our behalf to portfolio companies that request this assistance.

COMPETITION

Our primary competitors to provide financing to middle market companies include public and private funds, commercial and investment banks, commercial financing companies and private equity funds. Many of our competitors are substantially larger and have considerably greater financial, technical and marketing resources than we do. For example, some competitors may have access to funding sources that are not available to us. In addition, some of our competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships than us. Furthermore, many of our competitors are not subject to the regulatory restrictions that the 1940 Act imposes on us as a BDC. We use the industry information of Ares' investment professionals to which we have access to assess investment risks and determine appropriate pricing for our investments in portfolio companies. In addition, we believe that the relationships of the members of Ares Capital Management's investment committees and of the senior principals of Ares, enable us to learn about, and compete effectively for, financing opportunities with attractive middle market companies in the industries in which we seek to invest. For additional information concerning the competitive risks we face, see "Risk Factors Risks Relating to our Business We operate in a highly competitive market for investment opportunities."

LEVERAGE

On November 3, 2004, through our wholly owned subsidiary, Ares Capital CP Funding LLC ("Ares Capital CP"), we entered into a revolving credit facility (the "CP Funding Facility") that, as amended, allows Ares Capital CP to issue up to \$350.0 million of variable funding certificates ("VFC").

Under the CP Funding Facility, funds are loaned to Ares Capital CP by or through Wachovia Capital Markets, LLC at prevailing commercial paper rates, or if the commercial paper market is at

any time unavailable at prevailing LIBOR rates, plus, in each case, an applicable spread. The funds are used for the simultaneous purchase by Ares Capital CP from the Company of loan investments originated or otherwise acquired by the Company. Through this simultaneous purchase from the Company by Ares Capital CP with funds obtained by Ares Capital CP from the CP Funding Facility, the Company is able to obtain the benefits of the CP Funding Facility.

As part of the CP Funding Facility, we are subject to limitations as to how borrowed funds may be used including restrictions on geographic concentrations, sector concentrations, loan size, payment frequency and status, average life, collateral interests and investment ratings as well as regulatory restrictions on leverage which may affect the amount of funds that Ares Capital CP may obtain. There are also certain requirements relating to portfolio performance, including required minimum portfolio yield and limitations on delinquencies and charge-offs, violation of which could result in the early amortization of the CP Funding Facility and limit further advances under the CP Funding Facility and in some cases could be an event of default. Such limitations, requirements, and associated defined terms are as provided for in the documents governing the CP Funding Facility. The interest charged on the funds is based on the commercial paper rate plus 0.75% and payable quarterly. As of December 31, 2005, the commercial paper rate was 4.3223%. The CP Funding Facility expires on November 1, 2006 unless extended prior to such date with the consent of the lender. If the CP Funding Facility is not extended, any principal amounts then outstanding will be amortized over a 24 month period through a termination date of November 2, 2008. Under the terms of the CP Funding Facility, we are required to pay a 0.375% renewal fee on each of the two years following the closing date of the CP Funding Facility. Additionally, we are also required to pay a commitment fee (as described below) for any unused portion of the CP Funding Facility.

The interest rate payable on commercial paper funding is equal to the commercial paper rate plus 75 basis points and the commitment fee for unused portions of the credit facility ranges from 0.10% to 0.125%, depending on funding levels.

As of March 31, 2006, the principal amount outstanding under the CP Funding Facility was \$109.2 million.

On December 28, 2005, we entered into the Revolving Credit Facility with the lenders party thereto and JPMorgan Chase Bank, N.A., as Administrative Agent, together with various supporting documentation, including a guarantee and security agreement.

Under the Revolving Credit Facility, the lenders have agreed to extend credit to Ares Capital in an initial aggregate principal amount not exceeding \$250 million at any one time outstanding. The Revolving Credit Facility provides also for issuing letters of credit. The Revolving Credit Facility is a five-year revolving facility (with a stated maturity date of December 28, 2010) and with certain exceptions is secured by substantially all of the assets in our portfolio (other than investments held by Ares Capital CP under the CP Funding Facility).

Subject to certain exceptions, the interest rate payable under the Revolving Credit Facility is 100 basis points over LIBOR. Under the Revolving Credit Facility, we have made certain representations and warranties and are required to comply with various covenants, reporting requirements and other customary requirements for similar revolving credit facilities, including, without limitation, covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain investments, (c) limitations on certain restricted payments, (d) maintaining a certain minimum stockholders' equity, (e) maintaining a ratio of total assets (less total liabilities) to total indebtedness, of Ares Capital and its subsidiaries, of not less than 2.0:1.0, (f) maintaining minimum liquidity, and (g) limitations on the creation or existence of agreements that prohibit liens on certain properties of Ares Capital and its subsidiaries.

In addition to the asset coverage ratio described above, borrowings under the Revolving Credit Facility (and the incurrence of certain other permitted debt) will be subject to compliance with a borrowing base that will apply different advance rates to different types of assets in our portfolio. The Revolving Credit Facility also includes an "accordion" feature that allows us to increase the size of the Revolving Credit Facility to a maximum of \$500 million under certain circumstances. The Revolving Credit Facility also includes usual and customary events of default for senior secured revolving credit facilities of this nature.

We intend to continue borrowing under the Facilities in the future and we may increase the size of the Facilities or otherwise issue debt securities or other evidences of indebtedness in the future.

STAFFING

We do not currently have any employees and do not expect to have any employees. Services necessary for our business are provided by individuals who are employees of Ares Capital Management and Ares Administration, pursuant to the terms of the management agreement and the administration agreement. Each of our executive officers described under "Management" is an employee of Ares Administration and/or Ares Capital Management. Our day-to-day investment operations are managed by our investment adviser. Most of the services necessary for the origination and administration of our investment portfolio are provided by investment professionals employed by Ares Capital Management. Including Michael J. Arougheti, our President who also serves on Ares Capital Management's investment committee, Ares Capital Management has 15 investment professionals who focus on origination and transaction development and monitoring of our investments. See "Management Investment Advisory and Management Agreement." In addition, we will reimburse Ares Administration for our allocable portion of expenses incurred by it in performing its obligations under the administration agreement, including rent and our allocable portion of the cost of our officers and their respective staffs. See "Management Administration Agreement."

PROPERTIES

We do not own any real estate or other physical properties materially important to our operation. Our headquarters are currently located at 280 Park Avenue, 22nd Floor, Building East, New York, New York 10017. We rent office space directly from a third party pursuant to a lease that expires on February 27, 2011. In addition, we have entered into a sublease with Ares Management LLC whereby Ares Management LLC subleases approximately 25% of the office space for a fixed rent equal to 25% of the basic annual rent payable by us under the lease, plus certain additional costs and expenses.

LEGAL PROCEEDINGS

Neither we nor Ares Capital Management are currently subject to any material legal proceedings.

PORTFOLIO COMPANIES

Our investment adviser employs an investment rating system to categorize our investments. See "Business Ongoing Relationships With and Monitoring of Portfolio Companies." We believe that as of March 31, 2006, the weighted average investment grade of the debt in our portfolio is 3.1. As of March 31, 2006, the weighted average yield of the debt and income producing equity securities in our portfolio was approximately 11.47% (computed as (a) the annual stated interest rate (or, in the case of equity securities, dividend rate) plus the annual amortization of loan, origination fees, original issue discount and market discount on accruing loans, debt and income producing equity securities) divided by (b) total loans, debt and income producing equity securities at value.

Edgar Filing: ARES CAPITAL CORP - Form 497

The following table describes each of the businesses included in our portfolio and reflects data as of March 31, 2006. We own less than 15% of the equity of, and do not control any of, the businesses included in this portfolio except for CICQ, LP. We offer to make significant managerial assistance to our portfolio companies. We may receive rights to observe the meetings of our portfolio companies' board of directors.

- (1) All interest is payable in cash unless otherwise indicated. A majority of the variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either LIBOR or an alternate Base Rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset daily (D), monthly (M), bi-monthly (B), quarterly (Q) or semi-annually (S). For each such loan, we have provided the current interest rate in effect as of March 31, 2006.
- (2) Percentages shown for warrants or convertible preferred stock held represent the percentages of common stock we may own on a fully diluted basis, assuming we exercise our warrants or convert our preferred stock to common stock.
- (3) Total commitment of \$3,278,689 remains unfunded as of March 31, 2006.

Edgar Filing: ARES CAPITAL CORP - Form 497

Set forth below is a brief description of each portfolio company in which we have made an investment that represents greater than 5% of our total assets as of March 31, 2006.

CICQ, LP

CICQ, LP is a limited partnership that indirectly owns membership interests of a company specializing in the operation, ownership and franchising of a chain of fast-food restaurants in the United States and abroad. The restaurant chain, with over 4,000 locations worldwide, is one of the fastest growing restaurant chains.

MANAGEMENT

Our business and affairs are managed under the direction of our board of directors. The board of directors currently consists of five members, three of whom are not "interested persons" of Ares Capital as defined in Section 2(a)(19) of the 1940 Act. We refer to these individuals as our independent directors. Our board of directors elects our officers, who will serve at the discretion of the board of directors.

EXECUTIVE OFFICERS AND BOARD OF DIRECTORS

Under our charter, our directors are divided into three classes. Each class of directors will hold office for a three year term. However, the initial members of the three classes have initial terms of one, two and three years, respectively. At each annual meeting of our stockholders, the successors to the class of directors whose terms expire at such meeting will be elected to hold office for a term expiring at the annual meeting of stockholders held in the third year following the year of their election. Each director will hold office for the term to which he or she is elected and until his or her successor is duly elected and qualifies.

Directors

Information regarding the board of directors is as follows:

<u>Name</u>	<u>Age</u>	<u>Position</u>	<u>Director Since</u>	<u>Expiration of Term</u>
Interested Directors				
Robert L. Rosen	59	Director	2004	2006
Bennett Rosenthal	42	Chairman and Director	2004	2006
Independent Directors				
Douglas E. Coltharp	44	Director	2004	2008
Frank E. O'Bryan	72	Director	2005	2007
Eric B. Siegel	48	Director	2004	2007

The address for each director is c/o Ares Capital Corporation, 1999 Avenue of the Stars, Suite 1900, Los Angeles, California, 90067.

Executive officers who are not directors

Information regarding our executive officers who are not directors is as follows:

Name	Age	Position
Michael J. Arougheti	33	President
Daniel F. Nguyen	34	Chief Financial Officer
Kevin A. Frankel	44	Chief Compliance Officer and Secretary
Merritt S. Hooper	44	Vice President of Investor Relations and Treasurer
Valerie A. Bruce	33	Interim Chief Compliance Officer and Assistant Secretary

The address for each executive officer is c/o Ares Capital Corporation, 1999 Avenue of the Stars, Suite 1900, Los Angeles, California, 90067.

Biographical information**Directors**

Our directors have been divided into two groups interested directors and independent directors. Interested directors are interested persons as defined in the 1940 Act.

Independent directors

Douglas E. Coltharp, 44, has served as a director of the Company since 2004. He joined Saks Incorporated as Executive Vice President and Chief Financial Officer in November 1996. Saks Incorporated (NYSE "SKS") is comprised of two business segments, Parisian, a specialty department store business, which operates department stores under various nameplates and Saks Fifth Avenue Enterprises, which operates Saks Fifth Avenue luxury department stores and Off 5th Saks Fifth Avenue Outlet. Prior to joining Saks Incorporated Mr. Coltharp spent ten years in the Corporate Finance Department of NationsBank (now known as Bank of America), most recently as Senior Vice President and head of the Southeast Corporate Finance Group headquartered in Atlanta. Mr. Coltharp holds a B.S. in Finance and Economics from Lehigh University in Bethlehem, Pennsylvania and an M.B.A. from the Wharton School, University of Pennsylvania, in Philadelphia, Pennsylvania. Mr. Coltharp also serves on the Boards of Directors of Stratus Technologies, Inc. and Under Armour, Inc.

Frank E. O'Bryan, 72, served as Chairman of the Board of WMC Mortgage Company from 1997 to 2003 and as a Vice Chairman until 2004 when the company was sold to General Electric Corporation. Mr. O'Bryan served as Vice Chairman of Shearson/American Express Mortgage Corp. and as a Director of Shearson American Express from 1981 to 1985 and prior to that served as a Director and senior executive of Shearson Hayden Store from 1979 to 1981. Mr. O'Bryan has been a Director of The First American Corporation since 1994. Since 2003 he has been a Director of Standard Pacific Corporation and a Director of Farmers & Merchants Bank since 2004. Mr. O'Bryan is a past member of the board of directors of both Damon Corporation and Grubb & Ellis.

Eric B. Siegel, 48, has served as a director of the Company since 2004. Since 1995, Mr. Siegel has been an independent business consultant providing advice through a limited liability company owned by Mr. Siegel, principally with respect to acquisition strategy and structuring, and the subsequent management of acquired entities. Mr. Siegel is a Director and Chairman of the Executive Committee of El Paso Electric Company, an NYSE publicly traded utility company. Mr. Siegel is a member of the Board of Directors of Kerzner International Limited, an NYSE publicly traded company that develops and operates destination casino resorts, luxury resort hotels and gaming properties worldwide. He is the Chairman of the Audit and Compensation Committees at Kerzner International. Mr. Siegel is a retired limited partner of Apollo Advisors, L.P. and Lion Advisors, L.P. Mr. Siegel is also a member of the

Board of Trustees of the Marlborough School, where he also serves as Finance Chair, a member of the Board of Directors of the Friends of the Los Angeles Free Clinic and a board member of Reprise! Broadway's Best, a non-profit theatre organization. Mr. Siegel holds his Bachelor of Arts degree Summa Cum Laude and law degree Order of the Coif from the University of California at Los Angeles.

Interested directors

Robert L. Rosen, 59, has served as a director of the Company since 2004. Mr. Rosen is managing partner of RLR Capital Partners and RLR Focus Fund which invests principally in the securities of publicly traded North American companies. Mr. Rosen served from 2003 until 2005 as co-Managing Partner of Dolphin Domestic Fund II. In 1998, Mr. Rosen founded National Financial Partners ("NFP"), an independent distributor of financial services to high net worth individuals and small to medium-sized corporations. He served as NFP's CEO from 1998 to 2000 and as its Chairman until January 2002. From 1987 to the present, Mr. Rosen has been CEO of RLR Partners, LLC, a private investment firm with interests in financial services, healthcare, media and multi-industry companies. From 1989 to 1993 Mr. Rosen was Chairman and CEO of Damon Corporation, a leading healthcare and laboratory testing company that was ultimately sold to Quest Diagnostics. From 1983 to 1987, Mr. Rosen was Vice Chairman of Maxxam Group. Prior to that, Mr. Rosen spent twelve years at Shearson American Express in positions in research, investment banking and senior management, and for two years was Assistant to Sanford Weill, the then Chairman and CEO of Shearson. Mr. Rosen holds an MBA in finance from NYU's Stern School. Ares Management is in discussions with Mr. Rosen regarding expanding his relationship with Ares Management. If those discussions bear fruit, Mr. Rosen may no longer be considered an "independent" director of Ares Capital. As a result, in an abundance of caution, we are treating Mr. Rosen as an "interested person" of the Company as defined in section 2(a)(19) of the 1940 Act.

Bennett Rosenthal, 42, has served as a Chairman and director of the Company since 2004. Mr. Rosenthal is a founding member of Ares and functions as a Senior Partner in the Private Equity Group. Since 1998, Mr. Rosenthal has also overseen all of Ares' mezzanine debt investments. Prior to joining Ares, Mr. Rosenthal was a Managing Director in the Global Leveraged Finance Group of Merrill Lynch and was responsible for originating, structuring and negotiating many leveraged loan and high yield financings. Mr. Rosenthal was also a senior member of Merrill Lynch's Leveraged Transaction Commitment Committee. Mr. Rosenthal is a member of the following Boards of Directors: AmeriQual Management, Inc., Douglas Dynamics, LLC and Marietta Corporation he is also the Co-Chairman of the Board of Directors of National Bedding Company LLC (Serta). Mr. Rosenthal graduated summa cum laude with a BS in Economics from the University of Pennsylvania's Wharton School of Business where he also received his MBA with distinction. Bennett Rosenthal is an "interested person" of the Company as defined in section 2(a)(19) of the 1940 Act because he is on the investment committee of Ares Capital Management, the Company's investment adviser, and is a member of Ares Partners Management Company LLC, the parent of Ares Management, LLC, the managing member of the investment adviser.

Executive officers who are not directors

Michael J. Arougheti, 33, is President of the Company and joined Ares in May 2004 and became a member of Ares in January 2006. Prior to that time, Mr. Arougheti was employed by Royal Bank of Canada, where he was a Managing Partner of the Principal Finance Group of RBC Capital Partners and a member of the firm's Mezzanine Investment Committee. At RBC Capital Partners, Mr. Arougheti oversaw an investment team that originated, managed and monitored a diverse portfolio of middle market leveraged loans, senior and junior subordinated debt, preferred equity, and common stock and warrants on behalf of RBC and other third-party institutional investors. Mr. Arougheti joined Royal Bank of Canada in October 2001 from Indosuez Capital, where he was a Principal, responsible

for originating, structuring and executing leveraged transactions across a broad range of products and asset classes. Mr. Arougheti sat on the firm's Investment Committee and was also active in the firm's private equity fund investment and fund of funds program. Prior to joining Indosuez in 1994, Mr. Arougheti worked at Kidder Peabody & Co., where he was a member of the firm's Mergers and Acquisitions Group advising clients in various industries, including natural resources, pharmaceuticals and consumer products. Mr. Arougheti has extensive experience in leveraged finance, including senior bank loans, mezzanine debt and private equity. He has worked on a range of transactions for companies in the consumer products, manufacturing, healthcare, retail and technology industries. Mr. Arougheti received a B.A. in Ethics, Politics and Economics, cum laude, from Yale University.

Daniel F. Nguyen, 34, has served as Chief Financial Officer of the Company since 2004 and joined Ares in August 2000. From 1996 to 2000, Mr. Nguyen was with Arthur Andersen LLP, where he was in charge of conducting business audits on various financial institutions, performing due diligence investigation of potential mergers and acquisitions, and analyzing changes in accounting guidelines for derivatives. At Arthur Andersen LLP, Mr. Nguyen also focused on treasury risk management and on mortgage-backed securities and other types of structured financing. Mr. Nguyen graduated with a B.S. in Accounting from the University of Southern California's Leventhal School of Accounting and received an MBA in Global Business from Pepperdine University's Graziadio School of Business and Management. Mr. Nguyen also studied European business environment at Oxford University in England as part of the MBA curriculum. Mr. Nguyen is a CFA charterholder and a Certified Public Accountant.

Kevin A. Frankel, 44, has served as Chief Compliance Officer and Secretary of the Company since 2004. Mr. Frankel joined Ares as General Counsel in April 2003. Mr. Frankel became a Transaction Partner in Ares Private Equity Group in July 2005. From 2000 to 2002, Mr. Frankel was with RiverOne, Inc., a company providing supply chain management software and services, most recently as Senior Vice President Business Development and General Counsel. From 1995 to 2000, Mr. Frankel was with Aurora National Life Assurance Company, most recently as Senior Vice President-Operations and General Counsel. From 1986 to 1995, Mr. Frankel was with the law firm of Irell & Manella, most recently as a partner, resident in its corporate securities group and specializing in mergers and acquisitions. Mr. Frankel received his JD in 1986 from the UCLA School of Law, where he was awarded a John M. Olin Fellowship in Law and Economics for academic achievement and graduated Order of the Coif. He received his B.A. from UCLA in 1983.

Merritt S. Hooper, 44, has served as Vice President of Investor Relations and Treasurer of the Company since 2004. Ms. Hooper is a founding investment professional of Ares and functions as the Director of Investor Relations and Marketing for all Ares funds as well as a senior investment analyst in the Capital Markets Group. Prior to Ares, Ms. Hooper was associated with Lion Advisors (an affiliate of Apollo Advisors) from 1991 to 1997 and worked as a senior credit analyst participating in both portfolio management and strategy. From 1987 until 1991, Ms. Hooper was with Columbia Savings and Loan, most recently as Vice President in the Investment Management Division. Ms. Hooper serves on the executive and investment boards of Cedars-Sinai Medical Center in Los Angeles. Ms. Hooper graduated from the University of California at Los Angeles (UCLA) with a B.A. in Mathematics and received her MBA in Finance from UCLA's Anderson School of Management.

Valerie A. Bruce, 33, has served as Interim Chief Compliance Officer and Assistant Secretary since May 30, 2006. Ms. Bruce joined Ares Management LLC as Associate General Counsel in March 2005. From 1999 until joining Ares Management, Ms. Bruce was an associate at the law firm of Paul, Weiss, Rifkind, Wharton & Garrison LLP, where she focused her practice on corporate securities and mergers and acquisitions. In 1999, Ms. Bruce received her J.D. from the University of Virginia and in 1995 she received her B.A., *magna cum laude*, from Rutgers University.

INVESTMENT COMMITTEE

Information regarding the members of Ares Capital Management's investment committee is as follows:

Name	Age	Position
Bennett Rosenthal	42	Chairman and Director of the Company, Member of Investment Committee
Antony P. Ressler	45	Member of Investment Committee
John Kissick	64	Member of Investment Committee
David Sachs	46	Member of Investment Committee
Michael J. Arougheti	33	President of the Company, Member of Investment Committee

The address for each member of Ares Capital Management's investment committee is c/o Ares Capital Corporation, 1999 Avenue of the Stars, Suite 1900, Los Angeles, California, 90067.

Members of Ares Capital Management's investment committee who are not directors or officers of the Company

John Kissick Mr. Kissick is a founding member of Ares and functions as a Senior Partner in the Private Equity Group as well as a Senior Advisor to all funds in Ares' Capital Markets Group. Mr. Kissick also serves on the Investment Committee on all Ares funds. Prior to Ares, Mr. Kissick was a co-founder of Apollo Management, L.P. in 1990 and was a member of the original six-member management team. Together with Mr. Ressler, Mr. Kissick oversaw and led the capital markets activities of Apollo Management, L.P. and Lion Advisors. L.P. from 1990 until 2002, particularly focusing on high yield bonds, leveraged loans and other fixed income assets. Prior to 1990, Mr. Kissick served as a Senior Executive Vice President of Drexel Burnham Lambert, where he began in 1975, eventually heading its Corporate Finance Department. Mr. Kissick serves on the boards of the Cedars-Sinai Medical Center in Los Angeles, the Stanford University Graduate School of Business and the Fulfillment Fund which helps economically disadvantaged kids graduate from high school and college through mentoring and other programs. Mr. Kissick graduated from Yale University with a BA in Economics and with highest honors from the Stanford Business School with an MBA in Finance.

Antony P. Ressler Mr. Ressler is a founding member of Ares and functions as a Senior Partner in the Ares Private Equity Group and as a Senior Advisor to the Ares Capital Markets Group. Mr. Ressler also serves on the Investment Committee on all Ares funds. Prior to Ares, Mr. Ressler was a co-founder of Apollo Management, L.P. in 1990 and was a member of the original six-member management team. Prior to 1990, Mr. Ressler served as a Senior Vice President in the High Yield Bond Department of Drexel Burnham Lambert Incorporated, with responsibility for the New Issue/Syndicate Desk. Mr. Ressler serves on several boards of directors including Allied Waste Industries, Inc., Samsonite Corporation and several private companies. Mr. Ressler also serves on the Boards of Directors of the Alliance for College Ready Public Schools and the Los Angeles County Museum of Art, as well as the Board of Trustees of the Center for Early Education. Mr. Ressler is also one of the founding members of the Board of Directors of the Painted Turtle Camp, created to serve children dealing with chronic and life threatening illnesses by creating memorable, old-fashioned camping experiences. Mr. Ressler received his BSFS from Georgetown University's School of Foreign Service and received his MBA from Columbia University's Graduate School of Business.

David Sachs Mr. Sachs is a founding member of Ares and functions as Co-Portfolio Manager of the Capital Markets Group and serves as an Investment Committee member on all Ares funds.

From 1994 until 1997, Mr. Sachs was a principal of Onyx Partners, Inc. specializing in merchant banking and related capital raising activities in the mezzanine debt and private equity markets for middle market companies. From 1990 to 1994, Mr. Sachs was employed by Taylor & Co., an investment manager providing investment advisory and consulting services to members of the Bass Family of Fort Worth, Texas. From 1984 to 1990, Mr. Sachs was with Columbia Savings and Loan Association, most recently as Executive Vice President, responsible for all asset-liability management as well as running the Investment Management Department. Mr. Sachs serves on the Board of Directors of Terex Corporation. Mr. Sachs graduated from Northwestern University with a BS in Industrial Engineering and Management Science.

OTHER INVESTMENT PROFESSIONALS

Eric B. Beckman Mr. Beckman joined Ares in 1998 and serves as a Managing Director in the Private Debt Group of Ares Management LLC. Before joining the Private Debt Group, Mr. Beckman served as a Senior Partner of the Private Equity Group of Ares Management LLC and a member of its Investment Committee, and as a member of the team responsible for Ares' mezzanine debt investments. Prior to joining Ares, Mr. Beckman was a member of the Leveraged Finance Group of Goldman, Sachs & Co. While at Goldman Sachs, he was involved in executing leveraged loan and high yield bond offerings, in raising and managing a dedicated fund providing subordinated bridge loans, and in certain restructuring advisory and distressed lending activities. Mr. Beckman is the Co-Chair of the Los Angeles Advisory Board of the Posse Foundation and a member of the Steering Committee for the Cedars-Sinai Medical Center Sports Spectacular. Mr. Beckman graduated summa cum laude from Cornell University with a BA in Political Theory and Economics, and was elected to Phi Beta Kappa. He received his JD from the Yale Law School where he was a senior editor of the Yale Law Journal.

R. Kipp deVeer Mr. deVeer joined Ares in July 2004 and serves as a Managing Director in the Private Debt Group of Ares Management LLC. Before Ares Mr. deVeer was a partner at RBC Capital Partners in the Principal Finance Group, the firm's middle market financing and principal investment business. Mr. deVeer joined RBC in October 2001 from the merchant banking group of Indosuez Capital. At RBC Capital Partners and Indosuez Capital, Mr. deVeer was responsible for originating, structuring, and executing senior and subordinated debt investments in middle market buyouts and acquisitions. In addition, Mr. deVeer was responsible for investing the firm's capital in private equity transactions. Previously, Mr. deVeer worked at J.P. Morgan & Co., both in a Special Investment Fund of J.P. Morgan Investment Management, Inc. and the Investment Banking Division of J.P. Morgan Securities Inc. Mr. deVeer received a B.A. from Yale University and an M.B.A. from Stanford University's Graduate School of Business.

Mitch Goldstein Mr. Goldstein joined Ares in May 2005 and serves as a Managing Director in the Private Debt Group of Ares Management LLC. Prior to joining Ares, Mr. Goldstein worked at Credit Suisse First Boston, where he was a Managing Director in the Financial Sponsors Group. At CSFB, Mr. Goldstein was responsible for providing investment banking services to private equity funds and hedge funds with a focus on M&A and restructurings and capital raisings, including high yield, bank debt, mezzanine debt, and IPOs. Mr. Goldstein joined CSFB in 2000 at the completion of its merger with Donaldson Lufkin and Jenrette. From 1998 to 2000, Mr. Goldstein was at Indosuez Capital, where he was a member of the Investment Committee and a Principal, responsible for originating, structuring and executing leveraged transactions across a broad range of products and asset classes. From 1993 to 1998, Mr. Goldstein worked at Bankers Trust, where he was responsible for financing and advising clients in various industries including media and telecommunications, consumer products, automotive and healthcare. Mr. Goldstein began his career as a CPA at Ernst & Young. Mr. Goldstein graduated summa cum laude from SUNY Binghamton with a BS in Accounting and received an MBA from Columbia Business School.

Michael L. Smith Mr. Smith joined Ares in July 2004 and serves as a Managing Director in the Private Debt Group of Ares Management LLC. Before Ares, Mr. Smith was a partner at RBC

Capital Partners in the Principal Finance Group, the firm's middle market financing and principal investment business. Mr. Smith joined RBC in October 2001 from Indosuez Capital, where he was a Vice President in the merchant banking group. At RBC Capital Partners and Indosuez Capital, Mr. Smith was responsible for originating and executing senior debt and mezzanine financings for middle market leveraged buyouts and recapitalizations. In addition, Mr. Smith was responsible for investing the firm's capital in private equity transactions. Previously, Mr. Smith worked at Kenter, Glasstris & Company, a private equity investment firm specializing in leveraged management buyouts and at Salomon Brothers Inc., in their Capital Markets and Financial Institutions Group. Mr. Smith received a Masters in Management from the J.L. Kellogg Graduate School of Management and a B.S. in Business Administration, cum laude, from the University of Notre Dame.

COMMITTEES OF THE BOARD OF DIRECTORS

Audit committee

The members of the audit committee are Messrs. Coltharp, O'Bryan and Siegel, each of whom is independent for purposes of the 1940 Act and The NASDAQ National Market corporate governance regulations. Mr. Coltharp serves as chairman of the audit committee. The audit committee is responsible for approving our independent accountants, reviewing with our independent accountants the plans and results of the audit engagement, approving professional services provided by our independent accountants, reviewing the independence of our independent accountants and reviewing the adequacy of our internal accounting controls. The audit committee is also responsible for aiding our board of directors in fair value pricing debt and equity securities that are not publicly traded or for which current market values are not readily available. Where appropriate, the board of directors and audit committee may utilize the services of an independent valuation firm to help them determine the fair value of these securities.

Nominating committee

The members of the nominating committee are Messrs. Coltharp, O'Bryan and Siegel, each of whom is independent for purposes of the 1940 Act and The NASDAQ National Market corporate governance regulations. Mr. Siegel serves as chairman of the nominating committee. The nominating committee is responsible for selecting, researching and nominating directors for election by our stockholders, selecting nominees to fill vacancies on the board or a committee of the board, developing and recommending to the board a set of corporate governance principles and overseeing the evaluation of the board and our management.

The nomination committee may consider recommendations for nomination of directors from our stockholders. Nominations made by stockholders must be delivered to or mailed (setting forth the information required by our bylaws) and received at our principal executive offices not earlier than 150 days nor fewer than 120 days in advance of the date on which we first mailed our proxy materials for the previous year's annual meeting of stockholders; provided, however, that if the date of the annual meeting has changed by more than 30 days from the prior year, the nomination must be received not earlier than the 150th day prior to the date of such annual meeting nor later than the later of (i) 120th day prior to the date of such annual meeting or (ii) the 10th day following the day on which public announcement of such meeting date is first made.

Compensation committee

We do not have a compensation committee because our executive officers do not receive any direct compensation from us.

Meetings

Our board of directors held 14 formal meetings during 2005. The audit committee held six formal meetings during 2005, and the nominating committee held three formal meetings during 2005.

COMPENSATION TABLE

The following table shows information regarding the compensation of the directors for the fiscal year ending December 31, 2005. No compensation is paid to directors who are "interested persons."

Name	Aggregate compensation from Ares Capital(1)	Pension or retirement benefits accrued as part of our expenses(2)	Total compensation from Ares Capital paid to director
Independent directors			
Douglas E. Coltharp	\$ 99,000	None	\$ 99,000
Frank E. O'Bryan	\$ 38,500	None	\$ 38,500
Eric B. Siegel	\$ 96,000	None	\$ 96,000
Interested directors			
Robert L. Rosen	\$ 70,500	None	\$ 70,500
Bennett Rosenthal	None	None	None

(1) For a discussion of the independent directors' compensation, see below. In addition, please note that the consideration received by Mr. Rosen in 2005 was for his services prior to the time he was treated as an interested director.

(2) We do not have a profit sharing or retirement plan, and directors do not receive any pension or retirement benefits.

The independent directors receive an annual fee of \$50,000. They also receive \$2,500 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each board meeting and will receive \$1,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each committee meeting. In addition, the Chairman of the Audit Committee receives an annual fee of \$5,000 and each chairman of any other committee receives an annual fee of \$2,000 for their additional services in these capacities. In addition, we purchase directors' and officers' liability insurance on behalf of our directors and officers. Independent directors have the option to receive their directors' fees paid in shares of our common stock issued at a price per share equal to the greater of net asset value or the market price at the time of payment.

PORTFOLIO MANAGERS

The following individuals function as portfolio managers primarily responsible for the day-to-day management of the Company's portfolio.

Name	Position	Length of Service with Ares (years)	Principal Occupation(s) During Past 5 Years
Michael J. Arougheti	President of the Company, Member of Investment Committee	2	Mr. Arougheti joined Ares in May 2004 as President of the Company and became a member of Ares in January 2006. Prior to that time, Mr. Arougheti was employed by Royal Bank of Canada, where he was a Managing Partner of the Principal Finance Group of RBC Capital Partners and a member of the firm's Mezzanine Investment Committee. Mr. Arougheti joined Royal Bank of Canada in October 2001 from Indosuez Capital, where he was a Principal, responsible for originating, structuring and executing leveraged transactions across a broad range of products and asset classes. Prior to joining Indosuez in 1994, Mr. Arougheti worked at Kidder Peabody & Co., where he was a member of the firm's Mergers and Acquisitions Group.
Eric B. Beckman	Managing Director in Private Debt Group	8	Mr. Beckman joined Ares in 1998 and serves as a Managing Director in the Private Debt Group of Ares Management LLC. Before joining the Private Debt Group, Mr. Beckman served as a Senior Partner of the Private Equity Group of Ares Management LLC and a member of its Investment Committee, and as a member of the team responsible for Ares' mezzanine debt investments.
R. Kipp deVeer	Managing Director in Private Debt Group	2	Mr. deVeer joined Ares in July 2004 and serves as a Managing Director in the Private Debt Group of Ares Management LLC. Before Ares Mr. deVeer was a Partner at RBC Capital Partners in the Principal Finance Group, the firm's middle market financing and principal investment business. Mr. deVeer joined RBC in October 2001 from the merchant banking group of Indosuez Capital. From 1998 to 2001, Mr. deVeer was with Indosuez Capital, most recently as a Vice President.
Mitch Goldstein	Managing Director in Private Debt Group	1	Mr. Goldstein joined Ares in May 2005 and serves as a Managing Director in the Private Debt Group of Ares Management LLC. Prior to joining Ares, Mr. Goldstein worked at Credit Suisse First Boston, where he was a Managing Director in the Financial Sponsors Group. Mr. Goldstein joined CSFB in 2000 at the completion of its merger with Donaldson Lufkin and Jenrette.

Edgar Filing: ARES CAPITAL CORP - Form 497

Michael L. Smith	Managing Director in Private Debt Group	2 Mr. Smith joined Ares in July 2004 and serves as a Managing Director in the Private Debt Group of Ares Management LLC. Before Ares, Mr. Smith was a Partner at RBC Capital Partners in the Principal Finance Group, the firm's middle market financing and principal investment business. Mr. Smith joined RBC in October 2001 from Indosuez Capital, where he was a Vice President in the merchant banking group. From 1998 to 2001, Mr. Smith was with Indosuez Capital, most recently as a Vice President.
------------------	---	---

None of the individuals listed above is primarily responsible for the day-to-day management of the portfolio of any other account.

Each of the individuals listed above is equally responsible for deal origination, execution and portfolio management. Mr. Arougheti, as our President, spends a greater amount of his time on corporate and administrative activities in his role as an officer.

As of March 31, 2006, each portfolio manager identified above is a full-time employee of Ares Capital Management LLC and receives a fixed salary for the services he provides to the Company. Each will also receive an annual amount that is equal to a fixed percentage of any incentive fee received by Ares Capital Management LLC from the Company for a fiscal year. None of the portfolio managers receives any direct compensation from the Company.

The following table sets forth the dollar range of common stock of the Company beneficially owned by each of the portfolio managers described above as of March 31, 2006.

Name	Aggregate Dollar Range of Common Stock Beneficially Owned by Manager(1)
Michael J. Arougheti	None
Eric Beckman	\$100,001 \$500,000
R. Kipp deVeer	None
Mitch Goldstein	None
Michael L. Smith	None

(1) Dollar ranges are as follows: none, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, \$100,001-\$500,000, \$500,001-\$1,000,000 or over \$1,000,000.

INVESTMENT ADVISORY AND MANAGEMENT AGREEMENT

Management services

Ares Capital Management serves as our investment adviser. Ares Capital Management is an investment adviser that is registered as an investment adviser under the Advisers Act. Subject to the overall supervision of our board of directors, the investment adviser manages the day-to-day operations of, and provides investment advisory and management services to, Ares Capital. Under the terms of an investment advisory and management agreement, Ares Capital Management:

determines the composition of our portfolio, the nature and timing of the changes to our portfolio and the manner of implementing such changes;

identifies, evaluates and negotiates the structure of the investments we make (including performing due diligence on our prospective portfolio companies);

closes and monitors the investments we make; and

determines the securities and other assets that we purchase, retain or sell.

Ares Capital Management's services under the investment advisory and management agreement are not exclusive, and it is free to furnish similar services to other entities.

Management fee

Pursuant to the investment advisory and management agreement, we pay Ares Capital Management a fee for investment advisory and management services consisting of two components a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 1.5% of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds). The base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter will be appropriately pro rated.

The incentive fee has the following two parts:

One part is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income. Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies) accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, expenses payable under the administration agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature (such as market discount, debt instruments with payment-in-kind interest, preferred stock with payment-in-kind dividends and zero coupon securities), accrued income that we have not yet received in cash. The investment adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued income that we never receive as a result of a default by an entity on the obligation that resulted in the accrual of such income.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Because of the structure of the incentive fee, it is possible that we may pay an incentive fee in a quarter where we incur a loss. For example, if we receive pre-incentive fee net investment income in excess of the hurdle rate for a quarter, we will pay the applicable incentive fee even if we have incurred a loss in that quarter due to realized and unrealized capital losses.

Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, will be compared to a fixed "hurdle rate" of 2.00% per quarter. If market interest rates rise, we may be able to invest our funds in debt instruments that provide for a higher return, which would increase our pre-incentive fee net investment income and make it easier for our investment adviser to surpass the fixed hurdle rate and receive an incentive fee based on such net investment income. Our pre-incentive fee net investment income used to calculate this part of the incentive fee is also included in the amount of our total assets (other than cash and cash equivalents but including assets purchased with borrowed funds) used to calculate the 1.5% base management fee.

We will pay Ares Capital Management an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

no incentive fee in any calendar quarter in which our pre-incentive fee net investment income does not exceed the hurdle rate;

100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.50% in any calendar quarter. We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 2.50%) as the "catch-up." The "catch-up" is meant to provide our investment adviser with 20% of our pre-incentive fee net investment income as if a hurdle rate did not apply if this net investment income exceeds 2.50% in any calendar quarter; and

20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.50% in any calendar quarter.

The following is a graphical representation of the calculation of the income-related portion of the incentive fee:

Quarterly Incentive Fee Based on Net Investment Income

**Pre-incentive fee net investment income
(expressed as a percentage of the value of net assets)**

**Percentage of pre-incentive fee net investment income
allocated to income-related portion of incentive fee**

These calculations will be appropriately pro rated for any period of less than three months and adjusted for any share issuances or repurchases during the current quarter.

The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the investment advisory and management agreement, as of the termination date) and will equal 20.0% of our realized capital gains for the calendar year, if any, computed net of all realized capital losses and unrealized capital depreciation for such year.

Examples of Quarterly Incentive Fee Calculation

Example 1: Income Related Portion of Incentive Fee(1):

Assumptions

Hurdle rate(2) = 2.00%
 Management fee(3) = 0.375%
 Other expenses (legal, accounting, custodian, transfer agent, etc.)(4) = 0.20%

Alternative 1

Additional Assumptions

Investment income (including interest, dividends, fees, etc.) = 1.25%
 Pre-incentive fee net investment income
 (investment income - (management fee + other expenses)) = 0.675%
 Pre-incentive fee net investment income does not exceed hurdle rate, therefore there is no incentive fee.

Alternative 2

Additional Assumptions

Investment income (including interest, dividends, fees, etc.) = 2.70%
 Pre-incentive fee net investment income
 (investment income - (management fee + other expenses)) = 2.125%

Pre-incentive fee net investment income exceeds hurdle rate, therefore there is an incentive fee.

$$\begin{aligned} \text{Incentive Fee} &= 100\% \times \text{"Catch-Up"} + \text{the greater of } 0\% \text{ AND } (20\% \times (\text{pre-incentive} \\ &\text{fee net investment income} - 2.50\%)) \\ &= (100\% \times (2.125\% - 2.00\%)) + 0\% \\ &= 100\% \times 0.125\% \\ &= 0.125\% \end{aligned}$$

Alternative 3

Additional Assumptions

Investment income (including interest, dividends, fees, etc.) = 3.50%
 Pre-incentive fee net investment income
 (investment income - (management fee + other expenses)) = 2.925%

Pre-incentive fee net investment income exceeds hurdle rate, therefore there is an incentive fee.

$$\begin{aligned} \text{Incentive Fee} &= 100\% \times \text{"Catch-Up"} + \text{the greater of } 0\% \text{ AND } (20\% \times (\text{pre-incentive} \\ &\text{fee net investment income} - 2.50\%)) \\ &= (100\% \times (2.50\% - 2.00\%)) + (20\% \times (2.925\% - 2.50\%)) \end{aligned}$$

$$= 0.50\% + (20\% \times 0.425\%)$$

$$= 0.50\% + 0.085\%$$

$$= 0.585\%$$

- (1) The hypothetical amount of pre-incentive fee net investment income shown is based on a percentage of total net assets. In addition, the example assumes that during the most recent four full calendar quarter period ending on or prior to the date the payment set forth in the example is to be made, the sum of (a) our aggregate distributions to our stockholders and (b) our change in net assets (defined as total assets less indebtedness) is at least 8.0% of our net assets at the beginning of such period (as adjusted for any share issuances or repurchases).
- (2) Represents 8.0% annualized hurdle rate.
- (3) Represents 1.5% annualized management fee.
- (4) Excludes offering expenses.

Example 2: Capital Gains Portion of Incentive Fee:

Alternative 1:

Assumptions

Year 1: \$20 million investment made in Company A ("Investment A"), and \$30 million investment made in Company B ("Investment B")

Year 2: Investment A is sold for \$50 million and fair market value ("FMV") of Investment B determined to be \$32 million

Year 3: FMV of Investment B determined to be \$25 million

Year 4: Investment B sold for \$31 million

The capital gains portion of the incentive fee, if any, would be:

Year 1: None

Year 2: \$6 million (20% multiplied by \$30 million realized capital gains on sale of Investment A)

Year 3: None; \$5 million (20% multiplied by (\$30 million realized cumulative capital gains less \$5 million cumulative capital depreciation)) less \$6 million (previous capital gains fee paid in Year 2)

Year 4: \$200,000; \$6.2 million (20% multiplied by \$31 million cumulative realized capital gains) less \$6 million (capital gains fee paid in Year 2)

Alternative 2

Assumptions

Year 1: \$20 million investment made in Company A ("Investment A"), \$30 million investment made in Company B ("Investment B") and \$25 million investment made in Company C ("Investment C")

Year 2: Investment A sold for \$50 million, FMV of Investment B determined to be \$25 million and FMV of Investment C determined to be \$25 million

Year 3: FMV of Investment B determined to be \$27 million and Investment C sold for \$30 million

Year 4: FMV of Investment B determined to be \$35 million

Year 5: Investment B sold for \$20 million

Edgar Filing: ARES CAPITAL CORP - Form 497

The capital gains portion of the incentive fee, if any, would be:

Year 1: None

Year 2: \$5 million (20% multiplied by \$25 million (\$30 million realized capital gains on Investment A less \$5 million unrealized capital depreciation on Investment B))

Year 3: \$1.4 million (\$6.4 million (20% multiplied by \$32 million (\$35 million cumulative realized capital gains less \$3 million unrealized capital depreciation)) less \$5 million (capital gains fee paid in Year 2))

Year 4: None

Year 5: None (\$5 million (20% multiplied by \$25 million (cumulative realized capital gains of \$35 million less realized capital losses of \$10 million)) less \$6.4 million (cumulative capital gains fee paid in Year 2 and Year 3))

Payment of our expenses

All investment professionals of the investment adviser and its staff when and to the extent engaged in providing investment advisory and management services, and the compensation and routine overhead expenses of such personnel allocable to such services, are provided and paid for by Ares Capital Management. We bear all other costs and expenses of our operations and transactions, including those relating to: organization; calculation of our net asset value (including the cost and expenses of any independent valuation firm); expenses incurred by Ares Capital Management payable to third parties, including agents, consultants or other advisers, in monitoring our financial and legal affairs and in monitoring our investments and performing due diligence on our prospective portfolio companies; interest payable on debt, if any, incurred to finance our investments; offerings of our

common stock and other securities; investment advisory and management fees; administration fees; fees payable to third parties, including agents, consultants or other advisers, relating to, or associated with, evaluating and making investments; transfer agent and custodial fees; registration fees; listing fees; taxes; independent directors' fees and expenses; costs of preparing and filing reports or other documents of the SEC; the costs of any reports, proxy statements or other notices to stockholders, including printing costs; to the extent we are covered by any joint insurance policies, our allocable portion of the insurance premiums for such policies; direct costs and expenses of administration, including auditor and legal costs; and all other expenses incurred by us or Ares Administration in connection with administering our business, such as our allocable portion of overhead under the administration agreement, including our allocable portion of the salary and cost of our officers (including our chief compliance officer, our chief financial officer and our vice president of investor relations and treasurer) and their respective staffs (including travel).

Duration and termination

The investment advisory and management agreement was approved by our stockholders on May 30, 2006 and entered into on June 1, 2006. Unless terminated earlier, it will continue in effect until June 1, 2007, and will automatically renew for successive annual periods thereafter if approved annually by our board of directors or by the affirmative vote of the holders of a majority of our outstanding voting securities, including, in either case, approval by a majority of our directors who are not interested persons. The investment advisory and management agreement will automatically terminate in the event of its assignment. The investment advisory and management agreement may be terminated by either party without penalty upon 60 days' written notice to the other. See "Risk Factors Risks Relating to our Business We are dependent upon Ares Capital Management's key personnel for our future success and upon their access to Ares investment professionals."

Indemnification

The investment advisory and management agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, Ares Capital Management, its members and their respective officers, managers, partners, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from Ares Capital for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of Ares Capital Management's services under the investment advisory and management agreement or otherwise as an investment adviser of Ares Capital.

Organization of the investment adviser

Ares Capital Management LLC is a Delaware limited liability company that is registered as an investment adviser under the Advisers Act. The principal executive offices of Ares Capital Management are located at 1999 Avenue of the Stars, Suite 1900, Los Angeles, California 90067.

Board Consideration of the Investment Advisory and Management Agreement

At a meeting of the board of directors of the Company held on February 24, 2006, the board of directors, including all of the directors who are not "interested persons" of the Company as defined in the Investment Company Act, unanimously voted to approve the investment advisory and management agreement. The independent directors had the opportunity to consult in executive session with counsel to the Company regarding the approval of such agreement. In reaching a decision to

approve the investment advisory and management agreement, the board of directors reviewed a significant amount of information and considered, among other things:

- (i) the nature, extent and quality of the advisory and other services to be provided to the Company by the investment adviser;
- (ii) the investment performance of the Company and the investment adviser;
- (iii) the costs of the services to be provided by the investment adviser (including management fees, advisory fees and expense ratios) and the profits realized by the investment adviser;
- (iv) the limited potential for economies of scale in investment management associated with a larger capital base for investments in first and second lien senior loans and mezzanine debt and whether such limited economies of scale would benefit our stockholders;
- (v) our investment adviser's estimated pro forma profitability with respect to managing us;
- (vi) the limited potential for additional benefits to be derived by our investment adviser and its affiliates as a result of our relationship with our investment adviser; and
- (vii) various other matters.

In approving the investment advisory and management agreement, the entire board of directors, including all of the directors who are not "interested persons" made the following conclusions:

Nature, Extent and Quality of Services. The board of directors considered the nature, extent and quality of the investment selection process employed by our investment adviser, including the flow of transaction opportunities resulting from Ares Capital Management's investment professionals' significant capital markets, trading and research expertise, the employment of Ares Capital Management's investment philosophy, diligence procedures, credit recommendation process, investment structuring, and ongoing relationships with and monitoring of portfolio companies, in light of the investment objectives of the Company. The board of directors also considered our investment adviser's personnel and their prior experience in connection with the types of investments made by us, including such personnel's network of relationships with intermediaries focused on middle market companies. In addition, the board of directors considered the other terms and conditions of the investment advisory and management agreement. The board of directors concluded that the substantive terms of the investment advisory management agreement, including the services to be provided, are generally the same as those of comparable business development companies described in the available market data and that it would be difficult to obtain similar services from other third party services providers or through an internally managed structure. In addition, the board of directors considered the fact that we have the ability to terminate the investment advisory and management agreement without penalty upon 60 days' written notice to the investment adviser. The board of directors further concluded that our investment adviser is served by a dedicated origination team of investment professionals, and that these investment professionals have historically focused on investments in middle market companies and have developed an investment process and an extensive network of relationships with intermediaries focused on middle market companies, which experience and relationships coincide with our investment objectives and generally equal or exceed those of the management teams of other comparable business development companies described in the available market data.

Investment Performance. The board of directors reviewed the long-term and short-term investment performance of the Company and the investment adviser, as well as comparative data with respect to the long-term and short-term investment performance of other business development companies and their externally managed investment advisers. The board of directors concluded that the investment adviser was delivering results consistent with the investment objectives of the Company and that the Company's investment performance was generally above average when compared to comparable business development companies.

Costs of the Services Provided to the Company and the Profits Realized by the Investment Adviser. The board of directors considered comparative data based on publicly available information with respect to services rendered and the advisory fees (including the management fees and incentive fees) of other business development companies with similar investment objectives, our projected operating expenses and expense ratio compared to other business development companies with similar investment objectives, as well as the administrative services that our administrator, Ares Technical Administration LLC, will provide to us at cost. Based upon its review, the board of directors concluded that the fees to be paid under the investment advisory and management agreement are generally less than those payable under agreements of comparable business development companies described in the available market data. In addition, the board of directors concluded that our expected expenses as a percentage of net assets attributable to common stock are generally equal to or less than those typically incurred by comparable business development companies described in the available market data.

Economies of Scale. The board of directors considered information about the potential of stockholders to experience economies of scale as the Company grows in size. The board of directors considered that because there are no break points in the investment adviser's fees, any benefits resulting from the growth in the Company's assets where the Company's fixed costs did not increase proportionately, would not inure to the benefit of the stockholders.

Profitability of Investment Adviser. The board of directors concluded that the investment adviser's pro forma profitability with respect to managing us was generally less than the profitability of investment advisers managing comparable business development companies described in the available market data.

Additional Benefits Derived by Investment Adviser. The board of directors concluded that there is limited potential for additional benefits, such as soft dollar arrangements with brokers, to be derived by our investment adviser and its affiliates as a result of our relationship with our investment adviser.

Other Matters Considered. In addition, our board of directors considered the interests of senior management described in "Certain Relationships and Related Transactions" and concluded that the judgment and performance of our senior management will not be impaired by those interests. Our investment adviser does not manage any other accounts.

Based on the information reviewed and the discussions, the board of directors (including a majority of the directors who are not "interested persons") concluded that the investment advisory and management fee rates are fair and reasonable in relation to the services to be provided and approved the investment advisory and management agreement with the investment adviser as being in the best interests of the Company and the Company's stockholders. The board of directors then directed that the investment advisory and management agreement be submitted to stockholders for approval with the board of director's recommendation that the stockholders of the Company vote to approve the investment advisory and management agreement.

In view of the wide variety of factors that our board of directors considered in connection with its evaluation of the investment advisory and management agreement, it is not practical to quantify, rank or otherwise assign relative weights to the specific factors it considered in reaching its decision. The board of directors did not undertake to make any specific determination as to whether any particular factor, or any aspect of any particular factor, was favorable or unfavorable to the ultimate determination of the board of directors. Rather, our board of directors based its approval on the totality of information presented to, and the investigation conducted by, it. In considering the factors discussed above, individual directors may have given different weights to different factors. Based on its review of the abovementioned factors and discussion of the investment advisory and management agreement, the board of directors approved the investment advisory and management agreement as being in the best interests of the Company and the Company's stockholders. The board of directors then directed that the investment advisory and management agreement be submitted to stockholders for approval with the board of directors' recommendation that stockholders of the Company vote to approve the investment advisory and management agreement.

Our stockholders approved the investment advisory and management agreement on May 30, 2006.

ADMINISTRATION AGREEMENT

Pursuant to a separate administration agreement, Ares Administration furnishes us with equipment and clerical, bookkeeping and record keeping services. Under the administration agreement, Ares Administration also performs, or oversees the performance of, our required administrative services, which include, among other things, being responsible for the financial records which we are required to maintain and preparing reports to our stockholders and reports filed with the SEC. In addition, Ares Administration assists us in determining and publishing our net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Payments under the administration agreement will be equal to an amount based upon our allocable portion of Ares Administration's overhead in performing its obligations under the administration agreement, including our allocable portion of the cost of our officers and their respective staffs. Under the administration agreement, Ares Administration also provides on our behalf managerial assistance to those portfolio companies to which we are required to provide such assistance. The administration agreement may be terminated by either party without penalty upon 60-days' written notice to the other party.

Indemnification

The administration agreement provides that, absent willful misfeasance, bad faith or negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, Ares Administration, its members and their respective officers, managers, partners, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from Ares Capital for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of Ares Administration's services under the administration agreement or otherwise as administrator for Ares Capital.

CERTAIN RELATIONSHIPS

We are party to an investment advisory and management agreement with Ares Capital Management, whose sole member is Ares Management LLC, an entity in which our senior management and our chairman of the board has ownership and financial interests. Our senior management also serve as principals of other investment managers affiliated with Ares Management LLC that may in the future manage investment funds with investment objectives similar to ours. In addition, certain of our executive officers and directors and the members of the investment committee of our investment adviser, Ares Capital Management, serve or may serve as officers, directors or principals of entities that operate in the same or related line of business as we do or of investment funds managed by our affiliates. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisers affiliated with Ares Management LLC. However, our investment adviser and other members of Ares intend to allocate investment opportunities in a fair and equitable manner that meet our investment objectives and strategies so that we are not disadvantaged in relation to any other client. See "Risk Factors Risks Relating to our Business There are significant potential conflicts of interest that could impact our investment returns."

Pursuant to the terms of the administration agreement, Ares Administration currently provides us with the administrative services necessary to conduct our day-to-day operations. Ares Management LLC is the sole member of and controls Ares Administration. We lease office space directly from a third party. We have entered into a sublease with Ares Management LLC whereby Ares Management LLC subleases approximately 25% of our office space for a fixed rent equal to 25% of the basic annual rent payable by us under our lease, plus certain additional costs and expenses.

We have also entered into a license agreement with Ares pursuant to which Ares has agreed to grant us a non-exclusive, royalty-free license to use the name "Ares." Under this agreement, we will have a right to use the Ares name, for so long as Ares Capital Management or one of its affiliates remains our investment adviser. Other than with respect to this limited license, we will have no legal right to the "Ares" name. This license agreement will remain in effect for so long as the investment advisory and management agreement with our investment adviser is in effect.

In connection with our initial public offering, our investment adviser paid to underwriters, on our behalf, an additional sales load of \$2,475,000. This amount accrued interest at a variable rate that adjusts quarterly equal to the three-month LIBOR plus 2.00% per annum. We repaid this amount, plus accrued and unpaid interest, in February 2006.

CONTROL PERSONS AND PRINCIPAL STOCKHOLDERS

As of June 15, 2006, there were no persons that owned 25% or more of our outstanding voting securities, and no person would be deemed to control us, as such term is defined in the 1940 Act.

The following table sets forth, as of June 15, 2006, the number of shares of the Company's common stock beneficially owned by each of its current directors and executive officers, all directors and executive officers as a group, and certain beneficial owners, according to information furnished to the Company by such persons.

Beneficial ownership is determined in accordance with the rules of the SEC and includes voting or investment power with respect to the securities. Ownership information for those persons who beneficially own 5% or more of our shares of common stock is based upon Schedule 13D, Schedule 13G or other filings by such persons with the SEC and other information obtained from such persons.

The address for each of the directors and executive officers is c/o Ares Capital Corporation, 1999 Avenue of the Stars, Suite 1900, Los Angeles, California 90067.

Name of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class(1)
Beneficial Owners of more than 5%:		
Non-Management Beneficial Owners		
Deutsche Bank AG	1,957,816	5.14%
Entities affiliated with John S. Osterweis(2)	2,865,170	7.51%
Directors and Executive Officers:		
Interested Directors

All Directors and Executive Officers as a Group (10 persons)	None(3)	

(1) Based on shares of common stock outstanding as of June 15, 2006.

(2) Osterweis Capital Management, Inc. holds 1,042,755 of these shares and Osterweis Capital Management, LLC holds 1,822,395 of these shares. John S. Osterweis is the President of both Osterweis Capital Management, Inc. and Osterweis Capital Management, LLC and as a result may be deemed to be the indirect beneficial owner of the shares beneficially owned by Osterweis Capital Management, Inc. and Osterweis Capital Management, LLC.

(3) Ares Partners Management Company LLC and its wholly owned subsidiary, Ares Management, Inc., the manager of Ares Management LLC, are the only members of Ares Management LLC. Bennett Rosenthal and Michael Arougheti are members of Ares Partners

Edgar Filing: ARES CAPITAL CORP - Form 497

Management Company LLC. Under applicable law, Messrs. Rosenthal and Arougheti and their respective spouses may be deemed to be beneficial owners of 666,667 shares of our common stock owned of record by Ares Capital Management LLC by virtue of such status. Each of such persons disclaims beneficial ownership of all shares of Ares Capital common stock owned by Ares Capital Management LLC, except to the extent of their indirect pecuniary interest therein.

The following table sets forth the dollar range of our equity securities beneficially owned by each of our directors as of June 15, 2006. We are not part of a "family of investment companies," as that term is defined in the 1940 Act.

Name of Director	Dollar Range of Equity Securities in Ares Capital(1)(2)
Independent Directors(3)	
Douglas E. Coltharp	none
Frank E. O'Bryan	none
Eric B. Siegel	none
Interested Directors	
Robert L. Rosen	none
Bennett Rosenthal	none

- (1) Dollar ranges are as follows: none, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, \$100,001-\$500,000, \$500,001-\$1,000,000 or over \$1,000,000.
- (2) Beneficial ownership determined in accordance with Rule 16a-1(a)(2) under the Exchange Act.
- (3) As of June 15, 2006, to the best of the Company's knowledge, none of the independent directors or nominees, nor any of their immediate family members, had any interest in the Company, the Company's investment adviser, or any person or entity directly or indirectly controlling, controlled by, or under common control with the Company.

DETERMINATION OF NET ASSET VALUE

The net asset value per share of our outstanding shares of common stock is determined quarterly by dividing the value of total assets minus liabilities by the total number of shares outstanding.

In calculating the value of our total assets, we value investments for which market quotations are readily available at such market quotations. Debt and equity securities that are not publicly traded or whose market price is not readily available are valued at fair value as determined in good faith by our board of directors. As a general rule, loans or debt in our portfolio generally correspond to cost but are subject to fair value write-downs when the asset is considered impaired. With respect to private equity securities, each investment is valued using comparisons of financial ratios of the portfolio companies that issued such private equity securities to peer companies that are public. The value is then discounted to reflect the illiquid nature of the investment, as well as our minority, non-control position. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our private equity valuation. Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments, and the differences could be material.

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment.

Preliminary valuation conclusions will then be documented and discussed with our senior management.

The audit committee of our board of directors will review these preliminary valuations. Where appropriate, the committee may utilize an independent valuation firm selected by the board of directors.

The board of directors discusses valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our investment adviser and audit committee and, where appropriate, an independent valuation firm.

The types of factors that we may take into account in fair value pricing our investments include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors.

Determination of fair values involves subjective judgments and estimates not susceptible to substantiation by auditing procedures. Accordingly, under current auditing standards, the notes to our financial statements will refer to the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on our financial statements.

DIVIDEND REINVESTMENT PLAN

We have adopted a dividend reinvestment plan that provides for reinvestment of our distributions on behalf of our stockholders, unless a stockholder elects to receive cash as provided below. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not "opted out" of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividends.

No action is required on the part of a registered stockholder to have their cash dividend reinvested in shares of our common stock. A registered stockholder may elect to receive an entire dividend in cash by notifying Computershare Trust Company, Inc., the plan administrator and an affiliate of our transfer agent and registrar, in writing so that such notice is received by the plan administrator no later than the record date for dividends to stockholders. The plan administrator will set up an account for shares acquired through the plan for each stockholder who has not elected to receive dividends in cash and hold such shares in non-certificated form. Upon request by a stockholder participating in the plan, received in writing no later than 10 days prior to the record date, the plan administrator will, instead of crediting shares to the participant's account, issue a certificate registered in the participant's name for the number of whole shares of our common stock and a check for any fractional share.

Those stockholders whose shares are held by a broker or other financial intermediary may receive dividends in cash by notifying their broker or other financial intermediary of their election.

We intend to use primarily newly issued shares to implement the plan, whether our shares are trading at a premium or at a discount to net asset value. However, we reserve the right to purchase shares in the open market in connection with our obligations under the plan. The number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the dividend payable to such stockholder by the market price per share of our common stock at the close of regular trading on The NASDAQ National Market on the valuation date for such dividend. Market price per share on that date will be the closing price for such shares on The NASDAQ National Market or, if no sale is reported for such day, at the average of their reported bid and asked prices. The number of shares of our common stock to be outstanding after giving effect to payment of the dividend cannot be established until the value per share at which additional shares will be issued has been determined and elections of our stockholders have been tabulated.

There are no brokerage charges or other charges to stockholders who participate in the plan. The plan administrator's fees under the plan are paid by us. If a participant elects by written notice to the plan administrator to have the plan administrator sell part or all of the shares held by the plan administrator in the participant's account and remit the proceeds to the participant, the plan administrator is authorized to deduct a \$15 transaction fee plus a \$0.12 per share brokerage commission from the proceeds.

Stockholders who receive dividends in the form of stock are subject to the same federal, state and local tax consequences as are stockholders who elect to receive their dividends in cash. A stockholder's basis for determining gain or loss upon the sale of stock received in a dividend from us will be equal to the total dollar amount of the dividend payable to the stockholder. Any stock received in a dividend will have a new holding period for tax purposes commencing on the day following the day on which the shares are credited to the U.S. stockholder's account.

Participants may terminate their accounts under the plan by notifying the plan administrator via its website at www.computershare.com, by filling out the transaction request form located at bottom of their statement and sending it to the plan administrator at 2 N. LaSalle Street, Chicago, IL 60602 or by calling the plan administrator's hotline at 1-877-292-9685.

The plan may be terminated by us upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any dividend by us. All correspondence concerning the plan should be directed to the plan administrator by mail at 2 N. LaSalle Street, Chicago, IL 60602 or by telephone at (312) 588-4993.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a general summary of the material U.S. federal income tax considerations applicable to us and to an investment in our shares. This summary does not purport to be a complete description of the income tax considerations applicable to such an investment. For example, we have not described tax consequences that we assume to be generally known by investors or certain considerations that may be relevant to certain types of holders subject to special treatment under U.S. federal income tax laws, including stockholders subject to the alternative minimum tax, tax-exempt organizations, insurance companies, dealers in securities, pension plans and trusts, and financial institutions. This summary assumes that investors hold our common stock as capital assets (within the meaning of the Code). The discussion is based upon the Code, Treasury regulations, and administrative and judicial interpretations, each as of the date of this prospectus and all of which are subject to change, possibly retroactively, which could affect the continuing validity of this discussion. We have not sought and will not seek any ruling from the Internal Revenue Service regarding the offerings pursuant to this prospectus and any accompanying prospectus supplement. This summary does not discuss any aspects of U.S. estate or gift tax or foreign, state or local tax. It does not discuss the special treatment under U.S. federal income tax laws that could result if we invested in tax-exempt securities or certain other investment assets.

A "U.S. stockholder" is a beneficial owner of shares of our common stock that is for U.S. federal income tax purposes:

a citizen or individual resident of the United States;

a corporation, or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state thereof or the District of Columbia; or

a trust or an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust with respect to which a court within the United States is able to exercise primary supervision over its administration and one or more U.S. stockholders have the authority to control all of its substantial decisions.

A "Non-U.S. stockholder" is a beneficial owner of shares of our common stock that is not a U.S. stockholder.

If a partnership (including an entity treated as a partnership for U.S. federal income tax purposes) holds shares of our common stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. A prospective stockholder that is a partnership holding shares of our common stock or a partner of such a partnership should consult his, her or its tax advisers with respect to the purchase, ownership and disposition of shares of our common stock.

Tax matters are very complicated and the tax consequences to an investor of an investment in our shares will depend on the facts of his, her or its particular situation. We encourage investors to consult their own tax advisers regarding the specific consequences of such an investment, including tax reporting requirements, the applicability of federal, state, local and foreign tax laws, eligibility for the benefits of any applicable tax treaty and the effect of any possible changes in the tax laws.

ELECTION TO BE TAXED AS A RIC

As a BDC, we have elected to be treated as a RIC under Subchapter M of the Code. As a RIC, we generally will not pay corporate-level federal income taxes on any ordinary income or capital gains that we distribute to our stockholders as dividends. To qualify as a RIC, we must, among other

Edgar Filing: ARES CAPITAL CORP - Form 497

things, meet certain source-of-income and asset diversification requirements (as described below). In addition, we must distribute to our stockholders, for each taxable year, an amount equal to at least 90% of our "investment company taxable income," which is generally our ordinary income plus the excess of realized net short-term capital gains over realized net long-term capital losses, reduced by deductible expenses (the "Annual Distribution Requirement"). See "Risk Factors We will be subject to corporate-level income tax if we are unable to qualify as a RIC."

TAXATION AS A RIC

If we:

qualify as a RIC; and

satisfy the Annual Distribution Requirement;

then we will not be subject to federal income tax on the portion of our investment company taxable income and net capital gain (*i.e.*, net long-term capital gains in excess of net short-term capital losses) we distribute to stockholders. We will be subject to U.S. federal income tax at the regular corporate rates on any income or capital gain not distributed (or deemed distributed) to our stockholders.

We will be subject to a 4% nondeductible federal excise tax on certain undistributed income of RICs unless we distribute in a timely manner an amount at least equal to the sum of (1) 98% of our ordinary income for each calendar year, (2) 98% of our capital gain net income for the one-year period ending October 31 in that calendar year and (3) any income realized, but not distributed, in preceding years (the "Excise Tax Avoidance Requirement").

To qualify as a RIC for federal income tax purposes, we must, among other things:

qualify to be treated as a BDC under the 1940 Act at all times during each taxable year;

derive in each taxable year at least 90% of our gross income from dividends, interest, payments with respect to certain securities loans, gains from the sale of stock or other securities, or other income derived with respect to our business of investing in such stock or securities (the "90% Income Test"); and

diversify our holdings so that at the end of each quarter of the taxable year:

at least 50% of the value of our assets consists of cash, cash equivalents, U.S. Government securities, securities of other RICs, and other securities if such other securities of any one issuer do not represent more than 5% of the value of our assets or more than 10% of the outstanding voting securities of the issuer; and

no more than 25% of the value of our assets is invested in the securities, other than U.S. Government securities or securities of other RICs, of one issuer or of two or more issuers that are controlled, as determined under applicable tax rules, by us and that are engaged in the same or similar or related trades or businesses (the "Diversification Tests").

We may be required to recognize taxable income in circumstances in which we do not receive cash. For example, if we hold debt obligations that are treated under applicable tax rules as having original issue discount (such as debt instruments with payment-in-kind interest or, in certain cases, increasing interest rates or issued with warrants), we must include in income each year a portion of the original issue discount that accrues over the life of the obligation, regardless of whether cash representing such income is received by us in the same taxable year. Because any original issue discount accrued will be included in our investment company taxable income for the year of accrual, we may be required to make a distribution to our stockholders in order to satisfy the Annual Distribution Requirement, even though we will not have received any corresponding cash amount.

In addition, certain of our investment practices may be subject to special and complex U.S. federal income tax provisions that may, among other things, (i) disallow, suspend or otherwise limit the allowance of certain losses or deductions, (ii) convert lower taxed long-term capital gain into higher taxed short-term capital gain or ordinary income, (iii) convert an ordinary loss or a deduction into a capital loss (the deductibility of which is more limited), (iv) adversely affect the time as to when a purchase or sale of stock or securities is deemed to occur and (v) adversely alter the characterization of certain complex financial transactions. We will monitor our transactions and may make certain tax elections in order to mitigate the effect of these provisions.

Gain or loss realized by us from warrants acquired by us as well as any loss attributable to the lapse of such warrants generally will be treated as capital gain or loss. Such gain or loss generally will be long-term or short-term, depending on how long we held a particular warrant.

Our investment in non-U.S. securities may be subject to non-U.S. withholding taxes. In that case, our yield on those securities would be decreased. Stockholders will generally not be entitled to claim a credit or deduction with respect to non-U.S. taxes paid by us.

If we purchase shares in a "passive foreign investment company" (a "PFIC"), we may be subject to U.S. federal income tax on a portion of any "excess distribution" or gain from the disposition of such shares even if such income is distributed as a taxable dividend by us to our stockholders. Additional charges in the nature of interest may be imposed on us in respect of deferred taxes arising from such distributions or gains. If we invest in a PFIC and elect to treat the PFIC as a "qualified electing fund" under the Code (a "QEF"), in lieu of the foregoing requirements, we will be required to include in income each year a portion of the ordinary earnings and net capital gain of the QEF, even if such income is not distributed to us. Alternatively, we can elect to mark-to-market at the end of each taxable year our shares in a PFIC; in this case, we will recognize as ordinary income any increase in the value of such shares, and as ordinary loss any decrease in such value to the extent it does not exceed prior increases included in income. Under either election, we may be required to recognize in a year income in excess of our distributions from PFICs and our proceeds from dispositions of PFIC stock during that year, and such income will nevertheless be subject to the Annual Distribution Requirement and will be taken into account for purposes of the 4% excise tax. See "Taxation as a RIC" above.

Under Section 988 of the Code, gains or losses attributable to fluctuations in exchange rates between the time we accrue income, expenses or other liabilities denominated in a foreign currency and the time we actually collect such income or pay such expenses or liabilities are generally treated as ordinary income or loss. Similarly, gains or losses on foreign currency forward contracts and the disposition of debt denominated in a foreign currency, to the extent attributable to fluctuations in exchange rates between the acquisition and disposition dates, are also treated as ordinary income or loss.

If we borrow money, we may be prevented by loan covenants from declaring and paying dividends in certain circumstances. Limits on our payment of dividends may prevent us from meeting the Annual Distribution Requirement, and may, therefore, jeopardize our qualification for taxation as a RIC, or subject us to the 4% excise tax.

We are authorized to borrow funds and to sell assets in order to satisfy distribution requirements. However, under the 1940 Act, we are not permitted to make distributions to our stockholders while our debt obligations and senior securities are outstanding unless certain "asset coverage" tests are met. See "Regulation Indebtedness and Senior Securities." Moreover, our ability to dispose of assets to meet our distribution requirements may be limited by (1) the illiquid nature of our portfolio and (2) other requirements relating to our status as a RIC, including the Diversification Tests. If we dispose of assets to meet the Annual Distribution Requirement, the Diversification Test, or the Excise Tax Avoidance Requirement, we may make such dispositions at times that, from an investment standpoint, are not advantageous.

If we fail to satisfy the Annual Distribution Requirement or otherwise fail to qualify as a RIC in any taxable year, we will be subject to tax in that year on all of our taxable income, regardless of whether we make any distributions to our stockholders. In that case, all of our income will be subject to corporate-level federal income tax, reducing the amount available to be distributed to our stockholders. In contrast, assuming we qualify as a RIC, our corporate-level federal income tax should be substantially reduced or eliminated. See "Election to be Taxed as a RIC" and "Risk Factors We will be subject to corporate-level income tax if we are unable to qualify as a RIC."

The remainder of this discussion assumes that we qualify as a RIC and have satisfied the Annual Distribution Requirement.

TAXATION OF U.S. STOCKHOLDERS

Distributions by us generally are taxable to U.S. stockholders as ordinary income or capital gains. Distributions of our "investment company taxable income" (which is, generally, our ordinary income plus realized net short-term capital gains in excess of realized net long-term capital losses, reduced by deductible expenses) will be taxable as ordinary income to U.S. stockholders to the extent of our current and accumulated earnings and profits, whether paid in cash or reinvested in additional common stock. To the extent such distributions paid by us to non-corporate stockholders (including individuals) are attributable to dividends from U.S. corporations and certain qualified foreign corporations, such distributions generally will be eligible for a maximum tax rate of 15%. In this regard, it is anticipated that distributions paid by us will generally not be attributable to dividends and, therefore, generally will not qualify for the 15% maximum rate. Distributions of our net capital gains (which is generally our realized net long-term capital gains in excess of realized net short-term capital losses) properly designated by us as "capital gain dividends" will be taxable to a U.S. stockholder as long-term capital gains, at a maximum rate of 15% in the case of non-corporate U.S. stockholders, regardless of the U.S. stockholder's holding period for his, her or its common stock and regardless of whether paid in cash or reinvested in additional common stock. Distributions in excess of our earnings and profits first will reduce a U.S. stockholder's adjusted tax basis in such stockholder's common stock and, after the adjusted basis is reduced to zero, will constitute capital gains to such U.S. stockholder.

Although we currently intend to distribute any long-term capital gains at least annually, we may in the future decide to retain some or all of our long-term capital gains, but designate the retained amount as a "deemed distribution." In that case, among other consequences, we will pay tax on the retained amount, each U.S. stockholder will be required to include his, her or its share of the deemed distribution in income as if it had been actually distributed to the U.S. stockholder, and the U.S. stockholder will be entitled to claim a credit equal to his, her or its allocable share of the tax paid thereon by us. The amount of the deemed distribution net of such tax will be added to the U.S. stockholder's tax basis for his, her or its common stock. Since we expect to pay tax on any retained capital gains at our regular corporate tax rate, and since that rate is in excess of the maximum rate currently payable by individuals on long-term capital gains, the amount of tax that individual stockholders will be treated as having paid and for which they will receive a credit will exceed the tax they owe on the retained net capital gain. Such excess generally may be claimed as a credit against the U.S. stockholder's other federal income tax obligations or may be refunded to the extent it exceeds a stockholder's liability for federal income tax. A stockholder that is not subject to federal income tax or otherwise required to file a federal income tax return would be required to file a federal income tax return on the appropriate form in order to claim a refund for the taxes we paid. In order to utilize the deemed distribution approach, we must provide written notice to our stockholders prior to the expiration of 60 days after the close of the relevant taxable year. We cannot treat any of our investment company taxable income as a "deemed distribution."

We will be subject to alternative minimum tax, also referred to as "AMT," but any items that are treated differently for AMT purposes must be apportioned between us and our stockholders and

this may affect the stockholders' AMT liabilities. Although regulations explaining the precise method of apportionment have not yet been issued, such items will generally be apportioned in the same proportion that dividends paid to each stockholder bear to our taxable income (determined without regard to the dividends paid deduction), unless a different method for particular item is warranted under the circumstances.

For purposes of determining (1) whether the Annual Distribution Requirement is satisfied for any year and (2) the amount of capital gain dividends paid for that year, we may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the taxable year in question. If we make such an election, the U.S. stockholder will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by us in October, November or December of any calendar year, payable to stockholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by our U.S. stockholders on December 31 of the year in which the dividend was declared.

If an investor purchases shares of our common stock shortly before the record date of a distribution, the price of the shares will include the value of the distribution and the investor will be subject to tax on the distribution even though it represents a return of his, her or its investment.

A stockholder generally will recognize taxable gain or loss if the stockholder sells or otherwise disposes of his, her or its shares of our common stock. Any gain arising from such sale or disposition generally will be treated as long-term capital gain or loss if the stockholder has held his, her or its shares for more than one year. Otherwise, it would be classified as short-term capital gain or loss. However, any capital loss arising from the sale or disposition of shares of our common stock held for six months or less will be treated as long-term capital loss to the extent of the amount of capital gain dividends received, or undistributed capital gain deemed received, with respect to such shares. In addition, all or a portion of any loss recognized upon a disposition of shares of our common stock may be disallowed if other shares of our common stock are purchased (whether through reinvestment of distributions or otherwise) within 30 days before or after the disposition.

In general, non-corporate U.S. stockholders currently are subject to a maximum federal income tax rate of 15% on their net capital gain (i.e., the excess of realized net long-term capital gain over realized net short-term capital loss for a taxable year, including a long-term capital gain derived from an investment in our shares). Such rate is lower than the maximum rate on ordinary income currently payable by individuals. Corporate U.S. stockholders currently are subject to federal income tax on net capital gain at the maximum 35% rate that also applies to ordinary income. Non-corporate stockholders with net capital losses for a year (i.e., capital losses in excess of capital gains) generally may deduct up to \$3,000 of such losses against their ordinary income each year; any net capital losses of a non-corporate stockholder in excess of \$3,000 generally may be carried forward and used in subsequent years as provided in the Code. Corporate stockholders generally may not deduct any net capital losses for a year, but may carry back such losses for three years or carry forward such losses for five years.

We will send to each of our U.S. stockholders, as promptly as possible after the end of each calendar year, a notice detailing, on a per share and per distribution basis, the amounts includible in such U.S. stockholder's taxable income for such year as ordinary income and as long-term capital gain. In addition, the federal tax status of each year's distributions generally will be reported to the Internal Revenue Service (including the amount of dividends, if any, eligible for the 15% maximum rate). Distributions may also be subject to additional state, local and foreign taxes depending on a U.S. stockholder's particular situation. The Company's ordinary income dividends, but not capital gains dividends, to corporate stockholders, may, if certain conditions are met, qualify for the 70% dividends received deduction to the extent that the Company has received qualifying dividend income during the

taxable year. Dividends distributed by us generally will not be eligible for the dividends-received deduction or the preferential rate applicable to qualifying dividends.

We may be required to withhold U.S. federal income tax ("backup withholding"), currently at a rate of 28%, from all taxable distributions to any non-corporate U.S. stockholder (1) who fails to furnish us with a correct taxpayer identification number or a certificate that such stockholder is exempt from backup withholding, or (2) with respect to whom the IRS notifies us that such stockholder has failed to properly report certain interest and dividend income to the IRS and to respond to notices to that effect. An individual's taxpayer identification number is his or her social security number. Any amount withheld under backup withholding is allowed as a credit against the U.S. stockholder's federal income tax liability and may entitle such stockholder to a refund, provided that proper information is timely provided to the IRS.

Under Treasury regulations, if a stockholder recognizes a loss with respect to shares of \$2 million or more for a non-corporate stockholder or \$10 million or more for a corporate stockholder in any single taxable year (or a greater loss over a combination of years), the stockholder must file with the IRS a disclosure statement on Form 8886. Direct stockholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, stockholders of a RIC are not excepted. Future guidance may extend the current exception from this reporting requirement to stockholders of most or all RICs. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Significant monetary penalties apply to a failure to comply with this reporting requirement. States may also have a similar reporting requirement. Stockholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

TAXATION OF NON-U.S. STOCKHOLDERS

Whether an investment in the shares is appropriate for a Non-U.S. stockholder will depend upon that person's particular circumstances. An investment in the shares by a Non-U.S. stockholder may have adverse tax consequences. Non-U.S. stockholders should consult their tax advisers before investing in our common stock.

Distributions of our "investment company taxable income" to Non-U.S. stockholders will be subject to withholding of U.S. federal income tax at a 30% rate (or lower rate provided by an applicable income tax treaty) to the extent of our current and accumulated earnings and profits unless the distributions are effectively connected with a U.S. trade or business of the Non-U.S. stockholder, and, if an income tax treaty applies, are attributable to a permanent establishment in the United States of the Non-U.S. stockholder, in which case the distributions will be subject to federal income tax at the rates applicable to U.S. persons. In that case, we will not be required to withhold federal tax if the Non-U.S. stockholder complies with applicable certification and disclosure requirements. Special certification requirements apply to a Non-U.S. stockholder that is a foreign partnership or a foreign trust, and such entities are urged to consult their own tax advisers.

However, "interest-related dividends" and "short-term capital gain dividends" paid to our Non-U.S. stockholders will not be subject to withholding of U.S. federal income tax if the requirements below are satisfied. The amount of "interest-related dividends" that we may pay each year is limited to the amount of "qualified interest income" that we receive during that year, less the amount of our expenses properly allocable to such interest income. "Qualified interest income" includes, among other items, interest paid on debt obligations of a U.S. issuer, interest paid on deposits with U.S. banks and any "interest-related dividends" from another RIC. The exemption from withholding tax on "interest-related dividends", however, does not apply to distributions to a Non-U.S. stockholder (i) that has not complied with applicable certification requirements, (ii) of interest on an obligation issued by the Non-U.S. stockholder or by an issuer of which the Non-U.S. stockholder is a 10% shareholder, (iii) that is

within certain foreign countries that have inadequate information exchange with the United States, or (iv) of interest paid by a person that is a related person of the Non-U.S. stockholder and the Non-U.S. stockholder is a controlled foreign corporation. The amount of "short-term capital gain dividends" that we may pay each year generally is limited to the excess of our net short-term capital gains over our net long-term capital losses, without any reduction for our expenses allocable to such gains. The exemption from U.S. tax on "short-term capital gain dividends", however, does not apply with respect to an individual Non-U.S. stockholder who is present in the United States for 183 days or more during the taxable year of the distribution. If our income for a taxable year includes "qualified interest income" or net short-term capital gains, we may designate dividends as "interest-related dividends" or "short-term capital gain dividends" by written notice mailed to Non-U.S. stockholders not later than 60 days after the close of our taxable year. These provisions apply to dividends paid with respect to taxable years beginning on or after January 1, 2005 and will cease to apply to dividends paid with respect to taxable years beginning after December 31, 2007. No assurance can be given that Congress will not repeal these provisions prior to their scheduled expiration.

Actual or deemed distributions of our net capital gains to a Non-U.S. stockholder, and gains realized by a Non-U.S. stockholder upon the sale of our common stock, will not be subject to withholding of U.S. federal income tax and generally will not be subject to U.S. federal income tax (a) unless the distributions or gains, as the case may be, are effectively connected with a U.S. trade or business of the Non-U.S. stockholder and, if an income tax treaty applies, are attributable to a permanent establishment maintained by the Non-U.S. stockholder in the United States or (b) the Non-U.S. stockholder is an individual, has been present in the United States for 183 days or more during the taxable year, and certain other conditions are satisfied.

If we distribute our net capital gains in the form of deemed rather than actual distributions (which we may do in the future), a Non-U.S. stockholder will be entitled to a federal income tax credit or tax refund equal to the stockholder's allocable share of the tax we pay on the capital gains deemed to have been distributed. In order to obtain the refund, the Non-U.S. stockholder must obtain a U.S. taxpayer identification number and file a federal income tax return even if the Non-U.S. stockholder would not otherwise be required to obtain a U.S. taxpayer identification number or file a federal income tax return. For a corporate Non-U.S. stockholder, distributions (both actual and deemed), and gains realized upon the sale of our common stock that are effectively connected with a U.S. trade or business may, under certain circumstances, be subject to an additional "branch profits tax" at a 30% rate (or at a lower rate if provided for by an applicable income tax treaty).

Accordingly, investment in our shares may not be appropriate for a Non-U.S. stockholder.

A Non-U.S. stockholder who is a non-resident alien individual, and who is otherwise subject to withholding of federal income tax, may be subject to information reporting and backup withholding of federal income tax on dividends unless the Non-U.S. stockholder provides us or the dividend paying agent with an IRS Form W-8BEN (or an acceptable substitute form) or otherwise meets documentary evidence requirements for establishing that it is a Non-U.S. stockholder or otherwise establishes an exemption from backup withholding.

Non-U.S. persons should consult their own tax advisers with respect to the U.S. federal income tax and withholding tax, and state, local and foreign tax consequences of an investment in the shares.

FAILURE TO QUALIFY AS A RIC

If we were unable to qualify for treatment as a RIC, we would be subject to tax on all of our taxable income at regular corporate rates. We would not be able to deduct distributions to stockholders, nor would they be required to be made. Distributions would generally be taxable to our stockholders as ordinary dividend income eligible for the 15% maximum rate to the extent of our current and accumulated earnings and profits. Subject to certain limitations under the Code, corporate

Edgar Filing: ARES CAPITAL CORP - Form 497

distributees would be eligible for the dividends received deduction. Distributions in excess of our current and accumulated earnings and profits would be treated first as a return of capital to the extent of the stockholder's tax basis, and any remaining distributions would be treated as a capital gain. If we were to fail to meet the RIC requirements for more than two consecutive years and then to seek to requalify as a RIC, we would be required to recognize gain to the extent of any unrealized appreciation in our assets unless we made a special election to pay corporate-level tax on any such unrealized appreciation recognized during the succeeding 10-year period.

DESCRIPTION OF OUR STOCK

The following description is based on relevant portions of the Maryland General Corporation Law and on our charter and bylaws. This summary is not necessarily complete, and we refer you to the Maryland General Corporation Law and our charter and bylaws for a more detailed description of the provisions summarized below.

STOCK

Our authorized stock consists of 100,000,000 shares of stock, par value \$0.001 per share, all of which are currently designated as common stock. Our common stock is quoted on The NASDAQ National Market under the symbol "ARCC." On June 15, 2006, the last reported sales price of our common stock on The NASDAQ National Market was \$16.77 per share. There are no outstanding options or warrants to purchase our stock. No stock has been authorized for issuance under any equity compensation plans. Under Maryland law, our stockholders generally are not personally liable for our debts or obligations.

Under our charter, our board of directors is authorized to classify and reclassify any unissued shares of stock into other classes or series of stock and authorize the issuance of shares of stock without obtaining stockholder approval. As permitted by the Maryland General Corporation Law, our charter provides that the board of directors, without any action by our stockholders, may amend the charter from time to time to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that we have authority to issue.

Common Stock

All shares of our common stock have equal rights as to earnings, assets, dividends and voting and, when they are issued, will be duly authorized, validly issued, fully paid and nonassessable. Distributions may be paid to the holders of our common stock if, as and when authorized by our board of directors and declared by us out of funds legally available therefor. Shares of our common stock have no preemptive, exchange, conversion or redemption rights and are freely transferable, except where their transfer is restricted by federal and state securities laws or by contract. In the event of a liquidation, dissolution or winding up of Ares Capital, each share of our common stock would be entitled to share ratably in all of our assets that are legally available for distribution after we pay all debts and other liabilities and subject to any preferential rights of holders of our preferred stock, if any preferred stock is outstanding at such time. Each share of our common stock is entitled to one vote on all matters submitted to a vote of stockholders, including the election of directors. Except as provided with respect to any other class or series of stock, the holders of our common stock will possess exclusive voting power. There is no cumulative voting in the election of directors, which means that holders of a majority of the outstanding shares of common stock can elect all of our directors, and holders of less than a majority of such shares will be unable to elect any director.

The following are our outstanding classes of capital stock as of June 15, 2006:

(1) Title of Class	(2) Amount Authorized	(3) Amount Held by Registrant or for its Account	(4) Amount Outstanding Exclusive of Amount Shown Under(3)
Common Stock	100,000,000		38,108,897

Preferred Stock

Our charter authorizes our board of directors to classify and reclassify any unissued shares of stock into other classes or series of stock, including preferred stock. Prior to issuance of shares of each

class or series, the board of directors is required by Maryland law and by our charter to set the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Thus, the board of directors could authorize the issuance of shares of preferred stock with terms and conditions that could have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for holders of our common stock or otherwise be in their best interest. You should note, however, that any issuance of preferred stock must comply with the requirements of the 1940 Act. The 1940 Act requires, among other things, that (1) immediately after issuance and before any dividend or other distribution is made with respect to our common stock and before any purchase of common stock is made, such preferred stock together with all other indebtedness and senior securities must not exceed an amount equal to 50% of our total assets after deducting the amount of such dividend, distribution or purchase price, as the case may be, and (2) the holders of shares of preferred stock, if any are issued, must be entitled as a class to elect two directors at all times and to elect a majority of the directors if dividends on such preferred stock are in arrears by two years or more. Certain matters under the 1940 Act require the separate vote of the holders of any issued and outstanding preferred stock. For example, holders of preferred stock would vote separately from the holders of common stock on a proposal to cease operations as a BDC. We believe that the availability for issuance of preferred stock will provide us with increased flexibility in structuring future financings and acquisitions.

LIMITATION ON LIABILITY OF DIRECTORS AND OFFICERS; INDEMNIFICATION AND ADVANCE OF EXPENSES

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from (a) actual receipt of an improper benefit or profit in money, property or services or (b) active and deliberate dishonesty established by a final judgment as being material to the cause of action. Our charter contains such a provision which eliminates directors' and officers' liability to the maximum extent permitted by Maryland law, subject to the requirements of the 1940 Act.

Our charter authorizes us and our bylaws obligate us, to the maximum extent permitted by Maryland law and subject to the requirements of the 1940 Act, to indemnify any present or former director or officer or any individual who, while a director or officer and at our request, serves or has served another corporation, real estate investment trust, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner or trustee, from and against any claim or liability to which that person may become subject or which that person may incur by reason of his or her status as a present or former director or officer and to pay or reimburse their reasonable expenses in advance of final disposition of a proceeding. The charter and bylaws also permit us to indemnify and advance expenses to any person who served a predecessor of us in any of the capacities described above and any of our employees or agents or any employees or agents of our predecessor. In accordance with the 1940 Act, we will not indemnify any person for any liability to which such person would be subject by reason of such person's willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her office. In addition to the indemnification provided for in our bylaws, we have entered into indemnification agreements with each of our current directors and officers and with members of our investment adviser's investment committee and we intend to enter into indemnification agreements with each of our future directors and officers. The indemnification agreements attempt to provide these directors and senior officers the maximum indemnification permitted under Maryland law and the 1940 Act. The agreements provide, among other things, for the advancement of expenses and indemnification for liabilities incurred which such person may incur by reason of his status as a present or former director or officer or member of our investment adviser's investment committee in any action or proceeding arising out of the performance

of such person's services as a present or former director or officer or member of our investment adviser's investment committee.

Maryland law requires a corporation (unless its charter provides otherwise, which our charter does not) to indemnify a director or officer who has been successful, on the merits or otherwise, in the defense of any proceeding to which he or she is made or threatened to be made a party by reason of his or her service in that capacity. Maryland law permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made or are threatened to be made a party by reason of their service in those or other capacities unless it is established that (a) the act or omission of the director or officer was material to the matter giving rise to the proceeding and (1) was committed in bad faith or (2) was the result of active and deliberate dishonesty, (b) the director or officer actually received an improper personal benefit in money, property or services or (c) in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful. However, under Maryland law, a Maryland corporation may not indemnify for an adverse judgment in a suit by or in the right of the corporation or for a judgment of liability on the basis that a personal benefit was improperly received, unless in either case a court orders indemnification, and then only for expenses. In addition, Maryland law permits a corporation to advance reasonable expenses to a director or officer upon the corporation's receipt of (a) a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation and (b) a written undertaking by him or her or on his or her behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the standard of conduct was not met.

PROVISIONS OF THE MARYLAND GENERAL CORPORATION LAW AND OUR CHARTER AND BYLAWS

The Maryland General Corporation Law and our charter and bylaws contain provisions that could make it more difficult for a potential acquiror to acquire us by means of a tender offer, proxy contest or otherwise. These provisions are expected to discourage certain coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us to negotiate first with our board of directors. We believe that the benefits of these provisions outweigh the potential disadvantages of discouraging any such acquisition proposals because, among other things, the negotiation of such proposals may improve their terms.

Classified board of directors

Our board of directors is divided into three classes of directors serving staggered three-year terms. The initial terms of the first, second and third classes will expire in 2005, 2006 and 2007, respectively. Beginning in 2005, upon expiration of their current terms, directors of each class are elected to serve for three-year terms and until their successors are duly elected and qualify and each year one class of directors will be elected by the stockholders. A classified board may render a change in control of us or removal of our incumbent management more difficult. We believe, however, that the longer time required to elect a majority of a classified board of directors will help to ensure the continuity and stability of our management and policies.

Election of directors

Our charter and bylaws provide that the affirmative vote of the holders of a majority of the outstanding shares of stock entitled to vote in the election of directors will be required to elect a director. Pursuant to the charter, our board of directors may amend the bylaws to alter the vote required to elect directors.
