LONE PINE HOLDINGS, INC.  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2010  
(UNAUDITED)

NOTE 1 - BASIS OF PRESENTATION AND NATURE OF BUSINESS

The accompanying condensed unaudited interim financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). The condensed financial statements and notes are presented as permitted on Form 10-Q and do not contain information included in the Company's annual statements and notes. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed financial statements be read in conjunction with the December 31, 2009 audited financial statements and the accompanying notes thereto. While management believes the procedures followed in preparing these condensed financial statements are reasonable, the accuracy of the amounts are in some respects dependent upon the facts that will exist, and procedures that will be accomplished by the Company later in the year. These results are not necessarily indicative of the results to be expected for the full year.

These condensed unaudited financial statements reflect all adjustments, including normal recurring adjustments, which, in the opinion of management, are necessary to present fairly the operations and cash flows for the periods presented.

Nature of Business

On October 15, 2008, the board of Directors of the Company approved the transfer of all the outstanding shares of Australian Forest Industries, LTD., its operating subsidiary that had been placed in receivership, to the principal shareholders and Directors, personally. Subsequent to the spin out, the Company became a non-operating shell company. As the Company does not currently engage in any business activities, it is looking for a suitable candidate for acquisition or merger that does not need substantial additional capital, but which desires to establish a public trading market for its shares, while avoiding, among other things, the time delays, significant expense, and loss of voting control which may occur in a public offering. Although the Company may consider a business which has recently commenced operations, is a developing company in need of additional funds for expansion into new products or markets, is seeking to develop a new product or service, or is an established business which may be experiencing financial or operating difficulties and is in need of additional capital, it does not have any agreements or arrangements for such an acquisition or merger.

Going Concern

As shown in the accompanying financial statements, the Company incurred a loss from continuing operations of \$23,000 at June 30, 2010 and had an accumulated deficit of \$4,978,326 at June 30, 2010. Management in October 2008 dissolved the saw mill operations in Australia which was in receivership, spun out the bankrupt subsidiary and is currently looking for a merger candidate for the public shell. Our short term liquidity needs are principally related to our operating expenses. It is expected that this will get funded by our principal stockholder. The accompanying financial statements have been prepared assuming that the Company will continue as a going concern and do not include any adjustments as a result of this uncertainty.

LONE PINE HOLDINGS, INC.  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2010  
(UNAUDITED)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Loss Per Common Share

Basic earnings per share is computed using the weighted average number of common shares outstanding during the period. It also assumes that outstanding common shares were increased by shares issuable upon exercise of those stock options and warrants for which the market price exceeds exercise price, less shares which we could have purchased with related proceeds. There are no diluting financial instruments as of June 30, 2010 and 2009.

Fair Values of Financial Instruments

The Company uses financial instruments in the normal course of business. The carrying values of accrued expenses approximate their fair value due to the short-term maturities of these liabilities.

Income Taxes

The Company has adopted the provisions of Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 740, Accounting for Income Taxes. The Company accounts for income taxes pursuant to the provisions of the ASC 740, Accounting for Income Taxes, which requires an asset and liability approach to calculating deferred income taxes. The asset and liability approach requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of temporary differences between the carrying amounts and the tax basis of assets and liabilities.

NOTE 3 – RELATED PARTY TRANSACTIONS

During the six months ended June 30, 2010 the Company received advances from the principal stockholder in the amount of \$3,000 to pay professional fees. The legal fees for the three and six months ended June 30, 2010 were \$3,000 and \$6,000; they were incurred by Sanders Ortoli Vaughn-Flam Rosenstadt LLP of whom William Rosenstadt, President and CEO of the Company, is a partner. The amounts due to the related party are unsecured and non-interest bearing with no set terms of repayment.

LONE PINE HOLDINGS, INC.  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2010  
(UNAUDITED)

NOTE 4- INCOME TAXES

Due to the uncertainty of utilizing the approximate \$527,000 and \$497,000 in net operating losses, for the periods ended June 30, 2010 and 2009 respectively, and recognizing the deferred tax assets, an offsetting valuation allowance has been established.

Federal, state and local income tax returns for years prior to 2006 are no longer subject to examination by tax authorities.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

It should be noted that this Management's Discussion and Analysis of Financial Condition and Results of Operations may contain "forward-looking statements". The terms "believe", "anticipate", "intend", "goal", "expect" and similar expressions may identify forward-looking statements. These forward-looking statements represent our current expectations or beliefs concerning future events. The matters covered by these statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those set forth in the forward-looking statements. The foregoing list should not be construed as exhaustive, and we disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements, or to reflect the occurrence of anticipated or unanticipated events. In light of the significant uncertainties inherent in the forward-looking information included herein, the inclusion of such information should not be regarded as a representation that the strategy, objectives or other of our plans will be achieved. We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made.

Background

On October 15, 2008, the board of Directors of the Company approved the transfer of all the outstanding shares of Australian Forest Industries, LTD., its operating subsidiary that had been placed in receivership, to the principal shareholders and Directors, personally. Subsequent to the spin out, the Company became a non-operating shell company. As the Company does not currently engage in any business activities, it is looking for a suitable candidate for acquisition or merger that does not need substantial additional capital, but which desires to establish a public trading market for its shares, while avoiding, among other things, the time delays, significant expense, and loss of voting control which may occur in a public offering. Although the Company may consider a business which has recently commenced operations, is a developing company in need of additional funds for expansion into new products or markets, is seeking to develop a new product or service, or is an established business which may be experiencing financial or operating difficulties and is in need of additional capital, it does not have any agreements or arrangements for such an acquisition or merger.

Current Operations

As shown in the accompanying financial statements, the Company incurred a loss from continuing operations of \$23,000 at June 30, 2010 and had an accumulated deficit of \$4,978,326 at June 30, 2010. Management in October 2008 dissolved the saw mill operations in Australia which was in receivership, spun out the bankrupt subsidiary and is currently looking for a merger candidate for the public shell. Our short term liquidity needs are principally related to our operating expenses. It is expected that this will get funded by our principal stockholder. The accompanying financial statements have been prepared assuming that the Company will continue as a going concern and do not include any adjustments as a result of this uncertainty.

We do not currently engage in any business activities that provide us with positive cash flows. As such, the costs of investigating and analyzing business combinations for the next approximately 12 months and beyond will be paid through funds from financing to be obtained.

During the next 12 months, we anticipate incurring costs related to filing of Exchange Act reports and costs relating to consummating an acquisition.

We believe we will be able to meet these costs with amounts to be loaned to or invested in us by our stockholders or other investors.

We may consider a business which has recently commenced operations, is a developing company in need of additional funds for expansion into new products or markets, is seeking to develop a new product or service, or is an established business which may be experiencing financial or operating difficulties and is in need of additional capital. In the alternative, a business combination may involve the acquisition of, or merger with, a company which does not need substantial additional capital, but which desires to establish a public trading market for its shares, while avoiding, among other things, the time delays, significant expense, and loss of voting control which may occur in a public offering.

Any target business that is selected may be a financially unstable company or an entity in its early stages of development or growth, including entities without established records of sales or earnings. In that event, we will be subject to numerous risks inherent in the business and operations of financially unstable and early stage or potential emerging growth companies. In addition, we may effect a business combination with an entity in an industry characterized by a high level of risk, and, although our management will endeavor to evaluate the risks inherent in a particular target business, there can be no assurance that we will properly ascertain or assess all significant risks.

## RESULTS OF OPERATIONS

Our net loss for the six months ended June 30, 2010 was \$23,000 as compared to a net loss of \$29,725 the six months ended June 30, 2009. All of the losses in the 2010 and 2009 periods were from continuing operations and related almost exclusively to accounting, legal and transfer agent fees. Apart from looking for a merger candidate, we have no current operations, and we have no employees.

## LIQUIDITY AND CAPITAL RESOURCES

Net cash used by operations was \$3,000 for the six months ended June 30, 2010 as compared to net cash used by operations of \$7,475 for the six months ended June 30, 2009. We realized no net cash provided by our continuing operations for the six month period ended June 30, 2010, and we realized net cash provided by financing activities and investing activities of \$3,000 and \$7,475 for the six month period ended June 30, 2009.

## CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's discussion and analysis of its financial condition and results of operations are based upon its financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to bad debts, income taxes and contingencies and litigation. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

### Item 3. Quantitative and Qualitative Disclosure About Market Risk.

Not applicable

### Item 4/4T. Controls and Procedures

#### (a) Disclosure Controls and Procedures.

As of the end of the period covering this Form 10-Q, we evaluated the effectiveness of the design and operation of our "disclosure controls and procedures". We conducted this evaluation under the supervision and with the participation of management, including our Chief Executive Officer and Acting Principal Accounting Officer.

#### (i) Definition of Disclosure Controls and Procedures.

Disclosure controls and procedures are controls and other procedures that are designed with the objective of ensuring that information required to be disclosed in our periodic reports filed under the Exchange Act, such as this report, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. As

defined by the SEC, such disclosure controls and procedures are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the Chief Executive Officer and Acting Principal Accounting Officer, in such a manner as to allow timely disclosure decisions.

(ii) Conclusions with Respect to Our Evaluation of Disclosure Controls and Procedures.

Our Chief Executive Officer and Acting Principal Accounting Officer determined that, as of the end of the period covered by this report, these controls and procedures are adequate and effective in alerting them in a timely manner to material information relating to us required to be included in our periodic SEC filings.

(b) Changes in Internal Controls.

There have been no changes in our internal controls over financial reporting that could significantly affect these controls subsequent to the date of their evaluation.

PART II

Item 1. Legal Proceedings

No material changes.

Item 1A Risk Factors
